PRICE FIVE CENTS

HOLMES TO BEGIN NEW DUTIES HERE

Names of Love and Braly Likely to Appear On Ballots of Gray

FAULKNER TO PRINT BALLOTS LIKELY TODAY

Time for Casting of Absentee Votes Is Here

BRALY HEARING IS POSTPONED

Senator's Statement Is Probably Without Results

Unless there is immediate notification to the contrary, the names of Tom Love for Lieutenant-Governor and Clifford Braly for district attorney of the 31st district will appear on Gray county ballots, according to Siley Faulkner, county Democratic chairman.

At a hearing yesterday in Miami no decision was reached on allowing or rejecting the name of Mr. Braly for district attorney. Attorneys for him and for the plaintiff, Walter Allen, opposition candidate who charges Braly is not a resident of the district, disagreed over points of law involved, especially relating to the jurisdiction of district court. Judge Reese Ewing postponed a decision until Thursday morning at 9 o'clock, when the case will be re-opened.

Mr. Faulkner indicated his belief that further delay in printing the ballots, thereby depriving many persons of absentee votes, would be unwise. In the absence of any injunction, he sees nothing left for him to do but to print the ballots as the first primary indicates. W. D. Fisher, district chairman, who lives at Canadian, is in Colorado on a vacation trip.

The certified list of state candidates received this morning, contains the name of Tom Love, who, although announcing his withdrawal from the race, probably has made the statement to late to keep his name off the ballots.

Names to appear on the ballots:

- District Attorney, 31st district—Clifford Braly, Walter Allen (unless court action to contrary).
- U. S. Senator—Tom Connally, Earle B. Mayfield.
- Lieutenant-Gov.—Thos. B. Love, Barry Miller.
- State Superintendent—W. F. Garner, S. M. N. Marrs.
- Commissioner General Land Office—J. T. Robinson, Otis Terrell.
- Sheriff and Tax Collector—E. S. Graves, S. A. Hurst.
- County Commissioner, Precinct 1—John E. White, M. B. Davis.
- County Commissioner, Precinct 2—Lewis O. Cox, W. A. Taylor.
- County Commissioner, Precinct 3—Thos. O. Kirby, H. G. McCleskey.
- Constable, Precinct 2—G. H. Parrish, Herman Wachtendorf.

WHITE DEER IS GIVEN CHARTER

Lions Club Meeting Is Presided Over by Pampa Man

WHITE DEER, Aug. 15.—(Staff Special)—In a banquet program presided over by Ivy E. Duncan, president of the Pampa club, the newly organized White Deer Lions club received its charter last night from the hands of G. G. McBride of Borger, deputy district governor.

In his presentation address, Deputy Governor McBride stressed the idea of community service and placed special emphasis upon the helping of crippled children. COUNTY WILL LET HIGHWAY AND COURTHOUSE CONTRACTS

Two important contracts will be let by the county commissioners tomorrow. The first and most important will be the awarding of the contract for the erection of the new Gray county courthouse on the property recently purchased south of the Central high school building.

It is expected that more than a score of the best contractors in the State will be represented to bid for the job. According to the plans drawn by W. R. Kaufman, local architect, the building is to be four-story stone structure, 86 feet long by 120 feet wide. It will be erected in the center of a 120 by 300-foot lot. The building will cost more than \$200,000.

The second contract to be let is for the grading of six miles on the Borger road for paving, following the bond election.

At least six contractors will bid for the job.

Raskob Narrowly Escapes Death as Elevator Falls

NEW YORK, Aug. 15.—(P)—John J. Raskob, Democratic national chairman and a half dozen others of Governor Smith's campaign advisory cabinet, had a narrow escape last night when an elevator in which they were riding fell more than two floors and imprisoned its occupants twenty stories above the ground for almost an hour.

Those riding with Raskob included Advisory Committee Chairman Senator Gerry of Rhode Island and Mrs. Gerry, Senator Burton K. Wheeler of Montana, Colonel Herbert H. Lehman, campaign finance director, Senator Pat Harrison of Mississippi, Congressman Parker Corning of New York, and Dr. and Mrs. Henry Moskowitz.

The party was descending in an elevator at the Sagoy Plaza Hotel. The car failed to stop at the twenty-third floor and fell until it was halted by mechanical safeguards between the 21st and 22nd floors. Raskob and Senator Gerry were imprisoned in the car for half an hour and the other occupants were not released for almost an hour.

Miss Bonnie Jo Poole visited friends in Miami yesterday afternoon.

LEGION HEARS COOLIDGE TELL ANTI-WAR PLAN

President Sees Hope in Coming Meeting of Nations

EXECUTIVE IS OFTEN CHEERED

Airplanes Join Vets In Demonstration Today

WAUSAU, Wis., Aug. 15.—(P)—Facing an audience of veterans of the world war at the Wisconsin state convention of the American Legion, President Coolidge held up today the pending international meeting outlawing war as the greatest promise of peace ever given humanity, adding that such a pact in 1914 would have prevented the conflict which engulfed the world.

Reaching Wausau after an overnight trip from Superior to find himself the center of an orderly but hearty demonstration that swept him from the station to the speakers stand at the speakers stand at Marathon park, the chief executive spoke of his government's intense desire for peace. He proclaimed the United States' utter lack of aggressive intentions toward any people, citing his endorsement of the anti-war covenant as testimony of his good faith when claiming for the American military establishment non-combatant purposes.

Six airplanes from the first pursuit group at Selfridge field, Mich., circled in battle formation about the city as the official train drew into Wausau. Their roar mingled with the booming of the 21 guns, the presidential salute.

The chief executive was standing on the rear platform when the train stopped. After a quick glance at the flag and banners which decorated the station and a quick wave to the cheering crowd, Mr. Coolidge helped Mrs. Coolidge from the train and met the reception committee.

