

Pampa Daily News

VOL. 1. NO. 101.

PAMPA, GRAY COUNTY, TEXAS, WEDNESDAY EVENING, JULY 6, 1927.

PRICE FIVE CENTS.

LEVINE WILL FLY BACK TO U. S.

Ten Wells Should Strike Pay Within Next Three Weeks

HEAVY FLOWS ARE EXPECTED AT SAUNDERS

Four Offsets Nearing Production East Of Pampa

ATLANTIC AHEAD IN DRILLING RACE

Big Gas Line To Be Operating By January 1

Production in Gray county is due for a boost of big proportions in the next three weeks as wells in the vicinity of the Gulf Production company's No. 1 J. M. Saunders on section 40 hit the pay.

In one of the most rapid drilling campaigns or recent months, the Atlantic's No. 1 Coombs-Worley in section 39, a diagonal offset to the Saunders well, is nearing the pay and should get production in less than 100 more feet. It was drilling last night at 2,975 feet and gassing lightly.

The Empire No. 1 J. M. Saunders, another offset, in section 40, is only a little way behind Atlantic drillers and is below gas at 2,840 feet. Other offsets are Roxana's No. 1 and No. 2 wells.

Other wells in the vicinity, with the producer making a total of eleven, are below 1,000 feet and should come in within the next three weeks. These are the Gulf, section 57; Roxana's No. 3 and No. 4 on section 58; Texas company's No. 1, on section 58 Prairie's No. 1 on section 58; and the Wilcox No. 1 on section 58. The Wilcox test has passed the gas.

A 200-barrel well has been brought in by the Pure Oil company in its No. 6 Davis on section 6, block 3. The oil is from 3,070 feet.

An interesting test is the Sinclair No. 1 Crews, section 9, block 25, where some oil is being bailed at 2,710 feet.

The Empire No. 1 Cubine, one of the important tests in block 25, had a showing of oil at 2,715 feet. It is near the Travis well but above that horizon.

PIPELINE IS RUSHED

The big pipeline from its gathering plant near here to Kansas is being rapidly laid by Empire contractors, and the booster plant will be started soon. The big line will be run now to the Mid-Continent lines near Wichita, where it will tie into the system already established.

Construction work is under way also at Woodward, Okla., and at Wichita. The first 250 miles will be completed and in operation by January 1, 1928, according to Empire engineers. The line will carry 97,000,000 cubic feet of gas daily, and will raise the Empire companies supply to 150,000,000 feet a day. A peak load, already established, will require the full capacity of the line.

Pipeline Employees Swamp Weatherford With Big Checks

(By The Associated Press.)

WEATHERFORD — Banks and business houses here were confronted with an unusual situation when 125 Gulf pipe line employees presented pay checks representing \$10,000 to be cashed.

Unaware that it was Gulf Pipe Line pay day, the town was caught with insufficient cash to take care of the checks, and many men were unable to get any money. Others gave their checks as security for such advances as the town's cash permitted.

Mrs. Margaret Rainouard is back from a visit with Mr. Rainouard at Lubbock.

To Leave Pampa

REV. RUSSELL P. ROTHGEB

His farewell message as pastor of the church will be given by the Rev. Russell P. Rothgeb Sunday evening at the Full Gospel Temple.

For several months he has been in charge of the local work of the Assembly of God, and during this time the Assembly has enjoyed rapid progress. Having outgrown the frame building, they erected the beautiful brick and tile church building at the corner of South Cuyler street and Brown avenue—the finest church in the denomination in this district, which includes Texas, New Mexico and Arizona.

The membership has more than doubled, and there have been large attendance at all meetings.

No minister has been selected to fill the vacancy, though offers have been made by able pastors to take the local church. Rev. Rothgeb expects to leave for a tour of the south and eastern states in order to acquaint himself with the conditions of churches throughout the country. His travels will end in Oregon, where arrangements are being made for evangelistic meetings.

Rev. Rothgeb will remain in Pampa until the new pastor becomes acquainted with conditions here. The membership and friends of the Full Gospel Temple have expressed deep regret in losing their present pastor.

War Stimulates National Guard Enlistment Totals

AUSTIN, July 7.—The army gets in a man's blood, National Guard enlistment figures indicate to Adjutant General R. L. Robertson here.

Texas' National Guard has doubled in size since the termination of the world war and ranks third in the nation in size, having one complete division—the 36th—on its rosters in addition to a new motor transport corps.

"A heavy percentage of the men who served in the great war from Texas now are in the guard", he said. "Many a rainy night during battle probably they 'swore off' but nearly all have come back. A great number are commissioned officers—and all of them know and are glad that in the event of another war they automatically would go into service."

American Legion officials really make the adjutant general's office a sort of unofficial headquarters because so many Legionnaires are guardsmen.

Officers Are Killed In Plane Crash

WATERTOWN, N. Y., July 6.—Captain Curtis Wheeler and Lieutenant Carl Sack, stationed at Pine camp near here, were killed today when their plane crashed to the ground.

SPORTS WILL LEAD TOWARD WORLD PEACE

Schools Are Powerful Influence, Declares Speaker

MOTION PICTURES ALSO IMPORTANT

Educational Meeting Is Told Boys Need Home Training

(By The Associated Press.)

SEATTLE, Wash., July 6.—By developing "sporting blood" American schools can do more than any other influence to break down national jealousies and racial hatreds, Augustus O. Thomas, president of the World Federation of Education associations, declared before the National education association here today.

