PAMPA GRAY COUNTY, TEXAS WEDNESDAY EVENING, JULY 31, 1929

PRICE FIVE CENTS

TULSA MAN IS KILLED IN PLANE

Rock Island Denies Report of Intent to Delay Railroad Project

ARGUMENT IS STRICKEN OUT BY MAHAFFIE

Controversy Is Not Allowed by I. C. C. Director

JUDGE BARWISE IS PROMINENT

Denver Attorney Is Developing His Contentions

PORT WORTH, July 31. (P)—Repeated statements by a Port Worth attorney that the Chicago, Rock Island & Gulf might delay building a line from Quanah to Shamrock in the Panhandle if permission for that construction was granted brought a denial from W. F. Peters, Rock Island counsel, at a hearing before Interstate Commerce Commissioner Charles Mahaffie here today.

J. H. Barwise, Port Worth & Denver attorney, attempted to show by the testimony of M. J. Dowlin, Prisco assistant-general freight agent, that the Prisco was granted an I. C. C. permit for a line from Amarillo to Liberal, Kan., in May, 1929, but that line had not yet been opened to traffic. When Barwise completed his cross-examination, Peters said: "I suppose the question was for the purpose of giving support to a claim by a Port Worth & Denver official in a newspaper interview that if the Rock Island got the Shamrock-Beaver Creek permit it would take its time building it."

Mahaflie Objects
Examiner Mahaflie intervened, saying he wanted no such argumentative statements in the record. Barwise declared that if Peters' statement remained in the record he wished to challenge parts of it, to which Mahaflie replied: "I don't want to hear any more of it." The subject was dropped.

Witnesses today said the Shamrock-Beaver Creek line, connecting with a Vernon-Seymour route to which the St. Louis-San Francisco has applied for a net railway operating income of \$104,002 for the fifth year. H. P. Dittmer, Rock Island accountant, also said the Beaver Creek-to-Jacksboro line would give a similar income of \$134,512.

Dowlin, who was testifying when yesterday's session ended, was the first witness today. He said that if the Fort Worth-Denver and Rock Island both were allowed to build into the Panhandle he judged estimated traffic would be divided between them. He declared the proposed Shamrock-to-Beaver Creek route, while lowering rates on the Panhandle into Fort Worth and Dallas, would not affect Panhandle-Oklahoma charges.

Seek Joint Lines
The Rock Island seeks to connect its Shamrock-Beaver Creek line with a Prisco line from Vernon to Seymour, thence running through the Gulf, Texas & Western to Jacksboro and into Fort Worth over the Rock Island. The Prisco has asked permission to purchase the Gulf, Texas & Western, which would be a joint line with the Rock Island.

H. E. Purdie, Rock Island assistant superintendent of transportation, testified his estimates indicated the Rock Island would save \$167,196.05 through

(See RAILROAD, Page 9)

THE WEATHER VANE

TEXAS: Partly cloudy tonight and Thursday, scattered thunderstorms near the coast. Light to moderate southerly winds on the coast.

AND A SMILE

PHILADELPHIA, (P)—Sadie Schwartz, 19, Temple university student, is an able representative of the swimming sex. She swam 31 miles from Philadelphia to Wilmington in the Delaware river in 13 hours, 50 minutes. Two men, who started with her, gave up long before the finish.

MANY PLANES ON CITY PORT LAST EVENING

With three biplanes and two large monoplanes lined up on the local airport last night, Pampa looked like an aviation center. Four of the ships landed on the field during the afternoon and lined up beside the West Texas Air Service craft.

The first ship in was Carl B. King's Stinson-Detroiter, Jr., monoplane from Tulsa. Mr. King has large drilling interests in Gray county. He took off for Tulsa this morning.

Next in line came Ray Shifflett in his American Eagle biplane from Mangum. Frank Shaw landed a few minutes later in an American Eagle biplane equipped with a Kinner motor. Mr. Shaw is a local contractor.

The last ship to drop upon the field was a Ryan Brougham monoplane with Bill Ponder, Ryan representative from Fort Worth, at the controls. Mr. Ponder is still here.

Bad Weather May Delay Graf Zeppelin Trip

FRIEDRICHSHAFEN, Germany, July 31. (P)—The departure of the dirigible Graf Zeppelin on her trans-Atlantic air voyage to America, was set today for 3 a. m. tomorrow morning (8 p. m. Wednesday C. S. T.).

FRIEDRICHSHAFEN, Germany, July 31. (P)—Unfavorable weather reports received at Friedrichshafen this afternoon made it likely that the start of the Graf Zeppelin, scheduled for dawn Thursday, would be postponed. The reports indicated a heavy storm was approaching Friedrichshafen to night and would make it impossible to take the huge trans-Atlantic dirigible out of her hangar.

At least one American couple scheduled to make the passage, Mr. and Mrs. Henry J. Pierce of New York, will be unable to make the trip. Mrs. Pierce in Russia with her husband, is ill.

Although numerous applications for their places have been pouring in, including two American, the Zeppelin company for the present is declining to fill vacancies.

"It is a much better proposition for us to take on more fuel and good paying freight than to load the zeppelin to capacity with passengers," said Captain von Schiller.

Discussing the weather Captain von Schiller said another weather report was expected late today.

Ninth Car Taken Here Last Night

Another car was stolen last night to bring the total for the last eight days to nine. Of that number three were found stripped and two were recovered undamaged. The others are still missing.

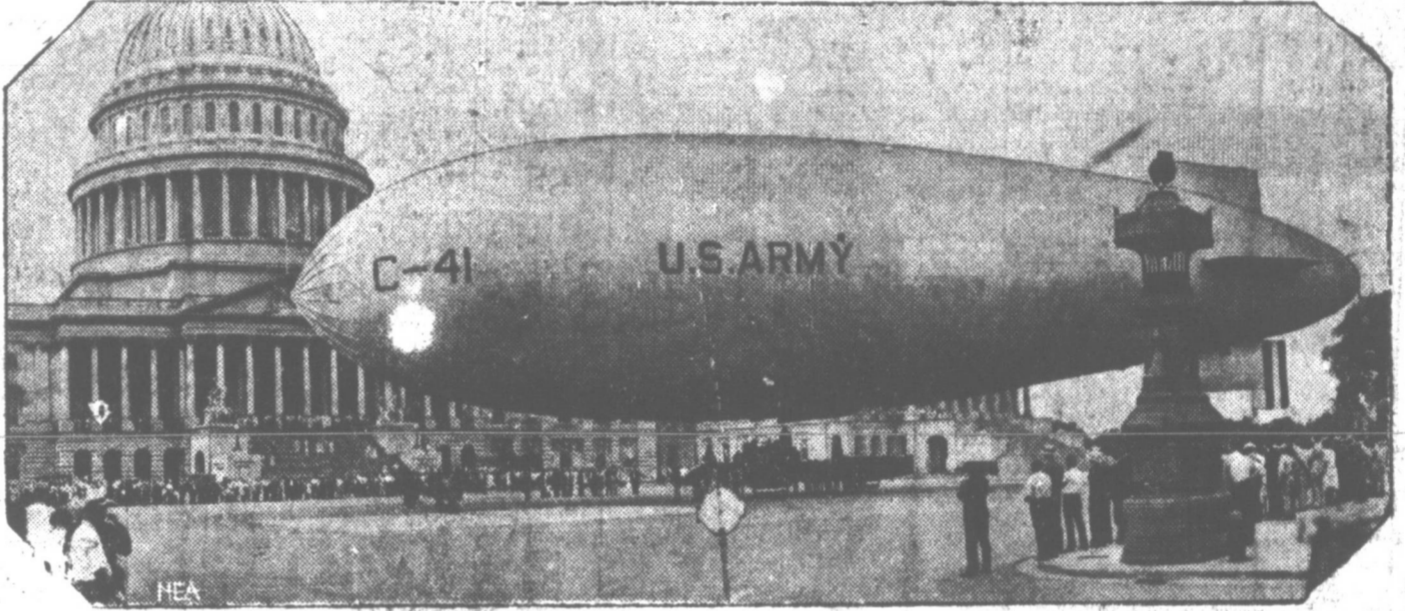

The car stolen last night was a Chrysler coach owned by the Danziger Oil & Refining company. It was taken from in front of the Schneider hotel early in the evening.

Officers of the sheriff's department this morning hauled a Chevrolet coach, 1928 model, into the city. The car had been abandoned on a cross-road two miles north of the city. There are no license numbers on the car and the officers have no way of locating the owner.

Minard Stevens of Miami underwent a minor operation Monday at Pampa hospital. He returned home yesterday

NEW SENATORIAL TAXI—ARMY BLIMP LANDS

SENATOR BINGHAM ON CAPITOL PLAZA

HONORS HEAPED UPON "ROBIN" FLIERS

ST. LOUIS, July 31. (P)—After exceeding the old world's record for sustained flight by more than a week, Dale "Red" Jackson and Forest O'Brine brought the St. Louis Robin to a perfect landing at Lambert-St. Louis field last night at 7:31:30 o'clock (C. S. T.), because they wished to attend the funeral services today of George Lea Lambert, killed Monday with a student flier on a practice spin. They made the sky above St. Louis their home for 420 hours, 1-2 minutes, or two weeks and a half.

The fliers' greatest thrill came, they said last night, as they watched the milling thousands below churn the dust of the field into a sticky gumbo as a hard rain descended about 6 o'clock.

A crowd estimated at 25,000 was at the field and easily broke police lines and a fence erected to protect the plane.

"They cheered wildly and jammed about the hangar where Jackson and O'Brine were rushed. Employees of the Curtiss-Robertson company, sponsors of the flight, together with police, followed souvenir hunters and the plane was towed with a tractor to its resting place beside the hangar. Its motor, a 6-cylinder air-cooled radial Curtiss Challenger, will be dismantled for a thorough factory inspection. The champion endurance grind was started as a test for the motor, which was brought into commercial production about five months ago.

