LEFORS WELL NOW PROVED AS GUSHER

Detroit News Is Robbed of \$65,000 Payroll by Shotgun Bandits

150 PEOPLE IN BUILDING SEE DARING RAID

Six Men Escape in Battle With Two Officers

NO TIPS ON THIS STORY

Money Obtained From Cashier on Second Floor

DETROIT, June 6.—(P)—Six men armed with sawed-off shotguns held up more than 150 persons in the Detroit News building shortly after 11 a. m. today and escaped in an automobile with a greater part of the newspaper's weekly payroll, the total of which was \$65,000.

Some of the money was dropped in a dash from the building and during a gun fight in the street in which one patrolman was probably fatally wounded.

Leaving their car parked in front of the newspaper plant the robbers dashed up a stairway to the second floor of the newspaper building. Some of them covered the 150 or more employees in the business office with shot guns while others leaped over the top of the cashier's cage and hurriedly scooped up all the money in sight.

Warning the employees to "stand back," the robbers then rushed from the building into the heavy traffic on LaFayette boulevard, where they were engaged in an exchange of shots with two officers. More than a dozen shots were fired. None of the bandits was believed wounded.

More than 150 employees, many of them girls and women, were working at their desks in the business offices on the second floor of the building when the robbers entered.

Jumping upon a counter, one of them shouted orders for everyone to put up his hands. Another stood in the center of the room flourishing a gun. The robbers did not obtain all the money in the cashier's office, and dropped some of the loot as they raced downstairs and out of the building.

George Barstead, a traffic officer on duty at the News corner, was probably fatally wounded, and Patrolman Guyot W. Craig was shot in the foot in an exchange of shots in the street in front of the building.

More than a dozen shots were exchanged in the heavy traffic of LaFayette boulevard while a hundred or more persons looked on from the windows of the News building and from doorways and windows of other buildings.

The robber's car, proceeded down the street in the line of traffic with all four doors open and guns sticking out menacingly.

Joseph Worten, employed in the advertising department, was shot in the right hand and in the leg by the bandits. Worten was in the line of fire in front of the building when Patrolman Barstead was shot. His condition was not serious, hospital attendants said. Witnesses said another man, a bystander, was shot in the street battle, but he was not seriously injured. His name was not learned.

Ads Will Show Many Bargains

For the man who is interested in automobiles the page of advertising of used cars which will appear in the Daily News Sunday will be interesting. Anyone interested in thousands of miles travel at low cost will find it in the used car page.

There will be hundreds of bargains from which to select, any kind of car, some of the new 1928 models, and at the price you will be willing to pay.

Moderator

Dr. Hugh K. Walker of Los Angeles is the new moderator of the Presbyterian church, chosen at the recent general assembly in Tulsa, Okla. Dr. Walker defeated an uncompromising fundamentalist.

SCOUT DRIVES GOING STRONG

All Towns Reach Their Quotas Except Pampa and Borger

Every town in the new Boy Scout council reached or surpassed its associate membership quota yesterday excepting Borger and Pampa, according to reports made to Chairman Scott Barcus last night.

Canadian, Miami, White Deer, and Phillips went over the top enthusiastically.

Pampa's canvassing committee brought in about 75 associate memberships, representing a total of more than \$900 in funds. Less than half the prospects were seen, and more than one-third of the quota was reached. Owing to the fact that the solicitor could not give their entire time to canvassing, and because some of them were called out of the city, it was necessary to give them more time.

A general meeting of committee members of the Buffalo Wallow council will be held here June 14 for the final organization of the territory and to draw up plans for a summer camp. The camp near Claude is opening this week, and boys of the North Plains are asking when they will have a similar opportunity for summer fun and training.

According to Executive E. D. McIver, it is the intention in summer camps to stress merit badge work and to advance each boy one rank.

"In working for a merit badge, the value to the boy lies in the fact that he oftentimes stumbled upon his life work by discovering that work for which he had a craving or which appeals to him. Thus is saved to the world numbers of artisans and skilled men who are fitted to do instead of being engaged in work unproductive of their best talents.

"Boys of Scout age are unfitted to receive military training. General Wood recently said 'Personally, I do not believe we should give the training until the year in which the youth becomes 19. Scout training develops men capable of taking care of themselves, and hence is valuable alike in peace or war.'

CONVENTION DATE SET

CORPUS CHRISTI, June 6.—(P)—The second annual convention of the South Texas Chamber of Commerce will be held at Laredo November 19-20, according to an announcement by Ray Leeman, general manager of the organization. The date was decided upon at a recent meeting of the executive board of the organization.

THE WEATHER

WEST TEXAS—Tonight and Thursday fair.

PERSHING MAY BE USED FOR "DARK HORSE"

General Sails Hurriedly for Kansas City from Paris

HOOVER CROWD VERY CONFIDENT

Fight Over 26 Texas Delegates Ready for Hearing

PARIS, June 6.—(P)—The Paris Herald today said General John J. Pershing had received a sudden call to return home and sailed unexpectedly on the Leviathan yesterday, leaving Paris for Cherbourg in an automobile after the boat trains had departed. General Pershing had been expected to remain in France indefinitely in connection with his work with the battle Monuments commission.

The paper said that the situation at Kansas City was believed by some to be responsible for the general's hasty departure, since he had been mentioned as a dark horse for the Republican presidential nomination.

KANSAS CITY, June 6.—(P)—The drive to clinch the Republican presidential nomination for Herbert Hoover is on, but whether it succeeds depends on the ability of his managers to overcome the many obstacles opponents are placing in his way.

Hoover Nomination Predicted Encouraged by national committee decisions which in the last two days have brought 33 delegates under the Hoover banner, his backers are expressing increased confidence that he can go over on an early ballot.

Although, on the surface, they appeared less active and confident, the commerce secretary's foes today were seeking to reinforce their alignments, determined to go the limit to stop him. The convention will be in full blast a week hence, but at this stage of the preliminaries many of the men who will play a big hand in the selection of the nominee are not yet on the scene.

Lowden is still to come. Curtis of Kansas is an absentee. Mellon, the man who has not yet fully shown his hand, won't be here until Sunday. Leaders of the so-called farm revolt are just beginning to show up.

Until the whole picture is complete, and some of the big unstructured delegates reach the convention city, hold their caucuses and chart their course, the final word can not be written. Even then, many party leaders point out that no national convention is bomb proof against the numerous uncertainties which crop up at any time in political maneuvering.

One of these is considered in some quarters as apt to come to a head as a result of the disappointment expressed in the corn belt over President Coolidge's veto of the Haugen-McNary farm bill. Farm leaders have served notice that they will be on hand to press their claims. But so far there has been very little concrete evidence of their program getting under way.

The bulk of the men who will direct the farm attack are expected before the end of the week, and a special headquarters will be set up in the Ambassador hotel from which strategical moves, aimed largely against Hoover, will emanate.