At Marathon Park, Governor Fred R. Zimmerman awaited the chief executive on the speaker's platform. Behind him and around the speaker's rostrum and in the immense concrete grandstand was a great throng. After shaking Gov. Zimmerman's hand, Mr. Coolidge, with Mrs. Coolidge beside him, responded to deafening ovation. Both them waved and smiled.

Rev. Straton Says Church No Place For Smith Debate

GREENWOOD LAKE, N. Y., Aug. 15.—(P)—The Rev. John Roach Straton, pastor of Calvary Baptist church, threatens that if Governor Smith refuses to meet him in debate anywhere except in his church he will hire the largest hall he can find and repeat the sermon which brought on their controversy.

The governor wrote to Dr. Straton asking for a "yes" or "no" answer to his request for a hearing in Calvary church where the minister first made the charge that the governor was "the deadliest foe in America today of the forces of moral progress and true political wisdom."

Dr. Straton, who had not yet received the letter, said that for obvious reasons which he had previously advanced he could not meet the governor in Calvary church. These reasons are cited by Dr. Straton: that a one cited by Dr. Straton: that a church was no place for the holding of a political debate and he believed the edifice would not hold all who would wish to attend.

Exhibit May Be Sent to Amarillo Fair From Gray

F. P. Reid, one of the directors of the Tri-State Fair association today received a message from R. T. Emmett, secretary of the association, asking if Gray county would have an exhibit at the Tri-State Fair this year. The Amarillo fair will be held September 22 to 29.

Mr. Reid stated that in all likelihood Gray county would have an exhibit at the fair, but that a definite announcement would be made later. George W. Briggs and Mr. Reid will visit McLellan, Alameda, and other points in the county this week in the interest of the fair and will then notify the secretary of the association regarding the county exhibit.

The Gray county exhibit won a \$100 prize at the fair last year with only a short time for preparation.

"We will do better this year as we will have more time to make out selections of articles to be shown," Mr. Reid said this morning.

District Attorney at Laredo Fired Upon Four Times

LADEDO, Aug. 15.—(P)—A slight deviation in the usual route of his evening stroll probably saved the life of District Attorney John A. Valls last night when he was fired upon four times.

Instead of walking down an arroyo and up the opposite bank, Valls, for some reason which he could not explain today, crossed a railroad trestle which spans the canyon. He was in the center of the trestle when four shots rang out from directly beneath.

One bullet passed through his coat and three others whined close by. As Valls reached for his own pistol, he saw two men flee into the underbrush.

District Attorney Valls, who has established a record for convictions over a score of years, recalled today that he had received several warnings not to take his evening walks alone.

Mr. Valls recently figured in a controversy at Laredo which followed the arrest of a Mexican during a political meeting and which brought a threat from the consul general at San Antonio to remove the Mexican consulate at Laredo to Eagle Pass.

The Mexican, who was questioned by Valls, said he knew no reason for his arrest. Officers said he made remarks during the meeting which warranted his arrest. Valls refused to comment on the incident until called upon for a report by the United States government.

DOUGLASS HAS RESIGNED HIS ATTORNEYSHIP

Moody Names Elected Candidate for Position

THIS ACTION WAS REQUESTED

Stinnett Lawyer Assists Carson Grand Jury Temporarily

That J. A. Holmes, appointed last night by Governor Dan Moody to become 34th district attorney to replace Curtis Douglass, resigned, has left the state on a vacation and cannot assume his new duties at once was reported by the Borger bureau of the Pampa Daily News at press time today.

It was said at Mr. Holmes' Borger office that John Buckley, an associate, would temporarily fill the position by appointment of Judge Newton P. Willis.

When 34th district court convenes here Monday it is understood that J. A. Holmes may take over his appointment as district attorney.

Mr. Holmes was appointed late yesterday by Governor Moody following the resignation earlier in the day of Curtis Douglass, Mr. Douglass, who talked to Governor Moody by telephone, resigned in favor of his political opponent in the first primary, who defeated him. The newly appointed district attorney would have assumed the office in January anyway by virtue of his election.

Thus Mr. Holmes resumes the work he resigned as district attorney of the 31st district just before the new, 34th district, was created. Douglass was appointed district attorney of the 24th district and held it through the stormy period of Borger's law enforcement problem, then repulsed efforts of Governor Moody and others to oust him.

In resigning, Mr. Douglass said that he was respecting the will of the people of the district, who by their vote indicated they favored his retirement in favor of Holmes. The court is in session now at Panhandle. When the district attorney made known his intention of resigning, Judge Willis appointed Travis Lackey, Stinnett attorney, to assist the grand jury during the remainder of its session.

AMARILLO, Aug. 15.—(P)—Residents of River Road, a truck farming community, have presented a claim for \$393,000 against the City of Amarillo for damage alleged to have been done crops and homes by floods. The city storm sewers empty into a small creek which flows through the district, and residents claim the emptying of storm waters during recent heavy rains caused a flood which swept away their crops.

NEW YORK, Aug. 15.—(P)—The Munson line passenger steamer Munson, which went aground near Great Abaco, Bahamas, last Sunday, was floated yesterday and had arrived at Nassau, officials of the line, said today. The steamer, from which the passengers had been removed on Monday, will remain at Nassau pending an examination. She was bound from Miami to Nassau when she struck a storm.

TWINKLES

The street gang is doing some fine work, but we wish it would round the corners of the depression left when intersection walks are removed.

It is our contention that one ought to be able to drive anywhere on Pampa streets without losing a piece of ice off the running board.

We are informed that work is being done toward re-naming and numbering Pampa's streets and houses. At least we know there is oral progress and that local people are still waiting for it to be done.

There may not be a gold spike in the new Santa Fe line, but it is going to mean a lot of gold dollars to local firms.

