## ITALIA'S CREW IS IN GRAVEST DANGER

### Secretary Mellon Is Center of Speculation at Kansas City Today

#### HOOVER CAMP CONFIDENT OF HIS SUPPORT

Nomination on the First Ballot Confidently Expected

#### COOLIDGE NOW VIRTUALLY OUT

Little Disagreement Looms in Adopting Party Platform

(BY BYRON PRICE)

(Associated Press Staff Writer)  
KANSAS CITY, June 11.—(AP)—A gigantic whirlpool of speculation and nervous expectancy gripped the assembling Republicans today, centering about Mellon of Pennsylvania sweeping with fury against the bouncing craft in which the political enemies of Herbert Hoover have chosen to seek a common fortune.

With the opening of the convention less than twenty-four hours away, and Secretary Mellon speeding toward Kansas City with his unpledged and vastly important Pennsylvania delegation of 79, the Hoover leaders and some of the best of Mr. Mellon's personal friends declared it was as sure as anything could be in politics that the Pennsylvanians would go to Hoover on the opening ballot. That almost certainly would nominate him.

#### For Quick Action

The treasury secretary was quoted as having expressed a determination to have it all over quickly. This might or might not mean that all possibility of a Pennsylvania vote for Coolidge or even a delaying complimentary vote for Mellon himself, has disappeared. But the very strong assurance of the Hooverites is that it means just that, and that there need no longer be a fear of a Coolidge stampede.

KANSAS CITY, June 11.—(AP)—The tentative draft of the Republican party platform as embodying the administration ideas on the questions of the day was completed today by Senator Smoot of Utah, who is to be chairman of the platform committee, and those who have been collaborating with him.

#### Borah Has Planks

This draft will be presented to the committee after its formal appointment tomorrow by the convention at the open session. Along with it there will be offered many other separate planks for consideration by the committee, including half a dozen drawn by Senator Borah of Idaho, chairman of the Senate foreign relations committee.

While the Idahoan may get the vote of his delegation for the presidency, he stated today that his sole interest was in the platform which the party is to adopt and that he wanted the issues clearly set forth with strong pronouncements on prohibition and corruption in government and politics.

#### May Cite Corruption

Senator Borah's corruption plank carries no names but it was understood that the question of naming some of those who have figured in government and political turmoils in recent years would be proposed to the resolutions committee.

The prohibition plan drafted by Borah, and which specifically calls for rigid enforcement of the Eighteenth amendment, was submitted to Smoot several days ago and the understanding is that it was satisfactory to the resolution committee chairman.

This plank has been approved by (See "HOOVER", pg. 6)

#### THE WEATHER

WEST TEXAS: Tonight and Tuesday partly cloudy to cloudy. Probably showers in north portion and Tuesday in southeast portion. Cooler in west portion Tuesday.

#### Backed for Post of Legion Chief

Roy Hoffman, Oklahoma City, department commander of the American Legion for Oklahoma, is being boosted for election as national commander of the legion at the San Antonio convention. He served overseas as a brevet charge of a division. Hoffman is major-general and once was in president of the National Association of Reserve Officers.

#### BIG OIL SUIT GOES TO TRIAL

Hutchinson Land Titles Are Attacked by State As Illegal

AUSTIN, June 11.—(AP)—Seeking judgement worth millions, the State was ready to begin trial of its suit for about 500 acres of Hutchinson county oil land today in district court here.

Defendants are the Phillips Petroleum company and sixty-odd other corporations and individuals.

#### Nationalists Declare Foreign Troops Must Be Withdrawn Now

SHANGHAI, June 11.—(AP)—The Nanking government council, the Nanking government official news agency announces, has drawn up a manifesto addressed to the powers having treaties with China, which states:

"Foreign troops must be withdrawn from China immediately.

"The presence of foreign troops is causing mutual suspicion. The practice of the powers in sending forces to whatever part of Chinese territory Nationalists happen to reside, will compel the Nationalists to exclude foreigners from the interior of China."

"The manifesto declares that the reconstruction phase of the revolution has arrived, but that it cannot be effectively carried out because of restrictions imposed on China by treaties. Therefore, the Nationalists hope that the powers will agree to immediately the treaty revision.

#### Grand Jury Is Selected as District Court Is Begun

The June term of 84th district court opened here today with Judge Newton P. Willis presiding. The usual preliminaries took up the morning session, and procedure is being rapidly mapped out for the three-week term. Selection of the grand jury was completed, the following being named: Walter Meeks, Walter Jones, George Thut, W. J. Brown, Elmer Barrett, W. J. Carruth, John McKamy, W. T. Wilson, Elmer Kirby, T. J. Coffey, Ika Davis, Watt Willis.

#### FORT ELLIOT DRIVE IS OUTLINED

Site and Highway Named for It to Be Marked With Monument Says F. P. Reid, Chairman of Committee

A committee appointed by T. D. Herbert, president of the Panhandle Plains Historical Society, and headed by F. P. Reid, is actively engaged in making plans for the erection of a monument on the old Ft. Elliot grounds near Mobeetie. If present plans materialize, the monument design will be used also as highway markers for Ft. Elliot highway No. 33A, Mr. Reid stated this morning.

Mrs. Olive K. Dixon, wife of the famous Billie Dixon, pioneer scout in the early days, has been named to aid Mr Reid in drafting the petition for donations. Another member of the committee likely will be appointed for Wheeler county, Mr. Reid said.

