MARTIAL LAW NEAR IN BORGER

Walberg-Hood Well Is Making 50 Barrels Each Hour

EXTENDS POOL MILE EAST OF BIG DISCOVERY

Shot Peps Up Test And Swab Brings Huge Flow

OTHER PRODUCERS EXPECTED SOON

Gulf - Saunders Area Looks Fine As Breaks Nearer

Sensationally extending the promising Gulf-Saunders area another mile to the east, the Empire's No. 1 Walberg-Hood is making a steady 50 barrels an hour.

This important test still further upsets the old geological theories and strengthens Gray county's position as the center of the Panhandle's greatest oil play. It is in section 33, block 3.

For the first twelve hours after being cleaned out, the well flowed at a great rate, although the hole caved somewhat after making 130 barrels an hour for a time. The swab was run and the steady flow of 50 barrels an hour began. Sinclair and Humble workmen are rushing pipelines to the well and storage is hurriedly being erected.

In Canyon Area
The well had been standing partly full of oil, and a 476-quart shot from 2,945 to 2,985 feet was tried. Nothing resulted immediately, but when the hole was cleaned out and swabbed the productive qualities of the test showed up. The extension of Gulf-Saunders pool east of the city is breaking over into the canyon, and the general appearance of the country is similar to some of the best parts of Hutchinson county.

The "play" east of the Wilcox pool was started by the Gulf's discovery well, the No. 1 J. M. Saunders. This well is still making 1,200 barrels a day. Its initial production was above 2,000 barrels. The Empire company's No. 1 Saunders, an offset, looks like a good one, although it has not been cleaned out since a shot of 240 quarts.

The Atlantic's Coombs-Worley, section 29, nearby on the south, failed to pick up the Saunders pay, but was drilled deeper and is spraying from 3,113 feet. The D-1, in section 34, is swabbing 40 barrels from red rock at 3,152 feet.

The Roxans company's No. 3 Worley-Reynolds, section 39, is cleaning out after a shot, and looks good for at least 400 barrels. Other tests are being rapidly sent toward the pay. The Walberg-Hood is sure to result in much wildcatting between it and the Saunders offsets, and still further eastward into the "breaks".

Southeast in Gray county J. C. Neudigate and associates No. 1 Chapman, section 52, block 25, has south county people excited over a rainbow showing. The drillers are casing off salt water and will seek the Nabob pay.

Rensaul Petroleum company's No. 1 Mark Huseby, section 55, is being deepened and oil and gas content is increasing.

The Delaney & Riegan company of Amarillo is to drill a well on the Emma Jackson property in section 88, block B-2, Gray county.

The Magnolia Petroleum company is to drill a well on its own land in section 91, block 4, Carson county.

Hazel Davis, 14, Dies Here After Short Illness

Miss Hazel Davis, 14-year-old daughter of Mrs. C. H. Ross, died at her home in South Pampa yesterday afternoon following a short illness.

The funeral will take place this afternoon at 3:30 o'clock. Burial will be at Fairview cemetery.

PEEVISH? THEN BLAME HEAT, SAYS OBSERVER

FORT WORTH, July 26. (AP)—When things go awry, blame it on the weather, says D. S. Landis, poet, philosopher and for 25 years weather observer here for the United States Weather Bureau.

D. S. LANDIS

Temperature and humidity affect the human nervous system, and fluctuations, creating nervous activity, are reflected in the actions of people over a large area, he believes.

A bright day cheers, raising the spirits of the people, making everyone more congenial and reducing likelihood of friction.

A cloudy day, on the other hand, while a sedative for people of a phlegmatic type, is an irritant to persons of a more vital nature and causes unrest and brittleness of temper, according to Landis. He says that police records show that crime, especially suicides, increased on gloomy days.

Periods of drunkenness, brawls, assaults, murders, arson and the like will be found segregated under abnormal barometric pressures, which in turn are the offspring of temperature and absolute humidity, Landis believes.

Although hot weather generally causes crossness and irritation where humidity is great, there are sections in the Southwest where the mercury reaches 120 degrees, and the dry heat becomes actually exhilarating, in Landis' opinion.

"A mean temperature of 70 degrees is the best for normal living conditions with an average amount of moisture," Landis said. "Fluctuations from this causes nervous activity."

"It's not always intuition that causes us to do the things we do. Often it's the weather working on our neutral make-up."

Water Contract Is Signed; to Advertise For Sewer Bids

The contract for the extension of the present water system in Pampa was signed this morning. The McColl Engineering company has the job and expects to start work on the second program Thursday.

The necessary material has been ordered. Some of it is already shipped and is expected to arrive in the city sometime tomorrow.

Advertising and letting of the sewage extension and the disposal plant will be proceeded with as soon as the necessary legalities are followed. The work will start as soon as possible.

Body of Thrasher To Be Sent To Cameron For Burial

The body of J. E. Thrasher, who died yesterday morning as the result of burns received in a gas explosion at a Shelly Oil company well, will be sent to Cameron this afternoon for burial. A brother will accompany the body to the old home.

