Friendly Child Is Subject of Study

A discussion of Friendliness and Character was given at the meeting of Sam Houston Parent-Teacher study group yesterday at the school building. Eight members were present.

Mrs. W. C. Hutchinson was leader. Mrs. Joe Nell spoke on the topic, Helping Children Make Friends. She said that children naturally form groups, and the child should choose his own friends with the guidance of his parents, who are unable to make the actual choice for him. Friendliness is caught rather than taught, she stressed, and a friendly atmosphere will produce a friendly child.

Pilehards, or California sardines, are seized only during the dark of the moon, when their luminous bodies guide fishermen to the shoals.

Still Coughing?

No matter how many medicines you have tried for your cough, chest sore or bronchial irritation, you can get relief now with Cromolum. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Cromolum, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes of the germ-laden phlegm loosened and expelled.

Even if other remedies have failed, don't be discouraged, your doctor is authorized to guarantee Cromolum and to refund your money if you are not satisfied with results from the very first bottle. Get Cromolum today, (Ady.)

JULIANA WED TO BERNHARD IN CEREMONY

VOWS REPEATED TWICE AS HER SUBJECTS APPLAUD

By THOMAS J. HAMILTON, Jr. THE HAGUE, Jan. 7 (AP)—The Netherlands' royal maid, Crown Princess Juliana, became the bride of German Prince Bernhard Zu Lippe-Biesterfeld today amid the rejoicing of two million subjects in this land of tulips and windmills.

First at a quaint town hall civil ceremony, then in the historic color-splashed Goethe Kerk, Juliana and Bernhard pronounced their vows. Radiant in an ivory satin dress sprinkled with orange blossoms, the princess who is the sole hope of perpetuating the ancient House of Orange, stood in the center of a brilliant circle of bridesmaids, their gowns forming a "bouquet" of lilac, orange, and blue.

The quiet Bernhard, resplendent in the full dress uniform of a captain of blue hussars, became by royal decree coincident with the vows, "His royal highness, Prince of the Netherlands."

Bells pealed throughout the lowlands kingdom as Juliana and Bernhard rode from palace to town hall and then to church in a golden coach drawn by eight proud horses through lines of cheering Dutchfolk.

And in the little hamlet of Oostgeest "the other Juliana," whose name really is Petronella van der Meer, was wed to Cananlian Marlinus van Stijn—the only other girl in all the realm to marry today, because she and the princess were born on the same day and in the same hour.

In the two million who cheered in the streets and watched in town hall and church were 33 members of royal families—called to this "family wedding" by Queen Wilhelmina, to see her only daughter and her prince pronounce the royal "JA's."

A little room in the town hall was the scene of the civil ceremony. The golden carriage then took the couple 100 yards across the street to the Groote Kerk.

There, before nearly 1,600 persons, Juliana and Bernhard repeated their solemn vows.

Twice was the plain and plump Juliana transformed into a glowing, gracious bride.

The prince was smiling broadly as the procession moved toward the town hall. Behind the royal coach were three wedding party carriages and then the stately "glass coach" of Queen Wilhelmina.

Down shouting lanes of close-packed people the coaches rolled, lackeys in knee breeches beside the creaking doors. The sun glinted on the polished medals and buckles of ten thousand soldiers, lining the route.

In the town hall, sitting before a scarlet-draped table, the burgomaster, Dr. S. G. R. de Monchy, asked Bernhard:

"Do you confess your willingness to take Juliana as your legal wife, to support and help her wherever she goes?"

The burgomaster repeated the question, to the flushed Juliana. "Yes," she said, in almost a whisper.

The burgomaster placed their right hands together and continued: "Then, after the Dutch law, I declare you to be married, and I am now entitled to address you as your royal highnesses."

Over at the church, while everyone waited for the ceremony to begin, Juliana almost tripped over a

SORE Throat

due to colds relieved by one easy swallow of pure, reliable THOXINE. No gargling. Only 35¢. Money-back guarantee.

At last came the ceremony and the words of Dr. Obblin: "The grace of God will be your share; you are borne by the love and prayers of our people."

With the final boom of the organ, the congratulations began in a steady stream. There was an informal reception at the sacristy and then cries of "good luck" trailed Princess and consort as they drove back through the city, over a winding route four miles long.

Back at the palace, the giggling Juliana and her husband plotted a secret exit from the grounds and kept a deep, dark and happy secret the hour they will start on their honeymoon in the Tyrol.

# FARM PROGRAM IS OUTLINED BY WALLACE

## ONLY WAR AND DROUGHT THREATEN FUTURE OF FARMER

**BY EDWARD B. HAASINSON.**  
WASHINGTON, Jan. 7 (AP)—Secretary Wallace outlined today a 10-point program for keeping America's 30,000,000 farmers on a par with business and industry.

"Agriculture is no longer the forgotten industry of the United States," he said, citing a four-year rise in estimated farm income from \$5,500,000,000 to \$9,000,000,000.

The farmer's income has returned to its pre-war parity with urban incomes, Wallace said, declaring he will seek to maintain that relationship.

- His Program:**
1. Free opportunity for farmers to organize.
  2. Fair and stable income for the farmer, on an equal with city incomes.
  3. Supplies of farm goods adjusted to adequate home needs and foreign demand.
  4. Foreign policies to encourage peace with other countries and an expanding market abroad for American farm products.
  5. Conservation of the soil and other natural resources.
  6. Turning below standard land to non-farm uses.
  7. Crop insurance, to cushion the shock of drought, flood, frost and plague, combined with the ever normal granary.
  8. Better opportunities for the man with the hoe to own his land, and increased security for tenants and owner-operators.
  9. A higher standard of living for the poorer farmers.
  10. Industrial policies to insure abundance for wage earners and farmers alike.
- Only two dangers threaten the farmer's future, farm experts said—a European war or another drought.
- A plan for the government to insure farm crops is on the president's desk. The insurance would start only in wheat in 1938, but administration leaders say Congress may include cotton and corn.
- The President has indicated he would press for aid to the nearly 3,000,000 tenant farmers, varying from southern cotton share-croppers to renters of fertile corn belt acres.

## NO. 1 — (Continued From Page 1)

duties as associate justice of the fourth court of civil appeals here today and said he would have no comment to make regarding business of the state highway commission until he takes over the chairmanship of that body on Feb. 15.

Meanwhile, C. S. Slatton, attorney and former district attorney of the Karnes county district, was preparing to sever his connections with the law firm of Johnson, Roberts and Slatton, and to take over the post now held by Bobbitt.

Asked by Rio Grande valley interests what his attitude would be toward the hug-the-coast highway, especially in regard to the proposed strip through the large ranches of Kennedy county, Judge Bobbitt said: "It is my understanding that this appointment is effective Feb. 15. When I lay down my work here and take up that of the highway commission, I shall do what I think is right and proper for the people of Texas. I have no statement to make regarding matters of the highway commission to the state highway commission."

## NO. 2 — (Continued From Page 1)

opposition from members from other oil districts. However, if he is not appointed, he is sure to be named on the oil committee.

Rep. Worley, a strong supporter of Calvert for speaker at the last session, is expected to be favored by the youthful speaker.

The legislator also said that he expects to make further inquiries into the old-age pension system. He believes it is operating too slowly now while it is being reorganized. He will attempt to have the machinery of passing on applications speeded up.

