WELL BLASTS ARE FREQUENT IN PANHANDLE

Tex Thornton Burns Feet Badly at Sanford

SKELLY MAN BADLY HURT

Crown Block Falls On W. W. Clements at Schafer

Oil well fires and explosions are again giving much trouble throughout the oil fields.

The burning of five men Sunday at the Skelly well on the Schafer ranch added another explosion to the list. Lightning recently fired one of the big Sanford gassers, and scarcely had Tex Thornton shot out this well when another big gasser there was ignited by a friction spark.

Thornton, in trying to steam out the second well at Sanford, stepped into hot water and will be in a hospital about two weeks as a result of his injuries. This well was making 60,000,000 feet of gas and was the seventh well fired in that vicinity. Made wary by the numerous gas well fires, three employees of the Prairie Oil company dodged into the engine house in time to escape horrible deaths.

Another Borger man, W. N. Neel, may die of injuries received when a companion accidentally turned the steam in a boiler Neel was cleaning. The scalding steam nearly killed the man before he could extricate himself.

The five men burned Sunday were reported at Pampa hospital today to be resting well, and it is believed all will recover, although the shock has been terrific and complications might develop.

W. W. Clements, hurt when a part of the crown block fell on him yesterday when he was helping terraced down the partly burned steel derrick, has a fractured arm and leg. X-ray pictures taken at Pampa hospital reveal.

Bomb Explodes Before U. S. Embassy In Nice, France

(By The Associated Press.) NICE, France, July 19.—A bomb exploded today in front of the building in which the American consulate is located.

No one was hurt, and there was only slight damage done.

Consular officials today expressed the belief that the bomb was placed by sympathizers with Sacco and Vanzetti, who are sentenced to death in the United States. To attract attention without actual bloodshed is believed to have been the motive.

DeMille Studios 'Damaged by Fire'

(By The Associated Press.) CULVER CITY, Calif., July 19.—Fire which broke out for the second time last night in the Cecil B. DeMille motion picture studio here, causing an estimated loss of between \$150,000 and \$200,000, was brought under control this morning.

Leaders Explain Mexican Trouble

(By The Associated Press.) NEW ORLEANS, July 19.—The New Orleans State says today that local leaders of a Mexican revolutionary junk have received information from the State of Vera Cruz that the uprising there was primarily one of federal troops on garrison duty, who have been ordered to different sections of the republic to get them away from revolutionary connections with which they are sympathetic.

CHANNEL ISLE GETS WOMAN AS GOVERNOR

SARK, Channel Islands. (AP)—For the second time in history the head of the Government of the Island of Sark is a woman—Mrs. Dudley Beaumont, daughter of the late William Collings, the former Seigneur.

Sark has not had a woman governor for 200 years.

As Dame de Sark, Mrs. Beaumont officiated for the first time as President at a meeting of the Chief Pleas of the Island. Sark, six miles east of Gurnsey, is the wildest of the Channel Islands. It is almost entirely rockbound. The Seigneur and tenants of the Manor form practically a feudal court.

NEW HIGHWAY HEARING SET

Commissioners to Hear Request for Vote August 8

A new hearing for August 8 was set yesterday by the county commissioners on the proposal to call a Pampa special road district election.

A petition containing 60 names was presented to the commissioners, and their action followed. The election likely will be ordered on the date set, for a time probably a little more than a month thereafter.

The recent hearing on the same matter resulted in the finding of an error in the petition, and a new petition was requested.

Fifty New Phones Installed Here; New Directory Planned

Fifty new telephones have been installed in Pampa by the Southwestern Public Service company, the majority of which are in South Pampa.

The company is now able to supply anyone wishing telephones and expect to have 100 installed by August, when the names for the new telephone directory will be handed in for printing. Even if the phone is not in the residence by that date, an application in the hands of the company will cause the name and number to be in the phone book.

Additional cables have been strung in Pampa to accommodate all the telephones that will be installed for some time and the service will be improved in the near future.

Scout Drive Is Going Forward To Goal of \$2,000

The drive for funds for the organization of Boy Scout troops in Pampa was resumed yesterday morning and is still in progress today.

More than \$1,200 had been subscribed up until noon today, with several canvassers to be heard from. The goal set was \$2,000, which will completely organize the Boy Scout movement in Pampa. Tom Nelson, area executive, will be in the city tomorrow to finish up the campaign this week and commence the organization of the troops.

WICHITA FIRE CHIEF HAD RELATIVE HERE

Al S. Brownwell, veteran fire chief of the Wichita, Kans., fire department, died at his home yesterday, after a month's illness. Mr. Brownwell was a brother-in-law of Mrs. Len Williams, of this city.

He moved to Wichita from Canton, O., when a boy and for years was a carpenter there. The lure of fighting fires called him and he joined the volunteer fire department in 1884 and two years later was added to the payroll. The next year he became assistant chief and in 1905 was appointed chief, which position he has filled until his death.

50 TEACHERS EMPLOYED FOR SCHOOLS HERE

High Quality Teaching Assured, Asserts Supt. Campbell

FEW PLACES YET UNFILLED

South Ward Principal and Librarian Are Sought

Fifty teachers will take their places when schools of the Independent district open next fall. Practically all of these have been employed.

In the high school department will be Supt. R. C. Campbell; R. B. Fisher, principal; Bernice R. Whately, English; Addie Lee Smith, English assistant; Frasher Taylor, history; Gladys Carter, history assistant; Oscar Dial, science and economics; Verde Dickey, mathematics and athletics coach; Harrison C. Platter, bookkeeping, commercial law, and mathematics; Louise Magee, stenography and mathematics assistant; Velora Reed, Latin and Spanish; Harriet Rieves, home economics; John L. Lester, vocational agriculture and hall study. Mr. Fisher will teach mathematics and assist in coaching.

At the central ward, for the intermediate grades, will be Byrd Whittely, English; Miss Beaty, arithmetic; Mable Campbell, reading; Ruth Barrett, history; Miss Baker, civics and health and Miss Calvin, geography and spelling.

In the central ward primary department will be Mrs. J. L. Lester, first grade; Lucy Nobles, second grade; and Lucy Herlacher, fourth grade.

In the intermediate grades are J. Rex McKay, principal; Josephine Carter, English; Louise Durrenberger, history; Irma Crowe, reading; Mrs. Strickland, civics and health; and Freda Dillon, geography and spelling.

For the primary department of the red building are Wilma Chapman, first grade; Miss Barnhart, second grade; Ruth Stalls, third grade; and Mrs. Anna Daniels, fourth grade.

Miss Mary Nail will have the first grade in the north shack, and Miss Laura V. Brown the second grade.

Helen Anderson will teach the third grade and Mrs. J. W. Morris the fourth grade of the east shack.

The intermediate grades at the south ward will be taught by Mrs. J. B. Austin, English and spelling; Mrs. Helen Kullmann, reading and history; Mrs. L. K. Stout, geography and health; and Mrs. Stowell also likely will be assigned to work there. No principal and arithmetic instructor has been employed. The primary grades will be in charge of Mrs. Bradley, first grade; Mrs. Cockerill, second grade; Mrs. Alice Chilton, supply for first and second grades; Mrs. Ferguson, third grade; and Mrs. Sam Irwin, fourth grade.

Mattie Guinn will be principal at Kingsmill and Mrs. M. I. Goodfellow at Heover.

Miss Leora Brown probably will teach a second grade, Harrison C. Platter, B. S., B. A., has been employed as a teacher of business administration.

Yet to be employed are the librarian for the central school, the principal of the South Pampa school, and the supervisor of penmanship and drawing.

A total of 50 teachers has been engaged, and, according to Supt. Campbell, an unusually large number of them have either college degrees or much special training for their work.

Moody Speaks To Sheep Raisers

(By The Associated Press.) KERRVILLE, July 19.—Governor Moody today addressed a thousand delegates at the opening here of a three-day convention of Texas sheep and goat raisers.

Need a New Rug This Fall?

Protesting to the legislature that the wires they had to run around bear traps to warn hunters also warned the bears, and that the bruins had learned to read notices, too, the United States biological survey has taken in its traps in the state of Washington, and as a result the bears are becoming a nuisance to the farmers. The open season on bears begins Oct. 15, and the survey has cordially invited the bear hunters of the nation to take part in the shoot. Eli Laird of Seattle, one of the northwest's most famous hunters, is shown here with a black bear he killed.

City Bond Election Endangered By Light Votes By Taxpayers

With only 90 votes cast at press time today, the city election was making unusually slow progress and the success of the bond proposal was at stake.

While unofficial opinion was that the issue will carry, it will require 150 votes to make sure of passage, and the number is far short of that figure.

At noon only 35 votes had been cast. Balloting made better headway during the noon hour, but fell into a slump after that time.

A heavier vote is expected toward closing time for the polls, which will be 6 o'clock. Those wishing the bond issue for water and sewer extensions to pass are urging everyone to vote, in order that passage may be assured.

Failure of the bond issue will not only cripple the city from the building standpoint, but will jeopardize the financial standing of the present time, it was pointed out. Of the total issue, \$125,000 is to change outstanding warrants into longtime bonds.

DR. H. Y. BENEDICT ELECTED PRESIDENT TEXAS UNIVERSITY

(By The Associated Press.) AUSTIN, July 19.—Dr. H. Y. Benedict, senior dean of the College of Arts and Sciences, was elected president of the University of Texas by the Board of Regents today to succeed Dr. W. M. Splawn, resigned.

The selection was unanimous. Dr. Benedict has been with the University since 1892 and is one of the best liked members of the faculty.

Dr. Splawn, formerly chairman of the Texas railroad commission, desires to retire from his position of executive responsibility, and give his time to teaching.

