Every Mode of Travel Carries Rotarians to Dallas Convention

HUNDREDS ARE TRAVELING BY AIRPLANE NOW

Dallas Filled by Men From All Parts of World

2,500 DELEGATES REPORT TODAY

Special Trains Still Arriving With Members

DALLAS, May 27.—(P)—Smiling and eager for the opening of Rotary International's convention tonight, 2,500 more delegates reached here today.

Nearly 5,000 of the visitors arrived yesterday, including 56 Rotarians from the British Isles and continental Europe.

About 8,000 delegates had registered at noon. Ten special trains arrived Sunday, 18 Monday morning and two more were scheduled to pull in this afternoon.

Among the arrivals today was a special trainload of New Englanders; 100 members from the third district, Mexico, and delegates from El Dorado, Ark., Chicago, New York, Kansas City, St. Louis, St. Paul, Minn., and other cities.

More than 5,000 delegates to Rotary's twentieth international convention were here, and train after train poured more delegates into the city each hour.

A preliminary assembly of voting delegates this afternoon, and a program of welcome tonight were on the day's program.

Active business sessions and the adoption of a convention program were scheduled for tomorrow.

More than 200 delegates came by air plane, according to Frank Mulholland, former international president. Others came by bus, train, and automobile.

Greetings to America from 15,000 British and Irish Rotarians was expressed at Rotary headquarters by Arthur Chadwick of London, president of the Rotary International association of Great Britain and Ireland.

As spokesman for the British delegation he praised the United States and expressed appreciation of the welcome given in Dallas and other cities.

Registration, obtaining rooms, examination of credentials and similar preliminaries filled this morning's program. A demonstration of a Rotary school for non-voting Rotarians, and an informal reception for the women were among the afternoon activities.

Moody to Speak On the formal program of welcome tonight were Governor Dan Moody, Mayor J. Waddy Tate of Dallas, and President I. B. Sutton of Rotary International.

The Indiana club of Dallas announced an out door chicken dinner for Wednesday as special entertainment for Hoosier state Rotarians and their families.

Yesterday the vanguard went to churches here and heard Rotary ministers from out of town preach. Last night they were entertained at a sacred concert at the Fair park auditorium by Edward P. Kimball, organist of the Mormon tabernacle, Salt Lake City, and a chorus of 300 Dallas voices.

THE WEATHER VANE

WEST TEXAS: Partly cloudy to night and Tuesday, probable thunder showers except in southwest portion; cooler in the Panhandle tonight and in north portion Tuesday.

—AND A SMILE BERKELEY, Calif.—(P)—Amy, Emily and Frances are likely to be popular for girls' names shortly. Professor George R. Stewart, Jr., so deduces from a study of cycles of popularity. These names are unduly depressed in the graphs at present.

"Fort Worth" Fliers Sleep After Adding Day to Endurance Record—Are Deluged by Various Offers

Kelly's Belt Buckle Strikes Propeller, Which Eventually Warps and Forces Plane Down—Banquet Planned

ST. LOUIS, May 27.—(P)—A \$14,550 Ryan Brougham, especially equipped will be given E. L. Robbins and James Kelly, co-pilot of the "Fort Worth" endurance plane, Phil Ball, president of the Mahoney-Ryan Aircraft corporation, announced today.

FORT WORTH, May 27.—(P)—Having added almost a full day to the world's endurance flight record, R. L. Robbins and James Kelly eschewed the praise of an admiring nation and slept today while experts made a careful examination of their monoplane Fort Worth which they brought to earth yesterday after soaring almost seven and one half days.

The two pilots, one an ex-cowboy, the other a former railroad mechanic, added a new line to the illustrious record which started with the Wright's one minute flight at Kitty Hawk in 1903 when they kept the Fort Worth aloft through rain, wind, sunshine, hail and lightning for 172 hours, 32 minutes and one second, besting the record of 150 hours, 40 minutes and 15 seconds set by the army monoplane Question Mark by 21 hours, 51 minutes and 59 seconds.

The army plane had three motors, a crew of five men and an expert ground crew. Robbins had six years experience as a flyer, but Kelly came of the range only a year and a half ago, and the course in flying which he took technically ended in April, although his skill gave him a job with the Texas Air Transport corporation long before this.

