PAMPA GRAY COUNTY, TEXAS

MONDAY EVENING, JULY 22, 1929

PRICE FIVE CENTS

# PRISON BREAK BY 1,300 FAILS

## Texas Company's No. 5 Cook-Faulkner is Brought in as Gusher

### FLOW OF 1,786 BARRELS FOR DAY IS MADE

Pay Topped Sunday at 2,867 Feet With Some Gas

### OTHER WELLS IN BIG GAS NOW

### Carson County Gets Nice Test in Section 198

After starting off flowing at the rate of 200 barrels an hour, the Texas company's No. 5 Cook-Faulkner, in section 29, block B-2, of the new Finley-Brown pool, made 1,786 barrels the first 24 hours. The granite wash pay was topped yesterday morning at 2,867 feet.

There is enough gas with the oil to flow the well.

The same company's No. 6 Cook-Faulkner, in the same section encountered a heavy flow of gas at 2,780 feet Saturday and is drilling ahead.

Texas company's No. 2 Cosmids-Worley, in south half of the southeast quarter of section 36, block 3, in the north edge of the Finley-Brown pool encountered 71,000 feet of gas Saturday. The gas sand was picked up at 2,800 feet.

Both tests will be drilled in early this week, according to company officials. The company's No. 4 Cook-Faulkner, in section 30, block B-2, has a fishing job at 2,500 feet.

### Calles Says His Health to Fix Trip Time

LAREDO, July 22. (P)—Gen. Plutarco Elias Calles, former president of Mexico, crossed into the United States here at 9 a. m. today, and after inspecting a company of soldiers from Fort McIntosh and receiving a salute of 21 guns boarded a train for New York.

The general's route will be by way of St. Louis. An orderly crowd greeted General Calles, who was accompanied by a number of friends, including Dr. Roscoe Madro, his physician.

His party was met at the International bridge by a delegation from the Laredo Chamber of Commerce, which extended to the general an invitation to have breakfast at Fort McIntosh. He refused, saying his health would not permit acceptance, but that he would visit the fort on his return.

General Calles said he would go to France from New York in an effort to regain his health. He added that the length of his sojourn in that country would be governed by the rapidity of his recovery. He refused to discuss internal affairs of his country.

### MAN FOUND UNCONSCIOUS

ARLINGTON, July 22. (P)—J. F. Montgomery, 35, of Waco was found unconscious on the roadside near Pflugerville today. He was taken to a hospital where it was said his condition was serious. Officers said the man had apparently been beaten and thrown from an automobile.

Scott Barcus and Burnham Briggs are in Amarillo today attending the ball games.

### THE WEATHER VANE

WEST TEXAS: Light and Tuesday partly cloudy; probable thunderstorms in south portion Tuesday.

### PAMPA GOLFERS OVERWHELMED BY SHAMROCK COURTESY

Almost incoherent in their praise of the courtesy of Shamrock golf club members and the excellence of the course in the neighbor city, nineteen Pampa players returned last night from what they called the best outing of the summer.

Incidentally, they lost the tournament, but the fact was discounted by the enthusiastic followers of the game, who also lost to Shamrock players here two weeks ago.

The local men were served a luncheon at the Shamrock clubhouse and tendered the full facilities of the club, including swimming and fishing in the lake near the well kept course. The Shamrock club's property is five miles northwest of the city.

Ephusiasm of Pampa players was greatly increased by the trip, and plans are being made to improve the local course along the lines of the well developed Shamrock club.

### AMERICA MAY FORM BODY TO PREVENT WAR

By The Associated Press  
The Russo-Chinese crisis entered its second week today with a tense situation growing along the Manchurian border as the powers sought to avert hostilities.

Although the governor of Manchuria reported Russians opened an attack on the Chinese on the eastern border of Manchuria Saturday, there were no further dispatches to support the likelihood of a definite Russian invasion.

Japanese dispatches from Nanking said the Nationalist government had decided to appeal to the league of nations in the event that Russia should take some "positive" action in the controversy.

Official Chinese reports said the diplomatic body at Peking expected the United States would form "an international arbitration commission" of Kellogg pact signatories to consider the situation.

Meanwhile efforts will be continued to induce the Chinese and Russians to withdraw their heavy forces along the border where clashes might easily occur.

### FIRST BRANIFF SHIP TO ARRIVE ON WEDNESDAY

The first passenger ship on the Braniff air line between Tulsa and Amarillo will land on the local field at 11:20 Wednesday morning, according to a telegram received this morning by George W. Briggs, manager of the Board of City Development. Mr. Braniff will be on board the ship in its initial flight, the telegram stated.

The ship to make the first trip will be an all metal Hamilton monoplane. The carrying capacity of the ship is not known. A short stop will be made here and anyone desiring to fly to Amarillo may do so from the local field. The ship will also stop on the return trip about 1:30 o'clock and will take passengers to Oklahoma City and Tulsa.

A schedule will be available later in the week. This will be the first air passenger service stopping at Pampa. Stops will be made daily for the first few weeks, according to Ted Lewis, who was here Saturday arranging to stop at the local port. Later a flag system will be used when passengers desire to make a trip.

### FARMER AND WIFE ARE FOUND DEAD

BARBOURVILLE, Ky., July 22. (P)—James Foreman, 78, retired farmer, and his wife, Mary, aged 68, were found slain in their home at Artemus, near here today.

Neighbors noticed a door standing open and on entering found the bodies of the couple lying on the floor. They had been beaten with an axe handle, choked and shot through the heart.

Robbery is supposed to have been the motive as Foreman was reputed to have kept several thousand dollars at his home.

### COLLEGE HEAD LAUDS SCOUTS IN TALK HERE

President J. A. Hill Is Speaker at Local Service

TOTAL OF \$650 TAKEN IN DRIVE

Summer Camp Will Be Held in August, Clark Says

Opening of the Boy Scout drive for funds to sustain the organization during the next fiscal year had brought in \$650 when a check was made last night following a community service at the First Methodist church. A considerable portion of this amount was raised here Saturday, and the rest was put in the collection plates at the church.

"I believe the Boy Scout movement has possibilities for the nation that have never been conceived," declared President J. A. Hill of the West Texas State Teachers college, Canyon, in the main address of the evening. "It matters not how much wealth you accumulate if the people decay. Crime is costing more than education in this country. Our national decline will begin when we as a nation cease to put first things first. The Boy Scout movement is a challenge to us to help develop the best citizens possible. Scouting is based upon a sound educational theory, and I believe the churches and the schools have much to learn from the movement. Scouting utilizes the boy's interest and organizes his activity in a wholesome manner."

President Hill gave interesting reminiscences of his own boyhood, and used many illustrations which make up the humor and pathos of Young America's activities. The speaker said he had invited four Canyon Boy Scouts to luncheon yesterday to ask them what good they derived from the Boy Scout movement. These points he gave as follows:

1. Learning the value of being honest.
2. Teaching of respect for the nation and its ideals.
3. Knowledge of nature and God.
4. Contact with other boys—"friendship with the best."

The speaker discussed at length what he termed growing disrespect for law. "Violation of law strikes at the foundation of civil government," he asserted. He also discussed the need for wholesome recreation such as scouting provides.

The Rev. Thomas W. Brabham presided as chairman. He introduced C. A. Clark, executive for the Adobe Walls council. Mr. Clark briefly outlined his work, stressing particularly that he intended to have close contact with scout masters, the boys, and as many parents as possible. He also said that a summer camp would be held for the council beginning on or soon after August 20.

### GRAYS LEADING

Through heavy hitting and snappy fielding behind the stellar pitching of Lefty Graham, the Pampa Legion Grays were leading the Quitaque nine, 7 to 6, at the end of the sixth inning this afternoon. Every member on the Grays' line-up was hitting the ball hard and often. The Pampa infield was playing sensational ball and the outfield was letting nothing pass.

Tank Horton, Pampa catcher, was in the limelight and was working the veteran Martin to perfection.

Score by innings to the sixth:  
Pampa.....021 220-7 9 1  
Quitaque.....000 000-0 2 3  
Batteries—Pampa, Graham and Horton; Quitaque, Munds, Coop and Sullivan.