Contracts Are Let For Much Machinery

AUSTIN, July 19.—Differences between the highway commission and the state board of control were threshed out in joint conference today, and the board let contracts for road machinery to cost more than \$1,300,000, or slightly less than the total recommended by the commission.

Galveston Woman Will Run Against Mayfield In 1928

(By The Associated Press.) AUSTIN, July 19.—Mrs. Minnie Cunningham of Galveston, secretary of the National Democratic Women's committee, intends to run for the United States Senate in 1928, opposing Earle Mayfield, it was learned today.

Legion To Help Baseball Team

The regular meeting of the American legion will be tonight at 8:30 o'clock at the Legion hall and all members are requested to be present as several matters of importance will be discussed.

Several new members will be welcomed into the local post tonight. Also, the baseball situation will be discussed. The legion boys are behind the Grays to the finish and they intend to back the team financially.

Noted Club Woman Dies at Dallas

(By The Associated Press.) DALLAS, July 19.—Mrs. J. C. Muse, 66 years old, widely known Texas club woman and wife of Judge J. C. Muse died here today.

SUIT RESULTS ON DONATIONS AFTER STORM

Dissatisfaction Arises Over Way Money Was Used

NEARBY TOWNS ARE DISPLEASED

Five Citizens Made Defendants By A. Aiken

(By The Associated Press.) SAN ANGELO, July 19.—A suit calling for an account of the relief funds donated to tornado-stricken village of Rock Springs has been filed in the district court of Edwards county, it was learned today.

The suit is styled "Arthur Aiken vs. Lon Smart, A. W. Owens, Martin Groom, J. N. Lockley and L. A. Clark."

Relief funds were donated to the citizenship by neighboring cities, and dissatisfaction with distribution of the funds resulted in the suit.

Rev. Baker Called By Local Church

The Rev. W. M. Baker, minister in charge of the local Presbyterian church, has been called to the Pampa pastorate, but has not given an answer.

Rev. Baker has been serving the church here since its organization, and until two weeks ago services were held in the Rex theatre, to which the church voted its thanks last Sunday.

The new church building is finished and regular services are being held there.

Held In Murders, Kills Self By Hanging In Jail

(By The Associated Press.) DOYLESTOWN, Penn., July 19.—Ernest Reiker, awaiting trial for the murder of his wife and Sheriff Abram Kul, committed suicide in the Bucks county jail today by hanging himself.

Ogden Armour Is Ill In London

LONDON, July 19.—Ogden Armour is seriously ill at the Carlton hotel here, it was learned today. It is believed that the crisis is past but he is still too weak to see anyone but his wife.

Commendation For Marines Contained In New Naval Report

WASHINGTON, July 19.—High commendation for conduct of American marines and their air forces and Nicaraguan guards was contained in the first official navy report made public today on the battle at Ocotal between the marines and forces under General Sandino. The report said that Private Charles Garrison, wounded in the engagement was still in a serious condition.

PAVING BLOCK APPROVED
The city council last night accepted the block of paving on East Foster avenue from Cuyler street to the alley in the rear of the First National Bank building.

No other business was transacted at the meeting and the council recessed until Wednesday night, when they will canvass the election returns.

The happiest boy in Pampa must be the 8-year-old son of Dr. Webb, who has a new saddle and bridle for his shetland pony. The riding equipment was purchased from the Frank Chance Harness company.

UP

By SYDNEY J. BURGOYNE

B EWARE of the folks who keep crying "Down" With everything under the sun; Down with power, with wealth and renown, And the man who's nobly won!

It isn't the spirit that "downs" by might, Though the wrong be real, my friend, That is going to win the battle for right, And make injustice end.

It's the kindly spirit of "Up With Truth!" And "Up" with the friendly hand That will bring to men the hope of youth And spread good cheer through the land.

It's the spirit of "Up" with peace of good-will, With fellowship kind and true, That is bound to make this old world fill With joy and success for you!

It's "Up" with the spirit that understands And measures a man's true worth; That is going to bind with golden bands Brother to brother on earth.

It's "Up" with the banner of "Love for All"— The mighty ones and the weak— That will make oppression and evil fall And bring the blessing you seek.

For everyone has a chance to rise, And no man more than the rest; "To live and let live" is just and wise, But to live and help live—is best!

So "Up" is the watchword to which to cling, For every creed and clan; And the spirit of "Up With the Good" will bring The brotherhood of man!

(Copyright.)

THE WHY OF SUPERSTITIONS

By H. IRVING KING

AN ITCHING PALM

IF THE palm of your right hand itches you are about to receive money. "And you yourself are much condemned to have an itching palm," says Brutus to Cassius in Shakespeare's "Julius Caesar." The superstition is venerable and flourished by the Nile and the Tiber before it saw the Thames or the Hudson. A Greco-Roman amulet of a hand in the British museum has carved on the palm an altar with three cakes, an offering to the gods invoking prosperity.

When we use the expression "an itching palm" as Brutus used it to Cassius, and as we use it with regard to our friends, it means that the person referred to is avaricious and not particular as to how he comes by his money. But when our own palm itches—why, that's another matter: we content ourselves with saying that money is coming to us and ignore the details.

The whole superstition is one of suggestion and association. It originated before the days of paper money, when all money was "hard." A coin taken in the hand presses upon the palm as the hand closes upon it. The sensation produced becomes identified with possession. Any tingling of the palm subconsciously recalls the sensation, thereby arousing the idea of money in hand with which it is identified. The natural wish for money makes it a prognostic. It is the right palm that prophesies because, generally, we use the right hand in accepting money.

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says her mother is terribly interested in politics, and a meeting of the League of Women Voters without her would be like Othello without the Danish prince.

(© by McClure Newspaper Syndicate.)

Five Trans-Atlantic Fliers Break All Records in Seeing Europe and Collecting Medals of All Nations

(By The Associated Press.) NEW YORK, July 19.—Just about the largest collection of medals ever won by five men in a few short weeks sailed for America when the liner Leviathan steamed from Cherbourg.

In all the world, with its billion and a half of human beings, only seven men have flown in a heavier-than-air machine in one hop from America to Continental Europe. And five of these—Commander Richard E. Byrd, Bert Acosta, George C. Noville, Bernat Balchen and Clarence D. Chamberlin, sailed back to America on one ship.

Europe loaded them with honors and America was ready to add its congratulations to the group. All are American citizens except Balchen, a Norwegian, who intends to become naturalized.

The presidents of seven nations welcomed and honored Chamberlin and Charles A. Levine, his flying companion in the airplane Columbia. France gave added laurels to the four men who manned the America.

A Fast Tour

The honors of Chamberlin and Levine were gathered in during a whirlwind tour of Europe hat out-classed the fastest-traveling tourists.

The pair who broke Lindbergh's non-stop flight record of 3,625 miles by flying 3,905 miles to Eisleben, Germany, subsequently established something resembling another record in "seeing Europe by air." In a little more than a month they visited no less than 21 cities in eight countries.

After they were welcomed at Eisleben and made honorary citizens of Kottbus, there followed a tour including rounds of honors a Berlin, Baden-Baden, Frankfurt, Friedrichshafen, Stuttgart, Hanover, Bremen, Magdeburg and Munich—all in Germany—Vienna, Budapest, Prague, Pilsen, Marienbad, Warsaw, Zurich, Berne and Paris. Later they also visited London.

At Berlin they were received by Germany's venerable president, the former Field Marshal von Hindenburg, who presented each with a picture of himself. After festivities in their honor such as Berlin has seldom seen, they continued the tour which carried them to Austria, Hungary, Czechoslovakia, Warsaw, Switzerland, France and Great Britain.

Decorated at Vienna.

At Vienna they were received and decorated by President Hainisch of Austria. President Masaryk of Czechoslovakia received the fliers at Prague. They were welcomed on behalf of Poland by President Moscicki at Warsaw. Dr. Motta, President of the Swiss Confederation, received them at Berne. President Doumergue of France added his congratulations at Paris.

Honors bestowed on Chamberlin included the Goblet of Honor of Magdeburg, the Golden Pin of Munich, the Austrian Air Club Medal, the "Goldenes Barenreichen der Republik", (the Golden Badge of Honor of the Republic), which is Austria's highest order of merit, a silver loving cup from the Hungarian Aero club, the Gold Medal of the City of Paris and a bronze medal from the National Aeronautical association of France.

After the 42-hour flight of the America, ending at Ver-Sur-Mer, which Commander Byrd estimated covered 4,200 miles, France hastened to honor him and his comrades.

Adds To Collection.

It was not a new experience for Commander Byrd, who already holds the Congressional Medal of Honor, the Hubbard Medal given by the National Geographical society, and many medals and citations, as well as honorary degrees from Yale, Tufts, Virginia Military Institute and Georgetown college, Ky. Premier Poincare, Marshal Foch, the Chamber of Deputies and many noted citizens in public and private life honored and feted the crew of the America.

To Commander Byrd's already long list of honors were added the Cross and Insignia of an Officer of the Legion of Honor, the Gold Medal of the City of Paris, a silver medal of the National Aeronautical association of France, the medal of the International League of Aviators, the Gold Medal of the French Aero club, and honorary citizenship in the cities of Dunkirk and Calais.

The awards to Acosta, Noville and Balchen were identical. Each received the Gold Medal of the City of Paris, the bronze medal of the National Aeronautical association of France, and a gold medal from the city of Dunkirk.

Secretary Wilbur has indicated that he will recommend the Distinguished Flying Cross for Commander

Byrd. It was said that Chamberlin was ineligible for this honor because he was not connected with nation's armed forces.

