Oklahoma County Attorney Takes Stand to Deny Accusations Placed Against Him in Conspiracy Trial

OKLAHOMA CITY, Feb. 8. (AP)—Matching his own veracity and reputation against his accusers, Randall Pitman, county attorney of Pottawatomie county, today denied in federal court all evidence tending to connect him with a liquor monopoly and conspiracy charged by the government.

Only the defense of Frank Fox, former sheriff, who with Pitman and fifteen others are the only defendants remaining on trial out of the 102 originally indicted on the conspiracy charge, is left to be presented after the conclusion of Pitman's next week.

Pitman was on the witness stand when the week-end recess came. He had not completed his direct examination in which he was being questioned concerning the references made to him by government witnesses in their stories of a far-reaching liquor "line" that received protection of city and county officers through payment of a stipulated weekly tribute.

Testimony has been given that these "assessments" ranged from \$5 to \$50, depending upon the scope of the individual operator's activities.

The Pottawatomie county prosecutor emphatically denied that he ever had engaged in the conversations and transactions attributed to him.

Roy (Skinny) Grace, a self-confessed "collector" for the liquor monopoly who pleaded guilty to conspiracy charges

and became a government witness, has testified that Pitman on one occasion discussed with him and Oscar Motley, a deputy sheriff, now dead, a proposal for placing Marion Fuller in charge of the "lines" operating at Saint Louis, oil town, and on another occasion told him and Motley that Elza Evans would "take care of" Maud another oil town, where Evans was chief of police.

Pitman asserted he knew nothing of either of the conversations and added that he never had conferred at any time with Grace or Motley. He told of his office having prosecuted Grace on a peace disturbing charge.

Fuller, formerly chief of police of Earlboro, mushroom city town in which the purported liquor conspiracy was alleged to have had its most flourishing hold, died on the eve of the present trial. He was to have been an important government witness, federal authorities said. Evans gained his freedom this week on a demerit.

Pitman testified he did not know Ruth Morgan May until she came here to testify. She was a defendant who pleaded guilty and testified for the prosecution that she saw Motley, with whom she admitted having lived at Earlboro, pay Pitman \$180 in the Rose hotel at Earlboro early in 1927. The money, she said, represented a share of the protection collections from liquor purveyors.

"I never was in the Rose hotel in Earlboro and Motley never at any time made any payment of money to me," the prosecutor-defendant told the jury.

Federal Board Is Attacked As Failure

DALLAS, Feb. 8. (AP)—An attack on the Federal Farm Board for limiting its operations to marketing associations with a "past" and the declaration that its policy had collapsed were made here today by C. P. Norman of Kaufman, president of the Farmers Marketing Association of America, who conferred with the board of directors.

"The policy of the federal farm board for cotton has collapsed," Norman said. "Cotton is now selling for about 8¢ per bale below the farm board's loan value. Furthermore, the board seems determined to limit its operations to a certain group of marketing associations which have a notorious past record for high cost of handling and bad management and speculation in cotton futures."

W. J. Morton of Dumas was elected President; Ed Davidson, Boise City, secretary. Representatives of every town along the route attended. They plan to secure the 100-foot right-of-way and sponsor bond issues to build the highway as soon as the Santa Fe may be given permission by the Interstate Commerce Commission to construct the new railroad.

Highway Body Is Formed at Dumas

DUMAS, Feb. 8. (AP)—The Texas, Oklahoma and Colorado Highway association was organized here today to promote construction of a paved highway from Amarillo to Las Animas, Colorado. BUILT TO OUT-PERFORM

... the vital reason why BUICK out-sells every other fine car by 2 to 1

Keep in mind, when you buy your car, that you are buying miles—and that you will get more and better miles in a Buick, as more than 2,400,000 owners have proved.

Buick builds so thoroughly—builds such extra strength and stamina into the Buick Valve-in-Head engine and solid chassis—that many Buicks, five, ten or fifteen years of age, are still in service... and the speedometers of many of these cars register 100,000 miles and more.

Buick is built to out-perform. This, together with the beauty and comfort of Buick's Bodies by Fisher, explains why America is driving 700,000 more Buicks than any other car in Buick's price class... and why Buick today wins from five to five times as many buyers as any other car priced above \$200. Come, see Buick's wide range of body types. Turn to the wheel! A single drive will convince you that Buick is the big motor car value of the day.

Buick offers 15 body types, priced from \$1225 to \$3075. f. o. b. factory. Marquette offers 6 body types, ranging from \$990 to \$1060. Special equipment extra.

Convenient terms can be arranged on the liberal G. M. A. C. time payment plan. Buick and Marquette delivered prices include only optional factory charges for delivery and financing. Consider the delivered price as well as the list price when comparing automobiles.

Emergency Government Step May Be Taken to Help Wheat Prices

WASHINGTON, Feb. 8. (AP)—The farm board will be facing the ultimate emergency anticipated by the agricultural marketing act when it meets Monday to approve or deny the national wheat advisory committee's request for a stabilization corporation.

The committee's recommendations were before the board's legal staff tonight. If the board agrees the market situation is past improvement thru normal operations such have been undertaken by the Farmers' National Grain corporation, then the way is clear for the emergency measure—authorization of a stabilization corporation to function entirely on government funds and at government risk.

As interpreted by Chairman Legge, the emergency operation would consist of buying and taking off the market some considerable part of the tonnage so as to relieve the pressure, and carrying the product until some future date in the hope that there would be a more favorable opportunity to dispose of it.

If the final result of such operation showed a loss of deficit, Legge said such loss would be borne by the \$500,000 revolving fund provided by the agricultural marketing act.

Demand for the act's most drastic measure came within three months after the \$10,000,000 Farmers' National Grain corporation, directed in policy and financed by the federal farm board, set out to control a sufficiently large percentage of the American wheat crop to give it a bargaining power.

