PAMPA, GRAY COUNTY, TEXAS, WEDNESDAY EVENING, AUG. 3, 1927.

PRICE FIVE CENTS.

## PRES. COOLIDGE STIRS POLITICIANS

### PAMPA ELEVEN TO HAVE FALL CAMP TRAINING

Harvesters To Spend Practice Period On Canadian

### GAME MATCHED WITH AMARILLO

Football Men And Fans To Discuss Rules

The Pampa Harvesters, high school athletes who have in other years been powerful opposition to schools of this area, will meet the Amarillo Golden Sandstorm during the Tri-State fair. The game will be played either on September 13 or September 23.

In preparation for this big event heralding the opening of the football season, Coach Verde Dickie will gather his men for a 10-day camp somewhere on the Canadian river. The camp will open about September 1.

With seven letter men held over and five letter men available from other schools, Coach Dickie will have a strong nucleus around which to build his 1927 machine and introduce the reserve strength and new men. It is hoped this large number of experienced men will be in fair condition when the camp opens so plays may be given them soon. The necessity of whipping a team into playing condition quickly, and the methods which will be used will give a semblance of college life and atmosphere. By the time enrollment is well under way the students of the 1927 team will be able to see their football machine running through a series of effective plays.

But football talk will not have to await camp opening. Coach Dickie is issuing a call for all football men and fans to meet at the high school building Thursday evening at 8 o'clock for skull practice and to talk over the coming season. Rule books will be available so that the prospective players may brush up on their knowledge of the game and learn the new regulations. The new rule against the shift play will be in effect, and the fumble will have a new basis. Townspeople are invited to attend this open session. All new men who will attend school are especially urged to be present to become acquainted.

Work has been started at the central plant on an athletic building which will house dressing rooms, showers, and lockers for the home team and the visiting squads. Considerable new equipment will be ready to give the Harvesters a good appearance and enable them to play hard and often without injury.

Football days are nearly here, and the early date of the first game will put the pigskin flying in Pampa before many days.

### Japanese Plan Is Considered At Naval Conference

(By The Associated Press.)  
GENEVA, Aug. 3.—An announcement that delegates at the naval conference would meet today to discuss the new situation created by the Japanese compromise plan stirred hope in conference circles, in which the belief is still held that a treaty can eventually be drawn up at Geneva.

Whatever decision, if any, the delegates can come to is felt to depend upon the verdict of the British cabinet meeting being held today in London.

Mr. and Mrs. Roy Siner and son, Billie, have returned from a motor trip through East Texas and home through southern Oklahoma.

### Peace Bridge to Canada Ready for Dedication

The new peace bridge connecting Buffalo, N. Y., and Fort Erie, Canada, has been completed and is to be dedicated August 6. Below are (left to right) the Prince of Wales, Vice

President Dawes, Secretary of State Kellogg and Premier Stanley Baldwin, who will assist in the ceremony. The bridge is to commemorate the 100 years of peace between the United

States and Canada and serve as a reminder that there are no fortifications on either side of the border from coast to coast.

### Flagman Sues Joe Bowers For \$30,000, Alleging Injuries Of Accident Permanently Damaging

Seeking actual damages of \$20,000 and exemplary damages of \$10,000, J. F. Shelton has filed suit in District Court against Joe Bowers.

The petition alleges that Shelton, flagman at the Caylor street railroad crossing, was struck and badly injured June 24 by a car driven by Bowers. Permanent injuries are cited. The plaintiff alleges he was "negligently hit and hurled a distance of 35 or 40 feet," suffering a broken arm, crushed ankle, and other wounds.

### Field Men of Oil Division See Early Improvement

J. M. McDonald, field representative of the oil and gas division of the railroad commission, returned yesterday afternoon from Austin, where he has been attending a meeting of representatives from each division.

The situation in each field was discussed and matters of importance settled. An interesting program and a picnic were features of the meeting.

It seemed to be the opinion of those present that the oil situation is due to start back to normal. The amount of oil in storage now is estimated at more than 20,000,000 barrels, but it is not increasing.

### Incumbent Loses In Mississippi Race For Governorship

(By The Associated Press.)  
JACKSON, Miss., Aug. 3.—Theodore Bilbo today continued to pile up his lead over his opponents for the gubernatorial nomination as returns streamed in from the Democratic primary election yesterday.

With almost half of the precincts tabulated, Bilbo had attained a 22,000-vote lead over Dennis Murphree, incumbent, his nearest opponent.

### Fate of Italians To Be Announced Tonight by Fuller

(By The Associated Press.)  
BOSTON, Aug. 3.—Governor Fuller's meeting with his executive council, which was to have been held today in connection with the Sacco-Vanzetti case, has been postponed until tomorrow.

It was announced, however, that the governor would announce his decision regarding the fate of the two men tonight.

### Texas Man Hurt In Auto Crash

CHOUDRANT, La., Aug. 3.—J. A. Ward of Breckenridge, Texas, was seriously injured here today when the automobile in which he was riding with relatives to the bedside of another relative seriously ill in the hospital at Monroe, collided with another car.

Mrs. Laura Parker, Howie Parker, driver of the car and Mrs. J. A. Ward, were badly hurt. M. J. Cavanaugh, driver of the other car, was also badly injured.

### City Manager Of San Angelo To Speak In Pampa

At a meeting of the directors of the Chamber of Commerce yesterday afternoon, the manager was authorized to ask E. B. Spencer, city manager of San Angelo, to be the chief speaker at the Chamber of Commerce membership dinner at the new Schneider hotel Tuesday night, August 9, at 8 o'clock.

Mr. Spencer consented to attend when asked by Mr. Barcus over the telephone this morning. He will address the members on the commission-manager form of city government.

Tom Hudspeth of the Hudspeth Directory company of El Paso, at tended the meeting and discussed with the directors the proposition of making a city directory of Pampa. Mr. Hudspeth will make a personal survey of the city within the next 30 days in regard to the directory.

At the present time the company is making a directory of Amarillo.

The city council has the numbering of houses under discussion.

### Don Jones Hurt While Diving Here

While diving from the board at the swimming pool in the Talley addition Sunday afternoon, Don Jones, 16-year-old son of Mr. and Mrs. R. E. Jones, sustained a slight fracture at the base of the skull when he landed on the head of an unknown swimmer who was coming to the top after swimming under water.

He was rushed to a doctor's office for treatment, and is resting well today.

The name of the other person is not known, although efforts have been made to locate him. It is not known whether he was injured.

### Baptist Church May Construct S. S. Building

The Baptist church in session tonight will decide whether the construction of a two-story Sunday school building will be attempted.

The church is much in need of more room, and under present plans the proposed building would be incorporated into the new church structure when built.

Specifications for the Sunday school building were approved by the board of deacons last night.

### COURT STILL ON FIRST CASE

Night Sessions May Be Necessary To Speed Work

A night session was called yesterday by Judge Newton P. Willis in district court at LeFors in order to rush the case of Parker vs Parker.

This case, over title on a large parcel of Gray county land, got under way yesterday afternoon. The morning was spent in selecting the jurors and reading the petitions. The jury is composed of E. J. Gething, Lee Harrah, H. H. Haskins, Walter Jones, William Hubbard, M. D. Abbott, E. G. Barrett, T. J. Coffey, Oscar W. Moorehead, T. H. Andrews, M. H. Kinar, and Floyd McLoughlin.

No cases were set yesterday, but it is hoped to start a criminal case late today. All criminal cases are subject to call when there is an opportunity to begin a trial.

The docket will be cleared for the call of the DeGraffenreid trial early Friday. The State expects to be ready, but the defense may move for continuance.

With work piling up in the district, Judge Willis is endeavoring to expedite trials as much as possible. But in spite of the creation of the 84th district, which is concurrent in jurisdiction with the 31st, there is more than enough work for both. For example, in the recent Hutchinson county session, 40 criminal cases were disposed of and 66 new indictments secured. It is expected, however, that this ratio will not be repeated often.

