

CHARTER FOR PAMPA PROPOSED

Telephone Company May Spend \$100,000 Here In Plant

SYSTEM MAY BE BUILT AT \$100,000 COST

Company Intends To
Install Flash
Method

OFFICIALS AT
MEETING HERE

Council Offers Help In
Expansion Of The
Equipment

An expansion program involving an expenditure of possibly \$100,000 was tentatively proposed to the city council by officials of the Southwestern Bell Telephone company in a meeting here yesterday afternoon.

Under the plan, the telephone system here would be enlarged to care for a city of 50,000 population, and probably a company building would be erected.

The project was suggested to the council to obtain the viewpoint of that body toward a revision of the local rates for service. After a discussion, the council passed a resolution approving a suggested rate schedule to take effect following the installation of extensive improvements. It was stated that the company has not obtained a fair return on its investment in the last few years.

The council's resolution, after citing the proposal to spend \$100,000 here, says it "recognizes the right of the Southwestern Bell Telephone company, upon completion of the work proposed—the installing of the new switchboard and certain outside plant work—to establish the following rates:

Business, one-party — \$5 per month.
Residence, one-party—\$2.75 per month.
Two-party selective—\$2.25.
Business extension—\$1.
Residence extension—75c.

Provided these rates do not produce more than a fair return upon the fair value of its telephone exchange.

The council reserved the right to inquire into and regulate in a lawful manner the telephone rates at all times.

Members of the council were emphatic in their statements that present and past telephone service in Pampa has been very unsatisfactory, and that local people wish immediate improvement of the service.

The company's proposed construction program will be taken up by officials of the general organization, and appropriations made. The battery, or flash system, eliminating ringing, will be installed, and on the basis of this promise the new Schneider hotel was wired for the battery service.

The work would require several months to complete and put into operation.

District Court Adjourns Friday

With disposal by conviction in a few criminal cases marking the progress of the week, the 84th district court adjourned Friday evening.

One civil case was transferred to the court at Panhandle and about 40 old cases were dismissed.

Walter Garrett, negro, was given a two-year penitentiary sentence on his plea of guilty to a liquor charge.

A conviction on a forgery charge resulted in a suspended sentence of three years for Clarence Neilan.

C. S. Rudisill, alias, C. S. Dolan, was given a two-year sentence for forgery.

GUARDS, BOLTS, SEALS PROTECT U. S. CROP REPORT FROM LEAKS

HOSPITAL TO BE OPENED TO PUBLIC SUNDAY

Invitation Extended To
All To Visit Big
Institution

MORE CAPITAL
BADLY NEEDED

Stockholders Get Report,
and Will Meet
Again Friday

Pampa Hospital, Inc., will be opened for public inspection next Sunday, and visitors are requested to attend either this formal opening or inspect the big institution thereafter at the hours of 2 to 4, or 7 to 8 p. m. daily.

At a meeting of the stockholders last night, the financial report was submitted and the session was continued to Friday evening, when final disposition of the problems will be made. New capital is urgently needed, and other stockholders will be interested this week if possible.

The report shows cash received of \$44,063.24, all paid out, and bills payable amounting to \$25,544.77.

There is \$1,800 worth of furniture in the local depot which cannot be taken out until funds are available, and another furniture order of \$6,000 is delayed at the factory pending raising of additional capital.

The corporation must have more than \$35,000 additional stock before the institution may be paid out and properly equipped. The stockholders Friday will attempt to arrive at a solution of the financial problem.

Since opening for emergency cas-

(See HOSPITAL—Page 4, Col. 4.)

A United States marshal stands guard. The doors are padlocked. Government seals fasten the windows, and the shades are drawn.

Inside eight men sit at an oblong table. Before them are sheets of priceless figures. The United States Crop Reporting Board is at work.

Why the secrecy? Within a few hours the nation's most nearly perfect estimate of farm yields will be flashed to all the markets in the world. Instantly prices will rise or fall. Speculators everywhere stand close beside their private wires, or bend in tense anxiety above the ticker tape. In the next minute fortunes may be made or lost. One word in advance, just a moment's lead, would give opportunity for tremendous profit—to buy or sell with accurate knowledge of the market trend.

That's the story of a federal function. Reporters know its value to each tick of a signal watch.

In a bare room the newspaper reporters stand, behind four white chalk lines. Four feet away their private telephones are "set up," ready for the first word. When the report is finished a tabulated sheet is laid, face down, beside each phone. None is allowed to see it. A timekeeper calls each man to his mark. Nerve-taut, they stand, neither having slightest advantage. At "Go!" they spring to their wires, and shortly the quantity, quality and value of crops are known wherever a newspaper is read.

To the crop reporters themselves the incident means nothing but work. If preparing a forenoon release, they assemble at 5:30 a. m. Their breakfast is sent in to them. If the report is finished before schedule release it must be held in confidence until the designated hour.

There is no end to precaution. Even the window glass will not catch a shadow. It is of special construction, to guard against silhouetted signals. No one may enter the room except department em-

NEW PAVING CONTRACT LET BY COUNCIL

Stuckey Company Gets
Extension of Its
Construction

THICK BRICK,
HEAVY BASE

Plan Makes Delay On
Bid Calls Not
Necessary

Paving contracts for nine and one-half additional blocks were formally signed with the Stuckey Construction company at a special meeting of the city council Tuesday afternoon. The new work will start soon after completion of the present contract of 11 blocks.

The ordinance for the paving was passed at Monday's meeting. Under the plan, there will be no delay occasioned by calling for bids, but the construction will be immediate.

The specifications call for three-inch vertical fibre brick placed on a five-inch concrete base, and constitute an unusually substantial street surfacing.

The paving is designated as follows:

Francis avenue, from its intersection with the south property line of Kingsmill avenue to its intersection with the north property line of Foster avenue.

Frost street, from its intersection with the south property line of Kingsmill avenue to its intersection with the north property line of Foster street.

Frost street, from its intersection with the south property line of Foster street to its intersection with the

Church Training School To Open Soon At Clarendon

The Clarendon College standard training school for parents, church officers, teachers, pastors, and young people will open June 26 and last through July 2.

An able faculty and an excellent study course have been provided. Pastors and superintendents have been invited to attend and bring large delegations.

Clarendon college will furnish rooms and meals for \$1 per day.

The first session will open Sunday at 3 p. m., and will be held each evening at 7:30 p. m.

Important Meeting Of Hospital Stock- Holders Is Called

Stockholders in Pampa Hospital, Inc., will meet at the institution this evening in a session expected to be vitally important.

The hospital has been completed to the greatest extent possible without further capital, and is ready to open its full facilities when the building is finished and equipped properly.

Since the burning of the Mariand hospital at Borger, oil companies of the Panhandle are looking to the Pampa hospital to care for their men and their families. Under these conditions, it is believed the hospital will be a great city asset from the standpoint of out-of-town trade, in addition to its importance as one of the best institutions in North Texas.

All of the stockholders are being urged to be present. Officers will be elected at the meeting.

Sharpe Construction Company Moves Its Head Offices Here

Charles H. Sharpe and company, construction contractors, have moved their head office to Pampa. They have offices in the new Schneider hotel.

The Sharpe Construction company has erected numerous buildings in Pampa among which are the New Schneider hotel, Adams hotel and the new hospital, and is now erecting the new south side school. The company also constructed several large buildings in Amarillo, where the head office was formerly situated.

Mr. Sharpe is a booster for Pampa and foresees a bright future for the city.

Mr. and Mrs. W. L. Woodward, Mrs. Neal McCullough, Mrs. Joe M. Smith and daughter, Phyllis motored to Amarillo Monday in Woodward's new Buick sedan.

Vehicles Must Have Two Tags— Trucks Must Bear Texas Plates, Declares Highway Officer Here

Warnings to Gray county motorists were given this week by Hume Graves of Amarillo, state highway officer, who was here conferring with the sheriff's department.

Local officers will soon begin enforcing state laws relating to motor vehicles. Particular attention will be given to license plates, which must be used in sets, one at each end of the vehicles.

Those who have lost one plate may obtain a duplicate from the sheriff upon payment of \$1.

Out-of-state cars, after, after 30 days in Texas, must show some kind of state tag. This may be a visitor's license tag good for 60 days and obtainable for \$1. After the 60-day period is up, regular Texas licenses must be purchased and displayed.

Out-of-state trucks must, without

COMMISSION OF 15 WILL DRAW BIG DOCUMENT

Council Selection Is
Final Step Toward
New Work

EFFORTS WILL
START AT ONCE

Special Election Will
Be Called To Vote
On Provisions

A commission of 15 men was appointed Monday by the city council to draft a charter for Pampa.

The men have been notified to meet and resolve themselves into a working body at the earliest possible date. They will elect a chairman and secretary and proceed to draw up the charter provisions.

After the charter is prepared, it will be placed before the voters in a special election. The commission is composed of the following men:

F. T. Mason, C. C. Cook, W. B. Saulsbury, Lynn Boyd, T. D. Hobart, J. M. Dodson, M. K. Brown, Ike Lewis, J. E. Murfee Jr., Scott Barcus, P. C. Ledrick, T. H. Lane, A. A. Tieman, B. E. Finley, F. C. Cary.

This list composes, for the most part, a group suggested by a committee of members of the Chamber of Commerce appointed by the city council. The action grew out of a joint dinner last week of members of the council and directors of the Chamber of Commerce.

The need for a city charter has been felt for some time, on account of the growing business of the city.

The paving ordinance for the additional nine and one half blocks of paving, and of an ordinance empowering Baker Saulsbury to have direction of the police department, were passed by the city council at its regular meeting last night.

The council adjourned when the rain came up, but called a special session for 2 p. m. today.

