

STALLWORTH COUNSEL READY

ATTORNEY GENERAL RULES AGAINST FREE FIGHT

ARMIES OF MEN DESPERATELY FIGHTING FOREST FIRES

OKLAHOMA HAS 26 BLAZES TO CONSIDER NOW

Thousands of Acres Are Being Burned Over Rapidly

EXTREME HEAT ADDS DANGER

Critical Situations Reported in Many States

OKLAHOMA CITY, Aug. 6.—(P)—Forest fires today menaced timber land in Southeastern Oklahoma, reports here said. Three men were in hospitals overcome by fighting the flames.

Continued dry weather was blamed for spread of the fires.

George Phillips, state forester, said approximately 300 men were combating the two largest of 26 fires discovered by state forest wardens. He termed the situation critical.

The largest of the fires, which remained uncontrolled, has burned over 5,000 acres near Ringgold, in the line between Pushmataha and McCurtain counties, Phillips said. The second major fire after raging over 1,000 acres near Pine Valley in southern LeFlore county, was believed under control. It was confined between two creeks.

Fighters Very Tired
SPOKANE, Wash., Aug. 6.—(P)—A fatigued army today was fighting doggedly to stem a three sided attack of flames that had swept 36,000 acres in Montana, Idaho, and Washington.

The army, 1,000 and being augmented as rapidly as recruits could be found—reported varying success, but all observers insisted that the continued lack of rain and low humidity which was as low as 12 in some places, was making this one of the most dangerous seasons in history. Federal air patrols working out of Spokane reported that many new fires, none of them large, but all potentially dangerous, had been started in the national forest by lightning.

In Montana at least 12 new fires were reported. Blazes were raging on Trout creek east of Missoula, in the Lolo, Missoula and Blackfoot forests.

Weather Uniformly Good
GRAND MARAIS, Minn., Aug. 6.—(P)—With about 80 miles of lines established around the several scattered fires in Superior national forest, federal officials said today they anticipated no serious trouble unless a high wind arises.

The weather was clear and warm.

TORONTO, Aug. 6.—(P)—The menace of forest fires which had existed for the last month, continued almost undiminished on widely scattered fronts across Canada today.

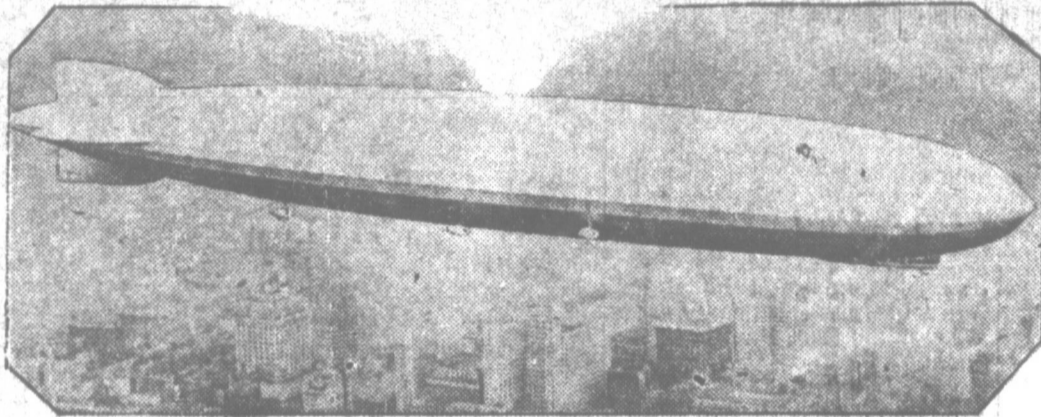

Rain fell during the last 24 hours in many sections of Eastern and Western Canada but did not cover extensive areas and the danger from fire while less in some places still continued serious. So far there has been no loss of life.

Miss Johnnie Moore of Chicago is the guest of her sister, Mrs. F. M. Culbertson.

THE WEATHER VANE

FORECAST
WEST TEXAS: Fair tonight; Wednesday partly cloudy, local thunder-showers in west portion.
—AND A SMILE
NEW YORK (P)—Today's fish story, William Beebe, naturalist, with a radium baited hook caught one with an extensible stomach permitting the swallowing of another fish, three times as large as itself, and a second species that had regular fishing lines with hooks fastened to its flippers.