We are awfully ignorant about Uncle Sam's new, smaller dollar bills, and will appreciate it if readers would send us a few when the things come out.

One way to be a good loser is to withdraw before being stepped upon, intimates Tom Love. Love is saving himself, but not his love, for Al Smith.

Hoover may be a great man, but he won't open his mouth to reporters for fear of putting his foot in it.

He knows himself better than anyone else, however. Some men get started putting their foot in their mouth while babies and never get over it. And the older they get the less amusing it is to their fellows.

And have you noted how humans depreciate in importance in proportion to weight from birth into the next decade?

One of the marvels of the age is how persistent restaurateurs are in preparing and of feigning food that very few people ever touch.

The Man of Galilee was quick to point out people's errors and quick to forgive. Too many modern critics talk behind their victims' backs and never seek an explanation or give opportunity for corrections or forgiveness.

No Ballots—No Votes. The time is here for absentee voting, but due to lack of certification from the state committee, the ballots have not been printed. Litigation growing out of the status of "bolters" has added to the red tape which always surrounds absentee balloting, with the result that many persons will find it difficult to express their will in the second primary.

The present laws on absentee voting were drafted before the automobile made vacations a matter of annual habit. It is going to be necessary, therefore, to revise these laws as soon as possible. Whereas a handful of voters formerly

were apt to be away at primary time, now it is not unusual for hundreds to be vacationing. The fact that the primaries occur in July aggravates the matter.

It might easily happen, in a close run-off, that the votes of these who found it inconvenient to cast their ballots would overturn the election result. This, of course, should not be possible, for the majority should decide.

Moreover, if the method of absentee voting could be simplified it would encourage greater use of the franchise. It is easier to get married, file a law suit, get a divorce, trade automobiles, or get an injunction than it is to cast an absentee ballot. The restrictions have been placed about the method of prevent fraud, but, as it often happens when this is done, the red tape discourages voting.

Ineligibility Matrimonial

We have always thought it illogical that so many colleges profess to inculcate good morals, common sense, and individual intelligence, yet will not trust their subjects until after graduation. In other words, off the day after commencement the institutions will recommend a student for most anything; on the previous day they keep him under the rigid undergraduate rules which belie the assumption that he is able to take care of himself without a guardian.

Baylor has a rule against marriages, one of its ramifications being that if an athlete marries he is automatically suspended from athletic competition for a year. As a result of this ruling, Ed "Ox" Keyes, star full back, will be lost to the university which sorely needs his talent.

The intention of the rule against marriages is a good one, yet it is conceivable that there are instances in which marriage would be but natural and desirable. While many students are very young, others are well into maturity and some are nearing middle age. The uniformity of the Baylor rule seems out of keeping with modern tendencies in education.

Auditorium Necessary

A city without an auditorium cannot be known as a convention city. Fortunately for Pampa at this time, the Plamor auditorium has sufficient floor space to accommodate the crowds which attend the average district meetings.

While it is not advisable to launch a drive this year to build a city auditorium, the New Pampa must keep in mind the very evident need and act progressively when the right time comes.

The new dollar bills are going to be a third smaller than the ones we've been using. And they will undoubtedly be just as hard to stretch, too.

CAPITOL News

By RODNEY DUTCHER, NEA Service Writer

WASHINGTON—The Kellogg multilateral anti-war treaty, while attacked in some foreign quarters as more likely to promote war rather than discourage it, is nevertheless a source of hope to most of the American peace societies.

They are willing to cheer for the moment and attempt later to use the treaty as the basis for more definite and concrete measures against war.

Secretary Kellogg's own assurance that the original text of the treaty would stand alone and that his liberal interpretations of it were in no way a part of the pact and could not be considered as reservations, has, if it has not exactly cleared the air, at least quieted the fears of some peace movement leaders that the new covenant itself would leave a large gateway to war wide open.

One even hears the idea expressed that Mr. Kellogg has at last actually been converted to the war outlawry cause by Senator Borah and it is thought that the venerable Secretary of State may have an eye on the Nobel peace prize.

The hope that gradual disarmament may follow the signing of the Kellogg treaty, receiving impetus from it, is naturally uppermost in the minds of the peace movement. The Irish branch of the Women's International League for Peace and Freedom long since got on the job with a campaign to press upon the envoys to the Paris signing party the desirability of beginning to plan for disarmament at once.

Secretary Kellogg and all the other signers are consequently receiving petitions from the league, which holds forth in 25 nations, demanding worldwide disarmament.

All branches of the league promptly accepted the Irish suggestion. The league has 50,000 members and Jane Addams of Chicago is its international president. A number of prominent women are active in the United States section.

Miss Dorothy Detzer, executive secretary of the American branch, has been panning Mr. Kellogg and the State Department as often as anyone was shot in Nicaragua, but is now enthusiastic over the Kellogg treaty.

"It will hereafter be much more difficult," says Miss Detzer, "to railroad the country into war. I think the treaty will definitely help the cause of peace and see no logic in any suggestion that there is anything in it tending to condone any variety of international conflict. In the past we have been

preparing for war. Now it looks as if we were going to prepare for peace.

"We won't ever get disarmament until we get some kind of faith in the international machinery for the preservation of peace. The Kellogg treaty seems bound to strengthen the existing machinery. In all law it is necessary to declare the law. Now we are going to know just what the attitude of the nations of the world is toward war."

Miss Detzer says peace sentiment is on the rise. She points to the course of the State Department in publishing a pamphlet explaining our policy and action in Nicaragua, prepared after many inquiries from school pupils who couldn't understand what all the shooting was for. The peace movement is now especially strong in England which has suffered severely in the post-war period.

"Elimination of war is inevitable and it may come in our own day," Miss Detzer says. Meanwhile, we are willing to encourage all steps toward peace, big or little. We feel strongly and keenly about the terrible things that have been happening in Nicaragua. But when Mr. Kellogg gives us something like this peace treaty we are willing to regard it as an instrument of use in attaining the ultimate goal."