### BIG GASSEER AFIRE

MONROE, La., July 22. (P)—A great gasser, estimated to have a maximum of 70,000,000 to 100,000,000 cubic feet of gas daily, continued to blaze today, following its ignition Friday shortly after it blew in.

### Chinese and Russians Mobilize as War Threat Looms

Russian and Chinese war lords, and scenes like those that marked the mobilization of troops along the Manchurian frontier following the threat of hostilities, are pictured here. At upper left is General Chang Hsueh-liang, governor of Manchuria and war lord of the Chinese republic. In the circle is General Budenny, famous Russian cavalry leader, who was reported called from his vacation to direct military activities for the Soviet government. Above, Chinese troops are shown lined up for inspection and loading artillery into railway cars. Below are Russian soldiers on the march.

### Missouri Plane Is Forced Down by Broken Line

ST. LOUIS, July 22. (P)—The "Missouri Robin," second of two sister endurance planes to go aloft at Lambert-St. Louis field in an attempt to set a new record for sustained flight, landed at 7:51 a. m. today after having been in the air 117 hours, 20 minutes. A leaky oil line which they were unable to repair forced the fliers, Joe Hammer and W. Gentry Shelton, to bring the plane to earth.

The "St. Louis Robin," first of the planes to take the air, continued its flight, entering its tenth day at 7:17 a. m., and passing its 218th hour at 9:17 a. m., (central standard time).

The pilots, Dale "Red" Jackson and Forest O'Brien, reported the motor was still functioning smoothly.

The "St. Louis Robin" was within 29 hours of setting a new world's endurance record.

### HOUSTON, July 22. (P)—"Bumpy" air held the endurance monoplane, Billion Dollar City, relatively close to ground today, but the motor was singing, and the weather was good.

The monotony of refueling was broken for the pilots, Glenn L. Loomis and Joe Glass, by a message from the Shreveport fliers, Van Lear Leary and Curry Sanders, whose record hunting plane had been in the air only a few hours longer than the Billion Dollar City, which at 12:49:54 a. m., passed the 100-hour mark.

Leary and Sanders wished the Houston men "luck and even breaks."

### SHREVEPORT, La., July 22. (P)—The plane KWKH at 4 a. m. central time, today had been in the air 113 1-2 hours.

"Everything is O. K.," Van Lear and William Curry Sanders, pilots, reported.

### STEAMER HITS ICEBERG

ST. JOHNS, N. F., July 22. (P)—Lloyd's agents here received a message today from the steamer, Vinera, reporting she had hit an iceberg and requesting a tug to tow her to Halifax. The Vinera said she was unable to use her engines.

### PAMPA SHOULD OWN 'DRAWS' FOR PARK PURPOSES, SAYS DALLAS CITY PLANNING MAN

### PLANS FOR RAIL HEARING DRAWN UPON SUNDAY

Further plans for Pampa's part in the railway hearing in Fort Worth July 29, when the application of the Fort Worth & Denver lines to build an extension from Childress to Pampa were discussed yesterday afternoon at a meeting of local men and Judge J. H. Barwise, Fort Worth & Denver attorney, in Amarillo yesterday.

The use of Pampa's witnesses, necessary information and evidence and other important matters were discussed. Those making the trip were Charles C. Cook, Pampa attorney representing the Pampa Board of City Development and Chamber of Commerce; George W. Briggs, manager of the B. C. D. and C. of C.; and George Rainguard of the B. C. D. transportation committee.

Pampa's delegates to the hearing will leave here next Sunday to be in Fort Worth for the opening of the hearing Monday morning before a representative of the Interstate Commerce Commission.

### WHEAT SOARS 7 CENTS TO TOP OF \$1.11 IN CITY

CHICAGO, July 22. (P)—Wheat prices burst upward today to an extreme advance of 8 cents a bushel as the week-end passed without rain in the Northwestern drought. The close here was 7 to 7 3-4 cents higher than Saturday's finish, with July wheat selling at \$1.41, September at \$1.45 1-4 to 1-2, and December at \$1.52 1-4 to 1-2.

After hitting the toboggan last week, wheat again began to soar here today. The market price here Saturday was \$1.04. Today local elevators were paying \$1.11.

How beautiful towns are built and ugly portions removed was told to members of the Chamber of Commerce at noon today by John Surratt, secretary of the Kessler Plan association of Dallas.

E. F. Thomas, chairman of the C. of C. civic committee, was chairman of the occasion. The meeting was held at the Methodist church basement.

Mr. Surratt showed numerous lantern slide views of Dallas, Sherman, Austin, Cisco, and Lubbock, with "before and after" views in city beautification work.

He gave a number of suggestions directly bearing upon Pampa. Chief among these was the proposal that "draws" be decided to the city by property owners with the understanding that parks be established. Such procedure, Mr. Surratt said, would enhance the value of adjacent property and make a more beautiful city. He also believes that some of the city paving is too wide. He is an advocate of leaving more space between sidewalks and curbs, making it possible to have large trees.

"Towns should have no 'back ends,'" said the speaker in telling how community development associations may be organized to improve city sectors. He mentioned especially opportunities for work among negroes, who without attention often live under conditions which menace community health.

Mr. Surratt said that city planning is applying common sense to community building. Cities, like firms, are in competition, he pointed out, and establishment of good living conditions is necessary in attracting new business establishments and factories.

He suggested that the attempts to boulevard the streets in residential districts be abandoned on the grounds that the spaces left here are not wide enough to be of any practical use. He also urged that residences be set well back, leaving more space for lawns. Backyards are obsolete anyway, he pointed out.

He closed his talk with a plea for cleaning up the entrances to towns and a suggestion that Pampa be solved at

### THREE MEN DIE IN BOLD RIOT AT DANNEMORA

Convicts Finally Go Back to Cells, Whipped

TROOPERS ARE CALLED UPON

More Than Score of Men Injured by Bullets

DANNEMORA, N. Y., July 22. (P)—Three convicts, two of them serving life sentences, were shot and killed during a riot of 1,300 inmates of Clinton prison here today, Warden Harry M. Kaiser said in a statement issued after the revolt had been quelled and the prisoners had marched back to their cells early this afternoon. A score of inmates were in the prison hospital being treated for gunshot wounds inflicted by armed guards during the revolt.

DANNEMORA, N. Y., July 22. (P)—After five hours of rioting, nearly 1,300 convicts in Clinton prison here marched back to their cells today, their desperate dash for liberty ending in failure.

As the convicts filed into their cells under the watchful eyes of 1,124 prison guards, state troopers, custom border patrolmen and private citizens, all heavily armed, they left behind them two of their number, dead in the prison yard, and assisted at least a score of others injured by rifle fire from the prison walls.

The attempt to gain freedom occurred about 8 a. m. The group of convicts working in the carpenter shop dropped their work, hurled aside the guards and broke for the nearest prison wall, stopping only to fire the shop.

Guards on the wall opened fire, and almost at the same instant the prison siren wailed out its warning of an attempted prison break. Rifle fire from the wall turned back the prisoners who had attempted to scale it by the human ladder method, one climbing on the shoulders of the others.

Bullets Stop Two  
Two dropped to the ground, stopped by bullets, while others staggered back under the hail of rifle fire.

Two guards were injured. They were Phillip Murphy and F. C. Brenette, caught in the first rush of the revolting convicts. Murphy was struck on the head with a stone as the prisoners broke from the carpenter shop. Brenette was in the yard when the disturbance broke out and was badly beaten before he escaped from the mob, which surged around him with shouts of "kill him!"

The rioters, according to prison guards, were all from the group in the carpenter shop, where discontent was said to have been smoldering for some time. Several hundred convicts in the south hall of the prison remained at work and did not attempt to join the riot.

### Fire Spreads Out

The tailor shop, adjoining the carpenter shop, caught fire from the spreading flames and prison officials were powerless to combat the blaze as the convicts held the prison yard. Many of them carried tools with them, which while ineffective against rifles at long range, could prove deadly if officials had entered the yard.

Meanwhile, the regular prison guards had been reinforced by every available state trooper and custom border patrolmen, while two companies of the 26th state's infantry arrived from Pittsburgh barracks under command of Col. John F. Madden. The infantry were held in readiness pending receipt of orders from Washington, but such orders were not issued, the war department stated, as the request for troops did not come through proper channels.

once to prevent encroachment of undesirable business establishments in residential districts. He answered numerous questions of listeners.

