PAMPA TO GET DAILY PLANE SERVICE OF BRANIFF LINE

AVIATOR FOR COMPANY HAS DRAWN PLANS

City Is on Tulsa to Amarillo Route of Firm

TWO STOPS ARE OUTLINED HERE

Pilot Much Pleased by Location of Airport

An airplane passenger connection for Pampa, with stops to be made twice daily on a Tulsa-Pampa-Amarillo route has been announced by the Braniff division of the Universal Aviation corporation, one of the largest in the country. Service is expected to begin Wednesday.

J. D. Lewis, operation manager of the line, landed at the local airport yesterday afternoon at 3 o'clock and conferred with Board of City Development and West Texas Air Service officials. Mr. Lewis was flying a 3-passenger cabin type Stearman-Detroit monoplane. He left here at 3:30 o'clock for Amarillo. Mr. Braniff planned to make the trip but at the last minute was unable to come.

No definite time table has been made but Mr. Lewis said he expected the west stop would be made here about 11:30 every morning and the afternoon stop about 2:15 o'clock.

Landing will be made on the local field a mile from the heart of the city. Mr. Lewis said the Pampa port was better located than any he had yet visited on the route. He is sure Pampa will become an aviation center.

The Braniff line will make connections with the T. A. T. cross-continent planes at both east and west terminals. Besides this route the Braniff division operates passenger lines between Tulsa and Oklahoma City, making six trips daily. Other lines go from Oklahoma City to Dallas and Fort Worth; Tulsa to Dallas and Fort Worth; Tulsa to San Angelo and Tulsa to Waynoka and Seminole.

The Braniff line is a part of a great system of passenger lines operating over the entire country.

Mr. Lewis is an ex-war pilot. He joined the Canadian air force in Winnipeg, Man., and trained in Toronto, Ont. He went overseas with the Canadian force and served two years in France. On his return he went in for commercial flying. His chief flying since that time has been in the north. This was his first trip over the Panhandle, he said.

Third Man Is Charged in Forgery Investigation Here

Peck Lewis, a third member of a party arrested Wednesday afternoon after forged checks had been passed here and at LeFors, appeared before Justice C. E. Cary yesterday morning and was charged with passing forged instruments. His bond was set at \$1,000.

Rudolph Pettiet and Cecil Duckworth, charged with the same offense, were remanded on \$1,500 and \$1,000 bond respectively Thursday afternoon. The charges followed the entry of the Wilcox Oil & Gas company's office Tuesday night, when several checks were stolen.

Some of the stolen checks are still out and merchants are warned not to cash any Wilcox checks numbered 1129, 1132, 1134, 1136, 1137, or 1139. Five checks have been cashed for amounts varying from \$68 to \$91. Three other checks, made out, are in the hands of Sheriff Graves.

Scouts Off for World Jamboree

Here are some of the American Boy Scout and scout executives who'll attend the world jamboree of the organization at Birkenhead, England. They're pictured as they sailed from New York. Three officials above, left to right, are Chief Scout Executive James West, Scout Commander Dan Beard and Frank Presby, chairman of the American Committee of the Boy Scouts.

FREE MAIL DELIVERY ROUTE APPROVAL IS GRANTED—EACH HOUSE TO HAVE LETTER BOX

Funeral Home Will Be Opened by Stephenson

Announcement that the Stephenson Furniture company will establish a funeral home and ambulance service was made yesterday. A brick building, 50x140 feet, will be started at once near the company's store on South Cuyler street.

It is expected that the building will be completed and the service started within 35 days. According to E. B. Stephenson, who will be manager, the latest type ambulance and funeral car will be purchased. A chapel for funeral services will seat 150 persons.

The assistant manager will be Morrison G. Rupp of Slaton, N. M. He is a licensed embalmer and experienced funeral director. He is a graduate of the Worsham Training School of Embalming, Chicago.

The opening date of the new funeral home will be announced later.

KESSLER PLAN EXPERT TO BE SPEAKER HERE

Members of the Chamber of Commerce have been notified to attend the next monthly luncheon, which will be held at the Methodist church basement tomorrow.

The luncheon will begin at 12 o'clock and will end exactly at 1:15 p. m. The principal speaker will be John Surratt, secretary of the Kessler Plan association of Dallas, who will make a survey of the city and will give ideas on beautification and development.

Mrs. W. M. Murphy and daughter, Miss Helen of Borger spent yesterday here with Mr. and Mrs. J. H. Lutz. They lived in Pampa until recently.

Mr. and Mrs. Lon Blacett will leave this morning for Cheyenne, Wyo., where Mr. Blacett will take part in the world-famous-Cheyenne rodeo.

GRAIN MOVES MUCH SLOWER FROM FIELDS

Nearly All Fields in Area Turned to Stubble

TOTAL CROP IS NEAR ESTIMATE

Area About Pampa to Reach 1,750,000 Bushels

Under reports of showers in the Canadian provinces, followed by slightly lower Liverpool quotations and speculative profit-taking, and further complicated by the embargo on shipments to the congested Galveston port, wheat broke 3 7/8 cents on the Chicago board of trade Saturday and forced local cash wheat down to \$1.04 per bushel.

Exporters were helping grain buyers keep cars moving where local storage was full, but the inclination to ship was at a low ebb. Shipments to other ports or to mills were planned, however. Local buyers were frankly uncertain of their ground, but since the movement from the farms has slowed down greatly with 96 per cent of the crop cut, no serious trouble was anticipated.

Dealers had expected the market to remain steady or break slightly, but the close, 3 1/4 cents to 3 7/8 cents under Friday's final figures, was attributed to haste by speculative holders in seizing a favorable moment to realize profits.

Approximately 900 carloads of wheat had been shipped from Pampa, Kingsmill, Hoover, and Heaton, yesterday, with possibly 50 carloads in storage or upon the ground. Enough of the crop is still in farm storage to raise the section's total to 1,750,000 bushels or more, it is estimated. A few farmers have yet to sell a single bushel.

Sheriff Buys Machine Gun to Add to "Arsenal"

The sheriff's department is equipped with a Thompson machine gun firing 45 calibre bullets at the rate of 100 a minute. Sheriff E. S. Graves bought the gun from the First National bank. He has it on display in his gun case and is quite proud of the addition to his arsenal.

The gun, one of the latest models manufactured, can be adjusted to shoot one bullet every time the trigger is pulled or in bursts of from three to six shells as trigger action. He has instructed his deputies in the use of the gun. It weighs about 10 pounds and shoots from the shoulder like an ordinary rifle.

