INSANITY WILL BE PLEADED IN TORAL'S TRIAL

"Mental Irresponsibility Offered by His Attorneys"

DEATH WILL BE DEMANDED

Mother Superior Is Charged As Being Accomplice

MEXICO CITY, Aug. 3.—(AP)—Three persons, including the Mother Superior Maria Concepcion Acobeda de La Llaña, were held today on formal charges of being accomplices in the assassination of General Alvaro Obregon. They were in the jail at San Angel where Jose de Leon Toral, the slayer, was awaiting trial.

"Mental irresponsibility" will be offered by Toral's lawyers as his defense, they indicated.

Juan Correa Nieto, attorney-general of the federal district, who is handling the prosecution, announced that Toral's mother, father and wife, sixteen nuns and all others who had been in custody in connection with the investigation had been released.

The others charged with being accomplices were Senora Maria Louisa Altimira, and Jorge Fernandez Gallardo.

Toral and Manuel Trejo, the missing man who gave Toral the pistol, were alleged to have spent considerable time at Senora Altimira's home. Gallardo is a cousin of Trejo. Police charged that Gallardo said he knew Trejo was connected with the bomb explosion in the chamber of deputies in May.

Nieto said he would ask for twenty years imprisonment for Mother Superior Concepcion. This is the maximum penalty for a woman charged with being an accomplice to a murder. The Mexican law does not permit the death penalty for a woman.

The prosecutor asserted that investigators discovered in the Mother Superior's house, which was used as a convent, a branding iron consisting of a cross with the letters "I. H. S." The brand was about the size of a silver dollar. He said that she told investigators that this iron was heated and used to brand her body, and bodies of some of her nuns and of "some other persons."

Nieto said this indicated the existence of a secret religious order and it was his theory that this might be connected with the assassination. Toral's body has not yet been examined to determine whether he was branded. Nieto does not know the identity of the others who had been branded.

The date of Toral's formal trial will probably be fixed within 15 days. The prosecutor announced that he would ask the death penalty. Toral will be tried by a jury of nine men and the majority decision will determine the verdict. The formal trial will be open to the public. Nieto said President Calles had expressed a desire that everything connected with the case be made public since the president wants the people of Mexico to know all details.

The jury can return a verdict of death which would be by a firing squad or it can refuse the prosecutor's request for death and instead give a verdict of either life imprisonment or imprisonment for a number of years. The jury can fix the imprisonment of the Mother Superior at less than the twenty years the prosecution asks or can find her not guilty. Nieto assumed that the jury would find Toral guilty since he had confessed.

If Toral wishes, or without his wishes the defense attorneys can appeal to a higher court, then to the supreme court and make a final appeal to the president for executive clemency.

Nieto will ask for ten years imprisonment for the other alleged accomplices.

LONDON, Aug. 3.—(AP)—Confidence that the Kellogg pact to outlaw war will be an important guarantee of peace was expressed by King George in proroguing Parliament today.

The speech from the throne said: "My government has been happy to accept the proposed treaty for the renunciation of war in the form in which it was finally proposed to them by the government of the United States. The proposed treaty has similarly been accepted by my governments in the dominions and my government of India."

"It is my confident expectation that when completed it will constitute a new and important guarantee of the world's peace."

Building Permits Promise to Break Records in Pampa

Building permits amounting to \$87,000 were issued during the month of July at the city hall, bringing the total for the first seven months to more than \$690,000. Included in this total are the two new church buildings, the four buildings under construction on Cuyler street, and residences. School buildings not included total \$125,000.

Large buildings now under construction include the new Baptist church, the Clem building, the Wynne building, the C. W. Bradford building and the North Cuyler street. Ground will be broken in a few days for a new \$65,000 Christian church on East Kingsmill avenue.

If building activities continue, the year's total will reach the million-dollar mark, the greatest in the history of the city.

Robber Leader Given 25 Years and \$10,000 Fine

CHICAGO, Aug. 3.—(AP)—Charles "Slimmy" Cleaver, ring leader of the band of robbers that held up a Grand Trunk train at Evergreen park last February, obtaining \$133,000, today was sentenced by Federal Judge James H. Wilkerson to serve 25 years in Atlanta federal prison and fined \$10,000 after his motion for a new trial had been overruled.

