PAMPA, GRAY COUNTY, TEXAS TUESDAY EVENING, MARCH 22nd, 1927.

PRICE FIVE CENTS.

## SIX HURT WHEN CAR IS WRECKED

### TERROR REIGNS AND SHANGHAI TROOPS REVEL

Buildings Are Looted, Bodies In Streets, British Shoot

### NORTHERNERS TO SURRENDER SOON

International Boundary Problem Cause For Disorders

(By The Associated Press.)  
SHANGHAI, March 22.—The reign of terror which started here yesterday with the capture of Shanghai by the Cantonese continues unabated today. Buildings have been looted of all valuables. Latest reports state that many dead bodies are lying in the streets.

A number of disorders are also reported along the boundaries. The International settlement problem is said to be one of the disturbances causing the boundary trouble.

British troops shot and killed 12 and wounded at least a score more Shangtungese when they attempted to break through the barriers. Settlement was officially announced today, however, when General Pi Shu Chen, commander of the Northern forces agreed to surrender.

### Hassell To Get Case Review And Death Is Delayed

(By The Associated Press.)  
AUSTIN, March 22.—George Hassell, Farwell confessed slayer of 13 persons, will be taken from the state penitentiary and placed in some safe jail until the Court of Criminal Appeals decides whether the verdict shall stand.

Hassell, therefore, will not die March 25.  
Reese Tatum, court official at Dalhart, today wired Governor Moody that the sheriff of Parmer county had been ordered to take Hassell to another jail pending action on an appeal yet to be filed. Hassell cannot be executed while the appeal is pending.

### Gang Leader In Clash With Men

HARRISBURG, Ill., March 22.—Five men attempted today to burn the home here of Charles Birger, gang leader, but were forced to retreat when met by gun fire.  
Birger said the men are known to him.

### "Not Guilty" Is Plea of Pair In N. Y. Love Plot

NEW YORK, March 22.—Mrs. Ruth Snyder and Henry Gray, who signed confessions that they murdered Mrs. Snyder's husband, Albert Snyder, in a love and insurance plot, pleaded "not guilty" in court today and were held without bail for the grand jury.  
They repudiated their confessions.

### Leopold Well Is Gassing Today

A strong showing of gas at 2,280 feet this morning is believed to be the fore-runner of a good well in the Sturm well on the Leopold farm north of Pampa.

This well is in semi-wildcat territory about 3 1-2 miles from this city. Several local men have interests in the test. Indications have been good for several days, and completion of the hole is expected hourly.

### \$210,000 Cripple

Judging by Babe Ruth's cheerless expression here he little relishes the invalidism imposed upon him by an injury received in a Yankee-Cincinnati Reds practice game at Orlando, Fla. With a cane, the Sultan of Siam has been hobbling around the Yankee's St. Petersburg training camp downheartedly watching his teammates do their diamond stuff.

### Campaign For New Fire Truck Gets Under Way

More than \$600 toward making the first payment on a new fire truck was subscribed in a few minutes last night in a meeting at the Chamber of Commerce. Since that time the amount has increased to about \$900.

The first large subscribers were the Gordon Stores company, \$100; the Southwestern Public Service company, \$250; Schneider hotel, \$100; and H. B. Lovett, \$100. Mr. Lovett said that while his property holdings are not large enough to make him fear the personal effect of higher insurance rates and possible fires, his interest in Pampa and his realization of the great need for the fire truck prompted him to make the donation.

It is desired to raise \$6,000 at once, since about 60 days are required to receive the truck after the order is placed. Of the \$6,000, salary for a man to give his time as a paid fireman is included to the amount of \$1,000.

A thorough canvass of the property owners of the city is planned. A committee to make this canvass will meet this evening to perfect plans. It includes W. T. Frazier, chairman; Len Boyd, Ike Lewis, J. G. Christy, Ben White, Alex Schneider, Tom Rose, W. R. Campbell, W. W. Shaw.

### Sapiro Must Amend Suit Before Trial Can Be Continued

DETROIT, March 22.—The plaintiff's declaration in the Sapiro million-dollar libel suit against Henry Ford was pronounced faulty, needing several amendments, today by Judge Raymond.

The declaration as it stands is insufficient in many of its allegations, said the judge.

"I suggest that the counsel before the case continues should be amended in several particulars to clarify issues so the trial can bring about an equitable result."

### PAMPA FIELD WORK SHOWS NO CURTAILMENT, SURVEY PROVES

That reports of alleged Pampa oil field activity curtailment are unfounded was absolutely certain today as officials of the major companies stated normal or increased crews are busy.

The Texas, Roxana, Gulf and Wilcox companies reported normal employment and no slacking in work. Several companies stated that additional men are being employed as warmer weather nears. Leading this list is the Magnolia Petroleum company, which during the last ten days has employed 60 additional men.

Contracts, offsets and important wildcat tests are plentiful enough to insure no let-up in activities, it was said, while contemplated improvement of plants, offices, warehouses, living quarters and similar equipment will be made in early spring.

