## Chest Drive Is Under Way

**WORKERS ARE ENTHUSIASTIC THIS MORNING**  
Meeting of Citizens Is Held to Study Methods

Fired with enthusiasm by declarations that the city of Pampa wishes what it begins, more than one hundred workers this morning started collecting \$15,000 for the first Community Chest fund.

The group met at 10 a. m. at the Rex theater, where Chairman Ivy E. Dutton took charge and issued necessary instructions. Stickers, badges for collectors, pledge cards, and buttons for contributors were distributed.

Each worker or team was assigned a small district near the place of employment. Since a number of citizens were absent on account of being out of the city or for other reasons, those persons are asked to call the Board of City Development for their assignments. The complete list of workers was published in Sunday's News-Post.

Headquarters for the drive was established at the B. C. D. this morning.

It is desired that all citizens cooperate in the campaign by contributing promptly when the workers call. The suggestion has been made that each working man give the equivalent of a day's wages and that others give in proportion. Liberty will be necessary if the drive is to go "over the top" promptly. It is further pointed out that the Welfare drive and those for the day nursery, Boy Scouts, Red Cross, Campfire, Girls, and emergency work are combined, and that this drive will aid future solicitations.

Daily reports will be made on the progress of the Chest drive.

**CHILDREN BURNED**  
Pampa, Dec. 1. (AP)—Pamela Davis, 10, and Georgia Harris, 8, who lived with their parents on the L. B. McCain ranch near Pampa, were fatally burned, and their two-year-old brother severely burned, on the McCain ranch yesterday.

The children were playing in the yard near some hot ashes when one of them threw some paraffin on the ashes and struck a lighted match to them. A resulting explosion ignited the clothes of the children.

### THE WEATHER

**TEXAS:** Fair tonight and Tuesday. Light to moderate winds on the coast, mostly northerly.

**OKLAHOMA:** Generally fair tonight, probably freezing tonight.

Flying weather forecast Texas and Oklahoma for today: Clear with moderate to strong northerly winds at all flying levels up to 10,000 feet, except southwest to west below 5,000 feet in northwest portion.

**WASHINGTON:** Representative Garner has returned to a hotel overlooking the Treasury building. He gave the reason: "To keep my eye on Andy."

## HANDSHAKING AT OPENING OF CONGRESS IS MATCHED TODAY BY FISTFIGHTS OF REDS AND COPS

**WASHINGTON, Dec. 1. (AP)—**The final session of the seventy-first congress convened today with much handshaking among the legislators within the capitol and fist-fighting between communists and police on the outside.

Neither the senate nor house met for long. Opening prayers, the calling of the roll and appointment of committees to notify the president congress was ready to do business constituted the only business.

Six demonstrators were arrested in disorders which followed a foray by police into banner-bearing communists who were headed for the senate and house galleries. The demonstrators were dispersed with the aid of tear gas.

A possible cause of words in the senate on the seating of Senator-elect Davis, who today retired as secretary of labor, was averted when he failed to appear.

Chairman Nye of the senate campaign investigators had announced he would ask Davis to step aside, pending further study of expenditures on behalf of his ticket in Pennsylvania.

PAMPA—CITY OF OIL AND WHEAT—CITY OF GOOD HOMES

PAMPA, GRAY COUNTY, TEXAS, MONDAY EVENING, NOVEMBER 1, 1930.

## The Pampa Football Season Isn't Over!

## Ranger Game May Be Put on Air

It was considered very probable this afternoon that the Ranger-Pampa football game here Friday would be broadcast from KGRS through the local remote control station.

Sam Fenberg, Pampa announcer, said that merchants would make possible the broadcast if the hour could be moved from 3:30 to 3 p. m. School authorities were to meet and discuss this change.

## REX THEATRE PORTER USES COOL NERVE

Attempted—Robbery Is Halted—2 Men Held

Due to the vigilance and bravery of Frank Long, negro porter of the Rex theatre, and H. C. "Bud" Cottrell, night policeman, two of four men who attempted to rob a safe at the theatre at 3:30 o'clock this morning are being held in the county jail. The safe contained over \$500, according to C. B. Akers, manager.

The two men are being held pending investigation by the grand jury. They gave their names to Officer Cottrell as "Spec" Campbell and Fritz Kilpatrick.

Long was dozing in the foyer of the theatre when he heard a noise in the office on the second floor, which is located in the front of the building. He ran to the door which connects the stairs with the sidewalk.

"Who's up in there?" he shouted.

He then noticed a sawed-off shotgun which the men had left at the foot of the stairway. He came back on the sidewalk when he saw one of the men stick his head out of the office window.

"I let him have both barrels," Long explained this morning. The porter had a pistol of his own and he tried to fire it but the gun snapped. Meanwhile, Officer Cottrell had heard the shots and he came running over from the vicinity of

the police station. Harold Edwards, night clerk at the Johnson hotel, and several others who had heard the shots and commotion, came running over.

However, before Mr. Cottrell could reach the rear entrance to the theatre, two of the men escaped. The porter called Mr. Akers and when he arrived the theatre had been surrounded by officers and citizens. It was not known whether any of the would-be burglars were still in the theatre, but Mr. Cottrell and Mr. Akers climbed to

## PRORATION TO BE CONTINUED TO MARCH 1

Umpire Corcoran Has Issued Another Order

Not more than 64,616 barrels of oil per day shall be produced from the Panhandle district until March 1, 1931, unless the umpire with the advice of the advisory committee may make such further increase or reduction as may be necessary to adjust the allowable production to the "outlet," according to the new proration order issued today by H. J. Corcoran, umpire. The order went into effect Nov. 25 and is scheduled to continue in effect until March 1, 1931.

By the term "outlet" is meant the sum total of all the nominations for any particular period actually made by purchasers of crude oil in the district, the railroad commission explains through Mr. Corcoran.

The most significant feature of the new order is that the umpire and the advisory committee will have the authority to increase or reduce the allowable daily production, upon the approval of the commission, during each proration period.

**RULE 1.**—The following definitions and procedure are prescribed: (a) By "individual leases" and or "individual producing properties" are meant those leases or properties heretofore treated by their respective owner-operators and others as individual units and those leases or properties that may hereafter be acquired by their respective owner-operators as individual units in accordance with common usage and custom in the industry.

(b) The "daily potential production of a well" and a lease or property is the amount of oil said well or lease or property is capable of producing during a period of twenty-four (24) hours if pumped or if operated actually under the usual methods. The daily potential production of wells shall be determined by gauges or other physical tests carried out and conducted by the umpire with the advice and counsel of the advisory committee, provided for in RULE 5 hereof, conducted at such times and for such periods and in such manner as in the judgment of the umpire will insure a just and fair determination of such potentials. The "daily potential production of the field" shall be the aggregate daily potential production of all wells therein, and the "daily potential production of the district" shall be the aggregate of the daily potential production of all wells in all fields in the district. The term "proratable daily potential production" of a lease or property shall mean the "daily potential production" of such lease or property as above defined, in excess of a minimum production of twelve (12) barrels per

## American Legion to Furnish Trees

Plans to supply the merchants and residents of Pampa with Christmas trees and to decorate the streets for the holiday season again this year, are being made by the American Legion. It was announced today by J. F. Hunt, member of the executive committee.

The Legion will receive a large shipment of Oregon fir trees in ample time to distribute them to residents and merchants. Mr. Gibson declared the Legion can sell the trees cheaper than peddlers who are now canvassing the town.

The Legion plans to use the decorative scheme employed last year. Then, colored lights were strung at intervals across the streets while Christmas trees adorned the sidewalks.

## Her Spirit Is Stilled At Last

Mary "Mother" Jones was mourned throughout America today as one of the staunchest defenders, during her long life, of the working man. She was often jailed because of her labor activities.

