PHILIP R. FOND, Manager; OLIN E. HINKLE, Editor.

Entered as second-class matter March 25, 1927 at the post office at Pampa, Texas, under the Act of March 3, 1879.

MEMBER OF THE ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper, and also the local news published herein.

All rights of reproduction of special dispatches herein also are reserved.

Subscription rates table with columns for One Year, Six Months, Three Months, and One Month, with sub-headers for 'By Carrier in Pampa' and 'By Mail in Pampa and adjoining counties'.

NOTICE TO THE PUBLIC. Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor.

Not Vital, but Desirable. The city of Plainview recently let a contract for the paving of seven more alleys in the business district.

Alleys are notoriously unsightly, often filthy, and dangerous to health. Cleanliness is possible if the alleys are paved.

Farm Finance Reform. Farm relief is a catch phrase for those who would make pretty promises. The farmer is certain he is not getting a square deal in the general economic scheme of things.

But relief starts logically on the farm itself. Advice from a banker, speaking at the convention of the American Bankers' association: "The old style farmer buys on long credits and long profits, in contrast to modern forms of credits and cash buying."

Fate of Amendments. Chief state interest in the coming general election is in the following races and amendments: President: Smith and Hoover.

Governor: Moody and Holmes. Parsonage amendment. School official term amendment. Pension amendment.

In more detail, the amendments may be summarized as follows: 1. For or against the constitutional amendment authorizing aid to Confederate soldiers and sailors and their widows in indigent circumstances and authorizing tax levies therefor.

school officers, including boards of institutions of higher learning, shall serve for a term not exceeding six years, and the amendment to section 8 of Article 7 of the constitution providing for the appointment of a state board of education.

Each of these amendments has a good chance to pass if any of the three does. If the "kill the amendments" spirit of two years ago prevails, all will be doomed.

The present board of education is composed of the governor and two lesser officials. Should the amendment pass, the board will be named by the governor, subject to confirmation by the senate.

Dr. Julius Klein, director of the Bureau of Foreign and Domestic Commerce, has made plain that the department does not agree with those who predict the eventual elimination of the small manufacturer and merchant.

"The resourcefulness and freedom of action of the individual will always go far toward offsetting the advantage of large-scale operations of the more complicated organizations," he says.

The independent merchant, according to Klein, will hold his place in proportion to his efficiency and service to the community. The same goes, in effect, for the middle man.

"The vast majority of independent business men with native ability, with a willingness to work, to utilize new methods, and to take advantage of new conditions, and with a reasonable amount of new capital, have as great opportunities for success today as ever before—in fact, a greater opportunity, because of the steady advance in our living standards and buying power."

Curtailed of unnecessary costs is the answer to some of the small merchants' gravest problems. Studies conducted by Klein's bureau indicate that

his profits are often lost through such wasteful and needless practices as accumulation of dead stock, soliciting of unprofitable customers, striving for volume of business without regard to costs, un-economic credit practices or excessive delivery service.

There are, one learns, more than 750,000 retailers each with sales less than \$25,000 a year, and almost 150,000 manufacturers with yearly production below \$100,000.

Specific instances are cited by Klein in a pamphlet to show present wasteful practices of wholesalers. An analysis showed that whereas the wholesale grocer studied carried 2100 items in his inventory, representative chain store warehouses with larger volume of business included as few as 700 items.

Although Clarence Saunders is being sued for divorce, he can say that is being done "all over the world."

An English novelist is over here to go into the scenario business, but they will not be slow-motion movies as might be insinuated.

Let it rain. We have been advocating rain for several days, and now its partly cloudy. This ought to satisfy those who wish the newspapers to run everything except that which might adversely affect themselves.

Marriages have fallen off on Leap Year. The males are more prone to refuse proposals on this year than during the others.

Or maybe it is because in this high priced age wives can't be acquired on the installment plan, like everything else.

Mexican bandits have a new pastime if they can devise an efficient method to rob the air mail. Perhaps some propaganda on the two-gun character of the pilots would help to keep them away from the routes.

It is suicidal for a public leader to be always forging straight ahead; the world travels in cycles and circles.

Coolidge is quoted as saying, "I cannot make Mr. Hoover keep up his end of the conversation." That from Silent Cal is little short of astonishing.

BARBS By NEA Service

Emilio Portes Gil is the new provisional president of Mexico. The provision in that country seems to be that he escapes the coroner.

Tennis and other violent games are dangerous to a man past 40, says a health writer. He fails to mention bridge, however.

