SEVEN KILLED ABOARD SHIP AT SAN PEDRO

INVESTIGATORS PROBE NAVAL TRAGEDY ON OLD WYOMING

SAN PEDRO, Calif., Feb. 19 (AP)—The death toll of a gun explosion aboard the old U. S. S. Wyoming was raised to seven today when Sidney Ensley, marine private, died from his injuries on the naval hospital ship Relief.

Not only has Pampa a handsome auditorium to serve the schools for many years, but its construction furnished 45,000 man-hours of direct labor and three times that amount of employment indirectly, said C. A. Johnson, assistant director of the Public Works Administration...

Three programs during the day formally instituted use of the building, recently completed as a joint project of the Pampa school system and the PWA. Most of the 1,200 seats were filled for the public exercises.

MARTIAL LAW IS URGED FOR GUYMON AREA

FARMERS WOULD BE FORCED TO PLANT FORAGE CROPS

GUYMON, Okla., Feb. 19 (AP)—Dust clouds lifted over the drought-plagued Oklahoma Panhandle today and light rains settled the blowing top soil in most of Texas but a new "black blizzard" threatened.

For the first time in six days, residents here could see far down Main street. Only a light haze remained to remind them of yesterday's light-obscuring storm.

An ominous black pall hung to the north, however, indicating another was sweeping in.

Wind-blown beaver to the east reported visibility had risen to one mile, with only light clouds of dust fanned by a north wind. Texoma had visibility of two miles.

Showers Clean Air Only a few Texas cities reported dust after showers extended from the eastern border to San Angelo and southward to the Rio Grande.

Pampa Is Given Highest Credit On Fire Record

AUSTIN, Feb. 19 (AP)—The insurance department has announced nine additional cities earned 25 per cent maximum credit for good fire records. They were McAllen, New Braunfels, Olney, PAMPA, Seguin, Texas City, University Park (Dallas), Victoria, and West University Place (Houston).

Pampa's insured fire loss for 1936 was \$16,836.16, according to the report filed by Fire Chief Ben White. It marked the fourth consecutive year that Pampa was given a maximum credit for good fire records.

Good fire loss record, excellent fire fighting equipment and the required number of paid firemen, gave Pampa the excellent record. On top of the 25 per cent credit, Pampa also receives a 3 per cent additional credit for sending two firemen to the state firemen's school in College Station each year.

The record is beneficial to Pampa business men and home owners, who are getting their accomplishment in making Pampa one of the safest cities in the state.

NEW CHARGES AGAINST J. D. WHITE FILED

JURY ALLEGES VIOLATION OF LAW IN FEBRUARY

A new indictment against J. D. White, whose first trial on a gaming charge ended yesterday in a deadlocked jury, was returned by the county grand jury Thursday afternoon.

White was re-arrested and posted bond of \$1,500 with the sheriff to await trial on the new indictment at 10 a. m. next Monday.

The most recent count against White was brought in by the grand jury within less than an hour after Judge W. R. Ewing had released the 9-3 deadlocked district court jury which was unable to reach agreement in two days and two nights of deliberation.

The gambling charge is in connection with White's alleged conduct of betting, wagering and gambling with cards, dice and slot machines. The old charge on which he was just tried went back to an alleged offense committed last September.

RANGE CONSERVATION COMMITTEE NAMED

J. M. Carpenter of McLean and Ed Carr of LeFors were named temporary committeemen of the Gray county range conservation program for 1937 at a meeting yesterday afternoon in the courthouse attended by 28 Gray county ranchers.

The program is outlined to the ranchers by County Agent Ralph Thomas after which a round table discussion was held. Fourteen ranchers signed applications.

Purpose of the program is to re-verse grass on ranch lands and to stop erosion which carries out the full program he can receive \$1.50 per unit or per single animal. Using for an illustration, Mr. Thomas said that a rancher with 10 sections of land could receive up to \$750. That figure was reached by considering a head of stock to a section of land.

Operation of the program is divided into many sections including: One-third credit for keeping stock off of 25 per cent of the range for six months; contour and listing at the rate of 70 cents an acre; extermination of prairie dogs; building of fences at 30 cents a rod; building of tanks at 15 cents a yard; spreader dams and spreader terraces; eradicating prickly pears, etc., at 50 cents a hundred.

Mrs. Helen Fritz, assistant Texas county superintendent of schools, said all rural schools were remaining closed.

READERS VOTE 2 TO 1 IN-FAVOR OF FDR PLAN

This territory's vote at noon today on the President's Supreme Court proposals stood 143 for the change and 77 against it, almost 2 to 1 in favor of Roosevelt.

The Daily NEWS this week has been conducting a poll in conjunction with 700 newspapers throughout the United States.

The national total today was a reversal of sentiment expressed here. Throughout the nation, voters in the newspaper poll today had registered upwards of 85,000 votes against Roosevelt's proposed judiciary changes and 35,000 votes for the plan.

SENATE PASSES ACT EXTENDING PRORATION

AUSTIN, Feb. 19 (AP)—The Texas Senate today approved extending the state oil and gas proration law two years from the expiration date next September.

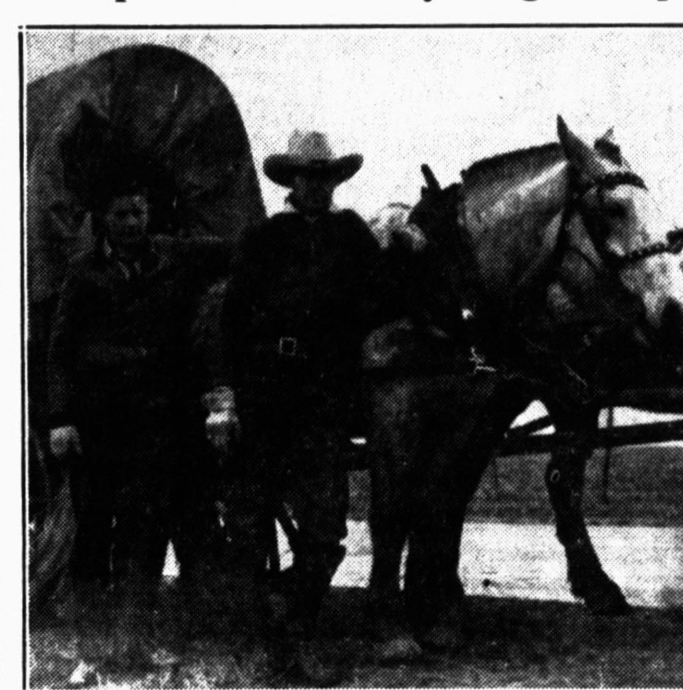

The House of Representatives voted for extension previously and the bill now goes to Governor James V. Allred, who was expected to sign it. The Senate vote was 26 to 3.

OSCAR SPRINGER DIES GALVESTON, Feb. 19 (AP)—Oscar Springer, long prominent in business and musical circles here, died suddenly of a heart attack at his home early today. Mr. Springer was head of the printing firm that bore his name and of the Galveston Piano company. He was a native of Germany.

DAM SITE INSPECTED AUSTIN, Feb. 19 (AP)—Secretary of the Interior Harold Ickes, escorted by Gov. James V. Allred and other officials, began an inspection today of Colorado river authority flood control projects.

Pampans on Four-Day Wagon Trip

Here are those two intrepid Pampa "pioneers of 1937"—One-Gun Blackledge and Warren Martin—now on the fourth day of a trek across the Panhandle plains. Blackledge took off in the prairie schooner last Tuesday just to prove it could be done, and Martin, high school journalist, was assigned to the trip to see to it that Blackledge didn't stop in hotels at night. They are due back in Pampa tomorrow afternoon.

Thieves may have a word for it—but Felix Word, Negro, of 414 W. Craven, wishes they wouldn't pick on his last name to prove the point.

Portugal today was declared ready to join Europe's neutrality blockade of the Spanish civil war, completing the list of 27 nations trying to stifle the conflict through non-intervention.

The general neutrality scheme, including a ban on foreign volunteers and a patrol system to guard against arms movements in the war zone, is scheduled to become effective tomorrow at midnight.

Madrid's defenders, meanwhile, claimed a measure of success in their bitter stand at the gate of the capital. Reports said the government troops had plunged into insurgent lines at Pinarzon Hill in a desperate attempt to silence artillery which has swept the all-important highway to Valencia. The road still was under government control but was swept by insurgent fire.

While London awaited final instructions from Lisbon on a compromise solution for Portugal in the neutrality agreement, France launched an investigation of reports insurgent artillery had been trained on her Pyrenees border.

Reports from the Basque government, allied with the Valencia-Madrid government, quoted refugees as saying batteries, under direction of German engineers had been placed on the Spanish side of the Franco-Spanish border.

RUSSIA'S NO. 2 STRONG MAN TAKEN BY DEATH

MOSCOW, Feb. 19 (AP)—The death of Gregory K. Orjonikidze, the Soviet Union's No. 2 strong man, struck a severe blow today to the industrial renaissance he fostered.

