## Modernism Shown in Music Room

The last stronghold of conservatism has fallen before the onslaughts of modernism—the music room. In his New York apartment (above) Donald Desky, famous designer, has installed what is hailed as the first truly modern piano, the case of which he designed. In two-toned walnut, it fits nicely against a background of heavy raw silk curtains, white Venetian blinds and walls and six pieces of furniture, upholstered in black and white hand-woven material. ## Glorifying Yourself

**By ALICIA HART.**  
The cosmetic cabinet of one of New York's most attractive mature business women contains only one cream and two lotions. By using these regularly and according to directions, she has managed to keep her skin smooth and unlined and fresh looking in spite of a rather hectic schedule and a minimum of free time. At night, after a thorough hair brushing, she washes her face and throat with a rough wash cloth, plenty of warm water and soap lather. A generous rinsing with ice water follows, and cold skin tonic is patted on and allowed to dry while nails are cleaned and teeth brushed. Then rich night cream is applied with a lavish hand and left on while she bathes. After the bath, she pats and massages the cream into face and neck, using upward and outward strokes on cheeks and throat, gentle clockwise strokes around the eyes. She pinches along jawbone, from center of chin to ears, with thumbs and forefingers, and smooths away the day's accumulation of fine lines between the brows. Since her skin is fairly dry, she removes only part of the cream, allowing the rest to remain on while she sleeps. The entire routine is repeated each and every night, rain or shine, late or early. In the morning, application of foundation lotion follows a cold water rinse. Then a really expert make-up job. She makes a business of getting up early enough to allow adequate time to get rouge, powder and lipstick on perfectly. As a result, her skin always looks clean and well-groomed. Naturally, this handsome office worker does not depend entirely on a night beauty treatment and cosmetics to keep her skin and figure young and lovely. She's much too sensible for that. Her appreciation of a brisk walk every day, a well-planned diet and enough sleep never has lagged.

## Duce's Friend

Ordered to pay damages of four cents and a fine of \$3.75, Mme. Madeleine Fontages, French actress, writer, and friend of Mussolini, is shown above as the court suspended a one-year prison sentence at the close of her trial for the shooting of Count Charles Pineton de Chambrun, former French ambassador to Rome. Her trial threatened to rock European diplomatic circles, for Mme. Fontages had told police she shot the ambassador because he shattered "unforgettable hours of love" with Il Duce.

## MIND your MANNERS

Test your knowledge of correct social usage on answering the following questions, then checking against the authoritative answers below:  
1. When a husband goes shopping with his wife, should he carry her parcels?  
2. Should a husband step into an elevator first or allow his wife to precede him?  
3. Should a husband guide his wife across a street or hurry ahead, leaving her to cross alone?  
4. Do a host and hostess shake hands with departing guests?  
5. Should a husband and wife ask a third person to settle a dispute between them?  
What would you do if—  
You and your wife are taking a woman friend for a ride in your car—  
(a) Let the guest sit in the front seat and your wife in the back?  
(b) Let your wife sit in the front seat and your guest in the back?  
(c) Let the women sit together in the back seat?  
Answers:  
1. Yes.  
2. Allow her to go first.  
3. Guide her across.  
4. It is gracious.  
5. No. It places the third person in a very awkward situation. Best "What Would You Do" solution—(c). Unless the guest is a very old lady and the front seat is more comfortable than the back. Then put the guest in front. Or, if you are all young, you may prefer to ride three in the front seat. (Copyright, 1937, NEA Service, Inc.)

## GERMANY TO ENFORCE EBBUTT'S EXPULSION

BERLIN, Aug. 10 (AP)—The foreign office let it be known today that Germany has no intention of relenting in its expulsion of Norman Ebbutt, veteran correspondent of the Times of London. (Ebbutt was ordered expelled in retaliation for the British government's action in ordering out Nazi newspapermen for undisclosed reasons. The Times has refused to accede to a German demand that Ebbutt be replaced within two weeks by a correspondent who writes about "more important" German doings.) This, it was explained, is the German attitude: Ebbutt has been a "troublesome factor" for some time to the Nazis, but the government refrained "repeatedly" from resorting to expulsion. Now, however, that the British government feels that German correspondents who have been disturbing Anglo-German relations should be removed, "we are taking the logical step in demanding the removal of the outstanding troublesome factor here."

## ANIMAL LIFE AT POLE REPORTED BY SOVIETS

The camp also had a brief visit from a she-bear with two cubs. The animals took flight at sight of the men, however, and lumbered away in full flight.

## Guess What She Has Under Hat

Here's a game that's brimful of fun. It tests your skill in pulling a name out of a hat. The movie actress back of that floppy champagne was accommodating enough to provide a clue with that pert nose, mouth, and chin combination. But when the lid is lifted on this unusual derby, the rest is up to you. And if you have already made your guesses without naming Joan Fontaine, then you lose.

## Modern Menus

**By MRS. GAYNOE MADDOX**  
Will soap and hot water keep your refrigerator immaculate and free from any threat of bacteria? Answer is definitely NO. Use salt soda and water at least once a week to keep it safe. Put 1 tablespoon salt soda in 4 quarts water, then wash, and finally wipe completely dry with clean cloths. If you are in an ice refrigerator, then pour a stronger solution of salt soda water down the drain to remove any slime which might have accumulated there. Daily wipe the refrigerator. Any spilled foods, even the smallest amount, offer danger. Bacteria or mold spores might quickly develop in them. Do these things faithfully, and your refrigerator will be as sweet as a young girl's smile. Then try this ice-box cake.  
Pineapple Cake (4 to 6 servings)  
One cup butter, 4 eggs, 7-8 cup confectioner's sugar, 1 small can crushed pineapple, 30 ladyfingers, 3-4 cup cream, 1-4 teaspoon vanilla, 1-4 teaspoon almond extract, 1-2 cup marshmallows.  
Cream butter until fluffy. Gradually add sugar and cream again until mixture is light. Beat egg yolks separately, then add to the sugar mixture. Beat in thoroughly, then add marshmallows and crushed pineapple. Beat egg whites until stiff and dry, then fold into pineapple mixture. Split ladyfingers. Butter mold. Fill mold with ladyfingers and pineapple mixture, alternating half ladyfingers in layers with mixture in layers. Place in refrigerator and chill for 24 hours. Serve garnished with candied cherries and whipped cream. It's a feat day dessert.  
The clean refrigerator plays a large part in making vegetables taste as fresh as when gathered in the garden. Vegetables must be in perfect condition before placed in refrigerator. If wilted, merely putting them a cool spot will not revive them. Wilting is due to loss of water content, therefore to freshen vegetables, place in cold water first before placing into refrigerator. As soon as vegetable is fresh again, drain off water, and place in hy-drator or other container. However, lettuce and other leafy salad greens should go into ventilated pans. No vegetable should have the coldest

## GREYHOUND'S NEW SUPER-COACHES

Provide The Finest of all Highway Travel  
You can secure this service by calling Telephone 871. Pampa Bus Terminal and asking for Caprock Bus schedules making connections at Shamrock.