Divorces were granted yesterday in the suits of Docie Hansard vs T. B. Hansard, and Ralph B. Hutchins vs Florence Hutchins.

The following additional petit jurors have been selected to complete the panel for this week:

A. R. Calaway, O. H. Foster, L. B. Blanton, R. A. Smith, W. J. Caruth, C. N. Baggaman, Jr., S. Williams, Roy Sewell, B. J. Lomax, E. M. Osborne, W. R. Campbell, W. T. Wilson, Allen Wilson, K. E. Windom, R. Phillips, Victor Back, John Brooks.

### Veterans' Bureau Official Will Be Here Two Days

J. D. Stafford of Oklahoma City, contact officer of the veterans' bureau of the war department, will be in Pampa tomorrow and Friday. Veterans of the world war who have anything they wish to take up with the department are urged to get in touch with Mr. Stafford at the American Legion building on West Foster avenue while he is here.

It is Mr. Stafford's work to aid the returned men in any way possible, such as relating to their insurance, compensation and any other matter of personal nature.

### French Aviator Would Compel Levine To Fly

PARIS, Aug. 3.—Maurice Drouhin, French aviator, today began action against Charles Levine, seeking to compel him to fulfill terms of their tentative contract signed in July, when Drouhin was chosen to pilot Levine's monoplane, Columbia, on its return Atlantic flight from Paris to New York.

### HOOVER MAY BE CANDIDATE OF HIS PARTY

But Secretary Insists Executive Should Be Re-Elected

### DAWES REGARDED AS POSSIBILITY

Caution Exercised As Startling Message Is Studied

(By The Associated Press.)  
PALO ALTO, Cal., Aug. 3.—Herbert Hoover, commenting today on President Coolidge's announcement of yesterday, declared:

"I regret the suggestion of the president's statement, however, I still believe, as I stated in Chicago two weeks ago, that President Coolidge should be re-nominated and re-elected."

(By The Associated Press.)  
WASHINGTON, Aug. 3.—A night of speculation left the Washington political heads still muddled today over President Coolidge's announcement that he did not choose to run for president in 1928.

Instead of clarifying the situation, as time approaches for active campaigning for the national convention the action of Mr. Coolidge has brought a vast outpouring of opinions which graphically illustrate the uncertainty in the minds of both friends and opponents of the administration.

A majority of these opinions are informal because of the great reluctance on the part of politicians to commit themselves on the question which is on every lip.

"Will the president run if nominated?" is the big issue of the present.

Gossip here has long been persistent that with the president eliminated Secretary Hoover might feel himself free to get into the race, along with Vice-President Dawes, Frank Lowden, Speaker Longworth, Senator Borah and others classed as eligibles.

NEW YORK, Aug. 3. (AP)—The stock market which broke from three to nearly 16 points on the first onslaught of selling which followed President Coolidge's statement that he did not choose to be a candidate for re-election, immediately staged a remarkable recovery which substantially reduced or wiped out most of the early losses.

A few issues were carried to record high levels.

### Community Boys' Institute To Begin Tomorrow Night

Tomorrow night at the Chamber of Commerce rooms the first meeting of the Community Boys Institute, in the interest of the Boy Scout movement being fostered in Pampa, will be held.

Rev. Dr. R. Thompson, pastor of the Central Presbyterian church at Amarillo, will give an address on "The Emerging Man."

It is expected that Dr. J. A. Hill of Canyon will be present Friday night to speak on "Being a Dad."

Members of all lodges, church and other organizations have been asked to have at least five members present at the meetings. These sessions will be open to all interested in the movement.

### RAIDS AT LEFORS

Officers of the sheriff's department raided a residence in LeFors yesterday afternoon and confiscated 80 pint bottles of home brew, said to have been for the thirst of those attending court.

## Martin Karow Now Member of Texas U. Coaching Staff

AUSTIN, Aug. 3.—Martin Karow, named as one of the three outstanding back field men of the Big Ten last year, has been appointed assistant football coach and general assistant in the physical training department for men at the University of Texas for next year.

Karow comes from Ohio State university where he was a three letter man and captain of the football team during the past year. Other assistants to Clyde Littlefield, head football coach of the university, are yet to be selected, according to members of the university athletic council.

**DYED FUR IN VOGUE**  
 VIENNA (AP)—Fur designers here are producing some exotic effects in combination of dyed fur with natural pelts. Coats with geometrical borders of color and two toned striped effects are popular.

## Oxford Track Coach Ends 30-Year Career

(By The Associated Press.)  
 OXFORD—When the Harvard-Yale combined track team met the Oxford-Cambridge team in England a coach who has trained Harvard track teams for six years and Oxford teams for seven, participated in his last meet. His track career covered more than 30 years.

The man is Alfred Shrubbs, who has held fifteen world records, five world amateur records and 11 Scottish records for distances from 2,000 yards to 11 miles. Shrubbs says the ill-health of his wife occasions his retirement.

During his six years at Harvard just before the war, Shrubbs did good work in building up the team. The most notable meet held under his regime was that of 1912, the year in which William J. Bingham, now director of Athletics at Harvard, was track captain for the Crimson.

Shrubbs was in his prime in 1903 and 1904, when he piled up the majority of his 31 titles. He was National and Southern cross country champion from 1901 to 1904. He also holds the New Zealand mile record of 4 minutes 22 seconds, and the Scottish record for an hours running, 11 miles, 1137 yards.

## SPORT TALK

The city league teams are putting up some real games of ball at the Magnolia field, and are being supported by large crowds.

The Pampa baseball team has entered Amarillo for the last time, according to the management of the club, who have talked the matter over since the Amarillo tournament. Every team lost money, when they should have come out on top. The Grays got only enough out of the games to feed the boys about a week. Fourth money should have been at least \$500, but it wasn't.

The Denver tournament is next and Berger wants to sign up the entire Grays team and enter them in the big event. They would play games all they way up and back and should make some money.

The high school football team will commence their routine of practice September 1, but a meeting of the 1927 team will be held at the high school Thursday night to talk over the plans for the coming season and the new rules.

The Dallas Steers won an eleven-inning battle yesterday from Waco. Bauman hit a homer in the first inning and Riley won the game in the eleventh with a double that scored Bagwell.

The old veteran Walter Johnson lasted eight innings yesterday, pitching on the 20th anniversary of his debut in big league ball. As 20 years ago, Johnson lasted eight innings, but his relief was credited with yesterday's loss.

Cincinnati took two games from Brooklyn yesterday and landed in fifth place after spending most of the season nearer the bottom.

## Oilers Win Over Washrites Team

Playing snappy baseball behind great pitching by Red McLendon, the Oilers defeated the Washrites at the Magnolia field last night in a city league game, 11 to 6.

Reynolds was in the box for the laundrymen and pitched nice ball, but his support was not the best and he has been out of the game for some time. Red Gather tore ligaments of his leg while playing short for the Washrites and will be out of the game for some time. He has been troubled with his leg and injured it in the Amarillo tournament, but continued to play.

Sherrod, McLendon and Seigle were the heavy hitters for the Oilers, while Hust and Cahill took the batting honors for the Laundry nine.

Batteries: Oilers, McLendon and Sherrod; Washrites, Reynolds and Chalpepper.

**TRIES REJUVENATION**  
 BUDAPEST (AP)—At the age of 63 Countess Kinsky, known on the stage 25 years ago as Ika Palmay, is going to try to "come back" following a reported operation by the famous Dr. Voronoff. She played in the United States a quarter of a century ago.

Since the war the Countess has been making a living by conducting a small tobacco shop in Budapest.

## Harold Bell Wright Has Desert Boat

Before Harold Bell Wright entered the ministry and began writing novels he was a carpenter. Being also a fisherman and having his estate near Tucson, Ariz., a long way from the water, Wright designed and built the water diver shown above. He uses an out-board motor when chasing the snaffles, and he chases them all over. He takes the boat with him wherever he goes, and first launched it in the Gulf of California.

