PRICE FIVE CENTS

## OLD GLORY PLANE IS IN DISTRESS

### Second Meeting Called In Behalf Of Road Election

#### QUESTIONS ARE PROPOUNDED IN SESSION HERE

Favor for Good Road Program Expressed Last Night

#### WORKERS WILL ORGANIZE FRIDAY

South Pampa For Issue 99 Per Cent, Say Speakers

Discussion last night of the road bond election of Saturday took the form of questions and answers, which terminated so satisfactorily that another meeting was called for Friday evening at the Chamber of Commerce, for organization of workers.

Charles C. Cook, as chairman, sketched briefly the history of road bond elections in Gray county, and pointed out that the action of McLean in voting \$250,000 in bonds for that special road district positively made county-wide issues impossible.

Two-thirds of the resident, property tax payers must vote affirmatively to pass the \$400,000 bond issue Saturday. Attorneys define the eligible voter as one who has been in the state at least a year September 10, who has been in the county six months or more on that date, and who have assessable real or personal property.

A very important point, however, is that persons coming to the state after January 1, 1926 do not have to have paid a poll tax, since the levy for this year was made before that date. This means that a large number of new residents may vote, although they have paid no poll tax.

D. W. Osborne will be in charge of the election, which will be held at the Chamber of Commerce, and he will choose his assistants.

An organization of proponents of the issue is being formed to get out a large favorable vote.

In discussing the route of the paving, residents of South Pampa determined from the election call that the south portion will begin at the south end of Cuyler street, and spokesmen said that South Pampa would be for the bonds 99 per cent.

The paving, as defined in the election call, will be:

"We further pray your Honorable body to make expenditures from the funds derived from the sale of the above bonds only on the roads in said road district scheduled as follows:

"Highway No. 33, otherwise known as Southwest Trail, 14 miles.

"Highway No. 33-A, otherwise known as Ft. Elliot Highway, 8 miles, from the City of Pampa to the Eastern edge of said road district.

"Highway No. 33, otherwise known as Clarendon Highway, from a point where said highway intersects the Southern boundary line of said road district, the same being the Northeast corner of Survey 146 in Block B-2 of the lands originally granted to the H. & G. N. Ry. Co., four miles North to a point, the Northeast corner of Survey 109 in Block No. 3 of the lands originally granted to the I. & G. N. Ry. Co. in said county; thence leaving said Clarendon Highway one mile East with the Northerly boundary line of Survey 108 in said Block 3, thence due North with the section lines to the City of Pampa, said road being about 9-1/2 miles in length.

"A Highway five miles in length beginning at the Northwest corner of Survey 88 in said Block 3; thence East with section lines 2-1/2 miles to a point in the Northerly boundary

(See ELECTION—Page 8, Col. 1.)

#### Flogging Jury Hung, Sent Back To Deliberate More

(By The Associated Press.)  
TYLER, Sept. 7.—The jury in the Cain Anderson trial in connection with the flogging of three persons at Marshall reported this morning that it could not agree.

Judge Warren told the foreman he could not accept the report and sent the jurors back for further deliberation.

#### Fourth Man Dies As Climax To New York Row

(By The Associated Press.)  
NEW YORK, Sept. 7.—The fourth death from shooting which came as a climax to a conference over a \$500 real estate transaction in a law office here yesterday occurred today when Robert McGrorty, 29 years old, died in a hospital.

Death was due to injuries received when he was struck by the body of Victor Steinberg as he was hurled from the ninth floor of a building to the street.

#### Local Deputy Is Attacked Making An Arrest In McLean

Two arrests were made and officers are looking for another man in McLean as the result of a fight in McLean yesterday afternoon.

When Deputy Lee Banks of Pampa, who was in McLean serving papers, made the arrest several onlookers objected to the arrest of a participant in a fistie encounter and two men are alleged to have jumped on the deputy.

In the scuffle, Banks dropped one of his guns from the holster and some of the onlookers grabbed it, but Mrs. Scott Rheudisal, who accompanied Deputy and Mrs. Banks on the trip, got the gun first. In jumping from the car she accidentally discharged a 22 rifle and a bullet injured her slightly.

Before peace was restored, Banks was forced to draw his second gun and use the barrel on the head of an assailant behind him. He, however, made his arrests and got his men.

#### Work Rapid On Church: South School Now Completed

The brick work on the Baptist church annex on Kingsmill avenue across from the Post office has been commenced. The top story of the building will be occupied by the Sunday school rooms of the Baptist church and the lower floor by the G. C. Malone funeral home.

Work on the addition to the high school building has been held up on account of lack of material. The new building will consist of twelve rooms which are badly needed.

The South Pampa school building has been completed and is ready for the opening of school next Monday. This building will do away with the necessity of crowding the class rooms as was necessary last year.

#### Two Residences To Be Erected Soon

A brick and frame residence to cost \$4,000 will be erected by J. W. Vasey in the North addition. The work is to commence immediately on the residence.

Mrs. Emma Jackson is having a large brick residence built in the East End addition. The house will cost about \$7,550. W. E. Davis has the contract.

#### PAMPA SCHOOL OPENING WILL BE ON MONDAY

Formal Program Arranged by Officials Now at Canyon

#### THREE-MINUTE TALKS PROVIDED

Supt. R. C. Campbell To Introduce Staff Of Teachers

The program for the formal opening of the Pampa public schools Monday has been received by the Daily News from R. B. Fisher, principal of the high school, who with the other teachers is attending the institute in Canyon this week.

The opening will be held at the high school auditorium at a time to be announced later. The school officials and teachers will arrive from Canyon Friday evening. The board of trustees will meet tomorrow to complete plans for the school term.

The opening program, as outlined in a letter to the News, is as follows:

Song, "America"  
Invocation, the Rev. W. M. Baker.  
Violin solo, Professor Otto Schick  
Introduction of teachers and announcements, Supt. R. C. Campbell.  
Announcements, Principal R. B. Fisher.

Reading, Mrs. Morton.  
Three-minute talks by Rev. James Todd, Jr., Rev. T. W. Brabham, Rev. D. H. Truhitte, Rev. W. M. Baker, C. T. Hunkapillar, O. E. Hinkle, J. D. Sugg.

The present building and put a base-Miscellaneous announcements.  
School song, selected.  
March, by Miss Harriett Rieves.

#### Injunction Stops Pay To Legislators On Tax Committee

AUSTIN, Sept. 7.—An injunction restraining Comptroller Terrill from paying seven legislator members of the tax survey commission \$10 a day and expenses authorized by the Forlieth Legislature, was granted today by Judge Hamilton of the Criminal District court here.

The application was refused insofar as it applied to eight citizen members of the committee.

AUSTIN, Sept. 7. (AP)—Senator Witt, vice-chairman of the committee, said the work of investigating the state's tax system will be completed regardless of the injunction, and Grady Chandler, assistant attorney, said the case will be appealed immediately.

#### Rotarians Hear Fellowship Talks

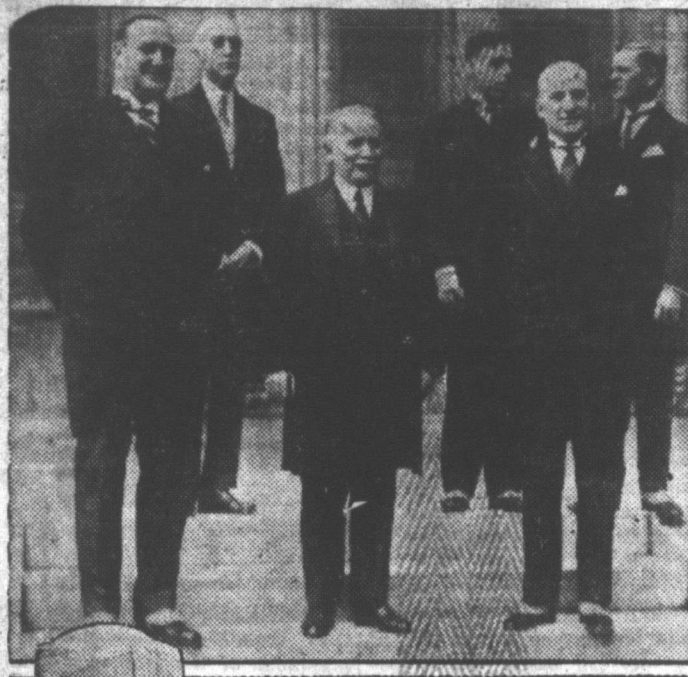

Talks on fellowship by J. M. Dodson, George Custer and Paul Shepherd featured the luncheon meeting of the Rotary club at the new Schneider hotel today. Also, W. H. Mathews Jr., of Amarillo gave a short address on fellowship.

In the absence of C. C. Cook, J. N. Dodson presided and Scott Barcus served as secretary in the absence of W. C. Upton.

Florence Sue Dodson and Byron Dodson gave enjoyable readings and Byron Dodson sang. Club singing was enjoyed with Mrs. J. M. Dodson at the piano.