Greyhound's new super-coaches are so utterly different from any previous type bus used in the industry that they involve radical departures in almost every detail. The most important single change has been the placing of the motor in the rear of the bus. This arrangement means quieter operation, less vibration and complete absence of exhaust fumes. It also gives more space for passengers and adds to the riding comfort. By riding the Cap Rock Bus Line to Shamrock, you can secure this service to any part of the U. S. Another noticeable feature is the new high, comfort level for passengers. It is above the vibration line and permits passengers to look over the tops of passing private cars. Special consideration has been given to the baggage space. Two large compartments, water tight and dust proof, have been built under the floor of the coach for suitcases, trunks and large parcels. The baggage rack on the roof has been eliminated. Deeply-cushioned, individually adjustable chairs have been entirely redesigned for use in the new Super-coach. They can be made to recline in four optional positions for sight-seeing, reading, relaxation or sleep. Ride the Cap Rock to Shamrock, there making connections with Greyhound's new Super-coaches which are modern and different, but in every respect adhere strictly to the high traditions of safety and reliability which Greyhound has established in its nation-wide system. The Caprock is trying to give you this service. Call 871 and the agent will be glad to give you the Caprock schedules.

# CONGRESS HAS LOVE IN BLOOM

WASHINGTON, Aug. 10 (AP)—The campus of a co-ed college doesn't have any edge on Congress when it comes to providing background for romance.

A check-up on members who married while in office showed today that bachelors left in the House and Senate are few and far between.

Lawmakers marry Presidents' daughters, waitresses, models, debutantes, nurses, and daughters of other congressmen.

At least half a dozen married their secretaries. A few have raided offices of other members.

Rep. S. Otis Bland (D., Va.) threatened several years ago to employ only men after two of his secretaries in succession married congressmen. Paul Kvale (F-L, Minn.) and Frank Murphy, former Ohio representative, were the marauding groomsmen.

Reuben T. Wood, representative from Missouri, brought his ex-secretary-bride to Washington this year. Two Senators whose wives once were their secretaries are Charles L. McNary (R., Ore.) and Robert M. LaFollett (Prog., Wis.).

Senator William G. McAdoo (D., Calif.) found two wives in Washington. He married his second wife, the daughter of President Wilson, in the White House. His present wife was Miss Doris Cross, a capital nurse.

The late Rep. Nicholas Longworth (R., Ohio) married Alice Roosevelt, daughter of President Theodore Roosevelt, in the White House also.

In 1930, Charles Timberlake, wealthy former representative from Colorado, married at the age of 75. His bride was Mrs. Roberta Wood Elliott, 32-year-old widow who had been hotel waitress at Timberlake's hotel restaurant.

Rep. Jerry O'Connell (D., Mont.) flew here with his bride, a former model, this year.

Aaron L. Ford (D., Miss.) married Miss Gertrude Castellow, daughter of a former Florida representative, last October.

# TWO AVIATORS DIE IN TESTS ON AIR RAIDS

LONDON, Aug. 10 (AP)—Despite the death of two aviators, officials announced today that London had successfully demonstrated her power to resist a mass air raid.

The two men were killed when their plane crashed near the city during last night's maneuvers. Officials said 80 per cent of the raids were spotted before completion and the bombers were "attacked" by fighting planes before they reached their targets.

Darlington, S. C., officers reported the theft of a set of false teeth from a resident.

# Quints Become Four as Emilie Convalesces

Emilie Dionne, isolated for a few days from her four sisters while she convalesced from a slight attack of respiratory infection, is expected to rejoin them soon in outdoor play. This is her latest photo, taken just before the illness that put her in bed for a few days.

Four quintuplets instead of five greeted recent visitors to the Dionne nursery, when Emilie was isolated because of a slight respiratory infection from which she is convalescing. Here are Yvonne, Marie, Cecile and Annette in new photos taken just before the temporary separation of the inseparable quints. Word of Emilie's slight illness was slow in spreading, and the crowds—running as high as 7000 on week days—calling to see the famous quints, were considerably puzzled by her absence.

# RIVAL ARKANSAS CAMPS MOVE TO PICK ROBINSON SUCCESSOR

LITTLE ROCK, Ark., Aug. 10 (AP)—Arkansas Democrats moved today into rival camps to support either Governor Earl E. Bailey or Congressman John E. Miller in their struggle for the Senate seat left vacant by the death of Joe T. Robinson.

Bailey held the nomination of the state Democratic committee. Miller was chosen by a self-assembled "rank and file" convention of Democrats yesterday.

The 49-year-old representative from the second district, preparing to return to Washington today, said he would enter a special election to be held this fall as an independent candidate.

Bailey, who must fix the date for the election sometime between Sept. 14 and Nov. 14 declined comment on the convention's selection of Miller.

Two other Democrats, R. F. Waters of Danville and J. Rosser Venable of Little Rock, who previously had announced as independent candidates, withdrew and said they would support Miller. Republican leaders have indicated they would not bid for the post.

Miller said he would remain in Washington until the House disposes of the Black-Connerly wages and hours bill, then return here to launch his campaign.

The congressman was nominated by acclamation at the convention at which his name was the only one submitted for consideration. Representatives from 46 of the state's 75 counties answered the roll call.

Both candidates have been friendly to New Deal legislation and policy. The split in the party arose over the method for nominating a successor to Robinson. The group backing Miller had urged a "wide open primary" but the state committee decided against a primary and nominated Bailey without a roll call.

# NATIONAL HEAD OF BETA PI FRATERNITY IS DEAD

GRANVILLE, Ohio, Aug. 10 (AP)—A heart attack aboard a bus en route from Newark, Ohio, to Columbus last night claimed the life of Dr. Francis W. Shephardson, 75, national president of Beta Theta Pi fraternity, who gained distinction as an educator in this country and the Philippines.

C. R. Rhodes of Danville, Ill., exhibited a 7-ounce egg he said one of his hens laid recently.

# CONSERVATIONISTS TO TOUR THROUGH TEXAS

AUSTIN, Aug. 10 (AP)—Game conservationists from the United States and Canada will begin a trek thru Texas next week, ending in Mexico City August 23 for conventions of the International Association of Game and Fish Commissioners and the American Fisheries Society.

Will J. Tucker, secretary, and A. E. Wood, chairman, of the Game, Fish and Oyster Commission, will attend the meetings.

Tucker said a number of American and Canadian delegates would leave San Antonio August 20 for Mexico City.

Conservationists looked to the meetings with interest, he said, because of ratification this year of a migratory bird treaty by Mexico and the United States patterned after that between this country and Canada.

# THIS HOT WEATHER IS PLENTY TOUGH ON FISH

AUSTIN, Aug. 10 (AP)—Men could learn something from a fish in a cuss-the-weather contest.

That's the claim of Will J. Tucker, secretary of the game, fish and oyster commission, who said the finny tribe were not only uncomfortable when it's hot but fatalities among them were common.

It's a result of oxygen depletion, he explained. Fish suffer most on hot summer nights when there is no sun to help generate oxygen. Tests revealed the supply is at its lowest just before sunrise.

Tucker said he had not learned how to give fish the benefit of air-cooling.

# BODY FOUND IN WATER

TULLA, Aug. 10 (AP)—The crushed body of Elbert Weeks, 26, of South Plains, Tex., was found in water under a bridge three miles east of Tulla today. He had been driving a loaded oil truck which was also found, wrecked, in the water near where the bridge had given way.

# Stamp News

CENTRAL design on the new Hawaiian three-cent commemorative will depict a likeness of Kamehameha I, Postmaster General James A. Farley has announced. Kamehameha was the first of five kings of the Sandwich and Hawaiian Islands of that name and was called by his subjects "The Great." He was born in 1736 and died in 1819.