BROADCASTING FROM GRAF ZEPPELIN

With the Graf Zeppelin, giant trans-Atlantic air liner, nearing America on its second trip from Germany, details of the flight were broadcast from aboard the dirigible by Frank E. Nicholson of the Columbia Broadcasting System. Above is pictured the giant Zeppelin over New York. Below is a close-up of Nicholson and a view of the radio room from where he broadcast the story of the trip through a Columbia relay. He also established two-way communication with an airplane over New York.

Legion Band to Be in Uniform at Concert Tonight

Appearing for the first time in uniform, the Pampa American Legion band will give another concert in front of the Legion home tonight starting at 8 o'clock. The boys will wear their summer uniforms, composed of white trousers and shirts with a dark blue sash trimmed with a gold tassel and white overseas caps trimmed with gold.

Popular marches, waltzes, and fox trots will be played during the evening. The program will include the following:

American Cadet March, R. B. Hall. Dream Train, fox trot, Chas. Newman. Kiss of Spring, waltz, Walter Wolfe. Down Among the Sugar Cane, fox trot, Chas. Tobias.

Symphonia March, Merle Evans. I Can't Give You Anything but Love, Baby, fox trot, Sgt. Ed. Stinson. Tenth Regiment March, R. B. Hall.

Local Men Are Given Offices

Five Pampa men last night were formally installed as state officers of the Veterans of Foreign Wars association. The ceremony was conducted in Amarillo by E. M. Bradley, senior grand commander of the state organization. Pampa has an organization recognized as No. 1657. It was organized at a meeting held May 5 of this year. J. L. Noel was elected commander of the Pampa post. There are more than 30 members.

Those holding office in the state organization are: Lewis O. Cox, deputy chief of staff; J. A. Pearson, deputy inspector; W. C. DeCordova and W. C. Pullen, color sergeants, and A. C. Sailor, trumpeter.

TWO MEN SUSPECTED OF HAVING HELD UP DRILLERS BELIEVED TO HAVE BEEN FULLY IDENTIFIED

Two men are in the county jail here awaiting a preliminary hearing in connection with a hi-jacking case. The two men were arrested yesterday following a complaint received from employees of a drilling well in the Pinley-Brown pool Sunday.

According to the men held up, two hi-jackers with handkerchiefs over their faces appeared at the well and ordered them to "come across." All the robbers got was a tie pin and a few dollars in change. The men were at work on the Dangier Oil & Refining company's test on the Beck lease in section 28, block B-2.

The two suspects were identified by the drillers, Sheriff E. S. Graves said. One of the men arrested has a scar across his nose that corresponds to one on the robber's nose which was noticeable when the handkerchief slipped down. A pair of shoes worn by one of the men fitted perfectly into footprints left in some soft earth around the well, Sheriff Graves said.

They will appear before Justice of the Peace C. E. Cary for a preliminary hearing.

Street Machine Bought by City

The city commission last night purchased a "Hawkeye" street maintainer to add to the machinery now on hand. The new machine was purchased thru E. J. Stark, local man, who is agent for John Deere and Hawkeye machinery.

The new maintainer will be equipped with rubber tires so that streets leading upon the pavement may be graded and kept in good condition. It will be a one-man machine and will have a 14-foot blade. At present, city streets are being kept in order with a grader.

The new piece of machinery was bought at a cost of \$3,600.

Thirsty tourists cooled themselves with approximately 10,000 tons of ice on American railroads this summer.

EVASION NOT APPROVED BY HIS DECISION

Indirect Fee Prohibited by Law, Blalock Declares

WRESTLING WAS PLANNED FIRST

Promoter Would Clear House Then Admit All to Fight

AUSTIN, Aug. 6.—(P)—Plans of Dallas promoters to hold a prize fight to which no admission will be charged Thursday night, reveal "a clear intention to evade the criminal law of this state," Jack Blalock held in an opinion today. "The fact that no 'admission fee' will be charged for the 'prize fight' is a subterfuge intended to evade the plain import of the law which says: 'X-X-X-or to see which any admission fee is charged either directly or indirectly,'" the opinion said.

Promoters had advised Adjutant General R. L. Robertson that following a wrestling match to which an admission would be charged, the house would be cleared and all comers admitted free to the prize fight.

The attorney general's opinion has been asked by General Robertson and was addressed to him.

In a statement issued on the side, Attorney General Claude Pollard, said that the enforcement of "this particular statute is primarily within exclusive jurisdiction of the local prosecuting officer of Dallas county.