Used Henley's Motor In spite of the fact that the two youthful fliers had gambled by going aloft with a motor which had run 500 hours after being discarded by Al Henley, it was as good as ever when it returned to the ground. Some of the adjustments were worn, but it could have run many more hours.

The two fliers divided credit for the success of their flight. Kelly pointed out that Robbins' ability to get the most out of the motor, without straining it was largely responsible for its performance. Robbins attributed a large share of their success to the intrepidity of Kelly who frequently crawled all around the hood of the plane to grease the valve rocker arms. The Question Mark was brought to earth by valve trouble.

It was on one of these trips to grease the valves that Kelly had an accident which eventually forced the plane down. A loose buckle on his safety belt got in the path of the propeller and dented both blades of the big wooden fan. During Saturday night's rainstorms moisture penetrated the scar on the blades and caused the propeller to swell and split.

Shortly after noon yesterday the pilots dropped a note saying the propeller was vibrating badly and they would have to descend soon. They kept the plane in the air, however, until a moment after 4:05 p. m. At that time the decided risk of the propeller flying to pieces and perhaps causing them to crash was not worth taking. Robbins swung the ship into the wind and came down as perfectly and as prosaically as any of the other hundred pilots who had made landings during the day.

The plane had scarcely touched the ground before the enthusiastic crowd sloshing through mud, was upon it. A fence, a cordon of police and a special guard around the plane willed before the rush. The special guard was crushed back against the fuselage and the committee of 100 which was to have greeted the fliers had to take its turn with the other spectators. Some semblance of order finally was obtained. Mrs. Kelly and Mrs. Robbins were carried to the plane over the heads of the crowd.

FLANE FORCED DOWN MINNEAPOLIS, May 27.—(P)—The monoplane "Miss Minnesota" piloted by Gene Shank and Owen Hargland was forced down shortly after 1 p. m., due to lack of gasoline.

Rotary Chief

I. B. SUTTON

Israel Bird or "Tom" Sutton as president of Rotary International will preside over the Dallas convention opening today. His home is at Tampico, Mexico. He is the first president to reside out of the United States or Canada. He was born in Saginaw, Mich., April 29, 1884. His vocation is the machinery supply business. He is married and has two sons and four daughters.

FARM EXPERT COMING HERE TO MAKE ADDRESS

Delos J. James, assistant manager of the agricultural service department of the Chamber of Commerce of the United States, will be here Thursday.

Mr. James will confer with the agricultural committee of the Board of City Development, which is headed by Roy McMillen, and will make a study of this territory. It is also planned that he shall make a public address.

Mr. James is recognized as an expert in farm management, dairy farming, and marketing. He formerly was an outstanding county agent in Illinois and later specialist for the department of agriculture.

Col. Green Will Arrive Wednesday From San Angelo

All plans have been completed for the opening of the enlistment campaign at the First Presbyterian church Wednesday. The campaign will last through June 9.

Col. Guy Green of Kansas City, lay worker, will arrive Wednesday morning from San Angelo, where he is doing similar work.

Meetings will begin at 8 p. m. and last one hour. On Thursday evening, the Pampa Moose lodge members will occupy a reserved section. Other organizations will be asked to take similar positions on other evenings. The entire public is invited to attend the sessions.

BORGER MAN ARRESTED

BORGER, May 27.—(P)—A man who gave the name of H. A. Bule was arrested near Borger yesterday on a murder charge in the fatal shooting of Kennedy Moore, 17, at Hominy, Okla., recently. He waived extradition. He probably will be turned over to federal officers who also seek him on another charge, United States marshal of Pawhuska, Okla., advised officers here.

Mr. and Mrs. W. T. Hayter are in Amarillo for a few days' visit.

BERT HOWELL WINS IN RIFLE SHOOT SUNDAY

Gets Score of 46 in 200-Yard Range Event

JIM WHEELER SECOND WITH 44

Boy Scouts Prepared Meal and Handled Car Parking

Bert A. Howell was the crack shot at the opening of the Pampa Rifle club's range yesterday. The former Kansas Aggie man made a 46 on the 200-yard range. Jim Wheeler was second high with a 44.