Cleaver and Charles S. Wharton, former congressman, were convicted of complicity in the robbery by a federal jury yesterday.

Wharton, convicted of conspiracy and facing a maximum sentence of two years and a fine of \$10,000 will argue for a new trial in September.

Three members of the robber band who pleaded guilty turned government evidence against Cleaver and Wharton, maintaining that Cleaver, a Chicago gunman, engineered the robbery, while Wharton allowed the robbers to use his home to divide the loot, receiving \$4,700 of the money for his favor.

POLISH FLIERS ON WAY OVER ATLANTIC NOW

Majors Hope to Fly to New York From France

MEN CARRYING RUBBER BOAT Take-Off Is Against Advice of French Weather Men

LE BOURGET, France, Aug. 3.—(AP)—Two Polish knights of the air sped westward with the dawn today hoping to make the first non-stop east to west flight to New York from France.

Majors Louis Idzikowski and Kazimir Kubala of the Polish air service hopped off at 5:46 a. m. Paris daylight time. (11:46 p. m., Thursday, Eastern Standard time) in their plane christened Marzalek Pilsudski in honor of the Polish dictator.

The hopes of the airmen were high although the barometer was low. They went against the advice of the French weather service but were confident in word from America that they would run into good conditions on that side of the Atlantic.

To Land Saturday
The fliers expected to land at New York on Saturday afternoon after a flight of from 3,000 to 4,000 miles, depending on the route followed. A strong northeasterly breeze wafted them on their course which led south-west over the Azores.

The plane passed over Dreux, about 50 miles from LeBourget at 6:38 a. m. It was flying westward at a height of 1,500 feet and at good speed.

"Nitechevo" was the last word Idzikowski spoke to friends. This Russian expression equivalent to "well what of it?" seemed to sum up the attitude of the fliers toward their hazardous adventure. They took no radio and their only precaution for safety was a collapsible rubber boat, which, they said, would probably prove useless if they crashed.

One Slight Delay
Idzikowski, wearing a leather coat over street clothes, took the pilot's seat. Kubala, in light dungarees, took the navigator's post behind. One slight incident delayed the start when an oil reservoir overflowed, drenching the pilot's seat. Six mechanics rapidly spigoted the big plane as if it were a race horse before a great test.

The flight by way of Halifax would be about 4,000 miles and it would be about 3,800 miles direct to New York. The cruising radius of the plane is about 5,000 miles. The fliers expected to maintain an average speed of 90 miles an hour.

Heavy Gas Found Miles From Field Near Holstead, Kans.

HALSTEAD, Kans., Aug. 3.—(AP)—A flow of gas estimated at 6,000,000 cubic feet a day, struck late yesterday afternoon by the Roxana Petroleum corporation in its well on the Henry estate, three miles north of here, today continued to shoot rock into the air. Drilling was shut down pending orders from headquarters of the company at Ponca City.

Roxana officials said today there were no signs of oil but the well might be drilled deeper. In the McPherson field the Mid-Kansas Oil and Gas company has a 200-barrel oil well in the same horizon from which the gas is coming in the Henry well. The nearest oil production is in the old Newton field, 15 miles east.

Nine Absentee Votes, Delayed, to Be Ruled Upon

The run-off problem in the sheriff's race was further muddled today with the assurance that nine uncounted absentee votes at McLean will have to be ruled upon by the Democratic county committee tomorrow when it convenes at the courthouse at 10 o'clock.

The nine votes, if allowed, would break the tie, in all probability, between Jno. V. Andrews and S. A. Hunt, each of whom now has 638 votes, as compared with Sheriff Graves' 1,246. A. A. Callahan, election judge at McLean, received the absentee votes and had them in his pocket when he was called out of town, it is said. He returned Monday. R. S. Jordan in the meantime had held the election and counted all votes, absentee and regular, placed in his hands.

The law seemingly is not clear on the procedure, although precedent may be found before the committee assemblies.

Farm Committee Encouraged by Trip to Nearby Farms

George W. Briggs and J. L. Lester made their first visit to farmers in the territory in the interest of the dairy, hog, and poultry business, Thursday afternoon. They believe the proposed program can be accomplished.

It is the plan of the Chamber of Commerce, assisted by Prof. J. L. Lester, vocational teacher at the high school, to bring in a herd of class A milk cows and sell them, and to start a bull ring in the territory.