The board advanced it \$5,000,000 and the corporation guaranteed cooperatives \$1.8 a bushel on No. 1 hard winter wheat at Chicago. Other guarantees varying a few cents a bushel were offered on eight other terminal markets.

A series of conflicting circumstances immediately confronted the corporation. The world carryover of wheat was 200,000 bushels larger than the year before, but the world production was 530,000,000 bushels less and the exports from surplus-producing countries have been 100,000,000 bushels less, to date, than last year.

In all, the world supply of wheat now is estimated at from 150,000,000 to 175,000,000 bushels less than the unusually large stocks of a year ago.

On January 1 the Argentine crop, estimated in Buenos Aires at 139,000,000 bushels and undershooting American wheat, started moving into export channels. With the Canadian wheat pool holding more than 200,000,000 bushels for better prices, France and Italy fairly well supplied, and Great Britain capable of consum-

ing 70,000,000 to 80,000,000 bushels of the Argentine crop, it became apparent to some authorities that the world demand would be well supplied for the three months intervening before the 1930 harvest starts in the United States.

Sheppard Probes Hay Controversy

SAN ANTONIO, Feb. 8. (AP)—Senator Morris Sheppard telegraphed Mueller Huber Grain company, San Antonio Saturday, that the quartermaster general of the United States army has promised personally to investigate claims of the South Texas contractors that South Texas prairie hay is being discriminated against by the army veterinary officers at Fort Sam Houston.

A large quantity of South Texas hay has been refused by the army officers, they stated, because it did not have 35-per-cent green color as required by specifications of the United States department of agriculture for grade No. 2 hay for army use.

Contractors selling South Texas hay to the army contend the machine used by the department of agriculture in Washington for measuring the color of hay is inaccurate, and that the Texas No. 3 grade has more food value than the No. 1 grade from a neighboring state which is passing inspection.

DALLAS BOY IS HEAD OF TEXAS CONFERENCE

WACO, Feb. 8. (AP)—George Duncan of Dallas was elected president of the annual state older boys' conference here Saturday, to succeed Jack McNutt, of Corsicana. Other officers elected were: Dick Saunders, Sherman, vice-president, and Howard Barker, Dallas, secretary-treasurer.

Saturday night the conference held its annual banquet with more than 600 present. In the afternoon election of officers, the delegates laid aside business and went for a ride over the city and attended boxing matches staged by members of Waco H-Y club.

Sunday morning the delegates will continue discussions of the selecting of veterans. Adjournment will come at noon. The conference is held under the auspices of Y. M. C. A. and church organizations of Texas and it has been in session since Friday.

New Lindbergh Ship Is Shown

LOS ANGELES, Feb. 8. (AP)—Col. Charles A. Lindbergh temporarily discontinuing his elder experiments in the mountains, today turned to testing his new Lockheed Sirius, low wing monoplane, for a department of commerce license for the first ship.

Announcing that his glider camp near Lebec would be abandoned, Lindbergh disclosed that late this afternoon from the air he will seek new hills on the seashore, near Los Angeles or San Diego, where he can obtain steady winds for further powerless plane operations.

Speed tests, full and half load tests, stalling and banking tests for determining stability and landing tests, kept Lindbergh up in the air, or diving down to earth for several hours. Starting out in his black bullet shaped speed plane shortly before noon, two hours later Colonel Lindbergh still was demonstrating his craft to inspectors for the aeronautic branch of the department of commerce.

An unofficial speed of 180 to 185 miles per hour was clocked for the ship as Lindbergh roared it over a measured mile course.

Claim Ohio Man Is Unfit Appointee

WASHINGTON, Feb. 8. (AP)—Charges that Thad Brown of Ohio was "rushed through" as general counsel for the federal radio commission after he was suggested by Lawrence Richey, one of President Hoover's secretaries, were made today before the senate interstate commerce committee.

Senator Wheeler, Democrat, Montana, said Brown was "unqualified" and "one of the biggest politicians in his home state."

The statements were in connection with questioning of Commissioner Saltzman, who said he and two other commission members pushed the appointment over the protest of Chairman Robinson and Commissioner Sykes.

The committee closed extensive hearings on the Couzens bill, which would establish a single federal commission to control all interstate communications companies, with the spirited session involving affairs of the radio commission. In executive session the committee hopes to complete drafting on the bill within two weeks.

New yet sixteen years old!

GENERAL MOTORS' lowest-priced eight

\$1045 AND UP superior performance

The development of the New Oakland Eight in reality goes back sixteen years. Several of the engineers responsible for its design participated in the production of General Motors' first eight, in 1914. Their extensive knowledge of eight-cylinder engines has resulted in a car of remarkably sound basic design, as well as one which has many advanced features. Its 85-horsepower engine develops one horsepower for every 37 pounds of car weight. This explains why few cars are as fast—why few, if any, can climb hills so quickly or accelerate so swiftly in traffic. Those who have driven it know how well it merits the description, "the car with superior performance." (The New Oakland's power plant is also exceptionally smooth. Its inherent eight-cylinder smoothness has been increased by a complete down-draft fuel system—new type cylinder heads insuring uniform combustion—laminated steel spring and rubber engine mountings. Considering its superior performance, exceptional smoothness and the beauty of its new Fisher bodies, the New Oakland Eight is very moderately priced. Thus many who have wanted to own a fine eight-cylinder automobile will find it a car of unusual appeal. Come in and drive it today.

PRODUCT OF GENERAL MOTORS

The New Oakland Eight, \$1045 and up, F.O.B. Pontiac, Michigan, plus delivery charges. Loveloy Hydraulic Shock Absorbers included in list price. Bumpers, rear fender guards and spring covers extra. General Motors Time Payment Plan available at minimum rate.

