## Official Re-Check Cuts Disaster Total to 182 Today

### LOS ANGELES RUSHING HELP TO BIG AREA

**Undertakers Instead of Doctors, Are Most Necessary**

**MUD IS 2 TO 30 FEET DEEP**

**Many Heroic Acts Are Revealed in Stories of Rescue**

SANTA CLARA, Cal., March 14.—(AP)—An early morning official re-check of the bodies already recovered from the debris-strewn Santa Clara valley, swept early yesterday by twelve billion gallons of water from the St. Francis reservoir dam, today cut the total of recovered dead to 182. The officials explained that last night's higher figures were erroneously arrived at by duplication of figures.

LOS ANGELES, March 14.—(AP)—Touched to the quick by tales of the misery of flood victims in the San Francisco canyon and Santa Clara valley, citizens of Los Angeles went into high gear with relief measures today.

All newspapers of the city solicited funds and steady streams of clothes, food and other necessities flowed into the many relief headquarters established.

Virtually all downtown theatres have signified their intention of combining talent to stage a monster midnight benefit next Saturday.

NEW HALL, Cal., March 14.—(AP)—The horror of the St. Francis dam disaster reached new depths today as rescue workers resumed their search through miles of silt-floored wreckage for from 300 to 600 other residents of the little valley who may have perished in the flashing flood.

Mud 30 Feet Deep.

Because the swath of mud and silt stretched for 65 miles through the peaceful mountain valleys and in some places stood thirty feet deep, there was no means of determining how many victims remained in the muddy graveyard which the escaping waters from the dam formed for the victims as they were picked up from their homes and dashed to their deaths.

Sheriff Traeger of Los Angeles county, who announced the number of known and recovered dead early this morning after a checkup, refused to estimate the number of missing. The estimates which ranged from 300 to 600, made during a night of almost futile attempts to ascertain the extent of death and havoc, were allowed to stand as the second day of rescue work began.

Attempts to determine from rural and telephone lists the number of possible victims still unaccounted for, were shown to be useless when many bodies of victims were brought in whose names did not appear on these lists.

Los Angeles Suffers.

Left behind by the gouging wall of water, sweeping 65 miles to the sea, were losses estimated at from \$10,000,000 to \$30,000,000. The city of Los Angeles, the heaviest individual sufferer, put its loss in the totally destroyed dam and the power house below it, at \$3,000,000.

The unleashed waters flattened scores of homes, ranches, railroad lines and bridges, tore out wire systems, light and power wires, gas mains, highways and bridges, and wreaked incalculable loss in flattened and silt buried orange and walnut orchards and other farm lands.

Speculation on the cause of the breaking of the great dam covered a wide variety of theories. The post-mistress at Saugus, Mrs. A. M. Rumsey, declared that for ten days the

## TEXAS FOURTH IN POPULATION

### Wet Nurse

"Wild life" is the motif of the year book to be published this year at Brigham Young University, Provo, Utah. Glen S. Potter, cowboy artist-editor, is studying it here close up, as wet nurse to a cougar cub. A forest ranger picked up the little fellow in a lion's den in a nearby canyon.

### RANGER BADLY INJURED TODAY

**Shot by Owner of Still, Who Is Killed**

HOUSTON, March 14.—(AP)—Car Green, special Texas Ranger working out of district Attorney Horace Soule's office, was shot and probably fatally wounded early today in a still raid about ten miles from Houston.

Sam Magallito, Italian farm owner was shot to death in the encounter when Claude Beverly, also a special Ranger assigned to the Harris county district attorney, came to Greene's assistance.

Beverly said he and Greene had gone to the farm to raid a still and that Greene had gone to the house he went to the barn.

He heard Greene cry "drop it! drop it!" And then a shot. He ran to the house and saw Greene lying on the floor and Magallito with a smoking gun in his hand. He opened fire, killing Magallito.

### Wheat Estimate in Pampa Area Is Over Million Bushels

Although weather conditions have been adverse to wheat growing, local elevator men are optimistic as to the wheat crop for this year. Conditions southeast of Pampa are excellent for a heavy crop, there being plenty of moisture in that section, while the north portion of the Pampa trade territory has suffered for lack of moisture.

### Estimate for Nation Is 120,013,000 as of Next July

WASHINGTON, March 14.—(AP)—Texas, with an estimated population of 5,487,000 on July 1, 1928, again will be surpassed in population by only four other states, the department of commerce announced today.

The four states, which also had larger populations in the 1920 census than did Texas, are New York 11,550,000; Pennsylvania 9,854,000; Illinois 7,396,000 and Ohio 6,829,000.

WASHINGTON, March 14.—(AP)—Provisional estimate by the census bureau today placed the population of the United States as of July 1, 1928 at 120,013,000, an increase of 14 per cent over the 105,710,620 actual count on January 1, 1920. The next federal census will not be taken before 1930.

The new total was arrived at by estimating the increased since 1920 on the basis of the best available returns on births, deaths, immigration and emigration.

The bureau also apportioned the increase on this basis for the 48 states and the District of Columbia.

Florida, where the population was estimated to have increased about 40 per cent between 1920 and 1928, showed the greatest gain, although a 35 per cent increase was indicated for California, and nearly 30 per cent gain for Michigan.

The estimate, by states, includes the following:

State	1920	1928
Arizona	334,162	474,000
Arkansas	1,792,204	1,944,000
Colorado	939,628	1,090,000
Kansas	1,765,257	1,835,000
Louisiana	1,795,297	1,950,000
New Mexico	360,526	398,000
Oklahoma	2,026,263	2,426,000

### Wesley Brotherhood Elects J. O. Gillham For Its President

J. O. Gillham was elected president of the Wesley Brotherhood of the Methodist church last night at the close of a banquet program.