Fliers Jubilant
Jackson and O'Brine were cheerful almost to hilarity as they discussed their achievement with reporters.

Both said they felt fine, although O'Brine added he was "a little weak in the knees."

Asked as to the hardest part of the flight, O'Brine replied without hesitation "the first 100 hours."

Both airmen praised the plane, Jackson adding "that old motor sure is a Lulu. It would have done another 200 hours." O'Brine was even more optimistic. "Yes, we could take it up again and break the record."

They were steady on their feet and the long time aloft had not impaired their bearing.

O'Brine gained a pound and a half in the air, while Jackson's weight remained stationary at 154 pounds. O'Brine's weight was 140 on coming down. Both had pulses of 84, a gain of 10 for Jackson and eight for O'Brine.

Earned \$31,000
The fliers earned more than \$31,000 in their time aloft, including \$25,000 from the Curtiss-Robertson company. An additional \$2,800 was received in cash besides gifts received by the Chamber of Commerce and untolded. Their way as pilots for the Curtiss-Robertson company was continued during the 16 days.

The feting begins today. A Chamber of Commerce luncheon at noon includes the presenting of a watch to

(See ROBIN, Page 5)

BOND DENIED PRO AGENT

Suicide Verdict Returned After Death of Prairie Company Pumper

A verdict of suicide was found by Justice C. E. Cary this morning in an investigation of the death of Ben Timken, about 40, pumper on the Prairie Oil & Gas company lease south of Pampa, late yesterday afternoon. Timken died in a local hospital shortly after 7 o'clock. Death was due to a single bullet wound in the head. A .38 calibre pistol was found in his hand.

Other Prairie employes heard a shot at the wellhouse, and called the Malone ambulance after finding the man in a dying condition. It was brought out in the investigation that Timken had been in ill health for several months, and that he had been acting in a peculiar manner for a few days.

He is survived by his wife and seven children. Three of the children are in Boulder, Colo., where the body will likely be sent for burial.

Judge Rules Under Cover Man Not Bailable

OKLAHOMA CITY, July 31. (P)—United States Judge Edgar S. Vaught declined today to allow bail to Jeff D. Harris, under cover man charged with murder in connection with the slaying of two farmers near Tecumseh, Okla. July 4. Bond of \$15,000 was set for W. W. Thomason, federal prohibition officer, also under a murder charge in the same case.

Immediately after denial of bail for Harris, A. S. Wells, his attorney, announced that without formality of a hearing in federal court on the application of state attorneys to remand the case to the Pottawatomie county district court, he would agree to the move if Harris consented.

Thomason's attorney, however, apparently desired to have his client go to trial in the federal court. Harris was charged with killing both Oscar Lowery and James Harris, while Thomason was alleged to have been connected with the slaying of James Harris.

Elks Will Have Smoker Tonight at Schneider Hotel

Pampa Elks and friends will celebrate tonight at 8:30 at the Schneider hotel with their first smoker. The Pampa lodge has been in the process of organization for some time. Tonight's affair will usher in a series of Elk entertainments, according to those in charge of the lodge.

Plans are being made for the Elk air circus to be held in a few weeks at the municipal air field. The Elks are working to have the largest crowd ever assembled in Pampa at the air circus.

Several vaudeville acts, including the best talent in Pampa are on the program of the evening. Alex Schneider, in charge of the "casts," and Harold White, in charge of the show, promise the best in town for all Elks and their friends.

Grays Receive \$1,194 for Winning Amarillo Tourney

Pampa's American Legion Grays baseball team won \$1,194 in winning the Amarillo News-Globe baseball tournament. The Grays took the first money for the second time yesterday when they defeated the Amarillo Texans 9 to 1.

The Texans, second place team, were given \$600 of the receipts and Wellington, third place team, received \$440. The Lamesa Lobos, fourth place team received \$500 from the Amarillo Chamber of Commerce.

Ed Gober and his victorious Grays were in Amarillo this morning to receive their purse.

At press time Gober could not be reached regarding his plans for the future of the team. He will probably play several games here and go some barnstorming with his victorious nine.

This is the second successive year a Pampa team has won the Amarillo tournament. Last year the Grays received only \$315 for first place.

A major operation was performed on C. D. Justice of LeFors last evening and his chance for recovery was reported favorable this morning. Mr. Justice was shot through the lower abdomen late yesterday afternoon at LeFors.

A .38 calibre revolver which he was handling accidentally discharged, seriously wounding him. He was rushed to the McKean & Connor hospital in a Malone ambulance.

Mrs. R. J. Huvall and her infant son left Pampa hospital Monday.

Another Legion Band Concert Is Enjoyed Tuesday

The Pampa American Legion band gave another appreciated concert in front of the Legion home last evening. Many popular marches, fox trots and novelty numbers were played.

Despite crowded conditions, a large audience heard the concert. The band is becoming popular and will have to be provided with a bandstand in which to give weekly concerts. A Legion committee is at work trying to locate a place to erect a stand.

Injured Man Is Likely to Live

Fort Gee of Waxahachie returned home Monday, after a visit in the home of Mr. and Mrs. J. E. Corson.

Mrs. J. E. Corson, Miss Elizabeth Corson, and Miss Mae Blair returned yesterday from a visit at the J A ranch with Mrs. Corson's niece, Mrs. Clinton Henry.

Mrs. J. C. Harris, and Mrs. F. H. Bourland of McLean were guests of the former's sister, Mrs. C. L. Craig, yesterday afternoon.

SHIP CRASHES LAST EVENING ON TAKE-OFF

W. C. Farquhar Dies as Spartan Burns at Skellytown

WING STRIKES TELEGRAPH LINE

Gasoline Explodes as Wreckage Hits Ground

Death came to a birdman about 3:40 p. m. yesterday at Skellytown in the first major airplane accident of this immediate territory when W. C. Farquhar of Tulsa crashed in a Spartan biplane.

Farquhar died instantly, his body being burned beyond recognition when the 60-gallon gasoline tank exploded. He had cleared the ground from a small, rough field but could not rise high enough to clear railway, telephone and telegraph lines, which are located on an eminence. One wing was broken off when the ship struck a telegraph pole. The impact whirled the plane around and it dropped, helpless, into a small canyon just beyond the railroad.

The pilot was alone. He had been demonstrating Spartan planes in Skellytown and had sold two. Twice during the morning he had attempted to rise from the rough field, but each time had halted before taking off. His Curtiss-Challenger motor, of the same type used in the "St. Louis Robin," was working well just before the accident, spectators said.

When the plane struck the ground there were two explosions, and before the spectators could run one hundred yards the pilot was enveloped in flames which reduced the fine ship to twisted steel.

The body was brought here in a Malone ambulance and prepared for shipment to Granfield, Okla., where Farquhar's parents live. The man was unmarried and about 35 years old. He was in the air corps during the war, but until about six weeks ago was a petroleum engineer working out of the Tulsa office. His experience in aviation led to his being transferred to the Spartan subsidiary of the Skelly company. He was regarded as a capable pilot.

Young American Gets Sentence in English Court

LONDON, July 31. (P)—Richard, Joshua Reynolds, rich young American of Winston Salem, N. C., was today found guilty of manslaughter on charge growing out of an accident in which his automobile was involved and a motor cyclist was killed last May 8.

Reynolds was sentenced to five months in prison.

Reynolds' prison sentence was without hard labor.

The young American was also ordered to pay the whole costs of the prosecution, which will be heavy. His lawyer Norman Birkett, pleading for mitigation of the sentence, said Reynolds had provided for Graham's widow for life.

The old Bailey jury deliberated less than an hour. Arthur Graham, the motor cyclist, was killed on the Bath road at night when Reynolds was driving back to London from an outing at Hurley. The prosecution alleged the defendant was drunk at the time.

SNOOK JURY COMPLETED
COLUMBUS, O., July 31. (P)—After five days in which ninety-nine persons were examined, a jury was completed at 10 o'clock today to hear the first degree murder trial at Dr. James H. Snook, charged with the hammer slaying of Miss Theora Elk, his paramour and student at Ohio State University.

Mrs. George Dull and her ten-day old son will leave Pampa hospital in a few days.

It's Like This

IT IS GOOD NEWS that the city is finding it possible to purchase another street maintenance machine. Although the paving is considerable and will be doubled if the bond election August 20 carries, miles of dirt street will remain.

Maintenance of dirt streets under heavy traffic conditions is said to be very difficult. The trucks, heavily loaded, quickly tear up any newly graded street, and scarifying at frequent intervals is often therefore not advisable.

More adequate machinery is expected to go far toward improving this type of maintenance. Perhaps more grading after rains will help. Repairs of holes which inevitably appear would be desirable. Close inspection of the streets is necessary, since holes and ruts appear literally overnight.

HOOVER'S ADMINISTRATION may fall far short of the solution of major problems, but if initiation of important projects means anything this four years is apt to be memorable.

The president continues to act more or less like a chamber of commerce secretary for the nation. He is ready to approve all sorts of public welfare projects. But first he wishes facts. His committees and commissions and fact finding bodies are numerous. He will spend considerable money in investigations. Political enemies will make much of this "what are the facts?" attitude.

A Washington dispatch says "Looking to a national scale, organization in behalf of the nation's greatest asset, its children, President Hoover has yet his planning committee of experts to the task of preparing the groundwork of fact and experience for a White House conference, probably a year or 18 months from now, on child health and protection. This committee, comprising authorities in various fields of child welfare work, is headed by Secretary Wilbur and is equipped with a \$500,000 fund subscribed from private sources and administered by Edgar Rickard of New York, to finance the preliminary work, the contemplated conference, and the program that will be evolved."