Cleveland gunmen murdered another man who wouldn't pay him a \$35 debt. His methods are a bit strong, but there's a future for that man in the collection agency field, at that.

What with Mr. Tunney leaping off into matrimony, it begins to look as if Colonel Lindbergh is just about the only really distinguished bachelor this country has left.

Lowenstein, the Belgian financier whose estate shrank so terrifically just before his death, leaves only \$40,000,000 to his wife and children. Don't you like the way we're able to say "only \$40,000,000"?

New York has found out that its prevailing winds are four miles an hour faster than Chicago's. Chicago might have to surrender the title of "Windy City" if it didn't still have Big Bill Thompson.

Hoover Really Is Very Friendly Man

STANFORD UNIVERSITY, Cal., August 15.—(AP)—Californians who have known Herbert Hoover since his school days find it difficult to understand how the public generally has gained a picture of the Republican presidential candidate as an aloof, impassive man. Mrs. Smith Will Make Few Trips

ALBANY, N. Y., Aug. 15.—(AP)—In support of her preached and practiced theory that a mother's place is in the home, Mrs. Alfred E. Smith, wife of the Democratic presidential nominee, announced today she will not accompany her husband on all his campaign trips.

Mrs. Smith believes earnestly that her greatest service to her husband is to make his children happy, and to maintain an easy, comfortable household into which he can step from the welter of state and political business.

Report of Poison Closely Followed by Friends of Belgian

PARIS, Aug. 15.—(AP)—An unofficial report that toxic matter had been found in the viscera of Captain Alfred Lowenstein, Belgian financier, today added to the mystery which has surrounded his death.

Members of the Lowenstein family had requested that an exhaustive examination of Captain Lowenstein's body be made after it was found on July 19 in the English channel into which the Belgian had fallen from his private airplane on July 4. It was stated their object was to make impossible the cropping up in the future of sensational and fantastic stories about the banker's end.

TWINKLES

The street gang is doing some fine work, but we wish it would round the corners of the depression left when intersection walks are removed.

It is our contention that one ought to be able to drive anywhere on Pampa streets without losing a piece of ice off the running board.

We are informed that work is being done toward re-naming and numbering Pampa's streets and houses. At least we know there is oral progress and that local people are still waiting for it to be done.

There may not be a gold spike in the new Santa Fe line, but it is going to mean a lot of gold dollars to local firms.

We are awfully ignorant about Uncle Sam's new, smaller dollar bills, and will appreciate it if readers would send us a few when the things come out.

One way to be a good loser is to withdraw before being stepped upon, intimates Tom Love. Love is saving himself, but not his love, for Al Smith.

Hoover may be a great man, but he won't open his mouth to reporters for fear of putting his foot in it.

He knows himself better than anyone else, however. Some men get started putting their foot in their mouth while tables and never get over it. And the older they get the less amusing it is to their fellows.

And have you noted how humans depreciate in importance in proportion to weight from birth into the next decade?

One of the marvels of the age is how persistent restaurateurs are in preparing and of fering food that very few people ever touch.

The Man of Galilee was quick to point out people's errors and quick to forgive. Too many modern critics talk behind their victims' backs and never seek an explanation or give opportunity for corrections or forgiveness.

No Ballots—No Votes. The time is here for absentee voting, but due to lack of certification from the state committee, the ballots have not been printed. Litigation flowing out of the status of "bolters" has added to the red tape which always surrounds absentee balloting, with the result that many persons will find it difficult to express their will in the second primary.

The present laws on absentee voting were drafted before the automobile made vacations a matter of annual habit. If it going to be necessary, therefore, to revise these laws as soon as possible. Whereas a handful of voters formerly

were apt to be away at primary time, now it is not unusual for hundreds to be vacationing. The fact that the primaries occur in July aggravates the matter.

It might easily happen, in a close run-off, that the votes of these who found it inconvenient to cast their ballots would overturn the election result. This, of course, should not be possible, for the majority should decide.

Moreover, if the method of absentee voting could be simplified it would encourage greater use of the franchise. It is easier to get married, file a law suit, get a divorce, trade automobiles, or get an injunction than it is to cast an absentee ballot. The restrictions have been placed about the method of prevent fraud, but, as it often happens when this is done, the red tape discourages voting.

Ineligibility Matrimonial

We have always thought it illogical that so many colleges profess to inculcate good morals, common sense, and individual intelligence, yet will not trust their subjects until after graduation. In other words, on the day after commencement the institutions will recommend a student for most anything; on the previous day they keep him under the rigid undergraduate rules which belie the assumption that he is able to take care of himself without a guardian.

Baylor has a rule against marriages, one of its ramifications being that if an athlete marries he is automatically suspended from athletic competition for a year. As a result of this ruling, Ed "Ox" Keyes, star full back, will be lost to the university which sorely needs his talent.

The intention of the rule against marriages is a good one, yet it is conceivable that there are instances in which marriage would be but natural and desirable. While many students are very young, others are well into maturity and some are nearing middle age. The uniformity of the Baylor rule seems out of keeping with modern tendencies in education.

Auditorium Necessary

A city without an auditorium cannot be known as a convention city. Fortunately for Pampa at this time, the Plator auditorium has sufficient floor space to accommodate the crowds which attend the average district meetings.

While it is not advisable to launch a drive this year to build a city auditorium, the New Pampa must keep in mind the very evident need and act progressively when the right time comes.

The new dollar bills are going to be a third smaller than the ones we've been using. And they will undoubtedly be just as hard to stretch, too.

CAPITOL News

By RODNEY DUTCHEE, N.E.A. Service Writer

WASHINGTON—The Kellogg multilateral anti-war treaty, while attacked in some foreign quarters as more likely to promote war rather than discourage it, is nevertheless a source of hope to most of the American peace societies.