Besides his parents, Mr. and Mrs. J. E. Thrasher, of Camarillo, Cal., he leaves five brothers and two sisters.

GRAYS FIGURE HIGH IN DOPE ON BASEBALL

Pampa Boys Expect to Eliminate Panhandle Laundry

SHOULD BREAK INTO BIG MONEY

Hollis and Claude Are Strong Contenders In Play

AMARILLO, July 26.—Shamrock and Texon, Pampa and the Panhandle Laundry of Amarillo make up the foursome in the baseball tournament play here this afternoon.

Shamrock is making her first appearance, and is expected to make a good showing. Pampa is doped to defeat the Laundry nine in the second encounter of the day.

Claude defeated Midland in a surprise game yesterday, winning despite six errors and poor pitching. Midland piled up 11 hits for seven runs, while Claude expanded six hits into eight runs. Both teams looked strong.

Lone Wolf, with Red Bird allowing but three hits, won over Austin Drug store of Amarillo 4 to 0. Ratliff gave the Oklahomans a lot of trouble and the game was closer than the score indicates.

The Grays must win today to stay in the tournament, and must win Thursday to break into the prize money coming to the upper five teams.

If the team comes through with a victory today, it likely will play Claude or Midland Thursday, with Texon as another possibility. Dopesters have it that Pampa, Midland and Hollis will fight it out for leadership.

Indications are that Austin Drug will play the loser of today's first game, and Claude may meet Lone Wolf, in tomorrow's play. This probably will mean that Austin Drug and Claude will be eliminated tomorrow. However, with Eckhardt pitching for Claude Lone Wolf will have to step to win.

Thursday should see some of the leaders meeting, Friday will clean up the second raters, Saturday will bring up the semi-finalists, and the deciding game should be played Sunday.

Herrick Stands Second Operation

(By The Associated Press.)
CLEVELAND, July 26.—Myron Herrick, 73 years old, United States ambassador to France, was operated on today for the second time within ten days.

Surgeons said he reacted well and no complications are feared.

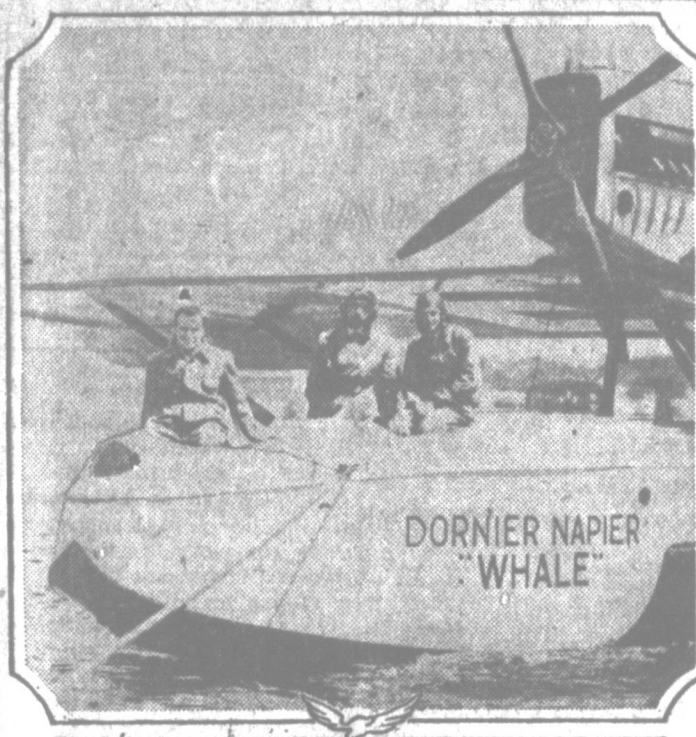

House of Commons Will Get Facts On Naval Parley

(By The Associated Press.)
LONDON, July 26.—The British government will make a statement in the House of Commons regarding the naval negotiations tomorrow or Thursday. Winston Churchill, chancellor of the exchequer, told the House today.

STOLEN DRESS RECOVERED
On a complaint, officers of the sheriff's department searched a room in a south side hotel yesterday afternoon and found a dress which had been stolen out of an office yesterday morning.

A woman, said to have been under the influence of some drug when arrested, paid a fine on a charge of theft.

Next Comes the British "Whale"

Here is the huge Dornier-Napier "Whale" seaplane in which Capt. F. H. Courtney and his two companions, Downey and Little, are ready to attempt to fly from England to New York. Capt. Courtney is on the left and Little on the right.

RULING ON HANSFORD COUNTY SEAT ELECTION CONTEST WILL AFFECT PANHANDLE COUNTIES

Nearly a dozen counties in West Texas are awaiting with interest the opinion of the Amarillo Court of Civil Appeals concerning the Hansford county hearing on county seat removal.

Renewed efforts to remove the county seat to Spearman caused the suit, which hinges upon interpretation of the rather indefinite measure passed by the Fortieth Legislature. The appeals court has the matter under advisement.