Second in power only to Joseph Stalin, Orjonikidze once was regarded as his political heir or at least the prospective head of a group that would control the Soviet in event of Stalin's death.

Orjonikidze, 50 years old, held the Soviet's most important non-political post as commissar of heavy industries, was a member of the politbureau, an all-important group of 16 men within the Communist party who rule Russia, and was chairman of the supreme council of national economy.

He died yesterday in his Kremlin apartment of a heart attack.

WASHINGTON, Feb. 19 (AP)—President Roosevelt said today the government would be forced to act soon to obtain steel needed in construction of naval vessels.

The steel industry has failed to bid on a large part of orders placed by the navy. Naval officers have attributed this to operation of the Walsh-Healy act which sets up wage and hour standards for government contractors. At his press conference the President said he did not know whether new legislation would be necessary. Unless steel is obtained soon, naval officials say, construction work on a number of destroyers and submarines will have to be stopped.

Commenting on the Walsh-Healy act, the president said he favored its minimum wage and maximum hours provisions and would like to see them applied to industry all over the United States.

DEPUTIES FAIL IN TRYING TO EVICT WORKERS

'GO TO HELL,' SHERIFF TOLD AT CHICAGO PLANT

WAUKEGAN, Ill., Feb. 19 (AP)—Sitdown strikers replied with a barrage of acid, wrenches and bolts to deputies trying to evict them from a Faunsteel Metallurgical Corporation plant here early today. They turned back the officers after a two hour battle.

Casualties number six in the early counting. None was seriously hurt. The plant involved is one of two held by "sit-downers" in adjacent North Chicago.

WAUKEGAN, Ill., Feb. 19 (AP)—Sitdown strikers defied a court's eviction order in the Faunsteel Metallurgical Corporation plant in nearby North Chicago today.

At least six persons were injured in a brief battle between the strikers, estimated at 82 men, and about 125 deputy sheriffs and policemen.

The disorder broke out when Sheriff L. A. Doolittle led his men against a door of one of two occupied buildings with a battering ram. It was one of the first actual attempts to forcibly remove men from a plant in the history of "sitdown" strikes, labor's new weapon in its fight for recognition.

Strikers threw acid, pulleys and other loose objects, repulsing the deputies' effort to beat down a nailed door. They barricaded themselves in the plant Wednesday, demanding recognition of their C. I. O. union as a collective bargaining agency.

The sheriff withdrew his forces and conferred with company officials. His chief deputy said the officials advised them, in effect, to "go the limit" in ousting the sit-downers. A member of the strikers committee, not inside the plant, was called to a conference in the administration building.

"Go to hell!" was the strikers' reply to Sheriff L. A. Doolittle's order to leave the plant in nearby North Chicago held since Wednesday afternoon.

Judge Ralph J. Dady yesterday circuit court the estimated 82 strikers who have held the plant since Wednesday to leave the property. They refused and he cited them for contempt of court.

Chief Deputy Sheriff Thomas Kennedy, rallying his forces after the strikers had forced them back with acid and missiles, said H. N. Keele, company attorney, empowered him to "use any method" to get the men from the plant.

"He said we had gone this far with the order to lose your job," Kennedy said. "He said the company's buildings are covered by insurance."

Demand Recognition. Kennedy considered moving the strikers' automobiles, parked nearby, to water closets and the plant where the officers could hide behind them for protection.

The strikers demanded recognition. See NUMBER 2, Page 8

BLACKLEDGE WILL BE ON TRIAL FOR LUNACY

BULLETIN. Members of the Pampa Kiwanis club, of which Ken (One-Gun) Blackledge is a member, voted at noon today to try him on a lunacy charge at the regular meeting of the club next Friday. Reports late this afternoon indicated that Blackledge possibly can't take it any longer and may return to Pampa this evening via short-cut. (See other story on Page 8)

CHURCH PROBE UNDER WAY MEXICO CITY, FEB. 19 (AP)—Pres. Lazaro Cardenas undertook today a personal study of last week's "peaceful rebellion" of Catholics in Veracruz state which forced the reopening of government closed churches. The president yesterday heard outlines of the situation from Miguel Aleman, governor of Veracruz, and Gen. Heriberto Jara, military commander of the state.

MACHINE GUN PLANE GUARDED AT NEW YORK

NEW YORK, Feb. 19 (AP)—A mysterious Vultee monoplane, mounted with six machine guns and believed consigned to a foreign government, was under police guard today at Floyd Bennett field.

The ship was flown into the field last night by a pilot who signed only as "Williams," and said he brought the plane from Glendale, Cal., where it was manufactured. The ship is unlicensed and bears only an identification number.

Police guarded the craft to prevent dismantling. Officials at the field said a federal investigation was under way.

Heat From Stove Blows Dust Away

GUYMON, Okla., Feb. 9 (AP)—Panhandle housewives use fire to fight dust—and to prevent grit in meals. "Women have learned that when food is cooking, heat from a stove blows dust away," said Vida West, Texas county home demonstration agent, "so they cook everything fresh for their meals, and then rush it to the table as quickly as they can."

"Of course some dust gets mixed in but not as much as before they learned the secret."

I Heard...

Promptly at 12 o'clock noon, a car horn blowing loudly. No one was near the car which had been parked since soon after 8 o'clock. Firemen started searching for the owner of the car who was Hol Wagner of The NEWS staff. Why the horn started its raucous bellowing after hours of inactivity had mechanics baffled this afternoon.

Their Royal Highnesses

Designed the "official coronation photograph," this excellent study of King George VI of England and Queen Elizabeth reveals them, despite their royal regalia, as an humble, unassuming couple. Resplendant in regal gold braid and medals is King George, but his wife wears a simple gown of silk print, against which the insignia of her royal honors can hardly be seen.

Modern Menus

BY MRS. GAYNOR MADDEX, NEA Service Staff Writer. Toy cannon on the table and cherries in a pie are the accepted symbols for Washington's birthday parties. George Washington had to chop down a tree for his cherries, but we today need only a can opener. Which proves there is something to be said in praise of Republics.

Cherry Chiffon Pie. (10-inch size.) One cup boiling water, 1 package cherry flavor gelatin dessert, 1/2 teaspoon salt, 1/2 cup pineapple juice, 4 eggs, 1/2 cup sugar, 1/2 cup crushed pineapple, 1 tablespoon chopped maraschino cherries, 1 baked pastry shell.

Cherry Walnut Pie. (9-inch size.) Two cups pitted red cherries (No. 2 can), 1/2 cups sugar, 1/2 cups gelatin, 1/2 cup cold water, 1/2 cup broken walnut meats, dash of cinnamon, 1/2 pint cream, whipped.

Sunday Menu. BREAKFAST: Orange and grapefruit juice, bacon omelet, buttered toast, crabapple jelly, coffee, milk.

DINNER: Celery hearts, olives, roast shoulder of fresh ham, bread stuffing, pan-roasted sweet potatoes, french string beans, cherry chiffon pie, coffee, milk.

SUPPER: Potato soup, oatmeal muffins, strawberry jam, tea, milk.

Soak gelatin in cold water. Heat the sugar and cherry juice and cinnamon to boiling point, stirring until sugar is dissolved. Add the soaked gelatin to the hot juice and allow to set in cold place until a soft, quivery jelly forms.

NEURITIC PAIN IS RELIEVED BY THE VAN-TAGE

"Those Horrible Pains of Mine Would Have Tried the Patience of a Saint!" Says Texas Lady, "But Now Van-Tage Has Relieved Me — It Is Wonderful!"

Mrs. Dellie Cannon, of 803 Brooks St., Houston, Tex., is now adding her name to the Long List of Widely-Known people of This Vicinity who are publicly praising and endorsing the Amazing New Medicine, Known as VAN-TAGE, which is now being introduced to

MRS. DELLIE CANNON the local public at Cretney Drug Store. Just a few days ago, Mrs. Cannon said:

Years of Constipation and Neuritic Pain

"For years I had been a suffering, miserable person," said Mrs. Cannon. "I had been a victim of sluggish bowel constipation for years, which developed into all kinds of horrible misery for me. I developed a gassy, bloated condition and my food didn't digest right and my kidneys got weak and sluggish, and finally my whole system got so loaded with poison that it turned into neuritis misery with pains that would have tried the patience of a Saint! I think I tried every medicine under the sun, but never got any relief, and then one day I happened to be in the Walgreen Drug Store and saw some Van-Tage and heard them telling about this great, new medicine, so I got it and started taking it. Now my constipation and gas and bloating are relieved and my system has been cleansed so well that I don't have those neuritic pains any more. I think this medicine is one of the finest things ever offered to humanity."

Over 20,000,000 Bottles Great Formula Sold

This Amazing Formula has been tested by the sale of over 20,000,000 bottles. Among the citations which comprise the lesson-sermon is the following from the Bible: "Hear, O Israel: The Lord our God is one Lord" (Deut. 6:4). The lesson-sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We can have but one Mind, if that one is infinite. We bury the sense of infinitude, when we admit that, although God is infinite, evil has a place in this infinity, for evil can have no place where all space is filled with God" (page 469). Modern Menus

Once it was oysters any way in a big way. Now it seems to be tomato juice, chili con carne or link sausage with French toast. Those are new. But scrambled eggs, ham and eggs and, of course, griddle cakes hold their own against changes of time and tide.

