Kellogg Anti-War Treaty Is Invoked to Prevent War in Orient

MANY NATIONS ARE EAGER TO SOLVE ISSUES

Rumors of Fighting Are Believed to Be False

RUSSIAN DENIES BATTLE PLANS

Communists in New York Threaten Chinese

WASHINGTON, July 19. (P)—Secretary Stimson has called to the attention of both the Soviet and Chinese governments the fact that they are signatories of the Kellogg antiwar treaty in connection with reported threats of war between the two countries.

In steps to avoid hostilities in the Far East, Secretary Stimson enlisted the aid of Japan, Great Britain, and France. Besides conferring yesterday with French Ambassador Claudel, Mr. Stimson talked at length with Japanese Ambassador Debuchi. Sir Eamonn Howard, the British ambassador, has also conferred with the secretary on the situation.

Disturbers Arrested
NEW YORK, July 19. (P)—A crowd of several hundred persons, many of them said to be communist sympathizers, staged a demonstration in front of the Chinese consulate in Astor place today, which police reserves were required to disperse.

A number of arrests were made. The demonstration took place during the lunch hour period and attracted a large crowd.

The participants, carrying placards and shouting threats at the Chinese, gathered in front of the building which houses the Chinese consulate but made no effort to enter the building.

Crowd Is Dispersed
Police charged the crowd with nightsticks and bundled several of the rioters into commandeered taxicabs and took them to a police station. Police said there were no casualties.

(By the Associated Press.)
The war menace in Manchuria continued grave today as unconfirmed reports of military clashes and activity were reported on both sides of the Siberian-Manchurian border.

Japanese dispatches from Harbin reported the Russians had assumed the offensive and taken over border towns on either end of the Chinese Eastern railway. Lacking confirmation there was some doubt as to the accuracy of the report as one of the towns reported "captured" is in Soviet territory.

Firing Is Reported
Other unconfirmed advices reported a Russian effort to cross the border at Balgoveschensk meeting with Chinese fire and retiring.

Russian concentrations were reported at Balgoveschensk, while Soviet airplanes were said to have dropped pamphlets on Chinese territory urging the Chinese masses to support the Soviet.

A high Chinese official at Shanghai was quoted as stating the Chinese do not expect hostilities, but are waiting for Russia to make the next move.

MOSCOW, July 19. (P)—The acting head of the Soviet government today told American newspapermen Soviet Russia had no intention of declaring war on China over the Manchurian situation.

THE WEATHER VANE

WEST TEXAS: Partly cloudy tonight and Saturday; warmer in north portion Saturday.

—AND A SMILE
LOS ANGELES. (P)—Anita Stewart hopes her next marriage will stick. She so remarked when she and George P. Converse of New York obtained a license to wed. She eloped when 16 for her first marriage, she added, and didn't have much sense.

NEXT C. OF C. MEETING IS TO BE LUNCHEON AT THE METHODIST CHURCH—SURRETT TO TALK

Coming Sunday

President J. A. Hill of West Texas State Teachers college, Canyon, one of West Texas' best known citizens, will speak on Boy Scouting at an all-church gathering in the First Methodist auditorium Sunday at 8:15 p. m.

MOTORCADE IS WELCOMED BY B. C. D. GROUP

Eight carloads of West Texas Chamber of Commerce officials and members spent half an hour here yesterday on their motorcade through West Texas and New Mexico.

The visitors were greeted by B. C. D. Manager George W. Briggs and his directors, and by a number of citizens who knew members of the W. T. C. G. group. The motorcade, managed by B. M. Whiteker, agricultural manager, was headed by Andy Bourland of Vernon, president of the regional body.

The motorcade left Ballinger July 10 starting westward and circling back through New Mexico. The party spent last night at Canadian after enjoying an old-fashioned barbecue at the Hoover ranch, and was to end the trip today at Vernon.

While here Mr. Bourland told The News that President Herbert Hoover is known to be considering seriously the invitation to attend the W. T. C. C. convention in El Paso next fall. It is hoped that he and President Gil of Mexico will be able to meet there.

Large Number of Applicants Meet at Elks Session

Committees were appointed and plans for organization of an Elks lodge here were part of a program by local Elks at the Schneider hotel Wednesday night. Judge Clifford Braly acted as temporary chairman, and P. B. Mooney as acting secretary.

More than 40 members attended the meeting and were enthusiastic over Pampa's getting a lodge. Another meeting will be held in the Schneider hotel next Wednesday night.

I. Van Naitan, local airport manager, announced that he would give the proceeds of a Sunday air show and rides to the lodge to help the financial end of the organization.

Committees appointed: Applications—Alex Schneider, chairman, Sam Fenberg, Dr. V. E. Von Brunow, H. G. Myers, and D. D. Pruet. Club quarters—F. C. Workman, chairman, Lynn Boyd, and L. H. Hamilton. Entertainment and subscription funds—Harold B. White, chairman, and W. C. De Cordova.

Lobby—P. B. Mooney, chairman, Alex Schneider, and Jack Patton.

Sam Dyer left yesterday for his home in Moore, Okla., after a visit of several days here in the home of his daughter, Mrs. L. R. Taylor.

John Surratt of Dallas will be guest of honor at a Chamber of Commerce luncheon Monday noon in the basement of the First Methodist church. Mr. Surratt is a city planning expert of long experience. At the luncheon he will explain his views on beautifying of Pampa.

The expert will arrive here Sunday afternoon, according to a telegram received yesterday by George W. Briggs manager of the B. C. D. Following his arrival and up to Monday noon Mr. Surratt will confer with city officials on the park situation and laying out of additions.

Postal Exams to Be Given Saturday

Examinations for postal clerks will start promptly at 9 o'clock tomorrow morning in the high school building. Mrs. Artie Shepard, in charge of the examinations, said this morning. Twenty-eight applicants are expected to take the tests, Mr. Shepard says.

In the past examinations have been for postal clerks and carriers, but this test will be for postal clerks only. Applicants will be from the entire Panhandle.

Smith Remodels Store Building

Remodeling of the store formerly occupied by Mitchell's store in the Smith building has practically been completed. Instead of one large room, the store has been divided into two parts with a balcony.

The Oden Music company will occupy the west half of the building, which will be equipped with demonstration rooms, show room and music room.

The east half of the building will be occupied by the W. T. Fraser Insurance company.

The Gray county Abstract company also will move to new quarters in the Smith building. The company will occupy the balcony of the remodeled store. Entrance to the abstract office will be through the insurance office.

Wheat Shipping to Galveston Halted

WASHINGTON, July 19. (P)—An embargo on shipments of wheat to Galveston goes into effect today in an effort to relieve the congestion of grain at the Texas port.

The embargo was decided upon by the railroads serving Galveston and was announced by the American Railway association.