Hoover Men Confident

No one in the Hoover camp, where there has been activity for days, professes to be worried over the outlook. James W. Good, the Hoover campaign general, in a statement said that national committee decisions, seating Hoover delegates from Florida, Louisiana and Mississippi "will, of course, disappoint anyone who hoped that Mr. Hoover could be robbed of a bloc of Southern Delegates."

"The routing of the national committee," Good declared, "not only assures the nomination of Mr. Hoover, but advances the cause of Republicanism throughout the country."

The success of the Hoover followers (See—"PERSHING" page 6)

Toledo Slayer

Charles J. Hoppe, 26, married and the father of one child, has confessed, according to the police of Toledo, O., that he abducted, attacked and killed 7-year-old Dorothy Sielagowski. Hoppe became intoxicated at a wedding party and kidnaped the girl from her bed room where she slept, police said. The murdered girl was his wife's cousin.

BEAUTY QUEEN AGAIN HONORED

"Miss Chicago" Hailed as Prettiest Girl of "Universe"

GALVESTON, June 6.—(P)—Adjudged the most beautiful of 42 bathing girls, ten of whom were from foreign lands, Miss Ella van Hueson of Chicago, today was beginning her feign as "Beauty Queen of the Universe." She was given that title here last night as the climax and conclusion of Galveston's third annual International Pageant of Pulchritude.

As Miss Dorothy Britton of Jersey City, N. J., "Miss Universe" of the 1927 pageant, placed a gold crown on Miss van Hueson's head, the audience of 2,000 rose to its feet in obeisance to the new beauty queen. Movie cameras clicked and spectators stamped their feet and whistled and shouted their acclaim.

Miss Van Hueson then was presented with a silver plaque engraved to show that she was the "most beautiful among the beauty ambassadors of ten foreign countries and two score American beauties."

"Miss Universe" as she now will be known, was selected as "Miss United States" on Monday night, winning that honor from 31 United States entries. Last night she competed with the foreign contestants.

The selection of the 22-year old girl as "Miss Universe" was unanimous with the seven judges. Other winners from second to tenth respectively were: Raymond Allain, Paris; Livia Marracci, Rome; Mildred Ellene Golden, Denver, Colo.; Audrey Reilly, Charleston, W. Va.; Narene Hill, Calgary, Alberta, Canada; Anna Friedrick, Luxembourg; Mary Horlocker, Columbus, Ohio; Anna Deborow, San Antonio; Helen Paris, Tulsa, Okla.

Only one of the ten winners was a decided blonde—the Denver entry. Miss Van Hueson has light brown hair and hazel eyes and slightly dark complexion. She was one of the tallest entries measuring five feet 2 1/2 and one half inches and weighing 120 pounds.

Three of the girls: Miss Canada, Miss Luxembourg, and Miss San Antonio had bobbed hair. All of the foreign beauties were to leave here today for New Orleans, from which port they will embark for their homes. Miss Van Hueson planned to start her return to Chicago tomorrow.

Wedding licenses were issued last week-end to the following couples; Miss Fannie Mabel Cunningham and T. E. Estham; Miss Reba Kella, and Virgilio Brown, and W. R. Butler and Miss Avis Byfield.

LUCK VANISHED ON LONG TRIP, FLIER ASSERTS

Charles Ulm Declares the Combination of Right Men Won

ISLANDERS HEAR STIRRING RECITAL

Date of Last Hop Is Indefinite—Runways Too Short

SUVA, Fiji, June 6.—(P)—Announcement by flight commander Charles Kingsford-Smith that no decision had been reached as to when the Southern Cross will hop the 1,750 miles to Brisbane, Australia, and a vivid account by co-pilot Charles Ulm of the wild flying that drove the four airmen to the verge of madness on their long hop here from the Hawaiian Islands, were the outstanding features of a banquet in the aviators' honor here tonight.

Captain Kingsford-Smith today inspected a proposed take-off site at Naselai, sixteen miles away, but said he had not made up his mind whether the runway was long enough or when the Southern Cross would resume its flight to Sydney by way of Brisbane.

Ulm made a speech before a large gathering of Fiji officials and citizens tonight at a civic reception and banquet and described a phase of the flight that was fraught with many perils.

Navigator Saved Ship "I am telling you on behalf of myself and 'Smithy' that we would have been very cold meat but for the aid of our two American friends, Harry Lyon, navigator, and James Warner, radio operator."

"Imagine the roar of the plane's 600 horsepower motors, the plane's small cabin defended with the roar of the motors, trying to send and receive radio messages one hundred per cent efficient to points 5,000 miles away.

"Jim Warner possessed no mean skill and was full of courage getting back to the old sea dog again. (Warner was a former steamship navigator.)

"Night before last in the middle of the Pacific, the fates were not with us."

"We struck bad weather. Our job was intricate. The direction was taken from the hands of the navigators. The wild flying was getting to the stage where one might just go mad. Smithy was doing skillful flying, dodging storm, clouds, turning right angles when flying 100 miles an hour."

Had No "Luck"

"The navigators' skill resource, and initiative were shown when after all these quick movements throughout the night, that he could plot out our position and when we came out of the mess, to say: 'Here, boys, here's where you are.'

"That we came through was not luck. Get the right men and equipment. Coordinate them and you will get through."

In opening his speech at the banquet, Ulm said the "difference between an aviator and a parrot was that a parrot could talk but not fly, and an aviator can fly but not talk."

Lyon then addressed the gathering.

MANHUNT ON NEAR HERE FOR WHITEY WALKER

Gray county officers are assisting Hutchinson county deputies, policemen, and Rangers in a manhunt today for W. J. "Whitey" Walker, wanted at Borger on two indictments for murder and for investigation in connection with the Pampa bank robbery of last year.

On a tip that Walker was in Borger police and sheriff's department officers last night instituted a search. They finally saw the fugitive in a small car. (See—"MAN HUNT" page 6)

Prexy's Host

Clay Arthur Pierce, who administered the estate of his father, Henry Clay Pierce, tendered to President Coolidge the use of Cedar Island Lodge in Wisconsin as a summer White House. Pierce is a New Yorker.

MORE BRIDGES ARE DISCUSSED

Pampa and McLean Men Pledge Cooperation in Road Work

One dozen McLean citizens sat down at the banquet table with directors of the Pampa Chamber of Commerce last night, and before adjournment all had pledged themselves to the bridging of streams in Central Gray county—removing natural barriers to inter-community co-operation and acquaintance.

The Pampa Chamber is sponsoring a movement for a road from this city to McLean by way of LeFors. The McLean group adds an earnest plea for a bridge across the North Fork directly north of McLean. The county commissioners will let a contract for a bridge on the Mel Davis land east of LeFors at their next meeting. Another bridge just west of LeFors is being agitated. Petitions asking the commission to inaugurate a bridge building program likely will be presented as a result of last night's meeting.