## Wins Court Shingle With Lawyer Husband

(By The Associated Press.)  
 LITTLE ROCK, Ark.—If any legal questions arise in the family of Mr. and Mrs. W. E. Beaumont, each side of the house will be prepared to argue points of law.

For after two years of working in Little Rock banks and studying law by night, Mr. and Mrs. Beaumont have the distinction of being the first married couple to receive attorney licenses from the Arkansas supreme court. They will practice law in partnership.

"Going to classes six nights a week two years was exacting," they agree, "but never monotonous. Thrashing out legal questions together helps us both."

## Amateurs of Public Links Meet In National Tourney

### Fish Expert Tells Secrets of Seafood

(By The Associated Press.)  
 LONDON (AP)—How does the prawn manage to get into polite society while the shrimp is taboo?

There are fashions in fish just as there are styles in ladies' gowns, and E. G. Boulenger, director of the London Zoo aquarium, discusses them in a book he has just published, "A Naturalist at the Dinner Table."

Boulenger reveals many secrets of the restaurant keeper. Fish dishes often are not what they seem, he tells, and high-sounding names often conceal the humblest creatures of the deep.

Whitebait, which is regarded as a luxury in England, is a combination of all sorts of little fish. Even baby seahorses get mixed with pipefish in this fried mixture of small fish, so the naturalist says. In winter whitebait is chiefly sprat and in summer it is mostly herrings.

Boulenger says tinned crab is sometimes the flesh of the octopus dyed pink. Turbot bonnetfemme is often shark or dogfish and "rock-salmon" has no claim on the salmon tribe. It is often wolf fish. Sometimes it is angler fish. Fried sole is often fried witch, or fried megrim.

### GET HUSBANDS EASILY

LONDON (AP)—A laundress can always get a husband, said Lady Islington before the National Conference on Maternity and Child Welfare here.

"It does not matter how ugly or ill-favored a laundress may be," she said. "She can always get a husband for a man feels today that he must get a wife who will keep his home together."

### (By The Associated Press.)

CLEVELAND—Lester Bolstad of Minneapolis, national public links golf champion, will defend his title against golfers from municipal courses throughout the country at the national public links tournament over the Ridgewood course here August 2 to 6.

The competitors must not belong to any private club, and in addition to being amateurs they must play regularly on some municipal or fee course. Most of the contenders are youths, but there is no age limit.

When the event was inaugurated some years ago by James D. Standish of Detroit, competitors came with rusty and mongrel clubs. Nobody even hoped to forecast which of the group might win the title. In recent years, however, many coming champions have shown themselves first at the public links event. Many of the competitors have become noted players—among them Ray McAllister and Roland Mackenzie—and private clubs have taken in promising players, one of whom was Eddie Held of St. Louis.

Bolstad, 1926 public links champion, is a University of Minnesota star and already this season has shown his mettle by tying for second medal honors in the national intercollegiate tournament.

This year's meet will be played over a 6,550 yard course said to be as severe a test of golf as any private links. After the qualifying round, in which 32 entrants survive, the matches are at eighteen holes until the finals.

### Eye Dropper Feeds Lightweight Babies

LONDON (AP)—English parents are vying with each other far the honor of having the lightest weight baby.

One entry from Paddington was a little girl who for three weeks was fed with milk from an eye dropper. She has now graduated to spoon feeding. The child is the tenth in her family.

From Christchurch, New Zealand, came a mother's claim that her 15-year-old daughter weighed 14 1/2 ounces at birth and was also fed with an eye dropper.

# ANOTHER BLOCK IS OPENED!

The pavement has been completed and Russell street is open to traffic. This gives businesses on the street an outlet and the public an opportunity to visit us.

**A YEAR OLD AND A YEAR AHEAD  
 NEW VICTORIES FOR  
 Whippet**

The Whippet, Offering Maximum Economy, 4-Wheel Brakes, Greater Roominess and Superior Quality is Now Outdistancing its Own Record of 110,000 in the First Year.

Far Ahead in Economy—proved in a nation-wide test among more than 5,000 owners who averaged 38.6 miles per gallon. Whippet holds the A. A. A. Coast-to-Coast economy record.

Modern—The only light car offering 4-wheel brakes as national standard equipment.

Faster—You can do 55 miles an hour in a Whippet. Its low gravity center keeps the car safely hugging the road.

Quick Pickup—Fastest of any car of its size and weight. 5 to 30 miles an hour in 13 seconds.

Oversize Balloons—For extra mileage and added comfort.

Snubbers—Another reason why the Whippet is the easiest-riding light car on the road.

Adjustable Steering Post—Easily fitted to any driver of any size or stature.

Force-Food Lubrication—The oiling system you find on the highest-priced automobiles.

Roominess—Plenty of leg room for tall people in front seat.

Full-Vision Body—Narrow front pillars on the enclosed bodies enable you to see clearly on all sides.

### Soda Fountains Popular In Czechoslovakia, and Jazz Is Well Liked by British People

(By The Associated Press.)  
HOUSTON, Aug. 3.—Odd situations in the quest for business daily pass in review before Ernest L. Tutt, manager of the southwest district office of the Department of Commerce whose advice come from many parts of the world.

From China comes the hint that American fashions may abandon the bobbed hair styles. Exports of human hair from Canton to the United States doubled in April over March, which suggested to Mr. Tutt that American women may be "going back to long hair." Official figures show, Mr. Tutt said, that April exports were 59,488 pounds valued at \$20,110 as compared with 27,996 pounds valued at \$10,357 in March.

**Sodas Are Liked**  
Sweeping over into Czechoslovakia Mr. Tutt notes that the first typical American soda fountain and "quick lunch" room ever attempted there has recently been opened in Prague and is catching on with remarkable success. During the first three months of its operation 3,000 persons were served daily with steadily mounting patronage. Since it is the first attempt of the kind in that country to introduce American sodas and other soft drinks and sandwiches to the Czechoslovakian public, Mr. Tutt thinks it merits more than passing notice because it suggests similar opportunities in Pargue for other merchants with consequent increases in the market for American soda fountains, equipment, and machinery.

Apparently a similar situation is developed in Japan where installation of soda fountains is increasing year by year. The number in Tokio alone is estimated at 25 or 30. The total may seem small, Mr. Tutt observed, but added that it showed a large gain in three years. Most of the soda fountains are American made.

**Americans in Palestine**  
Many other curious instances of the effect America and Americans leave on people of other lands are observed in Mr. Tutt's correspondence. For instance 13,000 tourists annually visit Palestine. They usually leave about \$1,250,000 in the country in the form of transportation, hotel accommodations, sight seeing fees and purchases of the curious souvenirs. About 75 per cent of the tourists are Americans whose average stay in Palestine is from three to five days.

Then there is the matter of the Chinese egg business which is in the doldrums just now because internal strife has interfered with transportation of eggs to concentration points where they are dried or frozen. In Shanghai production of dried egg products has shrunk to 15 per cent of normal and amounts to about 100 tons of yolk and 50 to 60 tons of albumen. Meanwhile China's largest frozen egg plant at Hankow, which normally employs 6,000 hands is closed and other plants there are operating low schedules because of reported monetary restrictions.

**English Like Jazz**  
American jazz music also enters into the array of things. In England apparently the public likes it, including the Prince of Wales, if a considerable increase of exports of American jazz instruments can be accepted as an indicator. Within five years exports of band instruments has increased in value from \$3,514 to \$121,034 which Mr. Tutt believes is significant of the British popular demand for this type of music.

