VOL. 1. NO. 4.

PAMPA, GRAY COUNTY, TEXAS - MONDAY EVENING, MARCH 14th, 1927

PRICE FIVE CENTS.

KNOB-KNOCKERS ARE BUSY HERE

NOT GUILTY IS VERDICT ASKED FOR SINCLAIR

Counsel Would Have Judge Find No Cause

EVIDENCE SAID TO BE LACKING

Attorney Asserts His Client Was Not Sworn In

(By The Associated Press.)

WASHINGTON, March 14.—A directed verdict of "not guilty" was asked by the defense today in the contempt trial of Harry Sinclair.

In arguing the motion in the District of Columbia Supreme Court, George Hoover, chief counsel for the lessee of the Teapot Dome Naval oil reserve declared there was no evidence to show that Sinclair had been sworn as a witness before the Senate oil committee at the time he refused to answer additional questions.

3 Florida Banks Fail To Open For Business Today

(By The Associated Press.)

WEST PALM BEACH, March 14.—Three banks in this vicinity failed to open for business today.

They are the Ocean City bank of Delray, the First National bank of Lakeworth and the Farmers Bank and Trust company of this city.

Teachers Band To Play Here In On March 23

Pampa will be visited March 23 by the West Texas State Teachers college band, which will make a five-day tour of the North Plains beginning March 19.

There will be about 32 people in the party, including President J. A. Hill and Mrs. T. V. Reeves, director of the bureau of public service.

The band will arrive here in mid-afternoon, and play concerts at places to be announced later. Several soloists are included among the musicians.

The organization played at the Berger celebration and for its North Plains tour has added a large list of selections of various kinds. Sacred concerts will be given at Dalhart and Stratford on Sunday, March 20. Popular and classical numbers are given according to the desire of the audiences.

During recent years the band has been the official band for the city of Amarillo, and has helped to bring many conventions to that city.

CONFERENCE CALLED ON GAS TAX MEASURE

AUSTIN, March 14.—(AP)—House and Senate conferees went into conference today over differences between the two houses on the motor license fee bill, a companion bill to the new gas tax measure.

Both bills passed the Senate last week, with amendments unsatisfactory to the House, where they originated.

Though Engrossed, Delay May Kill Ferguson Amnesty Repeal

(By The Associated Press.)

AUSTIN, March 14.—Amid bitter feeling and strife, the House today engrossed the Senate bill repealing the amnesty granted former-Governor James E. Ferguson by the 29th Legislature.

It failed to muster strength nec-

Has Time Now

While Miss Rosalie Gardner Jones, suffragist and heiress of Cold Spring Harbor, Long Island, was working as a mechanic in an automobile repair shop a few years ago, she was asked if she was going to marry. "I haven't time," she replied. Now, with women enfranchised, she's announced her engagement to United States Senator Clarence C. Dill, the only Democrat ever to be elected to the upper house of Congress from the state of Washington. They will wed in New York.

Presbyterians To Erect An \$8,000 Manse At Once

Immediate erection of an \$8,000 Presbyterian manse was decided by the local congregation Sunday morning, when plans were submitted and approved.

The building, a brick bungalow, will be 36 by 48 feet, and will be located at the southwest corner of Russell and Browning streets.

The basement will contain quarters for the pastor and rooms for special meetings, while the main floor will comprise an auditorium to seat about 250 people.

Services are now being held in the Rex theatre.

Gray-Wheeler Is Exception In New Humble Crude Cut

(By The Associated Press.)

HOUSTON, March 14.—Besides meeting the Magnolia Petroleum company's cut Saturday on Mid-Continent field oil, the Humble Oil Refining company today posted a 10-cent cut in five other instances.

The one exception was for Gray-Wheeler county crude oil.

Ferguson Goes Into Dairying

(By The Associated Press.)

AUSTIN, March 14.—Former-Governor James E. Ferguson, together with his two daughters, has formed a dairy corporation here.

The charter was approved today by the secretary of state. It is to be operated in Live Oak. The capital stock is \$5,000.

TWO TEACHERS OF A. & M. IN DAMAGE SUIT

Plaintiff Draws, Other gun As Result of Collision

HEARING TO BE HELD TODAY

Action for \$15,000 Be- Is Head Extension Work

(By The Associated Press.)

BRYAN, March 14.—A damage suit between two A. and M. college professors drew the attention of the entire college faculty and community today.

It is a \$15,000 damage suit brought by D. B. Milner, associate professor of architectural drawing against Professor and Mrs. Charles Alvord for alleged injuries received in an automobile collision.

The trial has been set for this afternoon. Professor Alvord is head of the college extension department.