I. E. Duncan presided at the session. D. N. Massey, principal spokesman for the visitors, said that he favored the project.

(See—"BRIDGES" page 6)

Magic of Flowing Gold Again Is Displayed in Growth of LeFors

Little Hamlet Has Many Omens of Prosperity Among Them "Toledo Jack," of Many Points, all Oily

The newest oil-boom town in LeFors yesterday that townsfolk well came in for over fifty barrels an hour, proving up a new big-production area all around it. And the sleepy little village that was in no more. Only a couple of weeks ago there was little indication of the present activity. The townsfolk well was drilling as were others within a radius of a few miles. But LeFors basked placidly in the warm spring sun. A large red sow drifted across Main street, pursued playfully by the last word in pedigree German police dogs. Now high-powered motors live the curbs or dart about on mysterious errands; snub-nose trucks with their inevitable trailers bustle importantly about; and building activities are quite feverish.

The LeFors boom came as no surprise to superstitious members of the oil fraternity. Late in May there drifted in one Toledo Jack, a typical red-faced Irishman with the drooping, heavy-lidded stare of a horny toad, cap perched precariously over his right ear, always wise-cracking and clowning with real humor. Rumor has it that Toledo Jack has "made" every successful boom town, oil or otherwise, in the United States and that he has an uncanny knack of picking only winners. So when Jack showed up at LeFors its stock took a big jump. Toledo Jack is just the type that myths are built about. Many strange tales have already woven themselves about his eccentricities. He is quite proud of his American Legion emblem. It is told that when shells were dropping like hailstones on a certain front-line trench of the Western front, Jack threw down his gun and ran its entire length shouting "I'm gonna catch one of them things and see what's in it." When word was passed (See—"MAGIC" page 6)

50 BARRELS IS GAGED HOURLY DURING NIGHT

No. 2 Shaw Is Drilled Four Feet Into Big Pay

FLOW IS INTO PRAIRIE LINES

People of District Are Much Excited Over Their Producer

LeFors people are jubilant, real estate values are soaring, and oil men are highly interested as the result of the LeFors Petroleum company's strike in No. 2 J. M. Shaw, the townsfolk well.

The Prairie pipeline gage showed a production of 660 barrels of 38 crude oil from 6 p. m., yesterday to 6 a. m. today. This is at the rate or more than 50 barrels per hour for the 12-hour period. Initial flow was estimated at nearly 100 barrels an hour late yesterday.

The well was drilled into pay 4 feet, and bottomed at 2,684 feet. Previously it had been making 6 barrels an hour and 100,000,000 cubic feet of gas.

Most of the nearby acreage is owned by the big companies, especially the Texas. The Prairie likely will drill an offset on its 160-acre Thut tract adjoining. Preparations are being made today to drill in the Texas No. 2 Thut in section 1, which has been making 100 barrels a day.

New wells in the LeFors district have proved the territory for practically ten miles east of the Bowers-Magee pools, and high gas production is being encountered as well. The LeFors Petroleum company is being offered big profits to sell, but the stockholders, local men, have not announced their decision. Hundreds of men visited the well late yesterday and last night, and the area was the most talked-of spot in the Panhandle region.

PETITION AGAINST SMITH

BRIMMINGHAM, Ala., June 6.—(P)—A petition containing 500,000 signatures protesting against the nomination of Al Smith is being prepared for presentation to the Democratic National convention, according to Bishop H. M. Dubose of the Methodist Episcopal church, South, who in an address here last night said he would "turn Republican" if the New York governor were nominated.

Bishop Dubose is head of the Southern Land Safety Protest commission and president of the Tennessee Anti-Saloon League. His headquarters are at Nashville.

Pampa Daily News

Published every evening (except Saturday) and on Sunday morning by the Pampa Daily News Publishing Company, Inc., corner of West Foster and Semerville.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

PHILIP E. POND, Manager; OLIN E. HINKLE, Editor.

Entered as second-class matter March 25, 1927 at the post office at Pampa, Texas, under No. 427 of March 3, 1917.

MEMBER OF THE ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for publication of all news material...

Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor.

Another page in Borger history was written last week, when a school bond election to appropriate \$127,000 failed...

There is no evidence of similar opposition in this county. There is nothing calculated to arouse more righteous indignation than an attempt by those profiting from our natural resources to block progress beneficial to the schools.

Facing the Darkness. No more pathetic picture has been presented by the press in many months than that of the five women who are said to be slowly dying as the result of their work in the factory of the United States Radium corporation at Orange, N. J.

Briefly, they painted the hands on watches with brushes touched to their lips in connection with the application of radium. Radioactivity was set up within their bodies, doing violence to nature's scheme of body cells and pointing to early and perhaps violent deaths.

Millions is asked in damages but money cannot undo the real damage, and the company in whose laboratories the practice was used cannot, no matter how much it desires, make full recompense by restoring health.

Pampa is a young town, but we'll wager it has plenty of old ordinance that could be killed painlessly.

If we were a farmer, we believe it would be funny to read all the wise remarks about what farmers are supposed to be thinking.

WASHINGTON LETTER

By RODNEY DUTCHER

WASHINGTON—In all political history no president has ever placed his party in such a maze of doubt as Calvin Coolidge.

A rumor has been floating around Washington that Mr. Coolidge would, before the balloting began at Kansas City, completely destroy his chances of nomination by a definite announcement that he wouldn't accept it.

In any event, it is about to be determined whether, as a small minority believes, he has yearned all along to hear his party's call, or he has merely found a certain sour enjoyment in keeping Hoover, Butler and others quivering on the hook of anxiety.

This "draft Coolidge" agitation which has surged and ebbed almost as often as the tides themselves ever since last August may never get anywhere at all. But if the president should actually be renominated, he would head the sorest party that ever marched into a campaign.

These facts tend to discourage belief that Coolidge will really be drafted. There are others. The third-term issue would be raised as soon as the last state had cast its vote at Kansas City.

It would be charged that Coolidge had merely been kidding the public so that he might bury that issue until nomination time and that he had made his McNary-Haugen veto so hot in order to solidify opposition against Hoover.

Smart politicians with memories also believe that if Coolidge were to run again this year the party, even if it won next November, would be in for a terrible licking in 1932.

It is commonly predicted in Washington that if Coolidge were to serve another term he would be the most unpopular president in history. Grant, Cleveland and Wilson have been the only presidents since Andrew Jackson to serve eight years.

In 1876 the Democrats, still far from recovered from the Civil War smash, won a plurality of popular votes and only lost the presidency through some atrocious hornsogglings.

In 1896 the Democrats repudiated Cleveland and the country repudiated the Democrats. The 1920 Republican landslide is a matter of recent memory. What would happen to a party which kept a president in office more than eight years can only be guessed.

Those War Debts. Eventually, and likely within a decade, the United States will have to consider again re-funding and reclassifying the war debts held against other nations.

