VOL. 1, NO. 53.

PAMPA, GRAY COUNTY, TEXAS, TUESDAY EVENING, MAY 10, 1927.

PRICE FIVE CENTS.

## ROAD DISTRICT ORDER IS PASSED

### STORM DEAD TOTAL 190 IN MIDDLE WEST

Popular Bluff, Mo., Is Hardest Hit—Toll 54, Known Dead

### GARLAND HAS BURIALS TODAY

Many of 600 Injured May Die—Damage Is Huge

(By The Associated Press.)

DALLAS, May 10.—Funerals of some of the victims of the tornado which took a toll of 33 lives in Garland, Nevada, and near Kellogg and Wolfe City early Monday were held here today.

Three Garland victims were buried. Relief work is well under way today. Garland is able to take care of its own, but in Nevada the problem is acute as practically the entire town was destroyed.

The conditions of the injured in Dallas hospitals was reported satisfactory.

The death of the Smiley baby of Garland has boosted the death toll in Texas to 33.

KANSAS CITY, May 10.—(AP)—Tornado and storm casualties in Middle-Western states today stood at more than 190 dead and upwards of 600 injured, many probably fatally.

Hundreds are homeless in five states as a result of storms starting Saturday and reaching a climax yesterday when large areas were devastated in Arkansas, Missouri, Texas and Illinois. Property losses are estimated in millions.

The death list in Missouri stands at 73, Arkansas 70, Texas 33, Kansas 10, Illinois 10, Wyoming 3, and Iowa 1.

Early today 54 were known dead in the tornado which swept the main business section of Popular Bluff, Mo., late yesterday.

### Phoebe-Worley Well Flows 25 Barrels Per Hour

After flowing high grade oil at the rate of 2,895 feet, after barely reaching the sand, the latest addition to the Wilcox field is being drilled deeper today.

The first flow of oil from the Phoebe-Worley well, No. 26 on the Worley-Reynolds lease, on the NE of the NW of the SW corner of section 62, block 3, was steady, but the company decided to drill deeper in hopes of striking a heavier flow.

### GAS FRANCHISE MATTER IS TABLED BY COUNCIL

Judge Humphries of Amarillo and H. Otto Studer of Pampa, representing Dr. Boso and associates, appeared before the city council last night.

Questioned concerning the good faith of their client, they said they saw no reason for his appearing in person, and expressed the belief that any matters concerning the gas franchise granted recently by the council have no further place before that body.

The council tabled the matter for the present.

### City Council Takes First Steps Toward Abolishment of Fee System In the City

First steps toward the abolishment of the fee system in Pampa were taken by the city council last night following recommendations of F. A. Cary, new city attorney.

A stated salary was fixed for the city secretary, temporarily, and when renditions of property are totaled the salary scale for city employees will be made. A motion was made by Baker Sealsbury and seconded by F. T. Mason to place local peace of-

### Workers' Queen

The poor working girl has found a place in the sun, at least in Wichita, Kas., where keen competition for beauty honors resulted in the choice of Miss Bonita Munoz (above). Miss Munoz is a perfect blond, but of Spanish descent.

### FRENCH FLIERS STILL MISSING

### Navy Begins Search Today—Weather Is Foggy

(By The Associated Press.)

BOSTON, May 10.—The American navy began a search for Captains Mungesser and Cole, French trans-Atlantic fliers, early today when two naval tugs left the Charleston navy yard.

A heavy fog was hindering the search. Whether the aviators were still in the air, floating on the ocean or wrecked upon high waves or Newfoundland wasteland is not known.

Great excitement pulsed through the waiting crowds, assembled at the New York water front and standing on tugs in the harbor, when report after report told of the progress of a plane between Rockland, Me., and Gloucester, Mass., yesterday.

But before dark hopes from that direction died when the navy yard at Boston messaged its belief that the plane was a coast guard craft, and New York, tucked beneath a blanket of murkier fog, continued its reception plans literally into the night.

Speculation, indeed, due to the total absence of positive sighting, was the "news" of the day. Reports ranged widely from rumors of seeing the plane off Newfoundland to spotting its glistening body over Portland, Me., and Boston, Mass.

No ship, however in the regular lanes, had reported its whirling motors on this side of the Atlantic; no encouraging news came from the ice patrol boat, Modoc, scouting northward off the "beaten tracks" of shipping lanes; and wireless operators, shipping men and coast watchers from Halifax to Montauk Point strained eyes and ears for hours, without avail.