"When I first went to Austin I had the world on my shoulders," Mr. Worley said, "but after a while it got too heavy and I kinda let it slip off for a while. Now, all I can tell you is that I'm going to vote against new taxes; try to cut down growing expenditures of the state, and to protect the interests of everybody in the Panhandle."

A high chair used by Bruce Rehberg, 4, of Royal, Neb., has been in use in his family 82 years.

## "SAY, BILL . . ."

—If you want to patronize a cleaning service which is a joy to a bachelor, I suggest that you try the DeLuxe Cleaners. They carefully check over your garments for needed repairs and make them without charge! Rips, tears, and missing buttons can be dismissed from your mind now. Just phone 616 and leave these worries to the DeLuxe Cleaners!"

## NO. 3 — (Continued From Page 1)

with mist, drizzled moisture into the streets. The mist froze immediately, coating streets with ice and making traffic hazardous.

Rapidly sinking temperatures followed drizzling rain at Paris. The mercury registered 34 degrees today and dense fog settled over the north-east Texas city.

The cold wave blew into Fort Worth about midnight, causing the temperature to sink from 64 to 31. Cold rain accompanied the norther. San Angelo's temperature touched 31 and at Corsicana the temperature fell from 52 to 46.

Along the Gulf coast the weather was balmy but Corpus Christi experienced freezing tonight, with the temperature likely to go as low as 29 degrees by tomorrow morning. It was 70 at Corpus Christi today. Galveston reported no signs of the cold wave.

Light snow extended beyond Vernon, where the temperature touched 14 above zero.

The norther blew into Dallas shortly after midnight, accompanied by rain. The temperature fell from 65 to 31 this morning and was expected to continue lower.

Sherman had a temperature slump from 62 to 28 and rainfall amounted to .83 of an inch. Ice formed on trees.

## NO. 4 — (Continued From Page 1)

our homes and our community. It is not aimed at any organization. The enrollment will show how Flint and its workers stand."

Representing General Motors in the conference with Murphy and Dewey were William S. Knudsen, executive vice-president, Edward F. Fisher, head of operations of the Fisher Body company, seven of whose plants are closed by strikes, and M. E. Coyle, general manager of the Chevrolet Motor company.

Five Chevrolet assembly lines have been suspended because of lack of parts supplied by the Fisher plants.

## Skellytown News

**BY MRS. W. W. HUGHES.**  
SKELLYTOWN, Jan. 6.—Two new members have joined the Skellytown school band after transfer from Pampa. Bill Rose, fifth grade student, plays the trombone and James Rose, seventh grade, the clarinet. Tryouts are being held by upper grade students in the band at playing the new Sousaphone and alto horn. W. M. Alsop is band director.

School activities are under way after the holidays. Seventh grade art classes are starting a study of costumes in various periods, while sixth graders are making booklets on transportation through the ages. First graders are studying life in cold countries.

R. C. Dukeminier, who has made his home here for some time with his relatives, Mr. and Mrs. E. L. Gallimore, went to Clarendon last week to meet Mrs. Dukeminier, who has joined him to reside here.

Mr. and Mrs. Boyd Hays were week-end guests with friends in Temple, Okla.

Mrs. Lloyd Hinkle is visiting friends in Oklahoma.

Mr. and Mrs. Henry Parker have moved to the Bowers plant south of Pampa.

Jane Bulls is visiting her grandmother in Clarendon.

Mr. and Mrs. Bill Studebaker visited friends in Minco, Okla., recently.

Mr. and Mrs. Odin Smith and Dan Janet spent Christmas with Mrs. Smith's parents, Mr. and Mrs. Henderson at Neotaze, Kas.

Mr. and Mrs. Bill Holiday of Sunray, accompanied by Verne Wyatt and Tony Erika of White Deer, returned from San Antonio, where they went Christmas.

F. C. Platt had as guests recently his sister, Mrs. B. J. Mangel and her daughters, Mildred, Dorothy, and Edna, of Abilene.

## New Bus Will Go in Operation on Line

A new bus, one of the latest and most modernly equipped types, has been brought from Ohio to Pampa to be added to the Cap Rock Bus Line, it was announced today by R. B. Lewis, owner of the line.

The bus has been placed in service between Pampa and Childress with connection for Oklahoma City, Dallas and Fort Worth.

Lewis is one of the Panhandle's veteran bus operators, having had the line in operation here since 1928.

The new bus has the latest type heaters front and back and has longer springs to provide more comfortable riding qualities.

Only 1.28 per cent of Kentucky's population—35,325—paid federal income taxes for 1934.

## HAPPY RELIEF FROM PAINFUL BACKACHE

**Caused by Tired Kidneys**

Many of those graving, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking poisons and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

If the 16 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, lumbago, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. The five heavy relief pills will help the 16 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

## STATION KPON WILL HOLD AUDITIONS FOR ANNOUNCERS THIS WEEK

KPON, Pampa's radio station, will hold auditions for announcers this week and next. It was announced late this afternoon by Mel Marshall, program director and production manager for the broadcast outlet.

"It is our plan to give trials to our own local young men who want to learn the radio business," Marshall stated, "and we hope to be able to find several aspirants who can qualify."

"A good voice, clear diction, and a friendly delivery is what we seek, and provided we can secure young men who have such voices, we will not only put them on the regular staff, but also teach them the business, which still is in its infancy."

Young men who feel they can qualify as announcers may call Marshall this afternoon and tomorrow.

Mr. and Mrs. G. C. Malone and daughter, Charlotte Rhea, and son, LeRoy, left this afternoon for Dallas to visit Mrs. Malone's brother, Hugh Tollison of Amarillo, who is ill in a Dallas hospital.

### Chauffeur Charged With Passing Bus

Sheriff's deputies cited another alleged school bus law violator yesterday when Deputy George Inman filed a complaint against Elmer Harris, chauffeur for Mrs. C. N. Oohilfree, of Pampa.

The complaint charges that Harris passed a standing school bus on the Amarillo highway about five miles from Pampa yesterday afternoon. Harris was scheduled to appear today.

The city of Johannesburg, South Africa, was founded after gold was discovered in 1896.

### PRISONER BEATEN TO DEATH BY POLICEMEN

HOT SPRINGS, Ark., Jan. 7 (AP)—Second degree murder indictments charged seven Hot Springs policemen today with "striking, kicking and beating" to death a city jail prisoner.

Garland county authorities last night arrested the men accused of "assaulting and murdering" John Dickson, 32, whose death certificate showed he died of pneumonia Christmas eve.

Those taken into custody were

HOBBIES USELESS? ASK MAN WHO HAS ONE! If we are slowly working our way into an era of great leisure, as a good many wise men seem to think we are, the ordinary citizen is going to have to do something about cultivation of a hobby.

One of the distinguished marks of a good hobby is that it always looks slightly ridiculous to anyone who is not actively following it. He sees it as a needless expense, as a perverse return to childhood, or as a dreary waste of time—until he himself gets a hobby, whereupon he wonders how he ever before filled in his spare time.

That this business of hobbies is marvelously diverse and has some quaint subdivisions was called to mind the other day by the news that hobby-riders have come to the rescue of storekeepers of Vancouver, B. C.

The storekeepers had stocked up with divers souvenirs of the expected coronation of King Edward VIII. A sample was a neat, glazed beer mug, bearing Edward's picture and the legend, "Edward VIII Crowned King." Came the abdication, and all this assorted junk looked like a total loss.