"We hope to have the monument erected and the highway markers in place within a year," Mr Reid stated "and it will require about \$2,500 to complete the program."

After the monument is erected, the Panhandle-Plains Historical society will have charge of the up-keep according to present plans.

A petition which Mr. Reid will circulate in the near future asking for donations to the monument and marker funds reads as follows:

"We the undersigned, promise to pay the amount set opposite our names for the purpose of having a monument erected at the old Fort Elliot reservation where the celebrations are now conducted annually, to preserve the history of the pioneers of the Texas Panhandle, Mobeetie, and elsewhere; also, the highway 33A known as the Fort Elliot highway named for it."

A committee will be organized to purchase the monument, and then the Panhandle-Plains society will take charge and preserve the history.

#### Cal's Secretary Silent on Arrival at Kansas City

KANSAS CITY, June 11.—(AP)—Everett Sanders, secretary to President Coolidge and possible bearer of word from the White House to the convention, arrived here today as silent on the possibility of Mr. Coolidge making another statement about his availability as is the president himself.

Mr. Sanders declined absolutely to discuss the president. He would not deny or confirm rumors that he had a message from Mr. Coolidge to a convention and there were no indications that he intended to participate in any of the pre-convention proceedings.

If the secretary has a message from the White House he has made no arrangements for making it public. However, from his room in the Muehlebach hotel where he and Mrs. Sanders are stopping, the secretary will be in a position to keep in touch during the day with the White House should it be desired.

Mr. Sanders declared he was coming to the convention from force of habit, recalling he had long been in the custom of attending the party's national convocations. He was for many years a member of the house from Indiana.

#### TERRAPIN RACES TUESDAY

Terrapin racing will be in vogue tomorrow, when the events will be held at 8:30 o'clock at the Pla-Mor auditorium. Races will be divided into heats according to the number of animals entered.

#### MEXICAN "LINDBERGH" OFF

MEXICO CITY, June 1.—(AP)—Captain Emilio Carranza, known as Mexico's Lindbergh, hopped off from the Valbuena flying field for Washington at 8:10 a. m., today to return Colonel Lindbergh's good will flight of several months ago.

J. N. Hodge of White Deer underwent a minor operation at the Pampa hospital this morning.

#### Hoover's Sister Shuns Spotlight

In her quiet little cottage at Santa Monica, Calif., Mrs. Van Ness Leavitt, the former May Hoover, shuns the publicity and attention that the fans of her brother, Herbert, has thrust upon her. The picture below shows Herbert and May when they were about 16 years old and is taken from the family album.

#### Final Report Is Made by Nurse on Red Cross

A report for May of the nursing service of the Red Cross, of which Mrs. Downs is chapter nurse, shows a varied service rendered to the community and reveals plans for acquiring greater attendance of the child-health conferences to be held previous to the opening of school in September.

"The report in full is as follows: "For our May day child-health activities a play was given, "May day in Health," by pupils from the primary grades at the last meeting of the P.T.A. Many of the pupils were present also and enjoyed it very much."

"Two cases of small-pox were found in Pampa last month. All contacts have been vaccinated, as well as many other. Two cases of scarlet fever have also been reported."

"We had an attendance of thirty-four at our child-health conference. Others will be reached later, as we are very anxious to have all who begin school in September be as well prepared for school life physically as possible. Booklets were given each mother on preventing diphtheria and preparing the child for school life. Advertisements were given by physicians and dentists on improving the health of the child."

"Miss Agnes Jacobson, Red Cross field representative, visited the chapter here several days. Her visits are always helpful and encouraging."

"The nursing service is being discontinued here this month. There is a great work to be done, and we hope it will not be long until plans can be worked out for a permanent public health service, either by this community or by the county. I want to take this opportunity to thank each person who has helped in any way in carrying out the service."

"Visits made, 187; visits to nurse's office, 23; school visits, 16; attendance at pre-school conference, 35; school children who have had defects corrected, 54."

#### FIREMEN OFF TO CONVENTION

Five Local Men to Attend Meeting at Denton

Five members of the local fire department left on the early train Sunday for Denton, where they will attend a four-day session of the Texas Volunteer Firemen's convention June 12 to 15 inclusive. Those attending the convention are Chief Ben White, Marshall John V. Andrews, Lieutenant Younger Cokerell, J. E. Pafford, and W. H. Fossell.

Word from the convention city indicates that 1,000 delegates and an equal number of visitors are expected to attend. A varied program has been provided for by the State department at considerable expense, including lectures by experts of various lines of fire fighting work and fire prevention.

Denton has made elaborate plans for the entertainment and comfort of the delegates.

#### BOY SCOUT MEETING CALLED

A call for a meeting of the Boy Scout committees working on the membership drive was sounded by Chairman Tom Brabham today.

The committees are asked to meet at the New Schneider hotel at 7:30 o'clock tomorrow morning for a breakfast, at which further plans will be made for the completion of the drive.

A strongly worded note was immediately sent to the Nanking Nationalist government.

#### YOUTH ROBBED OF TROUSERS IN DIFFICULT ROLE

Driver of Buggy Finally Rescues Him From Dark Corner

SAN ANTONIO, June 11.—(AP)—Holdup men put A. E. Barnes, son of a San Antonio policeman in an embarrassing predicament last night. Two men forced him to step behind a billboard. They made him take off his shoes, suit and hat. Every automobile that passed was loaded with women and Barnes dodged from telephone post to dark fence corner until a horse and buggy finally came along. The driver took him home.

