STORY BEHIND WELFARE LAWS

Early Child Labor Gangs Aroused Texas

AUSTIN, Nov. 13. — Right after the Civil War, a Yankee got a bright idea to help out the folks down South who no longer had slave labor. He would pick up, on the sidewalks of New York and elsewhere, homeless and uncared-for kids. He would find them new homes down south — with plenty of strength-building work on farms and in stores. He carried out this scheme by the train load, to the point where the southern states finally had to pass laws against it.

Sometimes the arrival of a train-load of children was a regular circus event in small towns. One instance of record — presumably when the demand was somewhat satiated — was of the musical troupe. The musicians put on shows while the kids stood for inspection like Herefords at an auction.

For many of the kids imported into the south, there no doubt were happy endings. But for many others, the ending was not happy — it was in delinquency, criminality, malnutrition, and warped personality. The old law lays down the rule that when a child is without parents, the state must assume the duties of parenthood. So the southern states started enacting laws to protect themselves. These

were the first "child welfare" laws. Texas was a little late in passing its law; the Texas law provides that any person bringing into Texas a dependent child of which he is not the legal guardian must post a thousand dollar bond, presumably to guarantee that the child will not become a charge of the state.

Enforcement of this law was the beginning of a state-level child welfare program in Texas which today is growing fast — almost faster than its state directors want it to grow.

News dispatches only infrequently report on the Child Welfare division in the State Department of Public Welfare. Its supervisors put out no publicity, although they will answer questions. One of the principal functions of the division is the administration of what is called the county child welfare unit — a cooperative local, state and federal activity. But the division positively forbids any agent from volunteering the suggestion to any county that such a unit be installed. As a result, there are only 18 such units in Texas. Yet, and despite the "non-forcing" policy, the work of the divi-

did NOT advocate the law, its enactment is expected to make easier the spotting of persons engaging in baby-selling.

4. It administers, for the U. S. Children's Bureau, the county child welfare unit law. The national bureau has a goal of organizing such units in every county in the nation within ten years, but Child Welfare Director Howard Lackey has no comment on Texas prospects where 16 counties are organized out of 254. He deplores even a mention of the fact that right in Austin where state headquarters are located, no such unit has been organized. His reasoning goes like this:

The primary concern of the division is that children who need care get it. If the care is afforded by the city, or the county, without help from state and federal governments, then those agencies can go where there is a greater and unfulfilled need.

The work of the division will be discussed in a subsequent article.

Hearing Week Is Proclaimed By Jester

AUSTIN, Nov. 13. (U. P.)—The railroad commission has set for hearing Dec. 12 the application of W. W. Lechner for a discovery allowable and new field designation for his W. J. Tramel "D" well No. 2, Bazette field, Navarro county.

Cholera Serum Is Sent To Near East

TOKYO, Nov. 13. (U. P.)—A second C-34 transport of the far East Air Force left today to carry five tons of cholera serum to the Near East.

The plane was scheduled to load the serum, supplied by the Chinese government, at Shanghai this afternoon. It is bound for Jidda, Saudi Arabia, for use should cholera break out during the holy pilgrimage to Mecca.

Now Many Wear FALSE TEETH
With More Comfort

FASTENTH, a pleasant abrasive (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTENTH on your plates. No gummy, soapy, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTENTH at any drug store.

County Funds Back In Black

All funds were back on the right side of the ledger and the over-all balance of county finances amounted to \$130,502, the monthly statement of Auditor Chester O'Brien, Sr. to the commissioners court disclosed Monday.

Receipts of \$12,554 against disbursements of \$4,315 and a deficit of \$8,239 left the officers salary fund, the only one in the red at the close of September, with a balance of \$4,873. This was accomplished by a \$10,000 transfer from the general fund, the first blanket transfer to the officers salary during the year. The previous transfer was for \$2,700 from the road and bridge fund, to conform with statutory provisions.

Receipts totaled \$61,141 for all funds, disbursements \$27,458. October tax payments accounted for the increase in balances.

By funds, expenditures and ending balances were: July \$171 and \$3,664; road and bridge \$6,296 and \$4,303; general \$14,591 (including the transfer) and \$12,160; permanent improvement \$374 and \$4,285; special road bond none and \$2,816; road and bridge special none and \$8,385; viaduct warrant none and \$795; road bond 1945 series \$1,231 and \$79,028; lateral road fund \$485 and \$4,919; road machinery warrants 1947 series none and \$5,290. The latter series was incurred this year for new machinery purchase and is to be retired in three payments on May 1, 1948, May 1, 1949 and Dec. 1, 1949.

Missionary-Nurse To Speak Here Friday

On furlough from the foreign mission field, Ellen L. High will speak at 7:30 p. m. Friday at the Main Street Church of God. Miss High is a missionary nurse, and has been assigned for several years at Cattack, India. She is making a series of appearances at churches throughout the area during her furlough, coming here from an engagement at Sweetwater. Her talk will deal with the problems and challenges of the mission program.

FRENCH PAPER SAYS

Nazi Spy Held In Germany Says He Sabotaged Normandie

NEW YORK, Nov. 13. (AP)—The French language newspaper France America says a Nazi spy, now being held in Germany on a murder charge, has admitted responsibility for the fire that turned the French luxury liner Normandie into a flame-ravaged hulk as it lay at its pier here on Feb. 9, 1942.

The newspaper, which said it obtained its material from sources both here and abroad, quoted the spy as saying he gave orders to former members of the German-American bund, working aboard the Normandie, to fire the vessel. At that time the 83,423-ton liner was being converted for troop transport duty.

The story was written by the paper's news editor, G. F. Estrengin.

The blaze was touched off by the German spy's aides used solder lamps to ignite kapok life-belts spotted at strategic points about the ship.

Rumors of sabotage ran rampant after the fire but Manhattan District Attorney Frank S. Hogan attributed the disaster to sparks from a welder's torch and said there was no evidence of sabotage.

The newspaper said the spy told the following story "in effect" to

A Woman's Luck CHICAGO, (AP)—Any man who says a woman is a terrible driver can get an argument from Walter Paterson. He cites the record of his wife, Minna, who has driven 50,000 miles in 30 years without an accident.

Teachers association, which ordinarily keeps up with school financing matters, says that the Brenham resolution is the first formal resolution on the subject, but that there has been other talk about it.

Since a special session is usually a last resort, it is more likely that another alternative will be selected.

However, the school financing problem has been augmented, rather than aided by the large appropriations of the 50th legislature. It is estimated by the teachers association that local taxes have been increased, by one expedient or another—increase in rates or in assessments of property—in some 300 school districts in Texas this year. And still, some school districts are finding it difficult to meet the minimum state scale for salaries.

Prior to the enactment of a minimum pay scale, local districts could do what the local trustees considered "the best they could"; often this meant salaries had to be adjusted to income.

Under the new law, income has to be adjusted to salaries.

an allied information officer in Germany. "The whole business was planned in New York. I was assigned to those who were going to set the fire, to give them the signal, to point out the places at which to apply the soldering lamps to activate the fire."

"But I was not the big shot of the sabotage job. He was a special representative of Admiral Canaris (Admiral Walter Wilhelm Canaris, German intelligence chief) and I knew him only under the name of Number 437 in the course of our meetings in a Harlem cafe which was a spy meeting place."