It is being argued by many Americans that this nation should cancel the debts and be done with it, collections being uncertain anyway. France is quick to applaud the notion. It has seemed to many that a debt obligation is not a bad thing to have against European nations.

As to the ability of debtor nations to repay some of the principal and the interest on the obligations, consider the improving commercial situation. Ponder over the fact that American tourists spent 3 1/2 times as much money abroad last year as the United States received from war debts.

Perhaps we may continue to travel abroad so that our debtors may pay their bills to us that we may lower our taxes to permit us to travel abroad. Or something like that. The war isn't over, but must be paid for.

TWINKLES

Through circumstances which we are unable to explain, some of the Galveston reporters called Miss Chicago blond and some brunette. Perhaps some of them were gentlemen plus ultra.

John Erskine says our schools need more music teachers and fewer cheer leaders. Perhaps a combination of the two would be conducive to more efficiency in both departments.

A furniture merchant in New York put in a show window a pair of shoes that had proved unsatisfactory. If every merchant did that, think how educational window displays would be.

There is favoritism even among thieves, but we need fewer popular officials in the criminal departments.

When this man Lindbergh flies around over a town it is barely possible that he is hunted.

ing a place to alight. We understand fliers still find it necessary to seek a spot larger than a lawn or the top of any Panhandle skyscraper.

A number of armless men drive their cars with their feet, but there are too many who use neither, nor their heads.

We understand Dawes still wears the underslung pipe, but what is his present opinion of the Senate?

Revolutionary ideas: A noted New Yorker says that people should eat only when they are hungry.

BARBS

Science has produced a mechanical man that talks. Pahaw! This is presidential year and we've seen a lot of 'em.

A woman drove 2500 miles on a motorcycle to give aid to her son in Toronto, Ont. Yes, woman's place is in the home.

A small cannon, fitted to a sun dial, is still used as an alarm clock by the Sultan of Morocco. Just the thing for city council.

Congress passed 923 new laws during the session just adjourned. Leaving out tax reduction and Muscle Shoals, go ahead and name two of our new laws. Neither can we.

Airplane golf is the new game in New York. Ought to make lots of birdies.

Holbrook Blinn was elected president of the Actors' Fidelity League the other day. We wonder if that league has a chapter in Hollywood.

Heritage

Some unrecorded ancestors of mine Must have loved the soil that he bequeathed To his passion. Or how did I come To have such love for open country-side And cultivated acres? Even now— This winter night without a moon or snow— The pull of earth is heavy. For the sky Is thickly powdered o'er with stars Like hoar-frost on the constellations. Dark On the faint glimmer of the level fields Shows the farm cluster. Silo, barn, and house Blurred by the winter trees. One gable clear. Cutting a wedge into the spangled night. And on the black a yellow lighted square

—Harriet Lansing Peeke.

A marriage license was issued yesterday at the county clerk's office to D. D. Barnett and Miss Coda Burns.

Charlie Thut, county clerk of Gray county, made a business trip to Amarillo Tuesday.

C. R. and B. Club Meets Tuesday in Baptist Church

The C. R. and B. club met Tuesday afternoon in the parlors of the First Baptist church. Following a short business session, a lesson from the study book, "Working with Cradle Roll and Beginners" was studied. Mrs. Rex Mahoney, Mrs. G. W. Gill, Mrs. Berlin, Mrs. C. L. McKinney, Mrs. Buster, Mrs. O. H. Gilstrap, and Mrs. Haloman were present. The next meeting will be held next Tuesday in the Baptist church.

Mr. and Mrs. H. B. Price of Redding, Kas., are visiting in the home of their son, Mr. and Mrs. W. D. Price.

Mrs. Chester Carr was called to Claude this morning by the sudden death of her father.

Miss Grace Russell, student nurse in St. Anthony's sanitarium in Amarillo, is visiting friends and relatives in Pampa this week.

Miss Susie Mae Meador of Canyon is the guest of friends here this week.

O. G. Stokely of McLean was a business visitor in Pampa today.

Mrs. L. N. McCullough Entertains Bridge Club Tuesday

Mrs. L. N. McCullough was hostess Tuesday afternoon to the members of the Amuse Bridge club and guests. The attractive decorations were composed of carnations in various colors, and other cut flowers. Mrs. M. A. Finney received high score for the interesting games of the afternoon.

The following members and guests were served a delightful two-course luncheon: Mrs. W. M. Craven, Mrs. J. M. Dodson, Mrs. C. P. Buckler, Mrs. George Walstad, Mrs. M. A. Finney, Mrs. L. E. Chiles, Mrs. Alex Schneider, Jr., Mrs. Carson Loftus, Mrs. Gerald Smith, Mrs. C. T. Hunkapillar, Mrs. A. B. Kirby, Mrs. J. M. McDonald, Mrs. Siler Faulkner, Mrs. Joe Smith, Mrs. W. A. Bratton, Mrs. Lynn Boyd, and Mrs. James Todd.

Delegates to Fire Meeting Are Chosen

John Andrews, Younger Cockrell, Ben White, and W. E. Russell are to attend the Volunteer Fireman's convention to be held at Denton from June 12 to 15, inclusive.

Cockrell and Russell were selected to attend the convention as delegates at the regular meeting of the department last night.

A called meeting for next Friday night was made by Chief Ben White to determine other members who are to attend the convention.

Named by Dems

Dr. Jennie Callafas of Omaha, Neb., recently was chosen national Democratic committeewoman for her third consecutive term and is expected to play a prominent part in the convention at Houston. She is a W. C. T. U. worker and says she will work for Al Smith if she sees that former Senator Gilbert M. Hitchcock, of Omaha, cannot receive the Democratic nomination.

Federation Election of Officers Under Way at Convention

SAN ANTONIO, June 5.—(AP)—Delegates to the biennial convention of the General Federation of Women's clubs went to the polls today to select officers for the coming biennium and to decide the political fight over the presidency which has raged here since the beginning of the convention.

Mrs. Edward Franklin Whitlock, of Indianapolis, vice-president during the past two ears, opposed Mrs. John Syval of Baltimore. Mrs. White was running on a platform of law observance and uniform marriage and divorce law. Mrs. Sippel based her campaign on a strict prohibition plank and her desire to make the American home more spiritual. Forces seemed to be evenly divided as the delegates went to the polls, although Mrs. Sippel was supposed to have the support of a majority of the executive officers.

Wing-Flapping Plane Flies Very Briefly

ST. AUGUSTINE, Fla., June 6.—(AP)—June 6.—A huge, wing-flapping ornithopter, propelled by foot power, soared over the beach here yesterday, gaining speed on the automobile which towed it for the take off.

For 200 feet the air machine, constructed by Captain George White of New York, flew above the air, its wings flapping in ponderous manner. On a return run a wooden elevator control broke, necessitating minor repairs. Captain White said he would endeavor to take the machine from the ground without the aid of an automobile with the first favorable head winds.