E. D. Zimmerman was elected vice-president; Walter Hardin, secretary; and C. M. Carlow, treasurer. Mr. Gillham appointed the following committees: Entertainment, R. C. Campbell, O. W. Ferguson, Wade Taylor; Membership, C. N. Melton, C. T. Nicholson, J. D. Sackett, J. M. Saunders.

Women of the church served a delicious dinner, then the Rev. Tom W. Brabham presided as the genial chairman. Mrs. A. B. Kirby read charmingly and Mrs. L. N. McCullough gave enjoyable vocal solos.

Several men of the audience gave a clever demonstration of how to interest newcomers in church work. Those taking part were Carson Lof- feld, R. B. Fisher, F. A. Cary, R. C. Campbell, Walter Hardin, C. N. Melton, and Joe Strother.

### She Flies Alone

Flying alone, like Lindbergh, Lady Bailey, wife of Sir Abe Bailey, South African diamond millionaire, left London in her plane, bound for Cape-town, South Africa. Lady Bailey's plane is a DeHavilland Moth, capable of remaining in the air ten hours. Lady Bailey intended to fly by way of France, Italy, Malta, Egypt and the Sudan.

### HEARING TO BE AT C. C. ROOM

### Injunction Is Asked on Basis of Eight Allegations

The hearing before Judge Newton P. Willis on the petition for an injunction to prevent removal of county records to Pampa will be heard at the Chamber of Commerce at 10 o'clock Friday.

Copies of the petition, which have been received here, reveal eight allegations on which the injunction is asked. Members of the local bar characterize all of them either as wholly false or as irrelevant issues. The legality of the local procedure was carefully watched throughout, it is being shown, and similar methods were used in all parts of the county.

The petition, addressed to Judge Newton P. Willis of the 9th district court, was signed by D. N. Massay, C. G. Stokely, Jett Montgomery, and M. D. Bentley. They would enjoin the County of Gray, the State of Texas, John F. Stieder, T. M. Wolfe, E. S. Graves, M. M. Newman, Tom Kirby, W. A. Bowers, and W. A. Taylor, alleging that these are threatening to remove the county records, supplies, and equipment and to provide new facilities in Pampa.

The election is attacked upon the following grounds:

1. That the election was illegal by reason of having been held within five years of the last previous election, which was on March 19, 1925.
2. That the election notices were posted and published by order of the county clerk, instead of by the sheriff as required by law.
3. That the exact geographical center of the county has never been established by the state land commissioner and therefore it would be impossible for the county judge to legally and correctly declare the results of an election for the removal of a county seat where the location of the geographical center of said county is a prerequisite.
4. That in the belief of the plaintiffs the election officers were not duly sworn before opening the polls.
5. That before the beginning of the election instruction cards were not posted as required by law.
6. That many people congregated within 100 feet of the voting place.
7. That Sheriff Graves and his deputies were strongly in favor of removal of the county seat and that they conspired with other citizens for the purpose of swilling the number of poll tax receipts; also, that many poll tax receipts were fraudulently issued.
8. That but for fraudulent acts above described, the result of the election would have been different.

Sheriff E. S. Graves is in Henrietta and Post Worth this week.

Mrs. Archie Cole and Miss Margaret Brock visited in Amarillo today.

### In Congress

(By The Associated Press)  
 Wednesday:  
 Senate opens debate on Tyson emergency officers' retirement bill, while House takes up measures on unanimous consent calendar.

Teapot Dome committee calls two witnesses for questioning about disposition of Sinclair bonds by the late Fred W. Uphan.

Coal and cotton price inquiries continued before other senate committees. Farm relief, Muscle Shoals, immigration and shipping legislation are before house committees.

### Testimony Tame in Oil Trial— Fall Is Very Ill

WASHINGTON, March 14.—(AP)—After a tame session today the Senate Teapot Dome committee turned its quest for the Continental Trading company's liberty bonds toward Chicago, where its next meeting will be held tomorrow.

A. V. Leonard, secretary to the late Fred W. Uphan, treasurer of the Republican National committee, today's lone witness, testified that he knew nothing of Sinclair Liberty bonds sent to Uphan by Will H. Hays, who was chairman of the committee during the Harding campaign.

A second witness expected today failed to show up. The committee had issued a subpoena for "Montgomery Clothier" of Philadelphia, but it developed that there was no such person in Philadelphia.

EL PASO, March 14.—(AP)—The El Paso Times says today that Dr. H. T. Safford, physician attending Albert B. Fall, has recommended that the former secretary of the interior be taken to the Pacific coast because the weakness of his heart has made a lower altitude desirable.

The Times states that it was said at the Fall residence that Mr. Fall's condition made it impossible to state when he would be able to make the trip.

Mr. Fall's physician has stated that it will be impossible for him to attend the Fall-Sinclair trial set for April 1 at Washington.

### Many Rotarians to Attend Lubbock Meeting in April

The Rotary club luncheon today at the Schneider hotel took the form of a business meeting. The chief discussion was on the trip to the district meeting to be held in Lubbock April 19 and 20.

J. E. Murfee was appointed elector to represent the local club at the election of the district governor. More than twenty local members have signified their intention of attending the convention, and it is probable that a sleeper will be chartered by the local club for its delegates.

Tom Rose was appointed by the directors as secretary of the local club to fill the unexpired term of W. C. Upton, who has moved to Amarillo to make his home. Baker Sausbury was appointed to the library committee in the place of Mr. Upton, who was tireless worker on that committee.

