FRANCE, BRITAIN IGNORE FASCISTS

Gray County Drafting Lake Plans To Submit To WPA

EACH COUNTY TO GET 100 SMALL PONDS

Representatives of united Panhandle counties were back in their home balliwicks today working hard on proposed lakes and ponds projects which they will submit to district WPA headquarters in Amarillo in a succession of links which will be aimed to form the mighty water conservation chain in the Panhandle of Texas and other dust bowl states of the West.

They took home from Amarillo yesterday the promise of Congressman Marvin Jones and the word of representatives from the five dust bowl states of Texas, Oklahoma, New Mexico, Colorado, and Kansas that a great water conservation and soil reclamation plan is only beginning—a long-time program that will be followed through.

Agents of the WPA, the Farm Security Association, the Soil Conservation Service, and the Division of U. S. Army engineers also pledged their combined support to the five-state dust bowl program made possible by the recent enactment of the basic agricultural conservation law and federal commitment of \$40,000,000 to carry on the pond and lake work in ten states and \$10,000,000 for purchase of sub-marginal lands in the five-state area.

Following the suggestion of Con-

(See NO. 1, Page 3)

SOIL CONSERVATION TO BE HOOVER SUBJECT

A representative of the soil conservation service, Amarillo office, will be guest speaker at an adult conservation meeting at the Hoover school Friday night, according to Prof. J. L. Lester of the Pampa high school vocational agriculture class who has arranged the meeting. The meeting will be called at 8 o'clock.

BRAZILIAN COMMUNIST LEADERS TAKE STAND

RIO DE JANEIRO, Sept. 9 (AP)—Luiz Carlos Prestes told a crowded courtroom today that an unsuccessful communist revolt in 1935 was financed with money which "passed through the hands" of President Getulio Vargas and Dr. Oswaldo Aranha, Brazil's ambassador to Washington.

Prestes told the Military court of appeals that he organized the 1935 revolt "with funds which did not come from Moscow."

CONGRESS TO ASK FOR CIVILIAN NAVY PROGRAM

WASHINGTON, Sept. 9 (AP)—The navy will ask Congress to authorize a program of civilian naval training next year similar to that now conducted by the army through its citizens military training camps, congressmen interested in naval affairs said today.

I HEARD ---

That a committee of four Pampa men including Police Chief Art Hurst, C. H. (Comp) Compton, Robert Hodge, and E. L. Yeagrain, made an inspection trip through the Amarillo city jail last night.

That residents of the 800 block on North Gray street have an affectionate dog they would like the owner to claim. The dog is a thoroughbred wolf hound which is making itself at home in the neighborhood.

Scenes As Barnes Circus Arrived Today

ALLRED URGES PIPELINE AND UTILITY TAXES

AUSTIN, Sept. 9 (AP)—Governor James V. Allred said flatly today he thought oil pipelines and utilities should pay more taxes and hinted at possible efforts to place a levy on their incomes at the special session of the legislature to convene Sept. 27.

At the same time he reiterated previous statements that increased expenses of government under his administration had resulted chiefly from expansion of social services voted by the people and that the legislature should provide money to carry out the mandates.

NEON SIGN AND GREASE GREAT FIRE ILLUSION

Firemen were called from their beds at 2:30 o'clock this morning when an alarm called them to Frankie's Cafe at 113 East Kingsmill avenue. The alarm was turned in from the 51 Taxi stand.

A red reflection through smoke fanning from the cafe led firemen to believe that a serious fire had broken out. When they had broken into the cafe they found the reflection was from a neon sign and that the fire was burning grease on a cook stove.

Fire Chief Ben White said today that a pan of grease had been left on the stove near a pilot light and that it had ignited. Little damage resulted, he said.

Here are a few candid scenes taken on the lot of the Al G. Barnes and Sells-Floto Combined Circus which presents two performances in Pampa today at 2 and 8 p. m. on the circus grounds south of Roadrunner Park. Pictured at the top is some of the five herds of monster pachyderms "having a bath" with the aid of the fire department; on the left is Abe Goldstein, famous clown cop who heads the contingent of 60 mirth provoking funsters with the big show; the center portrays "Baby Lotus" (left) recently illustrated in "Life" magazine; and to the right is "Baby Lotus" (fore). This is the only performing, blood-sweating hippopotamus in captivity and will be one of the hundreds of outstanding features, just part of the colossal aggregation of circus wonders brought to Pampa by Al G. Barnes and Sells-Floto Combined Shows.

Huge Crowd Greeted 2 Long Circus Trains

The Al G. Barnes-Sells-Floto Combined Circus arrived on its two long double length all-steel railroad trains at 11 a. m. this morning from Clinton, Okla., and has erected its city of 32 tents on the spacious exhibition grounds south of the Road Runner park, where two complete performances will be presented at 2 and 8 p. m. The main entrance will open one hour earlier to enable all sufficient time to inspect the double menagerie of zoological specimens.

Capacity crowds at both performances were indicated by the unusual interest in the circus. When the two long trains arrived this morning more than 2,000 people congested the area around Road Runner park where about 500 cars were parked long before the train arrived. A traffic jam quickly developed and city police took charge about 11 o'clock. The train arrived late due to a big rain in Clinton where the circus was stuck in the mud for several hours. Circus men said that crowds gathered along the railroad to watch the train go by after it crossed the Oklahoma line.

Over two hundred great acts are on the mammoth two-hour program, headed by Bert Nelson, the greatest of all wild animal trainers in all the world, with the largest mixed group of lions and tigers ever before assembled in one arena. Mr. Nelson shall also exhibit for the first time in any circus, a wrestling exhibition with "Norma," a full grown lioness.

Gray county will pay added tribute next Tuesday to Congressman Marvin Jones, chairman of the all-important House agriculture committee and father of the basic agricultural conservation law passed in the closing days of the last Congress.

Rep. Jones will be the guest of honor and principal speaker at the monthly luncheon of the Pampa Chamber of Commerce at noon that day in the First M. E. church banquet room.

The meeting has been changed from Tuesday to Thursday to fit in with the Congressman's plans and to avoid conflict with other events scheduled for Tuesday.

JAPS' FLEET BOTTLED UP BY BLOCKADE

SHANGHAI, Sept. 9 (AP)—Three shells crashed directly in front of the American consulate-general this afternoon, seriously injuring three Chinese civilians and one British Sikh policeman.

The "pom-pom" shells were fired from Chinese guns just north of the International settlement border, apparently at four low-flying Japanese bombers.

Just previously one hundred additional American Marines had been landed from Admiral Harry Yarnell's yacht Isabel after a hurried trip from Tsingtao. They swelled the United States land forces to 1,300 Marines.

The Marines were moved into place immediately behind the fortifications lining the northern border of the International settlement, where the American forces guard the most hazardous section of the boundary.

Chinese troops clung tenaciously to their main lines on all fronts in the face of incessant and sustained attacks from the combined Japanese army, air force and navy.

Chinese struck a new blow at the Japanese navy today by blockading the upper reaches of the Yangtze river with a barrier just below Silver Island, some 30 miles east of Nanking.

The barricade of obsolete steamers and Chinese junk boats was sand and concrete effectively blocked the Japanese fleet from spreading its

CHINESE SLAY 4,000 JAPS

PEIPING, Sept. 9 (AP)—A detachment of 4,000 Japanese troops was reported today to have been wiped out by a deadly Chinese ambush in the rocky hills west of here. The Japanese line was said to have been pushed back five miles by the sudden Chinese onslaught.

Japanese commanders were obviously more and more worried over the fate of their operations in this area, where their advance has been checked by the Chinese.

Heavy reinforcements were flowing through Peiping to Liangiang, 30 miles to the south, and to the sorely menaced Japanese right flank in the western hills around Mentoukuo.

FRANCO ASSURES BRIDE HE'LL FREE HUSBAND

BURGOS, Spain, Sept. 9 (AP)—Harold Dahl, 28-year-old Campaign, Ill., captive airman who is under sentence of death, told the Associated Press today that insurgent Generalissimo Francisco Franco has promised his release.

Nazis Plan to Seize Control of U. S., Says Newspaper in Chicago

CHICAGO, Sept. 9 (AP)—The Daily Times said in a copyright article today that "in uniforms strangely suggestive of those worn by Adolf Hitler's Nazi storm troops, a relatively small but rapidly growing army is preparing for the American counterpart of 'der tag' when it plans to seize control of the United States."