He conquered the rest of the group of islands and brought them under his rule as one kingdom. He was often styled the "Napoleon of the Pacific." The color, date and place of first-day sale of this new stamp will be announced later by the Postoffice.

The three-cent Constitution commemorative will be placed on first-day sale at Philadelphia, Sept. 17. The design is a replica of the painting, "Signing the Constitution," by Julius Brutus Stearns. The painting is now in a private collection in New York City. There have been 75,000,000 of these stamps ordered. They are being printed on rotary presses.

The Postoffice Department has ordered 20,000,000 of the five-cent Virginia Dare stamp, which will be placed on first-day sale at Manteo, N. C., Aug. 18. This stamp is being printed on flat presses. Plate numbers of the 10-cent souvenir sheets to be placed on sale Aug. 26 at Asheville, N. C., are 21,695 and 21,696.

The map on the three-cent Northwest Territory stamp was taken from Foster's Map of United States, which was roughly authentic as of 100 years ago. The stamp had been criticized.

# C. I. O. PLUGGING HOLES IN N. J. SILK STRIKE

PATERSON, N. J., Aug. 10 (AP)—The CIO worked swiftly to plug up the holes in its silk workers strike today as spokesmen for both employees and operators in New Jersey and scattered Pennsylvania cities began talk of peace negotiations. In the union's drive for improved wages and working conditions.

With leaders of both sides agreeing the local Passaic valley walkout was all but complete, the union shifted its main attack to Pennsylvania areas where plants endeavored to continue operation. Reports from the strike zone showed that many shops shut down in the face of concentrated picketing.

Sidney Hillman, head of the CIO's textile workers organizing committee, said he "hoped" for a complete tie-up of the silk and rayon industry "within the next few days." His reports, he said, indicated 40,000 men have joined the quiet walk-out which began yesterday.

The union demands include wage increases, shorter hours, and recognition of the TWOC as the sole collective bargaining agent.

# SENATORS PLAN HARMONY STAG

WASHINGTON, Aug. 10 (AP)—Democratic Senators and Republican women demonstrated today that even in August it is never too hot nor too humid to talk politics.

The Senators will forget their legislative differences at a stag dinner tonight—in an air-conditioned banquet hall—for Senator Barkley of Kentucky, the new majority leader. They hoped President Roosevelt can attend.

Participants have hailed it as a "harmony" affair to show that the party splits over the court bill and the Senate leadership have healed. Vice President Garner was selected to preside.

Republican national committee women were gathering for a conference tomorrow at which they will consider hiring a director to revive the women's division of the party.

It is the first normal preparation for next year's elections by a nationwide group in either major party.

There was talk in the capital, too, of presidential elections. Senator Copeland (R., N. Y.), proposed a constitutional amendment restricting any president from serving more than two terms.

It contains a provision that a chief executive whose first term was less than four years because of the twentieth "lame duck" amendment would be eligible for a second term and no more.

The "lame duck" amendment cut short Mr. Roosevelt's first term by six weeks, bringing his second inauguration on January 20 instead of March 4.

Copeland's amendment also would count as a full term any portion served by a person attaining the presidency by succession, such as a vice president receiving the office through the death of the chief executive.

WASHINGTON, Aug. 10 (AP)—The White House said today the "pressure of other things" will prevent President Roosevelt from attending the Senate Democratic dinner tonight in honor of Majority Leader Barkley of Kentucky.

Instead of being present in person, when the Senators assemble at a stag banquet, Mr. Roosevelt will send an expression of regret to Vice President Garner to be read to the diners.

# BEST TROTTERS TO RUN IN HAMBLETONIAN MEET

GOSHEN, N. Y., Aug. 10 (AP)—Twelve of the nation's best three-year-old trotters, including the three favorites, today were named for tomorrow's running of the \$40,000 Hambletonian over Good Time park's mile track.

Heading the field, which will get away in the first of the two best-of-three heats, are Paul Bower's Desota of Boston, Schnapps owned by W. N. Reynolds of Winston-Salem, N. C., and Bill Strang's New York-owned Twilight Song.

## LESSON IN WAR ETIQUETTE

Japan has been accused of borrowing many of its modern manners and attitudes from Europe and America, but if this is so, some of the examples apparently haven't been properly absorbed.

This was illustrated when supposedly friendly Chinese rose up and smacked the Japanese down at Tientsin. Obviously someone in the Japanese high command had muffed the signals.

Then the secret came out. Lieut. Gen. Ki-yoshi Natsuki, Japanese army chief in North China, counting too strongly on renegade Chinese divisions, had sent his own men off to Peiping, leaving Tientsin undermanned. When the "friendly" Chinese troops struck, they easily took several key points and even penetrated the Japanese concession in Tientsin.

General Natsuki's major error was in forgetting a rule that is ironclad in western etiquette — never take a deserter in as a friend until he throws his gun away.

## BAD BIGNESS

About the best argument against huge centralized organizations to do the country's business is the case of Reno E. Stitley. Stitley was a voucher clerk in the park service in Washington, drawing \$2,300 a year. But it cramped his style.

Through his hands passed vouchers to pay for work in CCC camps. So Stitley created a CCC camp in his own mind, invented names of imaginary people on the payroll, imaginary projects, and even wrote imaginary complaints from the imaginary workmen. More important, he cashed the checks with which the government paid the imaginary workmen.

Fantastic? Certainly! Yet Stitley got away with it for three years, swindling the government out of more than \$84,000. The shoddy thing about this is that it took three years to catch him and find out that \$84,000 of tax money had been tassed into a CCC camp that didn't exist. And that speaks more than a big volume on the dangers of a great centralized bureaucracy.

## Washington Letter

By PRESTON GROVER

WASHINGTON—The political oracles will be turning their binoculars toward Michigan a good deal in the next two or three years.

They will be watching the movements of two "big time" Wolverine politicians—silver-haired Senator Arthur H. Vandenberg, who is rated among top-ranking Republican presidential possibilities for 1940, and sorrel-topped Governor Frank Murphy, who has a lofty position as an "inner circle" Rooseveltian.

They will be on the lookout also for signs of the political strength of CIO in the land of the first big sit-down strike—the General Motors factory occupation which heralded John L. Lewis' 1937 drive for enrollment of industrial workers under his banner.

Before the boom for Alf Landon as the "Kansas Coolidge" began sweeping Republican delegations like a prairie fire, Vandenberg was included in virtually every list of leading G. O. P. presidential possibilities for 1936. When the Michigan senator said he was not a candidate for the nomination many political wiseacres opined that he chose to wait until 1940, when Republican victory prospects might be much rosier.

Vandenberg furthermore announced he would not accept second place on the ticket, and thus he escaped the heavy political handicap which is the traditional fate of badly defeated candidates for both the presidency and the vice presidency. So today he is included in most top brackets of potential Republican white hopes for 1940.

Governor Murphy's devotion to the New Deal and his close friendship with the President has resulted in periodical guessing by political onlookers that he was slated for appointment to high governmental posts ranging from postmaster general to Supreme Court justice.

And in recent months there has been some talk that the 44-year-old bachelor, who is a sweet campaigner, might be a possible Democratic presidential nominee.

Should Murphy decide to seek a second term as governor, he will be up for reelection next year. Along with the gubernatorial race, congressional elections are coming up in 1938.