WILL SERVE YOU BETTER

Being directly convertible into heat, power or light, and light of such a nature as to afford 24-hour-a-day dependability, gas will serve you better.

We are convinced that gas will soon be as universally employed for heating as for cooking. Our conviction is based on the knowledge that gas is the cleanest and most economical of fuels. Gas has already proved itself. Are you enjoying the advantages?

How to Save Fuel

There are certain cooking rules, apparently unimportant in themselves, which if remembered can be counted on to reduce your fuel bill appreciably. Here they are:

Don't use a giant burner when a small one will do.

Don't use a large cooking utensil when a smaller one will serve just as well.

Don't heat a kettleful of water when you need a cupful.

Don't boil foods violently—they don't cook any faster, and violent boiling consumes about nine times as much fuel as gentle boiling.

Keep the lids on your utensils—it takes about five times as much fuel to keep the pot boiling without a lid.

Turn off the burner the moment you are through with it.

southeast corner of the section. It is 15 miles southeast of the Finley-Brown pool. The discovery topped a granite wash pay at 3,070-75 feet and came in making 10,000,000 feet of gas and spraying 5 barrels of oil per day. Successive deepenings increased the pay. This well opens up several square miles to production, and other tests are now being drilled on nearby acreage, seeking the same pay as found in this discovery. Although the discovery is not heavy in production, other wells in the area may prove the pool similar to the other large producing pools to the north and northeast. Guernsey Oil company's No. 1 Vaniman, section 175, block 3, made an initial production of 60 barrels on the swab at 3,219 feet. Operators Oil company's No. 3 Bowers, a gasser, section 120, block B-2, was completed for fifteen million feet of gas at 2,819 feet. Shamrock Oil and Gas company's No. 3 Lincoln-Saunders, section 3, block 1, made an initial production of 75 barrels on the pump at 2,587 feet. Proration in the restricted area, that is the Marland-Finley and the Bowers pools, is 35 per cent of the potential production. During January it was 35 per cent. The Humble and Texas companies are prorating 65 per cent outside the restricted area and 45 per cent in the area. Wells and their production compared with the previous week follows: Carson—195 wells, producing 9,437 barrels, an increase of 1,290 barrels. Gray—613 wells, producing 56,308 barrels, an increase of 1,318 barrels. Hutchinson—974 wells, producing 24,838 barrels, an increase of 1,809 barrels. Moore—19 wells producing 500 barrels a decrease of 83 barrels. Wheeler—38 wells, producing 769 barrels, an increase of 216 barrels. Total production, 91,512 barrels, an increase of 3,889 barrels.

CANADIANS BEAT OUT AMERICANS IN SPRINTS

NEW YORK, Feb. 8. (AP)—Two crack Canadian sprinters finished one two against a start collection of American speedsters, including Jack Elder and Cy Leland, the sprinting halfbacks, in the Millrose A. A. games tonight, but the United States earned its share of international glory, thanks to Fred Veit, former New York university half miler and Paul Rekers of Penn State college.

Veit trimmed Dr. Paul Martin of Switzerland, veteran of three Olympic games, in a thrilling half mile finish and Rekers out sprinted the Polish conqueror of Paavo Nurmi, Stanislav Petkiewicz, in the two-mile race and out event.

KILLS WIFE AND DIES

ST. LOUIS, Feb. 8. (AP)—While his six year-old daughter Marjorie looked on, Fred Redding, 43, late today slashed his estranged wife with a pocket knife, then swallowed poison, which caused his death a short time later. Mrs. Redding, 36, is in a critical condition. Redding was released only recently as a mental patient at the city sanitarium.

Smaller paper money is being urged for Italy, graduated in size according to value.

"Tex" Tom Buster, of "Tom's Cot House" south Pampa, says that. "So many candidates coming out for the different offices has put the 'Political Bees' after me so much that I can't longer resist the temptation to run for something but at present time I do not know just where I can best serve my country. I think it will either be Public Weigher, Constable, or high Sheriff, as I was pretty strongly solicited to run for sheriff two years ago, my inclinations naturally run that way. I never have been much for politics, although I have done work on Tax Rolls, served Floyd county as commissioner for one term. I am 57 years old, of old Texan stock, and a Sam Houston Democrat to the core. If I am elected to the office to which I aspire, I will discharge my duties in a fearless way and live up to my motto, 'Equal Rights to All and Special Privileges to None.' I will carry on a clean campaign, free from any differences that might exist in County Politics." His name will possibly appear with his full announcement in the near future. (ADV)

FIRST METHODIST CHURCH Sunday school 9:45. Last Sunday was considered the banner day for the year thus far. We are expecting to make this Sunday a record breaker in all departments: The pastor will speak at both the morning and evening services. Morning theme: "The Source of Power." This message will deal directly with international relationship and understanding. The evening services will be in keeping with our National 20th Anniversary of Boy Scouts of America: Theme to be discussed: "A Father's Best Gift to His Son." Another feature of the evening service will be an illustrative "sing-song" service under the direction of the pastor. You are welcome to all our services. The church where you feel at home.

PRESBYTERIAN CHURCH "Get God's sunshine into your heart; It will cheer you all the day. Drive the gloom of life away. If you get God's sunshine into your heart." The world can appreciate Pollyanna Christians. Come and enjoy the service if you have the spirit of worship in your heart. Five services today: Sunday school, 10 a. m. "Stand-by and By-standers," 11 a. m. Junior Endeavor, 3 p. m.

Secret training—though practicing is barred—is reported to be under way here in the ranks of Lions and Rotarians. The two clubs, rivals in many cases, will battle for athletic honors tomorrow evening in Central gymnasium. According to Dick (Call Me Even Greater Than Shires) Hughes, mentor for the Rotarians, the odds are heavily on his team. But H. Otto (Also Great) Studer of the Lions squad claims that the odds are even up and no money in sight.