## "MOTHER" JONES, DEFENDER OF WORKING MAN, DIES AT END OF 100 ACTIVE Y'

**WASHINGTON, Dec. 1. (AP)—**Mary "Mother" Jones is no more. The staunch little defender of the working man last night closed her eyes on a hundred years of throbbing life.

It was her body that failed under pressure of time, for the spirit which had carried her through the battles of union labor was militant still. Only one friend was with her in the still hour of midnight when her heart ceased its feeble beat.

She started slightly on her bed and then lay still. Mrs. Walter Burgess, who had harbored and tended her in retirement of the old years, bent over and saw the end. From her little cottage on the outskirts of the city, word went out that sorrow to the thousands of thousands who have seen the little Irish woman wit of near-sainthood.

## Capone and Police in Merry Chase

**CHICAGO, Dec. 1. (AP)—**Alfonse Capone, No. 1 on Chicago's list of "public enemies," was still free today after apparently playing a game of hide-and-go-seek with the authorities in which they believed they were only one or two jumps behind him.

The gangster was sought in raids on five places, all supposed to be his secret hideouts, but was not found, although the raiders, led by Municipal Judge John H. Lyle and Patrick Roche, chief investigator for the state's attorney,

found evidence that their quarry was not far ahead of them.

In the apartment of Willie Henery, a Capone henchman, the raiders found silk pajamas bearing Capone's initials and a small cooking on a stove, leading them to believe that Capone had been preparing to dine just before the officers' called. More evidence with Capone's initials, was found a few blocks away in the home of Mrs. Ernestine Carr. Here they also discovered a wooden box with a solid gold plate on which was

inscribed:

"Red values—From Al."

Mrs. Carr's husband, Ernest, however, was missing as was Joseph Cook, whose home was also among the five raided. Roche said he believed Carr and Cook had accompanied Capone on his flight and that he expected to get further information during the week. He was hopeful, he added, of better results next time. Police's raids were made on a five-mile radius last Friday that Capone would be found in one of the

five places visited.

Judge Lyle topped off his day's activities by appearing for an address at a church at Evanston, where he said that Capone had a political power in Chicago that must be checked. He also blamed the police for failure to arrest him.

"With 100 men, Pat Roche could get him," he said. "I could do it with 500 men. Yet Commissioner Alcock, with 2,000 men is unable to find him."

## VERNON GETS MURDER TRIAL OF THOMPSON

Dist. Attorney Puts Approval Upon Move

State's attorneys made an agreement this afternoon with counsel of Emmet Thompson, charged with slaying Homer Crabtree, to hold the trial of the former at Vernon the first week of January, 1931.

Not until there was no hope of reaching an agreement would Sen. Clay G. Small and Neil Powers, representing Fred Weeks, special prosecutor, agree to the change.

Senator Small and Neil Powers, representing Mr. Weeks, first told opposing counsel they would agree on Memphis, Plainview, Playdolls or Lubbock. They argued it was a concession to the defense to agree to a change of venue at all.

The question was before Judge W. R. Ewing from 10 o'clock this morning until 3 in the afternoon. After lengthy arguments, Mr. Ewing said, "I am attorney of this district and I represent the state and going to agree with defense attorneys to try the case at

Judge Ewing then for trial at Vernon of the attorney Senator Small listed various opposed

**Fine Climate Helps to Make Pampa Good Home Community**

It is always unwise to talk too much about Pampa weather, but if you strike an average you will have something to boast about.

If you make predictions, you will be confounded, for any period of several weeks and the weather will change your claims. Here it is way up in December and the section has enjoyed very mild weather. There are no frozen cars, few frozen radiators, and no damaged livestock. In short, our season is a proud one and to advertise.

Pampa has long had an unsavory reputation as a "northern." The folk downstate and here have imagined that the weather here was much colder. But it is not so. The breeze is quickly dissipated by the warm breezes with the damp atmosphere. The sun and you will be glad to see the "winter resorts" which are here. They write back and say they should be proud of Pampa.

In 1906, the writer became a resident here, and the hard work of this fact in the minds of other sections. People will move here because of the fine climate.

papermen in the country. Preston recalls legislative elections that they controlled the legislature they never had to worry about publicity. Some had journalistic favorites, but the present custom whereby correspondents call senators off the floor whenever they want to talk to them was undreamed of. Today, in marked contrast, nearly all senate correspondents have personal contracts with the more distinguished members. The senate, according to Jim, is now recognized as a bigger and better source of news than it used to be.

"They never used to give us advance copies of speeches," Preston says. "But in late years they have come to recognize that reports will be more widespread, extensive and accurate if they do. The first senate speech ever distributed in advance for the press was that of Senator Jonathan T. Dilliver, on the wool schedule in the tariff fight during the Taft days. Now we sometimes get them a week in advance, an advantage to everybody. But some men, like Borah, simply can't prepare them in advance. Borah often fits his words and their presentation to the atmosphere and the attitude of his audience. Pat Harrison is another who can't prepare speeches in advance."

These sauces make it possible for the housekeeper to serve the same dessert for a reducing diet and a normal one. Whipped cream served with a fruit gelatine makes the dessert pleasing to the family, while the lack of whipped cream makes the dessert proper for the person who would reduce.

Muscovites of fruit — frozen canned fruits — always can be served plain to one who is on a reduction diet. All fresh fruits with the exception of grapes and bananas are permissible. Fresh fruit combined with the frozen fruit makes a regular "party" dessert for the too plump.

# PLAYS ARE ANNOUNCED FOR DECEMBER

## Rehearsals Begin In Several Towns Of North Plains

Dramatic performances will have no small place in North Plains society during the month of December, casts for several plays already having been selected and rehearsals begun.

Rehearsals are being held this week for the three one-act plays to be presented Dec. 12 at the Floydada high school auditorium by the Floydada Little theatre. Two of the plays have been selected and the third may be given by high school students. It was stated: "Getting Off," a comedy, and "Dawn," a drama, are the two one-act plays that have been selected and on which work has been started under the direction of Mrs. Robert Bone.

**Miami Cast Chosen**  
The cast for the one-act play to be taken to the annual one-act play tournament in Canyon next spring has been chosen by the Miami high school.

The play is "Stockin' Money," by Elton Earle Dean and is a folk play of South Carolina. The cast, selected by Miss Bussell, is as follows: Hiram Cantrell, a tenant farmer, 60 years of age—Ervin Purley; Martha Cantrell, his wife, 55 years of age—Velva Barnett; Ralph Merck, their grandson, 18 years old—Junior Hester; Annie Adams, daughter of land-lord, 16 years old—Eleanor Talley.

**Benefit Planned**  
A new departure in the program plans of the Clarendon Little theatre will be used in the next benefit production just before the Christmas holidays. Mrs. Rita Foster Stocking, director, is planning to present three separate one-act plays for this event, one a comedy and two dramas.

It has been the custom of the Little theatre play selection committee to alternate the programs, using dramas, comedy-dramas, and comedies.

**Play Given Friday**  
A two and a half hour comedy-drama entitled "The Rose of the East Side," was presented at the Lakeview school house Friday night.

Following is the cast of characters in the play:  
Pop Schlageneimer, played by Edward Alexander;  
Mrs. Goldfish, Mrs. Rumashfish and Mrs. Applebaum, played by Deeter Poore, Miss Dickson, and Frankie Jones;

Mama Schlageneimer, played by Mamma Schlageneimer, pop's wife, played by Ethel Warren;  
Danny Murphy, G. W. Smith, Louie Schlageneimer, played by Earl Sparks;

Inay Schlageneimer, played by C. L. McMurry;

Rodie Schlageneimer, Alta Lloyd, Eddie Monohan, Herman Nelson, Sam Spittin, Wayne Batty;

Tim Monahan and Maggie, his wife, played by Willie Bunch and Evelyn Roy;

Ketchum, Ray Lloyd;

Tomkins, Roy Anderson;  
Francine, Angeline Patterson;  
Steele, Floyd Willis.