Shot Brings Flow of 500 Barrels Hourly

The First National company's well in section 4, block Y, in Hutchinson county has been making about 185 barrels a day since it was brought in a few weeks ago. The company decided to use a shot to see if an increase in production would result and the well came in this week with a flow of more than 500 barrels an hour.

It is one of the largest in the Panhandle and is situated in the McIlroy pool.

exception, be licensed in Texas. This ruling, under a recent court decision, applies to inter-state hauling, making it necessary for Pampa-Oklahoma City truck line vehicles to have both Oklahoma and Texas license plates.
The revenue in automobiles is in the fee, and officers will enforce the license laws to the extent of the law. It was said at the sheriff's office today.
Enforcement also is of value in checking automobile thefts. Officers consider this story sufficient warning, and within a short time will begin making arrests in Gray county.
According to the highway officer, the efforts along this line in the Panhandle will amount to a campaign during the next few weeks.

Postal Workers Will Convene In Abilene July 4-6

(By The Associated Press.)
 ABILENE, June 23.—More than 2,500 delegates are expected to attend the convention of the Texas postal workers which will be held here July 4, 5 and 6.
 These meetings are expected to bring together the largest number of mail handlers ever assembled at one place in the history of Texas. The organization to meet here include the Texas Rural Letter Carriers association on July 4, 5 and 6; Texas branch of the National League of District Postmasters, (third and fourth class) July 4 and 5; Texas branch of the United National Association of Postoffice Clerks, July 4 and 5, and the Texas branch of the National Association of Postal Supervisors, July 5 and 6.
 On July 5, all four organizations will be here and on that day a joint program will be given in which representatives of each body will take part. Several men prominent in the national postal service will be here for that occasion. Hon. Thos. L. Blanton, member of congress from the Abilene district and Hon. W. R. Ely, member of the State Highway Commission have both accepted invitations to speak during the day.
 On the evening of that day the Abilene Chamber of Commerce will be host to all the delegates and their families for an open-air banquet which will be prepared and served under the direction of Will W. Watson, famous in West Texas for his picnics.
 Guy W. McCarty, director of the Chamber of Commerce conventions bureau has announced a program of entertainment and amusement for the visitors which will supplement the business session and which will keep the delegates and their guests busy from the time the first one arrives till the last one starts home.
 On July 4, first day of the convention, the West Texas Fair racing association will stage their annual mid-summer automobile races which have attracted thousands from all over the southwest in the seasons past. It will be possible for the postal workers to see these races along with attending their annual conventions.
 Ample accommodations to house all those who come have already been provided. The local arrangement committee has been advised that a large number of the delegates will come overland prepared for camping out while here and plenty of space for them will be available in the Fair Park where all conveniences for outdoor living will be obtainable.

GELATINE DISHES
 DENTON, June 24.—Gelatine dishes have few equals as summer foods. They may be prepared in the cool of the morning and used later in the day. They are little trouble and are quickly prepared. The suggestions were made by an expert in the household department of the College of Industrial Arts. Gelatine desserts are cold and refreshing. They save much time in preparation as compared with frozen mixtures such as creams and ices. Both fruits and vegetables may be used in gelatine dishes in a variety of pleasing combinations. Jellyed meat loaf offers opportunity for using left-overs and for "extending the meat flavor." The amount of gelatine used in each recipe is so small that in itself is negligible in food value, but serves a very useful purpose as a carrier of other foods and of flavors.
 Breakfast—Cantaloupe, Bacon, Coffee, buttered toast.
 Luncheon—Jellyed vegetable salad, graham bread, cup cakes, orangeade.
 Dinner—Fried chicken, milk gravy, boiled potatoes, green peas, hot biscuits, butter, sliced peaches with cream, coffee.
Jellyed Vegetable Salad
 Soak two tablespoons of gelatine in one-half cup cold water five minutes. Add two cups boiling water and stir until the gelatine is completely dissolved, then add one-half cup mild vinegar, two tablespoons lemon juice, one-half cup sugar and one teaspoon salt. Strain, and set in a cold place. When mixture begins to stiffen add three cups of chopped vegetables and two pimientos cut in small pieces, or one-fourth cup sweet red, or green peppers. Various vegetable mixtures may be used, such as: one cup shredded cabbage, and two cups celery cut in small pieces, or one cup cucumber cubes and one cup cooked green peas and one cup chopped tomato.
 Other combinations will readily suggest themselves to the resourceful housewife. The sugar may be omitted. Beef or chicken stock may be used instead of all or part of the water. Turn into a mold (a loaf bread pan) that has been dipped into cold water and chill. Remove from mold and cut in thick slices. Serve individual

OUT OUR WAY

—By Williams

Dean of French Chefs Served Kaiser; Sent U. S. 200 Chefs

(By The Associated Press.)
 PARIS, June 23.—He cooked for the ex-kaiser after having been a prisoner of Wilhelm II's grandfather—and the ex-kaiser liked it. That is the record of G. A. Escoffier, dean of French chefs, still spry at 87.
 "I have sent at least 200 cooks to America in 20 years," he recalls. "Most of them I trained outside of France, at the Savoy and Carlton in London, or aboard the Hamburg-American liners. But they were all Frenchmen and trained in the French tradition of cookery—naturally the best in the world."
 "It was aboard the liner Berengaria, then the Imperator, that I first met the former emperor. They hesitated to hire me because I had been captured in the war of 1870 and had been treated—well, as prisoners are apt to be. However, I soon reassured his majesty that I had no intention of poisoning him.
 "If I had been there, I'd have freed you," the former kaiser told me jokingly. "Majesty," I replied, "if you had been there, you wouldn't have recognized me." That seemed to give the emperor a laugh.
 "When I parted from the former kaiser in 1913, I wished him long life and good health," M. Escoffier continues. "I ventured to add that the greatest act of his life would be bringing about an understanding between France and Germany. He replied, 'that would be my dream, but people don't understand my motives.'"
 M. Escoffier has visited the United States three times. He admires the American hotel chefs, who are for the most part trained under European masters, but stoutly maintains that good cooking and good eating are impossible without wine.

Fuller Again Is Victor For Borger Over Pampa Grays
 Lefty Fuller is still the Gray's jinx, as the result of Sunday's battle indicates. The Borger Pacers took a 6 to 3 victory.
 It was however, one of the best exhibitions of ball the Grays have dished up this year, and Patterson pitched winning ball. Weeks had his customary errors at the wrong time and it was good-bye ball game for the local boys.
 Gober was the shining light at bat, with two singles, a walk, and an out. The boys just can't hit Fuller and for no good reason at all, it seems. When

the ball into left field. Hunter scored Gober with a long single but Cahill fanned. Thus ended the ball game for the Grays.
 Borger scored two in the first on three singles, Gober's error and an out. In the second Borger won the game when Weeks made two errors in a row, letting in two runs after Narrin and Fuller had singled.
 The hitting was light. Borger got six hits to Pampa's five. Both pitchers were right, and the diminutive Patterson had the Pacers popping flies, nineteen of them going out by the sky route. Filled had eight strikeouts to his credit and Patterson one.
 Batteries: Borger—Fuller and Narrin; Pampa—Patterson and Clayton.

TUPLEHOCKEN, Pa., June 23.—(A.P.)—When Caspar Wistar, 182 years ago, gave enough land for the building of a church he stipulated in the deed that the annual rental be one red rose. Heirs of the donor received the rent this year from the congregation of the Trinity Reformed church in an auditorium decorated with roses. Payment of one white rose was made for other concessions from the Wistar family in recent years.

it came to fielding, Shaw and Hunter gave an exhibition of fly gathering that has never been beaten in these parts, oldtimers say. Both made sensational catches of balls that were labeled for extra base blows. Rows played a nice game in the garden having 5 putouts to his credit. The Pampa outfield had 14 of the 24 put-outs.
 Narrin, the Pacer catcher, had the most luck with Patterson's shoots, getting two safe blows, one of them a double. Ruth at short supplied the fielding sensation of the day when he made a great save of a sure hit through second to make a nice double play. The veteran Buffalo Hiner was at first and played a nice game.
 The Grays started the game as if they were out to see how many they could make. Weeks flew out to right. Clayton was hit, Scaling was safe when Sellers dropped his fly ball, Clayton advancing. Shaw singled scoring Clayton but was out. Gober hit a single, scoring Scaling. Gober made third when Robinson threw

ELECTION NOTICE

Pertaining to the Issuance of Bonds
STATE OF TEXAS:
COUNTY OF GRAY:
CITY OF PAMPA.

To the legally qualified property tax paying voters residing in the City of Pampa, Texas:

TAKE NOTICE, That an election will be held in said city on the 19th day of July, 1927, at the place and on the propositions more fully set forth in the resolution by the City Council calling said election, to-wit:

A RESOLUTION By the City Council of the City of Pampa calling an election for the issuance of bonds.

Whereas, the City Council of the City of Pampa, Texas, deems it advisable to issue the bonds of the said City for the purposes hereinafter mentioned:

Therefore, be it resolved by the City Council of the City of Pampa, Texas, That an election be held on the 19th day of July, 1927, at which election the following propositions shall be submitted:

Proposition No. 1

"Shall the City Council of the City of Pampa, Texas, be authorized to issue the bonds of the said City in the sum of \$70,000.00 maturing serially a not to exceed forty years, and bearing interest at the rate of not exceeding 6 per cent per annum, payable semi-annually and to levy a tax sufficient to pay the interest on said bonds and to create a sinking fund sufficient to redeem them at maturity for the purpose of constructing extensions and improvements to the waterworks system in and for the City as authorized by the Constitution and laws of the State of Texas?"