Exports, however, work the opposite way in the case of jelutong, found only in the jungles of the East Indies and used as a basis for chewing gum and several other popular confections for which, Mr. Tutt learned, there is a large demand in Texas. Jelutong, he explains, is the coagulated sap of the wild dyora tree which flourishes in the island of Borneo, British Malaya and Dutch Sumatra. Singapore is the only important market which absorbs for export approximately 7,740 tons annually, 95 per cent of which is consumed in the United States. Borneo, Mr. Tutt pointed out, is the principal producing area where jelutong is gathered by the original "wild men of Borneo," a primitive people who alone dare the dangers of the jungle to gather the sap. The dyora tree usually attains a height of 100 to 150 feet and a diameter of three to six feet.

### Is Voting Aid To Working Girl

(By The Associated Press.)  
JERSEY CITY, N. J., Aug. 3.—Woman suffrage, says Mrs. Nellie T. Smith, labor leader, has been of no assistance in getting woman a "square deal" in industry. Mrs. Smith has the distinction of being one of the few women in the

country to serve on an executive committee of a state federation of labor.

"Labor got just as much before as it does now," she avers. "It is the justice of our cause rather than our ballots that count. Labor wins because its objectives are unselfish and right."

Because women in industry lack permanency, and girls continually leave their jobs for marriage, Mrs. Smith points out, it is impossible for them to organize as successfully as men.

Mrs. Smith found herself widowed and with a small son to support, more than a decade ago. She became a teacher. Since then she has been graduated from Fordham university. Recently she was admitted to the New Jersey bar. She was appointed a member of the state federation's executive committee after her organization of the New Jersey school teacher's union.

### West Texas Notes

**San Angelo**—Efforts are being made to secure a fish hatchery for Tom Green county. This county has more miles of running streams than any other county in Texas and the streams are frequented by fishermen. A hatchery is necessary to keep the streams properly supplied. Commissioner W. J. Tucker is expected here at an early date to go over the situation with officials of the San Angelo Board of City Development.

**Stephenville**—The Stephenville Chamber of Commerce held a membership banquet here last week. An overflow crowd assembled to enjoy great C. C. Colvin new secretary of the Stephenville Chamber of Commerce.

**Stamford**—The West Texas Chamber of Commerce has pledged support to the ranchmen of West Texas whose rights to oil royalties have been jeopardized by action of the state in seeking to declare unconstitutional an act of the legislature granting one sixteenth of the oil to land owners purchasing state land. Under the old law the state retained the mineral rights of state land. The legislature passed a bill

giving the land owners one-half the royalty and acting in good faith the landowners permitted oil operations on their land. Should the bill be declared void, title operations to royalties on many thousands of acres of West Texas land will pass from the land owners and will work great hardship in West Texas. The matter was precipitated when the royalty of Ira G. Yates was attacked. The Yates pool in Pecos county is "now one of the most promising pools of West Texas. The directors of the West Texas Chamber voted at their recent meeting in Cisco to support Mr. Yates and other West Texans whose property is jeopardized and the legislative bureau of the organization instructed to take whatever action necessary in the case. Homer D. Wade, manager of the organization, is now making a study of the matter.

**Vernon**—Programs and invitations to the Northwest Texas Press association meeting in Wichita Falls Sept. 9-10 are being sent out by Ray Nichols, editor of the Vernon Record, who is also secretary of the Press association. Sam Roberts of Haskell is president of the organization.

**Wichita Falls**—The special train of West Texans who went from Wichita Falls to California where they spent two weeks studying the irrigation system there has returned.

The party was headed by H. A. Kemp of this city. M. M. Whiteker, agricultural manager of the West Texas Chamber of Commerce, represented his organization. The party reported a successful trip and returned convinced that Texas offers a better field than California for agricultural development.

**Lamesa**—The largest motorcade in the history of Texas journeyed over the Del-Paso Caverns from Breckenridge to Carlsbad. Nearly five hundred people made the trip. A business meeting was held in Seminole, at which plans for improving this important artery of travel were made.

**Dalhart**—A. T. Holcomb, secretary of the Dalhart Chamber of Commerce has requested the West Texas Chamber of Commerce to create a new district in the north plains section. According to Mr. Holcomb, the present north plains district is too large to permit the entire section to have representation at the district conventions. Mr. Wade has the matter under advisement and will announce his decision at an early date.

**Austin**—Great progress has been made by the schools of West Texas during the past year. The State Department of Education reports that scores of West Texas towns have been granted an increase in affiliated credits and have increased their rank. Unusual efficiency has been reported

### FORESEES MEN COOKS WIVES WAGE EARNERS

LONDON (AP)—The modern "Eve" is forging ahead, while "Adam" is a mannikin rather than a man, writes Miss Joan Kennedy, the novelist, in "The Soroptimist."

"It will soon be a compliment to label a man 'effeminate,'" she says. She predicts the wife as the wage earner of the future, loafing about the house evenings and Sundays, while the husband wears the apron and does the domestic tasks such as cooking, washing the dishes, and putting out the cat the last thing at night.

"Our mannikin," says Miss Kennedy, "proposes to a girl who has twice his vitality. He may earn the equivalent of \$20 a week but as she can do the same, he supposes that they can 'rub along' somehow, and lets it go at that."

ed in administration and in instruction in the high schools of West Texas. Remarkable increase is reported in the number of new school buildings in West Texas and the same improvement is reported in school equipment in that section.

Have you read the classified ad

# "I got the idea from Florenz Ziegfeld"

Behind the scenes at the Ziegfeld Theatre Gladys Glad is remarking to Flo Kennedy between acts of the Follies.

Florenz Ziegfeld, famous theatrical producer, writes:

"As the producer of 'The Ziegfeld Follies' I know full well how important it is for my stars to have clear voices at all times. Several years ago, when I first began to smoke Lucky Strikes, I noticed that my voice remained unharmed after a most strenuous time directing rehearsals. I passed this information on to my stars and now we are all agreed: Lucky Strike is a delightful smoke and most assuredly protects the voice, eliminating any coughing, which often interrupts a perfect performance."

*Florenz Ziegfeld*

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

## "It's toasted"

No Throat Irritation - No Cough.

Telephone 100, all departments

Living is not bread and meat alone. Travel, even if but home to office and office to home, is a huge part of modern life. More money is spent for automobiles in the United States than for all the farm crops produced. Millions is being spent for roads.

Texas is getting in a bad way in road building. When state and federal aid was offered, counties began a scramble to get their share before the fund became exhausted. Consequently there is more money to be matched than the highway commission can accommodate.

School will open soon. It is an institution intended to promote sound health, useful citizenship, worthy home building, proper use of tools and technique of learning, wise use of leisure time, and vocational effectiveness.

EVEN LAUDER BOWS IN GREATEST GRIEF

There is an old saying that retired comedians mourn the death of their pet jokes. Nothing is quite as dead as a stale story. Yet those who are professional jesters or entertainers, and who have a sincere regard for their vocation, really live their parts.

Take Harry Lauder. There is a genuine throb in the headline, "Harry Lauder Prostrated at Wife's Death." Jovial Lauder, who wiped away a manly tear and kept smiling when his only son was killed in the battle of the Somme, has lost the mother of that boy.

Not even the courage of a Lauder could stand up under this last shock, and the public will not insist on an immediate appearance. The heart that, though heavy, has helped to lighten the burdens of thousands, is subdued in grief which itself needs lightening.

The Three Musketeers

his last family tie is a close second.

PRESIDENCY MUCH IN THE HEADLINES

Coolidge makes the simple announcement that he will not seek re-election. Usually, he can be depended upon to mean what he says, and unless unusual pressure is brought to bear, it may be assumed that his statement will stand.

No announcement could have started more speculation. Those who are opposed to even the semblance of a third term will say that Coolidge realizes he could not be returned to office. Some strategians will deduct that the Republicans are really intending to pick a strong man who can be elected now and more readily returned to office for the following second term.

If it is partly the latter plan, who is to be that Republican candidate? Hoover was one of the last men to speak with Coolidge. He is to be brought to the forefront in connection with flood control measures to come before the special session of Congress. Lowden may loom as a nominee, but the party has not impressed the farming class and his dirt farming strength is not pronounced.