HINTS FOR FARM and HOME by THE DEPARTMENT OF AGRICULTURE

Milk and cream not only should be kept cold until leaving the farm, but also should be protected from the sun and warm air while being transported from the farm to the city.

Milk stands at the roadside should be shaded, and cans of milk and cream hauled in trucks or wagons should be covered with a canvas. If this is not done much careful work in producing the milk may be wasted. Heavy jackets for milk cans aid materially in keeping the contents cold.

During the work season the farm work horse should be fed only at regular intervals. Concentrated feed is necessary to supply the energy for hard work. It is not advisable to feed large amounts of roughages at this season, except during periods of rest. Excessive feeding of hay is expensive, reduces the efficiency of the horse and often causes respiratory disorders.

New York terminal costs for a sack of Michigan potatoes covering a terminal movement of about 15 miles are greater than for the entire road haul of more than 1,000 miles. Trucking is the chief element in the cost of terminal hauling.

No way is known of increasing permanently the percentage of butterfat in cow's milk. Feeding the proper amounts of a good balanced ration will bring out the maximum milk flow and consequently the maximum amount of butterfat. The percentage of butterfat, however, is an inherent trait in individual animals and is fairly constant.

Generally bunch grasses cannot withstand as close grazing as the graminas and true turf-forming grasses and still maintain their stand.

A ton of leaves or "needles" per acre containing valuable fertilizing elements falls to the ground each year in red and Jack pine forests.

The needles contain many substances essential for plant growth. Analysis of materials given back to the soil by the forest reveals that each year the needles falling on one acre contained nine to 15 pounds of nitrogen, or ammonia, seven to 15 pounds of calcium, two to three pounds of potash and five pounds of sulphur.

STUDENTS' HEALTH GOOD

AUSTIN, July 19.—Health conditions at the University of Texas for this summer are exceptionally good, according to Dr. Leroy A. Wilkes, head of the University Health Service. There are very few hospital cases, said Dr. Wilkes. The number of students confined to hospitals ranges from none to three or four in each of the two hospitals attending to University students. The period of four days free hospital service allowed students during the summer session is being found ample, said Dr. Wilkes.

OUT OUR WAY

SOCIETY GIRL SPENDS \$3,000 FOR TROUSSEAU

LONDON (AP)—The manager of a Bond street firm of dressmakers has estimated that the minimum cost of a society girl's trousseau is \$3,000.

The wedding dress of chiffon velvet or satin, complete with train and trimmed with fur, she prices at \$300, and the veil at \$75 to \$100.

"Trousseau are not what they used to be," she said. "The old-time trousseau consisted of a dozen of every garment. Nowadays a girl has little or no regard for numbers. She just buys what particularly takes her fancy. Most girls include at least six afternoon gowns in their trousseau, and possibly three evening frocks, the price of each model ranging from \$100 to \$150."

San Antonio Man Has Many Crops

(By The Associated Press.)

SAN ANTONIO, July 19.—Many crops, hitherto unknown in the sandy lands south of San Antonio have been raised by S. A. Clark of Elmendorf, who has been conducting a series of experiments to enable him to diversify his products.

Clark raised a crop of eight-foot Sudan grass this year and was successful with experiments with Egyptian wheat and Dorso grass. He has also produced peanuts, cantaloupes, watermelons, cotton peas and corn. He is now preparing to set out an orchard of peach, plum and pear trees.

BIG GOLD FISH

GREENVILLE (AP)—A gold fish weighing four pounds was taken from the municipal reservoir here. Ten years ago John Scott threw a gold fish minnow in the reservoir and this is believed to be the same fish.

Bye, Bye, Black Panther

A haymaker in the fourth round of their flight at Brooklyn from the heavy right of Paolino Uzcudun, Basque battler, definitely put Harry Willis, one-time contender for the heavyweight crown, into the limbo of flitric has-beens. This crackerjack ring shot shows the "Black Panther" at the instant of caressing the canvass, while the referee waves Paolino to a neutral corner.

FEATURES FROM OTHER LANDS

FRENCH TRY TO ABOLISH OLD "TRIAL BY POISON"

PARIS (AP)—"Trial by poison," an old tribal custom of French equatorial Africa, is officially abolished by a recent decree.

Under this system persons accused of crime took poison. If they showed no ill effects they were considered innocent. If they died they were considered guilty.

For years the French authorities have tried to stamp out this custom as well as other brutal and dangerous practices.

FRENCH DRINK LESS WINE, OFFICIAL FIGURES SHOW

PARIS (AP)—It appears that one Frenchman in ten is going dry in defense of his pocketbook. Or it may be that all are watering their wine.

Official statistics show that from 10 to 20 percent less wine has been drunk in France in the last six months than in corresponding periods in the past.

Every man, woman and child, nevertheless, has had an average of 20 gallons, in six months. Twenty percent less wine has been taken out of the warehouses than last year. Taxes paid on wine supposedly consumed indicated that ten per cent less than usual has been sold over the counter.

TIRED OF BOYISH BOB, PARIS SEEKS NEW STYLE

PARIS, July 19. (AP)—The boyish bob is growing up. The head-dress of tomorrow, say the Parisian coiffeurs, will be curly or fluffy or straight and severe, but the day of the clippers is gone.

Short hair of some sort, however, seems in no such danger as was predicted a year or two ago when some of the tonsorial soothsayers said the best investment would be a switch factory.

WOULD TAX AMERICANS FOR PARIS DIVORCES

PARIS, July 19. (AP)—Secret divorces seem to be so highly prized by Americans that a number of French newspapers suggest that a heavy tax on them would be a good source of income.

There is no reliable estimate of how many Americans have their family ties broken over here, since the records are supposed to be highly confidential. The number of American lawyers prospering in Paris would seem to indicate a high rate of family bankruptcy among the tourists.

It is quite seriously contended that American divorce cases clog the courts and cause much expense. It is suggested the tax might be very high because American divorces are reported to bring lawyers here fees as high as \$10,000, which to the French is a quarter of a million francs.

STIFF COLLAR BRIGADE FIGHTS BARE NECKS

PARIS, July 19. (AP)—The stiff collar brigade is getting ready to defend itself against the group of artists, actors and others who go without collars and would have the rest of the world do the same. The anti-collarsites aim at a glori-

fied neckband elongated into a tie or something similar. Therefore, say the collarites, since collars must be worn, the stiff collar meets the need of the multitude that has to pay the laundry bill. Soft collars, changed every hour, look fresh for only a little while. Beauty treatments, they add, might make wrinkled red necks beautiful in a couple of generations, but meanwhile collars appear to be needed.

TOWN GETS LIGHTS AS WEDDING PRESENT

PARIS, July 19. (AP)—A wedding present that didn't go to the married couple is lighting the streets of Courgenay, a little town in Auvergne, southeast of here.

It is an electric street lighting system donated by Dr. Adolphe Javal, when his daughter, Sabine, was married recently.

The originality of the gift was heightened by the strings attached to it. Knowing the ways of officials he made it a condition that there should interfere in any way and that to investigate the matter, that no officials, governmental or local, should interfere in any way and that work should be started in a week after the offer was made. Consequently, contrary to all precedent, the town was lighted by electricity within two weeks.

COME JOSEPHINE, ETC.

CHICAGO—To get away from the heat try an airplane ride, C. A. Donnell, weather forecaster, suggests. For every 300 feet ascent, the temperature drops one degree, he notes.

ABILENE MAYOR AGAINST PROPOSED AMENDMENT

Outstanding men over the state, as their attention is called to the proposed tax amendment, are coming out strongly in opposition to it.

Mayor Charles E. Coombes of Abilene recently denounced the measure in a letter to an Abilene daily newspaper. He said:

"Among other amendments to the State Constitution to be voted on by the people of Texas on August 1st is added Section 1A to Article 8, commonly known as the Tax Amendment.

"The effect of the amendment is to separate the objects of taxation for state purposes from the objects of taxation for county, district and municipal purposes, and to vest the legislature with unrestricted powers in determining what shall be the objects of taxation for such purposes.

"If this amendment is adopted and the possibilities under it are carried into effect it will be but a few years until the average business man will have to keep an expert accountant and a lawyer employed by the year to keep him posted on what he is being taxed for the amount thereof.

"If the power to tax is unrestrained, then extravagance in the expenditure of the revenues thus arising will necessarily follow and what the end may be in burdens of taxation no one can foresee.

"A serious result within the effect of such amendment is the power vested in the legislature to reserve certain properties or objects of taxation for taxation for state purposes, leaving the residue within a given political subdivision of the state burdened with taxation for the support of such subdivision too heavy to bear.

For instance, the legislature may reserve all property of public carriers, all public utilities, all street railways and all corporately owned property for taxation for state purposes and provide that the county shall not tax such property.

To take the place of such objects of taxation so withdrawn the legislature has the power to provide the other objects of taxation shall be left exclusively for taxation for county purposes. What a burden it would be to the people of Taylor county to support the county and city government by taxation on other objects of taxation after all property of public carriers, all public

Warm Weather Hints

IT MIGHT BE A GOOD IDEA TO SLEEP IN THE AWNINGS. OH, BOY, THE WATER'S FINE! A BATHING SUIT AND A FAN FOR THE PUP. A CAR WITH A BATHTUB BODY FOR COOLING YOU OFF ON THE WAY HOME FROM THE SWEATSHOP. WHY NOT A PORTABLE FAN? GIVE THE OFFICE BATHING BEAUTIES AND MAKE CHANCES A LITTLE FREEDOM TOO!

EDUCATIONAL IDEALS ARE RAPIDLY CHANGING

Modern education is influenced by two great factors; training in health and training in the art of making an honest living by use of the hands.

