Only Three Dogs Carry Licenses

Dog license No. 1, the first one to be issued in 1930, will be worn by "Panchito," English bull (white with two black spots) owned by Miss Ruby Wigham, city employe. No. 2 dog tag will adorn the neck of Mrs. F. W. Hiskey's "Bliss," white, black and brown Fox terrier. The third dog tag issued this year went to "Jimnie," Mrs. Joe Smith's white spitz.

And those three are the only ones that have been issued this year. Chief J. I. Downs says there are 300 tags now waiting for the dogs, both curs and pedigrees, of the community. Tag for a male costs \$3, for female, \$5. Dr. T. J. Worrell will vaccinate all dogs of the town against rabies, as he did the English bull, the terrier and the spitz, for \$2 each. Because all the licensed dogs in the town were vaccinated last year, there was not a single case of rabies reported.

**CLEVELAND WILL HAVE A NEW CITY MANAGER, CHOOSING A PROFESSIONAL POLITICIAN FOR THE POST.**

The old city manager had served six years. His ability dispatched state, was little questioned. His offense was that he refused to install the patronage system in selecting his employees. In other words, he refused to hire men because ward politicians asked him to do so.

If these facts are true, then he was true to the best traditions of city manager government. And his removal is likely to result in more trouble than Cleveland has known in years. The central idea in the city manager plan is that employees shall be chosen on their merits, and not on the recommendation of political bosses.

Political patronage in big cities is even more dangerous than in state circles. Sooner or later city officials who do the employing are told that unless they appoint certain men their jobs will be taken from them. And those "certain men" may be policemen, judges, etc., who can be "fixed" to protect illegal establishments of the wards. The patronage system puts such power in the hands of the lucky party, and such jealousy in the ranks of the party "on the outside looking in," that all kinds of abuses arise as a result.

When city manager government gets into politics good government is at stake. This is one reason why the system has thrived in cities where only one party exists, and that for nominal activity.

**TWINKLES**

Today we will consider a number of kicks. Number one is that we are reviled for not coming to the rescue of mistreated dogs. We are told that numerous canines have been compelled to stay out in the cold weather.

This is a serious matter, indeed. Just think, man's best friend has been locked out in the cold, cruel breezes. It should not be permitted. Dogs are important. They have to be licensed—and that is a requirement the state does not even require of a man's wife. But we are for fair treatment of all—dog licenses for dogs and poll taxes for the ladies.

Cruelty is getting too common. Paraphrasing, we might say that "man's inhumanity to man makes countless thousands yawn." We read of deaths and suffering without an extra heart throb. No wonder we have little human-

ity left to expend on dogs. Kick number two concerns our remark that you cannot tell whether a person has merely slipped on the icy walks or has been into something more serious when you see him or her disfigured. We thought this crack affected only one person, but we have learned that literally scores have been downed by the ice and "hit" by that remark. For which, of course, we are sorry—and amused. (We haven't slipped, yet.)

The third kick comes from the girls who play basketball at Central high school. It seems that we referred to them as "Harvesters' sisters", and they claim the honors in their own right, not wishing to bask in reflected glory. Our only defense is that we have personally seen to it that the girls got credit for their fine playing this season. But we plead immunity from the dire punishment with which we are threatened. If you call them girls in the first two sentences of a write-up, what are you going to call them in the third sentence, and the fourth, fifth, sixth, and seventh? One word gets monotonous. We need synonyms, and the English language provides such words as young ladies, sisters, damsels, and the like—few of which, it appears, are acceptable to the sextet.

Well, the team needs a name. If Harvesters play for the school on the boys' side, what would you call the girls? Now in actual life, while the boys are out harvesting the girls are cooking to satisfy ravenous appetites. But you couldn't call the Central girls Cooks, now could you? We think it is time to provide the girls with an appropriate title and this scribe with some approved synonyms.

The other kicks had better be delivered in person, rather than in print. This must be another local kick-the-editor week.