The crude oil cut is taken as the most effective means of causing a general reducing of production, but the completion of pipe lines into the Panhandle field is expected to make greater production feasible in this area.

Altogether, conditions are satisfactory for the present and very promising for the near future, many oil men were heard to say today.

### NEW WELL IS BIG SENSATION

Cherokee County Test Flows 1,200 Barrels From Pay

(By The Associated Press.)  
SHREVEPORT, La., March 22.—The Humble Oil Refining corporation's new well in Cherokee county, Texas, which came in yesterday, today is flowing at the rate of about 1,200 barrels daily, according to information received here.

The well is about 100 miles from near Jacksonville. The well today was a mecca for oil men from Shreveport, as well as from the various Texas fields.

The hole was completed at a depth of 3,841 feet.

### Was To Hang, So Hangs Self

(By The Associated Press.)  
DANVILLE, Ill., March 22.—Nate Harris, sentenced to hang April 22 for double murder, hanged himself in the county jail here today.

### Two Men Who Broke Jail Here Have Been Caught

William Carl and Jeff Cornwell, also J. D. Thomas, two of the men who escaped from the local jail about two weeks ago, have been caught and are being held in Pawhuska, Okla. According to a statement made by Carl, a fellow prisoner after being released handed saws to the prisoners.

After escaping Carl and Cornwell stole a Dodge coupe from an oil company about ten miles from Pampa and went to Hominy, Okla., where they stole a Buick sedan. They went from there to Kansas City and later to Pawhuska, where they were captured.

### Train Men Die As Engine Explodes

(By The Associated Press.)  
VILLA GROVE, Ill., March 22.—E. M. Robinson of Salem, engineer, Fireman Ed Bruce, and brakeman C. M. Farlow the latter two of Villa Grove, were instantly killed today when the engine of their freight train blew up near Saint Peter, Ill.

### Pampans To See First Boxing Bout

Pampa's first boxing bout is to be held in the skating rink Wednesday night. Joe Vincent, a local boy, is to referee the bouts.

Part of the proceeds are to be donated to the hospital fund. George Hellman proposes, at a later date, to put on a larger card for the benefit of the Hospital.

### Not for Brides

—NEA, Kansas City Bureau  
Senator Fletcher Johnson, of Brilow, Okla., asked the Oklahoma legislature to make it illegal for any biscuit to weigh less than one ounce or measure less than six inches in circumference. But he had a second thought and asked that brides' biscuits be exempted.

### U. S. Fails To Make a Treaty With Mexico

(By The Associated Press.)  
WASHINGTON, March 22.—Intention that the United States had been unsuccessful in efforts to negotiate a commercial treaty with Mexico are contained today in the state department that a smuggling convention between the two nations would terminate March 28.

The statement issued today said inasmuch as the United States has no commercial treaty with Mexico, it is not deemed advisable to continue in effect the arrangement which might bind this country to cooperation for the enforcement of laws relating to importation of commodities of all sorts into another country, with which there is no agreement safeguarding American commerce against possible discrimination.

(By The Associated Press.)

WASHINGTON, March 22.—The Mexican Ambassador, Telles, went into conference with President Coolidge and Secretary Kellogg last night and stated that he entertained nothing but the most optimistic views as to the future relations between the United States and Mexico.

### Wales Falls, But Is Still Lucky

HOLDENBY, England, March 22.—The Prince of Wales was thrown from his horse here today at the first jump in the Army steeple chase, but he escaped injury.

### City Water Problem Solution Seen In Letting of Two Contracts by The City Council In Session Last Night

ments, aggregating \$35,000, were let by the city council in last night's session.

H. C. McCall and company of Waco received the contract for the extension of the water mains, bidding \$1.25 a foot for 6-inch mains and \$1.75 for 8-inch lines, or a total of about \$20,000.

G. Burnett, local contractor, was low bidder on the construction of two water wells, which will cost about \$15,000 equipped. The wells are guaranteed by the driller. They will be completed in 60 days or less.

The water extensions include the following:

1. Extending the 8-inch main on Cuyler from the intersection of Brown street south three blocks to Ford street.
2. Extending the 8-inch main from

### AVOIDING MULE NEARLY FATAL MONDAY NIGHT

Narrow Escapes Are Made In Auto Accident

### HUDSON COACH ROLLS IN ROAD

Joe Bowers, Driver, Is Thrown Over Fence

Six local people were injured, but escaped wounds of serious consequence, when the Hudson coach driven by Joe Bowers overturned on the Miami road about 8 p. m. last night.

Mr. Bowers said he was avoiding a mule and had applied the brakes when the car skidded, rolled over about six times and threw the occupants in many directions.

The injured:  
Joe Bowers, broken shoulder.  
Clarence Olson, broken leg.  
Carl Cooper, badly cut about the face.

Miss Rena McElwain, broken arm and leg.

Miss Crystal Barris and Miss Marie Renotte, minor bruises.

The party were enroute to Miami and were traveling at a rapid rate about 15 miles from Pampa. A mule suddenly appeared out of a ditch along the road and started across. When the brakes were applied suddenly, the car got out of control, turned over, and was demolished.