Referring to the New York to Paris non-stop flight of Colonel Chas. A. Lindbergh, Mr. Thomas asserted that the "sporting trait of the French people made them forget the obnoxious debt issue when Colonel Chas. A. Lindbergh landed at Le Bourget."

"Sporting blood is the most common blood of the human race and should be utilized in bringing about international understandings and in relieving national jealousies and racial hatreds," Mr. Thomas said. "We seldom have trouble with good sports men. It is a trait worth cultivating. Through this element we are closer to the French people today than we have been since the Armistice."

Trouble in Thinking

"Much international trouble comes from intellectual rather than economic or political difficulties. The sporting element is closely allied to the social side of life. We need to cultivate each other in order to clear away misunderstandings. Misunderstandings cause hatreds and hatreds cause war. War, therefore, becomes an intellectual problem."

"Our schools can do more than any other influence to break down the wall of prejudice. The sporting sense should be developed. It is the "wooden horse" by means of which we can break into the walled city of human hatreds. It will strip the mask of deceit from the face of racial and national jealousies."

"If the nations can be brought together and can find a common interest to absorb their attention, they would make more wholesome treaties on economic and diplomatic issues."

Right Attitudes Needed

"If the schools have a world-wide mission, it is to clear up the idea that some are the chosen people and

(See SPORTS—Page 4, Column 5.)

Gangsters May Have Killed Two St. Paul Women

(By The Associated Press.)

ST. PAUL, Minn., July 6.—Shot through the heads, the bodies of two women were found in a bedroom of their home here today.

They were identified as Mrs. Teddy Dubois, former operator of a downtown hotel, and Anne Greenville, daughter of George Greenville, labor leader.

Police believe the women were killed to cover up the kidnaping of another person who may have been slain in a continuance of a gang feud.

KILLED BY SPEEDER

LAREDO, July 6 (AP)—Jose Villareal, 77 years old, was killed here today by a speeding automobile. His body was dragged almost a block but the car failed to stop after the accident.

The Hard Luck Aviator

Here is Richard E. Grace, the "broken-neck aviator," decorated with the festive leis after his arrival in Hawaii for his flight to the mainland of North America. And his luck didn't change even then. A punctured tire resulted in the partial destruction of his plane.

Big Occasion Planned for Lions Club Charter Presentation Here Tomorrow Evening At Schneider

The Lion's roar will dominate the Schneider hotel tomorrow evening when the local club will receive its charter at the hands of Deputy Governor Magee of Electra in a brilliant program.

Lions from Clarendon, Borger, and Amarillo will be present, in addition to other guests of local members. Music, fun, and varied entertainment will make the evening an enjoyable one. Decorations for the big event will be received today. The menu will be completed this afternoon.

The program plans will be completed tonight at a meeting of the program committee of the Pampa club. More than one hundred persons are expected to be present at 8 o'clock, when the dining room will be opened.

The Borger Lions will receive their charter Friday evening, and local Lions will go there to attend the presentation.

Sam Fenberg Gets Autographed Photo Of Chas. Lindbergh

Sam Fenberg of the Diamond shop has received an excellent picture of his old friend Colonel Charles Lindbergh. The picture, taken in flying togs, is a perfect likeness of Lindbergh, he says.

Across the corner of the picture Lindbergh wrote "Sam A. Fenberg from 'Lucky'."

Fall-Doheny Case Confirmed Today By Supreme Court

(By The Associated Press.)

WASHINGTON, July 6.—The Fall-Doheny bribery indictment, which grew out of leasing the Elks Hills Naval reserve, was sustained today by the supreme court of the District of Columbia.

FRENCH PILOT IS SOUGHT FOR HOME FLIGHT

Chamberlin Is Too Busy To Attempt Project

BYRD HONORED BY POINCARE

A Paralyzed Veteran Walks On Meeting Commander

(By The Associated Press.)

PARIS, July 6.—Charles Levine, who accompanied Clarence Chamberlin on his flight to Germany, intends to fly back to New York soon if he can find a French pilot to go with him.

He made this declaration at a luncheon given today by American and British newspaper men here.

Levine said Chamberlin, because of other engagements would not be able to pilot him back to the United States.

He added that the name of the pilot to be designated would be made public in a few days.

PARIS, July 6. (AP)—There was almost a touch of the miraculous today in the visit of Commander Byrd and the crew of the trans-Atlantic plane, America, to the home of France's war wounded.

For the first time since he was brought down at Verdun in 1918, Captain Charles Legendre, paralyzed French aviator, stood straight on his feet and walked. The captain told Byrd his exploits gave him new courage.

He arose and with his arm resting lightly on the shoulder of the commander, walked slowly toward the entrance of Napoleon's tomb.

Premier Poincare later planned the decoration of the Legion of Honor on Commander Byrd. The ceremony took place at the ministry of finance.

Lester and Cole Will Make Trip To Stock Farm

J. L. Lester and I. W. Cole will leave tomorrow morning for Bowie where they will purchase hens to stock Mr. Cole's poultry farm, situated about two miles south of here.

Mr. Lester said at the Rotary club meeting that he would be glad to accommodate anyone in town that wished to get information on poultry or dairy farming from that district.

American Marines Land In China

(By The Associated Press.)

SHANGHAI, July 6.—An unconfirmed telegram from Japanese sources at Port Tsingto, Shantung province, says that 500 United States marine had been landed there for protection of Americans.

Pampa Quiz

Here are more questions about Pampa and vicinity. If you can't answer them turn to the last page.