If favorable action is taken on the last piece of legislation affecting "inland" county seats, the result may be as follows:

1. Votes on removing county seats more than five miles from a railroad may be had every two years.
2. Removal may be by a mere majority, instead of two-thirds majority, where the county seat is within five miles of the geographical center of the county.

Under the new laws removal would be much easier. The Hansford case revolves around the "within two years" clause, but it is contended the meaning intended is "not less than" two years from any previous election. The Hansford election was held in March.

With respect to Gray county, however, the "not less than two years" interpretation would be advantageous to those desiring another vote, since an election on the project has not been held in the last two years.

Prairie Chicken Season Limited In Four Counties

A closed season on wild chickens was placed by the Fortieth Legislature on Collingsworth, Donley, Wheeler, and Gray counties, according to R. E. Sammons, special deputy game warden, who asked the Daily News to pass this information to its readers.

Hunters have been taking out licenses believing they could shoot prairie chickens in Gray and Wheeler counties, but they will have to go further north to have their fun. Hemphill and Lipscomb counties are reported to be well stocked with the fowls. The ban on nearby counties is effective until September 1, 1929.

The quail season will open November 16 and close January 1, and will not be limited this year, although the next Legislature is apt to let down the bars, according to the game warden. Mr. Sammons lives in Wellington, but is making a tour of his district.

Rubber Company Official Leaps To His Death Today

(By The Associated Press.)
NEW YORK, July 26.—William Barnes, superintendent of the United States Rubber company building here, leaped to his death from the twentieth story of the building today.

The body just missed striking several persons.

GOVERNOR IS DISPLEASED BY THE SITUATION

State Lacks Confidence In Local Officers, Says Report

PETITIONS ASK RANGER RECALL

Committee Will Confer In Person With Dan Moody

(By The Associated Press.)

AUSTIN, July 26.—Martial law for Borger seemed as likely today as it did when lawlessness first was charged against the town. It was learned authoritatively.

The State's dissatisfaction with local law enforcement there has been growing.

A number of petitions, however, are before the governor, asking for the withdrawal of all Rangers sent there.

BORGER, July 26. (Special)—The attitude of State authorities, chief of whom is Dan Moody, came as a surprise to Borger people today, since it was hoped that the Rangers would be removed soon.

An angle with which it is believed Moody is not fully and correctly informed is the feeling between city and county officers and the Rangers. It is charged in Borger that the Rangers are exceeding their authority in dictating what shall be done with prisoners held on charges placed by the Rangers. The recent altercation with resulting investigations grew out of a quarrel between deputies and Rangers over the disposition of a prisoner.

It is being pointed out that the state and local officers are united in the desire to enforce the law, and that any difficulties arising are over details, not policies.

A mass meeting was held here Friday, and a committee was named to lay the situation before the governor, with the request that the Rangers be recalled at once.

Flogging Cases Are Given Change Of Venue By Judge

MARSHALL, July 26.—A change of venue from Harrison today was granted Cain Anderson and DeWitt Osborne, under indictment on 14 counts in connection with floggings here recently.

The defense charged that a fair trial would be impossible here. The case of Anderson will be sent to Smith county, while Osborne will be tried in Upshur county.

Fine Race Horses Burned In Blaze At Electra Today

(By The Associated Press.)

ELECTRA, July 26.—Fire of undetermined origin swept two barns belonging to W. T. Waggoner of the Racing association near here today, burning to death six race horses and causing a loss of \$500,000.

Dotson Held An Hour Without Fall By Leo Chase

Before the largest crowd that has ever seen a wrestling match at the Pampa Athletic club, Oscar Dotson, Pampa's wrestling blacksmith, met the first defeat of his career in Pampa last night. Leo Chase of Oklahoma held Dotson to no falls in and hour of fast, hard mat work.

The preliminaries were newsboy bouts and were fast and furious while they lasted. Some of the falls were short and easy but the boys in general put up a fair exhibition of wrestling.

In the handicap match, the Pampa wrestler used nearly every hold in the art but the wily Chase broke loose and nearly had Dotson down for the count. The Oklahoma boy is a fast, clean and heady man on the mat, while Dotson is a veteran and knows the game.

After the bout Chase challenged Dotson to a decision bout at the Athletic club, Frankie Farrell, noted Hutchinson, Kans., wrestler, issued a challenge to anyone in Texas his weight, not barring Wildcat Monty if given ten pounds.

Have you tried a want ad?

Amarillo Beaten In Tenth Inning Of 2 to 1 Thriller

LINCOLN, July 26.—Despite the fine pitching of Fred Newton, who also got three hits, the Links defeated the Texans here yesterday, 2 to 1.

Newton scattered eight hits over 10 innings, while Strelecki, opposition pitcher, was allowing nine hits. But Strelecki won his own game in the tenth when he hit a triple and came in on Swansboro's high throw to the plate.

The Texans left last night for Denver, where they will open a series today.