With Republicans preparing to make the issue one of "law and order," attacking national as well as state Democratic administrations for alleged "assistance to illegal and violent CIO tactics," Michiganders are anticipating the fiercest political warfare since Henry Ford waged a losing contest against Truman Newberry for a seat in the United States senate back in 1918.

Michigan Republican leaders are expressing confidence that they can beat Murphy if he runs in 1938 and wrest several seats in congress from Democratic incumbents. Their big ambition is to have the state, bulwark of the G. O. P. in pre-depression days, set the pace for Republican rejuvenation throughout the country. Victory in 1938, they say, would also

## Man About Manhattan

By GEORGE TUCKER

NEW YORK—Arnold Reuben is a famous restaurateur because he names sandwiches after celebrities, and he is wealthy because he charges more money than they are worth. Nevertheless, it isn't his fault if the citizens continue to clamor for the opportunity to deposit their bank notes in his till.

The Reuben legend is predicated on the palate of the after-theater crowd, and for years it has been a favorite rendezvous for insomniacs and owls. There are almost all the dishes anyone might name, yet it is the endless variety of sandwiches which beckons to the famished and intrigues the newly arrived.

These sandwiches are varied in the extreme, but by far the most startling is the one called the Al Jolson Tart sandwich. This little tidbit, honey chile, is raw meat on rye, garnished with raw egg and chopped onions. It costs only a dollar!

Then there is the Rudy Vale, this is turkey meat, tongue, mayonnaise, and caviar, with a \$1.50 tag. The Vincent Lopez is turkey and Indiana relish with Russian dressing and lettuce.

Holland ham, tongue, cole slaw and tomato are required for the Jack Pearl sandwich. Kitty Carlisle calls for turkey, Holland ham with Russian dressing. Being different, the Ed Wynn is a select combination of Nova Scotia salmon and French fried onions. Ozzie Nelson's is corned beef, bologna, and swiss cheese on rye.

Other sandwiches dedicated to front page personalities are: Grace Moore's redudric sandwich, turkey, cole slaw, whole wheat toast, no butter; Phil Baker—turkey, hard boiled egg, onions, Russian dressing; Ted Lewis—white turkey meat, mayonnaise, caviar; Leo Reisman—chopped chicken liver, hard boiled egg on rye bread; Ethel Merman's is turkey (such a lot of turkey eaters!), tomato, egg, Russian dressing.

There are, in all, some 50 sandwiches dedicated to theatrical and radio stars, and all of them range from 95 cents to \$1.50.

All that is, with the lone exception of the Eddie Duchin sandwich, which is corned beef and swiss cheese on toast, and which is 75 cents, the cheapest item on the menu.

As everybody knows, Arnold Reuben is a famous restaurateur.

Could he, one wonders, be something of a critic, too?

Our other food item for today is a curiously spiced Chinese delicacy known as Sweet and Sour. Maybe you know all about it; never heard of it until Ward Farrar, the Indianapolis theatrical man, introduced me to it in the Canton village, off Broadway.

This is, actually, candied pork ribs and pineapple. The bones have been removed, and the dish is an oriental fantasy of spices and herbs. You can't tell whether you are tasting or smelling it. . . quite the oddest and one of the most pleasant discoveries I ever made in a New York restaurant.

COLUMBIA, S. C., Aug. 10 (AP)—Police are looking for a man with the season's latest hobby—cutting out squares, but not paper ones.

## How's Your Health?

Edited by Dr. LAGO GALDSTON for New York Academy of Medicine

ARE VIRUSES ALIVE?

The medical dictionary defines virus as "a living virulent cause of disease." Recent studies, however, have cast some doubt on this definition, for certain viruses—notably those causing plant diseases, and also one causing disease in an animal—have been shown to belong to the world of "non-living things."

And thereby hangs a most interesting problem. Our ideas on the causation of morbid conditions.

Why the emphasis on living cause of disease? "The following may explain it:

There are numerous non-living causes of disease, such as the heavy metals (lead and mercury), poisons, toxins (phthieria, botulinus). When these non-living substances gain entrance into the body they do not multiply. Only so much of any of them will be present in the body as originally gained entrance—assuming of course that none has been eliminated. But when a living disease-producing agent enters the body, one single unit (a single germ of tuberculosis, for example) can, theoretically at least, cause a fatal illness. This single germ can in a short time multiply to produce millions and millions of its kind.

The capacity to reproduce—its kind—is one of the distinguishing characteristics of living things. And yet crystals can also multiply and reproduce themselves, and crystals are not considered to be alive. Biologists make this distinction between the reproduction of living things and of crystals: living things reproduce by "inner growth," and crystals by "outer growth." But this distinction loses much of its significance when we are dealing with the ultra-microscopic things.

It has been definitely shown that certain plant viruses can be crystallized. Thus treated they form crystalline proteins. These proteins are capable of reproducing the disease from which the original virus was abstracted. Crystalline proteins are non-living. How then do the viruses of these diseases grow and multiply and spread?

Here is a fascinating problem. Perhaps in its solution we may find the answer to the unsolved problems of the virus diseases in man.

TOPEKA, Kas., Aug. 10 (AP)—Kansas University boys are generally pretty low on funds, three of them wrote Governor Walter Huxman, so why couldn't he issue special licenses permitting students to hitch-hike to and from their homes?

Kansas' new traffic code forbids hitch-hiking.

Attorney General Clarence Beck said he was sorry but it was up to the legislature to revise the law; neither he nor the governor could do anything about it.

## Around Hollywood

By ROBBIN COONS

HOLLYWOOD—Six hours and 43 minutes of new pictures:—

Jeanette MacDonald in "The Firefly" has Allan Jones instead of Nelson Eddy sharing the singing. This is a lavishly produced, beautiful, and impressive version of the operetta, suffering at the preview—and making us suffer, by its excessive length. When cut, it should please the film-opera lovers and MacDonald fans, and make Allan Jones a new favorite. Jeanette and Allan play Spanish and French spies, respectively, in the era of the Napoleonic conquest, a period appropriately colorful for operetta. They fall in love, are separated by duty, are reunited according to formula after the film has ended (in its present state) four or five times. Intriguing number is "Donkey Serenade," done with a lilt and gaiety and nonchalant that make it distinctive. (Preview time: Two hours, 20 minutes.)

"High, Wide and Handsome," starring Irene Dunne and directed by Rouben Mamoulian, is a different musical. An operetta by Hammerstein and Kern, written for the screen, it mixes the epic of an industrial struggle—the beginning of the oil industry—with romance and music. It seemed to me that oil and music were mixed most effectively, and that the music, purposely subordinated to the drama, halted the action less than usual in film musicals. There is a good rousing plot with old-fashioned villainies by Alan Hale and Charles Bickford, and a garrison fish in which heroic Irene rides to the rescue of a whole troupe of circus performers including the elephants. Acting honors go to Randolph Scott, his best to date, to Elizabeth Patterson, and to Akim Tamiroff—and Miss Dunne is pleasant as usual. (Preview time: One hour, 32 minutes.)

Best "good cry" of the week was provided by "Stella Dallas," talking version of the silent hit, with Barbara Stanwyck in the famous sacrificing mother role. But more than a mere "good cry" was provided by this production, admired for its artistic merits as much as for its emotional appeal. Since Louise Rainer got that academy award last year, I think Stanwyck can have it next, and Ann Shirley ought to have some sort of "trinket" for distinguished service in the younger generation. (Preview time: One hour, 35 minutes.)