**WASHINGTON LETTER**

**BY RODNEY DUTCHER**  
 WASHINGTON — Although the National Commission on Law Observance and Enforcement has left the front page since its appointment by President Hoover and its first meetings last month, it has actually been hard at work, believing that it has a tremendous job to accomplish within a relatively brief period.

At this writing none of the eleven members is in Washington, but there is a staff of a dozen persons at its offices here, busily engaged and working late hours to organize this great study of crime and criminal justice.

And nearly all the members are keeping in almost daily communication with the offices here, for they are buzzing, being buzzed by all and sundry in their various sections who might be expected to have interesting ideas on the subject of crime. Thus information and suggestions are being drawn first hand from all over the map—the commissioners are from Seattle, Los Angeles, Iowa, Chicago, Cleveland, New Orleans, Atlanta, Virginia, New York and Massachusetts.

**Set Us a Big Library**  
 Already a working library of a thousand volumes has been installed at headquarters, including a couple of hundred books borrowed in a raid on the Library of Congress and as many reports on state and municipal crime investigations as the commission has been able to find.

The plan of the commission's study has not yet been announced, but it is known that there are ten main divisions of inquiry to be pursued. One of these is prohibition. The rest are all concerned with crime and criminal justice.

The commission has held three sets of meetings, the last of which lasted four days, sessions frequently running into early evening. At the outset the commissioners went through the process of getting acquainted with each other.

They then considered three questions, your correspondent is informed: What are the facts? What do they show? What are we going to do with them?

The commission's first big job is to get the facts on crime and law enforcement. And this is no mean task. Study of criminals in the mass, over the country, will require a long time. Carried to a logical conclusion, a study of the causes of crime would require extensive psychiatric investigations and a thorough study

of facts which may not be obtainable.

Just what facts the commission will be able to gather, and how adequate they will be for its purpose, remains to be seen. But it will take all it can get, work on the basis of them as far as they will permit and hope that its pioneer efforts will lead to some permanent organization which can continue crime studies and eventually even tackle the cures of crime.

**More Facts Needed**  
 The commission wants to know first just how much crime there really is. It wants to know down, which is a difficult thing to obtain. It may be plugging a long time trying to find out just what facts are here. Meanwhile, it will try to economize on time, money and publicity. Anything it has to announce will consist solely of bare facts.

Two experts already have been engaged to pursue specialized investigations. The first was Alfred Bettman, a Cincinnati lawyer with experience in the Cleveland and Boston crime surveys, and an expert in the field of criminal prosecution. The second is Professor Sam Bass Warner of the University of Syracuse, another criminologist of wide experience. The commission is trying to pick three first-rate men, slowly and carefully, upon whose facts it can safely depend. Leonard V. Harrison, an expert on crime, came down to help at the outset and has been one of the most important figures in the work to date.

periment proposed by the Virginia executive is worth trying. A repeal session would focus the attention of the whole state upon the negative task of clearing and straightening out a deplorable mess of statutory ambiguities, inconsistencies, absurdities and rascalities.

Governor Byrd should set an example to his fellow-Governors by calling a session of the Virginia legislature for the beneficial purpose in question.

**TWINKLES**

A burglar who stopped to read a volume of Shakespeare was caught. But we can't think of any way to make that prove for the sake of youth that Diamond Dick is better reading.

Coolidge is addicted to mystery and detective stories. Maybe he is trying to understand himself.

Fame is fleeting. For the life of us, we cannot recall at this moment where are Lindy and Ann.

Education does not distinguish a person from other folk any more. A robber in Kansas City held up two students and obtained \$3.

It is said an airplane salesman must know his business "from the ground up".

It is reported that prisoners once out of the crowded Gray county jail will do most anything to keep out.

The legislature worked fast after it got started, even if Dan didn't for a time pull it back two steps every time it took one.

Helen Maria Dawes is getting so violent the English laugh right out loud without waiting for the points to soak in.

**TWO DIE IN PLANE**  
 WORCESTER, Mass., July 22. (AP)—A long loop which caused a piece of wing fabric to tear sent an airplane piloted by George J. Haven, 31, careening to the ground, 2,500 feet below, yesterday and brought death to Haven and his passenger Charles W. Holmes, 44, commercial photographer. The accident occurred at the Worcester airport, North Grafton. Both Haven and Holmes were Worcester men and were married.

**PROMINENT CORSICANA CIVIC LEADER DIES**  
 MORSICANA, July 22. (AP)—W. H. Hastings, 55, oil man of long and varied experience and a civic leader here, died yesterday and will be buried today.

Mr. Hastings was superintendent of the Magnolia refinery, president and manager of the Corsicana Brick company and was connected with other commercial enterprises here.

**It's Like This—**

**THE CRUX OF THE PROHIBITION PROBLEM** is virtually reached when discussion gets down to the basis for enforcement—whether by federal or state authority. It is a national law, imposed by an amendment and interpreted by the Volstead act, yet its enforcement is not as wide as that fact implies.

The suggestion of George W. Wickersham, chairman of the Hoover crime commission, that weakness of enforcement is due to placing of the brunt upon the federal government, whereas he believes it should rest upon the states, seems to the writer a most unfortunate utterance at this time. It is purely a personal opinion, whereas the crime commission was appointed to study a situation already muddled by conflicts of opinion.

On the strictest of state's rights theory, enforcement by states would be tenable, but suppose the states should follow the example of Wisconsin and withdraw all aid. This would reduce the federal amendment to an absurdity and restore liquor to a local option basis. Indeed, for lack of more extensive federal enforcement this local option exists already.

The cities have their hands full keeping down crime that grows out of the lucrative business of bootlegging, while the county officials receive little help from federal agencies. State laws are enforced according to the conscientiousness of the officers and the spirit of the community.

Mr. Wickersham's suggestion prejudices his position at the beginning.

**TRAIN WRECKS HAVE BEEN FREQUENT** enough of late to encourage the aviation enthusiasts who claim the newspapers "play up" plane accidents beyond their worth as news. The "play" given several bad wrecks recently have served to disprove that statement.

Aviation, measured by miles reeled off in passenger service, is as safe as rail travel. Statistics prove it. The News printed a cartoon this week based upon the fact that the stunt fliers are making the big noise and getting the praise, while the more colorful, dependable mail and passenger pilots and unsung heroes. Similarly, the stunt pilot, while possibly making valuable experiments at times, causes most of the accidents which destroy public confidence.

Rail travel is reduced to careful, well ordered service only, but aviation has its bad and reckless addicts whose stunts and tragedies should be segregated from consideration with organized transportation