A. H. Doucette reported that the Rotary road signs ordered some time ago had arrived and would be placed next week on the six main thoroughfares leading into the city. The signs are in the form of rotary wheel with a "Welcome to Pampa" on them.

Joe M. Smith is chairman of the nomination committee to name the directors for the coming year. The other members of the committee are W. R. Campbell, C. S. Barrett, P. O. Sanders and Marion Howard.

### HOPE MINGLED WITH FEAR AS HOURS PASS

### British Aviator Carries Gas Enough Until 7 O'Clock

### IDENTITY OF CREW IS HAZY

### Plane Last Seen Off Continent by Passing Steamer

NEW YORK, March 14.—(AP)—Public concern manifested itself today at the hours passed without word from the black and gold monoplane Endeavour, which took the air in England yesterday to try the untested western air passage of the Atlantic, but aviators still believed at noon that there was plenty of hope.

Thirty-four hours after the monoplane Endeavour took off no word had come from it and anxiety was growing.

At 2 o'clock this afternoon aviators believed there was still hope but acknowledged that the situation was grave and that the long silence might well be the result of mishap.

Although freely acknowledging that the absence of any report of the plane was disheartening, they computed that weather conditions might have so slowed down progress that the plane would not reach land until early afternoon and that after sighting land it would be possible for the plane to continue without being sighted if it were flying near its ceiling of 14,000 feet.

The Endeavour, piloted by Captain Walter Hinchcliffe and believed to have on board the Hon. Elsie MacKay, sponsor of the flight, had enough fuel to last until about seven o'clock tonight.

NEW YORK, March 14.—(AP)—Captain Walter Hinchcliffe's plane Endeavour, in which he left Cranwell, England, yesterday morning presumably with Hon. Elsie MacKay as a passenger, for America, was unreported this forenoon, although if all had gone well, he would have been off the Nova Scotia coast.

No ships at sea had reported sighting him and the big wireless stations along the coast were likewise silent. The last positive news of the plane reported of the Irish coast yesterday when a London press report said a ship had sighted it 170 miles from shore.

His minimum average speed, unless great storms were encountered, was estimated at about 80 miles an hour. The Endeavour, provided it followed the great circle course, would have covered 2400 miles about 9:45 a. m. and would have been in the vicinity of Nova Scotia.

The plane, however, was capable of greater speed under favorable conditions.

### Three Die When Santa Fe Train Leaves the Rails

LOS ANGELES, March 14.—(AP)—Three persons were killed, one seriously injured and several others shaken up and bruised late last night when Number 10 Santa Fe passenger train, The Scout, was derailed at Yampai, Ariz.

The engineer, Tom Cole, and fireman Bailey, both of Needles, Calif., and a mail clerk named Daugherty, were dead. Another mail clerk was seriously injured.

The engine, baggage and mail cars went clear of the tracks and turned on their sides. The coach, chair cars and three sleepers left the rails but did not turn over.

COTTON FACTS GIVEN

WASHINGTON, March 14.—(AP)—Cotton consumed during February, the census bureau announced today totaled 573,810 bales of lint and 56,193 bales of linters, compared with 688,417 of lint and 54,471 of linters in January this year and 688,513 of lint and 61,288 of linters in February last year.

TARPON CAUGHT EARLY

PORT ARANSAS, March 14.—(AP)—The first tarpon of the season was taken here yesterday, beating last year's record by four days. Miss Louise Fitzhugh, Washington and Pittsburgh debutante, caught the first tarpon this year. The fish was four feet, eight inches long.

### THE WEATHER

EAST TEXAS: Tonight local rains warmer in northwest portion. Thursday cloudy, local rains in east portion.

WEST TEXAS: Tonight partly cloudy, local rains in north and east portions; Thursday partly cloudy, colder in north portion.

OKLAHOMA: Tonight occasional rains; Thursday cloudy, rain in east portion, colder in west portion.

Invite new industries.
Complete water, sewer systems.
More and better homes.
Extend Pampa trade territory.
Develop dairying industry.
Municipal band.
Municipal airport.
Pampa Fair.
Associated Charities.
County home demonstration agent.
High school gymnasium.

CITY DEBTS—It is going to be advisable soon to call an election to refund the city debt as represented by outstanding script and warrants. It should be understood that this procedure is merely changing of the paper into a form which will carry less interest, and therefore is a method of saving money.

The amount to be refunded from 6 per cent to 5 1/2 per cent paper will total about \$80,000, and the saving to the city over the next decade will be more than \$6,000. This is a substantial saving, well worth the trouble of calling an election, which should be no more than a formality.

The \$80,000 mentioned should not be confused with the \$80,000 bond issue of July 1, 1922. That parcel of bonds was, unfortunately, issued without the recall option, and cannot be refunded. Were it possible to refund the issue now, the city would save \$20,000, calculating the interest

WASHINGTON—As presidential caliber goes in this country, the outstanding candidates in both parties have it. That goes for Hoover, Smith, Reed, Dawes, Walsh and Lowden. As usual, such incompetents and mere windbags as are in the running are to be found among the favorite sons. But some of the favorite sons are good timber, too.

These facts may be worth considering alongside statements by such politicians as Charles Hilles of New York and Big Bill Thompson, that President Coolidge really is the only man who can pull his party through in 1933.

On the Democratic side, of course, the situation differs. There the argument is that Smith is the only man who can be elected. This is based on the party's need of eastern electoral votes and the seldom spoken but general belief that if Smith isn't nominated the Catholic voters, incensed by seeming religious bigotry, will desert the party.