**Recital Announced**  
Miss Connally of Miami will present her public speaking club in a Christmas recital Dec. 18 at the high school auditorium. This recital will climax the work in public speaking and it will consist of stories, readings, pianologues, and a one-act play.

## Wives! Here's How to Keep Hubby Happy at Home

**MEMPHIS, Tenn., Dec. 1.** (NEA)—The ancient problem entitled, "How Can I Hold My Husband, and Make Him Like It?" seems on the verge of being solved. A city-wide letter writing contest was recently held here on that subject, and when the mass of letters from optimistic wives had been shuffled and winnowed down there emerged, as the winner, a set of simple rules guaranteed to do the trick.

Winner of the contest is Mrs. Billie Kunz. She presents her rules as follows:

1—Fill the bathtub for him and give him a hand with the scrubbing of his back.

2—Keep his clothes handy, and at night lay out his pajamas, his bathrobe and his slippers on his bed.

3—Compliment him when and if he is nicely dressed, and encourage him to keep up his personal appearance.

4—Learn his likes and dislikes.

5—Talk over the current news and topics of the day with him.

6—Ask him plenty of questions and pretend you are deeply interested in all he says.

7—Let him have a certain hour for reading undisturbed.

(But adds the prize winner—this one-night-out-a-week business doesn't fit into my managing. If it's amusement he wants, we can go places together. He should go places with his men friends occasionally, however; as, for instance, golfing, bowling and to prize fights.)

8—Overwhelm him with surprises. Remember his birthdays. Make him a box of candy to take to work. Buy him shirts and ties to match and let him find them under his pillow.

9—Keep yourself and your kiddies neat and spic and span at all times.

10—Don't take things for granted. Tell him you love him and with him.

## Pharmacy as Profession for Women Is Increasingly Popular; Ten Now Studying at University of Texas

**AUSTIN, Dec. 1.**—Women in pharmacy are becoming more and more numerous as the profession broadens and becomes a more pleasant occupation, according to Dean W. F. Gidley of the University of Texas College of Pharmacy. At present there are 10 young women enrolled in the University College of Pharmacy. These are Eleanor Buass of Austin, Helen Buckley of Galveston, Estela Garza of San Antonio, Anna Dell Gidley of Austin, Emmie Ilenberg of Fredericksburg, Christa Kallenberg of Fredericksburg, Christina Longoria of Mission, Eleanor Moore of Austin.

They have been 62 women to receive the degree in pharmacy since 1897. Three women students received the degree of graduate of pharmacy in June, 1930. These were Sister Mary De Sales Joyce of Houston, Sister Mary Grace Ryan of Houston and Annie M. Krumm of Wichita Falls.

"Women tend to be neat, accurate and clean in their duties as pharmacists, and today women pharmacists are having little difficulty in securing good positions," Dean Gidley said. "Many of our graduates have found very desirable positions in various fields of the pharmaceutical profession. One of the most popular fields is that of hospital pharmacy, but there are many other branches, such as public health work or civil service."

## Prison Store Keeper Charged

**HUNTSVILLE, Dec. 1.** (AP)—J. L. Williford, 26-year-old manager of the State Prison System store, was held in the prison today for county authorities on charges of misappropriation of public funds, according to Sheriff N. L. Speer. Speer said he did not know the exact amount involved, but it was said to have been small.

Williford was arrested in Houston and brought here. The complaints, Speer said, were lodged on behalf of Lee Simmons, general manager of the Prison System.

## Shawnee Man Kills His Wife

**SHAWNEE, Okla., Dec. 1.** (AP)—Charged with murder in connection with the fatal shooting of his wife, Madge, following a family altercation, Lee Lambert waived preliminary hearing here this afternoon. His attorneys said they would seek bail pending trial.

Lambert denied connection with the shooting which took place early Sunday. He denied he was at home at the time.

Officers said that during the quarrel Mrs. Lambert dared her husband to shoot her. Lambert contended he then departed and that when he returned to the apartment, he found her shot to death. A number of friends were in the lodging, he said.

## News of the Churches

**CENTRAL BAPTIST REVIVAL**  
The revival meeting at the Central Baptist church had a great day yesterday, with large attendance and splendid results. Last night there was shouting as men were saved and added to the church.

Dr. McCall will continue to preach each evening at 7:45 o'clock this week. The subject for this evening will be "The City of Six Wonders," a sermon on heaven. The preacher will discuss what it is like and who goes there. This sermon has provoked much favorable comment in other cities and it is a unique message.

Last night Dr. McCall spoke on the three things that may close the door of mercy on a soul. He said in part: "There are three things, either one of which will make salvation impossible. 1. The second coming of Christ. This always imminent event will close the door of salvation to those who have believed. 2. Death closes the day of grace for men. 3. Judgment. To those who have believed and who have not repented, God hath standing against the

appointed unto all men once to die, and after this cometh the judgment." 3. The final desertion of the Holy Spirit. "My spirit shall not always strive with man." No man can say that Jesus is the Christ but by the Holy Spirit. When the Spirit of God ceases to strive with man, he is left in a cold dead state and will never be interested again in becoming a Christian. This, the most dangerous of all the perils, since it is so subtle. "Seek ye the Lord while He may be found. Call upon Him while He is near."

**CHRISTIAN SCIENCE CHURCHES**  
"Ancient and Modern Nebromancy, Alms Memorism and Hypnotism, Denounced," was the lesson-sermon subject in all Churches of Christ, Scientist, Sunday, Nov. 30. The golden text was, "Do not overcome of evil, but overcome evil with good." (Romans 12:21).  
Comprised in the lesson-sermon were the following passages from the Bible: "Put on the armor of God, that ye may be able to stand against the

# CHRISTMAS NOW IN FOREGROUND

## New Season Will Be Evidenced In Events for Week

Today is Dec. 1. To society this means the beginning of a new season and a distinct change in all programs and social functions. For the past several weeks Thanksgiving has been in the foreground, and brown, orange, yellow, and red have been evident in practically every event, demanding a color scheme. Tallies and score pads have taken the form of pumpkins, turkeys, autumn leaves, pilgrims—everything suggestive of the harvest festival.

But beginning this week, all autumn effects will be discarded, and the greatest of all holidays—the anniversary of the birth of Christ—will be suggested in practically every program or social function requiring a special theme. The most beautiful story ever told, that of the first Christmas, will be repeated over and over again with no loss of interest or freshness. The spirit of giving will be paramount. The purity of the snow will give added joy—if not in actual weather conditions, then on the dining room table, where an evergreen, sparkling with multi-colored lights will be the center of interest. Such a table will bring gladness to hundreds of Pampa families this month, it will be the feature for scores of parties, and it will add interest to dozens of club programs.

The calendar for the week follows:

### MONDAY

A called meeting of the Business and Professional Women's club will be held at 7:30 o'clock in the Turner-Warren studio for the purpose of completing program plans. The attendance and social committees are urged to be present.

Women of the Mooseheart Legion will hold their annual meeting this evening instead of Wednesday evening, the usual meeting time. Election of officers will feature the session, which will begin at 7:30 o'clock in the legion's hall on West Francis.

Mrs. W. F. Taylor will be hostess near Pampa at 2:30 p. m.

Junior high school P.-T. A. will meet at 3:30 o'clock in the music room of Lamar building.

"Sunup" will be presented in the high school auditorium under the auspices of the Pampa library association.

### TUESDAY

Regular meeting of the Merten P.-T. A. will be held Tuesday afternoon at 2:30 o'clock at the school. Members are urged to be present and visitors also are welcome.

Executive committee of the Business and Professional Women's club will meet at 12 o'clock, noon, at the Canary Sandwich Shop.

Observance of week of prayer will be begun by the Woman's Missionary society of the Central Baptist church. A general business meeting to be held at the church at 2 o'clock will be followed by a program with Circle 1 in charge.