No Clues Point to Identity of Unknown Robber

No trace of the robbers who broke into the Thompson Hardware store and Clarence Saunders' grocery store early Sunday morning have been found, Sheriff E. S. Graves said this morning. The officers have no clue to work on excepting tire tracks of a car or truck that was backed up to the back door of both places.

The robberies were committed after 5 o'clock Sunday morning, according to Clarence Barksdale, night watchman. Mr. Barksdale says he made his last rounds about 5 o'clock in the morning and everything was quiet at that time.

It is believed the robbers watched the nightwatchman make his last rounds and followed him, breaking into the stores after he had passed. Several other places on Cuyler street show evidence of attempts to gain entrance.

A cash register containing \$15, with three revolvers, and a rifle were taken from the Thompson Hardware. Some merchandise and \$4 in cash was stolen from the grocery store. Entrance to both places was made at the rear by prying open doors and windows.

Moody to Furnish Reward for Shook

WICHITA FALLS, Aug. 6.—(P)—A reward of \$150 has been posted by Gov. Moody for the capture of Tom Shook, former Electra police chief, who has been a fugitive from justice since a spectacular break from the Wichita county jail in August, 1928, it was learned here today.

The reward is to remain in effect for three months from August 2, copies of the proclamation have been received by officials here.

Several indictments are pending against Shook, one of which charged murder in connection with the fatal stabbing of Oscar Daugherty, a truck farmer.

TEXAS RANCHMAN DENIES HE WAS KILLED IN FIGHT

EL PASO, Aug. 6.—(P)—Marcus Snyder, prominent cattleman, today came to El Paso to deny a report circulated yesterday that he had been killed in a battle on the D. ranch near Van Horn, Texas.

The report, from apparently reliable sources, was corrected yesterday that Snyder and two Mexicans had been killed in a battle on the ranch. Officers were making efforts today to apprehend the person who started the story. Snyder said he believed enemies who wished to hurt him in a business way circulated the tale.

NEVADA DAM IS SWEEPED AWAY BY FLOOD WATER

LAS VEGAS, Nev., Aug. 6.—(P)—An eighty-six foot dam across the Virgin river near Little Field, Ariz., was swept away late yesterday by flood waters from the nearby mountains and large numbers of livestock were drowned, it was learned here today. Ranchers in the valley escaped by fleeing to higher ground.

The dam was under construction and was about half completed. Approximately 15,000 acre feet of water had been impounded before the concrete wall burst and water swept over the valley.

Inhabitants had been warned several hours before of the weakened condition of the structure and had deserted the endangered section. As far as could be learned, no lives were lost.

Hogs and cattle grazing in the valley could not be driven to safety in time, however, and virtually all livestock in the vicinity was lost.

Texas Gusher Is Doing 300 Barrels Hourly by Gauge

During first 24 hours after being brought in, the Texas company's No. 9 Bowers in the east half of section 89, block B-2, flowed 7,956 barrels of high gravity oil.

Big pay in the granite wash formation was encountered Sunday afternoon. The hole was bottomed at 2,980 feet when the heavy flow started. Gas was found at the same depth and the flow of oil continued to increase during the first day. This morning the gusher was flowing 300 barrels an hour.

The same company has three more tests in the same section on top of the pay. Several other major companies have tests ready to bring in and next week is expected to be a big week for producers.

South of Alanreed in Donley county, the Alanreed Oil company's No. 1 Ball is standardizing at 1,910 feet and getting ready to drill ahead. W. M. Agey's string of tools has been moved in and it is expected drilling will begin Friday.

This test is being watched with interest. It is ten miles from nearest production.

Water Consumption Doubles in Year

Pampa citizens used approximately twice the amount of water during July of this year that was used during the same month last year, statistics compiled by the water works department showed this morning. Last month 25,943,750 gallons of water was supplied consumers, the figures revealed.

Last year the amount barely exceeded 13,000,000 gallons. Two new wells have been added to the water works system and additional storage and booster facilities are under construction.

BOARD TO MEET
The board of equalization of the Pampa Independent school district will meet here August 15. Sessions will be held at Central high school.

CONTINUANCE MOTION IS NOT TO BE MADE

Amarillo Woman Must Face Second Murder Trial

HUNG JURY IN PREVIOUS CASE

Next Attempt Is to Open in Canyon on Monday

AMARILLO, Aug. 6.—(P)—Attorneys for Mrs. Levi P. Stallworth of Amarillo, charged with the slaying of Mrs. Grace Morrison of Plainview in front of a hotel here on May 13, said that they would announce ready for trial when the case is called at Canyon next Monday.