**ABOUT FOLKS**  
 (BY SLIM)

The first arrival in the sheriff's office in the morning is, of course, Deputy C. E. "Tiny" Pipes, or Jailer Herman Wachtendorf, Deputy Jeff Guthrie and frequently Sheriff E. S. Graves. Then one by one the Unofficial Office Deputies arrive on schedule time. The first one of them to appear on the scene is the newspaperman who insists that the office of county sheriff was created especially for the benefit of newspapers; to furnish news. Of course, it's an irrelevant trifle that the Unofficial Deputies insist that the newspaperman never gets anything right in the paper; it's their business to say that, and anyway they're supposed to cuss the newspaper.

After 8:30 a. m., it's a neck-and-neck race between C. C. Ragland and A. G. Brandon to see which can reach the office first. A few minutes after Mr. Ragland has shed his overcoat, Supt. John Hessey, another of the

half-dozen unofficial office sergeants, is due. Seldom is he late.

Along about 9 o'clock, the sheriff comes in with the mail. That is a sign for Tiny to vacate the desk chair and for the newspaperman to get off the desk. By the time the sheriff has finished with about half of the mail, or he may be finished with the mail and on page nine of the Amarillo News—just about that time, L. G. Stanton—if something has not gone wrong—should be in from his farm. If he's very late, the rest raise Cain with him for being late. Not a daily but a frequent visitor is Sam Anderson.

When the mail is read, the paper finished, when the sheriff has answered in the negative the newspaper's query, "Are you going to pour out that \$45,000 worth of liquor today?" then the office force settles down to a day of conversation, comment and repartee.

Long in the afternoon about 5 o'clock, A. J. Davis, special officer for the Santa Fe ought to show up. That's about the time the rest leave, but the public can depend on seeing at least two there any time during the day. Right now plans are under way to organize the Unofficial Office Deputies club, but just a word about them before we give a list of the charter members.

Leaving out the rather scurrilous newshound who would do almost anything for a good story, the proposed

charter members have a sense of humor—old-fashioned western humor, not movie and Broadway humor; they know what is significant in life; they hold that loyalty is great among virtues; they appreciate the meaning of friendship. They are frank, slow to criticize, quick to approve. They make the sheriff's office one of the most interesting places in town.

Now a word about the members of the proposed club. All were born on the farm. Most of them, with the exception of the newspaperman and Brother Hessey, are pretty well hooked up. Brother Brandon came from Louisiana to Gray county about ten years ago. Brother Ragland has been here about 20 years. Mr. Stanton, who leaves the office about noon, lives on a farm near Pampa. He still makes the best sausage and lard in Gray county, the sheriff says. The three bachelors are Ragland, Brandon, and the newspaperman.

P. E. Goodman, employe of the Midwest Exploration company, who has been in the Pampa field since last September, is to leave today for a week's visit with his family at Russell, Kans.

Dr. and Mrs. A. R. Sawyer have returned from Rochester, Minn., where Dr. Sawyer went through the Mayo clinic.

Mrs. I. B. Hughey returned home yesterday afternoon, after spending a month in Chicago with her daughter, Miss Fern, who is a student in Northwestern university.

Thrift Week Observance Begins On Benjamin Franklin's Birthday

Thrift week, one of the most important observances recommended to Parent-Teacher associations in the calendar of the National Congress of Parents and Teachers, begins Friday, Jan. 17, on the birthday of Benjamin Franklin, that great apostle of industry and economy whose name has come to be synonymous with thrift.

Throughout the schools of the city the week will be observed with the reading of appropriate material and the writing of essays and compositions on the subject of thrift. Steps are going forward for the establishment of a local students' saving account, with a local company to handle the funds, according to announcement from Supt. R. B. Fisher, and it is expected that plans will be definitely complete before the close of thrift week.

Baker Parent-Teacher association will have a special program, including numbers by members of the organization and pupils of Baker school, at the monthly meeting to be held at 2:30 o'clock tomorrow afternoon. Mrs. J. H. Blythe, president, has extended a cordial invitation to the public and has urged that all parents of children in Baker school be present for the program.

Thrift education, as defined in the program recommended by the National and recently adopted by the board of managers of the Texas Congress of Mothers and Parent-Teacher associations, is not concerned solely with insistence upon the wisdom of saving money, but in its broader sense as it affects all other phases of existence. Obsolete education stagnates etoain etao jettives of the active program of thrift education in home and school are given as follows, by Mrs. Ella Caruthers Porter of Dallas, national thrift chairman: Family budget; time budget; school savings bank; thrift in citizenship; conservation of health, talents, materials, and energy.