The tenseness of the wait for news of the men who sought to make the first westward crossing of the Atlantic by air, and to beat whatever Americans are entered in the long-awaited \$25,000 Orteig prize non-stop competition, kept Paris and New York in a constant cable communication as rumors and reports went, flashing back and forth.

### Committee Seeks Home For New Pampa Fire Truck

A special committee appointed last week to find housing for the new fire truck had nothing to report to the council last night.

The new fire truck is expected to arrive in the city soon and a suitable building is desired by the time it arrives. The present city secretary's office may be moved to some other location and the office made part of the fire station.

It is expected that the committee will have their plans ready to place before the council at the next meeting.

### MRS. SNYDER COLLAPSES IN PRISON TODAY

Is Result of Conviction With Judd Gray In Murder Trial

### DEATH PENALTY IS MANDATORY

Jurors Agree Quickly; No Appeal Yet Filed

(By The Associated Press.)

NEW YORK, May 10.—Mrs. Ruth Snyder is under the care of physicians today following her conviction with Henry Judd Gray yesterday, which is expected to be followed Monday with a sentence to die in the electric chair.

Consciousness was restored an hour after her collapse in the cell to which she was returned following hearing the verdict of "guilty of murder in the first degree."

A doctor said the symptoms resembled epilepsy.

Deliberating less than two hours, a jury yesterday convicted the couple of murder of Mrs. Snyder's husband, Albert Snyder, magazine art editor. Death sentence is mandatory for first degree murder, but the formality of sentence was postponed until next Monday morning.

Cheers greeted the verdict when it was flashed to the crowd outside Long Island city's supreme court. Inside the verdict was received in silence. Neither defendant exhibited any great emotion and seemed to be either too dazed to fully comprehend its portent, or only hearing what they had expected.

When, after the usual formalities, the foreman uttered his "both guilty of murder in the first degree," Mrs. Snyder's blonde head, professionally dressed for the occasion by a hair dresser, jerked perceptibly. Her eyes, roving like those of one fainting, fixed square upon the shoulders of her erstwhile lover. Then she stiffened, her head came back into position and thus, erect and proud, she sat while the jury was polled.

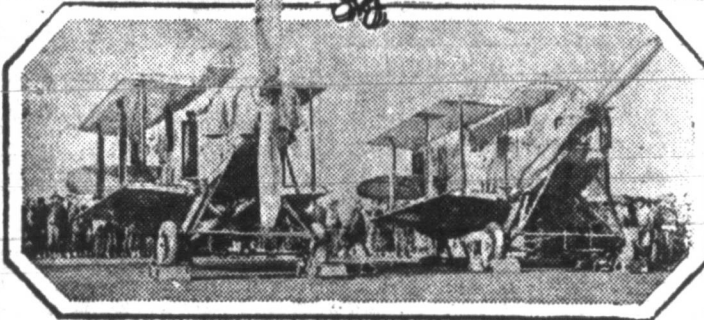

But Gray, whose plea of dominance by the superior mind of Mrs. Snyder had led some to believe him less the stoic that the woman who had insinuated the murder into his head, made no more fuss about the matter than she. His face was slightly flushed as he entered the court room behind the jurors. It retained that flush as he heard his sentence. But his weak eyes peered queerly through spectacles and one hand went, almost as if by reaction, to his leg, where one set of electrodes are fastened by the verdict. Then he too, pulled himself together and sat, rigidly erect, without turning for a glimpse of Mrs. Snyder, who sat behind him.

They were led, one at a time, before the bench, and their pedigrees taken. Then both were led to the obscurity of their cells.

Counsel for both deferred announcement of their intentions as regards appeals. Justice Townsend Scudder thanked the jurors, and as they left their seats to be swept brusquely along in the stream of humanity outside, they were greeted by cheers and flashlights, as photographers pressed around them.

Every form of weapon—from spears such as were used in the armies of Caesar, to twentieth century airplanes—is being used now on the battlefields of China. Above is shown a group of newly enlisted privates of the army of Marshal Chang Tso-Lin, the northern war lord. The giant planes below are British machines landed at Shanghai to be used against Chiang Kai-shek's southern forces in protection of foreign lives and property. The wings of the planes have not been attached, the shipmen just having arrived.

### Fight With Planes—and Spears

Every form of weapon—from spears such as were used in the armies of Caesar, to twentieth century airplanes—is being used now on the battlefields of China. Above is shown a group of newly enlisted privates of the army of Marshal Chang Tso-Lin, the northern war lord. The giant planes below are British machines landed at Shanghai to be used against Chiang Kai-shek's southern forces in protection of foreign lives and property. The wings of the planes have not been attached, the shipmen just having arrived.