The Lions are banking strongly on the return of Clyde Stuckey from Wichita Falls. Clyde is reported to be reaching for Luckies and trying to get in trim to guard that feared Rotary combination of Brown & Buckler. The latter pair, who performed alleged miracles on the Court of St. James in England, will be closely watched.

The Rotarians purportedly are preparing to bottle up Lion Lemuel Bone, while the Lions are trying to arrange with Lion Fisher to schedule a Harvester game Monday to take Rotarian Odus Mitchell out of the city. The first game will start at 7:30 p. m. in Central gymnasium. The second, in which the Rotarians will name the Lions team and vice versa, will follow shortly thereafter. Dr. H. H. Hicks, a new Lion, is reported to be planning an athletic event between the games, but no announcement has been made as to which Rotarian will have free dental work at that time.

And meanwhile, the pep squads, augmented by ladies supporting the two groups, are rumored to be practicing secretly and assembling certain over-ripe vegetables. Proceeds of the game will be given the Guerrillas, second string high school football team, for a sweater fund.

WON'T WAIT FOR BIRD CHICAGO, Feb. 8. (AP)—Three of the four carrier pigeons John Preuss, 48, took with him when he left Chicago almost two years ago to scout the Canadian north woods, came home with messages for Mrs. Preuss, but there will be no necessity for him to launch the fourth bird, she said in applying for a divorce today. It had been two years since pigeon No. 3 arrived and she was tired of waiting for number 4.

The old chamber was crowded, even to the judge's dias, during the two weeks required for the selection of a jury, the introduction of witnesses and the arguments. Dozens of persons, many of them prominent in the state's political and legal circles, testified. The prosecution theory was that Brady jealously killed the girl because he thought she was leaving him for younger men; the defense admitting the slaying, insisted that years of over-indulgence in bootleg liquor had wrecked him physically, had destroyed a once great mind, had led him to begin and continue—though his wife knew of it—an affair with Miss Highsmith and finally to stab to death the woman he loved.

Patrolman Daniel Carrol saw Anthony Randazzo, 23, hanging out of a lower floor window, unconscious. Inside the house he found Randazzo's brother, Giuseppe, 31, and Joseph Jenna, 26, dead. He turned off the two jets of the gas range from which the fumes were escaping.

CHEVROLET FIRM TO OCCUPY NEW BUILDING MONDAY

NEW PLANT IS
ONE OF FINEST
OF PANHANDLE

One of Pampa's most beautiful automobile buildings will be occupied tomorrow when the Culberson-Smalling Chevrolet company moves to the new "home" at the intersection of Francis and Ballard streets.

Erected at a cost of approximately \$40,000, the two-story structure is a

fine addition to "auto row" and takes rank among the best automobile dealer buildings in West Texas. Its exterior of cream brick, white stone, and red tile is very pleasing.

The front portion of the building contains two show rooms, separated by the bookkeeping department, collectors' office, built-in vault, and an unusually large parts room. The northwest part of the front portion comprises the new car show room. This beautifully finished room will accommodate more than a dozen vehicles without crowding. In the center of the specially finished floor appears a large Chevrolet emblem. The walls are duotone in green and gold, while

the ceiling is finished in cream.

Just back of the new car display room are the private offices of F. M. Culberson and T. F. Smalling, owners of the company. The nearby parts division has an upstairs storage room, instead of the customary dark basement.

The used car show room permits display of O. K. used vehicles in the same fashion that the new cars are shown. While the firm has a vacant lot just south of the building, most of the used cars will be kept inside away from the dust. There is a private office for the manager of the used car department.

A woman's rest room with lavatory facilities is provided. Employees are likewise provided with accommodations, such as shower baths, steel lockers, and hot and cold water 24 hours per day.

The shop department, designed and equipped under the supervision of a Chevrolet factory representative, is the delight of the mechanical employees. The large floor space, about 70 by 100 feet, is well lighted by four skylights and eighteen large windows. There are stalls for ten mechanics. Latest type machinery and overhead tracks have been installed.

The mechanical department also includes a Duco finishing room, wash and grease rack, body, fender and glass division, and battery shop.

The building has a second story which may be used for lodge halls, offices, or similar activity. One room will be used by the Chevrolet company for group meetings. The mechanics have a weekly session, and the salesmen meet every morning.

The Culberson-Smalling Chevrolet company was organized here in April, 1927, and operated in the old location on West Kingsmill since that time.

The business and service facilities have increased until thirty employees are now on the payroll. The employees are as follows:

New car sales department—H. P. Anderson, D. N. Ehrlick, Claude Pullen, Lee Banks, Clyde Mead, W. C. "Dub" Williams, and J. L. Peebles.

Used car department—Leo R. Mar-

tin, manager; R. E. Sprinkle, J. E. Reeves.

Accounting department—B. E. Clark; Pauline Mitchell; Noel Thompson, stenographer.

Parts department—Mason Gellatly, Jim Nicholson.

Service department—Dan Harston, manager; L. B. Fulton, foreman; R. West; J. F. Venable; Geo. Thompson; Roy Reigel; H. D. Garner, Harvey Renfro.

Wash rack—Nelson Harris, Jack Eaton.

Used car reconditioning department—H. Owens, J. N. McGee, Henry Battle.

Duco paint and battery department—M. L. Tucker.

Demonstration of
Cottage Cheese Is
Made by Worker

LUBBOCK, Feb. 8. (Special)—Miss Louise Baird, home demonstration agent of Lubbock county, was one of the guiding spirits in the recent Short Course held at Texas Technological college. She worked untiringly for the success of the entire program. She appeared on the program with the subject, "The Uses of Cottage Cheese in the Home," she said.