But the men who made a hobby of collecting useless bric-a-brac came to the rescue. The beer mugs and similar relics immediately became "collectors' items." To the men who have that particular hobby, they assumed a value they never would have had if Edward had not abdicated. So these men charged in and bought them—enabling the Vancouver shopkeepers to have a collective sigh of great relief.

Now if this business of collecting out-of-date beer mugs looks odd to you, that is only because nearly all hobbies look odd unless you actually follow them yourself.

Most honored of all hobbies, perhaps, is that of collecting stamps. Kings, presidents, and financiers have followed it. Yet to the non-collector, nothing could appear more supremely useless. Stamps, indeed! What can you do with them? What are they good for?

It is perhaps the least odd of all hobbies. We know of a man who devotes a good part of his spare time to collecting envelopes—not stamps and not letters, just envelopes—of the Civil War period.

A fairly brisk business is done in the collecting of old-fashioned penny savings banks. Some men collect metal tokens—so much so that a good share of the imitation money issued by cities and counties during the depression has simply vanished.

There are model railroad builders, who build and operate marvelously ingenious reproductions of the real thing. There are men who spend days and months building cathedrals of glued-together match sticks. There are men who build working gasoline engines small enough to put in a vest pocket. There are men who collect old-time steamship time-tables.

Are these pursuits useless time-wasters? By no means. For the men who enjoy them, they are more like life-savers.

Any doctor will tell you that a hobby can mean better health—and any hobby-riders can tell you that it also means happiness and a humble but enduring personal satisfaction.

AN ARMY COOK AGAIN COMES INTO HIS OWN Any man who ever had any part in a military organization must have read with interest of the passing of Kokomo Jones, who held the distinction of having been the oldest enlisted man in the A. E. F.

Kokomo Jones died at the Iowa Soldiers' Home the other day at the age of 77, and was buried in Corning, Ia. To his funeral came brass hats and political big-wigs, to say nothing of former buck privates of high and low degree. The affair drew a good deal of attention.

For Kokomo Jones, who served in the Spanish-American War and on the Mexican border, as well as in France, was a cook—one of the vast, unsung tribe of army cooks who get reviled and cursed by whole generations of soldiers, but who, when they are good, must certainly go to one of the most comfortable corners of the Heaven that awaits good soldiers.

Jones wheeled his rolling soup kitchen after a certain Company K of the Rainbow Division, through Champagne, Chateau Thierry, St. Mihiel, and the Argonne. He won no decorations, no citations, and no mentions in dispatches, but he supplied the chow when it was needed most, and he got it there hot.

Napoleon—or General Sherman, or Hannibal, or somebody—remarked that an army travels on its stomach. It does more than that; it fights, sleeps, and dreams of home on its stomach.

ten does, send wind and rain to put out his fires. The quartermaster's wagons may go astray, the company itself may be lost somewhere in the darkness, and the helpers assigned to him may be nitwits incapable of slicing onions without cutting off their thumbs.

No matter; the cook somehow has to get the chow together and get it up there. He will get no praise if he succeeds, and if he fails he will be cursed as even Missouri mules are seldom cursed.

But if it is any comfort to him, he can brood on the reflection that he is the one indispensable man in the entire army.

Once in a great while the army cook comes into his own. Kokomo Jones did; they made a big affair out of his funeral, and after "Taps" had sounded over his grave, the bugler remarked that "we couldn't have done any more if he'd been a general."

And that is as it should be. Generals come and go, and they are much of a muchness; cooks—good ones, who'll be there with a bowl of beans when you need it most—are beyond price.

CONGRESS

The congress of the United States has begun a historic session. It is in session under exceptional circumstances, under a strong mandate for consideration of the general welfare. The president, re-elected by a record-breaking majority, is in position to deal directly with congress in the public interest. It is not likely that a majority will overlook the necessity for cohesive action.

The federal government is facing large and difficult problems. The always-interesting matter of taxation, including a called-for reduction of expenditures, is on the program. At the same time there is still necessity for relief and for constructive public works. The subject of peace is immediately before this government. The framing of neutrality acts which will satisfy the people in their demand for abstinence from war is a serious and difficult task. Congress will need all its talent, all its patience and all its knowledge of the trend of affairs to shape the work of the session in accordance with the expressed wishes of the people.

There is no question of the authenticity of the demand that this be a constructive and definitive session of congress. In this session the Democratic party, in full control of all political branches, must meet a major test.

Where New Year Resolutions Are Just Beginning

MAN ABOUT MANHATTAN

By GEORGE TUCKER NEW YORK—Heavy trade in the cafes and bars has crystallized a problem which diners haven't known since the days of the boom. Tipping is the trouble, and it concerns the attitude of waiters (you can't blame them really; everybody is spending money like water) who permits gratuities to determine the extent of your service to you.

In the old days the depression took the edge of these expectations, and a blessing it was, for during prohibition the waiter who received less than \$5 was likely to toss it back into your face.

Sensible diners do not tip in excess of the traditional ten per cent, a practice that became popular right after the "scare" of 1932. There were few waiters of the superior sort then.

Of late, unfortunately, the uniformed dandies who serve you in the better nightclubs are growing lazier and more arrogant. Their gait has become leisurely, and their attitude is one of condescension and expectancy.

Thomas Wolfe, the novelist, writes long and complex books, but he always leaves the first and last chapters to the last. Margaret Mitchell had no first or last chapter to "Gone with the Wind" when it was handed to her publishers.

HOW'S your HEALTH

Edited by DR. JACQ GILDSTON INSULIN TREATMENT OF DEMENTIA PRAECOX Just where do we stand on the treatment of schizophrenia (dementia praecox, or adolescent insanity) by insulin?

The theories now advanced to explain the results of the treatment vary. Some give the rationale for insulin shock therapy in terms of the chemical changes effected in the body. Others believe that the treatment stimulates the metabolism of the central nervous system and thereby effects its results.

Which ever the explanation, if insulin shock therapy really stands the test of scientific scrutiny, it will prove one of the greatest contributions of modern scientific medicine.

The man who has no faith is not bad. Often he is better than many of his fellow men. For if he is leading an upright and decent life he is doing so without any outside help. The man who has a faith is simply luckier than the man who has none.

Childhood is the time to bring religion into a person's life. Primitive man has always needed religion. He cannot grasp abstract principles of right and wrong. Ethics is a slow development of evolution. The child is still at the level of development of primitive man, and has his needs and his ways of dealing with the abstract.

What to teach the child depends on the individual parent and on the child. Dogma and the varying details of denominational beliefs are unnecessary. But faith in something greater and finer than himself, and prayer, even if it is only conscious communion with himself, are a positive help to every child.

To train and develop body and brain and neglect the spirit is to deny him a fullness of growth which he can never make up.

The HOLIDAY MYSTERY

Chapter XX The professor was alive and when the tassel had been cut away from his throat he began to breathe more naturally. His unknown assailant evidently had thought him dead and either been frightened away or considered his grisly task complete.

The three younger men carried Professor Shaw to his bedroom, and restoratives were applied. After several hours, however, the professor still lay in a coma, unable to tell what happened to him, though the marks on his neck told only too plainly that the attempt on his life had been real enough.

So the menace hanging over all of them was still actively at work! Doors were locked and double-locked that night.