Proposition No. 2

"Shall the City Council of the City of Pampa, Texas, be authorized to issue the bonds of the said City in the sum of \$160,000.00, maturing serially in not to exceed forty years, and bearing interest at the rate of not exceeding 6 per cent per annum, payable semi-annually and to levy a tax sufficient to pay the interest on said bonds and to create a sinking fund sufficient to redeem them at maturity for the purpose of constructing extensions and improvements to the sanitary sewer system in and for the City as authorized by the Constitution and the laws of the State of Texas?"

Proposition No. 3

"Shall the City Council of the City of Pampa, Texas, be authorized to issue the refunding bonds of said City in the sum of \$125,000.00, maturing serially in not to exceed forty years, and bearing interest at the rate of not exceeding 6 per cent per annum, payable semi-annually, and to levy a tax sufficient to pay the interest on said bonds and to create a sinking fund sufficient to redeem them at maturity for the purpose of retiring and discharging the indebtedness of the City by refunding the following existing indebtedness of the City:

Are you reading the Daily News' new comic strip, "Mom 'N Pop?"

News readers are getting much interested in the newly married couple, Ken and Dot, and their schemes to get money out of the wife's parents.

This feature appears in Pampa's own daily, just as it does in hundreds of other daily publications over the country. Subscribe now and follow Ken and Dot in their humorous experiences—also, "Out Our Way," the editorial cartoon, and the best features obtainable.

And don't forget that the bargain-day rates are in effect now, but will close July 1. Hundreds have taken advantage of the \$3 rate per year for the daily by mail, or \$4 by carrier, in Pampa. What about yourself?

retiring and discharging the indebtedness of the City by refunding the following existing indebtedness of the City:

(a) Funding Warrants, dated October 20, 1926, originally issued in the amount of \$12,900, bearing interest at 6 per cent, in the denomination of \$1,000.00 each, numbered from one (1) to twelve (12), inclusive, maturing serially throughout the years 1928 to 1950, of which issue warrants aggregating \$12,000.00 are outstanding;

(b) Paving Warrants, dated November 26, 1926, originally issued in the amount of \$38,000.00, bearing six per cent interest, in the denomination of \$1,000 each, numbered from one (1) to thirty-eight (38), inclusive, maturing serially throughout the years 1928 to 1941, of which issue warrants aggregating \$38,000.00 are outstanding;

(c) Funding Warrants, dated March 25, 1927, originally issued in the amount of \$75,000, bearing 6 per cent interest, in the denomination of \$1,000.00 each, numbered from one (1) to seventy-five (75), inclusive, maturing serially throughout the years 1929 to 1947, of which issue warrants aggregating \$75,000.00 are outstanding;

by cancelling said original warrants and issuing to the holders thereof the bonds thus voted as authorized by the Constitution and laws of the State of Texas and the Charter of the City?"

The said election shall be held within the City of Pampa, Texas, at the City Hall and the following named persons are hereby appointed managers thereof, to-wit:

D. W. Osborne, Presiding Judge, L. C. McMurtry, Judge, Otto Rice, Clerk, W. H. Thomas, Clerk.

The said election to be held under the provisions and in accordance with the General Election laws of the State of Texas governing City elections and only duly qualified voters who are property tax payers of said City shall be allowed to vote.

All voters who favor Proposition No. 1, to issue the said Waterworks Extension Bonds shall have written or printed on their ballots the following words:

"For the issuance of Waterworks Extension Bonds."

And those opposed to Proposition No. 1 to issue the said Waterworks Extension Bonds shall have written or printed on their ballots the words:

"Against the issuance of Waterworks Extension Bonds."

All voters who favor Proposition No. 2 to issue the said Sewer Extension Bonds shall have written or printed on their ballots the following words:

"For the issuance of Sewer Extension Bonds."

And those opposed to Proposition No. 2 to issue the said Sewer Extension Bonds shall have written or printed on their ballots the words:

"Against the issuance of Sewer Extension Bonds."

All voters who favor Proposition No. 3 to issue the said Refunding Bonds shall have written or printed on their ballots the following words:

"For the issuance of Refunding Bonds."

And those opposed to Proposition No. 3 to issue the said Refunding Bonds shall have written or printed on their ballots the words:

"Against the issuance of Refunding Bonds."

A copy of this resolution signed by the Mayor of said city and attested by the City Secretary shall serve as a proper notice of said election.

The Mayor is authorized and directed to cause this notice of the election to be posted up at three public places within the said City for at least 30 full days prior to the date of said election.

The Mayor is further authorized and directed to cause this notice of election to be published in the Pampa News, a newspaper of general circulation published in said City, which notice shall be published once each week for four weeks, the date of the first publication shall not be less than thirty full days prior to the date of said election.

Adopted and approved this 9th day of June 1927.

F. P. REID, Mayor, City of Pampa, Texas. ATTEST: C. H. FISHER, City Secretary, City of Pampa, Texas. (SEAL) (11-12-13-14)

NOTICE
STATE OF TEXAS:
COUNTY OF GRAY.

WHEREAS, the undersigned, the administrator of the estate of Jack Kahn, deceased, has for the past 120 days retained possession of certain personal property belonging to unknown parties and whose residence are unknown and described as follows:

Ochiltree County Wildcat Interests Local Oil Men

A gas lift is being installed in the Texas company's No. 1 McConnell, section 91, block 4, Carson county. The well has been on the pump but the company thinks production will be increased by installing a gas lift. There are few gas lifts in the Panhandle.

Much interest is being taken by oil men in the Burton No. 1, W. G. Burton in section 578, block 13, Ochiltree county. This well is nearing pay and is in wildcat territory. If a well is made it will prove an entirely new territory.

The Atlantic Oil Production company has made a new location on the Combs-Worley land in section 11, block 3, Gray county.

J. C. Neudigate, of Amarillo, has made a location on the A. Chapman holding in section 52, block 25, Gray county.

Fights 18 Years To Get Rid of Gas

"I had stomach trouble for 18 years. Since taking Adlerika I feel better than for years and have not been bothered with gas." L. A. Champion.

Even the FIRST spoonful of Adlerika relieves gas and often removes astonishing amount of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Pampa Drug Company.

Hotel Manager Is Sentenced On Liquor Charge

John Frey, owner and manager of the Ranger Hotel here, convicted by a jury last night in the 84th district court, was given a one-year sentence in the penitentiary.

He was charged with having unlawful possession of liquor, which was found by officers of the sheriff's department in a raid made February 19.

C. C. Cook, lawyer for the defendant, will appeal the case.

EYE GRANULATION

RELIEVED BY LAVOPTIK
"In a short time, LAVOPTIK relieved granulations on my eyelids. It is very soothing."—H. H. Brown.

LAVOPTIK is a mild, soothing antiseptic which helps eye pains and inflammation surprisingly quick. Makes tired and weak eyes feel strong and fresh. Pampa Drug Company.

NOTICE

Notice is hereby given that the Pampa Service Station, operating since the 10th day of April, A. D. 1927 in the City of Pampa, Texas, with R. C. Blackburn as its sole owner and trader, is no longer in existence, but has been succeeded by the Pampa Service Station Inc., duly authorized to do business under corporate charter issued by the Secretary of the State of Texas and will henceforth conduct said business under that name.

Pampa Service Station, Inc., By R. C. Blackburn, President. (12-13-14-15)

SPECIAL ELECTION NOTICE

Pursuant to an order issued by T. M. Wolfe, Co. Judge notice is hereby given that a Special Election will be held on the 25th day of June, A. D. 1927, at Laketon School house in Election precinct No. 6 in Gray County, Texas, for the following purpose, viz: For further supplementing the maintenance fund from 50 cents on the one hundred dollar valuation to 100 cents on the 100 dollar valuation. T. M. Wolfe, County Judge, Gray County, Texas. 9-10-11-12

L42, and the undersigned holds a land lord's lien on said property to secure his charges amounting to Sixty and no/100 (\$60.00) Dollars due for more than one hundred and twenty (120) days past as per contract between the said unknown parties and Jack Kahn, deceased, as a reasonable and customary compensation for storage of said cars on the property of the Estate of Jack Kahn, deceased;

Whereas, the said unknown parties have been duly notified by publication as required by law, to come forward and pay such charges but have failed and refused to do so: Therefore, notice is hereby given that after the expiration of 20 days from this date, to-wit, on the 5th day of July, A. D. 1927, the same being the first Tuesday in July, between the hours of 10:00 A. M. and 4:00 P. M. Pampa, Texas, on Lot No. 7 of the Ten Acre Addition to the City of Pampa, the place, owing to the nature of said property, is the most convenient to exhibit same to purchasers at said sale, I shall sell said property at public sale, following the manner of sale under execution, and apply the proceeds to the payment of such charges, any balance to be turned over to the person entitled to the same.

Witness my hand this 14th day of June, A. D. 1927.

FRANK KAHN, Administrator of the Estate of Jack Kahn, deceased. (12-13)

TAXES NOT TO BE RAISED BY BOND VOTING

Pampa Is Unusually Fortunate Regarding Improvements

VOTE WILL BE HELD JULY 19

Water and Sewer Lines To Serve Whole Of City

(EDITOR'S NOTE: This is the first of a series of articles to appear in the Daily News relative to the approaching city bond election, and is intended as a matter of public information.)

Property owners in Pampa are to have the rather unusual opportunity of authorizing an expenditure of \$230,000 for public improvements without, at the same time, making it incumbent upon city officials to raise the tax rate.

The bond election called for July 19 totals \$355,000, but the voters should understand that \$125,000 of this has already been spent in the form of warrants, and the bonds to this amount will simply refund the warrants into longtime, or 30-year bonds, payable serially.

The \$230,000 actually to be expended is for much needed water and sewer extensions, and related work. How may this be spent without raising taxes?

Low Rate An Asset.