"We should emphasize cheese in our menus because of the high food value, especially protein and ash. Because of the mild flavor of cheese it can be mixed with various other flavors. It may be mixed with fruits and vegetables to make salads or it may be put in white sauce to use in casseroles and soups. Cottage cheese makes delicious sandwiches."

Miss Baird demonstrated the various uses of cottage cheese in the home by making pepper salads, stuffed celery, pineapple salad, and sandwiches. Three layer sandwiches of two different varieties were made. In one kind cottage cheese and peanut butter were used and in the other jelly and cottage cheese were used.

Huge Engine Is
Being Installed at
Electric Plant

There is no larger Diesel engine in the Panhandle than the one now being installed at the Southwestern Public Service company plant here, although there are a number as large.

Weighing 81 tons, or 182,000 pounds, the 1,000-horsepower engine will be installed at a cost of about \$75,000. It will occupy a space of 31 1-4 feet long and 11 feet wide, and will be moored to a block of cement of the same length and width and eight feet deep. Workmen are now excavating the space for the cement foundation. The engine will be completely installed and ready for operation about March 15. It replaces a 100-horsepower Morse-Fairbanks, the same brand of the new engine.

Despite the tons of cement under it, residents of South Pampa will think that there has been an explosion when the huge engine is started. The vibrations will shake the ground for the first few minutes, according to R. A. Hankhouse, line foreman for the company.

The engine will be used only in case of an emergency, that is, if service on the power line supplying Pampa with electricity is impaired. It will generate 1,000 kilowatts of electricity per hour.

Power consumed in Pampa now is generated at Amarillo by steam turbine engines, ranging from one to four thousand in horsepower. Similar turbine engines are located near Borger at Electric City. The Empire company has four 1,000-horsepower Diesel engines at its booster plant near Pampa.

The big engine was moved from the station to the plant on two trucks by Frank Shaw. Mr. Hankhouse believes this was one of the largest loads ever moved on two trucks.

The public will be invited to visit

the plant and inspect the new engine when it is installed.

LUCY BADLY HURT AT SAN ANTONIO RECENTLY
Thomas Elmore Lucey, noted speaker and platform entertainer who recently appeared here under the auspices of the Epworth League, is recovering from a serious injury received a week ago last night, when a car struck him at San Antonio.

The accident occurred near the army Y. M. C. A. where Mr. Lucey was to have delivered an address. Communications with friends here said he expected to be able to fill his engagement at Corpus Christi next Tuesday.

Heavy Steel Is
Being Laid Now

PANHANDLE, Feb. 8.—The Santa Fe railroad is replacing the 90-pound rails on the oil main line from Kingsmill to Amarillo with 110-pound rails.

Two hundred carloads of the rail are now being unloaded along the line from Kingsmill to Amarillo. The second line now has 110-pound steel rails, the heavier rails being laid at the time the road was double tracked from Canyon to Miami.

STATISTICS ARE DRY, BUT THEY ARE VITAL AND NECESSARY. WE NEED MORE OF THEM.

In the first place, births and deaths are matters on which complete records should be kept. Physicians are too lax in reporting births.

Then there are industrial facts. Scarcely a week goes by but that some national advertiser does not ask The News how many stores in this vicinity could or does handle a product.

The government has the duty of taking the population census. Every ten years is the rule, but it should be oftener in rapidly settling districts.

But soon one hundred thousand census enumerators will take the field, ringing doorbells and calling at business houses.

TWINKLES

Thursday was the third anniversary of our coming to this city, but we were so busy we didn't notice the day.

It is something of a coincidence that about this time three years ago the bottom was dropping out of the oil market.

It is singularly unfortunate that just as we are seeking a protective oil tariff through our Democratic senators and representatives, the Democrats as a whole are making raids to lower other tariffs and the Republicans are making strong efforts to keep their members on the capital floors to withstand the attacks.

Hog Receipts on Livestock Markets Are Lighter Now

KANSAS CITY, Feb. 8. (AP)—(U. S. D. A.)—Somewhat lighter receipts of hogs at all markets influenced a prevailing stronger undertone in the week's trade and advances of 35 to 65c were put into effect. Unevenness was in evidence, the lighter weight selections having the advantage. The long ends of the upturn in values was registered at Chicago but the week's top was scored at St. Louis on the final session when choice light hogs brought 11.05. Receipts at the eleven market were 639,588, against 775,773 last week and 696,565 a year ago.

Medium weight and heavy fed steers met a rather broad outlet all week and the closing rates are mostly 25 to 50c higher. Lighter weights and short feds were plentiful and values were little changed. At some of the river markets 25c or more lower prices were reported. Strictly choice grades were scarce and the week's top rested at 10.50 for best weighty heaves in Chicago. Choice yearlings stockers \$13.00 at Kansas City. Week's receipts 186,513 as compared

with 176,209 last week and 159,441 last year.

An extremely dull trade in the eastern dressed lamb and mutton market was responsible for a sharp break in fat lamb prices. Handy weight offering scaled under 90 pounds closed from 25 to 75c lower. Weighty descriptions ranged from 75c to 1.50 under a week ago. Choice fed lambs scored 12.90 early at Chicago but at the finish very few sold above \$12.00, while many sales of weighty lambs were noted at \$10.00 and down at river markets. Mutton classes ruled uneven at 25c to \$1.00 lower. Offerings for the week totaled 324,762 against 299,903 last week and 230,761 a year ago.

SCHOOL MEN RE-ELECTED

Indian Officials Opposed
 WASHINGTON, Feb. 7. (AP)—Retention of present government officials at the Klamath Indian reservation in Oregon was declared "indefensible" in a report submitted to the senate today from the Indian affairs committee.