Most of the shooting yesterday was done with Ralph Arnold's Springfield Sporter. Two "issue" Springfields, two army Krags and two cut-down Krags were available. Several rifles ordered by members have not arrived but are expected here this week.

More than 300 persons visited the range yesterday. Boy Scouts from the Christian church served a hot meal at noon to those who started to shoot at 11 o'clock. The boys camped on the range Saturday night. They were in charge of Paul Hill and George Wilf.

A tricky wind blew across the range about 50 yards from the target and some best shots were missing repeatedly.

Rapid fire on the 500-yard range will be later this week.

A special feature of the afternoon was a trap shoot introduced by William Deavers of Amarillo, representative of the Western Cartridge company. Dr. A. Cole was high score man. He knocked down thirteen successive birds to make a final score of 21 out of 25. A. H. Doucette was second with a score of 19 out of 25. Ben Wagner and M. A. Finney split third place with a 18 score.

A gun club will be organized at a meeting of enthusiasts of the Chamber of Commerce rooms Wednesday night at 8 o'clock. All interested in trap shooting are urged to attend.

Boy Scouts of troop No. 2, Christian church, who prepared the luncheon served at the rifle field yesterday and who were in charge of car parking were: Norvell Stevens, patrol leader, Vernell Stevens, Robert Woodward, Roy Eldridge, Glen Eldridge, Elmo Edwards, Elmer Irving, and Billy Hawkins.

Accompanied by the scoutmaster, Paul Hill, and George Wolfe, president of the scouting club, the boys left here Saturday afternoon and camped on the range. They returned yesterday afternoon.

Texas Company's Well Drilled in

The Texas company's No. 1 Purviance-Patton in the northwest corner of the east one-half of the west half of section 61, block B-2, hit the pay this morning about 10 o'clock and the first hour flowed 6 barrels, reports received here said. The total depth could not be learned.

The Sun Oil company's No. 1 Purviance-Patton in the northeast corner of the west one half of the west half of the same section encountered the pay at 2,900 feet and is flowing 500 barrels a day.

The Sun well is a south offset to the Wilcox Oil and Gas company's No. 5 Coombs-Worley in section 60, block 3, making 400 barrels a day. The Texas well is a south offset to the Wilcox Oil and Gas company's No. 6 Coombs-Worley in section 60, block 3. The Wilcox test is spraying about 35 barrels.

A. J. Weiser of Panhandle visited in Pampa yesterday.

Small Land Bill Upheld and Sent to Appeals Court

AUSTIN, May 27.—(P)—Constitutionality of the Small stream bed land title bill was upheld today by District George Calhoun in sustaining general demurrers of C. W. Bradford and 600 others to the state's suit for recovery of title to 75 miles of the bed of the North Fork of the Red river in Gray and Wheeler counties, 60 miles of which is oil bearing.

This ruling sent the Small land law to the appellate courts for a final decision.

Judge Calhoun said the rule was for a trial court to hold a law constitutional, unless it were clearly shown to be unconstitutional. C. W. Trueheart, assistant attorney-general representing the state in its recovery suit, assented.

All principal oil producing companies of the state and several hundred land owners are involved in the litigation.

DENVER RAILROAD OFFICIALS HERE TWO DAYS STUDYING NEW PAMPA-CHILDRESS ROAD PLANS

L. W. Hogsett, general freight agent of the Fort Worth and Denver, and M. B. Oates, agricultural agent of the same line, were here Saturday and yesterday conferring with officials of the Pampa Board of City Development regarding that company's proposed line from Childress to Pampa.

The officials stated that it would be necessary to have data on tonnage, both incoming and outgoing, south of George W. Briggs has asked local merchants to supply him with that data. The information will result in benefit to local merchants and Mr. Briggs is appealing to them to assemble the necessary information.

The new line would save 59 1/2 miles between Pampa and Fort Worth and would mean a great saving in express and freight rates. It would mean a 24-hour delivery from Fort Worth and Dallas and would speed up mail service many hours.

Before the Interstate Commerce commission will grant permission for the building of the line, it must be shown that the road is necessary to the territory.