### MISSISSIPPI CUTS AT LEVEE ALONG 50-MILE FRONT TODAY

(By The Associated Press.)

NEW ORLEANS, May 10.—White-capped billows of the Mississippi cut deeply in levees along a 50-mile front north of Baton Rouge last night, and today hundreds of laborers were sand-bagging weakened spots.

Along the Bayou des Glaises levee, where the danger has centered several days, 600 citizens are fighting the flood as the situation there hourly grows more critical.

New Orleans is considered out of danger, but thousands of persons in the valley between New Orleans and the river still are menaced, however.

### Marines and Planes Will Embark For Nicaragua Soon

WASHINGTON, May 10.—Eight hundred additional Marines and nine more Marine airplanes were awaiting orders today to proceed to Nicaragua for police duty in connection with possible disorders when the warring factions in that country's civil war lay down their arms.

Just when the detachment will go to Nicaragua has not been determined.

### Pampa Officially On Atlantic And Pacific Highway

Pampa is now officially on the main line of the great Atlantic and Pacific highway route that goes from New York city to Los Angeles.

L. H. Hodsell and George Westcott, official highway markers, are making Pampa their headquarters while marking this section of the newly designated road, which branches from the old route at Wichita Falls and passes through Enid, Okla., and follows Highway 33 through Higgins, Pampa and Amarillo, and joins the former road at Vaughn, N. M.

The markers will be placed by Thursday night.

### BOND ISSUE TO BE CALLED IN PRECINCT NO. 2

Next Step Will Be To Prepare Plans For Vote

### NO OPPOSITION TO PASSAGE

Election Likely Will Be Held Within 60 Days

Gray county commissioners passed without opposition an order creating a special road district in Precinct No. 2 in their meeting yesterday afternoon.

A. H. Doucette, as outlined by the district, is limited to the approximately 276 sections comprising this precinct, and includes most of the rich oil lands and oil properties thus far developed in the county.

A special district for the McLean precinct was created by the commissioners in a special meeting last week.

The next step will be the preparation of a petition calling for an election in this district. This petition must include designation of the routes to be followed and include plans and specifications. Considerable research will be necessary in the preparation of the election call.

On receiving the petition the county commissioners will call a hearing, likely to be over a 10-day period, to consider objections, if any develop.

State laws require 30 days' publication of the election notices prior to the voting. In other words, the actual vote will take place within the coming 60 days.

A two-thirds majority will be necessary to vote the bonds.

### Garbage Collection Report Awaited By City Councilmen

City sanitation, for several weeks a problem before the city council, was again discussed and passed back to the committee on sanitation last night.

Some manner of more efficient collecting the fees will be devised until such a time as the city may take over the work now under contract.

A report on conditions is expected to be made Monday evening. It is said that the contractor now collecting garbage may be given protection from the several other collectors who do not have a contract with the city.

Mr. and Mrs. Willie Seitz returned Monday from Medicine Park and other points in Oklahoma.

### Miss LeFors, Daughter of Gray County Pioneer Cattleman, Is Elected Sponsor

Miss Moleta LeFors was chosen by popular vote as "Miss Pampa," to represent this city at the West Texas Chamber of Commerce convention, May 16 and 17. Miss LeFors led eight contestants with 28,225 votes. Miss Margaret Schmidt was second in the contest with 20,430 votes.

Miss LeFors is a daughter of Mrs. Perry LeFors, and a sister of Mrs. A. H. Doucette. Her father was a pioneer of Gray county and the present county seal was named for him. She is 20 years old and is employed as stenographer for the American Refining company. Her sports are diversified; she can swim, play tennis, golf, ride horse back and do other things of which a Western girl is capable. She was born in Gray county but is a graduate of the Los Angeles high school. She and her mother returned from California several months ago to make Pampa their home.

The final standing of the contestants was: Miss Moleta LeFors, 28,225 votes, Miss Margaret Schmidt, 20,430, Miss Anna Abbott 10,400.

WICHITA FALLS, May 10.—Names of more than twenty sponsors to the ninth annual convention of the West Texas Chamber of Commerce, to be held in Wichita Falls May 16 and 17 had been received at the convention headquarters in Wichita Falls prior to May 5. It is expected there will be at least 100 sponsors to the convention this year. This is indicated in reports received at convention headquarters. This will set a new record for sponsors.