"SUNNY SIDE UP" FEATURED IN REX THEATRE

Janet Gaynor and Charles Farrell, perhaps the most popular of all screen sweethearts, not only talk in "Sunny Side Up," original Fox Movietone musical comedy by DeSylva, Brown and Henderson, but also sing and dance in a manner which marks them as outstanding performers in this field as they were in silent pictures.

Miss Gaynor has studied voice culture ever since she first entered pictures, a little over three years ago. To sing always has been one of her greatest ambitions, she confessed recently, and ever since signing a long term contract with Fox she has filled in much of her spare time studying voice.

Consequently, when the development of audible pictures attained their tremendous popularity, the little star was well equipped to step before a microphone and talk or sing with the best of them. Unlike so many of the former silent screen favorites, who have passed into oblivion with the new era, Miss Gaynor has attained even greater heights through the use of her voice.

She sings several songs in "Sunny Side Up" which will be seen and heard on the screen of the Rex theatre today, all written especially for her by the highly successful song writing combination of DeSylva, Brown and Henderson. She also displays real ability as a solo dancer in one number.

Farrell, who was on the stage before pictures reached out and claimed him for their own, has a highly pleasing baritone voice which he has developed during the last two years under the tutelage of the best teachers money could employ.

Consequently, it will be an entirely different Janet Gaynor and Charles Farrell who make their debut here soon in "Sunny Side Up." They are surrounded by a cast that includes Sharon Lynn, Marjorie White, Frank Richardson and El Brendel, as well as a chorus of 100. David Butler, who wrote and directed the story for "Fox Movietone Follies," directed this production. Seymour Felix, noted dance director, staged the ensembles and song numbers.

Mystery Drama Now at Crescent

Excitement, fast action, suspense, logic. Mix these ingredients well and a good film mystery drama is the result, according to Rowland V. Lee, director of Paramount's all-talking super-mystery drama, "The Mysterious Dr. Fu Manchu."

"Mystery pictures must stir their audiences to subtle excitement," says Lee, "and they must move fast and have the audience constantly wondering what is going to happen next. They should not cheat; this is, incidents should be logical and fully explained."

"The good mystery picture will not stoop to incidents just to shock or thrill an audience. The thrills and chills must exist in the plot. Credulity should not be over-strained in striving for atmosphere."

"For instance, in 'The Mysterious Dr. Fu Manchu,' the heroine, Jean Arthur, does some weird things under a hypnotic spell. They are made reasonable through the logical planting of the fact early in the picture, that Dr. Fu Manchu, played by Warner Oland, is a hypnotist."

"The Mysterious Dr. Fu Manchu" will

show at the Crescent theatre, starting today for 3 days. In it, Lee combined all of his ideas for making a really entertaining mystery picture. It is another of the series of all-talking mystery pictures which Paramount began with "The Canary Murder Case" and continued in "The Studio Murder Mystery."

Long Illness Soon Ended by New Konjola

Medicine Brings Quick and Complete Relief After Prolonged and Stubborn Illness.

MRS. AMELIA SCHAFENE

"After taking other medicines and treatments for five years, Konjola soon relieved me," said Mrs. Amelia Schafene, 2721 Indiana avenue, St. Louis. "Stomach and liver weakness had brought my health to a state where I was about to give up. A gas formed after I ate the simplest foods and I bloated until I was short of breath and sometimes nauseated. My liver was sluggish and I had frequent bouts of attacks and terrible dizziness."

"I soon found that Konjola was the medicine for which I had long sought. My liver responded to this medicine most from the first bottle. The gastric feeling left me and I was free from bilious attacks and dizzy spells. Headaches are a thing of the past. My stomach is well and strong and I eat all that a good appetite desires without the least inconvenience or discomfort. My general health is better than it has been in years."

Konjola is sold in Pampa at City drug store, and by all the best druggists in all towns throughout this entire section. Adv.

"Jake" Declared Cause of Most Local Arrests

Jamaica ginger, commonly referred to as "Jake," and not corn whiskey is the beverage that lands so many in jail here on charges of drunkenness, according to county and city officers.

This fiery drink is imbibed by 85 per cent of those arrested here on intoxication charges, officers say. Because it is the easiest way of circumventing the prohibition law, it has become the most prevalent and the most popular intoxicant here, the "laws" report.

Of the 180 arrested by city police and the sheriff's department last month for drunkenness and disturbing the peace, 153 had "tanled up on Jake," the officers asserted. About five per cent of the drunken persons arrested drank canned heat or rubbing alcohol, while 10 per cent drank whiskey.

"Police and officers of the sheriff's department are unanimous in agreeing that the inability of those who drink to procure whiskey is the reason for the big "Jake" consumption. "You don't know just how scarce whiskey is in this town—it's hard to get, and if you don't believe it just try and get it," one officer said.

"Jake," which was originally sold as a bad cold remedy and for other ailments, is now sold in most drug stores. There is no law prohibiting the sale of it, providing it is sold for medicinal and not beverage purposes. If it is sold in 2-ounce bottles, the courts usually hold that it was used for medicinal purposes. If it is sold in larger quantities, the courts contend that it was used as a beverage.

There is no law prohibiting the manufacture of "Jake," rubbing alcohol, or canned heat. This last stimulant is the favorite beverage of drug addicts, officers say. It is not necessary to have a physician's prescription to buy "Jake," as anyone can secure it at most of the drug store. It is a fiery, scorching liquid and intoxicates quickly. The effect is said to be more lasting than whiskey. It's intoxicating quality is double that of whiskey.

East Ward Gets Ready for Meet

Case Agency Is Taken Over by Grain Company

Stark and McMullen have taken the agency for the complete line of J. I. Case combines and other farm implements including tractors, plows, one-ways, etc. A new warehouse to house the implements is now under construction on West ranges street.