The box score:
Amarillo: AB R H PO A E
Gonzales, ss 4 0 1 1 4 0
Swansboro, 1b 5 0 0 3 1 2

Left on bases, Amarillo 7, Lincoln 6. Base on balls, off Newton 1, Strelecki 1. Struck out, by Strelecki 1, Wild pitch, F. Newton. Umpires, Toman and Cady. Time, 1:55.

CARRIES RACING SHELL

HENLEY-ON-THAMES (AP)—R. T. Lee, of Worcester College, Oxford, who won the Diamond Sculls at the recent regatta, caused much amusement and not a little astonishment during his stay here by carrying his racing shell attached to the side of his motor car.

"I find it much more simple to act as my own taxi driver," he said, "although I have to take great care in rounding corners."

LONG BOUT SCHEDULED

BATTLE MOUNTAIN, Nev. (AP)—A 25-round bout, the longest boxing contest in Nevada since 1910, will be fought at Battle Mountain next Labor Day between Sidney White and George Spencer, San Francisco featherweights. Records do not show a longer fight since the July Fourth, 1910, when Jim Jeffries made an unsuccessful comeback attempt for Jack Johnson's heavyweight title. It was billed for 45 rounds. Some 20 years ago Nevada was a mecca for long distance boxing. Battling Nelson and Joe Gans fought 42 rounds here for the lightweight crown. Of late years, numerous twenty-round matches have been held.

ON MOTORCYCLE TOUR

LONDON (AP)—Round the world in 120 days is the aim of S. T. Glanfield and Flight Sergeant Sparkes, who have started off on two motorcycles with side cars.

The side-cars will be used as beds on the journey of about 15,000 miles through Germany, Austria, Jugo Slavia, Constantinople, the Syrian Desert, Basra, Bombay, the Straits Settlements, Australia and across the United States.

CLIMBING MOUNT FUJI

TOKYO (AP)—Notwithstanding the old Japanese proverb that "he who has never climbed Mount Fuji is a fool, while he who climbs it more than once is likewise a fool," the ascension of Japan's famous sacred peak is one of the nation's most popular outdoor summer sports.

It was estimated that last year more than 60,000 persons climbed the mountain, most of the to worship at the Sengen Shrine at the top. This summer it is expected that many more climbers will make the ascent. More than 200 foreigners climb Fuji each year. The majority of the climbers start at night, desiring to see the sunrise from the top.

FAMILY OF GOLFERS

SALEM, Ill. (AP)—One of the greatest golfing families in Illinois operate a fruit farm in Marion county. These ruralists carried off all the prizes from the city boys at a recent tournament. W. L. Cope, the father, won the trophy for the best approach shots, Loren, the oldest son, captured the President's trophy for his best score of the tournament, a 72 and Howard the second son, was runner up with a 74 and also took the prize for the longest drive. The youngest son, Allen, not yet up to the golfing quality of his elders, took the horseshoe pitching contest.

Those Home Run Twins

Here we have Lou Gehrig, left, and Babe Ruth, right, who are waging a sensational battle for the home run supremacy of the major leagues. The photograph was taken recently when Lou was one ahead of the Babe and that probably accounts for the smile on Lou's face and the frown on Babe's. The two clouters are best of friends on and off the field.

FEATURES FROM OTHER LANDS

"ONCE TASTED WATER" BUT DIDN'T LIKE IT

PARIS (AP)—The best wine-taster in Paris is Marcel Le Cudennec, winner in a test of powers by 86 wine stewards of restaurants. He gave the correct age and description of twelve wines. He received 5,000 francs, a loving cup and two bottles of ancient brandy.

Le Cudennec is a young Breton. He says he drank nothing but cider until he was sixteen.

The contestants, supervised by officials of the Ministry of Agriculture, each had thirty minutes to identify six white wines and six red ones. They were given these in numbered glasses. They sniffed and took sips repeatedly, but obviously had only two and a half minutes to judge the wine.

When time was called carafes of cool water were brought for the tasters to cleanse their palates of the dozen tastes but the tasters all looked at the water with suspicion. "I tasted it once," said one of the wine stewards, "and I didn't think much of it."

PARIS HOUSEMAID GETS HER "RIGHTS"

PARIS (AP)—The Paris house-servant is in a fair way to becoming spoiled. A labor contract just drawn up, signed and sealed, reads:

"The lady of the house engages herself to treat, with all the desired solicitude her new domestique, Mademoiselle Emma. She will accord her two hours every day to go to her courses in clothes-cutting, stenography, piano playing and singing.

"Her wages will be 350 francs a month for the first three months, with an increase of 25 francs every month at the end of the fourth, up to the limit of 600 francs monthly. The new servant shall have the right to use the bathroom twice a week.

"Mademoiselle Emma will not be called by her first name, but 'Mademoiselle.'"

"She must be aided by a chambermaid or char-woman, according to the needs of the household."

FRENCH DOCTORS DEBATE PROFESSIONAL SECRECY

PARIS (AP)—The question of professional secrecy as it concerns doctors is now the subject of study by a special committee of the Academy of Medicine.