Only a few years ago the curriculum contained only the names of the bones of the body, the function of the organs, and the way the blood circulates.

Health education of today, as it exists in the larger schools, really means the bringing up of the pupils as healthy individuals. They are examined and corrective treatments are given.

That same oldtime education, excellent in emphasizing fundamentals—the three r's—failed, however, to the extent that it discouraged use of the hands for gainful employment and glorified the white collar job.

There is growing sentiment in favor of public education which will, while teaching the highest ideals of living and serving, dignify all worthwhile occupations, whether they are manual or mental or part of both.

There are only 21 \$1.00 bills in circulation—no wonder one never sees them.

WASHINGTON LETTER

BY RODNEY DUTCHER NEA Service Writer.

WASHINGTON.—The Kellogg's Going to Resign club, which used to meet every Tuesday night, now holds only monthly meetings, and it is rumored that they soon will be stretched out to one meeting every six weeks.

The secretary of state has been a sad disappointment to some of the most accomplished rumor mongers of Washington who, as everyone knows, are the most proficient in the world.

The trouble seems to be that although Mr. Kellogg had at one time decided to resign this summer, he has now changed his mind and decided to stick.

At the time when Kellogg foreign policies and the state department were targets for so much sniping that the attacks resembled a barrage, Mr. Kellogg became sick, tired, and disgusted. He was the most irritable man in Washington.

It was during this hour of trial that Mr. Kellogg decided he'd show 'em and—After his policies had stood the strain and emerged more or less triumphant—walk out on the show some time this summer.

Finally Mr. Kellogg got pretty well out of the woods. Nicaragua was pacified, armed conflict was avoided with Mexico, and the Chinese situation was handled in a way that satisfied most Americans.

Another case of bad luck is to buy a two-pants suit and then burn a hole in the coat.—The Humboldt Times.

riding high. He is in comparatively good health and in very good humor. He realizes that the secretaryship isn't half bad if they'll only let a fellow alone, and with this realization has come the conviction that it might be too early to deprive the country of his services for awhile yet.

Why society editors prefer West Texas: Social note — Former Senator Joseph France of Maryland and Mlle. Tatiana Vladimirovna Dechtereva were married yesterday.

Lindy's non-stop flight across the Atlantic was wonderful. This proposal of a German aviator to fly all the way from Berlin to San Francisco without stopping is full of marvelous possibilities.

It is said on good authority that Mr. Kellogg confided as much to some of his friends.

But it now appears that Mr. Kellogg is likely to be with us for some time to come. His critics have stopped hurling raspberry tarts at the nape of his neck and Mr. Kellogg is

TWINKLES

What ho, if summer comes, can winter be far behind; a thief stole an overcoat from a Boston man last week while the sun stood at 95 degrees in the shade.

As desirable as is diversification, one can't recommend the work of the home owner who raises 99 kinds of weeds, so the seeds may blow on his neighbor's lawn.

We don't know much about flying, but perhaps it is possible that there are no bees up there to sting the drivers.

Sixty-two punctures in 30 miles is the record of an Illinois man. And some people are just foolish enough to try to beat it.

Why society editors prefer West Texas: Social note — Former Senator Joseph France of Maryland and Mlle. Tatiana Vladimirovna Dechtereva were married yesterday.

MOMN POP A Case of Necessity By TAYLOR

SOMETHING TO THINK ABOUT

By F. A. WALKER

THE GREATEST MAN

LORD BRYCE—better known to us as James Bryce, author of "The American Commonwealth"—started something at Williamstown, Mass., when he dropped the remark that Masaryk, the President of the Czechoslovak republic, was one of the three really great men to come to the front during the war.

The experts from all over the world attending the meetings of the Institute of Politics, began speculating as to who were the other two.

Then, to the surprise of a great many persons, he mentioned Venizelos, the former prime minister of Greece, and Jan Smuts, the clever premier of South Africa.

An American citizen born in Athens, said recently that the Greeks drove Venizelos out of power "because he was too able."

A former Africaner, now an American, says that the best way to gain the respect of Britons is to fight them: "Take the case of Smuts" said he. "The biggest man in the empire!"

Well, it is significant that all of Bryce's "Big Three" belong to small nations and that, though the greatest war of all time had just come to an end, he did not mention a single soldier or sailor.

This was not to be explained by the fact that Foch, Pershing, Haig, Petain, and most of the other commanders by land and sea had not made public the diaries and journals that they kept while the fighting was going on.

All the world knew at once who was the greatest man produced by the American War of Independence. Everybody knew at once who was the greatest man produced in the American Civil war. Nobody has any doubt as to who was the biggest man in the Napoleonic wars.

Are we in a period of small men in big places?

Right on top of Lord Bryce's expression of opinion Maurice Case-nave, French high commissioner to the United States, said a strange thing. He remarked that undoubtedly the greatest figure in the history of the English-speaking world is Sir John Falstaff.

That sounds like a joke. But is it? Shakespeare's fat knight—coward, thief—is yet the most lovable of men. He is more real to us than Lloyd George or Clemenceau or others we might name. And when these striking figures have sunk into the mists of history, future generations will be reading with delight how Falstaff, as a young man, used to hear the chimes at midnight.

Never was a greater compliment paid to anybody than that of Bar-dolph to Sir John when he said: "I would I were with him wheresoever he is, whether in heaven or h—l."

That a character, not at all rep-utable, but invented by the greatest English-speaking genius, should be regarded as a "leading figure in history" shows the triumph of mind over matter and experience.

Do You Know

...??... That: ...??...

"NEST-EGG" is an allusion to the custom of placing an egg in the hen's nest to induce her to lay her eggs there. Similarly if a person has saved a little money it serves as an inducement to him to add to his store.

And so the expression has come to mean something laid up as the beginning of a fund or as a reserve. The nest-egg is like a decoy or an artificial inducement to continue to increase the collection.—Anna S. Turquist. (© 1927, by Western Newspaper Union.)

Mother's Cook Book

Labor is wholesome for all. Joy by it is sustained, and it diverts the greatest sorrow. It means that the good God made it for each of us.

THE FAMILY MEAL

ALL rich cakes, puddings, pies and preserves should be eaten sparingly after the age of sixty. All green vegetables, such as spinach, peas, lettuce and cress, should find a place in one meal each day. These are especially valuable for growing children and equally valuable for the aged.

Orange Sauce.

Mix one cupful of sugar, rind of one orange and two tablespoonfuls of cornstarch; when well blended add two cupfuls of boiling water and cook until thick and the cornstarch taste is removed; then add a tablespoonful of butter, one-third of a cupful of orange juice and a pinch of salt. Serve hot over plum or cottage pudding.

Fruit Sandwiches.

Finely chop well-washed figs, add a small quantity of water and cook in a double boiler until a paste is formed. Sweeten to taste and flavor with grated lemon peel; cool and spread on slices of buttered raisin or nut bread. Press together in pairs and cut into four small triangles. Garnish each with a large seeded raisin.

Prune and Nut Sandwiches.

Remove the stones and finely chop one cupful of prunes, add one-half cupful of chopped English walnuts, moisten with mayonnaise dressing and use as a filling between thin slices of buttered bread. Cut into any desired shapes and serve with coffee.

Chicken Pie With Oysters.

Cut into pieces a nice fat chicken, put into a saucepan, cover with boiling water, season highly with salt and pepper and stew until it is tender. Line the sides of a baking dish with a nice rich crust. Remove the largest bones from the chicken and place the meat in layers with oysters, salt and pepper and pieces of butter. Pour in half the chicken broth and some of the oyster liquor. Cover with a top crust and bake.

Benares Salad.

Take one cupful of grated fresh coconut, one pint of cubed apple, one cupful of finely cut celery, one small onion cut into fine cubes; mix all well and moisten lightly with the milk of the coconut, let stand until well chilled, add a light seasoning of French dressing, and when ready to serve add plenty of mayonnaise.

Neeli Maxwell (© 1927, Western Newspaper Union.)

"Charity solicitors who get a rake-off remind me of cream separators," says Practical Polly, "they take the fat out of the milk of human kindness."

CZECKS' "FIRST LADY" PLANS VISIT TO WOMEN BENEFACTORS IN AMERICA

LEFT - ALICE MASARYK TOP - JANE ADDAMS

Jane Addams and Mary E. McDowell, social workers here, learned of her plight and recruited scores of American Women to write and telegraph Austrian authorities imploring her release.

"She was suddenly released," Miss McDowell relates. "We hope the pressure brought to bear by American women had something to do with it."

If her father's health permits, Miss Masaryk will come to the United States in 1928 to express her gratitude to Bohemian people in this country who have aided the cause of the Czech nation. Since her mother's recent death she has been, as the eldest Masaryk daughter, the "first lady" of her land.

It will not be Miss Masaryk's first trip to America or Chicago. She was trained under Miss McDowell, at the University of Chicago settlement, for social work in Czechoslovakia. She now heads the Red Cross in her own country and serves on its international committee.

Miss McDowell and Miss Julia Lathrop of Rockford, Ill., wear Czech decorations, the Order of the White Lion, conferred by the republic for their long service in behalf of children.

CHICAGO, July 19. (AP)—Alice Masaryk, daughter of the president of Czechoslovakia, plans to celebrate the republic's 10th anniversary next year visiting two Chicago women who helped obtain her release from an Austrian military prison, when she was threatened with execution during the world war. Miss Masaryk was held for nine months as a hostage by Austria when her father, imprisoned for his refusal to bear arms for the central powers, escaped to France.

Smith Wise, Jr., is visiting relatives in Lubbock this week.

Mrs. Trudie Stone and little son, who have been visiting with Mr. and Mrs. J. L. Stroop, left Monday for their home at Sweetwater. They were accompanied as far as Amarillo by Mr. and Mrs. Stroop and their daughter, Miss Donnie Lee.