Such plans put the government far into private life, but the public is looking to official sources for such investigations and movements. The Hoover program seems to bristle with public welfare ideas. Most of them will hardly get started during the four-year term, but a start is something.

CONSERVATION OF NATURAL RESOURCES is a federal policy and responsibility. This means that destruction of the nation's forest reserves should be prevented. But news dispatches almost

daily tell of fires which are sweeping over thousands of acres of fine timber land.

The government takes quick cognizance of flooded and destructive insects or diseases. It spends vast sums in reclamation work. It has, in fact, established forest ranger services and organized fire lighters. The protection, however, is so inadequate as to be almost negligible in the driest seasons. Western senators and representatives should demand recognition of this menace, which is described as becoming almost a national calamity.

WHOLESALE ATTEMPTS TO BREAK PRISON testify to the impatience of the modern prisoner in close confinement. While the outside world buzzes with industry and thrills with new feats of human endeavor, the long-term prisoners are held to routine which is fairly productive while meeting out justice in the fashion now prescribed.

The wrath of a prisoner is often eloquent. His mind, killed in framing anathemas, thinks of many unpleasant terms with which to describe or imaginary abuses of whatever privilege he has not forfeited. The idea of punishment for crime is still strong except among penologists who frame new theories. Punishment involves more than deprivation of freedom. Therefore prisoners should not be too fastidious.

But on the other hand when he state attempts to reform its subjects creation of a proper mental attitude on the part of the prisoners is vital. Apparently, despite published articles to the contrary, reform procedure is not having a very profound effect in some of the large institutions.

WASHINGTON LETTER

BY RODNEY DUTCHER WASHINGTON—During the hot months, when droughts sometimes wither crops, the rain-maker is abroad in the land. Officials of the United States Weather Bureau believe it would be just as well for all concerned if he were in jail. A popular belief persists that it is possible, by scientific means, to extract rain from the heavens. Often, when prayer fails to work, a rain-maker is called in to end a drought. The rain-maker usually offers to do his stuff on a basis of "no rain no pay," but demands his expenses in any event. If the rain comes he gets his fee, which may run as high as \$10,000 and more. Otherwise, he isn't out any-

thing and the rainstarved community suffers a while longer. Australians Like It

Various of these artists pretend to have their own secret processes, but the Weather Bureau is perpetually anxious to discover some rain-making device and it has yet to be shown. Nevertheless, whenever there is a serious drought anywhere, rain-makers are sure to show up and offer to function. The Canadian government employed one not long ago and although rain-making has thrived in the western part of the United States the business has been especially good in the world, especially in Australia.

"Rain-makers are either ignoramuses or rascals," says Dr. William J. Humphreys, the bureau's expert on meteorological physics. "I have always proposed that they be required to post a bond to be forfeited in case they don't produce the rain. That would finish the rain-making business. The trouble is that the facts of meteorology aren't generally known and that people are in dire extremity when they employ rain-makers and are willing to try anything. Of course, by that time rain is generally pretty nearly due and the rainmaker stands to collect when it comes along in the natural course of events, though he pretends that it has been produced by some hocus-focus of his own. Of course, he is initially in a position to look the situation over and see whether it merits taking a chance on his time."

Dr. Humphreys is the author of several interesting volumes on meteorology, including "Rain Making and Other Weather Vagaries," "Fogs and Clouds" and "Weather Proverbs and Paradoxes."

In uncivilized countries all sorts of strange religious ceremonies and devices are used to bring rain. Among civilized nations the pretense of scientific methods is set up. And all over the world people pray for rain whenever it is badly needed. There is no

evidence that any of these devices ever worked.

Dr. Humphreys says there's nothing to the idea that battles cause rain. He admits that a big battle is generally followed by rain but—

"Most large battles have occurred in regions of moderate to abundant precipitation," he says, "where, generally, there are only a few fair days between rains. Preparations for battle are commonly made during fair weather. Hence, by the time the preparatory maneuvers have been completed and the battle fought the next rain, if it has not already occurred, is, as a rule, about due."

TWINKLES

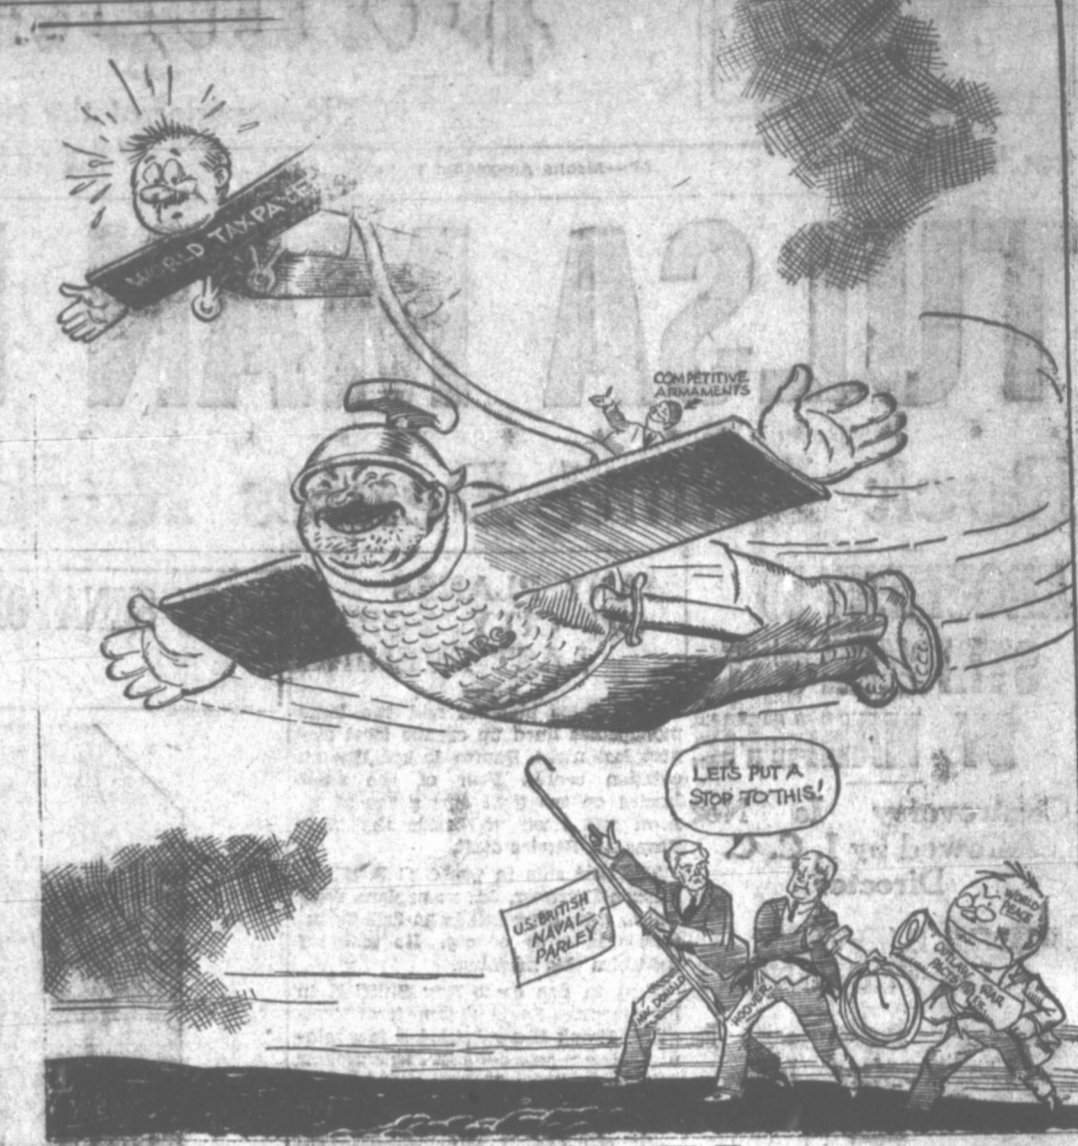

News of a truce in the railroad war between Amarillo and Pampa is misleading. If any agreement was reached, it was due to the fact that Amarillo decided it would be "embarrassing" to her to longer oppose the branch line near here. Pampa's stand remains where it has been from the start.

Wichita, Kans., might well discover a similar agreement advisable. Her intervention is laughably trivial and irrelevant. Perhaps she wishes, with Amarillo, to maintain a sort of 5-5-1 parity with Pampa, letting this city take the hind-most.