They are willing to cheer for the moment and attempt later to use the treaty as the basis for more definite and concrete measures against war.

Secretary Kellogg's own assurance that the original text of the treaty would stand alone and that his liberal interpretations of it were in no way a part of the pact and could not be considered as reservations, has, if it has not exactly cleared the air, at least quieted the fears of some peace movement leaders that the new covenant itself would leave a large gateway to war wide open.

One even hears the idea expressed that Mr. Kellogg has at last actually been converted to the war outlawry cause by Senator Borah and it is thought that the venerable Secretary of State may have an eye on the Nobel peace prize.

The hope that gradual disarmament may follow the signing of the Kellogg treaty, receiving impetus from it, is naturally uppermost in the minds of the peace movement. The Irish branch of the Women's International League for Peace and Freedom long since got on the job with a campaign to press upon the envoys to the Paris signing party the desirability of beginning to plan for disarmament at once.

Secretary Kellogg and all the other signers are consequently receiving petitions from the league, which holds forth in 25 nations, demanding worldwide disarmament.

All branches of the league promptly accepted the Irish suggestion. The league has 50,000 members and Jane Addams of Chicago is its international president. A number of prominent women are active in the United States section.

Miss Dorothy Detzer, executive secretary of the American branch, has been panning Mr. Kellogg and the State Department as often as anyone was shot in Nicaragua, but is now enthusiastic over the Kellogg treaty.

"It will hereafter be much more difficult," says Miss Detzer, "to railroad the country into war."

"I think the treaty will definitely help the cause of peace and see no logic in any suggestion that there is anything in it tending to condone any variety of international conflict.

"In the past we have been

preparing for war. Now it looks as if we were going to prepare for peace.

"We won't ever get disarmament until we get some kind of faith in the international machinery for the preservation of peace. The Kellogg treaty seems bound to strengthen the existing machinery. In all law it is necessary to declare the law. Now we are going to know just what the attitude of the nations of the world is toward war."

Miss Detzer says peace sentiment is on the rise. She points to the course of the State Department in publishing a pamphlet explaining our policy and action in Nicaragua, prepared after many inquiries for light had been received from school pupils who couldn't understand what all the shooting was for. The peace movement is now especially strong in England which has suffered severely in the post-war period.

"Elimination of war is inevitable and it may come in our own day," Miss Detzer says. Meanwhile, we are willing to encourage all steps toward peace, big or little. We feel strongly and keenly about the terrible things that have been happening in Nicaragua. But when Mr. Kellogg gives us something like this peace treaty we are willing to regard it as an instrument of use in attaining the ultimate goal."

Big Oil Merger Now Rumored as Officials Meet

LONDON, Aug. 15.—(AP)—Reports of an impending major consolidation in the petroleum industry are current.

The Daily Express says two outstanding figures in the oil trade, Sir Henri Deterding, director general of the Royal Dutch Petroleum company, and Walter G. Teagle, president of the Near East Development corporation, are sojourning at Anchacurry castle, Invernesshire. A number of oil officials including Sir John Cadman, chairman of the Anglo Persian Oil company and a director of the Suez Canal company, have also arrived at the castle or are in the neighborhood.

Attempts to get information about conferences have met with rebuffs. Both Sir Henri and Mr. Teagle have announced they came to "shoot, fish and forget about oil."

The Near East Development corporation is a holding company formed to participate in the development of the Mosul Oil concession obtained from the Kingdom of Iraq. Mosul is regarded by oil men as one of the most promising areas for oil development in the world.

The corporation owns 23.75 per cent of the stock of the Turkish Petroleum corporation, which is the company having charge of the development. Two other oil companies reported to be participating in the conferences own 23.75 per cent each. These are the D'Argy Exploration company, Ltd., representing the Anglo Persian or British group and the Anglo Saxon Petroleum company, Ltd., a subsidiary of the Royal Dutch-Shell group.

Many Men Await Death Hour, When Lives Are Forfeited

HUNTSVILLE, Aug. 15.—(AP)—Once more the Texas "death hour" at the State penitentiary in Huntsville is overflowing with condemned men who are waiting in the small box like cells on death row for the time when they will be marched through the "little green door" to an adjoining room where they will execute their crimes with their lives.

The condemned group is composed of five white men, three Mexicans and one negro.

Clement Rodriguez and Siquel Serbin, Mexicans from San Antonio, will go first. Their time for execution has been set for August 21. The two were arrested for a series of attacks on high school girls in San Antonio. Three such attacks occurred within little more than a month. Three Mexicans were arrested and Rodriguez pleaded guilty, asking for mercy July 7, 1927. The jury gave him the death sentence. Serbin then pleaded guilty and was convicted and given the death penalty on July 9. On July 11 the third prisoner, Enrique Mendoza, pleaded guilty to robbery and was given a life sentence, which he is serving.

Bill Smitn who was given the supreme penalty for the slaying of a Fisher county sheriff and his deputy, is scheduled to "go" this month. He has received several stays of execution. Captain E. F. Harrell, warden of the penitentiary, declared that he believed Smith was insane.

Juan Flores, Mexican from San Antonio, who was sentenced to die for the fatal stabbing of a 15-year-old Mexican boy, is scheduled to "go over" Aug. 30. Six times Flores has been snatched from the chair since his confinement in "death row" by stays from Governor Moseley.

J. R. "Bob" Silver, white man from Fort Worth, is the latest addition to the "legion of the condemned." He was placed in his cell Wednesday. His date to die has been set for September 2. Silver was an accomplice with W. A. Stone in the robbing of the Majestic theatre in Fort Worth last year, when Roscoe Wilson, employe of the theatre was killed.