The answer is in Pampa's growth in valuations. The actual untested valuations at this time are \$4,085,000, and some property—as the warehouses—is yet to be added. At the present tax rate of \$1.50—a rate unusually low for a growing city—ample funds are available for the contemplated improvements, with some to spare. Indeed, to refund the warrants, vote the sewer and water extensions, retire the old bond issue of \$80,000, and provide for the sinking funds will merely require \$1 of the \$1.50 rate. Or, in other words, the \$40,850 income yearly on the \$1 will retire all old and contemplated indebtedness, leaving 50 cents for the rate of income in the general fund.

This arrangement will leave the general fund in an excellent condition, and, taken with the water receipts, will give the city council ample monies for operating expenses, paving and similar activities. Where will the \$230,000 be spent, and for what?

For All The City.

City Engineer A. H. Doucette is authority for the statement that the water extensions will go to every part of the city which is reasonably well settled. Main lines will not be less than six inches in diameter, and supply lines tangent to the big lines will be two inches or greater in size.

The lines have been drawn on the plans to connect easily in every part

of the city; they run as far west as Faulkner street in the Broadmoor addition on the Berger road and as far east as Rusk street in the Chaning addition, and virtually to the limits north and south.

The fire lines will give protection on the south side to within two blocks of the south city limits, with 16 new fire plugs. The north side will have about the same number of new plugs. Together with private lines, this system will reach every sector which justifies the expenditure, and can readily be extended as the city grows.

Sewer Lines Large.

The sewer system is designed to care for every present and future part of the city, from the standpoint of elevation. On both sides of the city the big lines will follow low draws so that the additions lying on hillsides may connect.

The present disposal plant on the north side will be extended northeastward approximately one and one-half miles, and a big 15-inch line will be carried to it from the north side. The present sewer system will tie into this new line near the outfall, and in the event that the present line becomes overloaded, they may be tapped and cut into the new pipe further west, greatly increasing the capacity.

Many Lateral Extensions.

The big lines will be made large enough to accommodate the demands of a city of 20,000 or more. Furthermore, lateral lines will be made into every part of the city where there are enough houses to justify that work at this time. There will be 10 such extensions on the south side and 12 on the north portion.

These improvements have been decided upon and the city engineer is working on the plans and specifications to be used by the bidders for the contracts. In talking the bond election, the city council has allowed some flexibility, so that the construction may follow the best engineering lines as it proceeds.

SERVICE NOW THREE TIMES EVERY WEEK

Reid and Crawford Worked Long For Change

DAILY NEWS TO COVER ROUTE

Congressman Jones Made Request of Postal Department

The Pampa-to-Mobeetie mail route, now tri-weekly, will soon be operated six days a week, giving it the daily classification, it was announced this week by Postmaster Crawford and F. P. Reid, who have been working on the matter.

Mayor Reid began efforts to obtain the daily delivery five years ago, and was happy to learn that it had been granted by the postal authorities.

Marvin Jones, Congressman from this district, offered valuable assistance. The grant was further hastened by the publication of the Pampa Daily News, which goes daily into the rural communities.

People of Pampa, Mobeetie, and those living along the route have long been anxious for the daily service, and the oil development has greatly increased that demand.

Pampa will have four daily routes when the Mobeetie service is increased. The others are the one to Clarendon, the LeFors route, and a rural route on the Miami road.

GOOD WILL TOUR
WORTHY OF TITLE

To judge by reports of the trip, the All-Texas Good Will tour is being well managed by real Texas boosters and is little short of a sensation.

The results of such an effort are not to be measured in terms of immediate results, but the general publicity and good will created will be quietly at work in the minds of people along the route for many years. It will mean many a good word for Texas, and the indirect results will pay for the trip many times.

It is interesting, and somewhat amusing, to read of the attitude of Detroit on the one hand and of the trippers on the other. With Kansas City giving a big free banquet, free rides over the city, and offering an airplane reception for the party, Detroit's Chamber of Commerce got everlasting ill will for that city in sending a telegram asking how many Texans wished banquet plates at a dollar each and auto rides at the same price.

Quite appropriately, Detroit was scratched from the itinerary, and the delegates must have done so quite vigorously. Although Detroit merely failed to catch the spirit of the thing and followed a logical course, things are just not done that way west of Chicago and the Texans will spend two days in the Illinois metropolis, instead of one.

You have to treat a tripper with gloves, a glad smile, and plenty of ballyhoo. But Detroit sent a telegram.

COMMON SENSE IS
APPLIED TO RANCH

C. C. French, well known industrial agent for the Fort Worth Stockyards company, recently in an interview pointed out the advantages of cooperative marketing of livestock.

He called attention to an Eastland county community which organized to cut out middle men's profits and to learn more about livestock marketing.

Carload lots of animals were made up, and a member of the organization personally accompanied the stock. After seeing the animals sold in the best manner, the representative studied the market and ascertained the demands of the period.

This is said to be the only organization of the kind in Texas. As Col. French says, "Such a body in every community would mean a great deal to the farmers, as well as to the livestock industry. The industry cannot thrive unless the farmer and rancher thrive with it—and cooperative marketing has certainly proved a success in this Eastland county community."

You First, My Dear Gaston

FOR WEST TEXAS—
A MILLION PEOPLE

"West Texas needs a million more people, and can have them in a short time if the proper publicity is given to the Plains country."

The speaker was W. S. Dickey, Kansas City publisher and tile manufacturer, who addressed the All-Texas delegation. He declared himself as being much interested in the oil and gas development of this section, and said he intends soon to make a tour of inspection of the South Plains from the standpoint of irrigation.

Mr. Dickey's remarks are of much interest. In the first place they show that the people of the Middle West are thinking about West Texas as a land of opportunity. It must have given West Texans on the trip much satisfaction to have their section discussed in the presence of the delegates from other corners of the Lone Star state.

Publicity of the right kind is the need of West Texas, according to the Kansas City man. The All-Texas special is bringing a type of the right kind of publicity. The oil journals are full of fine articles. Agricultural organs are stressing the West Texas possibilities. Thinking about a section becomes habitual, just as California years ago became almost synonymous with a good vacation. West Texas is becoming well known throughout the country and will attract people and capital in a way that few people now can visualize.

But while booms are being predicted, these are not as desirable as gradual, all-round agricultural and industrial development. West Texas needs more people to provide closer markets and increased home production, but the section does not need and cannot absorb a deluge of people. Business, to be prosperous, must have a definite ratio between stocks and sales, and a bigger population is now needed, in many places, to provide profitable turn-overs.

Mr. Dickey predicts a mil-

lion people to be added. They will come, no doubt, and West Texas should welcome them. The live towns and cities will get the cream of the people, industries, and capital—a fact which should make every community organize to make the most of its opportunities.

Paint your own picture of the future West Texas, and place the sun of opportunity in the east.

PRESS FORUM

Automobile clubs are getting after the "road hog." The secretary of one of the biggest clubs in the country pronounces him a serious menace to traffic, whether on city street or country highway. He asks the police authorities to wage war against the "selfish 10-miles-an-hour driver who refuses to give the other motorist a chance on the road," just as war is waged against the motorist who drives at excessive speed.

Every normal driver knows the harm done by the stubborn fellow who insists on getting over on the left, out in the middle of the road, and then poking along at less than the normal traffic speed, refusing to budge from his place in spite of honking horn and blarounds and ugly looks.

The place for such drivers, of course, is on the right over against the curb, wherever the road is wide enough for two lines of traffic in each direction. If they prefer to drive in the middle of the road, for any reason, when going slowly, they should at least move over to let by them, drivers who are in more of a hurry. The traffic laws almost everywhere provide that a driver must do this, when requested by a signal from a car behind, but the rule is seldom enforced.

It is not merely a matter of courtesy, but a matter of keeping traffic moving, and a matter of safety. Any highway will accommodate twice as many cars if none of them block it by hogging the road.

And about half the accidents in city and country, are caused by the drivers who persist in getting in the way and refuse to yield to others.

PLANT COTTON IN MUD

Farmers in the Louisiana flood area dropped cotton seed into the mud as fast as the water receded. The practice has been profitable in past Southern Louisiana, authorities say, likely will be without a cash crop since sugar cane is left for the year. Corn may be planted as late as July 15. It is not too late to plant cowpeas, soy beans and other hay crops.

TWINKLES

Pampa is fortunate; her only water controversy is with the weather man.

Furthermore, if the Black Hills haven't a chamber of commerce, how can fellows like Homer D. Wade stay away from there?

Far from being "in the red" in any sense, the Panhandle is still "in the white" spot of prosperity on the nation's economic maps.

An actor signed a contract good until "sue became sophisticated." Yet it looks like most of them are paid to look that way.

Hadn't the Chinese better take lessons in giving safe and sane receptions before we fly to Hongkong?

KANSAS TOWN CALLS
HALT ON OIL WELLS

OXFORD, Kans., June 23. (AP)—Because it appeared probable this town might have to move to make way for oil rigs, the city council has passed an ordinance limiting drilling to one well in each city block. All property owners in the block shall receive a pro-rated royalty in the event of production, according to their holdings in square feet. Soon after oil was found here a feverish boom developed in town-lot oil leases, and virtually every square inch of the city, except the streets and other public property, was placed under lease. The opera house was torn down and an oil well started in the former basement.

When plans developed to tear down other buildings and to sink numerous wells in front yards, the city stepped in and called a halt.

Oilers Surprise
Claude, Winning
By Score of 7-2

The Pampa Oilers took the fast Claude nine into camp Sunday on the home lot and handed them a 7 to 2 trimming. It was a better local club than the one that lost in the small town three weeks ago.

Voss for the Oilers pitched nice ball, allowing only 8 well scattered hits, while his teammates garnered 14 bingles off Pegram, who was such a puzzle to them in Claude.