The committee was constituted after Dr. Letulle, in a report to the learned society, came out strongly in favor of absolute medical secrecy. He went so far as to say that the required declaration of contagious

diseases was incumbent solely on the families involved, and that the doctor who reported them without the families' consent was usurping a prerogative that did not belong to him.

For some time there has been considerable agitation in favor of a Medical association code which should strictly define the duties of doctors and prescribe adequate penalties for infringements. The medical men favoring this move would model their ethical charter on that of the Paris Bar association.

PARIS AMERICANIZES ITS HOME BUILDING

PARIS (AP)—Quantity production of homes, built while you wait and sold on the installment plan, is gaining favor in France.

This high-pressure, American method of colonizing new additions once was regarded with smiling superiority here, where house building is considered a very solemn proceeding.

The French first tried building sample houses which sold fairly well, but the business has been developed now to a point where one firm runs full page advertisements picturing six types of bungalows and two story homes, ranging from 01,200 to \$5,000, without the lot. Each type is named after a flower, "Lotus," "Marguerite," "Geranium," "Lily of the Valley," "Mimosa" and "Hortensia."

Former Coachman For Gen. Houston Is Still Alive

HUNTSVILLE, July 26.—Still active despite the eighty-five years he has lived, "Uncle Dick" Carter, former coach driver for General Sam Houston, enjoys his work on a little farm near here.

Having lived in Walker county for the past seventy years, the aged darkey is a good informant for this section of the state. Among the many establishments he can remember from their infancy is the state prison here.

"Uncle Dick," as he is widely known, said he can remember when there was only one small brick building for the penitentiary, with only one guard, one yoke of oxen, one pair of horses, and with about two or three old Indian chiefs as prisoners. The Indians had to be chained in their cells, he added, as they refused to work at anything.

The darkey also relates many stories about Indian fights he witnessed while driving General Houston about the country during his military campaigns.

Talk About a Family Wedding!

You don't hear of many quadruple weddings but here is one in which three brothers and their sister were married recently at Birmingham, Ala. The principals were Dr. Lellis Kirby who was married to Miss Jean Harris of Anniston; Rev. Otis Kirby, whose bride was Miss Katherine Evans of Fairield; Rev. Taylor Kirby who was married to Miss Lucretia Hope of Birmingham, and Miss Geneva Kirby, bride of Herbert Warner of Jersey City, N. J.

SPORT TALK

Wrestling is becoming more popular in Pampa, with every bout that is staged at the Pampa Athletic club being faster and better than the previous battle. The club will have to enlarge its quarters if the crowds continue to increase.

The Pampa Grays are in Amarillo battling for a place high in the Amarillo tournament. They meet the Panhandle Laundry team this afternoon, managed by Skeet Gibson, formerly of the Metros. Guber will use either Fuller or Ketchum on the mound today, and the kid Powers will cavort around second base.

Many Pampa fans motored to Amarillo this afternoon to see the home club in action and look for a win over the Amarillo club. That is, if it isn't another case of too much Amarillo umpiring.

Claude was so lucky yesterday that it looks as if the boys from the small town carried a rabbit's foot with them. Eight runs from six hits is going some. Achenback was hit freely, but kept them well scattered.

Midland thought they would have a run away with the Austin Drug team, but got a surprise, winning by a 4 to 0 score. Sam Sealing, ex-Pampa third sacker, is playing left field for Austin Drug. He went hitless yesterday.

Eckhardt got two of Claude's six hits and scored two runs, while Hickley, whom Clarke fanned twice here, got three runs.

Cincinnati took a double header from the St. Louis Cards yesterday and climbed up one place in the standing. Rhem and Haines took the beatings.

The Texans lost a ten inning battle yesterday on a wild throw by Swansboro. F. Newton, who was pitching for Amarillo had three hits to his credit, as did Manager Kelly.

WRESTLER JOINS POLICE

TOKYO (AP)—Masajiro Ota, former champion wrestler, standing 6 feet 4 inches in his socks, and weighing 230 pounds, has just been appointed to the Tokyo police force. As a wrestler he was known as "the Thunderbolt." He will be the largest police officer in Japan. A special uniform will have to be made for him.

BRITISH WOMEN COOL TOWARD LAW CAREER

LONDON (AP)—There is a noticeable falling off of candidates at the bar examinations since the pioneer barristers, Miss Fay Kyle and Miss Helena Normanton, were "called to the Bar."

University women of today declare the examinations are not nearly so difficult as at first thought. They prefer to put their energies into something which pays better than waiting about the law courts for work which comes in only slowly.

Mr. and Mrs. Carol Kingsbury and little daughter left Monday for a short trip to Wetumka, Okla.

Southwestern Roads Report Decrease In Freight Traffic

(By The Associated Press.)
DALLAS, July 26.—Railroads serving the Southwestern territory report for the two weeks ended July 9 a decrease of 9.1 per cent in cars loaded with revenue freight and a decrease of 18.4 per cent in loaded cars received from connections as compared with the same two weeks last year. R. C. Andrews, district manager of the car service division of the American Railway association, said.