"It's Love I'm After" has three stars—or four, counting Eric Blore—in a mildly entertaining farce comedy about a couple of actors and a sweet little non-pro who falls for the matinee idol. Leslie Howard plays the ham, Bette Davis his co-star and sweetheart—sweetheart between quarrels. They're about to be married when Patric Knowles appeals to Howard's chivalry to save his sweetheart, Olivia, from Howard's charms.

The picture is funniest and best in the scenes between Howard and Miss Davis, both of whom have fun playing actors. Among other items to recommend is, in this day of super-epics, the picture's brevity—a mere one hour and 16 minutes.

# Book A Day

By BRUCE CATTON

Out of the grimness and the horror and the bloodshed of the war in Spain have come countless tragic chapters, but hardly one more graphic than Santa Eulalia's.

For 6,000 years this little town lived and dreamed in peace under the hot sun of the Mediterranean. Daily its fishing boats bobbed out to sea at dawn, its villagers danced in the square in the evening. There were no deep-seated hatreds. No bitter crossroads of thought. Communism? Fascism? What were they?

And then one day the Fascist "terror" rained death upon little Santa Eulalia. Suddenly it found itself steeped in the violence of class warfare. The peace of 6,000 years was swept away and men fought in the streets.

Such is the poignant story Eulalia brings in "The Life and Death of a Spanish Town" (Random House, \$2.50). For five years Paul lived in Santa Eulalia. His book is a day-by-day panorama of the village.

But most important is the fact that Paul's book mirrors the outrage that grips all Spain. Paul holds no brief for either side. With disgust and sorrow he views the rape of Spain, traces it as an ultimate benefit to Hitler and Mussolini. With equal frankness he speaks of "senseless England, miserly France," who stand by during this destruction of a nation.

So you lay down this book finally with a new abhorrence of war for it brings the battle to your own doorstep—and the smoke is a long time clearing from your nostrils.—P. G. F.

## JINX'LL GET YOU IF YOU DON'T LOOK OUT

NEW BRITAIN, Conn., Aug. 10 (AP)—A Friday the 13th jinx has pestered Alfred J. Coty for the last five years will have to hunt for him this year.

Coty, head of a roofing concern, said he would close his business Aug. 13 and "hide away" at the seashore. In other years he has been involved in minor automobile accidents on his jinx days.

# FASTBALL PITCHERS MEET TONIGHT WHEN KING OIL PLAYS FIRECHIEFS

## THREE OTHER FAST GAMES ARE ASSURED

Seldom do the two seeded teams in a tournament meet before the final game but the order will be reversed in the Panhandle Softball tournament tonight when King Oil of Pampa and Texaco Firechiefs of Amarillo range in the 8:15 p. m. game at Road Runner park. Second game will see Gulf of Borger and Big Service of Borger tangling in another battle of undefeated tens.

An equally important series will be played at Recreational park when the Taylor Grocery of Amarillo meets Skelly in the first game and Canadian comes back to tangle with Bordens of Amarillo in the nightcap.

**Pitching Battle.** One of the greatest pitchers battles of the season is expected tonight when Taylor Grocery of Amarillo and Norton of the Firechiefs meet. Both are righthanders with fireballs unequalled so far in Panhandle competition. King Oil may have a slight edge on defense with Amarillo probably a shade more powerful at the plate.

The two Borger teams have displayed potent power all the way and their meeting tonight will be little overshadowed by the first game. Tonight's games will be the last played at Road Runner park. Beginning tomorrow night all games will be scheduled at Recreational park. On Friday night the two girls' teams entered in the tournament—the Pampa Sluggers and Canadian Crazy Kats—will meet.

**Homer Helps.** Danger opened play last night at Road Runner park with three runs in the first inning and one in the second and then staved off a Panhandle Laundry threat to win, 4 to 3. O. Mitchell and Vickers were safe on errors and J. Mitchell hit for the circuit in the opening inning. Another extra and singles by Weathered and O. Mitchell in the second scored the winning run. Panhandle Laundry chalked up runs in the first, second and sixth.

Patrick went the route for Danger, allowing seven hits while the teammates sent him out for the same number of bingles. Roberts-Oliver was no match for Canadian and Lefty Wilson, losing 12 to 1. Canadian started sending runs across in the third and kept up the barrage on Galtin. Three errors, four by the third baseman and four by the shortstop, led the Amarilloans in their downfall.

**Upsets Galore.** Upsets featured both games at Recreational park when Cities Service and Phillips of Pampa, both favored teams, were out of the tournament. Taylor Grocery of Amarillo upset the gasmen 5 to 4 and Bordens of Amarillo swamped Phillips 13 to 4.

Four runs in the first inning, helped along by Roush's home run with two mates on base, sent Taylor Grocery off to a nice lead. Cities Service got them back in the second and fourth, only to see the grocery-men push across the winning run in the fifth on Shock's single and Mason's double.

Lefty Mitchell was "on" after pitching losing ball Sunday afternoon and held Phillips to four runs and four hits while his backer got to J. Dewey and Chewing for 10 hits, which coupled with five errors, spelled defeat.

The schedule for tomorrow night will be decided after tonight's games.

## Players Arriving For Grid Battle

CHICAGO, Aug. 10 (AP)—Players who will make up the squad of 67 former collegiate grid stars, named to oppose Green Bay Packers, the night of Sept. 1, began arriving today as tabulation of votes in the coaches' professional champions.

Meanwhile Charles (Gus) Dorais of the University of Detroit apparently was an easy winner of the head coaching job. He had 4,932-337 points to 3,743,744 for his closest competitor, Lynn Waldorf of Northwestern. In third place was Elmer Layden of Notre Dame with 3,723,091 points. Jimmy Phelan of Washington had 2,760,765 points and Bernie Moore of Louisiana, 2,397,566.

## THE BULL OF THE SOCKYARDS

## Boston, New York To Open Big Series Today

By BILL BONI, Associated Press Sports Writer. There's an explosion due in Boston any day now and, if the citizens of the Hub—especially those in and about Fenway park—haven't taken the proper precautions, then it's all their own fault.

Opening a three-day, four-game stand today with his fellow New York Yankees was Joseph DiMaggio, the stylish San Francisco crab fisherman who also is the major league's most stylish producer of home runs.

Every bit in itself is not so startling. Everybody knows about DiMaggio, both as a crab fisherman and a home run producer. More surprising is the fact that Fenway park is the only American league ball lot in which DiMaggio has not yet touched off one of his four-base specialties.

He has, in fact, been treated with the utmost lack of consideration by the Fenway park natives—Red Sox to you. In eight games with Tom Yawkey's high-priced hirelings, Joe has hit just one homer.

Besides needing to catch up on that Boston pitching, Joe needs to catch up with his home run production. He hasn't delivered for exactly a week. On this date ten years ago, Ruth clouted No. 36 in his 109th game. Joe, for the 98 games, including two ties, which the Yanks have played, has 32.

With inter-sectional competition out of the way for the moment, both leagues today entered on intrasectional series. In the American league, besides the Yanks and Boston, Washington was at home to the Athletics and, in the western division, Chicago was at Detroit and St. Louis at Cleveland.

In the National league the Cubs, six games in front, opened against the Pirates at Chicago. The Cardinals, meanwhile, took on the Reds, the Giants returned home to meet the Bees and the Dodgers, dropping dangerously close to the cellar, visited the last-place Phillies.