When it came to hitting, Ray had the honors undivided, getting four safe bingles, one a double on four trips to bat. Sherrod and Hearndon had their usual good day at bat. Thompson and McNamara played well in the field.

Pegram still had some of the boys swinging at his "hop ball", getting 11 strikeouts to Voss' five. Christian and Rutherford were the most valuable men on the Claude line-up. They came here expecting a neasy time, but the Oilers sprung a surprise.

The Oilers will play the Berger Oilers Thursday afternoon at the home park. Berger oil companies have a fast team and will provide stiff opposition for the locals.

Batteries: Claude, Pegram and Collins; Pampa Oilers, Voss and Sherrod. Time of game 1:23.

Barcus Leaves For
Executives' Meeting

Scott Barcus, secretary of the Chamber of Commerce, left this week to attend the Texas commercial executives' association meeting in Sherman.

There will be no meeting of the Chamber of Commerce this week, Mr. Barcus said, unless a special meeting will be called to discuss the baseball situation. Several members of the organization are in favor of getting behind the club, to have a winning ball team in Pampa and to get ready for the Amarillo tournament.

OFFICERS TO ENFORCE
CAR LICENSE LAWS

Officers will immediately commence enforcing the law in regard to one license plate on cars and also missing car lights. All vehicles must have two front lights and a rear light. A warning will be given to offending drivers, and then a fine will be imposed.

CROP BELIEVED GREATER THAN FIRST THOUGHT

Local Elevators Have Received 25,000 Bushels

CUTTING EARLIER THAN USUAL

Pampa District To Produce About Million Bushels, Belief

Wheat cutting started generally through Gray county late this week, but some was cut and brought to the elevator last week, said to be the earliest in the history of Gray county, and probably in the Panhandle.

While far from cheerful, the wheat outlook is not as bad as expected. The recent rain and cool spell was a blessing to farmers, although coming at this late time. It is noticeable that the heads have filled considerably in the past few days.

Up to this time the grain elevators in Pampa have received approximately 25,000 bushels of wheat, and reports are that the average production is 15 bushels to the acre. This is much more than formerly estimated. The stock is short and the heads light but thick. Last year the production in the Pampa district was 1,750,000 bushels, compared with estimate of 1,000,000 bushels this year.

Five Elevators Here.

The Pampa elevators have a storage capacity of about 60,000 bushels, and were taxed to their capacity last year. There are five elevators in the city and several at Kingsmill.

Shipping facilities will be better this year than ever before on account of the Santa Fe double line of track from Canyon to Pampa, which is nearing completion. The line should be completed by the time the peak of shipping is reached. Then last year the oil situation was such that building material had preference over wheat and also there was a bumper crop. Trucks play an important part in the cutting and drawing of the wheat. They can draw larger quantities and at a greater speed than the old horse drawn wagons.

Little Acreage Drop.

Wheat acreage has shown very little decrease in the Pampa area during the past few years. Oil has been found in several of the wheat sections and it is figured that about two per cent of the wheat lands of drilling and tank farms. An estimate (there are no actual figures) shows that approximately 35 per cent of agricultural land in the county is being used for oil county is producing wheat.

Panhandle wheat tests high, being from 55 to 65 dry. The wheat now being delivered to the elevators is ranging around 60. Chemical analysis reveal that Panhandle wheat contained 17 per cent protein in 1925 but dropped to 11 per cent last year. The 1927 percentage is estimated to be 14. The grade of wheat grown in the Panhandle is at a premium with many millers and in great demand throughout the country. Pampa wheat took first prize at the State fair in Dallas in 1925.

Most Wheat Is Hard.

Most of the wheat raised in the Panhandle is of the Turkey Red and the Kanred varieties. It is a hard, red winter wheat and is especially fine for making bread, being heavy with the necessary starch and proteins. Very little spring wheat is grown in the Panhandle. That grown is of the Durham variety.

The price of wheat at the present time is \$1.25 per bushels but a small increase was reported today. If the Pampa section produces 1,000,000 bushels of wheat this season it will mean a revenue of \$1,250,000. Then, the price of wheat is apt to advance when it is taken into consideration that several thousand acres of land capable of producing wheat has been inundated by the recent floods throughout Oklahoma, Kansas, Louisiana and Missouri. Thus, Pampa will profit from other states' failures.

Soil Very Fertile.

The soil around Pampa is of a blackish, deep, fertile quality, and extremely suitable for the production of wheat. The shipments of wheat from Pampa since 1908 were in bushels as follows: 1908, 60,000; 1909, 120,000; 1910, 81,000; 1911, 204,000; 1912, 450,000; 1913, 200,000; 1914, 750,000; 1915, 1,250,000; 1916, 700,000; 1917, 500,000; 1918, 400,000; 1919, 2,225,000; 1920, 1,200,000; 1921, 1,000,000; 1922, 350,000; 1923, 850,000; 1924, 1,250,000; 1925, 700,000; 1926, 1,750,000.

New Stars In Tennis Firmament

1922, 350,000; 1923, 850,000; 1924, 1,250,000; 1925, 700,000; 1926, 1,750,000.

Combines are a great asset to the farmer today. His wheat is cut and threshed at the same time and trucks take it to the elevators as fast as it is threshed. In ancient times the cradle was used. Then came the binder, which necessitated a long delay between the cutting and the threshing, and also several men were employed; whereas now a minimum number does the work. After the binder came the header, but the delay was there also. The combine has become the universal machine on the farm.

Many Combines Sold. Dealers in combines in the city report the sales numerous this year, over 15 being sold by local dealers. The wheat situation in the Pampa area is much brighter than is predicted. W. A. Taylor and sons have about 2,000 acres of wheat that will average nearly 20 bushels to the acre, and Charlie Thomas has an excellent crop in the same district.

New Fire Truck Supplies City With Water for Day

Pampa's new fire truck, replacing a booster pump while new waterworks machinery was being installed, gave the city ample water and put several feet in the storage tank besides.

Pumping steadily through two hose, with only short intervals out while workmen went to their meals, the big engine gave a fine exhibition and kept the local water users from noting the absence of the usual booster pump.

Grandma Rogers Celebrates Her 85th Birthday In McLean

Mrs. M. A. (Grandma) Rogers celebrated her 85th birthday Sunday at the home of her son, W. P. Rogers, of McLean. Mrs. Rogers is one of the early pioneers of Texas and Gray county and the mother of C. G. Rogers who has a cafe here.

There were present at the reunion four sons, one daughter, six grand-children and one great-grandchild. There are still living 100 children and grandchildren, nine children, 42 grandchildren, 44 great-grandchildren and four great-great-grandchildren.

Mrs. Rogers is in good health at the present time, and enjoys relating early happenings in the Panhandle.

Local Negro Shot Sunday

Jess Fowler, local negro, was held on \$300 bond today following a preliminary hearing on a charge of assault with intent to murder.

He is alleged to have shot Ross Johnson Sunday morning. The wounded man was shot in the groin. Fowler, who surrendered to officers, charged Johnson had been involved in his family affairs.

WIMBLEDON, Eng. (AP)—Of the new women stars who have flashed across the tennis firmament since the beginning of this season, experts are predicting the brightest futures for Frauleine Cecilia Aussem of Germany and Miss Bobby Heine of South Africa.

Frauline Aussem emerged from obscurity by eclipsing the Wimbledon star, Mlle. H. Contostavlos, during The 17-year-oldetaoinSRorthe'laaRU The 17-year-old Bobby Heine eliminated the colorful Lill D'Alvarez, Wimbledon finalist of last year, in the same show.

The German girl, born at Cologne eighteen years ago, has modeled her game after Suzanne Lenglen's and is being called the "German Lenglen." She has watched the French flash from the stands at Wimbledon. Not only is her dancing footwork an exact replica of Suzanne's but her plan of campaign is similar to the French woman's. She is good at varied placements, is accurate and can work at varying speeds, to the confusion of her opponents.

Miss Heine is the product of the South African yeldt. She learned to play tennis by knocking a ball against a stable wall on her father's farm. She is blonde, shingled and tall. Until her sensational defeat of the Spanish girl Miss Heine was considered the "third string" among the women players of the South African Davis Cup team. She never played on grass courts until this season, when she won the woman's title at the Surrey championships.

Both Miss Heine and Frauline Aussem expect to take part in the Wimbledon championships.

Miss Betty Nuthall, sometimes called the "English Lenglen," will appear in the singles, in the women's doubles, partnered by Mrs. L. A. Godfree, and in the mixed doubles, partnered by H. W. Austin.

Miss Nuthall celebrated her sixteenth birthday by winning easily from Mrs. Hals, Mrs. Molla Mallory's sister, in the first round of the women's singles at Chiswick Park. The greatest triumph of her short career was her winning this year of the British hard court open championship and partnered by P. D. B. Spence the mixed double title.

Ford Plans For New Car Stolen From Ad Agency

Denial of reports about the new Ford models to be placed on the market next fall are made to the News today in a telegram from N. W. Ayer and Son of Philadelphia, advertising in counsellors of the Ford Motor company.

According to the message to the News, certain preliminary advertisements regarding the new car have been stolen from the advertising office, and erroneous impressions have been created by these articles.

Fearing that specifications may be misrepresented and misunderstood by those possessing the ads, the company is anxious to warn the public against unauthorized announcements or news stories.

According to the advertising agency, the plans for the car are not complete, and alleged specifications are untruthful.

GRAND JURY WANTS FACTS ABOUT AFFAIR

Bullet-Ridden Body Is Brought To Firm Here

NO CHARGE YET PLACED

J. A. Parker Gives Up To Officers At White Deer

While the bullet-ridden body of Charlie Blair, 53 years old, lies in the G. C. Malone undertaking parlor here, the Carson county grand jury which convened Monday investigated the circumstances which led J. A. Parker to shoot the man late Sunday afternoon in Roxana.