The newspaper said the article resulted from an "exhaustive investigation of American Nazis" made by three reporters and investigators, James J. Metcalfe, his brother, and William A. Mueller. Mueller wrote the article.

The investigators, the newspaper said, "worked for many months both from within and outside the American Bund—and its companion organization, the 'Deutscher Volksbund' traveling from coast to coast and from Canada to the Gulf of Mexico, to learn international secrets."

"Under the name of the Oberwindler," the article continued, "the Metcalfe brothers months ago built themselves up as Nazi sympathizers and were accepted as members of the organizations."

John Metcalfe established himself in the predominantly German Yorkville section of New York City and later acted as a propagandist for the Amerikadeutscher Bund on a cross-country tour.

"A month after John Metcalfe became a storm trooper in New York his brother, James, was accepted

65 CCC CAMPS WILL OPERATE IN TEXAS

WASHINGTON, Sept. 9 (AP)—The Civilian Conservation Corps announced today it would operate 65 camps in Texas during the three-month period beginning Oct. 1, a decrease of six from the number now in operation.

A camp will be reestablished at Huntsville state park in Walker county, said Corps Director Robert Pechner, and 64 camps will remain in their present locations.

Camps to be discontinued are at Pannington and Cold Springs in San Houston national forest, Fabens in El Paso county, Palmetto state park in Gonzalez county, Lake Metropolitan park in Tarrant county, Lake Sweetwater municipal park in Nolan county, and at Fort Bliss military reservation, El Paso.

ONLY 4 LIQUOR AGENTS KILLED SINCE REPEAL

WASHINGTON, Sept. 9 (AP)—The post-repeal hunt for tax-dodging moonshiners is a lot safer for federal agents than the old prohibition warfare against bootleggers.

Revenue authorities said today guns of liquor law violators have killed four agents since repeal became effective late in 1933. During prohibition, 143 federal enforcement officers were slain, or an average of more than 10 each year.

GERMANY AND ITALY REJECT INVITATIONS

BERLIN, Sept. 9 (AP)—Germany lined up with Italy today to reject an Anglo-French invitation to tomorrow's Mediterranean "anti-piracy" conference in Switzerland. She refused to sit at the same table with Soviet Russia, accuser of the Italians.

ROME, Sept. 9 (AP)—Fascist Italy turned back an invitation to confer with 11 other powers on ways to stop Mediterranean piracy today by suggesting to England that the question be placed in the hands of the European non-intervention committee.

Germany acted in identical fashion. Both Italian and German notes declared the Soviet accusation that Italian submarines had torpedoed two Soviet ships finally prompted their decision.

Italy's reply was three-pronged. It said: 1. The fascist government at first was inclined to accept the invitation to the conference, which is designed to find a way to stop "pirate" attacks on the ships of many nations in the Mediterranean.

2. But Soviet accusations that Italian submarines had torpedoed and sunk two Soviet ships "introduced at the last moment a new and grave element into the situation."

3. The fascist government hence has come to the conclusion that the arguments presented can be examined adequately by the non-intervention committee in London. This 27-power committee, set up months ago in an attempt to keep foreign men and arms out of Spain, "has had experience also in technical and naval questions which renders it perfectly adapted to facing the problem indicated."

LONDON, Sept. 9 (AP)—France and Great Britain answered German-Italian refusal to take part in a Mediterranean "anti-piracy" conference today with new determination to use their warships to prevent attacks on shipping.

Both the British and French also insisted that the conference in Switzerland tomorrow would achieve

MORE LOCAL HOUSING AUTHORITIES NEEDED

WASHINGTON, Sept. 9 (AP)—FWA officials said today more local housing authorities are needed if the government's \$526,000,000 program for low-rent dwellings and slum-clearance is to be effective.

Although 30 states have laws enabling them to participate in government loans and grants, only 20 cities have created housing authorities to manage local developments, housing experts said.

Officials predicted the United States housing authority would be organized soon after Secretary Ickes and President Roosevelt return to Washington next week. Ickes has "general supervision" of the new agency.

County To Honor Jones At C-C Luncheon

Gray county will pay added tribute next Tuesday to Congressman Marvin Jones, chairman of the all-important House agriculture committee and father of the basic agricultural conservation law passed in the closing days of the last Congress.

Rep. Jones will be the guest of honor and principal speaker at the monthly luncheon of the Pampa Chamber of Commerce at noon that day in the First M. E. church banquet room.

Pushes Drive

J. S. Wynne, long-time Pampa resident and director of the West Texas Chamber of Commerce, is a member of the Salvation Army advisory board, which will launch a drive for \$3,000 next Wednesday to finance the Army in Pampa for the coming year.

SPECIAL GIFTS DONATED ARMY

Solicitation of the special gifts committee of the Pampa Salvation Army advisory board continued today in industrial and business houses, according to Art Teed, board chairman.

The Army is seeking \$3,000 to finance the local post, under command of Capt. Herman Lambrecht, for the coming year. The drive for funds will be opened officially next Wednesday morning at a breakfast in the Schmeider Hotel to be attended by representatives of various Pampa civic clubs who will assist in the financial campaign.

Envoy Frederick M. Lange, here to assist in the drive, spoke at the meeting of the Lions club this noon and outlined the Army's objectives for Pampa and urged full support of the club in the forthcoming drive. A committee was named by President

Reserve Seat Football Ducats to Cost \$5 Each

Two thousand season admission and reserve seat tickets to home football games will be placed on sale the morning of Sept. 16 at the office of Roy McMillen in the city hall. The tickets will be in six sections, one for each of the home games scheduled for the season. The bargain price will be \$5.

Instead of selling only reserve seat tickets, the athletic association in session last night decided to combine general admission and reserve seat in one ticket. There will be one

CHOLERA TAKING HEAVY TOLL OF LIFE IN CHINA

SINGAPORE, Straits Settlements, Sept. 9 (AP)—Reports from Hongkong today said there were 126 deaths from cholera there out of 203 cases during the week ending yesterday. Shanghai reported nine deaths in 29 cases.

Breakfast Opens Treble Clef Club

A breakfast yesterday morning at the Schnieder hotel was given by Mrs. Alex Schnieder to open the season for the Treble Clef Club.

The Social CALENDAR

FRIDAY Pampa Garden club members will have a regular meeting at the City Hall club rooms.

Breakfast Enjoyed by Amusu Club

Autumn garden flowers decorated the tables at the Schnieder hotel Tuesday morning, when Mrs. Clifford Braly entertained the Amusu club members and guests with a breakfast.

Mrs. Lawton Nichols made high score for the guests, and Mrs. W. M. Craven high for the club members.

Methodist Society Circles Meet in Groups Wednesday

Four groups of the Women's Missionary society had meetings in various places yesterday afternoon.

MIND your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

Attendance Much Larger at White Deer Than Before

WHITE DEER, Sept. 9.—One hundred fifty-eight students enrolled in the high school during the three days of registration last week and about 50 more are expected to enroll this week.

Members of the high school faculty are: Davis Hill, Miss Louise Hoigate, B. E. Cleavinger, Eugene McCollum, Miss Claudia Beverly, Miss Odette Howell, Wendell Cain, Miss Elizabeth Deol, Mrs. B. R. Weeks, Harlan Howell, Miss Gladys Holley, Elton Beene, Miss Virginia Martin.

Bride-Elect Honored at Party Again

Another in a series of showers was given last evening by Misses Dorothy Burton, Betty Ann McTaggart, and Helen Shellberger in the home of Miss McTaggart for Miss Dorothy Jo Moore, bride-elect of Bill Jacks.

A color scheme of blue and silver was used in the small-wedding bells which decorated the house and the colors were repeated in the bridal party which centered the table.

Wedding bells will soon be ringing, and the birds will be singing; Say, have you heard the latest? It's the grandest and the greatest News of the season.

Refreshments were served to Misses Betty Bell, Ethel-Wilder, Elizabeth Mullinax, Charlotte Malone, Donna Jo Berry, Lois Foster, Betty Curtis, Edwina Gilbert, Fetsie Casson, Catherine Ward, Connie Shellberger, Van Dalia, Illinois, Clara Marie Hartell; Mrs. Frances Noblitt, and the honoree.