Said Mrs. Caruthers in the pamphlet issued by her committee this year: "We no longer define thrift as a matter of saving money but as a great educational force which is imperative to success and happiness. In the past

we have been inclined to think of thrift only in terms of money-making and money-saving. But money is merely the symbol of wealth, and its true value is to be measured only by the power it contributes as a constructive force in human welfare. Money saving is only one member of the thrift family. There are many others equally important. The education of the child in thrift should point out how to earn, how to save, how to invest, how to give, and how to spend money; how wasted time may be used for profit and pleasure; how misused energy may be salvaged for personal and community uplift; how health and moral cleanliness make strong bodies and healthy minds; how the resources of our country—trees, fuel, and water—may be conserved; how waste materials may be conserved to constructive uses.

Woman Arrested After "Wild West" Career Is Halted

PHOENIX, Ariz., Jan. 15. (P)—Climaxing a "wild west" career punctuated by a kidnaping and two gun fights, Mrs. Irene Schroeder of Benwood, W. Va., and two men believed to be Joe F. Wells, Texas ex-convict, and M. Glen Dague, husband of Mrs. Schroeder were in jail here today.

The trio had been the object of a nation-wide search since the slaying last December of Corporal Brady Paul of the Pennsylvania state highway police and the wounding of private Ernest Moore, near Newcastle, Pa.

They were surrounded and captured by a posse in the mountains near Laveen, Ariz., after they had barricaded themselves behind rocks and fired upon the searchers. No one was hurt in the battle and the beleaguered fugitives surrendered when a horseman, upon whom they first had opened fire, obtained re-inforcements from a posse.

The chase started Monday night, when Deputy Sheriff Joe Chapman was kidnaped from Florence, Ariz., as he attempted to arrest Mrs. Schroeder after she had refused to produce ownership papers for a car.

Chapman was forced into the automobile by the two men, whom he had not seen when he approached the woman. The car sped away to Chandler, Ariz., where Deputy Sheriff Lee Wright was shot as he and other officers attempted to halt it. Chapman, apparently shot by his captors during the ride, was thrown out.

Belief that one of the arrested men

# TOM ZACHARY HURLING CHAMP OF AMERICAN

CHICAGO, Jan. 15. (AP)—Bob Grove of the Philadelphia Athletics' southpaw was acclaimed the leading pitcher of the American league in 1929, but old Tom Zachary, rounding out 10 years of major league service, was the mathematical champion, according to official figures.

Zachary, working for the New York Yankees, after terms with Washington and St. Louis, won an even dozen victories and was undefeated during the campaign. His earned run average, 2.47 per nine innings, also was best.

Zachary, however, worked in but 120 innings, while Grove pitched 275, winning 20 and losing but six games. His earned run average was 2.52, second only to Zachary. Grove also was the strikeout champion with 170, giving him the title for a second year. Eddie Rommel, another Philadelphia hurler, won 12 games and lost two, being employed mostly as a relief hurler.

Other leaders were: Fred Marberry, Washington, 19 won, 12 lost, earned run average 3.06; Alphonse Earnshaw, Philadelphia, 24 won, 8 lost, earned run average, 3.28; Willis Huddin, Cleveland, 17 won, 15 lost, earned run average 3.34; J. Walter Miller, Cleveland, 14 won, 12 lost, earned run average 3.58; George Walberg, Philadelphia, 18 won, 11 lost, earned run average 3.59; Wesley Ferral, Cleveland, 21 won, 10 lost, earned run average 3.59.

Sam Gray of St. Louis put in the greatest number of innings, 305, and completed 23 of his 43 games. Thomas of Chicago, pitched 23 full games out of 36.

American league pitchers did not turn in a single no-hit game, but Urban Faber of Chicago, Walberg of Philadelphia, and Edwin Wells and George Piygas of the Yankees, each pitched a one-hit contest.

Zachary's 12 straight was the best run, while Charlie Ruffing of Boston, made the same record in reverse, losing 12 in a row.

# SHUTE TAKES FIRST MONEY IN GOLF MEET

LOS ANGELES, Jan. 15. (AP)—Dennis Shute, who boasts of only two years in the ranks of professionals, today took his place among champions as the king of the Los Angeles \$10,000 open golf tournament.