Parker went to White Deer soon after the shooting and surrendered to a deputy, then he refused to make further statements than that he had killed Blair. He was taken to jail at Panhandle, but no charges had been filed early this afternoon.

Blair and Mrs. Blair are said to have been sitting in a car at a Roxana filling station when Parker came up and began shooting with a pistol. Blair was struck in the arm and left lung. The latter injury caused his death before he could be given emergency treatment. He is a driller, but the details of his relatives are not yet known and the body is being held pending the outcome of the investigation.

Parker is about 26 years old, and is the owner of a machine shop in Roxana.

Roxana Man Is Perhaps Fatally Burned By Gas

Marion Chaney was probably fatally burned late Saturday in Roxana, when gas in the building in which he was working ignited and burned his entire body before it could be put out by fellow workmen. He was brought to the local hospital for treatment and is in a critical condition.

College Heads To Award Prizes For East Texas C. of C.

(By The Associated Press.) LONGVIEW, June 23.—Doctors H. F. Estill of Huntsville, E. S. Whitley of Commerce and A. W. Byrdwell of Nacogdoches, presidents of State Teachers colleges, have been named to make awards of prizes totaling \$1,200 offered by the East Texas Chamber of Commerce in its membership campaign, an announcement made here today said.

Rotary Attendance Contest In Four Cities Arranged In Meeting In Pampa

Details of an attendance contest for the Pampa, Panhandle, Canadian, and Dalhart Rotary clubs were worked out at a committee meeting of representatives Friday afternoon at the Pampa Chamber of Commerce office.

The contest will begin Monday July 4, and will continue 12 weeks through September 24. A Rotary gong will be awarded to the club making the highest attendance, and the losing club will entertain the other three clubs.

The gong will be purchased at once and will be awarded for one month to the club making the highest record for the first four weeks. It will be

awarded again for the club making the best record for the second four weeks, and the club with the best average for the 12 weeks will receive the gong permanently.

Should any of the clubs be tied for first or last places, the tie will be decided by a flip of a coin.

Regular International Rotary rules on attendance will prevail for the contest.

Those attending the meeting were: W. S. Barcus and Marion Howard, Pampa; W. J. Todd, president, and R. H. Stone, Canadian; Dave Warren, Panhandle. Dalhart did not have a representative but decided to abide by the decision of the other three clubs regarding rules.

Amarillo Man Assails Chicago Board of Trade

(By The Associated Press.)

CHICAGO, Ill., June 21.—L. Gough of Amarillo, president of the Texas Wheat Growers' association, speaking today at the American Institute of Cooperation, assailed the Chicago Board of Trade as having the grain farmer absolutely at its mercy.

"It is the height of folly to talk about farm relief and not eliminate the cause," he said. "The Chicago Board of Trade is dominant and the exchange has power absolutely to fix the price of every bushel of wheat," he added.

FIREMEN RETURN

Fire Chief Ben White, Fire Marshall John Andrews and Firemen Bonnie Rose and Lloyd Bennett returned Sunday morning from the Volunteer Firemen's convention at San Antonio, held last week. The men report having had an excellent

Thirteen Cars Are Burned As Freight Train Is Derailed

(By The Associated Press.)

MUSKOGEE, June 21.—Thirteen freight cars, two of them loaded with oil and one with gasoline, burned when a Katy freight train was derailed last night near Wells, Okla.

Deraignment, road officials said, was caused by a falling arch bar, and sparks thrown off when the bar hit the rails is believed to have ignited crude oil.

Mr. and Mrs. Ben Renshaw returned Sunday evening from a week's vacation in Hennessey, Okla.

E. W. Hardin, president of the Amarillo Hardware company, was in Pampa Monday.

Miss Crawford Gives Party

Miss Elizabeth Crawford of Amarillo, who is visiting her grandparents, Mr. and Mrs. J. S. Wynne, entertained a few of her friends Monday afternoon at the Wynne home. Indoor games of various kinds were played and punch along with ice cream and cake were served throughout the afternoon.

Those enjoying were Francis Finley, Virginia Rose, Dorothy Dodd, Theo Post, Georgia Thut, Marjorie Buckler, Mary Ellen Cook, Christine Cook, Louise Walstad, Floy Stannard, Josephine Lewis, Dorothy Doucette, and Elizabeth Crawford.

The tank shown in the accompanying picture is filled from the roof by gutters when rain is available, or from a spring by means of a ram installed to force water up to barns and the farmyard. Most of the work was done by the owner and was inexpensive.

Mrs. Finney Is Hostess To Amusu

Entertaining at her home, Mrs. Maurice Finney was hostess Tuesday afternoon from 1 until 5 o'clock with a bridge luncheon honoring members of the Amusu club and Mrs. Lester Chiles and Miss Marguerite McDonald of Ft. Smith, Ark.

Mrs. Joe M. Smith received high score among the club members.

Members and guests were Mesdames W. M. Craven, A. H. Doucette, Joe M. Smith, L. C. McMurry, W. M. Merten, W. A. Bratton, W. L. Woodward, Neal McCullough, C. T. Hunkapillar, Siler Fauquier, W. M. Lewright, Alex Schneider Jr., Charles Going, George Walstad, Lester Chiles, Maurice Finney and sister, Miss Marguerite McDonald.

Entertains At Bridge Tuesday

Mr. and Mrs. Maurice Finney had three tables of bridge Tuesday evening for their guests, Miss McDonald and Mr. and Mrs. Lester Chiles, of Ft. Smith, Ark.

After the games of bridge, in which Mrs. Chiles won high prize for the ladies and Sam Harper of Mexia won high for the men, the hostess served dainty refreshments to the following guests: Mr. and Mrs. J. D. Sugg, Mr. and Mrs. C. T. Hunkapillar, Mr. and Mrs. Neal McCullough, Mr. and Mrs. Arthur Holloway, Mr. and Mrs. Lester Chiles, Miss Marguerite McDonald and Sam Harper of Mexia.

Miss Stone Has Birthday Party

Miss Adelle Stone celebrated her 15th birthday Thursday evening when she entertained a few friends at her home with dancing and games.

A most enjoyable evening was spent and at a late hour ice cream and cake were served to Hazel Fletcher, Ruby Brown, Georgia Sanders, Mable Turner, Garnet Pool, Naomi Dennis, Avis Heiskell, James Saltzman, Donald Saulsbury, J. D. Powell, Noel Reynolds, Eugene Neal, Lloyd Lowery, Henry Reynolds and Edgar Eldridge.

Miss Davis Gives Theatre Party

Miss Margaret Davis entertained a group of friends with a theatre party on last Monday evening.

Those present were Misses Allie Gibbs, of Newcastle; Inez Dunn, Edith Pearson, Edna Bird, Louise Press, Georgia and Ruby Quest, Bonnie Davis, Helen Sullins, Margaret Davis and Mrs. W. P. Davis.

F. L. Robinson Gives Dance

F. L. Robinson, manager of the Adams hotel, gave a dance in the coffee shop of the hotel Friday evening and about 75 couples enjoyed the evening very much.

Excellent music was furnished by the Black Bottom Five orchestra.

Mrs. Morris Finney Entertains

Mrs. Morris Finney entertained the Thursday Bridge club, also honoring her sister, Miss Marguerite McDonald, and Mrs. Lester Chiles of Fort Smith, Ark., with a breakfast at the Adams coffee shop Thursday morning.

After a delicious breakfast was served tables were arranged for bridge. Mrs. J. D. Sugg won high score club prize and Mrs. Jack Gattton second high, while Mrs. Neal McCullough won high guest prize and Mrs. W. A. Adams second high guest prize. Lovely guest prizes were presented to Miss McDonald and Mrs. Chiles.

The following members and guests were: Mesdames W. A. Adams, J. D. Sugg, Walter Coffee, Jack Gattton, Raymond Harrah, P. B. Carlson, John Studer, Robert Gilchrist, Charles Going, Neal McCullough, Don Davis, Arthur Holloway, Lester Chiles, Miss Belman of Wichita Falls, and Miss McDonald.

Girls Club Formed Here

The "Girls Entertainment" club was organized Friday afternoon when several of the young girls of Pampa met at the home of Miss Francis Finley.

At the business session the following officers were elected: president, Virginia Rose; vice-president, Dorothy Doucette; secretary, Lorena Quail; treasurer, Pauline Barnard; reporter, Francis Finley.

"Foreign Countries" will be studied by the club at the meetings, which will be held every Thursday afternoon at 2:30 o'clock. The next meeting will be at the home of Pauline Barnard next with Dorothy Doucette as leader.

After the business was disposed of, a social hour was enjoyed and dainty refreshments were served.

Wright-Back Wedding Announced

Miss Faye Wright and Jack Back were united in marriage Wednesday evening at 8 o'clock in Panhandle, Rev. Johnson of the First Baptist church performing the ceremony.

Mrs. Back is the daughter of Mr. and Mrs. J. E. Wright of Pampa and has many friends here that wish her much happiness and success.

Mr. Back was formerly of McLean but has lived in Pampa for the past three years. Mr. and Mrs. Back will make their home here.

Choruses To Be Feature of Play

The choruses for the play, "Rose-time", being sponsored by the Chamber of Commerce and the Fire department, to be presented at the high school auditorium Monday and Tuesday evenings, have been chosen and practice commenced. The choruses feature snappy dances, beautiful costumes, and some of the latest song hits.

Some of Pampa's most beautiful young ladies will be presented in the Mary B. Brent.

NEW FIRE LAW

HOUSTON, June 24. (AP)—A recently enacted state law will compel Houston's fire department to change water connections on 3,750 pieces of hose, 1,500 fire plugs and on 21 pumps each with three to four outlets.