What is declared to be one of the most entertaining programs that has ever been arranged for this feature of the convention has been made by the ladies committee of the Wichita Falls Chamber of Commerce, headed by Mrs. Ben G. O'Neal. Many social functions have been arranged and plans for unusual receptions have

(See SPONSOR—Page 4, Column 3)

Telephone 100, all departments

BUYING GOOD ROADS

Apparently Gray county has agreed to disagree and build good roads by precincts. In view of the wide differences existing between the several portions of the county, this seems to be the surest way to make progress. Each part will get what it pays for, and cannot claim that some other is getting the best of the bargain.

McLean has led a movement for the creation of a special road district in that precinct; Pampa has done the same in Precinct 2. By virtue of the nature of things, these projects will coordinate, although not to the extent that a county-wide issue would have made possible. Present plans will serve the immediate needs of the two divisions, and if property values continue to mount will take care of itself.

Road building is much like paving; once get it started and it will continue. Gray county has made two false starts, but a third failure, under the district plan, is unthinkable.

The size of the necessary issue in this precinct is notable; when state and federal aid is deducted it will be greater than two first class high schools or a high school and a good city hall. In other words, the entire district, with possibly \$14,000,000 in property values, will be doing no more than many cities no larger than Pampa are doing. The taxpayers will get more for their money than under any plan thus far suggested, and engineers have virtually exhausted every plan in making the present program.

Pampa undoubtedly will not long have to blush when good band, it is said that her daughter build our own road out of the mud.

TWINKLES

And say, this is a great country, after oil.

Italian airmen are forbidden to marry before the age of 30, which must be a grim reminder that some of them will die as bachelors.

The plot thickens: Since Mrs. Ruth Snyder has been convicted of the murder of her husband, it is said that he daughter, Lorraine, will get \$96,000 insurance.

Stammering has increased 25 per cent this century; probably with trying to think of some plausible way to explain our foreign policy to foreigners.

American bandits are pretty bad, but we have heard of none stealing a hearse.

A man bit a policeman's finger the other day. Wonder what the officer was feeding him?

But there evidently is to be no "after"; with so much talk of the Amarillo-Seminole field and even that good "Pennsylvania crude" from an extension of the Amarillo field.

STRAIGHT AND NARROW

BANGOR, Me.—A deed has been drawn here for a parcel of land with a street frontage of five inches and a depth of 100 feet.

TAXES GET LOWER

PARIS.—Automobiles in service nine years are taxed one-half the usual amount in France.

Wot a Life! Wot a Life!

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON. — Foreign Minister Briand of France appears to have been crying in the wilderness when he proposed a treaty which would forever outlaw war between his country and the United States.

Thus far there has been no answering holler from any of our own statesmen and it appears likely that if any comes at all it will be heard in the next Congress.

"France is willing publicly to engage itself with the United States to put war as between the two countries outside the pale of the law."

The significance of the signing of such a treaty seems to be confined to two main points:

1. This would be the first treaty of its kind between two great powers; though by no means the first such treaty affecting two smaller nations.

2. The so-called "crop of hate" which has grown up against us in Europe seems to center more or less nebulously on the debts of European nations to this country, of which the French debt is the biggest.

Some 30 of these treaties definitely outlawing war between the two contracting nations have been signed since Denmark began the good work with the Netherlands in 1904. These treaties cover all disputes of whatever cause or nature and leave none of the legal possibilities for war which remain in most other treaties between nations.

The United States is not a party to any of them. For the most part they are important only as demonstrating an enlightened state of mind and of being perhaps the beacon post of a general program of international peace and abolition of war. No two major powers have got together on such a treaty.

The most powerful nations involved are France, which made "outlaw war" treaties with Uruguay, Czechoslovakia and Switzerland; Italy, with Denmark and Switzerland, and Great Britain with Uruguay.

Uruguay has signed more such treaties than any other country, having signed up with Brazil, France, Colombia, Paraguay, Spain, Venezuela and Salvador.

Among others on record are Denmark-Netherlands, Denmark-Portugal, the Central American states, Bolivia-Colombia, Bolivia-Venezuela, Bolivia-Peru, Brazil-Peru, Estonia-Finland, Latvia-Poland (a treaty not ratified by Finland), Estonia-Latvia, Austria-Hungary, Switzerland-Poland, Poland-Sweden, Switzerland-Greece, Switzerland-Spain and the Scandinavian states.

NEWS JABS

The most baffling Chinese puzzle is China.—Boston Herald.

The busiest little "sphere of influence" in this country is sewed up in a horsehide cover.—Boston Herald.

One of the surviving users of an old-fashioned razor hotly denies that women do all their housekeeping with a can-opener.—Arkansas Gazette.

The prudent farmer will keep on cultivating the soil while the hopeful one is cultivating Coolidge.—Weston (Ore.) Leader.