**GETTING RID OF USELESS LAWS**

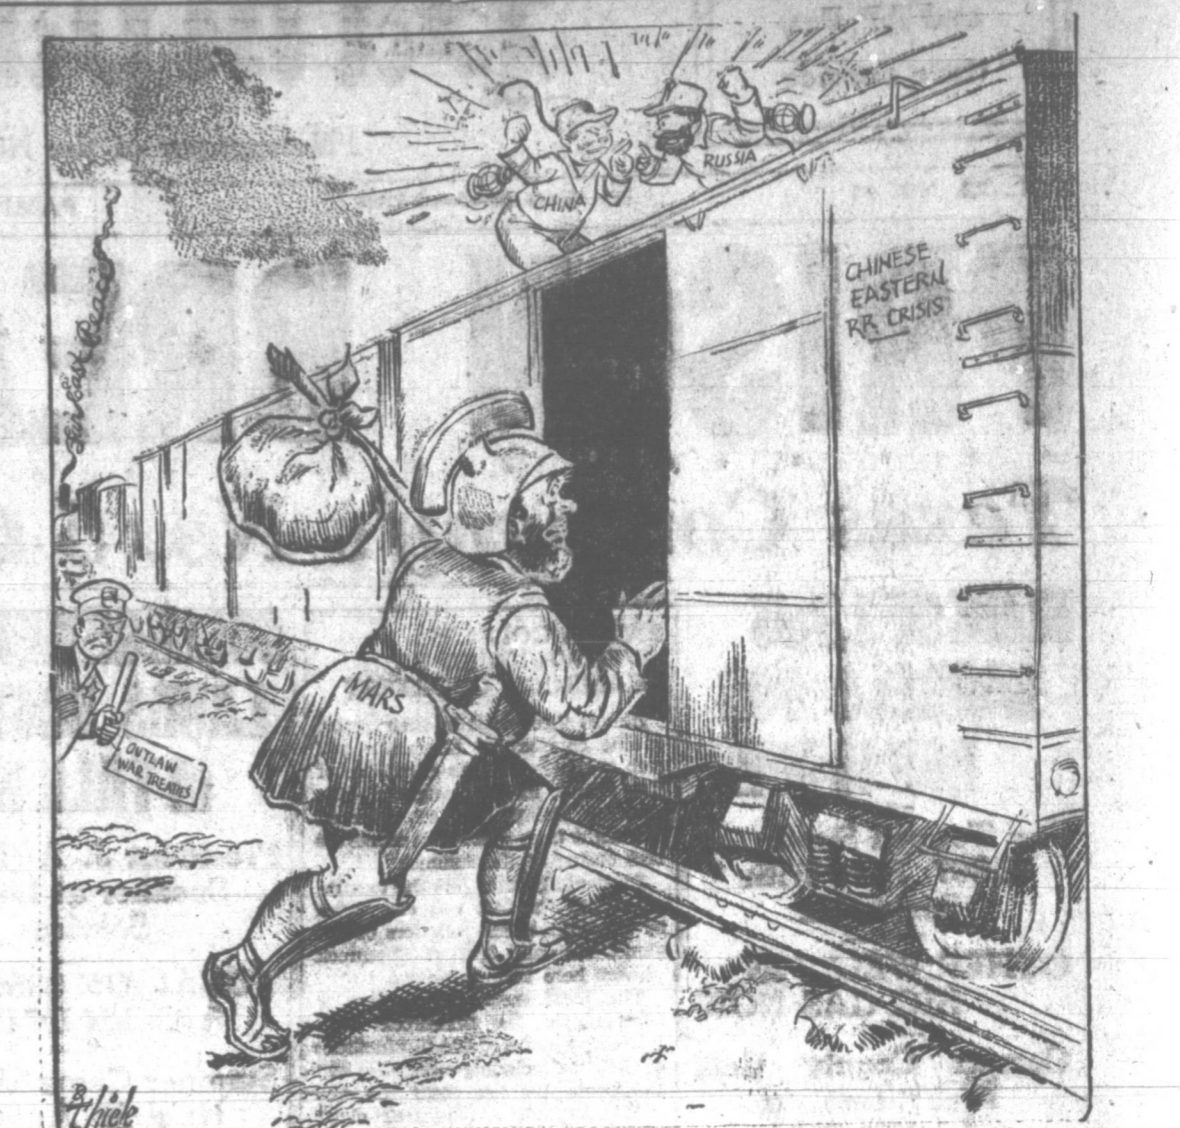

From the Chicago Daily News:

In the various states the legislatures now closing up their sessions and adjourning have enacted many statutes, but it is safe to say that few old and useless or even harmful laws have been repealed by them. Consider, for example, the disgraceful conduct of the Illinois legislature, which is about to adjourn after having refused pointedly to repeal either the Small immunity law or the Crowe law prohibiting the naming of special prosecutors in times of manifest need.

Governor Byrd of Virginia, one of the able, vigorous and independent state executives, has made the pertinent suggestion that the legislature of every commonwealth in the Union be called together in special session for the sole purpose, expressly stated in the call of overhauling the statute books and repealing every law that has out-lasted the conditions which dictated its enactment or that ought to be wiped out for any other reason.

That there are many such obsolete or injurious statutes everybody recognizes. That it is difficult to get rid of them at an ordinary session is equally well known. The ex-

### Society Social Calendar

**MONDAY:**  
Meeting of the executive board of the Pampa Welfare association will be held at 8 o'clock.

Members of the Study Club of the A. A. U. W. and College club will meet at 8 o'clock at the Methodist church to hear plans of the calendar committee for next year's program. A full attendance is desired for the selection of a course.

**TUESDAY:**  
The Kongential Kard Klub will meet in the home of Mrs. C. E. Boston at 8 o'clock.

The Gibraltar Bridge club will meet Tuesday afternoon at 2 o'clock at the home of Mrs. Willard E. Taylor.

**WEDNESDAY:**  
The Women's Missionary society of the Methodist church will meet at the church at 3 o'clock for a monthly business session, Bible lesson, and a social meeting.

A called meeting of the American Legion auxiliary and the Eight and Forty will be held at Legion hall at 8 o'clock for the election of delegates to the state convention in Fort Arthur in August. Officers have urged that all members attend.

**FRIDAY:**  
The children's story hour, sponsored by the Twentieth Century club, will be held at 10 a. m. in the room adjoining the reading room of the public library at the First Methodist church. Mrs. W. T. Fraser will tell stories. All children of the city are cordially invited to be present.

Bill Wisdom and David Hughes are spending the week-end in Enid, Okla.

When the farmer "retires" and moves to town he keeps on working, says Dr. C. C. Zimmerman, Minnesota sociologist.

Redding, Calif., has named its new airport for a native son, Lieut. John Benton, Pan-American good-will flier, who was killed in 1927.

Iowa spent more than \$58,000,000 on its highways last year.

### Extra! Skirts Are to Be Longer!

While Parisian dressmakers are reported ready to make another attempt to popularize long skirts this fall, England has already had a peek at the proposed styles—and here they are. This picture shows two duplicate models in flowered chiffon, as seen at an English race course. Note the contrast between these skirts and the one on the right.

### Moody Has Big Responsibility in Appointment of New Court Justices

By R. W. BARRY  
Associated Press Staff Writer

AUSTIN, July 22. (AP)—Few governors have been called upon to make as many appointments to lucrative and responsible as well as interesting official position as Governor Moody. He is now confronted with the selection of six associate justices of the Supreme Court of Texas as a result of approval by the voters last Tuesday of a constitutional amendment increasing the membership of the court from three to nine.

Already the governor is being swamped with petitions and supplications to appoint this man and that man. Members of the bar of Texas have formed themselves in groups to propose the appointment of certain candidates for the places. The same bar, almost as a unit, advocated passage of the nine-member court amendment. Now it is somewhat divided on whom the responsibility of a member of the court should rest.

**Salaries Are Good.**  
In addition to the prestige membership on the supreme court carries, the remuneration is attractive. The salary is \$8,000 annually. To be sure, there is lots of hard work, but on the other hand there is a wonderful store of knowledge and experience to be gained by members of the profession.

Terms of members of the Supreme Court are fixed at six years, and they are to be elected by the people. However in the case at hand, wherein it is incumbent on the governor to select the justices who are to serve until their successors are elected, two each will be appointed to act until January 1, 1931, January 1, 1933, and January 1, 1935, for the amendment stipulated that the terms of the new justices shall expire with the incumbents.

The term of chief Justice C. M. Cureton expires on January 1, 1931, which

means he and two of the six judges to be named by Governor Moody must seek reelection, if they care for it, in the Democratic primary. Terms of associate Justices William Pierson and Thomas B. Greenwood, terminate on January 1, 1933 and January 1, 1935, respectively.

**To Promote Judges**  
It is considered a foregone conclusion that Judges Richard Critz and C. A. Leddy, members of the commissions of appeals, will be appointed to the Supreme Court. Their respective terms end in June 1931, and they are appointees of Governor Moody. Others on the commissions whose terms were until June, 1931, are Judges J. D. Harvey and H. B. Short.

The nine-member court will come into existence as soon as the state canvassing board declares the result of the election and Governor Moody names the new members. The canvassing board will meet 40 days after the election. Chief Justice Cureton said he hoped to organize the new court about September 1 and go to work on the docket. The constitutional three-month vacation through July, August and September was abolished by the amendment and the court will stay on the job the year around.

Other appointments to be made soon by Governor Moody include the state auditor who is to receive an annual salary of \$7,500 and five members of the state fish, game and oyster commission, who will receive no pay except reimbursement for actual expenses while on the job. The governor recently selected former Senator A. E. Wood of Austin for a place on the commission, and he has been picked by the forecasters for chairman of the board.

### ONTARIO WOMAN FATALLY GORED BY MAD BULL

BELLEVILLE, Ontario, July 22. (AP)—Mrs. Irvin Reid, 23, farmer's wife in Limerick township, has been killed by a bull.