Wheat Drops to Below Dollar in Rush to Unload

CHICAGO, May 27.—(P)—A rush to unload grain today drove prices down to the lowest level of the season and brought May wheat on the Chicago board of trade below the dollar mark for the first time in six years.

The close, at 98 1/2c was the lowest for May delivery in fourteen years and represented a drop of 2 1/2c since Saturday.

CHICAGO, May 27.—(P)—Wheat: Number 3 red 1.18; No. 3 hard 1.02 1/2. Corn: No. 2 mixed 84 1/2 @ 85 1/2; No. 1 yellow 87 1/2 @ 88. Oats: No. 2 white 44 @ 45; sample grade 39 @ 40.

AMMONIA RAG PLACED OVER WOMAN'S FACE

HOUSTON, May 27.—(P)—Mrs. R. D. McKay was recovering today from burns received last night when some-thing a rag soaked with either ammonia or ether across her face while she slept besides her husband in their home.

McKay, awakened by his wife's gasping for breath, snatched the rag from her face. He found a note which threatened her life. A hole sufficiently large to admit a hand was punched thru the window screen.

Frank Lard, who is drilling water wells in Arnett, Okla., spent the weekend here with his family. Returning to Arnett last night, he was accompanied by his brother, Albert Lard.

FOURTH SHARE HIDDEN IN CAR IN HUTCHINSON

Mrs. Minnie Rayl Is Charged With Complicity

BROTHER ALSO UNDER ARREST

Money Is Identified by Oklahoma City Officials

OKLAHOMA CITY, May 27.—(P)—C. W. "Doc" Thompson, Seminole drug store proprietor, was identified today by W. D. Criss, taxicab driver, as the man who shot Charles H. Vogel, bank messenger in a \$75,000 holdup of an American-First National bank car here Friday.

OKLAHOMA CITY, May 27.—(P)—Money found in the motor car of Mrs. Minnie Rayl at Hutchinson, Kas., yesterday was identified today by American-First National bank officials as part of the loot in last Friday's hold up here, Charles A. Becker, chief of police, announced today.

Booked as "Mary Doe" and charged with possession of stolen property, Mrs. Rayl, 55, well known resident of Hutchinson, was lodged in jail this morning having been brought from Hutchinson in connection with the \$75,000 robbery of Charles Vogel, bank messenger.

The woman was taken into custody at Hutchinson yesterday afternoon by police who found \$19,307 in her motor car, they said.

She was arrested on information furnished by Oklahoma City police after the latter had arrested Mrs. Rayl's brother, R. B. Thompson, and his foster-son, C. W. Thompson, both of Kansas City, formerly of Hutchinson. She waived extradition.

Chief Becker, Robert Hurt, assistant, and Charles Ryan, detective, motored to Hutchinson last night. They left Hutchinson at 2 a. m.

The money found in the woman's car was made up of \$1, \$5, \$10 and \$20 bills and when stacked reached nearly four feet in height. About \$1,000 was in \$20 bills.

Mrs. Rayl was arrested driving her car about a block from the center of the business section of Hutchinson. Previously the police had visited her home. She was absent.

The woman was taken to police headquarters before her car was searched. She was not advised of the discovery of the money until several hours later. Her home was searched following her arrest.

OKLAHOMA CITY, May 27.—(P)—Mrs. R. B. Thompson, 22, wife of one of the men held in connection with the \$75,000 robbery of a bank messenger here Friday, was arrested today in Seminole and brought to the city jail here. Police said Mrs. Thompson rented an Oklahoma City apartment where the loot was believed to have been divided.

Dempsey Quits Fugazy—Will Go to Chicago Soon

NEW YORK, May 27.—(P)—Jack Dempsey, former heavyweight champion, severed relations today with Humbert J. Fugazy, New York promoter, and announced he would promote boxing matches in conjunction with the Coliseum in Chicago starting next fall.

Dempsey said his contract with Fugazy, entered into March 25, automatically expired last Saturday upon the promoter's failure to provide him with an out-door arena where outstanding matches could be staged in New York.

The former champion said his agreement with the Chicago coliseum where Jim Mullen is the boxing promoter calls for the staging of bouts there every two weeks during the fall and winter.