Several of the farmers visited were enthusiastic about the proposed plan and believe in diversification. One prosperous farmer visited sold 200 hogs last week for more than \$2,000. He stated that he fed them chiefly on skimmed milk.

"There are many outstanding farmers in this territory who are willing to encourage diversification" the visiting committee stated upon their return from their first trip.

Inch of Rain Is Gauged in Pampa

General rains fell over this section of the Panhandle last night, followed by drizzles at intervals this morning. The total precipitation here was 1.03 inches. Roads were very muddy in every direction today, but beaten paths had been made by noon. Traffic, however, was almost tied up owing to unwillingness of many to attempt driving through mud and holes. Many cars were stranded about the city last night and this morning.

ASKS TEXAN'S RETURN
AUSTIN, Aug. 3.—(AP)—Governor Moody today granted requisition of the state of Tennessee for the return of Jack Tigert, fugitive from the Montgomery county, Tennessee, workhouse to face charges of transporting liquor in excess of one gallon.

Tigert, said to be under arrest at Childress, Texas, was sent to the workhouse as the outgrowth of several charges of disorderly conduct, drunkenness and driving an automobile while intoxicated, all of which were set out as greatest length in the bulky requisition. Finally fined \$50 and committed to the workhouse for six months, Tigert escaped.

WACO, Aug. 3.—(AP)—Carrying her 18-month-old baby on one arm, Mrs. B. O. Ashworth, wife of the cashier of the Waco News-Tribune and The Times-Herald, walked into the newspaper offices today, shot Miss Charlie Lawson, clerk, to death and drank a fatal potion of poison. Mrs. Ashworth sought to kill her little daughter but succeeded only in burning the child with an acid.

Miss Lawson died almost instantly when two bullets from a .25 calibre automatic pistol struck her. Mrs. Ashworth died an hour later in a hospital. Witnesses said Mrs. Ashworth entered the newspaper office apparently calm and approached Miss Lawson's desk and engaged her in a brief low-toned conversation.

Suddenly, they said, Miss Lawson arose, and pushing Mrs. Ashworth aside, darted behind a cement pillar. As Miss Lawson ran Mrs. Ashworth drew the pistol from her handbag and fired three shots in rapid succession. Two shots struck Miss Lawson near the heart and she died before medical aid could reach her.

As employees of the newspapers started forward, Mrs. Ashworth waved them aside with her pistol. Hastily snatching a bottle of poison from her bag, she drank the major portion of the contents and then attempted to force some down her baby's throat.

An ambulance was called and Mrs. Ashworth was rushed to the hospital, where she died within a few minutes. Her small daughter, however, drank only a small portion of the poison and physicians said she might recover. No name was assigned for the tragedy.

Ashworth knew nothing of his wife's presence until he heard the shots and ran into the business office. He accompanied his wife and child to the hospital and was at Mrs. Ashworth's side when she died. He refused to make a statement of any kind. Ashworth, 30, and his wife, about 24, had been married for five years and had lived in Waco the greater part of their lives. Miss Lawson was 24 years old.

Californian Now Third in Olympic Point Scoring

OLYMPIC STADIUM, Amsterdam, Aug. 3.—(AP)—The end of the first day's five events in the Olympic decathlon found Jim Stewart of California in third place with 412 points and Jansson of Sweden leading with 478. Jarvinen of Finland was second with 4136; Yrjola, Finland, fourth, 4103; Ken Doherty, United States, fifth 3845; and Wessely, Austria, sixth 3800.

Stewart was nosed out of second place by Jarvinen's better time in the 400 meters flat. While Barney Berlinger of the University of Pennsylvania is not among the leaders he has a good chance of pulling up in the remaining five events, especially the javelin throw. Tom Churchill of the University of Oklahoma thus far appears badly beaten.

Today's five events were the 100-meter dash, running broad jump, shot put, running high jump and 400 meters. Those remaining to be contested tomorrow are the 110 meter hurdles, discus throw, pole vault, javelin throw and 1,500 meter run. The point score for the 17 men's track and field events completed thus far follows:

United States 142; Finland 84; Great Britain 40; Sweden 37; Germany 34; Canada 33; Japan 15; South Africa 14; France 10; Ireland 10; Norway 7; Hungary 5; Haiti 5.