Mrs. C. U. Gott, 43, Dies—Funeral To Be Held Tuesday

Mrs. C. V. Gott, 43, died at her home here at 11:45 o'clock this morning. Funeral services will be conducted by the Rev. James Todd Jr., at 3 o'clock tomorrow afternoon at the Christian church. Burial will be in the Fairview cemetery.

Besides her husband, Mrs. Gott is survived by four daughters, Theota, Leota, Thelma and Winifred; her mother, Mrs. S. E. Williams, of Oklahoma City; and two sisters, Mrs. Pearl Moore, of Oklahoma City, and Mrs. Fern Fanning, of Portland, Ore.

She was born April 24, 1884. She has made her home in Pampa for the past 11 years.

Traded Denver Site For Single Mule

(By The Associated Press.)

BELLEFONTAINE, Penn., March 14.—Thaddeus Hamilton, 91, who is said to have owned, at one time, half of the land on which the city of Denver now stands, died here today.

Hamilton traded the land for a mule on which he traveled to California.

U. S. Marine, Dead Is Found Floating On Chinese River

(By The Associated Press.)

SHANGHAI, March 14.—The body of Sergeant James Montague, of the United States Marine corps, was found today in the Vhanhpoo river. Police believe he was murdered.

Galveston Man Shot In Hold-up In Own Store

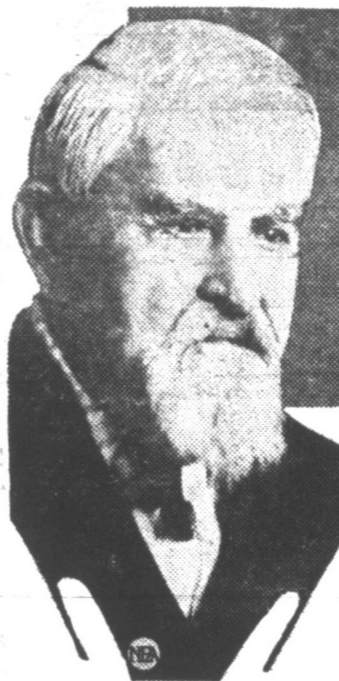

(By The Associated Press.)

GALVESTON, March 14.—S. Nevlow was in the hospital here this morning with a bullet wound in his chest and a man giving the name of Harry Ludlow was under arrest following a hold-up in the business district.

Nevlow was shot when he failed to put his hands up fast enough. The shooting occurred in Nevlow's jewelry store.

Mrs. Ed Moore underwent an operation at the emergency hospital Sunday morning.

Texas Pioneer, 91, Weds Girl of 26

At 91, Colonel Charles Goodnight, ranchman of Clarendon, Texas, has just married Miss Corinne Goodnight, 26, of Butte, Mont. Miss Goodnight, a telegraph operator, read of the colorful life of the colonel, a noted southwestern pioneer, and wrote to him. The romance resulted.

GRAY COUNTY PRISONERS TRY TO CUT DOWN TWO JAILS, AND OFFICERS SEEK ACCOMPLICES

One of the leaders in the jail-break attempt last night—a man named Murphy, was tried at Le-fors today on a charge of auto theft and given a 3-year sentence. He pleaded guilty.

Iron bars do not make a prison, Gray county prisoners know, but it takes quite a while to saw hardened iron without burning the saws up.

Sunday afternoon the prisoners were moved into the old jail while officers cleaned and fumigated the new one. During the process the county guests—about 1, of them—in some manner obtained seven hack saw blades. They worked feverishly trying to saw out of jail, but too slowly, for the officers returned for them just before the last bolt on the door was under the saw. The officers did not notice the work until later, and marched the men back to the newer structure.

During the night the saws were put into play again, and at 6 o'clock but half a bar was between the men and freedom. Then Scott Rhodesall, night watchman, came along on one of his rounds and noticed the activity. He called the deputies and went inside to search the prisoners. One inmate objected and was severely beaten before submitting to search.

The prisoners attacked the new jail near the same places cut by six men who escaped in the jail-break of a few weeks ago. The leaders in the work are said to have been three men charged with auto theft. They were brought here from Vernon last week.

Officers were considerably "riled" today because they believe outsiders watched them move the prisoners yesterday and slipped in the saws in broad daylight. The accomplices are believed to have been members of the group which during the night knocked the knobs off two safes in the Fatheree Drug store.

Ten additional prisoners were taken during the week-end, eight for gambling and two on vagrancy charges.

REAL FIRE BREAKS FOR A DEMONSTRATION

Ike Lewis, E. R. White, and Jack Clemens went to Amarillo Sunday where they saw a Seagraves fire truck in action. During the demonstration a fire call was received at the station and the truck made 45 miles an hour on the run.