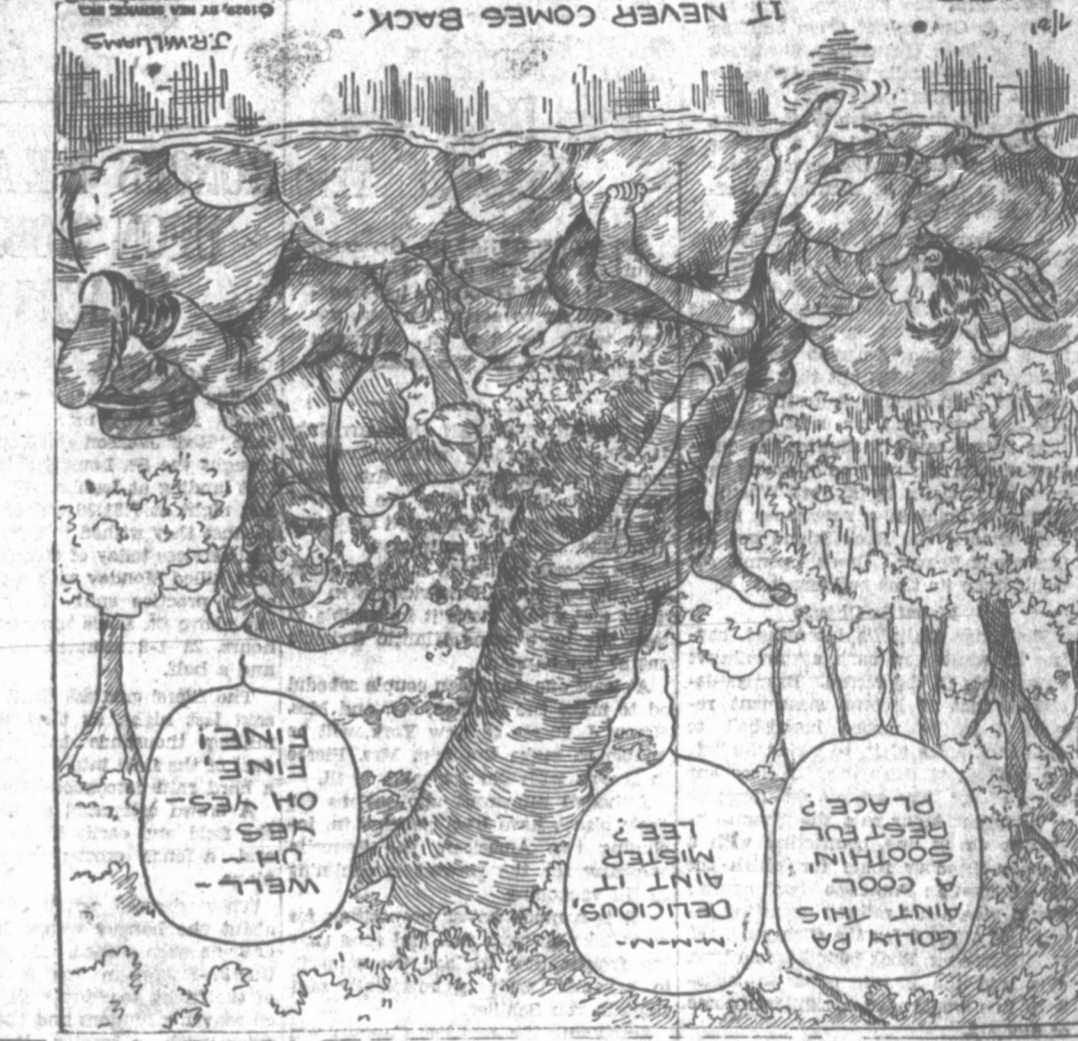

The Grays exemplified the Pampa spirit—never discouraged by weight of odds or circumstances. Now to put over the municipal bond issues with the same energy and faith in the ultimate outcome.

FLY-TOX... Columbia Chain Program at 8:30 tomorrow morning through station KMOX. Tune in on Theresa Martin in many lands. It's different—interesting—instructive.

Social Calendar

WEDNESDAY
The Women's Missionary union of the Baptist church will hold a social meeting at the church at 8 o'clock.
The Altar society of Holy Souls church will meet at 8:30 o'clock in the home of Mrs. A. B. Sawyer. Mrs. J. O. Tyler is to be associate hostess.
FRIDAY
The Order of the Eastern Star will hold a regular meeting at 8:35 o'clock. Members of the Azar class of the Baptist Sunday school will entertain their families with a picnic. The party will assemble at the church at 7:30 o'clock, each member bringing a basket lunch.
SATURDAY
The Women of Good Heart Lodge will hold a cooked foods sale at Piggly Wiggly No. 1. Proceeds are to benefit charity.

Bridal Couple to Make Home Here

Allen Williams and his bride, the former Miss Clorinda Barber of Allamore, Colo., whose marriage was solemnized last Saturday at Albuquerque, N. M., arrived here early this week and are at home at 214 North Gray street.
Mr. Williams, who is the son of Mrs. R. E. Williams of this city, is a partner in the Pampa Electric company. He is a former student of Texas Technological college, Lubbock. The bride is the daughter of Mrs. H. A. Caldwell of Albuquerque.
The Rt. Rev. F. B. Howden, bishop of the Episcopal diocese of Albuquerque, read the marriage service for the young couple at St. John's cathedral, in the presence of a few friends and relatives. The bride was given in marriage by Mr. H. A. Caldwell. Her only attendant was Miss Marie Moses of Allamore, Colo. Mr. Donald Barber, brother of the bride was best man.

Mrs. James Todd underwent a major operation this morning at Pampa hospital. Her condition at noon was considered satisfactory.

Miss Inez Barrett Compliments Miss Virginia Thomas

The last of a series of five affairs for Miss Virginia Thomas, one of the most popular young visitors in the city this season, was given a theatre party, followed by a buffet supper and slumber party at the country home of her parents, Mr. and Mrs. Charles Barrett. The delightful event was brought to a close with an old-fashioned chicken breakfast served at dawn.
Miss Thomas left immediately thereafter for her home in Weatherford, Okla. She had spent three weeks here with her uncle and aunt, Mr. and Mrs. Sam Thomas, and her cousin, Miss Yvonne Thomas.
Miss Barrett's guests included, in addition to the honoree, the following: Miss Yvonne Thomas, Miss Yvonne Thomas, Miss Wanda Bernard, Miss Wilma Washon, Miss Alice Ingram, and Miss Mary Ellen Cook.

Wheat Estimate Released Today

TOPEKA, July 31. (AP)—The wheat yield of eight central and southwestern states this year, was estimated at 352,000,000 bushels, today by J. F. Jarrell, manager of the Atchinson, Topeka and Santa Fe railway company's agricultural development department.
The wheat crop in the eight states was estimated as follows:
Kansas, 145,000,000 bushels; Nebraska, 55,000,000; Texas, 40,000,000; Illinois, 36,000,000; Oklahoma, 35,000,000; Missouri, 23,000,000; Colorado, 13,000,000; and New Mexico, 5,000,000.
Corn crops were estimated as follows: Iowa, 420,000,000; Illinois, 300,000,000; Nebraska, 235,000,000; Missouri, 150,000,000; and Kansas, 120,000,000.

GAS IN MEERS WELL
Having moved the boilers well back, drillers at McQuinn et al's No. 1 J. F. P. Meers section 107, block 3, were bringing in a mounting flow of gas at about 2,500 feet today. This is the first well necessitated drilling to clear a space for the derrick in a large rain water lake. A good well is expected. Formations are running high.

Included among those who attended the Pampa-Amarillo game at Amarillo yesterday were the following: B. W. Kelley, O. E. Fitzgerald, Ewing Leach, John White, and John B. Hesse.

Swimming Party Given for Mrs. James Ensign

Mrs. James Ensign, who is to move away from the city in a few weeks, was the honoree yesterday of a swimming party and picnic supper with which Mrs. Douglas Day entertained at LeFors.
The party included: Mrs. Ensign, Mrs. R. A. Webb, Mrs. W. H. Lang, Mrs. Clyde Lyon, Mrs. S. A. Burns, Mrs. C. M. Carlock, Mrs. W. A. Gray, and the hostess. A shower of handkerchiefs from the other guests was a further courtesy to Mrs. Ensign.

Rotary to Have Ladies' Night on Next August 14

Wednesday evening, August 14, will be ladies' night of the Pampa Rotary club. It was announced at the luncheon today, Barbara Bryant, district governor, will be the principal speaker.
The program today was in charge of Paul Shepherd, chairman of the vocational service committee. Earl O'Keefe, W. E. Kaufman, Tom Perkins, and Carl Boston made short talks. A. M. McElwee of Fort Worth talked to the club on his experiences in Rotary. Mr. McElwee has a perfect Rotary attendance for the last five years.

Water Demand is at New Peak of City Consumption

Pampa citizens used more water yesterday than ever before, according to a report handed to the city manager by Supt. Andy Crocker this morning. A total of 1,071,000 gallons of water was consumed. The bulk was used after 4 p. m.
More water was being demanded before, but it was during the days the Stuckey Construction company was paving and using large quantities of water. Yesterday the company was not paving and all water used was consumed locally.
The lower storage tank was practically empty late last evening, but plenty of water was being pumped from the wells, Mr. Crocker said.
Additional booster power and larger storage tanks are under construction.

Morphine Found on Arrested Man

An alleged "dope peddler" was arrested late yesterday afternoon in South Pampa by officers of the sheriff's department. He was lodged in the county jail and will be turned over to federal authorities, Sheriff E. S. Graves said today.
The man had in his possession seven cubes of compressed morphine, the officers said. The cubes were carefully wrapped in oiled paper and were in an empty cigar package.
This is the second arrest on a narcotic charge during the last month. The other man was turned over to federal authorities two weeks ago.

Little Damage in Two Blazes

The Pampa Volunteer fire department answered two calls yesterday but neither was of a serious nature.
The first call was from W. G. Eller's residence on West Foster avenue, where a grass fire on vacant lots nearby was becoming dangerous. By using sacks and slickers the department soon had the fire close to the residence stamped out.

Water Demand is at New Peak of City Consumption

Pampa citizens used more water yesterday than ever before, according to a report handed to the city manager by Supt. Andy Crocker this morning. A total of 1,071,000 gallons of water was consumed. The bulk was used after 4 p. m.
More water was being demanded before, but it was during the days the Stuckey Construction company was paving and using large quantities of water. Yesterday the company was not paving and all water used was consumed locally.

Additional booster power and larger storage tanks are under construction.

Morphine Found on Arrested Man

An alleged "dope peddler" was arrested late yesterday afternoon in South Pampa by officers of the sheriff's department. He was lodged in the county jail and will be turned over to federal authorities, Sheriff E. S. Graves said today.
The man had in his possession seven cubes of compressed morphine, the officers said. The cubes were carefully wrapped in oiled paper and were in an empty cigar package.
This is the second arrest on a narcotic charge during the last month. The other man was turned over to federal authorities two weeks ago.