#### Fred Hobart Takes High Place Recently in Sheriffs' Shoot

Fred Hobart of Canadian, formerly of Pampa and son of Mr. and Mrs. T. D. Hobart, took third place during a three-day shoot held in connection with the Texas Sheriffs' convention at Houston. Mr. Hobart went to the meeting as a deputy from Hemphill, accompanied by Sheriff W. B. Johnson. His score of 94, while the winner shot 97 and the runner-up got a 95.

#### Fate of Chinese Policing Regiment Is Uncertain Today

PEKING, June 1.—(AP)—With Peking all but isolated, refugees were thronging the legation area today. A note of the foreign diplomats to the Nationalists charging bad faith in carrying out an agreement for the peaceful occupation was unanswered.

Troops of one of the military allies of the Nationalist cause were in the city, but their commander-in-chief, Governor Yen Hsi-Shan of Shansi, had decided it was not prudent to come to Peking at present. There were indications that another military ally of the Nationalists, Feng Yu-Hsiang, would himself take over control. Peking today was practically surrounded by his troops. They outnumbered the Shansi forces two to one.

Fighting was in progress north of Tientsin and it was thought probable that Feng would not arrive in Peking until he had occupied Tientsin.

Bandit troops were robbing all travelers, even those bearing diplomatic credentials, and highways from the city were no longer safe for automobile travel. Telegraphic communication was severed. Railroad trains were tied up in the city, adding to the number of refugees. Among them was the second wife of the Emperor Kwang Hsu with her retinue.

Rumors were rife concerning the fate of the 47th Mukdenite brigade which had been policing the city until Nationalist troops arrived. The foreign diplomats claimed that their safe occupation had been agreed to by the Nationalist government and that this agreement had been violated. General Pao Yu-Lin, their commander, took refuge in the legation quarter after it was reported that a plot to kidnap his was afoot. One report said that two of his colonels had died before a firing squad.

Pao's brigade was withdrawing peacefully when it was intercepted at Tungchow by a detachment of Feng Yu-Hsiang's forces, surrounded and marched back to the city.

The diplomatic corps held a hurried meeting. The American, British, Japanese and Dutch ministers, accompanied by their Chinese secretaries and military attaches in full uniform, hurried to Pao's camp.

At Nanyuan, fifteen miles away, they interviewed General Han Fu-Chu, Feng's Peking commander. He said he had received orders from Pao to make the entire Mukdenite force prisoners. Several hours of remonstrance were futile. In returning to Peking, the ministers were held up for some time by Nationalist troops before being allowed to enter the city.

A strongly worded note was immediately sent to the Nanking Nationalist government.

#### EIGHTEEN MEN NOW DRIFTING ON ICE FLOES

May Perish at Open Sea Soon Unless Given Assistance

#### TWO MEN HURT AND ARE CARRIED

Party Is Split and One Group Without Radio

(By The Associated Press)

KINGS BAY, Spitzbergen, June 11.—(AP)—General Umberto Nobile, with a party of six men of whom two are injured, was reported by the Citta di Milano to be making his way today towards land from the pack ice off Northeast Land. The advice indicated that one of the men originally with the party that was stranded when the gondola of the dirigible broke free from the airship's beam, was lost.

KINGS BAY, Spitzbergen, June 11.—(AP)—Safe after a perilous landing on the Arctic Sea in the partially wrecked Dirigible Italia, the crew of the Nobile north pole airship was still in greatest danger today as expedition by land, air, and sea sought under way to bring them out of the frozen wastes north of Spitzbergen as speedily as possible.

Speed was the watchword of the rescuers, for every moment lost meant an increase in the danger that the eighteen men of the dirigible, adrift on breaking ice floes, might be carried into more inaccessible regions or into the open sea.

Divided into two parties and carrying two of their number who were injured when the airship came down upon the ice after the gondola had snapped off, the men of the Italia today were slowly seeking to reach northeast land, the nearest body of land to the point at which the dirigible came down after her brilliant voyage to the north pole more than two weeks ago.

Near Open Water While a great tide of hope and relief had surged through the crew of the base ship Citta di Milano last week when radio contact with the long missing Italia was established, there were fears today for the safety of the men cut off from land by the open water leads and ice floes along Northeast Land.

Day and night the Citta di Milano has been straining every nerve for the Italia's signals. The Italia's radio station has been growing weaker and is sending only short reports. It is not believed that this is an indication that its radio apparatus is failing but that the Italia's operator is saving the energy in the accumulator which probably will be sufficient only for a few days more.

Inasmuch as the Italia carried provisions for at least six weeks, the base crew has no fears for the present regarding the food question; but definite fears that the drifting ice floes upon which the men are stranded will drift into the open sea. The point at which the Italia came down is off Cape Leigh Smith, the most eastern extremity of Northeast Land, and it is feared that the current will send the ice southward between Northeast Land and Franz Josef Land.

Quick Action Imperative In that case, if the rescue parties do not arrive immediately, the ice will be carried toward the King Carlos Island south of Northeast Land or even will be now open. Barents Sea, which is now open. Barents Sea lies within the pack ice area, but at the present season is open.

Since Friday the Italia's crew has drifted about a mile and a half to the east, being last reported at 84.4 east longitude. This would place the crew just off the Cape Leigh Smith. Fear for the party which is without radio and which is sometimes carried out of sight of the other group, is particularly strong as it would be exceedingly difficult to locate it.