That being so, the party's

### Hundred Runners Begin Long Lap in Marathon Today

KINGMAN, Ariz., March 14.—(AP)—A slowly dwindling field of somewhat more than 100 marathon speedsters today running paraphernalia preparatory to pushing over the eleventh lap of the 3,400 mile Los Angeles-to-New York foot race.

Peach Springs was today's destination of the athletes crossing the continent under their own power in quest of the total \$48,500 in prizes to be distributed among the first ten. With the black mountains behind them, the runners turned into the Wallapai valley, a 28-mile stretch, thence over rolling country to Peach Springs, 52 miles from Kingman.

When the contestants began their hike today Arthur Newton, Rhodesia, South Africa, was in first place in elapsed time with 53:33:00. For the total 345.7 miles from Los Angeles to Kingman, Newton, 44-year old holder of the 100-mile running title of England, sped to victory in yesterday's 28.8 mile lap from Oatman to Kingman.

### Pitchers Showing Unusual Form in the Texas League

(By The Associated Press)

Contrary to usual procedure in spring training, pitchers in practice games at Texas league camps seem to have an Indian sign on the hitters.

With the single exception of a clash at Beaumont, the first of the season and won by the regulars, 10 to 1, the ball tossers yesterday had all the best of it.

The closest score in the day's tilts was at Dallas where Jack Knott, veteran, and Harold Smith, acquisition from a House of David nine, engaged in a duel.

Annexing nine safeties off Smith while Knott was yielding four, the regulars beat the Yammigans, 2 to 1 but their victory was due more to Smith's amateurish support than to weakness in his hurling.

At Houston, Grandpa Wood, former star hurler for Rice institute, pitched a first-string squad to a 5 to 3 victory over a well-performing opposition for which Carleton tolled on the mound.

At Fredericksburg, good pitching also enabled regulars among the San Antonio Bears to win over a Yammigan outfit, 5 to 3, in a game planned to fit the Bears for a clash today with the Detroit Tigers.

The first-string exporters at Beaumont were in a hitting mood, clouted everything tossed over the plate, and caused a smile to break over Manager Robertson's face.

Business was also lively at Shreveport, where the Chicago White Sox licked the Sports, 9 to 6, to take their second straight game. The Sports got but six hits off the White Sox pitchers to the eleven their own hurlers gave up.

In two other camps, training was largely routine and the day was featured only by the release of a few rookies. Infielders Bill Ligon, Bill Britton and outfielder Jack Lindsay were cut from the Spudder roster at Wichita Falls, while Wesley Ray, outfielder, was released at Fort Worth.

At the end of the Cubs' workout Manager Frait of Waco was happy over the showing of Ace Elliott, with the Cub team last year.

### Seek Outfield Berth With Nats

Only two years ago these young men were members of the same outfield of a Southern League club. Now they are battling against each other for the centerfield berth on the Washington American League club. Sammy West is said to have the better chance at the job, although Foster Ganzel, in panel, stands very high with Manager Bucky Harris.

### The Buster and the Rajah

"I've got to see this fellow 'Hornsby,'" said Lou Gehrig to his boss, Miller Huggins, the other day at St. Petersburg, Fla. So Lou was excused from practice and hurried over to the Braves' camp in the same town and paid his respects to the colorful star who was traded by the Giants to the Braves this winter. Here they are, posing for an NEA photographer, Gehrig, left, and Hornsby, right.

### A Simple Case of Mixed Directions

Bob Quinn, president of the Eastern American League club, simply got his directions mixed while working out with the Red Sox at their Bradenton, Fla., training camp. Instead of going down to stop a fast grounder (see the ball!) he went up as if after a high one—and the batter's still running!

### Cissell Fails to Look Like Price Paid—\$123,000

SHREVEPORT, La., March 14.—(AP)—Most of Manager Ray Schalk's tyro talent seeking places on the Chicago White Sox line up are showing promise as the squad continues training.

In yesterday's victory over Shreveport, 9 to 6, schalk was pleased with the work of George Redfern at second base. His fielding was perfect and his hitting timely.

Cissell, the \$123,000 prize package drawn by the Comiskey club during the winter rehabilitation period, didn't look like that much money yesterday, fanning twice and doing little in the field.

### Hoyt Holds Out for \$20,000 Salary

ST. PETERSBURG, Fla., March 14.—(AP)—Waite Hoyt's tiff with the Yankees over an increase in salary was at a standstill today with Colonel Jacob Rupert, president and owner of the club, endeavoring to bring about a settlement. Hoyt is said to be asking \$20,000 per annum for two years.

### McGraw Never Seen at Park, Yet He Knows Shortcomings

AUGUSTA, Ga., March 14.—(AP)—Although John McGraw was not seen during the recent exhibition games of the Giants in Florida, he has supplied a mystery for the players by rehearsing their shortcomings. His skull practice drill has been chiefly concerned with trapping runners between second and third.

Roush has soft mits. To ward off the impact when he bangs at the ball, he has a sponge taped to the handle of his bat.

An exhibition game between the University of Georgia and a Giant team is slated for tomorrow at Athens, Ga.

### Detroit May Trade for More Hurlers

SAN ANTONIO, March 14.—(AP)—Part of Detroit's surplus infield and outfield material may be bartered for pitchers, the management has indicated.