Glorifying Yourself

There are no two ways about it—you simply cannot wear the new slim fall dresses which give a "corseted look" through the middle of the body unless your stomach and diaphragm are flat, hips trim. Therefore, if you like the new styles and intend to wear them, better get busy with exercises and plans for a new diet.

Anyone can reduce her dimensions. But seldom is this a simple matter. On the contrary, it usually takes more time and patience and self-denial than the average individual is willing to sacrifice.

Modern Equipment Adds To Kitchen Convenience

After Labor day when the children have been settled in school work and the household is running smoothly, a housewife's thoughts turn to the approach of moving day.

The equipment shopper will find the modern automatic gas range of a height for maximum ease in working; some models have gas or electric burners for adjustment for the very tall or very short person.

STRIKE ENDS. PITTSBURGH, Sept. 9 (AP)—A truce temporarily ended today a strike of CIO union members which threatened to cripple elevator service in the 37-story Koppers building.

Amarillo Gardens Visited Yesterday

Pampa Garden club members attended a regular meeting of the Amarillo Garden club yesterday.

The group met in the garden of Mrs. Ed Hardin, 508 Harrison street, where the meeting was held. Here an interesting talk was given by Le Roy White on "Fall Planting of Peonies."

Punch was served to the women after the program was presented with Mmes. Jess Neely and Harris Kimbrough presiding at the punch bowl.

Afterwards the group visited the attractive gardens of Mmes. Ben Monning, 1101 Pierce; James O. Guicke, 1607 Harrison; John Mathis, 2003 Tyler; R. W. Adams, 2114 Hayden; W. H. McClure, 5000 West 9th; Myles Bivins, 2311 West 16th.

Those who made the trip were Mmes. R. J. Hagan, B. C. Fahy, Duke Shaw, E. A. Shackleton, Donald A. Powell, J. Edward Dwyer, L. L. Soss, Odus Mitchell, L. W. Wilson, Frank Yealy, W. L. Loving, Edward H. Damon, Charlie Duenkel, H. C. Schofield, F. E. Leech, Lynn Boyd, J. B. Massa, Lee Waggoner, W. Purviance, Charles Thut, and R. B. Fisher.

Plans for Year To Be Discussed At Meeting Friday

Members of the executive board of Junior High Parent-Teacher association are asked to meet in Principal R. A. Selby's office at 2 o'clock Friday where plans for the year's work will be discussed.

Officers and committee chairmen who have already been elected are: Mmes. Claude Hart, president; Bart Graham, vice-president; D. D. Drake, secretary; Ernest Crane, treasurer; George Nix, historian; George French, publicity; H. H. Boyington, welfare; F. M. Culbertson, hospitality; Roy Holt, magazine; and J. C. Browning, membership.

Reception Given To Honor School Faculty Members

WHITE DEER, Sept. 9.—Members of the school faculty were guests of

honor at a reception given by the Methodist Women's Missionary Society Monday evening in the church parlors.

The guests were assigned to the "first and second grades" and given various tests in "reading," "writing," and "arithmetic." Mrs. L. E. Walker and Mrs. Paul Kennedy were in charge of the games. Mrs. G. W. Culbertson, vice president of the W. M. S., acted as hostess.

Employees of the United States government number more than 800,000, of whom 700,000 are stationed outside of Washington.

NO. ONE—

(Continued From Page One)

gressman Jones, in whose honor yesterday's meeting in Amarillo was held, Gray county officials, led by C. H. Walker, Gray county director of the Panhandle Water Conservation Authority...

These details include plans of the major Gray county project will be submitted to District WPA Supervisor Austin A. Meredith at Amarillo. All Panhandle counties have been asked to do the same thing...

In the preliminary set-up for the Panhandle, five major lakes tentatively have been approved. These include the Gray county project and projects on Terra Blanca creek in Deaf Smith county...

Any of these projects may necessarily have to be changed. Army engineers find that the sites chosen are not suitable for the needs of the entire program, it was pointed out.

Another new angle to the water conservation set-up is found in the fact that a minimum of 100 small ponds per county in the entire Panhandle has also been set by the PWCA...

More Funds Asked. The resolutions committee of the Panhandle Authority also adopted a resolution yesterday afternoon in striking Congressman Marvin Jones to ask Congress for an additional \$50,000,000 appropriation to carry on the vast program in the ten great plains states.

Congressman Jones told the thousands of persons from the ten states who met yesterday that he was making an effort to have WPA rules waived in an effort to give farmers and workers in the directly affected territories an opportunity to work on the conservation projects even though they are not listed as relief clients.

The indications are, it was stated, that this aim will be carried out and authorized from WPA Director Harry Hopkins' office in Washington.

The Congressman from Amarillo also issued a direct plea to all area concerned in the dust bowl program that they work as one unit and that there be no bickering about projects.

Deplores Quarreling. "To each county I urge," he said, "that you get your lake plans into the district WPA office immediately. There must be no quarreling among ourselves. This program must be worked out—and it will take time, it can't be done in a day or in a year—for the common weal. It is a big job and we have got to do it. We must give and take and work it out for the common good."

John McCarty, president of the Panhandle Water Conservation, pledged to the five-state dust bowl representatives the solid cooperation of the entire federal program. All selfishness and county lines—even state lines—were wiped aside at yesterday's all-day conference in the Herding hotel at Amarillo and the PWCA voted unanimously to follow the WPA rates of their congressman and senators and to accept the advice and recommendations of the government engineers and federal agencies authorized to pass on the project set-ups.

Carl Hinton, secretary of the PWCA gave a brief report of his activities for the organization at the recent session of Congress in Washington.

President McCarty read telegrams from numerous senators and congressmen and other legislators who were unable to attend yesterday's meeting, pledging their support to the dust bowl program and paying tribute to Marvin Jones, who was called "presidential timber" by Mr. McCarty.

In urging the counties of the Panhandle to send their project applications to WPA at once, District Director Meredith, of Amarillo, said: "We want every county to get in its tentative project proposal, so the coordinating committee can get an idea of just what each county is thinking about. There should be sent in as soon as possible so that they can be reviewed and be oriented into the picture for the entire area."

Gray Delegation Largest. Gray county had the largest single county delegation at yesterday's conservation meeting, more than 100 persons from Pampa, McLean, LeFors, Alameda, and other communities making the trip.

In commenting on the meetings held yesterday and day before yesterday in Amarillo, C. H. Walker, Gray county director of the Water Conservation Authority, said: "We in Gray county are pledged to work with all Panhandle counties. We are not asking for a single thing that we don't want to see in other fellow get. The outlook is splendid for Gray county's lake. The site on McClellan creek already is one of five major lakes projects tentatively approved for the Panhandle. We could not ask for more. Now we are interested in getting the whole program into operation so that this great area can receive joint benefits from a badly needed movement to conserve our water and soil."

frency of excitement. Parents were there on the pretense of showing the kiddies the animals, but seemed more excited than the youngsters. As E. G. Barrett explained jokingly to bystanders, "I don't care for it myself, but I always bring the family." The Roving Reporter used the excuse of going after a story himself.

Dozens of children who otherwise would have been in their third day of school ran wildly about screaming at the sights as the cars began to move. First out were the elephants, favorites with the crowd. The huge beasts, 17 in number, stepped from the train as daintily as debutantes and bent down to the ground docilely for riders, who mounted them Tarzan fashion. The pachyderms were evidently glad to be out of the district WPA office with their grass and threw dirt with their trunks.

In the same cars with the elephants were horses of every color and shape. Trained horses, work horses and white, black, red, grey and brown horses seemed to be everywhere by the time their cars were unloaded. Attracting the most attention were the beautiful Apolossas, the black and white spotted horses. They are not bred in this country and are rarely seen here. Horses most admired were the golden Palominos and a giant Arabian stallion. Included in the more than 400 horses used by the show are the inevitable shetlands, one of which stood not more than 2 feet high.

When it seemed that the cars must be emptied of their load of animals, the most foreign ones began streaming out. Crossword puzzle fans will be interested to see the wingless Australian bird of three letters, the Emu, which caused much excitement at the grounds with its appearance. A strange creature that looked like a cross between a Cherokee Indian, a burro, and a billy goat turned out to be a Gnu or Graw.