## Sports Roundup

NEW YORK, Aug. 10 (AP)—Henry Armstrong, sensational Los Angeles featherweight, will be shooting for his 14th knockout in 15 starts when he goes against Scanton's "Irish Eddie" Barkis here tomorrow night. Since the Fynder and Davis cups went west the British have conveniently developed a renewed interest in cricket. Correction: Tennessee has 'em four deep for football this fall (not three)... and every one down there says watch a kid named Bartholomew... his first name is unknown right now, but it won't be this fall... Charley Lacey, Lakeville golf pro, has bought himself four greyhounds... one of 'em set him back \$600. Elwood Rigby, Pittsburgh fight promoter, called to say he'll put on John Henry Lewis and Bob Pastor in Forbes field, Sept. 27... O. K. Butch... So far as the records show, Duke is the first university to supply...

## WOLFF BEATS JOHNSON TWO FALLS TO ONE

Frank Wolff of Columbus, Ohio, who would rather be called "big bad wolf" than Frankenstein, routed his way to a decision over Gust Johnson in last night's "rassie roy" here. Wolff, who says he got the nickname of Frankenstein after he had refused to play that part in the movies "because I didn't have time," won the first and third falls.

The feature of the evening, however, was the semi-final in which plodding Ole Erickson got mad and stayed mad for 25 minutes. During that time he dealt Senior Pulpo from Mexico City a new type of misery. After 25 minutes, Ole got good natured again and the Mexican dropped his shoulders to the mat in 27 minutes.

Louisiana's butcher boy, Jack Hagen, proved his title by butchering the likable little Tex Hager in the preliminary. Hager, however, stayed the limit. It would be a treat to see little Hager up against a mauler like Hagen in a scientific bout.

Wolff displayed terrific strength in his match with the speedy Johnson. His power and his small amount of science didn't suffice to set him a fall in the early part of the match, however, and he had to resort to a little eye gouging, some chinking and many punches. Johnson retaliated but lost the first fall in 27 minutes with a hammerlock and smotherer.

The Swede made short work of the second fall when he pinned Wolff's shoulders to the mat in 4-1-2 minutes with a Japanese crab hold.

Still showing his speed and scientific ability Johnson opened the deciding fall but full tactics by Wolff wore him down until he was unable to break away. After a series of flying tackles, which lacked steam, Johnson fell a victim to Wolff when that worthy took him under the chin with cupped hands and hurled him across the ring and smothered him in 13 minutes.

Erickson put Pulpo in an Indian stake held at the opening of their battle and held it for nearly five minutes. Pulpo broke loose with rights to the Swede's jaw but came back to resume the hold. The Swede also tied the Mexican's feet in some foreign manner and it took Pulpo and the referee to get them untangled.

Pulpo used a pop bottle cap to aggravate Ole but the Swede took it away from him and returned the torture. Tom Parks exchanged horse and punches and to the surprise of the fans, Ole Pulpo won with an honest wrestling hold in 27 minutes when he got Erickson in a rolling cradle pin.

## THOROUGHBRED HORSE SALES AVERAGE \$3000

SARATOGA SPRINGS, N. Y., Aug. 10 (AP)—The Saratoga thoroughbred horse sales are on their way to a higher total than 1936 with \$741,150 already in the till and several big assignments yet to be sold.

Last night's consignment of 32 yearlings from Willis Sharpe Kilmer's Court Manor Farms brought \$161,600, topping his 1936 earnings by \$45,950, despite the fact that the top price for an individual yearling was \$8,000 for a bay colt by Im. Sun Briar out of Superette.

The full brother of Sun Beau, a champion money winner by Sun Briar-Beautiful Lady, was sold for only \$3,300 to H. L. Hill, Pasadena, Calif. His price just bettered the average of \$3,107, however.

## Amarillo Tennis Team Victorious

Pampa tennis players lost a friendly series to the Amarillo Tennis club here Sunday afternoon, 11 to 7. Rain and sand interrupted play and all matches were not completed.

Outstanding performance of the afternoon was by Leo Recknagle who defeated W. A. Rhodes of Amarillo, 6-2, 6-4, when his opponent, Cullen Crane, failed to arrive. Crane put in his appearance later and challenged Recknagle to a match. Although having played one day, Recknagle took on the Amarillo seeded No. 2 player and beat him, 6-2, 9-7.

Jim Brown was the only other Pampa player to win in the men's singles. The Pampans won one men's doubles match, the only mixed doubles, and women's singles matches played and one of the women's doubles.

With Recknagle too tired to play in the doubles, Rob Brown replaced him with Francis Smith and lost the most terrific match of the day to Crane and Uterback, Amarillo No. 1 pair, 5-7, 6-4, 11-9. Meet results follow, Pampa listed first: Men's Singles. Leo Recknagle defeated Cullen Crane, 6-2, 9-7. Leo Recknagle then won from W. A. Rhodes, 6-2, 6-4. Francis Smith lost to James Uterback, 6-2, 6-2.

## Negroes Win Tournament After Dropping Game To Halliburton Cementers

DENVER, Aug. 10 (AP)—The negro All-Stars took the second game of a doubleheader from the Duncan, Okla. Halliburtons 11 to 1 today to win the Denver Post baseball championship—a crown that a negro team won last year.

Nearly all of the 6,000 fans who saw the Oklahoma team hand the negroes a 6 to 4 defeat last night—their first in the tournament—stayed to watch the All-Stars put the challengers in complete retreat during the early morning play-off.

The floodlight duel lasted four and a half hours, actual playing time. The second game went only seven innings, by agreement.

The All-Stars, who moved in on mile-high Denver from a barnstorming tour of the Dominican Republic, dominated the final game as they had most of their earlier ones. Duncan went scoreless until the seventh, when singles by Cecil Smith and Jesse Welch and a fielder's choice produced the lone tally.

Lute Roy, Duncan righthander, was credited with one victory and one defeat. His relief pitching during six and two-thirds innings of the first game resulted in the victory; he started the second, but his one-third inning in the box was blamed for the defeat.

Matlock, the negro moundsman, allowed only seven hits. The All-Stars, made up of former Negro National league players, won seven games and lost one. The Halliburtons, who won the National Semi-Pro tournament at Wichita, Kas., last year, won five games and lost two.

## Ball Club Seeks Ruth as Manager

HOLLYWOOD, Aug. 10 (AP)—Film Actor George Raft will fly east within 48 hours, an unconfirmed report said today, to see Babe Ruth's contract as manager of a Hollywood club in the Pacific Coast Baseball League.

Raft will sponsor the club, if Ruth signs, the report said. The Hollywood franchise was shifted to San Diego in 1936. A former boxer, Raft is known as an all-around sports fan.

Ryn scored in straight sets to reach the third round. The only one of the select eight who had to play an extra set was Frank Shields, the Hollywood film actor who is seeded fourth. He was pressed to beat William V. Winslow of South Orange, N. J., 6-4, 3-6, 8-6, in his second match.

The seeded women players found the going somewhat harder as Helena Pedersen of Stamford, Conn., became the second to be eliminated. Still weak from ptomaine poisoning suffered at Southampton last week, she fell before Barbara Winslow of Hollywood, 6-3, 6-8, 6-4, in the second round.

## Handicap Golf Tournament in Opening Round of Play

Deadline for completing first round of play in the Pampa Country club handicap tournament has been extended until Saturday evening. Second round will begin next Sunday, with the finishing to be set.