(See "ITALIA'S MEN", pg. 6)

NOTICE TO THE PUBLIC
Any erroneous reflection upon the character, standing or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor. It is not the intention of this newspaper to injure any individual, firm, or corporation, and corrections will be made, when warranted, as promptly as possible.

PLAINS PRESS NOTES—Approach of the wildcatting operations to Panhandle are noted by The Herald, which says that A. R. Anderson will drill a well on the Mrs. G. W. Turnley farm east of Cuyler in section 50, block 7, Carson county.

Silverton is growing rapidly as the Denver line nears the city. The Briscoe County News points out that large, substantial business buildings now going up indicate permanent civic development.

Items of interest in the Ochiltree County Herald (Perryton) tell of foundation laying for the new courthouse, plans for the erection of a \$35,000 brick store and office building by John Stump and F. P. Rogers, and of good crop prospects in that area.

A joint celebration of the coming of the Denver to the South Plains will be held at Silverton, junction point of the Silverton-Lubbock line, it is announced in the Plainview News. Sterling is located about 19 miles east of Plainview, where a town is being rapidly built.

State affiliation is rightly prized by any school. Wheeler high school has just received this rank and her graduates will hereafter have their work recognized by the colleges of the state to which they go.

Snyder has begun her annual "Home Service Appeal" for the Salvation Army Post in your insurance against crime. That statement ought to be emblazoned on a thousand banners in this town—because it is true," says a committee member in the Scurry County Times.

More town band talk—Stinnett is boosting for a band and the Rev. J. E. Pitts, former band leader, has offered to start the organization. No town is too small to have a band—surprising talent is often found in small communities.

Building in Dimmitt for the first four and one-half months has gone beyond anything that the town has ever seen, boasts the Castro County News. Twelve new residences aggregating \$40,000 in cost and six new business structures costing \$25,000 have been erected.

McLean recently voted \$74,000 for a new high school building. The vote was rather close, being 159 for to 132 against. A \$35,000 bond issue was voted two years ago, says the McLean News, but the school has outgrown its facilities.

Directors of the McLean Chamber of Commerce have designated Miss Floye Landers to be McLean's princess at the West Texas Chamber of Commerce convention.

The Slaton Slatonite tells of the holding of an adult training course for Boy Scout troops, committee men and scoutmasters. This important work is being more emphasized over the country, to the betterment of the movement.

WASHINGTON LETTER

By RODNEY DUTCHER

KANSAS CITY—The farm revolt which the Republicans will have on their hands here is just one more demonstration that party lines mean less today than ever.

The Democratic party is full of actual Republicans and the Republican party has plenty of good Democrats, no matter what one considers to be a real Democrat or a Republican, aside from the party labels.

A western progressive farm relief Republican has as much in common with a Pennsylvania Republican as a southern dry Protestant Democrat has with a wet machine boss in New York or Chicago.

What keeps the two parties together is the fact that nearly all politicians are anxious to keep their jobs. The surest way to lose a political job is to stray off the party reservation.

There are plenty of men holding office in both parties who feel that there ought to be a realignment. But if they were to organize for a third party movement they would be reasonably certain to lose their seats in Congress or their gubernatorial chairs and to lose the opportunity to do such good for the country as they believe they are doing now.

Of course the condition here in described may be somewhat altered in the campaign. It is barely possible, but not likely, that one or both of the candidates can unite all his factions behind him in an inspirational campaign. The Republicans have demonstrated more of a faculty for this sort of thing

than the Democrats, but this year groups in both parties are the threatening to knife the ticket if they don't get what they want at the conventions.

One must go a long way back to find a time when factions representing completely opposite viewpoints weren't fighting for control in both parties. The classic example is found in the conventions of 1896, when free silver delegates bolted the Republican convention and gold standard Democrats bolted the Democratic convention.

After Roosevelt succeeded the assassinated McKinley a row between progressives and conservatives broke out in the Republican party which was not mended until after the disastrous split of 1912. The Democrats had been having the same sort of a scrap, learning a hard lesson when they ditched Bryan for the time being and nominated the Wall Street candidate, Parker, in 1904.

The terrible 1924 row at Madison Square Garden, ending after more than a hundred ballots by a compromise, brings us nearer to the present. That was a case of machine politicians against progressive politicians, wets against dries, Catholics against Protestants and north against south and west. Only the desire of most Democratic politicians to win with harmony rather than lose with discord will avoid a repetition of that convention at Houston. Bridges don't make the chasm shallower.

Cheer up! There can't be any more divorces than there are marriages.

BARBS (By N.B.A. Service Inc.)

A bargain sale is an arrangement whereby a woman can ruin one suit and buy another.

A school for infants in New York City has a jazz band. Discarding the idea that the little ones never should be punished.

No wonder the movies started to talk, after all those years of listening to people reading the subtitles. It was enough to make the movies cry right out loud.

Who said there were no modern Solomons? A West Virginia man the other day divided a million dollars among seventeen relatives.

It's getting to be quite a serious problem for a man about to marry to choose a little woman that will help him with the dishes.

Kansas City has been allotted 825 tickets to the Republican national convention. The man who distributes them successfully among 400,000 persons should get the nomination.

The Texas liquor act makes possession of more than a quart evidence of bootlegging. Some exception should be made, of course, for politicians.