"Truly we didn't risk much. The ship was guarded neither by the Army, nor the Navy nor the Coast Guard."

The spy, the newspaper said, asserted that the transport conversion job was being done by a private company which "by chance x x x had a majority of guards who had once been members of the old bund. It had also some white Russians who took a dim view of aid given by the U. S. to the U. S. S. R. x x x."

It quoted him as saying that after the flames had taken hold in the ship's grand salon, the lamps were touched to the woodwork and "it was only at this moment that I threw out the order to give the alarm."

The spy was a woman's hairdresser in New York and a German-American bund member before the war, the newspaper said, adding that he left for Germany

soon after the fire. In Washington, a spokesman for the Federal Bureau of Investigation yesterday declined comment on the story and the Army department said that although it had no information on the report it was cabling American authorities in Germany for details.

October Traffic Gains Reported By Pioneer Airlines

HOUSTON, Nov. 13. — Continued traffic gains were registered during October by Pioneer Air Lines, Inc. It was revealed today in a report made public by Robert J. Smith, president. The increased business trend which started in February, this year, has each month established new records for Pioneer in passengers and goods carried, he stated.

In announcing a new monthly passenger record of 7,513 persons flown, a total of 1,850,023 revenue passenger miles, Smith pointed out that also during October the fifty thousand mark in passengers served during the year was reached and surpassed. During the first ten months of 1947, a total of 51,191 ticket holders flew 13,508,376 revenue passenger miles, he said.

October air freight shipments reached a new high of 8,078 pounds and air express poundage mounted to 13,363, the report showed. Figures for air mail were not compiled as yet, according to Smith, but were expected to also establish a new record.

Goat Cart Takes Australian Tour

GLADSTONE, Australia. (AP)—Ranji Last has started on a projected two-year tour around Australia driving a team of two goats pulling a cart. He built his own cart and bred the goats for the trip, which he expects to extend to 13,000 miles.

IN SIX-YEAR PERIOD

District Soil Conservation Program Reflects Progress

HAIRY VETCH AND ABRUZZI RYE are two crops gaining favor in the Martin-Howard Soil Conservation district as cover and soil enriching crop. This clump is from the J. Y. Robb farm near Lomax.

The Martin-Howard soil conservation district, one of the first organized in Texas, has contributed materially to the progress of conservation measures in the state, figures released by the district board of supervisors show.

On the occasion of Texas Soil Conservation week, Louis P. Merrill, regional conservator of the Soil Conservation Service, pointed out that in six years Texans have organized and administered 143 district programs covering three-fourths of the total area of Texas. Throughout the state ranchers and farmers are requesting assistance from their local boards at the rate of 17,000 per year, and more than 44,000 have received assistance in planning and applying a complete program on their land up to June 30, 1947.

Included in that figure are 700 land owners in the local district, which embraces Howard and Martin counties, part of Glasscock county and a major portion of Midland county.

These individuals operate on three-fourths of a million acres of land, and to date cooperators have planted 28,000 acres of soil enriching and conserving cover crops, applied crop residue management on 119,000 acres, planted 121,000 acres on the contour, constructed 1,600 miles of broad base terraces and applied range conservation measures on 326,000 acres of pasture land.

Although these figures are significant, members of the board of supervisors, headed by Gordon Stone of Stanton, are convinced that much remains to be done. For instance, they foresee need for 300,000 acres of cover crops annually, 250,000 additional acres in need of crop residue management, 6,000 miles of terraces necessary to hold water and soil, and more than 1,000,000 acres of range land waiting for conservation measures to be applied.

Trend of conservation is encouraging, for during 1947 approximately twice as many land operators have applied to the board for assistance and planning than was the case in 1946. Continuation of this, however, is in the hands of those who own and operate on the soil, for the program is entirely voluntary.

Smugglers' Trial Opens At Laredo

LAREDO, Nov. 13. (AP)—The trial of four men, three of them Texans, charged with smuggling \$75,000 in smoking opium from Mexico was to open in Federal court here today.

The defendants are Paul Rowland Jones of Chicago, under \$25,000 bond; Maurice Melton of Houston, \$2,500 bond; Taylor Corssman, from the lower Rio Grande, \$5,000, and John Melton, released without bond.

Jones was sentenced to three years in prison in Dallas upon conviction of an attempt to bribe Sheriff Steve Guthrie last year.

The opium shipment of 56 pounds was seized at the Laredo express office in September. The government charges the shipment was brought by plane from Mexico, carried to Dallas, and brought back to Laredo by plane.

Ratification Needed For Flood Control

WASHINGTON, Nov. 13. (AP)—Sen. Connally (D-Tex.) has been notified that the proposed \$93,000,000 flood control and water conservation program on the Rio Grande in New Mexico is ready for ratification by Texas, Colorado and New Mexico.

The project was approved yesterday by a review board here. After the states approve the plans, the project must be passed on by the chief of Army engineers, secretary of the Army and Congress.

Before construction begins, Congress must authorize the work and appropriate the money.

AGREEING ON NEED

Officials Study Possibility Of New Park And Playground

City and school officials gathered around a table Tuesday evening and discussed possibilities of establishing a new public park and playground, and although both groups agreed unanimously that such a facility is sorely needed, definitely plans remained doubtful.

The discussion involved a suggestion advanced recently by City Commissioner Willard Sullivan, whereby the Big Spring Independent School district would contribute land facing Goliad street and adjacent to the proposed site for a new high school building. The city would then develop a park and proceed with paving of Goliad from 11th Place north to connect with existing paving. The proposal would provide park land connecting a tract already owned by the city with Goliad street. The city had plans drawn up several years ago for developing a park on the land it already owns, which is located between the VFW hall and the school property where the football and baseball parks are located.

The present proposal would solve one of the outstanding problems anticipated in development of the earlier plans, since an outlet would be provided on Goliad street. The tract already owned by the city does not touch an open street.

Dr. J. E. Hogan, John Coffee, Dewey Martin and W. C. Blankenship studied rough drafts of the terrain involved in the proposal along with city commissioners, W. French of the architect's firm.

Puckett and French, also was present to point out school property which could be used in such a park without interfering with proposed building plans of the school system.

City Commissioner George Mims advised the group to proceed with caution on park plans, since the city already has financial obligations in prospect which would probably require all existing and anticipated funds for the near future. He cited plans for a fire department sub-station and administration building facilities for the Municipal airport as major projects on the horizon.

"It is clear that we must build this new fire station if the city maintains its insurance rates,"

Children Lose Tonsils In Kitchen

BLOCK ISLAND, R. I. (AP)—Twelve children parted with their tonsils at a weekend tonsilectomy bee held at a private home on Block Island which has no hospital.

Dr. Nicholas A. Pounaris of Providence performed the mass operation in the kitchen of Mrs. Freeman Mott, the district nurse. Dr. A. J. Pedorella, also of Providence, was the anesthetist.

The little patients were transferred from the kitchen operating room to hospital beds set up in the Mott living room. All were in fine shape when their parents called for them.

During the Middle Ages the social position and aspirations of a family were recognized in accordance with the stateliness of their beds.

Strengthen Your Business With Life Insurance

- CASH**
- to replace brains.
 - to protect endowments.
 - to increase your assets.
 - for a retirement fund.
 - without publicity.