Where the belle and her beau of forty-seven years ago used to begin with an oyster fry and wind up with a Charlotte Russe, the mites and young fellow of this kinetic age will wash down the last strains of the comic opera they have just come from with a glass of tomato juice, regain nourishment with a few eggs or a platter of chili con carne, and wind up their late supper with a baked apple.

It sounds almost too pure to be true. Maybe what they say about the younger generation won't stand up under their dietetics. But all these facts, researched for us by an important cruise leader through Childs restaurants, have a flavor of authority. So if you must feed the younger set after the curfew rings, better be guided by the latest fashion news in midnight menus. A few recipes might be of service.

Chili Con Carne (8 Servings) Two and two-thirds cups kidney beans, 4 cups cold water, 2 pounds raw beef, 3 teaspoons olive oil, 1 cup chopped onions, 1-3 cup chopped celery, 1 small clove garlic, 3 teaspoons chili powder (your special grocer always carries this) 3 teaspoons salt, 1-3 teaspoon cayenne pepper, 2 2-3 cups canned tomatoes. Soak beans over night in cold water. Cook until done, drain and reserve 1 cup of the liquid. Put meat through chopper, using coarse blade. Heat oil in sauce-pan. Mix ground meat, chopped onions, celery and garlic and seasonings. Add to hot oil and simmer until meat is almost dry. Add the tomatoes and cook until meat is done. Combine meat with cooked kidney beans and remaining liquid. Simmer 10 minutes to blend flavors. Add more seasoning to taste.

Grilled Link Sausage With French Toast (8 Servings) Twenty-four slices of bread, 5 eggs, 1 cup milk, 2-3 teaspoon salt, 32 broiled link sausages. Break eggs in bowl. Add salt and beat until light. Add milk. Dip bread in the batter. Fry in butter until it turns golden brown. Use a shallow pan. Cut pieces of French toast in

RETURNS SHOW 2-1 MAJORITY AGAINST PLAN

10,000 BALLOTS FROM 18 STATES ARE COUNTED

CLEVELAND, Feb. 19.—Returns of nearly 10,000 ballots from 18 states in the NEA Service Pampa Daily NEWS Supreme Court poll shows a better than two to one majority against the president's proposal.

The exact count was 3,036 for; 6,354 against the proposal. Popular interest in the issue was evidenced by a flood of ballots that descended on the offices of participating newspapers, in many cases within a few hours of printing of the ballot.

Several communities registered strong preferences. In Pittsfield, Mass., 1191 ballots received by the Berkshire Eagle in two days of balloting showed a ratio of 17-1 against the proposed plan. The Hudson, N. Y., Daily Star showed an even stronger majority of nearly 38-1 against the plan.

The Poplar Bluffs, Mo., American Republic has yet to receive a ballot favorable to the proposal, while the Middletown, O., Journal has received only one.

Vote in Some Cities Favors F. D. R.'s Plan On the other hand, several larger cities showed equally clear if not so overwhelming totals in favor of the plan. St. Paul, Buffalo, Columbus, Oklahoma City, were among them, while Texas' early votes were more clearly in favor of the proposal than those of any other state.

An interesting trend was pointed out by the Milwaukee Journal, which noted that of its totals of 533 for and 1,050 against the Roosevelt proposal, Milwaukee county stood 439 for and 781 against, while the state outside the county registered 94 for and 269 against, a far higher percentage.

Early Adverse Majority Cut by Later Returns The earliest returns ran as high as five and six to one against the

proposal, but as the vote mounted, this was cut down to the two-to-one margin that marked the end of the first tabulation. Returns are, of course, scattering as yet, with only two or three papers reporting complete tabulations. Scores of papers participating in the poll have not as yet reported their first returns.

EXTRA HIGH TEST NO EXTRA COST BECAUSE PHILLIPS IS the World's Largest Producer of Natural HIGH TEST Gasoline. WANT SPLIT-SECOND STARTING? Then remember: there is nothing like high test gasoline to wake up a cold, drowsy engine. Every motor-wise driver knows that. And most of them know that Phillips 66 Poly Gas has always set the high-test pace—is still far out in front. This is not a matter of opinion. It is no boastful claim. No trick statement to win unfair advantage. The fact is that the Phillips Testing Laboratory, after analyzing many thousands of samples of all available motor fuels purchased in the open market, assures you that the Volatility Index (effective high test) of Phillips 66 Poly Gas is unsurpassed by any other gasoline, even those selling at a higher price. Day in and day out, almost without exception, Phillips 66 Poly Gas is higher test than others... higher test without higher price! Plus the added energy units supplied by the patented POLYMERIZATION process. Thus you get the economy of low first-cost per gallon. And on top of that, the economy of faster warm-up and smoother running... reduced battery drain... less crankcase dilution... and extra miles usually wasted by prolonged use of the choke. They used to say that Phillips' success was too spectacular to last. That was five years ago. Yet Phillips has forged ahead faster every year since then. You will know why, the first time you try a tankful of Phillips 66 Poly Gas. Listen in... PHILLIPS POLY FOLLIES... Columbia Network... PICK SUN CURE FROM TREES—Beauteous members of the winter colony in Florida find solace for aching sunburn by picking the remedy straight from the orange and lemon trees. The citrus juice soothes the burn.

HARVESTERS AND STRONG RANGERS WILL PLAY DECISIVE GAME TONIGHT

PAMPANS BEAT ALLISON AND MIAMI TEAMS

PERRYTON IS ONE OF FAVORED TEAMS IN MEET

Hedley and Berger were eliminated, the favorite, Groom, was upset by Spearman, and Pampa's fighting Harvesters won their first two games in the first day of the district basketball tournament here yesterday.

This morning at 11 o'clock Spearman and Perryton were to play, and the Harvesters will battle the winner of that game at 8 o'clock tonight. The winner of the Groom-Darrouzett game at 10 o'clock this morning will play Kelton at 4 o'clock this afternoon, and the victor in that tussle will meet either Allison, LeFors or Miami.

LeFors and Miami were to play at 9 o'clock this morning and the winner of that struggle was to play Allison at 3 o'clock. At 9 o'clock tonight, the winner of the 4 o'clock game will meet the winner of the 4 o'clock game. Close observers favor Groom and either Miami or Allison for contenders in the 9 o'clock game this evening.

If the Harvesters beat Perryton tonight they will advance to the finals to be played tomorrow night. If they lose, it will be necessary for them to play at least two and possibly three games Saturday. It is certain that Coach Odus Mitchell and the Pampa guards will put everything they have into the game tonight.

The Harvesters stopped Allison 26 to 21 at one o'clock yesterday afternoon, and conquered Miami 23 to 19 last night. The Warriors ridged the Bulldogs yesterday afternoon 48 to 28, and last night the Borgans bowed to Allison 27 to 22.

Perryton had trouble in downing LeFors 24 to 18 after the Pampa-Miami game. Kelton eliminated Hedley 32 to 27, and Spearman nosed out Groom 24 to 22 with Guard Cooley of the Lynx scoring 13 points.

The outstanding goal-shooter of yesterday's playing was Pittman of Perryton who chalked up 17 points. Green of Allison scored 14 in the Allison-Borgans game. Russell of Miami swished the net for 15 points in the Warriors' slaughter of Borgans. Roach, the other Miami forward, scored 13 points and center Arrington also hit the basket for 13 tallies.

The tournament is the most closely-fought ever held here, and more upsets are likely to be in the offing. The favorites are still Perryton, Groom, Pampa and Miami. Perryton's Rangers usually trail in the first half but by constant plugging and calm playing forge ahead in the last half.

DALLAS, Feb. 19 (AP)—Paul (Daffy) Dean leaves next week on a momentous trip. . . He'll know a few days after reaching the St. Louis Cardinal spring training site in Florida whether his pitching arm, ailing last year, will permit continuance of his baseball career.

The gangling right-hander believes he will take his regular turn on the mound but admits only expert opinion will determine that. Professional Willie Maguire reports more than 200 entries have already been received for the twenty-third annual Houston country club amateur golf tournament.

Cus McFarland, Johnny Dawson, Gus Novotny, Reynolds Smith, Jack Munger, Freddie Haas, David (Spec) Goldman, Bobby Riegel, Billy Howell, Don Schumacher, Percy Clifford, five times Mexico champion, Hack Williford are on the list. . . Strangely, last year's winner Ken Rogers and runner-up Ed White, are not entered. . . Rogers is stationed in the Panama Canal Zone and White, Walker copper, has let his game slide in favor of work.