# Women Politicians to Play Part in G.O.P. Convention

Here are some of the women leaders who are expected to play a prominent part at the Republican National Convention at Kansas City. 1, Mrs. Ruth Hanna McCormick, recently elected congresswoman from Illinois; 2, Mrs. Alice Roosevelt Longworth; 3, Mrs. Charles Sabin, New York; 4, Rep. Edith N. Rogers, Massachusetts; 5, Rep. Katherine Langley, Kentucky; 6, Rep. Florence Kahn, California; 7, Mrs. Alvin T. Hart of Kentucky, vice chairman of Republican National Committee; 8, Asst. Atty. Gen. Willebrandt; 9, Mrs. Bina A. West, Michigan; 10, Mrs. Webster Knight of Rhode Island, daughter of Senator Curtis.

## Southern Cross and Famous Crew Not Yet Through

SYDNEY, Australia, June 11—(AP)—The monoplane Southern Cross and its crew of two Australians and two Americans—the combination that conquered the Pacific in a flight from Oakland, Calif., to Sydney, on Wednesday will fly six hundred miles south to Melbourne.

This was announced today by Captain Charles Kingsford-Smith and Charles Ulm, Australian pilots of the plane, after they had declared their intentions of flying around the world.

Brisbane and Sydney have paid their respects to the four fliers who pioneered an airway between America and Australia. The Americans, Harry W. Lyon and James Warner, navigator and radio operator, respectively, of the tri-motor plane, are to gain their share of the honors in the southern city.

Lyon's plans to fly back to Sydney on Thursday and sail for the United States. Nothing definite has been said about Warner's plans.

Sydney forgot work yesterday and spent the day with the four fliers. A civic reception was held at the city hall. Hundreds of persons who were unable to gain entrance to the hall cheered the airmen on their arrival at the place.

Warner and his celebrated Panama hat again figured as interesting side-lights of the Sydney visit. When Warner and his three companions arrived at Mascot aerodrome Sunday the radio man was so enthusiastically greeted by the jostling crowd that he lost his hat. He appeared worried over the loss but managed to face the crowd smiling and bareheaded. The headgear was eventually restored to him.

Today the civic commission requested that Warner favor the Australian commonwealth with a remembrance—his cherished Panama. This the radio man did amid loud cheers.

Captain Kingsford-Smith announced that he and Ulm intended to fly the

Southern Cross around the world and that the start would be made at Sydney in a few days. They have not made it clear whether they intend proceeding on this journey from Melbourne or return to Sydney.

H. A. Stewart left Pampa Saturday for Eldorado, Kansas, to attend the funeral services of his brother who died in San Francisco Friday and was sent to Eldorado for burial.

**Terrapin Fans Are Talking Uncertainties of Their Sport**

"The Rex," another entrant in the terrapin derby to be held at the Pampa Tuesday night, is a late arrival and according to Roy Sinor, owner and trainer, somebody is going to have a hot time beating "the Rex" to the nose line.

"One can never tell the outcome of a number of 'dark horses' are actually noses the line," said Sinor. "A terrapin might be in the lead and just as the proud owner begins to swell up in anticipation of victory the terrapin is apt to turn in the opposite direction."

But that's just one of the things that makes a terrapin derby interesting. The uncertainty of the behavior of a favorite racer lends "enchantment" to the scene, so say the terrapin race fans.

A number of "dark horses" are expected to run up the total contestants to 25, the management of the Pampa announced Saturday.

The number named in the News so far are the "H. & H.," Perry Hodges; "Chevrolet," Culbertson; "Smalling Chevrolet company," "New Nash," Biggs Horn Nash company; "The Dixie Flash," James Wheeler of White Deer; "Bettie Lou," Jim King; and "The Rex," Roy Sinor.

**MEDAL GOLF STARTS**

DALLAS, June 11.—(AP)—Leading professional and amateur start from Texas, Oklahoma and Arkansas, were in the field of 48 golfers who started teeing off early today in a 36-hole medal play test over the Brook Hollow country club course.

The five low scorers in today's event will qualify for starting places in the national tournament at Olympia Fields, Chicago, June 21 to 23.

**TULSA WINS SHOOT**

TULSA, Okla., June 9.—(AP)—H. A. Simon of Tulsa, won the American Trapshooters' association Oklahoma doubles championship there this afternoon, the feature competition of the opening day of the Oklahoma trapshooting championship meet.

Mr. and Mrs. W. B. Johnson and little daughter, Frances Henry, of Crowell arrived Sunday to visit in the home of Mrs. Johnson's father and mother, Mr. and Mrs. R. C. Campbell. Mr. Johnson went on to his ranch in Hartley county on business. Mrs. Johnson will join him in Amarillo today for the trip to Phoenix, Arizona, where Mr. Johnson will receive a large herd of cattle which he will bring to his Hartley County ranch.

**Andy Payne Will Lift Mortgage With \$25,000 He Won as Pyle Derby Prize**

Like a true Horatio Alger hero, Andrew Payne (left), winner of the \$25,000 first prize in C. C. Pyle's transcontinental marathon, will lift the mortgage on his family's Claremore, Okla., homestead and will build a new home to replace the present cabin (above). Dad and Mother Payne (lower left); Andy's six brothers and sisters, including six-year-old Will Rogers Payne (lower right); and even Prince, the horse he used to race to school, share Claremore's elation at the lad's triumph.

CLAREMORE, Okla. (AP)—The pot of gold which Andy Payne found at the end of the long, long rainbow in C. C. Pyle's transcontinental marathon will wipe out the debts that for years have kept a mortgage over his father's farm.

Part of the \$25,000 will build a new house and buy furniture for Andy's

mother, and some of the money will take Andy through college. Then, he hopes, there still will be enough to make his brothers and sisters happy, too.