Legion Is Calling Joint Session

A joint meeting of Legionnaires, ex-service men, Veterans of Foreign Wars, auxiliary, and 40 and 8 members will be held in the Pla-Mor auditorium tomorrow night. The meeting, under the auspices of Kerley-Crossman Legion post, has been called for 8 o'clock sharp and every person is urged to wear Legion or army caps.

Commander Frank Culbertson has sent special letters to members of the local post and ex-service men, whose names he has, inviting them to attend the meeting. He says that those who have not received letters are urged to attend the meeting and register their names.

Mrs. C. B. Akers returned Friday night from Denver, where she and her little daughter, Shirley, have spent several weeks. The little girl remained with her grandmother.

Active Drilling in Gray Must Halt Production Loss

Panhandle daily oil production of the last week slumped 2,515 barrels when no new producers of note were brought in. Hutchinson county was hit hardest, production from that county dropping to a new low level. Gray county also showed an expected decline.

Carson and Moore counties showed the only Panhandle gains, and these for only small amounts. With the exception of two small producers, activities in Gray county consisted of active drilling. More than 100 tests are going down in various pools and wildcat territory.

On Friday the Texas company's No. 4 Williams in the northwest quarter of section 6 block 1, A. C. H. & B. survey, encountered the granite wash pay and swabbed 98 barrels the first 12 hours without lowering the oil in the hole. Yesterday 1,500 feet of oil stood in the hole while preparations were

made to deepen. The test was bottomed at 2,780 feet.

In the McCannell pool west of Pampa, the Shell Oil company's No. 3 McCannell in section 174 block 3 J. & G. N. survey, topped granite wash pay Friday at 3,165 feet, and shut down to straight steam.

Production by counties: Carson—7,507 barrels, a gain of 254 barrels. Gray—56,783 barrels, a loss of 1,094 barrels.

Hutchinson—24,340 barrels, a loss of 1,588 barrels. Moore—1,250 barrels, a gain of 50 barrels. Potter—No production, a loss of 10 barrels. Wheeler—606 barrels, a loss of 128 barrels. Total—90,486 barrels, a loss of 2,515 barrels.

LEGION BAND WILL PLAY AT BOY SCOUT SERVICE TODAY—PRESIDENT HILL WILL SPEAK

The Pampa American Legion band will play a prelude this evening in connection with the all-church service on the Boy Scout movement. Scout Executive C. A. Clark of the Adobe Walls council, Scout Commissioner Scott Barcus, and other officials will attend. The principal address will be by President J. A. Hill of the West Texas State Teachers' college, Canyon. Mr. Hill is widely known as one of the most thought-provoking speakers of this section, and the topic assigned him is one that he often uses.

The combined service will be held at the Methodist church auditorium, beginning at 8:15 p. m.

PAMPA LAUNDRY PURCHASED BY EL RENO, OKLA. MAN

Pampa laundry, established three years ago this month by Harion Howard, has been sold to V. R. Mordy of El Reno, Okla., and possession will be given July 29, Mr. Howard said yesterday.

The big plant in its entirety was sold for approximately \$50,000, including the dry cleaning plant operated in connection.

Mr. Howard said that he would not immediately leave Pampa, but that he intends to resume his connection with the laundry business in some other city. He recently sold his plant at Wink, but still retains half interest in a laundry at Kermit.

He has been in the laundry business many years, having at one time been connected with the Amarillo Laundry and at another having owned and operated a plant at Plainview. He also was in Oklahoma City for a time. He has taken an active part in civic affairs here.

Mr. Mordy, the new owner, also is a veteran of the industry, and has been operating a plant in El Reno for about 15 years. A son is associated with him. Mr. Mordy is known as a community booster, acquaintances here say. Mr. Mordy plans to buy much new equipment, and probably will double the capacity of the local plant.

H. L. BROWN IS BADLY HURT IN HIGHWAY WORK

He Is Hit While Painting Upon Pavement

BARRICADES ARE IGNORED

Bone Fractures Are Sustained in Accident

A speeding, hit-and-run driver struck and seriously injured H. L. Brown, 66 years old, about 6 o'clock last evening in the first serious accident to take place on the new oil field highway paving south of the city.

Although city and county officers were quickly notified and were in possession of the number of the car, no arrests had been made last night. Witnesses said there were four or five young men in the car, which hurled Mr. Brown from the pavement and continued toward Pampa at a high rate of speed.

Mr. Brown was a member of a Stuckey Construction company party which was marking a black stripe down the center of the recently completed paving strip. Barricades had been erected to protect the workmen, but the speeding car paid no attention and made no effort to stop after the accident, according to C. A. Stuckey, who was standing nearby.

Mr. Stuckey took the injured man to the McKean & Connor hospital, where it was found that he had suffered a leg fracture, arm fracture, and severe body bruises.

Rum Runners in El Paso District Ambush Patrolmen

EL PASO, July 20. (AP)—Border patrol officials here tonight believed two of the band of alleged rum runners who engaged a number of inspectors in two battles here today, killing Patrolman Ivan E. Scotten, fell before the inspectors' fire.

Scotten, 26, once a widely known Texas athlete, was shot twice when a patrol automobile was caught in a cross-fire from three sides. Earlier in the night the patrol fought a battle with the gunmen at the same spot and one of the attackers was known to have been killed, according to the patrolmen.

Inspectors said the second battle was the result of a plot to avenge the first skirmish in which the supposed rum runners were routed.

The inspectors, six in all, were caught in a narrow road and were fired upon from both sides by hidden gunmen, while a third group of attackers fired a volley from in front of the car. It was estimated that there were at least 20 men in the attacking party. It was estimated that more than 200 shots were exchanged before the charging inspectors forced the gunmen to flee across the Rio Grande.

Scotten fell in the first volley shot through the head and hip. His companions were forced to fight their way back to recover his body and in so doing drove the last remnants of their opponents into Mexico.

Scotten was the son of a prominent El Paso family and in his high school days won a wide reputation as a track man. He had been a member of the patrol but a short time.

Miss Helen Lowry will leave today for Oklahoma City where she will resume studies at St. Anthony's hospital. She has been visiting her mother, Mrs. Lola Moore, for several weeks.

THE WEATHER VANE WEST TEXAS: Partly cloudy, probably local thundershowers Sunday and Monday.

**Pampa Couple to Be Married This Week at Tulsa**

Invitations to the wedding of Miss Mary Maxine Aggers, daughter of Mr. and Mrs. W. A. Aggers, and Mr. Charles Bennett, which is to take place next Thursday evening, have been issued by the bride's parents.