A passing car brought the injured to Pampa, where emergency treatment was given at a local hospital.

All of those hurt received miscellaneous bruises. They were resting well today.

### Railroad Presidents Are Approached On Railway Question

Presidents of large railroad companies are being consulted by the Chamber of Commerce railroad committee relative to possibilities for a through-line crossing the Santa Fe at Pampa.

The committee met last night and decided upon its course of action.

At the same time, the Santa Fe is being queried as to its plans, if any, for a line crossing through Pampa, possibly from a point in Oklahoma across the Panhandle to Spearman or other points.

City Marshall Andrews and Deputy Sheriff Steple pipes are attending court in Panhandle today.

**Pampa Daily News**

Published every evening except Saturday, and on Sunday morning by the Nunn-Warren Publishing Company, at 155 West Foster avenue.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

Application made as second-class matter at the Post Office at Pampa, Texas, under the Act of March 30, 1879.

It is not the intention of this newspaper to injure any individual, firm, or corporation, and corrections will be made, when warranted, as promptly as possible. The wrongfully published reference or article.

**STILL IN TEXAS**

There is apparent to every observer with average intelligence that there is too much disregard in this section for the penal regulations under which all of the people of Texas are living.

Newcomers are wrong if they think that because conditions in the Panhandle are a little abnormal they may declare a suspension of law and do as they please.

Says Curtis Douglass, district attorney of this district: "Even though we may be in the midst of a fast growing community, it would be well to remember that the penal laws of this state apply to our section as well as to the other sections of the state. There has been brought to my attention that in certain portions of the newly created 84th judicial district there are now and have been many flagrant violations of the penal laws of the state of Texas. As district attorney, it is incumbent upon me to use every lawful effort to stamp out this condition of lawlessness."

Mr. Douglass is starting off well in calling attention to conditions in his district, and will be expected to use all the means necessary to see that laws are enforced, and that according to the legal manner prescribed by the writers of the Texas constitution. And he need have no fear but that the people of this district will support him in his efforts.

The majority of citizens of the Panhandle are ordinary Texans and proud of it; and, as such, they desire to live under the regulations in force all over this state. They ask no exceptions, nor desire any.

**TWINKLES**

To the elite, to be artistic is never to be naughty, but to the pseudo-artists lots of indecent things are artistic.

Boys are growing taller, perhaps as a result of this higher education we hear so much about.

Another thing against this Republican administration is that it has contrived to save half a billion on the year before election.

A Panhandle editor recently wrote such a good editorial that he reprinted it this week so his readers could see it again.

In some cases we would be tempted to call a Suicide club a civic organization.

It is our belief that those who spell Panhandle without a capital "P" are not enthusiastic about this section.

**PRESS FORUM**

Says Judge E. I. Hill, editor of the Lynn County News, relative to recent important legal developments:

The lawyers in the 38th legislature which enacted the law prohibiting negroes from participating in Democratic primaries must have known that such a law was in violation of the Fifteenth Amendment to the federal constitution. Its

**WASHINGTON LETTER**

BY RODNEY DUTCHER  
NEA Service Writer.

unconstitutionality should have been apparent to any ordinary lawyer. Primary elections in Texas are provided for by law and are regulated by law and are therefore recognized as "elections," and any law which would forbid any citizen to participate in such election on account of race or color when otherwise qualified clearly contravenes the Fifteenth Amendment. The situation in Texas today is a natural consequence of the legislature's undertaking to regulate purely party matters. Each party has a right, we believe to make such a regulation for itself, if it sees fit, but the government should not be permitted to make any such regulation and under the federal constitution is not permitted to do so, as was held by the Supreme Court of the United States last week. Our legislators, who are sworn to support the constitution of the state and of the United States, should have greater regard for their oaths of office.

The Supreme Court of the United States rendered an opinion last week holding that an Ohio law which provides for the payment of judges and justices of the peace by fees collected from defendants found guilty is unconstitutional. Since justices of the peace and judges of city courts in Texas are paid by such fees, this decision virtually nullifies the Texas laws providing fees for these officers. We have long believed and maintained that the fee system is wrong in principle so far as it applies to peace officers and judges in the administration of the criminal laws and ought to be abolished. It is to be hoped that the next legislature will abolish it and place all judges and justices of the peace upon a salary basis so far as criminal cases are concerned. Possibly county attorneys and peace officers should be placed on a salary basis also in criminal matters.

WASHINGTON—There are many wheels within wheels involved in the pickering and dissatisfaction among the foreign service personnel at home and abroad, which have reached a high point with the incipient revolt of consular officers against social favoritism in the promotion system.

One of the most interesting bits of gossip about the State Department tells of a feud between Secretary of State Kellogg and Under-Secretary Joseph C. Grew. When Kellogg is away, Grew takes charge, but when Kellogg returns to his job he totally ignores Grew, according to some members of the department personnel.

Some of the service men refer to the situation as a "sitting match" between the two men, believing that Kellogg doesn't want to resign lest Grew obtain control and perhaps succeed him and that Grew has been doggedly fighting appointment as ambassador to Turkey or some other post because of his desire to remain in a position of authority over all embassies and legations.