The Ladies Aid society will meet at the Christian church Wednesday afternoon at 2:30 o'clock.

Miss May Blue of Santa Anna arrived Sunday to visit her sister, Miss Betty Blue of this city. They left Monday for a short visit with relatives and friends at Hollis, Okla.

Clarence Barrett departed Tuesday for Atlanta, Ga., where he will re-enter Georgia Tech.

Mrs. Paul Shepherd returned Monday from a month's visit at Winchester, Ky.

Mr. and Mrs. L. A. Dennison left Saturday by motor for a visit with relatives and friends at Los Angeles, Calif. They expect to be gone two weeks. Mr. Denison is with the Oil Well Supply company.

Mr. and Mrs. J. R. Henry spent Saturday and Sunday at the J. A. Ranch with Mr. and Mrs. Clinton Henry.

Mr. and Mrs. Back Entertain Friends

Mr. and Mrs. Jack Back entertained a number of friends Monday evening with a farewell dinner honoring Mr. A. Hubbs, who is leaving today for Cameron, West Va.

The guests included Mr. and Mrs. James Marle, Mr. and Mrs. Will Seltz, Mr. and Mrs. J. E. Wright, Mrs. Ida Watson, Miss Carrie Watson and the honor guest, Mr. Hubbs.

Miss Mabel Davis Is Hostess

Miss Mabel Davis very charmingly entertained a number of friends Monday evening at her home.

Three tables were arranged for bridge. Miss Wilma Chapman won high score prize for the ladies and William Gould for the men. Miss Jewel Flannigan received consolation.

After several interesting games, an enjoyable ice course with punch was served to Mr. and Mrs. F. Morton, Miss Bernice Chapman, Miss Margaret Schmidt, Miss Jewel Flannigan, Miss Wilma Chapman and M. L. Middleton, William Gould, William raser, Tom Simmons and Herb Henry.

CANYON ODD FELLOWS' HALL IS DESTROYED

COLLEGE STATION, July 19.—Known origin destroyed the Odd Fellows' Hall at Canyon this week. The building carried \$1500 insurance, but this amount does not cover the loss.

The entire roof of the large hall, which is almost half a block in length was ablaze before it was discovered. The new pumper fire truck which was recently purchased was used to good advantage. There being no wind, sparks were not carried far and no other buildings were damaged.

PHONE 72

Miss Lorene Weir and John Gilman, the latter the son of Mr. and Mrs. W. A. Gilman of Wheeler, were united in marriage Saturday night at LeFors. They will make their future home in this city.

Mr. and Mrs. H. D. Lewis, Mr. and Mrs. John Willis and their guests, Mrs. Eli Willis and Misses Ivey, Alma and Imogene Willis, departed for Wichita Falls Sunday in answer to a telegram stating that Mr. Willis' father was seriously ill.

Perry LeFors returned to Lawton, Okla., Sunday after visiting Mrs. Emma LeFors and other relatives here.

Mr. and Mrs. W. A. Gilham of Wheeler spent Sunday with Mr. and Mrs. J. W. Wallace and Miss Bertha Gilman of this city.

Mrs. W. Mullinax and children were Amarillo visitors Monday.

E. E. Eslick of Amarillo were here today on business.

David Harmon returned Sunday from a visit in Tulsa, Okla.

Joe Reed and Jack Dean were Clarendon visitors Monday.

Mrs. M. I. Goodfellow left Monday evening for Canyon to attend West Texas State Teachers college. She has been visiting her daughter, Mrs. C. C. Cook and family in this city.

J. W. Rose returned to his home in Lubbock Tuesday morning, after a visit with his sons, Tom, Bonnie and Bob.

C. C. Alexander expects to leave tomorrow for Casper, Wyo., for a two weeks' visit.

H. C. Powell and son, Lawrence, of Elk City were business visitors in this city Sunday.

Mrs. Harry Lovelace and children left Tuesday morning for a few days visit with relatives in Borger.

Mrs. C. T. Hunkapillar and Miss Eloise Van Kirk spent Tuesday and Wednesday in Amarillo.

Mr. and Mrs. T. W. Johnson and little daughter, Mary Beth, spent Tuesday in this city enroute to Perryton from Raton, N. M., where they have been visiting relatives.

Otto Studer was a McLean visitor Tuesday.

O. C. Shields of Borger was a Pampa visitor Tuesday.

Dick Culpepper and Wade Duncan went to Mobeetie Tuesday on a fishing trip.

Mrs. Eual Warren and children of Amarillo spent the week-end with Mrs. D. C. Meador and family.

Mrs. Walter McConnell and Mrs. S. M. Wise were Amarillo visitors Monday.

O. K. Baker, Frank Shriver and C. T. Hunkapillar saw the ball game at Amarillo Sunday.

Mrs. Emmett Osborne and children will leave Friday for an extended visit with relatives and friends at Nava Sota.

Sam Fenburg will return Wednesday from a business trip to Chicago.

Mr. and Mrs. George Cooper of this city have gone to Perryton to make their home.

Mrs. M. Levine and house guests, and Mrs. Sam Fenburg will spend Wednesday in Amarillo.

Mrs. B. E. Hudgins of Clarendon and Mr. and Mrs. Tracy Hudgins of Arizona, were guests of Mr. and Mrs. C. W. Saunders Sunday.

G. T. Oliver of Amarillo spent Tuesday in this city.

Tom Whalin of Amarillo was a business visitor in this city Tuesday and Wednesday.

Mr. and Mrs. Seaford McKee returned Monday from a vacation trip to Colorado.

Mr. and Mrs. James Logan returned to this city Sunday from California.

Miss Beesie Jackson and Miss Elizabeth Hayter have returned to their homes in Fort Worth and Dallas after a week's visit with Mr. and Mrs. John Henry.

A. Hubbs left Tuesday for Cameron, W. Va. Mr. Hubbs has been in Pampa several months and has made many friends here, who will be glad to know that he expects to return this fall.

Social Calendar

The Ladies Aid of the Christian church will meet Wednesday afternoon, the place to be announced later.

The Ladies Auxiliary of the Presbyterian church will meet Wednesday afternoon with Mrs. L. L. Masters.

The Women's Missionary society of the Methodist church will meet Wednesday with Mrs. O. W. Ferguson.

The W. M. U. of the Baptist church will hold their general monthly meeting at the church Wednesday.

The Amusu Bridge club will meet Tuesday afternoon with Mrs. A. H. Boucette.

The Friday Thirteen club will meet at the Schneider hotel with Mrs. O. K. Baker as hostess Friday afternoon.

County Schools To Be Studied by Superintendents

CANYON, July 19.—Fire of un- (AP)—Some 75 Texas county school superintendents will speak their minds as to the proper "supervision for growth" of public schools in their fourth annual conference here July 25 to 30.

State Superintendent of Public Instruction S. M. N. Marrs is to be here and Supt. E. S. Richardson, of Webster Parish, La., one of the feature speakers of the superintendents conference, will deliver an address on consolidation problems.

President T. O. Walton of A. & M. will welcome the superintendents at the opening meeting the morning of July 25 and W. L. Hughes will discuss problems in supervision. Speakers for the afternoon of the opening day include: Mrs. Claire F. Pollard, Bay City; Supt. Luella Hauk, Anson; Supt. Burt Bryant, Wichita Falls.

A standard type of rural school, how to lead the rural community to want a better type of school, consolidation problems and nature and contents of industrial work in the rural schools are some of the topics that will come in for discussion.

BILLY GOAT, THE POET

There's going to be a great meeting in the barnyard," said Porky Pig. "Grunt, grunt, all come to the meeting."

"All come to the meeting," said Mrs. Duck. "Quack, quack, all come to the meeting."

"Yes, cock-a-doodle-do," said Red Top the Rooster, "all come to the meeting."

"All the old friends and enemies—though I trust there are no enemies—will come and greet each other. 'It's to be a fine reunion.'"

"Yes, squeal, squeal," said Miss Ham. "It is to be a fine reunion."

"We, of the barnyard, can also have a splendid reunion!"

"Oh, yes, every one must come to the reunion," said Billy Goat.

"They must, grunt, grunt," said Brother Bacon.

"Has every invitation been sent out?" asked Mrs. Ham.

"Every one," said Mrs. Duck.

Just then a caterpillar crawled along

Everyone congratulated Billy Goat upon his song which was a quite original one. The words, everyone said, were a little better than the music, but it was all good, all good, they said.

And Billy Goat was delighted with the praise. In fact so delighted was he that he said he had another he'd sing, though he'd have to think a little about it.

While he was thinking, though, he was talking about it.

"You see," he said, "I heard one of the young ladies talking the other day, and it seemed she had gone to town dressed in all her old clothes because it had been a rainy day when she had started."

"Yes, she had on an old hat, and old shoes and rubbers, and an old skirt and coat. And no sooner had she reached town than the sun came out and there was she on this most beautiful day feeling so like an old rainy day."

So this is the song I'm making up about that:

There's nothing sadder in this world Than to have the sun come out When you're dressed in all your old clothes Because you were in doubt.

"Of course," said Billy Goat, "she had been in doubt as to whether she'd wear her good ones because she had seen a little blue sky in one corner of the sky but she had been afraid that it would rain."

"We see, we see; a fine verse, Billy Goat. We shall have to name you the Poet of the Barnyard. Truly that would be an honor and one that you deserve," the other animals said.

So when the creatures all came to the Barnyard Reunion Billy Goat or Sir William Goat, the Gentleman, was also called "The Barnyard Poet."