But with Coolidge out of the running, the Democratic nomination takes on new interest. If a new man is to occupy the White House, it is an even bet that the Democratic party can pick as strong a man as the party in power. Although Al Smith is easily the outstanding potential candidate, his wet tendencies likely will preclude his nomination.

Coolidge's announcement has started the political pot boiling at a merry rate. It will be interesting to watch for the first heads to bob above the masses of party men. Men, rather than issues, apparently will determine the country's vote.

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON. — Whatever the benefits or damage accomplished by prohibition, the great "wet and dry" fight has completely altered the political situation of the republic.

Whether he is running for the presidency or a constabulary, a candidate for office today must meet the issue and declare himself. Regardless of his personal merits and the soundness of the rest of his platform, he must face the likelihood that he will be elected or defeated by a certain number of voters who will be swayed by his attitude toward the Volstead Act.

To be sure, he may straddle the issue, but many candidates have found that there is no safety in such a course when his opponents are straightforward about it. Thus, a man may be a perfect wizard at catching stray dogs and lose his position at the pound to a partially blind and lame fellow who is better adapted to the pursuit of tortoises but who nevertheless "thinks right" on prohibition.

The country loses its Wadsworths and Lewises, its Heflins and Mayfields. Or it loses its Peppers and Butlers and gains its Vares, all with little regard to the actual merits of these men.

The great importance of the prohibition issue to a politician's career is matched, of course, by its importance to the two great national parties. It threatens to wreck the Democratic party completely and it becomes more and more likely to cause serious trouble for the Republicans.

Both parties are subject to the tug-of-war between two forces. The difference seems to be that the Democrats hold their dog-fights in the open while Republicans, relatively speaking and insofar as national politics goes, keep theirs behind the scenes. At

this writing there appears to be some faint talk of a wet bloc at the next Republican national convention, made up of delegates from such states as New York, New Jersey, Pennsylvania and Illinois. But it's very faint.

Telling McGraw how to win ball games is like teaching one's grandmother how to darn socks.—The Baltimore Sun.

The old time Chautauqua and its guaranteed proceeds has left the Panhandle, but there seem to be few mourners.

PRESS FORUM

WILL IMPROVE SERVICE

One of the wise pieces of legislation enacted at the last session of the Legislature was the bill regulating motor bus passenger service and placing it under the control of the Railroad Commission. That there should be some kind of regulation of this type of transportation has been apparent for some time.

In addition to these conditions, bus owners who sought to maintain regular schedules and give good service at reasonable rates were subject to cut-throat competition in seasons when patronage was good and when patronage was not so good the competition would disappear leaving the more reliable bus owner to maintain service during seasons when it might be unprofitable.

Naturally the public had some rights in the situation and the legitimate bus operators who invested their money and attempted to give dependable service at reasonable rates were entitled to some protection. In fact, the transportation of passengers by motor has grown to such proportions within the last few years that it could no longer be ignored without jeopardizing the interests of the public and the bus owners.

The new law will require a license or franchise from the Railroad Commission before a bus line can be started. This franchise will impose certain conditions as to rates and service on the operator. At the same time he will have the surance that he will not be hampered by a competitive line until it can be shown that there is sufficient patronage for two.

The law becomes effective

TWINKLES

Denver is promised horse racing. By all means; no city which lays claim to as many sins and virtues as Denver should be denied horse racing and all the trimmings.

A lot of ideas, like fire, are alleged to be of incendiary origin.

Flying while intoxicated should be strictly punished. The brutes are apt to knock the shape out of some of these new spring hats.

If martyrdom could be depended upon to lead to lasting fame, a lot of folks now living would not die natural deaths.

Undying love is that which has to be renewed every few days.

Sea-sick passengers may be able soon to charter a plane which will fly just above the big liners, and land only for fuel and provisions.

The latest in barber shop fiction is the little number entitled, "Nailed by a Manicurist."—Hugo News.

Many a man sits around all day wondering why he doesn't get his pay raised when that is the reason.—Chickasha Express.

Within the next few weeks and we may expect to see as a natural result a marked improvement of conditions of motor bus transportation.—The Vernon Daily Record.

### Mrs. Siler Faulkner Honors Guest

Mrs. Siler Faulkner was charming hostess Tuesday afternoon to a number of friends, honoring her house guest, Miss Bessie May Skinner of Ennis, Texas.

Three tables were arranged for bridge. Mrs. George Walstad winning high score prize and Mrs. Lewright consolation.

After several games a delicious salad and ice course was served to Mrs. W. M. Craven, Mrs. C. C. Cook, Mrs. E. Griffin, Mrs. DeLoe Vicars, Mrs. George Walstad, Mrs. J. M. Dodson, Mrs. Edwin Vicars, Mrs. Marion Howard, Mrs. W. M. Lewright, Mrs. C. T. Hunkapillar, Mrs. Joe Smith, Miss Lillian Manning of Dallas and the honor guest, Miss Skinner.

### "INSIDE" INFORMATION

Baked pears are a pleasant variation from baked apples. If the flavor is not very pronounced, a little lemon juice will tone it up.

Send to the United States Department of Agriculture for Farmers' Bulletin 1471-F, "Canning Fruits and Vegetables at Home," before you are confronted with a large garden surplus.

Cooked cucumbers may be a novelty in your family. Pare and quarter them, and prepare as you would steamed squash. Serve with melted butter or a sauce if desired.

It is never the wrong time of year to start a budget or a savings fund. Plan for the next month ahead, and the next big expense you have to meet, and gradually you will have enough accumulated to take care of what lies before you.

Don't throw away sour cream. Serve it simply clabbered for dessert, with powdered sugar, honey, maple sirup, strawberry or other preserves, and a little sweet cream. Or use it in griddle cakes, waffles, biscuits, muffins, cookies or cake. Make it into salad dressing or use it as a sandwich spread, with chopped nuts or olives or both.

To eradicate household ants, a sirup poisoned with arsenate of soda is effective where it can be safely used. To make it 1 pound of sugar is dissolved in a quart of water to which 125 grains of arsenate of soda is added. Use it after boiling and straining, on sponges, placed where the ants will find them easily. The sponges are collected several times daily and the ants swarming on them are killed by immersion in hot water.

### PEOPLE'S STORE IS CELEBRATING BIRTHDAY

The People's store is celebrating its first birthday in Pampa by staging a mammoth value-giving sale.

One year ago the Levine brothers, Morris and William, established the local store. The success of this unit is no less than that of others owned by them. Other stores are at Vernon, where the main office is located, Iowa Park, and Chillicothe. The brothers started with small capital, and have built up a half-million dollar business.

They attribute their success to value giving and extensive use of advertising. Morris Levine is in charge of the Pampa store.

A. I. Darling of Grand Forks, N. D., has purchased the Pampa bakery and Fred Schafer will remain with Mr. Darling and be in charge of the baking.

### Turkish Girls Take Up Tourist-Guiding

These Turkish girls used to be inside the harems but now they are outside "looking in" with foreign tourists who ask for accomplished guides.

STAMBOUL, Turkey, Aug. 3. (AP)—Tourists to Turkey this year, desirous of seeing the nearest harem, have been surprised immediately upon their arrival.

The guides waiting for them on the quay are none other than Turkish women whom the tourists had imagined still languishing behind latticed windows and in walled gardens.

Lecture-guiding is the most recent occupation invaded by Turkish women and their success is such that they are largely replacing men. The girl guides of Stamboul in some instances represent notable families and all are Moslems. One is daughter of a deputy, one a princess of Azerbaidjan and two are daughters of a famous poet. Some are gradu-

ates of the American college at Constantinople.

The girls have caused police to stop alleged unscrupulous dealings of men guides. Because of their crusade they have been menaced by those whom they denounced. A tourist agency, planning to use girl guides extensively is protecting them.