Much Mail Sent Without Address Goes to "Dead Letter" End

Unclaimed mail is causing no little grief at the local post office, Assistant Postmaster Kenneth Gaylor stated this morning after sending several hundreds of letters to the "dead letter" office. He stated that letters by the hundreds arrive in the office addressed to a name and with Pampa only on the envelope.

"It is strictly necessary that either a box number, a company name, or "general delivery" be placed on all letters, and the sooner citizens notify their friends that Pampa is now a city and not a town where everyone is known, the better so we can render service at the post office," Mr. Gaylor remarked.

"There are 1,273 post office boxes, with each one supplying mail to as many as five persons and company boxes to 100 persons. General delivery supplies an average of 1,500 to 2,000 persons a day, making in all an estimated total of nearly 9,000 persons getting mail here," he continued.

Air mail service is becoming more satisfactory and is being used more extensively, according to information being received at the post office. A letter can be mailed in Boston, Mass., and 36 hours later will arrive in Pampa. The service is from Boston to Wichita, where mail catches the train for Pampa. Now that the price of air mail stamps has dropped, the business is sure to increase.

TWO KILLER HANGED

BALTIMORE, Md., Aug. 3—(P)—Charles F. (Country) Carey and Benjamin P. Spragins, who killed Albert H. Walker, prison clerk, in an attempted escape from the Maryland State Penitentiary in July of 1927, were hanged today.

Neither of the men's necks were broken in the fall through the trap, and they strangled to death.

Modes of the Moment

PARIS (AP)—Greys have an assured position in France because the high coloring of French women makes grey becoming to more women of the whole than in America. Ytéb makes a pale grey chiffon afternoon dress which has a three blouse and loose graduated sleeves. A large crystal buckle fastens the belt and a single drapery falls very slightly below the hem.

LONDON, Aug. 3—(P)—Sir August Chamberlain, who was announced Wednesday to be confined to his home, is suffering from a mild attack of broncho-pneumonia.

PARIS (AP)—Simple taffetets which lend themselves to the vogue for draperies and bouffant lines are much in evidence for hostess gowns. A redfern model is of Monet blue taffeta. It has the trim hip line but does not sacrifice the puff at the side—which is draped from the skirt and falls below the hem-line. On the shoulder there is an ornament of crystal and strass.

Miss Kathryn Knight of San Antonio is Honored with Tea

Among the numerous delightful social affairs for which visitors to Pampa have furnished inspiration was an informal tea given on Wednesday afternoon by Mrs. Cecil Noel and Miss Maxine McKinney, honoring Miss Kathryn Knight of San Antonio, charming house guest of Mrs. Noel. A profusion of summer blossoms varied hues decorated the entertaining rooms, creating a pretty setting for the occasion.

Those who called during the afternoon included the following: Mrs. Waldon Wilson, Mrs. C. S. Rice, Mrs. William Taylor, Mrs. Harry Wood, Mrs. J. Back, Mrs. K. C. Whitney, Mrs. Virgil McConnell, Mrs. Beryl Lytle, Mrs. B. W. Seitz, Mrs. Beryl McKinney, Miss Eliza Helen Meers, Miss Cleora Stanard, Miss Pearl Wilson, and Miss Elizabeth Graye.

Piano Recital Postponed to Monday Evening

MOUNTAINEER EXECUTED
MILLEDGEVILLE, Ga., Aug. 3—(P)—Clifford Thompson, 22-year-old Tennessee mountaineer, was executed at the state prison farm today for the murder of a Chattahoochee, Florida, storekeeper. The execution was carried out after Governor Hardman had declined to grant a reprieve based on a statement by the condemned man's wife proclaiming his innocence and implicating herself and another man. He was followed to the death chamber by James Hugh Moss, a negro convicted with him of the crime.

The News as News

On the eve of publicity campaigns planned by the best minds of the major political parties, it is appropriate to remind the readers that free and unprejudiced news sources are of vital importance under our form of government.

The charge is sometimes heard that the Associated Press is dominated by this or that influence. The accusation is absurd, as anyone familiar with the facts knows. The Associated Press is a non-profit, cooperative association composed of member papers of every religion and political affiliation common to this country.

It is apropos to give the instructions just received by every Associated Press employe and member paper. Kent Cooper, general manager of the Associated Press, writes: "We are on the eve of what promises to be a memorable political campaign. Every Associated Press man will share in the responsibility it imposes."