The case transferred to Canyon on the initiative of Judge Henry S. Bishop after the first trial here had resulted in a hung jury.

Repair Work Is Cause of Water Shortage Today

Pampa's water supply was cut off for about two hours this morning when work started at the water wells last night was not finished before the supply on hand has been exhausted. The water was "off" from 5:30 to about 7:30 a. m.

City Manager F. M. Gwin said this morning that connections for the new booster pump to be installed at the water works department would not fit properly and that the work took several hours longer than expected. Mr. Gwin and five employees worked all night on the job.

Work of laying the foundation for the new booster pump and its installation will be carried on immediately now that underground connections have been made. The new pump will "boost" 1,000 gallons a minute into the city water tanks.

Tax Committee Is Named Here By Royalty Men

A group composed of Mel B. Davis, J. E. Williams and one other to be named was appointed last night as a tax committee to represent royalty and landowners of this county in getting a uniform assessment for oil property. The appointment was made following a meeting in the Chamber of Commerce rooms presided over by E. G. Bedford of Midland, president of the Mid-Continent Royalty Owners association of Texas.

W. M. Blevins of Midland, field manager of the company, was present. Eighteen landowners joined the association following last night's meeting.

The committee appointed will take immediate action, conferring with county commissioners regarding taxable oil property in this county. Taxes on oil property has varied considerably in the past and the new association is working to get a uniform adjustment.

MADISON, Wis., Aug. 6.—(P)—A proposal to put Wisconsin into the business of manufacturing and selling liquor was defeated in the senate today. The measure, by Senator Ben Gettleman of Milwaukee, would have amended the state constitution which prohibits the commonwealth from entering private business.

Gettleman contends the 18th amendment would not apply to any state distillery.

Pampa Daily News

Published every evening (except Saturdays), and on Sunday morning by the News-Warren Publishing Company Inc., 322 West Foster.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

It's Like This

COMPLETION OF LONG PAVING STRIPS in the Pampa handle brings up forcibly the question of proper speed limits on the highways.

The primary cause of traffic accidents is not speed. Some persons are highway menaces at any speed.

Sooner or later Texas will have to license motorists and provide for suspension of reckless drivers.

MEXICO'S PROGRESS, slow in character, is reflected in her press.

The new government, the agrarian elements, and organized labor have no press.

Communism is a threat in Mexico. El Machete, while supposedly suppressed by the government, nevertheless is printed and copies of it reach the newstands.

Travelers say they can learn more of Mexico from the American press than they can from the Mexican newspapers.

which will eventually link the capital with the border gateway of Laredo.

Texas and Texans should follow with interest all authentic accounts of progress in the neighbor republic.

INTOLERABLE PRISONS

The number of prison revolts that are occurring over the nation, with the treatment of convicts being given as the reason, should direct the attention of Texans to prison conditions in this state.

It has said that there is no appearance of willful brutality in the conduct of the prison farms; but there is every evidence of the baneful effect of poor housing, of overcrowding and of the lack of necessities of sanitation.

On first consideration this may seem a rather mild indictment, but a study must convince one that it is surprisingly inclusive, and may be interpreted as meaning that conditions on the whole are deplorable.

When Texas takes away the liberty of an individual, it assumes an obligation to look after his interests, including his health and, in a measure, environment that may influence his life.

Texas is able to provide for those whom it finds necessary to deprive of their liberty.

Sweetwater is going to spend \$3,700 on the official opening of her new airport.

WASHINGTON LETTER

BY RODNEY DUTCHER
WASHINGTON—Washington is always aware of the fact when employment conditions are bad over the country.

A good percentage of them lined up at the federal employment service station on Pennsylvania Avenue.

There were more than 61,000 persons who registered at the office during the year-ended July 1, but last year there were nearly 80,000.

Lately in attraction at the capital has been the government's big building program.

Conferring on President Hoover and Secretary of State Stimson of the Peruvian Order of the Sun reminds your correspondent of a story heard in Peru last year which dates back to the early days of that illustrious and aristocratic order.

The Order of the Sun gave a large banquet to celebrate its gift to one of Lima's many cathedrals of a massive pair of solid silver candlesticks, which were displayed proudly on a table.

A strong gust of wind came along suddenly and blew out all the lights.

When they were lighted again the other candlestick had disappeared.

had disappeared. This story was vouched for, but no one seemed to know whether the sticks had been recovered.