Sports Writer Prexy Anderson at Abilene reports that if the five tallest players on the West Texas State Teachers basketball team were laid in a straight row, they would reach almost from the middle line to the end boundary of a standard court. . . And Corpus Christi Junior college has a center which stands six feet six inches and weighs 340 pounds while his forward running mate is only five feet, six inches.

Ralph Rawlings, University of Arkansas' high scoring quarterback, scores well at his studies also. . . For the third straight semester Rawlings has compiled a straight "A" average—highest possible mark this is reached only by a handful of students each year. . . Alton Terry, Hardin-Simmons' great javelin thrower who holds the American record, will join the Olympic club at San Francisco after completing his studies this year. . . He practices daily and is already talking 1940 Olympics.

Galveston's second annual invitation golf tournament, sponsored by the junior chamber of commerce, comes up March 4, 5, 6 and 7. . . Three stars of the University of Texas freshman basketball squad—Oran Spears, Jimmy Britt and Elmer Finley all former John Tarleton cagers—stayed two months at Rice Institute before switching to Austin.

Importance of Olympic Games Over-Emphasized

NEW YORK, Feb. 19 (AP)—Jeremiah T. Mahoney, president of the Amateur Athletic Union, asserted today the importance of the Olympic games is over-emphasized, and in a letter to Ryozo Hirayama, president of the Amateur Athletic Federation of Japan, expressed the hope "Japan will not try to outdo the materialistic grandeur of the games recently held in Berlin."

Hirayama, directing plans for the 1940 games, recently made a statement Japan would not nationalize the games. Mahoney's letter commended this attitude. Mahoney opposed America's entrance in the Berlin games because of the German government's anti-Semitic policy.

Finest Group of Skiers Gather

SALT LAKE CITY, Feb. 19 (AP)—The finest group of skiers ever assembled in the United States practiced here today for the national amateur ski tournament to be held Sunday and Monday on Ecker hill.

"Never before in this country's history have so many ski champions, former champions, and near champions assembled in one locality or competed in a single event," asserted Martin Strand, vice president of the National Ski Association and director of the meet.

Just as an example, 19 of 26 men entered in Class A competition have made jumps of more than 200 feet. . . Roy Mikkelsen of Auburn, Calif., one of the entries, won the 1935 tournament at Canton, S. D., with leaps of but 172 and 184 feet.

Alton Terry, Hardin-Simmons' great javelin thrower who holds the American record, will join the Olympic club at San Francisco after completing his studies this year. . . He practices daily and is already talking 1940 Olympics.

PORKERS AND RICE TO PLAY THIS EVENING

(By The Associated Press)

Outcome of the Rice-Arkansas two-game series at Fayetteville, Ark., Friday and Saturday nights means everything to a sophomore band of Southern Methodists seeking their first southwest conference game title.

Ideal for the Methodists, leading the league with six victories and one defeat, would be a split series. Rice, coming by leaps after half its training camp but Carl has never been a sophomore band of Southern Methodists seeking their first southwest conference game title.

Methodists, with four games remaining, must-win at least two to clinch a first place tie if Rice bags its remaining games. Still figuring in the race is Arkansas, defending champion, but only on outside calculation. It must drop Rice and Texas Christian in four games while the Methodists are losing four, to retain the championship.

The Methodists have a tough assignment Saturday night, meeting Texas at Austin. In the other game scheduled, Baylor plays the hapless Texas Christians at Fort Worth.

Washington Girl Faces Pat Berg

PALM BEACH, Fla., Feb. 19 (AP)—An unheralded player from Washington survived today to dispute Patty Berg's right to another Florida golf title.

The sharpshooting Minneapolis girl faced 22-year-old Helen Detweiler in the 18-hole finals of the annual Palm Beach women's tournament. . . The 19-year-old Minnesotan lived up to her favorite's rating in her march to the finals but Miss Detweiler emerged as a darkhorse contender.

In yesterday's semi-finals Patty piled up an early lead and weathered a late rally by Marion Miley of Lexington, Ky., to win, 3 and 1. Miss Detweiler advanced with a one up victory over Audrey Phipps of Palm Beach.

Freddy Steele To Defend Title

NEW YORK, Feb. 19 (AP)—The "shot in the arm" for the middle-weight division's comeback will be administered tonight when Freddy Steele defends his title against the sailor from Syracuse, Eddie (Babe) Risko, in Madison Square Garden.

They tangle in a 15-rounder, with a crowd of some 16,000 expected to pay about \$45,000 to see Risko try to win the crown from the man to whom he lost it last July.

Win or lose, Risko stands to lose in the end if the gate falls below \$45,000. The upstate "Adonis" gets 60 per cent of the take, from which he must pay Steele a guaranteed \$25,000.

The Tacoma jawbreaker—so dubbed because he has done just that to three of his opponents, including former titleholder, Vince Dundee—goes into the ring a 2 to 1 favorite to make it three in a row over Risko.

Case Ace Holds Favorite's Role

LOS ANGELES, Feb. 19 (AP)—In a race where the field will be large and anything may happen, Mrs. Ethel V. Marra's Case Ace today occupied the dubious distinction of favorite to win the \$50,000 added Santa Anita derby.

Case Ace, the son of Teddy by Sweetheart, has made but one appearance here, and that was two days ago.

BRADDOCK NOW READY TO SIGN WITH BOMBER

TITLE BOUT WILL BE HELD JUNE 22 IN CHICAGO

CHICAGO, Feb. 19 (AP)—Champion James J. Braddock was ready to sign articles with Joe "Brown Bomber" Louis today for a 15-round world's heavyweight title bout June 22 at Comiskey park.

Making complete their break with Madison Square Garden Corporation of New York, which threatened legal steps to block the bout and insisted it would hold the champion to a contract calling for a New York match with Max Schmeling June 3, Braddock and his manager, Joe Gould, met with Louis at the La Salle hotel for the long-awaited penmanship ceremony.

Col. Reed Kilpatrick, Garden president, told Chairman Joe Triner of the Illinois Athletic Commission, Gould and other Chicago pals yesterday that the Garden would use every legal weapon to prevent Braddock from fighting under any but Garden auspices.

"Big institutions break agreements every day," cracked Gould. "They can't tell me what to do. I'm looking after the interests of my fighter and the only way I can do him the most good is to forget about the June 3 fight and go through with the battle here."

"I'm certain a match with Schmeling would not draw more than \$200,000 with Braddock receiving about \$75,000. A meeting with Louis will draw \$1,000,000, which means Jim will get \$400,000 to \$500,000. My lawyer assured me nothing stands in the way of the June 22 bout and we are going through with it."

Triner wired Gen. Fitzpatrick he had no intention of interfering with the June 3 bout, reminding the Garden the bout here is to be staged 19 days after the New York date. The Garden executive charged Triner with "evasion" and hinted of federal court action.

Mike Jacobs, New York promoter who holds exclusive rights to Louis' services until 1940, arrived early today from Kansas City for the signing party. Others were Julian Black and John Roxborough, Louis' co-managers, and Joe Foley, matchmaker for the bout.

Louis, suffering from a cold which forced postponement of exhibitions at Des Moines, Wichita, and Denver, had little to say, but Braddock spoke confidentially of retaining his title.

PIONEER KILLS NERVY RABBIT

BLACKLEDGE HOPES TO REACH LEFORS TONIGHT

By WARREN MARTIN (High School Journalist)

OUT WHERE THE WEST BEGINS, Feb. 19.—No real pioneer could eat mulligan stew a la Blackledge. One-Gun Kenneth mixed up some prairie porridge last night that nearly ended this covered wagon venture so far as I am concerned.

Maybe a pioneer could get along on the grub we have been eating, but personally I'll take vanilla and be plenty glad when we get back to Pampa Saturday and I can sit down to a steaming steak, potatoes and gravy. I think Kenneth feels the same way about it.

If Mrs. Blackledge has an idea her husband is going to be a good cook after this trip, I'd like to put her straight on the point. If she takes my advice she'll continue to supervise this cooking.

It looks like we might have rabbit for our next meal. Kenneth has been trying to kill a rabbit ever since we shoved off in this prairie schooner last Tuesday morning to prove that men are still men and Tex's Topix is all wrong.

We ran into a bunch of them a few miles back and Pioneer Blackledge went on a shooting spree until the horses became so frightened he had to call a halt and put the gun away.

After that the rabbits got brassy and one ran around the wagon three times until Kenneth got mad, jumped out and smacked him in the head with an ax handle. From then on we had no more rabbit trouble.

We are trying to make LeFors by night, and more than likely will stop somewhere on either side of town to turn in for sleep. In Groom we were the object of much conjecture on the part of the town-folk. I guess you can't blame them much for that, though.

One old fellow came up, took a look at Kenneth and laughed out loud.

"So that's a pioneer," he said.

"Oh, boy! I'll bet all the pioneers are turning over in their graves."

Kenneth's beard is coming along fine. There are no razors on this trip, you know. By the time we get back to Pampa Saturday, he should at least have many of the earmarks of a pioneer.

I often wonder how the old-time plainsmen took baths when they were crossing the country in the winter time.