The London Bridge club will meet at the home of John Studer at 2:30 o'clock.

### I. C. C. EXAMINER WILL BE IN LUBBOCK SOON

DALLAS, Dec. 1. (AP)—Haskell C. Davis, Interstate Commerce Commission examiner, who is conducting a hearing here, will be in Lubbock Monday for the opening of the hearing on the application of the Texas and Pacific to build the Texas and Pacific Northern.

The new road would extend from Big Spring, on the Texas and Pacific, to Vega, west of Amarillo, more than 300 miles. The Santa Fe, Worth Worth and Denver, and other roads which serve the Panhandle-Plains section were expected to fight the application.

### ON LAST LAP

KINGMAN, Ark., Dec. 1. (AP)—Ruth Nichols, society girl of Rye, N. Y., took off at 11:24 a. m. today for Los Angeles on the last lap of her attempt to better Mrs. J. M. Walk-Miller's transcontinental flight record for women.

## Family Menus

By SISTER MARY  
NEA Service Writer

One of the most popular meats during the fall and winter months is pork sausage. Although any kind of meat can be made into "sausage," the word generally signifies pork, in this country particularly.

Both fat and lean meat are used in the making of sausage, but never more than one-third as much fat as lean should be used. Link, bulk and country sausage all are made from finely chopped pork.

The small link sausages make a most attractive garnish for roast chicken and turkey. Cooked to a crisp brown, their highly seasoned richness provides a pleasing contrast to the more delicately flavored fowl.

Bulk sausage (often is added to combination dishes to give flavor. Veal birds are made more substantial if sausage is added to the dressing used for stuffing. An excellent "crown" roast of pork uses spare-ribs and sausage in place of the more expensive cut from the loin. The ribs are shaped and tied to form the crown, which is filled with sausage.

Combination dishes made with vegetables or cereals and sausage usually are good. Potatoes stuffed with parboiled sausage and the whole baked, sweet potatoes and sausage scalloped together, baked macaroni and sausage, casserole of rice and sausage, sausage in a casing of baking powder biscuit dough, are a few of the many ways it can be used to give variety to winter menus.

Meals must be carefully planned when sausage is to be the meat. Vegetables must be served that will supply bulk as well as mineral and vitamin content. The coarse-fibered winter vegetables are ideal for this. Crisp celery and cabbage always are appetizing accompaniments for pork in any form. Apples should appear some place in the menu, raw in a salad, baked in a pudding for dessert, or in sauce as an accompaniment to the meat. Fruit or a light pudding lacking in fat makes a suitable dessert.

Sausage may be baked in a hot oven instead of baked on top of the stove. But no matter how it is cooked, it must be well done. In order to insure thorough cooking without drying out and overcooking, it is an excellent idea to parboil thick sausage first. Be sure to prick the skin in several places to prevent bursting.

ing powder, 1-2 teaspoon salt, 2 tablespoons butter, water, 4 parboiled small sausage.

Mix and sift flour, salt and baking powder. Rub in butter and cut in water to make a soft dough. Put on a floured molding board and roll with a floured rolling pin into a sheet about one-half inch thick. Cut into oblong pieces a little longer than the sausages and put a sausage in each. Fold edges together and place on an oiled and floured pan. Bake in a moderate oven until a golden brown. Serve with cranberry or apple sauce as soon as removed from oven.

# SEVERAL PAMPA STARS WILL MAKE ALL-DISTRICT TEAM

## SAULSBURY IS PUT FORWARD BY NEWS-POST

Eyes of the Texas high school football world will be upon Pampa Friday when the Ranger Bulldogs arrive in town to test the well-touted prowess of the Harvesters.

Ranger and Pampa fans in general will be watching the performance of a number of all-stars of the two districts. Captain Don Saulsbury of Pampa is the leading scorer in West Texas and has all-district honors scored up. Lard also will probably make the mythical team, and Pafford and Reno are mentioned prominently for the honor.

Captain Don Saulsbury has been urged by the News-Post as an all-state selection, and the Dallas Times-Herald has telegraphed that if he shows up well in the Ranger-Pampa game he will be due that honor in the estimation of Bill Parker, sports editor.

The hope is that Ranger is one of the strongest teams in Texas. At their best they are probably as good as any of the teams which are going into the state finals. This means that the Harvesters will have a terrific job on their hands Friday.

On Saturday, the Amarillo Sanderlies will play either Cisco or Breckenridge, and the winner will go into the state semi-finals with the winner of the Cotulla-Oak Cliff game.

Coach Odus Mitchell spent the week-end watching Ranger beat Breckenridge and T. C. U. defeat S. M. U. He was to arrive about noon to inaugurate and intensive training effort for the final game of the season.

## New Type of Pursuit Plane Is Very Fast

SAN ANTONIO, Dec. 1. (AP) — An observer reported that a new type of army pursuit plane carrying First Lieutenant Joe D. Butler and Raoul Woodridge of Rockwell Field, San Diego, Calif., passed over here early this morning at a speed estimated between 250 and 300 miles an hour and an altitude of 15,000 feet.

The fliers are en route to New York with the first stop scheduled at Hot Box Field, Muskogee, Okla. Stops are scheduled for Kansas City, Mo., and Columbus, Ohio. The fliers are expected to reach New York today. They plan a return flight from New York to San Diego in an effort to reduce the record of Captain Frank M. Hawka.

## FLANE ACCIDENTS ARE FATAL TO 4 PERSONS

MITCHELL, S. D., Dec. 1. (AP) — Four persons were dead today as the result of airplane accidents in the state over the week-end.

Robert French, 30, his wife and 8-year-old son were killed instantly yesterday when the plane, which French was piloting crashed from a height of 400 feet.

Clara Ramey, 30, was injured fatally in a crash at Madison Saturday.

## URGENT IMMEDIATE START ON VETERANS HOSPITAL

WACO, Dec. 1. (AP) — Post commanders and adjutants of American Legion posts in Texas, meeting here yesterday, passed resolutions urging that the new Veterans Bureau hospital at Waco and all other government construction be started immediately, as a means of unemployment relief.

State Commander Hal Brennan of Laredo said all posts in the state would write their representatives in congress, urging them to bring pressure to bear upon the government to start the work.

## FLYING STUDENTS KILLED

SAN ANTONIO, Dec. 1. (AP) — The crash of an airplane yesterday 40 miles north of here, from a height of 2,000 feet, killed A. P. Taxman, 22, of Wichita Falls, and O. P. Walker, 31, of Sherman. Both were flying students from the Spartan Aeronautical school at Tulsa, and were en route to San Antonio. Cause of the crash was not determined.

## NOTRE DAME FACES SEVERE GRID BATTLE

BY HERBERT W. BARKER, Associated Press Sports Writer  
NEW YORK, Dec. 1. (AP) — A football "natural," with the mythical national championship at stake, brings together Notre Dame's Rough Riders and Southern California's Trojans at Los Angeles on Saturday as the grand climax of a spectacular season.

Rockne's brigade can check the Trojans the national title will be theirs with few, if any, dissenting votes. Already the Rough Riders have crushed Southern Methodist of the Southwest conference, Navy, Pitt, Carnegie, Penn and the Army in the east, Indiana and Northwestern of the Big Ten and Drake of the Missouri Valley conference.

On the other hand, a victory for Southern California will leave the situation in a tangle with several unbeaten eleven ready to advance their claims. Among these might be Alabama and Washington State, both unbeaten and untied, who will clash in the annual Rose Bowl game on the coast next year's day.

Southern California has been beaten once this year, losing a 7-6 decision to Washington State. Notre Dame's winning streak was seriously endangered by the Army Saturday but the Rough Riders crashed through to block a try for point after touchdown and won 7-6.