An American missionary, an Englishman connected with the China Island Mission, and Dr. Filcher, the famous German scientist, are reported to have been slain by fanatical Llamas in the Thibetian highlands

#### The Legion Invades Paris

President Doumergue, of France (center, above) and American Legion leaders at the Elysee Palace in Paris when the French chief executive accepted their invitation to attend the Legion convention. The Legionnaires (left to right) are Bowman Elder, Colonel Francis Drake, Winsor Williams, James F. Barton and William B. Follett. Below, the women's auxiliary opens its Paris registration headquarters at the Hotel Continental; left to right are Mrs. A. W. Kipling, the auxiliary chairman, a delegate, and then Mrs. Julia Wagill, women's parade chairman.

#### Brock Arrives Safely In Burma, Carling Plane Hops Off, Royal Windsor Winging to Newfoundland

#### Big Round-Up Is Under Way Today On Parker Ranch

One of the largest round-ups that has taken place in many years is under way on the Parker ranch south of LeFors today. Will Lewis of Clarendon has purchased the stock from the Parker ranch and will move it to the Rowe ranch between Clarendon and McLean.

The Parker ranch covers more than 12,800 acres and about 1,500 head of cattle are grazing on the land. In the round-up 100 men are expected to take part. An invitation has been sent out to all owners of cattle in the neighborhood to be present.

#### White Deer Paving To Be Started Soon

The paving program for White Deer was accepted by the city council at a meeting Monday night. The Stuckey Construction company, now working on an extensive paving program here, has the contract for the White Deer program and plans to commence next week. If the legal proceedings are complete.

Three blocks will be paved under the present contract.

(By The Associated Press.)  
RANGOON, Burma, Sept. 7.—William Brock and Edward Schlee arrived here this afternoon from Calcutta, India, on their round-the-world flight.

HARBOR GRACE, Newfoundland, Sept. 7. (AP)—The plane Sir John Carling, bound from London, Ontario, to London, England, hopped off from the airport here this morning.

Captain Tully is the pilot, and Lieutenant James Medcalf the navigator. If Tully and Medcalf reach London safely they will receive the \$25,000 prize offered by the backers of the flight.

The plane took the air easily.

OLD ORCHARD, Me., Sept. 7. (AP)—The Royal Windsor resumed its trans-Atlantic flight Englandward this morning, heading its nose toward Harbor Grace, Newfoundland, its next stop.

Fliers C. A. Schiller and Phil Wood took off without knowledge of the plight of the Old Glory.

HARBOR GRACE, Newfoundland, Sept. 7.—The Royal Windsor arrived here this afternoon from Old Orchard, Me., on its way to England.

GIRLS' PAINT SLIPPERS  
CHICAGO (AP)—Bright hued slippers are becoming popular in Chicago after many young women found out they could lacquer them in any color they desired. The paint is said to take well on satin, kid or other leathers.

#### SHIP BELIEVED LOST IN ROUGH ATLANTIC SEAS

Sends Wireless SOS In Early Morning; No Details Given

#### STEAMER UNABLE TO LOCATE MEN

Heavy Waves To Make Rescue Exceedingly Difficult

(By The Associated Press.)  
NEW YORK, Sept. 7.—A wireless SOS from the monoplane Old Glory sent during early morning hours of darkness when she was apparently some 500 miles east of the northeast tip of Newfoundland on her trip from Old Orchard, Me., to Rome, sent liners and warships racing to her assistance today.

Beyond the fact that her crew, Lloyd Bertraud, James Hill and Philip Payne, were in the grip of some tragedy over the trackless wastes of water, no details were given.

Within a few minutes of receipt of the distress calls, several ships were rushing under full steam toward the estimated position of the monoplane.

The steamship Carmania notified the Radio Corporation that the plane, prior to her help call, had reported she was following the great circle to Rome at a speed of about 100 miles an hour. This being the case, the monoplane may have encountered severe weather.

The liner Transylvania reported a position where Old Glory was thought to have come down, and searched a 30-mile area without results. Captain Bone said he was proceeding further with the search.

NEW YORK, Sept. 7.—The Independent Wireless company today announced that ships in the North Atlantic had reported a high sea running.

A strong wind prevailed, and for this reason it was noted that locating of the monoplane Old Glory and rescue of its two pilots and passengers would be difficult.

#### Legion Building May Be Altered Basement Added

Election of officers and a discussion of remodeling of the Legion building was the chief business at the Forty and Eight luncheon yesterday noon at the new Schneider hotel. Plans are being made to raise Sallor, commis voyageur, Walter Cofment underneath it.

In the basement would be a kitchen and dining room, showers, recreation room, billiard room, and other quarters to be planned later. It was decided to wait until after the meeting of the Legion next Tuesday before coming to a decision on the amount to be spent.

Officers for the coming year were elected from the seventeen members present. The officers elected were: chef de gare, Tom E. Darby; chef de train, C. L. Mayo; commissaire lieutenant, Paul Hill; correspondent, F. J. Thomas; conducteur, Ralph Zogg; garde les portes, Floyd McConnell; garde les prisonniers, A. C. Sallor; commis voyageur, Walter Cofment; lampiste, Frank Soodhalter; cheminots, Tom E. Darby, C. L. Mayo, Paul Hill, Frank J. Thomas, Elmer Cary, Robert Manning, and Grover Morris.

### Many Changes Announced In Canyon Faculty

CANYON, Sept. 7.—Plans for the long session of the West Texas State Teachers college, which opens on September 22, include many changes in the faculty. Members who have been away on leaves of absence will return, others will leave for a year's study, and one has resigned.

Miss Hattie M. Anderson, professor of history, has returned from nine-months' graduate study in the University of Chicago. Miss Elizabeth Cox returns from a year's graduate work in home economics.

H. M. Cook will re-assume his work as professor of education after a year's work at Peabody college for Teachers, during which time he was working toward his Ph. D.

R. P. Jarrett, who has been at Peabody during the summer and receives his Ph. D. degree, will return to his place as head of the department of education and will also become Dean of the College. L. G. Allen becomes Dean Emeritus and head of the mathematics department.

W. E. Lockhart returns from Baylor University. He is head of the department of commerce, and this year will be assisted by Herschel Jennings B. A., West Texas State Teachers college. Jennings will also assist in the gymnasium.

Dr. D. H. Munson has resigned as head of the department of English. Miss Loubeth King has resigned as head of the Art department; her place will be taken by Miss Isabel Robinson who has previously taught in this college.

W. L. Vaughan of the department of history is off for a year on leave of absence. Additions to the department are A. A. Grusendorf, who has been acting head of the Spanish department; S. H. Condon, who is just finishing his work as Dean of Clarendon College; J. Evetts Haley, who will be associate professor of history and will continue as field secretary for the Panhandle-Plains Historical Society.

Tate Fry and Herschel Coffee, both of whom have been studying music in California, will become instructor in piano and instructor in violin, respectively.

Fremont Mead and Mrs. Tommie Montfort, both of the high school division, are on leave of absence to study at the University of Texas. Mr. Mead's place will be taken by Miss Mary Cowan, who has been teaching in Canyon high school. Miss Mary Estill, daughter of president Estill of the Teachers college at Huntsville, will fill in for Mrs. Montfort in the Latin department.

A definite program is framed for Freshman Week and everything possible will be done to assure the best welfare of these new teachers. They will be enrolled before the upper classmen, beginning September 20.

### Amarillo Chanters Will Present a Minstrel Soon

AMARILLO, Sept. 7.—The fireworks of the coming minstrel of the Chanters of Khiva Temple, which is definitely scheduled for the evenings of September 19-20 in the Municipal auditorium, expresses rather graphically what one may expect in the way of "puns," jokes and stories on those individuals of Amarillo and the Panhandle who have been mostly in the limelight and whose names are almost by-words in every home.

But, no one expects anything else at the hands of home-town folks who are staging a show, but that show minstrel, musical comedy or anything else. And perhaps nothing so tickles the funny-bone of home folks as hearing stories which may be exaggerated ever so much and the product of fertile imagination, and told particularly about the other fellow.

The Chanters' minstrel, a chorus of twenty Shriners, is now working strenuously learning harmony, dance steps, jokes and "skits." An orchestra of twelve to fifteen instruments will accompany the chorus and individual soloists on every bit of music which is to be used. A number of prominent business and professional men are taking active part in the musical production, and it has been suggested by members of the temple in El Paso that the same performance be given there on the night following the consistory meeting and just prior to the All-State Shrine convention to be held there October 3.

The Chanters' unit of Khiva Temple is the newest of the unformed bodies of this temple and has won for itself much credit for having appeared in formal recital concert last spring for the benefit of the Mississippi flood relief fund.

### Christening the Windsor-to-Windsor Plane

The plane which Phil Wood and C. A. Schiller plan to fly from Windsor, Ont., to Windsor, England, was christened recently at Windsor. The principals in the ceremony are shown above (left to right): Phil Wood, Mrs. Phil Wood, Miss Ada Green and G. A. Schiller. Mrs. Wood is holding the bottle of champagne, broken over the propeller of the big Stinson-Detroit plane in which the trip will be made. Miss Green is Schiller's fiancée.