The 24-year-old Ohioan yesterday trounced from the final rain-soaked green with \$3,500 first place money. Almost flawless play under trying conditions turned the trick.

A steady game enabled Shute to carve out a 73-74-75-74 record for the four rounds—a 296 total.

Next came Horton Smith and "Wee" Bobby Cruikshank of the Atlantic seaboard, tied with scores of 300. In fourth place finished the veteran, Al Espinosa, Chicago, seven strokes behind the leader with 303, while Tommy Armour, Detroit, placed with 305.

# POLO WILL BE MORE POPULAR IN THIS YEAR

**By F. S. O'REILLY**  
Secretary, United States Polo Association

NEW YORK, Jan. 15. (AP)—This is distinctly an international year for polo in America, with the prospect that it may be the most-interesting we have known.

J. J. Astor, acting as chairman of the Hurlingham polo committee, the governing body of polo in British dominions, has fired the gun which will eventually be heard around the world in the form of a challenge for the famous international polo cup, serious preparations for which have evidently been under way for some time.

The series, consisting of the best two out of three games, will be played early in September at Meadow Brook and will be the outstanding event of the year. Interest is world-wide in this event. It will draw spectators from all of the polo playing countries of the world. Many reservations already have been made.

International polo competition has steadily developed. At the present time we have an Argentine team in California for participation in the winter tournaments there, one member of which is the famous Manuel Andradra, well known in this country as a spare man on the 1928 team. They have one of the finest pony studs which has ever left that country, and it traveled for 42 days in its ocean journey to Los Angeles.

An excellent Australian team is planning to take a similar long journey to compete in the English tournaments this year and will undoubtedly come here to witness our international series.

While the organization of the American team to defend the historic international cup against Britain is not yet far advanced, Thomas Hitchcock, Jr., will, of course, captain the American side again. There is no one on the horizon likely to dethrone Mr. Hitchcock from his top position in the handicap rating this year, although the development of such young stars as Winston Guest has been remarkable. Not in years has there been so many responsibilities as to the formation of another big four.

**AUDIT—**  
(Continued from page 1.)

district No. 4, interest and sinking fund, the Dec. 31, 1929, balance was \$455.61 (overdraft), while the balance Jan. 1, 1929, was \$455.00. Receipts amounted to \$2,896.00 and disbursements to \$14,897.21.

"We find that approximately \$6,000 of the road and bridge refunding warrants were not used," Mr. Wilson states in the annual audit, "and so respectfully suggest that they be cancelled in order that the sinking fund requirement on this issue will be lowered and a saving of interest be effected."

**Road Issue Disappoints**  
"The road district No. 2 bond issue has, of course, proved a disappointment, and while there is yet a possibility of aid to match the remainder of this issue, several miles of expensive grade, a very few miles of paving, and insufficient funds to complete important portions of the original program affords convincing evidence that the precinct alone can not build such roads to advantage. Road district No. 4 having secured aid in its project, will receive more paving for the money involved, but this district must be heavily taxed to meet the interest and sinking fund requirements. It is to be hoped that at some time in the near future, favorable designations may carry a county-wide issue which will take up the outstanding bonds against the individual precincts and create with state and possibly federal aid, a system of hard surfaced roads that will serve the entire county."

In the courthouse and jail special fund, the sale of warrants during the previous year totaled \$268,698.85, the disbursements, \$246,365.41 and the balance Dec. 31, 1929, was \$22,555.08. The balance in warrants on hand amounts to \$69,000. Disbursements in this fund included the following:

Paving, \$4,778.49; lighting contractor, \$1,957.50; architect, \$4,706.60; plumbing architect, \$16,437.60; notice to bidders, \$12.60; site, \$24,405.16; general contractor, \$189,750.46; legal service, \$250; transfer, \$4,067.

**Courthouse Cost Uncertain**  
Of the courthouse, Mr. Wilson says, "At the present time it is impossible to determine the exact cost of the courthouse and jail now under construction. However, there is no doubt that final cost will exceed by several thousand dollars the estimates. There will be enough money realized from the 15c courthouse and jail levy to care for all outstanding warrants registered against this fund, and still leave a considerable sum to finish the new building. With present or increased valuation, a material reduction in the tax rate for this fund may reasonably be expected for the year 1930."