Next morning the storm had blown itself out. De Forest at once set men to clearing the road down the canyon. As soon as this was completed he hurried two servants off one more to Santa Fe. Those who remained on the mesa settled down to wait further mysterious developments.

Angelique apparently had regained her composure but Pearl John noticed that she kept a close watch on Betty, especially when the other girl happened to be talking to Ramon. Pearl John was relieved when the Spanish girl mysteriously disappeared in the direction of her own room.

For she did not enter her bedroom but, after casting a swift glance around, walked straight to the door with the key in her hand. It was quite easy to extract the key from the unconscious professor's pocket, in the brief interval when she had taken her turn sitting beside the injured man.

Opening the door, she peered down the stairs. Then, after a moment's hesitation, she turned on the spotlight and made her way slowly down to the big storeroom. Nothing unusual here, she looked rather daintily at the boxes and barrels, then walked to the blank wall that had proved so disastrously absorbing to Professor Shaw.

With a smothered cry, Angelique jerked backwards, tripped over something on the floor and crashed suddenly against the wall behind. Immediately she felt something slipping under her feet. The next second she fell through an opening made by a smoothly sliding panel in what had seemed a solid wall.

After the first shock of surprise, she found that she was not hurt and, picking herself up, turned the beam from her electric torch about her. She was in a sizeable passageway that led to other rooms beyond. Since she had come this far Angelique had no intention of failing to satisfy her curiosity and walked cautiously forward.

Several large adobe rooms of varying sizes met her gaze. The one she was probably in the lower levels of the ancient pueblo, where rooms, used in ceremonies in the kiva, were located. She had seen such rooms before in restored ruins. But why such secrecy about the

once more following a coup d'etat on October 10, 1935. The former king, His Majesty King George II, was recalled.

Q. In what part of the United States is the most newspaper and wrapping paper consumed? A. B. C.

Q. How long must a person live in Canada to be eligible for an old-age pension? A. B. C.

Q. One must have resided in that country for the twenty years immediately preceding the date of application. It is also necessary for a pensioner to be a British subject.

Q. How do you arrive at anyone's IQ, or personality quotient? A. B. C.

Q. The IQ is determined by the subject's answers to some 200 questions about what he does, instead of what he knows, about things and people.

Q. What is the Kola nut? A. B. C.

Q. It is the brown bitter nut of an African tree cultivated in the West Indies and Brazil. It contains a large proportion of caffeine and some theobromine. The nut is about the size of a chestnut and is chewed as a condiment and stimulant, and the extract is used as a tonic drink.

Q. When did St. Simeon Stylites live? S. D. C.

A. St. Simeon was born in northern Syria toward the close of the fourth century. A. D. and became a monk in a monastery near Antioch.

How to Get Ahead

Every man or woman who works through a normal lifetime earns many thousands of dollars. Yet only one out of 100 dies rich, and only three out of 100 die in comfortable circumstances. Only 15 out of 100 leave any money or insurance or property when they die.

The rest die poor, and to a great extent live poor. What becomes of all they earn? Most people do not know. Most people do not know how to manage their money, how to make it serve them best, how to get more results from what they earn.

The Household Budget Booklet for 1937, was compiled by experts and shows how to handle your income, be it small or large. Simple facts any one can understand which will help make life more happy for those who read it. With tables, charts, budgets, and ruled accounting pages, printed on special paper for ink or pencil record.

Use This Coupon. The Pampa Daily News, Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

I enclose herewith 10 cents in coin (carefully wrapped) for a copy of the new Household Budget Booklet.

Name ..... Street ..... City ..... State (Mail to Washington, D. C.)

PAMPA OF YESTERYEAR

FIVE YEARS AGO TODAY. High school basketball teams went to Canyon for games with the Eagles there. The Harvesters lost by a score of 24 to 25, but Coach Argus Fox' "B" team won 25 to 20, and Coach Harry Kelley's girls' team 22 to 10.

A citizens' league with the aim of enforcing economy in city government was formed when about 25 residents met at Schneider hotel and planned a later meeting to elect officers.

ONE YEAR AGO TODAY. A telegram to County Agent Ralph Thomas signaled the end of the AAA in this county, after the Supreme Court had declared the New Deal agricultural program unconstitutional.

Velda Richards was named editor-in-chief of the high school year-book.

Boy Scout executives of 15 counties met for a business session of the Adobe Walls council.

# TEXAS SPENDS 125 MILLIONS DURING 1936

## 96 MILLIONS SPENT ON EDUCATION, HIGHWAYS

AUSTIN, Jan. 7 (AP)—Seventy-seven per cent, or more than \$96,000,000, of Texas' total governmental expenditures last year was allotted to highway development and education.

A report by the comptroller's department to Gov. Allred and the legislature, listing total expenditures of \$125,693,992, showed highways received \$53,706,667, free schools \$37,073,234 and higher and eleemosynary education \$8,899,997 and \$338,419, respectively.

Expenditures were \$14,692,925 greater in the fiscal year ending Aug. 31, 1936, than in the preceding 12 months, totalling for the latter period \$111,001,067.

However, about \$3,000,000 more was received in various kinds of aid from the federal government, the total for the last year being \$25,410,501, of which \$23,253,181 went to the highway department.

Total revenue, including federal money, was \$127,692,223, which compared with \$113,342,782 for the fiscal year ending Aug. 31, 1935.

The biggest revenue producer as usual was the four-cent gasoline tax, which yielded \$36,242,686, an increase of \$2,692,512. Gross receipts taxes netted \$12,235,844; licenses, including automobile, \$6,295,467; cigarettes \$5,459,386; liquor, \$1,731,947; beer, \$1,361,639; polls \$1,685; franchise, \$1,587,397, and inheritances, \$1,143,711.

Fees and permits for the sale of liquor, beer and cigarettes, for charters and patents and for all other purposes returned \$3,579,563; land sales, rentals and royalties \$3,310,949, and interest on permanent fund investments and money in depositories, \$3,995,059.

The ad valorem tax yield dropped from \$21,528,475 to \$16,126,948, due to reduction of the school tax from 35 to 20 cents.

Other than for highways and education, the state's dollar was expended as follows:

Legislative \$325,246, judicial \$2,156,849, executive and administrative \$2,395,933, military and law enforcement \$934,704, regulation of business and industry, \$1,932,069, conservation of health and sanitation \$521,965, development and conservation of natural resources \$2,211,652, eleemosynary and correctional, including the prison system \$6,831,289; parks and monuments, including \$1,200,000 for the Centennial \$1,718,018; pensions, fund in aid of Confederate veterans \$4,138,977; relief, \$2,849,171; payment on public debt \$2,974,391, and miscellaneous \$276,102.

### RETIREMENT BILL FOR TEACHERS IS DRAFTED

AUSTIN, Jan. 7 (AP)—Olan E. Van Zandt of Toga, member, said today the Senate school survey committee will make available for study a teachers' retirement bill to the executive committee of State Teachers' Association meeting in Fort Worth Friday.

Van Zandt announced the committee completed work on the bill to be recommended to the legislature at the regular session convening Tuesday.

He estimated the plan would cost the state \$2,250,000 annually. However, the committee will make no recommendations, Van Zandt said, on the character of taxes to pay the bill.

Each teacher in a public school and college would be required to contribute five per cent of his salary up to \$180 per year. Retirement benefits begin after 20 years or longer, but teachers who die or leave the profession would receive back their payments with interest.