Little Damage in Two Blazes

The Pampa Volunteer fire department answered two calls yesterday but neither was of a serious nature.
The first call was from W. G. Eller's residence on West Foster avenue, where a grass fire on vacant lots nearby was becoming dangerous. By using sacks and slickers the department soon had the fire close to the residence stamped out.

Water Demand is at New Peak of City Consumption

Pampa citizens used more water yesterday than ever before, according to a report handed to the city manager by Supt. Andy Crocker this morning. A total of 1,071,000 gallons of water was consumed. The bulk was used after 4 p. m.
More water was being demanded before, but it was during the days the Stuckey Construction company was paving and using large quantities of water. Yesterday the company was not paving and all water used was consumed locally.
The lower storage tank was practically empty late last evening, but plenty of water was being pumped from the wells, Mr. Crocker said.
Additional booster power and larger storage tanks are under construction.

It's as simple as setting a watch, yet the New Frigidaire Cold Control enables you to regulate as you please the time required to freeze ice and desserts

LET'S consider what the new Cold Control is going to mean to you when your Frigidaire is delivered.
Suppose it's a long hot summer day. Of course you will want sparkling full-size ice cubes and lots of them. And you'll also want a delicious frozen salad or dessert for dinner. And then at the last minute guests drop in unexpectedly.
Just set the Frigidaire Cold Control at "Colder" and use all the ice cubes you want.
Until you have seen this wonderful new Frigidaire development actually being used, it's almost impossible

to realize how much it adds to the joy of automatic refrigeration. And so we invite you to be our guest for a few minutes this week and to see for yourself what the Frigidaire Cold Control is and what it does. And while you're here you can get the new low prices and find out how small a deposit will place Frigidaire in your kitchen immediately.
Why not stop in today or tomorrow?

As an example of Frigidaire value, consider this latest cabinet. It has every essential Frigidaire feature, yet it is priced at only \$215. Completely installed.

GRAYS DEFEAT TACKS TO REPEAT AS TOURNEY CHAMPS

FIRST PLACE
CINCHED THRU
HEAVY HITTING
Four Double Plays
Feature Fast
Contest

In a sparkling exhibition of baseball which included four double plays and the longest home run ever hit in Mexico park, the Pampa Legion Grays yesterday afternoon defeated the Tacless Texans, 9 to 1 and for the second consecutive year won the Amarillo Globe-News tournament.

The Pampa entry was superior in every department and the heads-up play of the Grays was such as to send the large delegation of local fans into wild demonstrations of enthusiasm. The Texans fed a procession of hurters into their lineup but each found the going too rough for comfort.

The Amarillos finished second Wellington third, and Lamesa fourth.

The great stick work of Nell, Waller and Winegardner was a feature of the tournament. The three big fellows crashed out more doubles and triples than any other team in the tournament. Nell hit one over the deep left field fence for the first time since Metro park was built. The drive went more than 400 feet in distance before clearing the fence.

Gober's clan fielded sensationally all during the tournament and only this great work saved many runs. The Pampa nine has the distinction of playing 47 innings of baseball in the tourney and being scored on in only five of those innings, giving the team 42 innings of baseball in which not a man crossed the plate.

A Stronger Nine

Stronger than last year in practically every department, the Grays had to fight to the last ditch to win five money. They were placed against the strongest teams in the tournament and met all alike. Besides sending two teams home, they beat Wellington after that nine had won a game.

Besides the great hitting of Nell yesterday afternoon, the fielding of the Grays was sensational. They executed four double plays to save runs from crossing the plate.

In the third inning Sloan hit a hot one to Winegardner, who shot the ball to Roberts to catch Vaughnt, who had hit safely, and then to first to get Sloan. Again in the next inning after Gibson had hit safely McCasland hit safely to send Gibson to third. On the next play Bassett hit to Marcum, who threw to the plate and cut Gibson off when he attempted to score after the catch.

The Grays' third double play came in the seventh when Graham took Allen's roller, threw Arnold out at second, and got Allen before he reached first. The final double play of the day saved the Grays another run. Gibson hit a scorcher down the third base line which Williamson grabbed. He threw Hayden out at second and Roberts got Hayden at first.

Fast Combinations

Roberts and Winegardner each handled five chances without errors yesterday. They have played sensationally all during the tourney. Tank Horton, peppy little catcher, went through without an error. The outfield combination worked hard and hit regularly.

Lefty Graham settled down after the first inning and pitched airtight baseball. Only 32 batters faced the little lefthander.

Pampa started scoring in the first inning when Nell crashed a home run over the left field fence.

An additional run was added in the fourth when Waller made two bases on an error and scored on a hit batter and two walks.

The Grays added three in the sixth. Winegardner hit his fourth triple of the tournament on the first pitched ball. He scored on Marcum's single. Williamson beat out a hit, sending Marcum to second. Horton sacrificed. Graham's single scored Marcum and put Williamson on third. He scored on Roberts' out.

The Pampa nine's big inning was the seventh, when four runs crossed the plate. Nell hit his third triple of the tournament off the left field fence and scored when Arnold dropped Waller's long fly. Waller went all the way to third base. Winegardner scored Waller with a single. Marcum forced Winegardner. Williamson was safe on Vaughnt's error, sending Marcum to second. Horton got to second on Gibson's error and Marcum scored. Williamson scored on Graham's sacrifice fly.

Amarillo's lone tally came in the first when Sloan doubled and scored on Gibson's triple.

Bobby Jones for Congress Is Cry of Many Friends

ATLANTA, Ga., July 31. (AP)—For congress: Bobby Jones.

The name of the national open and amateur golf king was put forward today by a delegation of Canton county citizens, headed by State Senator H. G. Vandervier, who suggested he would be a serious contender for the Georgia fifth district seat left vacant by the death of Representative Leslie J. Steele. They stressed his ability as a lawyer and fame as a golfer.

Bobby would make no statement, but he is listed as one of the numerous potential candidates pending action of the fifth district congressional committee next Monday in considering plans for a primary.

Gov. L. G. Hardman set the special election for October 2. Date of the primary has not yet been decided upon.

Bobby was graduated by the Atlanta law school two years ago and entered partnership with his father, R. E. Jones. Canton county is the home of the golfer's grandfather, Robert T. Jones, Sr., a merchant.

CORRECTION

Through an error in yesterday's Daily News it was stated that E. T. Broughton, former local store manager for the Prick-Reed Supply company, had been made district sales manager. Instead, he was promoted to district salesman. Joe Boggs, Jr., of Amarillo is district sales manager.

Harmon Thompson of Amarillo visited here yesterday.

Mrs. Joe Wilson of White Deer was a shopper in this city yesterday.

CUBS MAY GO AS FAR AHEAD AS ATHLETICS

By HERBERT W. BARKER
Associated Press Sports Writer

Unless something speedily turns up to stop them, the Chicago Cubs soon will be making a runaway of the National league race just as Connie Mack's Philadelphia Athletics have in the American.

The Cubs stretched their advantage to four and one-half games yesterday by trouncing Boston, 4-0 while Pittsburgh lost to the Phillies, 13-5.

The Cubs' victory, their ninth in a row, was due almost entirely to excellent pitching by Sheriff Blake.

Six Pirate pitchers failed to halt the slugging Phils at Pittsburgh. It took three pitchers to halt the Phils in the third inning when they scored seven runs.

Chuck Klein hit his 32nd homer of the year.

Big Fred Fitzsimmons further demonstrated that he is not "cousin" to Red batsmen, the burly New York Giant right hander shutting out Cincinnati, 3 to 0. It was the fourth successive shut-out Fitzsimmons has scored against the Reds.

The St. Louis Cardinals ended a three-game losing streak by beating Brooklyn, 10 to 9 in 11 innings. Seven pitchers trotted to the mound during the day and gave not fewer than 33 hits.

The American league situation remained unchanged as the Yankees and Athletics both won.

The A's traveled ten innings to down Detroit, 5 to 4. George Uhlir gave only four hits up to the ninth but the A's tallied three times in this session to tie the score and won on Simmons' single in the tenth.

Fifteen solid drives gave Cleveland an easy 11-4 triumph over the Boston Red Sox, Morgan getting two singles, a double, and a triple.

A three run rally in the eighth gave the Washington Senators a see-saw battle with St. Louis, 11 to 9.

Herb Pennock pitched the Yanks to a 7-3 victory over the Chicago White Sox.

MAJOR LEAGUE LEADERS

BUFFS MUFF FIRST GAME IN DALLAS ZONE

By GAYLE TALBOT, Jr.
Associated Press Sports Writer

The Houston Buffs made an unimpressive showing upon their initial appearance in the northland since the bolstering process took place.

Where they had been downing all opposition to climb into a tie for the pinnacle while playing at home, the Buffs found up like a camp chair in their first skirmish at Dallas Three of their mountings, including Flint Rhem and Joe Brown, took a thorough licking as the Steers opened the series with a 12 to 2 victory.

The same malady that struck the Buffs also laid the three other southern clubs low. As a result, the first division today looked much like it did a few days before the season was split, with the notable exception that the Steers were in seventh place instead of first. Three northern outfits had climbed back into the select circle.

Wichita Falls took advantage of the Bison's rout at Dallas to shove back into undisputed possession of the lead, subduing San Antonio, 7 to 2. The Tribe, incidentally, is in the midst of another great losing streak. Milt Steenagraf was in fine fettle, keeping seven hits well strung out, while Neal Baker was pounded hard.

The Panthers finished strong to no

White Deer Nine Wins Over McLean

The White Deer baseball team got revenge on McLean Sunday afternoon on the home lot when they won a close game 3 to 1. On the previous Sunday, the McLean nine won from White Deer, 4 to 3.

Snappy pitching and tight fielding kept hits well scattered and in small numbers.

Despite the fact that "Hooty" Harrah yelled his home team to victory Sunday afternoon, he was in the grandstand at Amarillo yesterday and cheered the Pampa Grays to a double victory.