The team has two men of marked ability for each infield and outfield berth but the raw pitching material in camp has been a disappointment. Of the nine recruit pitchers who reported for training none have exhibited form that would warrant first

### Boston Braves Look Great in Washington Tilt

ST. PETERSBURG, Fla., March 14.—(AP)—If the Boston Braves look as well when the season gets under way as they did yesterday when they held Washington to a scoreless tie, they won't even get within halving distance of the accustomed quarters in the cellar. At least that is what their loyal rooters think. Zaek Taylor will have to take a few lessons from his fellow Boston Athlete, Lloyd Hahn, however, if the Braves are to win in the tight places. Zaek's slowness in reaching the plate from second on Andy High's single to right dashed the Braves' hopes to win. Zaek almost made it and was the only man on either side to get anywhere near the home sack.

class ranking.

The management indicated attempts would be made to acquire at least two more seasoned pitchers.

W. S. Lard, who underwent a serious operation at the Pampa hospital yesterday morning, is reported to be somewhat improved this morning.

#### God's Love

We can only see a little of the ocean  
A few miles distance from the rocky shore;  
But out there—beyond, beyond our eyes' horizon,  
There's more—there's more!

We can only see a little of God's loving—  
A few rich treasures from his mighty store;  
But out there, beyond, beyond our life's horizon—  
There's more! There's more!  
—THE CHRISTIAN INDEX.

#### Book by Modern Writer Is Studied in El Progresso

Mrs. Siler Faulkner was hostess Tuesday afternoon to the members of El Progresso club. The book "Tampico," by Joseph Hergesheimer was the subject of study. A discussion and study of the boyhood and life of the author opened the meeting.

The loneliness and peculiarities of the boyhood of Joseph Hergesheimer are reflected in his writings, and influence of his earlier life are shown in his portrayal of characters.

"Tampico" is a story of old fields of Mexico, and depicts the life of a man by giving a vivid picture of incident occurring that tended to the development of his character. Men were used as the stronger characters to show the weakness of women. The strength of the author lies in his ability to delineate life-like characters, and the effective use of words in portraying the character.

"Tampico" is known as a novel without God, and several dramatic features of the book are developed.

Mr. Hergesheimer ranks among the three best American writers of the present day, and has written twenty-six books and stories. He is a well-known writer for the Saturday Evening Post.

Mrs. H. L. Ledrick was leader of the lesson, and was assisted by Mrs. W. Purviance, and Mrs. W. M. Craven. Following the program, a round table discussion was held. A paper on "The Comparative Value of the English and the American Novel" was given by Mrs. C. M. Bryson. Mrs. Bryson stated that the reason that the English writer ranks above the American writer is due to the fact that the American people criticized their own writers too severely. It is probably true that the discussion of money and a happy ending are the characteristics desired by American people in fiction. The most widely read American writers are Booth Tarkington, Kathleen Norris, and Sinclair Lewis, while H. G. Wells and John Galsworthy lead the English writers.

Mrs. John Andrews, and Mrs. Carson Loftus were chosen as delegates from El Progresso to aid in the establishing of the Pampa Federated club. The next meeting of El Progresso will be held in the home of Mrs. C. M. Bryson, and the subject of study will be religious poetry, with Mrs. W. Purviance as leader.

The hostess served a delicious plate luncheon to the following members: Mrs. John Andrews, Mrs. A. Cole, Mrs. W. M. Craven, Mrs. C. M. Bryson, Mrs. T. D. Hobart, Mrs. C. T. Hunkapillar, Mrs. F. C. Ledrick, Mrs. H. L. Ledrick, Mrs. Carson Loftus, Mrs. J. M. McDonald, Mrs. Dave Pope, Mrs. W. Purviance, Mrs. James Todd, Mrs. G. C. Walstad, Mrs. M. A. Finney, and Mrs. G. C. Walters.

#### Social Calendar

The Lone Star Bride club will be entertained Thursday afternoon in the home of Mrs. Fred Gilchrist.

Mrs. J. W. Cram will entertain the members of the Duplicate Luncheon club Thursday afternoon at 2:30 o'clock.

#### Miss Edwina Presley Becomes Bride of A. L. Cummings

Miss Edwina Presley, daughter of Mr. and Mrs. Mark Presley of Bowie, and A. L. Cummings were united in marriage in the First Christian church in Amarillo at 9 o'clock Saturday morning, March 3. The young couple were accompanied by Jack Brunker, and Miss Mary Thayer, both of this city. The Rev. F. O. O'Malley performed the ceremony.

Mrs. Cummings, who is employed with Western Union, has lived in Pampa for several months, and has made many friends during that time. Mr. Cummings, who is connected with the Atlantic Oil Producing company came to Pampa two years ago from Chicago.

The bride was attractively dressed in a becoming shade of blue, with accessories to match, and wore a beautiful corsage of rose buds and sweet peas.

Mr. and Mrs. Cummings will make their home in Pampa.

#### Bridge Club Is Entertained Tuesday in Mitchell Home

Dr. and Mrs. W. C. Mitchell were host and hostess to the Night Owl Bridge club Tuesday evening. The home was beautifully decorated in Shamrock green. At the close of the bridge games of the evening, attractive prizes were awarded Mrs. Harry Marbaugh and Mr. Renshaw as holders of high score. Mrs. George Meadows held low score.

A delicious three-course luncheon was served the following guests: Mr. and Mrs. Frank Seal, Mr. and Mrs. L. M. Williams, Mr. and Mrs. Renshaw, Mrs. J. H. Lavender, Mr. and Mrs. Joe Lutz, Mr. and Mrs. Harry Marbaugh, Mrs. George Meadows, and L. L. Lavender.

Mr. and Mrs. B. J. Lomax are the proud parents of a son, born Tuesday afternoon.