V. E. FATHEREE DRUG STORE IS BROKEN OPEN

Diamond Shop Has Valuables In Good Safe

EFFORTS OF THIEVES FAIL

No Stock Missed By Proprietors Today

Prying their way through the front door with heavy bars, intruders last night knocked the knobs off the two safes in V. E. Fatheree Drug company's store but failed to open the doors.

It is believed the men wished cash and diamonds, since they did not molest the stock of the store. However, lack of time might have saved the company the loss.

The Diamond shop operated in connection with the drug store had its valuables in a burglar-proof safe. When the knob was removed the combination automatically became inaccessible.

Safe experts from Amarillo were brought here early this afternoon to open the boxes. When the doors were swung back the contents of the safes were found untouched.

Statements by the night watchman indicated his belief that the attempted robbery took place about daylight. He said he tried the door about 6 o'clock and found it locked. The door was unlocked, however, when the employees of the company came on duty.

The front door-facing was damaged little, and gave little cause for suspicion. Clues on the incident have not given officers anything tangible to work with, but an investigation through the usual channels is under way.

Officers connect the work with that of smuggling hack saw blades into the jail, which nearly resulted in another jail-break.

Indications are that those responsible for the trouble have been watching the officers closely. The boldness of the plans give evidence of professional efforts, officers believe, and the city's idle population will be closely scrutinized.

Lawlessness has been lacking in Pampa since the oil development came along, and last night's activities were unusual here.

JUDGE TEMPLETON DIES

CHILDRESS, March 14.—(AP)—Injuries received in an automobile accident last Friday resulted in the death today at Wellington of Judge R. L. Templeton of the 100th judicial district.

John Andrews, city marshal, returned last night from a business trip to Fort Worth.

City Manager Shot In Office

(By The Associated Press.)

AUSTIN, March 14.—(AP)—Dr. C. W. Goddard, city physician held in connection with the shooting of City Manager Adam Johnson, was found dead in the city jail this afternoon. His throat was cut.

AUSTIN, March 14.—City Manager Adam Johnson was shot five times and seriously wounded in his office here today.

Dr. C. W. Goddard, city health officer, was arrested immediately after the shooting.

No details of the affair had been learned early this afternoon.

Rebecca Rogers Up For Trial

(By The Associated Press.)

SAN MARCOS, March 14.—No action was taken up to the noon recess of district court here today on the plea of Rebecca Bradley Rogers for continuance in the robbery charge against her.

She was to go on trial today on a charge of robbing the Buda bank last December.

Prizes for Prophecies

The Pampa Daily News will pay ten dollars in prizes for the best written and most probable forecast of Pampa as the city will be next December 31—at the beginning of 1928. The awards will be \$5, \$3 and \$2 for the first, second and third places.

The competition will be judged by a committee and will be open to everyone except the staff of the Daily News. Articles to be eligible must be received before April 1. Address the Prophecy Editor, Pampa Daily News.

Forecasts should include prophecy as to the description, growth in size and population, living conditions and interests of Pampa. These should be based upon local needs and opportunities and the probability of their being fulfilled. Articles of more than 1,200 words in length, or approximately one column of type, will not be considered. Manuscripts need not be typewritten.

The Pampa Daily News reserves the right to publish the articles submitted.

The prizes will be paid in April, after the judges make their decision. Write out your sincere beliefs and send them to the Prophecy Editor.

Pampa Daily News

Published every evening except Saturday, and on Sunday morning by the Nunn-Warren Publishing company, at 155 West Foster avenue.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

Application made as second-class matter at the Post Office at Pampa, Texas, under the Act of March 30, 1879.

All rights of republication of special dispatches herein are also reserved.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor. It is not the intention of this newspaper to injure any individual, firm, or corporation, and corrections will be made, when warranted, as prominently as was the wrongfully published reference or article.

GOOD ROAD SYSTEMS

Increasing trend toward motor vehicle transportation has intensified the necessity for intelligently planned highway systems. Good highways now have the same relation to community development that railroads have to regional prosperity. In the bond election of March 30, Gray county people should evidence their economic intelligence by voting favorably on the issue.

The state highway improvement program may materially alter the economic and social development of a people of any section, and the lack of improvement of a given route is of vital importance to the section not progressive enough to connect its roads with state and national systems.

Intensive, rather than extensive, use of land in the vicinity of Pampa will in the future bring prosperity to this section, and in that tendency the connected, county road system is an absolute necessity. It takes much time to build roads, and Gray county is already behind half a year or more, the counties on the west. The roads will be hard-surfaced sooner or later, and now is the time to begin. State aid is being used in more and more counties every month; Gray county must claim her share before the allotment of funds is changed or delayed. The responsibility of the voters at this time is greater than many are apt to realize, for when the oil field starts on its decline the counties with good roads are going to be favored by those wishing to make investments on the Plains.