1. When was the northwest pool of the Pampa oil field opened?
2. Who is superintendent of schools in the Pampa Independent School district?
3. What was last year's wheat crop near Pampa as shown by shipping records?
4. What was the average monthly building permit total last year?
5. What is the name of Pampa high school athletes?
6. How many people were there in the city in 1910?

THIS IS APT TO START A DISCUSSION

There is one college president in Texas who is not worrying over whether he ought to have "canned" the coach and tried harder to influence promising high school athletes to agree to enroll in his institution.

He is President S. T. Brogdon of Meridian junior college, which has been reorganized. Intercollegiate competition in athletic events has been abolished in the Meridian college.

"The board of directors of Meridian junior college believes that more harm than benefit results from intercollegiate athletics, and that the time has come when this growing evil, which has burdened our institutions of higher learning, should be curbed" Brogdon said. "Intercollegiate athletics distract the attention of students from the studies which should be their primary purpose in attending college. To the smaller institutions, they are an expensive and intolerable burden."

Meridian college will stress other forms of intercollegiate rivalry, such as debating. Class and organization athletics will be permitted and encouraged in physical education classes.

Small junior colleges have been distracted in late years on account of their inability to compete in athletics, hire high salaried coaches, and virtually pay athletes to attend them. Meridian, at least in the case of Meridian, figure that they have little to lose in abolishing competitive athletics. Larger institutions may have to come to the point of curtailing athletic schedules, which are becoming something like prize fights and demand too much training and other preparation to be held every week.

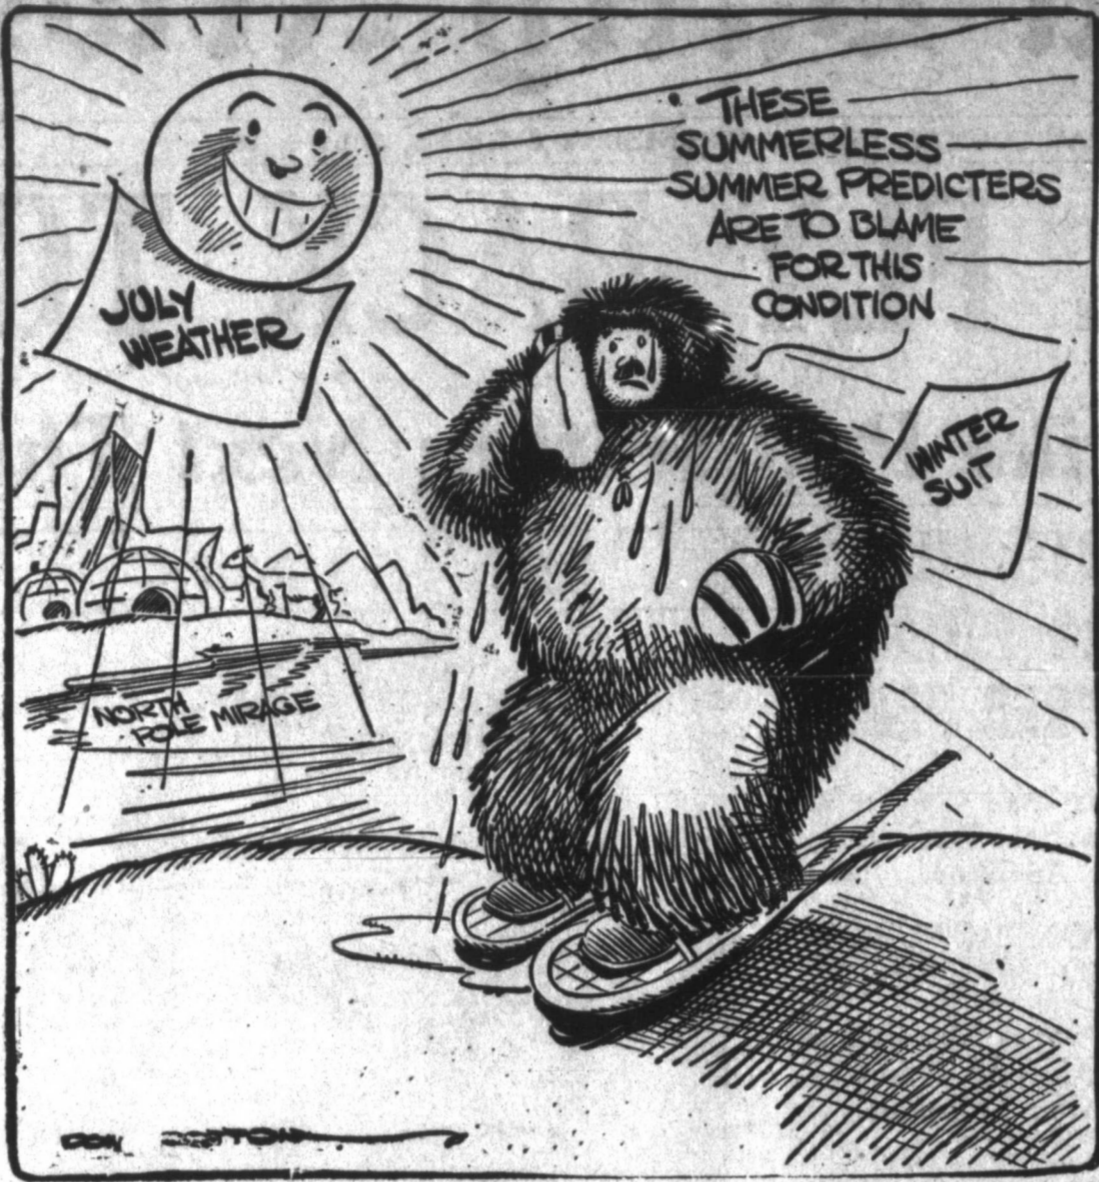

WANTED: BANK, A NEWSPAPER, ICE PLANT

Kermit is the county seat of Winkler county.