### When Mayor Needs Attorney He Merely Calls On His Wife

(By The Associated Press.)

PIGGOTT, Ark., Sept. 7.—City government in Piggott is almost a family affair.

Whenever Mayor W. T. Adams wants to consult the city attorney, he calls in his wife, who also happens to be the only woman lawyer in northeastern Arkansas. She did not even become a candidate to get the position.

Friends wrote her name on the last city election ballot which also carried her husband into a second term as mayor, thereby adding another partnership arrangement to the Adams family.

Mrs. Adams, who had achieved success as an instructor in the Pennsylvania State Teachers college, began studying law in her husband's office in 1923. Before marriage they had both taught school in Quincy, Ill.

She received her license to practice in all Arkansas courts last year and immediately became her husband's law partner, under the firm name of Adams and Adams.

Mrs. Adams is president of the Clay county bar association, vice-president of the women's civic club of Piggott, parliamentarian of the Clay county federation of women's clubs, leader of a course in the extension study class of the University of Arkansas. She also prides herself on being a good housekeeper.

### Says Tests Show 2.75 Per Cent Beer Harmful to People

(By The Associated Press.)

MINNEAPOLIS, Sept. 7.—A Two-year investigation has disclosed that 2.75 per cent beer contains enough alcohol to be injurious to anyone who drinks it, Miss Cora Frances Stoddard, of Boston, declared recently at the annual convention of the Women's Christian Temperance Union.

The organization will base upon Miss Stoddard's report its stand against light wine and beer.

Experiments in the research were carried on in the nutrition laboratory of the Carnegie Institution at Washington, Miss Stoddard reported.

In one test, in which subjects were asked to catch water in a series of cups, seven out of eight men failed to make acceptable marks after drinking 2.75 per cent beer, she said.

In another test requiring continuous attention, she found the efficiency of seven men out of eight to have been impaired by 14 per cent after they had drunk "only a couple of pints of the beer."

The report advocated an experimental laboratory for every court handling liquor evidence.

### Dancers Needn't Move In 2,027; Drugs and Lights To Give Rhythm

(By The Associated Press.)

LONDON (AP)—Ballrooms and night club habitués of the future will enjoy their dancing sitting down, thinks Professor A. M. Low, who has been taking a scientific peek into the future of the human race.

There will be little use for legs and arms, he contends, because in the age of the future almost everything will be done by machinery. It will be a pill age, when all food will be concentrated and a meal will go down with a gulp.

But rhythm will be sought as long as the human brain functions properly, and on this account, Professor Low points out, men and women will never get over their fondness for dancing though it may be taken in quite a different form than that of today—which has its disadvantages owing to the physical exertion of keeping time with the band.

"In the distant future, when constant disease will have atrophied our legs, we shall probably take our dancing sitting quietly, while drugs and revolving lights give us all the sensations of rhythm without the stuffy atmosphere of the ballroom and the cafes, Professor Low asserts.

The minute research of modern scientists enables them to realize the remarkable part played by rhythmical motion in the universe.

"Present day dancing is merely the result of war time hysteria," avers the Professor. "Women, in particular, are generally more or less hysterical at the end of a dance which has excited them and chased the cares of life into oblivion.

"This period will pass, and we shall find more and more intoxicating effects, such as sweet perfumes, oscillating floors, and curious foods will be necessary before we can enjoy rhythm.

"Dancing there will always be, but it cannot remain as it is now for long—a mere concession to physical disability. The time will come, I believe, when we shall cease to find pleasure in it unless it is accompanied by injections, vibro-massage, and speed sensations.

"I look forward to the time when it will be possible to broadcast sensations direct to the mind."

FIGURES SHOW DECREASE IN GERMAN BIRTHS

BERLIN (AP)—The German stork is working shorter hours, judging from the Reich's vital statistics for 1926, just issued.

Marriages numbered 482,987 which is about the normal figure, but the birth rate has reached another low record by a further decline of 1.2 per thousand compared with the previous year. The surplus of births over deaths has decreased 11.4 per cent since 1925.

Births have decreased conspicuously in Mecklenburg, East Prussia and Pomerania.

### Germany Endorses War Referendum

(By The Associated Press.)

BERLIN—Ambassador Houghton's advocacy of a popular referendum on war has the unqualified approval of Prof. Albrecht Mendelssohn-Bartholdy of Hamburg, executive secretary of the Carnegie endowment for International Peace and prominent authority on international law. His endorsement of the ambassador's plan has appeared here as a preface to a German translation of the referendum plan.

"The outstanding merit of Ambassador Houghton's proposal to take a decision to go to war out of the hands of governments and make the peoples affected decide it for themselves, is its sterling honesty," he says. "Others have made suggestions that looked good, too. But they were suggestions of the kind that governments might accept with mental reservations and they were full of loopholes."

"One might reply to Mr. Houghton," continued Mendelssohn-Bartholdy, "that democracies are more excitable, more nationalistic, more credulous than governments or permanent officials, in whose hands, as we all know, the decision for war or peace lies. Quoting Jeremiah Smith the regenerator of Hungary: 'would the peoples of Germany and Austria have chosen peace in 1914? Would the people of the United States in 1898?'"

"Nobody knows. But there ought to be no more wars, will all belligerents swearing they never wanted war and no one being able to explain why it was waged at all.

"States outside of the League of Nations, like the United States and Russia could subscribe to the Houghton plan without any impairment of their sovereignty.

"The great feature of the plan is that it would definitely lay down the duty of a government toward its people—a violation of which by a government would automatically release its people from allegiance to it at a crucial time when the state needs the allegiance of all its citizens. For that reason alone, the duty would be strictly observed by all governments.

"Ambassador Houghton's plan is our plan, and we will give it our whole-hearted support, in Germany, in Europe, and in the world."

### Has Four Great Grandmothers

When Thanksgiving Day comes little LeVera Eads of Portland, Ore., will hardly know where to go. The baby, shown in the center with her mother, has four great-grandmothers. They are (left to right) Mrs. Rebecca Bookout, mother of LeVera's mother's father; Mrs. N. W. Ownbey, mother of LeVera's mother's mother; Mrs. Eliza Eads, mother of the child's father's father, and Mrs. Annie B. Allen, the baby's father's mother.

### Second of Historic Panhandle Sites Will Be Marked

(Special to The News.)

CANYON, Sept. 7.—The site of the Buffalo Wallow battle will be marked with a monument on the fifty-third anniversary of the fight, September 12, of this year, by the Panhandle-Plains Historical society.

D. E. Holt and A. B. Crump of Canadian have given the site to the society, to be presented as a memorial park, according to the announcement of T. D. Hobart of Pampa, president of the organization. This battle was fought during General Nelson A. Miles' campaign into the Panhandle after the Indian outbreak of 1874. It stands unique among the Indian fights of the country, in that the congressional medal for bravery was awarded to each of the six men who participated.

The site was located by Mrs. Olive Dixon of Miami, widow of the noted scout, Billy Dixon, who was in the fight; and by the late Johnnie Long, pioneer in the Fort Elliott country. This is the second of the historic sites of the Panhandle to be marked, the site of Adobe Walls being the first.

### Valentino

This life-size bust of the late Rudolph Valentino was unveiled at the public memorial service held recently in Los Angeles, commemorating the anniversary of the screen star's death. The statue, made by Humberto Pedretti, was placed in the entrance of the Blessed Sacrament Church for the memorial services.

### Texas Oyster Shells Help Beautify Bay

(By The Associated Press.)

CORPUS CHRISTI—September, the first "o" month and the beginning of the oyster harvesting season, finds hundreds of oyster fleets in the bays of south Texas, and with the opening of the season the city of Corpus Christi will continue a beautification program made possible by the use of oyster shells.

Some years ago a gulf storm struck this region. A three-mile causeway was swept into Nueces Bay, where some of the natural oyster beds are located. A new causeway was built, but the wreckage of the old one lay alongside the approach to the city and constituted an eyesore.

The oyster fleet, instead of dropping the shells back into the bay, began "husking" the oysters near the old wreckage, throwing the shells where the wreckage protruded from the water. Thus miniature islands of oyster shell were built across the bay.

### Slain Couple

The Kentucky hills faced a new murder mystery with the finding of the body of Fred Russell, 21, and his dying sweetheart, Pauline Dearmond (above), in a clump of bushes near Providence, Ky. Russell had been shot through the head, and the girl, while beaten severely over the head, was still breathing. The couple had been sought for five days before the discovery. Miss Dearmond died at a hospital.

### HINDENBURG BESIEGED FOR USE OF NAME

BERLIN (AP)—Hardly a day passes but that President von Hindenburg is approached by some firm or inventor for permission to name his product after the soldier-statesman.

During the war these requests were very numerous. His painter, Prof. Hugo Vogel, in his memoirs recently published, recounts how on the day of his arrival at general army headquarters he saw two baskets full of such letters.

"Hindenburg" the professor states, "was especially amused at the many requests to be permitted to name mustard, charged water, whiskey, or a saloon after him."

"The letters were often accompanied by the objects to be named. Vogel found a regular museum of such would-be Hindenburg products—match boxes, terrible things with his picture, fire lighters, liquor that tasted like poison."