The new Democratic publicity bureau, operated by Charles Michelson under the general direction of Jonett Shouse, is producing results with its daily attacks on the Republicans and their tariff efforts.

The Michelson method has been to send the correspondents at least once a day a denunciatory statement from some member of Congress.

TWINKLES

It is positively remarkable how during this oppressively hot weather, Texans can get up enough energy to announce for office.

Our robbers took along some pistols, so perhaps we may look forward to bigger and better robberies in the future.

Maybe our policemen need uniforms, but it would be inhumane to insist upon the custom at present.

Will somebody start a movement to make trips more comfortable for stowaways.

The police of the nation have their hooks out for these Tong offenders.

To judge by the unrest of convicts over the country, you would think they dislike their particular brand of hotels.

OLD PETE IS TRYING FOR PITCHING RECORD

ST. LOUIS, Aug. 6.—Grover Cleveland Alexander today was gunning for a new all-time National league pitching record.

Getting Tired Taking Everybody's Dust!

OUT OUR WAY

Arson Theory Is Believed Proved

KANSAS CITY, Aug. 6 (AP)—Durwood M. Dalley, operator of a drug store mysteriously blown up during a fire yesterday, supported the police theory today that an arson plot was responsible by giving five names to the police. The blast took the lives of three firemen and injured eleven others. Three of the men named are under arrest, with Dalley and two, one believed to be leader in the plot, are being sought. The alleged leader, Dalley said, financed the drug store for him and instructed him when he opened it, to take out \$5,000 insurance. Two of the men arrested with Dalley are John L. "Pat" Crowe and D. L. Piegott, police say. Piegott was identified by Warren McBride, 14, a delivery boy, and Donald Beaumont, 16, a clerk, as the man they saw carrying large bottles containing liquid into the basement. Piegott said the floor appeared to have been covered with inflammable liquid. Names of three other men mentioned by Dalley, one of them being held, were not made public by the police. Save on that odd piece of furniture—Malone's close out sale of odds and ends.

Initiation Service For Two Held by Eastern Star

Mrs. S. A. Burns and Miss Katherine Vincent were initiated last night into the Order of the Eastern Star, in an impressive ceremony conducted by Mrs. Wilson Hatcher, worthy matron. At the close of the service, Mrs. T. H. Barnard, deputy grand matron, addressed the new members on the work of the order. A delightful program, including a piano solo by Mrs. F. P. McKimling, a vocal solo by Mrs. E. A. Webb, and a reading by Miss Vincent, followed during the social hour. Forty members of the local chapter and visitors in the city attended the meeting.

Meteor Showers Will Be Visible on Next Sunday

PHILADELPHIA, Aug. 6 (AP)—The beautiful "Tears of St. Lawrence," as the Perseid meteor showers sometimes are called, are due for their annual visitation to earth Sunday night, Aug. 11. The best time to look for them is between midnight and dawn, in direction of the constellation Perseus, their "radiant," the position from which they come, rises in the northeast shortly after dark, and is not far from directly overhead at dawn. The name "Tears of St. Lawrence" was given them by the rich peasantry more than a century ago. Astronomical records identified them about 1,100 years ago.

"Of all the annual showers they are the most certain to return with average richness," said Dr. Charles P. Olyver, professor of astronomy at the University of Pennsylvania and president of the American Meteor Society. "Also, as they come in August, excellent opportunity for a person, casually interested in meteors, to see a good shower. While quite numerous from Aug. 5 to 15, particularly after midnight. Many of the Perseids leave very bright and enduring trails, which being beautiful phenomena, add to the interest."

State Rests in Trial of Snook

COLUMBUS, O., Aug. 6 (AP)—The State rested its first degree murder case against Dr. James H. Snook, former Ohio State university professor, shortly before noon today after completing its picture of his three-year-old affair with Thora Hix, the medical student he is alleged to have killed. Final details of the story were told by Howard Lavelly, county detective, who testified in regard to the questioning of Dr. Snook that resulted in his confession last June 20 that he beat the 24-year-old co-ed into unconsciousness after a quarrel and then cut her throat. Approximately five days were required for the state to put into the records the evidence on which it seeks to send Dr. Snook to the electric chair. The story includes some of the details of the friendship starting in 1926 between the 49-year-old professor and the girl who came to his department at the university as a stenographer; of the room they shared as man and wife; and of the trip to the lonely rifle range where Dr. Snook admitted killing her.