In his report on conditions for two weeks ending July 14, Mr. Andrews said that livestock shipments to the Fort Worth market were 10 per cent less, with calves 40 per cent more, hogs 43 per cent more and sheep approximately the same as for the corresponding period last year.

A decrease as noted in coal shipments, while cement was slightly ahead, and a similar volume is reported in sand, gravel and stone, as well as forest products. Despite the flood's destruction of many acres of sugar cane in Louisiana the outlook for a good crop of what was left was favorable, with a reduction forecast for sugar beets, and a slight increase in rice production is predicted.

Watermelon and cantaloupe shipments from Texas continue good, according to the report, and citrus and other fruits and produce are moving in small volume.

No shortage in car supply or shipping facilities have been reported.

Mrs. L. C. McMurtry and son visited friends in Amarillo Tuesday.

A STATE INSTITUTION TOO LITTLE KNOWN

By an act of the Legislature, a tuberculosis sanatorium was established in 1911 and it opened in 1912 at what came to be a little community in itself, Sanatorium, Texas.

Though little known, this institution has been doing a great work for a varied class of patients. It is under the general direction of the State Board of Control, which appoints the superintendent. It has been singularly free from political influence.

For the benefit of the general public, it may be said that the institution was established for the purpose of treating incipient and moderately advanced cases of pulmonary tuberculosis, and to instruct and train the patients in the mode of living necessary to reach a cure. Ex-patients are studied, and are instructed in home treatment of patients nearly well.

Entrance into the sanatorium is made only through one's home physician. The county judge must fill out a blank form and submit it to the superintendent of the institution. Applications are filed in the order of their receipts. Applicants are of three classes: indigent, public pay and private pay. These divisions are definitely outlined and defined on the application blanks. Half of the space is reserved for indigent patients, who pay no fees; one-fourth for public pay patients, who pay \$5 per week; and one-fourth for private pay cases, for which the fee is \$10 per week. The indigent wards, of course, are always more than full.

Only bona fide citizens of Texas are admitted. Admission, moreover, can be only through the legal steps. The general public should know more about this state institution. It has done some of the most effective work against the terrible plague, which modern science slowly is conquering. The present capacity is 457 patients, but if the work is as important as most people believe, the state could well afford to increase its size.

Descriptions of the plant show that it is complete in every detail. Besides being a model of efficiency in the treatment of the disease, the institution has farms and raises much of the food it uses.

Antique for today: Beauty sleep.

Everyone For Himself

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON. — Jerry Tarbot, America's "living unknown soldier," has dedicated the rest of his life to finding his name and obtaining Uncle Sam's recognition of his services in the war, has become a political issue again.

It seems as if everyone in the country must have heard about Jerry's strange case and seen his photograph, but Jerry, the gassed and shell-shocked veteran who lost his health and his identity at the same time, knows there is someone, somewhere, who will recognize him eventually. An old pal, a brother, a sister — or perhaps a mother.

All of which explains why Jerry is trudgeing around the streets on what he promises will become a countrywide tour. His objectives are two: 1—To leave photographs of himself on display in the vestibule of "every Catholic church in the country."

2—To sell copies of "Jerry Tarbot's Book," his own woefully incomplete autobiography, in order to support himself and finance his quest for a name.

Jerry's ambitious program of placarding the churches with his photographs in the hope that someone finally will identify him permanently and for all time has not yet begun. He is certain he is a Catholic and that he was trained in a Catholic school.

On the other hand, "Jerry Tarbot's Book" is an accomplished fact. Jerry wrote it himself and he expects to sell "at least 25,000 copies." He peddles it at a dollar a copy. It consists of about 40 pages of large, closely mimeographed sheets and is cheaply bound in stiff cardboard paper.

To assume the book reviewer's role for a moment — it is considerably more interesting

than many books which cost two or three times as much.

Jerry says his chief handicap is that he can't visit more than 15 or 20 prospective customers a day. Everyone, he says, is interested, and he has to sit down and tell of his experiences. Unfortunately, the listener then sometimes refrains from buying the book.

Congressman Carter of California, Tarbot's legislative godfather, promises to take the strange case to the floor of Congress during the next session and demand justice for Tarbot such as the government has given to its other maimed and incapacitated heroes.

Carter is at sword's points with Congressman Johnson of South Dakota, chairman of the House committee on world war veteran's legislation, over Tarbot. Johnson tried to brand Tarbot as a fake who remembered his past life very well. Two women were produced, one to say that she had known Tarbot in the past at Sharon, Pa., and the other that she had been married to him for a period of two weeks many years ago.

TWINKLES

While its cool in West Texas, Central Texas "is gay despite heat." How's that for heroic social service?

Someone has been stealing Amarillo's stop signs, but our are brand new and the sleuths will have to look elsewhere.

Well, it seems that the man Dempsey has it, as well as "it."

Cheer up: Imagine the feeling of the young man who got a penitentiary sentence and inherited a fortune at the same time.

An anti-alimony club has been formed in Chicago. But bachelors have the patent on the original remedy.