The marriage will be solemnized at Minshaw Lodge, country estate of Mr. and Mrs. Paul L. Minshaw, near Tulsa, Okla., where the bride-elect and her parents formerly made their home. The ceremony will be held at 6 o'clock with the Rev. C. W. Kerr, Presbyterian minister of Tulsa, reading the service. The bride's only attendant will be her sister, Mrs. Minshaw, Stanley Brandon of Tulsa will be best man. There will be fifty or sixty guests for the wedding and the reception following.

The young couple will make their home in Pampa. Miss Aggers is a former student of the University of Texas. Austin. Mr. Bennett is manager of the Vex company and has been a resident of this city for more than a year.

**Party of Four Leaves for West Coast This Morning**

Mrs. W. C. Mitchell and daughter, Miss Ruth Anne, left this morning for San Francisco and Los Angeles, where they will buy sports wear and possibly other fall ready-to-wear for the Mitchell store.

They were accompanied by Miss Mabel Davis, county treasurer, and Miss Louise Miller, deputy county clerk, who will spend their vacation in California and in a trip up the coast to Vancouver, B. C.

**STUDY COURSE IS BEING GIVEN IN CHURCH HERE**

A four-week school of religious instruction for children is being conducted at Holy Souls Catholic church, with Miss Viola Hunter and Miss Catherine Calman, lay workers, in charge of the classes.

The course includes instruction in the catechism, Bible history, the ceremonies or externals of the Catholic church, and the symbolism of the services. Classes are held between 9 and 11:45 o'clock each morning, except Saturday.

Miss Hunter and Miss Calman, designated as "mercy workers," are not members of an order, but voluntarily are giving a year to work in the mission. Their previous experience was largely among the Mexican children in the southern part of the diocese. Both recently took special training at St. George's college, Amarillo.

# RAIL BIRDS DECLARE GRAYS FASTEST TEAM EVER SEEN IN PANHANDLE—LINE-UP READY

When Pampa's American Legion Grays take the field in the Amarillo tournament, baseball fans of the Panhandle will see as snappy array of baseball talent as has played ball in this section. Ed Gober has gathered a promising team of youngsters about him with a few old timers to do the pitching, and the Grays are predicted to be in the play off.

The Pampa Grays will cross bats with the Quitaque nine in the first game tomorrow afternoon, it was announced by the tournament committee last night. The game will be called for 2 o'clock. Many baseball fans plan to see the game. Quitaque is supposed to have one of the fastest teams in the tournament.

The team held a strenuous practice last night at Magnolia park and the rail birds who attended gave the home nine a chance to win the cup again this year. The Grays romped away with the first money last year.

With the Grays will be many familiar faces. Not only will home talent be in the game, but several of last year's tournament nine will be in the line-up.

On first base will be Gordon Neil who will be remembered as a slugging outfielder in the tournament last year. Second base will be occupied by Speck Roberts, diminutive player from the Industrial league.

The short stop position will be covered by a boy named Winegardner from Wichita, Kans. He is only a kid but in practice looked like a veteran. He is the same type player as Ruth of last year's nine.

**L. E. Petty, M. D.**  
Special Attention to Diseases of Children  
Panhandle, Texas

The old favorite, Al Williamson, will be on the hot corner for the Grays. Williamson was the sensation of the tournament last year.

The left field will be patrolled by Marcum from Kirkland. He is a fly-chasing hawk and a slugging outfielder. Center field will have the big slugger Waller. Waller has been hitting hard and long for the Grays all season, and also in the Industrial league.

Who will be in the the right field position has not been decided. Jack Gober, Ed Gober, and Pitcher Malone are all eligible for that position.

The catching duties will be looked after by that dynamo, Tank Horton. Pep Horton should have been his name. The little fellow beats the batter to first base nearly every time and is the life of a team. He will be assisted by Doty of West Texas fame.

The twirling staff will include Slim French, elongated pitcher of last year's nine; Lefty Graham of Wichita, Kan.; Pat Malone, ex-Detroit pitcher, and Carr, who is an unknown quantity in this part.

For substitute work the reliable Rusty Cahill will be with the Grays. Cahill can play eight positions on a ball club and is the most valuable player on the Grays' roster. He can hit, field, and coach like a veteran.

Johnnie Munds, star infielder and catcher, will be unable to make the trip to Amarillo with the Grays. The little fellow will be missed during play.

The Grays were not drawn to play the first game, as expected. The team will go to Amarillo this morning and will attend this afternoon's games.

## Local Golfers to Play in Shamrock

All Pampa's crack golfers will leave this morning at 9 o'clock for Shamrock, where they will play a team at the Shamrock Golf club course this afternoon. Last Sunday a team from Shamrock won from the local golfers over the Pampa course.

The Shamrock club will give a luncheon for the visiting golfers before the play. After the matches have been completed, a swim in the club lake will be enjoyed. More Pampa players are needed to make the trip to Shamrock. President H. Otto Studer of the local club said. He asks that any who can go today call him at his home before 9 o'clock.

# Long Program Is Arranged for Pla-Mor's Card

Another big smoker featuring wrestling and boxing will be held at the Pla-Mor auditorium Thursday night. A big card has been arranged with a wrestling match and 26 rounds of boxing. A battle royal will open the card, which will start promptly at 8 o'clock because of many attractions.

The feature event of the card will be a return bout between "Speedy" Snow, Pampa welterweight, and "Fighting" Dye, Phoenix, Ariz., cyclone. The two boxers are fast, clever and can hit like won by a knockout in the sixth round. Dye claims it was a fluke and that he can beat the Pampa boy.

The first encounter was one the snappiest seen here in some time. Both boxers are fast, clever and can hit like lightning. Each boxer took counts three times during the first encounter and Snow was knocked thru the ropes once.

The wrestling match will bring two newcomers to the Pampa roped square. Hack Potter of Cheyenne, Okla., 170 pounds, and Slatz Glover of Pampa, 165 pounds, will be the chief two men in the ring. They are not well known to Pampa mat fans, but they come highly recommended.

As preliminaries, Kid Arthur of Pampa and Kid Duncan of Houston, both weighing 146 pounds, are scheduled to go six rounds. Johnnie Hill of Joplin, Mo., and Bill Lewis of Pampa, negroes, will also go six rounds. They will weigh 170 pounds. A special four-round event will bring together "Beede Rye" Hays of Los Angeles, and Joe Ash of Pampa. They will weigh in at 130 pounds.