They struck oil in Winkler county and prosperity has descended upon the vicinity of Kermit. Nothing can more quickly inspire civic pride than oil.

Now comes Kermit with advertisements asking for a bank, a newspaper and an ice plant—in addition, of course, to other business institutions. Always a community asset, the newspaper is now considered indispensable in building a town and Kermit wishes one at once. And of course the place wishes a place to put its

Just What He Prayed for Three Months Ago

WASHINGTON LETTER

BY RODNEY DUTCHER NEA Service Writer.

WASHINGTON. — Some of the highest ranking naval captains who were passed over recently when the navy selected 11 new admirals are probably wondering why they lost out.

There is one doughty captain, high up among the leading 30 from whom admirals are chosen, who knows very well why he will have to retire on a captain's retirement pension rather than an admiral's.

This officer had achieved a brilliant and spotless career up to the recent occasion on which he commanded a flotilla which anchored off the capital of a South American republic wherein our country maintains an embassy and an ambassador.

The ambassador is a political appointee supposed to have been honored in recognition of valiant service for his party which service was not fully appreciated by the voters of his state. At any rate, he has put on some very lively parties at the embassy which have always been appreciated by naval officers and our captain, on the occasion in question, was invited to one as a guest of honor.

For the captain, at least, the function grew more and more successful. The ambassador had carefully left his copy of the Volstead act back home in the States, and an excellent time was being had by all, including the ambassador and the ambassador's wife.

Then, in a moment of hilarious horseplay, the captain overstepped himself. The exact details may not be quite

money and would like home manufactured ice these hot days. Advertising usually gets results and Kermit likely will soon have the desired institutions.

clear to him, but it appears that he gave the ambassador's wife a playful spank.

The lady herself, it is understood, took this in good part. But the ambassador, who observed the incident, did not.

The ambassador reported the captain to his government in Washington and the unfortunate officer was raked over the coals unmercifully by his superiors.

It was the only stain, if it can be called that, on the captain's record, but when the admirals were picked the other day, our hero was one of the most conspicuous of those left unpromoted.

That was a costly spank, for under the naval promotion system all captains who are not made admirals within a certain time are forced to retire and make way for others.

An admiral's retirement pay is \$8,000 a year and a captain's retirement pay is but \$4,500.

TWINKLES

The law of averages indicates it will be too much to expect all the little Lindys to be high fliers.

Junior colleges are getting popular. Now who has a used college at auction.

Have you noticed how much nicer Amarillo seems when she isn't claiming every oil pool as an extension of her field?

While Congressional medals are plentiful, why not give one to the lad who captured a

\$500,000 rum cargo single handed?

The Declaration of Independence was really made July 2, and it is just like some people to stress the fact every year.

Why discriminate? Someone ought to land in good old Ireland.

PRESS FORUM

A West Texas editor, so runs the story in the Stillwater (Minn.) Gazette, wearied of being called a liar because occasionally a typographical or other error appeared in his publication of commonplace news items.

In wrath, he announced: A lot of people in this town fall out with the editor and brand him a liar when the ordinary mistakes of life show up in the paper. You have a little charity and fellow feeling for every man in town but your editor. You claim you want facts and d—d if we don't get them to you. Read the next issue of this sheet and you will see facts with the bark off.

I admit that I have been a liar, an editorial liar ever since I have been editing this sheet, but I have never printed a lie in the columns except to keep somebody's feelings from being hurt. I am not afraid of any of you and I'll be damned if I don't print the truth now on or until some of you get out of the habit of calling me a liar every time I make some unavoidable typographical errors. Now watch my smoke!

Here are some of the paragraphs out of the next issue: John Bennin, the laziest man in town, made a trip to Bellevue yesterday.

Rev. Sty preached last Sunday at the local church. His sermon was punk and uninteresting except some stuff he quoted from Bob Ingersoll, for which he failed to give Bob any credit. He also cited a few passages from one of William Gilbert Munsey's sermons and had the unlimited gall to palm it off as his own.

Tom Spardin married Miss Caroline Meadows last trades day at the county seat. It isn't generally known, but the marriage was brought about mainly by a Remington shotgun manipulated by the bride's

father. Tom concluded that marrying was the healthiest thing he could do until other arrangements could be made.

Regan Lloyd, cashier of the State Bank of Willow Grove, died last Wednesday and was buried in the Odd Fellows at Pleasant Mound cemetery. He had been taking the paper for several years and had not paid us a cent. We thought that, being a banker, he would certainly pay some time. We will sell the account for two-bits' worth of groceries.

Married, Miss Susie Scruggs and Horace Griffin. The bride is a very ordinary girl who flirts with every traveling man she meets and never helped her mother three days in her life all put together. She is anything but a beauty, resembling a gravel pit in the face and walks like a duck. The groom is a natural born loafer and bum. He never did a lick of work until his step-daddy ran him off from home last fall. He went to the county seat and rather than starve to death he accepted a job as chambermaid in a livery stable. As soon as his ma found out where he was she went up and got him and brought him home. They now reside at the home of his wife's father and he has no definite plans for the future. Susie will have a hard row to hoe. — Fourth Estate.