IT doesn't matter whether you are sole owner, partner or stockholder — you can strengthen your business with Southwestern Life Insurance. Through sound analysis and the application of proven business plans, Southwestern Life Insurance is being used as a financial girder to strengthen numerous types of Texas enterprise. You, too, can use it to:

1. Enhance your credit.
2. Hedge against a business mortgage.
3. Provide funds for business emergencies.
4. Relieve your heirs of management problems.
5. Perpetuate the business without involving your estate.

You can protect your business against possible loss of a valued "key" employee... provide funds you'll need to go into the competitive market after someone with the know-how to take his place... offset tax burdens... cover the hazard of economic reverses.

Now, whether you are owner, partner or stockholder, you can strengthen your business with Southwestern Life Insurance. The investment required to put a plan in operation effects a savings... the business protective features are sound and economical. Start your plan working today.

Another Guy Named George Has His Own 'Marshall Plan' To Aid Europe

AMARILLO, Nov. 13. (AP)—There are a couple of guys named George with plans for aiding Europe.
One of them is Gen. George Marshall. The other is a staff sergeant named George Odam from West Texas.

and a mechanic's berth in the air transport command.
One day he was riding a bus in Paris:
'I got an apple out of my pocket and just as I got ready to take a bite, I saw a kid looking at me. He was sitting there on his dad's lap. I couldn't take the bite—I just gave the apple to the kid. We got acquainted and the dad invited me out for dinner. I had plenty of Army rations to make up for the empty pantry.

eyes like a hound dog. His name was Renee. So we go into the park and ride on all the rides. Darned if it didn't cost me a hundred bucks. I told them to meet me at the park the next Sunday. The next Sunday there were 16 of them. Well, after that there were a lot more Sundays. And one day Renee handed me a note.

German army of occupation had shot their only daughter to death when she resisted his advances. The couple practically adopted George.
Three French families, George didn't forget them when he got out of the Army in 1945.
'I had just about made Texans out of them,' he chuckles. 'You should have seen their eyes when I talked about Texas. Just imagine being able to look over level land just as far as you can see. I'd tell them. That was something they just couldn't swallow.'

JET BOMBER TAKES OFF — The Airforce's first multi-engine jet bomber is shown taking off from Tinker Field at Oklahoma City on the second leg of its test run to Wright Field, Dayton, Ohio.

Knott Residents Report Visits

KNOTT, Nov. 13. (Spl)—Mr. and Mrs. Bob Malone, Mrs. J. T. Johnson of Merkel visited friends and relatives here recently.
Mr. and Mrs. Hershel Smith had as their Sunday guests Mr. and Mrs. Reese Adams of Ackerly.
Mr. and Mrs. R. H. Unger had as their recent guest Mrs. Mary Bryant of Eldorado, Okla.

NEW CURBS
Britons Grumble Over Fall Budget

LONDON, Nov. 13. (AP)—Britons of all classes grumbled today over terms of the labor government's interim autumn budget calling for new curbs on spending power to reduce inflationary buying, but newspapers generally protested that the measures were not sufficiently severe.
Chancellor of the Exchequer Hugh Dalton's budget proposals, submitted in the House of Commons yesterday, would affect rich and poor alike. The budget demanded twice as big a slice of company earnings, higher purchase taxes and other revenues.

AFTER PROTEST
Land Board Sets Study At Laguna Madre

AUSTIN, Nov. 13. (AP)—The state school land board today set for Nov. 24 an inspection trip to Laguna Madre to inspect acreage under protest against the granting of mineral leases to highest bidders.
At a public hearing, high bidders on the protested tracts in the Nov. 4 land lease sale told the board they were willing to accept lease contracts, knowing of the protests and accept responsibility in litigation that might develop against the tracts.

Return From Funeral

Mr. and Mrs. H. F. Williamson have returned from Lytle, where they attended funeral services Tuesday at 4 p. m. for his brother, E. T. Williamson, 72, victim of a traffic mishap Sunday evening.
He had started to cross the street after attending church services when he was struck by a car and killed instantly. His death occurred five weeks to the day from that of another brother, Dr. Charles D. Williamson. Besides his brother here, he leaves one sister, Mrs. J. R. Frier, Lovington, N. M., and nine children.

Rebekah Lodge Of Knott Entertains

KNOTT, Nov. 13. (Spl)—Members of the Knott Rebekah Lodge entertained their families with a wiener roast after the regular business meeting Thursday night.
Attending were Mrs. Dick Clay and family, Mrs. Hershel Smith, Mr. and Mrs. P. P. Coker, Mr. and Mrs. J. J. Kempe, Mr. and Mrs. O. B. Gaskin, Mr. and Mrs. R. H. Unger, Billy Roy Jones and Mr. and Mrs. J. T. Gross and family.

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatism, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Four Local Men Processed For Army

Four local men have been processed for service in the U. S. Army at the local recruiting station this week and departed for reception centers.
Leaving for El Paso were Dalton Olsen, Don B. Lester and John T. Ervin, all of whom will eventually be assigned to the Eleventh Airborne division in Japan.

LESS TAXES?

WASHINGTON, Nov. 13. (AP)—Congressional tax experts received today a report from the committee for economic development saying the U. S. tax load can be lightened \$6,000,000,000 in 1948 without jeopardizing foreign aid or payments on the national debt.

STALIN GETS 'NOMINATION'

MOSCOW, Nov. 13. (AP)—All Moscow's morning newspapers carried the name of Prime Minister Stalin in headlines today over a story announcing that he had been nominated as a candidate for the Moscow Regional Soviet by workers of a Moscow electric factory.

It was the same factory which nominated him two years ago for the Supreme Soviet of the U. S. S. R. and a year ago for the Soviet of the Russian Soviet Federal Socialist Republic. He was elected both times.

Mercury Plunges In North Dakota

By The Associated Press

The mercury plunged to 7 below zero in Grand Forks, N. D. today—the lowest mark in the nation this season—as cool weather spread over the eastern half of the country and into the South.

Temperatures were near the zero mark in several communities in North and South Dakota and Minnesota and dipped below freezing in the eastern states and parts of the South.

The cold air reached the east and New England states, and drops in temperature were forecast for those regions tonight and tomorrow.

The Federal weather bureau in Chicago reported snow flurries in the Great Lakes region, in the interior sections of northern New England and in the northern Rockies. There were showers in the far Southwest and northwest Pacific Coast.

Texans Named To Petroleum Board

CHICAGO, Nov. 13. (AP)—Eleven Texans were named yesterday to the board of directors of the American petroleum institute for two-year terms expiring in 1949.

They included J. S. Bridwell, Wichita Falls; Amon G. Carter, Fort Worth; E. DeGolyer, Dallas; H. L. Hunt, Dallas; C. P. McGaha, Wichita Falls; Maston Nixon, Corpus Christi; E. H. Salrin, Houston; Sid W. Richardson, Fort Worth, and R. B. Anderson, Fort Worth.

Jake L. Hamon, Dallas, was re-elected vice president for production.

Among those elected to the general committee of the division of production for 1948 were R. C. Kay, Amarillo, J. E. Warren of Midland, and R. L. Wheelock, Corsicana.