L. M. Betts, of the car service division of the association, said 4,000 cars of wheat were at Galveston and that 3,000 additional cars were en route. It was necessary, therefore, he said, to place an embargo on further shipments because the elevators were about filled.

Two Are Charged in Forgery Case

Two local youths, Rudolph Pettlet and Cecil Duckworth, were arraigned before Justice C. E. Cary yesterday and charged with passing forged instruments. Pettlet was held on two charges and bond set at \$1,500 for each charge. Duckworth's bond on the same charge was set at \$1,000. A third youth held has not been charged.

The arrest and charges followed the theft of several checks from the Wilcox Oil & Gas company Tuesday night and the passing of several for amounts from \$68 to \$91. Four of the forged checks were passed at LeFors and one here.

Entry to the Wilcox office was gained by prying open a window.

Officers and bank officials declare there is a forgery ring operating here, and they warn all merchants to be careful in cashing checks. Several forgeries have been detected at the local banks and storekeepers are reporting forgeries and "hot checks" to Justice C. E. Cary almost every day.

HOUSTON SHIP GOING WELL IN TRY FOR MARK

Evaporation Is Detected and Aperture Corked

OTHER ATTEMPTS GOING STRONG

Long Distance Tries in Preliminary Stages

HOUSTON, July 19. (P)—High above Houston the "Billion Dollar City" endurance plane, roared on today toward completion of its second day in the air.

At 1:49:54 a. m., the ship passed the 36-hour mark, her motor and two-man crew still functioning smoothly. Periodic refuelings were carried out without incident.

Yesterday the pilots, Glenn L. Loomis and Joe Glass, ordered up a cork to plug the main gasoline tank's refueling aperture. Fuel had been evaporating.

This is the second time the craft has been sent up in search of a new refueling flight record. The first ended in failure, about 20 hours after it began Monday.

ST. LOUIS, July 19. (P)—Still going strong after six days in the air, the "St. Louis Robin," endurance plane piloted by Dale Jackson and Forest O'Brine, took on a new supply of fuel at 7 a. m., today and drove on into the seventh day aloft. The plane had been up 144 hours at 7:15 a. m.

A sister endurance plane of the Curtiss-Robertson Manufacturing company, the "Missouri Robin," approached the end of its second day of flight this morning.

SHREVEPORT, La., July 19. (P)—The endurance monoplane piloted by Van Lear Leary and William Currey Sanders began its third day in the air at 10:30 a. m., today.

The seventh refueling contact was made at 5:20 a. m., without unusual incident. One hundred gallons of gasoline were transferred from a plane piloted by Buck Carter and Mickey McGuire.

EDMONTON, Alberta, July 19. (P)—Capt. Ross G. Hoyt, flying from Mitchell Field, N. Y., to Nome, arrived here at 5:45 a. m., eastern standard time, today.

LOS ANGELES, July 19. (P)—Lieut. Harold Bromley, planning a non-stop flight from Tacoma, Wash., to Tokyo, soared away on the first leg of his flight, Los Angeles to Tacoma, at 10:13 a. m., today.

The monoplane is a Lockheed Air Express, powered by a Wasp motor.

Good Progress Made in Summer Term of School

Final examinations for the summer school were begun yesterday morning and were to have been completed at 1 o'clock today.

Gratifying progress was made in every department during the entire term, according to Supt. R. C. Campbell, who was director of the session. Indications were that the majority of students would pass in all subjects, he said yesterday afternoon.

Forty-four students were enrolled in high and junior high school divisions, the greater number of them taking at least one course on which they had failed to make a passing average during the long term. Four teachers taught the work.

Twenty-two pupils were enrolled for work in the elementary grades, with the majority taking new work or reviewing particularly difficult subjects. Two teachers were employed in the grades.

Flood Inundates Kansas Town

Water, water everywhere, in some places as much as 10 feet deep, inundated Hutchinson, Kas., when a nearby creek overflowed and a wall of water three miles wide poured over the city. More than two million dollars worth of damage was done. Above is a scene of the main street when water was at its highest; below, policemen are patrolling the streets in a boat.

TWENTY-SIX STEAMERS READY TO MOVE GALVESTON WHEAT—EMBARGO LIFTING IS EXPECTED

Over Million in Bank Deposits Is Gained in Month

Harvest and oil combined have added \$1,117,304 to deposits in Pampa banks, a check by The News late yesterday disclosed.

On June 15 total deposits here were \$2,995,033, whereas yesterday they had climbed to \$4,112,337.

The growth in local deposits has been steady for several years, with almost every quarterly report showing large increases.

No. 3 Finley-Brown Now on Gas Lift

After being placed on the gas lift, the Marland Production company's No. 3 Finley-Brown in section 32, block B-2 made an average of 45 barrels an hour the first 24 hours. The test came in last week for 40 barrels an hour but dropped off considerably after the first few days.

Success with the method in that field may mean that many small producers will be placed on the gas lift.

The same company's No. 4 Finley-Brown is standardizing at 2,700 feet.

BABE RUTH IS LAME AGAIN—HE LEAVES FIELD

CLEVELAND, July 19. (P)—Babe Ruth, who sprained his knee at Detroit two days ago, pulled up lame again today in the first game of a doubleheader between the Yankees and Indians. He was forced to leave the game after receiving a pass in the first inning and going to second base. Cedric Burs replaced him on the base and also in right field.

Earl Curtis is the name of the son born Monday night to Mr. and Mrs. James R. Barrett, his parents announced yesterday.

HOODED MEN ESCAPE WITH HUGE AMOUNT

New Orleans Bank Is Loser in Bold Outrage

LOSS ESTIMATE ABOVE \$40,000

Canceled Checks of No Value Also Taken

NEW ORLEANS, July 19. (P)—An armored truck of the Hibernal Bank & Trust company carrying \$100,000 in cash and checks was seized by hooded bandits today and driven off after the bank guards had been thrown to the street.

The loot contained \$21,300 in cash and \$21,283 in negotiable checks, but \$61,720 was represented by cancelled checks of the Illinois Central railroad of no value to the bandits.

The truck was trailed by the bandits in a grey sedan until a curve at Dryades and Julia street was reached. Here the bandits began blowing their horn, and the truck chauffeur, thinking they wished to pass, pulled to one side.

Instead, the bandits leaped aboard the truck, firing two shots, jerked the guards to the street, drove them into a negro restaurant at the points of a shotgun and pistols and escaped up the street in the truck, leaving the sedan, which had been stolen. The guards fired as the truck sped away and the bandits shot back, but all of the bullets went wild.

Cecil Storey of Vernon Out for Attorney General

AUSTIN, July 19. (P)—Cecil Storey of Vernon, member of the house of representatives for eight years, announced his candidacy for attorney-general of Texas today. He said he was "yielding to the impulse to serve the people of my native state." Storey is the first candidate to announce for the office now held by Claude Poliard of Houston.