Week in Review Is Rescheduled For 5:30 O'Clock

With the addition of another half-hour of broadcasting time, the Week in Review, KPDN's half-hour dramatization of local and world news has been rescheduled at 5:30 for the benefit of listeners who found the earlier broadcast time inconvenient.

During the 30-minute period devoted to the Week in Review, news highlights of the current week are recreated by a competent cast of local actors and actresses including Hubert Bratcher, Mary Adams, Eula Mae Bolles, Bob Messer, Bill Kern and Betha Spencer.

One of the highlights of the program is a brief summary of the news events of the week and their probable effect on the nation by Tex DeWeese, managing editor of the Pampa Daily News.

Ray Monday, chief announcer of KPDN, handles the running commentary, Herman Kreiger, chief engineer, is in charge of sound effects, while the program is written and produced by Mel Marshall, KPDN program director.

Samuel Butler, author of "The Way of All Flesh" and "Erewhon," was forced to publish all but one of his books at his own expense because he couldn't get a publisher to accept them.

William A. Brady, dean of American theater managers, has produced 255 plays in New York.

CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, Feb. 18 (AP)—Gov. James V. Alford in a press conference last Thursday bragged about the legislature "working so hard."

The words hardly were out of his mouth before the Senate adjourned until Monday and a few hours later the house did likewise to permit a "junktet" to Lubbock.

As a matter of fact, however, the legislature had been working hard. Its committees, which perform one of the most important functions, had been holding hearings regularly and getting bills in shape for floor consideration.

Gov. Alford noted that since two important tax bills had reached the floor of the House so early in the four-month session, the record of the previous legislature had been surpassed.

The bills, both reported favorably by committees, would increase levies on crude oil and corporation franchisees.

Over the door to the office occupied by Texas governors for many years prior to the last one appears this sign:

"Secretary of State—Private."

The office now is used by Secretary of State Edward Clark, who until recently was Gov. Alford's first secretary. The governor likes his second floor office, with its big reception room, so well he told Clark he might have the one on the first floor.

The arrangement probably will not be one of the first among the might. It is especially useful while the legislature is in session for the reception room, re-furnished last summer at a cost of several thousand dollars, is an admirable place for members of the Senate and House, as well as hundreds of other visitors, to await turns to see the governor.

In the downstairs offices visitors used to be so thick stenographers and clerks could hardly work. The latter are warm advocates of the switch.

C. V. Terrell, chairman of the railroad commission, long has been a friend to boys and girls working their way through college.

Years ago when state treasurer he was one of the first among the state officials to split a job between two students at the University of Texas in order to give work to both. At the time there was some question as to legality of the action.

Terrell now suggests that the legislature exempt from consideration, in giving employers merit rating under the unemployment compensation act, employment of student workers.

The employer with a low labor turnover will pay a smaller tax than one with a high turnover, other things being equal, and Terrell suggests that employers may be reluctant to take on students, who move from one school to another, and eventually go into chosen professions. Terrell says exemption would

Appeal Will Be Filed in Crude

AUSTIN, Feb. 19 (AP)—The attorney general's department has been advised appeal would be filed in the J. I. Dyer case involving movement of certain East Texas oil products and a possible test of the state oil confiscation law.

Originally Dyer sued the Railroad Commission seeking to move 150,000 barrels of products, but the attorney general's department intervened with confiscation proceedings and a Travis county district court ordered the products confiscated.

From the judgement, Amos Felts of Austin, Dyer's attorney, said appeal would be taken on grounds the oil was legal and entitled to a tender for movement. He also said constitutionality of the confiscation statute was questioned in the answer to the state's intervention.

The intervention originally named a number of other defendants, including the Ort Oil Company, which claimed a lien on the oil products by reason of certain notes, but the court held the state's interest superior.

TWENTY BUREAUS FOR ONE JOB

In a plea for reorganization and consolidation of Federal bureaus, Senator Byrd of Virginia, recently pointed out some astonishing instances of duplication and overlapping.

For example, at least 24 agencies have been created to deal with lending government funds, and five similar agencies are now in liquidation.

At least 3 agencies have been concerned with insuring deposits and loans.

At least 10 agencies have been concerned with government construction.

At least 9 agencies have been concerned with credit and finance.

At least 12 agencies have been concerned with home and community planning.

At least 16 agencies have been concerned with wild life conservation.

So it goes, down a long list. Every one of the purposes for which these agencies have been created may be beneficial and legitimate—but certainly there can be no excuse for setting up 20 bureaus to do one bureau job. Nor can there be any excuse for permitting bureaus to grow unchecked and to eat up tax funds in unimaginable quantities. Senator Byrd also points out that one bureau has 13 addresses in Washington alone.

Untold millions of public dollars are thrown away annually through duplication. Congress can have no excuse for failure to adopt at once a reorganization plan such as the President recently proposed.

BARROOM DECOR

It is a little bit hard to share the righteous indignation of the good people who got all stirred up because a Sacramento barroom had a mural painting of the Duke of Windsor and Mrs. Simpson on its walls.

Granted that the exhibition is not, perhaps, in the most flawless taste. Since when, one must ask, has the highest standard of good taste been applicable to the decor of barrooms? And is there, after all, anything to excite one's reverent awe in the story of the king who threw away his crown because it was too much trouble to wear it?

The ordinary citizen of the republic is none too heavily impressed by kings in the first place. For kings who run out on the responsibilities of kingship, he is not apt to have that degree of admiration which will cause him to be revolted by the use of their royal likeness on the walls of public drinking establishments.

WASHINGTON LETTER

By RODNEY DUTCHER

WASHINGTON.—The so-called era of good feeling which was popularly supposed to have set in after the election has been blown to what—for want of an uninvited better word—might be called smithereens.

Papa Roosevelt, according to all his pals writing for the weekly magazines, was going to be conciliatory toward the conservative business element. But he has turned a backward somersault by plopping his message, proposing to revamp the Supreme Court and the rest of the federal judiciary, right down at the feet of those who thought he was anxious to kiss and make up.

One of the first examples of the renewed bitterness observed here came when Congressman Maury Maverick of Texas, foremost southern liberal in Congress, made a speech to the exclusive Harvard Club here the day after the presidential message. Maverick, who sat next to Frederick Delano, Roosevelt's uncle, took the topic: "College Men and Their Lack of Education." The happenings of the occasion have not been previously reported.

Maverick, himself a lawyer, said he had been in Washington two years and about all he had heard about liberty had been said by high-priced lawyers in application to liberty for corporations. He had heard practically nothing, he said, on behalf of civil liberties for individual citizens.

Maverick said he was still waiting to hear some graduate group speak up for academic liberty or freedom of speech, that lawyers had expanded influence only as corporations had grown in size. Some lawyers, he declared, still thought their profession was very powerful, but the last presidential election had proved their power didn't amount to so much. Furthermore, said Maverick, the Supreme Court wasn't sacred.

Then the chairman, a Harvard law school graduate who practices locally, arose, livid with rage.

Inasmuch as Maverick had criticized university men and suggested they were prejudiced, the chairman said, the usual period for questions to and answers from the speaker would be omitted.

Maverick stood up and said he didn't care what the club did, but if he were going to be treated with discourtesy, he wanted everyone to understand that he knew it.

The meeting then became a turmoil and the cry, "We want Maverick," was overwhelming. Maverick made speeches, others made speeches pro and con. The secretary of the club apologized. Delano and others got the chairman in a corner and made him apologize, too.

Inaugurated for his second term, Roosevelt had his choice of repeating the oath word by word or Chief Justice Hughes, or of simply saying, "I do." He chose the former.

Otherwise, he whispered later to a close friend, he might have had to feel he was making a promise to follow the oath as it was conceived in the mind of Hughes—whereas if he spoke the words himself, he would know exactly what he himself meant.

TEX'S TOPICS

Dust to dust. . . . The Rev. L. Burney Shell has a bit of difficulty with his dust mask. . . . Rather, when he's wearing it he has difficulty with his glasses because the bridge of the specs conflict with the bridge of the mask. . . . Talk, talk! . . . If it isn't one thing, it's another.

Sid Patterson is another who wears a dust mask when he drives back and forth between Amarillo and Pampa. . . . Patterson is a salesman who gets about the country quite a bit and says that a mask is a big help in driving through a dust.

Gray county ranchers gathered in the county courthouse yesterday afternoon for a session with County Agent Ralph Thomas to get the low-down on the government's plan for terracing and contouring land.

Uncle Sam's soil conservation program is beginning to catch on in a big way in these parts, and County Agent Thomas is doing everything in his power to educate ranchers in the value of adopting and following out the government's program to the letter.

County Judge Sherman White is another who is doubly sold on the soil conservation movement. . . . He believes that in another ten years most farmers will have the drouth situation licked and that on all ranches there will be provisions to conserve every drop of moisture that falls.

Many persons are following the adventures of Kenneth (One-Gun) Blackledge and Warren Martin as they battle dust and high winds in their prairie schooner out on the plains.