Mr. and Mrs. B. E. Roberts and daughter of Borger were business visitors in Pampa today.

Mrs. W. H. Doyle and daughter left Sunday for Ft. Worth, where they will visit relatives.

When A Girl Loves © 1928 by NEA Service BY RUTH DEWEY GROVES. THIS HAS HAPPENED VIRGINIA BREWSTER upon the sudden death of her father, CLARRISA DEAN, and her father, HERBERT, NATHANIEL DANN, objects to this for he mistrusts DEAN's motives. Upon showing VIRGINIA's studio late one night, VIRGINIA is surprised when his model, CHIRI, appears. This causes a quarrel which is interrupted to get NIEL away. DEAN arranges to have him offered a position in San Francisco. NIEL, VIRGINIA, to marry him and so get out of her father's hands. When she refuses, he threatens to reveal the fact that her father cheated him out of \$100,000. Recklessly, VIRGINIA pledges to marry him if she fails to earn the money to repay him in one year's time. She then leaves and seeks a quiet, respectable hotel in which to live, after learning that her bank balance is overdrawn and paying one of her rings. She goes to NIEL's studio for tea and to tell him of her departure from the DEAN'S. Part of her happiness at seeing him is spoiled by the presence of his model, CHIRI, who shows no haste in departing. NOW GO ON WITH THE STORY CHAPTER XX NATHANIEL'S ardent pleading came to a whispered end. Virginia remained quiet, his cheek touching hers, his heart filled with victory. Ecstatic release from pain, from doubt and haunting fear. She was tired and his embrace was a restful haven, soothing her with a sense of peace and security. They did not count the moments as they passed, the moments of bliss, but one came at last that broke the spell for Virginia. "If brought the reckoning of this sweet surrender crashing through the forgetfulness Nathaniel had lulled into her mind. She was out of her arms in one lightning-quick movement. "Oh, Niel," she cried frantically, "you're making me forget." "Nathaniel gasped. "Don't touch me, please," she begged tearfully. "You don't understand." Nathaniel stood back from her, worried and not a little frightened. Had her troubles affected her mind? "Sit down, please," he said with gentle command. "Oh, Niel," she sobbed, sinking suddenly into her chair. "I love you with all my heart, but you mustn't talk about marriage." "He knelt beside her in stricken silence. He was afraid to speak to her lest he arouse her to further irresponsible declarations. Presently she lifted her head from her arms and put a hand on his. "Your hands! Like ice," she exclaimed in surprise. "Will you talk to me?" he said, ignoring the condition of his hands. "If you will promise not to make love to me as you did." "My God, Virginia! I'm on fire for you! I want to take care of you! What kind of man would I be to let you live alone now, when you need someone to comfort you more than you ever will again?" "You're no idea how much the thought of your love comforts me, Niel, darling. But I've made up my mind not to lose myself in happiness until... until... it's so soon since father's death, you know," she ended haltingly. "I don't want to throw you into hysterics again," Nathaniel told her. "But it seems to me you aren't giving much consideration to my feelings. Aside from that I know your father would not want you to live alone. He'd be the first to advise you to listen to me." "You must let me be the judge of that, Niel. In spite of the liberty he allowed me, father was a

Bufs and Panthers Bolstered by Great Hitting and Pitching

(By The Associated Press.)
Hitting of a virulent type and as good pitching as has been seen in the loop in recent years are keeping the Houston Buffs and the Fort Worth Panthers well to the fore of the pack seeking the Texas league gonfalon. As a result of recent games, these clubs have drawn away from their closest pursuers, San Antonio and Wichita Falls, and give promise of staging a great duel for the honors of the season's first half.

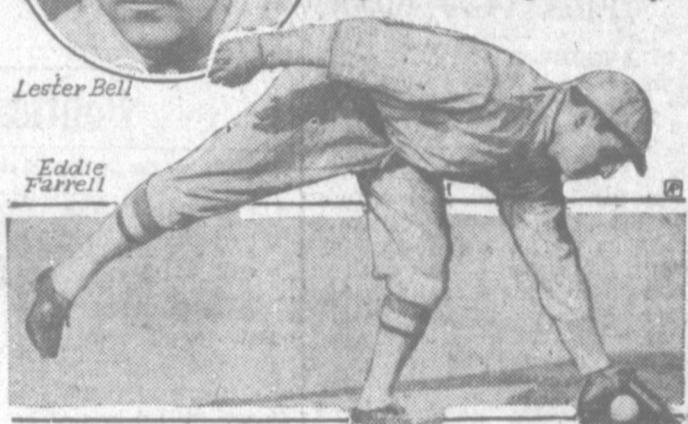

The Buffs ran their string of consecutive victories to six Tuesday by defeating the Dallas Steers 12 to 1 in a game featured by the magnificent hurling of their pitching ace, Hallaman, and their own lusty slugging. Hallaman was master of the Steer fate from start to finish as he struck out fifteen and allowed but three hits. He was a trifle wild but never wobbly enough to get into trouble.

The Panthers hit the offerings of Fillingim and Carson to all corners of the lot and turned in a smashing 19 to 1 victory over the San Antonio Bears who appeared helpless before the avalanche of Cat slugging and the excellent twirling of Walkup.

After five straight losses, the Wichita Falls Spudders came to life and nosed out a victory over the Waco Cubs by an 8 to 6 score. They really won the tilt in the first inning when they hammered Bo Molenda, the northern football star, for three hits and five runs, but were nicked for a four-run rally in the sixth.

Late inning rallies enabled the Shreveport Sports to take a double header from the Beaumont Exporters, 6 to 0 and 5 to 2. In the first game, the Sports got all their runs in the eighth inning, and in the second gathered 4 tallies in the seventh and final.

Former Stars Teaming With Hornsby by Bolster Braves Inner Defense

Lester Bell

Eddie Farrell

Three men once rated as players of the first magnitude join Manager Rogers Hornsby in a new Boston infield combination. Sisler, the latest addition, once was one of the American League's biggest threats afield, at bat and on the paths. The Rajah and Bell helped the Cardinals to their 1926 world's championship. Farrell, though a mere youth, has starred in the majors.

NEW YORK—(P)—The Boston Braves have a baseball quartet recruited from three different choirs.

The addition of George Sisler to the infield has given Roger Hornsby's National League team an all-star cast in the inner defense. All the players may or may not be stars now, but they have been. Washington furnished Sisler, the Giants Hornsby and Farrell and St. Louis was Bell's former address.

The new manager himself is hitting the ball at a terrific rate and may pass the .400 mark for the fourth time in his baseball life, although he is not likely to equal his mark of .424, a modern batting record established in 1924.