PRESS FORUM

It is so easy to prevent typhoid fever and many other diseases with the modern methods that no community should ever have to worry for a moment about an epidemic.

The report of the city public health physician shows that no epidemic exists here, yet notwithstanding the fact, every person who has not done so should be inoculated against the disease, especially at this time of year. It is a matter of common precaution that everyone owes himself, and the treatment is so simple that not to take it is almost a crime against one's family and neighbors.

Typhoid fever need not exist. The United States army has proved that time and again, especially during the world war, when with 4,000,000 men in service, drinking water under adverse conditions, in Europe where pure water is scarce in comparison with this country, only a few hundred cases of typhoid fever developed.

People should also take care to protect water and milk against possible contamination. Much milk especially, although clean when delivered is easily contaminated afterwards, as in the case noticed at a restaurant recently where waiters in filling the pitchers for serving cream, held the pitchers over the container and allowed the excess to slop over their hands and fall back into the container. Handling of milk in this manner, together with using containers that are not washed every time they are used, is one of the greatest sources of danger.

It is so easy to contaminate food that it is done. It is so easy to prevent disease that it ought to be done.—Sweetwater Reporter.

MATRIMONY MATHEMATICAL. MANILA—Replying to questions as to whether he had brought any wives with him on his visit to Manila, Sultan Sa Massu, Moro dignitary of Lanao, said: "I have no harem. Too many wives multiply one's troubles, divide one's property and subtract from one's felicity. One wife is enough for me and it was too much trouble to bring her."

DIAMOND CLAIMS WORTHLESS. JOHANNESBURG, South Africa.—Reports from the new diamond fields of Grasfontein are that, although they contain many rich patches, the claims of many prospectors are worthless.

LESS TALK IN COLORADO. DENVER—Five counties in Colorado, Baca, Hinsdale, Jackson, Moffat and Rio Blanco, have no telegraphic facilities.

British Bachelor In Paris Hospital

LONDON—Lady Diana Cooper, recently returned from Hollywood, is England's most perfect wife, in the opinion of Viscount Castlerosse, 35-year old bachelor who edits the Londoner's Log for the Sunday Express.

"Firstly she is beautiful," writes the Viscount. "And she married a poor man. I think Lady Diana is the only really beautiful woman who is really unconscious of her loveliness."

He does not claim to be a confirmed bachelor and announces Lady Victoria Bullock, Lord Derby's daughter, to be his ideal of a jolly wife, an asset to any man.

He says: "Lady Victoria is always laughing and the world laughs with her. Her type of temperament is a tonic. I was saying only the other day that she was just the sort of woman who would make an ideal wife when I was told that housekeeping bored her terrifically."

French Aviators Are Still Missing After 37 Hours

(By The Associated Press.) NEW YORK, May 10.—Thirty-seven hours, elapsed at 1 o'clock today, had brought no word of Captains Nungesser and Goll, who hopped off from a flying field near Paris in an attempt to fly here.

No substantiated reports of their whereabouts have been received.

WHY MOTHERS GET GRAY.

J.R. WILLIAMS  
©1927 BY NEA SERVICE, INC.

**Hussey Is Boston's Century Dash Star**

NEWTON, Mass.—Frank Hussey is Boston college's best bet in the 100 yard dash.  
A brilliant record at Stuyvesant high school, New York, with an unofficial record of 9 3/5 seconds, preceded Hussey's track work here.  
When he won the A. A. U. championship on the west coast a year ago he registered 9 4/5.  
Hussey has been clocked indoors in 4 3/5 seconds in the 40-yard dash.

**SEEN About New York**

NEW YORK—The very talkativeness of one Manhattan barber is his greatest asset.  
This barber works in the shop of a Broadway hotel that is a gathering place for army officers and cadets. For many years before he came to Gotham he trimmed hair at West Point.  
Today officers arriving from Texas, Alaska, China, the Philippines, or any other far away points make straight for this barber's chair, sure that he will be able to pass on to them all the latest army gossip in exchange for whatever unpublished news the officer may know.

A tin bath tub in the fire escape is a frequent sight in the tenement sections. There is no record of bathers using them without dragging them inside, however.

That favorite of the comic strips, the foreign peddler of small statuary, has brought all his wares up to date.

The baskets now contain small china figures bearing electric light sockets in their hands, on their heads or located grotesquely in other parts of their anatomy.

Training schools for ushers are the latest addition to education in New York.

When a new theatre opens brilliantly spangled ushers are selected from the "graduates". They are given courses in courtesy and tact in dealing with the public, although one of the chief assets is ability to wear a uniform.