Peaches Browning bobs up again, asking for counsel fees. We don't know about the fees, but she certainly needs the counsel.—Duncan Banner.

Fast Events Are Expected Tonight At Athletic Club

The boxing bouts at the Pampa Athletic club on South Cuyler street tonight at 8:30 should provide one of the best evening's entertainment yet sponsored by the club.

"Rusty" Cahill, Pampa flash, will again hook up with Dick Bryan from El Paso in a ten-round bout that should be a thriller. These boys are evenly matched and can give and take with the best.

Paul Pone has been called to Oklahoma City and another boxer, not yet named, will take his place in the ring with "Hook" Shaw.

Dutch Hust, the hardest hitting little man in the game, will meet Toughy Graham in a five-round exhibition. Both boys are evenly matched and should provide a good bout.

The preliminaries will be newsboy bouts and are usually regular slug-ging affairs.

TRANSFER BLANKS FOR SALE OF AUTOMOBILES AT PAMPA DAILY NEWS

Bills of sale for transfer of automobiles can be secured at the Pampa Daily News office.

"Washrites" Take First Game of New City League

In the first game of the newly organized baseball league at the Grays' park last night, the Pampa "Washrites" took advantage of the breaks and beat the Magnolia nine 7 to 6.

Although outhit 14 to 6, the Washrites beat the slugging oil men. Cahill's bat had a lot to do with the win and his work at short was great. Talkington pitched a nice game, but was hit rather freely and only his support saved him.

Lister of the Magnolia was the batting star of the game with four out of four while Dickie in center field played a nice game. Davis in the box pitched great ball, but the breaks were against him.

Tonight at 6 o'clock the Oilers will meet the Merten rig builders at the Magnolia field.

Batteries for the Washrite-Magnolia game: Washrites—Talkington and Culpepper; Magnolia—Davis and Austin.

Baseball League Of Sunday Schools Very Successful

BRYAN, July 6.—One of the most unique and successful amateur baseball organizations in Texas is the Bryan Sunday school league, whose teams play every day except Saturdays and Sundays, between June 1 and August 1.

There are five teams in the league, the Methodists, Baptists, Presbyterians, College Avenue Baptists and DeMolays. There is so much interest in the league that the crowds rival those of some professional league on week-days, the average attendance being more than a thousand.

Each club is allowed to carry only 15 players, exclusive of the manager. The members of the teams cannot be changed after June 7. Each player must have lived in Brazos county since January 1, and must be a bona fide resident.

The league is entirely self-supporting. Each club posts \$25 at the start of the season, and this sum is augmented by the receipts of the concession privileges. Each club must furnish its own uniforms, gloves and bats. The league supplies the playing field and baseballs. No admission is charged. The organization has been operating for five years.

Officers of the league are: Will Poindexter, president; Earl Tatum, vice-president; "Ty" Cobb, secretary-treasurer.

Wichita Hurler Tames Texans In 7-2 Victory

WICHITA, July 6.—Wichita beat the Texans here yesterday, 7 to 2, and Jolly showed great pitching form in the doing of it. He allowed only seven hits and was invincible after the fourth inning.

Achenback had the worst of luck from the start, and in the third inning Shupe replaced him. The latter allowed only six hits and two runs in the remainder of the game.

The box score:

Amarillo	AB	R	H	PO	A	E
Swansboro, lb	4	0	1	9	0	0
Gonzales, ss	4	0	1	7	2	2
Kelly, cf	4	0	1	1	0	0
Davis, lf	4	0	1	4	0	0
Connelly, rf	3	1	2	0	0	0
Gunther, 3b	4	0	0	2	0	0

"Red" Shines In His Studies

ELLSWORTH "RED" HAGGERTY

CAMBRIDGE, Mass., July 5. (AP)—While three of his fellow major-sport captains tripped and fell, scholastically speaking, just before they reached the commencement tape, Ellsworth (Red) Haggerty, captain of the Harvard track team, romped in with a whirlwind finish.

Captains of the Harvard football team, the baseball team, and the hockey team were ordered to run the last lap for their degrees over again. Not so with Haggerty. His flaming head led all the rest.

Finishing his college course as artistically as he ever finished a mile race when he was I. C. A. A. A. champion in 1926, he grabbed off his degree "magna cum laude." He was the highest ranking athlete at the university.

Victorian Girls Led a Gay Life

LONDON (AP)—Girls of the Victorian era were just as frivolous as the flapper of today, believes Dowager Lady Raglan, a descendant of Charles II through her grandmother, Lady Lavinia Cornwallis.

Lady Raglan was a member of the Victorian society in its most exclusive period. She discredits the prevailing idea that the Victorian girl was strictly chaperoned, and never received a proposal unless her suitor had first asked permission from the sidwiskered father of fiction.

"The truth is in those days men proposed direct to the girl of their choice," Lady Raglan said. "In some was the girls of that period had far more opportunity of knowing men than is the case nowadays.

"The London season started directly after Easter and ended in July, after which young people met at country house parties. Here they were given plenty of opportunity to know each other.

"True, debutants were chaperoned at balls. But the fact did not prevent them from dancing as frequently as they chose with their favorite partners.

"The idea that girls in the Victorian era spent their days in sewing-seams and practicing scales is another popular fallacy. On the contrary those who came to London for the season spent their days in a whirl of social engagements.

"Dress, not sex, was the greatest topic of conversation in those days.