Yes, everyone was on hand, or perhaps one should say on foot, for the reunion. Porky Pig and Mrs. Duck helped to entertain.

The song sparrows came and the owl sent word he was sleeping or he'd come. (They hadn't asked him so they were just as glad he couldn't come.) The Dog who had become so brave came along, so did Sharp Squirrel, Running Rabbit, Mrs. Blue Jay, and all of the ducks and pigeons and hens and roosters and pigs and geese and turkeys.

In fact it was a splendid reunion and there was excellent food, though of course the Pig family forgot about entertaining any but themselves when the food came along!

But there was enough to go around. The Geese weren't quite as polite as they should have been, of course, but taking it all in all it was a splendid barnyard reunion.

(Copyright.)

Everyone Congratulated Billy Goat Upon His Original Song.

through the barnyard, hurrying out of the way for fear he might be eaten or trampled upon or killed in one of the ways creatures had of getting rid of caterpillars.

Billy Goat saw him and sang this song:

The caterpillar only crawls, He is not much admired, But he'll become a butterfly, For with high ambitions he's bred.

Cahill Knocks Out Newman in Third Round of Fight

"Rusty" Cahill, Pampa's favorite welter, won last night's bout by a K. O., his second of the season. Although a semi-final, the bout was the best of the evening. The knockout blow landed on the chin in the third round of the scheduled six-round bout.

The opening bout was a newsboy mill with honors about even, but the thriller of the evening was when the Bruick brothers, fighting under the names of Kid Carl and K. O. Vincent mixed it. The two youngsters, one weighing 46 pounds and the other 38 pounds, stood up and slugged for three rounds. They challenge all comers within nine pounds of their weight.

One of the best fights ever put on by the club was a newsboy go-between Eddie Phillips and O. D. Marshare. The boys were fast and clean and delighted the large audience.

When "Rusty" stepped into the ring he was greeted with cheers from teammates on the Gray club, who were there in full force. Red Newman substituted for Jimmie Murphy, who was under weight. Newman is a fast, aggressive boy who carries a wicked punch, but the crafty Cahill kept away from the haymaker and landed his right hook to the jaw in the third round.

It was Cahill's bout all the way, Newman taking a count in the second round. Newman lacked one second of being saved by the bell in the fatal third.

The main bout between Dick Bryant and Teddy Hargrove was a disappointment to the crowd. The boys clinched and hugged and Bryant won in the third on a foul.

In the opening round, Hargrove took a count of six, but made a great comeback and in the second knocked Bryant down for an eight count. The foul came in the third after Bryant had floored the Oklahoma toddler with a hook to the jaw. Coming up, Hargrove swung wild and knocked Referee Oscar Dotson for a count but swung right on his second attempt and hit Bryant low.

Texans Wake Up and Beat Indians by An 8 to 6 Score

OKLAHOMA CITY, July 19.—Bunched Texan hits and Indian errors resulted in an 8 to 6 victory for the Amarillos.

Davis played a great game, and got three hits out of four times at bat, one of them a double.

x Batted for J. Newton in 8th.

NEWARK, N. J., July 18. (AP)—The "Four Sprinters of Newark" have sprinted right into a niche in the athletic hall of fame, beside the "Four Horsemen of Notre Dame" and other notable groups.

Without any ballyhoo or drum-beating Messrs. Chester Rowman, John Currie, Jimmy Pappas and Henry Cumming Jr., the Newark Athletic club relay team, departed for Lincoln, Neb., one day recently to take part in the National A. A. U. championships.

Coach Carl Anderson decided to have the baton passed from the right hand of the running man to the left of the waiting man, thus reversing precedent, but nothing was broadcast about that.

Competition in the 440-yard relay was terrific. Four times in five minutes the old record of 42 seconds, set in 1925, was broken. When the tumult and shouting died and the dust settled, it was found that Newark did the distance in 41 seconds.

AMARILLO, July 19.—The Amarillo Golden Sandstorm football squad will meet some other Panhandle high school team as one of the features of the final day of the fair, September 17, this year.

Arrangements for the date were closed this week between fair officials and Hugh L. Butler, high school coach. Mr. Butler is now seeking a suitable opponent for what is believed will be one of the strongest teams to ever represent this city.

In addition to the football game there are many other things planned to make the final day of the fair a real climax.

In addition to the football game there are many other things planned to make the final day of the fair a real climax.

How It Started

By JEAN NEWTON

THE BEAUTY SHOW

FOR the first beauty show, the original ancestor of that now popular modern institution, we must go to the pages of Greek mythology and the award which caused the Trojan war!

It all started when Eris, the Goddess of Discord, enraged at not being invited to a certain wedding, threw among the guests a golden apple marked, "For the most beautiful."

Juno, Venus and Minerva each made claim, and Jupiter, who was expected to make the decision wisely passed the buck to Paris, the beautiful shepherd.

All three goddesses went to Paris, on Mount Ida, where he tended his flocks. Juno promised him power and riches, Minerva glory and renown in war, and Venus the fairest of women for his wife. It was Venus who got the golden apple, and under her protection, Paris went to Greece as the guest of Menelaus, king of Sparta. It was Helen, the wife of Menelaus, whom Venus had destined for Paris. And now Paris, aided by Venus persuaded her to elope with him, and so started the Trojan war, the subject of the greatest poems of antiquity.

Speaking of modern beauty shows, the one held at Spa, Belgium, in September, 1888, appears to have been the first. There were three hundred applications, we learn, and a French girl took the prize.

For Meditation

By LEONARD A. BARRETT

THE SIXTH SENSE

A FAMOUS artist had three pupils. The first worked hard and long, earnestly endeavoring to reproduce a copy of one of his master's paintings. In spite of all his efforts he did not achieve success. He was only a copyist, an imitator. The second pupil endeavored to attain success by studying the technique of his art. He listened to great lectures. He read all the literature he could find upon the subject of his art. There was not a great art gallery that he did not visit. He could easily identify the works of the masters. He was splendidly educated in the science of his subject, but he never learned to paint. He could rise no higher than a third-rate artist. The third pupil did all that the other two achieved, but went one step further. He daily sought for opportunities when he could associate with his master and teacher. He studied every movement of his brush. He worked with him long enough to have caught his spirit. He was rewarded by being able to paint with the same skill because he painted with the same spirit. The spirit of the teacher reproduced itself in the works of the pupil.

The person who succeeds in life is the one who can interpret to others the spirit of his task. It is true in the commercial world as it is true in the world of the arts and sciences, that the man who would rise in the ranks of toilers is he who is more than a mere imitator or an abstract idealist. To convince another of the salability of an article of merchandise one must have for sale something more than the article itself. He must impart that invisible "something" that convinces and impels, and persuades the name "to be written on the dotted line." This invisible something might be called the sixth sense for through it there is disclosed to another what is impossible through any of the other five senses. The elements which made up personality are invincible. The person who does not give himself through his works fails. The unreal-imitation and pretense is shuffed off in the struggle. It can go just so far and no further. It can never reach the summit heights of success. Only the REAL can do that.

YOUNGEST EXPERT THINKS DADDY "COULD KNOCK OUT DEMPSEY EASY"

BY EDWARD J. NEIL

SARATOGA LAKE, N. Y., July 19. (AP)—The youngest fight expert to cast X-ray eyes on Jack Dempsey is Billy Shade, "six and a half," son of the flashy California middleweight, Dave Shade.

Tiny Billy weighs just 65 pounds, but he knows his punches. He has yet to lose a decision to a "six and a half," although Billy is frank to admit that a seven-year-old trimmed him once and a "niner" even blacked his eye and made his nose bleed.

Billy sits in the front row at every workout. When Dave, a California pal of Dempsey, climbs into the ring, Billy, in his mind, gets in too. Across the ring from the newspaper men Billy clinches his fists, grits his teeth and follows every blow, ducking instinctively as Dempsey sets a terrific pace with "daddy."

The moment the final gong sounds and nothing serious has happened to Dave, a wide, satisfied grin settles on Billy's features. He clambers up to shake his father's hand. Sometimes he climbs inside the ropes himself to shadow-box like a ring-tried veteran "to keep himself in shape." Often when Billy reports for bed at 8 p. m. dog-tired, his mother finds the reason in a pocket full of quarters, gained from surreptitious shadow-boxing before groups of admirers in stray corners of Tom Luther's hotel.

"You know," Billy told the Associated Press, "Dempsey is a great fighter and I think he'll knock out Sharkey, but I think my daddy could knock Jack out easy."

"Twice today my dady had Dempsey on the ropes, and I think he could have done it then. Of course," he confided, "Jack had daddy on the ropes once, too, and I was afraid he was going to catch it."

The loyal little fellow took his protest right to Leo P. Flynn, Dempsey's manager.

Texas U. Will Open Season With Oklahoma Teachers

AUSTIN, July 19.—The University of Texas football team will open the season this fall in Austin with a game on September 24, playing Oklahoma Southwest Teachers' college. October 1 Texas will play Texas Christian University in Austin. On October 8 a game is scheduled with Trinity University at Austin.

In Dallas on October 15 the Longhorn players will meet Vanderbilt. Again, at Austin on October 22, the Texas team will play Rice Institute. October 29 has been set aside for a game with Southern Methodist University in Dallas. Baylor and Texas will meet in Austin November 5.

COAL DIGGING ARMS

DES MOINES, Iowa (AP)—John Collins, manager of the Des Moines baseball team in the Western league, thinks he has found in Joe Zahn, an Orilla, Iowa, coal miner, a pitcher destined to make a name for himself.

And he is reminded that baseball talent which comes from the coal mines seems to run to pitching. Ted Walsh, the famous pitcher of a baseball generation ago, came to stardom from the Pennsylvania mines, and Mike Cvevogros of the Pittsburgh Pirate pitching staff came from the coal mines at Pana, Ill., originally as a member of the Chicago White Sox.