SOIL CONSERVATION NEWS

Eleven New Farm, Ranch Plans Approved At Stanton Meeting

Supervisors of the Martin-Noward Soil Conservation District approved eleven new conservation plans on farms and ranches in the district at their regular meeting in Stanton last week.

These plans became a part of a co-operative agreement between the district and the farmers and ranchers including the following with a total of 8,808 acres: W. D. Miller, C. J. Engle, E. E. Baker, R. E. Martin, L. W. Longshore, and Mrs. G. W. Barber. Also approved at the meeting were seven applications for assistance in planning and applying a co-ordinated conservation program including those of Walter Robinson, Eddie Carpenter, L. Z. Shafer and Homer Thorp.

Two more district co-operators completed seedings of Abruzzi rye and hairy vetch last week for winter cover and soil building crops. E. T. O'Daniel planted 100 acres of rye and vetch on his farm 10 miles northeast of Coahoma and W. J. Rogers, who lives two miles west of Fairview, seeded eight acres. The cover crops, which are only a part of the program of conservation measures being applied on their farm land, were planted to provide protection against erosion, furnish grazing and improve the soil by adding organic matter and nitrogen.

Ed Martin, who ranches six miles south of Vincent, completed a plan for range conservation measures to be applied on his ranch. A. V. Sheppard, range conservationist with the SCS, assisted Martin in making his plan. Among other measures, the plan includes deferred and rotation grazing of the pastures.

"I believe the range will furnish more and better forage if it is grazed for one month and then rested for one month," Martin said.

Contour lines were run on J. B. Stevenson's farm located one mile south of Luther post office. Stevenson will farm his land on the contour following the guide lines run by the Soil Conservation Service.

"I sure want my land farmed on contour for two reasons," Stevenson said. "First, the contour rows will hold the water where it falls thus getting more water into the ground, and second, the contour rows furnish some protection from wind erosion."

H. H. Harrington started additional terraces on his farm five miles east of Luther last week. Harrington is constructing the terraces to complete his terrace system designed to hold water on his farm land and stop erosion.

A conservation plan was completed on T. J. Good's ranch north of Vealmoor last week. Good has protected his range from close grazing for a number of years. He uses deferred grazing to give his grasses a rest period to increase in vigor and produce a good crop of seed. Calves produced this year on Good's ranch were weighed

French Author Is Given Nobel Prize

STOCKHOLM, Nov. 13. (AP)—The French author Andre Gide received the Nobel prize in literature today.

The Swedish Academy of Literature selected the 77-year-old author, for 40 years a leader among French writers. Swedish literary circles acclaimed the choice.

His friends had testified that Gide still is "unusually vital in modern currents of art."

U. S. farm families ate about 183 million chickens in 1946.

last week and averaged more than 490 pounds.

Diversion terraces were constructed recently on the Good ranch to divert water into a stock tank. The terraces diverted enough water to fill the tank during recent rains. Good plans to construct diversion terraces on two other tanks to catch runoff water and run it into the tanks.

L. W. Longshore plans to construct a diversion on his ranch in the McDowell Soil Conservation Ranch group to divert excess water from his headquarters. The runoff water will be spread on native grass where it will provide additional moisture for growing more grass.

How To Relieve Bronchitis

CREOMULSION
For Coughs, Chest Colds, Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Court Strikes Down Challenge To School Board Authority

AUSTIN, Nov. 13. (AP)—A second challenge of the authority of Texas school boards to say whether or not fraternities and sororities may be permitted in public schools was struck down by the Supreme Court yesterday.

The court refused to disturb a judgment of the Court of Civil Appeals denying a permanent injunction to restrain the trustees of the Abilene independent school district from issuing an order designed to bar secret fraternities and sororities in the public schools.

The trial court had dismissed the application for an injunction against the school board, and the Civil Appeals Court had upheld the trial court.

An earlier effort by James H. Wilson and others challenging the Abilene school board by temporary injunction was similarly turned down by the trial court, the Court of Civil Appeals, and Supreme Court.

ROMANCE VS. CONTRACTORS

Home Building Is Catching Up With Creation Of New Families

WASHINGTON — The rate at which America is building new homes has almost caught up with the rate at which new families are being created.

These cold government statistics might be taken to indicate the housing shortage will end within four years.

But government experts are making no such flat prediction. They say it may last longer because, among other things:

1. Nobody has yet invented an adding machine that will compute the whims of romance.
2. Human beings can change their minds awfully fast.
3. Nobody knows how much folding money the head man of the family is going to have a year hence.
4. It's a question how much pressure it might take to make him invest in a new home of his own.

All this, and more, will have its influence on the housing demand, the experts say.

But here's how the figures add: Building vs. Building.

The Census Bureau estimates new families are being established at the rate of about 2,800 a day. This rate is expected to start downward soon.

The Bureau of Labor Statistics says that in September new homes were completed at the rate of 2,563 a day. This rate is going up.

Sometime next year a point will be reached where the number of new homes completed daily will exceed the number of new families created on that day.

From then on the excess of new homes will begin eating into the backlog of demand for new homes that has been building up since the depression.

The experts don't agree on the size of this backlog because of the human element.

In 1940 there were 1,846,000 families "doubling," or living in the household of someone else.

In 1947 there were 2,764,000 families "doubling."

How Many?

The controversy is over how many of these families will "un-double" when houses become available.

"If you ask Joe, who owns the house, if he wants to live alone he will probably say yes," one housing expert explained.

"But if you ask Fred, his brother-in-law, who is living with Joe and cutting his expenses in so doing, he may tell you he isn't anxious to change the situation. So there you are."

Assuming that all of the people who have doubled since 1940 would move into their own home if they could get one, they would create a demand for 118,000 homes.

If the present rate of "starts" on housing continues, about 1,000,000 units will be completed next year. But this would leave an excess of 325,000 homes over the number of new families expected by the census bureau.

On that basis it would take

about three years for the supply to meet the demand of families who want to un-double.

But some government experts say many of the 1,846,000 families who were "doubling" in 1940 would have moved to their own quarters, too, if they could have.

Family Decision

So the decision to double or not to double will be an important one in determining the length of the housing shortage.

On top of all these factors is another complicating question — the economic situation.

Officials say if the employment rate remains high the demand for houses will remain longer at a peak. But if there is a decline in employment more people probably will remain "doubled."

The great U. S. migration of the past few years also will have its influence. Tens of millions of Americans have joined this movement which has been in swing since Pearl Harbor. Where and when they will finally settle is a big factor in the housing picture.

Some areas of the country, notably the rural areas, have a surplus of housing. The big pinch is in metropolitan areas.

Education Program Presented To Lions In Regular Session

National Education Week was observed Wednesday noon by the Lions club with the presentation of a transcription, "Judgment Day."

Theme of the tract was to impress listeners with the fact that the schools belong to them and that where schools fall short, there is no punishment to be meted externally, but that people in such localities are "being punished and their children."

Guests included Pat Murphy, Jim Neill, and Dan Martin, the latter here in connection with the city paving program.

Throughout the week, patrons of the Big Spring schools are being urged to visit in the classrooms of all the schools.

Thursday at 8 p. m. parents of high school students are invited to participate in a program which will put them hastily through the schedules followed by their children on a typical day. There will be refreshments in the high school cafeteria after the meeting.