Storey is an alumnus of the University of Texas. He was admitted to the bar in 1909 and has been actively engaged in the practice at Vernon for 20 years.

The victories I have won in the courtrooms of Texas have been plentiful enough to satisfy my professional pride," Storey said in his announcement statement. "My service of eight years in the legislature has given me an opportunity to study and to learn the rights and needs of the state for efficient service in the attorney-general's office and I promise to endeavor to protect these rights and to secure these needs if I am elected."

Another General Delivery Window Is Now Ready

In an effort to handle the general delivery situation at the local postoffice an extra general delivery window has been built and two lines can be handled at each window if necessary. Thousands of pieces of general delivery mail have been handled through one small window and for hours during the day line-ups have practically blocked access to the postoffice.

Two lines are now being used. The first window handles mail from A to K, and the new window from L to Z.

BILL TILDEN WINS

BERLIN, July 19. (P)—Bill Tilden smashed his way to victory over Hans Mollenhauer of Germany in three straight sets today to give the United States the opening match in the inter-zone Davis cup play.

Tilden downed his tauton opponent by scores of 6-2, 6-4, 6-4.

It's Like This

THOSE CLEVELAND EDITORS, powerful in their own sphere and well able to stand heavy financial loss if necessary to express criticism of the action of a high judge, made a very simple but appealing statement after they were arrested and charged with contempt.

They said, in substance that \$500 fines and 30 days in jail were small penalties for daring to challenge constituted authority they believed to be wrong.

To criticize the action of a judge is a grave offense, in that unjustified attacks may cause disrespect for law and make the courts ridiculous. For this reason the judge is clothed with authority to hold his critics in contempt.

But if a judge obviously acts in an illegal and dangerous manner, his privilege of holding his critics in contempt becomes void, as we believe the appellate courts will hold in the instance mentioned.

The judge in question restrained a sheriff from carrying out the letter of the Ohio law against gambling on races. No law should protect illegal or extra-legal conduct which works against the public welfare. Protection of even an appellate judge does not extend to license.

PAMPA IS HIRING MANY TEACHERS, whose conduct is more or less of public interest. The National Education association has been working for several years on a code of ethics for the profession.

- Here are some of the principles that are being evolved: 1. Be fair to yourself, your superiors, and your children. 2. Do not advertise your... 3. Do not "gossip" about your pupils or repeat the private information you have learned. 4. Be tolerant and avoid stirring any controversies on race, politics, or religion. 5. Respect your profession. Keep abreast of the times. These are common sense suggestions, yet what is so rare as sincere application of common sense in any profession?

WASHINGTON LETTER

BY RODNEY DUTCHER. WASHINGTON - Why did you corner grocery enter the grocery business? Why for that matter does any grocer enter the grocery business? The Department of Commerce investigated that question in its recent survey of the grocery business in Louisville, Ky., and Dr. Wilbur G. Plummer, who supervised the survey, reports as follows: "The incentives for entering this particular business seem

to be strong. "First, we were told by individuals that it means much more to them to be grocers than to be engaged in some other occupations which seem to them to carry less social standing. The economist might describe the situation by saying that, although the money income of the storekeeper is no greater than that of these other occupations—it may be even less—his psychic income is much greater.

"A second reason for entering the grocery business is to secure the family groceries at wholesale prices. This applies mainly to the 'hole-in-the-wall' places, but it constitutes a definite urge to some persons to start a store.

"A third reason given for opening up a grocery store is that it is thought to be an easy job.

"A fourth is that it enables the wife to be engaged in profitable employment in connection with her household duties."

There's a good story about Arthur Henderson, the new British foreign minister, which probably stands unduplicated in our own politics and diplomacy.

Back about 1917, Lloyd George sent Henderson to what was then Russia's Petrograd to take over the British embassy from Sir George Buchanan. This was during the brief Kerensky period.

When Henderson got to Petrograd and looked the situation over he decided that Buchanan was doing an excellent job. He decided, in fact, that it would be a mistake to replace him with a new ambassador.

So Henderson left Buchanan on the job and went back to London. Of course, the Kerensky government didn't last long and Sir George was soon out of a job, anyway, but Henderson hadn't foreseen that.

If and when Premier Ramsey MacDonald comes to Washington it is not supposed here that Henderson will accompany him. Presumably he will stay in London to handle the Foreign Office.

POSTMASTER GENERAL WALTER F. BROWN, the eminent expert in cookery and gastronomy, was recently reported to have a standing reward of \$5000 to anyone who could find a string in one of his extraordinary Welsh rarebits.

Comes a letter from Mr. Otis Perry of Columbia, as follows: "Dear Sir: 'If it is not a joke I think I have won your \$5000.' You will find the string in stirring."

That is Mr. Perry proposes to remove the third and fourth letters of the word "stirring". Mr. Perry does not win the \$5000. He just gets honorable mention.

Strikers Asking City to Operate New Orleans Cars

NEW ORLEANS, July 19. (AP)—The street car strikers asked today to a siege today between the union and the company with the city commission council standing in between beseeching peace.

At an open air mass meeting last night the demand of the howling mass of men and women for municipal operation of street cars was voiced. Francis Williams, chairman of the Louisiana public service commission, declared the street cars should be taken over and operated by this city at the New Orleans Public Service persisted in attempting to operate on an open shop basis.

Social Calendar

FRIDAY
A meeting of the Halcyon Bridge club scheduled for Friday evening at the home of Mr. and Mrs. C. E. Hutchins, has been indefinitely postponed, because of the illness of the hostess.
Mrs. J. H. Lavender will entertain other members of the Blue Bonnet club at the home of Mrs. L. M. Williams with the game opening at 7:30 o'clock.
A regular meeting of the Order of the Eastern Star will be held at 8:15 o'clock.

SATURDAY
The Altar society of Holy Souls church will hold a food sale at Piggy-Wiggy No. 1, beginning at 9 o'clock.

Baptist Y. W. A. Elects Three New Officers Thursday

The Young Women's auxiliary of the Baptist church completed the staff of officers with the election yesterday of three members to fill vacancies. Miss Sarah Barrett was elected vice-president, succeeding Miss Ruth Nelson, who recently moved away from Pampa. Miss Mildred Mason was made personal service chairman, and Miss Lillian Keahy was chosen pianist.

The business session, held in the church parlors, was followed by a program on the theme, "In the Secret of His Presence," a lesson on prayer. Miss Sarah Barrett was in charge of the program. Her assistants were Miss Claudine Haynes, Miss Ellen Nabers,

and Miss Kate Anderson, who presented special topics, and Miss Lillian Keahy, who played a piano solo. Miss Mildred Mason and the counselor, Mrs. J. Powell Wehrung, completed the group in attendance.