There are close to a dozen other games on Saturday's schedule. In the East Navy clashes with Penn at Philadelphia; New York university attempts to stop Colgate's high-powered eleven in New York; Carnegie and Washington & Jefferson put on their postponed duel at Pittsburgh; and Western Maryland, only eastern team unbeaten, takes on Maryland at Baltimore.

In the Southwest conference, Georgia and Georgia Tech meet in their annual battle at Atlanta; Florida and Tennessee are matched at Jacksonville; and Duke plays North Carolina at Chapel Hill. Loyola of New Orleans, a member of the Southern Intercollegiate Athletic association, faces the University of Detroit at New Orleans.

In the southwest, Tulsa's unbeaten and untied eleven clashes with the Haskell Indians at Tulsa and Iowa State travels to Houston, Texas, to take on Rice of the Southwest conference.

## MIDLAND MAN KILLED

EL PASO, Dec. 1. (AP) — O. A. Williamson, 32, of Midland, died today of burns received yesterday when he tried to start a fire at a road camp 50 miles east of here. He was alone at camp when buried and walked to the highway nearby but was unsuccessful in an effort to stop an automobile. He was forced to walk several miles to a ranch to get aid.

## HAMS GROWN ON TREES

ASHLAND, Wis., Dec. 1. (AP) — Tramps, encamped near here awake yesterday morning to find pork sausage and picnic hams "growing" on tree branches.

Investigation revealed that a meat truck had been wrecked during the night with such force that the sausages and hams were hurled into the air, many of the bundles sticking on the branches of nearby trees.

## WOUNDED BY HOG

LAREDO, Dec. 1. (AP) — George Breckelmyer, Laredo hunter, was cut on one leg when attacked by a wild hog near here yesterday.

## A Tip to Dapper Jack

We are just a trifle concerned about Jack Kearns. The other day Jack sent out a bulletin to the boys, stating in effect that even the date of the Mickey Walker-Max Schmeling match for next year had been set.

Oh, yes, May 31, 1931, at Soldiers' Field! To which our only comment at this time will be that May 31 happens to fall on Sunday.

## Horween Goes Back

Arnold Horween, Harvard's coach, returns to the factory in Chicago, his work for the year done well in beating Yale. No more, says he, will he coach the Crimson.

I think Yale will agree that Horween is in the right business in Chicago. Considering that the Bulldog was pretty thoroughly tanned this year, and last year, and the year before that.

## Point After Touchdown

Football is a game that gets its name from the practice of kicking a leather-covered spheroid. Naturally, you kick with your feet. Aside from punting and booting field goals, the try point after touchdown is the only kicking you see in a football game these days, aside from kicking fbs, etc.

Success in kicking the point after touchdown often brings a team victory. It is a department of the game. If they do away with kicking (I mean the football) why call it football? Is it not important that skill in kicking be retained?

## Hunk Anderson Trains

Hunk Anderson, hard hitting Notre Dame guard of 1921, and assistant to Rockne, went into training for that Thanksgiving morning battle between veterans of Northwestern and Notre Dame teams. Training of course, involved cessation of smoking. Hunk acquiesced. He bought a plug of chewing tobacco.

## Ancy High Goes Back

The wires carried a tale the other day about Andy High's being sent back to Rochester, the St. Louis Cardinals' farm. A couple of months ago, every other day or so, the wires carried tales of the pinch hitting of Andy High winning ball games for the Cardinals at a time when the winning of ball games was most important. But then, of course, organized baseball is professional. Riding the trains is part of the life.

## Nib Takes a Ride, Too

Nibs Price is going to ride some trains, too. A coach, especially at a big school like California, is supposed to win football games. Let somebody else lose them; you are supposed to win them. But then, of course, collegiate football is an amateur affair.

## Carnera Wins Close Verdict Over Uzcudun

BARCELONA, Spain, Dec. 1. (AP) — It took an English referee, Moss Deyong, to settle the boxing war between Italy and Spain in which Primo Carnera and Paulino Uzcudun were the armies. Deyong cast the deciding vote in favor of Carnera yesterday and raised the excitement of the crowd of 90,000 to its highest pitch.

The two judges disagreed after 10 rounds of close battling and they stuck to their opinions today. The Spanish judge, Casanovas, said that he believed Paulino should have been given the decision by a very slight margin, while the Italian judge, Maasia, gave his opinion not only that Carnera had won but that he should be matched with Young Strubling, Jack Sharkey, and Max Schmeling as foremost contender for the world's heavyweight championship. Deyong said he saw a future world's champion in Carnera.

Although Paulino appeared somewhat bettered at the end of the 10 rounds, neither boxer suffered serious damage and both were able to attend various entertainments afterward. Paulino was bleeding freely at the end, after taking severe punishment in the closing rounds. His best rounds were in the middle of the fight, when he staged a fine rally. The Associated Press score sheet credited Paulino with winning the fourth, fifth and sixth rounds and scored the third as even. The rest were given to Carnera. The Italian weighed 239 3-4 pounds, Paulino 206 3-4.

The crowd paid about 1,000,000 pesetas, about \$170,000, to see the struggle and although a few of the spectators tried to settle their disputes with fist fights after the bout in the ring was over, a police detail of 1,000 had little trouble in keeping order.

## Little Opposition in Selection Of Half Dozen Members of Big Six Grid Eleven by Associated Press

Ends — Steve Hokus, Nebraska; Hubert Campbell, Missouri; Tackles — Hugh Rhea, Nebraska; Henry Cronkite, Kansas Aggies; Guards — Leonard McGill, Missouri; Hilary Lee, Oklahoma; Center — Charles Smoot, Kansas; Quarterback — Colonel Mills, Oklahoma; Halfbacks — James Bausch, Kansas; Alex Nigro, Kansas Aggies; Fullback — Robert Young, Nebraska.

## By J. H. ANDERSON

Associated Press Sports Writer  
KANSAS CITY, Dec. 1. (AP) — Six of the players named on the Associated Press 1930 Big Six conference honorary football team after a poll of coaches, sports writers and officials, gained their places with little opposition. For the other five votes were close, and many good men failed to place by small margins.

The half dozen whose individual work stood out in the minds of those voting were Steve Hokus, Nebraska end; Leonard McGill, Missouri, guard; Hugh Rhea, Nebraska, tackle; James Bausch, Kansas, halfback; Colonel Mills of Ranger, Texas, Oklahoma quarterback, and Alex Nigro, Kansas Aggie halfback. A final tabulation showed only

## Rah! Rah! Rah!

They've done a lot of cheering this fall at Marquette university and one couldn't really tell whether it was for Miss Laurine Hilliard, above, or for Marquette's undefeated football team. Come to think of it, maybe the cheering was for both, because Miss Hilliard was Marquette's co-ed cheer-leader.

Iowa State, which failed to win a conference game for the second consecutive season, without representation on the first eleven. Kansas, Oklahoma, Missouri and the Kansas Aggies' gained two places each, Nebraska three.

Bausch, who became generally known this season as "Fighting Jim," is a repeater from last year. Nine other members of the first eleven of 1929 were seniors while George Atkeson, Kansas guard, fell to a second team position this year. Hokus and Nigro advanced from the second team of 1929.

The team, perhaps, is the most versatile any selected in the three years of the conference. All the backs are triple threats; Cronkite plays both end and tackle and is a punter; Campbell, also is a punter; Rhea and Cronkite, McGill and Nigro were captains of their teams while Young, Smoot and Bausch were acting captains for at least one game, their teams having abolished the captaincy.

Experts were divided as to which was the more brilliant back of the year, Mills or Bausch. Theirs was the more nearly unanimous vote for backfield positions. Mills, perhaps, is the best in a broken or open field; Bausch has an advantage over Mills in that his added weight sends him smashing off tackle for gains even with tacklers hanging on. But to repeat the virtues of this pair would be to reiterate all the good points a coach could say for a backfield man.