It's a question which will win out this year—the whispering campaign or that conducted by loud speakers.

A Boston newspaper chronicles the fact that Senator Arthur R. Gould of Maine has recovered his secret recipe for pea soup. We are anxiously waiting to hear how both major parties stand on the question.

In an Indiana town roosters are forbidden to crow before 5 a. m. An ordinance ordering all hens to lay at least one egg each day also ought to help along.

General Chang, defeated in battle, returned to find only eight of his 28 wives at home. But, at that, he probably found it hard enough to explain where he'd been.

Nursery games were played until the hour for refreshments, when the children were taken into the dining room.

A white birthday cake, topped with three pink candies, centered the table. Tall pink tapers and bowls of varicolored cosmos gave further notes of decoration. The cake was cut and served with ice cream. Each child was given a crept paper apron.

WHIRLWIND BY ELEANOR EARLY

THIS HAS HAPPENED—SYBIL THORNE, looking with friend, MABEL MOORE, at the double row of painted booths couples danced and laughed, and continued to make love. Valerie raised her glass, and smiled provocatively into the flushed face so close to her own. "Here's to the movies," she cried, "and I am!" Their glasses clinked. "To Valerie's wish," he responded, gravely, "on the billboards!" She dimpled demurely. "I always did think," she admitted, "that I have a nice, euphonious name—effective. I know, for posters and electric lights. The girls at school use to say it sounded exactly like a movie star's. And I don't mean to brag, but honestly, I DO take the best pictures. Everyone says I photograph like Billy Dove."

Canadian Train Robber Caught in Short Order

DETROIT, Oct. 3.—(AP)—William Gibbs, 20, Los Angeles, who robbed a Canadian National railway car of amounts variously estimated at between \$22,000 and \$100,000 was held in Windsor, Ont., today after fishing authorities with a criminal narrative without parallel in this section.

Gibbs boarded the train at Chatham, Ont., and gaining access to the mail car, held three messengers at bay with a pistol while he looted the registered bags. Then as the engine slowed down for a stop at Prairie Siding, Gibbs dropped from the mail car, but reboarded the rear coach of the train.

While alarms were raised and a description of the robber sent all along the border, Gibbs was riding into Windsor on the same train he had robbed.

The train was stopped outside Windsor while Crown authorities questioned the crew, but Gibbs, sitting on the rods beneath the rear car, was not discovered.

AFTER the investigation, the train was released and Gibbs' car was freed across the Detroit river. Here the young bandit came to grief, for immigration officers were on the lookout for smugglers when the ferry docked and Gibbs was discovered.

The shabbily clad youngster was searched and \$6500 in bank notes was found stuffed in his shirt, while he carried two sealed currency packages. The custom men turned Gibbs over to local police who already had received a wire to be on the lookout for him from provincial authorities.

Youth Held After Marriage to Young Girl of Dallas

DALLAS, Oct. 3.—(AP)—While a search is being continued to locate Marion Sherman, 13, missing from her home here since Aug. 28, William McFarland, alias William Edwards, about 18, is in jail as Mobile, Ala., awaiting arrival of Dallas officers to return him to Dallas to answer an indictment charging false swearing.

The indictment is in connection with an affidavit concerning the girl's age given when the couple were married here in August.

Several messages have been received by the girl's parents, assuring them that she was 'all right.'

ROOSEVELT CONGRATULATED

WARM SPRINGS, Ga., Oct. 3.—(AP)—Telegrams congratulating Franklin D. Roosevelt on his acceptance of the Democratic nomination for governor of New York, and expressing appreciation for his self sacrifice poured that the Roosevelt lodge today. Determined to proceed with his speaking tour on behalf of his old friend, Governor Alfred E. Smith of New York, the state nominee went ahead with his plans to set aside today for rest at his quiet place among the pines here before proceedings tomorrow to Columbus, Ga., to speak at a mass meeting.

Mrs. M. M. Noble and small daughter, Peggy Jeanne, of Clarendon are visiting in the home of Mr. and Mrs. W. M. Lawright.

Here's the newly formed United States polo team, which will battle the Argentine four at Meadow Brook, Long Island, for the championship of the Americas. Plains Specials

WELLINGTON — Collingsworth county has one mule that is dangerous in the front end as well as the back. Hunter Hayes of Quail had the middle finger of his left hand bitten entirely through by one of his mules.