# WARNING!

The entire financial structure of Pampa is being undermined by those who either carelessly or willfully issue checks which, upon presentation at the banks, are returned with the notation—

**“Insufficient Funds”——or “No Account”**

The following Pampa institutions have determined to put a stop to this practice if it is possible to do so by an appeal to “fair play” on the part of the public. If this doesn't stamp out this vicious evil then legal action will be taken. “Hot checks” are being passed generally on the merchants and business men of our city. The total losses run into a staggering amount.

**This Evil Must be Stopped  
WILL YOU HELP?**

We, the undersigned merchants and business men of Pampa do solemnly pledge ourselves to stand shoulder to shoulder in a relentless war on the “Hot Check Artist” and do agree one with the other that we will no longer tolerate the evil. We further pledge ourselves to immediately turn over to our county attorney all such worthless checks for collection through legal process and we further promise to push every case to the limit and refuse to agree to a “settlement” upon payment of the amount involved.

SCIENTIFIC — Stresses and strains are entirely foreign to the average man. There is no better argument for education than science, which is specialized, intense education along certain lines. Without this education, however obtained, a person would be helpless in many of the great works of modern times.

The federal bureau of standards, manned by experts trained in applied science in a hundred crafts, is a marvel of scientific research. For example, many of the little perfections which make big accomplishments possible are therein derived. The building of giant smoke-stacks, such as rear their smoking muzzles above the big industrial plants, is not merely one of erecting a framework and placing the sections. The stack must measure up to every emergency, the greatest of which, perhaps, is wind. The maximum local wind probable must be closely approximated, and the stack built to withstand the pressure. A crash might be very dangerous to life and damaging to property.

But various sizes and types of stacks are not built to test their strength. Instead, small models are designed and placed in a wind tunnel which produces the equivalent of a gale up to 180 miles an hour. In these streams are placed models of airplanes, balloons, factory buildings, skyscrapers, or anything subject to air pressure. The resistance of an automobile in the air or wind is measured in connection with streamline designs. Airplane wings are much affected. Unexpected results often are obtained. Sometimes suction behind a tall building, caused by a high wind, exerts a greater force than the wind itself, and indicates that an explosion out ward is more probable than collapse inward.

Such experiments are carried on year after year, and the public knows of them largely through sight or use of the finished products they make possible.

CALVIN AGAIN — "He said, smiling, that men have a habit of giving women what they want." — Time Magazine. Just when his portrait maker characterizes Coolidge as "another Caesar," along comes the president with this disarming subterfuge, which is even less definite than his "choose" speech.

And the president, speaking to delegates of the National Women's Party, further said

Looks As If He'll Need a Special Session

that "when a majority of U. S. women are unmistakably in favor of wiping out all legal differentiation between the sexes, they would undoubtedly carry their point."

The picture of the smiling Calvin Coolidge thus replying to beaming delegates who sought his influence in behalf of pending legislation is not especially Caesar-like. But many readers of this column, particularly men, will congratulate the president for terminating the interview so satisfactorily—apparently to all concerned. Actually, he promised nothing. Moreover, if equality-seeking women must wait until a majority of women take an active voice in determining their legal standing, or have an opportunity to do so, they may expect little progress during any given administration. The present national executive made no pretense of promising to take up the fight to ascertain women's desires and to see them translated into law.

The Woman's Party had in mind state laws which "restricted the economic freedom of women." It took men many years to obtain the 8-hour day, and while they may work over time for pay, women who enjoy the 8-hour restriction may not obtain the overtime. In the name of welfare legislation, their working in excess of eight hours has been prohibited in many states. From one standpoint—which was that of the women who interviewed the president—this arrangement is detrimental. It is claimed that by it many women are kept out of gainful occupations. On the other hand, those industries which used to give so much trouble with their "sweat shop" conditions are prevented from causing women employees to work overtime in order to obtain a decent wage. The time is perhaps near when most of the sex differences in legislation will be removed, and yet remedial amendments will have to be attached to prevent abuse of the privilege given both women and their employers.

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON. — Out of the Black Hills comes another explanation of why President Coolidge made his precipitate announcement. On the authority of one or two administration publicists, the president was painfully irked by the publicity to which he was subjected during his vacation.

One is asked to believe that the president became sick and tired of it all for the reason that his every movement was pictured and described all over the country by photographers and correspondents that he was in the deplorable position of a bug under a microscope and that he couldn't turn around without confronting a platoon of cameramen and scribbling reporters.

All of which may be the popular conception of what a president faces on his vacation. But it isn't very accurate.

The fact is that the president of the United States is as well protected from that sort of thing as he is from bombthrowers and assassins. The photographers and reporters are eager enough to shoot and describe a president in all sorts of bizarre, unique and unconventional poses, but they simply can't get away with it without the approval of the executive.

The power of the secret service men is so great that they can keep the boys from getting anywhere near the president if he so directs. There is no such thing as sneaking up and taking a pot camera shot at a member of the presidential family.

For instance, during the Coolidge vacation at Swampscott, photos of Mrs. Coolidge in bathing costume were strictly forbidden. And even now, far out in South Dakota, the president is able to prevent any inside pictures from being taken of the repaired White

House or of the palatial temporary residence on Dupont Circle until he gives his explicit permission.

Thus, the theory that Mr. Coolidge has been hounded to distraction out in the Black Hills is hardly tenable. The only pictures and the only intimate stories of his vacation life have been those permitted by the president.

Being photographed never has been an ordeal for Mr. Coolidge, anyway. He likes it. He gladly put on overalls and grabbed a pitchfork on his plymouh farm and he was just as glad to accommodate the boys by posing in cowboy hat and chaps and by fishing in Squaw creek clad in sailor straw hat, business suit and high stiff collar.

The contention now advanced that the public's snickers at these scenes in the news reels led Mr. Coolidge to give up in disgust is certainly not plausible.

PRESS FORUM

BUSINESS FAILURES

Experts claim that 94.1 of all businesses fail. Startling information; indeed, when it is further revealed that 90 per cent of the failures are non-advertisers.

It is further ascertained that the average life for business institutions is only seven years.

The young man or the inexperienced older man starting out in business believes during the first few months in business that every time the cash register rings he is making a good profit. This may be true, but more than likely it is untrue. He loses sight of the huge expense of interest, depreciation, rent, taxes and a score of other incidentals which enter into the cost of doing business.

If he is in a business with quick turn over, there is the temptation to spend more money than he is taking in, or expanding faster than his business will justify. Therefore, the bankrupt court.

If he is in a slow going business, with slow turn-overs, he becomes discouraged in not making his first million in a year or so.

In either of the above cases, he wants to quit, and hence the result that the average business firm lasts only seven years.

Business fatalities are not discouraging, but should be a warning to those who contemplate going into business that all is not profit which looks like profit.—Canyon News.

MISSISSIPPI — Fast flies the interest of the news devouring public. The Mississippi river flood, one of the greatest disasters in history, is rarely spoken of in public or private life.

Yet in the Mississippi valley the problem is as new as it was when the water first began lapping over the levees. There are plenty of reasons. The burden of rehabilitation has fallen heavily upon hundreds of thousands of people. Their work is far from done. Many fields will produce no crops this season.

People who have returned to the lowlands may climb up to the levee tops and see the swirling waters, now content in a channel, but which serve

able if it is based on the assumption that all that was forced upon Mr. Coolidge.

TWINKLES

English mothers are trying the pack-a-back system of carrying their children. That is a far cry from transporting by limousine one of these animal "creations" with a pretty ribbon around its neck.

Uncle Sam is building some veritable flying fortresses. Mother nature long ago perfected her tempests to test such contraptions.

Coolidge is doing a bit of road work, but maybe on the "won't run" theory of a certain Mr. Dempsey. We can't be certain in either case, but time will tell.

The call of books is in the land—but it is the good natural method of teaching which makes the call genuine.

Taft diets and is little overweight. He is one man who appears greater after having been president than when "in."

to recall the recent time when the entire valley was submerged. Moreover, it is said there are five major crevasses which must be closed before the next rise. The maximum period to pass before the next rise is just until spring. The huge crevasses, some opened by dynamite, can only by gigantic efforts be closed before that time. It is probably too big a task for the state, certainly for any county. The government must step in, and that soon. It is proposed that the state pay one-fourth of the cost, which will be at least \$12,500,000, for levee repair work alone. Congress will have to meet the emergency, and the urgency of the task will prevent long delays.

The women of the Methodist church wish to announce that prayer meeting is being held every afternoon of the revival at 4 o'clock. A large attendance is urged.

Mother's Cook Book

To say that God has given man many and great talents, frequently means that He has brought His heavens down within reach of his hands.—Thoreau.

GOOD THINGS TO EAT

THE time was when the prune was considered beneath the notice of any but the very poor. Times have changed all that, and now the prune is well-established as a choice fruit with the high price.

One reason for the old idea of prunes was the manner in which they were served—carelessly cooked and served.

As the price is higher, the fruit is better appreciated and we are learning how to bring out all the flavor and deliciousness.