Several close matches have been staged to date in the eight games completed. Six local golfers went to Canadian for a friendly match yesterday over the renovated Canadian Country club course which is in excellent condition. Making the trip were Del Love, Pampa pro, Grover Austin, C. P. Conover, Jimmy Richstin, Bob Deardorff, Richard Kilgore.

Results in the handicap tournament follow: Jack Goldston won from Jet Brumley, 1 up. Mack Graham defeated Sid Patterson, 5 up. C. F. McGinnis, shooting a 73, defeated Ray Hagan, 1 up. R. G. Allen beat Frank Perry, 6-4. Fred Thompson, shooting his best score of the year, beat Charlie Thut, 5 up. Jim Hatfield won from Art Swanson by default. Mark Heath defeated Frank Shotwell, 2-1. O. Siberling beat Grover Austin, Sr., 6-5.

## Tulsa Oilers Defeated by Texas Felines

The third-place Fort Worth Cats extended their winning streak to seven by whipping the Tulsa Oilers, 6 to 2, in the feature contest of three played in the Texas league last night. Clyde (Lefty) Small went the route for the victors while the Felines pounded George Miltstead early to run up a safe margin. Beaumont's Exporters cracked out 13 safeties to set down the Galveston club, 9 to 3. Les Fleming, with pairs of doubles and singles in five times up, led the winner's attack. The Houston Buffs bunched five hits for as many runs in the ninth to defeat the San Antonio Missions, 8 to 5. The circuit's leaders and tail-enders, Oklahoma City and Dallas, enjoyed a day of rest.

## Marion Miley Leads Field in Golf Derby

CHICAGO, Aug. 10 (AP)—The favorite was the pace-setter today as a field of the nation's finest women golfers began another 18-hole round in the Women's Western medal play golf derby over 72 holes. Miss Marion Miley of Cincinnati, who won the event the last two years, scored a brilliant 76 in yesterday's opening test. She clipped four strokes off par with rounds of 32, but her impressive start came a long way from giving her a commanding edge over several other experts in the smart field. Edith Estabrooks of Dubuque, Ia., former Western Junior champion, cracked out a 38-39-77 for second place, while Beatrice Barrett of Minneapolis, daughter of a Minneapolis professional, stuck in the fight with 41-38-79, being tied with Dorothy Gustafson of South Bend, Ind., who came in with rounds of 37-42. The Trans-Mississippi women's tour, Betty Jameson of Austin, Texas, and another Texan Mrs. Dan Chandler of Dallas, were tied at 80, one stroke better than the opening round performance of Dorothy Foster, the music teacher from Springfield, Ill. Mrs. Russell Mann of Milwaukee had an 82, while Patsy Berg, the Minneapolis star, was one stroke back at 83. Over 700 people died of starvation in Szechuan province, West China, during November, 1936. Tom Brown gets a dozen letters a week advising him not to marry for at least five years. It is against the law to hunt deer with dogs in Erath county, Texas—although there are no wild deer there. The apple, as shown by the Bible, is one of the oldest cultivated fruits. It was brought to America by early settlers.

# Best-Dressed Woman

BY HELEN WELSHIMER

Chapter XI  
Judith nodded and spoke to Marta who had so patiently come to the couturier's to guard against any privacy that she might possibly share with Phil at lunchtime. She realized that Marta was not subtle, not diplomatic. She thrust herself on Phil at times when her absence would have pleased her case far more eloquently.

The attendants were hurrying with new designs, new models, and Judith surrendered herself to their allurements. She ordered recklessly, lavishly. She had enough money in her own private account to care for the bills. After all, clothes must be her modicum of earning her living now. She knew, though, that it was a desire to finish the fashion parade, if finish it she must, in a burst of glory that prompted the shopping expedition. Her innate honesty would not let her be deceived.

When the measuring and checking of materials had ended she decided to call Mark Price and tell him of her return. To her surprise, Mark Price's warm, welcoming voice made no mention of her status in the fashion world. He made an appointment with her, welcomed her back, and told of the progress of his work. Hardly had she hung up, when an attendant rapped on the door. In response to Judith's "Come in," she opened it to admit a tall figure in gray tweeds.

"Phil!" Judith said. It was idiotic for her heart to bounce like a rubber ball. She tried to quiet it by saying, inately: "You're looking well."  
He wasn't looking well. His face was thinner, tired, and his eyes were haggard.

"You're gorgeous!" he said. He did not look at the dress, though. "Oh, Judy, it's good to have you back." For a moment he had forgotten that their meetings, now, were only transient affairs, Judith realized. "Ready?" He smiled down at her. "Where shall we lunch?"  
Judith named a favorite luncheon place, one where they had gone many times in the past. She wondered how Phil had evaded Marta. Perhaps he had begun to realize the futility of any lasting happiness with Marta. His next words banished the idea.

"Mind if Marta goes, too? I asked her last night. She's outside."  
"Marta? No. Not at all."  
So Phil, rather than escaping, was so deeply enmeshed in his devotion or love or infatuation that he would commit an act, clearly of bad taste, to please Marta? Judith decided to have soup and coffee and escape quickly. She kept the conversation moving swiftly in a light vein. She realized that Marta had been defeated in some purpose which she sought.

The next days were crowded, and finally came the day when she would show Mark Price had not mentioned her identity to Judith, though she was sure that he must know who she was. Judith had been present at a private dress rehearsal, asking that she be permitted to miss the general one. No one but Mark Price and his fitters knew that she was appearing.

Her first ensemble was a blue dinner gown, simple and close-fitting, made of hundreds of plaits that were sharp and definite. Now, at the verge of the stage, her courage left her. How could she have accepted such a role? What imp had possessed her to do this? The music repeated its cue. She must go on!

She knew that the silence, at first, was a tribute to the creation. It lasted a little too long. Amusement threaded it. Somebody gasped. A sound like a breeze in a field stirred the audience. Then there was applause, wild and tumultuous and approving.

"Damn, she's got nerve!" Judith heard a man's voice say.  
"Mighty good publicity. Why didn't I think of it?" she heard a woman's voice, and her eyes flickered, ever so briefly in the direction of the sound. The words came from a woman who had been a clothes rival last year.  
She wondered if Marta had come. And Phil. She mustn't think. Walk to music, she commanded herself. This is your job. Down the ramp, down, down, turn, open the jacket, slip it off, slowly—

The show was over at last. Photographers were everywhere. She was asked to pose in this and that. She was asked if she had done the job for charity. There was a suggestion that she had. Mark Price's eyes were incredulous.

"How in the world did I keep from recognizing you?" he asked.  
"You didn't know?" she gasped.  
"No. Once or twice, lately, I've thought you knew clothes."  
"My picture—the papers..."  
"I haven't read a thing since I returned—only glanced at the headlines. I feel very honored and I thank you. Will you forgive me for being so presumptuous as to think you might

# SYMPHONY CONDUCTOR BALKS AT HOT-CHA SONGS ON PROGRAM

PHILADELPHIA, Aug. 10 (AP)—Objections by Jose Turbi, conductor of the Philadelphia orchestra, to popular songs on a program of American music, halted a nation-wide broadcast by the orchestra from Robin Hood Dell last night.

The popular songs were to have been sung by Jan Pierce and Lucy Munroe, radio singers.

