SOLONS VIEW PRISON SQUALOR

RURAL SCHOOLS ARE NOT AFFECTED BY INJUNCTION PRORATION LOOKS BAD AS PRODUCTION IN GRAY RISES

NEW WELLS IN COUNTY BOOST DAILY TOTALS

Two Big and Three of Smaller Tests Flowing

DRASTIC STEPS NOW PROBABLE

This County Has Gain of 1416 Barrels Daily

Completion of two good producing wells and three small ones in the last two weeks gave the proration program a black eye and caused late daily production of Gray county to gain 1,416 barrels over last week.

The daily production of Gray county last week was 54,361, while that of the previous week was 52,945 barrels.

A big loss in Hutchinson county resulted in only a two-barrel gain in the total daily production of Panhandle fields.

Wells responsible for the gain were Champlain Refining company's 1,600 barrel well; Operators Oil company's No. 7 Cook-Faulkner, section 30, block B-2, which came in last week with an initial production of 5,000 barrels an hour.

(See NEW WELLS, page 8.)

Mass of Data Is Presented at Rail Hearing in Amarillo

AMARILLO, Jan. 25. (P)—Hearing of testimony involving a 380-mile proposed construction program by the Santa Fe railroad company was concluded here today.

A mass of statistical data on development of the territory that would be served by the new lines and testimony from scores of witnesses as to the need of more rail facilities were offered during the four-day hearing.

Practically all testimony was in support of the network of new lines, which would be built through sections of Texas, Oklahoma, Colorado, and New Mexico.

The only contestants to the program were the Rock Island railroad company which objected to a 50-mile branch between Dumas and Spearman, Texas, on the ground that it would be an invasion to Rock Island territory and a group of Southern Colorado citizens, who were not in favor of the proposed route of one of the lines.

Cost of the construction program was estimated by Santa Fe officials at \$15,500,000. The projected lines would form connections with existing Santa Fe lines at seven points, two in the Texas Panhandle, and one in New Mexico.

The Las Animas-Amarillo line would link three branches and two transcontinental routes of the Santa Fe, and would provide a new north and south trunk route from Texas and Gulf ports to the Rocky Mountain gate way cities of Pueblo and Denver.

Another proposed link would run from Feit in the Oklahoma strip to Colmar, N. M., a distance of 110 miles.

The third branch would be a 50-mile extension of the Spearman line in the North Texas Panhandle to Dumas, where it would connect with the Las Animas main line into Amarillo.

Church Budget Will Be Subject at Rally Monday

Budgeting of local church finances and denominational support is the theme of discussion for the budget rally of district ten, Texas Baptist convention, which is to open here tomorrow evening at the First Baptist church.

The Rev. E. T. Miller, Memphis, district chairman will preside, convening the district at 7 o'clock Monday evening. His address at 7:15 o'clock the same evening will sound the keynote for the conference, in which representatives from seventeen counties are expected to participate.

Following the keynote address by Rev. Miller on Monday evening, Dr. O. L. Yates, pastor of the First Baptist church, Amarillo, is to speak. "New Year Budget Obligations" will be discussed by the Rev. L. D. Mitchell of Dalhart in the first address of Tuesday morning.

Potentialities of three organizations of the church supporting the budget will be discussed in separate addresses "The Sunday School as an Enlistment Agency" will be the Rev. C. R. Joyner's subject.

The Rev. W. C. Harrison of Canadian is to describe the year-round plan of finance in "Every Month Budget Month." Dr. O. L. Powers of Wichita Falls, one of the outstanding speakers of the rally, will address the session at 11:20 o'clock Tuesday morning and again at 2 o'clock in the afternoon.

Each assembly will feature a song service and a devotional period. A budget round table immediately preceding the final address is expected to be of outstanding value in the rally.

Husband Killer's Trial Nears End; Jury Is Charged

GEORGETOWN, Jan. 26. (P)—The trial of Mrs. Rosa Wayburn, 44, charged with the murder of her husband, W. W. Wayburn, 50, Smithville railroad worker, neared its end late today.