Division in Department. Thus there is an apparent division among the assistant secretaries, with Grew and J. Butler Wright playing the game together, Robert E. Olds, who inspired the famous "Mexican-

fostered bolshevist hegemony" story, on Kellogg's team and Wilbur J. Carr supposedly upholding the cause of his consular service.

But the men of the foreign service are not as interested in this alleged fight higher-up as they are in their own — the wrangle over charges that the higher classes of service are being filled with men of wealth and high social ratings. They indignantly point to various specific cases of men in the "inner circle" who, they say, are certainly men of wealth and social accomplishments even if they have not actually been preferred for that reason.

Hugh R. Wilson, new minister to Berne, who has ranked as a counselor of the embassy in Class I at \$9,000 a year while serving as head of the Division of Current Information, is described as a former wealthy Chicago merchant who has reached the top after 15 years' service at the age of 45. Wilson is the youngest man of the 23 in his class in point of service and has always been in the diplomatic branch, which is preferred by young men of means and "social background."

Related To The Morgans. William R. Castle, new assistant secretary of state, is described as of the Castle Hawaiian sugar family. He has been chief of the Division of Western-European affairs. Grew, himself, is related by marriage to the Morgans.

Alexander Kirk, assistant to Grew, at \$7,000, is described as a member of the Kirk soap family. His son-in-law, Alan F. Winslow, now en route to Mexico City as secretary of embassy, is said to have been promoted at least three times since the Rogers Act became law in 1924. Winslow entered the service in 1919 at \$2,500 and in a little more than eight years has worked to a job that now pays \$7,000—an astonishing jump for government work.

Francis White, the new assistant secretary of state, after 12 years of service, is also described as a man of means. J. Theodore Marriner, coming here to succeed Castle, is described as another "inner circle" man with a penchant for plum-picking on a present basis of but eight years' service. He is a Class IV man at \$6,000.

Franklin Mott Gunther, head of the Mexican Division, of 18 years' service, and slated for an assistant secretaryship, is also credited with being a wealthy man. He is known as "the only man who retained his valet at Harvard."

Of course, it is to be remembered also that many of the ministers and ambassadors now serving abroad are also men of great means and that most of them have made substantial political contributions.

A murder trial lasting only six minutes was held in the Old Bailey in London last week, the defendant pleading guilty and sentence of death being passed immediately.

After a night of terror in which citizens of Coffeyville, Kan., tried to lynch a negro prisoner from a jail to take him, martial law prevailed and the town was quiet.

**Mystery About Snow Pile Long Preserved**

Some years ago at Minersville, in Schuylkill county, Pa., there was being operated the Wolf Creek washery. The business of the operators was to reclaim the immense banks of culm that have been deposited on the surface during the Civil war. With the aid of modern machinery they were able to obtain thousands of tons of marketable sizes of anthracite at the rate of about 2,000 tons a month.

These culm banks were more like mountains than refuse piles. In some instances they were 50 feet high and covered the surface for approximately a half mile. The culm was taken in conveyor lines to a breaker, where it was washed through revolving screens and the coal reclaimed.

One day in the month of June, when the thermometer registered from 90 to 100 degrees, the operators uncovered in the heart of one of the banks a large quantity of ice and snow. They reasoned that this deposit was covered with culm during the winter, and, thus protected from the air, had been preserved for about 44 years. It seemed almost incredible that such a condition was possible in the temperate zone, and yet no other theory seems satisfactory. The snow was protected, of course, from the elements by the tons of culm 50 feet high and hundreds of yards wide; and yet, if this theory is not tenable, then some scientist may offer a more convincing theory for its remarkable state of preservation.

**Canary Islands Prize of Many Adventurers**

The Canary Islands have the distinction of being the most bought-and-sold islands known to history. They were known to the ancients and named Canaria by Pliny from "the multitude of large dogs that do there abound." Warren H. Miller relates in "All Around the Mediterranean." A French vessel was driven ashore there in 1834, and in 1400 Jean de Berthen-court sailed from Rochelle to take possession, but the natives would have none of him, and he sold a bad bargain to a Spaniard. From then on these islands were sold and resold to various Spanish adventurers, all of whom had bad luck with the natives, until one, Parazza, finally sold them to the Spanish crown. In 1476 a group of 1,000 Spanish soldiers set sail for the Canaries to reduce the islands to the glory of God, under Alonso de Lugo, who completed his task in 1495.

**Candid**

A young corporal was drilling some men when one of them stepped out from the ranks and remarked in an angry voice: "You couldn't drill a company of ducks!"

Next morning he was brought before the colonel, who ordered him to be taken out and given ten minutes in which to change his mind.

When the time was up the man was brought in again and asked if he had altered his opinion. He replied in the affirmative, and was then asked:

"And what conclusion have you come to?"

"That he could not drill one duck, sir," was the quick, if somewhat astonishingly, reply.