"Another popular delusion is that the Victorian girl never indulged in sport. Lawn tennis was a most popular game which was played extensively. Another favorite pastime was water parties. Chaperones were dispensed with and the girls and young men used to go down the river Thames in boatloads and picnic on the river banks."

OPERA HOUSE DANCE FLOOR

LONDON—The Royal Opera House, Covent Garden, has been converted into a two-shilling dance palace for the rest of the year to meet deficits. A floor is laid over all the seats on the main floor extending to the back of the stage. It provides a hall in which 1,000 couples may dance.

BALD MAN'S HAIRCUT

TOPEKA, Kans.—A state official has found a bald man who believes in realism. The man has two wigs. One has somewhat shorter hair than the other. About every ten days he switches wigs and looks as if he had just been to the barber.

SLIP UP ON BANDITS

CHICAGO—A silent burglar alarm has been devised for Illinois banks. Instead of resisting bandits, bank employes set off the alarm which summons vigilantes from half a hundred business houses. When the holdup men emerge, the armed town guards meet them.

Successful experiments with airplane trailers have been made in Germany.

U. S. Compromises In Effort Toward Naval Restriction

(By The Associated Press.) GENEVA, July 6.—The American delegation submitted a new total of tonnage figures for cruisers at today's secret session.

Experts at the naval conference understood that the United States is in a spirit of compromise and in a genuine attempt to meet Great Britain's expressed needs for cruisers has suggested an increase in maximum tonnage for that country.

The new total probably will be 400,000 tons.

Gambling Resort Enjoined Today On Attorney's Order

(By The Associated Press.) AUSTIN, July 6.—An injunction, based upon complaints of alleged wide open gambling, and a search warrant were served on Loma Linda, a Fort Bend county resort near Houston under the direction of Attorney General Pollard who last week threatened state action against Fort Bend and Galveston county resorts unless local officers cleaned them up, he revealed here today.

POLLARD HONORED

AUSTIN (AP)—Attorney General Claude Pollard has been invited to address the national association of attorney generals meeting in Brooklyn late in August.

Pollard has not yet determined whether he will accept.

GOOD FISHING

DENISON (AP)—Fishing in the Red River north of here is reported good by S. H. Miller and Bill Sohl who returned here with a catfish weighing 31 pounds.

BOLD BANDITS

WICHITA FALLS (AP)—Two automobiles were stolen in one day from their parking places opposite the county court house here.

Development of Diesel Engine Sought to Make Planes Safer

(By The Associated Press.) LANGLEY FIELD, Va., July 6.—From the study of a tiny spray of oil research engineers hope to wipe out that possibility of fire that looms each time an airplane leaves the ground.

An epoch in aviation awaits the development of an oil burning engine to replace the gasoline type, many airmen believe, and the National Advisory Committee for Aeronautics established by congress is at work on the problem.

"A great majority of airplane fatalities result from explosions," says Edward R. Sharpe, chief clerk in the committee's Langley Memorial laboratories. "A plane crashes, there is an explosion, or gasoline comes in contact with hot metal and is fired. The planes occupants are burned to death.

"What we must have is an airplane engine consuming a non-inflammable fluid, preferably oil, because oil of low grade is not expensive."

But the development of such an engine is not to come overnight. The principle of the Diesel engine, an oil burner, is being studied and an illustration of the problem involved in a comparison with the principle of the gasoline engine now used.

Instead of producing power through carburation, as in the gasoline engine, the Diesel engine generates power by compressing a low-grade non-inflammable oil into spray which goes direct into the cylinders.

A Diesel engine generating 1,000 horsepower weighs approximately 2,200 pounds and is so large that two fill the engine room of a submarine. On the other hand, a gasoline engine of great horsepower is so small that several of them may be used in a plane. Reduction of the oil burner in size, with preservation of power then, is one of the problems before the engineers.

An important problem is the form and density of the oil spray into the cylinders. Two contrivances have been set up which have attracted the admiration of eminent engineers.

One, known as the universal test engine, operates on the Diesel principle and may be adjusted so that the performances it records are those of engines of various sizes. Differences in the stroke, gear ratio, valve

timing, water and air temperatures and volume of air are studied minutely.

The spray of oil, which is formed and discharged so fast that to the eye it appears is one continuous spur is photographed by a motion picture camera at the rate of 5,000 exposures per second. By studying these pictures engineers are able to determine the shape and density of the spray.

"A millionaire with \$500,000 to spend in an entertaining way will decide one of these days to put an oil burning engine in an airplane," Sharpe said. "He'll come to us for what we know and after a time aviation will have its oil burning engine. But there are enough problems to keep us busy for quite a while yet."

HOOSH WITH MILK

HOUSTON (AP)—Milk with a kick was being sold by one Houston dairyman until dry officers took a hand. The dairyman admitted that he delivered hoosh in milk cans from his dairy wagon—in fact its sale was more profitable than cows' milk. A 20 gallon still under his cow shed was destroyed.

A POOR KICK

PARIS (AP)—A sliver of glass imbedded in his foot two years ago has caused a serious infection and blood poisoning is feared by J. P. Lockley. Two years ago he kicked a bottle and cut his foot.

STRANGE 'GATORS

TEXARKANA (AP)—An alligator more than four feet in length was captured alive from a Texarkana canal by two negro youths. This is the second 'gator seen in this vicinity. Citizens are puzzled to know from whence they came.