A branch house at White Deer will also be stocked with a complete line of the machinery. Complete repair service will be given at both the Pampa and White Deer offices. A full line of parts has been stocked.

Several carloads of the J. I. Case implements have been received and will be placed on display as soon as the warehouses are completed.

"We are stocking this well known line of farm machinery and parts so that the farmers of this entire section can be assured of prompt service on new implements as well as repair service of all kinds," said Roy McMullen.

"During the busy season when a day or two lost means many dollars to the farmer, we will be in a position to give a service that will eliminate the unnecessary loss of valuable time."

Has the Traffic Performance You Desire Quick Get Away, Low Mileage, Greater Power

Baxters Also Add New Service. Have installed Equipment for Acetylene Welding.

Baxter's Auto Repair, 517 South Cuyler White, have secured the agency for the Winfield Carburetor, which is credited with being the greatest invention of its kind ever put on the market.

So successfully has this new Carburetor performed that many big fleet owners of different cars have adopted it for use on all their cars.

The Smallman choir, of Los Angeles, California, recently embarked on a tour through twenty states. The Motor Transit Co., who transported the choir of forty people in two of their motor busses, say they found the Winfield Carburetor to be a very profitable investment and now have practically their entire fleet equipped with the new carburetor.

Among other recent improvements made by Baxters is the installation of Acetylene welding equipment. All work is done under a guarantee. Curley Barden will be in charge of all welding. He is well known in this section, having executed many large and difficult feats in welding in the nearby oil fields.

Rash Romance by Laura Lou Brookman

Begin here today. JUDITH CAMERON marries ARTHUR KNIGHT, executive of New York publishing house in which she is employed.

"Where's Tony?" he demanded, in answer to Judith's greeting.

After the first week in Bermuda, a cablegram arrives announcing that Tony Knight is coming home.

As days pass a state of armed neutrality exists between the girl and Judith. Junior arrives for the holidays.

Two events of importance happened in the Knight household the second week following Christmas.

Junior left Tuesday morning. He departed for his second term of school and Judith was frank enough to admit a huge sigh of relief to see him go.

When Arthur Knight reached home shortly after five o'clock that evening he came in stamping and brushing off snow.

"Where's Tony?" he demanded in answer to Judith's greeting.

"I think she's dressing. Dear. She'll be down shortly."

"Tell Tony I want to see her at once!" Arthur's word were gruff and he snapped out the sentence exactly as though he were in his office.

her husband used such a harsh tone with anyone. She was worried, too, because she had no idea to what lengths the younger girl's foohardness might have led.

It was nearly seven o'clock before the study door opened and Arthur Knight and his daughter reappeared.

They came out with Tony's arms about her father, her dark head nudging his shoulder.

They strolled into the living room casually and stopped in the doorway, one hand resting on her hip.

"Did you want to see me, Darling?" she asked, resting languid, smiling eyes on Knight.

Tony had moved toward the reading table and was extracting a cigarette from a large silver box.

"Put that cigarette down and come into the study!" her father continued sharply.

Judith was worried. It was not often that she had been so angry with her father.

"Yes, father. I'll be home early." Tony disappeared for wraps and presently was back again.

Judith could hardly resist asking questions but she forced herself to wait.

"You know, Tony's really a smart kid," he told his wife. "Crazy, but aascal has been getting into scrapes all her life."

"But that's all right," Arthur pointed out to Judith. "Because I've persuaded the kid to stay right here all winter."

"Yes sir," he mused absently. "Guess I'll have to get off a letter to Helena tomorrow and tell her a thing or two."

Judith was learning that Arthur, who had been such a perfect companion for idle days in Bermuda.

"Father, darling, I just wish I could stay home this evening!" Judith said to some way if only Ed knew you and Judith would be here.

"Mitchell?" Knight asked. "Caroline Mitchell? Oh, yes, I remember—just a couple blocks down the street. Well, set in early. Tony. Remember we're through with all this whoopee-making

"Well, Judith said uncertainly, 'I hope you're right about it.' Arthur Knight looked such a picture of satisfaction just then the girl did not voice her misgivings.

"That's all right now. It's all right! Tony and I talked everything over. She isn't going to make any trouble from now on."

"How do you do, Mr. Craig. I'm glad to know any of Tony's friends."

memoranda for an important conference or study a file of correspondence. Evenings devoted to social pleasures had become rarer and rarer.

Now that he had acquired an attractive wife, reopened his suburban home and could find there each evening a good dinner, congenial companionship and every comfort for three or four hours of quiet relaxation from the day's work.

Those things were all right when you got to them. Leaving an agreeable chair before your own fireplace to bathe through traffic for an hour and a half was too much of a strain.

Neither the fir, nor her husband knew at just what hour Tony Knight arrived home that evening she had promised to be "in early."

"Thirty minutes later Judith returned to the dining room. Tony had finished eating. Just then Judith heard a cry from the hallway:

"Why, Andy! Andy Craig—when did you get here?" Judith hesitated. Tony was evidently welcoming a caller.

"How do you do, Mr. Craig. I'm glad to know any of Tony's friends."

"Yes sir," he mused absently. "Guess I'll have to get off a letter to Helena tomorrow and tell her a thing or two."

Judith was learning that Arthur, who had been such a perfect companion for idle days in Bermuda.

Unique New Year's Jamboree Enjoyed by Sunday School Classes

"A New Year's Jamboree" was the novel entertainment provided classes 3 and 4 of the Intermediate department of the Methodist Sunday school on Friday evening, when Mrs. W. Purviance, department superintendent, and Mrs. R. C. Campbell were hostesses to sixteen members at party in the church basement. R. A. Selby assisted in entertaining.