She had gone into a field to milk cows when the bull, recently purchased by her husband, dashed across the field and caught her with his horns tossing her in the air and goring her when she fell.

Severely injured, she ran to a tree, which she and her little child climbed. A limb snapped, hurling them to the ground. The blow rendered Mrs. Reid unconscious, and the child was also injured.

American prune growers are running ahead of their foreign competitors, says the North Pacific Co-operative Prune exchange.

### No Explanation in Midland Killing

MIDLAND, July 22. (AP)—The explanation of a main street gun duel between two veteran peace officers here today rested with one of the participants, believed to have been mortally wounded.

Night Watchman J. C. Holcombe, 58, who shot it out with Chief of Police King Reed before dawn yesterday, fell to the sidewalk dead. Reed was wounded seriously, and, although a cab driver was said to have been nearby when the guns suddenly roared, information given out by officers indicated that after talking with him they still had no definite theory to offer.

### Talks To Parents

**A SHINING VIRTUE**  
(By Alice Judson Peale.)  
No doubt you take pains to cultivate in your child honesty, orderliness and industry—the humdrum virtues. But what about the one shining virtue of the human race—curiosity? It is at least as important for his happiness as the others. The measure of your child's curiosity is to a large extent the measure of the amount of fun he will get out of life.

Is your child one of those who wants to know the why of everything? Does he pester you with questions to which he really wants to know the answers? You should be pleased.

Does he take things apart to see what they are made of? Fine. Is he eager always for new experience? Does he feel that the unknown always is worth finding out about? That is quite as it should be.

Help him be curious. Answer his questions, but don't give him such exhaustive explanations that he is overcome with facts.

When he comes home with a new discovery, act as if it were news to you, too, and listen with interest while he tells you all about it.

Don't stomp his thunder. If you are keen about botany, let him learn to be keen about it for himself. Don't force it down his throat. You may know that plants are marvelous, but he will never want to know a thing about them if you bore him with discourses and smother him with information. Ex-

### Clara Bow and Future Husband

Clara Bow, famous "IT" girl of movieland, is pictured here with her husband-to-be, Harry Richman, New York night club owner and actor. That beaming smile on Clara's face comes from the fact that "she's just so happy!" as Richman slips on the \$10,000 engagement ring. They are to be married soon.

pose him to wonders, but don't try to commandeer his attention. It can't be done.

Give him the wherewithal to feed his curiosity and follow his own investigations. See that the young experimenter has tools, the bird fan a pair of field glasses. Provide reference books which are readable and trustworthy. If your child's researches result in collections, see that they are as little tampered with as the most precious volumes in your library.

### HOTT SMASHES PLANE

EDMONTON, Alberta, July 22. (AP)—Captain Ross C. Hoyt's attempted flight from New York to Nome, Alaska, and return, has ended in a crash near Vermount, B. C. He was on his way here from White Horse, Yukon, on the third leg of his homeward trip yesterday.

The United States army flier escaped injury, but his Curtiss hawk pursuit plane was wrecked.

Charlotte Clem invites her friends and patrons to visit the Aladdin Beauty Shoppe. Call 235 for appointment. \$1-3p

### Four Killed in Airplane Crashes

CHICAGO, July 22. (AP)—Four persons were killed yesterday in two airplane crashes in the Midwest, one here and the other at North Platte, Neb.

Jens Jensen, 28, and Miss Hilda Schaufelberg, 21, were killed and Miss Pauline Taylor, 28, was critically injured when Jensen's plane fell. The engine stalled and the plane went into a tail spin, landing near the Avers airport west of Chicago.

County police said they learned the women had given Jensen, who was not licensed as a commercial pilot, \$5 to take them aloft.

"Frozen" controls were believed to have caused the North Platte accident.

Henry Oldham, pilot for the Midwest Aviation corporation, was instructing Mike Ryan in flying. They had been in the air nearly an hour and were about to land when the crash occurred near the North Platte municipal airport.

Both Ryan and Oldham were killed. They lived at North Platte.

Potato growers in the lower Rio Grande valley of Texas are increasing their production about 10 per cent through use of mechanical diggers.

## FARM IMPLEMENTS FOR BETTER FARMING—

The McCormick-Deering 15-30  
More Power—More Speed

McCormick-Deering One-way Plows  
Ready to deliver for your plowing

This new weeder represents the culmination of 18 years of study and effort to improve the best tillage implement made. A square rod of wonderfully made steel is forced from one to six inches under the surface of the ground and revolves in the opposite direction to that of the wheels. This causes the rod to pull every weed with which it comes into contact.

The weight of the machine pressing on the rod removes the large air spaces below it and makes a perfect seed bed. Lumps are brought to the surface and are left there, making a loose lump mulch that will not blow.

## POWERFUL GRAYS WILL MEET QUITAQUE TODAY IN AMARILLO TOURNEY—MALONE MAY HURL

### Snow and Dye Expected to Fill Air With Gloves

Fans declare the return bout between Speedy Snow, local K. O. artist, and Fighting Dye, Phoenix Cyclone, will not last long, but while it does, there will be more gloves thrown and more boxers will hit the canvas than ever before. Dye and Snow are "going in to win" from the opening gong and somebody is going to take a count.

Last time they met, the fight lasted six rounds and before the end both boxers had landed on the canvass or gone through the ropes five times. Both are hitters. Both are scientific fighters. Both are fast and clean.

As a semi-final Kid Arthur, local slugger, and Kid Duncan will provide the fireworks. The bout is scheduled to go six rounds, but whether it will or not cannot be determined. The wise ones declare neither will be able to stand the gaff for six rounds. Each weighs 154 pounds.

Preliminaries will include a six-round bout between two boys of dusky hue. Johnnie Hill of Joplin and Bill Lewis of Pampa will be the two big boys in the ring. Both will enter at 170 pounds. In a four-round battle Beede Rye Hayes and Joe Ash will tangle. Hayes comes from California and Ash is a local boy.

The wrestling match on the card will be a one-fall decision with Hack Potter and Slaty Glover as the two main men in the ring. They have been working hard and although not known here, look good to fans who have been watching them train.

A battle-royal will open the card, which will start promptly at 8 o'clock.

The Pampa American Legion Grays will make their debut in the 1929 Amarillo baseball tournament this afternoon at 1:30 o'clock when they meet the Quitaque nine. The strength of the small town team is not known, but by reports from that part of the country the Grays will have a hard team to shoot at.

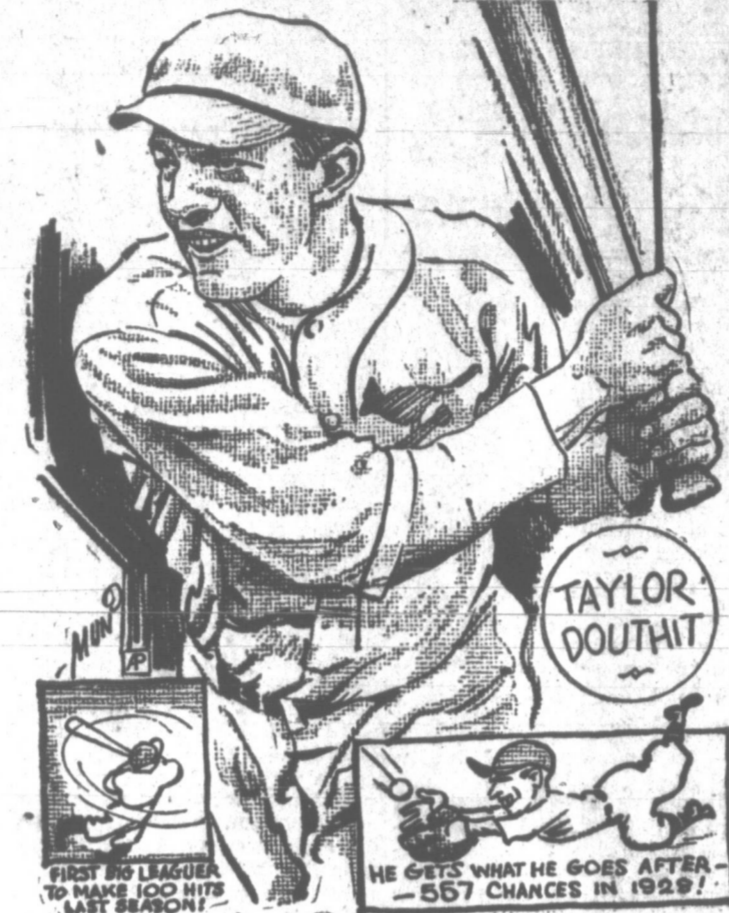

Yesterday afternoon the Shock Troop from Canyon, backed by the Amarillo Legion, won a sensational victory from Silverton, one of the favorites in the tournament. In the second game, the Amarillo Tactless Texans surprised even themselves when they defeated the fast Lamesa Lobes. The Troops beat Silverton 9 to 0 and the Texans won from Lamesa, 10 to 6.