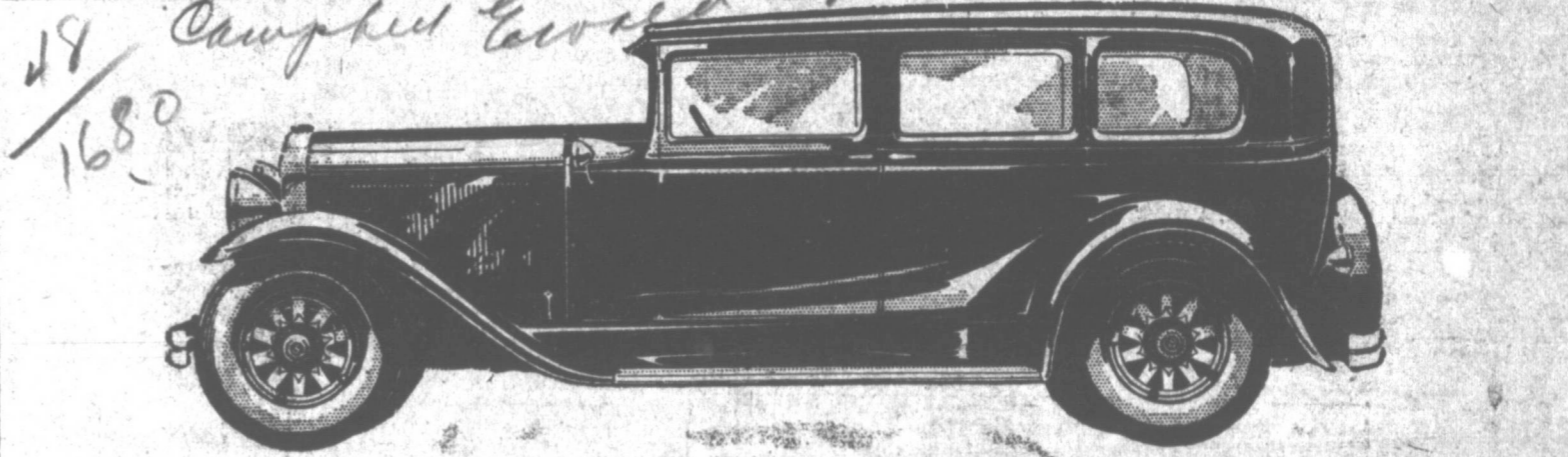

The yelling favorite of the Grays was the life of the ball game and had the umpires and players "worked up" during both encounters.

Spudders Will Get Messenger

WICHITA FALLS, July 31. (AP)—The Wichita Falls Spudders today announced the acquisition of two new hurlers to brace their mound staff for the rest of the Texas league season.

Andy Messenger, former member of the San Antonio club and strikeout king of the Texas league this season, was obtained for Fitcher O'Neal and an unnamed amount of cash. President J. Alvin Gardner announced.

The other new moundman is Paul Hopkins who reported yesterday from the St. Louis Browns. He was with Montreal in the International league last year and with the Washington Senators most of the season.

The New BUICK

NEW Fisher styling... NEW 99 Horsepower Valve-in-Head Engine*
NEW Controlled Servo Mechanical Brakes... NEW Steering Gear
NEW Road Shock Eliminator... NEW Double Acting Shock Absorbers
NEW Non Glare Windshield.

America has taken this new Buick to its heart. Millions have thronged to see it... tens of thousands have already placed orders... other thousands have requested demonstrations... all have found that in the five major elements of motor car appeal—beauty, performance, comfort, safety, value—this new Buick with Body by Fisher strides far ahead of any other car in the entire quality field.

New Fisher Styling

The new Buick Bodies by Fisher are longer, lower, more luxurious. They reveal new Fisher styling—new beauty of line and appointment—new colors—which have won outspoken admiration. And they introduce a host of new features including the new Fisher Non-Glare Windshield for safer night driving; new and richer upholstery; and new fittings and appointments of princely luxury.

Pacemaker of Performance

Moreover, Buick for 1930 reveals this same marked supremacy—this same increased leadership—in fleet,

NEW LOW PRICES—

WHEN BETTER AUTOMOBILES ARE BUILT... BUICK WILL BUILD THEM

Senate Quorum May Be Delayed

WASHINGTON, July 31. (P)—Prospects of rounding up a quorum of the senate in mid-August for resuming the extra session are beginning to appear remote.

If the finance committee has completed its rewriting of the house tariff measure by that time, the membership will be on hand. Otherwise it won't.

The Republican members of the finance committee who have undertaken the rewriting of the house tariff bill as tolling away long hours each day in the torrid heat of Washington, but the work is proving a bit more severe than expected. September 1 seems to be a better guess than August 19 as the day when the bill will be ready for the senate.

Forty-Nine Youths Face Edison Tests

EAST ORANGE, N. J., July 31. (P)—Forty-nine rather badly frightened boys were assembled here today for a series of tests to determine upon which one of them the mantle of Thomas A. Edison shall descend.

The boys, ranging in age from 15 to 21, come from the 48 states and the District of Columbia. They were selected by elimination as the "brightest" in their states and to the winner will be awarded a scholarship by Mr. Edison for free tuition in technical schools for four years.

Thomas A. Edison himself will confront them tomorrow with one of his famous questionnaires.

LINDBERGH TROUBLED WITH GROUND LOOPS

NEWARK, N. J., July 31. (P)—Landing at the Newark airport today on completion of a trans-continental flight, Colonel and Mrs. Charles A. Lindbergh experienced their second narrow escape from serious mishap in 12 hours.

The plane went into a ground loop, damaging the wheel and the tip of a wing. Neither the colonel nor his wife was injured.

Late yesterday in landing at Columbus, Ohio, their last stop before Newark, the plane started a ground loop when a tire on one of the wheels blew out. The plane skidded half way round, but the colonel righted it after scraping a wing on the runway.

Mr. and Mrs. Sam McCullough left yesterday for Venice, Calif.

Heat Wave Less Apparent Today

(By the Associated Press.)

Temperatures that tumbled precipitously overnight today brought to the entire country a break in a five-day wave of excessive heat.

From coast to coast and from the border to the gulf cities reported appreciable drops, especially at Bismarck, N. D., where the temperature fell 48 degrees to 54. Bismarck yesterday had a temperature of 102, one of the highest in the country and today the city was the coolest. The highest reading at 7 o'clock (C. S. T.) this morning was 88 at Boise, Idaho.

The break in the heat, however, failed to alleviate severe drought conditions in the United States and Canada. Rains continued local and light, while crops went on withering and forest fires in Canada assumed menacing proportions. Agricultural authorities in the East estimated that three days of soaking rain is needed for crops in their region. In Suffolk county on Long Island farmers feared a \$3,000,000 loss to their potato and corn fields.

BEER IS CONFISCATED

Officers of the sheriff's department this morning confiscated 24 cases of beer found in a tent in the breaks southeast of the city. No arrests have been made, Sheriff E. S. Graves says. There was no one in the tent when the officers made the raid.

Mr. and Mrs. Carl Taylor returned Monday from Norman, Okla., where they attended the funeral of Mr. Taylor's father, C. H. Taylor, last Friday.

Mr. and Mrs. Carl Taylor returned Monday from Norman, Okla., where they attended the funeral of Mr. Taylor's father, C. H. Taylor, last Friday.

Mexican Order Really Request

MEXICO CITY, July 31. (P)—Felipe Canales, acting secretary of interior, clarified the situation with regard to Americans residing in the United States and working in Mexico today with a statement to the Associated Press in which he said recent regulations controlling such border migrations should be construed loosely.

He said the "regulation" which required those who earned their living by working in Mexico to reside in Mexico should be considered as a request rather than a demand, and hence any persons not wishing to comply with it would not have to do so.

Daily News' want-ads get results.

Commissioners Accept Tax Roll

Gray county commissioners met Monday at the court house here and went over the tax rolls presented by Tax Assessor F. E. Leech. The commissioners raised valuations where necessary and approved the rolls.

The commissioners will sit as a board of equalization on August 5, when any landowner may appear and ask for re-adjustment of his assessed valuation. The hearing will be held in the commissioners courtroom in the court house.

Judge Ivy E. Duncan says Gray county's assessed valuations will exceed last year's by a considerable sum.

The state of Texas to the Sheriff of any constable of Gray County—Creeting:

You are hereby commanded, that by making publication of this Citation in some newspaper published in the County of Gray once in each week for 4 consecutive weeks previous to the return day hereon, you summon Gladys Tucker whose residence is unknown, who is alleged to be a non-resident of the State of Texas, to be and appear at the next regular term of the 31st Court of Gray County, to be holden at

the Court House thereof, in the City of Pampa, on the 4th Monday in September A. D. 1929, the same being the 23rd day of September A. D. 1929, then and there to answer a petition filed in said Court on the 23rd day of July A. D. 1929, in a suit, numbered on the docket of said Court, No. 2118 wherein Albert Tucker is plaintiff, and Gladys Tucker is defendant; the nature of plaintiffs-demand being substantially, as follows, to-wit:

Disregarding Solemnity of Marriage Vow in this, that she was guilty of Adultery.

HEREIN FAIL NOT, but have you before said Court on the said first day of next term thereof this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of

said Court, at this office in the City of Pampa, this the 23rd day of July A. D. 1929.

WITNESS, Charlie Thut, Clerk of 31 Dis. Court in and for Gray County, Texas. By Ola Gregory, Deputy.

The New NO-NOX Motor Fuel

Now Aviation Grade

Increased Anti-Knock Properties

AVIATION GASOLINE is the last word in Motor Fuels... It must be... Aviators take no chances... **GULF NO-NOX** has always maintained the highest standard in "anti-knock" fuels... Today it is stepping into the **Aviation class** and may be purchased from the Orange Pump for Automobile Fuel.