Rather hard to handle were the 17 zebras, which are among the few trained ones in the world. With them was a red horse with black stripes that looked like somebody's idea of a Halloween joke. Circus workers explained, however, that it was a Zebu, whose parents were a Zebra and a brown mule. The Zebras were all named and answered at once to the roll of such monickers as Cleo, Deena, Mabel, Henry, Zip, Alec, Fritz and Gene.

What appeared to be a poverty-stricken Antelope was in reality a Lama, a Tibetan resident not often shown in a circus because of their shyness.

Of course there were lions and tigers, apes and monkeys of all kinds, bears and seemingly a myriad of other animals. All in all, it appeared to this writer that this time Pampans who see the circus won't be disappointed in the least, but will come from the tent this afternoon or tonight much pleased, using the pickinny's heartfelt "Hot Dog!"

activities far up river from Shanghai. It meant that any considerable advance of the Japanese would place their land forces beyond the protecting forces of their warships' guns.

The barrier also bottled up the United States fleet of river gunboats on the Yangtze and made more difficult the evacuation of 1,200 war-belonged refugees at Hankow, 550 miles up the Yangtze from Shanghai, as well as other Americans in various parts of the valley.

Nearly 500 American officers and sailors are aboard the six gun boats marooned up the river. They have food supplies for six months, however, and Admiral Yamell felt no concern for their safety.

BISHOP DIES.

METZ, France, Sept. 9 (P)—Monsieur Fran-Baptiste Peit, 74-year-old bishop of Metz, died today.

Since the war to end wars, there have been seventeen de facto wars.

Market Briefs

NEW YORK, Sept. 9 (AP)—Stocks rose over war fears and business doubts in today's market and many leaders posted recoveries running to 4 or more points.

Dealings speeded up in the initial hour. They quieted later and at times the ticker tape was exceptionally slow. Transactions were around 1,400,000 shares.

Table with columns for stock names and prices. Includes Am Can, Am Int'l, Am Mol Mill, Am T, etc.

OKLAHOMA CITY LIVESTOCK

OKLAHOMA CITY, Sept. 9 (AP) (U. S. Dept. Agr.)—Cattle 2,300; calves 500; common and medium grass steers averaging 600 and 940 lbs. 10-00-00; good beef cows 6.25-7.75; with odd head to 8.00; bulls 6.25-7.50; good and choice vealers 8.00-9.00; good and choice calves 7.75-9.00; most stockers 5.50-8.00.

Hogs 1,100; top paid for choice 185-250 lb. butchers; bulk of good choice 180-260 lbs. 10.45-12; packing sows fully 25 higher; bulk 9.00-25.

CHICAGO GRAIN

CHICAGO, Sept. 9 (AP)—Lower prices on wheat formed the rule today late as wheat advanced in some quarters.

The Russian grain selling agency in Rotterdam was reported to have reopened, a circumstance construed in some quarters as pointing to sharp Russian competition with other countries.

At the close, wheat was 1/2 to 1 cent under yesterday's finish. (Sept. 1, 1937-50; Dec. 1, 1937-50; corn varying from 2 1/2 to 3 1/2; soybeans 1.00-1.05; December 63 1/2 and oats 1/2 off to 3/4 up.

NEW ORLEANS COTTON. NEW ORLEANS, Sept. 9 (AP)—The market continued steady and buying became more aggressive as the morning progressed. Towards the session active months recovered 7 to 15 points net higher which represented about half of yesterday's decline.

## "UNITED WE STAND"

The Panhandle Water Conservation Association has what it takes to get the job done. And right here appears to be an appropriate place to toss bouquets to John McCarty, president of the association, and to Carl Hinton, secretary of the group, who in a large measure are responsible for the good news which came to the ears of those who attended yesterday's water conservation meeting in Amarillo.

McCarty and Hinton are a couple of boys who talk right out in school. When they say "no," they mean "no" and when they say "yes," they mean "yes."

They put all their cards on the table yesterday, rolled up their sleeves and showed the audience they had nothing up there to deceive.

When McCarty told the 1,000 or more persons gathered at the meeting that the organization was "going down the line" "one-for-all" and that nobody had an edge on anybody else, it was exactly what they wanted to hear, and they knew that he meant it.

When McCarty declared that if anybody says there is any other motive behind their acts, it's a lie, he meant that, too.

McCarty and Hinton deserve a lot of credit for what they have done for the Panhandle of Texas in getting the Panhandle Water Conservation Authority to functioning on such a high plane. As a result the section already is organized to carry on the highly necessary work that must be done in connection with the great dust bowl program in this particular section. So much so that the other dust bowl states think of the Panhandle organization that represents from Kansas, Colorado, Oklahoma and New Mexico were talking of going back home and forming similar groups to carry on the work in their own areas.

That's a tribute to McCarty and Hinton. They have kept the organization buzzing, kept the interest alive, and they went to Washington and worked and plugged with Congressman Marvin Jones to get the legislation across.

They worked hard on it, don't ever kid yourself. There isn't much glory in a thing of that kind. It took a lot of intentional fortitude and persistency to get done the thing they wanted done when they tackled the proposition.

Congressman Jones, of course is the program's No. 1 man. It is said that every piece of legislation he introduced at the last session of Congress was passed. That's a pretty high tribute to him. The most important of all of that legislation, to the Southwest, was his basic agricultural conservation law, which made possible the \$40,000,000 dust bowl program.

He will be the top man in the coming special session of Congress too. John McCarty was just a bit right when he said that Marvin Jones is presidential timber—and one could add, of the highest caliber.

And, now—it behooves the Panhandle counties to fall in line with the pleas of Congressman Jones, and of the officers of the Panhandle Water Conservation Association, for a unified working together on a program for the good of the entire area. One feels positive, too, that's exactly what will be done.

## Washington Letter

By PRESTON GROVER

WASHINGTON—Congress adjourned, but not politics.

Take Colorado, for instance. Senator Adams, a democrat, is up next year for re-election. In private life, the senator is a banker at Pueblo, usually conservative. While he did not speak publicly against the President's court bill, he was commonly numbered among the opponents.

He has fought blanket appropriation bills, but because he is a major figure on the appropriations committee he has had to shoulder much of the work of drafting them and putting them through congress.

Adams' political opponents in Colorado hoped Senator Edwin C. Johnson, a former governor, would break with him and help bring about his defeat. No break occurred. In one of his first statements to the press in Colorado upon his return from Washington, Johnson told the Sterling Advocate that "I am interested in the renomination and re-election of the four Democratic congressmen of Colorado."

Adams has foes in Colorado. He was not always on good terms with Senator Costigan, a pronounced liberal, whose retirement because of falling health made possible Johnson's rise to the senate last election.

On another front, in Oklahoma, friends of Senator Josh Lee are pushing him as a Democratic vice-presidential candidate in 1940. Lee, for several years an elocution instructor, orated himself into the house and then into the senate. Recently he has been speaking in several parts of the country in support of the administration. He looks almost boyish, although during the World War he was overseas for 10 months. His family has been Democratic a long time. His father's name was Thomas Jefferson Lee and his middle name is Bryan.

And down in Texas, Roy Miller, who is sort of ex-officio Jim Farley in that state, is promoting Vice-President Garner for President in 1940. Garner would be 70 then. The argument

# Tex's Topics

It's circus day, and the kids are happy. There's a thrill about a circus that gets under your skin, if you still have that something that enables you to be a kid again. There are just lots and lots of men and women who still can go to a circus and get just as much enjoyment out of it as the most enthusiastic circus fan among the juveniles. Many of them get that kick by taking children with them and seeing the youngsters marvel at the acrobats and acrobats and laughing with them at the funny antics of the clowns. Yes, sir, you ought to turn kid for a night again and take in the circus, pink lemonade and all.

Gray county's delegation to the water conservation meeting in Amarillo came home last night pretty well hopped up over the prospects for the conservation program as a whole and for Gray county's program in particular. The county had a splendid delegation over there yesterday, and much credit is due to the Chamber of Commerce committee and officials who were so successful in arousing so much interest in this vital problem. The Gray county delegation, too, is solidly behind the plea of Congressman Marvin Jones and officials of the Panhandle Water Conservation association to join in a unified plan, working for the best interests of the entire area. Nobody has any idea of trying to hog anything, the county lines are entirely out of the picture for the time being. The thing now is to get the program swinging into action.