As he trotted at the head of the cross-continental callous caravan, Andy sent home brief letters, unfolding his dream of sharing \$25,000 with the family.

The runner's parents, Mr. and Mrs. A. L. Payne, and their six other children live in a small shack, badly in need of paint. It is by no means an imposing place, but Andy's friends point out that it bears some resemblance to the log cabin in which Abraham Lincoln was born.

The young man is everybody's hero in Claremore and for many miles around. He has been an idol ever since he began winning races on high school track.

"Of all the boys with whom I have had experience and considerably more than a quarter of a century," says J. W. Redman, one of Andy's teachers, "I consider him the most balanced, mentally, morally and physically."

Andy's mother relates proudly that her son has always tried to excel in everything he did, whether it was picking cotton, studying geometry or running a race. His father was puzzled by the boy's eagerness to run. The lad had a horse to ride to school, but he

preferred to put a young brother on Prince's back, and then race the horse to school a distance of eight miles.

But the elder Payne has never failed to be near the tape when Andy finished, and he went to New York to see him end the contest.

In the father's absence, Andy's 19-year-old brother, Hansell, looked after the crops. The mother would have been happy, too, to go to the scene of Andy's greatest triumph, but she "just couldn't leave" the younger children: Mary Beth, 16 years old; Faye, 13; Pauline, 10; Charles Alexander, 8, and Will Rogers, 6.

The youngest boy bears the name of the cowboy comedian, who, like Andy, is one of the notables of Claremore. Rogers and Andy's father bunked together when they worked on the same ranch years ago.

S. E. McClure of Panhandle and Canyon was a business visitor here today.

All Royal Neighbors are requested to be present at the regular meeting, at the Odd Fellows hall, June 12. The State and District Deputies will be present.

Mrs. M. M. COOLBAUGH, Recorder.

**Duke, 38, Seeks 4th Olympic-Berth**

"Iron Duke" Kahanamoku  
Thirty-eight years old but out again for the Olympics.

Ripping through the water at the old championship clip, Duke Kahanamoku at 38 still is good enough to convince experts he has Olympic team possibilities. He has been shining in the sprint events since 1911.

LOS ANGELES (AP)—Thirty-eight years old but still trying for new athletic achievements, Duke Kahanamoku, one of the greatest swimmers that ever splashed the water, seeks a fourth Olympic games' berth.

The passing years have brought forth new satellites to make his task difficult but the veteran Hawaiian has kept pretty well abreast of "Father Time", so the experts concede him a good chance of attaining his new goal.

The dusky skinned islander, famous the world over for his sprint paddling, still is in fine physical condition. The Duke blazed into the aquatic world in 1911 by setting new world's marks in the 50 and 100 yard free style races. His time was 24-1-5 and 55-1-5 seconds, respectively.

Kahanamoku's 100 yard open straightaway mark was not broken until 1922. Then Johnny Weismuller flashed across the century distance one second faster than the Duke's time.

The Hawaiian still holds the 50 yard record but since 1911 he has sliced it down to 22-2-5 seconds.

During the Olympic trials in 1912, Kahanamoku won the 100 meters title and swam on the winning relay team.

In the 1920 contest at Antwerp he set a new world's record for the 100 meters event.

The relentless Weismuller was forced to a new mark to beat the Duke to the tape in the century event in the Paris games of 1924.

**"I wish I'd Known"**

THERE'S always a new experience ahead—something you haven't done before and which calls for a decision. You become engaged—and immediately you are called upon to decide on the purchase of many, many things you never bought before.

You marry—and furniture, draperies, silverware, china, talking machines, oil-burners, gas-stoves, automobiles claim your dollars and call for your choice.

A baby comes—and again you face a new experience in purchasing clothes and powders and blankets; in buying a crib, baby-carriage, foods, toys.

Next—what school? For the years pass incredibly fast. Once more, a new decision.

Every room in your house requires a choice. Every meal served in your dining-room results from your having decided on what to serve. Every day confronts you with a multitude of possibilities from which you must select those which make life happier and better, and make the dollars go farther.

How on earth are you going to make those decisions? How can you know what you want and what you don't want? How can you buy to such advantage that you'll seldom, if ever, have occasion to use that futile phrase, "I wish I'd bought something else"?

News Staff Enjoys Picnic at Lefors Yesterday Morning

Members of the Pampa Daily News Staff enjoyed a picnic at Lefors Sunday. With the games and general enjoyment of the outing, a delicious picnic lunch was served that included a bountiful supply of fried chicken.

Those present were Mr. and Mrs. Phillip R. Pond, Mr. and Mrs. Ralph Trimble, Mr. and Mrs. Nathan Jones, Mr. and Mrs. E. M. Pinkston, Miss Josephine Rorex, Miss Leora May, and Walter Hardin, P. M. Bailey, Olin E. Hinkle, A. A. Tetts, Joe Robinson, James Pierson, and Charles Compton.

Mr. and Mrs. P. C. Ledrick returned Saturday from an extended visit in Mineral Wells, and other points south. They were accompanied by Mr. and Mrs. A. L. Winsett of Higgins.

Mr. and Mrs. Willard Sage returned from a three-week visit to Parsons, Kas. Mr. Sage is a member of the mechanical department of the Pampa Daily News.

Kenneth Ferguson has returned from Oklahoma University at Norman.

G. W. Johnson of Canyon was here on business today.

Mrs. I. S. Jones of Pampa had her tonsils removed at the Pampa hospital this morning.