Legion Auxiliary Discusses State Meets—Adopts Boys

Initial discussion of plans for participation of the local American Legion auxiliary in the state convention of the American Legion and Women's auxiliary, which will be held in Port Arthur next month, was had last night at an enthusiastic meeting of the unit. Election of delegates was postponed to a later meeting. It was indicated that a large representation from here would attend.

Clifford Taylor and Lyle Shirley, Pampa Legionnaires, who are in Muskogee Memorial hospital, were "adopted" by the auxiliary, and will receive cigarettes, magazines, fruit, candies, and other delicacies from the organization for the time they are in the hospital.

Mrs. R. A. Webb presided at the meeting, at which there was an unusually large attendance. Two new members were enrolled.

PRESBYTERIAN CHURCH

At the Presbyterian church Sunday morning the pastor will speak on the subject, "Safeguarding the Heart."

Sunday school, 10 a. m.; Morning worship and sermon, 11 a. m. A welcome is extended to all who will come and worship with us.

Swimming Party and Picnic Given for Girls' Class

One of the happiest of the outdoor events which have enlivened vacation days for the younger sets was a picnic Wednesday evening by Mrs. Raymond Harrah, for a class of girls in the First Methodist Sunday school.

Swimming, boating, and a basket supper were enjoyed at the Mel Davis ranch, 14 miles southeast of the city. Accompanying Mrs. Harrah and her pupils as special guests were Mrs. C. C. Dodd, Mrs. R. C. Campbell, Mrs. A. H. Doucette, and the latter's son, Burton.

Members of the class who attended were: Drusilla Morgan, Frances Campbell, Dorothy Dode, Isabel Baer, Dorothy Doucette, Janet Price, Virginia Hawkins, and Dorothy Irwin of Sayden.

Robt. A. Strate
prominent business leader, who declares Sargon has made a well man of him after ten years' suffering and increased his weight 46 pounds.

"I suffered 10 years with as bad a case of stomach trouble as any man ever had. I was advised to have an operation, but I wouldn't consent. My whole system was filled with poisons. I would wake up mornings dead tired and my back ached so I could hardly get out of bed. I was badly rundown, my skin was an unhealthy color and I didn't seem to have any strength or energy.

Five bottles of Sargon made a well man of me. I gained 46 pounds and have as much strength and vitality as I had 20 years ago. Sargon Soft Mass Pills regulated me perfectly." **Robt. A. Strate**, owner of the Bakery Equipment Co., Oklahoma City.

Sargon has become a household word from coast to coast and sales of the new medicine continue to increase, as new tests of its powers are made.

Father's Drug Co., agents. There is a Sargon dealer in every town.

Mr. and Mrs. Ezra Stines and children of Norman, Okla., were guests yesterday of Mr. and Mrs. W. A. Taylor. Mr. Stines and Mr. Taylor are cousins.

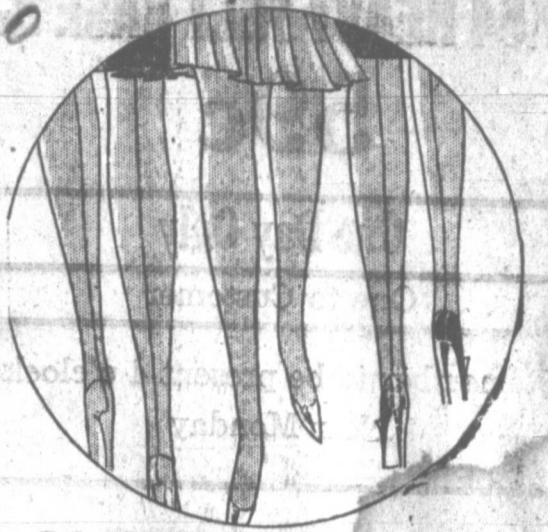

CHRISTIAN SCIENCE SOCIETY
(Room 2, First Nat'l Bank Bldg.)
Sunday school, 8:45 o'clock.
Sunday service, 11 o'clock. Subject: "Life."
Wednesday evening service, 8 o'clock.
The public is cordially invited to attend all of these services.

I. S. Jameson will leave today for his home in Roswell, N. M., accompanied by Mr. and Mrs. D. B. Jameson and little son, who will visit there several days.

Klein's Homer Pace Really Astounding

NEW YORK, July 19. (AP)—Young Mr. Charles Klein, of the Klouting Kleins of Philadelphia, if he does not actually threaten the celebrated home run record of Babe Ruth this season, at least stands a most excellent chance of toppling the seven-year-old National League record of 42, set by Rogers Hornsby in 1927.

League and club records for distance hitting are already on the chutes but the center of interest now is Klein, who at this stage of the season is only two blows short of the pace that Ruth set in 1927 when he boosted his own season's record total to 60 homers. On July 19 of that campaign the Babe had collected exactly half of his final total. Klein, prior to today's game had 28 and led both leagues. Ruth, although handicapped by illness, a layoff of several weeks and now a strained knee, has 22 circuit blows to his credit.

Powerful Team Assembled by Grays to Enter Amarillo Tournament Which Will Open Sunday With Doubleheader

The Pampa Grays will be in the Amarillo tournament which starts Sunday afternoon with a double header. Manager Ed Gober is all set to play the opening game if it is drawn. "Bring on Lakeview, Amarillo, Lamesa or any others and the Grays will be ready to do battle," the veteran manager said this morning.

This year the Pampa team will play under the colors of Kerley-Crossman post, American Legion. New Gray uniforms with an American Legion emblem on the left breast, black cap and black and gray Sox give the Pampa line a spectacular appearance on the field.

Gober will strengthen his team with three pitchers, a substitute catcher, and probably another slugging outfielder. He will use a number of last year's players and this year's players from the Pampa Industrial league.

The Grays are holding daily workouts on the Magnolia diamond every night at 6 o'clock and are fast rounding into a smooth working machine. The infield is fast and sure and the outfielders are fly hawks. The Grays are noted for their hitting power. Last Sunday the Gobertes slashed out 19 hits against the Amarillo Tactless Texans.

Included in the Grays' roster will be Ray Parr of Big Lake, pitcher, who arrived here this morning. Doty, catcher, this year with Big Spring in the West Texas league also arrived this morning and will assist Horton in the catching department. Slim French has been here more than a week and Lefty Graham, pitcher late of the Detroit Tigers, and Joek Malone, pitcher, of Wichita, Kan., will arrive tomorrow.

Gordon Nell arrived last week and will either patrol the outfield or play first base. Then the local boys who will make the team are Tank Horton, Speck Roberts, Johnnie Munds, Rusty Cahill, Jack Gober, "Big" Waller, and Ed Gober. Other local stars will be picked later in the day, Gober says.

FARM IMPLEMENTS FOR BETTER FARMING-

The McCormick-Deering 15-30
More Power—More Speed

McCormick-Deering One-way Plows
Ready to deliver for your plowing

This new weeder represents the culmination of 18 years of study and effort to improve the best tillage implement made. A square rod of wonderfully made steel is forced from one to six inches under the surface of the ground and revolves in the opposite direction to that of the wheels. This causes the rod to pull every weed with which it comes into contact.