China Will Not Accept Demands of Russia on Road

NANKING, China, Aug. 6 (AP)—The foreign office of the nationalist government announced today there was a deadlock at the conference between Russia and China, over seizure of the Chinese eastern railway, which has been in progress at Manchul, Manchuria. The Nationalist authorities were unable to accept the Russian demand for reinstatement of the Russian associate managers in the railway before the opening of formal negotiations. The foreign office instructed Chinese Minister Wu at Washington to notify signatories of Kellogg pact as to the discussion in full detail.

Picnic Is Given for Visitors

Mr. and Mrs. E. E. Emerson and Miss Mary Camuse entertained with a picnic Sunday evening for Mr. and Mrs. Amzi Ikard of Anthony, N. M., who are visiting them and other relatives. Included in the party were the following:

Mr. and Mrs. J. M. Ikard, Mr. and Mrs. Lynn Boyd, Mr. and Mrs. A. B. Zahn, Mr. and Mrs. C. C. Boles, Mrs. A. D. McNamara, Miss Elizabeth Boles of Fair, Okla., Miss Lucille Schaffner, Tom McGarrity, Martin McGarrity, John Friedman, Mr. Loke and the honored guests, Mr. and Mrs. Amzi Ikard.

Mr. Ikard is the son of Mr. and Mrs. J. M. Ikard, the brother of Mrs. Emerson, and Mrs. Lynn Boyd, and a cousin of Miss Camuse.

Principal in Plane Wedding Kills Self

HOUSTON, Aug. 6 (AP)—While funeral services were being arranged today for Mrs. C. O'Meara, 32, of Houston, who died of a pistol-shot wound last night, Mrs. J. R. Hester, 44, of Ennis was found dead at the rear of her brother's home in Kensington addition here. Mrs. Hester left a note bidding her relatives good-bye. Justice Campbell Overstreet said poison caused her death. A verdict of suicide was returned in Mrs. O'Meara's death. Several days ago she received considerable publicity when she was the bride in an airplane wedding over Lake Charles, La. A short-time later Mrs. O'Meara had the marriage annulled.

QUANAH IS HOTTEST

DALLAS, Aug. 6 (AP)—Quanah with 108 degrees, reported the highest temperature in Texas yesterday to the government weather bureau here. A number of points recorded 106 degrees. El Paso which had escaped the intense heat here, reported a temperature of 94. The bureau predicted continued warm weather for the whole state.

FIRST COTTON RECEIVED

GREENVILLE, Aug. 6 (AP)—Hunt county's first bale of cotton of the 1929 season arrived here yesterday, 8 days earlier than last year's initial bale. The cotton was raised by Charles Wheatley, near Campbell, and brought 18 1/2 cents a pound.

Mrs. Alta Stanard and children and Mrs. Roy Sullivan and her two sons will leave today for Marble Falls, where they will visit the parents of Mrs. Stanard and Mrs. Sullivan. From there they will go to Galveston, San Antonio, and other points of interest. They plan to be away three weeks.

Mrs. S. M. Mitchell of Oregon, Mea, who has spent the last two months here in the home of her son, Dr. W. C. Mitchell, left today for Oklahoma City, where she is to visit before returning home. Dr. Mitchell accompanied her, and will go from Oklahoma City to Chicago to market for the Mitchell store.

Mrs. W. D. Nicholson of Terrell is visiting her daughter, Mrs. W. T. Frasier.

Disappearance of Border Patrol Man Detailed to Officers

DEROIT, Aug. 6 (AP)—Both sides of the story of the disappearance of Richard J. Sandland, federal prohibition agent attached to the customs border patrol, missing since early Saturday when he boarded a cruiser suspected of irregularities in the Detroit river, was in the hands of customs authorities today.

Maxine Heath, 24, wife of John M. Heath, elevator mechanic, appeared voluntarily before customs officials last night and told her version of the affair. Sandland was last seen after the seizure of their boat. Max H. Finkelman, attorney for Heath and his wife, said he would attempt to locate Heath and bring him to the customs office for questioning today. Mrs. Heath told the customs officials Sandland was last seen after her husband had escaped from him during a struggle in the river.

Fur cuffs and collars are in vogue for the season. Everything in the entire stock is NEW. The innovations for the season in dresses are frocks with finger-tip length coats and modernistic designs in sport materials. These are beautiful new transparent velvets, transparent velvet and georgette combinations, and the usually good crepe-back satins. Beautiful new lingerie in newest patterns and styles. See the Whoopee Pajamas, also the novelty tuck-ins. You will like to shop here.