Fatal Assaults in New York Puzzling

NEW YORK, Aug. 15.—(AP)—Fifteen-year-old Mary Areni walked into a police station today and admitted she had shot Sadferio Pantellina, a peddler, four times her age, as he sat on the porch of an east side tenement last evening.

Mary said Pantellina had taken advantage of her. She fired five shots at the man, one of which took effect in his left side.

He was taken to a hospital where his condition was said to be serious.

NEW YORK, Aug. 15.—(AP)—A 15-year-old girl and her father were being sought by police today as assailants of a 59-year-old peddler who was shot down as he sat on the steps of an east side tenement.

Saferina Pantellina, the victim, was in a serious condition at a hospital with a bullet wound in the abdomen. No motive for the shooting could be learned by police.

Two other mysterious assaults, both fatal, occupied attention of the police. The father of a family of five was shot to death by three unidentified men as he emerged from an apartment house in the Bronx, while in a vacant lot in Brooklyn a truck driver was found dying from a terrific beating.

Smith Speech Only One Week Away

ALBANY, Aug. 15.—(AP)—A week from tonight Governor Alfred E. Smith will inform the nation where he stands on what he believes to be issues of the day.

The notification exercises will thrust the Democratic presidential nominee into the real campaign for the presidency, and there is every indication that he is anxious to get them over with so that he can begin his campaign with the acceptance speech as his chief background.

No speaking itinerary has been mapped out for the governor beyond the notification ceremonies and it is doubtful whether the campaign will actually get under way before labor day.

GENEVA, Aug. 15.—(AP)—The Central American republic of Costa Rica wants the League of Nations to interpret the Monroe Doctrine before deciding whether to accept or reject an invitation from the League council to resume league membership.

Plane Stunting Ends in Death of Two

TILTONVILLE, Ohio, Aug. 15.—(AP)—An attempt by the pilot of an airplane to give his passengers a thrill during a pleasure ride today was believed responsible for the plunge of a large cabin plane into the Ohio river near here last night, carrying two men—the pilot and a passenger, to their deaths. Three other passengers escaped.

August P. Hauke, 35, pilot, of Rosedale, L. I., and George Giffin, 35, of Bridgeport, O., were those killed. Hauke and Giffin it was found when their bodies were removed from the submerged plane some hours later, were badly hurt when thrown against the instrument board. Whether their injuries or drowning caused death was undetermined.

The other three men, in rear seats, broke windows and crawled from the cabin. Two of them—Harry Duncan, 23, and William Machin, 26, both of Martins Ferry, O., swam to shore. Joseph Duncan, 47, father of Harry Duncan, injured his shoulder in shattering a window and was aided to shore by a boatman who was near where the plane plunged.

Intentional Pass Brings Disaster as Weak Batter Hits

By HUGH S. FULLERTON, Jr., Associated Press Sports Writer

The intentional pass may be a good thing at times, but there are also times when it may prove a boomerang. Helmsch, the Yankees' newly acquired pitcher, made that discovery yesterday.

Helmsch and Adkins of the White Sox had been staging an old fashioned pitchers' battle. Babe Ruth had given the Yankees one run in the first with his 44th homer of the season. In the third the White Sox had tied the count. Helmsch weakened a bit in the eighth, letting two runs across in the plate on three hits, but the Yanks staged a short rally in their half of the inning that netted a run and kept them in the picture.

Then came the tragic ninth. Cissell opened the inning for Chicago with a single and advanced to second on Berg's sacrifice. Adkins made it two out with a fly. In this position the Yankee board of strategy decided to pass Mostil and give George Redfern, rated one of the weak hitters of the league, a chance to make the third out. The supposed weak hitter, promptly confounded this strategy by leaning on the first ball pitched for a triple that sent Cissell and Mostil across the plate and put the game safely away. The final count was 5 to 2 in favor of the White Sox.

The Athletics allowed themselves to be thrown to no gain by Detroit, led by Vangilder. The Detroit pitcher held the Philadelphia bats to nine scattered hits and the Tigers won by a 4 to 1 score.

In the other American league games Jones had a stingy day and gave the Browns only four hits, which failed to get them a run while Washington batters were crossing the plate three times, and Uhl did a somewhat similar feat for the Indians giving them a 2 to 1 victory over the Red Sox.

The Cardinals and the Giants in the National league reversed the Yankee-Athletic situation. Both won, and St. Louis clung to its precarious 2 to 1 game lead. Alexander gave the Braves only seven hits while the Cards batted out a 6 to 1 victory.

The Giants batted Chicago to win, 10 to 2.

The race for third place in the national league also remained unchanged, by handing the Robins a second straight 0 to 4.

Junior League of American Legion Is Having Big Series

FORT WORTH, Aug. 15.—(AP)—Boys baseball clubs from four states met here today for a two-day series to determine the championship of the Southwest. The games are a part of the national elimination in the junior baseball race sponsored by the American Legion.

The Pomby Lions of San Antonio champions; the Arkansas champion from Blytheville, the Shreveport Y. M. C. A. team, Louisiana victors, and Oklahoma City, champions of the Soonie state, are the contesting teams.

S. R. Kemp, assistant to the national director of Americanism of the Legion, is here for the tournament.

Hunter With Tilden In Tennis Revolt

NEW YORK, Aug. 15.—(AP)—Francis T. Hunter of New Rochelle, N. Y., second ranking American tennis player, has joined his doubles partner, "Big Bill" Tilden, in the battle of the United States Lawn Tennis association unless Tilden receives an invitation to play in the annual East-West matches at Forest Hills Friday and Saturday. Hunter will not take part in them, he announced yesterday.

Tilden, who still is at odds with the U. S. L. T. A., over the charges of professionalism pending against him which will not be settled until August 22, was not invited to represent the East in the matches, although he is eligible to play in tournaments until he is tried and proved guilty.