Road construction is not the problem it once was. Roadbeds are no longer costly experiments. Local, state and federal engineers have worked out road-building problems affecting every type of demand. Through roads are made of durable material requiring the minimum expense for upkeep. Feeder roads are less expensive, but require a greater relative sum for maintenance. Huge tractors and fine road machinery have taken the place of hundreds of horses and men and minimized labor difficulties.

TWINKLES

The weather: a good thing to fasten yourself to on these windy days is optimism.

Well, let 'em cut the crude prices—the pools aren't leaking and the top of the ground is looking green.

Another trouble with this mud, a married man says, is that the wife can't carry the groceries home.

Granite, newcomers will be glad to know, is an important geological phenomenon, not merely a cemetery adornment.

It would be bad to shoot all robbers, for our state capitols need, in some capacity, most of the hangers-on thereabout.

Colleges train for only 15 per cent of the essentials of a job, it is said; probably not including the art of fooling the boss, which ranks pretty high in most circles.

The Duet Is Not As Harmonic As Anticipated

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON. — President Coolidge is not at all bashful, personally, about posing for photographs.

In fact, it is generally suspected that he is rather fond of it.

But you may recall that you have yet to see a picture of the interior of the president's new temporary home, the Patterson mansion on Dupont Circle.

It is very likely that you won't. And it's the president's fault.

As soon as it was announced that Mr. and Mrs. Coolidge would reside in the home of the former Countess Gizycka, now Mrs. Elmer Schlesinger, a great many bright young men engaged in the business of taking photographs bent every effort to obtain photographs inside the temporary White House.

Mrs. Schlesinger herself had no objection, it appeared. She was rather proud of the old home, in fact. But Mrs. Schlesinger was powerless. Orders had come from the White House that it was not desired to have such pictures appear in the newspapers.

No reason was given for this reluctance, officially. The president of the United States seldom has to give explanations for any thing of such a nature.

As the time approached for the president to desert the White House pending repairs, and to move into the Dupont Circle place, efforts were redoubled to obtain the interior views. These efforts likewise came to naught. The camera boys could stand outside and shoot as much as they desired, but they couldn't step inside.

The only suggestion of an explanation which comes from persons who have been inside the house, is that the president feels the interior would hardly square with the Coolidge tradition of Vermont simplicity. Anyone who has ever been inside the old Coolidge home-stead in Plymouth, Vt., with its huge, lengthy stovepipe bisecting the sitting room, will get the point.

A desire has been manifested from the direction of the White House to stress the innate simplicity of the Dupont Circle place. But, under the circumstances, that is a rather difficult task. The mansion is vastly more ritzy than any private residence your correspondent has ever seen in the state of Vermont.

It is hardly likely that publication of interior views of this little palace would have any effect on the popular conception of President Coolidge, and the chances are that the president's objections are due to a feeling of modesty. If it were his own, personal dwelling, it might be different.

PRESS FORUM

McLean News: The city auditors of Pampa recommended that more attention be paid to the details of city business and that more time and money be expended in handling city affairs. McLean is faced with a similar problem of increasing growth and no man should be elected on the incoming board that is not pledged to give the time necessary to an efficient administration. Towns cannot go along always with an out-of-date system of city government. The time must come when men cannot be asked to donate their time to city affairs without any compensation whatever. McLean has \$100,000 that will be spent at the discretion of the city council and this expenditure should have the attention of the best men possible, and this class of men cannot afford to take the time from their private business without compensation. We need a paid city manager for proper administration of city affairs.

Canadian Record: A barkless dog might be a good thing—provided the bark was done away with for a fact. But when a dog without a bark can hardly be called a dog. The bark is about all some dogs have. Take away the bark and there is not much left. But it would be a fine old world after dark if the dogs did not raise the air with their howlings. Sleep is a thing impossible when a dog camp meeting is in progress.

McLean News: Now that it is time to plant gardens, the man who has let his chickens run loose all winter to ruin his neighbors' flowering bulbs and plants should be forced to keep his chickens up until plants have time to get a start of the chickens.

Southwest Plainsman: After being a semi-weekly for some time, the Pampa News began the publication of a daily on Thursday of this week. The Nunn-Warren-Nunn company bought the News a little more than a year ago and they have certainly kept pace with the development of the Pampa section with their publication. The new daily has Associated Press stories, NEA pictures and features and a colored comic. It

is to be published every evening, except Saturday, and on Sunday morning. Pampa is to be congratulated upon its progressive newspaper.

SPRING PLANTING

Spring, bringing new life to the world, brings to human beings fresh energy and a new chance. It is a chance to get out of ruts, to stop fossilizing, to start something new, to get into touch again with the vital forces that press and surge all around.