### SOCIAL NEWS

By MRS. J. M. SMITH, JR. PHONE 72

Mrs. Clinton Henry has returned to the J. A. Ranch after a visit with her parents, Mr. and Mrs. Dave Pope of this city.

Mrs. J. C. Jackson of White Deer and her guest, Miss Mayfield of California, spent Tuesday with Mrs. Jim White and family.

Mrs. Don Davis left Wednesday for Pauls Valley, Okla., to visit her parents.

Mrs. G. W. Thomas will depart Thursday for a visit in Michigan and Ohio.

Mrs. J. P. Johnson, Mrs. Jessie York, and Miss Reilly of Amarillo were guests Tuesday, of Mrs. J. L. Stroope.

Virginia Thomas left Wednesday for her home in Weatherford, Okla., after spending several days with relatives here.

Yvonne Thomas of this city accompanied her home.

Mrs. J. Salt left Wednesday for Fort Worth, after an extended visit with her daughter, Mrs. L. N. McCullough, and family. Mrs. Salt was accompanied as far as Clarendon by Mrs. Sam McCullough, Mrs. J. W. Coffee, and Mrs. L. N. McCullough.

Mr. and Mrs. O. E. Sailor will leave Thursday for Palacios, where they will make their home.

Mr. and Mrs. Henry Thut were Amarillo visitors Wednesday.

Among those who attended the funeral of J. W. Rose Tuesday were Mr. and Mrs. E. J. Randel of Chillicothe, Geo. Rose of Talbert, C. H. Handel of Farmers Valley, Mr. and Mrs. Jeff Pirtle of Hedley, and Mr. and Mrs. G. C. Kemp of Clarendon.

Oscar Sailor and W. D. Martin spent Tuesday in Amarillo.

Mr. and Mrs. J. M. McDonald returned Tuesday from Austin, where they went on business.

Mrs. Ben White and son were visitors in Amarillo Tuesday.

W. L. Woodward returned Wednesday from a business trip to Stamboul.

R. E. Johnson will leave Thursday for Las Vegas, N. M. He will return soon with his family, who have been there for several weeks.

J. D. Wrather of Amarillo spent Wednesday with his daughter, Mrs. G. C. Walters and family.

Mr. and Mrs. J. E. Williams are spending the week in Amarillo with Mr. and Mrs. Jack Vincent.

Mr. and Mrs. G. C. Rankin of Austin were guests of Mrs. Frankie Shugart Tuesday. They were enroute home after spending some time in California and Arizona.

Miss Marie Farrington is spending the week with her grandparents, Mr. and Mrs. R. W. Crisp at Alanreed.

Otto Hund left Tuesday for Wichita, Kans.

Mrs. Catherine Niedemire of Oklahoma City, is visiting Mrs. Howard Booth of this city.

Mrs. W. H. Henke and children have arrived from Elk City to make Pampa their home. Mr. Henke has been here for some time.

E. R. Turman and Joe DeVilla departed Tuesday for Red River City, N. M.

### Flower Clocks

For summer afternoons, nothing is newer or more charming than sheer silk hose with hand-painted clocks of field flowers.

Mrs. Lee Banks and Miss Emma Lasater were Amarillo visitors Tuesday.

Mrs. John Studer spent Tuesday in Amarillo.

B. J. Babb of Amarillo is in Pampa on business this week. Mr. Babb is associated with the Business Men's Insurance company, and states that his firm probably will make Pampa its headquarters.

David Mead and Carl Dupriest of Amarillo were business visitors here Wednesday.

Mrs. Archie King of Spearman is visiting her mother, Mrs. Marion Walstad.

Mrs. T. A. Kay and son of Amarillo are guests of Mrs. Earl Lewis of this city.

L. A. Wells of Amarillo is here today on business.

W. H. Henke, Jr., of Oklahoma City is visiting his parents, Mr. and Mrs. W. H. Henke.

### Daughter of Swedish Minister War-Time "Angel of Siberia"

(By The Associated Press.) STOCKHOLM — Sweden has a twentieth century Florence Nightingale in the person of Elsa Braendstrom.

The late General Edward Braendstrom, her father, was Swedish minister to Russia during the world war.

The outbreak of the war found Miss Braendstrom a society woman, popular in diplomatic circles. She effected a quick transition from her comfortable life in exclusive Russian circles to the hardships of the military hospitals on the ice desert of Siberia. She organized a Red Cross expedition to survey Russian military hospitals and helped modernize them for the treatment of soldiers of both sides.

A trained nurse herself, she became official delegate of the International Red Cross. The mission brought her in contact with priva-

tions, the cold of Siberia, hunger and disease such as cholera and and typhus. But despite repeated arrests and illness, she did not give up.

Until the spring of 1920, she remained in the east of Siberia, where she cooperated with the American Red Cross. On her journey back she was held up for five weeks in Omsk by the Bolshevik forces. Her release came only when German prisoners of war, grateful for her service to them, intervened in her behalf.

Miss Braendstrom's book about her experiences with Siberian prisoners has been translated into English, German and French. She donates the royalties to the homes for orphan children of German and Austrian prisoners of war. Among these is the noted Neusorge castle, which houses 250 children.

### FEATURES FROM OTHER LANDS

#### FIRST NEWSPAPER AD DISCOVERED IN LONDON

LONDON, Aug. 3. (AP)—What is believed to be the first newspaper advertisement has been discovered in the files of a London newspaper. It is exhibited at the Advertising Exhibition and Convention held in London during July.

The ad is from a newspaper called "A Collection for Improvement of Husbandry and Trade," published in London, Dec. 13, 1695. It reads as follows:

"A Commander of a very good merchant ship wants an apprentice that hath his Pen well, and understands Arithmetick to assist him in the keeping of Books and doing of Business, and hath Friends who will be bound for his true and faithful Service during his Apprenticeship."

#### KING GEORGE'S LAGER

"SPECIALLY BREWED" LONDON, Aug. 3. (AP)—King George V greatly prefers lager beer to any other form of alcoholic beverage. The king's lager is brewed by an Edinburgh firm, and is supplied to no other table, it is said.

The king is known for being remarkably abstemious in diet. Lager beer, which, after the war, was in considerable vogue in England as a summer beverage, is in less demand this year, probably because of the unseasonable coolness of the weather.

#### ENGLISH HOUSES NAMED INSTEAD OF NUMBERED

LONDON, Aug. 3. (AP)—One of the most picturesque aspects of England to American visitors lies in the fact that private homes bear names rather than numbers.

"Four Chimneys," "Five Gables," Hillcrest, "Mapleleaf," and their cousins take the place of 324, 533, 644 and the like.

This is somewhat difficult for the person seeking a house for the first time, and particularly hard for a new letter carrier. But it does have its amenities. Over the doors and on the gates of English homes are their names, and the homes come to acquire characters in accordance with their names.

#### ENGLAND GETS COCKTAIL RECIPES FROM AMERICA

LONDON, Aug. 3. (AP)—Everyone knows him as "Craddock the Cocktail King." He probably has a first name, but no one uses it. He presides over the important function of mixing cocktails at the exclusive Savoy hotel.

Craddock says that every year he receives at least 20 new recipes for cocktails from America. These come from men and women who made inquiry as to who was mixing cocktails they were being served during their stay in London. Craddock claims the distinction of having concocted the last legal cocktail in New York at midnight on the night before prohibition went into effect.

#### TOTTENHAM FIREMEN WANT OVERCOATS

LONDON, Aug. 3. (AP)—Should firemen wear overcoats, and if so why not?

A question in words to this effect is being debated by the Tottenham Council, London.

For 25 years the firemen of Tottenham have had no overcoats. Now they want them. Councillor Jay said that the Fire Brigade Committee recommended that their request be refused because the firemen had done without overcoats for a quarter of a century and could do without them now.