Hokus was named by many as the best end in the midwest.

## Chandler, Okla., Policeman Shot

CHANDLER, Okla., Dec. 1. (AP) — William Taylor, policeman, was shot twice and a robber was believed to have been wounded in a gun fight here late last night. The officer surprised the robber as he came out of a drug store after stealing between \$80 and \$90 from J. D. Nick, the proprietor.

## MENTORS ARE AT LEISURE SEASON OVER

BY GAYLE TALBOT, JR., Associated Press Sports Writer  
DALLAS, Dec. 1. (AP) — Several hundred of the southwest's future business executives who have spent the last three months in arduous toil for their respective alma maters were at leisure today; some of them until next September, some of them from now on so far as football is concerned.

The Southwest conference campaign was brought to an official close in two muddy battles Saturday, the Baylor University Bears grabbing second place by a 7-4 decision over the Rice Oyls, and Texas Christian gaining third place and much satisfaction by beating Southern Methodist 17 to 6. Aggie All-around had distributed today with the exception of Rice and Texas Christian. The Oyls have a post-season affair coming up with Iowa State Saturday at Houston, while the Bears will stay in training another week for a charity fray with a team of ex-T. C. U. stars at Fort Worth.

Outside of those two engagements, the only unfinished football business was the presentation of the annual "All Conference" team, when those hearties who have distinguished themselves on the field of battle will be rewarded to some extent. The Associated Press composite eleven, selected by sports writers of the state was scheduled for release tomorrow. Coaches of the conference will name an "official" mythical team at the annual conference convention here the last of this week.

About the only disappointment felt by the section's fans and critics as they looked back over the hectic campaign just concluded was the fact that the University of Texas Longhorns, who won the conference championship in such impressive fashion, were not given an opportunity to test their mettle against a strong eleven from some other section. Many observers regard the 1930 Longhorns as the most powerful eleven in conference history and would have liked to see them do a little "missionary" work.

Although they "took" rounds about course to the 1929 title, the Longhorns left no doubt of their superiority. Starting slowly, the big Orange machine was tied by Centenary and defeated by Rice, 6 to 0, before it got going, but from there on it was slaughter. Southern Methodist was mauled, 21 to 7; Baylor 14 to 0; Texas Christian, 7 to 0, and Texas Aggie 26 to 0. Another outstanding victory was scored over the University of Oklahoma, 17 to 7.

The championship lineup will be back practically intact for the 1931 campaign. Captain Dexter Shelley of the backfield and Esterson, Peterson and Vining of the line are the only regulars departing.

The Baylor team that wound up in second place, on the other hand, will suffer almost a complete loss to graduation. Its backfield will be swept clean and only a pair of ends will return to the line. Their loss to Texas 14 to 0, and a 14-14 tie with Southern Methodist prevented the Bruin veterans giving their school a title as a parting gift.

Southern Methodist and Texas Christian pre-season favorites for the crown, were disappointing. The Methodists did well against outside competition, holding Notre Dame to a 30-14 decision and winning Indiana and Navy; but they couldn't stand the gaff in their home sector. The Christians compiled good enough record, winning nine games, tying one and losing only two, but it happened that those two defeats came where they did the most damage, within the conference.

Rice, Arkansas and Texas A. & M. never were in the race proper, although the sophomore Rice eleven acquitted itself well in winning two conference games and finished with the distinction of being the only outfit to kick the champions.

The Aggies had their first disastrous season in many a year, losing all five conference titles and winning only two out of nine starts.

### Former Packer Goes to Trial in Topeka Slaying

TOPEKA, Dec. 1. (AP)—Louis H. Kramer, former packer, company president, went on trial today on a charge of first degree murder in connection with the slaying last March of Roy Kramer, one of his business associates.

Selection of a jury was expected to occupy a day or more.

Kramer, 48, was arrested after Virgil Hunter, packing plant handy man, was said by authorities to have confessed the actual slaying, implicating his employer as instigator of the crime.

Kramer was vice president of the packing concern with which Kramer was associated. After Kramer's death, the concern collected \$50,000 under insurance policies on his life.

The slain packer's body was found in front of his automobile on a highway east of Topeka, March 28. A tire had been deflated and the wheel raised on a jack to create the appearance he had been struck and killed by a passing automobile or truck while making repairs.

Police testified at his preliminary hearing that he attacked Kramer on the night of March 28 when the latter was about to enter a room at the packing plant where he was said to have entertained a number of women. The handy man said he struck Kramer with a club, crushing his skull, and that he later transported the body in Kramer's automobile to the spot where it and ear later were found.

The confessed slayer has not been tried.

### Millions to Aid Farmers Proposed

WASHINGTON, Dec. 1. (AP)—A bill authorizing \$40,000,000 for drought relief loans to farmers was prepared for introduction in the senate today by Senator Robinson, Democrat, Kansas, the authority here.

Senator Robinson announced he was introducing the drought relief measure on his own responsibility. He conferred yesterday with President Hoover.

The bill also would authorize loans of \$5,000,000 to states and counties affected by the drought for the construction of highways. It well, it would authorize the president to take over the wheat which has been purchased by the federal farm board and distribute it for seed, feed and food purposes in the drought-stricken areas.

### Dean Says Probe of Death Lengthy

PREM, Dec. 1. (AP)—V. E. Moore, dean of men at the University of Texas, said today that the first meeting of the committee on discipline to consider circumstances surrounding the death here Friday of Mrs. Mildred Woodruff of San Antonio would be held this afternoon.

Dean Moore said that he did not expect the committee to complete its deliberations before tomorrow night, and that no announcement of the committee's action would be made before that time, if then.

Mrs. Woodruff became critically ill in a fraternity house after the Texas-Aggie football game and died before a doctor could reach the hospital where she was taken. The cause of death was given by the county judge, who conducted the inquest, as alcoholic poisoning.

### SIX JURORS CHOSEN IN SOLDIER'S MURDER TRIAL

SAN ANTONIO, Dec. 1. (AP)—Six men of the jury which will hear the case of James Adams, soldier charged in the murder of his wife of two weeks last August, had been selected when federal court recessed at noon today.

The body of Mrs. Lillian Richardson Adams, Adams' bride, was found in a small car in a creek on a military reservation near here early in the morning of Aug. 8. The body bore bruises.

F. M. Horton of Zebulon, N. C., has raised \$25 worth of pigs from a sow that cost \$12.50 five years ago.

### Fleet of 12 Italian Planes to Dare Atlantic

On the most ambitious group flight yet attempted by any nation, 12 Italian military seaplanes will hop off from Orbetello, near Rome, about Dec. 15, for a flight to South America, terminating at Rio de Janeiro. This map shows the route and the points at which stops will be made. Above is Major Umberto Maddalena, Italy's famous ace, who will lead the group; below, General Italo Balbo, Italy's minister of aeronautics, who will pilot one of the planes. The flyers plan to travel by easy stages and make the 10,000-mile hop across the South Atlantic—between Bolama, capital of Portuguese Guinea, and Porto Natal, Brazil—about Jan. 1 in order to get the advantage of the full moon.

### Big Search For Lost Hunter Has Attracted Scores

EL PASO, Dec. 1. (AP)—A call for volunteer searchers had been sent out and more than 100 men today were scouring the Diablo and Sierra Blanca mountains 75 miles southeast of here looking for Curtis Davidson, 22, formerly of Denton and now physical education teacher in the Yoleta, Texas, high school. He became lost from a deer hunting party Saturday morning.

When he failed to return to camp late Saturday, search was started and outcrops were lighted on the mountain tops to attract his attention. Guns were fired throughout the night, but without avail.

### Soldier Shot to Death, One Hurt

PAYETTEVILLE, N. C., Dec. 1. (AP)—Shooting to death of one soldier and wounding of another at Fort Bragg, near here, last night, today came under scrutiny of a military board of inquiry.