The steam shovel is losing its prestige to a rival in the city, reputed to be the easiest in the world for the attraction of crowds.

The rival is the sand bath, used for scouring stone buildings. The apparatus is used at night as a rule and almost invariably causes a traffic jam of persons who pass judgment on its merits.

SINGER IS DOCTOR OF MUSIC  
APPLETON, Wis.—For the first time in all its 80 years, Lawrence college has conferred the honorary degree of Doctor of Music. It went to Mme. Ernestine Schumann-Heink.

**Chooses Her Job So Children May Play**

SOUTH HADLEY, Mass.—Although the playgrounds of most children are determined by the residence and occupations of their parents, Mrs. Sydney Greenville, author of travel books and assistant professor of English at Mount Holyoke College, confesses that the reverse is true for her and that she chose her job because her children liked to play on the campus.

"When a woman follows a literary career alone, she is free to drift about this world unconcernedly," says Mrs. Greenville, who as Marjorie Latta Barstow traveled extensively and subsequently wrote "In the Eyes of the East." But as the mother of a family her children must be considered before her books. My work gives me freedom to be with my youngsters, and they have virtually become the college magenta.

In search of traditions of old sea captains for "Gold of Ophir," which they wrote in collaboration, Mrs. Greenville and her husband traveled the Atlantic coast in an old Dodge car with the babies packed in security beside them.

SLOW CLUB EXCLUSIVE  
CHICAGO—The Central Slow club, "dean" of the organizations for Chicago's ginless and unpetable youth, has taken rank with the city's exclusive coteries. Its membership is closed and further admissions will be by invitation only.

**Finances Education On Five Dollar Loan**

JACKSONVILLE, Ill.—With only a five dollar loan from her family, Lita Holladay of Estancia, N. M., has acquired four years of education at the Illinois Women's College here. She has been washerwoman, waitress, maid, librarian and cook at summer resorts to earn her way.

When she finishes this summer she will only owe the five dollars which enabled her to reach college in a sliver. She will teach history in New Mexico.

**SPORT TALK**

If the wind keeps blowing much more it is going to be hard on sport enthusiasts. Even intrepid golfers don't like it.

Many baseball enthusiasts left for Amarillo in the hopes of seeing Bob Clarke pitch. No word has been received as to whether the former Pampa star will do the mound duty today.

Manager Ed Gober has been in touch with Erick, Okla., to get that team here for games Saturday and Sunday but has not had a definite answer yet.

If Erick cannot play here Sunday it is expected that Berger will be the Grays' opponents for that day. Berger has a real team and will give the Pampa nine a battle.

**Jimmy McVey Goes To St. Mary's School**

LOUISVILLE—Brother Benedict, who, as Jimmy McVey in private life, is credited with being one of the few fighters who ever placed Benny Leonard on the canvas for a count, has been transferred to St. Mary's industrial school, in which Babe Ruth learned the rudiments of swinging a baseball bat.

Brother Benedict was physical director of St. Xavier's college here and assumes a similar place in the Baltimore school. He was considered a lightweight of high calibre before joining the Xaverian order.

**Wildcat Sophomore Best College Driver**

EVANSTON, Ill.—Walter Colbath, Northwestern University sophomore, brings to the swimming pool the build of a fullback instead of the wiry slenderness of the average fancy diver.

In spite of Colbath's unusual form he holds the national collegiate diving championship and is accounted a promising Olympic prospect. He won his first tank spurs for Lane Technical high of Chicago, and took fourth place in diving competition in the national A. A. U. meet. He is also on Northwestern's 160-yard relay swimming team.

**English Anticipate Busy Tennis Season**

LONDON—The coming tennis season promises to be the busiest ever. The British Lawn Tennis association has sanctioned 270 open tournaments, including junior championships and junior tournaments.

In addition to the contests at Wimbledon, there will be a contest between British and French women in London about June 16, and contests between British and American men June 16, 17 and 18.

**Texans, Back Home, Will Try To Win Few More Games**

Back on the home lot after an indifferent road trip, the Amarillo Texans will try to stage a come-back before Panhandle fans today, using Omaha as the necessary opposition. Omaha happens to be in second place at this time, and may be a tough bunch to control—but that will add to the honor of beating them, if . . .