#### Modes of the Moment

PARIS.—(P)—Over a plain slip of crepe satin Lenief imposes layers of black chiffon beginning with a black net yoke. A full chiffon skirt falls to an irregular hemline from a jeweled girdle. A string of strass outlines the décolleté of the dress in back and continues in front to an oblong ornament of strass.

### Markets

KANSAS CITY, March 14.—Hogs 13,000; steady; top 8.25; packing sows 6.50@7.25; stock pigs 6.50@7.40.

Cattle 6,500; calves 900; light weight steers opening steady; weighty steers tending lower; light mixed yearlings and she stock steady; bulls and weighty slaughtered calves unchanged; vealers 50c lower; light weight steers early, 12.40@13.15; choice yearlings 15.00; vealers 12.50 down.

Sheep 3,500; steady; top lambs 15.65; others 15.25@15.60.

CHICAGO, March 14.—(P)—Forecasts of rain over the greater part of domestic winter wheat territory tended to ease wheat values down today in the early dealings. Prospects of general benefit from widespread moisture were emphasized by showers this morning where much needed in Western Kansas.

After opening at 3-8c decline to 1-4c advance, wheat underwent a sag all around. Corn, oats, and provisions were likewise easier, corn starting unchanged to 3-8c off, and subsequently showing a general setback.

#### Good Wrestling and Fiddling Promoted

AMARILLO, March 14.—(P)—In arranging treats for the visitors to the Cattlemen's convention, local committeemen have stepped out with such energy that two entertainments have been arranged that will be of unusual interest.

These are a wrestling match, which has grown to proportions of nationally-known principals, and the old fiddlers contest.

Cal Farley matchmaker for the Tri-State Fair association, has obtained for the wrestling match heavies consisting of Toots Mondt, Colorado cowpuncher and nationally-known heavyweight, and Toney Calton, 210-pound grappler of Memphis, Tennessee.

Then he has turned right around and matched the socking Dutch Mantell with Dan Goffino, the latter one of the most popular welterweights ever seen in Amarillo as a preliminary to this show the first heavies, nationally-known, to ever be shown in the Plains country. With the Colorado cowboy's calf choking tactics and the rough and tumble style of Calton, it is thought that every sport follower in the Panhandle will want to witness this match, which will be for the benefit of the fair. Then Dutch and Goffino twist necks in a most mean manner.

Dr. O. H. Loyd of Vega is arranging the old fiddlers contest. Fiddlers from all over the Panhandle, New Mexico and Oklahoma will be present to compete for prizes on that occasion.

Both of these entertainments will be staged in the city auditorium, the fiddlers contest being on Tuesday evening, March 20, and the wrestling matches on Wednesday evening, March 21.

#### MURDERER IS GUILTY.

NEW ORLEANS, March 14.—James Scarborough was found guilty of the murder of Thomas H. Register, a Florida seaman, by a jury in Criminal District court early today after the jury had deliberated one hour. The verdict automatically carried the death penalty.

#### LINDY IN WASHINGTON.

WASHINGTON, March 14.—(P)—Colonel Charles A. Lindbergh arrived in Washington at 11:50 a. m. today, having flown from Coatesville, Pa. His arrival was announced by the war department, but nothing was known there of the purpose of the visit.

#### BRITISH FLIERS KILLED

MANSTON, Kent, Eng., March 14.—(P)—Two British officers were killed today in the crash of their airplane after a collision with a second plane. The second plane succeeded in landing safely.

### Amusements

#### "THAT CERTAIN THING"

If you like to laugh and enjoy clever comedy you will be delighted with "That Certain Thing," which shows at the Crescent theatre today. From the first flash to the final fade-out the audience is kept in a continual uproar of merriment.

Viola Dana, Ralph Graves, Aggie Herring are the chief sources of laughter. They are ably assisted by a strong and exceptionally large cast. Peoples of all nations are brought to the screen in this Columbia Pictures production. Each contributes his or her share of the spontaneous wit and humor with which this picture overflows.

#### "BRASS KNUCKLES"

"Brass Knuckles," a Warner Bros. production, starring Monte Blue and Betty Bronson and directed by Lloyd Bacon, comes to the Rex theatre tomorrow. Both story and scenario were done by Harvey Gates. "Brass Knuckles" is acclaimed as one of the equally big melodramas of the year. It has to do with a crook who wasn't really crooked, who cares for a motherless waif, fights for her, and finally, with the aid of time, finds her grown to womanhood, and omre than willing to be the wife of her husky protector. Others in the cast are William Russell, George Stone, Paul Panzer and Jack Curtis.

#### FIVE PERSONS DROWN.

ALLENTOWN, Pa., March 14.—(P)—Five persons were drowned in three feet of water when an automobile in a dense fog plunged over a culvert bridge into Coplay creek at West Hokenaugua early today. The victims were pinned in the wreckage under the water.

The dead are Mr. and Mrs. Frank Meyer, 35, and daughter, Olga, 8, of Eagle Point; Mike Golle, 37, of Coplay, and Mrs. Frank Eckert, 32, of West Coplay.

#### DEATH SENTENCE AFFIRMED.

AUSTIN, March 14.—(P)—In a relatively "light" session, the Court of Criminal Appeals Wednesday affirmed the death sentence of Bill Smith in Jones county for the killing of Deputy Sheriff Jake Owens of Fisher county and upheld two other murder sentences.

Philip White's 40-year Bastrop county sentence for the slaying of Si Perkins, was one of those allowed to stand and the life term imposed on A. F. Rhodes, Kent county, after the murder of George Smith, was the other.