A NEW SYMBOL OF A GREATER SERVICE

Two old established oil companies join forces better to serve their millions of customers

A STATEMENT

The consolidation of the Marland Companies and the Continental Oil Company has combined the producing, refining and marketing facilities of these widely known manufacturers and distributors of petroleum products.

The high standards of manufacture which have established and maintained the reputation of the high quality products heretofore sold under the Conoco and Red Triangle brands will be strictly maintained.

The same chemists and engineers, the same refineries and, above all, the same policies, will support the new trade mark . . . "A new symbol of a greater service."

Big Profits Are Seen in World Trip of Zeppelin

LAKEHURST, N. J., Aug. 5. (AP)—Work of refueling and replenishing the German trans-Atlantic dirigible Graf Zeppelin went forward today in preparation for her departure at midnight tomorrow on the first leg of a globe-circling air voyage.

Dr. Hugo Eckener, her commander, will head his giant air liner back to her home port, Friedrichshafen, Germany, from whence she arrived Sunday. From there the airship will continue eastward around the world, with stops at Tokyo and Los Angeles, Lakehurst, and back to Germany, a total of 22,000 miles.

On the first flight to Friedrichshafen the Graf Zeppelin has booked 18 passengers, some of whom have made reservations for the world tour. She also will carry freight and mail.

Three passengers have been booked for the trip around the world by the Hamburg-American line in New York. American agents for the Zeppelin. They are Joachim Rickard, a writer of Brockton, Mass., who was a passenger on the westbound trip, Otto Hillig, a photographer of Liberty, N. J., and a person whose name was not disclosed.

As a result of a golf bet that he lost, Nathan Weisler will pay his own passage and that of William Weber, at least as far as Friedrichshafen. They are both New York hotel owners. They have not decided whether to make the world tour.

Other passengers listed to make the trip to Germany include: Morris Shumofsky of Bridgeport, Conn., Lady Drummond Hay, Dr. Lasser Klep of Berlin, and Dr. Walter H. Spies, German minister of transportation. The last two were passengers on the trip over.

Mails for the Zeppelin were ordered closed at 2 o'clock today by the post-office department.

The freight for the return trip, while not as heavy as on the westward trip, includes two automobiles, tires, two packages of films, a typewriter, a book, a case of advertising material from a Cleveland firm, a case of scientific instruments and a case of fly powder.

Virginia Primary Used as Effort to Oust Republicans

RICHMOND, Va., Aug. 5. (AP)—Virginia's embattled Democrats hosts were choosing a champion today to lead them in an effort to drive Republicans beyond the Potomac.

Factional differences, characteristic of southern states which Democratic nomination is equivalent to election, was conspicuous by its absence in the Democratic primary campaign that closed last night, the three candidates for nomination for governor calling upon the voters to participate in today's primary regardless of their choice for party nominee.

John Garland Pollard, a William and Mary college professor; G. Walter Mapp, a former state senator, and Rosewell Page, brother of the late Thomas Nelson Page, were the candidates for the gubernatorial nomination. James H. Price for lieutenant-governor and John R. Saunders for renomination as attorney general had no opposition.

While Democratic leaders declared a somewhat general apathy would prevent the primary becoming a test of Democratic strength, local elections in several sections were expected to aid in bringing out a vote of close to 150,000. Several cities had large local tickets, about names appearing on the ballots in Richmond. Nominations were to be made for four vacant state senate seats as well as for the entire house of delegates.

The anti-Smith Democrats, who refused support of the party's national ticket last year, made a vigorous effort to keep last year's anti-Smith Democrats from entering the primary so that they might be morally free to support in the general election, Dr. William Moseley Brown, nominated for governor by both anti-Smith Democrats and Republicans. Dr. Brown began his campaign before the primary and in addresses in the past week has vigorously denounced "Raskobism" in the Democratic party.

BOMBERS IN AMARILLO
AMARILLO, Aug. 5. (AP)—Two of the nine Martin bombers on a flight from Langley field, Va., to the west coast landed at the municipal airport here early today and later proceeded west. No information was obtained as to the progress of the other planes.

BAND SIGNED UP
DALLAS, Aug. 6. (AP)—A contract has been made with the Cowboy band of Simmons university, Abilene, by the Texas State Fair association for the band's services during a rodeo at the exposition here in October, it was announced today.