Among interested persons is Mrs. Sam Isaacs, of Canadian, Tex., who says that everybody over there is breathlessly following the covered wagon train. . . . She reads nightly every word about Kenny's trip.

She got to thinking about it and was inspired to poetry. . . . She writes: "With apologies to John Greenleaf Whittier, I'm sending the enclosed poem, 'Covered Wagon Days—1937.'" . . . When the trippers return perhaps the high school journalist will be able, from out of the experiences of the journey, to write the remaining 39 couplets. . . . Here is the poem:

COVERED WAGON DAYS—1937
Seated 'neath the folds of a new tarpaulin
Waving, reins in hand, with a grin

Ken Blackledge, on a winter's day,
Out from Pampa rode away

On a dare he could brave weather
In pioneer style as had many another

When, in the years now so long past,
Knights of the trail rode the prairie's vast.

So, booted and spurred, with wide sombrero,
A riding he essayed to go

On a four-day trip in a prairie schooner,
(Wonder if he'd like to get home sooner?)

He carried a rifle to provide fresh meat
And a bit of chuck he must cook to eat.

To prove Ken kept the rules of the game,
A lad went along, Warren by name.

A duster blew up almost right away,
Came a wee sprinkle of rain later in the 'day.

What goes up must eventually come down,
Second day, dust from heights was settling all around.

They're meeting temptations no pioneer ever knew,
This may prove a real handicap, too.

Instead of the trackless prairies, a paved highway
Passing homes, stores, hotels, each day,

Yet the rules of the trip deny them the right
To purchase a comfort for day or for night.

On their return, the journalist lad
Will tell of their experiences, good and bad.

After they have this record made,
Will they feel 'twas worth the price they paid?

COURT CALENDAR

BIRTHDAYS OF THE JUSTICES

JANUARY FEBRUARY MARCH
APRIL MAY JUNE
JULY AUGUST SEPTEMBER
OCTOBER NOVEMBER DECEMBER

Are there many accidents in motion picture studios? W. H. A. In one of the largest studios in 1935 the first aid department gave a total of 6291 treatments. Only six of these were serious enough to cause the patients to lose time and only five required hospital attention.

Please give the names of some of the detectives of fiction, W. B. M. A. Some of them are: Philo Vance, Charlie Chan, Dr. Thorndyke, Ellery Queen, C. A. Dupin, Sergeant Cuff, Monsieur Hanau, Father Brown, Arsene Lupin, Richard Hannay, Sergeant Heath, Lord Peter Wimsey, Hercule Poirot, Truett, Inspector Bucket, Reginald Fortune, Inspector Freuche, Lecoq, Pere Tabaret, and Sherlock Holmes.

When does the World's Fair at Paris open? C. H. A. The Paris International Exposition will open on May 1, 1937.

What is piceon's milk? C. G. A. It is a thick, creamy mixture produced in the crop of the pigeon. It is not a real milk.

Who founded the Bibliotheque Nationale? T. H. A. The French national library was founded by King Charles V, known as Charles the Wise. He made it a gift of a thousand historic manuscripts.

What is blackstrap molasses? M. R. A. Blackstrap molasses is the very lowest grade, made from what is left after every possible bit of sugar has been removed from the sugarcane by the commercial process. It is combined in mixtures for feeding stock, and enormous quantities of it are used in the production of alcohol.

How many horseshoes are made in the United States? J. S. A. In 1935, the latest year for which figures have been compiled, 346,635 100-pound kegs of horseshoes were made, valued at \$1,560,478, compared with 812,730 kegs, valued at \$4,217,604 in 1925. Production has been declining until the low year of the depression. It is estimated that 1936 production was valued at \$1,200,000.

What state has the lowest elevation? The highest? C. M. A. Delaware has the lowest average elevation. Its surface, if leveled, would be only 60 feet above the sea. Colorado has the highest average elevation, 6800 feet.

Has the Panama Canal traffic? B. B. A. Total transits were running around 175 a month before the strike and have fallen to about 50. Tons of cargo have fallen from about 1,000,000 a month to 225,000. Whereas before the strike more than 100 vessels in American coastwise trade transited the canal in a month, in December the number had fallen to 5. Tolls collected by the United States have fallen from about \$300,000 a month to about \$100,000.

When is the Chinese New Year? M. H. A. H. We celebrated this year on February 11.

Please give the name of a book recommended by Alexander Woolcott on the radio recently. J. H. A. We or They: Two Worlds in Conflict by Hamilton Fish Armstrong was mentioned by Mr. Woolcott.

What are the names of the sons of the late Joyce Kilmer? J. K. A. The poet's sons were Kenton S. and Christopher Kilmer.

How many different kinds of insects are destructive to crops? K. L. A. There are 7000 types of pests destructive to trees, crops, and grass.

What state has the largest number of covered bridges? J. T. G. A. The poet's sons were Kenton S. and Christopher Kilmer.

How large was the house at Mount Vernon when Washington first went to live there? H. J. A. At that time the house consisted of two stories and an attic, with four rooms on each floor.

What percentage of the people in the United States have goiter? D. M. A. Dr. J. T. Stevens estimates that thyroid ailments affect four per cent of the people.

Is the glass curtain still in the National Theater of Mexico City? R. B. A. The curtain is still at this theater, officially known as the Palacio de Bellas Artes. This huge curtain, executed by Tiffany of New York, is one of its most striking features, and is perhaps the only one of its kind in the world. It is composed of thousands of pieces of varicolored glass and the novel lighting arrangement reveals the snow-crowned volcanoes, Popocatepetl and Iztacalhuatl, at Sunrise, midday, and sunset.

The upward trend in railroad business is reflected in figures made public today by M. J. Collins, general purchasing agent for the Santa Fe railway, which disclose that the Santa Fe's purchases last year were far greater than in 1935.

The company's total purchases for material and supplies during 1936 amounted to \$38,058,448.16, as compared with \$26,334,630.95 for the preceding year, an increase of 44.5 per cent.

These figures do not include the Santa Fe's \$20,000,000 purchase order last November, when contracts for new freight and passenger equipment, and steel rail and fastenings were placed.

OF ANCESTRAL VINTAGE. GENESICO, Ill.—Albert E. Miller has taken out his twenty-second license on his 1916 touring car.

The antiquated model, he said, is still hitting on all six cylinders. It may be an ugly duckling in comparison with the stream line 1937 varieties, but Miller is satisfied.

Time was when mothers handed the lore of the sick-room down to their daughters. But when the professional nurse arose, clinics and hospitals multiplied and doctors became available for most of the world, the necessity for such instruction lessened. Moreover, much of the home school of medicine and nursing became out-dated. The rising generation laughed at "old wives' cures" and, in its eagerness for the most modern theories, threw overboard all that it might have learned from the school of experience.

If girls will not or cannot learn from their mothers, some other means of teaching the rudiments of nursing and caring for the sick should be found. The first aid which the schools teach is not enough, nor does it reach a large enough number of people.

It is not always possible to put the sick person in a hospital. There often comes a time when nurses are not available, and most family budgets do not stretch to such a luxury.

Sewing and cooking are still taught at school, and so is hygiene. Nursing requires a more elaborate equipment, but some means should be found for including so essential a course in every girl's training. Even if she never marries or has a family to rear, she will find the ability to be of use in the sickroom or at the scene of an accident an invaluable asset.

ANSWERS TO QUESTIONS

BY FREDERIC J. HASKIN

A reader can get the answer to any question of fact by writing The Pampa Daily News Information Bureau, Frederic J. Haskin, director, Washington, D. C. Please enclose three (3) cents for reply.

Are there many accidents in motion picture studios? W. H. A. In one of the largest studios in 1935 the first aid department gave a total of 6291 treatments. Only six of these were serious enough to cause the patients to lose time and only five required hospital attention.

Please give the names of some of the detectives of fiction, W. B. M. A. Some of them are: Philo Vance, Charlie Chan, Dr. Thorndyke, Ellery Queen, C. A. Dupin, Sergeant Cuff, Monsieur Hanau, Father Brown, Arsene Lupin, Richard Hannay, Sergeant Heath, Lord Peter Wimsey, Hercule Poirot, Truett, Inspector Bucket, Reginald Fortune, Inspector Freuche, Lecoq, Pere Tabaret, and Sherlock Holmes.

When does the World's Fair at Paris open? C. H. A. The Paris International Exposition will open on May 1, 1937.

What is piceon's milk? C. G. A. It is a thick, creamy mixture produced in the crop of the pigeon. It is not a real milk.

Who founded the Bibliotheque Nationale? T. H. A. The French national library was founded by King Charles V, known as Charles the Wise. He made it a gift of a thousand historic manuscripts.

What is blackstrap molasses? M. R. A. Blackstrap molasses is the very lowest grade, made from what is left after every possible bit of sugar has been removed from the sugarcane by the commercial process. It is combined in mixtures for feeding stock, and enormous quantities of it are used in the production of alcohol.