**General Fund Too Small**  
"And now I wish to call attention to the general fund. The framers of the state constitution, in their wisdom, saw fit to limit the tax levy for general county purposes to 25c. This rate, at that time, was doubtlessly sufficient for the day. However, succeeding legislatures have from time to time created new offices with salaries payable from this fund and in various ways charged the counties with additional expenses that cannot be paid out of other funds. These increases together with the general increase in cost of practically every commodity, the equipment necessary to make and care for ever-increasing records of growing counties, and in short, the higher overhead expenses that modern demands and methods have brought to all business concerns and institutions, have naturally raised the charges against the general fund but out of all proportion to the revenue credited to it."

"Reports from other counties indicate that this condition, instead of being local in character, extend to almost every county in the state. Inasmuch as the public has always shown marked opposition to the constitutional amendments, it is hardly probable that relief will be secured through this

channel. In view of the ever-increasing interest shown in this matter, it is probable that the legislature will be asked to enact laws affording some relief in this respect.

**Need More Economy**  
"At present, ex-officio salaries, some fees and numerous other expenditures are left largely to the discretion of the commissioners' court, and I would respectfully urge that such matters receive close attention and that new claims and demands be viewed with disapproval until such time as it may be clearly shown that such claims and demands possess value sufficient to justify further indebtedness in a fund already overburdened."

"The usual routine of business together with construction of the courthouse and jail and the various road programs have made heavy demands on the members of this court. With the wide experience gained in the year 1929 and with the same harmony that has prevailed, I am confident that the close of 1930 will find the financial affairs of Gray county in such condition that they may be favorably compared with those of any county in this section of the state."

The jury fund shows no overdraft but a balance on Dec. 31, 1929, of \$9,685.44. Disbursements totaled \$16,828.54, and receipts, \$22,858.70. The balance Jan. 1, 1929, was \$3,655.28. In 1929, a total of \$2,448 was paid out to grand juries, \$7,005 to petit juries, \$388.00 to special jurors, \$1,405 to bailiffs and \$502.20 for meals. The above included expenses of the district court. In the county court, petit juries were paid \$879. A total of \$3,624.27 was transferred from the jury fund.

The road and bridge fund showed a balance Dec. 31 of \$2,516.38, with receipts totaling \$29,069.64, and disbursements, \$25,217.28. There was a balance of \$1,336 (overdraft) in this fund Jan. 1, 1929.

The Dec. 31, 1929, balance in the road and bridge fund was \$2,079.49. Receipts totaled \$11,828.94, and disbursements, \$9,028.34. On Jan. 1, 1929, there was an overdraft of \$721.11 in this fund.

The Dec. 31, 1929, balance in road and bridge fund No. 3 was \$2,696.41; receipts totaled \$11,414.80; disbursements, \$8,281.62. The balance Jan. 1, 1929, was \$436.86 (overdraft).

**Fund Discontinued**  
The highway fund was discontinued at the end of the year. Road bond No. 2 bond fund shows that \$100,000 of road district No. 2 bonds are still held by the Brown-Crummer Investment company to be delivered upon estimates of the engineer as work progresses.

Road No. 4 bond fund shows receipts of \$11,490.11, disbursements of \$15,458.74, and a balance Dec. 31, 1929, of \$4,684.44, while \$108,063.48 of No. 4 bonds are still held by Brown-Crummer company to be delivered upon estimates of the engineer as work progresses.

Road district No. 2 interest and sinking fund receipts totaled \$64,757.85, disbursements \$53,725, and balance Dec. 31, 1929, \$11,781.61. The balance Jan. 1, 1929, in this fund was \$748.16.

A statement of bond and warrant indebtedness of Gray county road districts shows the following bonds and warrants: No. 2 bond, full issue, \$400,000; retired, \$10,000; outstanding \$390,000.

No. 4 bonds, series A, full issue, \$100,000; retired, \$1,000; outstanding, \$99,000.

No. 4 bonds, series B, full issue, \$150,000; outstanding \$150,000.

Courthouse and jail warrants, full issue, \$350,000, outstanding, \$350,000.