"I consider it a shame and an outrage that the great Philadelphia orchestra playing a program of American music should represent itself to a nation-wide audience by such stuff," the Spanish pianist-conductor said.

Turbi rejected a compromise offered by the management to present the singers in a single group of four songs. Instead of Miss Monroe, Turbi stepped on the stage and continued the orchestra's concert. The termination of the broadcast was announced over the air.

Many of the 3,500 persons in the audience were unaware of the backstage confusion.

The President said it would be "premature to launch a greatly expanded program in certain fields of vocational education before the report and recommendations of the committee studying these problems are available for consideration."

He added much of the apparent demand for immediate extension of the program "appears to have been stimulated by an active lobby of vocational teachers, supervisors and administrative officers in the field of vocational education, who are interested in the emoluments paid in part from federal funds."

He said his special committee found the training of personnel necessary for extension and improvement of vocational education was a problem of first importance.

"The fact cannot be overlooked, however," he said, "that the teacher personnel is not now available in most of the states to staff enlarged programs of vocational education unless certification standards are materially reduced and teachers are employed who are not well qualified."

"In many instances, vocational education is already suffering from poorly equipped teachers, and it would be a grave mistake to dilute the standards of teaching still further."

The President said the committee also had determined that the basis for distribution of funds among the tened in many cases to "increase rather than to decrease inequalities in educational opportunity."

# Market Briefs

NEW YORK, Aug. 10 (AP)—The stock market made feeble rallying gestures today but most leaders finished with a downward slant.

Although a handful of oils, rubbers, utilities and specialties retained modest advances, sliding tendencies exhibited by steel, copper and rails took the backbone out of intermittent recovery moves.

The news, on the whole, seemed to be especially stimulating qualities and many traders, brokers said, took to the sidelines pending more definite indications congress will close up shop at the end of the month.

The steel group fell abruptly at the opening, almost erased losses around noon and dropped away again in the final hour. Dealings were light from the start, and the ticker tape lolloped during the remainder of the session. Transfers were around 700,000 shares.

**CHICAGO GRAIN**  
CHICAGO, Aug. 10 (AP)—With all Winthrop deliveries of wheat showing an excited bulge of five cents today, the Chicago wheat market scored 4 1/2 cents maximum gain.

Official figures were taken as indicating Canada this season owing to extraordinary crop failure would have less than 100,000,000 bushels for export and home carryover. Sudden revival of European demand today for North American wheat was much emphasized as a result.

At the close, wheat futures in Chicago were 2 1/2-3 1/2 above yesterday's finish. Sept. 1.13 1/2-3 1/2, Dec. 1.15 1/2-3 1/2, corn 1 1/4-2 1/4 down, Sept. 1.01 1/2, Dec. 66 1/2-3 1/2, and oats 1 1/2 off.

**NEW ORLEANS COTTON**  
NEW ORLEANS, Aug. 10 (AP)—Cotton declined about 60 cents a bale on most positions in desultory trading today but a little covering by shorts was encountered after mid-session and towards the beginning of the last hour while months were 6 to 10 points net down. October contracts sold at 10.83, Dec at 10.36, Jan at 10.46, March at 10.50, and May at 10.48.

Lower foreign markets and oversight selling orders depressed prices in early trading but offerings were absorbed at declines of 9 to 14 points and the market recovered slightly.

Exports totaled 17,672 bales.

# As 'Whiskey Island' Became Model Housing Area

Until the PWA went to work on it, the neat, trim federal slum elimination project in Cleveland, O., center foreground above, with its tidy buildings and planning, was nothing more than an area of shacks and dilapidated warehouses known as "Whiskey Island." Shown dwarfed against the downtown skyline of the city, the development-cost \$3,800,000, and is one of three such projects in Cleveland. It will be opened in the fall, providing homes for 620 low-income families.

Picnic date has been set for Sept. 6, Labor Day. The plan has been receiving enthusiastic support the steering committee reports.

## In Tangled Mayoralty Race

"I ask no quarter," declared former Supreme Court Justice Jeremiah T. ## COMMITTEE AGREES ON COURT REORGANIZATION

WASHINGTON, Aug. 10 (AP)—A Senate-House conference committee agreed today on lower court reorganization legislation after a six-month congressional contest over the judiciary.

The conferees reached a complete agreement on the terms of the bill changing procedure in the lower courts. This measure was substituted for the Roosevelt court bill and its supreme court enlargement proposal.

Chairman McCarran (D., Nev.), of the Senate conferees, said he would call the report up for final action in the Senate later today.

# OUSTED CHIEF TURNS LOOSE JAIL INMATES

LUBBOCK, Aug. 10 (AP)—In a locally unprecedented "coup that opened the coop," Police Chief H. L. (Bud) Johnson, who had been asked by the city commission to turn in his resignation Thursday, this morning unlocked the door of city jail to seven persons charged with drunkenness and left the lockup as bare as old Mother Hubbard's cupboard.

His action, he said, was another clap at what he termed "class legislation and enforcement" in the office of City Attorney Durwood H. Bradley, with whom he had clashed recently when three persons arrested by police and charged with drunkenness were released when Bradley refused to prosecute.

"I turned out the seven men myself," said the chief. "Because I didn't want anyone else to take the rap for what I consider right."

He charged that "money," more than justice, "seems to actuate procedure in handling drunkenness cases here. As long as I am chief of police and they want to junk the recognized procedure, then I'll scrap it just as they do."

"From here out, for the rest of my two days, I've informed my officers to arrest all persons who are drunk, but to hold them only so long as is necessary to sober them and prevent their being a menace to themselves and to others—and not to assess fines against them."

Those with money are not prosecuted, then those with no money will not be while I'm still here.

"If some can be turned out of jail—then others can. I know, I have the key."

Johnson will be succeeded by Don Reeder, former assistant chief and more lately police identification officer.

## LEGAL SNAG DEVELOPS IN BLANTON COURT QUIZ

RAYMONDVILLE, Tex., Aug. 10 (AP)—Another legal snag developed today in a secret court of inquiry into the disappearance of Luther and John Blanton.

The issue was raised as to whether Justice of the Peace S. F. Nelson of Sebastian, who yesterday succeeded County Judge W. E. McCharen as presiding officer of the court, could conduct the hearing. The area where the Blantons disappeared was out of his precinct, it was pointed out.

McCharen suggested that the court recess until Wednesday morning and that an effort be made to contact C. S. Jackson, justice of the peace at San Perita, in precinct No. 6, where the Blantons disappeared.

# PAMPANS SWELTER AGAIN WITH MERCURY AT 104

With no sign of showers and no cooling breezes, hot weather prevailed in Pampa again today. Some hope was seen last night when clouds appeared just before sunset, but by the time the sun had disappeared, the sky was clear again. At that time, the temperature was 86 degrees.

Lowest reading today was at 8 o'clock this morning, when the mercury had begun its journey upward

at 89 degrees. By noon, the heat was close to the hundred mark, and had risen three degrees by 1 o'clock, when it was 102. The reading was 104 degrees at 2 o'clock. If the weatherman is correct, Pampans may expect much of the same heat tomorrow and tonight, for he predicts fair for West Texas.

**COMMISSION MEETS**  
City Commission meeting was held last night in the city hall. However, due to absence of Mayor W. A. Bratton, no plans were made concerning the wading pool project of the Lions club, which was to have been discussed. Several monthly bills were approved to be paid immediately.