The long soaking and then slow cooking in the same water, washing them well first, results in a flavor and sweetness that needs no sugar for the real prune lover.

After they have been thus prepared serve them (three or four) in a nest of lettuce with a sprinkling of nuts if desired, and a good French dressing. Such a salad is so easy to prepare and so well liked that it will be often served, when once tasted.

Prunes stuffed as one does dates, rolled in sugar and served as a confection are most popular.

Prune Roll.

Take one tablespoonful of grape-fruit juice, one tablespoonful of sugar, one teaspoonful of flour, two-thirds of a cupful of mashed prunes, one-third of a cupful of seeded raisins. Cover the raisins with one-half cupful of water and simmer for half an hour. To the prunes add the fruit juice, a pinch of salt and the flour mixed with a little cold water. Put in the raisins and cook the mixture until it thickens—about three minutes. Spread on rich biscuit dough rolled out very thin, fold and press the edges together and bake. Serve with cream.

Prune Pie.

Bake a pastry shell and fill with stewed prunes, adding a bit of lemon juice. Top with a meringue, using the white of eggs and two tablespoonfuls of sugar, and dot with quartered marshmallows. Brown lightly and serve. If one wishes to have a richer dessert, whipped cream sweetened and flavored or plain cream with the minced marshmallows stirred in, may be used as a topping.

ACROSS THE WAY

The young lady across the way says she wouldn't mind wearing eyeglasses so much but she'd hate to be spectacular.

LINDY LANGUAGE

CHICAGO—Lindy language is appearing in Chicago. An uptown restaurant advertises in gilt letters on its window "Our Service is Lindy-fied," and a nearby drugstore tells the world it has "Lindylike Service."

A Starfish Pin

A starfish ornament trims this beige velvet hat with a novelty brim. Groups of tucks cross on the crown.

WOMAN IN CAR  
FINDS IT HOT  
IN ARCTIC RING

(By The Associated Press.)

LONDON—The Honorable Mrs. Victor Bruce complained of suffering from a heat wave in the Arctic circle during her recent automobile jaunt toward the North Pole.

She has returned to London to tell of adventures which include a race from a forest fire in Sweden, tortures from mosquitoes and suffering from Polar heat.

Altogether she travelled 6,000 miles, crossed Belgium, Holland, Germany, Denmark, Lapland, Finland, averaging 210 miles a day. She was accompanied by her husband, the son of Lord Aberdare, and Robert W. Beare.

"We went with plenty of thick coats prepared for freezing weather," she said, "but all the time we were in the Arctic Zone the temperature was never lower than 90 degrees in the shade. We wanted to reach the Arctic Ocean. Within forty miles of it we struck marshes, but we pushed forward, almost a mile by inch, for three miles.

"We encountered a terrible storm in Sweden, and the lightning set fire to the forest. It meant a race for life over fearful roads.

"Some days I was fifteen hours at the wheel. On many occasions we drove by the light of the midnight sun."

Chinese Students Knit  
Sock For Soldiers

(By The Associated Press.)

SHANGHAI—Students of the Jing Nyih Girls' School here have set a new precedent in Chinese war relief work. They have organized to help soldiers at the front and to send them gifts, including socks and cigarettes. They may make "sewing socks for soldiers" as popular among Chinese femininity as it was among women of Western nations during the world war.

At a recent theatrical entertainment, hundreds of girls pledged themselves to procure funds and gifts for the "Nationalist boys at the front."

MONUMENT TO A COW

CHICAGO—Twenty-one stories of a twenty-two story office building in Chicago extend just ten feet farther than the ground floor. The explanation is that the property carried a deed providing for a ten foot run way along its west end for the convenience of the former owner's cow. Batteries of lawyers have never been able to break the clause.

Mr. and Mrs. Alex Schneider Sr., and grandson, Alex Rainouard, were visitors in Amarillo Tuesday.

Mr. and Mrs. Marion Howard and children returned Tuesday from Fort Worth, where they have been visiting.

Mrs. W. M. Lewright is visiting her father in Colorado, Texas.

Mr. and Mrs. K. S. Boehm returned Tuesday from Oklahoma City, Okla.

Mrs. Lillian Hewitt and Miss Catherine Rolland of Lubbock, Okla. have rented the Mitchell beauty parlor.

Supt. R. C. Campbell, Mr. and Mrs. Lester, Mrs. Annie Daniels, Mrs. Irvin, Mr. and Mrs. R. B. Fisher and Miss Austin are attending institute in Canyon this week.

Clarence Green of Kansas City, Mo., is here on business.

George Woodhouse has gone to Canadian on business today.

Mr. and Mrs. C. N. Campbell of Miami visited in the R. C. Campbell home Tuesday.

Mrs. L. L. Masters left yesterday for Ohio. Mrs. Masters has been an active worker in the Presbyterian church here and her assistance will be greatly missed by her friends.

Mrs. R. C. Campbell's Sunday school class is selling candy today to help in the work of the Methodist Sunday school.

Mrs. R. C. Campbell and daughter, Frances, and John and Esther Lester are visiting in Miami today.

Mrs. F. P. McSkimming went to Amarillo today, where she is attending the Amarillo College of Music.

Miss Leora May Is  
New Society Editor

Mrs. Joe Smith has retired from her position as society editor of the Pampa Daily News in order to have more time for her work with the local schools. She is president of the Parent-Teachers association.

Mrs. Smith has given valuable service on the News for several years, and was formerly associated with her husband in its management. The newspaper was edited for many years by Joe M. Smith Sr., its first manager, and the family has a strong personal interest in it.

A local girl, Miss Leora May, has taken over the work of society editor. Miss May is a graduate of Pampa high school and is an ex-student of the College of Industrial Arts at Denton. Club and organization news and personals should be given to Miss May daily or telephoned to the office, number 100. Contributions of social items are invited. Names should be legible, and initials should be given in all instances.

P.-T. A. Meeting Is  
Called for Friday

A called meeting of the Parent-Teachers association will be held Friday afternoon at 3 o'clock at the high school building, according to Mrs. Joe Smith, the president.

All persons interested in the work for the coming year are requested to be present.

Mrs. Smith Is Hostess  
To Amusu Club

Mrs. Joe Smith was hostess to Amusu Bridge club Tuesday afternoon.

High score was won by Mrs. Siler Faulkner. Miniature boxes of candy, the compliments of Pampa Drug No. 2, were given as favors.

A delicious salad course and punch were served to the following guests: Mrs. W. L. Woodward, Mrs. Carol Kingsbery, Mrs. A. H. Doucette, Mrs. W. M. Craven, Mrs. M. A. Finney, Mrs. Siler Faulkner, Mrs. L. N. McCullough, Mrs. W. Bratton, Mrs. Alex Schneider Jr., Mrs. J. M. Dodson, Mrs. Lester Chiles and Mrs. Bradford Griffen.

TEACHES WOMEN  
CLUB AFFAIRS  
BY RADIO TALKS

CHICAGO—Women's clubs are not merely "in the air," they are actually "on the air," in more than a score of states, Miss Judith Waller of Chicago, chairman of the radio committee of the General Federation of Women's Clubs, attributes increased membership to radio aid.

"The radio is largely responsible for the growing interest in club work and the rapid increase in club and Federation membership," said Miss Waller. "An entirely new audience has been found by the State Federation and individual clubs. Through the courtesy of their nearest broadcasting stations they are sending out live programs which relate either directly or indirectly to club work.

"In this way thousands of people who have never known or cared about women's clubs and what they are trying to do, have become interested. Now they are either joining our ranks or helping us to accomplish some of our aims."

Menus for the Family

By Sister Mary  
BREAKFAST—Orange juice, cereal, cream, potato omelet, crisp oven toast, marmalade, milk, coffee.

LUNCHEON—Baked macaroni and onions, sliced tomatoes, raisin graham bread, caramel custard, milk and tea.

DINNER—Broiled halibut steak, mashed sweet potatoes, baked cauliflower, compote of fruit, children's sponge cake, milk, coffee.

Garnish the fish platter with slices of lemon and sprinkle every other slice with minced parsley. The dish will be more attractive and the fish more palatable since a slice of lemon should accompany each serving.

Potato Omelet  
Two cups diced boiled potatoes, 4 thin slices bacon, 1/2 teaspoon salt, 1/8 teaspoon pepper, 4 eggs, 4 tablespoonfuls milk.

Cut bacon in inch squares and fry in hot spider until crisp. Drain off all but 1 tablespoon bacon fat. Add potatoes, season with salt and pepper and shake pan until each potato cube is coated with fat. Cover pan and cook over a low fire until potatoes are very hot. Beat eggs with milk, season slightly with salt and pepper and pour over potatoes. The pan should be very hot when eggs are added. Reduce heat and cook until eggs are set. Fold and serve on a hot platter.

H. W. Johns, I. E. Duncan, Earl Talley and Dr. R. A. Webb hunted prairie-chicken near Glacier yesterday and the bag was 20 chickens. They report seeing plenty of chickens and plenty of hunters.

Irish Police Hunt  
Poteen Moonshiners

(By The Associated Press.)