Return From Trip

Mr. and Mrs. M. Weaver returned Tuesday from a seven day trip that carried them to Knoxville, and Chattanooga, Tenn., where they were occasioned to visit several Civil War battlegrounds and cemeteries. The two had planned to go on to the Shenandoah Valley but turned back when Weaver developed a cold.

Knott Telephone Exchange Opens

Delayed from its scheduled opening a fortnight ago, the Knott telephone exchange went into operation Monday.

W. D. Berry, owner, said that the scheduled beginning of service was postponed at the last minute late in October because of equipment and toll line difficulties. The toll line installation has been completed, he said, permitting

calls to be handled from Big Spring and other points to the Knott system.

The Knott exchange has 20 connections at the present time and is an automatic dial system. As soon as additional equipment is available other extensions will be made in the area. Berry also operates a similar exchange at Ackery with more than 100 connections on the board.

In the five years after gold was discovered in California in 1848, the state produced \$258,000,000 worth of gold.

Operators Of Motor Scooters Checked

City police checked 18 teen-aged motor scooter operators Wednesday, and all were found to possess operators' licenses, officers said.

However, a campaign designed to eliminate illegal operation of motor scooters in the city will continue, Chief W. D. Green warned. Earlier the police chief had advised that such a campaign would be pursued in an effort to curtail traffic hazards, especially near the schools.

A total of 150 candidates from

28 neighboring towns and communities are expected to register for the four days of ritual work.

Degree conferring teams from Port Arthur, Beaumont, and Galveston, will conduct rituals.

Spend Holiday Here

Mr. and Mrs. R. L. Williams, Mrs. Todd Crain, Mrs. C. L. Nalley and Mrs. Beula King, all of San Angelo, spent Armistice Day in the home of Mrs. J. B. Nall.

BATTERIES at Johnny Griffith's.

Great Grandma said "COMET"...

AND NEVER HAD A DOUBT!

She was famous far and wide for her marvelous Southern foods. Knew a thousand different delicious rice dishes! Always a house full of company at meal time! And rice meant COMET to her.

For dessert or main dish, Comet Rice is distinguished for its snowy-white, flaking goodness. Try it once. You'll never again be satisfied with inferior brands or bulk rice. Three kinds to please every taste: Regular, Longgrain and Natural Brown.

I HEAR IT'S Vitalized

Peace Plate For Tuesday

For Meatless Tuesday, the Consumer Service Section, Citizens Food Committee, suggests as today's Peace Plate Oven-Fried Fish a tempting dish that comes to the table crisp outside and juicy and tender inside. Use whatever small whole fish are available in your local markets, or any kind of fish fillets or fish steaks, fresh or frozen.

With the Peace Plate, serve Stuffed Baked Potatoes and colorful jellied tomato salad molded with diced celery. Finish the meal with a dessert of canned pineapple slices or freshly made apple sauce with Coconut Toasties. These little "toasties" are easy to make and a delightful way to dress up graham crackers.

OVEN-FRIED FISH
2 1-2 pounds small whole fish
1 teaspoon salt
1-3 cup milk
1-2 cup fine dry bread crumbs
1-8 teaspoon pepper
1-4 cup fat

Wash and dry fish; dip in salted milk, then in crumbs mixed with pepper. Put fish on greased baking pan and dot with fat. Bake in very hot oven (500 degrees F.) 15 to 20 minutes, or until golden brown and the flesh separates readily from the bones. The time of cooking depends upon the thickness of the fish. Do not turn fish, or add water. Serves 4.

STUFFED BAKED POTATOES
Scrub 4 medium potatoes, dry, then rub with a little fat. Bake in a hot oven (450 degrees F.) for 45 to 60 minutes, or until tender. Cut a slice from top of each and scoop out, taking care not to break skins. Mash thoroughly, then add about 1-3 cup hot milk gradually, beating until fluffy and creamy. Season with salt and pepper to taste. (No butter or margarine needed.) Pile lightly back in potato shells, rounding slightly. Arrange in shallow baking pan, sprinkle each potato with grated cheese or brush with melted butter and bake in hot oven (with fish) until brown-tipped. Serves 4. If desired, a little grated cheese can be added to the potatoes before refilling the shells.

COCONUT TOASTIES
With a spoon, work together 3 tablespoons butter or fortified margarine, and 1-2 cup light brown sugar, firmly packed. Stir in 1-4 cup shredded coconut. Spread this mixture on about 12 graham crackers. Arrange crackers on cookie sheet; broil 5 inches below heat until golden brown.

Timely Food Tip: Fish is an excellent alternate for meat because it provides high-quality, body-building protein. If your family does not like fish, you can serve on "Meatless" Tuesday the so-called "variety" meats, such as liver, kidneys, tongue, brains, sweetbreads, hearts, pigs' feet, and pigs' knuckles, tripe, and oxtails.

"Toast" leftover onions in the oven heat that's left after baking. Let slices dry to a golden brown, then store in a tightly covered jar. Grand for soups and stews.

Moths attack pure wool garments and will also eat the wool in fabrics that combine wool with other yarns, such as rayon or cotton.

Baked Eggplant With Shrimp

1 large eggplant
1 1/2 pounds cooked shrimp
2 large onions, minced
1 clove garlic
4 tomatoes

Salt
Freshly ground black pepper
Dash of cayenne
Grated Parmesan cheese

Cut eggplant in half lengthwise and scoop out pulp, leaving a half inch shell. Cube the pulp and cook in boiling salted water until tender. Drain and set aside. Peel and slice the tomatoes. Sauté them with the onion and garlic in butter or margarine. Add the drained eggplant pulp and shrimp. Fill eggplant shells with mixture and sprinkle with grated cheese. Bake in oven until shells are softened and the top nicely browned.

Here's Why More People Eat Quaker Oats Than Any Other Breakfast Cereal in All the World

ENJOY ITS GREAT BENEFITS FOR ENERGY-STAMINA-GROWTH

Yes, it's a fact! More people eat real Quaker Oats than any other breakfast cereal in all the world. They prefer it because of its delicious taste. Quaker's special milling process brings out the full flavor of whole-grain oatmeal.

This Quaker process also protects the nutrition values of all 30 key elements that Nature stores in oatmeal. Serve real Quaker Oats to your family every day and give them the protection of these great benefits:

FOR ENERGY - Quaker Oats - 100% whole-grain oatmeal is richer than any other natural cereal in Vitamin B₁, the spark plug Vitamin that helps fight fatigue. Also richer in Food Iron.

FOR STAMINA - Oatmeal also leads all natural cereals in Protein, vital for rebuilding tissue. Older people particularly need this protection for stamina.

FOR GROWTH - Babies and children need Vitamin B, Food Iron and Protein for normal growth. Quaker Oats is extra rich in all these key elements.

You and your family need these benefits of real Quaker Oats more than ever in winter. You need these elements to feel well—and to do a good job. Quick Quaker Oats cooks fast as coffee. Still costs less than a penny a serving. Get a big, economical package today. Be sure to insist on real Quaker Oats.

QUAKER OATS
THE WORLD'S BEST-TASTING BREAKFAST FOOD

See how these prices can trim your FOOD COSTS!

Looking for ways to cut food costs? We believe we can help. Listed on this page are typical examples of the hundreds of values on Safeway's shelves. They are not "special" prices. These are the kind of regular low prices you find on every item every day at Safeway. Check them. Compare them with what you pay elsewhere. See the sort of savings you can make at Safeway. Then, multiply these savings by doing all your food shopping at Safeway.