Hay fever victims may take heart with a scientist's announcement that each year destroys a million bacteria. A girl's softball team is considering silk stockings as team equipment because they are better for getting runs. At least one forgotten New Year resolution will be recalled now that it is time to store the straw hat you swore you'd throw away. Any taxpayer can tell world economists how long present wages will last. Until six days before the next Saturday, of course.

As the depression fades, profiteers again are rearing their ugly heads. Someone offered a radio commentator a penny for his thoughts and he accepted. Washington has 121,625 trees lining its streets, which may at last account for the city's habit of putting people out on a limb. The boomerang was known to stone age Europeans and ancient Egyptians and is now being revived by modern tax-dodgers. One penny sometimes produces three and a half million grains of pollen, partly accounting for the fine bouquet of some hay fever sneezes. A. J. Cartwright started the practice of keeping 90 feet between bases on the ball diamond, but even his fertile mind overlooked the value of barbed wire enclosures for umpires.

Researchers report that the old belief that the tomato is poison still has some following in the lower level of the theatrical profession. Peter Mark Roget, English author, discovered the principle of the "persistence of vision," upon which motion pictures are based. He discovered this by seeing glimpses of a passing baker's cart through the slits of a Venetian blind. As many as 106 forms of life are contained in a single drop of water. Spiders have eight eyes. It is said that gold fish, pike and salmon never sleep. When she dies, an Eskimo woman's knife is buried with her.

Persons having very keen eyesight can see the planet Jupiter in the daytime. The tiny seed-like objects in strawberries are the true fruit of the plant. India exports about 2,500,000 snake skins annually, for the making of ladies' bags, shoes, etc. The elephant has a "finger" on the end of his trunk. A pair of rats would have 20,000,000 descendants if they could live to be 50. Bats, snakes and toads can live longer without food than any other creatures. Approximately 25,000 gallons of water are used in the manufacture of one ton of paper.

One hundred runs constituted a game in the early days of baseball. Games often dragged out for two or three days in this manner. "Miss Jerry" was the title of the first moving picture ever produced. The production was largely the work of Alexander Black. Made by Frederic Auguste Bartholdi, the Statue of Liberty in New York harbor is composed of 300 pieces of sheet copper, fitted over a steel framework like a giant jigsaw puzzle. Dobbin was the name of Paul Revere's horse.

## Yesteryear In Pampa

TEN YEARS AGO

Citizens interested in the promotion of the road bond election met at the Chamber of Commerce rooms to organize.

The sets in the open tournament of the Pampa Tennis club were nearing the finals and good matches were being played each evening.

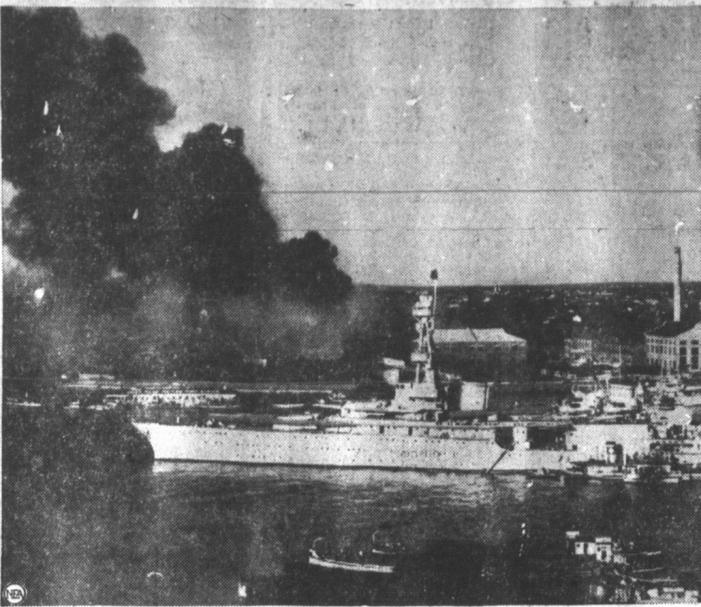

FIVE YEARS AGO

Efforts to obtain a state construction bridge across the Canadian river north of here was rapidly nearing a climax in preliminary work with Miami, McLean, and Hedley merging their influence in the enterprise.

The Dandiger entry in the Pampa Playground league dropped the Jaycees from the top rung in the league standing by a 14 to 12 win.

It is that he would carry the south solid and that his type of conservatism would go well in the east and midwest. The idea surprises some of Garner's close friends who believe he wants to retire from political life.

# Bomb-Struck U. S. S. Augusta Before Flaming City

Clouds of dense black smoke, rising behind the U. S. S. Augusta, are a somber evidence of the destruction which descended on the war-torn Shanghai area from out of the skies. High explosive shells and bombs dropped on Shanghai and on Pootung, just across the Whangpoo river. The smoke above is from flames in Pootung which spread through the city and caused damage estimated in the millions. Shortly after this photograph was made a one-pound "pom-pom" shell fell on the well deck of the Augusta, flagship of the U. S. Asiatic fleet, killing one sailor and wounding eighteen. The navy investigated, decided it was impossible to tell who dropped the shell.

## Man About Manhattan

By GEORGE TUCKER

NEW YORK—It has been seven years since the girl who became the eternal Sadie Thompson of "Rain" was carried to a rain-soaked cemetery in Kansas City, and in all that time no one has come forward to take her place.

There have been other actresses with golden-red hair and fiery temperaments who aspired to Jeanne Eagels' shoes—good actresses who apparently had all the requisites of so glamorous a role—yet for some reason they never quite succeeded. And Broadway is still waiting for just the right girl and just the right play to recapture a fragment of the emotional hysteria which threatened to blast the town apart when Jeanne first introduced her throaty-voiced languor to first night audiences.

Saved Play For Jeanne For awhile it was believed that Francine Larrimore, a star in her own right before Eagels died, would inherit the "Rain" soaked mantle of Jeanne. Indeed, Miss Larrimore became Jeanne's "ghost" when she slipped into several roles originally intended for the star. It was in "Chicago" that Francine first succeeded the tempestuous Jeanne, and later, in "Storm Song," she captured the glory which would have been Jeanne's had not death stepped in and wrote an abrupt finale to her career.

There is a chapter of interesting theatrical history to this play which Sidney Buchman wrote especially for Jeanne. The heroine was the wayward daughter of a ship captain who teamed with beach combers and roamed the south seas in junkies, and it was thought no actress but Eagels could play it successfully. But just at that time her explosive temperament led her once more into difficulties and Equity banned her from the theater for a year, holding it against the day when she would be permitted to act again.

It was a happy Jeanne who plunged into rehearsal after her exile, and then—like that—came the stunning news that she was dead.

New Season at Hand Later Tallulah Bankhead, with her husky throatiness and her winered hair, gave a remarkable performance of the much harassed Miss Thompson in a revival of "Rain" but 10 years had left their mark on the play—it was found to be irretrievably dated—and though Broadway cheered Tallulah, it could not forget the shadow of that other girl who had thrilled New York with one of the most exciting first nights ever seen on Broadway.

Now comes the heraldry and pagantry of a brand new season. The tom-toms are beating, and perspiring producers, their horror masks in place, are shouting new authors, new plays, new casts.

Will there be a "Rain" or a new Eagels among them? Broadway does not know. Broadway doesn't disdain. But, Sphinx-like, it is watching and waiting.

## GENERAL STRIKE OF SEAMEN CONSIDERED

NEW YORK, Sept. 9 (AP)—Officials of the National Maritime union called a mass meeting of seamen tonight to consider a proposed general strike in all Atlantic and Gulf ports.

The union, a C. I. O. affiliate claiming 50,000 members, warned Tuesday that it did not speed up elections to pick collective bargaining agencies for seamen on 76 American lines.

The N. M. U. acted after the labor board announced the election would be delayed until a motion for further postponement by the American Federation of Labor was considered. The A. F. of L. asked the postponement pending reorganization of the international seamen's union, a N. M. U. rival.