Hornsby, who led the St. Louis Cardinals to a pennant and world championship in 1926, has been with two clubs since then. Manager in 1923, he was only a captain last year and the beginning of this season, out now he is a full fledged manager again. Hornsby was traded by the Cardinals to the New York Giants for Frisch and Rife and then moved farther East to Boston for Welch and Hogan.

George Sisler, after being considered a St. Louis institution as star of the Browns and later manager of the St. Louis entry in the American league, was sold to Washington last winter and without playing regularly for the Senators has made his National League debut as first baseman for the Braves.

Sisler batted .327 last year and led the American league in stolen bases. His American league batting average for 12 years is .344, and he batted .420 in 1920. Hornsby believes Sisler will play great ball for the Braves. Only 35 years of age, he should have much good baseball left in spite of his trouble with his eyes.

Eddie Farrell is the youngster of the quartet, but he occupied a prominent place in the sun for the New York Giants some one McGraw's team needed some one to star. Farrell went from the University of Pennsylvania to the Giants in 1926 and acted as utility infielder with fair success. When Travis Jackson was stricken with appendicitis in the spring of 1927, Farrell jump-

ed into the breach and played tight defensive ball while hitting at a great clip.

He was sent to the Braves with Greenfield and McQuillan for Taylor, Benton and Thomas. Taylor is now back with the Braves, and Thomas has passed out of the league, but Benton has made himself very useful to the Giants. The collegian batted .316 for the Giants and Braves last year, and while he has been slow starting this season, he is expected to hit his stride before long.

Lester Bell had a splendid year with the St. Louis Cardinals in 1926, figuring largely in the success of the club with a batting average of .325. He fell away to .259 last year, and, although he showed indications of a return to form in the spring training camp, he was traded to the Braves for Andy High. With his former leader spurring him on he should have been a satisfactory to Boston, for he has been either just over or barely under .300 all season.

Even if none of the stars shines again with his former brilliance, Boston will have a fair infield. If Sisler hits his stride, Farrell improves as he should and Bell holds his own, there will be trouble packed in the Boston bats. Hornsby has not slipped.

Break Is Expected Between Red Grange and "Bunion" Pyle

WHEATON, Ill., June 6.—(P)—A parting of the ways for C. C. Pyle and Harold (Red) Grange, the former University of Illinois "Gallop" Ghost, was seen today by Grange's father.

Possibilities of break between the two have been current in sport circles. Grange's father said he knew something about the case and that there "probably was something to it."

Red was expected to arrive in Wheaton today. But as to his future plans, other than that he will make two more motion pictures, the father knows nothing. Failure of Pyle's recent cross country foot race in which Grange was interested was thought to have been the last straw. "Red said last fall that a break might come at anytime," said his father.

Rain Brings Thirteen Major Postponements in But Two Days

Thirteen postponements have been washed into the major league calendar in the last two days.

After halting six of the eight games scheduled on Monday, rain prevented seven contests Tuesday.

In the only big league game of the day the Washington Senators, aided by home runs by Goslin and Reeves, beat the Browns at St. Louis, 4 to 1. Garland Braxton was touched for three hits and the Browns' one run in the first inning but allowed only four safeties thereafter. The Senators got only eight hits off Jack Ogden, former Baltimore ace, but four of them were for extra bases. Only five hundred persons saw the game, played in a heavy mist.

At Lewisburg, Pa., leaders of the national game gathered to pay tribute to one of its famous satellites. Presentation was made to Bucknell University of the Christy Mathewson Memorial Gateway to the College Memorial while Landis declared the "Big Six" was the "man who made baseball truly the national game it is today."

Mathewson, who died in 1925, was graduated from Bucknell before he gained fame as one of the big league's greatest pitchers.

Max Carey, who was playing center field for Pittsburgh when Mathewson still was a great pitcher, found himself under a three-day suspension for his vigorous protests against a decision at Brooklyn on Sunday when the Pirates defeated the Robins in a 14-inning game. Carey, who is captain of the Robins, was charged with inciting flat-brush fans to riot. Pittsburgh scored two runs in the ninth inning of the game after Umpire Charlie Moran had ruled that Stutz had not back of the infield. Carey complained that Stutz had made the catch and that the side should have been retired without scoring. Enraged, Brooklyn fans started to throw pop bottles, none, however, finding its mark.

Both Walker and Hudkins Win in Preliminary Tests

CHICAGO, June 6.—(P)—Mickey Walker, middleweight champion, and Ace Hudkins, who will seek to win that title when the two meet here June 21, won their last "tuning up" fights last night, Walker by decision, Hudkins by knockout.

At St. Paul, Minn Walker devoted 10 rounds to giving Jock Malone a boxing lesson. Hudkins ended his fight quickly, winning by a technical knockout in the second round from Back Holley oakland, Cal., at Lincoln, Neb.

Both fighters will start immediately on intensive training here, they announced. The championship is to be decided at Comiskey park, home of the White Sox.

Only One American Owned Race in England

EPSON DOWNS, England, June 6.—(P)—Train loads of racing enthusiasts were pouring into Epson today for the running of the derby.

By noon more than a hundred special trains had left Victoria and Charing Cross stations and electric trains were leaving London Bridge station every few minutes. Trainloads of racing fans also came from the west and north of England.

Airplanes brought many parties from the continent.

A rainbow bridged the skies just after dawn. Then a thin drizzle fell for an hour. Afterwards the skies cleared and the first motor coaches began to arrive from London. As the fair weather continued the horses entered in the derby were trotted out to take their early gallops.

Only one American-owned entry will face the barrier—A. K. Macomber's Luvananer. This son of Craig and Eran and Luvanan is an outsider in the betting at odds of 40 to 1. Twenty-two crack two-year-olds are expected to start.

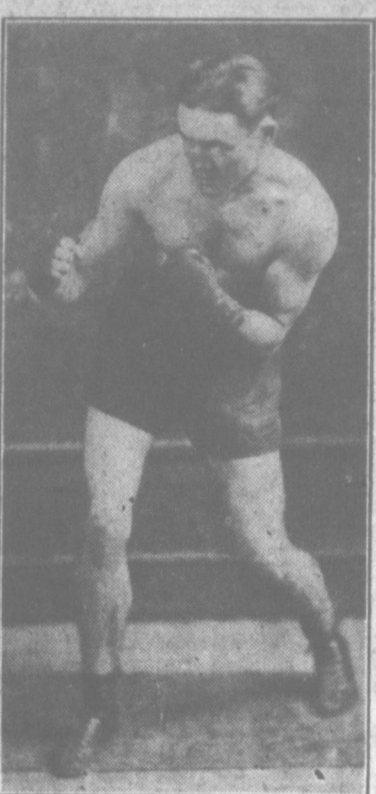

Six lengths separated Flamingon which was quoted at 9 to 2 and Black Watch, which was a 3 to 1.

Felstead's victory was before a record crowd of nearly one million spectators who massed historic epsom downs and it was estimated that an equivalent of at least \$15,000,000 were wagered on the race.