GULF-NO-NOX is a pure petroleum product and the Orange color is for identification only... It has no effect on NO-NOX efficiency. If you want the best from your motor... use the best fuel... It's economy in the end... In fact the high compression, high speed motor demands NO-NOX.

"It Certainly Has Proven a Blessing"

AMARILLO HOUSEWIFE GIVES ORGATONE HIGH PRAISE—PERFECT HEALTH, NOW.

Among the many Amarillo people who have recently expressed their hearty and sincere approval of Orgatone after putting the medicine to practical test and getting convincing results from it, none are more genuinely enthusiastic than Mrs. J. H. Holston, 305 North East Fourth Street, Amarillo, Texas.

"I certainly do give Orgatone credit for my great improvement," said Mrs. Holston, "for it has helped me over a bad case of kidney trouble and indigestion that has honestly been with me for twenty years, and the last two years I was going from bad to worse until I simply felt like I had no life left in me at all.

"My stomach just seemed to go back on me entirely for almost everything I would try to eat would ferment and form sour gas and give me such a puffed up miserable feeling that sometimes I felt like I couldn't get another breath to save my life. The pains around my kidneys and through the small of my back would frighten me and make me so weak and nervous I could hardly stand it.

"I couldn't sleep at all well at night and I became so badly run-down I was simply not equal to anything and for a long time I felt like I was going to be forced to give up my housework. If I hadn't heard about Orgatone and given it a trial I don't know what would have become of me.

"I have taken three bottles of this splendid medicine, and I can say positively and candidly that I have never felt better and stronger in all my life. I am gaining in weight and strength, and my stomach and kidneys are completely well as if I had never suffered with them a day in my life.

"My food agrees with me perfectly now, and I am not bothered with gas or nervousness in the least. I sleep just fine, and if there's any reason to believe I'm not in perfect health, I don't know what it is. I want to recommend Orgatone to my friends, for it surely has proven a blessing to me."

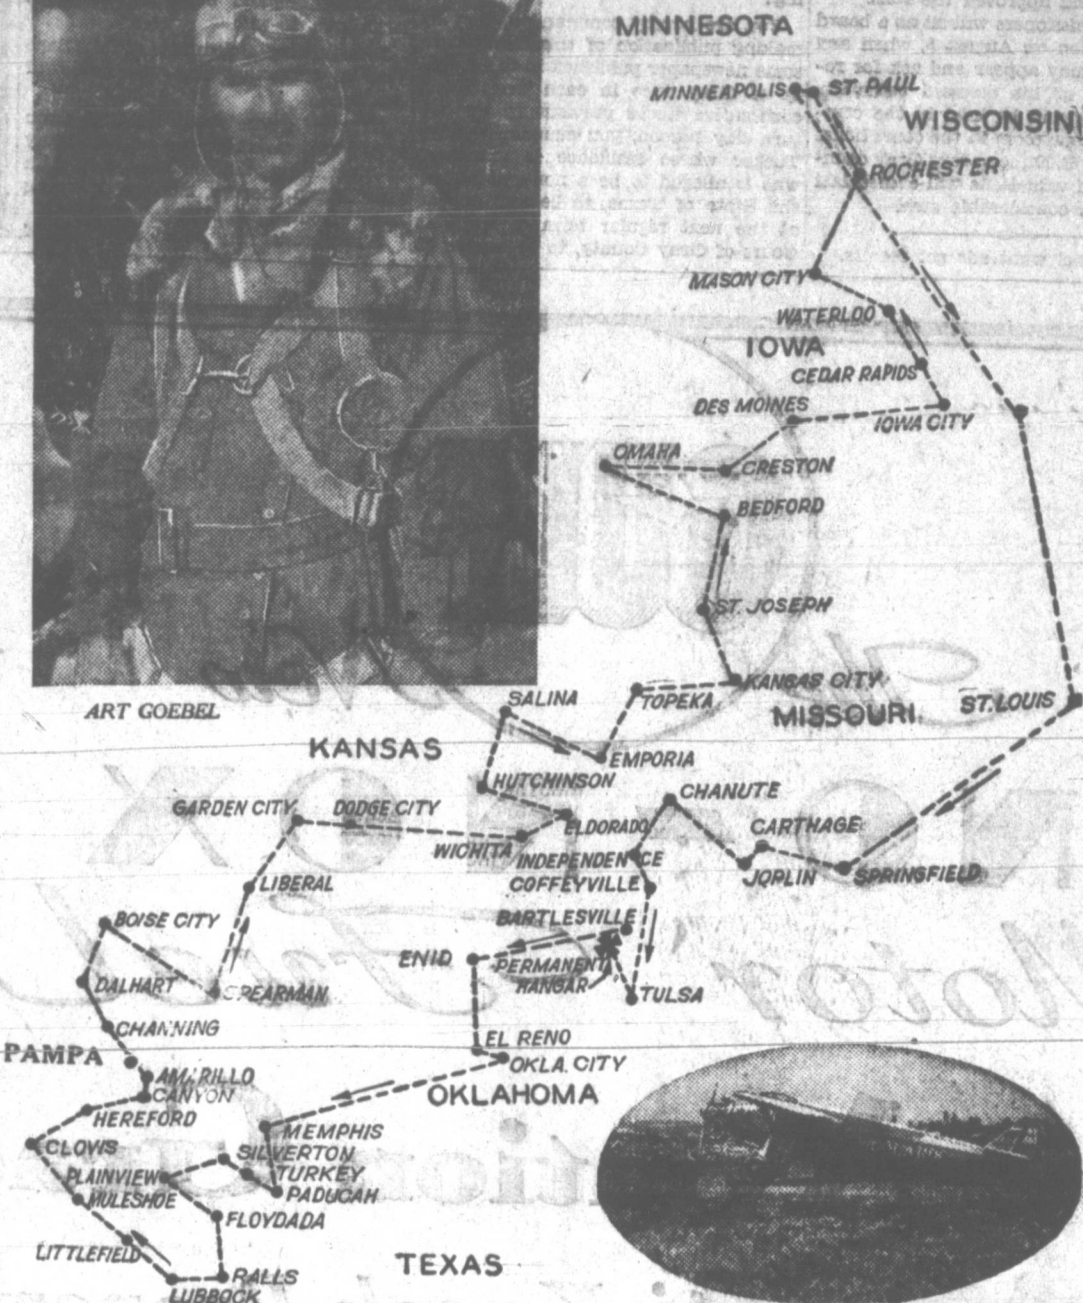

Genuine Orgatone is manufactured by one of the world's greatest laboratories and is not a so-called patent or secret remedy and is sold exclusively in Pampa by Richard's Drug Co., Inc. (adv.)

Molnar Novel Brought Here in Rex Movie Offering

Although Ferenc Molnar is undoubtedly the most famous of living Hungarian playwrights, he is not so well known in this country as a novelist, and it remained for Corinne Griffith to introduce the first Molnar book of fiction to the screen. "Prisoners," Miss Griffith's latest First National feature production, which has its initial performance at the Rex theatre today and Thursday is one of the few of Molnar's works which was written as a novel rather than a play.

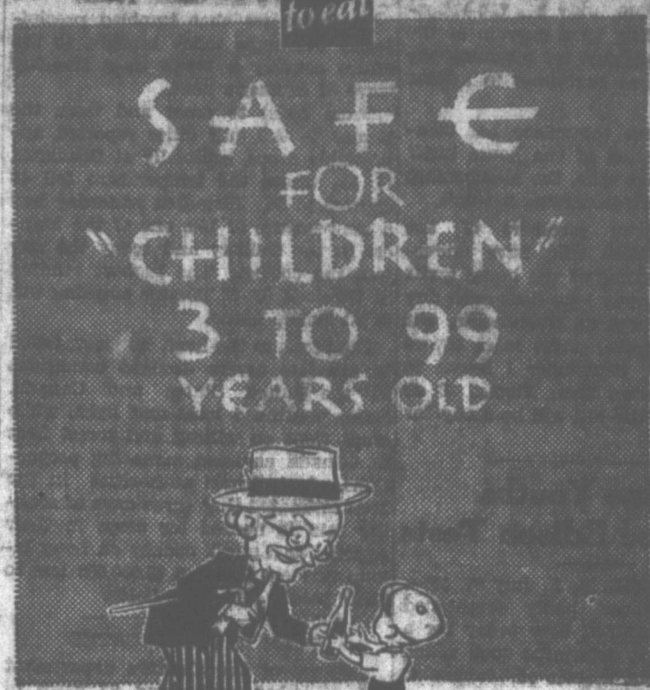

George Hallasz, one of Molnar's biographers, has recently given some interesting sidelights on this famous Hungarian personality. According to Hallasz, Molnar generally finishes a play in less than a month, working from dusk to dawn and always under artificial light, even in the day time. Having once studied law in Switzerland he speaks German quite well and has more than a passing acquaintance with the French tongue, as he spent several years of his youth in the Latin quarter of Paris.

Molnar possesses a library of 7,000 volumes, which completely line the walls of his modest apartment in Budapest. He has been married three times. He wears a monocle and likes to drink cognac with his black coffee. His greatest diversions are swimming and small talk. During the war Ferenc Molnar became a war correspondent, but he did not write about retreats and advances. Instead, he singled out unknown men who remained human despite the ghastly task in which they were employed. Their joys and sorrows were the subject of the author's sparkling and often vitriolic pen.

Mrs. Fred Young and little daughter of Amarillo came here yesterday for a week's visit with Mrs. Young's mother, Mrs. R. E. Williams, and other relatives.

Miss Frances Boles of Enid, Okla., is here for an extended visit with her brother, C. C. Boles, and Mrs. Boles.