Women Active as Big Convention Crowd Gathers

BY MARY RAINBRIDGE HAYDEN (Associated Press Staff Writer.) KANSAS CITY, June 11.—(AP)—The bright bunting in the canyons of Kansas City's downtown streets were put to shame today by the bright wardrobes of women delegates, women spectators and women hostesses, as they swung into action on the last lap of their preparations for the opening of the convention tomorrow.

A NEW VERSION of the decorative heel appears in chiffon hose in self-toned checks.

Gross, president of the National Woman's Volunteer committee of the Association Against the Prohibition Amendment.

"It is as absurd to have a prohibition-enforcement plank as it would be to have planks for the enforcement of every law in the land," said Mrs. William K. Dupont, national committeewoman and delegate at large from Delaware.

brought temperance. What we need is a workable system of strict local legislation. I favor repeal of the prohibition amendment."

Representatives of the general Federation of Women's clubs, including Mrs. John D. Sherman, former president, and Mrs. George White Speel, new national committeewoman from the District of Columbia, have arrived, but will take no official action for the Federation in favor of any plank, although they approve of the adoption of an enforcement plank.

"I am strongly in favor of temperance, and I wanted to see prohibition given a trial," she added, "but it has been determined that this type of prohibition is a failure, and has not

When A Girl Loves by RUTH DEWEY GROVES

THIS HAS HAPPENED VIRGINIA BREWSTER, upon leaving both father and wealth, consents to make her home with her father, NATHANIEL DANN, who is this for her mistress DEAN's mother, DEAN plots to get NIEL away from VIRGINIA...

There was no effort on his part to persuade her to do anything against her wishes. Marriage was not even mentioned.

"But if she is not interested in society, as you say, what would her social affairs be?" "It is only my opinion, but I should say she will want to play the grand dame among her acquaintances. There will never be any occasion, I am sure, for you to come in contact with your former friends through her."

Virginia was taken by surprise. "In earnest," she repeated wonderingly. "Why, of course I am. It is necessary for me to earn a living, Mrs. Phelps," she added gravely. "Indeed?" she asked mysteriously. "I had thought you might have been acting on impulse yesterday. To be frank, I really did not expect you to respond to a call for your services, Miss Brewster."

Virginia gasped audibly. "How quipped when she had recovered her composure. "Why, my dear, I recognized you at once but I did not say so because I wanted to find out, if I could, why you were masquerading under the name of Viola Browne."

"Because I do not wish to use a name that has no connection with my present circumstances," she declared a bit intelligently. "The Virginia Brewster who was so well known that everyone seems to recognize her does not exist any longer. It is Viola Browne who wishes a position if you don't mind."

"What's your name?" he asked, not at all unkindly. "Virginia told him and when he had done to himself her she was very the favor in which she had been left to wait with unaided engagement. Many a coat rack, hung with a miscellany of outer garments of various sizes, stood in a row against one wall, partly hiding a brightly-colored lithograph from sight. Virginia felt it no loss.

**Flight of Women Delayed by Bad Weather Today**

CURTIS FIELD, N. Y., June 11.—(AP)—Charles A. Levine, owner of the monoplane Columbia in which Mabel Boll hopes to fly to Europe, announced that plans for a take-off this morning had been cancelled because of unfavorable weather over the ocean.

TREPASSEY, N. F., June 11.—(AP)—Thick fog and heavy rain seemed today to fore stall the possibility that the monoplane Friendship could take-off for Europe.

Fine conditions yesterday had buoyed the hopes of the three members of the crew that they might be able to break the jinx which has held them here a week after their flight from Boston.

Miss Amelia Earhart, Wilmer Stultz, pilot, and Louis Gordon, mechanic, had planned to hop off at dawn.

**Twenty-Two Killed in German Accident**

NUREMBERG, Germany, June 11.—(AP)—Twenty-two persons are dead after the Munich-Frankfurt express plunged down an embankment near Siegesdorf.

The train was rounding a curve yesterday at 50 miles an hour when it left the rails. The engine plunged down the embankment and the boiler burst. The first coach fell on the locomotive and most of occupants were scalded to death. Fourteen persons were killed instantly and eight injured died later.

**Three Civilians at Navy Yards Are Scalded to Death**

NORFOLK, Va., June 11.—(AP)—Three civilian employees of the Norfolk navy yard today were scalded to death while at work in the number 1 boiler room of the destroyer Bruce.

The dead are: E. H. Mundan, machinist, Norfolk and Joe Joyce, machinist's helper, Portsmouth.

Two members of the destroyer's crew were scalded, attempting to save the men but their injuries were not sufficiently severe to require hospital treatment.

Officials began an inquiry.

**Hoover--**

four of the candidates for the presidential nomination and Senator Borah expects its approval by the committee. His other planks deal with the outlawing of war and foreign affairs generally with disclosures in the federal trade commission investigation of the utilities industry and the equalization of the tariff as between agriculture and industry.

**Some Controversy Likely**

While party leaders still are hopeful of settling all controversies over the platform in the committee, it was conceded that there was a possibility of a reversal of the questions coming before the convention through the vehicles of minority reports.

Efforts to compose the views of the farm leaders on the agricultural plank still went forward today but with no immediate prospect of success. What has been denominated as the more "radical" of the leaders still insist that the equalization fee be referred to specifically in the platform. This is strongly opposed by other farm groups as well as by the administration forces.