A week ago Sunday, the Grays defeated the Texans here. The latter were thought to be easy pickings in the tournament. Pitcher Calwell was the star of the game.

The Grays left here yesterday to attend the games and remained in Amarillo for today's encounter. Whom Gober will send to the box today had not been determined last night. The veteran said he would probably use either Pat Malone or Lefty Graham against the Quitaque boys. He has Slim French and Carr in reserve.

The Grays' tentative lineup will be Horton behind the bat; either Graham or Malone in the box; Nell on first; Roberts on second; Winegardner on short; Williamson on third; Marcum in left; Waller in center, and either Gober or Malone in right.

## DOUTHIT IS STARRING AGAIN FOR FAST MOVING CARDINALS

National league batters are finding it harder than ever this year to drive baseball beyond the reach of Taylor Douthit. He led major league outfielders in chances accepted in 1928.

## TEXAS LEAGUE PAIRED OFF IN 2ND DIVISION

By GAYLE TALBOT, JR., Associated Press Sports Writer.

Perhaps, after all, lamentations for that great first half race were premature. Close as it was, there was never a time when six clubs were jammed into as cramped quarters as the pennant ladder discloses today after 20 days of battling.

The Spudders and Sports, Wed for the top, are only a half game ahead of the Exporters and Buffs, knotted for third. In between are the Cats and Cubs, who, as a matter of fact, really have a good claim on the lead. A matter of five percentage points is all that deprives them of the honor.

To complete the binding arrangement, Dallas and San Antonio are deadlocked in the cellar position, three and one-half games off the top. The present situation, with each of the eight teams tied with a rival, probably is unparalleled this far along in a Texas league chase.

Any one of six outfits may be sitting atop in the heap after today's games, which mark the opening of the third stage of the northern teams' invasion of the southern end, Dallas is at Beaumont for three, Shreveport at Houston, Wichita at San Antonio, and Fort Worth at Waco.

The league was thrown into its present scrambled condition by the following series of events, from left to right: Art Reinhardt pitched the Buffs to their second victory in three starts against the Spuds, 5 to 2. He permitted Galloway's sluggers only four hits, but at that achieved victory only by virtue of a four-run rally by his backing in the eighth inning. Red Bennett of the Oilers cracked his nineteenth home run.

The Sports swept back into the lead for the first time in the second half by taking their third straight from the crippled San Antonians, 14 to 6. They hopped all over the Indians' newest mound hope, Joe Giard, and sent him to his bath after he had allowed eight runs in the first four innings.

Dallas, back at full strength again, quitted Waco after overwhelming the Prattmen, 12 to 3, in the rubber game of their series. Charlie Barnabe, who twirled for the Cubs last season, faced them for the first time this year and rang up his fifteenth decision. The win placed him still further abreast of the league's pitchers.

Fort Worth eased into a claim on the leadership by shading the Exporters, 3 to 2, behind Jimmy Walkup's fine five-hit game. The Cats are the first to take a series from the shippers in some time.

## GOLF GOAT LETTERS

By VERNE WICKHAM

Here's the fussy fellow who is always cleaning the ball. He carries his own patented ball-washer around the layout and no matter where it is he cleans the mud off when he pleases.

The rule states plainly "cleaning the ball when in play entails a penalty of disqualification in stroke competition and loss of the hole in match play, except under special rules by local committees in charge."

This covers play on the green. If

you're playing the game according to the book, you can't clean the mud from a ball even on the green.

Most tournament committees announce that the ball may be cleaned when reaching the green but, if the special ruling is not announced, the ball can be cleaned only on each tee. In other words, you can remove nothing from the ball from the time you hit your tee shot until the ball drops into the bottom of the cup.

If a ball split, or in any other manner becomes unfit for play between tee and green, it may be replaced with your opponent or partner's permission. Mud adhering to a ball shall not be considered cause for making it unfit in play.

Another practice frowned upon by most good golfers is the habit of using one ball off the tee and through the fairway and another on the green. You've seen them come up to the green

## ATHLETICS IN GOOD POSITION AFTER TRIALS

By ALAN J. GOULD, Associated Press Sports Editor.

NEW YORK, July 22. (P)—The Athletics have passed the tests that baseball observers asserted would decide the American league pennant race.

The Mackmen stood off the world's champion Yankees in the first big test, and now, after a crucial trip through the west that started somewhat poorly, have come back home with their lead substantially intact.

Connie Mack has experienced too many disappointments in recent years to start building air castles or additions to Shibe park when two months of campaigning remain, but the veteran leader now has every reason to feel confident he will hear the roar of the world's series crowd once more, after a lapse of 15 years.

The Yankees have made a gallant fight to stay within hailing distance of the Athletics. But the team's general decline, which actually set in last season in spite of a glamorous world's series performance, has not been checked.

The "breaks" of baseball have been mostly against the men of Miller Huggins. He failed to solve his worrisome infield problems. Waite Hoyt and George Pipgras, the two pitching aces, lost some of their effectiveness. Finally, Babe Ruth, after a comeback that seemed to inspire the club, has experienced further damage.

whip out a new ball from their pocket, pick up the old one and drop the new ball onto the green—and usually nearer the hole.

Just remember that it is against all rules of golf to ever touch the ball with anything but the club from the time you tee it up until you take it out of the cup. Play according to the rules!

**HOOVER BACK IN CAPITOL**

WASHINGTON, July 22. (P)—President Hoover returned to Washington today from his Virginia fishing lodge where he had spent the week-end.

## Pirates Back in Lead in National Displacing Cubs

By HERBERT W. BARKER

Donie Bush's Pittsburgh Pirates have cruised back into the National league lead, displacing the Chicago Cubs whose latest tenure of office lasted twenty-four hours.

It took two fine pitching performances to reinstatement the Pirates. Remy Kremer held the New York Giants to five hits, as the Corsairs triumphed, 5 to 3, while over in Brooklyn the old Cub nemesis, Dazzy Vance, gave the Bruins five scattered safeties and beat them 3 to 1. The net result was to drop the Cubs back into second place, a game behind Pittsburgh.

Kremer had to be at his best to hand up his 12th victory of the season. The Pirates got only eight hits but bunched five of them with Fred Leach's miff of a fly ball to score four runs in the fifth. In the home half of the same inning the Giants tallied twice on three hits. All the Pirate hits were made off Larry Benton, the other Giant twirler, Fitzsimmons and Mays, setting the opposition down in order over the last four innings. The triumph gave Pittsburgh an even break in the series and a record of 11 wins and four losses in the East.

The St. Louis Cardinals lost both ends of a double bill with the Boston Braves, 4 to 2, 4 to 3. Lester Bell drove home all the Braves runs in the first game, three with a home run and the other with a single. Sisler's double with the bases filled in the ninth gave the Braves the second game.

Red Lucas pitched good ball after a shaky start, and Cincinnati downed the Phillies, 8 to 5.

In the American League, Philadelphia lengthened its lead over New York to 10 1-2 games, beating Detroit, 10 to 7, in 11 innings, while Cleveland was downing Huggins' men, 6 to 4.

The rampaging Chicago White Sox slugged three pitchers for 12 hits to shut out the Boston Red Sox, 10 to 0. Ted Lyons gave the Red Sox only four hits and none got as far as second base.

The St. Louis Browns bunched hits to down the Washington Senators, 8 to 5. Sam Gray, although touched for 12 hits, bore down in the pinches and succeeded in earning his 12th victory of the season.