SPORT TALK

The Pampa Grays are having daily practice at the park and are fast becoming a smooth playing machine. Buffalo Hines, veteran third sacker, should arrive today and will strengthen the hot corner.

Ketchum, former Oklahoma City pitcher, was in the city yesterday and signed a contract to play for the Grays in the tournament. He brought Powers, a promising youngster, with him and the kid will be given a chance to show his wares.

The Grays will meet the Clarendon nine here Thursday afternoon for the purpose of seeing how they are suited to their positions, before going to the tournament.

It was Gehrig's time to go into the home run lead yesterday and Ruth stepped back. That pair must watch their step or old "Hack" Miller will be up there showing them a clean pair of heels.

The Amarillo Metros have picked up Sam Scaling for the Amarillo tournament. This means that the local boys will be playing ball against Clayton, who is catching for Shamrock, and Scaling, on third for Amarillo.

Bob Clarke has been transferred to McCamey for a time but will be with the Grays in the tournament. He will be back with the Grays within the next few weeks.

P. J. R. Macintosh, representative of the Western World, is in Pampa preparing stories for his oil journal.

"Say! Why don't you let my daddy knock out those fellows in there instead of telling him to get punched around?" he demanded.

"You keep quiet or I'll tell your father who knocked the bricks off the porch," was Leo's hard-hearted rejoinder.

"Well," said Billy, "let's you and I be regular fellows, then."

To Billy there is just one fighter in the world. No matter where or when Dave puts the question, "Who's the greatest fighter in the world?" the shouted answer comes quick as a flash:

"Dave Shade of California."

For Meditation

By LEONARD A. BARRETT

HOPE

A MAN was once asked for a contribution toward the erection of a monument to which he replied, "Not a dollar. I am ready to contribute toward building monuments to those who made us hope, but I will not give a dollar to help perpetuate the memory and influence of those who live to make us despair."

The ship at sea fights against the storm. Something goes wrong with her machinery. She is at the mercy of the forces of nature which seem destined to play havoc with her craft.

We could not live very long in a world where there was no hope. The worst possible thing that could happen to any person is to be plunged into that hell on earth where all hope is abandoned.

A man who has no hope in his heart is an unwelcome member of society. Wherever he goes he finds himself not wanted.

How It Started

By JEAN NEWTON

"HYPOCRITE"

THE hypocrite today may be, indeed, he usually is, a good actor. He may be an artist in dissimulation; but if so, it is a shameful art and one that is looked upon with nothing but contempt.

The word comes from the ancient Greek, where hypocrisy meant acting a part on the stage. The more artistically a role was performed, the more perfectly a player concealed his own personality in that of the character he was supposed to assume.

Little did the lovers of the Greek theater dream how their good word would be perverted and corrupted in the centuries to come.

At Herrin Gang Trial

On trial with Charles Birger at Benton, Ill., for the murder of Mayor Joe Adams of West City, are Art Newman and Ray Hyland (alias Izzy the Jew). Newman and his wife are pictured above. Hyland left. The slaying of Adams climaxed the bloody warfare of the last several years between Birger's gang and its rivals, with "bloody Williamson county" as the seat of activities.

Facts Are Given About Mobeetie, Pioneer Town

MOBEETIE, July 19.—The following short sketch containing many interesting facts about Mobeetie was written by Miss Letta Arnold, a student in the seventh grade during the recent summer school conducted by Mrs. R. M. Bradshaw at the Wheeler high school building.

Mobeetie

Mobeetie is located near Fort Elliott on Sweetwater Creek, 14 miles west of Wheeler. In 1886 it had a population of 750 whites and negroes. There were six business houses; the Path & Hambury General Merchandise; Dickerson Bros. General Merchandise; McKinney and Huffman Hardware and furniture; I. N. Brown Ladies and Gents Ready-to-Wear, and N. Bojes Dry Goods and Ready-to-wear.

In 1890 the first bank was built by J. L. Dickerson. May, 1, 1898, at 1:30 a. m. a cyclone struck Mobeetie which killed 3 persons, hurt several and left the town in a wrecked condition.

In 1904 the first cotton gin was built by J. J. Long. The town had good churches and a school. J. J. Long, Geo. B. Dunn, J. E. Oakes, Mark Huseby, W. H. Ellis, all living in Mobeetie today, were among the oldest settlers of the town.

Fort Elliott, is one and one-half miles from Mobeetie. The soldiers had great adobe walls, houses and barns, which are now torn down. There is a well left today, a cemetery and a few adobe bricks where the walls used to stand.

The fort was a great protection from the Indians who were very savage at that time.

March 8, 1908, Wheeler became the County seat and by September 1, of that year, they had the court house moved and ready for use.

FRENCH MANEUVER AUTOS IN NEW WIRELESS GAME

PARIS (AP)—Wireless-equipped automobiles, more than a hundred of them, have staged the first "automobile radio rally."

The cars received their orders by radio and were sent 150 miles over bad roads in various directions. All arrived finally in the late afternoon at the Monthery speedway south of Paris.

This contest, encouraged by the government, was intended to develop ideas for rugged portable equipment that could stand rough usage and hard riding.

Every hour additional road directions were sent out on a 222-meter wave. Each contestant had to prove by a textual report that he had received the orders and had not simply followed the other cars.

One car with the antennae in the top caught the wireless while traveling 30 miles an hour. Most of the instruments were built by amateurs.

LOTS OF ONIONS

MCKINNEY (AP)—Two acres of land owned by R. L. Leppard, Collin county farmer, near Culleoka yielded 365 crates of onions. The White Bermuda variety netted the farmer \$730.

Let a want ad work for you.

Texas Leads All In Landing Fields

(By The Associated Press.)

DALLAS, July 19.—Texas has more airplane landing fields than any other state in the union, according to figures given out by the Dallas Chamber of Commerce.

There are 34 municipal landing fields, 11 commercial fields, and 213 emergency landing fields in the state—7.1 per cent of the nation's total. More than half of the United States army flying training is done in the state, there being 16 federal landing fields in Texas, it was revealed.

California is the next ranking state and Illinois, Pennsylvania and New York follow.

BAKER SETS RECORD

PARIS—Machinery has not yet replaced skill in the bakeries of France. Leon Nicolas, the champion baker of Paris, at the recent salon organized under the patronage of the International Bakers' Institute, shaped and prepared for baking in four minutes' time, five long loaves, two round loaves, six long rolls, six crescent rolls and five round rolls.

NEW TOY FOR BRUINS GLACIER PARK, Mont.—Bears stole the butter from a spring near the construction camp of the new Prince of Wales hotel, so the cook devised a bell which would ring in event of another raid. Aroused the next morning by a clanging, the cook found a mother bear gleefully swatting the swaying bell for the amusement of two cubs. The butter was gone.

STUDIES OKLAHOMA RESOURCES

AUSTIN, July 19.—Mineral resources and formations in Western Oklahoma are being investigated this summer by F. M. Bullard, adjunct professor in geology and mineralogy of the University of Texas, who is working with the Oklahoma Geological Survey. Mr. Bullard has been granted a leave of absence from the University for the coming year and will go to the University of Michigan at Ann Arbor.

EDITOR CHOSEN

ALPINE (AP)—Fannie May has been chosen managing editor of the summer Sul Ross Skyline. Joyce Callihan is society editor and J. T. Wallace is sports editor.

300 Horses Being Trained For Races

AMARILLO, July 19.—More than 300 horses are in Amarillo being trained for the annual Amarillo Tri-State Exposition mid-summer racing program to be held at fair track here July 18 to 23.

C. H. McMillan, veteran starter and manager, is in charge of the arrangements. A large share of the proceeds will go toward financing the 1927 Greater Amarillo Tri-State Exposition, September 11-17.

Some of the leading race horse owners of the Southwest with winners at recent meets in Tulsa, Jaures and other cities are waiting the start of the races Monday. Five races will be run each day for a total of \$3,500 in purses.

LIKE ZONING

ALPINE (AP)—Zoning restrictions made by the city commissioners here recently proved so popular that the restricted zone has been extended to include a large part of the town.

FARMERS PLAY BALL

CHICAGO (AP)—When the teams in the Illinois Farm Bureau baseball league line up at twilight once a week after a hard day's work in the fields, their games may lack major league technique but their endeavors are no less spirited. The teams of the farm league, first of its kind in the country, are made up of real farmers, who must belong to the farm bureau and live on farms. Some of the games attract 4,000 fans. Farm bureaus in neighboring states are considering leagues of their own, and the Illinois teams envision a farm bureau "world series" before many years. The state championship this year will be fought out at Mooseheart August 11, and plans are being made for an attendance of 50,000.

- LOST**—New \$5 by 6 heavy-duty Goodyear balloon tire on rim Monday night between Pampa and Magnolia yards. Bring to Magnolia office or notify the office for reward. 107-61c

Good Dessert Easily Made

WASHINGTON, July 19. (AP)—A simple dish is the delectable dessert known as "floating island," says the United States Bureau of Home Economics.

Put one quart of milk into a double boiler with one-half cup of sugar and one-eighth teaspoon of salt. When the mixture is hot drop the stiffly beaten, sweetened white of five or six eggs on the surface by spoonfuls.

Let these "islands" cook for a

few minutes until thoroughly set. Then skim them off and put aside until the custard is made. Beat the egg yolks lightly, and pour slowly into them some of the hot milk. Pour back into the double boiler and stir constantly until the custard coats the spoon. Remove at once and place the pan in a bowl of cold water, stirring until cool.