The weight of the machine pressing on the rod removes the large air spaces below it and makes a perfect seed bed. Lumps are brought to the surface and are left there, making a loose lump mulch that will not blow.

GIANTS TURN BACK PIRATES BY 11-7 SCORE

By WILLIAM J. CHIPMAN
Associated Press Sports Writer

The first phase of John McGraw's own personal crucial battle against the high-riding Pirates had just the result Joe McCarthy himself would have asked. The Giants turned back the Pirates by 4 to 1 as the McCarthy troops swept through the paper defenses of the Robins in Flatbush for an 11 to 7 decision. The Pirates remained on the top perch in the league standing, but they enjoyed a margin of less than one full game.

A five-run rally in the eighth enabled Old Alex the Great to pick up credit for the Cardinals' 6 to 4 victory over the Braves. Alex gave way to batting relief in the big inning, and Fred Frankhouse finished. The Phillies turned back Cincinnati by 6 to 3 in a game noteworthy because no one hit a home run.

The Yankees were rained out in Cleveland, and the Athletics picked up a technical advantage of half a game by defeating Detroit 8 to 4. The Mackmen margin now is eight and one half contests.

More important to Connie Mack than this paper advantage of having won a game which the Yankees yet have to play was the showing of George Walberg who in recent games had threatened to enter a slump. Walberg gave the Bengals nine hits, but so scattered these that the afternoon was an Athlete walk over.

Washington opened its stay in St. Louis by winning a wild 10 to 3 decision. Seven Washington runs in the seventh decided the issue.

The veteran Red Faier shaded Danny MacFadden in a fine pitching battle at Chicago, and the White Sox defeated the Red Sox by 2 to 1 in ten innings.

CAT COLLAPSE IS WONDER OF TEXAS LEAGUE

By GAYLE TALBOT, Jr.
Associated Press Sports Writer

For a club that had just swept a three-game series with Shreveport and taken two out of three from Wichita Falls, the collapse of the Fort Worth Kittens in their opening series of the second half on southern soil stands almost unprecedented for the current season.

When they moved into Houston four days ago, the Cats, although crippled, were playing remarkable baseball. Their starting pitchers almost invariably were finishing, and the club was hitting hard and often. They were at the top of the standing and it looked very unchanceful as though the Snydermen were going somewhere. The Buffs, on the other hand, had just finished dropping six straight, three of which were to Beaumont, and to all appearances Gene Bailey's boys had curled up.

That, however, was just how it looked. The story of what happened in the last three days in the Bayou City was completed yesterday when the Buffaloes whipped the Panthers down, 9 to 5, and made it unanimous. In the three games, Buff pitchers allowed the felins just six runs, while not a single Fort Worth hurler was able to finish against the spirited Houston attack. The Cats were crippled by the absence of Ray Grimes, their slugging first baseman, and manager Frank Snyder, but their play scarcely could have affected the outcome, so completely did the Buffs hold the upper hand.

Fort Worth was not the only northern club to suffer in its opening series in the southland. The Steers dropped two of three to San Antonio, salvaging the final, 5 to 3. The Spudders gained an even break with the Exporters when rain nipped their final, while Shreveport made it two out of three from the Cubs by battling to a 9 to 6 triumph in their 12 inning closer, Wichita Falls incidentally, eased into the lead by standing idle, thanks to Waco's demise.

The new alignment today found Fort Worth at Beaumont, Wichita Falls at Houston, Shreveport at San Antonio and Dallas at Waco. Interest will be centered, more or less, on the Buff-Spud argument the next three days.

LOUGHRAN HAS NO TROUBLE IN BEATING YOUTH

By HERBERT W. BARKER
Associated Press Sports Writer

NEW YORK, July 19. (AP)—Tommy Loughran was still ruler of the light heavyweight brigade today and James J. Braddock, Jersey City puncher, had only a boxing lesson to show for his meteoric climb to the rank of contender.

Meeting Braddock in a 15-round titular battle at the Yankee stadium last night, Loughran piled up points with a stabbing left hand and won the decision beyond a question of a doubt. Not once during the struggle could

Braddock land squarely with his right hand without which the Jersey youngster would not have deserved to be in the same ring with the champion. With that right hand Braddock had broken Pete Latzo's jaw, knocked out Tuffy Griffith in two rounds, and stopped the Buffalo speedster, Jimmy Slattery, in nine rounds.

Against Loughran, however, Braddock could find no use for his most potent weapon. Outsped and outsmarted all the way, the Jersey lad found the champion's left always ready to catch the wild over-hand rights that came this way.

Never has Loughran appeared to better advantage. His educated left hand spent most of the evening in Braddock's face. With it he kept the challenger off-balance, thus neutralizing the undoubted power Braddock has in his fists.

A crowd of some 25,000 saw the scrap with a "gate" in the neighborhood of \$80,000.

Loughran weighed 174 pounds; Braddock 170.

**Leahy Is Silent
At His Examination**

AUSTIN, July 19. (AP)—Unemotional and silent, Harry J. Leahy today was taken by guards to the Austin State hospital for insane from the Travis county jail where X-ray pictures were made of his head and the prisoner was subjected to a minute physical examination.

The move was made by state attorneys in an effort to place before a sanity jury at Georgetown Monday evidence that the condemned slayer of Dr. J. A. Ramsey of Mathis is sane.

Leahy's execution, originally set for July 12, was held up through an order issued by District Judge Harry Dolan of Williamson county restraining the warden of the state penitentiary from proceeding until after the doomed man had been given a sanity hearing. The mandate was issued after Miss Amanda Davidson, telephone operator, declared her observation of Leahy led her to believe the former ranchman was unbalanced mentally.

Daily News' want-ads bring results.

**Teachers' College
Gets \$532,030 for
Next Two Years**

Representative Clyde Warwick of Canyon, back at his desk as publisher of the Canyon News, said yesterday that a total of \$532,030 for the next biennium had been provided for the Teachers' college.

Mr. Warwick said this was an increase of \$28,015 over the sum appropriated for the biennium just ended, but that in this calculation is not included the \$300,000 educational building recently completed.

Every new building proposed for Teachers' colleges was eliminated in the free conference under the necessity of cutting estimates to within Governor Moody's demand for economy. It is believed, however, that funds will be available for the erection of a home demonstration cottage on the Canyon college campus.

While the governor is not expected to veto any item in the Teachers' college appropriation, friends of the institution are writing Moody that every cent provided is greatly needed by the school.

Markets

CHICAGO, July 19. (AP)—Influenced by reports of rain in Canada wheat here turned downward today after an early advance. Buying power was less in evidence than of late, and despite unfavorable crop reports from Canada as well as unexpected higher quotations at Liverpool the market here went sharply below yesterday's finish.