**Keep Busy**

Nine-tenths of the miseries and woes of manhood proceed from idleness; with men of quick minds, to whom it is especially pernicious, this habit is commonly the fruit of many disappointments and schemes of baffled; and men fall in their schemes not so much for want of strength as for their ill direction of it. The weakest living creature, by concentrating his powers on a single object, can accomplish something. The drop of water by continued falling bores its passage through the hardest rock; the hasty torrent rushes over it with hideous roar, and leaves no trace behind.

**It Must Have Been Good**

"What are you asking for this sketch?" inquired Sir Joshua Reynolds of an old picture dealer.

"Twenty guineas, your honor," replied the dealer.

"Twenty pence, I suppose you mean," said Reynolds.

"No, sir," answered the dealer, "I would have taken twenty pence for it this morning; but, if you think it worth looking at, all the world will think it worth buying."

Sir Joshua Reynolds ordered the sketch sent home.—Market for Exchange.

**Rewrote Overture**

One of the operas of Rossini, the Italian composer, has an overture and a half, just because Rossini, like most men of all ages, dreaded to leave his bed. Writing in bed, he had partly completed an overture when he dropped off to sleep. The manuscript rolled to the floor and when Rossini awoke, he tried to recover the paper without leaving the bed. He found that he could not reach it, and, rather than get up, he started anew.

It is said that there are few men willing to join the London police force because they are ashamed of the tipping system of that city.

At a recent fraternity conference at the University of Illinois, a speaker said that the coonskin coat is not a requisite for the college man.

**Beautiful—And Very Smart**

Miss Virginia Waller, of Caney, Kas., has been chosen queen of the annual Tulsa, Okla., Rose Carnival May 29 and 31, and this picture seems to prove the judges were men of wisdom. But Miss Waller is very smart as well as beautiful. As a student in Kansas State Agricultural College she has been presented with a sorority ring awarded each year to the co-ed making the best scholastic record among the 2500 girls of the institution.

**WILDERNESS AREAS CAN STILL BE FOUND**

The day of the "great wide open spaces" is not yet past, nor is it in any immediate danger of passing, according to the Forest Service, United States Department of Agriculture.

Consternation on the part of many nature lovers and outdoor enthusiasts over the invasion of forest areas by highways and summer resorts led the Forest Service to undertake a study to determine just how much of the areas of the National Forests could still be classed as wilderness. The results showed that approximately one-third of the gross acreage of the National Forests is still sufficiently "untamed" to come under that class, and that there are large areas which are in no immediate danger of the encroachment of gasoline fumes, bathtubs and other marks of civilization.

In making its study of the wilderness areas, the Forest Service adopted the widest possible margin of safety to minimize the possibility that some person might lay a finger on a part of the map classed as wilderness and assert that he had driven his automobile to that point. The minimum size of a real "wilderness" area was taken as comprising 10 townships, 360 square miles, or 230,000 acres. It was determined that at present there are 74 areas ranging from 360 to 10,859 square miles in extent, which, so far as can be determined, are without roads. The grand total area is 85,750 square miles, or an average of 1,159 square miles per area. If the proposed Forest Road system, as at present planned on paper, were 100 per cent completed, there would still be 61 areas ranging in extent from 360 square miles to 5,000 square miles, with a total area of 52,920 roadless square miles, and an average of 868 sections per area. These figures are exclusive of Alaska.

"The situation is not so bad as some had feared," says L. F. Kneipp of the Forest Service. "At present one-third of the gross acreage of the National Forests, exclusive of Alaska, is in roadless areas of more than 230,000 acres in extent. After all the roads our field officers have plan-

ned to date have been constructed, there will still be approximately one-fifth of the gross area of National Forests in roadless areas of 10 townships or more."

Mr. and Mrs. Orin J. Kellogg of Oneida, Wis., have been arranged on charges of virtually selling New York state to the Indians of the Six Nations—all for a slight down payment and small monthly installments.

**Panhandle Hospital Has New Manager**

PANHANDLE, March 22.—Three Panhandle physicians have joined J. M. Sanford of Amarillo in the operation of the Garland hospital in this city. The institution was taken over by the new manager Wednesday. The deal forms a partnership in the operation of the institution and not in the ownership of the real estate, it is said.

The Panhandle physicians interested in the institution are L. E. Petty, J. H. Walker, and O. York. Mary Slimp is superintendent of the hospital. No changes have been made in the staff of nurses.

**Carson Pays Much In Animal Bounties**

PANHANDLE, March 22.—Carson county still has something of a frontier character, judging from the predatory animals the county paid bounty on this winter. Thirty-six coyote scalps have been brought into the county clerk's office in the last thirty days to receive the reward Carson county pays for the slaying of these varmints.

The county pays \$1 for each coyote scalp, 10 cents for each pair of snake rattlers, and 5 cents for a pair of jack rabbit ears. The total bounties paid this month were \$131.15. Thirty-six dollars of it was paid on coyotes. Snakes were not out much, so most of the remaining \$85.15 was paid for jackrabbit ears. This would indicate that 1,700 rabbits were killed. One hunter brought in 113 pairs of ears Saturday.

Federal income tax returns have been filed by 73,000 persons in the Western District of Missouri.