"Keep in mind the necessity that our report must be absolutely non-partisan. Avoid predictions, speculation, and editorial opinion. Insofar as we are responsible for what is said, there must be nothing that may be construed for or against any political faction. Do not use stories of election betting or straw votes. In describing attendance at political meetings do not estimate capacity in numbers or in any manner open to disputes."

"But we want all the news. Do not withhold a story because it is partisan, if it may be attributed to a responsible source. For example, statements from political leaders are desired if they contain news and are credited to party spokesmen. These statements must speak for themselves, and their leads should be brief, without inference, deduction, or other editorial comment. All anonymous expressions of opinion must be avoided. Write only what can be substantiated."

"During the campaign, as at all other times, the Associated Press report must be fair, truthful, and impartial." The Pampa Daily News is a member of the Associated Press. It chose this agency because of the principles above expressed, which this newspaper strives to carry out, so far as is practicable, in local community life.

The Chinese are about whipped—they are sending for American jazz orchestras. Shades of Oriental ancestors!

Homes for Folks

Down at College Station this week awards were made to many home demonstration clubs of the state, and to members who demonstrated excellence in phases of making better homes. A Clarendon woman was one of the winners.

The placing of home making on the dignified plane of community study is going a long way, in those countries which have home demonstration agents, to make the fire-side attractive to every member of the family. The importance of this factor in rural life is, in this age, little more striking than in the average small town or city.

Furniture manufacturers and dealers have a commercial viewpoint in promoting a similar campaign, but they are striking a double chord in launching a drive "to bring the American home back into fashion." Sponsors of the drive deny that American women are not interested in their homes. They found in a survey that 75 per cent of the women have inherent good taste in home furnishings and that they desire beauty and harmony for their families to the greatest extent possible.

The furniture men found that \$53 a year is spent by the average family annually for furniture, while, on the other hand, automobiles and motoring require many times that much. The radio as a piece of furniture has had its influence, but outdoor expenditures for amusement have been detrimental to the interior of homes.

Making homes harmoniously beautiful and convenient is a task worthy of effort, let the profits fall where they may.

TWINKLES

Gasoline is up, and since we have been squawking for an advance in the price of crude oil, an attack on Standard Oil seems sort of inappropriate.

In view of the aerial attacks planned by both presidential candidates, we would probably sell radios if we were not well paid for filling up this space and tending to a score or more of other duties. This is however—invitation to radio men, however—we listen in sufficiently on "Iron Mike."

Our athletes ate too much and now they can't run. This is an argument for going to the aid of hungry Europe, which is running away with the Olympic track events.

Beauty reigns, but not over our immigration laws. Miss Spain is stranded, broke, in love with a young Spaniard in New Orleans, and will be deported if she doesn't hurry back home. Can't some of the promoters or movie mag-nates do something about it?

CAPITOL News

WASHINGTON—Every presidential year brings forth a number of books dealing with political phases and personalities. The current political season offers an unusually worthy crop of reading matter for the campaign months.

No one has yet written a comprehensive history of American politics. The essentials are crammed into Dr. Edward Stanwood's "History of the Presidency," the standard work on nominations and elections up to 1916. While Stanwood's book is a gold mine of information and a book of immense value to students and other writers, some larger work yet to come will include volumes of additional detail. For the present, the full, vivid, colorful story of our politics can only be had by reading innumerable histories, biographies and reminiscences, along with files of newspapers and periodicals.

The best account of the earliest days of our political parties to appear in recent years are "Jefferson and Hamilton" and "Party Battles of the Jackson Period," written by Claude Bowers, the Democratic key-note at Houston. For the best attempt to connect the evolution and fortunes of our political parties with the physical, economic and cultural progress of the nation, your correspondent suggests "The Rise of the American Civilization," by Dr. Charles A. Beard.

Outstanding among political histories published in the last year are "The Republican Party," by Prof. William Starr Myers of Princeton and "The Democratic Party," by Frank R. Kent, political editor of the Baltimore Sun. One suspects that they are proving the most popular of the 1928 political books. Each is written from an obvious, though not offensive, partisan slant. Neither is a whitewash, except in spots. Both are easy and interesting reading and ought to appeal to the voter who wants to know more of the background of his party and the other party.