How many horseshoes are made in the United States? J. S. A. In 1935, the latest year for which figures have been compiled, 346,635 100-pound kegs of horseshoes were made, valued at \$1,560,478, compared with 812,730 kegs, valued at \$4,217,604 in 1925. Production has been declining until the low year of the depression. It is estimated that 1936 production was valued at \$1,200,000.

THE FINANCIAL WHIRLIGIG

CAUTIOUS. Because of the stock market's excellent action the general run of opinion is that share prices will move to higher averages. But the buying is of selective character. Since inflationary fears rule the day, shares of those industries which will benefit are currently being given preference.

The utilities, rails, communications and foods are being neglected because of their fixed price levels. It doesn't permit benefits from inflationary movements. The balance of the trading list is being taken on all dips.

The conservative element is playing the market "close to the chest." This is construed to mean that there is concern over the possibility of a healthy market correction at most any time.

WORRIED. Those who buy and sell securities in \$500 and 1,000 share lots pay close attention to the London movements of money and securities. It is a known fact to these big shots that American markets follow the movements of British markets. It may be recalled that a severe break in the British markets preceded the collapse of our own pyramid in 1929.

Last week British government and high-grade bonds slipped in value. Our markets followed on a small scale. British money is showing signs of becoming firm. That is evident in our markets. Big traders in New York are worried because while our markets have been moving to new high levels English stocks are declining. Prices there are now at the lowest levels in several months.

UNLIKELY. Under a recent date your correspondent disclosed that those accumulating the Southern Pacific shares anticipated a dividend payment late this year. Further disclosure is necessary. From an authoritative source it has been learned that such will not be the case.

The inside news is that the management is anxious to build up a stronger cash position before committing itself on dividends. And before anything can be paid to common stockholders those owning the 5 per cent non-cumulative preferred shares must first be considered. That is why it is regarded as unlikely that common shareholders will receive anything this year.

OUT OUR WAY

LET'S KNOW TEXAS AND TEXANS
BY WILL H. MAYES.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. Where is the West Texas State Teachers College located; is it educational, and who is its president?

A. It is a co-educational school at Canyon, Texas; Dr. Joseph A. Hill, president.

Q. To how many counties in Texas are state taxes remitted?

A. State taxes are at present remitted to 41 Texas counties for various conservation purposes. This does not mean that taxpayers do not pay the regular State tax, but that all State ad valorem taxes collected in those counties are remitted to the counties to be used for specific projects within the counties. A bill is before the present Legislature to remit state ad valorem taxes to all counties, to be used for any purpose not unconstitutional.

Q. An unsophisticated reader would like to know just what is meant by the "third house."

A. It is the lobby of special interests that attends all legislative sessions to use its influence in bringing about legislation favorable to its clients or in defeating legislation that may be unfavorable. The Texas "third house" is large in numbers, experienced in legislation, and influential and convincing in its methods. It is the first to greet legislators when they reach Austin, and last to say "good bye."

Q. Did the convention that assembled at Washington-on-the-Brazos March 3 1836, have a flag?

A. One historian, John Henry Brown, says: Over the cabin in which the convention met, floated a flag with the design of a siney arm grasping a red sword, and by the side of this was a lone star flag. Q. What Texas town is nearer to six state capitals than to the capital of Texas?

A. Dajhart.

85-TEXANS WANT STATEWIDE HUNTING LICENSES. AUSTIN (AP)—Twelve thousand organized sportsmen are backing a proposal for universal hunting and fishing licenses for Texas. The licenses would impose the present fee of \$2 for hunting and \$1.10 for fishing on all persons over 17 years of age who take game on land other than that on which they reside. Texas is believed to be the only state where hunters are not required to have a license in the county of their residence.

86-CONFIDENTIAL REPORT. Chapter XXI DETECTIVE OFFICER KETTERING'S FOURTH REPORT. CONTINUED. Having re-examined all the parties, I proceeded to a new analysis of the situation and composed a fresh draft of possible motives. POSSIBLE MOTIVES No. 2 9-1-37. MRS. JOCELYN: Nil, as far as is known at the moment but she is in collusion with her husband, supporting his statement that he was in his bath at 7:45, when we know that he was not, and she may or may not have been in her own cabin at that hour. COUNT POSODINI ALIAS "SLICK" DANIELS: A motive, in that he admits that it was through Blane's agency that he was sent down for his first term in Sing Sing, and that Jocelyn brought him on board with the deliberate intention of giving him the opportunity of getting even with Blane. It is even possible that Jocelyn may have paid him to do the job, or that they did the job between them. His alibi depends on his ability to prove that Mrs. Jocelyn was in his cabin from 7:45 till 8:10, and this she denies. MR. ROCKSAVAGE: Strong motive, and it is now proved, owing to his capability of changing in under four minutes, that he had ample time to commit the crime between 8:10 and 8:30. THE BISHOP OF BUDE: Strong motive. In the Bishop's previous statement he said that he had only met Blane casually in an English country house once about seven years ago (1929), whereas he does not now deny that he met Blane in France in 1917. Blane's letter shows that there was some strong tie up between the two. It now seems certain that this was in connection with the unsavory business that the Bishop is so anxious should not be made public. The probability is that Blane was holding this over him and, as there was ample opportunity for the Bishop to commit the crime, he now comes strongly under suspicion. LADY WELTER: Strong motive, owing to the fact that it looks as though she would have been completely bankrupt if the Rocksave companies had gone under and no longer in a position to finance the group of papers which are her principal life interest. MR. HAYASHI: Strong motive. It now appears that he stood to lose a considerable sum of money if Blane and Rocksave had ever got together. MR. JOCELYN: Strong motive. Lady Welter's bankruptcy would have thrown him back into the precarious existence when he was leading between 1923 and 1931, with the additional burden of his wife to support. It is now proved that he told a direct lie in his early statement where he said that he was in his bath at 7:45, since Mr. Rocksave met him in the passage still unchanged at 8:10. Moreover, "Slick" Daniels' evidence goes to show that Jocelyn had deliberately invited him on board in the hope that he might secure accounts with Blane. MISS ROCKSAVAGE: Nil, as far as is known at the moment. The foregoing examinations and the writing of the report have occupied me all morning and at the moment I admit that I am completely baffled. Only the two stewards, the ship's carpenter and Stodart are conclusively ruled out, it having been quite impossible for any of them, or any other member of the crew to commit this crime. Against Miss Rocksave and the Hon. Mrs. Jocelyn we have no evidence of motive, although both of them had opportunity. On the other hand there was motive and, in many cases, very strong

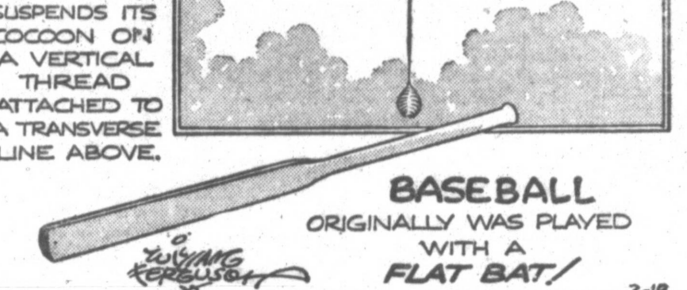

87-CONFIDENTIAL REPORT. Chapter XXI DETECTIVE OFFICER KETTERING'S FIFTH REPORT. CONTINUED. After lunch today Mr. Rocksave came to me and said that he would like to see me privately. We went to the small writing room together and he told me that our interview of the morning had greatly upset him. He again protested his complete innocence of Blane's death and said that, in spite of any unpleasantness which might arise for him out of the matter, he had decided to inform me of certain facts which would clear him altogether. He then sent for Doctor Ackland, his personal doctor, who always travels with him, and in the presence of the doctor, Detective Officer Neame and myself, he made the following voluntary statement. The statement has been duly vouched for as the truth and signed and witnessed by Dr. Ackland. VOLUNTARY STATEMENT MADE BY MR. CARLTON ROCKSAVAGE, 9-1-37. As a man who is responsible for many millions of other people's money, I have been subject to bouts of acute worry at times, when my affairs have not been going well. In consequence, a few years ago, I took to the habit of administering drugs to myself by injection; their purpose being not to allay nerves but to key me up for further efforts at times when I was suffering from severe strain. Dr. Ackland has always prepared these injections for me and on the night in question, I brought him down to my cabin with me for this purpose, as I anticipated having to enter into a strenuous conference with Blane that night after dinner. I was customary for me to rest for a quarter of an hour after the injection, in order that the drug might take effect. I did so on this occasion. Dr. Ackland remained with me until I had changed and went up to the lounge for dinner. I could have mentioned the doctor's presence before as an alibi and given some false cause for his presence in my cabin but, in view of this police investigation, where my habit of injecting myself with drugs might come to light later, I felt that suspicion might be cast upon Dr. Ackland's veracity unless I told the whole truth now. The foregoing statement was written in my presence and I bear witness to its entire truth. Frank C. Ackland, Ph. S. D., F. C. S. B. DETECTIVE OFFICER NEAME'S SHORTHAND NOTES OF DETECTIVE OFFICER KETTERING'S EXAMINATION OF DR. FRANK ACKLAND, Ph. S. D., F. C. S. B. 90-ORDINANCE NO. 178. AN ORDINANCE prohibiting the parking of vehicles in alleyways within the City of Pampa, prescribing the penalty for violations and declaring an emergency. BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF PAMPA: Sec. 1. Hereafter it shall be unlawful for any person to park or leave standing any vehicle, when the same is unattended and unoccupied by some person in control thereof, either the same be a motor vehicle or otherwise, in, upon or across any alley-way within the City of Pampa. Sec. 2. Any person violating this ordinance shall upon conviction be punished by a fine of not less than one nor more than two hundred dollars; and, Sec. 3. By the term "park or leave standing" as used in this ordinance shall mean to stop and leave standing any such vehicle for any length of time. Sec. 4. Emergency Clause. The fact that many persons now park motor and other vehicles in the alleyways of the city of Pampa and that same constitutes a hazard endangering life and property in case of fire within said City, and that the health and lives of the citizenship of said city are by such practice endangered, as well as property therein, in event of fire, creates an emergency, and the rule requiring ordinances to be read and passed upon three different dates is hereby suspended, and this ordinance shall become effective and in full force and effect upon its passage and publication as required by law. Better Be Safe