## People You Know

By ARCHER FULFORD

J. M. Johnson, commander of Zytach-Owens post of the American Legion, Canadian, put this old but ever amusing joke in an invitation to attend the 18th district meeting at the White House Country club, five miles east of Canadian, next Sunday at four o'clock:

Mojave Joe ran a saloon on the Nevada desert. A dusty prospector came in and ordered a milk punch, and said, "make it strong—I want whiskey and lots of it. When I want a stick in a drink my size is a telegraph pole." The prospector went out to wash the dust from his hands while Mojave Joe mixed the drink and placed it on the bar. A dusty, battered preacher came in, saw the drink on the bar, supposed it was milk, ascertained that his only cent was a dime, and that the drinks were twenty-five cents. "I am a poor itinerant preacher. I have travelled across the desert for seven days, most of the time without water, and I am tired, worn, tattered, discouraged and all I have is one dime. Won't you please give me that glass of milk for my dime." Mojave Joe replied, "there can't be no poor old person pay me for a glass of milk. Take it, drink it, parson; it's yours!" The parson lifted the glass to his lips, drank slowly, very slowly but he drank to the last drop. He wiped his lips with his dusty coat sleeve, looked reverently up to heaven and devoutly said, "God, what a cow!"

Harry Cohn's boys tried the glamorizing act on Lull when she came seven months ago, and she submitted meekly. She let them try out the hair dresses and the exotic make-ups, and after they were done she went straight back to her own manner of dressing and acting.

She's No Copycat "Glamor," she says in a slightly accented voice, "is something a woman has or hasn't. You can't give it to her. And I don't want to be an imitation of Mar-lay-nah. I don't like the word 'glamorous.' I wish I could be different enough that another would have to be found for me. A word that would express joy of life, exhilarating—anything but 'glamorous' or 'exotic'."

Lull is lively—and that might be the word. She acts as if she enjoys the day-to-day madness of picture making.

"It is what you call the nuts house, isn't it?" she said. "Orders come, and five minutes later other orders contradicting the first ones, and we all go around doing very silly things. I'm sure one has to be a little crazy to work in pictures—that's why I love it!"

Here To Stay Lull, now being seen in the English-made film, "Thunder in the City," is bowing to Hollywood in "I Married an Artist," with John Boles opposite. She is flattered when people say she resembles Merle Oberon or Myrna Loy. And she breaks other rules for foreign importations. First thing she did on arrival was buy a house and 180 acres. Next she applied for American citizenship. She really intends to stay.

As for "temperament," she says: "I am being very meek now. But if I become established in films—then watch me make demands!"

But she says it with a twinkle in her gray-blue eyes. The only demand she made in my presence was of the prop man. She wanted a hot water bottle. As a special favor Columbia put her picture on the air-cooled stage—and Lull suffers from cold feet!

## So They Say

This is my first and last marriage. —TALLULAH BANKHEAD, movie actress who recently married John Emery of New York.

Fair and constructive criticism is always helpful, but I resent the unfair, unjust and petty criticism of President Roosevelt. —MRS. SUSAN CLEVELAND YEOMANS, only surviving sister of Grover Cleveland.

The only mandate which the motion picture industry has any right to assume that it has received from the public is to produce entertainment films. —MARTIN QUIGLEY, Williams-town, Mass., publisher of the Motion Picture Herald.

China will fight not only to the last man, but to the last woman. —MME. O. K. YIU, wife of the mayor of Shanghai.

The world never needed craftsmen more than it needs them now. —WILLIAM S. KNUDSEN, General Motors Corporation, president.

At which station did we get that awful comed last week?

## Around Hollywood

By ROBBIN COONS

HOLLYWOOD—Lull Deste is one of the most charming and different morsels to cross the waters for American films in many a year.

With a name like that and a Viennese background you'd expect she would certainly go in for some of that Dietrich glamor. She would be aloof, elusive, exclusive and generally unapproachable. But no, she acts like an American girl, and a very nice American girl at that.

Harry Cohn's boys tried the glamorizing act on Lull when she came seven months ago, and she submitted meekly. She let them try out the hair dresses and the exotic make-ups, and after they were done she went straight back to her own manner of dressing and acting.

She's No Copycat "Glamor," she says in a slightly accented voice, "is something a woman has or hasn't. You can't give it to her. And I don't want to be an imitation of Mar-lay-nah. I don't like the word 'glamorous.' I wish I could be different enough that another would have to be found for me. A word that would express joy of life, exhilarating—anything but 'glamorous' or 'exotic'."

Lull is lively—and that might be the word. She acts as if she enjoys the day-to-day madness of picture making.

"It is what you call the nuts house, isn't it?" she said. "Orders come, and five minutes later other orders contradicting the first ones, and we all go around doing very silly things. I'm sure one has to be a little crazy to work in pictures—that's why I love it!"

Here To Stay Lull, now being seen in the English-made film, "Thunder in the City," is bowing to Hollywood in "I Married an Artist," with John Boles opposite. She is flattered when people say she resembles Merle Oberon or Myrna Loy. And she breaks other rules for foreign importations. First thing she did on arrival was buy a house and 180 acres. Next she applied for American citizenship. She really intends to stay.

As for "temperament," she says: "I am being very meek now. But if I become established in films—then watch me make demands!"

But she says it with a twinkle in her gray-blue eyes. The only demand she made in my presence was of the prop man. She wanted a hot water bottle. As a special favor Columbia put her picture on the air-cooled stage—and Lull suffers from cold feet!

## Side Glances

By George Clark

—TALLULAH BANKHEAD, movie actress who recently married John Emery of New York.

Fair and constructive criticism is always helpful, but I resent the unfair, unjust and petty criticism of President Roosevelt. —MRS. SUSAN CLEVELAND YEOMANS, only surviving sister of Grover Cleveland.

The only mandate which the motion picture industry has any right to assume that it has received from the public is to produce entertainment films. —MARTIN QUIGLEY, Williams-town, Mass., publisher of the Motion Picture Herald.

China will fight not only to the last man, but to the last woman. —MME. O. K. YIU, wife of the mayor of Shanghai.

The world never needed craftsmen more than it needs them now. —WILLIAM S. KNUDSEN, General Motors Corporation, president.

At which station did we get that awful comed last week?

# Trinity River Canal Plan Both Condemned, Praised at Hearing

WICHITA FALLS, Sept. 9 (AP)—Texas products floating down the Trinity river in boats to the sea, an 80 year old dream of more than 400 miles of navigable inland waterway, drew both condemnation and praise here today in the latest of periodic arguments before army engineers.

Opposing interests sought to show Lieut. Col. Frank B. Besson of Galveston, district army engineer, that the Trinity River Canal association's plan to spend \$65,000,000 in developing the river was impractical and "excessively expensive."

C. B. Bee, Oklahoma State Corporation commission counsel, and I. G. Bentley, traffic manager of the Oklahoma City Chamber of Commerce, district army engineer, and the Wichita Falls chamber, and representatives of other West Texas cities, to argue against the proposal.

Foy has said in recent addresses that reduction of rail freight rates to those of ports would be at the expense of taxpayer, hampering railroads and trucking and eventually depriving cities of taxes these agencies pay. He has also said the development would bring no ultimate savings to the territory served.

John M. Fouts of Dallas, manager of the association, carried the brunt of the argument here today for the plan. He announced he would present a lengthy list of witnesses tomorrow at a companion hearing at Fort Worth to show people what action on the proposal, and emphasize its potentialities for economic development.

Fouts has envisioned the transformation of the Trinity into a water route from Fort Worth and Dallas to Galveston and Houston, as a program requiring about a quarter century to complete.

He has said it will build an industrial empire, and here today for the West and Dallas cannot take their proper places in the Southwestern sun.

Opponents declare that only Dallas and Fort Worth will benefit. Chambers Favor Plan Both East and West Texas Chambers of Commerce are recorded as favoring the project, officials of the latter announced, because they felt the canalization would bring lower shipping rates for farmers.

Three forks merge to give the Trinity its name. West Fork, draining into the Tarrant and counties, is united with Elm Fork below Fort Worth, above Dallas. Elm Fork rises in Montague county, and flows thru Cooke and Denton, and the combined streams unite with the East Fork, draining Grayson, Fannin, Collin, Kaufman and Rockwall counties, below Dallas.

With the first settlement of Texas the lower reaches of the stream were navigated. As development pushed inland the short, light draft steamers of the day crept upstream, carrying on a service with the spasmodic regularity of high water seasons, sometimes painfully probing as far as Dallas.

Then the dream was of navigation for transportation's sake, of year round, easy contact with the outside world.

Railroads provided this contact, condemning the in and out service of boats, but in 1890 agitation for navigation of the Trinity revived, with the argument then, as now, that freight rates were too high, and a water outlet would bring a reduction.