## MAJOR LEAGUE LEADERS

(Including games of July 21)  
By The Associated Press

**National League**  
Batting—Herman, Robins, 398.  
Runs—Ott, Giants, 87.  
Stolen bases—Cuyler, Cubs, 26.  
Hits—Terry, Giants, 142.  
Doubles—Frederick, Robins; Hafey, Cards, 29.  
Triples—L. Waner, Pirates, 14.  
Homers—Klein, Phillies, 29.  
Stolen bases—Cuyler, Cubs, 26.  
Pitching—Bush, Cubs, won 13, lost 1.

**American League**  
Batting—Manush, Browns, 387.  
Runs—Gehring, Tigers, 87.  
Hits—Manush, Browns, 143.  
Doubles—Gehring, Johnson, Tigers, 33.  
Triples—Miller, Athletics, 12.  
Homers—Gehrig, Yankees, 23.  
Stolen bases—Gehring, Tigers, 14.  
Pitching—Grove, Athletics, won 16, lost 2.

## Hunter Is Taken Off Tennis Team—Lott Will Play

NEW YORK, July 22. (P)—Selection of the United States Davis Cup team to play France in the challenge round starting Friday in Paris, with George Lott of Chicago substituted for Francis T. Hunter of New York, was announced today by the United States Lawn Tennis association. The other three members are Big Bill Tilden, Wilmer Allison of Austin, Texas, and John Van Ryn of Orange, N. J.

Tilden and Lott will play in the singles, while the crack combination of Allison and Van Ryn, which has been cutting a sensational figure abroad, will play the doubles.

Lott's replacement of Hunter is the only change from the lineup which defeated Germany, 5 to 0, in the inter-zone competition concluded yesterday at Berlin.

No official explanation of the shift was contained in the announcement of team selection by Joseph W. Wear, of Philadelphia, chairman of the Davis cup committee. On the national list Hunter ranks No. 2, and Lott No. 3. It was understood, however, on the basis of past performances, that Lott's chances of winning against the Frenchmen were considered brighter. Hunter has seldom been impressive against any of the French aces.

## Baseball Data

(YESTERDAY'S RESULTS)

**American League**  
New York 4; Cleveland 6.  
Philadelphia 10; Detroit 7.  
Washington 5; St. Louis 8.  
Boston 0; Chicago 10.

**National League**  
Pittsburgh 5; New York 3.  
Chicago 1; Brooklyn 3.  
Philadelphia 5; Cincinnati 8.  
St. Louis 2-3; Boston 4-4.

**Texas League**  
Dallas 12; Waco 3.

Milwaukee 4-8; Toledo 0-4.  
Kansas City 5-3; Columbus 1-5.  
Indianapolis 8-7; Minneapolis 2-2.  
Louisville 9-2; St. Paul 5-13.

Scott Barcus was an Amarillo victor yesterday.

## BIG AMPHIBIAN SINKS

BUFFALO, N. Y., July 22. (P)—The pilot and two passengers were rescued by a police boat today from the Buffalo-Toronto amphibian plane which nosed over and sank in Buffalo harbor, about a quarter mile from shore. The big Sikorsky had been christened last week when the Colonial Western Airways new line was officially opened.

## STONE COMING BACK

FORT WORTH, July 22. (P)—Lil Stoner, right hand pitcher who has been in the American league since 1923, when he won 27 games for Fort Worth, is coming back to the Cats, according to a telegram from Ted Robinson, president of the Fort Worth baseball club. Stoner was obtained from Detroit today and will join the Panthers in Dallas Saturday.

## Texas Girl Enters Chicago Race Event

CHICAGO, July 22. (P)—Another "battle of the century," a test for sprint champions, will be held Saturday. Not for Simpson, Tolan, Bracey, et al, but for the outstanding women sprinters of the country, who will fight it out in the women's national A. A. U. championships at Soldier field.

Headed by Betty Robinson of the Illinois women's A. C., winner of the 100 meters in the 1928 Olympic games, a field of 25 girl stars has been entered for the event. Olive Hasenpus of Boston, Katherine Maguire of St. Louis, and three New Yorkers, Jessie Cross, Carrie Jensen, and Mary Washburn, all members of the Olympic team, will race against the champion.

The South will have two threats in the race, Margaret Whitcomb of Dallas, Texas, holder of the Southern A. A. U. championship, and Olive Kruger of Chattanooga, Tenn.

## HACK IS FANNED

NEW YORK, July 22. (P)—Hack Wilson, pudgy outfielder of the Chicago Cubs, would prefer, perhaps, if Arthur Dazzy Vance wouldn't bother to pitch against the Cubs.

Wilson had hit safely in 27 consecutive games when he faced the "Dazzy" at Brooklyn yesterday. Hack didn't get a hit. In fact he struck out four times, every time he faced the Robin strikeout ace.

## WILL USE PLANE

NEW YORK, July 22. (P)—The North German Lloyd line announced today that the seaplane New York would leave the liner Bremen, at 1 p. m., for New York harbor, carrying a load of express mail. The plane is expected to land in the bay at 2 p. m.

### WASHINGTON DAYBOOK

By HERBERT PLUMMER

WASHINGTON.—Just one more reason why Mrs. Herbert Hoover is called one of the most popular and gracious of our first ladies:

Japan and the United States were engaged in the Davis cup tennis matches at the Chevy Chase club.

John Hennessey, the American star, had defeated Tamio Abe in a hard fought match that lasted four sets. Heralded as the most formidable of his country's tennis stars, Abe felt his defeat keenly.

Mrs. Hoover witnessed the match from her box. She had been an enthusiastic spectator, and repeatedly applauded the outstanding plays of the participants.

While the gallery was applauding the victor Mrs. Hoover was seen to be writing. Shortly afterward a message was sent to the box nearby, occupied by the Japanese ambassador and Mme. De-

buchi. The message was, in effect: "Tamio Abe gave a worthy and skillful performance of the sport so dearly loved by his countrymen."

**Distinguished Spectators**

It is doubtful if a Davis cup match ever was witnessed by a more distinguished and colorful gallery than the one which followed the play of the Americans and Japanese.

There was Mrs. Hoover. The Japanese ambassador and Mme. Debuchi were in attendance at all of the contests. The ambassador of Spain and his daughters, Senorita Maria Padilla and Senorita Rosa Padilla, were there.

The ambassador of Germany and Frau von Prittwitz und Grafon; the minister of Sweden, Mr. Bostrom; Princess Elizabeth de Ligne and Princess Antoinette de Ligne of Belgium; Mlle. Jeanne Cretziano of Rumania; Senora de Ververka, wife of the Czechoslovakian minister, and Senora de Diez de Medina, wife of the Bolivian minister, were only a few of the many other members of the diplomatic ranks who were present.

Cabinet members' wives, wives of senators and a host of others high in the social list of the national capital were spectators.

The secretary of state, himself an enthusiastic tennis player, and Mrs. Stimson witnessed the matches. It was Mrs. Stimson's first appearance in Washington since her husband became secretary of state. She has been here little more than a week, and the greater part of this time she has been ill.

**The Donor Attends**

Vieing with the contestants themselves in the limelight was Dwight F. Davis, former secretary of war, and the donor of the Davis cup.

His appearance was the signal for much applause from the gallery. He was introduced to the players and notable in the gallery by Lawrence A. Baker, chairman of the tennis committee of the Chevy Chase club, and then faced the battery of cameras.

Mr. Davis long has been a familiar figure in tennis. During his junior year at Harvard he was intercollegiate tennis champion. In 1901 he won the national doubles championship, and twice in subsequent years, paired with Holcomb Ward, turned back British challengers.

That he has lost none of his old-time prowess in the game is shown by the fact that in 1923 he won the squash racket championship of the District of Columbia.

### Hollywood Sights and Sounds

By ROBBIN COONS

HOLLYWOOD.—Ruth Chatterton and Ralph Forbes are renovating their Beverly Hills home—but they won't have a talkie projection room in it, nor even a movie room at all.

"It used to be Italian," she told me, "and I can't bear that style, so we're tearing out everything, big mantels and all, and making it English—but talkies in it? Heavens, no! I have enough of that while I'm working, and when I'm not, I want to forget all about work—at home, anyway."