It is a time to begin new ventures, as Nature herself does. A time for new business plans, new schemes for self-development, new adventures in recreation.

Get into the game! Plant something, literally or figuratively, and tend it and watch it grow.

If there is any space of earth available, plant a garden. The raising of flowers and vegetables and fruit is in itself recompense enough to anyone with a feeling for natural things. Co-operation with Mother Earth pays in the pleasure of creation, without counting the crops. And it also awakens minds that have not gone altogether dead from artificial living.

Life itself is a garden. The health and inspiration drawn from spring gardening counteract the dulling effects of mechanical existence, renewing ambition and creative purposes. That little garden plot, flower bed or potato patch or orchard is full of ideas for growth and progress. — Panhandle Herald.

Canadian Record: Speaking the truth does not mean telling all one knows. There are many truths that should be buried deep under silence, and also charity.

EAST TEXAS RESPONDS IN CONQUEST CAMPAIGN

DALLAS, March 12. (AP)—According to Dr. Geo. W. Truett of the Baptist Conquest campaign, East Texas is responding encouragingly. One gift of \$10,000 having been reported, two for \$5,000 each, and sacrificial offerings having been made at Timpson and other churches.

"The whole section has been engaged in rallies, is thoroughly organized and, although Central Texas obtained the start in this race of beneficence, that section must look to its laurels or else be outdone by the piney woods," remarked Dr. Truett.

Benjamin Gigli, opera tenor, sang before 2,004 persons recently, among whom were twenty-one detectives ready for any attempt upon the life of the singer by the "Blackhand."

Third Member Of Willis Family Is District Judge

The appointment of Newton P. Willis by Governor Dan Moody brings the third member of the Willis family into the district judgeship in this territory.

Frank Willis, father of the newly appointed judge, presided over the first term of court in the 31st district court in the nine counties. Frank Willis Jr., a brother of "Newt," was district judge from 1914 to 1916.

Influence of lawyers and laymen from all parts of the newly created district was instrumental in securing the appointment of Mr. Willis by Governor Moody, in the face of the fact that Willis was not a Moody supporter in the last election.

Judge Willis has been a resident of Canadian since 1890. He is known as one of the most fluent speakers in the Panhandle.

Judge Willis will continue to make his home in Canadian and

will maintain headquarters for his office at that place. He qualified when he opened the first term of court of the newly created 34th judicial district at Letors.

Tech Judging Teams Win In Hard Contests

LUBBOCK, March 12.—That two students of Texas Technological college should win both first and second individual honors in stock judging at the Southwestern Exposition and Fat Stock show at Fort Worth and the Tech stock judging team should win second place, is considered an evidence of the thorough and high class work being done in the new institution.

AJ Jennings led the field with 758 points while Roy Sides came second with 741 points. Oklahoma A. and M., which last year won the international stock judging contest at Chicago, was first at Fort Worth with 3,541 points, while Texas Tech was second with 3,446 points. Texas A. and M. was third with 3,301 points.

The Tech team was first in sheep, second in hogs, third in horses and third in beef cattle. Tech won a total of \$155 in prizes, the Oklahoma team won \$120, and Texas A. and M. won \$25. Professor W. L. Stangel is head of the animal husbandry department in Tech and Professor Ray Mowery was coach of the team.

"INSIDE" INFORMATION

Ruffled tie-back curtains of cream colored voile or marquisette over a glazed chintz shade are charming for a girl's bedroom.

A pretty garnish for salad is made of sharp-flavored club cheese rolled in the shape of a carrot, with a sprig of parsley at the big end.

Colors in foods add attractiveness to a meal. Green or other bright fruits and vegetables, egg yolk, yellow cheese, browned meats or cake crusts, are all examples of appetizing colorful foods.

Very sweet foods have a tendency to blunt the appetite for other foods that supply materials the body needs. It is best, therefore, to serve sweets in small quantities, or toward the end of a meal.

Appetizing dessert or salad can be made of cooked prunes with the pits removed and the cavities stuffed with cream cheese or cottage cheese seasoned with salt and thick cream. Dates and figs can be used in the same way.

In making boiled icings for a cake, if it does not seem to be cooked enough after it has been taken from the fire, it can be reheated in the top of a double boiler, even after the syrup has been poured over the egg white.

Rich, heavy foods should be served with lighter, more succulent foods. This even up the calories and avoids too heavy a tax on the digestive system. For example, a light lettuce salad is relished with a heavy meat dish.

Contrast in flavor is important in a meal. Don't repeat the same flavor too often. For instance, even though we liked tomatoes, we would not relish a meal commencing with tomato soup, followed by tomato sauce on the meat, or stewed tomatoes, and fresh sliced tomato salad.