Lucille's Smart Shoppe to Open Here Tomorrow

Lucille's Smart Shoppe, Pampa first very small establishment dealing in all kinds of women's apparel, will be opened tomorrow. It is in the west end of the Pampa National Bank building, in the rooms formerly occupied by the Gray County Abstract company.

Miss Lucille Stevens is the owner. She has small shops of her own elsewhere, and has been with Neiman Marcus of Dallas both as buyer and saleswoman. She was lately with Emil Blum of San Antonio.

The quarters of the new shop, formerly one big office room, was completely refitting and a partition built to form a dressing room behind the diminutive shop. The decorations and furnishings, to the last detail, are in the modernistic manner, which by their simplicity create an illusion of added space, and at the same time form an attractive background for an extensive line of coats, frocks, millinery, and lingerie. Bands of Chinese red on the French ivory woodwork, handsome drapes, a colorful rug and large mirrors lend the shop distinction. The show window is backed with glass and painted wood paneling.

FARM COUNSEL CHOSEN

WASHINGTON, Aug. 6. (AP)—George E. Farrand of Los Angeles today was selected as general counsel for the federal farm board. The announcement by the farm board said that Mr. Farrand was particularly experienced in law relating to co-operative marketing.

Mrs. Jack Boyd of Denver is a guest in the home of her brother-in-law, Lynn Boyd, and Mrs. Boyd.

SERIES OF ARRESTS MAY SOLVE TEXAS BURGLARIES

CORPUS CHRISTI, Aug. 6. (AP)—Solution of burglaries in four counties in which more than \$4,000 worth of merchandise was taken was expected to result from a series of arrests which county deputy sheriffs have launched, after a long investigation. Six men were in jail today and at least that many more were sought. Among the robberies which are expected to be explained was that of the Santa Mercantile company in which about \$3,000 worth of goods were lost. Smaller robberies at Austwell, Edcouch and Driscoll were attributed to the same gang.

TEXANS TO SEEK MORE FRUIT FLY PROTECTION
LAREDO, Aug. 6. (AP)—Increased appropriations to assure Texas freedom from the Mediterranean fruit fly, now prevalent in the Florida citrus area, and the Mexican fly which infests territory across the line will be asked of the United States department of agriculture as a result of a meeting held here last night.

**"DESERT SONG"
ONE OF SCREEN'S
BEST OFFERINGS**

"The Desert Song," Warner Bros. latest Vitaphone novelty—a complete screen operetta with music, songs, choruses, dances, dialogue—has scored a magnificent success upon its presentation in this city at the Rex theatre. It is a novelty, but an enchanting one, and points the way to still greater triumphs for talking and singing pictures—the production of entire grand operas upon the screen.

"The Desert Song" retains all the charm, color, action, romance and tropic love of the stage production, but greatly enhanced by the motion picture camera's power of motion. The desert scenes were made in a desert and not in front of painted backdrops. The desert castle of Caïd, with the splendors of its Oriental architecture, would fill several stages. The story gains in dramatic power and picturesqueness because of the natural backgrounds.

Warner Bros. were fortunate in being able to select a cast of such excellent singers, most of whom have had both stage and screen training. John Boles, tenor lead, sang the same role in the stage presentation of "The Desert Song" and has been a screen leading man for several years. Carlotta King, lyric soprano, is a concert and radio artist of note. Their voices register perfectly on Vitaphone, are true in tone and sweet in quality.

The story is that of a Frenchman who becomes a sort of Robin Hood of the desert, helping to right injustices to the natives. Disguised as the Red Shadow, he leads a band of desert tribesmen. His father, commander of the French garrison, seeks to capture him. He loves Margot, his father's ward, and makes love to her in his own person and as the Red Shadow. In the latter character, he kidnaps her and, refusing to fight a duel with his own father for her possession is deposed by the tribesmen, and sent out in the desert to perish. He returns as the heroic vanquisher of the Red Shadow and Margot discovers that her two lovers are the same person.

"The Desert Song" is one of the best entertainments the screen has ever offered.

MOORING MAST REMOVED

FORT WORTH, Aug. 5.—(P)—The mooring mast here at which the dirigible Shenandoah and Los Angeles have tied up to take on helium gas is being dismantled by the government. The mast was erected several years ago near the United States helium production plant. The plant has ceased operation and helium extraction from natural gas is now centered at Amarillo. The mast material will be stored until the government decides what will be done with it.