The law requires that every city in the state have fire fighting equipment of the same standard and size, which means, officials here said, that the diameter of the connections must be three and one-sixteenth inches with seven and one-half threads to the inch.

TRENCH MOUTH—SORE GUMS

Your friends dare not say so, but your sore gums and foul breath don't make folks like you better. Leo's Pyorrhoea Remedy heals worst cases promptly. It is not a mouthwash or paste, and is sold on a money-back guarantee. H. & K. Drug Co. 4-15-27

CHURCHES

Presbyterian Church
The Rev. David J. Murry of Honey Grove will preach Sunday at 11 a. m. at the Rex theatre. Sunday school will be conducted there at 10 a. m. Every Presbyterian in the community should hear Mr. Murry Sunday.

Everyone is invited to worship with us.
W. M. BAKER, Minister in charge.

First Baptist Church
Regular services for Sunday will include Sunday school at 9:45 a. m., followed by the preaching service at 11 a. m.; B. Y. P. U. services in all departments at 7:15 p. m., followed by the evening service.

The theme of the morning will be "Harvest Help Needed in Pampa," and for the evening will be "The Three Crosses."

The sermons will be preached by the Rev. Leonard Sigle, who is supplying the church in the absence of the pastor. Mr. Sigle is a young man with rich experience, and will have a message for all. He desires especially to have a good group of young people at these services.

Next week will mark the beginning of a training class in "Advanced Methods in B. Y. P. U." All desiring to take this course are to enroll for it during the B. Y. P. U. hour Sunday evening.

The Rev. D. H. Truhitte, new pastor of the church, has gone to Oilton, Okla., his former pastorate, where he did great work. Next Sunday he will enter a revival at another Oklahoma town, after which the local church will welcome him as pastor.

Leg of Driver Fractured As Team Becomes Frightened

When the team he was driving became unmanageable this week and ran away, William Edwards was thrown from the wagon fracturing his left leg.

Edwards is employed by the Morris teaming company and was returning home from delivering a load of gravel when the accident happened. He is in the new hospital.

Hog Prices Show Drop; Cattle Steady On K. C. Market

KANSAS CITY STOCK YARDS, June 23.—Hog prices were weak to 10c lower than last week's close. Trade was active at the decline so that the weakness in the market is regarded as only temporary. Lambs were off another 25 to 50c, making a break of \$1.50 to \$2.00 in the past 10 days. In that period sheep have declined 50c. Though there were a few weak spots the general cattle market was steady at last week's 25 to 50c advance. Choice steers sold up to \$13.25.

Receipts Monday were 10,000 cattle, 6,000 hogs, 8,000 sheep, compared with 9,000 cattle, 8,000 hogs and 9,000 sheep a week ago, and 11,900 cattle, 10,450 hogs and 8,525 sheep a year ago.

Good to choice steers were fully steady with last week's advance. Medium and heavy weight steers that showed finish brought \$13 to \$13.25. Some light weight steers brought \$11 to \$12. Yearling steers and short fed grades were quoted a shade lower. Yearling offerings did not carry the finish shown last week and on that account killers were inclined to trade slowly. Texas grass fat steers brought \$7 to \$8.75 and Texas cake fed steers \$9.25 to \$10.50. Some California grass fat steers brought \$9.75 to \$10.15. Cows were quoted steady to weak. Fed grades were fully steady, but the snappy kinds were lower. Killers were inclined to bear down on the half fat heifers, but bought good fed kinds readily. Veal calves were fully steady with best bringing \$11 to \$12.

Prices for the better grades of stockers and feeders were fully steady but the plain kinds, especially those that showed much grass were lower. Receipts were moderate.

Hog prices were weak to 10c lower than last week's close, the average decline being about 5c. The general market is 25 to 40c above the low point 10 days ago. Last week the market fluctuated within a 10 to 15c range and now shows indications of remaining fairly settled for a period. Today 140 to 240 pound hogs sold at \$8.75 to \$8.95; 240 to 325 pounds \$8.55 to \$8.85; packing sows \$7.60 to \$8.15; stags \$7.25 to \$8; stock hogs and pigs \$8.50 to \$9.25.

Lambs were 25 to 50c lower today and \$1.50 to \$2.00 lower than 10 days ago. This decline is regarded as the regular mid-summer break. Today lambs brought \$14.50 to \$15.35; yearlings \$10.50 to \$11.50; ewes \$5 to \$5.75 and wethers \$7.25 to \$8., native and southern lambs have begun to move.

There is practically no volume to the trade in horses and mules and dullness will prevail until early August.

TOURISTS' GOAT

SOUTH SAN FRANCISCO, Cal. June 21. (AP)—If it is still possible to list anything new in the variegated collections that automobile tourists carry on their running boards, the lowly goat is a candidate for the honor.

Many automobiles, vacation bound, have been seen this season with odorous, four-footed milk supplies strapped on with other equipment. Some have carried two.

LILACS 231 YEARS OLD

STRATFORD, Conn., June 21. (AP)—A long lilac hedge which may well have been the mother of most of the lilacs of this country, was cut down here recently by a newcomer who saw possibilities of profit in a corner lot. Every spring it was a place of bloom and fragrance. Shoots had been carried away from it for more than 100 years.

Research in town history showed that the hedge was planted in 1696 by the Rev. Samuel Johnson, who brought the shoots from his native town of Guilford, Conn. In the 231 years of its existence the hedge had attained a height of more than nine feet, despite the yearly cuttings.

RAINY DAY "DEADHEAD"

GETTYSBURG, Pa., June 21. (AP)—Maurice McCullough, rural mail carrier from Gettysburg, carries and delivers every rainy day one of the heaviest parcels in the postal service, and Uncle Sam collects not a cent postage for it. McCullough's "rainy day deadhead" is a big sack of gravel to spread over the smooth surface of a large flat rock in the road. Before he began carrying gravel on rain days McCullough had to call on men of the neighborhood to push his mail truck across the rock.

A New Style in Necklaces, Girls

Simply braid the hair and wind it around the neck, girls, fastening it in the back with hairpins and setting it off with a decorative pin in front. That's Dolores Del Rio's new style hint. The Mexican film beauty's fad has become popular in Hollywood, even though the weather's warm.

Derby Winner Dance London's Big Event

LONDON — One social event stands out in every London season, unchallenged and supreme, as the most splendid and exclusive.

It is the annual dinner dance, given at Derby house in Portland Place after the great sporting event of the year, the Derby race at Epsom Downs. This function is always attended by Queen Mary.

Invitations are highly prized. Social position is the criterion by which they are issued.

The hostess, Lady Derby, has a remarkable knowledge of horse racing. She rarely fails to attend all important English race meetings.

Other leaders of society invariably present are the Duchess of Portland and Lady Patricia Ramsay. The latter is one of the best hostesses in England and gives numerous parties at her country seat, Welbeck Abbey.

There is a story that the Duke of Portland first saw his wife from a railway carriage window. She was standing on another platform, looking so beautiful that the duke vowed then and there that he would marry no other woman. And, as in a fairy tale, he found out who she was, married her and has lived happily ever afterwards.

Lady Patricia Ramsay, the daughter of the Duke of Connaught, is the wife of Captain Alex Ramsay, who is in the British Navy. Like most members of the British royal family, she is fond of dancing, and also is a skater of exceptional skill.

BRYCE IN ICELANDIC

NEW YORK (AP)—Icelanders have had to wait 55 years to hear what a visitor thought of their country, but this summer they are able to read that Lord Bryce, who visited Iceland in 1872, was impressed with the generally high level of their education.

A resume of his biography "James Bryce (Viscount Bryce Dechmont, O. M.)" by H. A. L. Fisher is to be published in Icelandic not that the English edition has been published. The noted Englishman describes their houses as mere sod huts, for the most part unventilated and destitute of comforts, but he found few of them without a library.

The corn earworm is one of the most destructive insect enemies of corn in the United States. The pest occurs throughout the entire country wherever corn is grown. Green sweet corn suffers the greatest damage, but it has been estimated that 2 per cent of field corn is annually destroyed by the earworm. In the South the damage is much heavier. In Virginia the time of planting, or rather the time of silking, has been found to be the most important factor affecting earworm damage. Where the crop of field corn can be brought into silk at the period when the moths are least abundant, the infestation and damage are greatly reduced. Serious injury from the pest is not so likely to occur if the husk is long and closes tightly around the silks.

Artists Seek Color In Chinese Sailboat

(By The Associated Press.)

DEAD MAN'S POINT, N. C.—An American woman artist is "admiral" of a Chinese junk which has come to anchor in the Atlantic near here. The ship is the "Amoy," named after the "City of the Open Moon" where it was built. The "admiral" is Mrs. Alfred Nilson of Sheepshead, N. Y. Her husband, Captain Alfred Nilson, its pilot, is well known as a writer.

Captain and Mrs. Nilson write and paint while they sail from port to port. Their objectives are the quaint water villages on the seaboard and romantic local color for their work. The junk has two masts and a mizzen, with great, crimson, square-rigged sails. A crew of two completes the party.

The "Amoy" has a romantic history. Douglas Fairbanks and Mary Pickford are said to have spent part of their honeymoon aboard. Captain George Ward, its original owner, was also a writer, who chose this boat for his world wanderings. He sailed across the Pacific ocean in 87 days, although his craft was only 68 feet long, with a waterline of only 32 feet and a beam of 19 feet. It draws three feet, seven inches of water.

DOUMERGUE ALWAYS IS "VERY TOUCHED"

PARIS (AP)—"Very touched" is President Doumergue's equivalent for "T. R.'s" "Delighted!"