"Two thousand years ago," he said, "firemen wore only an overcoat o. blue plaid."

Councillor Frost demanded: "Who ever saw a fireman wearing an overcoat when putting out a fire?"

#### LONDON GARDENERS LIKE HEDGEHOG PETS

LONDON, Aug. 3. (AP)—The street tortoise seller has long been a feature of London. His strange wares are eagerly bought by suburban householders who place them in their gardens and make pets of them as far as possible.

Now the tortoise vendor has a rival. Trucks laden with hedgehogs are to be seen on the streets. A brisk business is done. Hedgehogs are useful to fruit and flower growers. They eat cockroaches and garden pests. When such dishes fall, they live quite happily on bread and milk.

#### CHISWICK SCHOOLS HAVE ULTRA-MODERN FITTINGS

LONDON, Aug. 3. (AP)—Class rooms with folding partitions opening on tennis lawns and windows glazed to admit ultra-violet rays, are features of the most up-to-date school in England, the Central Schools, Staveley Road, Chiswick, which has just been opened.

The school has its own theatre and cinema projector. Telephones in every classroom enable the headmaster to speak to his assistants from his own room.

### Along Pampa-Kansas City Gas Line

Some daily scenes along the line of the Empire Pampa pipeline: (1) Painting (to prevent rust and corrosion) the sections of the big pipe; (2) "Chow"—not exactly cafeteria, but mighty acceptable; (3) Pipe lifting machine; (4) Not a "Big Bertha" but tractor-drawn pipe moving equipment; (5) A straight "shot" of ditch, big ditching machine seen in background, "gnawing" its way along.

### Restricted Catholics of Mexico Hope for Compromise of Trouble Involving Priestly Ceremonials

(By The Associated Press.)  
MEXICO CITY, Aug. 3.—For one year, on July 31, Mexico has been without priestly ceremonial in any Catholic church, as a result of the government's religious regulations.

Probably no other country overwhelmingly Catholic has ever known a twelvemonth wherein no priest of that faith has officiated in any of its churches.

The Mexican Episcopate ordered its priests to withdraw from their churches and to cease services therein, concurrently with the taking effect of the religious regulations, as a protest against them. Until that time Catholic services by priests in its churches had never in Mexico been stilled for a day since the Spanish Conquistadores brought the Cross to the western world four centuries ago and planted it in the ruins of the Aztec empire which they overthrew.

Mexico's religious problem has existed since the middle of the last century, but it had slumbered for several decades until made acute again last year by President Calles' promulgation of the present regulations.

**Priests Must Register**  
Those regulations limit and supervise activities of the church and its priests and requires the latter to register with the civil authorities. Catholics maintain that such registration would be acceptance of the Mexican government instead of the Pope as the supreme authority of the church; that the regulations menaced religious freedom, constituted Catholic persecution, and would destroy that church in Mexico. Calles insisted that his purpose was only to enforce the Mexican constitution. Neither side has yielded.

Calles' term of office expires December 1, 1928. Catholics hope the controversy may be adjusted under his successor, if no compromise can be accomplished sooner.

During this year of deadlock between the government and church, a so-called Catholic revolution has been suppressed by the federal authorities; the foremost Archbishops and Bishops of the Catholic church have been expelled from Mexico and are exiles in the United States, mostly in San Antonio, and many Catholic laymen have been arrested on charges by the government that they plotted revolution.

**Catholics Released**  
Recently President Calles ordered the release of Catholics imprisoned on sedition charges. The President's announced reason was that since the attempted Catholic revolution had failed, the alleged lay plotters were no longer a menace to the government, and did not deserve further imprisonment.

With the exception of the great, historic Mexico City cathedral, other places of worship have continued open. The cathedral has been closed a year. Churches are in charge of citizens' committees. Worshipers enter them at will. Services are conducted by the laity, both men and women, insofar as it is impossible for them to replace priests. Religious services are secretly performed in private residences, although priests and participants are subject to arrest.

Catholic church property in Mexico was declared nationalized in 1856 and the constitution of 1857 and the "reform laws" thereunder deprived the Catholic church of much property, placed sharp restrictions upon its activities and caused the "reform wars" which lasted three years and amounted to a religious war. Juarez, reform leader, won. In 1861 he banished Catholic bishops and the Papal Nuncio from Mexico and turned over great tracts of church land to the people.

**French Intervention**  
Then the pendulum swung the other way. There was French intervention, Maximilian's ill fated empire, the rise to power of Porfirio Diaz. The bitterness of religious war subsided. The religious laws became

dead letters. In 1911, Diaz who had been President of Mexico for 27 consecutive years, and for all practical purposes dictator, was overthrown by the Madero revolution. Diaz had not molested the Catholic church.

From the beginning of the Madero revolution in 1910 until General Alvaro Obregon became president in 1920, Mexico was constantly torn by civil war and no attention was paid to the religious problem. Obregon's administration knew some revival of the problem, but still there was no acute issue.

Meanwhile the 1917 constitution, embodiment of the principles of the revolution that overthrew Diaz, rewrote all the old "reform war" religious regulations and made them more drastic and comprehensive. (That constitution also produced the oil and alien land laws which have made tense Mexico's relations with the United States. In order to prevent another Diaz dictatorship, it is said no president of Mexico should be re-elected. Last year Congress amended the Constitution to permit re-election "after an intervening term." Thus Obregon is now a candidate to succeed Calles and the issue has arisen of "re-election" or "no election.")

Last year Calles construed the constitution to mean that the long dormant religious laws should be revived, and issued a decree that the regulations should be enforced.

Catholics sought last year to amend the religious articles of the constitution, but the effort failed.

### Seminole Flood Still Above Half Million Production

(By The Associated Press.)  
SHAWNEE, Aug. 3.—Greater Seminole declined 11,075 barrels by Sunday morning's gauge and a further 2,246 barrels Monday from Saturday's high peak of 525,647 barrels, the Morning News reports. Monday's gauge showing 512,526 barrels from 644 wells. Earlsboro declined 7,797 barrels and Bowlegs, 6,745 barrels. Only five new wells were reported Monday, four in Earlsboro field for only 3,450 barrels new production.

Earlsboro, 130 wells, 195,284 barrels; Bowlegs, 175 wells, 186,801 barrels; Seminole, 312 wells, 86,172 barrels; Searight, 46 wells, 33,849 barrels; Little River, one well, 11,420 barrels.

Cowden numbers 1 and 2, section 4-9-5, Earlsboro, are cutting twelve and five percent, O'Dell number three—the 14,750 barrel gusher—is cutting a little, as is Knappenberger number 1, a month old, on the extreme west edge of Earlsboro field. On the east side of Payne number one, southeast quarter of section 12-9-5, is cutting five per cent.

It will surprise many persons to know that Pottawatomie county is now producing 111,000 barrels daily ranking second to Seminole county and leading Osage and Creek counties by a wide margin, the two latter counties having stood first and second in the list of Oklahoma producing counties for a long time until a year ago when Seminole came to the front. This large production comes from 48 wells, giving an average per well of 2,312 barrels. The output is all from the Earlsboro field except 4,890 barrels from the Pearson-Salt Creek district.

The Pottawatomie side of the Earlsboro field gauges 106,253 barrels of the total of 195,360 barrels, which will also surprise most people. Close observers of the trend of Seminole production are inclined to believe that it will reach its top and start declining before the worrying operators think it will, and thus relieve the shut-down and proration umpire an advisory committee of a lot of their present uneasiness.

The eight inch-oil line completed

### Popularity for Admiralty Lord Bestowed On Chauffeur "Double"

(By The Associated Press.)  
GENEVA, Aug. 3.—Unexpected popularity for the "ruler of the King's Naves" has been developed in Geneva cafe circles by a Swiss chauffeur.

W. G. Bridgeman, First Lord of the British Admiralty, has a "double" in the person of the chauffeur who serves the British delegation at the naval limitation conference.