FARM NOTES

Heifers get their inheritance for producing ability equally from their sire and their dam.

Pasteurization doesn't destroy food value in milk. A temperature of 145 degrees Fahrenheit for 30 minutes hasn't any marked effect on the chemical make-up of milk, or its growth-promoting properties. Some scientists say that pasteurization makes the vitamins which prevents scurvy, less effective. But this same vitamin is also present in fruits and vegetables, so it probably doesn't matter so much. Pasteurization kills disease-producing bacteria in milk.

You can continue a strawberry patch more than two years if you will keep it clean, well cultivated and fertilized, and take out the old plants and save strong young plants each year. It usually is preferable to set out new plants each spring and take out two-year-old plants after they have fruited.

You can't expect tonics, which the hens take internally, to kill coccidias, mites, blue bugs, fleas, and those sorts of parasites. Don't waste your money that way. You won't kill the bugs—but you may kill the chickens.

Chicago society girls are taking jobs, now that self-support has become a fad.

OUT OUR WAY

—By Williams

Oil Crew Loses Clothing And Valuables In Fire—Well Near Pampa Logs Favorably Today

A tool house at the No. 1 H. H. Merton, an Humble Oil company well, burned Sunday, destroying little property, but causing heavy losses to two members of the drilling crew in the south Pampa field.

The loss was in clothing, \$75 in cash, and two watches of 17 and 21 jewels, respectively. The fire started from a gas flare which the wind blew against the clothing.

Oil men are watching No. 1 Leopold, an important test on section 141, block 3, about 3 1-2 miles northwest of Pampa, in the belief that it may be a good producer.

The drillers were making rapid progress at 2,960 feet this morning through a soft shale, and expected to pick up the gas during the day. The log of the well is said to be very promising.

SEMINOLE POOL SLUMPS
TULSA, March 14. (AP)—Another slump was registered in the 24-hour gauge on greater Seminole field's production ending at 7 a. m. Saturday, when 263 completed wells in the area flowed 303,500 barrels. This is a drop of 3,200 barrels as compared to Friday's output, when 306,700 barrels were produced and a decline of 10,200 barrels in the past four days. Thursday this field produced 310,000 barrels and Wednesday 316,400.

A survey of the Panhandle storage situation shows producers were running better than 63,000 barrels of crude to storage last week. It has held around this figure for several weeks. This brings the storage in the field to the 12,000,000-barrel mark.

No building too large or too small for us. We can build them all by the contract, per cent or day. We satisfy in every way. We furnish plans and estimates and guarantee our work first rate.

PRAIRIE SHOWS A GAIN IN PAST YEAR
For the first time in its history, in its 1926 annual report, Prairie Oil and Gas company submitted an income account. Previously, earnings credited to Prairie have been just approximations taken from the balance sheet as shown by change in surplus, plus dividends paid out.

However, Prairie's report for 1926 shows a substantial gain over 1925 and the largest net since 1920. The \$15,952,367 profits shown for the 2,400,000 shares equalled \$6.63 a share and compare with \$4,181,532

At tank farm No. 2 three 55's are up and work has begun on four others, and steel is on the ground for three additional tanks.

Humble Pipe Line company has started work on its first main-line steam station at Burnett tank farm, near Kingsmill.

East Carson-West Gray.
The mile of territory in block 4, of I. and G. N. survey, in eastern Carson, and in block 3, in western Gray, where are found the J. T. Parks and others No. 1 Noel, in section 199, block 3; Prairie Oil and Gas company No. 1-A McConnell, in section 67, block 4, and several other producers, which was given a special crude posting a week ago, has gotten its first crude cut.

In southeastern Gray county, the St. Clair Petroleum company is aggru-

or \$5.90 a share, earned in 1925. Prairie's net last year was equal to about four and one-half times the dividend payments \$3,606,456. Consequently there was a large accretion to the already big surplus item. The addition of the \$12,355,911 surplus profits in 1926 brought the accumulated surplus to \$90,962,163 or slightly more than 150 per cent of the \$25 par value stock issued.

Prairie drew on its crude oil storage for the first nine months of the year, reducing storage by about the same amount as was added in 1925. However, production jumped late in 1926 and in the last quarter crude oil storage was again added. This adding to storage is probably still going on, considering the large production in Seminole, where Prairie is a big buyer and producer.

Prairie's producing situation improved as a result of its participation in Seminole and Panhandle pools. December, last year, was the biggest producing month Prairie

ever had, with a yield averaging about 65,000 barrels gross daily. It is undoubtedly above that figure at present.