Not that she doesn't like talkies. Far from it. She says she won't even look at a silent picture any more. And while other actresses may find talkie-making wearisome, Miss Chatterton honestly enjoys every minute of it, simply because it is interesting and she is interested.

Which explains, perhaps, why few of her scenes in talkies have to be taken over and over. The long courtroom scene in "Madame X," for instance, had to be filmed only twice—and twice only because the cameras went wrong on the first trial.

If everyone on the set knows just what to do, there is no reason for the work's becoming unduly tiring, she believes. That was how it was in "Madame X." When Ruth Chatterton works, she works.

When the Tom Greene Beat the Betsy Ann

Here's the finish of the race from Cincinnati to New Richmond on the Ohio river between the sternwheelers Betsy Ann, left, and the Tom Greene. The Tom Greene edged across the finish line winner by ten feet over its rival and thereby retained the elks' antlers, symbolic of speed, won last year from the Betsy Ann. Twenty thousand people along the banks were thrilled as the packet, with smoke curling from twin smoke stacks and the waters churning heavily, approached the finish line almost in a dead heat.

**FRENCH TEAM CHOSEN**

PARIS, July 22. (AP)—Official selection of the French Davis Cup team for this week's challenge round play with America announced tonight, definitely eliminated Rene La Coste from the list. The Americans were notified by the French captain, Pierre Gillou, that his team would be chosen from Henri Cochet, Jean Borotra, Christian Bous-sus, and Jacques Brugnon. Cochet and Borotra will play the singles.

**MANY ARRESTS MADE HERE DURING WEEK-END**

County and city officers had another big week-end during which a total of 48 law breakers appeared before judges yesterday and this morning. Of the arrests, the county had 28 and the city 20.

In justice court offenders were charged with gaming, disturbing the peace, and drunkenness. The chief offenders taken into the city court were speeders, although a number of intoxication charges were placed.

**Mexican Town Gets 200 Persons**

CALEXICO, Calif., July 22. (AP)—This border town awoke today to find its population decreased, temporarily at least, by approximately 200 persons.

Across the border in lower California, the village of Mexicali greeted the day with the knowledge that it had gained a similar number by the overnight exodus from Calexico, the result of an order by the Mexican government requiring that foreigners working in the country must take residence there.

A mass meeting to protest against the ruling, which went into effect yesterday, was scheduled for today by Calexico business men. Previous protests sent to Gov. Abelardo Rodriguez of the northern district of lower California brought the formal statement that he thought the order would be modified before it went into effect.

No modification had been made early today.

**Texas Insurance Company Bought by Missouri Firm**

ST. LOUIS, July 22. (AP)—The St. Louis Post-Dispatch today says it has learned the Missouri State Life Insurance company of St. Louis has purchased control of the Southwestern Life Insurance company of Dallas, Tex. for approximately \$7,500,000.

The newspaper says State Insurance Commissioner Thompson is expected in St. Louis today to give formal approval of the deal and the state commissioner from Texas also has been invited here.

According to the article, a controlling stock interest was purchased from officers of the Dallas company. The transaction was ratified last week by Missouri state life directors. The Post-Dispatch says, and it is understood the company was valued at \$15,000,000 and control was acquired for half that amount.

The Southwestern Life operates exclusively in Texas. It has \$270,000,000 insurance in force; \$2,000,000 capital and \$2,000,000 surplus. It is planned to continue business as heretofore.

### Markets

**WHEAT SOARS EARLY**

CHICAGO, July 22. (AP)—Unlooked-for brisk upturns in Liverpool quotations and absence of any important rainfalls in Canada sent wheat prices soaring here in today's early dealings. Besides, supplies of wheat on ocean passages were shown to be decreasing, and failure to settle Argentine port strikes was announced.

Opening 2 3/4 to 3 3/4c higher, Chicago wheat scored decided further gains, but reacted sharply. Corn, oats and provisions were also firmer, with corn starting 3-8 to 1 1/4c up and subsequently continuing to climb.

**KANSAS CITY LIVESTOCK**

KANSAS CITY, July 22. (AP)—Hogs: Receipts 11,000; 240 pounds down steady to strong; weightier dull; top \$11.90 on 190 to 230 pounds; packing sows \$9.25@10.35.

Cattle: Receipts 18,000; calves 3000; steady to 25c lower; slaughter steers, good and choice 1,300 to 1,500 pounds \$14.00@16.25; 1,100 to 1,300 pounds \$13.75@16.25; 950 to 1,100 pounds \$13.25@16.00; fed yearlings, good and choice 750 to 950 pounds \$15.25@15.75; cows, good and choice \$8.25@11.50; vealers (milk-fed) medium to choice \$9.00@14.00; cull and common \$6.00@9.00.

Sheep: Receipts 10,000; lambs 25@40c lower; sheep steady; lambs \$13.75@14.75; ewes \$5.25@7.00.

**CHICAGO GRAIN**

CHICAGO, July 22. (AP)—Wheat: No. 2 red \$1.38 1-2@1.41; No. 2 hard \$1.37@1.40.

Corn: No. 1 yellow \$1.03@1.05; No. 2 white \$1.04@1-2.

Oats: No. 2 white 48 3-4@50 1-4.

Wheat closed wild, 7c to 7 3-4c higher than Saturday's finish, with rye showing 5 3-8c to 5 3-4c gain. Corn closed 2 1/2 to 3 1-8c up, oats 1 1-8c to 2c advanced, and provisions unchanged to 5c down.

### Officers Seeking Driver of Auto That Hit Brown

No trace of the car which ran down H. L. Brown, 60-year-old Stuckey Construction company employe on the south oilfield road Saturday afternoon, has been found this morning, although county and city officers have been on the lookout.

The car stopped after the accident, it was learned yesterday, and started to follow a car carrying the injured man to the hospital, but when in the city disappeared and has not been seen since that time.

Mr. Brown suffered a broken leg, fractured arm and other serious injuries. This morning hospital attendants announced that the injured man was resting nicely.

The accident occurred while Mr. Brown was "stripping" the center of the new strip of pavement. C. A. Stuckey, an eye-witness, says the car was traveling at an excessive rate of speed when it struck the workman.

### Love Theft by Tunney Charged

BRIDGEPORT, Conn., July 22. (AP)—Formal complaint in the \$50,000 allegation of affections suit brought by John S. Fogarty of Port Worth, now temporarily residing in Connecticut, against James J. "Gene" Tunney retired heavyweight champion, was filed in superior court here today.

Fogarty alleges Tunney stole the love and affection of Mrs. Catherine Fogarty while she was legally his wife. He declares Tunney became friendly and intimate with Mrs. Fogarty in February, 1925, before she divorced him. On several occasions thereafter specifically naming St. Paul, Chicago, New York, and Miami, Fogarty alleges Tunney appeared in public with Mrs. Fogarty as his wife.

Fogarty further says Tunney induced his wife to secure a divorce promising he would marry her.

Papers of attachment were served on Tunney's caretaker at his state in Stamford.

A suit for \$500,000 is now pending against Tunney, filed by Mrs. Fogarty, alleging breach of promise.

### MEXICO CITY, July 22. (AP)—

Hours after his marriage, David Farr Lopez was charged with having mortally stabbed Jose Ponze Castro, the best man.

During a dinner at Ponte Castro's home in celebration of the wedding the bride complained of toothache. Ponte Castro, a hypnotist, tried his hand at curing her, leaving her in a hypnotic sleep.

The groom, who had absented himself temporarily, became enraged on finding his wife under the influence and stabbed the hypnotist.

### REBELS GIVE UP

MEXICO CITY, July 22. (AP)—More than 500 rebels have surrendered in the state of Durango within the last three weeks, said Gen. Alberto T. Benitez, in Mexico City on leave. The state, he added, has been freed of insurrectionists.

### TWO SAILORS KILLED

NORWICH, Conn., July 22. (AP)—Two sailors were killed here today when their motorcycle left the road and crashed into a telegraph pole.

**Views**

Coming from the first stage actress to make a strong and permanent impression in talking pictures, a few of her views on them may be significant:

"What the talkies want is fine acting, not only voices that register well. The corner policeman's voice may register all right, but the talkies want to know what he can do with it."

"It would be only stupidity for the movies to go entirely to the stage for their talkie actors. An actor successful in one medium can act in another."

**Personal**