He was harnessing the animal when it backed its ears and grabbed hold of his big finger. He had a pair of pliers in his hand and started beating the mule over the head with them but the brute kept its ears back and did not let go until the bone snapped. Then he opened his mouth enough for Mr. Hayes to drag his finger out. It was hanging by a shred of skin and had to be cut off. Mr. Hayes says his hand is recovering rapidly and that it has never pained him seriously.

The mules teeth made a clean incision, and the severed part of the finger did not have a scratch on it except where it had been bitten off. Mr. Hayes brought the finger to town last Saturday and showed it to some of his friends in the City National Bank.

A survey compiled by the Leader, with the co-operation of local produce houses, shows that thousands of dollars have been paid out for cream and poultry supplies marked here this year. Although the report includes only those products which have been marketed at the poultry house alone, it reveals the fact that this county is producing more cream, poultry and eggs than many people believe. There is no method for determining just how much butter, eggs, etc., have been sold through local grocery stores or direct from the farmer to the consumer, and consequently this figure which would include a considerable amount, is not included in this report.

The figures compiled in the survey show that 198,864 pounds of cream have been handled by the local cream stations thus far this year and that \$58,729.76 has been paid out by the stations to the producers in this

county. Chickens marketed amount to 501,072 pounds, the report shows. Eggs and poultry together marketed here have brought farmers over the country \$78,010.12.

A considerable sum has been paid out for hides by the local stations, with the report showing that hides have brought \$9,838.61 up until the present time this year.

HOOVER SPENDS MUCH TIME ON HIS MAPS

WASHINGTON, Oct. 3.—(AP)—Just as charts and maps visualized the trends of world commerce for Herbert Hoover as commerce secretary, they keep him in touch with the progress of the campaign as presidential nominee.

The charting of radio-look-ups is an illustration. The nominee has available a map of the country showing all the broadcasting stations used for every major address of the campaign, not only his own, but those of his running mate, Senator Curtis; Senator Borah and a dozen others. From these, he can at a glance visualize the section of the country and the audience reached by each speaker.

MORE EXTORTION BARED

PHILADELPHIA, Oct. 3.—(AP)—Payments of \$1,000 a week by disorderly houses in one police district have been uncovered by district attorney Monaghan, who is conducting a grand jury investigation of rum runners and gangster activities.

Abolishment of Fraternities Being Talked Seriously

AUSTIN, Oct. 3.—(AP)—A board of regents, the majority of whom are fraternity men, is responsible for the investigation into fraternity problems at University of Texas here, which may result in the abolishment of the Greek letter organizations and the construction of dormitories to take the place of the fraternity houses. Only two members of the board are non-fraternity men.

The order of the Board of Regents for the investigation to determine the advisability of abolishing or regulating the Greek letter organizations followed closely upon the accidental death of Nolte McElroy Sunday night. While he was being initiated by Delta Kappa Epsilon, McElroy died while being put through a supposedly harmless stunt in which the neophyte was sent through a maze of electrically charged steel bed springs.

Former Federal Judge R. L. Batts who introduced the resolution for the investigation, is a fraternity man. In a brief statement yesterday he expressed the opinion that there have been abuses that need to be corrected.

McElroy was buried yesterday at his old home, Euda, Texas. During the service a message from McElroy's mother to the 75 students who attended the funeral was read. The message assured the students that she bore them no malice and had only the kindest of feelings for them.

Woman Hurt by John Coolidge Car Reported Worse

NEW HAVEN, Conn., Oct. 3.—(AP)—Mrs. Margaret Veno, 56, injured in an automobile crash with a car driven by John Coolidge, son of the president, last week, was today reported as having taken a turn for the worse. President Coolidge's personal physician, Major James P. Coupal, of Washington, was immediately called to her aid.

Hospital authorities minimize her condition, however. Major Coupal, accompanied by Everett Sanders, President Coolidge's private secretary, arrived in New Haven last night.

The New Haven police have dropped the case, as Wilfred Veno, who was driving the other car, is now recovering from a fractured skull.

HERBERT HOOVER'S VISIT TO NEW YORK PLANNED

WASHINGTON, Oct. 3.—(AP)—Herbert Hoover's visit to New York City, home town of the Democratic presidential candidate, is to be made the occasion for the biggest Republican rally in the East during this campaign.

The celebration will begin early Monday, October 22, with the arrival of the Republican presidential candidate from Washington and will reach its climax in a mass meeting in Madison Square Garden that night with Hoover delivering his sixth major address.