WAYS TO SERVE AND CONSERVE by Carol Drake

6 ways to dress up ground beef

Shortcut the cost of eating by serving ground meat often in:

- BROILED HALF-PAN HAMBURGERS**—with chili sauce on one half, and cheese on the other.
- STUFFED PEPPERS**—with Creole sauce.
- HEARTY CHILI CON CARNE**—with (or on) toasted buns.
- MEAT BALLS**—with Italian spaghetti.
- BEEF ROLL UP** is a hearty dish: Spread browned ground beef with chopped onion and seasonings on a rectangle of biscuit dough; roll up; cut in 1-inch slices. Bake at 425°F. 20 minutes. Pour hot sauce made from condensed soup (tomato, asparagus, mushroom) over slices to serve.
- MEAT-LOAF-BUILT-FOR-ONE:** Shape meat into four individual loaves or pack into large, greased muffin pans; bake; frost with fluffy mashed potatoes; quickly brown under broiler.

From a pound of ground meat, 4 to 6 can be served plentifully.

Turkish Maneuvers

ISTANBUL, Nov. 13. (AP)—President Ismet Inonu, Premier Hasan Saka and other governmental leaders were expected yesterday to leave for Thrace to witness the first extensive field maneuvers undertaken by the Turkish army since before the war. Naval maneuvers are being held simultaneously in the Black Sea.

Hollywood stars are fringing the edges of scarves, necklines, pockets, sleeves and even dress hemlines.

GIVING ADVICE

Civilian Groups Are Helping Army

By AP Newfeatures
WASHINGTON — Army men have found a new way to make friends and obtain the help of civilians.

They are encouraging civilians to criticize and advise them. It's done through Army advisory committees, which have been formed in 425 communities and now comprise 6,500 Army-minded men and women.

When they haven't any complaints or suggestions, the committees assist local Army commanders to get their jobs done. They help in recruiting, take part in local military celebrations and make studies to determine important facts about public opinion.

They are now giving valuable assistance to the Army in the rebuilding of the war dead. The committees help to arrange burial services, drawing in various members of the community so that the family and friends of the dead soldier will feel that their neighbors and fellow citizens sympathize with them in their loss.

These Army advisory committees had their origin early in 1946, when Maj. Gen. Manton S. Eddy, then commanding general of the unit which is now the Second Army Area (Pa., Ohio, Ind., Ky., W. Va., Va., Md.), organized various civilian committees in the cities in his area.

Eddy's purpose was to obtain civilian assistance in recruiting, but he found the direct link with the community so valuable in many ways that the Army department has taken up the program on a nationwide scale.

The committees give spokesmen of the communities a continuing contact with the Army commanders so that differences with the military can be anticipated or quickly straightened out.

For instance, when the chimneys of an ordnance plant near Charlestown, W. Va., were spreading soot on the town, a word from the advisory committee brought

prompt corrective measures. The Army often asks the committees to make studies and give reports on how the local folk feel about the Army's work in recruiting, in control of venereal disease and in curbing immorality involving military personnel. The committees are asked to comment on the behavior of soldiers in their towns and to make suggestions as to how they might become more agreeable to the residents.

Committee members are not expected to follow the Army's policy opinions, according to Maj. William H. Haller, Jr., chief of the community relations unit.

As an example, he relates that several months ago Gen. Courtney H. Hodges, commander of the First Army, received letters from the dean of women at the University of Rochester and from a

GIRL GRIDDER PLAYS FRIDAY

STINNETT, Nov. 13. (AP)—Frankie Groves gets her chance Friday night to show girls can play high school football just like the boys. Frankie, 16, is five feet four and weighs a solid 123 and she's going in at right tackle for Stinnett high school in the big game with Groom.

Coach Truman Johnson says Frankie, whom he considers quite capable of handling a lineman's assignment on his team, will start the game if Stinnett kicks. "She's a better tackler than blocker and

Wilmington, Del., educator. Both asked to be relieved of service on Army advisory committees because they were opposed to universal military training, which is now an established Army objective.

Gen. Hodges replied to both of them personally that there was no reason why they should not think what they pleased about universal military training and express their views to the committee. He urged them to continue to serve, and they did.

I want to get the Groom receiver dead in his tracks," explained Johnson.

But whether Stinnett kicks or receives Frankie is going to play. A crowd of 5,000—all the field can hold including standing room—is expected to watch the first Texas schoolgirl perform on the gridiron.

There is no rule against it and she has her parents' consent. Mrs. Tom Groves, her mother, said boys of the community had refused to let Frankie play football with them because she is considered too rough.

But Groom can't do anything about it and Friday night Frankie will be on Stinnett's side—so that's that.

Frankie has been a little surprised by all the fan mail, telephone calls and such that have come to her from over the nation. "I'm serious about this business," she said. "It's not a stunt."

Coach Johnson pronounced Frankie in good condition. She has taken work-outs regularly with the squad this week and yesterday doubled the conditioning because she also played a game with the girls basketball team.

Tonight she will go to prayer meetings at the Baptist church but all other nights will be in bed by 9:30 o'clock.

Primary Workers Of East Fourth Meet

Workers of the East Fourth Baptist church primary department held a covered dish luncheon Monday at the church in connection with the regular social and business meeting.

Mrs. B. O. Funderburk gave the devotional. After the meeting, the group attended the Howard County Junior College open house.

Present were Margaret Cooper, Mrs. Burrell Williams, Mrs. Leonard Edwards, Mrs. Leon Cain, Mrs. Carrie Jean Burchett, and Mrs. T. B. Clifton.

BETTY CROCKER TELLS:
"ALL YOU HAVE TO DO"
to make light, flaky "pastry overcoats" for **APPLE DUMPLINGS SUPREME**

PASTRY FOR 6 DUMPLINGS

Sift together..... 2 1/4 cups sifted GOLD MEDAL "Kitchen-tested" Enriched Flour
1/4 tsp. salt
1/2 cup shortening... first adding most of it until mixture looks like "meal" ... then cutting in rest until particles are size of giant peas

Cut in with pastry blender or 2 knives..... 3 tbsp. water ... mixing enough to make dough stay together

Sprinkle over mixture.... 1/2 tsp. sugar
1/2 tsp. cinnamon
1 tsp. butter

Roll up into ball, let stand few minutes to make easier to roll out (if desired, divide dough into 2 or 3 parts to make easier to handle.) Roll out dough 1/8-in. thick on lightly floured cloth-covered board. Cut in six 7-in. squares.

NOW ...
 Pare and core..... (6 medium-sized, tart, juicy apples
Place an apple on each square of pastry.
Fill cavities of apples 1/2 cup sugar with mixture of..... 1 1/2 tsp. cinnamon
Dot with 1 tsp. butter

3 BUTTON UP YOUR OVERCOAT

1. Moisten points of pastry square. 2. Bring opposite points up over (be sure not to use too much water.) apple, overlapping them. Seal well.

Place about 2-in. apart in a 9 x 13 x 2-in. baking pan. Pour hot Syrup (recipe below) around dumplings in baking pan.

Bake immediately 40 to 45 minutes in hot oven (425°).