Negroes, Crazed by Drink, Attack Arresting Deputies

Lille Jones, negro was charged with possession and sale of intoxicating liquor and bond set at \$500 in Justice court this morning, and nine other negroes and one Mexican paid fines for drunkenness and vagrancy.

The arrests and fines were the results of a raid by officers of the sheriff's department at a house in the negro section last night. Deputy Herman Wachtendorf was roughly handled before Deputy Scott Rheudisal.

"It Like This—"

MUCH COMMENT was caused last week when that 6-12-year-old boy was sentenced to stay in a reform school until he becomes 21 years of age.

He shot an older boy who had deprived him of a fair division of scrap metal the two had collected. There was a grievance, which caused anger. In the heat of that anger the tiny gunman struggled out to kill, carrying a gun almost as heavy as himself. He contrived to fire, and killed the older boy.

How much did the 6-12-year-old boy realize his crime? Opinion differs. The average child of that age realizes the wrongness of the act but not the awfulness of death. But the wrong had been committed, the law broken, and a process of punishment invoked.

The idea of punishment in law enforcement brought up the question of length of sentence, and the jury decided it should be through the remaining boyhood. The question involved is much greater than that of old, hardened criminals. It is that of rehabilitation—a phase of law enforcement which rarely enters the public's mind.

But such a young life can be rebuilt, as well as those much older. Yet the states have no life re-building arrangements worthy of the name. There are reformatories, it is true, but they are so crowded and so poorly conducted that they often become schools of crime. The boy who spends fifteen years in the best reformatory is apt to be everything except reformed.

Not a few judges have lately refused to send young boys to reformatories. Too many criminals of the worst type spent years in the state training schools. There are few institutions which can segregate the most vicious types of boys. The spirit of rebellion and the viciousness which is taught younger minds means trouble in later years.

Proper parole of young offenders, where they may be taken away from broken homes and placed in responsible care, is better than the best reformatories. The instance of a boy killer is unusual, but there are tens of thousands of cases involving the same principle of re-building wrongly directed lives. Punishment in juvenile criminology is not the first factor to be considered.

CONGRESS HAS FOUGHT oratorically over the output of a United Press writer from the Senate floor, and out of the difficulty may come an understandable rule on such matters. Secrecy in government sooner or later causes trouble. Somebody will talk, and in this instance one press

association believed what it was told.

The information apparently was wrong, but even if it had been right a ruckus would have been raised. Young Bob LaFollette challenges anyone to keep him from telling his constituents how he voted on any issue. And why not?

Most of the writers will refuse to gather news in underground fashion. But the public wants the news.

BY RODNEY DUTCHER
WASHINGTON—There used to be a theory that leisure was bad for working people and that if they had too much of it they would become lazy and squander their substance, which would be a very bad thing.

That theory appears to have been knocked out for good and all by the recent report of the Committee on Recent Economic Changes, of which President Hoover, as head of the Harding conference on unemployment from which the committee was formed, was chairman.

The committee paid a perfectly beautiful tribute to leisure in a section of the report which seems to have gone generally unnoticed. Increasing leisure and its utilization, the committee found, was one of the major factors in the last few years of prosperity.

Optional Purchases
 Becoming steadily less concentered with the primary needs of life, food, clothing and shelter, we now demand a broad list of "goods" and services which the committee calls "optional purchases". The margin between the cost of living and present-day wages plus the increased leisure to enjoy what

used to be thought of as luxuries has tremendously increased consumption and hence production of "optional purchase" goods.

The committee has coined what seems to be a new phrase—"the consumption of 'leisure'". Business has come to realize, it says, that leisure actually is "consumable". Furthermore, that people cannot consume leisure without consuming goods and services, and that leisure which results from an increasing man-hour productivity helps to create new needs and new and broader markets. The committee adds:

"The increasing interest in the fine arts and in science; the increased sales of books and magazines; the increase in foreign travel; the growing interest and participation in sports of all kinds; the domestic pilgrimages of some 40,000,000 motor tourists who use more than 2,000 tourist camps; the greatly increased enrollment in our high schools and colleges; the motion picture theaters and the radio—all these reflect the uses of increasing leisure."