In a series of cleverly planned games and stunts the young guests traveled the cycle of the year. For the month of January, there was a contest in throwing snow balls through a wreath of holly. February brought a game of tossing hearts into a basket, "Fog in the pan," a game suggestive of St. Patrick's day, marked the arrival of March.

A long and futile search for hidden peanuts finally was recognized as an April Fool prank. Then for May, there was the old game, "farmer in the dell." June was featured by a rose relay race, in which each team carried a paper rose. The red, white, and blue color scheme of July was introduced with a contest in which the group guessed the number of objects of each color in the room.

August was omitted from the calendar, with the announcement that it would be tacked on at the end of the year. A geography game suggestive of school days, featured September. Fortune hunting was for October, each girl and boy finding a thimble, a pencil, a penny, or a nut that was supposed to be an omen.

Four groups competed in giving football yells in November, December's stunt was to form as many words as possible from the letters in Christmas. The belated August brought a picnic luncheon, spread on a table cloth in the center of the floor.

Members of the two classes who attended this enjoyable party were as follows: Bernice Moss, Dorothy Jane Adams, Margaret Beck, Lois Stark, Edith Gaiton, Frances Hodge, Isabelle Baer, Frances Campbell, Bill Kelley, Bob Wallace, Wade Smith, Franklin Baer, Howard Lane, Parks Brumley, and Buck Munday.

Bridge Party To Be Given Tuesday Night for B. & P. W. Club

A bridge party for members of the Business and Professional Women's club will be given Tuesday evening at the tea room of Pampa Drug Store No. 2. Miss Jonnie Ruth Williams, social chairman, and members of her committee will be in charge of arrangements. Playing is to begin at 8 o'clock.

In connection with the social affair, "white elephants" from the households of the members will be sold for small sums. Each member is asked to bring one and buy another.

Why Not?

"Why don't they grow some flower that means a bust in the nose?"

Jean Gros' French Marionettes, which are to appear at Central auditorium on Feb. 21, sponsored by the Council of Clubs, bring not only "Uncle Wigly" for the children's matinee, but also an illuminated Marionette ballet utilizing four Aesop's Fables, along with amplified music and the spoken words, and a special play of "Skippy," by Percy L. Crosby.

In a recent issue of Vanity Fair, Corey Ford, widely recognized critic of drama, music, and the arts, had the following to say about Skippy, which paints a pretty clear picture of the little cartoon character, his feelings, and personality.

"Skippy is indeed a running comment on life, expressed through the transient medium of newspaper cartoon. He shifts with every mood, quaint quick, innocent as a cherub, diabolic as a small boy can be, and sometimes cynical, darting like a lizard over the sunny stretches of comedy. His moods are universal. He stands, for example in silent awe before a magnificent sunset, his inarticulate soul dwelling with the beauty of fiery cloudbanks and blue hills fading into the evening sky, until his emotions find expression at last in one rapturous sigh, 'Gawd, it's all so beeyootiful, I'd like to give somebody a sock in the jaw.'"

Fifty Marionettes made to move with true lifelike gestures by 1,500 strings make for an original evening. This is the eighth transcontinental tour of the French Marionettes.

Mrs. M. A. Graham Entertains Thirty-Six Guests at Bridge-Tea

A gala week-end event was Mrs. M. A. Graham's bridge-tea of Friday afternoon. Nine tables were in play at the Canary Sandwich shop, where the hostess entertained members of Club Mayfair and other friends with one of the most attractively appointed Valentine parties of the year.

The heart motif and a red and white color scheme were developed with distinctive effect in accessories for the game, the gift packages, and the dainty refreshment plates passed at the close of the playing.

Mrs. W. A. Duerr scored high for Mayfair members, and was rewarded with a quilted pillow. A yarn, embroidered wall hanging, high score favor for guests outside the club membership, went to Mrs. C. P. Buckler. Consolation for low score was a tea apron, which went to Mrs. W. T. Fraser.

Potted geraniums in full bloom, with woven covers for the pots matching the red blossoms, centered the tables at tea time, and were given as table low cut favors. The players receiving them were: Mrs. J. S. Wynne, Mrs. Mel Davis, Mrs. W. F. Clark, Mrs. H. E. Damon, Mrs. Wm. M. Craven, Mrs. Paul Kasishke, Mrs. R. G. Hughes, Mrs. W. E. Thomas, Mrs. T. R. Martin, and Mrs. Biggs Horn of Amarillo.

Dainty handkerchief cases were presented those cutting high at the several tables, and were received by: Mrs. Fred Cary, Mrs. W. F. Nichols, Mrs. I. B. Hughey, Mrs. Mary R. Ikard, Mrs. A. B. Zahn, Mrs. Dick Walker, Mrs. Siler Faulkner, Mrs. Alex Schneider, Jr., and Mrs. W. E. Coffee.

Colonial Silver Tea Will Be Given Feb. 17 by East Ward P. T. A.

Among the interesting social events of the month which will feature the Colonial motif inspired by George Washington's birthday anniversary is an open house at East Ward school and a silver tea to be held by the East Ward Parent-Teacher association, in observance of founders' day.

The affair is scheduled for Monday afternoon, Feb. 17, between the hours of 3 and 6 o'clock. A program is to be in progress during the entire afternoon, and students' work will be on exhibit in each of the class rooms.

Colonial costumes will be worn by the women presiding at the tea table, and suggestions of the Washington anniversary will appear in decorations for the occasion. The public is cordially invited to attend.

Pampa Elks Giving Dance at Own Hall Next Thursday Night

The Pampa Elks lodge will give an invitation dance for members and friends, next Thursday evening, at the Elks club. Each member will invite two couples.

Sam Fenberg, social chairman of the lodge, said in announcing the dance that an excellent orchestra of nine pieces had been engaged for the affair. Proceeds above expenses will be used in the extensive charitable enterprises of the organization, he said.