**Coolidge Boom Spiked**

KANSAS CITY, June 11.—(AP)—For the Republican national convention to force the nomination of President Coolidge "would be highly dangerous," Senator William E. Borah of Idaho, today told his state delegation at his first conference with them.

"We should then be in a position of selecting a candidate who would withdraw, leaving the party to make a campaign with a second choice," Borah said. "As for President Coolidge I am confident he will not run and am inclined to believe he will ask that no further votes be cast for him if any are cast on the first ballot."

**Italia's Men--**

should they become definitely separated from the group with the wireless.

KINGS BAY, Spitzbergen, June 11.—(AP)—Adrift on ice floes of the polar seas the crew of the Dirigible Italia was in peril today. Radio messages from the crew to the base ship Citta di Milano stressed the necessity of speedy rescue.

For days that seemed to them endless, sixteen men of the crew have been making their way slowly toward land carrying two others who were injured when the airship came down upon the ice. The eighteen men divided into two parties to make their way to safety.

Open water leads among the floes and the danger of the floes breaking up made their trek slow and dangerous. The wind or sea currents at times drifted the floes to the east or

south carrying the men out of their way. At times the drift has been to the west bringing the men nearer to North East Land.

**Need Ice Breakers**

Powerful ice breakers were needed to rescue them. None was available here and Captain Romanga of the Citta di Milano asked the Italian minister to Norway to request the Russian government to aid since it possesses vessels regarded as the best for battering their way through to General Umberto Nobile and his 17 companions.

A dispatch from Moscow said that the Soviet rescue commission ordered that what was regarded as the most powerful ice cutter afloat, the Malagin, held in readiness, pending definite orders.

The sailing ship Hobby today was locked in the ice off Vertegen Hook about 140 miles from Foynne island in which the crew of the Italia was adrift. Aboard the vessel were two Norwegian fliers, Captain Riiser-Larsen and Lieutenant Luetzow Holm, each provided with a seaplane. It was doubtful whether they would be of much assistance to the marooned explorers at present. Captain Riiser-Larsen said the planes did not have space enough to carry food for eighteen men. He and Holm intended to land and get in touch with the Italia's crew but the ice packed around the flobby prevented them taking off. Apparently the 8 men were in no immediate danger since they have provisions enough for six weeks.

**Ship Is Outfitted**

The ice breaker Braganza, which had been searching for the explorers when word of their plight reached Kings Bay was ordered to return here to be fitted out as a base ship for flying operations. Ice conditions, however, prevented the vessel from making headway.

Word was sent to Milan to urge the flying boat Savoia-55, bearing an Italian rescue mission, to come north as speedily as possible. The plane headed for Zurich, but was prevented by heavy clouds from crossing the Alps. Taking a round-about route by way of Marsilles it was forced down on the Rhone river near Lyons, France.

A dog driver here was asked by Commander Romanga if he could make his way over the ice to the Italia's crew. The driver, named Smith, said he probably could but the trip would be extremely dangerous and take a long time. Smith thought the best chance of rescue by dog sled would be if the marooned men reached North East Land, from which point they could be brought to safety by dog team.

**Dogs Are Gathered**

The steamer Svalbard, ship of the governor of the Archipelago, was sent to Green Harbor to take on board a team of dogs which are descendants of the animals used by Roald Amundsen in the Antarctic. Skis, sledges, guns and some American military rations which Captain Sir. George H. Wilkins left at Green Harbor when he landed there in his flight from Alaska will also be put aboard.

The sledges will be loaded with supplies and started across the ice with

**Pecos Agreement Must Be Extended, Declares a Marland Official**

AUSTIN, June 11.—(AP)—An era of unrestrained waste and consequent heavy loss to producers in the Pecos county Yates oil field is coming unless the state steps in the breach in time to strengthen the voluntary curtailment agreement expiring July 1.

W. A. Moncrief, vice-president of the Marland Oil company, predicted today in the railroad commission's hearing of proposed regulations for the area.

The other side of the proposition, put forward mainly by the Transcontinental and Oil Operators' Trust companies, was that there is little or no waste now—a statement agreed to by Moncrief when he was cross-examined.

A majority of the companies affected would have the commission put into effect conservation rules similar to those now in operation in Winkler county.

Moncrief testified that after July 1, if the commission does not act, vast drilling operations would get under way, involving gigantic costs for storage

facilities. He said water already has been found on the southeast and northwest edges of the field and that in his opinion to lose the gasers would be to dissipate gas pressure uselessly, possibly to bring about additional intrusion and to cut ultimate production.

Under the existing agreement, the output of the field, part of which is state school land, is limited to 51,500 barrels daily although the total potential production is 1,350,000 barrels, Moncrief declared.

**HOUSTON BANKER KILLED**

HOUSTON, June 9.—(AP)—Benton W. Cooley, president of the Marient Bank and Trust company, was killed instantly when his automobile turned over after striking a light truck near here tonight.

age facilities. He said water already has been found on the southeast and northwest edges of the field and that in his opinion to lose the gasers would be to dissipate gas pressure uselessly, possibly to bring about additional intrusion and to cut ultimate production.

**PECOS RESTRICTION EXPECTED**

AUSTIN, June 11.—(AP)—Restriction of oil production in Pecos county, under conservation rules similar to those in effect in Winkler county, was expected to be decided on in a railroad commission hearing which began here today.

Operators, meeting at Fort Worth on May 31, requested adoption of state curbs for low prices and waste now said to prevail. An agreement between companies already is in force in the field.