**BOY'S BODY FOUND.** SAN ANTONIO, Jan. 7 (AP)—The battered body of a baby boy was found late yesterday in a brush pile at the edge of San Pedro creek. The body was discovered by two youths walking along the stream and the police were notified. Justice of the Peace Bat Corrigan, who examined the body, said all that could be determined at present was that it was a boy and apparently had been in the water two or three days. He was continuing his inquiry today.

**RIX TO PANHANDLE.** AMARILLO, Jan. 7 (AP)—J. A. Rix of Stamford, assistant manager of the West Texas Chamber of Commerce, had instructions today to tour the Panhandle to determine if the chamber could broaden its program in the section. Directors decided upon the action at an executive meeting yesterday after a public session at which E. B. Anderson, executive director of the unemployment compensation commission, explained the social security act.

The Corpus Christi, Texas, oil field, a year old in October, 1936, had 179 producing wells with an estimated total production of 1,650,000 barrels.

# MONTEGOMERY WARD

217-19 N. Cuyler St. Phone 801 Pampa, Texas

# SECOND CARGO OF ARMS MAY LEAVE NATION

## TECHNICALLY IN BILL MAY KEEP FDR FROM SIGNING IT

WASHINGTON, Jan. 7 (AP)—A parliamentary knot which held up signature of the speedily-enacted Spanish arms embargo gave rise today to the possibility of another race to ship war materials to the loyalist army.

House and Senate jammed through the embargo late yesterday with only one dissenting voice, but with a technicality which may keep President Roosevelt from signing it into law until tomorrow afternoon.

Before that action could make the shipment illegal, Richard Dineley, San Francisco munitions dealer, hoped he might be able to get a \$4,507,000 cargo of planes and arms en route to Spain.

One shipment of planes, shipped by Robert Cuse of Jersey City, was carried from New York on a Spanish freighter yesterday while the embargo resolution was rushed thru Congress at a pace reminiscent of the emergency banking bills four years ago.

Dineley, ready to take advantage of the delay, said he could get his goods on the sea in 24 hours but had to wait for Spanish officials flying here from Mexico City. Bad weather delayed them.

Administration leaders, deciding at the last minute to try to halt Cuse's shipment, offered the embargo resolution in both House and Senate after President Roosevelt finished his address in mid-afternoon.

The Senate failed to authorize Vice President Garner to sign the resolution outside of a session. That keeps it from the White House until the Senate convenes again Friday.

Rep. Bernard (F.L.) Mann, a new member, cast the sole vote against the measure.

When the House roll call started at 5 p. m. the freighter Mar Cantabrico was already outside territorial waters with part of Cuse's \$2,777,000 order of second hand planes and engines.

Her manifest showed she was bound for Vera Cruz, Mexico, arousing speculation because of the Mexican government's recent assurance it would not re-ship to Spain any munitions sent from the United States.

Sugar, pineapples, oranges, grapefruit, tobacco and coffee are the principal exports of Puerto Rico.

# MARKET BRIEFS

**KANSAS CITY LIVESTOCK**  
KANSAS CITY, Jan. 7 (AP)—(U. S. Dent. Agr.)—Hogs 1,500, no directs; fairly active to all interests; mostly 10 higher than Wednesday's average; top 10.85; desirable 170-210 lb. 10.00-35; better grade 140-160 lb. 9.25-30; sows 9.00-55.

## Marriage on New Year Is Announced

By Marjorie Maxwell  
BORGEE, Jan. 7 — Of interest to their wide circle of friends is the announcement of the marriage of Miss Lynne Everest, daughter of Mr. and Mrs. H. H. Everest, to Jack McMichael.

The ceremony was performed New Year's eve at 7 o'clock by Rev. E. L. Thomson at the Presbyterian manse. The ring ceremony was used.

Mrs. Ralph Smith was matron of honor and Miss Aline Thornton bridesmaid. Attending the bridegroom were Everett Hanna and T. E. Wilkinson, Jr.

Following the ceremony the group enjoyed a wedding supper in Amarillo.

The bride is a graduate of Borgeree high school and is now employed with an insurance agency. A graduate of high school at Hattiesburg, Miss., the groom is with the Texoma Gas Co.

**Former Resident Dies**  
Mrs. J. B. Jones, mother of W. R. Jones of Borgeree, died at 1:10 New Year's at the home of another son, Jack Jones, of Mound, Okla. Mrs. Jones lived in Borgeree during the boom days. She belonged to the Christian church and was an active member of the Eastern Star.

# SOLONS AWAIT FDR'S LABOR LEGISLATION

## PLANS FOR WAGE AND HOUR LAWS MAY BE SPECIFIC

BY EDWARD J. DUFFY.  
WASHINGTON, Jan. 7 (AP)—President Roosevelt had Congress guessing today about his outspokenness toward the courts and plans for wage and hour legislation.

Awaiting definite indication how far he would go, party ranks threatened to split into factions as the alternatives became plainer.

The legislators speculated whether Mr. Roosevelt had a specific course in mind to assure "a liberal interpretation" of the constitution by the Supreme Court.

They had noted—and many Democrats cheered—the cryptic way in which he told Congress yesterday "means must be found" to adapt the judicial viewpoint to the actual present national needs.

The discussions were subordinated to neutrality for a brief time. Votes of 80 to 0 in the Senate and 403 to 1 in the House to ban arms shipments to Spain disposed of that question temporarily, however, and attention swerved to the prospective Roosevelt recommendations.

His next message tomorrow will transmit the budget for the fiscal year beginning in July and request a supplemental relief appropriation to carry until then.

Vice President Garner's signature to the embargo resolution will send it to the White House tomorrow, as the first item on the program.

Next will come action to extend the Reconstruction Corporation's ending authority, the president's plan to change the gold value of the dollar, and the \$2,000,000,000 stabilization fund.

Leading up to wage and hour regulation, Mr. Roosevelt said he would submit recommendations later on slum clearance, low cost housing, aid to farm tenants and broadening of the Social Security Act.

**Pop-Slide-Click!**  
"Denture Static" Betrays FALSE TEETH

But nobody can tell you wear plates, when you use PASTEETH. This adhesive powder grips plates tight for 24 hours. Gives clear speech. Stops mumbling, hissing, clicking, popping out. Can't cause sore gums, burning or denture breath, because it's alkaline. Tasteless. Not gummy. Get PASTEETH at any drug store. When mouth tissues change, see your dentist.

# PENNEY'S

J. C. PENNEY COMPANY, Incorporated

# HARVESTERS WILL PLAY TURKS TOMORROW NIGHT

## JAMES DEWEY IS LIKELY TO GET IN BATTLE

### PAMPANS ARE CERTAIN TO PUT UP STRONG FIGHT

James Dewey who has shown promise of developing into a first-class goal-shooting forward will be able to play some in the annual tussle with Al Duncan's Turkey Turks tomorrow night.

Dewey, who suffered a badly lacerated finger in practice the other afternoon, was unable to play against Whittenburg Tuesday night. Coach Odus Mitchell quoted the doctor as saying Dewey would be able to enter the game for a few minutes anyway.

Topsy Reynolds filled Dewey's place capably in the Phillips game in every department except goal-shooting. The Reynolds boy played a superior brand of defensive basketball.