Pampa Answers

1. In September of 1918 material was unloaded at Panhandle for an oil test in what is now the north-west part of the Pampa field. A location was made on the S. B. Burnett ranch in block 5 of Carson county. This test came in as a big gasser. The small start aroused much interest, but development of the tract as oil territory did not begin until late in 1925, after production had been struck in Hutchinson county.
2. R. C. Campbell.
3. One million, two hundred fifty thousand bushels.
4. \$250,000.
5. Pampa Harvesters—and now local, independent baseball men are going by an equally appropriate name, the Oilers.
6. Pampa had 500 inhabitants in 1910.

BARBER CUSTOM
MARSALL, July 6. (AP)—Why does a barber shop owner take the last chair in his place of business? W. V. Thrasher, boss barber here, says it is in keeping with tradition and gives the barbers who work on a percentage the first chance at a prospective customer. "You'll find it that way the world over," Thrasher said.

OUT OUR WAY

—By Williams

SOCIAL NEWS Phone 72 Mornings

Mr. and Mrs. Hamp Brown and daughter, Miss Clara, spent Monday in Amarillo, guests of Mr. Brown's brother.

Miss Camille Cadwallader returned to her home in Amarillo Friday after a visit with Mrs. P. B. Carlson.

Mr. and Mrs. M. S. Wise and son spent Sunday and Monday in Lubbock and their niece, Miss Jynatha Harbison, accompanied them home for a visit.

Cross Dry Goods Co. are showing ladies' hats at reduced prices. See our windows. 101-11c

The monthly meeting of Sunday school teachers of the Methodist church was held Tuesday night at the church. After the business session refreshments were served to about thirty.

Mrs. T. V. Lane is able to be up again after a few days' illness.

C. H. Fisher returned Tuesday from Wichita Falls.

Mr. and Mrs. C. W. Stowell returned Tuesday from Spearman.

Miss Bernice Chapman spent the week end in Canyon.

Elbert Thomas left Sunday for a short visit to Fort Cobb, Okla.

Jim Meyers and Jack Ratliff, who have been visiting Vernon Lawrence, left Tuesday for their home in Gainesville. They were accompanied by Vernon, who will spend some time with relatives and friends.

Mrs. Ira Webster of Brownwood left Monday for a week's visit with her grandmother at Claude.

Chas. Beck and daughters were in this city last week, visiting Mrs. Dolly Barnhart, Mrs. C. W. Lawrence, and other friends. They are touring the country, having been in California, Old Mexico and other points of interest. They left the first of the week for a short visit with W. S. Gordon and family at Miami.

Today and Thursday we have a window full of ladies' hats to sell at below cost prices. Cross Dry Goods Co. 101-11c

She was accompanied home by Miss Ethel Peterson of Lindsborg, Kans.

Mrs. W. W. Ellison of Tulsa arrived in this city Sunday to make her home.

Mr. and Mrs. Jack Back, Mr. and Mrs. Willie Sletz of Pampa, Mr. and Mrs. Geo. Phillips, Doc Hopkins, and Miss Grace Holliday of White Deer went to the celebration at Canadian Monday.

Miss Jewel Flannagan spent the week end in Amarillo.

Miss Emma Lasater returned Tuesday evening from an extended visit with Mr. and Mrs. Guild Jennings of San Pedro, Calif.

Mrs. Victor Banks left Saturday for Seminole to join her husband. They will make their home there.

Tom Simmons of the Oil Well Supply company left Monday for Fort Worth.

B. E. Finley returned Tuesday from his eastern trip.

Ed Peters of the Oil Well Supply company, returned Monday from a visit at Corseana.

If you can use a summer hat at a low price, see the Cross Dry Goods Co. 101-11c

George Winkler, who lives about a mile west of town on the Castlebury farm, had the misfortune to have 25 turkeys stolen Monday night.

Miss Alice Rittenhouse returned Tuesday from Wichita Falls.

Dr. J. C. McKean and Kenneth Sawyer are home from a trip to Dallas and other Texas points.

Miss Ella Walberg arrived Sunday from Salina, Kans., where she has been attending the Wesleyan Business college.

Mr. and Mrs. Blaine Robinson spent Sunday and Monday in Clarendon.

SPORT TALK

Well fans, got some cheerful news this morning. Ed Gober had a telegram yesterday from Bob Clarke, former pitching ace of the Pampa Grays and now with the Texans, which stated that he would be here Saturday to talk over his returning to Pampa to live and play ball for the Grays. With the big fellow back again, the home club would be all set to step out and win.

Bob didn't have much luck in the Western league. When he was at his best, usually somebody would boot one.

Let the old bunch of Grays get behind Clarke and Clayton then bring on Berger and the rest.

Going to see the boxing bouts tonight at the Pampa Athletic club? They should be fast and furious with "Rusty" Cahill and Dick Bryan leading the bill. The reliable "Hook" Shaw is also ready to step tonight.

The first game of ball in the newly organized city league last night was a whiz. The Pampa Washrites took a 7 to 6 game from Magnolia. The boys played a fair brand of baseball, much better than the holiday attractions, and you see these games for 25 cents.

The Texans lost another yesterday. They just can't shake the jinx. Probably when they return to home pasture tomorrow the Amarillo boys will step out and win a game.

FAVORS OLD CLOTHES
LONDON (AP)—Results in portrait painting are best achieved if the sitter wears old cloths, believes James S. Sleator, Irish painter, who is now doing a portrait of Moyna Macgill, the Irish actress. Miss Macgill wears an old jumper of dull blue silk with reddish cuffs and with an old red coater scarf around her neck. Sleator is the artist who gave his first lessons in painting to Winston Churchill, the Chancellor of the Exchequer.