GLENEGANNON, Ireland—The mountaineers of West Virginia and Kentucky have nothing on the mountaineers of Ireland when it comes to making moonshine, only here they call it poteen. Poteen is white whiskey, manufactured mostly from barley and sometimes from potatoes. The Irish Civic Guards, who are also the revenue officers, look for columns of smoke in searching for poteen stills. The Irish mountaineer is also a pastmaster in the art of camouflage. His barrels are carefully concealed under mounds of sod.

### Fight Promoters Can See Arena Now Going Up

(By The Associated Press.) CHICAGO, Sept. 7.—The three men largely responsible for giving Chicago its first heavyweight championship boxing match can look out the front window of their offices and see across the street the immense stadium where Dempsey and Tunney will fight Sept. 22.

From Twelfth street to Twenty-second street the stadium extends along the center of Grant park, a little more than a block from the most famous thoroughfare in the city, Michigan boulevard.

Edward J. Kelly, president of the South park, which granted the use of Spaldor's field to Tex Rickard, has offices hardly more than a stone's throw from the structure.

Rickard's headquarters in the Congress hotel look out over the fight arena and George F. Getz, the millionaire coal operator, who took up fight promoting to bring the bout to Chicago, can turn in his office chair and look down into the stadium a few blocks away.

The wide spaces of Grant Park's 100-acre stretch held nearly 20,000 parked automobiles for the Army-Navy game last fall while as many more taxis passed in and out of the broad drive. Soldiers Field lies between the two wide boulevards which skirt the lake there, one for north and one for south traffic.

### Revival of Emeralds Indicated for Fall

(By The Associated Press.) PARIS—Emeralds, heralded for several months as increasingly important in the world of precious stones, are the keynote of several evening dresses in the collection of Worth.

The famous brilliants and glittering embroideries of this house have given way somewhat in the new collection, to large emerald colored stones in the form of brooches, bangles and ornaments.

Chains of semi-precious stones including topaz, aquamarine and turquoise are used by several dressmakers as integral parts of their evening dress designs. The flat, polished stones are set in narrow rims of gold or silver and the chains are from 18 to 24 inches long.

### GERMAN COURT DECISION FAVORS AIR COMPANIES

BERLIN (AP)—The German Supreme Court has decided that private air transport companies cannot be held liable for loss of life or for loss of goods carried by air.

Actions for damages, according to this court, could only be brought if the carrying company were a state organization or held a monopoly, in which latter case the traveler could plead force majeure. Meanwhile, a "non-liability" clause which appears on the tickets of different flying companies holds good at law, it is declared.

The German Luthans, among two or three other European flying concerns, has solved the difficulty by insuring all their passengers against loss of life or limb.

Other European courts, notably the courts of cassation of Paris, Rome and Brunn, have decided that the non-liability clause is illegal and cannot be enforced at law.

### LEATHER WORKERS DISAPPEAR

DEL RIO—Saddle makers and leather workers are gradually getting scarce, ranchmen here declare. A rancher who advertised for a maker of ranch equipment got no replies and was told that the old leather workers are dying and the new ones are not forthcoming.

### JAPANESE READING TASTE

TOKYO—Literature and language books are most popular in Japan, the Imperial Library of Tokyo finds. Of 91,047 books drawn from the library in a month a fourth were in that class.

## OUT OUR WAY

—By Williams

### GERMAN NOBLEMEN STILL DRAW ANNUITIES

BERLIN (AP)—Sixteen princes, dukes and counts of the old German empire have drawn from the German republican coffers in the last three years the sum of 2,239,528 gold marks, or about \$560,000 according to a statement issued by the Prussian Finance Ministry in reply to a question in the Diet.

These payments, the statement explains, take the place of annuities granted after the revolution to former heads of petty German states. They were payable in paper marks. The sum total 1,831,570 marks, amounted in the inflation year 1923 to the merest fraction of one American cent.

Nothing apparently was forgotten or neglected by the noble claimants in demanding compensation for the loss of old privileges, many of them dating from the middle ages. The fourth of six sectional heads under which the annuities were detailed, gives particulars of compensations for the loss of postal privileges, for the ownership of serfs and even for the rights to collect rags and bones.

### OLD BERLIN CHURCH HAS LEANING STEEPLE

BERLIN (AP)—Berlin has a "leaning tower." The steeple of the 13th century St. Mary's Church, in the old part of town has been found to be more than three feet out of plumb. It was found that the wooden structure on which the top of the steeple rests is badly rotted.

The parish, the population of which has declined from 30,000 to 2,000, is too poor to undertake thorough restoration. Iron stays prevent danger of collapse.

The old church is famous for its antiquities, among which is a rare 15th century "Dance of Death" painting.

### CIGARETTES vs. CANDY

NEWARK, N. J.—The desire of women to stay slim has led to curtailment of candy purchases and has caused women to prefer the cigarette—at least this is what Herbert L. Fritz, receiver for a candy company, told Federal Judge William N. Runyan. Fritz, who is also vice-president, said his conclusions had decided him against further efforts to rehabilitate the company.

### New Supreme Court Gets Site Of Historic Old Suffrage Home

(By The Associated Press.) WASHINGTON—The most precious tangible possession of the National Woman's Party is soon to be lost. Next to the principles it furthers, this organization prides itself most on the headquarters on Capitol Hill, a building filled with historic tradition.

But the home it has owned since 1921 is about to be demolished so that the new Supreme Court of the United States may rise in its place.

Although suffrage leaders are disturbed by the edict, nothing can be done now to retain the building because Congress has passed the appropriation bill providing the money to purchase the headquarters. Officials of the organization attribute the interest in this building to Chief Justice Taft. It is said that he recognized the value of the site many years ago and expressed his preference for it as the location of the Supreme Court whenever Congress should agree upon awarding new quarters to that branch of the government.

When the government takes back this house it will have been in private hands for more than half a century.

Its history is unique. It had served as the Capitol of the United States from 1815 to 1819 when the original capitol building was burned. In 1817 President Monroe was inaugurated here. When the house was being used by Congress, Henry Clay was speaker and Daniel Webster's orations were heard in its rooms when he was a member of Congress.

During the Civil war the house was a federal prison.

Soon after that it passed into private hands, becoming the home of statesmen and high officials. Senator Calhoun of South Carolina lived and died in it. Justice Field of the United States Supreme Court lived there for several years. The late General Leonard Wood was married under its roof and Senator Spooner of Wisconsin made it his Washington home.

When Mrs. O. H. P. Belmont, its president, donated the building to the National Woman's Party in 1921, funds were set aside to restore it to its original form. State branches undertook to furnish rooms, each with historical furniture from their own states.

### French Daughters Go To Farm School

PARIS (AP)—Sixty farmer's daughters in France are studying the business of farming in the only special agricultural school established by the government in Brittany.

Several agricultural schools for boys exist, however, besides a number of experimental farms.

The girls are taught gardening, dairying, the care of poultry and pigs. They are trained in domestic economy by operating the dormitory and the dining room.

Each girl is required to bring to the school her own garden hat and a pair of sabots, or wooden shoes.

### Plan Winter Sports Center In Michigan

(By The Associated Press.) LANSING, Mich.—Northern Michigan plans to bid against Lake Placid and the resorts of Switzerland for the patronage of those who enjoy winter sports.

The state has joined forces with a group of individuals organized into the Michigan Winter Sports Association.

The plan contemplates uniform facilities for skiing, tobogganing, skating and coasting in many of the cities and towns along the coast of the Great Lakes. State parks will be used in some instances.

Sponsors of the movement claim northern Michigan has climate, hills and scenery rivaling any winter resort.

### Ships Fitted Out To Get SOS Signal

(By The Associated Press.) LONDON—Apparatus for automatic reception of SOS signals is being fitted to British ships carrying only one radio operator.

A great number of ships have only one operator, on duty part of the day, and distress signals are missed when he is off duty. By the new device the single operator on a small ship is recalled to his post by an bell in his cabin and on the captain's bridge.

The device is put into operation by a distressed ship sending three four-second dashes before the actual SOS signal.

For Job Printing—Call the News.

### Falls 700 Feet

Tangled in the guy ropes of a balloon during a county fair at Frankfort, Ind., Hugh Durbin, 15, was carried 700 feet into the air, hanging head down. The balloon fell into a tree and Hugh, alighting astride a limb, was unharmed except for minor bruises.

### Has Two Minds

When Jack Borlase of Salt Lake City decides to do a thing he has to make up his mind twice. He says his brain is divided into two sections and that he can work twenty hours a day, using the left side ten hours and the right side the rest of the time. He has trained himself to work either right-handed or left-handed to accomplish this.

# BILLY EVANS Says

**Jones Trimmed Best**  
Golf is no respecter of persons. Not even champions are excepted in the vagaries that often feature the major tournaments.

Bobby Jones, after defeating Maurice McCarthy in the first round at Minikahda, went on to win the amateur title by overwhelming such outstanding players as Jimmy Johnston, Frances Outmet and Chick Evans.

This trio of star players didn't make things interesting for Jones and failed to give the gallery much of a thrill at any stage of the going.