Basketball fans and friends of Ivan Noblitt, center, are eagerly awaiting to see if the popular athlete "comes through" in basketball as he did in football. The big fellow who was sudden death to opposition on the gridiron last fall has not been able to get going in a manner that suits either himself or his "public." However, observers are confident that he will "get on" one of these nights.

Basketball players, unlike footballers, seem destined at one time or another to get "off" for periods of time. A year at the beginning of the season, couldn't play to suit himself, but is almost back in his old form now.

The game tomorrow night is rated by Al Duncan's boys as one of their most important games of the year. They had rather beat Pampa, because Duncan was born here, than any other team in a practice game. In the Turk lineup are two players, Young and Yarbrough, who played on the team that beat the Harvesters here. Pampa cagers, in the past have found it exceedingly tough to whip Turkey's quintets. They won two games year before last and one here last year, although the Harvesters swamped the Turks on the latter's court.

The Turks have lost only one game and that to Quail, rated as the strongest team in the Childress district, next to Carey which won the regional title last year.

According to statistics, the two teams should be evenly matched tomorrow night. "Pampa" whipped a team by 3 points, Whittenburg, that was nosed out one point by Quail, and Turkey has lost to Quail.

Coach Mitchell's team has not hit its stride yet, but is expected to be going ahead at a fast clip before this month ends. The coach started with a bunch of boys who had had virtually no basketball experience, with the exception of Ayer. They were big and awkward, but they have developed rapidly.

They will meet a severe test tomorrow night against Turkey and again Friday night against the always formidable Borger Bulldogs. If the Harvesters can conquer both the Turks and the Bulldogs, their development and improvement can be called amazing—and it is that anyway. Both Turkey and Borger can rest assured they will have a fight on their hands.

## Borger Bulldogs Nose Out Bucks

WHITE DEER, Jan. 7.—In a fast game of basketball, the White Deer Bucks were nosed out by a score of 28 to 25 by the Borger Bulldogs in the White Deer gymnasium Tuesday night.

The remaining schedule of the Bucks is:

Friday, Jan. 8—Groom at White Deer.

Tuesday, Jan. 12—LeFors at White Deer.

Friday, Jan. 15—Spearman at White Deer.

Friday, Jan. 19—Pampa at White Deer.

Friday, Jan. 22—LeFors at LeFors.

Tuesday Jan. 26—Panhandle at Panhandle.

Friday, Jan. 29—Canadian at tournament.

Tuesday, Feb. 2—Panhandle at White Deer.

Friday, Feb. 5—Groom at Groom.

Friday, Feb. 12—Open date.

## Fred Perry Upsets Vines As 17,630 Witness Match

BY PAUL MICKELSON.  
NEW YORK, Jan. 7 (AP)—Fred J. Perry, lion-hearted Briton, tucked Ellsworth Vines' scalp among his souvenirs today as the befuddled tennis experts yelped.

Before the largest throng in the history of tennis anywhere, 17,630 sitting and standing customers, who paid \$58,119.50 to see the show, Perry made his professional debut at Madison Square Garden last night by upsetting Vines, 7-5, 6-3, 6-4.

Hardly recognized tennis expert of note, except possibly a few foreign scribes who know the kind of a heart Perry has, gave the dashing, clowning Briton a ghost of a show against the lanky Californian with the deadliest forehand in the net world.

## 26 Cage Teams Entered In Mobeettie's Tournament

### TRAVIS JACKSON EVENTUALLY MAY TAKE TERRY'S POSITION

BY SID FEDER.  
NEW YORK, Jan. 7 (AP)—Cooling off with the hot stovers: "Tis said the Giants were looking ahead when they named Travis Jackson manager of their New Jersey City farm. Some say "Jax" will be getting ready there to take over Bill Terry's pilot job with the "Jints" in a couple of years.

Headline: "Bob Feller (who is 18) to ask \$20,000 from Indians for '37." The cover goes on this typewriter right now, while we learn how to throw a fast ball.

Last year, Connie Mack's Philadelphia Athletics were harshly called the American league's "bush leaguers." Believe it or not, the A's Grapefruit league schedule of 15 games this spring calls for only minor league competition, except for a few tilts with the lowly St. Louis Browns and the hapless Phillies.

Dizzy the Great said a few weeks ago he wanted \$100,000 for this season. Now he threatens to quit baseball and become a pro golfer if he doesn't get \$25,000. With an imagination like that he ought to try the crystal gazing business.

Could it be the Red Sox are looking westward for another heavy-hitting outfielder? Someone on the type of Jules Solters of the St. Louis Browns? Incidentally, Manager Rajah Hornsby is worried over the Brownies' pitching—or lack of it.

"Old Fox" Clark Griffith may find a complaint from Buck (Beau Brummel) Newsum in the mails about the 1937 salary offer, but Buck'll be on hand when spring training opens just the same.

## Sports Roundup

BY EDDIE BRIEZE.  
NEW YORK, Jan. 7 (AP)—Whoopee!—Sure looks like a big year for the press agents. They are getting ready to gang up on old John Q. Public's hobby's business. For instance, Tom Foudy, big ear P. A. for St. Mary's, wrote a pal he is turning up to operate on the following from last year's freshman team: "Lonely" Vigil, a Navajo Indian who plays quarter; "Hasta" Magnana, half back; "Soup" Campbell, center; N. Corrieble, guard; and Bill Love, "the tackle everybody is dying for." Bring out the fire hose, boys!

Success story: Mr. George (Swede) Akerstrom, well remembered in the east as center on the 1934 Colgate team, is line coach at little Middlebury college in Vermont. As part of his duties he scouts a future opponent each Saturday afternoon. He takes his wife along. She is a short-hand expert and takes volunuous notes on the other team as George dictates. Result: He gets every detail, much more than if he had to take his own notes. Moral: Middlebury was undefeated last season. Take it or leave it.

News section: When Judge Landis finds that Kentucky farm he is looking for there may be a red hot announcement from Chicago . . . Mike Jacobs is seriously considering an open air show in Florida this winter with Barney Ross as one of the principals . . . Jimmy Braddock now lunches at the Algonquin (that's where the critics gather). Tut, tut!

Fight writers hereabouts are booming George Zangara, East Side soda jerk, as a new lightweight sensation. But remembering the sad case of Harry Baisago (who took us all for a bulky ride) your agent is laying off.

KELLY TO LIONS  
DETROIT, Jan. 7 (AP)—The Detroit News says Larry Kelley, Yale's All-American end, has agreed to join the Detroit Lions, professional football team, next fall. The News quotes George A. Richards, owner of the Lions now in Los Angeles, as saying Kelley had promised him to report in Detroit as soon as he graduated in June.

## Bitsy Grant to Get Chance to Avenge Defeat

Coral Gables, Fla., Jan. 7 (AP)—Quarter final play in the Miami Billmore tennis tournament shaped up today to be Atlanta's Bryan Grant opportunity to avenge a recent loss to Frankie Parker.

The Spring Lake, N. J., youngster justified his No. 2 national ranking last Saturday by batting out a straight set victory over the No. 3 ranked Grant to win the Sugar Bowl title at New Orleans.

Parker, seeded second, was favored to beat Arthur Hendrix in their quarter-finals match today although the Lakeland player was runner-up here last year. The third seeded Georgia Mite was expected to move into tomorrow's semi-final bracket with Parker by defeating Gardner Mulloy of Miami.