Every time any visiting sovereign statesman or delegation pays a tribute to his nation or himself, the French president counters with that phrase. Sometimes he declares himself "infinitely touched" by the compliment, sometimes only "very," and again "profoundly" when the occasion warrants it. But always there is that word "touched"—"tou-ou-che" as M. Doumergue pronounces it with his inimitable lingering, caressing Southern accent.

SUZANNE LENGLEN COLLECTS STAMPS

PARIS (AP)—Suzanne Lenglen, once the undefeated woman tennis champion of the world, now at Nice, has turned to collecting stamps.

In company with her American manager, Suzanne is now a daily visitor to the principal stamp marts of the Riviera. She collects stamps as she plays tennis—not concentrating on any one spot but generally keeping her opponent guessing. She is just as likely to buy a Monaco stamp because she likes the colors as she is to buy an old Russian stamp because it is rare.

LONDON, June 23. (AP)—King George has shown a liking for fried egg plant, which is seemingly shared by others of the Royal family. Noticing an egg plant while visiting the Chelsea Flower Show with the Queen the other day, the king remarked:

"Ah, an egg plant! They are very good. Cut them up in thin slices and fry them. We always have them."

SERVES WIDE PAMPA AREA

Director Has "Eyes" On All Rooms At Same Time

A trip through Pampa hospital will convince a visitor that the institution, with the exception of much needed equipment, is well conceived and beautifully constructed, and is ready to serve a wide territory.

The big building will be formally opened Sunday, when all local people are invited to inspect it.

With more than \$40,000 received and paid out, the treasury is empty and \$25,000 must be raised at once to pay outstanding accounts and buy the necessary hospital equipment. The local depot holds \$1,600 in bed and kitchen equipment which not been paid out, and a vitally necessary furniture order amounting to \$6,000 has been held up at the factory.

No Promotion Expense.

More than a score of stockholders have taken out stock sold, and all of this amount has been raised without any per cent going to any individual. Every cent subscribed has gone into the building, the records show. The institution is a contribution to Pampa and the region surrounding the city. It is open to all people and all physicians on the same basis, whether they are stockholders or even local citizens.

Up to last night 34 cases had been received and the equipment, mostly borrowed from a dozen local sources, is barely adequate to care for the present demand. Should the hospital be fully equipped, indications are that it would be full within a few weeks, although the capacity is 60 persons.

Source of Business.

Patients are coming from Moebette, Miami, Allanreed, Borger, Roxana and other points within a wide radius of Pampa. Amarillo offers the only other hospital facilities in the Panhandle oil field, and Pampa hospital is being favored by nearly all of the major oil companies, who send not only their employees, but the families of their men.

The hospital very pleasing from every angle, and when the lawn is developed the property will be a scenic part of the city. It was built by the Chas. H. Sharpe construction company of Pampa.

From the first floor to the third the building has been carefully planned from the standpoint of hospital convenience by W. L. McAtee and company of Pampa. On the first floor is the steam heating plant, with its thermostat control which keeps the entire building at an even temperature. There are a number of large patient rooms which are identical to those above, except that some plumbing appears, and they are cheaper than the regular rooms but higher than the wards.

Many Conveniences.

This floor also has the x-ray and developing rooms, the laboratory, nurses dining room, kitchen, linen closets and many large storage closets.

The kitchen contains a very large Frigidaire, patients' tray rack, hot table, gas incinerator, large pantry, dumb waiter and large gas stove. Service is individual, each tray being marked with name and diet and sent above in the dumb waiter.

The second floor contains the secretary's and superintendent's offices, sewing room, reception room and main communication system. Over the main desk is a flash system keyed to every bed and every room. When a patient rings for a nurse, both the main office and the nurses see the call, and the office indicator shows when the nurse answers. Telephones and speaking tubes give instant communication to every part of the building, and the flash system gives the maximum information in the least time possible. This system lacks only installation of the instruments, as the wiring is complete.

Ready for Emergencies.

The top floor, easily accessible by the elevator, contains the operating rooms. An emergency room for minor cases is directly opposite the elevator. The main operating room

GROUNDHOGS INCREASE; FARMERS TOLD HOW TO CHECK DAMAGE

Top—Mooreville, Ind., farmers fighting groundhogs with calcium cyanide. Lower Left—Groundhog in field at Fish Creek, Wis.; Right—Peeping out of rock den near Brewster, Wash.

City folks may call him a "marmot," but to the farmer he is just a "pesky groundhog."

He is a vegetarian and a nuisance. If he gets in a good day's work he can kill a fruit tree, break a horse's leg or wreck a dam.

His taste runs to fresh, young bark, soybeans, clover and grains. For occupation he digs holes in farmers' fields, and in banks and levees. Many a domestic animal has broken a leg by stepping into a groundhog hole.

The destructive rodent passes the winter in an underground den. He does not store food, so fares forth with an enormous appetite in spring. He does not forecast temperature on "groundhog day".

Despite the efforts to rid the earth of his race, the groundhog is increasing in numbers, says the United States Biological Survey. Science has found that his worst enemy is a tablespoonful of calcium cyanide reached a arm's length into his den and deposited in a pile.

When the entrance to the den is closed with a square piece of sod and a few shovels of dirt to prevent the escape of the deadly hydrocyanic acid gas, Mr. G. Hog's chances are slim. The gas is caused by atmosphere coming in contact with the calcium cyanide.

Biologists suggest that control methods be undertaken before the young, three to seven in number, leave the den. Calcium cyanide may still be used effectively in June and July.

is adjoining, separated by a wash room for the physicians. The lavatory is operated by foot control. The operating room has many windows and a skylight gives practically outdoor illumination.

Well Ventilated.

Added conveniences include chutes to the incinerator and linen closet and a mechanically operated ventilation system for each room. Cream and white walls, with carefully selected lights, give great illumination. The light switches are arranged to give dim or bright as desired.

Patients entering the hospital are entered upon permanent records, and the office knows at all times the conditions of the persons in the hospital's care. Simple but adequate records of the patients by hours are kept.

Special Records.

Special forms must be used in the large number of oil company cases, where indemnity often is involved.

Mrs. Beverley Barker and her large staff of trained nurses are ready to care for capacity business as soon as the hospital stockholders provide the necessary equipment.

ing in numbers, says the United States Biological Survey. Science has found that his worst enemy is a tablespoonful of calcium cyanide reached a arm's length into his den and deposited in a pile.

Biologists suggest that control methods be undertaken before the young, three to seven in number, leave the den. Calcium cyanide may still be used effectively in June and July.

Rabbit Meat Staples On California Menu

LOS ANGELES, Calif. (AP)—Slaughterhouses are operated in the Los Angeles district where from 25,000 to 50,000 domestic rabbits are killed, dressed and marketed each month. Still the demand keeps ahead of the supply.

More than \$1,000,000 worth of dressed rabbit was marketed in the city of Los Angeles in 1926. The meat is served at hotels and restaurants along with pork and beef.

The business is so profitable that some southern California breeders keep from 1,000 to 5,000 rabbits.

An attempt to meet the crisis will be made Friday evening at a meeting of the stockholders and others whom those interested in the institution hope to have present.

NOTICE!

Pound Sale—Notice is hereby given that the following described property will be sold to satisfy pound charges, at public sale in front of the city fire station, on Saturday, July 2, 1927, at 2 o'clock in the afternoon. Said property is described as follows: One bay saddle horse about seven years old, branded figure "3" on the left hind leg. Also a big scar on the front part of left hind leg. Let every person concerned take due notice hereof. (91-12-13)

HOSPITAL—

es, the hospital has had 31 patients, 15 of whom had operations. There are now 11 cases in the institution. The hospital is open to all patients and all accredited physicians. The manager, Mrs. Beverley Barker, is a nurse-executive of wide professional experience, and she is assisted by nine trained nurses.

Patients are coming from Borger, Roxana and other points in the Panhandle oil field and the oil companies favor Pampa's hospital with most of their cases—both of employees and families of employees.

GUARDS—

ployes. Once inside they must remain until the board's work is done.

Figures showing crop estimates by states are given to typists unidentified. The names of the states are added at the last moment. Estimates sent in by field men, which the board consider and debate before reaching a conclusion, go into a special mail box to which Secretary of Agriculture Jardine has the only key.

Crop reporting by the United States Department of Agriculture has almost trebled in scope since 1920. It takes 38 typewritten pages just to list the reports that are made in one year. More than 300,000 voluntary crop reporters, most of them farmers, supply information for the department with no other compensation than the knowledge they are contributing information of financial value to themselves and to other producers. From their reports approximately 50,000 separate estimates and reports are issued annually.

Ninety per cent of the farmers who replied to a questionnaire said they found the crop reports of practical value.

Plans for Big Building Considered By College Head

CANYON, June 23.—Tentative plans are being considered by President J. A. Hill of the West Texas State Teachers college for the new \$300,000 education building, for which appropriation was made in the special session of the Legislature. Work will begin upon the new structure about September 1 and the dedication of the new building is being planned for July 4, 1928.

President Hill says that he wishes the new education building to embody itself all the best ideas that have been worked out in training school construction.

The building will be the same style of architecture and built of the same material as the Administration building.

New Gas Bureau Expected To Be Very Important

BRECKENRIDGE, June 23.—The recently organized oil and gas bureau of the West Texas Chamber of Commerce, formed at Breckenridge a few days ago by representative oil men of West Texas and officials of the West Texas Chamber of Commerce, is soon to develop into one of the major activities of the regional organization sponsoring it, according to J. E. Thompson, prominent banker of this city and a member of the bureau.

Thompson was in Wichita Falls Monday to attend the initial business conference of the bureau and reports that enthusiasm dominated the session. W. B. Hamilton, Wichita Falls operator and capitalist, is chairman of the bureau.