The Myers book is the more scholarly, representing much more research and presenting much more interesting detail. Kent's is sketchy but informative. His history of the Democrats, a party 60 or 70 years older than the G. O. P., is told in fewer words. That fact will appeal to many readers. And when Kent and Myers get into the clinches—as in their pro and con arguments over the Hayes-Tilden scandal and the Wilson administration—the journalist appears to have it over the professor. Myers sometimes becomes a little naive, though he does not attempt to gloss the scandals of the Grant and other administrations. Kent's

best chapters cover the Wilson period and the last eight years.

"Presidential Years, 1789-1860," by Meade Minnerode is also interesting reading. There were those who shouted publicly that Washington and Hamilton were crooks and that Lincoln was a vile disgrace, and they all have their innings in Minnerode's narrative, which is crammed with vivid and often illuminating quotations from contemporary sources. It doesn't give an impartial picture, but is in tune with these iconoclastic days when we no longer believe that our earlier presidents were guided by divine hand. Minnerode's sections especially well in his deeds covering the Clay-Adams election scandal of 1824, the Singing Whigs of 1840, the first dark horse—Polk—and the Democratic spirit of 1860.

All good Republicans and bolting southern Democrats will enjoy "Tammany Hall," by M. R. Werner. Pro-Smith Democrats will not. They will have to console themselves with the thought that Werner brought his history only to the death of Charles F. Murphy in 1924 and that the book costs five dollars, which restricts its sale. "Tammany Hall" represents a vast amount of research and documentation. It doesn't leave much of Governor Smith's argument that Tammany must be good because it's so old; it amounts to a ruthless historical indictment. It is so merciless, in fact, that Werner has been charged with more or less campaign document and with piling on innumerable sins but those of its enemies in New York politics.

Spudders Ruin Dallas' Hope of Winning Again

(By Associated Press) The happiest and most successful team in the Texas league—the Houston Buffs—will meet one of the most melancholy and downcast—the Dallas Steers—today and with the Steers rests the hoe of seven teams that the Buffs will be brought to turn.

A new manager, Bob Tarleton, who replaced Bert Ellison for the Steers, did no visible good yesterday for the Wichita Falls Spudders put over 13 hits to Dallas' nine and took the game, 9 to 4.

The Waco Cubs continued a climb by beating Beaumont, 7 to 4, and taking to themselves their ninth straight victory.

With a couple of judicious home runs and two opposition errors, Houston put down the San Antonio Bears, 7 to 2.

The Shreveport Sports bunched eight hits nicely to beat out Fort Worth, 7 to 4.

Hitting, which has been rather heavy in the league the last two or three days, was well up yesterday. It was a fans' day with opportunity for the bleachers to see plenty of healthy socks.

The outcome of the Wichita Falls-Waco fracas today will be of interest as the Spudders doggedly are hanging on to second place. The club is regarded as holding the nearest answer to the Houston menace.

Negro Protest Is Causing Trouble

PHILADELPHIA, Aug. 3.—(P)—In view of legal complications injected by Robert Hall of Chicago and Elmer Stout of Newark, N. J., negroes, who seek an injunction to stop the tournament unless they are permitted to play, the national public links golf championship assumed new interest today.

Should the injunction be granted, tournament officials intimated they would take the championship to a nearby course outside the jurisdiction of the Philadelphia county courts. Hall and Stout allege that they were barred because of race discrimination, but those in charge of the tournament said their disqualification was due entirely to infractions of the rules. If the players are not reinstated, their attorney said, Mayor Mackey will be asked to stop golf playing on all public links in the city.

Sets World Mark For Endurance Swim

It costs Mrs. Myrtle Huddleston 25 pounds of weight and 54 hours of heart-breaking effort to smash her own world record for endurance swimming. She weighed 240 pounds when she dived into a New York pool at the beginning of the attempt, but only 215 when, after adding four hours to her record, she collapsed and sank. Here she is shown being lifted from the water by other swimmers.

Les Marriner Is Stopped Short by Old Chuck Wiggins

CHICAGO, Aug. 2.—(P)—Les Marriner, who in the course of seven months arose from pugilistic obscurity to prominence by winning 16 of his 17 fights by knockouts, met his master in the crafty Chuck Wiggins of Indianapolis.

In a 10-round toe to toe slugfest match before 10,000 roaring fans, Wiggins won the judges' and referee's decision over the former University of Illinois football player last night.