The official time was 2 minutes, 34 2-5 seconds, equaling the record made last year by Call Boy.

Fairway, owned by Lord Derby and the favorite over the rest of the field, was never up in front during the entire race and did not threaten the leaders.

Fights Tonight

A vicious fighter and capable of taking lots of punishment is the way Jack Doss, pictured above, is generally characterized. Jack will meet Andy Thomas at the Pampa Athletic arena tonight.

Wichita Man Breaks 199 of 200 Pigeons

WICHITA, June 6.—(P)—Frank Luther of Wichita broke 199 clay pigeons out of 200 shots to win the Great Western singles championship, featured event in the Great Western trap shoot. Ira Carroll of Kansas City and D. L. McCaffree of Pueblo, Colo., tied for second at 198.

Mrs. J. R. Ballard of Eureka won the women's singles with a score of 190. Nathan Frazier, Jr. of El Dorado won the Junior title with 194, and Caspar Hofman of Denver was second.

The meet will be concluded with today's shooting.

Andy Thomas to Meet Jack Doss in City Tonight

Rain checks from Monday's postponed fights will be honored at the Pampa Athletic club tonight, and special cut rates will be in effect for other spectators, it was announced this morning.

The main event has been changed to feature Andy Thomas of Fort Worth, a newcomer who has a formidable record, and Jack Doss, well known here.

On the same bill, Billy Springfield of Borger meets Art Vitton of Mexico City who knocked out Don Wyle, the Army-Navy champ of Hawaii and holds decisions over Bobby Mandell and Billy Ladda. He also fought a draw with Armando Sheehies, one of Tex Rickard's stable of welters, in Mexico City.

In addition to these bouts, Jack Morrison, the Borger high school boy, meets Kid Roberts of Amarillo in a 6-round event. These boys fought a draw in Borger some time ago, and Morrison took a decision from the Amarillo boy in the local ring about six weeks ago in a fast go. Roberts won by the knock out route from Andy Walsh and Speedy Phy of Stanford and also holds a decision over Jimmy Hudson. Both boys are in fine condition and should put up a real battle.

how much is a dollar?

What your dollar is worth depends on you. Today, a dollar will buy a full one hundred cents' worth of merchandise or service.

The advertisements in this newspaper will tell you where you can make your dollar do its full duty. They will tell you what a dollar will buy. They will tell you, by name, those articles on which you can depend to give a dollar's worth of value for every dollar invested.

The advertisements in this newspaper will give you a new conception of values. They will demonstrate to you the qualities of any article in which you may be interested and tell you where you can buy it at a price you can afford to pay.

By reading the advertisements you will soon become familiar with the most desirable articles of merchandise in all lines. You will learn to have the confidence in them that they deserve, and, when you buy, you can do so with full assurance that you are getting one hundred cents' worth of value for your dollar.

Read advertisements daily to enable your dollar to do its full duty

BUILDERS OF PAMPA

The progress and development of any city is the result of the energy and effort of the business men and firms who make it up. The businesses listed on this page are permanent institutions and have contributed in many ways to the upbuilding of Pampa.

This page will appear in the Daily News once each week and will contain something new and interesting each day. A study of its stories will give a new knowledge of the reasons for the individual successes.

Pampa Hardware Carries Complete Stocks

ITEMS FROM SMALLEST TO LARGEST CAN BE FOUND ATTRACTIVELY DISPLAYED

FORCE HAS DOUBLED SINCE STORE OPENED ABOUT TWO YEARS AGO

It has been said that your drug store has anything you may want, creating the slogan "Try the Drug Store First", but the best stocked drug store has nothing on the Pampa Hardware & Implement in its line. Citizens of Pampa and farmers particularly have found that they can find what they want in the hardware and implement line at this store.

It is the policy of J. P. York, manager, to carry a large enough stock that if anything is needed in the hardware and implement line his store can furnish it. From the smallest screw to a gas or electric refrigerator and from a plow bolt to set of leather harness can be found in the store. And it is displayed so it can be seen and examined easily thus creating a sales efficiency and enabling the quick handling of the wants of customers.

The Pampa Hardware & Implement company has been in business in Pampa in its present location two years and has enjoyed a steady increase of business. The force was first com-

Attractive Store Front

—Photo by Fred's Studio.

posed of four men but increasing business has necessitated the addition of five more. Among those now employed are the following experienced hardware and implement men: L. E. Saltzman and Z. H. Munday, salesmen; Oscar Johnson, shop foreman; T. R. Saxon, repair man; Doug Wilson, bookkeeper; R. B. Thompson and Rex Hahoney, hardware men.

Before opening the store here Mr. York

spent nine years on the road for the International Harvester company whose line of farm implements he now handles. The IHC line is one of the most complete for the farmer with trucks, tractors and combines leading in popularity. Thousands of pieces of IHC machinery have been sold by the Pampa Hardware & Implement company to farmers in the Panhandle and some implement may be found on most any farm one might visit.

This company is exclusive dealers for many of the nationally advertised necessities of the home and farm. Among the most recent additions is the new Icyball refrigerator, Crosley Radio and the Servel gas or electric refrigerator. The new Servel, with its ability to make ice from the burning of gas has attracted hundreds who have marveled at the new invention. Its variety of colors, hard porcelain finish and noiseless operation is appealing to the housewives everywhere. Several have been sold in Pampa and Gray county since they first arrived a few weeks ago.

Other nationally known items which the company sells exclusively are: Round Oak stoves, Eureka Vacuum Cleaners, Laundry Queen washing machine, both electric and gas operated, DuPont Duco and Seidlitz paints and varnishes, Gargoyle Mobiloil in car lots, Coleman pressure stoves and lamps, and Ironton and Humphrey's gas heaters.

The store was recently remodeled and repainted and sixty-three feet of new shelves built in to make more room for stock. Three new counters were added and new display doors placed for hardware.

To the man who lives in town and seldom gets to the country some goods on display in the store would be interesting. In the back of the store is displayed harness, collars, bridles, halters, rope, spades, hoes, rakes and hundreds of articles necessary for the farmer.

Bad Wind Keeps "The Friendship" From Taking Off

TREPASSEY, N. F., June 6.—(P)—With no apparent intention to make an early getaway on their projected hop to England, the three members of the crew of the Fokker monoplane Friendship of Boston slept late this morning.

Troublesome winds which held them here yesterday continued to upset the fliers' hopes although the northwest breeze had abated somewhat and the weather otherwise was fine and clear.

Miss Amelia Earhart, member of the crew, Wilmer Stultz, pilot, and Louis Gordon, mechanic, expressed disappointment over the delay.

To make a safe takeoff the Friendship would have to head eastward out through the narrow mouth. But with the wind out of the west and on their tail a take-off away from the wind was considered too hazardous for the heavily loaded plane.