Top seeded Don Budge of Oakland, Calif., scheduled two matches today to make up for his late arrival. He will meet Dick McKee of Miami, and if successful, then will take on Wayne Sabin of Los Angeles, seeded sixth, in a quarter final match.

Charles Harris, of Palm Beach, No. 4 seeded, and Ricardo Morales of Havana, first seeded foreign player, complete the round of eight.

## Negro Woman at Borger Held in Jan. 2 Slaying

BORGER, Jan. 7.—Ada Franklin, negro woman, was placed under a \$4,000 bond for the murder of Ethel Hoops Saturday, Jan. 2. She will appear before the next term of the 84th district court grand jury.

Cleo Evans of Amarillo was placed under \$500 witness bond.

Ethel Hoops died instantly from a gunshot wound through the heart Saturday about 7 o'clock. Ada Franklin was said to have committed the shooting by witnesses.

Charles Franklin, resident of the house in which the crime was committed, saw the shooting. She states that the Franklin woman came into the room where Mrs. Ethel Hoops was seated. Following a brief conversation, Mrs. Hoops followed Ada Franklin around the room with scissors and "Ada pulled a six-shooter and shot her."

Cleo Evans did not see the actual shooting but saw the Hoops woman following Ada Franklin with "something in her hand."

The shooting occurred over the affections of a negro known as "Nappy."

## SHOOK OFF 20 YEARS IN 12-MINUTE SWIM

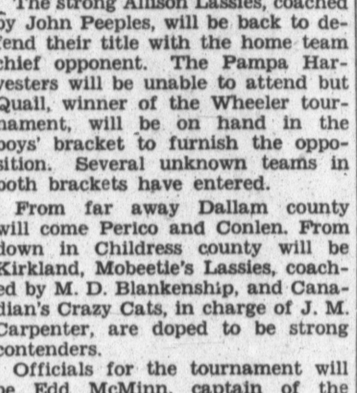

CHICAGO, Jan. 7 (AP)—Ruddy-cheeked Tom Robinson, a youngster of 54 years, is preparing his 29th Northwestern swimming team for the intercollegiate water wars, his health restored by the sport he teaches and retirement far in the future.

Robinson, dean of Big Ten coaches in point of service, whose teams have won 11 conference titles and six national intercollegiate championships, didn't believe back in September that he would be trying to build another championship team this winter. An attack of asthma had him almost licked. He was at the point of asking to be retired.

He felt so slow on September 22 that he decided to swim just once more in the Patten gymnasium pool, where his stars, Art Highland, Al Schwartz, Dick Howell, Walter Colbath, Ralph Breyer and many others, had set records. When he came out 12 minutes later, he felt so well that he hastily revised his plans about quitting.

"I don't know as the swimming did it," he said, "but I shook off 20 heavy years in those 12 minutes."

## Terrible Turk

M. YOUNG.

Leading man for the Turks of Coach Al Duncan, who will bring his performers to Pampa tomorrow night for a game with the Pampa Harvesters in the high school gymnasium at 7:30 o'clock, is M. Young, pictured above. The young gentlemen has been the leading light of the Turkey quintet for three years and two months of this season. Yarbrough is a three-letter man and one of the best guards in the country. Coach Duncan's crew will be out to avenge a bluish on an almost perfect record last year. The Harvesters may take the floor with a changed lineup. On Saturday night at 7:30 o'clock the Harvesters will entertain their traditional foes, the Borger Bulldogs.

## Sport Sparks

BY FELIX R. MCKNIGHT.  
DALLAS, Jan. 7 (AP)—Sammy Baugh's mail gets heavier daily but one letter in particular interests the Texas Christian grider . . . A "feeler" from the Phoenix, Ariz., high school on possibilities of landing him for the coaching position in the No. 1 thought in his mind . . . It may cost Texas Christian a good backfield coach . . .

Baugh, along with two or three Pittsburgh Panther stars, has been approached on the matter . . . Phoenix writes that every body of between 6,000 and 7,000 students, manufacturers powerhouse schoolboy teams annually . . . Hank Leibler, the New York Giant outfielder, once fulfilled a Phoenix team . . . Baugh plans a flying trip to Phoenix in a few days . . . The job would pay much more than a Christian assistant's salary.

Said Coach Frank Murray of Marquette's Golden Avalanche after the rout of his boys in the Cotton Bowl: "Sammy Baugh is as good, if not better, than anybody else in the game." "Texas Christian was better than my club from every angle."

Aniela G., that race horse that paid its backers \$94.10 for placing at Alamo Downs recently, is named after Fort Worth's star feminine golfer, Aniela Goree, Goldthwaite winner.

Walter Roach, the Texas Christian end, will play basketball, grab his degree and coach Cisco's high school team next year.

Morrison Charged With Forgery in Borger Complaint

BORGER, Jan. 7.—Gene Morrison was placed under a \$1,000 bond for grand jury appearance in the court of Justice of the Peace E. L. Butts on a charge of "forgery and passing of a forged instrument."

The purportedly forged instrument was passed by Morrison to W. J. Goodman, proprietor of Goodwin's Grocery and Market at Phillips with the forged signature of Mrs. J. C. Oates of Stinnett in the amount of \$7.

There are several other complaints pending against Morrison on the same offense. Morrison is now in the county jail awaiting trial by grand jury.

The national park service plans a long-range program developing extensive recreational and educational facilities in the Boulder dam area.

The 7th Ohio cavalry was called into action during the Civil war before it had received arms and even before it was wholly mustered into service.

## TENNIS SEASON DISAPPOINTING TO AMERICANS

UNITED STATES FAILED TO REGAIN DAVIS CUP  
(Note: This is the fourth of a series of stories written for the Associated Press by outstanding sports leaders. They deal with 1936 developments and 1937 prospects.)

BY WALTER MERRILL HALL, President, United States Lawn Tennis Association.  
NEW YORK, Jan. 7 (AP)—From an international competitive standpoint, the season of 1936 will go down in tennis history as disappointing to the United States because the Davis Cup was not regained. Nevertheless the margin was really very small even though our team did not get through to the inter zone final and challenge rounds.

The defeat by Australia in Philadelphia was no disgrace as the outcome of the five match series was really settled by the hair trigger doubles match in which Budge and Mako lost to Crawford and Quist in five sets and which was so desperately close that another point or so at the critical times of the fourth and fifth sets would have swung the victory to our side.

A little more experience in international competition with consequent more steadiness in the pinches and our players may easily sweep the competition in 1937.

The record of our leading singles player, Donald Budge, was outstandingly fine throughout the season, even though he lost to Fred Perry, the world's amateur champion, in a close match at Wimbledon and again the wonderful wide open final match of the American championship at Forest Hills.

With the single exception of an early season defeat by Grant, Budge lost no other matches throughout the year.

It needs no stretch of the imagination to envisage Budge at the top of the amateur tennis world in 1937, with possibly Baron von Cramm of Germany the only player in sight to seriously question his supremacy.

Perry's turning professional puts an entirely different complexion on Davis Cup competition and appears to change the status of the champion English nation from a distinct favorite to successfully defend again in 1937, to a position in which the challenger, whether that proves to be Australia, Germany, the United States or some other nation, would seem likely to have the advantage.

## KIDNAPED BOY MAY BE SUFFERING FROM COLD

TACOMA, Wash., Jan. 7 (AP)—Coldest weather of the winter today alarmed the parents of kidnaped Charles Mattson who believed the 10-year-old boy might be suffering from exposure.