Evening preaching service, 8:30 p. m. The preaching service this morning will include three special music numbers. An effort is being made to have an unusually large attendance at this service. The program will prove interesting to everyone who comes. The assistant pastor will speak at both the morning and the evening services. He promises messages that will not be too lengthy.

Out Sunday school had an attendance of 279 last Sunday. We are hoping to pass the 300 mark today. There is a class in which you will be with congenial associates and under the instruction of consecrated, trained teachers. We welcome you to enjoy the study of God's Word with this morning. This is the Lord's Day. Worship Him in the services with us.

C. C. Merritt, Minister

Getting the Good of God's Word  
If the study of God's Word just fills you with points and arguments and speeches and sermons and theories, you are not getting the benefit of it yourself, nor is God getting the results he wants.

A sheep eats grass, and we do not expect him to produce the like in kind; we do not want grass to grow out on his back, but wool; or grass to accumulate under his skin, but fat and meat. So does God want his word to be transformed in the laboratory of our hearts and come forth in the form of divine action and conduct of life. Then He is pleased, and then only has God's word become, indeed, meat and drink to us.

This morning's discourse will be on the theme: "Heaven, Its Inhabitants." Evening theme: "A Committee of Starving Lepers." During the summer the sermons will be short. We appreciate the large audience which greeted us last Sunday. You are welcome every time.

'It's Like This'

PARENTHOOD IS NOT ABSOLUTELY NECESSARY in the science of rearing good citizens. The 'old maid school teacher' is often more sympathetic with children...

Moreover, there are thousands of children suffering the want of real friends. The child who has loving parents, but whose friendships do not include other adults as well...

This simple, unadorned A. P. dispatch from Del Rio, Texas, only hints of a story that must have been full of human interest.

'J. H. Wilcox, 76, who adopted and reared to maturity 47 boys and girls, has ended his long sponsorship of youth. He died yesterday with one of his foster sons, Cecil Wilcox, 21, at his bedside.'

'Sponsorship of Youth'—a noble phrase. Not all parents could prove that they live up to its implications. Few communities really sponsor their children except through gifts of money in the form of school facilities.

BOY SCOUTS

(By Richard Jones in Tulsa Tribune)

We are beginning to study boys with understanding and sympathy. With all the intensity of her outlook on great problems, Jane Adams, the 'best citizen' of Chicago found time to write 'The Spirit of Play and the City Streets'...

Where the old Puritan idea was repression, the newer and wiser idea is diversion. Mischievous scientific declare is but energy gone wrong. A boy will enjoy doing the constructive thing just as much as the destructive.

No creature on earth craves approval and thrives on it so much as that uncouth, ungainly small boy. If you

would bring out the best that is in him and fit him happily into his niche in the scheme of creation try thick applications of praise, and see how he melts and expands in the congenial atmosphere. He will be as radiant as a flower in the sunshine.

It is the consciousness of guilt, that we poor blind grown-ups, fasten onto the buoyant spirit of youth with our everlasting scoffing and nagging, that throws the first numbing chill over the young soul and cramps his promise of the future.

By working on this theory—that mischief is but the bubbling over of excess energy and like any other great force needs not correction but direction—two real boy-lovers worked out a great idea in the solution of the boy problem.

They took the legitimate ideas and idols of normal boys and used them constructively. They set out to change the grown-ups not the boys. By teaching they propose to give the boy a chance.

That faithful and obnoxious old 'Don't' gave way to its more hopeful younger brother 'DO'. Things have changed since the prayerful pious used to whisper sad predictions about 'Johnny the Perverse'...

Things have changed. Johnny is no longer an outlaw. He no longer slinks along the highway favoring the Upright with a sidewise malevolent glance and shying stones at their respectable cats.

He himself walks with head up, an esteemed member of the community and shyly snatches off his cap when any lady of his acquaintance goes by.

A great light has dawned upon fathers and mothers. It came in the most authoritative and impressive manner through books by experts, whose words sank deep into parents' souls.

The lad no longer scuttles down the rainpipe when the Red Gods of nature take possession of his spirit. Instead he swings on the front gate and discusses tents and tackle and pack right out in the open with his cronies and the new minister who, to his everlasting astonishment, appears to be human.

Mother bakes. Dad takes out the fiver and speeds down to Hillsboro for a Scout and a camp kit. And the boy leaves home not furtively via the bam, but out through the clicking front gate where the minister and his boy pals await him; and the hearts of the village glow with the joy in their boys' faces and the

strength of their hugs at parting.

Boys haven't changed one bit; but dad and mother and the minister have learned a lot. They have glimpsed the holy pan-theism of the boys soul and have turned their own cars to the calling of the Red Gods, and the love of skies and streams and woods and mists of morning.

Ernest Thompson-Seton who lives on a beautiful island close to the Connecticut shore, years ago decided the ugliest thing in the world was fear; in his little kingdom he would banish fear.

All living creatures in his small domain soon became his trusting friends. Then he saw the larger world. If it was well to take fear from the hearts of rabbits and squirrels and birds, it was better to take fear from the hearts of children.

With an eminent English army officer, General Baden-Powell he conceived the Boy Scout idea and with Dan Beard, the wood craftsman, they began to give the parents ideas about letting the boy alone and giving him a square deal.

Later through the interest of William D. Boyce, a wealthy Chicago publisher, the isolated boy on the farm and the ranch was reached through the Lone Scout organization.

These organizations tell the boy what to do, not what not

to do. They supply the lad with a multitude of Do's and not an avalanche of Don't's.

The Scout movement tells the boy that he is not merely tolerated; but that we need him. He wants to be needed. It gives him a citizen's job before he is legally a citizen. That pleased him and builds him into a citizen.

The state needs its men when they are boys just as much as when they are voters. The boy needs self-respect, self reliance and responsibility as does a man. The Scout movement is making better boys and in making better boys it is making better men. In making better men it makes a better country.

The Boy Scout movement is part of the better patriotism.

TWINKLES

We hate to see too many candidates lined up for the gubernatorial derby, but to stop the registration now might bar 'the right man'.

The lady Pied Pipers assure the foreman of this column that Pampa has fewer rats than any town of similar size they have visited in Texas. And it is probably apropos of nothing, but anyhow they said Amarillo had the most.

THIS HAD HAPPENED—  
Nina Blackhall, having herself written a play, "JOHN CURTIS," was now, as a result of a suggestion to her by her husband, John Curtis, to have a play written for her. She had just finished the first act of "JOHN CURTIS" and was sitting at her desk, waiting for the next act to be written. She was looking at the first act, which she had just finished, and was thinking of the next act to be written. She was looking at the first act, which she had just finished, and was thinking of the next act to be written.