BRIEF STATEMENT OF THE CAUSE OF ACTION.
That on November 15, 1927, the City of Pampa, Texas, issued its certificate of special assessment, payable to Stuckey Construction Company, or assigns, for the pro rata cost of paving Francis Avenue in said City, said certificate reciting that by ordinance dated August 8, 1927, there was levied and assessed a special assessment against the following property, to-wit:

Lying and being situated in the City of Pampa, Gray County, Texas, being Lot 13, in Block 23 of the original town of Pampa;

and against Dr. Elgin Hughey Conaway, the real and true owner thereof, said assessment being in the sum of \$1,569.19, payable in three annual installments, beginning November 14, 1928, and annually thereafter, bearing interest at 8 per cent from November 14, 1927, and providing for accelerated maturity and reasonable attorney's fees, if placed in the hands of an attorney for collection.

That default has been made in the payment of the first installment due on said certificate, and Realty Trust Company, the present legal owner and holder thereof, has declared same wholly due and payable and has placed same in the hands of attorneys for collection, and reasonable attorney's fees of \$300 have accrued. That defendant, W. J. Conaway, has some interest in said real estate, but same is inferior to the title of plaintiff's assessment.

Plaintiff prays for personal judgment against Dr. Elgin Hughey Conaway and foreclosure of lien against all defendants, including W. J. Conaway.

HEREIN FAIL NOT, to have you before said Court on the said first day of next term thereof, but you will appear thereon, showing how you have executed the same.

EARN LAND INVESTMENTS.
Among others: 430 acre tract, fenced and cross-fenced; 350 in cultivation; 8-room house; large barn; well-water piped to house and barns. Located Northwest of Wheeler, Texas. Price only \$27.50 per acre; one-third cash, balance five years at 6 per cent interest. Without considering potential value, this is said to be a good farm and a real bargain. We have other lands, improved and unimproved, at prices ranging as low as \$10 per acre.

ALSO—A good rooming house, a six-room duplex well located and can sell at a bargain and on reasonable easy terms.

THIS HAS HAPPENED
NAN MORGAN, successful lawyer, in love with Morgan's little girl, Iris, Iris, who had been married to Curtis Crawford, a family friend, who Morgan had been married to for three years.

For three months, she had been waiting for the day when she would see her husband again. She had been waiting for the day when she would see her husband again. She had been waiting for the day when she would see her husband again.

She was in the library, trying desperately to focus her mind on the Blackhall case, so that the waiting might not be so unbearably long when faint sounds told her that the operation was over and that the boy was to be taken to his room. She crept out, trembling so violently that each step was an effort.

"Is he—?" she heard her husband's almost unrecognizable voice croak.

"He's still alive. That's all I can say now." Dr. Black answered brusquely from behind the yellowish-muslin mask he wore.

The slow procession began the difficult negotiation of the stairs. Morgan and Iris, the latter sobbing convulsively, brought up their rear, and Nan sank into a little huddle in the hall, unnoticed until Maude O'Brien found her there and administered to her.

At 2 o'clock Dr. Drew went home, satisfied that the operation was "successful," but matter what its success, he had seen the nurse and the trained nurse in the ward.

"Please, Dr. Drew," Nan dared to step him at the front door. "Will he live?"

"Who are you?" the surgeon demanded curtly, regarding her with frosty blue eyes.

"I'm—Mr. Morgan's—wife," Nan brought out the words feebly.

"Then who is the beauty in green? I thought she was the boy's mother."

And so the desolate girl wandered from room to room, feeling more like that outcast spirit in "Tomlinson" of which Kipling writes: "The wind that blows between the worlds, it nipped her to the bone." In this hour a human being, "I" had an even chance.

His frosty eyes softened a bit at sight of her profound misery. "You look all in, child. Better go to bed. There's nothing you can do—nothing anyone except the nurse can do now."

Nan did not take his advice. Twice, before dawn, she crept to the door of Curtis' room, opened it noiselessly and peeped in. And both times she saw the father and mother kneeling at the bedside,

RAILROAD—

 operation from Amarillo to Fort Worth on the proposed route because of the shorter distance than through El Reno, Okla. Handling costs on a single car via the present route are \$28.95, he said but those costs could be cut to \$21.58 by the new line.
 Figures were introduced to show the average time required to handle cars via the present route are \$28.95, he said Worth via El Reno is three days.

"ROBIN"—

(Continued from Page 1)
 each flier. A parade will precede the luncheon.
 It was estimated the Robin flew 25,000 miles, using 3,500 gallons of gasoline and 158 gallons of oil. Forty-seven refueling contacts were made out of a 77 aggregate. The propeller on the orange-colored monoplane made approximately 32,000,000 revolutions. There was some gasoline left in the tanks and both tires were inflated. Jackson and O'Brine had been cautioned to watch for a ground loop if one tire was empty on landing.

CHICAGO GRAIN
 CHICAGO, July 31. (AP)—Wheat: 2 red 1.40@1.41; No. 4 northern spring 1.39. Corn: No. 4 mixed 1.03; No. 5 yellow 1.04 1-2.
 Oats: No. 2 white 50@ 3-4; No. 3, 48 1-2@50.
 Wheat closed strong, 3 to 4 1-2c above yesterday's finish, corn 2 to 3 5-8c up, oats 1 1-2 to 2c advanced, provisions unchanged to a rise of 30 cents.

GRAIN IS HIGHER
 CHICAGO, July 31. (AP)—Corn led a brisk upward swing of grain values today. Reports were current that owing to high temperatures coupled with excessively dry weather the Illinois corn crop is firing in spots. Word of better export business in North American wheat tended also to lift values.
 Opening unchanged to 2 1-8c higher, corn subsequently scored gains all around. Wheat started 1-2c off to 1-4c up, and subsequently made a sharp general upturn. Oats were firmer. Provisions also advanced.

KANSAS CITY LIVESTOCK
 KANSAS CITY, July 31. (AP)—Hogs: Receipts 10,000; fairly active, uneven, mostly 15@25c higher; top \$11.40 on choice 180 to 220 pounds; butchers, medium to choice 160 to 200 pounds \$10.65@11.40; packing sows \$8.35@9.65; stock pigs \$9.75@10.65.
 Cattle: Receipts 6,000; calves 1,000; very slow; killing classes tending lower; stockers and feeders unevenly lower; slaughter classes steady, good and choice—1,100@1,300—pounds—\$12.25@16.15; fed yearlings \$12.25@16.00; heifers, good and choice \$7.75@11.25; vealers (milk-fed) medium to choice \$8.00@13.50; stocker and feeder steers \$10.75@12.00.
 Sheep: Receipts 6,000; lambs steady to 25c higher; sheep steady; top Colorado lambs \$13.35; lambs \$12.25@13.35; ewes \$5.00@6.75.

MANY FOREST FIRES
 TORONTO, Ont., July 31. (AP)—With no sign of rain, seemingly the only remedy, the forest fire situation in Canada continued to grow more serious today. From the Atlantic to the Pacific, pall of black smoke lay over wide areas in every province. All available man power, fire fighting equipment and airplane auxiliaries were being pressed into service by dominion and provincial authorities.

C. J. Jackson, who has been seriously ill with typhoid for two weeks, is now improving, it was reported today at Pampa hospital, where he is a patient.
 Mrs. Burt Nipper of LeFors left Pampa hospital yesterday, after having a minor operation.

Serial Writer

(C.) Bachrach
ELEANOR EARLY

Eleanor Early, author of the widely acclaimed NEA serials "Oreoid" and "Whirlwind", has written a dramatic story of heartache and happiness, tragedy and triumph in her forthcoming serial, "The Shining Talent."
 This sparkling new serial, which starts in the Daily News soon, is the story of a beautiful young college graduate who found herself confronted with a choice between marriage and a career.
 The heroine sacrificed love for her

ambition and rose from the ranks of newspaper reporters to become a successful author and playwright. But in the hour of her final triumph she found life empty and achievement a cruel mockery.

Miss Early wrote the first chapters of "The Shining Talent" in Florida, where heroine of the story goes to write her play. Some of the other scenes are in Italy, where the heroine goes on a vacation after her play has become a Broadway success.

Miss Early herself had just returned from an extensive trip abroad before beginning the writing of "The Shining Talent." She had visited the Holy Land, Italy, France and England. A former newspaper woman, she has become a confirmed globe trotter.

Mrs. J. E. Ward and daughter, Mrs. E. D. Morris, returned yesterday from Albuquerque, N. M., where they visited their daughter and sister, Mrs. A. R. Hualson. They made the trip by motor and encountered much rain and mud.

Daily News' want-ads bring results.

A slight improvement was noted today in the condition of little Frances Ruth Cox, nineteen-month-old daughter of Mr. and Mrs. J. P. Cox. She has been seriously ill several days.

Mrs. W. F. Gordon, Jr. has been a Pampa hospital patient for treatment the last few days. Officials of the hospital today reported her condition improved.

George Gray is at Pampa hospital with typhoid fever. His condition was showing improvement today.

A slight improvement was noted today in the condition of A. M. Simmons, who has been seriously ill with typhoid or several days at Pampa hospital.

Mrs. Desmond Dean went to Claude yesterday afternoon to spend a few days with her parents.

Mr. and Mrs. Nolan Gross and daughter, Marjorie, and Green Wilks of Moore, Okla., are visiting Mr. and Mrs. V. A. Taylor and other relatives. Mr. Wilks is Mrs. Taylor's brother, and Mr. Gross is her nephew.

Mrs. G. G. King of Wellington, a patient at Pampa hospital, is recovering satisfactorily, after undergoing a major operation ten days ago.

the last week, today was showing some improvement.

Mrs. Charles Melligan of Nolette returned home yesterday, after having a major operation three weeks ago at Pampa hospital.