Gymnasium Is Well Under Way

The structure will cost approximately \$20,000.

SEEK ORIENTAL COMPROMISE

LONDON, Aug. 15.—(AP)—A Reuters dispatch from Mukden, Manchuria, says the critical situation caused by Japan's stand against reconciliation between Chinese Nationalists and Manchuria seems likely to be settled by compromise. Manchuria would undertake not to host the Nationalist flag for three months, after which Japan would agree not to interfere.

'TEX' HIDES AS HEAVIES CHARGE; EACH CONTENDER IS LOUD SPEAKER

Loquacious heavyweight boxers have driven Tex Rickard into hiding. He is expected to emerge shortly with definite plans to accommodate a big delegation of ambitious fighters, including Luis Angel Firpo, who seek a crack at Tunney's vacated title. Meanwhile the only sign of actual ring action has been shown by Sharky and Risko. Sharky meets Pierre Charles in Detroit, August 22, and Rickard engages Roberto Roberti in Brooklyn, August 15.

NEW YORK —(AP)—Here they come! The thundering herd of heavyweight prize fighters is pounding down into view making more noise about their individual and collective claims for Gene Tunney's vacated title than a mass of thirst-crazy buffaloes headed for the desert waterhole.

Warning of the impending stampede came from the plains of the Argentine. It was in the form of an announcement from Luis Angel Firpo. "Wild Bull of the Pampas," that he would begin training immediately to fight his way into position as the outstanding title claimant.

Acting by intuition, Tex Rickard, master promoter, escaped to an isolated golf course where he will remain until some sort of order is made of the chaos reigning among the behemoths of the ring.

Meanwhile those in a position to do a bit of preliminary ballyhooing areounding off. Here are samples of their thoughts, verbal and written:

"Jack Sharkey can beat the best of them. His decision loss to Tom Heeny was a mere accident. Jack Dempsey had to foul him to beat him."

"Johny Risko can't be denied. Didn't Tunney say he was a great fighter?"

"Tommy Loughran is the master boxer among the light heavyweights and heavyweights. He can outbox 'em 's fast as they throw 'em into the ring."

"Paulino Uzcudun is the best qualified of the lot. He can box and his and 'em has color."

"Knute Hansen is the hardest hitting heavyweight in the ring today. If he had half as much training as Tom Seoney had preparing for Tunney he would be unbeatable."

There's the major speculation ends, but there is always food for thought for the wild eyed ones in the expectation that both Firpo and Jack Dempsey will try to come back. This is the idea that fascinates even Rickard.

While Rickard remains in the back-ground his lieutenants are sorting the names of "title" claimants who will fit in nicely when the drive, heralding the inevitable "elimination" series, begins.

Additional help may come in two pending fights. Jack Sharkey meets Pierre Charles, the Belgian big boy, at Yavin Field, Detroit, August 23, in the first of several minor bouts.

The preceding week Humbert Puzazy, Rickard's metropolitan rival, shows Johnny Risko and Roberto Roberti, the Italian giant, on an Ebbets Field card. Chief interest in this engagement, it seems, rests in the future of Risko so far as it affects Puzazy.

There is talk of the Brooklyn promoter tying up Risko and also Tommy Loughran to contracts, but if Puzazy has no more luck in this arrangement than he had on similar "blocs" attempted last winter he will bether Rickard but little.

Another month or so will expose the next move of the heavyweight herd. The first of the big clashes between the milling contenders probably will

Pampa Grays Will Enter Amarillo Baseball Tournament With Strong Nine-Brace of Good Pitchers Here

The Pampa Grays will invade Amarillo Sunday as one of the teams seeking first honors in the Amarillo baseball tournament. Committees are raising money among the business men and fans of the city, and are meeting with wonderful response, having more than half the quota raised the first two days.

Ed Guber, veteran of the diamond and still one of the fastest men in the game, will pilot the Grays again this year. He has a line-up that should go a long way toward first money. The team took third money last year against some of the best teams in the Southwest and were only hardlucked out of first money.

The Pampa entrance check was mailed today with a note stating that the Grays are out to bring home the bacon.

Guber will take at least six local boys with him and will import the rest. He has secured the services of a pitcher by the name of French who has been the sensation of semi-pro ball throughout Oklahoma this year. He also has Armstrong, a speed ball pitcher who is likely to win a game for the Grays.

Local boys who will be carried along are Hunter, fleet center fielder of the Athletics in the Industrial league, and Weeks, Cahill and Setz of the same team, Clayton of the Roxana nine, Bullock of the Magnolia team, and one or two others not yet chosen.

Spudgers Take 16th Straight and Shreveport Ninth

(By The Associated Press)

The winning streaks of two Texas league baseball teams remained imperious to determined assault yesterday. Shreveport continued a fighting campaign for the ninth consecutive victory and Wichita Falls took its sixteenth straight.

Mentally biting their nails, the Fort Worth Cats pounded out 10 hits to 8 for the Spudgers, but they turned these slams into only two runs while the league leaders, now seven games ahead, eked out seven.

Houston and six—with the Buffs, faltering recently, failed to get them when the time was ripe and the Bears put them down, 3 to 0.

A home town delegation, from Mount Enterprise, up to see Victor Frazier, of the Dallas Steers make good in the city, failed to see it, because young Victory lost to the Sports, 7 to 1.

Haymaking in the first two rounds Beaumont turned savagely on Barnabe, Waco pitcher, and beat his squad, 6 to 3.

Mandell Shows Real Punches in Beating O'Donnell

(By The Associated Press)

JANESVILLE, Wis., Aug. 15.—(AP)—Sammy Mandell never was much of a puncher in the days he was climbing to the world's lightweight championship, but in recent months he has demonstrated there is steam in the lightning left and the accurate right of his, Johnny O'Donnell, of St. Paul found it out here last night, when Mandell stopped him after eight rounds of fighting.