Starting unchanged to 1 1-2c higher, Chicago wheat scored moderate gains all around, and then tumbled. Corn and oats followed wheat, with corn starting unchanged to 1-2c higher, but later receding. Provisions tended upward.

CHICAGO, July 19. (AP)—Wheat: No. 3 red 1.40 1-2; No. 2 hard 1.41@1.43 1-4. Corn: No. 2 yellow 1.02 1-2@1.04; No. 4 white 1.04 1-2. Oats: No. 3 white 47 1-4@48 1-2; No. 4 white 45@46.

Wheat closed heavy at the day's bottom level, 3 1-4c to 4 1-2c under yesterday's finish. Rye closed 5 1-4c to 5 1-2c off, corn 3-8c to 1c down, oats at 5-8 to 1 3-8c decline, and provisions varying from 5c setback to a rise of 12c.

DAVIDSON TRIAL STARTS

CORSICANA, July 19. (AP)—Arguments in the trial here of Loyd Davidson of Limestone county, charged with the slaying of his father, W. T. Davidson, at the latter's home near Cooledge on May 3 last, was started today after Judge Hawkins Scarborough had delivered his charge.

"APPAREL FOR WOMEN"

International Sunday School Lesson

BY DR. J. E. NUNN

General topic: Ezekiel's Vision of Hope.

Scripture lesson: Ezekiel 47:1-9.

1. And He brought me back unto the door of the house; and, behold, waters issued out from under the threshold of the house eastward (for the front of the house was toward the east); and the waters came down from under, from the right side of the house, on the south of the altar.

2. Then He brought me out by the way of the gate northward, and led me round by the way without unto the outer gate, by the way of the gate that looketh toward the east; and, behold, there ran out waters on the right side.

3. When the man went forth eastward with the line in his hand, he measured a thousand cubits, and he caused me to pass through the waters, waters that were to the ankles.

4. Again he measured a thousand, and caused me to pass through the waters, waters that were to the knees. Again he measured a thousand, and caused me to pass through the waters, waters that were to the loins.

5. Afterward he measured a thousand; and it was a river that I could not pass through; for the waters were risen, waters to swim in, a river that could not be passed through.

6. And he said unto me, son of man, hast thou seen this? Then he brought me, and caused me to return to the bank of the river.

7. Now when I had returned, behold, upon the bank of the river were very many trees on the one side and on the other.

8. Then said He unto me, these waters issue forth toward the eastern region, and shall go down into the Arabah; and they shall go toward the sea; unto the sea shall the waters go which were made to issue forth; and the waters shall be healed.

9. And it shall come to pass, that every living creature which swarmeth, in every place whither the rivers come, shall live; and there shall be a very

great multitude of fish; for these waters are come thither, and the waters of the sea shall be healed, and everything shall live whithersoever the river cometh.

Time: Beecher assigns the closing chapters of Ezekiel to B. C. 573.

Place: With the exiles in Babylonia.

Golden Text: Of the increase of his government and of peace there shall be no end.—Isa. 9:7.

Introduction

Ezekiel has been in Babylonia 25 years. It is 14 years since Jerusalem fell. Another 30 years are to pass before the advent into Mesopotamian affairs of the Persian King Cyrus will make possible the return to Judea of the first little group of exiles and their humble beginnings of restoration. At this time whenever they think of Jerusalem they put away their joyous music-making harps and weep. By the rivers of Babylon, there we sat down, ye, we wept, when we remembered Zion. We hanged our harps upon the willows in the midst thereof.—Psalm 137:1, 2.

There was one man, however, who did not do that; Ezekiel. His faith enabled him to look out of the darkness of his nation's life and across the years to a new Jerusalem. The vision was so assured that for that restored Jerusalem he set about planning a new temple. The description of this visionary temple occupies the closing section of his book (chapters 40-47).

Life-Giving Stream

This splendid imagination under the sway of the divine spirit vividly pictures for us the new day when Jehovah's beneficent blessings shall again go forth from the temple and the peoples of God shall be blessed because of this life-giving stream.

It is a picture of the glorious effects of the gospel and the power of the living Messiah. He shall come with power to bring life where death has held dominion and to heal where disease

and starvation have reigned. His coming will usher in the glad period of rejoicing and life because of all His gracious benefits to those who are in need of healing and salvation. God used His old prophet to picture in vivid scenes the glorious ministry of the "Great Physician" who came to minister and to give His life a ransom for the world. He came to Jerusalem, and from the temple since His coming, has gone out the healing stream to all nations. He has come "That we may have life and have it more abundantly."

The Widening Stream

Big things in the Bible have small beginnings. The prophet here gets an illustration of it. More immediately the stream signified the humble, but new start that his nation was to make that was to grow into a great religious movement flooding the world with pure spiritual ideas. But do we not see, prophetically, our Lord Jesus and His little group of disciples growing, growing, growing into the church universal, with its millions, and its world-embracing activities? "Waters that were to the ankles—waters to swim in!" Baby Jesus in the Bethlehem manger; grain of mustard seed; bit of leaven! "The stream that issued from that rocky ledge of Bethlehem is now a mighty river that is reaching the ends of the earth" (Snowden). "We bless God that the day of small things which dawned at Bethlehem has already grown to a day of great things; and our faith fully expects to see greater things than these (Spurgeon)."

Waters Become a River

"For the waters were risen, waters to swim in, a river that could not be passed through." "The waters risen to the ankles may coincide with the step gained in the baptism of Cornelius, Acts 10, and the opening of the church to the Gentiles. The dispersion which had followed the martyrdom of Stephen, Acts 11:19, had carried believers into various countries, and so paved the way for the foundation of Gentile churches. The mission of St. Paul and Barnabas, Acts 13:1-4, is another marked epoch in the church's history (to the knees), and the time of St. Paul's martyrdom denotes an increase in the Gentile church which corresponds with the waters reaching the loins. When

under Constantine the Roman empire had become Christian, the church may be contemplated as the full river, to flow on throughout time to the final completion of Isaiah's prophecy. "The earth shall be filled with the knowledge of the Lord, as the waters cover the sea," Isa. 11:9.—G. Currey, D. D.

"River of Water of Life"

"Now when I had returned, behold, upon the bank of the river were very many trees on the one side and on the other." John, who drew so much of his revelation from Ezekiel, is especially his debtor here for the picture of the New Jerusalem: "And he showed me a river of water of life, bright as crystal, proceeding out of the throne of God and of the Lamb, in the midst of the street thereof. And on this side of the river and on that was the tree of life, bearing 12 manner of fruits, yielding its fruit every month; and the leaves of the tree were for the healing of the nations."—(Rev. 22:1, 2). In both visions the living waters issue from the throne of God, but the New Testament adds the vital words, "and

LESSON

(Continued from Page 7.)

of the Lamb." In both visions the trees bear fruit unceasingly, but in the New Testament the variety of the fruit is disclosed. In both visions the healing virtue of the fruit is set forth, but in the New Testament is the missionary addition, into which the Old Testament had not yet risen, that this healing is not merely for the Jews but for all nations. Ezekiel only dimly glimpsed that great truth, if indeed he saw it at all.