PRESS FORUM BY-PRODUCTS

In these days, much of the profit and sometimes the whole of success depend upon utilizing the odds and ends, the so-called "by-products."

The by-product is sometimes apart from the main article manufactured, and yet something that has an actual value

of its own. For instance, in the manufacture of gas there are many by-products; these are obtained from the coal as the latter is made into lighting-gas. And these by-products, including the coke from the coal, actually suffice to pay the cost of the gas.

All kinds of big business have their by-products, their little odds and ends that pay well. In Mr. Armour's enormous meat-factory, for instance, there are endless by-products, from pigtails which are dried and sold as a delicacy, to the hair of animals made into a powerful, valuable kind of rope.

If Mr. Armour neglected making the hair rope, of selling the pigtails, it would make a big difference in his dividends.

The point for the reader is this: The individual man does not manufacture, as a rule. But we are, all of us, dealers in time.

Time is the one thing we possess. Our success depends upon the use of our time, and its by-products, the odd moment.

Each of us has a regular day's work that he does in a routine, more or less mechanical, way. He does his clerking, his writing, his typewriting, or whatever it may be, so many hours per day. And that ends it.

But what about the by-product, the odd moments? Do you know that the men that have made great successes in this world are the men that have used wisely those odd moments?

Thomas A. Edison, for instance, was hammering away at a telegraph-key when he was telegraph operator on a small salary. He didn't neglect the by-product, the odd moments. He thought, and planned, and tried between messages. And he worked out, as a by-product of his telegraph job, all the inventions that have given him millions, and given to the inhabitants of the world thousands of millions' worth of dollars in new ideas.

Benjamin Franklin in his story of his life shows an endless number of such efforts along the line using the odd moments. In a hundred different ways he managed to make the extra hours useful and productive.

What a man does in his odd moments is not only apt to bring him profit; it is apt also to increase his mental activity. The mind craves a change, and it often does well the unusual thing, out of the routine.

"Letting well enough alone" is a foolish motto in the life of a man who wants to get ahead. In the first place, nothing is "well enough" if you can do better. No matter how well you are doing, do better. There is an old Spanish proverb which says, "Enjoy the little you have while the fool is hunting for more."

The way to hunt for more is to utilize your odd moments. Every minute that you save by making it useful, more profitable, is so much added to your life and its possibilities. Every minute lost is a neglected by-product—once gone, you will never get it back.

Think of the odd quarter of an hour in the morning before breakfast, the odd half-hour after breakfast, remember the chance to read or figure, or think with concentration on your own career, that comes now and again in the day. All of these opportunities are the by-products of your daily experience. Use them and you may find what many of the greatest concerns have found, that the real profit is in the utilization of the by-product.

Among the aimless, unsuccessful or worthless, you often hear talk about "killing time." The man who is always killing time is really killing his own chances in life; while the man who is destined to success is the man who makes time live by making it useful.—Lubbock Avalanche.

**Mussolini Extends
Dictatorial System**

ROME (AP)—Overburdened by increasing tasks of dictatorship, Mussolini has elevated provincial prefects to the ranks of "vice-dictators," responsible only to himself and with powers of "absolute control over affairs in their respective regions."

Henceforth each prefect will have the title "head of the province," implying direct delegation of dictatorial powers from Mussolini, who in addition to being Prime Minister has the special rank of "head of the government" paralleling the king's title of "head of the state."

Under the new system the prefects will be absolute commanders-in-chief of the political, economic, administrative, scholastic and syndicalistic affairs in their regions. They will bring to the attention of the central government only such matters as they see fit and under circumstances which they judge to be most wise.

Appeals over their heads directly to Rome are expressly forbidden. Every petition must go through them. Every political delegation visiting Rome must be accompanied personally by them.

Just as Mussolini is the apex of the pyramid of dictatorship in the nation, the prefect will be the apex of converging lines of control within

OUT OUR WAY

—By Williams

the province, working out its destinies as lieutenants of the dictator.

A similar tendency to delegate dictatorship is seen in the suppression of boards of dictators and consultative committees in control of various national organizations.

Signor Turati has been appointed "extraordinary commissioner" for the National Recreation Institute, while Baron Albert Blanc has been given a similar post in the National Institute for the protection of maternity and infancy, both being responsible only to Mussolini.

**BALL CLUB 30 YEARS OLD
PLAYS ONLY COLLEGES**

SAN FRANCISCO, July 26. (AP)—A baseball team that never won a pennant, plays less than a dozen games a year only with colleges, and has numbered some of the greatest performers in the sport, has functioned in San Francisco for 39 years. It is Ireland's Independents, organized by Cliff Ireland, local business man with a baseball hobby. Ireland has been manager and second baseman from the start.

In 1888, Ireland had the idea of forming a team to play college and university nines in this section. Every year he sends out a call to his player friends, and they are legion.

Among the familiar figures who have graced the lineup are, "True," Egan, "Hap" Hogan, Duffy Lewis, "Spider" Baum, "Ping" Bodis, Jim Scott and scores of others of major league fame. All contributed their services. The fun they got out of playing and the warm welcome received on the various campuses more than repaid them. The club never profits in a financial way.