The committee says in effect that the more leisure the more consumption of goods and services. It makes no attempt to suggest that the process should continue to a certain point and then stop.

Shorter hours for industrial workers have coincided with a decrease in the time necessitated for household work resulting from increased use of devices saving time and labor, so that increased leisure has been general.

Henry Ford, who instituted the five-day week in his factories several years ago, believes that if it is not eventually put into general application the country will not be able to absorb its production and stay prosperous. He believes that shorter working periods and high wages are both essential, and Hoover's committee obviously agreed with him. The idea isn't exact-

ly new, but it is significant that the best authorities are coming to realize it.
 As Ford pointed out, people who spend all their time in factories or at other labor have little use for automobiles. But the more they get out and around the more they want.

Baseball Scores

Table of baseball scores for National League, American League, and Texas League.

Mr. and Mrs. C. C. Cockerill left this morning to spend a week in Oklahoma City.

Mr. and Mrs. Carson Loftus and Mr. and Mrs. L. E. Kuhlman spent yesterday in Amarillo.

Virginia Graham, 5-year-old daughter of Mr. and Mrs. J. W. Graham, is seriously ill with inflammatory rheumatism. She has been sick more than a week.

Mr. and Mrs. B. J. Renshaw visited in Melean yesterday afternoon.

One Bad Inning at Amarillo Loses for Cabot Team

After holding the Tactless Texans scoreless for four innings, McCoy, Cabot's veteran hurler, blew up and the Amarillo boys won from the locals 12 to 1.

Morrison, playing third-base for the Cabot nine, was the star of the game in the field. The local man accepted ten chances without an error and had one put-out. Koob, Amarillo fielder, was the batting star of the game.

Manager Whitehead let McCoy go the distance and with the exception of the unlucky fourth, the latter had the Tactless youngsters well in hand. They failed to fathom his freak slow-ball delivery except in the one inning.

Mr. and Mrs. Tom Morris spent the week-end in Amarillo with Mrs. Morris' mother.

Miss Bonnie Jo Pool, who underwent a tonsillectomy ten days ago and has since been at the home of her parents, Mr. and Mrs. C. T. Pool of Skelly, returned today to her position at the Pampa National bank.

Joe Lewis and Guy Farrington are transacting business in Spearman today.

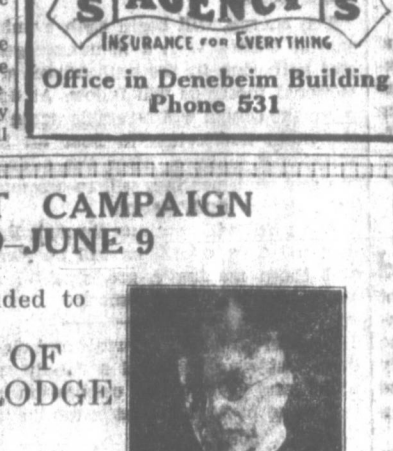

Mr. and Mrs. Clarence Kennedy returned Friday evening from a two-week visit with relatives in Siloam Springs, Ark.

Mr. and Mrs. C. C. Boles and small son left Sunday for a short visit in Enid, Okla., with Mr. Boles' parents. Mr. Boles is manager of the local L. T. Hill store.

Mr. and Mrs. W. M. Lewright left yesterday to spend a month in Colorado.

Social Calendar

TUESDAY—
Twentieth Century club will meet at 3 o'clock in the home of the president, Mrs. W. A. Bratton.
The Order of the Rainbow will hold a regular meeting for the election of officers.

THURSDAY—
A called meeting of the Eight and Forty and the American Legion auxiliary will be held at Legion hall at 8 o'clock, for the purpose of installing officers of the Eight and Forty. Officers urge the attendance of all members.

Mrs. Tunney Will Soon Be Recovered

EVUONI, Italy, May 27. (AP)—Not only need Gene Tunney, retired champion of pugilism, have no fear for the life of his bride, the former Polly Lauder, but he may expect her to be on her feet as well as ever within a few weeks.
Professor Arthur Wolfe Meyer, who operated on her for an appendix abscess a month ago, in a statement issued from the Tunney's villa Puntanoso yesterday said the relapse she suffered last week was but a temporary condition from which she already had recovered.