Private Fernando Gonz, El Paso, Texas, of Battery "B" 15th field artillery, was found shot through the head. Private Herschel E. Moses, Cherryville, N. C. of the same unit, was wounded three times.

Moses told officers a figure sprang from the darkness while he walked his post last night, cried his name and fired. Bullets entered Moses' thighs and nose.

Soldiers found Gonz dead, a bullet wound in his forehead. A pistol nearby, identified as having been stolen from the post supply room, had four empty shells.

### Texas Attorneys Win Court Fight

One of the four Texas attorneys who represented taxpayers before the U. S. Supreme court last Monday when it ruled that income from community property in Arizona, Louisiana, Texas and Washington may be reported for federal taxation in separate returns by the husband and wife, was Harry C. Weeks of Wichita Falls, law partner of Fred Weeks of this city. The other three were Palmer Hutcheson

and R. C. Fulbright of Houston and Rhodes S. Baker of Dallas.

These four states have laws which give husband and wife an equal share in their community income. Many a husband and wife have therefore divided their income, considered separate federal income tax incomes on the halves, thus gaining great tax reductions. Last year congress by special act extended the statute of limitations so that the treasury department could sue those citizens for the tax on the full amount of their combined income in 1927 and 1928. The supreme court

decided for the citizens against the treasury department. Away from the government, back to taxpayers, of some \$10,000,000 in tax payments. This decision was the first to be handed down by Associate Justice Owen Joseph Roberts.

Mrs. John Kiser had a major operation at the Pampa hospital Sunday.

well average. The term "proratable daily potential production" of the district shall mean the sum total of all the "proratable daily potential production" of all the leases or properties in said district. The term "proratable production" of the allowable production shall mean that portion of said allowable per day left available for proration after allowing for the minimum production of twelve (12) barrels per well average or less for each lease or property in the district, as is provided for in RULE 3 heretofore.

(c) Each semi-monthly period of the calendar month beginning at seven a. m. on the first day of the month and extending to seven a. m. on the 15th day of the month, and beginning at seven a. m. on the 16th day of the month and extending to seven a. m. on the first day of the succeeding month shall be taken as the proration period, the first period, however, beginning at seven a. m. November 25, 1930, and extending to seven a. m. December 1, 1930, and at the end of each such proration period the umpire, with the advice of the advisory committee, shall prepare data and schedule upon which to base proration hereinafter provided for the next ensuing proration period.

(d) An "offset well" is one on an adjoining lease or property located approximately or less than three hundred and thirty (330) feet from the common property or lease line.

RULE 2. Not more than sixty-four thousand six hundred and sixteen (64,616) barrels of oil per day shall be production from said Pampa district during any day of the effective period of these rules, provided that the umpire, with the advice of the advisory committee, hereinafter provided for, upon authority from the commission may make such further increase or reduction in the allowable daily production in the district as may be necessary to adjust such allowable production to the "outlet" from the district for a given proration period. By the term "outlet" is meant the sum total of all the nominations for any particular period actually made by purchasers of crude oil in said district, and the demands for purchase or current use by those who do not make nominations for purchase as determined by the umpire. The authority from the commission for such increase or reduction in the allowable daily production shall be evidenced by its approval of the umpire's proration schedule for each proration period as provided for herein.

RULE 3. The daily amount of oil to be produced from each individual lease or property shall be determined as follows:

Each such lease or property whose daily potential production is, or shall be, twelve (12) barrels average

# Red Prosecutor and Foreign "Conspirators"

While foreign observers strive to separate truth from falsehood in the amazing story of a great European "conspiracy" to make war on Soviet Russia, brought out at the trial in Moscow of eight leaders of the Russian "Industrial Party," citizens of Russia held great parades and demanded their execution. This layout shows pictures of the prominent foreigners named in the "confessions" of some of the accused men as leaders in the "plot" against Russia. No. 1 is the public prosecutor, Nikola Krilenko, who is demanding the death penalty for the Russian prisoners. The others are: No. 2, Colonel T. E. Lawrence of England, famous for his work in Arabia during the war; No. 3, Winston Churchill of England, former cabinet member; No. 4, ex-President Raymond Poincare of France; No. 5, Sir Henri Deterding, head of the great Dutch Shell Oil company.

per well thereon located, or less, shall be entitled to produce one hundred per cent; each lease or property whose daily potential production is, or shall be, in excess of twelve (12) barrels average per well thereon located, shall be entitled to produce an amount of oil equal to a daily average of twelve (12) barrels per well thereon located and in addition thereto shall be entitled to produce daily that proportion of the total daily allowable production from the district remaining after allowing for the minimum production of twelve (12) barrels per well average or less for all leases or properties in the district as above provided, that its "proratable daily potential production" bears to the total "proratable daily potential production" of the district. EXAMPLES: "A" lease would be entitled to produce one hundred percent. "B" lease has a daily potential production of 30 barrels from three wells. "B's" lease would be entitled to produce one hundred percent. "C's" lease has a daily potential production of 1500 barrels from five wells. "C's" lease would be entitled to produce 60 barrels daily and in addition thereto that proportion of the "proratable portion of the allowable production from the district" that 1440 barrels bears to the total proratable daily potential production of the district, as herein defined.

RULE 4. Except where the drilling of a well is required as an offset to a producing well, or to one operation for the drilling of which has begun prior to the effective date of the order of this commission dated August 27, 1930, and except where, in the judgment of the umpire, after having advised with the advisory committee, its drilling is required as a protection to the property or lease on which it is located, no well operations for the drilling of which is begun after the effective date of the order of this commission, dated August 27, 1930, shall be permitted to produce in excess of fifty (50) barrels per day the remainder of the effective period of this order. A well so designated by the umpire as being required for protection to a lease or property on account of a well similarly located on a competitive lease or property shall not be permitted to produce in excess of the quantity of oil being produced from the well on the competitive lease or property so similarly located and against which it is drilled for protection, provided that such allowable production from such well shall not exceed the amount said well would be entitled to produce if regularly prorated under this order.

RULE 5. The field representative or umpire, Mr. H. J. Corcoran, heretofore appointed by the commission is confirmed in such appointment and shall have charge of the administration and enforcement of these rules in said district during the effective period hereof. The

advisory committee of eleven (11) representatives heretofore chosen by the owners of proratable leases or property in said district for the purpose of working in cooperation with the railroad commission and its umpire in carrying out the details of administering rules in said district shall continue to serve as such advisory committee until or unless its membership be changed by appropriate action of such owners of proratable leases or properties in said district. Such committee may elect a smaller number of representatives thereon as an executive committee to act for it in such cooperation with the railroad commission and its umpire. Appeals shall lie from any act of the umpire to the commission.

This cause will be kept open on the docket for such other and further orders as conditions may render necessary from time to time.

the attic from the stage. When the officer raised his head and flashlight above the level of the attic, one of the men who was crouched in a corner exclaimed, "don't shoot! I'll give up!"

The other man was discovered in another corner of the attic. "I'm the only one," he told the officer.

"Why, we've already caught one of your partners," Akers rejoined. One of the men arrested had a long streak of blood on the front of his overcoat and it is believed that the shot fired by Long "sprayed" at least one of the men. The window sill and one wall of the office were seceded with shot this morning.

In their haste to escape the men left a full supply of safe-cracking tools. One of the sledge hammers was encased in a rubber hose to deaden the sound of the blows. The safe knob was wrapped in a small rug which was in one hallway upstairs. It is believed by Mr. Akers that the men gained entrance into the building through the roof. However, they might have climbed to the awning on the sidewalk and entered through a window. They failed to open the office door, and forced their way into the advertising room and then opened the office door.

# Woman Requests Data on Garner

A letter was received by the Malone Funeral home this morning from Mrs. H. P. Pearson, Little Rock, Ark., route 3, asking that the funeral home send her an exact description of the man, known here as Garner, who was killed by a

freight train two weeks ago. Mrs. Pearson said that the body might be that of her son. She requested more detailed information.