(Editor's Note: The following article written by a member of the high school journalism class for the Kiwanis safety committee is one of a series being published in the interest of safety in the NEWS.)

BY ELDRA STARK.

Ignorance of the law excuses no man. All street and highway signs and signals must be obeyed to cut down on accidents.

You are responsible for knowing the condition of your automobile. You should always notice the tires and the rear view mirror when you enter a car. Check the condition of your brakes, lights, horn, and windshield wiper and if they are not in good condition, see that this fault is corrected at once.

Do not depend upon the other fellow's watching just because you have the "right of way." That will not release you from your responsibility for an accident. Always remember the Golden Rule and avoid splashing other people with mud.

Be careful about backing out of driveways and alleys. Be sure that the way is clear. Come to a full stop, sound your horn, and proceed cautiously.

Never try to pass another car on a hill, at an intersection, at a railroad crossing, or on a blind curve. Always signal the driver ahead and pass on his left.

It is always bad policy to pick up hitchhikers. You are always taking a risk. Never allow children or others on the fenders, running-boards, spare tire rack, or other places on the automobile you are driving, and do not try to crowd over a crossing directly behind a train that has just gone by.

Be careful about gasoline fire and never start or run your motor in a small, closed area. The fumes which escape from a running motor are very deadly.

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—The "awkward age" is a needless barrier for the majority of child actresses. Adolescence brings retirement, permanent or temporary.

Hollywood has three youngsters, now, however, who are hurdling the barrier on wings of song. Without those wings, this trio—Deanna Durbin, Judy Garland and June Dey—would be forced to wait a while. Only June, who is a year or two this side of the long-legged stage, might have a brief fling in the sunshine.

Three Stay On
Only three of the present crop of grown-up actresses stay on the screen throughout these adolescent years. Lila Lee did it by playing leading ladies when she was in her early 'teens. Anita Louise played little girls and then, all of a sudden, began playing leads. Anne Shirley wore little girl dresses as long as she could and then, when the dangerous age arrived, began dressing like an ingenue. Madge Evans, a child star, chose retirement altogether, returning as a full-fledged leading lady. Baby Peggy Montgomery vanished as did Baby Marie Osborne. Both have returned without great success.

But with song, a different future looms for Deanna, Judy and June. Deanna Durbin, deputing "The Three Smart Girls," is rated among the leading discoveries of the past year. Just turned 14, the age when other children are bowing out, Deanna came in.

Deanna was under contract to Metro briefly, at the same time another youngster was there. Together Deanna and Judy Garland appeared in a musical short, but that was all. As frequently happens, the studio had nothing in particular for them to do. Deanna was released (to go to Universal) and Judy was easily borrowed by 20th Century for "Pigskin Parade."

She Was Waiting
Judy had had about eight years' stage experience, and she was waiting to plough into a picture opportunity. Deanna's warbling is lyric, coloratura. Judy is a disciple of red-hot swing. She got off several numbers in the gridiron musical and few realized that she was just a child of 14.

June Ray, who was just 11 January 8, has yet to be heard in pictures. Like Judy, she specializes in popular songs. June (real name Alice June Raetz) tried out for an amateur contest, but the man in charge took her to Jack Haley, who interested Hal Roach. She is in "Pick a Star."

Helps Babies Rest Ends Colic Pains Aids Digestion

When your baby tosses about, cries in pain and cannot sleep, why not get at the cause with McGee's Baby Elixir. It neutralizes indigestible acids, ends gas cramps and colic pains and then helps them become cheerful again. They sleep better. McGee's Baby Elixir is made of the purest medicinal extracts and herbs. It causes harm. Years of use has proven that. Simple directions tell exactly how to use it. Tastes good. Gives relief promptly. As 27 Were Saved in 60-Mile Gale

While the storm-driven waves threatened to break up the coastwise steamer, Cottonova, 26 members of the crew and Capt. Eberhard Stahlbaum, slid to shore and safety on a breeches buoy, as shown above. The buoy was rigged by coast guardsmen. The vessel was driven aground in a 60-mile gale near Port Orford, Ore.

International Sunday School Lesson

THE POWER OF JESUS OVER DEATH.

Text: John 11:23-28, 32-44.

BY WM. E. GILROY, D. D.

Editor of Advance.

The miracles that we have studied in the lessons thus far have symbolized the power of Jesus to give life, to heal, and to bring light to the darkened souls of men. Here in our lesson we come to the ultimate miracle of the power of Jesus over death, the miracle attested in His own death and resurrection.

It is a very human story that is presented, of two sisters in Bethany, Martha and Mary, who were very unlike in their dispositions, but had in common a loyalty to the Master and a love for Him that made Him an honored guest in their home.

Into this home sorrow had come in the death of their brother, and the deep sympathy of Jesus, as well as His intense devotion to that hospitable home, is found in the simple words concerning His coming into the house of death—"Jesus wept."

In the division into verses in our English Bible, it is the shortest verse of all; yet it is full of expression and significance.

The story of how Jesus brought Lazarus forth from the tomb is familiar to us all. It brings to every thoughtful and inquiring mind some very poignant questions. Why did Jesus weep, if He had the power to bring Lazarus from the dead? Why was the power of Jesus not manifested in more homes and circles of sorrow in His own day?

There must have been many, many cases of bereaved disciples, and yet the stories of Jesus bringing the dead to life are few. Why is the same power of Jesus not manifested in homes of death and sorrow today, where the devotion to the Master is as intense as it was in that home where Martha and Mary loved Him?

These questions we cannot answer, any more than we can explain the miracle. The rationalist might say that these stories have come from

traditions that arose around the life of the Master, as they have arisen in some form around the lives of other great teachers and prophets. But we cannot dispose of the miracles quite so easily. The miraculous records are imbedded in the story of a wonderful life, and one cannot feel that the life and salvation that Jesus brings to men have their ending in death and the tomb.

We have suggested that the miracles beyond the literal record have the symbolism of spiritual truth, and this is surely true concerning the miracle of restoring the dead to life. That is what Jesus does spiritually in the souls of men. His recreating and reviving power has everywhere been manifest, both in the days of His life on earth, and all the years since, in the times and places where His gospel has made its power felt.

In His earthly life and teaching, Jesus never promised His disciples immunity from pain and sorrow; He never told them that they would have unlimited physical existence. What He did promise was that eternal life would be the portion of those found in Him the Way and the Truth.

MEXICAN SLAIN.

EL PASO, Feb. 19 (AP)—One Mexican was killed, two were wounded, one was captured and several sacks of liquor were confiscated in a gun fight between the U. S. customs patrol and a band of smugglers on the Rio Grande near San Elzarrio Wednesday night. Four of the band escaped. Miguel Garcia Santa Cruz, 24, of Juarez, was charged with importation of liquor and placed under guard in a hospital where he was treated for gunshot wounds. He said he knew the slain man only as "Augustine."

A horse at hard work normally consumes about 1 1/2 pounds of grain daily per 100 pounds live-weight.

MOTHERS ARE RESPONSIBLE

The family looks to you to aid your doctor in keeping them well. You can help prevent much illness and poor health by guarding them from constipation.

Most constipation comes from faulty diet—meals low in "bulk." This condition can be corrected so easily and pleasantly.

Kellogg's ALL-BRAN provides the safe way to prevent constipation by putting "bulk" back in the diet. Within the body, ALL-BRAN absorbs twice its weight in water, forming a soft mass which gently sponges out the system.

Kellogg's ALL-BRAN also furnishes vitamin B and iron. It is so much better for your family than constant dosing with artificial pills and drugs.

Two tablespoonfuls daily as a cereal with milk or cream, or in recipes, are enough for the average person. Three times daily in severe cases.

Sold at all grocers—and guaranteed by Kellogg in Battle Creek.