Health Officer Asks Funds For Milk, Ice Funds
(By The Associated Press.)
AUSTIN, July 6.—An appeal to Texas people to contribute to 'milk and ice funds' in the interest of baby welfare, jeopardized in the hot summer months, is issued here by Dr. J. C. Anderson, state health officer, as part of a special campaign in July for "better health for babies." "The hot months," he said, "are especially hard on babies, and is the time when digestive disturbances are most frequent. "It is very necessary that children be supplied with plenty of wholesome milk, and, as ice is absolutely imperative to keep the milk in a safe condition for drinking by young children, it is hoped that the people of the state will contribute liberally to milk and ice funds for children.

M. A. McGowan, merchant of Cross Plains, is here with Mrs. McGowan and children as the guests of the Rev. and Mrs. Tom W. Brabham.

SPORTS

that some are born superior to others in human rights. It is the mission of the world federation to bring together the leaders of youth and form social and professional contacts which will enable them to see the way more clearly and thus lead the rising generation to right thinking and right attitudes."

SEATTLE, July 6. (AP)—The motion picture is a serious factor in shaping the life of the youth of this country and should take its place beside the drama and the plastic arts as an object of study.

This was the statement of Ernest L. Crandall, director of lectures and visual instruction of New York City in an address today, at the National Education association convention here. Speaking before the department of visual instruction of the association, he said:

For Good or Ill
"The motion picture with all of its merits, and with all of its defects, stands up as a possibly the most powerful, single potential influence for good or ill in the life of the young people of this generation.

"We as educators should be remiss indeed did we not give earnest consideration to its possibilities for shaping the lives and conduct of our children."

SEATTLE, July 6. (AP)—Boys as well as girls should be taught the "all important business of home-making" the National Education association convention delegates were told today by Essie L. Elliott, head of the home economics department of Manual Arts high school, Los Angeles.

Miss Elliott, who spoke before the American Home Economics association branch of the convention, said "it is foolish to train our girls exclusively" for the home-making "since no home is a real one without 50 per cent cooperation on the part of the father."

Five Pay Fines After Raid Which Nets Much Beer

Officers arrested three men and two women yesterday afternoon on a farm about five miles northeast of here and charged them with illegal possession of beer and running a gambling house.

The officers drove up to the house in a sport model car and the occupants thought customers had arrived. But when the large hats came into view there was a scramble to pour out the beer and destroy the gaming necessities. They succeeded in pouring out more than 50 gallons of the beverage and destroying some of the cards but later plead guilty to the charges and paid fines.

About 200 empty bottles were found on the premises and also a complete outfit for making beer.

Sadler Provides Entertainment At Rotary Luncheon

The Pampa Rotary club was entertained today at their regular luncheon by Harley Sadler and members of his troupe playing here.

Harry Goldie gave several yodeling selections and Howard Hack whistled and danced. Bart Couch gave some of his favorite songs with Ralph Baker at the piano. Couch and Goldie gave sketches accompanied by the "uke."

Visiting Rotarians were Dave Warren, Panhandle; A. D. Wells, Cleburne; T. W. Gagnat, Amarillo, and Dr. A. E. Martin, Pampa.

G. C. Malone of the Malone Furniture and Undertaking company which has two stores here and one in Roxana, has purchased a 20-room hotel and an 8-room apartment house in Roxana.

We buy, sell and exchange furniture. G. C. Malone Furniture company. 101-201c

Alex Rainouard was an Amarillo visitor Tuesday.

A. D. Wells of Cleburne Morning Review was a visitor in Pampa Wednesday with friends. He was surprised at the excellent improvements in Pampa.

We buy, sell and exchange furniture. G. C. Malone Furniture company. 101-201c

STATE OFFICER HERE
J. T. Elliott, deputy superintendent of the oil and gas division of the Texas railway commission, is in the city today visiting with J. M. McDonald, local representative.

Clinics Will Be Started Soon By Local Physicians

Plans are now under way by local doctors to open an out-going clinic and a free clinic. The out-going clinic will include a complete examination of the body at a nominal fee. The free clinic will be for all who can prove they are unable to pay for examination and treatment. Mrs. Beverly Barker, superintendent of the new hospital, has offered the doctors two of the largest rooms on the ground floor for their clinic.

It is the intention of the local doctors to have a free clinic every day from 2 to 4 o'clock. A day will be given to gynecological surgery, one on internal medicine, obstetrics, genito-urinary, children's diseases and tuberculosis.

The clinic will be equipped by the medical men of Pampa and carried on by them. If anyone wishes an examination and needs care, his family doctor will be consulted and the case turned over to the latter.

Bank Deposits Here Still Increasing; Now Above 2 Millions

Financial reports of the two Pampa banks, based upon their conditions June 30, show substantial increases in deposits, being \$2,329,763.91 on June 30 as compared with \$2,090,282.68 on March 23.

Loans and discounts showed a similar increase, from \$891,431.30 on March 23 to \$942,153.39 June 30.

The expansion of these already strong institutions is considered one of the best evidences of Pampa's prosperity.

Members of Amarillo Athletic Club Are In Pampa Today

V. W. Underwood and L. H. Norwood of Amarillo, members of the Amarillo Athletic club, are here today in connection with the extension of their organization to include selected members from Pampa and other Panhandle cities.

They represent the strongest club, from the standpoint of wealth per member, in the west, and their fine five-story building will be occupied next month.

Memberships will be offered a few out-of-town sportsmen for a limited time.
