merce.

Members of the city commission Lynn Boyd and J. E. Murfee, and City Manager F. M. Gwin met with the directors and discussed at length plans for street and house numbering. Dif-ficulties were studied, and it was found that owing to the haphazard laying out of additions and illogical naming of streets, complete revision may be advisable. The directors went on record as favoring whatever plan the city commission finds necessary, including renaming of the streets and avenues according to some logical scheme. The project, long agitated, now goes to the city commission for action.

## Smith Demonstration Precipitates Fights and Angry Protests

Police Quiet Riot and Meeting Contines as Before-First Ballot Choice of Al Now Assured

By BYRON PRICE

Associated Press Staff Writer SAM HOUSTON HALL, Houston, June 27-(AP)-The roaring tide of enthusiasm for the nomination of Alfred E. Smith and the deep running prohibition, anti-Catholic current of protest against him met today in a short, sharp encounter on the floor of the Democratic national convention, ending in angry words and a half dozen fist fights.

The Smith people, parading the hall in a religious liberty demonstration and with nearly every state standard in their entourage, precipitated much physical tussling and some direct blows as they sought to draw into line the standards of some of the southern anti-Smith states. Police intervened with night sticks, and there were no serious injuries.

#### Mr. Bowers Talks

The keynote speech Democratic national convention certainly will not hamper the cause of Al Smith-in fact, nothing else could quite drive home to Democrats the only real distinction in party ranks

today-honesty in office. His first sentence, like successive ones, was staccato in its sharpshooting of Republican office holding: American Democracy has mobilized today to wage a war of extermination against privilege and pillage." Then, "We prime our guns against autocracy and bureaucracy. We battle for the honor of the nation, besmirched and bedraggled by the most brazen and shameless carnival of corruption that ever blackened the reputation of a decent and self-respecting people."

Mr. Bowers was historical, he was good enough to analyze the Republicans for themselves, showing the difference between Hamiltonian Republicans and Lincolnian Republicans. He personified Privilege and made it walk with reeking hands through the halls made sacred to Democracy by Wilsonian administration. The daily shift of baseball fortunes

finds the Washington Senators and the Brooklyn Robins holding that part of the spotlight not devoted to the twopace-setting clubs, the St. Louis Cardinals and the New York Yankees. Stanley Harris started off the season with a Washington lineup that consisted mostly of question marks. Before Bucky could get the boys working together the Senators had tumbled in to the cellar and apparently were more or less satisfied to stay there. A few weeks ago the pitchers decided they might as well pitch and the batter arrived at the conclusion that it migh be fun to hit once in a while. Wash ington began to win with a frequency that was good to the hearts of the experts who picked Washington to fight it out with the Yankees. Bucky and his crew now are in fourth place three and a half games back of the St. Louis Browns.

Wilbert Robinson's troubles at Brooklyn have been a bit different The Dodgers burnt up the league during th first weeks. Then a couple o Wilbert's pitchers went on sick leave and the Robins began to tumble. Its long been a truism in baseball that when Robby's pitchers fail Brooklyn soon renews its rather intimate acquiaintanceship with the second division. But the high-powered Dodgers staff is Toperating on all six again and Robby's famous smile again is on display.

Robby almost laughed out loud Tues