It is a coincidence that in the last two national amateur events, Jones has barely been able to get by the first round. A year ago, Dick Jones all but turned the trick of eliminating Bobby at Balustrad.

It would have been an awful jolt to form, also so-called expert opinion, if McCarthy had put the champion out of the running in the first round at Minikahda. It nearly happened.

It seems that stage fright over the prospect of defeating the great Bobby Jones was a bit too much for the youthful McCarthy, son of a New York golf pro.

One of the big surprises of the Minikahda tourney was the defeat of Von Elm by Harry Legg, well known in the vicinity of Minneapolis but not so well known at large. Von Elm lost 1 up after being 2 up at the turn. While both players suffer the same hardships, still 18 holes of golf is rather a short test for the national amateur title in a game invariably featured by the unexpected.

The figures show that in two of his last three matches, before winning the right to play Bobby Jones in the finals, Evans was down at the 18th hole, only to overcome the margin in the next 18.

The breaks of the game, so frequent in golf, are often decisive in 18 holes, while in 36 there is much greater chance for the smiles of Dame Fortune to be equally divided.

While Bobby Jones did the expected in winning at Minikahda, the biggest thrill of the tournament was the excellent play of many of the youngsters, new to major golf. It promises well for the future of our game.

**McCarthy Was Bold**  
At the turn, McCarthy was one up. When they teed off at the sixteenth hole, the youngster still held that margin over the great Bobby, super golfer. Yet at the finish Jones was two up, still in the running, to go on to win.

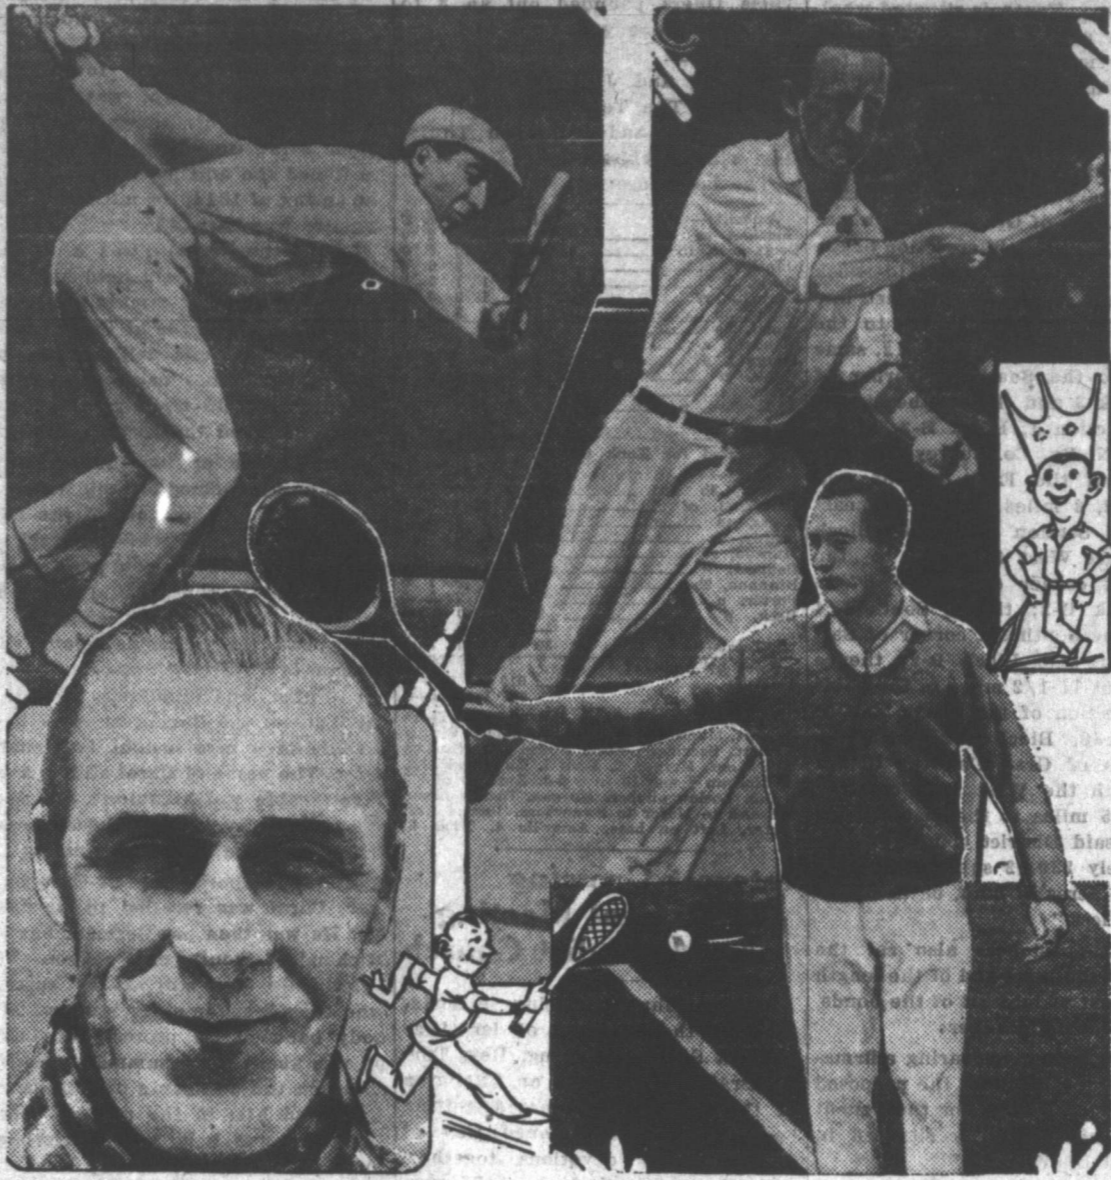

I am told by those who watched the McCarthy-Jones match that while it was unquestionably stage fright that defeated the youngster, it was not the form of stage fright that comes with lack of courage.

On the other hand, it could be classed as stage fright, resulting from inexperience. With a win over Jones seemingly in the bag, McCarthy, instead of playing safe, continued bold to the last. This style of play made for wildness, particularly from the tee, and he gave Jones the opening he had hoped for and he was quick to seize it.

The champions as well as the near-champions, by the way are none too keen for the 18-hole championship match play. They do not consider it a real test of one's golf.

**Kick at 18 Holes**  
It is a cliché that George Von Elm who is former champion, wouldn't cast his vote for the 18-hole cham-

## DAVIS CUP BATTLE DETERMINES FATE OF U. S. TENNIS DYNASTY

"Big Bill" Tilden (lower left) and "Little Bill" Johnson (upper right) will meet the French aces, Rene Lacoste (upper left) and Henri Cochet (lower right).

## SPORT TALK

**Tracy Is Ousted As President Of Amarillo Texans**

Rex King, who was scheduled to box here next Monday night, broke several ribs in his last bout and will be unable to appear. However, the athletic club officials are making preparations to have a good substitute match. Rusty Cahill, the Pampa welter, features a boxing card in Borger Friday night.

The mighty king o' swat reached his last year's total of home runs yesterday when he poked out two in the first game and one in the second. Gehrig hit a homer in the first to go ahead of the Babe, but Ruth connected for three after that for a total of 47. The Yankees split the double header with Boston.

Once more the Amarillo Texans lost a ball game to Tulsa. And besides that President E. B. Tracey has been ousted from the head of the Texan club. The Texans arrive home tomorrow for the final series of the season. The league season will close Sunday with a double header in Amarillo against Oklahoma City.

While the Cubs were slipping yesterday, the other three league leaders were winning to continue the battle for the leadership of the National League. The Giants continue one game behind the Pirates, and the Cardinals one and a half games behind that.

Greta Nissen, Swedish film star, has denied that she is engaged to Prince Swan Singh of India.

## Tracy Is Ousted As President Of Amarillo Texans

AMARILLO, Sept. 7.—Removal of E. B. Tracy as president of the Amarillo Texans was announced here late yesterday after a meeting of stockholders of the club.

It was stated that the action was unanimous, with the exception of Tracy's representation, which had no one present to speak for his \$20,000 stock. There will be no reinstatement of the ousted official, according to those present at the club.

J. O. Whittington, vice-president of the Texans, took over the management today.

Directors of the Western League club said their action was for the best interest of the team, and that it marked the beginning of steps to improve the nine for the next playing season.

**REAL, ROUGH STUFF**  
Lumberjack style of wrestling, something that has probably never been seen in Pampa before, was a feature at the Athletic show at the Tidwell show last night. The two men in the ring were Leo Chase, who has been seen in action in Pampa several times, and Teddy Waters, who will meet Bobbie Chick Friday night at the Pampa Athletic club.

The bout went 10 minutes to a draw and nobody was hurt, although there was action galore in the event.

Malone Ambulance Service. Phone 181.

PHILADELPHIA, Sept. 7. (AP)—The Franco-American battle for the classic of tennis classics, the Davis Cup, on Germantown's velvet turf this year will determine whether the game's greatest dynasty is to extend its reign or abdicate in favor of the challenge of youth.