**Criminal Colds**

For a jury to acquit a prisoner on the ground that he was suffering from a cold when he committed a crime sounds ridiculous. But before long this may be accepted as a legitimate plea by even the sternest judge.

According to a famous doctor, infection of the nose and cavities of the skull by cold germs often results in confusion and lack of memory. Mental disturbances of this nature cause a person to act abnormally.

A woman stole a ring from a friend's dressing table. Everyone thought she was a common thief. It was proved later that she was suffering from a severe cold and was incapable of distinguishing between her own and other people's property.

**Joshing the Elevator Man**

The old fellows who run elevators in public buildings are notoriously deliberate and independent. A Detroit citizen, relates the News, was recently conveyed by one of these political favorites in a slow and dignified manner to the top of the post office building. Then the old man stopped and slowly and deliberately opened the door to let his passenger out. The passenger handed him a traffic cop's ticket for speeding. It made the old elevator man mad for two days.

**Panhandle May Close Main Street**

PANHANDLE, March 22.—A resolution authorizing the Mayor to call a special election for the people to vote on the closing of Main street at the railway tracks so the site can be used for the erection of a new Santa Fe depot was passed at a called session of the city council Thursday night.

A special election has to be advertised for 30 days and the date of the election has been set for April 19. Except for possibly one or two concerns, the closing of Main street will not seriously affect property holders, and the closing of the street is expected to pass with little opposition.

The Santa Fe company has plans drawn for a \$75,000 brick and terra cotta building to be completed this summer. An additional \$25,000 will be spent in rearranging the depot tracks and beautifying the grounds, it is said.

Six thousand policemen in New York City took tests for promotion last week.

### For Meditation

By LEONARD A. BARRETT

#### INADEQUATE EDUCATION

THE most serious question confronting education today is whether the present generation is going to be more Christian or more pagan. The responsibility for the answer lies at the door of universities, colleges and the public schools. The rising generation is being educated in a world surcharged with jazz, the spirit of an intense competition and the law of the survival of the fittest. The tremendous task of developing a Christian idealism is therefore a matter of community interest.

As a preparation for this task our institutions of learning are rendering most valuable service. No more adequate system of education can be found anywhere. Upon this task of preparation for world citizenship our youth devote five days a week of from four to six hours each. This is equivalent to about one hundred and twenty hours a month or about twelve hundred hours for an average school year devoted almost entirely to the study of the arts and sciences.

Does this method of education, elaborate as it is, furnish all or even the most important requisites for success in the economic world? Success, like the spirit of democracy, rests upon fixed and unalterable standards. They are the norms of a Christian idealism. Upon the development of these standards the average youth spends about one-half an hour a week, in contrast to the one hundred and twenty hours devoted to secular education.

The task of imparting the knowledge of moral norms is also frequently assigned to a poorly prepared Sunday school teacher or is undertaken by an inadequate system of religious education. This factor cannot be ignored in our system of education if the present generation is to make an adequate contribution to the development of the social order. Shall the standards of a pagan or Christian philosophy of life rule the future? The problem is one for which education is responsible.

#### Japan Welcomes New Year

The opening of the new year is celebrated in Japan with more enthusiasm than in any western country. The rejoicings begin on New Year's eve, when no one thinks of going to bed, and bells ring all night, and, though January 1 to 3 are regarded as the three chief days of the New Year, holidays and jollifications continue until January 10, winding up, characteristically, with a grand feast of Return to Labor.

### Mother's Cook Book

God thought to give the sweetest thing  
In His almighty power  
To earth and, deeply pondering  
What it should be one hour,  
In fondest joy and love of heart  
Outweighing every other,  
He moved the gates of heaven apart  
And gave to earth a Mother.

#### DESIRABLE DESSERTS

**D**URING the cold months steamed puddings and those rich in fats are more suitable and appetizing than in warm weather. Indian puddings rich in suet are enjoyed.

##### Betsy's Pudding.

Take one and one-half cupsful of flour, one cupful each of brown sugar, suet, raisins, currants or prunes chopped, grated carrot, grated potato, one-half of a grated orange peel, one grated lemon peel, one-half grated nutmeg, one teaspoonful of cinnamon, one teaspoonful of cloves. Mix and steam three hours.

##### Cherry Pudding.

Beat one egg, add one-half cupful of milk and one-fourth cupful of sugar, one tablespoonful of melted butter, two teaspoonfuls of baking powder, one-fourth of a teaspoonful of salt and one cupful of cherries; steam for an hour and a half. For the sauce, add equal parts of whipped cream and cherry juice with sugar and almond extract to taste.

##### Date Pudding.

Beat two eggs, add one cupful of sugar, the same of walnut meats and dates, one teaspoonful of baking powder, the same of vanilla, three tablespoonfuls of flour, three tablespoonfuls of milk. Bake in a slow oven for forty minutes. Serve with whipped cream.

##### Peach Custard.

Arrange alternate layers of cake and sections of canned peaches in a dish, cover with boiled custard. Bananas, sweet oranges or preserves all are good.