The mercury sank to 15 degrees above zero during the night as the abductor ignored opportunities to return the victim or collect \$28,000 ransom.

Dr. W. W. Mattson, the boy's father and a prominent Tacoma physician and surgeon, was more than usually apprehensive that Charles, recovering from a cold when seized Dec. 27, might be seriously affected if he were being kept in an outlying, poorly heated shack as some other kidnap victims have been.

Dr. Mattson has made careful preparations for the boy's care when and if he is turned loose, indicated the abductor ignored opportunities to return the victim or collect \$28,000 ransom.

## Morrison Charged With Forgery in Borger Complaint

BORGER, Jan. 7.—Gene Morrison was placed under a \$1,000 bond for grand jury appearance in the court of Justice of the Peace E. L. Butts on a charge of "forgery and passing of a forged instrument."

The purportedly forged instrument was passed by Morrison to W. J. Goodman, proprietor of Goodwin's Grocery and Market at Phillips with the forged signature of Mrs. J. C. Oates of Stinnett in the amount of \$7.

There are several other complaints pending against Morrison on the same offense. Morrison is now in the county jail awaiting trial by grand jury.

The national park service plans a long-range program developing extensive recreational and educational facilities in the Boulder dam area.

# LET'S KNOW TEXAS AND TEXANS

By WILL H. MAYES.

Soviet Union's output which ran 26 per cent above that of 1935. The increased gold production figures account for the sluggish action of gold company shares.

## REPORTS ARE THAT:

Oil company earnings for 1937 will equal or better those to be shown for 1936. Lockheed Aircraft's unfilled orders largest ever. Outlook for Vadsco cloudy due to possible increased taxes on cosmetics. Of all textile issues Cannon Mills has the wealthiest following. Due to better public feeling first quarter nets of motion picture companies will make favorable reading. Canada Dry has seen its high for a while anyway. As an inflation hedge conservative people like Standard Oil of Kansas. Crucible Steel preferred dividend accumulations to be cleared this year—amount to \$27 a share. For 1936 Engineers Public Service will show a profit of 90 cents against a deficit of 63 cents for 1935. Continental Oil's 1936 net was around \$2.40 a share against \$1.57 for 1935. Detroit Michigan Stove's sales volume exceptionally large. R. J. Reynolds Tobacco has a long-pull following. Even at current "fire sale" prices Philadelphia & Reading Coal common is being avoided. Howe Sound's first quarter net outlook may reach as high as \$2 a share. Commodity traders accumulating cottonseed oil contracts. And, that with Colonel Batista in control of Cuba it isn't likely that the tax on sugar will be the last impost on Cuban business. (Copyright, McClure Newspaper Syndicate.)

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. What troops constituted Fannin's forces at La Bahia? T. R. E. A. The New Orleans Greys, the Tennesseans, Capt. Shackelford's Alabamians (Red Rovers), Major Mitchell's Georgians, Major Wallace's LaPayette Battalion and the Kentucky Mustangs.

Q. Why were the Kentuckians, who had just reached Texas, called the "Mustangs"? T. R. E. A. They were so named by Mexicans at La Bahia because they were hard to restrain and to become submissive to drill tactics, reminding the natives of the wild horses of Texas.

Q. What induced Lamothe Cadillac, French governor of Louisiana, to send St. Denis to the Nuevas Filipinas (Texas) country? Y. F.

A. Father Hidalgo, disappointed at Spanish procrastination in establishing missions and reconquering Texas, wrote letters in 1711 to the French governor calling attention to the opportunities for profitable trading in that country. In 1714, Groat, the Mobile merchant who held the Louisiana trading privileges, sent St. Denis with five boat loads of goods to the head of navigation on Red River to estab-

lish a trading point and to find Father Hidalgo.  
 Q. How many Texans were killed and wounded before the surrender at Coleto, and why did the Texans surrender? S. F. C. A. Reports vary, but approximately 10 were killed and 60 wounded. At the close of the first day's fight, the Mexicans had sustained heavy losses, but the Texans were without water even for the wounded, food supplies were short, ammunition was running low, and Urrea received reinforcements during the night, and it was thought best to surrender to avoid further losses.

## A CENTURY OF TEXAS CATTLE BRANDS

All Texans will be interested in the origin and significance of early cattle brands of famous ranches as reproduced and catalogued in this new book of 84 pages. Arranged by counties. Introductory articles on Texas History by Peter Molyneux; sketch of Cattle Industry and the Story of Cattle Brands by Frank Reeves; and foreword by Amos Carter, owner of Fort Worth Star-Telegram; all of special interest to every citizen. Mailed postpaid for 50 cents. Address all orders to Will H. Mayes, 2510 Salado Street, Austin, Texas.

# THE FINANCIAL WHIRLIGIG

By LOUIS SCHNEIDER

**IT PAYS.**  
 Railroad executives specializing in passenger traffic say that 1936 revenues from that source of operations ran 20 per cent ahead of 1935. They predict that the 1937 results will run 25 per cent ahead of the 1936 figures. The reasons given are: faster schedules, lower rates and better accommodations which include air-conditioning, equipment and grills. Railroads have been advertising these features in a newspaper campaign which covers 85 dailies and 6,000 weeklies. It pays to advertise.

**ESTIMATES.**  
 Copper, lead and other metal prices were lifted rather sharply last year. As a result mining companies will show handsome per share gains for 1936 over those of 1935. Estimates are that Anaconda Copper netted \$1.75 a share against \$1.29 for 1935. American Smelting insiders say that a net of \$6.50 will be shown against \$5.01 for 1935. Kennecott Copper's 1936 net is privately estimated at \$2 a common share against \$1.22 for the previous year. International Nickel's 1936 per share net is figured at \$2.40 against \$1.65 for 1935. Since production continues favorably balanced with consumption the metal trade looks for greater per share profits for 1937 than those to be shown for 1936.

**FACTS.**  
 During the year of 1936 over two and one-half million tons of sugar changed hands on the New York Coffee & Sugar Exchange. Steel trade insiders expect a short-lived boom in the industry's average production figures. Of the 15,000 commercial banks in the country all but 1,000 now carry Federal Deposit Insurance. Some 40,000,000 pounds of snuff are consumed every year by Americans—Babe Ruth loves it.

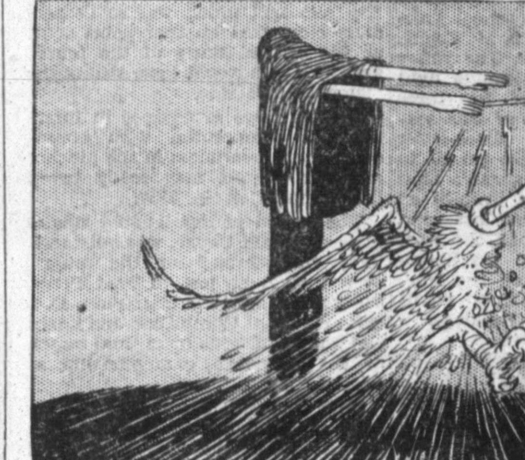

**GOLD.**  
 Treasury Department officials say that the world's 1936 gold output was the largest on record. Some 40,000,000 ounces of the yellow metal were produced against only 30,000,000 for 1935. This is exclusive of the