Work in Church Membership Being Taken by Baptists

Sunday was opening day at the First Baptist church in the revival school of training in church membership. It is hoped by the pastor, the Rev. D. H. Truhitte, that every church member will attend the revival membership school.

Secretary T. H. Farmer of Oklahoma City is directing this revival. Mr. Farmer has set a goal of 200 to be enrolled in the first classes that will be offered. The books used are Advanced B. Y. P. U. Methods, The Intermediate B. Y. P. U. Manual, and the Bible Heroes. These will be taught by Mr. Farmer, who is B. Y. P. U. secretary for Oklahoma, and John Lee Harris of the Pampa church, Miss Sarah Barrett of Simmons university, Rev. Truhitte, and Aaron Meek, principal of the Baker school.

The courses will begin each evening at 7:30 o'clock with a 15-minute general gathering in the auditorium, and sectional meetings will follow. At 8:30 p. m. the school will assemble again in the main auditorium to hear an inspirational address. After the address the sectional meetings will re-assemble for a second study period.

The work will continue through Friday, when examinations will be given and those making a grade of 75 or above will receive diplomas.

Mr. and Mrs. L. W. Barrett and children yesterday attended a family reunion and a birthday celebration at the home of Mrs. Barrett's mother in Claude.

Mrs. George Gill and Miss Wilma Chapman visited friends in McLean yesterday.

Mr. and Mrs. R. Earl O'Keefe and small son visited relatives in Panhandle yesterday.

Mail Route Is Being Laid Out

A survey of the proposed mail delivery route through the South Pampa oil field, Fairview, and intermediate points is being made today by E. F. Reid, who will prepare the map, and George W. Briggs and Postmaster W. A. Crawford.

The new route would leave here over the Clarendon road, pass through the south oil field and touch practically all the oil and carbon black camps. It will pass near Laketon and return to Pampa through the Fairview community.

Plans have been approved by the postal department at Amarillo and a petition will be circulated and sent to Washington asking permission to start the route immediately. Postmaster Crawford says. The new delivery would do much to relieve the congested conditions at the postoffice, especially the general delivery department, Mr. Crawford says.

Miss Dee Breeding spent the weekend with friends in Amarillo.

Bob Rose and Frank Hill visited friends in Clarendon yesterday.

Fast Pace Set to Qualify Cars for Speed Classic

INDIANAPOLIS, May 27. (AP)—Twenty-four worried drivers tinkered with their cars today in the hope of making them just a bit faster before qualifying them for the 500-mile automobile race Thursday.

It was not that the drivers feared their cars would not meet the speedway requirements of a minimum speed of 90 miles an hour for ten miles. There are ten more entries than will be permitted to start and the slowest automatically will be dropped.

Johnny Seymour of Escanaba, Mich.; Peter Kreis of Knoxville, Tenn.; Phil (Red) Schaefer of Dallas, Texas, and Flint, Mich., and Bob McDonogh of San Francisco qualified yesterday at speeds ranging from 111 to 114 miles per hour. Fifteen others had qualified on Saturday with a top speed of 120 1/2 miles an hour made by Cliff Woodbury of Chicago.

Roy Hall of Borger spent Sunday here with Mrs. Hall.

CHURCHES

MANY ATTEND
The Rice-Taylor revival at the Church of Christ will continue throughout this week, closing next Sunday night. The noon services (12:15-12:45) are well attended. Last evening the audience was seated with difficulty. However, no one had to stand or leave.

Baptism takes place at almost every service now. We are expecting a great meeting this week.

The song service is hard to beat anywhere. Taylor is proving himself an efficient leader in song worship.

Our invitation still extends to one and all to attend these meetings. Come and be with us.

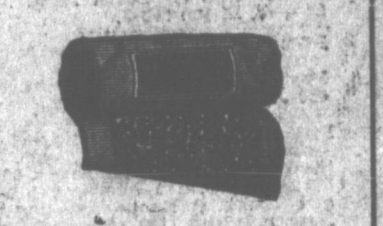

Mr. and Mrs. B. M. Daniels of Amarillo are visiting Mrs. Daniels' mother, Mrs. Annie Daniels, at the Adams hotel.