Every spring, games are scheduled with California, St. Mary's, Santa Clara and Stanford. When Stanford was founded in 1892, the first Cardinal nine crossed bats with the Independents. Since then it has been traditional that this team, with Ireland at second, should open the season there.

**FRENCH DRIVING RULES
ARE BEING TIGHTENED**

PARIS (AP)—Automobile drivers here are now required to stop behind street-cars, as has long been the custom in America. In France it has been a matter of judgement with drivers as to whether they should stop or not. Usually they kept going slowly, crowding past people boarding or getting off street-cars.

On the highroads also the government has changed the rule that gave drivers on national roads the right of way. The blanket rule is that the car coming on the right has the right of way. This last regulation is much criticized as certain to slow down traffic on the main arteries and it is predicted it will be little observed.

A fireman's carnival at Centerville, Md., Tuesday night saved Church Hill, Md., from being destroyed by a fire which swept one side of a block in the business section. The parading firemen hurried to Church Hill and pumped water from the mill stream.

Blank forms for sale of automobile at the Pampa News.

**Millions In New
York Prepare To
Overcome Strike**

NEW YORK, July 26.—With employees and companies still at loggerheads, New York's 2,500,000 daily underground and overhead railway users prepared today for another mid-summer strike. Officials of the Interborough rapid and Brooklyn Transit companies, who operate the network of transportation lines affected, continued mustering substitute workers to man trains if members of the Amalgamated Association of street and electric railway employees organization carry out their strike threat.

**WRITES PRIMER
ON GOVERNMENT
FOR CLUB USE**

WASHINGTON, July 26. (AP)—Although the dull season, politically speaking, is now upon Washington, the Woman's National Democratic club has not abated its activity.

Mrs. Lynn Perry, of Pennsylvania, it has just been announced, will write a primer on government and politics. It will be used by the club in a study course offered the Democratic women's clubs throughout the country as part of an educational campaign.

Mrs. Perry was chosen to write the primer because of her special fitness for the undertaking, having acquired experience in Pennsylvania politics. In addition to being the vice-chairman of the Northampton County Democratic committee, Mrs. Perry is president of the Pennsylvania Federation of Democratic Women.

The primer, it is announced, will deal in simple form with the fundamental principles and problems of American government and politics.

**Highest Award For
Chamberlin Desire
Of The President**

RAPID CITY, July 26.—President Coolidge intends to have the distinguished flying cross, the nation's highest award, conferred upon Clarence Chamberlin, New York to Berlin flyer, if it is at all possible under the law.

Because the telegram read, "Bernice died at 4 p. m. Arrive there Thursday" instead of "Bernice left at 4 p. m. Arrive there Thursday," weeping relatives and friends of Miss Bernice Denis were surprised to meet a very much alive person when she arrived at Arkansas City, Kan., from Portland, Ore.

Dr. Winifred Sackville Stoner, widely known for her opposition to "Mother Goose" rhymes as reading matter for children, denied yesterday that her daughter, a former "child prodigy," is to marry Bainbridge Colby, former secretary of state.

**Girl Shoots Her
Step-Father As He
Chokes Her Mother**

FORT WORTH, July 26.—Because she feared her mother would be injured, Ruth Hogan, 15-year-old high school student, shot her step-father, W. H. Mason, 40, four times this morning.

Mason died enroute to a hospital.

"I don't know how many times I fired, or where I hit him," she sobbed as she told her story of the shooting to police at the station to which she and her mother were taken.

"He had mother by the throat with one hand and I was afraid he would kill her with the knife he always carried. That's why I did it."

**Merchant Bureau
Members To Have
Dinner August 8**

The officers and advisory board of the Dry Goods and Clothing Merchants bureau of the Chamber of Commerce met yesterday afternoon to discuss matters to be presented at their first dinner meeting, which will be at the new Schneider hotel, August 11.

The chief topic of discussion was the regular holiday closing, and the matter will be presented at the first meeting. It will be suggested to close July Fourth, Armistice day, Christmas and Thanksgiving of each year.

The matter of holding a trade day was brought up at the meeting, and the first Monday in each month was suggested. That question will also be decided at the first meeting.

Bob Rose was appointed chairman of a committee to arrange the entertainment at the opening dinner.

Scott Barcus, Harry Hoare, and Ed Belville are among those attending the Amarillo baseball tournament this afternoon.

C. H. Bonney has taken over the Rogers cafe.

Let a want ad work for you.

**Bud Stillman And
Bride Will Be
Married Today**

NEW YORK, July 26.—Passage to Europe was booked for Bud Stillman and his Canadian bride on the Liner Olympic today.

The Olympic will sail Sunday. The couple will be married in Canada this afternoon with a number of society people attending the wedding, along with hundreds of friends of the bride, who once was a maid in the home of the bridegroom's father, James Stillman, New York banker.

Let a want ad work for you.