"Into the sea shall the waters go which were made to issue forth; and the waters shall be healed." That is, they shall be sweetened, changed from salt water to fresh. The Dead sea, called in the Bible the Salt sea, is at the surface 1,292 feet lower than the ocean level, being unique in this respect among all the bodies of water on earth. The deepest bottom of the sea is 1,200 feet below the surface, or 2,592 feet below the level of the Mediterranean. The sea is so salty that bathers cannot sink in it, much more salty than the ocean; 100 pounds of ocean water contain six pounds of salt, but 100 pounds of Dead sea water contain from 20 to 27.8 pounds of salt. The cause of this saltiness is the slight amount of salt in the waters of the Jordan, which, poured ever into the Dead sea and with

no exit from it, are constantly evaporated by the hot air from the desert, thus leaving behind the mineral constituents which cannot be evaporated. The Dead sea is a good illustration of a selfish life always taking in and never giving out to others.

"And there shall be a very great multitude of fish." "Organic life scarcely exists in the waters of the Dead sea; neither shell-fish nor corals are found. The old belief, however, that there is a total absence of life in and around the sea is erroneous. Ezekiel prophesies that fishes shall be as abundant in the Dead sea as in the Mediterranean, 'the great sea.'—(v. 10)."

Healing of the Waters
 "The waters of the sea shall be healed, and everything that liveth whithersoever the river cometh." The significance of this healing of the waters is most evident: The river of God's love and truth not only makes life's desert places to blossom like a garden of roses (Isa. 35:1), but it sweetens life's bitter experiences, transform its brackish, dead dark days into seasons of joy—at least of peace. For us that stream of love and truth is the gospel of Jesus Christ, having its source in religion's supreme, ultimate altar, His cross. "The waters of the Dead sea healed? So there is nothing—nothing too sunken, too useless, too doomed—but by the grace of God it may be redeemed, lifted and made rich with life."—(Geo. Adam Smith). "And His

grace flowing through the world seeks out the lowest pits of corruption and death that it may purify and sweeten their sin-saturated waters" (Snowden).

"The fringe of green, that borders every flowing brook, pictures in a pleasant way Ezekiel's thought: 'Everything shall live whithersoever the river cometh.' You remember how picturesque the same thought is set forth in the scenery of the twenty-third Psalm, where the 'green pastures' are laid along the banks of the 'still waters,' and the verdancy of the fields spring from the quiet saturation of the brook. An example of this on a wider scale is seen in the river bank vegetation in Egypt, due to fertilizing sediment brought down by the Nile in its descent from the tropics. What are generally called 'the canals of the Planet Mars' are now supposed, by those competent to judge, to be belts of vegetation, vegetation on that is induced by currents formed by the melting of the polar snows, too narrow to be themselves visible, but of sufficient volume to develop on either side stretches of vegetable life broad enough to come into telescopic view. 'Everything shall live whithersoever the river cometh.'—Charles H. Parkhurst.

The Water of Life
 Ye weary, thirsty, dying souls,
 Come, drink of the Water of Life;
 Before you now a river rolls,
 Come, drink of the Water of Life.

Washington Daybook

By HERBERT PLUMMER
They called it a winter at first. And they made it as bad as they could. But finally wiener. Get meener and meener. Until it became wiener wurst.

WASHINGTON—Woodrow Wilson inspired Wade Hampton Ellis to write the foregoing limerick. It was revealed the other night when Ellis appeared before the Arts club in Washington and read a collection of limericks inspired by the war President.

Ellis has given the collection the title of "A Limerick Friendship."

President Wilson delighted in this form of "poetical" expression. Nothing amused him more than to submit a difficult word for "limerickal" treatment. He frequently challenged Ellis, with Admiral Grayson, the White House physician, as the go-between. One day he suggested the word wiener, and was vastly entertained when Ellis read him the above limerick.

DOWN BY THE DEPOT
With the supreme court in recess for the summer months, Justice Holmes has gone to "Beverly-by-the-Depot"—his summer home in Massachusetts.

Justice Holmes himself gave this name to the little cottage where he has spent every summer for the last 50 years. He says it distinguishes it from fashionable Beverly-by-the-Sea.

The little cottage was inherited from his father, the poet Oliver Wendell Holmes. With his strong attachment for books and study the distinguished jurist cares for no other recreation.

And this summer he will be in complete retirement, as Mrs. Holmes died but a few months ago.

The other members of the supreme court have scattered to all parts of this content to spend the summer.

Chief Justice and Mrs. Taft have gone to Murry Bay, Canada, where they have had a summer home for more than 20 years.

Justice Sutherland and Mrs. Sutherland have chosen Burlingame, Cal., as a summer retreat, and Justice and Mrs. Sanford chose Nantucket Island.

Justice and Mrs. Van Devanter have a favorite vacation spot in Georgian Bay, Canada; Justice and Mrs. Stone, at Isleau-Haute, Maine, and Justice and Mrs. Brandeis in Connecticut.

Only Justice and Mrs. Butler and the bachelor member of the court, Justice McReynolds, remain in Washington.

A COOLIDGE STORY
Before Calvin Coolidge left the White House and Washington for Northampton he took time to autograph one of his pictures and send it to the proprietor of a news stand not far from the executive mansion.

Mr. Coolidge is a great lover of mystery stories. Often, when he was president, he became interested in a story running serially in a monthly magazine. It was hard for him to wait for the next issue.

The news dealer learned of the President's eagerness. Accordingly just as soon as the magazine reached him he would personally take the issue to the White House. Often Mr. Coolidge would get his magazine two or three days before they were put on sale at the news stands.

In token of his appreciation, Mr. Coolidge sent his autographed picture to the dealer before leaving Washington.

Menus of the Day

By SISTER MARY
NEA Service Writer

Meat loaves of various sorts fill an important place in the summer diet. They are good both hot or cold and are as suitable for an impromptu picnic as the home luncheon.

Usually a meat loaf is sufficient for at least two meals. This means that one cooking process takes care of more than one day as far as the meat is concerned, simplifying housekeeping to an appreciable degree.

The addition of bread or cracker crumbs makes for economy as well as reducing the protein content of the dish. In hot weather a diet comparatively low in protein is desirable. A balanced diet must be maintained for health but less protein is required in warm weather than is needed for cold days.

Combinations of meats offer variety. A loaf made of beef, veal and pork is of quite different flavor than one made entirely of veal or beef.