His work done the chauffeur dons an old sack suit and a comfortable soft hat much like Bridgeman's favorite garments and lies him to some cafe in one of the humbler quarters of town. There in stolid Swiss fashion, he sits and smokes, ordering beer after beer and sipping

each slowly, as though engrossed in meditation over weighty problems.

The word quickly spreads around among the other consumers of beer, kirsch and coffee at round-about tables. In whispers they confide to one another:

"It's Mr. Bridgeman. I recognize him from the photographs in the newspapers. Who ever would think he was a great Lord? So simple, so democratic in his tastes."

Meanwhile the old chauffeur pulls at his pipe, oblivious to the suppressed excitement he is causing.

The real Bridgeman hasn't set foot in a Geneva cafe or bar since he came here.

### Women Worked "Gasless Tuesday" With Chain Telephone Protests

(By The Associated Press.)  
WICHITA, Kans.—A "chain telephone" system was used by Wichita club women to marshal their forces in the protest which resulted in the first "Gasless Tuesday" here.

Aroused by a 22 per cent increase in domestic gas rates in Wichita, leaders in club circles decided not to use the gas one day a week.

Mrs. John Maltbie, president of the Federation of Women's clubs; Mrs. John W. Clendennin, president of the Hellanthus club; Mrs. R. G. Powers, chairman of the Federation's Civic committee; and Mrs. H. P. Daniels, a member of the Women's Christian Temperance Union, each called five friends and asked them in turn to call five of their friends informing them of the move.

Thousands of housewives joined in

the "silent protest." Thousands of husbands became unconscious collaborators in the scheme when they went without their hot food throughout the day.

The women were so well satisfied with the results that Mrs. Maltbie announced "Gasless Tuesday" would be a weekly occurrence in Wichita the remainder of the summer or until the gas company lowers its rates.

The Federation estimated that 12,000 of the city's 20,000 homes did without gas for the day. The city had used eight or ten per cent more, however, than on the average

The company's estimate, however, included industrial as well as domestic consumption.

A judge in Pennsylvania has ruled that a husband need not support a wife who attended a public dance against his wishes.

### Detective Says It With Plane

Ordinarily it would take several days for a man to travel from Bradford, Pa., to Harrisburg, to Albany, N. Y., and then back to Bradford, stopping to interview two governors on the way. But County Detective Jack J. Allison (below) in a plane piloted by Harry Emery (top), cut the journey down to a few hours. He had to get the signatures of Governor Fisher and Governor Al Smith on extradition papers.

**Cattle and Hogs Higher in Market**

KANSAS CITY Stock Yards, Aug. 3.—Monday's cattle that showed good flesh or were fat and only fair quality were quoted firm. Those that had neither quality or flesh were slow sale but them comprised only a small part of the offerings. Steers that showed any material amount of feed were scarce. The best offerings here were yearlings that brought \$13. Hog prices were 10 to 15 cents higher than last week's close and the highest of the past several months. Trade was active. Western lambs were down 25 cents and natives off 25 to 40 cents.

Receipts were 17,000 cattle, 6,000 hogs and 8,000 sheep; compared with 20,000 cattle, 7,000 hogs and 7,000 sheep a week ago, and 11,475 cattle, 9,525 hogs and 8,650 sheep a year ago.

Demand for practically all classes of fat steers was active at strong prices. Plain and ordinary kinds were rather slow, but no lower. Outside of one lot of yearlings at \$13. Nothing with finish was offered in this line. Good fed steers sold at \$12 to \$12.75 and short fed steers, including the better classes of wintered grades sold at \$10.75 to \$12. More steers showed only grass fat than grain feed, and they sold at \$6.50 to \$10.50. Killers are of the opinion that finished grain fed steers would sell above \$14. Cows were fully steady. In some cases canners and cutters were 10 to 15 cents higher. Fed cows were scarce. Grass heifers were quoted steady to strong. Veal calves were strong to 25 cents higher. Best light weights brought \$12-50.

Demand for stockers and feeders was active at strong to 25 cents higher prices. Inquiry was materially larger than the supply. The buying side is ready for heavy runs.

An advance of 10 to 15 cents in hogs took the market to the high point of the past several months, and 35 cents above the low point last week. Active demand brought the upturn in prices. Receipts have been light for some time past and it is evident that runs will remain small through September. Today 140 to 240 pound hogs sold at \$10.40 to \$10.65; 240 to 260 pounds \$10 to \$10.40; 260 to 325 pounds, \$9.25 to \$10; packing sows \$7.50 to \$8.25;

**Texas University Gets \$250,000 Grant from Rockefeller Memorial Foundation for Business Research**

AUSTIN, Aug. 3.—An unconditional grant of \$250,000 to extend over a period of five years has been made to the University of Texas by the Laura Spelman Rockefeller Memorial Foundation in order that the university may inaugurate a program of research in economics and business administration and the related social sciences, according to an announcement made by C. D. Simmons, secretary of the board of regents of the university. Definite plans were made at the recent meeting of the board for the beginning of this program during the coming year when the first \$50,000 of the grant becomes available.

Dr. W. M. W. Splawn, re-elected professor of economics and member of the graduate faculty following his resignation as president of the university, was elected by the board of regents as director of the research work contemplated under the terms of the grant. Dr. Splawn was largely instrumental in bringing about a visit of officers of the Laura Spelman Rockefeller Memorial Foundation to the university to study its facilities for carrying out a research program of this type.

Dr. Splawn has been granted relief from teaching duties for the

**Caddy To Champion In Two Years Is Story of Goodman's Career**

DENVER—The story of the phenomenal rise of John Goodman, 18-year old youth of Omaha, from caddy to champion trans-Mississippi golfer reads like a Horatio Alger narrative. The new trans-Mississippi king is reaping the rewards that follow courage, determination, and hard work.

Forced to drop out of school by the necessity of fathering and mothering a family of nine, young Goodman obtained employment at a caddy at the Omaha Feld club.

Goodman's golfing ability soon made him champion of the caddies, and as a caddy he was sought by expert players, from whom he gleaned valuable pointers. The club profes-

sional declared the champion had uncanny ability to detect the finer qualities of the better golfers.

With a set of clubs partly borrowed and partly gifts, Goodman "retired" as caddy in 1925, at the age of sixteen. That year he entered the Omaha city tournament and won the title. The next year he was medalist of the tourney, medalist in the Nebraska state tourney in the same year and semi-finalist in the trans-Mississippi tournament also.

At the beginning of this season, shortly before his graduation from the South Omaha high school, Goodman won the high school championship honors an d also was a member of the high school championship team of Omaha, climaxing his season with

**American Obtains Permit To Land On Japanese Soil**

(By The Associated Press.)  
TOKIO, Aug. 3.—The Japanese government has granted informal permission for landing on Japanese soil of Captain William Erwin, American officer who is planning a trans-Pacific flight.

Permission was granted through the American embassy at the request of the department of state.

the winning of the trans-Mississippi championship at the Broadmoor course.

Goodman has made marked progress since his first championship in Omaha two years ago. He stands today as one of the leading players in the middle west. His steadiness is the remarkable part of his game, as his medal play record in the recent tournament showed. His card varied only a few strokes throughout the championship play this year. He never was above the seventies and on three occasions was under par.

A feature of his remarkable win this year was his battle against the combination of an opponent and a caddy. The bewildering Broadmoor course on the slopes of Cheyenne mountain caused a great deal of trouble to the players. Goodman was the only player who did not consult his caddy before shooting. It was on deceptive greens that most of the contestants marred otherwise enviable cards. Goodman played caddy for himself in the way of advice and achieved a double victory, since his play on the greens was largely responsible for his success.

Goodman's triumph over James Manion, St. Louis city champion and former trans-Mississippi title holder stamped him as a link performer of first rank and a worthy successor to Eddie Held, also of St. Louis, who was dethroned early in the championship play.