"What the Erie has done for New York, the Trinity can do for Texas," speakers boomed. A Trinity River Navigation company organized, built a steamer "Dallas," sent it down the river to clean out snags, and set up a temporary dam below Dallas to keep the water level up in the East Fork.

Laymen argued merits of light draft steamers and barges, and the agitation bore fruit in 1904 with a bill for improvement, and the Dallas Commercial club subscribed \$66,000 additional.

By 1922 seven locks and dams cost-

ing an estimated \$2,000,000 dollars, had been constructed, but the program had stalemated and physical gains were lost during the World War.

Two years ago a government survey, one of a number since 1853, reported canalization of the Trinity was feasible from an engineering standpoint, but the estimated \$102,000,000 required would not be justified by savings on transportation rates.

Supporters won another hearing in Washington June 29, where they tried the board of rivers and harbors they had worked out the present, revised plan, calling for a smaller number of locks than the government estimated.

Of the \$65,000,000 total, \$55,000,000 would be granted by the government, and the rest raised by the association.

A channel a hundred and fifty feet wide and nine feet deep would permit use of standard barges. The distance, through use of cutoffs, from Fort Worth to Galveston would be 440 miles, and from Dallas to Galveston 404 miles.

The rivers and harbors board made no decision on the Washington hearing, referring it to its district engineer for further investigation. President E. M. Crump of the Wichita Falls chamber of commerce asked today's hearing on July 3.

## Book A Day

By BRUCE CATTON

Its going to cost you vastly more to live during the next few years, economists, technical authorities, private and government agencies agree. And the prediction is supported by retail price increases of from 14 to 20 per cent since 1934. In the past year alone retail prices in general have risen 9.2 per cent.

"How to Beat the High Cost of Living" (Simon and Schuster, \$1) rolls off the presses, therefore, at an opportune time. In this book, Author Ray Giles points the way to 864 "money savers for everyday use."

"One way—and perhaps your only hope—of counteracting this general rise in prices," says Mr. Giles, "is to manage the family income wisely." Then Mr. Giles goes on to declare that not one family in a hundred regulates and balances its household budget with much success.

So he flings the challenge at you in nine amazing chapters; amazing because he tells you how to eat better and save money; how to dress better on less; how to make your shelter dollars go further; how to cut the high cost of heating; how to buy better insurance with smaller premium payments, and how to cut the corners generally.

Moreover, Mr. Giles, these savings do not call upon you to give up any of the good things of life. You won't have to make things at home or turn repair man. You needn't grease your car, or test tooth paste for your money's worth.

Want to save \$36 a year on milk alone? Want to save hundreds of dollars on taxes? Do you know what simple trick makes sheets last 25 per cent longer? Want to save \$100 on that next used car you buy? Mr. Giles has spent years finding the answers. And it's not too much to say that every man and woman of moderate means ought to know the answers.—P. F.

## MARSHALL WILL MEET JACKSONVILLE TONIGHT

JACKSONVILLE, Tex., Sept. 9 (AP)—Jacksonville and Marshall clash here tonight in the first round of the finals for the championship of the East Texas baseball league.

They play for the best four out of seven games. The second game is scheduled at Marshall tomorrow.

"At which station did we get that awful comed last week?"

ORDINANCE NO. 181

An ORDINANCE prohibiting and regulating the solicitation of money and gifts for relief or for other charitable purposes by any person or persons, institution or organization or so-called "tag day" solicitations, requiring the registration with the city manager of persons, institutions or organizations soliciting contributions and prohibiting such solicitation without a permit, and providing penalties for the violation of this ordinance.

Section 1. It shall be unlawful for any person or persons, firm or association, to solicit or obtain alms or gifts in money or merchandise directly or indirectly, by the misrepresentation of names, occupation, financial condition, physical condition, social condition or residence.

Section 2. It shall be unlawful to solicit or accept alms or gifts, in money or merchandise, directly or indirectly, for or in behalf of any person or charitable, patriotic, social or philanthropic organization; to promote or participate in any entertainment, benefit dance, fair or bazaar in the name of charity, patriotic or philanthropic; or to solicit or accept gifts of any nature or kind whatever, except by such organization on its own premises, or from members from such churches or religious organization while acting under and in accordance with the authority of the proper church officials without first obtaining a permit to solicit funds in the City of Pampa, said permit to be issued under the terms and regulations herein stated.

Section 3. It shall be unlawful for any person, persons, organization or association to hold benefit dance, rummage, sale, or to sell or offer for sale any property which has been given for sale or charity or philanthropic, or patriotic purposes, without first obtaining a permit as hereinafter provided.

Section 4. Each applicant for a permit to solicit funds in the City of Pampa, shall submit to the city manager a statement sworn to and containing the following information: Name and address of the organization. Name and address of officers of its governing board. The amount to be solicited. The percentage of collection to be paid to the organization. The net proceeds anticipated for the purpose solicited. The officials of the organization for whose support the permit is asked.

Section 5. The city secretary shall keep each application on file and a record of the action by the city manager, subject to inspection by any person at any reasonable time. Section 6. Said solicitation permits when granted by the city manager shall be valid for the period specified and no longer, and in no case shall they exceed a period of thirty days after date thereof; unless same shall be renewed in due course by the city manager.

Section 7. All applicants receiving permits shall supply their solicitors with proper credentials and the recipient of the permit shall be responsible for the overt acts of his, its, authorized representatives in connection with this solicitation. Section 8. The solicitation permit here in prescribed shall be non-transferable and may be revoked at any time by the city manager and shall never operate as a grant or a privilege or mature into a right. Section 9. In all cases where the city manager is of the opinion that the funds of any institution or organization operating under a permit from the city have been or are

being diverted from the purpose for which they are collected, or have been secured by misrepresentation, such persons, institutions or organization, shall be subject to investigation by said city manager, who may require such person or organization to file an immediate account of its receipts and expenditures with the city manager, and shall summon such witnesses to appear before the said city manager, as shall be necessary to ascertain the truth or falsity as to the facts of such representations, or of such diverting of funds from their proper purposes, and the city manager upon hearing the witnesses and after investigating all the facts shall render his decision as to whether or not the solicitation permit shall then and there be cancelled.

Section 10. The decision of the city manager shall be final except that an appeal may be taken to the city commission. Section 11. No solicitation or contribution as provided herein shall be added, demanded or received by any person, or the representatives of any person, firm, institution, organization or association, until the provisions herein are fully complied with and until permit thereto as herein provided, shall be issued by the city manager authorizing such solicitation in the City of Pampa. Nothing in this ordinance shall be deemed to grant a right to solicit or beg upon the streets or in public places in the City of Pampa, or operate a "tag day" without first securing from the city manager a permit specifically for the purpose after due application for same in the manner above prescribed has been made to the city manager and such application has been granted.

Section 12. Any person violating any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction shall be subject to a penalty of not to exceed \$200 for each offense, and each such violation, acceptance, receipt and or obtaining of such alms, gifts, money, merchandise, or other property of value as herein prohibited and regulated which constitute.

Section 13. This ordinance shall be cumulative of other ordinances of the City of Pampa, relative to the same subject matter where there is an irreconcilable conflict between this ordinance and any ordinance heretofore passed, then in effect, or in the future, and such ordinance shall be repealed to the extent of the conflict.

Section 14. This ordinance shall be approved on first reading this August 23, 1937; and passed and approved on second reading August 30, 1937; and passed and approved on third and final reading September 6, 1937. W. A. BRATTON, Mayor. City of Pampa.

ATTEST: W. M. CRAVEN, City Secretary. (Daily Aug. 25 to Sept. 4). ORDINANCE NO. 182. An ordinance making it unlawful to park or leave standing any motor or other vehicle upon premises of another without consent of the owner or occupant of such premises; providing the penalty for violation of this ordinance, and declaring an emergency.

BE IT ORDAINED BY THE CITY OF PAMPA, TEXAS: Section 1. It shall be unlawful for any person to park or leave standing any motor or other vehicle upon premises of another within the City of Pampa, without the consent or permission of the owner or occupant of such property or premises upon which such motor or other vehicle may be parked or left standing.

Section 2. Any person who shall violate this ordinance shall be punished upon conviction thereof by a fine of not less than Five nor more than Two Hundred dollars.