##### Tapoca Pudding.

Cook one tablespoonful of minute tapoca fifteen minutes, add a pint of milk, dissolve a tablespoonful of gelatin in one-half cupful of cold water, add one-half cupful of sugar and the beaten yolks of two eggs. Pour over stewed dried peaches and one-half of a sliced banana. When cool stir in one-half cupful of whipped cream.

### "Thar's Gold in Them Sacks!"

—NEA, Los Angeles Bureau  
The old saying, "Thar's gold in them hills, boys," becomes true again, with covered motor-wagons trekking in with sacks of the precious ore from the new Weepah, Nev., gold strike. Above are pictured J. Albert Harle (left) and John Blackledge with some of the sacks of gold ore taken to Los Angeles. Below is a modern "schooner." Covered with the signs of victory and loaded with sacks of ore, it excited curiosity on the streets of Los Angeles.

### State Oil Man Predicts Much Growth Here

More crude oil is being taken from the ground than can be used for gasoline extraction, but new uses for oil will be found until peak production can be used, is the opinion of Judge H. E. Bell, chief supervisor of the oil and gas division of the state railroad commission.

Judge Bell was here today conferring with J. M. McDonald, the oil and gas division representative for the Eastern Panhandle counties.

He said that the flood of Seminole field oil, high in gasoline content, has resulted in overproduction of crude, but that the natural price fall is not alarming and will pass within a few weeks. The biggest tourist season of the century is in prospect, and the demand for gasoline will greatly increase.

Use of crude for manufacture of fuel oil, resulting in competition with coal, will help to solve the production problem, the state department executive believes. Storage of fuel oil also may be done very successfully, unlike that of gasoline.

Judge Bell expressed satisfaction with Pampa's growth, pointing out that he had predicted it on a former

trip when the town was small. He expects to see a steady and substantial development during coming months.

### Pampa Baseball Team Will Begin Real Grind Today

About a dozen baseball players faced a raw wind yesterday afternoon and had the first practice of the season. Manager Gober had the players throwing and batting only, but this afternoon the real grind will commence.

Wednesday afternoon at 5 o'clock Johnnie McKay will bring some of the Wilcox boys to give battle to Gober's line. In this practice Gober expects to get a line on the material on hand.

Word has been received from Amarillo that the Metros will not be in condition to play Pampa Sunday next. Perhaps Amarillo realizes the Pampa team is to be feared and want to get the team in mid-season form before playing. Arrangements are being made for the game to be played the following week.

Monuments to the sun and moon believed to be 2,000 years old have been discovered in Mexico by archaeologists.

### Railroad Advises Employees To Quit Low-Cut Shoes

HOUSTON, March 22.—Employees of the Southern Pacific Lines have been advised to abandon low cut shoes and lessen the danger from ankle sprains.

A report from the general office of the company here says that an investigation of several recent accidents showing sprained ankles has developed that in most instances they have occurred among employes who wore "low quarters."

"Of course, with the present prevailing striped, checkered and many hued socks," the Southern Pacific says in discussing the subject, "there is an incentive to wear shoes that will properly exhibit these beautiful, if not always artistic, articles and no one should take issue with any desire the boys might have to show their purchases, yet sprained ankles are painful and in addition to being expensive, also add to reportable and loss time casualties and create bad records."

### New Secretary Outlines Planks Of C. of C. Plans

W. S. Barcus, new secretary of the Pampa Chamber of Commerce, arrived yesterday afternoon after driving through from Sweetwater.

He assumed his duties this morning, familiarizing himself with the local situation and meeting callers. M. A. Turner, retiring secretary, will assist Mr. Barcus several days, in order that the new secretary may learn the methods used in the past and become acquainted with the problems of the office.

Mr. Barcus stated that he is much pleased with Pampa and Pampa people.

"It is encouraging to see the efforts of leading Pampa citizens united toward building a greater city," he said, "and the evident realization of present-day opportunities should result in far-reaching activities."

Pampa's opportunities, Mr. Barcus believes, are now most closely related to the oil and gas resources, and both business and industrial houses attracted here now will be of more or less permanence in the community. He is much pleased to note that practically all of the business buildings are of brick and tile construction—a factor which marks Pampa as a city of substantial growth.

The carrying out of an agricultural program, together with the securing of industries which will be permanent, will be stressed by the new secretary.

Moreover, a city of beautiful homes, paved streets, and other attractions is advocated by Mr. Barcus. Mrs. Barcus, who has been in ill health several weeks, will not come to Pampa at the present time.

Mr. and Mrs. J. E. Murfee left for Lubbock this morning where they will spend several days visiting friends and relatives.

Mrs. A. H. Tinsley left today for her home in Roswell, N. M., after spending several days here visiting friends. She formerly lived in Pampa.

### WANT ADS

FOR SALE OR RENT—Store building with living rooms. Finley Banks Addition on the Amarillo road. See Charles Richardson on premises. 11-6tp

LOST—Cotton Mattress, handmade, blue and white striped. Somewhere between Pampa and Hobbsville. Write A. L. Stovall, Box 123, White Deer. 11-14p

### She Gets Her Man Without Bullets

A girl of 21, with a revolver holster slung to her slim waist, represents the majesty of the federal law in Oklahoma. She is Miss Pauline Fanning, of Muskogee, one of the youngest women deputy marshals in the United States. Miss Fanning is quick on the trigger, but never has fired at anybody—yet.