CHAPTER XXXVIII  
IT WAS 6 o'clock when Nan Morgan, in a temper of unreasoning fury and fear, locked her door against any attempt her husband might make to bring to her his load of despair and newly revived love for his first wife.

She herself was suffering so terribly that it gave her a fierce, perverse pleasure to think of his being hurt, too. Kneeling down before that woman who had never loved him and who had deserted her! Nan clenched her hands as her eyes stared at the doorknob. Going to the hospital twice in one day to see her, when she wasn't really sick at all, but just shamming to win his sympathy! He'd always been wax in Iris' hands. Well, let him be hurt now! It would serve him right. She had been hurt enough. God knew! But her straining eyes told Nan that he had not touched the knob of her door.

with which he circled the safety razor about the little brown mole on his right cheek. Oh! Nan caught her breath in agony. It was terrible to lose a man so much. Only this morning she had stood close beside him as he shaved, so close that his elbow joggled her ribs and made her double up in a childish fit of giggling. And now—now—

She waited until she heard him re-enter his own room, then with a great flourish Nan went about her own dressing for dinner. The amber chiffon—He liked it, but why try to please him now? He wouldn't notice what she had on. His eyes would be turned to upon a vision of Iris, lying in appealing helplessness upon a hospital bed, her fragility clothed in an exquisitely colored, subtly accented negligee.

"Good heavens!" Nan said slowly. "It will be more of a blow for us if the poor old man dies than for the prosecution."  
"True," Morgan agreed. "But still we have the goods on Nina Blackhall, even without the butcher's testimony as to her relations with the chauffeur, Bassett. But naturally what he was willing to tell us on cross-examination would have been mighty important. Brainerd, of course, can use Edgars' testimony before the grand jury, as to Blackhall's quarrel with David, the boy's leaving in his car at 3 o'clock in the morning, and the finding of the body. I hope we'll have our chance at him, though."  
"Where is he—-which hospital?"  
Nan demanded, as she made a pretense of eating her soup.  
"He's at St. Luke's, too, where Mother is," Curtis answered the question. "Father went to talk to the doctor about him while I stayed with Mother." Again that curious, direct glance of hostility from the black eyes which had been so full of love as she sat on this morning.

**BIG RANCH PARTY**  
Mr. and Mrs. H. L. Ledrick and sons, H. L. and Mickey; Mrs. George Waldstad and children, Louise and Jack; Mrs. B. E. Finley and children, Frances, Warren, and Flora Deen; L. J. Martin of Amarillo, Mrs. J. M. Tate and son, Don, and the Rev. and Mrs. James Todd, Jr. and daughter, Emma Boone, enjoyed several days this week at the Ledrick ranch. The time was pleasantly spent in horseback riding, swimming, picking wild plums, and kindred activities. They report that the Ledrick ranch is an ideal place for such an outing.

Local radio fans who tuned in on KQRS, Amarillo, at 6:30 o'clock last evening heard a group of vocal selections by members of the Malcom-Melville evangelistic party, who held a revival meeting a few weeks ago at the Assembly of God church in this city. The party of four, now engaged in a meeting in Amarillo, sang duets and hymns, including old favorites among the hymns. Mrs. Harold Melville, formerly Miss Thelma Lytle, lived in Pampa several years ago, and has relatives and many friends here.

## NEW SMITH BUILDING AIDS BEAUTY OF WEST FOSTER

### Three Firms to Move to Smith Building Soon

The store room recently vacated by Mitchell's store is being remodeled and will be occupied on the first of this week by the Oden Music Shoppe, Wm. T. Fryer & company and the Gray County Abstract company.

The Oden Music Shoppe will occupy the west half of the building. This is the oldest music store in Pampa, having been established in 1926. M. D. Oden, proprietor, was given a free trip to Chicago this summer for having placed second in a sales contest of Ma-jestic radios which included three states.

Every year's service man is sent to a service school so that he may keep up with the new developments in giving better repair service on talking machines and radios.

The Columbia and Victor photograph records are received weekly at Oden's, as they are received by the company.

The Wm. T. Fryer company which will occupy the east half of the building has also made considerable growth in Pampa. In 1925 the company purchased several agencies here which date back to the early days of Pampa. Insurance, bonds and loans are sold and serviced by a staff of experienced persons employed by the company.

The Gray County Abstract company will occupy the balcony of the building which also has been remodeled to fit the needs of a high class abstractor. This company was organized in 1923 and for the past three years has been owned and operated by P. O. Sanders. The company offers title service of every character.

Mrs. Ida Kibler, formerly of this city and Kathryn Gores of Skellytown, left here Friday for Denver, Colo., where they will spend the remainder of the summer. Mr. Kibler was to join them at Hutchinson, Kans.

### Setting of Glass in Smith Building Admits Much Light

The plate glass and transoms for the new Smith building were supplied and installed by the Amarillo Plate Glass and Mirror Co. Copper settings hold the glass securely in place.

The store room on the first floor occupied by Mitchell's has large show windows across the entire front and the full length of the building on the west side.

The "transoms" transoms are the second to be installed in the entire Panhandle country. The settings on all of the glass are made so as to permit all of the light possible.

### Gas Wholesale Men Required to Furnish Bond

AUSTIN, July 20. (P)—The new four-cent tax on gasoline must be paid even though the user of the fuel will be put to it is exempted from the levy, State Comptroller S. H. Terrell said today. The tax paid on exempted gasoline will be refunded by state warrant, he said.

"There has been some misunderstanding as to the operation of the new law," he said. "Gasoline for use on roads, streets, highways of Texas is subject to the tax, that used in other ways being exempt. However, the tax must be paid on all gasoline used. Users entitled to exemptions will have the amount refunded to them by state warrant."

Wholesale distributors have 30 days in which to fill application and bond for a permit to sell gasoline. A minimum bond of \$1,000 is required, and additional bond may be required at discretion of the comptroller up to a maximum of \$100,000.

### Case Company Is Building Many Fine Structures

H. L. Case & Company, builders of the new Smith building, have been in Pampa for many years. Art Jaynes of the present company built the first high school in Pampa and also contracted the present Santa Fe depot. H. L. Case was born in Pampa and has been connected with the building of Pampa all his life.

At present the Case company is building the Gray county court house, the bus station, Hopkins school, an addition to Phillips school, the Wheeler school and a grain elevator west of Laketon.

During his thirty years of contracting, Mr. Jaynes has been building all over this part of the country. He put up a number of buildings in Amarillo and his largest one was a \$840,000 court house at Grossbeck, Limestone county.