Section 3. The fact that the City of Pampa now has no ordinance regulating or prohibiting the parking of vehicles upon premises of another, and the fact that in the business district of the city and especially adjoining the alley-ways of said city vacant lots and premises owned and occupied by the merchants of the city are now being used by other persons for the purpose of parking and leaving stand automobiles and other vehicles and such practice prevents such merchants and other property owners and occupants from having free access and use of their said premises at all times; and the further fact that such practice and condition creates an unsafe and hazardous condition for the people lawfully using such premises, alley-ways and streets, especially in the event of a fire, creates an emergency, and the law requiring ordinances to be read upon three several days before final passage is hereby suspended, and this ordinance shall become effective and in full force immediately after its passage and publication.

W. A. BRATTON, Mayor. W. M. CRAVEN, City Secretary. (Sept. 9 to 20, inclusive).

# SAFETY FILM APPROVED BY LOCAL GROUPS

Pampa city and safety council officials today placed their stamp of approval on "The Devil Is Driving," full length movie coming to the Rex theater Sunday, as an object lesson in traffic safety for men, women and children.

Mayor W. A. Bratton expressed approval of the picture and issued the following statement:

"On Labor Day there were reported in this country 400 traffic deaths, 253 of these reported deaths were from automobile accidents. Last year in Texas we had a ghastly toll of 2,000 lives, 6,000 permanently disabled and 55,000 injured with property damage amounting to 30 million dollars. Are we to stand idly by and read in our papers every day this wholesale slaughter and pass it by with the thought that it will not happen to us or to members of our family. The governor of this great State is vitally interested in curbing this reckless evil. Civic organizations are taking a leading part. Motion picture houses are offering their services and in this connection I wish to urge every citizen, man, woman and especially every child to see the picture."

City Manager C. W. Stine said today:

"As I see it, the greatest need in the country today, to reduce automobile accidents and deaths, is the education of the people on how to drive safely. Of the thousands of accidents occurring every year, 85 per cent are due to the fault of the driver. Therefore, anything that can be done to make the people realize they are the cause (and not the car or the roads) of this terrible waste and carnage, is worthwhile. Seeing the picture will aid materially in bringing this realization home to all of us."

## TEXAS OIL INDUSTRY MAY BE TAX SOURCE

AUSTIN, Sept. 9 (AP)—Threat of higher taxes is drawing too close to the Texas oil industry for comfort.

Governor James V. Allred is expected to ask the legislature at its special session to impose additional taxes. Oil seems certain to be one of the first sources to which representatives will turn.

However, the senate has the same members who four months ago refused to have anything to do with a house bill proposing to boost the oil production tax from 2 1/2 to 6 per cent of value. Many senators have said few if any new taxes are necessary.

Whether the house again will vote to raise the petroleum levy remains to be seen. During the regular session, it refused to sanction corresponding increases in the imposts on natural gas and sulphur.

The state's revenue from oil promises to be substantially larger in the fiscal year starting this month under the present rate. Barring unforeseen developments, Texas' output during most months this year will be larger than that for any month of 1936-37 except August.

The industry entered the cool weather period in fair spirits because regulatory agencies of principal producing states pared output much closer to market demand estimates of the United States Bureau of Mines.

Texas started the month with a daily allowable of 1,454,070 barrels, still 40.4 per cent above the recommendation of the Bureau of Mines. The commission fixed the output at 1,441,734 just after its August production hearing but later authorized larger flows in several fields.

## BUYERS OF CUT RATE STAMPS MUST REPORT

FORT WORTH, Sept. 9 (AP)—More than 50 persons who purchased 50,000 "cut rate" postage stamps were urged to report to the Fort Worth postal inspector's office yesterday after five persons had been arrested in connection with the theft of stamps from the Crowley, La., postoffice Aug. 27.

Elmo Albert Kamp, 31, was held for \$10,000 bond on a charge of burglary of the postoffice. Four other men were charged with receiving and concealing stolen federal property.

## ROTARY CLUB WILL AID SALVATION ARMY DRIVE

Pampa Rotarians met yesterday noon in their regular Wednesday luncheon session. C. P. Buckler was welcomed back to the club after an absence of several weeks during a visit to England. Mr. Buckler's absence during the summer broke a nine-year record of perfect attendance at Rotary club meetings.

Speaker for the luncheon was Frederick M. Lange, state representative of the Salvation Army who is aiding local officers in conducting the Army's campaign in Pampa. He explained the drive, its purpose and need in this city, at the present time.

Also present was Captain Lambert, local Salvation Army head.

Eagle Scout Jack Hessey gave an interesting talk on his recent trip to the Scout Jamboree at Washington, D. C., and a committee was appointed to aid the Army in the drive.

Guests were Arthur Osgood of Amarillo and C. H. Everett of Ardmore, Okla.

## BEST SELLER AUTHOR SUES SHOW OWNER

FORT WORTH, Sept. 9 (AP)—The best seller, "Gone With the Wind" was the basis of a suit filed in Federal court here.

Billy Rose, the New York producer, the Frontier Fiesta Association and the Territorial Production corporation of Fort Worth were named defendants in an accounting and injunction suit filed late yesterday by Mrs. Margaret Mitchell March, the book's author, and the McMillan company of New York, its publisher.

Filing of the suit, James F. Pollock, general manager of the Fiesta, said, will not interfere with the show "in any manner."

The Territorial Producing corporation is a Rose company. The Fiesta association has a contract with the producing corporation.

The petition asks defendants "to account for and pay over to the plaintiff, Margaret Mitchell March, all gains, profits and advantages derived or realized by respondents" from infringement on the copyrighted literary composition and novel, "Gone With the Wind."

It also asks an injunction restraining the defendants from "directly or indirectly performing, pre-

senting, publicly producing or advertising a dramatization of "Gone With the Wind." No hearing has been set on the injunction.

"The petition further asks that the dramatic sets used in the dramatization of "Gone With the Wind" be impounded during pendency of the suit. A further plea asks that respondents be enjoined and restrained from using or dissipating profits or income from the dramatization.

It is set out in the petition that Mrs. March retained dramatic rights to the book, that the McMillan firm has only the copyright on the publication of the novel.

The petition alleges that the defendants "pirated" illegally copied and used parts of the novel in a dramatization of the book.

"Gone With the Wind" is the first sequence of the four-sequence best sellers the revue presented in the 1937 edition of the Casa Manana revue: The "Lost Horizon," "Wake Up and Live" and "It Can't Happen Here" are the books referred to in the other three sequences.

Representing the plaintiffs locally is the law firm of Thompson and Barwise. Other attorneys for the plaintiffs are Howard E. Elnheimer, New York, representing Mrs. March, and Cadwalader, Wickersham and Taft, representing the McMillan firm.

New England reports a boom in the boys' and girls' camp business. Enrollments this summer are from 5 to 40 per cent higher than in 1936.

HENDAYE, Franco-Spanish frontier, Sept. 9 (AP)—Insurgent planes and guns pounded the remnants of government defenses in northwest Spain today after their troop advance on Gijon had been stalled and more than 1,000 of their men killed by a sudden counter-offensive.

Insurgent artillery bombarded a network of fortifications guarding a mountain crest near the coast.

Aerial attacks caused heavy damage in Gijon, last government stronghold on the Biscayan coast.

The situation within Gijon was described as "acute." Police fled in-

## REBEL PLANES AND GUNS POUND GIJON

HENDAYE, Franco-Spanish frontier, Sept. 9 (AP)—Insurgent planes and guns pounded the remnants of government defenses in northwest Spain today after their troop advance on Gijon had been stalled and more than 1,000 of their men killed by a sudden counter-offensive.

Insurgent artillery bombarded a network of fortifications guarding a mountain crest near the coast.

Aerial attacks caused heavy damage in Gijon, last government stronghold on the Biscayan coast.

The situation within Gijon was described as "acute." Police fled in-

to the mountains, leaving the city without protection from extremists and plunderers.

Dispatches from Madrid meanwhile related that the defenses of that long-besieged Spanish city had struck against the insurgent lines near Valdemorillo that strengthened their grasp on territory recovered in the recent Brunete campaign.

## CLEAN FALSE TEETH—GET RID OF STAINS

New Easy Way—No Brushing  
Stara-Kleen, amazing new discovery, removes blackest stains, tar, tartar, like magic. Just put false teeth or bridges in a glass of water and add Stara-Kleen powder. No messy brushing. Recommended by dentists—approved by Good Housekeeping. At all drug stores. Money back if not delighted.