The pontoon, which add the greatest factor of safety for the ocean flight also make a take-off difficult and conditions needed to be just right before the big monoplane could break the suction of the water on her smooth boatlike supports and rise into the air.

The mystery which surrounded early preparations for the flight continued.

The fliers were reticent in discussing their plans. They said they had not definitely decided where they would land; that they were not seeking publicity; and that their flight was a private venture and that they did not care to give out information.

Miss Earhart said she had found the flight so far very enjoyable. She is looking forward eagerly to being the first woman to fly the North Atlantic and seems little daunted by the fact that three other women have lost their lives in similar attempts. She said that although she had done a great deal of flying, she had never before been in a long flight.

MAGIC---

that the Armistice had been signed, Jack went up to his captain: "Is this man's war over?" "Yes."

"All right. S'long." And Jack headed out afoot toward the setting sun.

Toledo Jack—real name said to be John McPhillips—is by trade an oil well driller, shooter, or what have you, and unlike an other well-known Jack, good at all of them. His people are said to be well-to-do, offering him an income of a thousand dollars a month just to behave, but he can't use it.

When Cromwell was at its wildest, George Clardy, another driller now at LeFors, found Jack alone in an old tent nearly dead with dysentery. He placed him in the hospital and wired his folks. A sister came out and nursed Jack thru his illness, paid his hospital bills, bought him a new suit of clothes and a ticket back home. Jack got on the train and rode a couple of stations before deserting for the only life endurable to him.

PERSHING---

in the committee hearings which may brought charges from some of their foes of the steam roller tactics, a suggestion that brings equally vehement disclaimers in return.

Both sides are making every effort to get proxies for absent national committee members, for use particularly when the fight for control of the 26 delegates from Texas reaches the show group is charging the other with go-down stage, perhaps late today. Each ing too far in this direction, and there is no doubt that bitterness has been engendered by the hearings on delegate contests.

McGARRITY MOTOR CO.

Registrations Asked on W. T. C. C. Meeting at Ft. Worth

That all members of the Pampa Chamber of Commerce who plan to attend the West Texas Chamber of Commerce convention to be held at Ft. Worth June 18, 19 and 20, should register their names at the Chamber of Commerce office as early as possible was declared by manager George Briggs this morning.

It is very important that the registrations be made at once in order that hotel accommodations may be obtained and registration badges obtained.

The largest attendance in the history of the convention is expected this year, Briggs explained, and those who expect good accommodations must register early.

The registration fee of \$2.00 entitles each member to several important entertainments, including league baseball games, between Ft. Worth and Waco and Ft. Worth and Shreveport admittance to at least one show in Ft. Worth, admittance to the pageant at T. C. U. stadium, and admittance to any dance under the auspices of the arrangements committee, including the official ball.

According to a convention bulletin sent to Secretary Briggs, there will be three distinctive parades, one each day of the big program. On the first day, Ft. Worth will show to thousands of visitors what she has in her day of assets; second day, there will be a delegations parade in which all the 300 affiliated towns are urged to participate; third day, and educational parade will feature the program, including educational institutions, athletic squads and boys' and girls' clubs.

Pampa, Briggs stated, is planning an elaborate float for the parades.

MAN HUNT---

and chased him to near Skellytown, where he is said to have abandoned the car and to have taken refuge in a wheat field. There, three miles southeast of Skellytown, near dawn, they closed in on the man only to discover that under cover of darkness he apparently had evaded them. Today it is believed Walker is not far from where he was last seen, and a search for him is under way with Gray county officers assisting.

On December 16, 1927, while under \$7,500 bond for the slaying of Deputies Pat Kenyon and Elmer Terry at Borger, Walker jumped bond and disappeared when eleven jurors had been chosen for his trial. He was also facing indictment in connection with the murder of Coke Buchanan. The deputies were killed on the night following the Pampa robbery, in which more than \$32,000 was taken from the First National bank. One of the robbers here was referred to during the raid as "Whitey."

BRIDGES---

ored the proposed road but wished to go further and build some more bridges. He declared this should have been done long ago. Now, he pointed out, oil valuations make such a program easily possible. Commissioner Newman and Taylor, who were present, said that financing would not be difficult. Taxes of this year will reach \$110,000, and valuations at their next rendering are expected to reach at least \$18,000,000 in the oil industry alone.

Mr. Massey pointed out that Precinct 1 has bridged McClellan creek but that the North Fork is beyond the special road district. He pleaded for a cessation of community jealousies and misunderstandings and said that easy travel between the north and south parts of the county would bring this condition about.

He was joined in this sentiment by practically every person present. It also was declared that inter-community co-operation will likely be necessary to obtain state and federal aid in hard-surfacing the roads in the special districts. The state highway commission is insisting on county-wide projects, and Gray county may be compelled to merge her road program.

In the visiting delegation were M. D. Bentley, W. T. Wilson, E. J. Landers, L. J. McMillan, Bob McAllen, B. F. Gray, M. M. Newman, W. E. Bogan, O. G. Stokely, T. A. Landers, Donald Beall, and D. N. Massey.

J. N. Hodges of White Deer received a minor operation at the Pampa hospital Sunday.

Voliva Fears Byrd Will Fly Off Edge of World, He Says

NEW YORK, June 6.—(P)—Wilbur Glenn Voliva, who firmly believes the earth is flat, fears Commander Richard E. Byrd will fly off the edge of it should he cross the Antarctic plateau.

"If Byrd flies over those icy mountains," he said, "I'm afraid he'll never come back."

The overseer of Zion City, Ill., who returned on the Laconia yesterday from a four-month tour of Europe, enlarged upon his theory of the earth being flat.

"The world is flat as a plate and round, he asserted. "There's a north pole, certainly, in the center of that plate, and the sun moves around it like an orange."

"But you'll notice that the sun never goes any farther north than the tropic of Cancer and never any farther south than the Tropic of Capricorn. This business of the sun setting and the sun rising is only an optical illusion. It doesn't prove that the earth is round."

DUNLOP'S
\$195,000,000

"WHAT OF IT?... Dunlop's resources may be \$195,000,000. Does that put any money in my pocket?"

Yes... In this way... Dunlop's investment is so great, it must be safeguarded. The only sure protection is to give you greater value than you can buy in any other tires.

Then, too... the nine mammoth plants... the far-flung rubber plantations... the great spinning mills... such resources enable Dunlop to build extra value into your tires.

The 40 years of experience helps too. But the biggest meaning to you of Dunlop's \$195,000,000 is this: Dunlop could never have grown so great, if Dunlop tires had not only won, but held a vast army of users. 26 million Dunlop tires are now running. That bare fact is eloquent proof that you will profit by putting Dunlops on your car.

"DUNLOP CITY"
Throughout the world, the productive Dunlop Properties cover so vast an area that—if combined into one place—they would form a "Dunlop City" of over 100,000 acres.