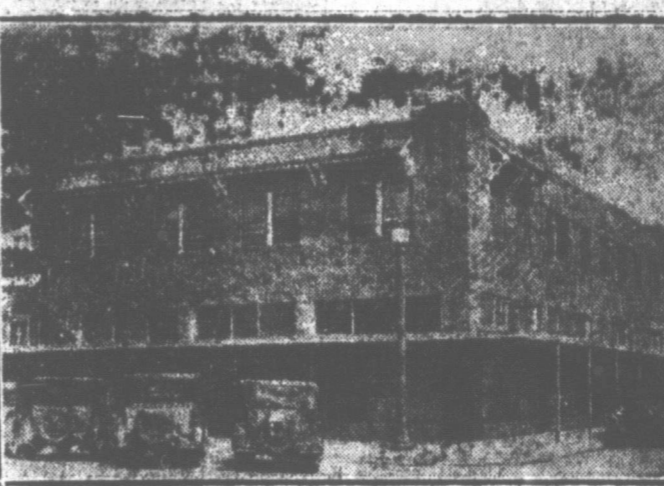

### Fine Collection of Fossils Found on Roberts Ranch

MIAMI, July 20.—V. L. Vanderhoof, field paleontologist of the University of California at Berkeley, and Joe Cross, assistant, of Horton, Kansas, are completing their search for fossil bones in the Panhandle region and will leave for California about August 1.

They have been making headquarters at Miami for the last two months and are excavating on the Cleve Coffee ranch a few miles east of town.

Miss VeLora Reed, a teacher in Central high school, who taught during the summer session, is to leave this morning for St. Louis, where she will visit a brother and his family. Before the close of the vacation she probably will visit her parents in Noel, Mo.

### New Unit of Smith Building Finished

Here is a photograph of the west unit of the Smith building just completed at the intersection of Foster and Russell and occupied by a number of leading firms.

### Many Leading Professional Men and Firms Located in Smith Structure

Judge C. E. Wortman has moved his law office to the Smith building, and now occupies rooms 30 and 31 in the new section. A former practicing attorney and county judge of Miami, Okla., Judge Wortman has had wide experience in both civil and criminal courts.

He specializes in estate settlements, probate matters, claims of labor under the workmen's compensation law, and contract work, as well as general practice.

Drs. Vick & Vick, who came to Pampa about two months ago, occupy rooms 14 and 15 in the Smith building. Both doctors studied in Kirksville College of Osteopathy, Kirksville, Mo.

Don L. Wakeman and Sidney M. Swearingen are opening their law office in the Smith building and their practice in Pampa at one and the same time. Judge Wakeman, already well known in the city, formerly lived here, but for the last several months has been practicing in Oklahoma. Judge Swearingen moved here from Fort Worth. The new firm has rooms 25, 26, and 27 in the original building.

Rooms 18 and 19 are occupied by Judge H. E. Florey, who has practiced law in Pampa since October, 1926. He came here from Henderson county. Judge and Mrs. Florey are permanent.

### NORMA SHEARER TOPS FINE CAST

"The Trial of Mary Dugan" Triumphs Again as Talking Film

"The Trial of Mary Dugan," Bayard Veller's all-talking pictureization of the stage success of the same name, will begin an engagement at the Rex theatre today.

Bayard Veller, author of the stage play, went to Hollywood under a special agreement with Metro-Goldwyn-Mayer to direct the screen adaptation. Veller, whose earlier plays include "Within the Law," and "The Thirteenth Chair," recently sailed for England and plans to produce his next piece abroad.

"The Trial of Mary Dugan" ran for more than a year on Broadway and is now being presented by sixteen great companies in this country and Europe. The picture has an all-star cast headed by Norma Shearer, Lewis Stone, who has the part of Edward Wins, the defense attorney; H. B. Warner, that of the prosecuting attorney, and Raymond Hackett, who played the role of Jimmy Dugan on the stage and has the same part in the photoplay. Others in the cast include Olive Tell, Lilyan Tashman, DeWitt Jennings, Mary Doran, Wilfrid North and others.

The new picture is M-G-M's second all-dialogue production, following the emotionally successful "Broadway Melody" in that classification. Miss Shearer was personally selected by Mr. Veller for the title role, despite the fact that she was entirely without stage or "talkie" experience. Her voice is reported to be one of the best yet encountered among screen players, in its recording quality.

In transferring "Mary Dugan" from stage to screen, Mr. Veller is said to have adhered to the original dramatic treatment. Courtroom dialogue provides the action and setting and the stage production is shortened slightly to conform with film requirements.

### Many Changes of Location Are Made Possible

Erection of a fine new two-story brick building by Joe Smith and J. M. Smith has resulted in enhancement of the appearance of West Foster street and made possible business location changes which will be completed this week.

This second unit, located at the southeast corner of the intersection of Foster and Russell, is 45x90 feet in size, giving the entire Smith building a space of 60x95 feet and entailing a construction cost of approximately \$75,000.

The new unit of the Smith building, designed by W. R. Kaufman, is in the same style of architecture as the original building, which it adjoins. It is a two-story structure of red brick, with over-hanging cornice of the roofline, giving pleasing accent to the extreme simplicity of the exterior.

Its completion follows by just a few weeks less than three years the completion of the first unit, work on which was finished August 1, 1926.

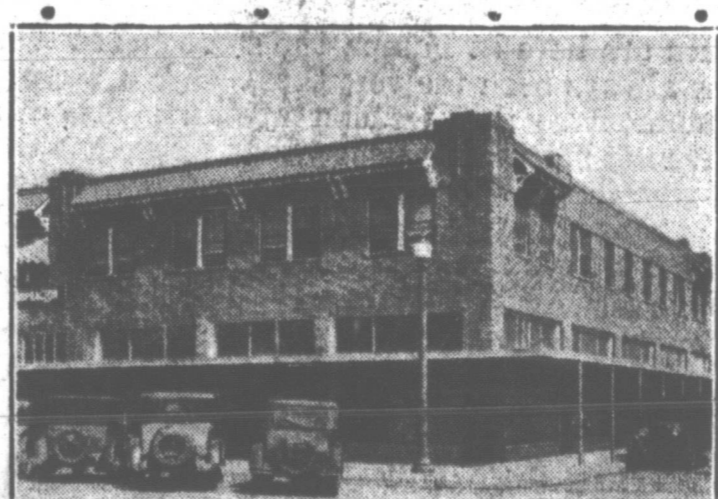

Mitchell's Enlarged The entire ground floor, 90 feet long by 45 feet wide, is occupied by Mitchell's Apparel for Women store, which formerly was next door in the old unit of the Smith building. The new store, like the old, was especially equipped to meet the needs of the establishment. The second floor is divided into 12 office rooms. An air court covers 900 square feet of space on the roof of the first floor, with windows opening upon it from the west office of the old unit and the east office of the new.