Whether or not Mrs. Pearson learned of the news through the radio broadcast or through the newspapers, she did not state. A description of the man was broadcast over several stations, and was published in many newspapers.

# Ohio Robbers Obtain \$20,000

CINCINNATI, O., Dec. 1. (AP)—Three men held up an American Railway Express company truck here today and escaped with \$20,000 in currency.

The robbery took place within one block of the Pennsylvania station where the truck crew of four men was to deliver the money.

The quartet of express company employes told police three men, all displaying revolvers, approached the truck and forced them to leave. Police reserves started search for the holdup gang.

# GIRL IS FOUND

INDEPENDENCE, Kans., Dec. 1. (AP)—A young woman viewed by officers here today in the belief she might be Miss Edith Merriott, missing Wiggins, Colo., school teacher, did not answer the description of Miss Merriott and identified herself as Miss Bobby Lee Richmond, a waitress of Tulsa, Okla.

FOR MORGAN, Colo., Dec. 1.—Independence, Kans., authorities today informed Sheriff R. A. Johnson by telephone they had found a girl believed by them to be Miss Edith Merriott, missing Wiggins, Colo., school teacher.

The Kansas police said the girl would not give her name or any details as to her identity. Her legs bore marks indicating they had been bound, and her throat was sore, leading officers to believe she might have been choked.

Sheriff Johnson said he was advised the girl was about the same age as Miss Merriott and about the same size.

# New Cold Wave Hits at Chicago

CHICAGO, Dec. 1. (AP)—Falling temperatures today marked the mid-west's obedience to the visitation of a new cold wave after a brief respite Sunday in some sections.

The Chicago weather bureau predicted that the cold advancing from the northwest would overspread most of its forecasting district with snow flurries and accompaniment in many spots. Zero to 2 below in Minnesota and 4 below in North Dakota last night signaled the beginning of the march of cold weather which was expected to bring temperatures down to 10 above in Chicago and vicinity by tonight.

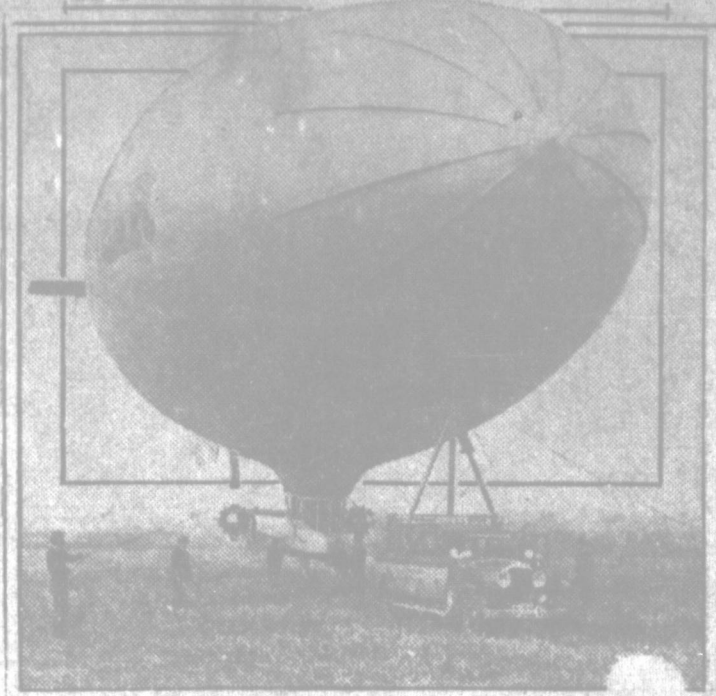

At Milwaukee, where the forecast was much colder, a snow storm last night hampered firemen in fighting a fire of undetermined origin which swept through three stores and did damage estimated by firemen at \$200,000.

The more moderate temperatures yesterday brought their tragedy as well as the cold wave of the days preceding. The bodies of two jacks were found in the bottom of a sand-pit north of Nelson, Neb., after they had broken through thin ice while on a hunting expedition. The area for which cold was forecast included the Great Lakes region, most of the northwest states and parts of Nebraska, Iowa and Missouri.

# RELATIVES OF MAN AT KINGSVILLE SOUGHT

KINGSVILLE, Dec. 1. (AP)—The body of F. W. Byrne, about 40 years of age, was being held at a morgue here pending location of relatives, following his death Sunday from acute alcoholism.

# Portable Mooring Mast Invented

With portable mooring masts like the one shown here attached to the roof of the motorbus, blimps may be taxied around flying fields without the aid of the usual ground crew. The test pictured above was conducted at Hoover Field, Washington, with the Goodyear blimp "Puritan." It can cast off automatically from the bus while the latter is in motion.

# Policeman at Fort Worth on Trial

DALLAS, Dec. 1. (AP)—Both sides announced ready and selection of a jury was begun today in the case of John Alsup, former Fort Worth city policeman, charged with the slaying of George Terrell, negro, in connection with an attempted robbery of the Polytechnic State bank at Fort Worth April 10.

Two jurors had been accepted when court recessed for lunch. The case was sent here on a change of venue.

Alsup was convicted and given 20 years imprisonment for the slaying of another negro in connection with the claimed bank holdup. A trial on the charge of killing Terrell resulted in a jury failing to agree at Fort Worth.

The state alleged that the bank robbery was framed in an effort to collect a reward of \$5,000 offered by the Texas State Bankers' association for "dead bank robbers."

Robert Stuart, Tarrant county district attorney, was here directing the prosecution.

# Gulf-Faulkner Well Is Spraying

An unestimated amount of oil was spraying from Gulf Production company's No. 2-A Faulkner, section 33, block B-2, this morning. About 12 million cubic feet of gas was coming with the oil. The well is still gushing, but the depth of the hole will be reduced before it is brought in.

# Bank at Braman Oklahoma Robbed

FONCA CITY, Okla., Dec. 1. (AP)—A robber apparently working alone looted the First National bank at Braman, 25 miles northwest of here, shortly before 3 o'clock this afternoon of between \$2,000 and \$3,000. He escaped.

The robber drove up to the bank in a large sedan, entered and ordered D. E. Finney, cashier, and W. H. Crowley, assistant cashier, to scoop up all the money in sight.

He then forced the two bank employees and a customer, John Bradley, to step on the running board of the sedan, speeding northward toward the Kansas line.

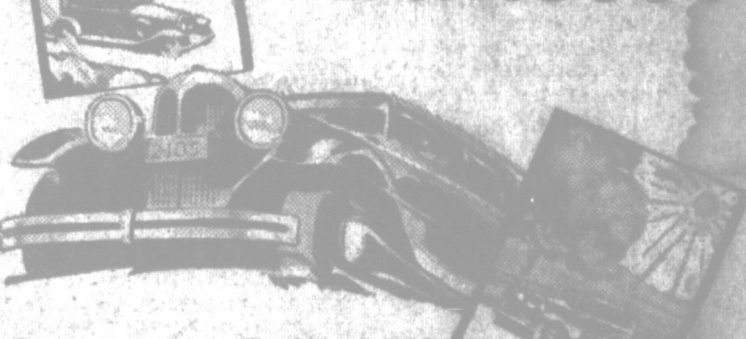

As the car speeded out of town two citizens, H. E. Stinnett and S. B. Killian, opened fire and the three men jumped from the running board. The radiator of the robbers' car was punctured as well as one tire but the machine sped on, a quickly formed posse in pursuit.

# LOST MAN FOUND

EL PASO, Dec. 1. (AP)—Curtis Davidson, 22, physical director of the Yuleta high school, lost in the Sierra Blanca mountains near here since Saturday, today found his way back to the hunting camp he had been missing from, according to a report received here.