Judge B. W. Tracey transacted business in White Deer today.

### Primroses

A spring boutonniere composed of yellow centered primroses edged with brilliants is very new.

#### FIREMEN TO MEET

Members of the Pampa Volunteer fire department are to meet tonight in the fire station at 8 o'clock to elect delegates to the State Volunteer Fire Fighters' convention to be held in Denton June 12 to 15 this year.

Two delegates are to be sent from the local department but several of the members are to be sent from the local department but several of the members plan to attend the annual affair. Last year the convention was held in San Antonio, five of the local boys attending.

Mrs. H. K. Warren's condition is somewhat improved following a serious operation some time ago.

#### Planes Play Big Part in Sandino Chase

Not only in warfare, but in transportation, ambulance service and rescue, marine airplanes in Cuba are doing a work that no other force could accomplish. Major R. E. Rowell (upper right) is in charge of the squadron of eleven planes now on duty. More than 30 marines probably owe their lives to the air ambulance service. With 100 miles of almost impassable mountain roads between the "front" and the town of Ocotlan, wounded men are brought back within an hour by ships like the one at the right. Above is an aerial photograph of the "front." The letters K-T, laid out on the ground in white canvas, are a signal for the dropping of supplies.

DAM BREAK

ranchers living in the shadow of the dam had "talked of nothing else," but leaks under and through the end of the structure. She said they fearfully discussed the possibility of the very disaster which swept down in the blackness of night to wipe out their homes and families.

Earth Movement Blamed. A "major earth movement" that loosened the base of the western buttress, was given as the preliminary opinion of William Mulholland, chief engineer of the great aqueduct system of which the dam was a part, as appearing from a brief survey, to have been the cause. After he and his assistant, H. A. Van Norman, had returned from an all-day tour of the scene, the board of water and power engineers, said that the immediate cause was the giving way of the mountains on the western end of the dam. This was reported to have been weakened, possibly by a fault in the mountain structure, or due to rain and seepage which softened the foundations.

A piece of concrete from the dam was crumpled in the hand of Los Angeles county supervisor, Fred Beatty. He commented: "Yes, it came from the dam, but judgment must not be passed until a competent board of engineers has conducted a searching investigation and has reported to Governor Young." Plans were laid for pressing pack horses into the service of bringing out bodies today. The bogging mud, the soft silt, which over acres of area was laid down two to thirty feet deep, barred all other means of transportation.

300 Homes Destroyed. The magnitude of the disaster is compounded in the number of homes piled up by the watery avalanche. Approximately 400 homes in the 16-mile gorge of San Francisco canyon were torn to bits, thrown and tossed along the 65-mile turmoil to the sea. Not a standing timber was left as a marker to indicate the site of prosperous little farms that dotted the valley among their green fields. Three hundred more homes at Santa Paula went the same way. Thirty to forty houses were smashed at Famoso, and fifteen at Piru, nine miles south of Vero on the Santa Clara river.

The power of the unleashed twelve billion gallons of water hurtling into the gorge in a mass possibly 100

The Winner Is on the Right

Here's the Big Three of Milers—Ray Conger, Otto C. Peltzer and Lloyd Hahn, reading left to right—as they were ready to start their famous "Mile of the Century" at the recent K. of C. games in New York. Hahn easily swam the mile in 17:30 and is now wandering when the three of them will meet again. Perhaps in the Olympic games this summer.

Cost White Sox \$123,000

Chalmers Cissell is the most expensive piece of ivory to be found in the training camps this spring. He is the property of the Chicago White Sox and sells for the Pacific Coast League. The tag attached to him called for \$123,000 in cash and players.

feet high, was proclaimed in the wide-spread destruction. Mountainous blocks of concrete, weighing many tons, were propelled down stream half a mile or more.

Need Undertakers. It was undertakers, not doctors, as one Red Cross worker put it, that were needed to attend the trial of wrecked humanity.

A county health officer remarked upon the few injured persons. Those caught in the maelstrom of muddy waters either escaped unscathed or were killed. He said that most of the victims did not drown; they were crushed by boulders and hurled timbers from their own homes.

Tales of heroes uncounted, of bravery in which men lost their own lives to warn and save others; of grim stoicism when entire groups of loved ones were counted among the missing, were uncovered in the valley-long march to death.

Ed Locke, a guard of the Southern California Edison company construction camp at Blue Bend, saved the lives of at least 47 men—and himself died with his boots on and gun belted at his waist. His surviving fellows told of the hero's running up and down the row of tents "without a thought of his own skin." He was found where he fell after warning his fellow men of the oncoming peril.

Old Rancher Fraised. Scotty Gordon, wizened and grey bearded rancher chuckled triumphantly at the valor of his fellow men. But it had to be dragged out of him that he was a hero himself of the chaos. He had braved the rushing waters with other hill neighbors to recover eight bodies.

NEWHALL, Cal., March 14.—(P)—But for the thoughtfulness of an aged man and his wife, who drove their automobile over ditches to warn six oil workers, these men might today have been among the dead in the St. Francis dam disaster.

E. K. Eaton, 77-year old rancher east of El Rio, was warned of the flood by telephone. With his wife he started in the car for the hills. Then he remembered the six drills on his land in the river bottom. He and his wife arrived to find them all asleep. They went to safety in Eaton's car, and a few seconds later a wall of water crashed down the derrick where the men had been working, sweeping it along with the flood's tangled debris.