The secret of perfection in meat loaves lies in thorough blending of all ingredients. Careful seasoning is essential. Keep in mind the rule of one teaspoon salt to a pound of meat and gauge the amounts accordingly. Always trim meat carefully, being sure

that gristle and string connecting tissue is discarded.

The accompanying recipe for ham loaf is delicious and offers a welcome change.

Ham Loaf
One and one-half pounds fresh ham, 1-2 pounds cured ham, 2 eggs, 1 cup fine cracker crumbs, water to moisten.

Grind meat very fine and mix thoroughly. Add crumbs and mix until perfectly blended. Add eggs well beaten and mix well. Add water to make moist enough to shape in a loaf. Bake in a roaster in a moderate oven for two hours.

Eugene Guenther of Denver arrived Wednesday night to spend the remaining weeks of the summer vacation with his uncle and aunt, Mr. and Mrs. B. C. Fahy. He will work with Mr. Fahy, who is a water well driller.

Miss Helen Anderson has spent the last several days in Mobeetie, at the home of her sister, Mrs. W. D. Kee. She will return tomorrow or Sunday.

Behind the Walls of the ALAMO

CORN WAS MORE PRECIOUS THAN GUN POWDER

Remember the Alamo! . . . Remember Crockett, Travis, Bowie, its deathless defenders! Remember how Travis wrote in his appeal for aid, "The Lord is on our side! When the enemy appeared in sight we had not three bushels of corn. We have since found in deserted houses ninety bushels . . .!"

Fighters, those men! Fighters of desperate courage; fighters who declared, "We shall never surrender or retreat." Fighters who lived on corn and fought with guns! Has the world ever seen such a glorious, yet hopeless defense; such refusal to admit the inevitable, even to the end? Thermopylae had her message of death—the Alamo had none!

Americans, your history is rife with such heroism . . . it is written in the blood of fighters like these. . . . And

the same sentences that tell of desperate courage, invariably mention Corn. . . . Corn and gunpowder . . . the stuff that history is made of. The builders of America lived on Corn. Corn has always been the Food of Fighters!

In this pampered modern age, Corn remains a necessary part of our diet. In Kellogg's CORN Flakes, corn reaches its highest point in tastiness, nourishment and immediate energy. It's corn—steam-cooked—flaked, toasted corn! Kellogg's Corn Flakes and milk or cream make a breakfast, mid-meal or supper dish that combines strength building and uncommon deliciousness. Add fruits or honey, for an unusual flavor treat. Sold everywhere in the red and green package. Made by Kellogg in Battle Creek.

The FOOD of FIGHTERS—in its most delicious form

Other Kellogg Products are: RICE KRISPIES • ALL-BRAN • PEP-BRAN FLAKES • KRUMBLE • KELLOGG'S SHREDDED WHOLE WHEAT BISCUIT • KAFFEE HAG COFFEE—The Coffee that lets you sleep!

CHURCHES

CHURCH OF CHRIST
C. C. MERRITT, Minister
The Infallible Man

Of all men, the hardest driver is the "infallible" man—he who never makes a mistake, or will not acknowledge having made one. He is not to be envied. He spends at least one-fourth his energy trying to uphold his reputation and dignity; another fourth trying to be consistent with all he ever did or said in the past, and lengthily explaining what he meant when he said this and so, which requires much squirming and mental juggling; another fourth to defend himself against any who dare assail him and resent any insubordination to his infallible judgment.

This is a weary toilsome occupation. And it leaves only a fourth of a man to do any real, useful work. Besides, he is the biggest sectarian in the world, though he claims to be "only a Christian," and is either a thoroughly self-deceived man or a fraud.

Sunday morning subject, "Heaven—Its Inhabitants." Evening sermon, "A Committee of Four Starving Lepers." Morning sermons are about twenty or twenty-five minutes in length. Come be with us. Last Sunday's audience was the largest since our revival. Bible study was on the increase. Mid-week meeting, Wednesday, 8:30 p. m. Ladies' Bible class each Thursday, 3 p. m. "A church with a friendly spirit."

LAKE MICHIGAN LASHED

BY SEVERE "NOR'EASTER"

CHICAGO, July 19. (AP)—A furious nor'easter lashed Lake Michigan yesterday and early today, causing thousands of dollars loss in lakefront damage. Fifteen-foot waves battered lakefront apartment buildings, tore craft from moorings, and swept over streets, beaches, and parks.

Mariners described the storm as the worst in 20 years. Excursion steamers and freighters fought their way with difficulty through the tumbling waters. Most of them docked an hour or more late.

Mr. and Mrs. Bert Isbelle and sons Joe and Bert, Jr., left last night for Durham, where the boys will spend the remainder of the summer with relatives. Their parents will return in a few days.

About New York

By RICHARD MASSOCK

NEW YORK—Broadway begging rackets are usually so obvious that only the more glib give them a tumble.

A bit of originality, however, has given applied with considerable success by an aged negro who operates just outside the Moxy theatre.

He goes into his act at about 5 o'clock as the big rush comes out after the last afternoon show. Shuffling past, he drops candy from a bag held in a shaking hand. Then he begins crying over the spilled sweets on the sidewalk.

The boys in a nearby magazine office watch him nearly every evening and report that sympathetic passerby contribute enough to the old man's candy fund to keep him well-supplied with porkchops, too.

handball, tossing medicine balls or running around an improvised track.

Borrowed Tactics

In one block two chow-meineries are bamboo-sprouting where there was only one before. Both are second-floor walk-ups, with entrances side by side, but the second went more completely Broadway by putting up a large sign, extending far out above the sidewalk and dwarfing the adjacent place which theretofore had got along well enough without electrifying its name.

Not to be outdone, however, in modern business methods, the one whose territory had been invaded erected a sign almost even with that of the newcomer and but a few inches from it. As a result, persons approaching from one direction see only the first sign and those from the opposite direction only the other. If it works out right, the two will divide the block's business on that basis.

Dress Club

This column recently relayed reports of an effort to organize a gown-month club. It now learns more about the scheme. The idea is this:

A woman agrees to pay a shop \$2 a month, which entitles her to buy a new dress every month at cost. Thus if the gown of her selection cost the retailer \$13.95, the customer would get it for \$15.95.

The profit being small, success of the plan would depend on the number of customers in the club. But that is not the reason some shops are refusing to adopt it.

Knowing the New Yorker's suspicion of a gold brick, however real it might be, they fear that most women, not understanding the principles of large-volume selling, would doubt the price tags and suspect the shop of marking them above the actual wholesale cost.

Good-Will Gesture

Speaking of trade methods, an engraving plant on Seventh avenue has outfitted the roof of its building as a gymnasium and, in addition to employees, the firm's friends and customers are permitted to go up for workouts.

The neighbors report that 10 to 25 men usually may be seen during the lunch hour or afternoons, playing

It's the regular savings that count the most. When you trade at Piggly Wiggly stores day by day you are assured of regular savings.