Deep-set display windows running the length and the breadth of the building, with more than 1,000 square feet of plate glass, are a luxurious asset to the Mitchell store. Along the 45-foot front on Foster avenue, the

**Here are the facts that prove it America's finest medium-priced automobile**

Below are typical examples of facts drawn from a comparison of the Oakland All-American Six with 20 leading cars in its field. Study these facts—then come to our showroom for additional information. We can give you dozens of other comparisons as further proof of Oakland's unrivaled value. And these are facts which prove the Oakland All-American to be America's finest medium-priced automobile.

**What these features mean to you**

**PISTON DISPLACEMENT**  
 Large piston displacement is needed to develop high power at moderate engine speed. Moderate engine speed is an important factor in the life of a car.

**FISHER BODY**  
 No name in automobile coach building means so much as Fisher. Fisher bodies are famous for style, luxury and roominess. In addition, they hold such advantages as sturdy composite hardwood and steel construction, VV windshield, side cowl ventilation and adjustable drivers' seats.

**WHEELBASE**  
 Reasonably long wheelbase gives greater riding ease and road balance. Also permits use of longer, smarter, roomier bodies. At the same time, a small turning circle is essential to handling ease.

**BRAKES**  
 For safety, efficiency, convenience, smoothness and silence nothing has been found to compare with internal-expanding mechanical 4-wheel service brakes with non-squeak bands. An entirely separate emergency braking system is needed as an extra safety factor.

**How Oakland compares with the field**

Only one car as low-priced as Oakland surpasses Oakland's piston displacement of 228 cubic inches. Twelve cars in the field have less displacement, and five of the 12 are higher-priced than Oakland.

Only Oakland and two other cars in the field offer bodies by Fisher. And one of the two is nearly \$100 higher in price than Oakland. Of the 18 cars which have less-known bodies, 11 are priced above the All-American Six.

Only one car as low-priced as Oakland has a wheelbase as long as Oakland's—113 inches. That car requires a turning circle to the left of 42 feet as compared with Oakland's 36 feet. Six higher-priced cars have shorter wheelbases.

Only Oakland and one other car, costing \$300 more, use the fine type of brakes described opposite. And no car in the field equals Oakland's 290 square inches of brake band area. Oakland's separate emergency brake operates on the transmission. Seven cars in the field have no separate emergency brakes, although three of them exceed Oakland in price.

## Legion Bringing Alamo Shows for Benefit of Team

The entertainment committee of the American Legion has contracted with the Alamo Exposition shows and rodeo to exhibit in Pampa for one week starting tomorrow. The Legion's share of the proceeds will be used to defray the expenses of the Pampa Grays at the Amarillo tournament.

The Alamo shows, said to be one of the largest traveling organizations in Texas, are carrying, in addition to the usual riding devices, a Tilt-a-Whirl, a miniature railroad, and Mix-up. Bill Carr, rodeo star, is handling that event and the Wild West features.

One of the outstanding attractions of the shows is Rosella, the double-bodied woman. She is from France, is highly educated, and gives a medical lecture in connection with her show. Other offerings are the Hawaiian village, athletic show, whoopee show, and cannibal man.

The shows will be located on the Amarillo highway, one mile from the business section, west.

## ELECTION NOTICE

WHEREAS, the City Commission of the City of Pampa, Texas, deems it advisable to issue bonds of said City for the purposes hereinafter mentioned; THEREFORE BE IT ORDERED by the City Commission of the City of Pampa, Texas, that an election be held on the 20th day of August, 1929, at which election the following propositions shall be submitted:

"Shall the City Commission of the City of Pampa, Texas, be authorized to issue bonds of the City of Pampa, Texas, in the aggregate sum of \$238,000.00, provided all the hereinafter mentioned propositions carry at such election, or for the amounts or aggregate amount designated in the proposition or propositions which do carry, maturing serially at such time or times as may be deemed most expedient by the said City Commission, not to exceed forty years, bearing interest at a rate not to exceed 5 1-2% per annum, payable annually, and to levy a tax of 34 cents on each \$100.00 valuation on all taxable property in the City of Pampa, Texas, to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity for the following purposes, to-wit:

For the construction of a City Hall, City Jail and to purchase the necessary equipment therefor at a cost of \$100,000.00;

For the construction of a Fire Station and to purchase the necessary equipment therefor at a cost

## Hollywood Sights and Sounds

**By ROBBIN COONS**

**HOLLYWOOD**—The tragedy of the extra on the cutting room floor occurs less frequently now since talkies came to bring more thorough planning and efficiency into picture making, thus largely eliminating unessential "faces" before even the cast is chosen.

But the frequent long waits between shots also brought on by talkies, serve to highlight now another character in movie life—the "star shadow."

Not so disheartening but nevertheless poignantly ironical, is the position of the extra who figuratively wears the shoes of a star, yet never appears on a screen.

The "stand-in" man or woman, singled out from the extra mob because of some personal resemblance in stature or features to a star, serves as double during the long waiting periods when camera angles are being determined and lighting effects arranged.

**SHORT-LIVED GLORY**  
Practically all the big stars, those pampered by their studios, have "stand ins," who stand, sit or walk in the star's place on the set while lighting experts work out their problems.

With a "stand-in" the star can rest in his dressing room until such irksome details are settled but when the cameras grind and the mikes record it is the star who "faces" them while his "shadow" on the sidelines, looks on wisely or obviously bored, according to the degree of his ambition.

It is amusing, yet pathetic, to note how some of the "stand-ins" will adopt the mannerisms and bearing of their respective stars. If the star walks strut-tingly, so walks his "shadow." If he smokes a cigaret with nonchalance, mechanically smokes the "shadow."

If the star combs her hair in certain

## EXTRA'S PAY

The pay for all their eminence on the set, is that of the ordinary extra—\$7.50 a day. But the job usually lasts longer than that of an extra who reaches the screen, and once called for duty the "stand-in" is likely to get the job again for the star's next picture.

John L. Peake is to leave today on a business trip to Tulsa.

The Rev. and Mrs. Tom W. Brabham, their three children, and their house guests, Mr. and Mrs. W. F. Causey of Houston, will leave tomorrow for a visit to Castledale, N. M. They plan to return Thursday.

Miss Mary Camble is spending the week-end with friends in Amarillo.