Tells of Sounds. George McIntyre, whose brother and father are missing, told a graphic story. "I heard a roaring and crackling that sounded like high tension wires coming together. Then with a roar the water struck the house. My father, who also was awakened, called to my brothers, Billy and Ed, but they were visi-

dently sound asleep and did not hear him. We made our way outside and soon were swimming side by side in the torrent. I managed to catch hold of a tree limb and pulled myself into the upper branches. Father disappeared in the current. When the waters had gone down somewhat I swam half a mile to reach shore.

Fate played cruelly with one rancher who foresaw the danger and thought he was out of its reach. He loaded his three children into a small automobile and then stopped for a moment to warn a neighbor. When he turned back to his car it had been swept away, human cargo and all.

Planes Find Bodies. Viewing the horror from the air, it looks like a streak of no man's land. Sticks thrust upright in the muck mark the places where bodies of the victims were found buried in silt. The sticks make them easily found.

Airplanes which soared over the stricken area in great numbers, aided the searchers by dipping low to indicate the positions of bodies. It is easy to spot human beings from a considerable height if their faces are upturned.

Sixteen-year-old Thelma McCauley of Fillmore, who was ill in bed with the measles when the St. Francis dam deluge struck the town was in the water twelve hours and half buried in silt when found late yesterday. Doctors who gave her emergency treatment said she probably would survive. Her mother and father are among the missing.

Ku Klux Klan to Move to Washington

WASHINGTON, March 14.—(P)—Except for its regalia factory and printing plant, which will be kept in Atlanta, all of the activities of the Ku Klux Klan hereafter will be conducted from Washington.

This announcement was made last night by Dr. Hiram Wesley Evans, imperial wizard, after the work of moving into new quarters on Massachusetts avenue began earlier in the day.

Dr. Evans said the executives of the Klan were growing and that the headquarters had been transferred here because he believed Washington was a more effective location for the dissemination of Klan doctrines.

WEALTHY INDIAN KILLED.

PONCA CITY, Okla., March 14.—(P)—John McKinley of Pawhuska, wealthy Osage Indian, was shot and killed early today by Patrolman F. L. Irvin in the downtown district when he failed to heed the officer's command to stop his car.

Irvin said he was attempting to hit one of the tires to force McKinley to stop, but the bullet lodged in the back of the Indian's head. His car came to a stop without being wrecked.

Hays Charged as Being 'Fence' During Teapot Dome Deals

WASHINGTON, March 14.—(P)—The Teapot Dome oil scandal again was aired on the floor of the Senate today, when Senator Caraway, Democrat, Arkansas, declared that Will H. Hays, former chairman of the Republican National committee, acted as a fence in disposing of the \$160,000 in Liberty bonds given the committee by Harry P. Sinclair.

"Recent investigations have disclosed the fact that Albert B. Fall was more guilty than at first thought," Caraway said.

"He was not alone in the Teapot Dome transaction. Will Hays had full knowledge that the bonds were a part of the price of the Teapot Dome lease and investigations have disclosed that at least four cabinet members had knowledge of the transaction.

"Will Hays was a fence, disposing of stolen goods and aiding the thief to find a market. Some of the bonds were sent to Secretary Mellon. He refused to disclose that information and gave them back to the fence."

First Woman Mayor Loses Second Race

SEATTLE, March 14.—(P)—Mrs. Bertha K. Landes, first woman mayor of a metropolitan city in the United States, was overwhelmingly beaten for reelection by Frank Edwards, a dark horse whose campaign ammunition included the shot that "the mayoralty could be satisfactorily filled only by a man."

Edwards won his decisive victory in the face of a campaign in which the newspapers supported Mrs. Landes and urged the women to rally to her aid. He conducted an intensive campaign but refused to meet the woman mayor on the same platform. "You know it's useless to argue with a woman," he explained when asked to debate campaign issues with her.

Empire's Bender Swabs 100 Barrels

The Empire Gas and Fuel company's No. 1 Bender in the southeast corner of section 164, block 3, about four miles northwest of here, swabbed 100 barrels the last twelve hours from 3,253 feet. Pay in this well was struck unexpectedly last week after the company thought it was a dry hole.

As a result of finding pay at total depth the Cannel Oil company's No. 1 Harrah in section 163, block 3, about a half mile west of this location, will drill deeper.

The Gulf Production company's No. 2 Holmes in section 107, block 3, flowed 350 barrels natural the last 24 hours from 3,126 feet. This well is an offset to the same company's No. 1, in the same section, which increased from 100 to 300 barrels when drilled deeper recently.

always Delicious Karo! on Pancakes.

Performance— That's what to look for in choosing a tractor? No wheel type tractor on earth can equal the performance of a "Caterpillar." It will develop more power at the drawbar than a wheel type tractor that has a 7 to 10 greater h. p. motor—because: The use of high duty bearings and balanced design eliminate friction and wasted energy within the transmission—"Caterpillar" traction is positive—it does not slip in soft ground or under load on hard ground. With a "Caterpillar" you do not buy oil and fuel for motor power you can't use, or feed 10 horses to pull what 7 horses can pull with ease. The saving in oil and fuel is one advantage—others are you can go anywhere with a "Caterpillar"—wet ground—loose ground, dry or hard, it makes no difference. You can cross creeks, bridge gullies, climb hills, go where wheels haven't a chance to get through. No matter how hard the job—pour it on—"Caterpillar" will stand it. It's the toughest piece of machinery the world knows how to build. We have representatives in your territory—no trouble at all to have him drop around to see you—and you don't obligate yourself one bit in asking us to send him. May we? R. B. George Machinery Company DALLAS, TEXAS Repair Stocks Carried, Amarillo Branch