Balance sheet end of 1926 showed some marked changes, the most notable one being inventories, which increased more than \$7,000,000 to \$79,261,239. Receivables were about \$870,000 more, at \$19,974,179, while cash decreased from \$4,517,709 to \$2,433,273, the lowest it has been in several years. Securities, likewise, showed some decline standing at \$21,987,103, against \$23,500,574 end of 1925. Prairie's lone current liability is shown as bills and accounts payable, of \$16,582,166, about \$1,900,000 larger than the \$14,948,709 at the end of 1925.

The condition of the surplus account indicates Prairie's ability to pay a substantial stock dividend. Whether such action is contemplated is not disclosed by the management.

Refrigerators

The best refrigerators are the least expensive—that's why we are selling the Northland and Sanitary Refrigerators.

The first cost is very reasonable—the consumption of ice is reasonable. That's why these are better refrigerators.

DODGE BROTHERS MOTOR CAR Facts that Draw Crowds and Sway Buyers

Little wonder Dodge Brothers Motor Cars today are accorded such widespread and enthusiastic commendation—

Smart new body lines and attractive color combinations—

A new seating arrangement that provides still more roominess and comfort—

A new clutch, simple, sure, silent—

Softer pedal action, easier gear shifting—

Quicker acceleration, still greater steering ease—

More rigid engine support—and smoother performance—

New, silent-type muffler—

Sturdiness and dependability made still more pronounced by vital betterments in body construction and in the propeller shaft, differential and axle shafts.

Add to these the new five-bearing chrome vanadium crankshaft, with its remarkable improvement in engine performance, the excellent new starting and lighting system and many other recent betterments, and you understand why owners proclaim today's car—

"The finest Dodge ever built!"

Cotton Consumption For February Is Above 1926 Figure

(By The Associated Press.)
 WASHINGTON, March 14.—Cotton consumed during February totaled 590,477 bales of lint and 60,336 hinters as compared with 565,118 of lint and 59,408 of hinters for February of last year, the census bureau announced today.

TEXAS U. GIRLS TO LIVE IN DORMITORIES

(Special to The News.)

AUSTIN, March 14.—All freshman girls attending the University of Texas will be required to live in dormitories beginning with the fall session of 1927-28, unless living with their parents or persons approved by the University dean of women. It is believed that the girls can be better safeguarded and that they can more easily become a part of the University student body if housed in this manner.

TOURING CAR STOLEN HERE SUNDAY NIGHT

A Buick Master "6", 1926 model touring car belonging to W. H. Henke was stolen Sunday from in front of his business office, between 6 and 8 p. m.

The car bore license number 978-475 and the motor number is 1,580,882. It has blue paint and new balloon tires.

Jealousy; Bang!

—NEA, Memphis Bureau
 Mrs. Anna Mae Wilkinson, 22, killed George Oldham, 36, in his apartment in Memphis, Tenn., because he was jealous of another man and threatened to kill her if she didn't give him up, according to the story she told Memphis police. The girl said Oldham, a former Danvers, Ill. man, was her "boy friend," but that she loved the rival he demanded she quit seeing.

MALONE BUYS BAPTIST LOT FOR NEW BUILDING

G. C. Malone today purchased a lot 40 by 100 feet on the east part of the First Baptist church property.

He will build there at once the new funeral home announced a short time ago. This is a change in the announced location, which had been planned for a lot opposite the high school building.

LOW RATES FOR DADS-MOTHERS DAY

(Special to The News.)

AUSTIN, March 14.—Special one-and-a-half-fare rates have been granted by railroad lines leading to Austin for Dads and Mothers day to be observed on the University of Texas campus on Monday, March 28. Mrs. Joe Gilbert of Austin, secretary of the Dads and Mothers association, will have charge of arranging the one-half fares for the return trip.

HEARSE MAKES TRIP TO CENTER OF STATE

What is believed to be one of the longest trips ever made by an undertaking company in this section was taken recently by Charlie Duenkle of the G. C. Malone Furniture and Undertaking company.

Duenkle left here at 7 p. m. Friday and returned at 1 a. m. Sunday. He took a body to Fort Worth for burial.

The company is equipped to make any ambulance run or hearse trip, "anywhere, any time."

ROAD COMMITTEE TO MEET TUESDAY NIGHT

The meeting of the road committee of the Chamber of Commerce to have been held this morning was postponed until tomorrow evening, when the group will hold an important session with the railroad committee.

The two committees will discuss all of the transportation problems of this community and will lay out a program of promotion of desired projects.

REGIONAL CAMPS FOR FARM BOYS AND GIRLS

Young farm champions in pig, calf, corn or poultry raising, health champions, sewing, cooking and room improvement champions, in fact the best agricultural and home making club members in the States are meeting together each year at three regional camps held in connection with interstate fairs. Here these young farm leaders learn how the best was accomplished in other states, forming high ideals of rural living and rural leadership under the direction of national and state boys' and girls' club leaders.