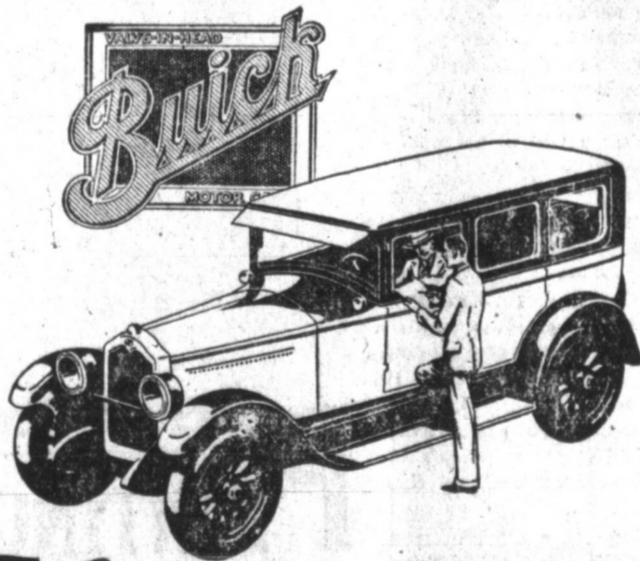

Amarillo fans early today gave an informal breakfast for the nine and showed two attitudes, to-wit: 1. That the town is still behind the boys; 2. That it expects them to win a little more consistently.

Today's game is called for 4 o'clock, when an inspired team should make a desperate attempt to win.

The Texans will remain at home over a long stretch, meeting Omaha, Lincoln, Denver, and Des Moines in the order named.

**WINDMILLS GOING**

AMSTERDAM—Nearly half of Holland's famous windmills have been destroyed or removed in the past four years. The number has been reduced from 3,694 to 1,978 in that time.

**Now is the time to trade in your car**

Demand for motor cars, new or used, is greater now than at any other season of the year, so now is the time to trade in your present car and get a Buick.

Talk to your Buick dealer. Let him advise you how to get a fair price quickly for your car and at the same time to have the pleasure of owning a beautiful new Buick.

In Buick's Fisher Bodies, luxury, comfort, and riding ease are combined with grace of line, rich colors in Duco, and the masterful power and speed of the famous Valve-in-Head Engine—vibrationless beyond belief.

Buy a Buick now, so that you may have a full season of motoring enjoyment.

### Help Pay For "Date"? No

MISS MAE MACKEY

FRANKFORT, Ky. (AP)—Kentucky girls appear to be "thumbs down" on a proposal at the fore in universities elsewhere, that girls share with their men escorts in the evening's expense.

"I think the idea is perfectly silly," said Agnes Simcox, a student at the University of Kentucky. "If the boys want the dates then let them pay for them. None of the 'old Southern gentlemen' of Kentucky I know would think of such a thing, any way."

Mae Mackey voiced the opinion that if the men didn't have the necessary funds they might remain at home while girls enjoyed "dutch treats" with girls. Lela Mae Stiles, however, remarked that "if a girl works, let her pay half, by all means." And Eleanor Blakemore said, "It all depends upon the fellow and the circumstances."

### SOCIAL NEWS Phone 72 Mornings

Mrs. E. Hopper of Miami was here shopping on Monday.

John Studer went to Canadian today to attend the Rotary luncheon.

Fred Vance of Dallas spent Tuesday in the city on business.

C. T. Hunkapillar went to Canadian today to attend the Rotary luncheon.

Arthur Knight, of the "Milwaukee Lighthouse Cruiser" from Cuba and Harvey Knight, with Submarine R-17 from Japan, are visiting their sister, Mrs. H. R. Bishop.

Mrs. Porter Jacobs of Elk City, Okla., spent Tuesday here with friends.

Mrs. Will Hinkey of Elk City, Okla., spent Sunday here visiting her husband.

Mr. and Mrs. H. G. Twiford and Mrs. E. E. Fisher motored to Amarillo Monday to spend the day.

FOR RENT—Five room cottage all conveniences, modern, 4 1-2 blocks west of Cuyler on Kingsmill. 48-4tc

### SPONSOR

been laid. One of these features will be a breakfast in honor of the city and town sponsors.

The presentation of these official representatives from the various places in West Texas, will be unusual this year. The presentation will take place at the Texas League baseball park. An elaborate stage has been built and a wonderful lighting effect has been arranged. One feature of the stage will be a globe, ten feet in diameter. It is made to revolve. As the sponsors are announced they will appear in the door of the globe. Between the presentations the globe will revolve and as the young lady is presented, if she be from one of the places representing a foreign nation, the flag of the country she represents will be presented in a pyrotechnical display. Climaxing the program Miss West Texas and Miss America will be presented. These young ladies will wear a costume familiar or common to the country she represents. This, it is believed, will offer one of the most unusual programs that has ever been presented to a Texas assemblage.