Paul Liebmann, owner of the Pampa Ice Manufacturing company, who has spent the last two weeks here transacting business and visiting his mother, Mrs. Katie Liebmann, left yesterday for his home in El Reno, Okla. He was accompanied by his sister, Mrs. O. W. Kings, and her little daughter, Bettie, formerly of Tampa, Fla., who also have been visiting Mrs. Liebmann. Mrs. Liebmann will join her husband at El Reno, and after an extended visit there and in Oklahoma City, they will come to Pampa to make their home.

Mr. and Mrs. Floyd A. Hollenbeck will leave this morning on a business trip to Oklahoma City.

# Marquette

**BUILT BY BUICK**  
**BODY BY FISHER**  
**A GUARANTEE OF EXTRA VALUE**

"Built by Buick"—only the Marquette in the moderate-price field can offer that priceless recommendation. This remarkable new six provides in every feature the unstinted goodness that has forever established Buick in the public mind as a master builder. Extra quality is everywhere—to provide extraordinary brilliance in performance, unflinching dependability in service, and unlimited satisfaction in ownership.

On its staunch and steady chassis, the Marquette carries closed bodies by Fisher—the latest expression of the artistry and craftsmanship of the world's greatest body builder. Smart, low-slung lines—the last word in modern good taste. Interior and exterior finishes of pleasantly blending colors. Tailoring and appointments of exceptional quality and completeness. And such value features as a remarkable new non-glare windshield, to be found on no other automobile; adjustable driver's seat; and beautiful new rubberized moiré upholstery, waterproof, dustproof and wearproof—shown for the first time on Marquette.

The great resources and unparalleled facilities of Buick and Fisher have combined to provide a greater measure of extra value than any car of comparable price offers.

At the first opportunity see and drive the Marquette. Check every feature, make every test.

The Marquette is easy to own. Talk to your dealer about it. You will be surprised at how economically you can buy a Marquette on the liberal G. M. A. C. terms.

store, including the specially built cases and cabinets that line the walls, the showcases, tables, and cashier's desk are of Circassian walnut. The balustrade of the mezzanine floor and the stair rail are of the same wood.

The women's ready-to-wear, millinery, shoe, lingerie, dress accessories, and costume jewelry departments occupy the first floor, which is generously supplied with long panel mirrors and fitting rooms. The shoe department, a new branch of the store, was opened yesterday by S. G. Surrat, formerly of Oklahoma City. It is in the rear of

the store, on the east side. The mezzanine floor, comprising 1,600 square feet of floor space, is occupied by a beauty parlor of five rooms, the children's and infants' department, and the gift shop. A women's lounge, where customers and clerks may rest, is being fitted on that floor.

To Install Sign  
An electric flash sign is to be installed next week. Pointing diagonally over the intersection of Foster avenue and Russell street, the sign will be visible on four business streets.

Many of the offices on the second floor were arranged especially for their occupants, with the suites in various sizes and arrangements. All rooms, as well as the corridors, have oak floors and stained pine woodwork. The walls are of buff plaster and the ceilings, white. A corridor connects the old office building and the new. There are entrances on both street fronts.

Offices in the new building are occupied, or shortly will be, by the following:

- The Independent Engineering company, which recently moved headquarters here from Borger, with Roy Purdue in charge.
- Guy C. and Horace C. Saunders, who handle the C. H. Saunders estate, and C. C. Alexander, who handles the Saunders brothers' royalties.
- Dr. W. F. Nichols, dentist.
- Dr. A. W. Mann, chiropractic physician.
- E. R. Regal company, public accountants.
- C. S. Wortman, attorney-at-law.

ly located in the city and have a new home under construction.

The Inter-State Collection agency, headed by H. E. Brady, is in room 24. Mr. Brady, formerly of Oklahoma City, was with the Pampa Business Men's association several months before opening the collection agency. His firm specializes in collection of accounts out of the state, and has connections with similar firms in other states.

Dr. W. B. Wild, physician and surgeon, whose office occupies rooms 1, 2, and 3, has been in practice here three years. He came here immediately after finishing his internship in Dallas, following his graduation from medical school of the University of Oklahoma, Norman. He owns an apartment house and other property in Pampa.

The E. A. Regal company, public accountants, has opened offices in rooms 32 and 33 of the Smith building. E. A. Regal and his son, D. Clark Regal, came here a few weeks ago from Tulsa, where they were in business seven years. They offer, in addition to the regular bookkeeping service, a specialized service to the oil industry.

have opened offices for handling the C. H. Saunders estate in connection with C. C. Alexander, who handles the Saunders' oil royalties, and leases for the same estate. Rooms 25, 26, and 27 are occupied by the three men.

The Saunders brothers are pioneer residents of the county, with extensive land holdings, business, and resident properties. Mr. Alexander has been in the realty business here several years, specializing in oil and gas leases and royalty transactions.

**Talks To Parents**

IDEALS  
By ALICE JUDSON PEALE

The ideals and ambitions of children are compounded of many things. They spring from inner urges—the drive of some talent that demands expression. They are given impetus by reading.

Accounts of heroism, discovery, invention and conquest fire the child in his earlier years with the desire to achieve something great in his own life. But most often and most continuously children are swayed by the ideals of their parents. Children who are in harmony with their parents unconsciously accept their values and reflect their ambitions.

At adolescence when the child is engaged in the struggle of breaking away from his psychological dependence on his father and mother there often comes a period of revolt from the parental ideal which until then he has never questioned. It is at this time that he does silly, rebellious things. The mere fact that you suggest to him a certain course is sufficient reason for his choosing another.

Every child must go thru this period if he is to become mature. The way he goes thru it, the amount of havoc he creates, depends on the wisdom of his previous training he is handled at the time.

One way to keep your child from actions which may cost him too dearly is to see to it that during these years he meets plenty of interesting grownups who will serve him one after another as models or surrogate ideals in place of the parent ideal which he has so recently rejected.

See that your child meets, on terms of equality, across the dinner table, or in the family living room, men or women who talk well and who are distinguished and successful in their work. Let him meet men and women whose personalities are so attractive that he finds among them at least one whom he would emulate.

Mrs. John T. Sims of Clarendon was a visitor in the city Friday. She was accompanied home by her daughter, Miss Pauline Florence, who was a member of the summer school faculty. They will leave in a few days for Boulder, Colo., where Miss Nettie Sims is attending the University of Colorado. Miss Nettie Sims also was a teacher in the local schools last year.

Miss Martha Noel of White Deer was here Friday shopping and visiting friends.