McLarnin Whips Chilean Easily

DETROIT, Aug. 2.—(P)—The pile driving power that Jimmy McLarnin packs in his hands has blasted another obstacle from his path to a return shot at Sammy Mandell's title, and at the same time relegated to the pugilistic scrap heap the title aspiration of Stanislaus Loayza of Chile.

Last night a capacity crowd of 18,000 persons saw the Pacific Coast Irishman belt the courageous little South American into a state of insensibility in four rounds at the Olympia arena.

Ruth Fails to Hit Baseball Out Of the Infield

It's a funny game—baseball. A month ago everyone conceded the 1928 American league pennant to the New York Yankees and fans turned to the National league to watch what seemed certain to be a ding-dong battle.

Today the St. Louis Cardinals lead the older circuit by six and a half games and the Yankees have seen a thirteen-game lead crumble until Philadelphia is but four and a half games behind.

George Earnshaw was a puzzle to the Cleveland Indians yesterday and the A's had no difficulty registering their tenth straight win 6 to 0.

After pitching great ball for 14 innings Herb Pennock weakened in the 15th and the St. Louis Browns trimmed the Yanks, 4 to 3. Babe Ruth fanned twice and failed to get the ball out of the infield all day.

Many Excuses for Poor Showing at Olympics Given

AMSTERDAM, Aug. 3.—(P)—Rich food and too much of it. Climate insufficient work, too much work, and last but not least, keener competition were reasons advanced in various circles to explain the relatively poor showing of the American athletes on the Olympic track.

A feverish search for explanations has begun as a result of the unprecedented succession of Yankee setbacks. Opinions are as divided within the American ranks as without and the general dissatisfaction obtaining among the American official family, while not being blazoned from the housetops, is not being kept secret.

Even if America's failure to carry off the honors in one or more track events had been successfully explained to the satisfaction of the coaches of the United States team, the snickers of their European rivals would have reminded them of their failure. While there is not likely to be any immediate action taken here, the cards appear to be stacked for a thorough shuffling upon the return home of the American team.

From the viewpoint of the official chief of the American delegation General Douglas MacArthur "stiffer competition from Europe as well as other parts of the world" is responsible for the startling defeats of the Americans.

Head Coach Lawson Robertson blames the climate and training conditions. The athletes themselves, at least many of them insist they did not have enough work to regain the peak of condition they reached for the final trials.

ning ways at the expense of the Boston Braves, 6 to 1, the rest of the National league standing suffered a shake-up, the New York Giants taking second place and the Pittsburgh Pirates moving up to fifth place, a step ahead of the Brooklyn Dodgers.

If It's Action You Want, Here It Is

A series of fierce plunging, twisting, turnings—and this steer-rider's little ride is ended. Cowboys say a steer is one of the pekiest critters to ride you could imagine. This remarkable picture was taken during the recent rodeo at Salinas, Calif.

Women Thrown From Automobile By Companions

HOUSTON, Aug. 3—(P)—Gertrude Hand was in a hospital today with a fractured skull suffered when she was thrown from a speeding automobile, and police were searching for two men who threw her and Mrs. Mabel Baugh, 22, out of their machine. Police were given a description of the two men with whom the pair had been riding.

Southland Mourns Death of Veteran

HOUSTON, Aug. 3—(P)—Confederacy's thinning hosts today mourning the loss of a beloved leader in the death of General James Cavin Foster, 81, former commander-in-chief of the United Confederate Veterans, who died quietly at his home here yesterday. From every corner of the southland where the traditions of Jackson and Lee still are alive came messages of condolence today to the widow and relatives of the fallen leader. He died with a smile on his lips and with his wrinkled hands held heavenward as he asked that divine blessings descend on his wife and daughter. "I'm going home," said the bearded warrior a moment before he died.

Democrats Bid for Farm Vote

NEW YORK, Aug. 3—(P)—The Democrats are out to capture states in the Upper Mississippi valley, and with a

well planned organization they intend to challenge the Republicans for every inch of ground in that farming territory. As Governor Smith's followers see it, they already have made a deal in the lines of the opposition by enlisting

support of George N. Peek, of Illinois, supporter of Lowden for the Republican presidential nomination and champion of farm legislation along the lines of the McNary-Haugen bill which President Coolidge vetoed.