O'Donnell was sent to the hospital in the eighth round, the bell sounding just as the referee had tolled a count of two. The referee examined O'Donnell during the intermission and then announced the fight was over.

Roxana Nine Is Victor in Game With Guber's Team

The fast Roxana Petroleum company nine managed by Duffy Jones, veteran baseball player, met defeat at the hands of Guber's Athletics last night in an Industrial league fixture, 9 to 5. Guber went into the box at the start of the game and for five innings slow-balled the sluggish oil men into submission. Armstrong, one of the boys here to play in the Amarillo tournament, finished the game, but the oil men lived his fast ball and scored their five runs off him.

Ernie Voss pitched a nice game for Roxana, but the breaks were against him, and the Athletics were on their toes snarling from an 11 to 10 defeat in the hands of the Carpenters Sunday afternoon. Clayton caught a nice game for the oil men and helped himself to a three-bagger as well.

Batteries—Athletes, Guber, Armstrong and Lunford, Roxana—Voss and Clayton.

Boys Held in Death of Filling Station Operator

SAN ANTONIO, Aug. 15.—(P)—Two youths, 18 and 22, were held by police Wednesday for investigation in connection with the slaying Tuesday of A. C. Hough, Houston filling station operator.

They were arrested Tuesday night when they tried to buy a meal with postage stamps, about \$50 of which they possessed.

Both admitted Houston was their home.

Col. House Refuses Election Forecast

WENHAM, Mass., Aug. 15.—(P)—Colonel Edward M. House, adviser to President Wilson during the war years, hopes Governor Smith will win but declines to hazard a guess how the election will go.

Colonel House arrived here yesterday to spend a few weeks at the home of his daughter after a trip abroad.

"Governor Smith knows more about government than any man in America," he said. "He is not a lawyer and yet he can debate governmental policies with men like Root and Hughes or anybody and certainly hold his own."

Second Charge Is Placed Against Roy C. Toombs.

CHICAGO, Aug. 15.—(P)—Roy C. Toombs' financial difficulties have almost doubled within a day.

In addition to embezzlement charges involving \$3,652,000 brought against him by examiners of the International Life Insurance company of St. Louis, Toombs' Chicago investment firm of Toombs and Dalley today was under receivership as a result of allegations that he made way with \$2,000,000 of that company's funds.

Two investigators, assigned by Attorney General Shartel of Missouri, are searching bank vaults in several small cities of Illinois in an effort to locate securities reported missing from the insurance company, of which Toombs is president.

The Foreman Trust and Savings bank yesterday was appointed receiver for the Toombs and Dalley company, after Clarence A. Steele, its vice-president, charged Toombs had drawn on the firm for \$2,000,000 last year in his dealings to gain control of the St. Louis insurance concern.

Separate Vacations Suggested To Overcome Martial Friction

LONDON, August 15.—(P)—A man grows weary of a devoted shadow, and he needs the sunshine of a little change.

With this sentence, which means in prosaic language that the husband and the wife should take their vacations separately, the Rev. J. Shepherd of London, has stirred up widespread discussion.

Noted men and women have come out with statements, most of them supporting Mr. Shepherd's contention that a married couple have moments of absence from each other.

George Bernard Shaw declared: "I think Mr. Shepherd is quite right if he means people in the earlier stages of married life. In fact, I think married people should get away from each other whenever they feel inclined. It saves friction."

"Married people, however, get out of the stage when they see too much of each other. After a time the partners do not feel the need for a separation. When people have lived long enough together they do not want to take their holidays apart."

Mrs. Belloc Lowndes novelist, said: "I do not agree with the suggestion. Being old-fashioned, I think husband and wife should spend their holidays together. They ought to enjoy them that way. If they are not happy together when at home I do not see that it will help them merely to take their holidays apart."

Miss May Edginton, also a novelist, declared: "It's a very good suggestion, so long as the wife has her holiday alone too."

The Rev. Frendary Gough said:

"Most of the husbands I know are such busy people that the annual holiday is the only time they have a chance of enjoying their wives' company. They are busy all day and tired at night, having no leisure time to spend with their wives. And then what is to happen to the family? Some married people with an unnecessary amount of leisure may get tired of each other's company, and I suppose for them the suggestion would provide relief, but it is not wanted by the average man and woman."

Prosecuting attorneys expected to receive Shanks' negro bootblack held for Miss Jennie Constance's slaying, has been identified as the "peeping Tom" who proved so annoying in Evanston last February. Shanks recently finished a six-month sentence following charges growing out of one of his "peeping" episodes.

Within a few hours yesterday he was indicted, pronounced sane, and received counsel to secure his legal rights. Before a crowd under close guard he re-enacted for officers the slaying.

Attention, Parents!

Saturday, August 18, we will begin our regular annual Eye Examination and Vision Survey of School Children's Eyes.

Millions of young people quit school early because of some physical handicap; millions of others are retarded in their school work, finally graduating with inferior grades, ill equipped for the battle of life.

These two types become recruits in the great army of misfits—square pegs in round holes—the cause of much of this world's misery. Retarded students retard the work of the entire class and indeed of the whole school, adding immensely to the work of the teacher, thus adding to the burden of the taxpayers. The physically defective child is a burden to the community.

The testing of children's eyes by nurse or teacher is of limited value.

A child might be able to read every letter on the test chart and yet be suffering from nervous exhaustion, due to eye strain. Such cases usually escape the notice of nurse or teacher, and yet they are the ones in greatest need of relief.

WE ARE THOROUGHLY PREPARED WITH SPECIAL EQUIPMENT FOR THE CARE OF SCHOOL CHILDREN'S EYES, and will appreciate it very much if you will bring the children in during the month of August, and thereby relieve the rush which is usual the first part of September.