Tennis history has sparkled with the achievements of twin stars—the famous Dohertys of England, Wilding and Brookes of Australia, for instance—but none of these has ever matched the brilliance of America's great duo, "Big Bill" Tilden of Philadelphia and "Little Bill" Johnson of San Francisco.

Over a span of eight years, Johnson and Tilden have played the major roles in repelling all invaders and establishing an unprecedented stretch of supremacy in international competition.

In this period they have lost only three out of 35 challenge round matches, one each in the singles and a third by Tilden in the doubles, paired with Vincent Richards.

They have repulsed the challenges of Australia, Japan and France thus far; but France is back this year, for the third straight season, knocking at the trophy room with the most menacing gesture that the native forces have had since 1914, the last in which America tasted Davis Cup defeat.

Will Tilden and Johnson, both well over 30, yield the scepter to a new pair of tennis aces, Rene Lacoste and Henri Cochet, or will they succeed in another gallant stand to

## Amusements

Tolstoy's "Resurrection," is a flesh and blood drama of love, sacred and profane, of sin and sorrow, degradation and exaltation. It has been presented on the stage of 14 countries in 11 languages.

Rod La Rocque in the role of Prince Dimitri Nekhudo, very neatly plays three characters in one, giving the changes that take place in the soul of the prince and their reflection in his physical appearance.

The star is perfectly balanced by Dolores Del Rio as the young peasant who bears the brunt of the prince's sin. "What Price Glory" is her next great achievement soon to be released.

Two complete Russian villages, with all the quaintness and simplicity that grace the landscape of Russia, were built for Edwin Carew, director and co-producer, for this great production.

After a fortnight's telegraphic and telephonic negotiations with officials of United Artists Corporation in New York, the manager was able to secure all rights on city showing of "Resurrection," which is showing at the Crescent theatre today and tomorrow.

## Australia Drowns Man-Eating Sharks

(By The Associated Press.)  
SYDNEY, Australia—Australians say the easiest method of disposing of man-eating sharks is to drown them. The idea is an old one, conceived by sailors.

The "line" is then set in the shark infested waters which abound in various coast districts, and when the victim comes along, it swallows the bait hook and all. Then the shark will submerge the buoy for a time, the float tugging all the while endeavoring to come to the top and the shark tugging at the other end, trying for dear life to release himself. In time the shark is worn out, and meets his fate by drowning, down in the ocean depths in which he was so perfectly at home before he took the hook.

## Kilts On Tourists Annoy Scotchmen

(By The Associated Press.)  
IVERNESS, Scotland—Scotchmen are determined to discourage American and English tourists who immediately put on kilts when they come north of the Tweed and commit the unforgivable error of wearing them too high, thereby exposing too much of their knees.

The problem is before a committee of the Kilt Society, composed of representatives of the various clans. During a meeting of this august body it was brought out that many of the representatives themselves wear the kilts too high. A committee of inquiry will, if necessary, revise the rules for wearing of kilts.

lengthen their stay at the top.

These two Frenchmen, Lacoste machine-like and Cochet dashingly brilliant at his best, also have defeated Tilden this season. They have gathered confidence in approaching the main goal. It will take the super-tennis Tilden and Johnson flashed of old to beat back this 1927 thrust of youthful skill, ambition and determination.

## Thousands Greet Tunney At Chicago

Gene Tunney, in Chicago ready for his coming defense of his heavyweight title with Jack Dempsey, was greeted by thousands of cheering admirers upon arrival. The reception accorded Gene in Chicago a few days ago was quite different from ones accorded him on previous visits.

**Interest Growing In Revival Meeting At Methodist Church**

Using Johua's closing exhortations to the Children of Israel as his text Sunday morning, Rev. Tom W. Brabham preached on "Religion in the Home." He urged, getting back to the old-fashioned way of having family devotions together, with the result that about 75 persons pledged themselves to establish family altars.

About 35 have been added to the church roll, an evidence of the success of the meeting. The church was filled Sunday evening.

Speaking on the theme, "The Cow Thief," the other evening, Rev. Brabham said that Saul's sin was not only saving the cattle against the command of God, but that he feared the people. He said, "if your crowd of friends don't let you go God's way, you had better break company with them; Saul repented and said I have sinned; so must you if you would have peace with God. Unconfessed sin will cause your conscience to whip you."

The morning meetings have been growing in interest also. Yesterday Rev. Brabham spoke on personal evangelism, referring frequently to the words of Jesus: "Come after me, and I will make you to become fishers of men." He told in vivid style some of his experiences as a fisherman, and from them drew some valuable lessons for those who would be fishers of men.

Tonight the subject will be "God's Love; God's Call."

**Carol Poor Mixer, Old Mates Recall**

(By The Associated Press.)

POTSDAM, Germany—Old friends here of Prince Carol of Rumania do not believe that a man of his temperament can remain out of the political picture for long.

As a prospective heir to the Rumanian throne, Carol was carefully studied by his comrades of the crack First Guards regiment when he joined the unit as a lieutenant in the spring of 1914, for military training. He was then 22.

Carol, they recall, was a "regular fellow" and "could hold his own well at beer fest or gaming table, yet with the general type of Prussian officer he did not mix well. His haughtiness and sometimes capricious disregard for certain rigid rules of etiquette betrayed the eastern mind.

Yet to one or two of his intimates he unbosomed himself with vehemence on the serfdom of the Rumanian peasantry, which he called the backbone of the country and on the general corruption and mismanagement prevalent in Rumania.

He had few illusions about the glamor of royalty. He was a practical thinker, and familiarity with the intrigues of the Bucharest court had given him a rare insight into character. The name of Carol still carries considerable weight among the peasantry, the army and those dissatisfied with the Bratianu regime.

At the beginning of the European war, Carol was recalled to Bucharest. He was then pro-German, but at Michendorf, south of Potsdam, his automobile was stopped by rustics who took him for a foreign spy. Nobody believed his protestations and he was about to be summarily hanged when the occupants of a military car saved him in the nick of time. Again he was held up at Juterbog, some distance farther away, and after this a Prussian general was detailed to see him safely as far as the frontier.

**COURT REVAMPS PLEDGE**

BALTIMORE — An old blank pledge to abstain from liquor was retrieved from a dusty store-room and put to a new use in police court here. The case was that of a husband separated from his wife. In administering the pledge the court inserted the word "wife" instead of "liquor," and the man swore that he would "keep away" from his wife for six months.

**BUREAU AIDS INVENTOR**

MOSCOW—A "bureau of assistance to inventors" which is a branch of the supreme council of public economy receives a daily average of 100 new inventions, principally from engineers and factory workers.

**Soviet Youngsters Play Movie Prank**

(By The Associated Press.)

STANLIN, U. S. S. R.—American detective and adventure films are immensely popular with Soviet youngsters. In Stalin queue of children form in front of the theatre, often at 9 o'clock in the morning, waiting to buy tickets. Native films, even such pictures as the "Warship Potemkin," which had a good run in Europe, apparently lack the allure of the American product.

The effect upon the youthful mind, however, disturbs Soviet officials. Gangs of excited youngsters, emulating the pictured characters, are a terror to the inhabitants. Toy guns, sometimes too realistic, have found a ready sale, entailing an orgy of smashed windows and other material damage. A favorite amusement, traceable to the movie, is the stretching of wires across foot walks to trip pedestrians for the edification of hidden mischief makers.

**Hard-Hitting Outfield Brings Record Price In Virginia League**

(By The Associated Press.)

RICHMOND, Va. — Earl Clark, hard hitting Richmond outfielder, who has been sold to the Boston nationals for \$15,000, has the distinction of having brought the highest price ever paid for a player in the Virginia league.

Clark is only 19 years old and comes from the same circuit which sent to the majors Pie Traynor of the Pirates, Hack Wilson of the Cubs, Kent Greenfield of the Braves, Bill Clarkson and Burleigh Grimes of the Giants, and many other stars. Tray-

**Miners' Courage Sustains Labor Chief Says In Labor Day Message**

(By The Associated Press.)

INDIANAPOLIS, Sept. 7.—The United Mine Workers of America, by their courage in the present and in past strikes, have helped prevent any "degradation" of American labor, John L. Lewis, international president, declared in a Labor Day statement.

He asserted the miners will be victorious.

"They never have been defeated, and they are not going to be defeated now," he said.

"There shall be no degradation of labor as long as the courage and the spirit and the determination of the United Mine Workers of America continue at today's high pitch.

"This union, like labor in general, is marching on and on, and it will continue to march on and on bringing fresh sunshine and happiness into the lives and homes of the toilers of America."

Mr. Lewis asserted that no class of labor has suffered greater hardships than the coal miners of the country who are members of the United Mine Workers of America.

"As we approach Labor Day this year, we do so with deeper appreciation than ever before of the significance of the occasion. It is a recognition of the justice of those great fundamentals upon which organized labor rests, principles for the maintenance and defense of which countless thousands of good, earnest, true men and women have devoted their efforts, their intelligence and their lives.

"Organized labor would lift those who toil from their humble place and elevate them to that dignity which belongs to them by right. It would aid them to enjoy the better things of life. It seeks to bring them