Add one teaspoonful of vanilla or other flavoring if preferred. Chill and serve in individual glasses or dishes.

Eleven Baseball Men To Be Honored At U. of Arkansas

(By The Associated Press.)
FAYETTEVILLE, Ark., July 19.—Twenty-three University of Arkansas freshmen track and baseball men will be given sweater numerals soon. Eleven are baseball men and 12 are track stars.

To Clarence Geise of Wesson, went the honor of receiving the most athletic awards among the yearlings during the past year. The former Hainesville, La., high school and all-state star, earned his "1930" emblem for participation in football, baseball and basketball.

Charles Taylor, Morris, Okla.; Clyde Van Sickle, Elm Wood, and Jack Blythe, Fordyce, each earned numerals for their efforts on the track and gridiron. Raymond Roules, Nashville; Jacob Schoonover, Pochontas, and Forrest Annen, Hot Springs, received awards for play on the court and on the track. Howard Horst of Stuttgart, was captain of the undefeated yearling cage squad and star hurler of the diamond team.

Others to receive awards from the university athletic council and to get their numerals; J. P. Baker, Gilbert Cornwall and Gilroy Cornwall, Dardenelle; Carol Butcher, Gillet; Hal Douglas, Bentonville; J. P. McGehee, Fayetteville; Gene Poindexter, Morrilton; Richard Speck, Frenchman's Bayou, and Claude Trimble, Berryville, all in baseball. The rest of the track candidates to get numerals are: Gerald Steltzlen, Leslie; Carnell Gardner, Fort Smith; Hampton Halsell, Arkadelphia; Straud Armstrong, North Little Rock; Richard Broach, Camden; and H. E. Sanders, Hot Springs.

NEW SCHOOL BUILDING

RAYMONDVILLE (AP)—The Edinburg Independent school district has set aside \$70,000 for construction of a school building at Hargill. Fifty thousand dollars will be used for the building and \$20,000 for equipment.

HOUSEHOLD HINTS

Thousand Island dressing is a mayonnaise dressing to which chopped, highly flavored materials are added. There is no rule about what these finely chopped ingredients shall be. Some suggestions are hard cheese, hard cooked eggs, pickle, olives, radishes, celery, green peppers, pimientos, capers and onions. As many as six such ingredients may be combined, according to taste and supply at hand.

Bluing water should be made just before it is used. If allowed to stand, it is likely to streak the clothes. Shade tests are made by dipping a small garment and then holding it to the light, or by holding a little of the water in the hollow of the hand. Heavy fabrics require more bluing than thin ones. All bluing should be stirred occasionally while in use. Only a few pieces are blued at a time, and are not left to soak in the bluing.

HERE AND THERE IN GOLF

WASHINGTON (AP)—Golfers scoot at a south-paw in tournament play should analyze the 69-68-69 made in consecutive rounds by Earl McAleer in the spring tournament of the Menor club.

McAleer, a product of the public links, had so many one-putt greens that his partners lost the count. Al Tredler, the club professional, said it was the first time in his experience at Manor that a player had broken 70 for three rounds in match play.

SHREVEPORT, La. (AP)—Youth has again scored in the ancient game of golf.

Edwin McClure, of Shreveport, who is only fifteen, is the new state amateur champion. He gained his title in the recent tournament by defeating some of Louisiana's greatest players. McClure tied for third place in the qualifying round by shooting a 77. In the semi-final he defeated Fred Lamprecht, defending champion and until recently national intercollegiate title holder. Then Edwin vanquished Leroy Ward of New Orleans, 3 and 2 in the finals.

CHICAGO (AP)—At Westmoreland Country club they're catching the girl golfers young, and grooming them for championships. Once a week the club professional gathers the girl members of the club from 10 to 16 years of age and gives them an hour in instruction. The directors think that by this method they may develop a Glenna Collett, an Alexa Stirling, or an Edith Cummings from the club's feminine talent. Westmoreland is believed to be the first club to set out upon a systematic plan for cultivation of women golf stars.

BOSTON (AP)—Heights of economy that might be the envy of Scotchmen who invented the game of golf were attained by W. H. Pratt, when he used the same ball for nine days, playing 300 holes. Pratt is a member of the Marshfield club.

BIG NEWSPAPER COLLECTION
AUSTIN, July 19.—The University of Texas possesses what is said to be one of the largest collections of newspapers in the South. There are 12,000 bound volumes and 5,000 volumes of unbound material. Besides newspapers from practically every state in the Union, there are many foreign newspapers regularly received at the library. There are also many rare old newspapers in the collection.

A catalogue of all the newspapers on file is being compiled by E. R. Dabney, supervisor of the newspaper collections, and will be published soon.

GAME FARMING FOR GIRLS
HARROWGATE, Eng. (AP)—Game farming is an occupation of English.

Many big game farms are employing girls straight from finishing schools and training them in the details of raising eggs and birds that are overseas as well as the British market. The course extends from one to two years and the latter part is devoted also to the rearing and training of sporting dogs.

Optimism Expressed Today by American Attending Conference

(By The Associated Press.)
GENEVA, July 19.—"We are more optimistic now than we have been for some days", Hugh Gibson, chief American delegate to the naval conference, declared after a conference today between six principal delegations.

Discussions are continuing in a most cheerful and friendly atmosphere, Gibson said.

"We are beginning to see some light ahead," he declared.

GENEVA, July 19. (AP)—A sensation was caused here today by the official announcement that Earl Cecil, member of the British delegation to the naval conference, will return to London tonight.

W. C. Bridgeman, head of the British delegation, will leave tomorrow for the purpose of consulting with the British cabinet and elucidating the British position at the naval conference.

ELECTRIC CURRENT MAKES PLOWING EASY

Science has again lightened the labor of the farm. In England, at the famous Rothamsted Experiment Station, Dr. B. A. Keen and Dr. W. B. Haines have developed a plowing apparatus which moistens the soil to the proper consistency for plowing, as the plow moves through the earth, by means of an electric current. The process was explained and an apparatus for recording the resistance of the soil to the plow exhibited at the recent International Congress of Soil Science, held in Washington from June 13 to 22.

The plow passes more readily through a moist soil. Moisture, as is well known, acts as a conductor of electricity, effecting a circuit between the positive and negative poles and producing a condensation of moisture on the negative pole.

Slightly moist soil will also conduct electricity. Thus by attaching to an ordinary plow a small electric generator and by the use of a metallic electrode in the form of a cutting coultter, rigidly suspended a short distance in front of the plowshare to create a positive pole, an electric current may be brought between this coultter and the steel plowshare which is negative and receives the film of

Suits Bucky

Meet Bobby Reeves, the Washington Senators' collegiate shortstop from Georgia Tech. Reeves has worked himself into a regular job by his hitting and fielding. His arm is said to be one of the best in the majors.

moisture. This acts as a lubricant to reduce the friction between the blade of the plowshare and the soil and makes the soil slide over the moldboard of the plow more easily.

Such a process is simple, and the generator does not greatly increase the weight of the plow.

The old English system of mole drainage for compact and poorly drained subsoils may also be facilitated in this way. The shell-shaped borer which pushes the soil away from a circular drainage way from 18 to 30 inches below the surface of the soil and in this case is made the negative pole and accumulates the friction-reducing moisture. This method of making an underground drain is much cheaper than tile drainage, and the circular drainage ways are said to remain open in the earth for 10 or 12 years.

BELIEVED IN SIGN

LAKE FOREST, Ill.—When a family of tourists pitched camp for the night on a green lawn here they were accosted by the police.

"Who told you this was a camp ground?" the officers asked.

"The sign says so" replied the head of the family.

The officers looked at the sign: "Campus, Lake Forest University."

Baptist Ministers Have Records of Over Half-Century

(By The Associated Press.)
SAN ANTONIO, July 19.—The two oldest Baptist ministers in Texas, in point of service, make their home in San Antonio and are active in church work. Dr. J. M. Carr has been preaching almost 55 years and the Rev. T. J. Dodson has been active almost 54 years.

The Rev. Dodson still travels on Prairie View every Sunday to preach. For 27 years he was located at Seguin and he has held his present pulpit at Prairie View almost 23 years.

"I regret that I have not kept track of the number of people I have baptized," he said. "The number will reach into the thousands and I have married thousands and officiated at several thousand funerals."

The Rev. Dodson is 73 years old. Next to Carroll and Dodson, the Rev. L. R. Millican of El Paso is perhaps the oldest in point of service, having been a minister approximately 53 years. Last year Dr. Millican travelled almost 25,000 miles doing missionary work in seven counties. He says that he has worn out four pairs of saddlebags, many horses and buggies and a number of automobiles and expects to wear out several more before he quits. Early in his career he was chased by Indians in Lampasas county, but his care in selecting a good horse enabled him to escape.

A NEW GYM

ALPINE (AP)—Construction of a new gymnasium on the campus of Sul Ross teacher's college, Alpine, is to start soon and the structure likely will be open by the fall session.

DICKENS MANUSCRIPT SOLD
LONDON—The "original manuscript of Dickens' story, "The Mud-frog Papers," has been purchased by Mr. Charles Sessler, of Philadelphia. The manuscript has been in possession of the family of the publisher since the first issue of the work, ninety years ago. It consists of 94 full quarto pages.

A 17-year-old high school senior of Lawrence, Kan., has talked with 53 countries on his home-assembled radio, since he obtained his license in 1923.

A Better IMPRESSION

When you write to your friends—how about your stationery? When you write a business letter—what kind of an impression does your stationery make?

These are matters that are easy to neglect—but they are matters that are more easily remedied.

Stop at The News office and we will design a letter-head that is best suited to your business. Phone 100 and a representative will call and discuss your printing problems.