### METHODIST WOMEN DISCUSS NEW TASKS

The Women's Missionary society of the Methodist church had a well attended meeting at their rooms last week.

Mrs. R. C. Campbell led an interesting lesson on "Women Facing New Tasks." Several new members gave splendid talks on various phases of the subject.

A social meeting will be held at the home of Mrs. S. A. Hunst Wednesday afternoon at 3 o'clock. All officers are asked to be present, and all members and others who wish to join are urged to attend. All should be prepared to answer the roll call with a verse on giving, taken from the Scriptures.

### VITEK COMPANY TO DRILL WEST OF PAMPA

The Vitek Oil company has made a location in the NE corner of the W 1-2 of the SW 1-4 of section 200, block 3, in the edge of Carson county.

Notice To All City Tax Payors  
Tax rolls will be closed April 1, 1927. Property not assessed by the assessor by that time will be arbitrarily assessed. Please give the assessor your rendition prior to the above date.

C. H. FISHER,  
D11-9t City Secretary

The Rev. John Roach Stratton has vigorously denied the truth of the Rev. S. Parks Cadman's statement that there is no hell.

### H. & K. DRUG STORE ENLARGES MUSIC STORE

The H. and K. drug company has enlarged and reorganized its Victrola department, devoting two beautifully furnished rooms up stairs entirely to Victrolas, radios and records.

Ervin E. Settlemyer, who has had much experience in the music business, is in charge of the department.

### NOVELIST DIRECTS MOTHERS' HOSPITAL

CHICAGO—Every phase of life can be studied at the University of Chicago which now has a maternity institution as a part of its medical foundation. Mrs. Janet Fairbank, wife of one of Chicago's leading attorneys, has helped raise a substantial endowment for the Chicago Lying-in Hospital of whose managing board she is chairman. As a result of her efforts the hospital will be allied with the university.

Mrs. Fairbank is a novelist, the author of "The Smiths" and "The Courtlands of Washington Square."

Heard on the street: "Well, guess the situation in the oil fields is bright. Some of the companies are putting on men. Watch Pampa grow!"

Mr. and Mrs. H. A. Gilliland and Mr. and Mrs. R. B. Jameson motored to Austin Sunday where they are spending several days. They expect to return the latter part of the week.

### Speakers For The High School Picked

Declamation trial to select the representatives of Pampa high school at the Interchoicastic meet to be held at McLean April 1 and 2, were held in the high school auditorium last evening. The judges were Prof. B. E. Dean, Prof. Frank Dupree and Miss Hazel Mathis, all of the White Deer high school.

There were 18 entrants in the different classes and the winners picked first; Yvonne Thomas, second; and are as follows:

Junior Girls—Dorothy Doucette, Wilmo Washman, third.

Junior Boys—Lawrence McMurry, first; H. L. Ledrick, second; and Leo Saulsbury, third.

Senior Girls—Fanabel Smithers, first; Mildred Fahy, second; and Tommye Tisdale, third.

Senior Boys—Waldo Kretzmeyer, first; Elmer Hardin, second; and Ralph Irwin, third.

On Friday night the extemporaneous speeches and debates will be given.

### KENTUCKY WOMEN FOR STATE OFFICE

FAANKFORT, Ky.—The office of secretary of state seems to be the favored goal of the political women of Kentucky.

Mrs. Emma Guy Cromwell already holds this office and now Mrs. George B. Harper of Frankfort has announced her candidacy subject to the republican primary of August. Mrs. Harper is the first woman to enroll as a nominee for state offices this year.

A badger, burrowing for a home, made the gold strike which has caused a rush to the boom camp at Weepah, Nev.

### Matching Jewels

Chanel sponsors matching jewelry—such as this brooch and pin of pearls.

Indorsing the resolution made by the faculty of political science at Columbia University in December, 116 members of the Princeton faculty have called for a reconsideration of the war debt settlement.

### HOUSE MAID REACHES FINNISH CABINET

HELINGSFORS, Finland — Finland's new woman cabinet member, Miss Milna Sillanpaa, was once a chamber maid.

A factory hand at 12, she became a domestic servant in Helingsfors six years later and educated herself at odd moments. She joined the labor movement spreading over Finland and helped organize a servant's union.

Since 1907 when Finland granted them the franchise, Miss Sillanpaa has been in Parliament, representing the social-democratic party. She is a prohibitionist and is interested especially in labor legislation. Miss Sillanpaa is assistant minister for social affairs in the department of labor with full cabinet rank. She is 51 years old.

Mr. and Mrs. C. T. Hunkapillar and W. C. Upton will go to Waco tomorrow where Mr. Hunkapillar and Mr. Upton will attend the Rotarian convention March 24 and 25 as delegates of the Pampa Rotary club. They expect to spend several days in Fort Worth and Dallas visiting friends before returning to Pampa.