Boys and girls from the Northeast attended Camp Vail, the oldest of the three, where for 10 years six boys and six girls, from each of the 13 Eastern States, winners in farm activities, have received training in educational exhibits, public demonstrations, judging and standards of rural living. Camp Vail is held in connection with the Eastern States Exposition, Springfield, Mass. A special training school for leaders is conducted here, and in 1926 one boy and one girl from each of 18 states and 1 Canadian Province received intensive training.

Club members from 11 of the middle western states held their tenth annual encampment last year at Camp Eaton, Interstate Fair, Sioux City, Iowa. The club members' conference is an important part of this camp, with its inspirational discussions of club work and rural leadership by club leaders and members.

Camp Plumer, the youngest of the three was founded last year at the Pacific International Livestock Exposition, Portland, Ore. Six hundred boys and girls from six western states attended the first encampment and put on a very creditable program of judging, demonstrations, and exhibits. Next year it is planned to enlarge the program to include leadership studies.

Keeping Alive a Man Who Couldn't Breathe

Photo Copyright, 1927, NEA Service, Inc. Transmitted by telephoto. How Alebrt Frick was kept alive and conscious at St. Francis' Hospital, Evanston, Ill., for 4 days despite his inability to draw a single breath is shown above. Frick (inset) is a victim of complete paralysis of the respiratory organs. In one of the most amazing feats of medical history, doctors and other resuscitation experts kept air flowing to his lungs by rhythmic compression of his chest. With Frick lying helpless in a wheel chair two men at a time alternately compress his chest and then release the pressure, in the manner illustrated by the group photo. This photo was posed especially for Pampa Daily News and NEA Service by members of the resuscitation squad to demonstrate just how the young man's life was being prolonged. At the left of the group is the patient's father, H. C. Frick. The others, reading on to the right, are C. P. Bahneki, J. B. Pangburn in the chair, John Steppen and L. C. Thayer.

These camps are events looked forward to each year by the farm boys and girls, member of 4-H clubs conducted by the United States Department of Agriculture cooperating with the state agricultural colleges, for there is always the possibility of being selected to attend camp and all members follow with interest the success of their delegates at camp and reap the benefits of the new ideas and methods brought back.

MAKING GARBAGE AND OTHER WASTES INTO FERTILIZER

A new method of municipal garbage disposal by composting has been worked out by the Bureau of Soils of the United States Department of Agriculture as a result of its studies of present practices in this field, including disposal by reduction and conversion of refuse into grease and fertilizer. Slaughterhouse and cannery refuse have also been studied by laboratory methods with a view of making recommendations that these by-products be conserved for use as fertilizer material whenever it is feasible. It has been found possible to compost raw slaughterhouse offal from small establishments with certain chemical agents in such a way as to avoid fly breeding and at the same time to conserve much of the fertilizing constituents contained in the original material.

The bureau has also cooperated with the Bureau of Biological Survey in investigations of the potential value of the wastes from the meat-rabbit industry, as a source of oil, grease, and fertilizer tankage. More than 2 tons of rabbit wastes are produced daily in the environs of Los Angeles, Calif.

E. I. Rigdon, a driller, was hit a glancing blow of a sledge hammer Saturday, and his arm badly cut.

Dr. R. A. Webb is confined to his home by illness today.

"THE BUSY CORNER"

School League Is Busy Preparing For County Meets

(Special to The News.)
 AUSTIN, March 14.—Reports from 200 schools which will participate in county meets within the next month are in the hands of Roy Bedichek, chief of the Interscholastic League bureau of the extension division of the University of Texas.

Employees of the bureau are busy at the present time mailing out 3,000 silent reading tests and 8,000 arithmetic tests for use in the "three R" contests of the county meets, 4,000 entry blanks for use by member schools, and 5,000 music memory score cards. Extemporaneous speaking and essay writing contests are also being prepared at this time.

Denying current rumors to the effect that baseball is to be added to the program of the league, Mr. Bedichek stated that although the addition of this sport had been seriously considered, the contests would come too near the end of the school year to be practicable.

Miss Estelle Caraway was operated upon at the Hillcrest sanitarium Sunday morning. She was resting well today.

ATHLETIC GROUP MEETS

Acting directors of the proposed Athletic association will meet at 4 o'clock today in the Chamber of Commerce rooms to consider association plans, including erection of a club building.

Buick Stays in Style

Motor car types come and go, just as motor cars do. But the grace and distinction which characterize Buick always stay in style. They never become commonplace. The reason is, that Buick style is sincere, and expressive of the quality that is in the car. Buick owners never are asked to buy a car of exaggerated design, with lines which might become distasteful to the eye. Buy a Buick! And you will always be proud of your car.