SYRUP
Boil together for 3 minutes 1 cup sugar, 2 cups of water, 4 tsk. 6 or 7/8 tsp. cinnamon. For less-rich syrup, use 1/2 cup each sugar and corn syrup, 2 tsp. butter, 1/4 tsp. cinnamon, and only 1 cup water. (Or use maple syrup.)

Stock up now...offer ends soon!
Take advantage of this big saving on America's Favorite Flour!

If you act fast... you can get a 25 lb. sack of Gold Medal "Kitchen-tested" Enriched Flour at 15 cents less than the regular price!

Clip the money-saving coupon now... take it to your grocer right away!

Remember—when you buy Gold Medal you're getting a superb flour for every baking need... cakes, pies, cookies, biscuits, yeast breads, etc.

Gold Medal is triple-tested... sifted through silk... recipe-proved! Together with the Betty Crocker "success recipes" in every sack, you'll find Gold Medal your simplest, surest way to better baking.

Cooked Lima Beans With Mushrooms
 2 cups cooked lima beans
 1-2 pound sauteed mushrooms
 1 tablespoon butter or margarine
 2 tablespoons flour

1-2 cup stock
 1-2 cup top milk
 Salt
 Paprika
 Bread crumbs.
 Add the butter or margarine to the liquor reserved from mushrooms. Blend in flour. Cook and stir until blended. Add stock and milk. Season with salt and paprika. Add beans and mushrooms. Cover top with bread crumbs and dot with butter or margarine. Place under broiler until crumbs are brown.

 BAKE RIGHT... Every Time

Make rolls like these with

AMERICAN BEAUTY Flour

Every cupful of AMERICAN BEAUTY Flour has exceptional baking qualities that are just waiting to bloom in your oven! Your Cloverleaf Rolls will be masterpieces—golden-topped, full of rich and delicious flavor.

Best of all, with AMERICAN BEAUTY you can count on results like this not just occasionally, but every time... not just with rolls, but with all your baking.

CLOVERLEAF ROLLS

- 6 1/4 cups American Beauty Flour
- 3/4 cup sugar
- 1 tablespoon salt
- 3/4 cup shortening
- 2 cups milk
- 2 tablespoons lukewarm water
- 2 cakes compressed yeast

(This recipe will make 36 rolls.)
 Scald milk; pour over sugar, salt and shortening in mixing bowl. Stir well; allow to cool until lukewarm. Crumble yeast in lukewarm water; allow to stand 10 minutes. Add yeast to lukewarm milk. Add 3 1/4 cups sifted flour. Beat until batter is smooth. Gradually add remaining 3 cups flour; stir until all flour is added. Brush top lightly with melted shortening. Cover and set in a warm place. Allow dough to rise until double in bulk (about 1 hour). Place dough on lightly floured bread board and shape into a round ball. Allow to stand 10 minutes. Roll 1/2 of dough into a rectangle 3/4 inch thick. (Balance of dough can be used for additional Cloverleaf Rolls or other favorite variations.) Cut with floured biscuit cutter. Divide each round into 3 parts; shape each into a small round ball, and brush lightly with melted shortening. Place 3 balls into each muffin cup. Cover; allow to rise until double in bulk. Bake 15 to 18 minutes in a moderate oven (375°).

RARE OBJECTS

Greek Relics Shown On Island Of Delos

Newsfeatures
DELOS, the Cyclades, Aegean Sea—A wealth of new archaeological objects uncovered during the past year by the 101-year-old French Archaeological School of Athens have been put on public exhibition on this Cyclades island which lies in the nucleus of 224 "white islands."
 The discoveries include chiseled Mycenaean modes of columns in ivory which date back to 1,400 B. C., little ivory figures representing animals in pairs fighting one another, samples of tiny ornate freizes in bas-relief, and a statue of a Mycenaean warrior dressed in loam cloth and bracelet. Other new objects unearthed are jewels of gold and silver, and various precious stones, as well as little tools and fragments of bronze and pottery.

Delos, the mythological birth-place of Apollo and Artemis, is where Greek music, poetry, and medicine were invigorated under the brilliance of Apollo's sun and tempered under Artemis' moon.
 One time religious center of Ionian culture, and seat of the treasury of the Ionian league, Delos today is a three-mile rock-ridge of

granite with almost no vegetation. Excavations of the ancient city of Delos, 200 years older than Pompeii, on the site which was completely destroyed by pirates in 69 B. C., were begun by the French archaeological school. Thomas Holmboe undertook the first exhaustive exploration of the island.
 Patient work was continued throughout 70 years. After 1901 the school concentrated all its activities to excavating Delos. More complete excavations from that date throughout both periods of war and the occupation of Greece resulted in the excavation of an entire city.

Delos is a boat trip of seven hours from the port of Piraeus. From the entrance to the harbor one can still see the porticus of Philip of Macedon, the old warehouses half-imbedded now in the sea, and the peak of Mount Kynthos, with remains of the temple of Zeus. There are ruins also of temples to Apollo, Artemis, Dionysius, one to "foreign Gods" and numerous others.

Remains of a theater, market place, gymnasium, Ionian treasure houses, and the sacred lake enclosure are standing.

Perk Up The Meals With Hearty Desserts

By Charlotte Adams
 Associated Press Food Editor

Conservation-conscious cooks will make the most of stale bread by using it in a variety of ways. One of the most welcome uses will be in desserts, and you won't go wrong if you choose the following end-of-the-meal treats. They offer the extra advantage of combining leftover bread with plentiful fruit.

Almond Prune Betty
 3-4 cup blanched almonds.
 1 cup cooked prunes.
 1-2 cups chopped cooking apples.
 4 cups toasted bread cubes.
 1 cup liquid from prunes.
 3-4 cup water
 3-4 cup granulated sugar.
 1-2 teaspoon cinnamon.

2 tablespoons butter or margarine
 Shred almonds. Measure prunes. Remove pits and cut prunes into small pieces. Place half of toasted bread cubes in buttered casserole or pan (about 1 1/2 quart size), arrange almonds, prunes and apples over bread. Cover with remaining bread cubes. Combine liquids, sugar, salt, spice and butter and boil 2 or 3 minutes. Four evenly over bread cubes. Bake covered in moderate oven (350 degrees) about an hour.

Peach Bread Pudding
 6 canned cling peach halves.
 2 eggs
 1 cup evaporated milk
 1-4 cup water
 1-4 cup granulated sugar
 Few grains salt
 1-2 teaspoon vanilla
 Few drops almond extract
 2 cups stale bread cubes

Drain peaches thoroughly. Place each half, cut side up, in each of 6 greased custard cups. Beat eggs. Add milk, water, sugar, salt and flavorings, and stir until sugar dissolves. Stir in bread cubes. Pour over peaches. Set cups in pan of hot water and bake in moderate oven (350 degrees) until custard is set (35 to 40 minutes).

A one-crust pie is a good choice for a flour-saving dessert! Try this variation of Pecan Pie when company comes.