The feature of the opening program will be the presentation of a living flag. In this 1,000 children will appear and will sing America, as the opening feature of the event.

The sponsors, who had reported prior to May 5, are as follows: Mary Frances Russell, Breckenridge; Lot-ties Struve, Abernathy; Helen Frossard, Turkey; Emily Daily, Lampasas; Evelyn Patman, Clarendon; Mrs. T. J. Lyle, Shamrock; Margaret Snodgrass, Midland; Irene Moore, Wellington; Mrs. R. G. Carraway, Seymour; Ida Nabers, Vernon; Lula Travis, Memphis; Cordell Maxwell, Lometa; Hermlth Johnson, Bowie; Mrs. T. B. Richmond, Crowell; Mary Bryant, Stamford; Ruby Milstead, Quanah; Philorine Geo, Iowa Park; Irene White, Cisco; Anna Belle Moore, Chillicothe; Katherine Malone, Plainview; and Janet Scott, Olney.

### Brick Company Head Inspects Paving Here

Deacon Easton, president of the Mineral Wells Brick company, was in the city yesterday looking at the brick purchased from his company, and being used on the local streets. Many of the bricks cracked and could not be used for paving.

Mr. Easton stated that Pampa had received part of a kiln of poor grade brick, which will be replaced at the expense of the brick company.

### Highway Engineer Will Inspect 33-A

F. P. Reid received notification this morning from W. A. French, division road engineer, stating that he will be in Pampa within the next few days to accompany Mr. Reid on a tour of inspection of route 33-A. Mr. French will particularly take into consideration the section from Wheeler to the Oklahoma State line, which has been asked to be redesignated as a State Highway.

### THREE GO TO TRIAL FOR MURDER OF NEGRO

RICHMOND, May 10. (AP)—John and H. B. Crowder, Jr., of Katy, and Buster Roberts of Houston went to trial here today charged with murder in connection with the death of Scott Evans, negro, in a ranch house raid last November, when three other negroes were killed and their bodies incinerated.

### American Actress Taken for Flapper

LONDON—Fannie Ward, "52-year old flapper" and former American actress and her daughter, Lady Plunkett, are often taken for sisters in their jaunts about London. Lady Plunkett's introduction of Miss Ward as her mother is frequently accepted on the assumption that the "young lady" is really a sister or young cousin.

Lady Plunkett, considered one of the prettiest matrons in London, is an intimate friend of the Duchess of York. Like her mother, she plans to open an exclusive dressmaking establishment here.

NO GRAPE JUICE WESTFIELD, N. Y.—Visitors to this village, the home of a well-known brand of grape juice, are reminded of the old adage about a prophet and his own country.

A visitor recently ordered grape juice from a restaurant a half a block from the main offices of the grape juice company.

"We don't carry it," the proprietor said. "No demand for it here."

### Uniform Law For Divorce Favored

RENO, Nev.—A national divorce law, so that a person would not be considered "divorced in one state, married in another and a bigamist in a third," is favored by Miss Felice Cohn, woman lawyer of Reno.

Miss Cohn is the only feminine attorney actively practicing in this state and in the last few years she has handled divorce cases almost exclusively. Miss Cohn is credited with the authorship of Nevada's woman suffrage law.

### MIDDIES TAKE TO SKATES

ANNAPOLIS—It's difficult to put the skids under a midshipman, but he takes to skates voluntarily.

The roller skating craze has become an epidemic at the United States Naval Academy. A common Sunday sight on the sidewalks at the Academy is a middle swinging hard-a-port to avoid collision with some fair visitor.

### PAINT SAVES LIVES

SAN FRANCISCO—Repainting the green ends of street cars white, reduced the number of injuries to pedestrians by 26 per cent, the Market Street Railway company discovered.

### Photography a Hobby Of Hon. Aileen Craig

BELFAST, Ire. — Hon. Aileen Craig, only daughter of Lord Craigavon, governor of Ulster, has made a hobby of photography. She has a large collection of pictures taken during her visit to Canada last year with her parents. She is also devoted to music.

Educated in England and presented at court in 1925, she occasionally assists her mother at social functions.

C. H. Fisher, city secretary, returned today from Wichita Falls, where he spent the week end.

C. C. Bridges and C. F. Collier of Amarillo and N. R. Osborne of White Deer, insurance men, were in the city today.

Mrs. Ella M. Roedeck of the Roedeck Beauty shop has returned from Dallas where she took a 6-weeks' course in new methods of permanent waving.

Misses Elva and Fannie Chism of Miami spent Monday here shopping.