Pecan Pie
 1 unbaked pie shell
 1-4 cup butter or vitaminized margarine
 1-2 cup sugar
 3 whole eggs
 1 cup dark corn syrup
 1 tablespoon lemon juice

1 cup coarsely chopped pecans
 1 teaspoon vanilla
 1-4 cup whipped cream (optional)
 Line pie plate with pie crust (1 cup flour, 6 tablespoons butter or margarine, 1-4 teaspoon salt, 2 tablespoons cold water). Brush with slightly beaten egg. Cream butter or margarine with sugar. Stir in eggs, syrup, lemon juice and vanilla and mix only until blended. Fold in nuts and turn into crust. Bake in very hot oven (450 degrees) 10 minutes. Reduce heat to 350 degrees and continue baking until filling is set (about 30 minutes). Cool. Garnish with whipped cream if desired.

SCIENTIFIC AID

Potatoes, Skim Milk Plan Urged

Newsfeatures Writer
 WASHINGTON—Some food experts are urging that potatoes and skim milk be combined in wafer or biscuit form as a nutritious and relatively cheap food for export to European countries.

Dairy research workers in the United States Department of Agriculture point out that skim milk, like potatoes, is in abundant supply. Only a fraction of the skim milk produced in this country is now converted to food or industrial purposes, creating a serious disposal problem for the milk industry.

Before the war a new potato-skim milk product was developed experimentally by B. H. Webb of the department's dairy laboratories as a means of increasing the consumption of surplus skim milk. No manufacturer is known to be putting out such a product commercially.

The product developed by Webb can be made in the form of wafers, sticks or croutons. They differ from shoestring potatoes and potato chips in that they contain milk solids but not fat.
 They are made by whipping air into a mixture of skim milk, riped boiled potatoes, salt and pepper or other flavoring. The whipped mix, resembling mashed potatoes, is squeezed out through holes to give the desired form and then dried on wire screening in a hot air tunnel. spray-dried skim milk is a convenient form. However, unsweetened condensed skim milk of 28 per cent total solids, with no added water, can be substituted for the dry milk.

The dried product is finally toasted to produce a light brown color. Toasting also improves the flavor. The plain wafers have a slight cheese flavor derived from the casein of the skim milk. Some wafers were coated with a commercial cheese flavor which does not get rancid.

Packaging of the wafer is said to cause no unusual difficulties since the only requirement is a moisture-proof container. Tightly closed plastic bags, lined paper bags or cans are described as suitable.

The Agriculture Department laboratories are now working on new processes for using more skim milk and whey in both domestic and foreign-type cheese. Another research project is aimed at finding wider use for milk and milk by-products in evaporated, condensed and dried milk and in other food products.

The need for new uses for skim milk and whey has been made more urgent by an expansion of 18 per cent in milk production and increased delivery of whole milk, rather than cream, to manufacturing plants during the past 10 years. Since the war's end milk fat has increased in value, but skim milk prices have decreased.

Production of diamonds from the mines of South Africa broke all records during World War II.

PIGGLY WIGGLY

The BEST FAMILIES SERVE MEADOLAKE MARGARINE

Because EVERYBODY likes its Farm-Fresh FLAVOR

Mrs. Tucker's Foods

THE BETTER SPREAD FOR OUR DAILY BREAD

Snowballs With Strawberry Sauce

1-2 cup sugar
1-4 cup butter or margarine
1 teaspoon vanilla
1 cup cake flour
1 teaspoon baking powder
1-4 cup milk
3 egg whites
1-8 teaspoon salt
Powdered sugar
Strawberry sauce

Sift sugar and add to creamed butter or margarine. Add vanilla. Sift together flour and baking powder and add to sugar-butter mixture. Add milk and beat batter until smooth. Whip egg whites until stiff, adding salt, and fold into batter. Grease small cup cake pans and dust them with flour. Pour batter into them, filling 2-3 full. Cover with waxed paper held in place with rubber bands. Place pans in hot water and steam in a 350 degree oven for 35 minutes. Invert and sprinkle with powdered sugar. Serve with strawberry sauce.

Meatless Green Pea Soup With Dumplings

1 head lettuce
1 medium-sized onion
4 cups vegetable stock
1-2 cup chopped celery with leaves
2 sprigs parsley
1-2 bay leaf
3 cups hulled green peas
2 tablespoons butter or margarine
Salt and pepper
Dumplings

Shred lettuce. Peel and cut onion into thin slices. Combine and add two and one-half cups of vegetable stock, chopped celery and leaves, parsley, bay leaf and 2 cups of peas. Simmer, covered until peas are soft. Put through a potato ricer. Reheat and stir in butter or margarine. Cook the remaining cup of peas in remaining vegetable stock. When peas are tender add to the strained soup. Season to taste with salt and pepper. Serve soup with dumplings.

Curried Lamb In Rice

1 tablespoon butter or margarine
1 medium-sized onion, diced
2 cups canned tomatoes
1 1/2 tablespoons lemon juice
1 cup cooked lamb, cubed
1 tablespoon curry powder
Cold water
1/2 cup milk
Brown Rice
3 bananas

Cook the onion in the butter or margarine in a heavy saucepan for 5 minutes. Add the tomatoes, lemon juice and meat. Mix the curry powder to a paste with the cold water and gradually stir it into the meat mixture. Simmer for 20 minutes. Add salt if necessary. Stir in the milk just before serving. Heap a border of brown rice on a hot platter and fill center with the curried lamb. Serve with ripe bananas cut in halves crosswise.

Beef Tongue In Sauce

1 fresh beef tongue
2 medium-sized onions
1 large carrot
3 stalks celery with leaves
1 Small bunch parsley
8 peppercorns
1 teaspoon salt
1-2 cup almonds, blanched and split
2 cups water
2-3 cup seedless raisins
6 tablespoons fat (from tongue stock) or butter or margarine
3 tablespoons flour
1-4 cup crushed ginger snaps
2 teaspoons caramel
1 lemon, cut in small cubes
Salt
Paprika

Place the beef tongue in a large kettle. Peel and add the onions, carrot, celery with leaves and parsley. Barely cover with boiling water and add the peppercorns and salt. Simmer for 3 hours, or until tongue is tender. Drain and reserve liquor. Skin and remove roots from tongue and keep in a warm place. Simmer almonds in water 1-2 hour, then add raisins and simmer another 1-2 hour. Drain sauce, reserving liquor. Melt fat, butter or margarine and blend in flour. Stir in gradually enough of the raisin and almond liquid and the tongue stock to make 3 cups. Add crushed ginger snaps, caramel, almonds, raisins and the lemon. Season with salt and paprika. Serve over slices of the tongue.

Hawaiian Salad

4 slices pineapple
1 head lettuce
Grapefruit sections
Orange sections
4 maraschino cherries
1 green pepper
French dressing
1 tablespoon grated horseradish

Place lettuce leaves on plate. Lay a slice of pineapple on each plate and arrange the grapefruit and orange sections in cone shape on top of pineapple. Place a maraschino cherry on top of each cone and place diamond-shaped pieces of pepper on the sides. Serve with French dressing to which has been added a tablespoon of grated horseradish.

Burglars Foiled

Burglars who entered the C. F. Reece garage Sunday night were unsuccessful after all, police reported this morning.

First reports listed \$57 missing, but apparently the burglars were unable to cope with the cash register mechanism. The battered cash register was found and opened after considerable difficulty and the money was still resting securely inside.

Store electric cords away from heat. Never wind a cord around a hot appliance, or heat an appliance with the cord around it. Keep cords away from hot radiators or stoves.