After both sides had closed their testimony, the jury was charged that Mrs. Wayburn was being tried on the fourth count of the indictment. This count alleges that Mrs. Wayburn was an accessory to the murder of her husband, W. W. Wayburn, on March 10, 1928; that Joe Morales killed Wayburn by striking and beating him and had promised Morales \$300 for the deed.

The jury was told that an accomplice does not necessarily have to be present at the commission of the offense, but is one who, before the act, promises a reward favor or inducement; and that under the law they may be punished in the same manner as the principal.

SALVATION ARMY BUDGET WILL BE ADOPTED BY DIRECTORS AT MEETING—NO DRIVE PLANNED

Daily News Relief Drive Continues to Raise Funds—Total Last Night Up to \$820—Work for Able-Bodied Is Keenly Needed.

To determine the amount of a budget for financing the relief and religious work of the Salvation Army, a meeting of the proposed board of directors will be held in the early part of the coming week.

Discussion will be on financing the Salvation Army apart from its relief work here. Ensign King stated yesterday that a drive is not being planned, and that the Army expects to collect most of its operating expenses at street services. The primary purpose of the Salvation Army, he said, is to conduct religious services, with relief work among the poverty-stricken and the needy as a necessary companion activity.

A committee is working on a budget and will present it at the coming meeting. Plans for distribution of the budget will also be discussed.

The special relief fund being received by the Pampa Daily News was

MRS. B. E. FINLEY IS ELECTED PRESIDENT OF LIBRARY BOARD—BENEFIT EVENTS TO BE GIVEN

Gray County's Royalty Owners Asked to Meet

It is imperative that Gray county land and royalty owners meet in Tulsa Wednesday to protect their interests, declared Earl Callaway of Amarillo vice-president of the Mid-Continent Oil & Gas association, in telephone conversation with The News.

Mr. Callaway said that royalty owners had to act at once or lose the battle for all time. He said that a meeting would be held at the Mayo hotel in Tulsa at 2 p. m. Wednesday, in the Crystal room. It has been called by the American Independent Producers' association to follow up the work done and stands taken at recent territorial gatherings.

The Tulsa meeting will not only take action or plan steps to combat the recent crude oil slash, but will study the menace of oil importation.

Mr. Callaway asked that a large Gray county delegation attend the Tulsa meeting. He asked that all persons planning to make the trip call him at 7241, Amarillo, in order to make reservations in Tulsa for Tuesday night.

Wheat Crop Indications for 1930 Are Good, But Damage by Freezing Cannot Yet Be Determined

Approximately 80,000 acres in the Pampa wheat territory were sown to wheat last fall, according to L. C. McMurtry, local elevator owner and president of the Texas Grain Dealers association. This is no increase over the 1929 acreage, as the wheat acreage in the Pampa territory has been about the same for several years, asserted Mr. McMurtry, who is said to be one of the best posted men in the Panhandle on the wheat situation.

Total acreage for the Texas Panhandle has been estimated by W. A. Barlow of Amarillo at two and a half million acres, a 20 per cent increase over 1929. The biggest increase in acreage is on the South Plains in Deaf Smith county, Hookley, and Cochran counties, although much new land has been sown to wheat in Hansford, Ochiltree, and Carson counties.

TERMS NOT TO BE SHORTENED HESSEY FINDS

Three Districts to Be Deprived of Only \$1,000 Now

OTHER PLACES TO SUFFER MUCH

Thousands of Pupils to Be Forced Out of Studies

Schools of Gray county will not have to shorten their terms or close down because of an injunction granted in San Antonio, the effect of which is to tie up the \$5,000,000 rural aid fund indefinitely.

According to County Superintendent John B. Hessey, only three Gray county schools applied for aid under the state fund. These are Grandview, McClelland, and Eldridge. Their apportionment from the rural aid fund is slightly in excess of \$1,000.

Mr. Hessey characterized this county's position as fortunate in comparison with that of counties where such dependence is placed on state aid.

SAN ANTONIO, Jan. 25. (P)—A temporary injunction restraining the state from using the \$5,000,000 Texas rural school aid fund, which had been sought by Mrs. Louise Mumme of Medina

All in Readiness For Testimony in Brady Case Monday

AUSTIN, Jan. 25. (P)—The small jobs incident to prosecuting and defending a man were cleaned up today by counsel in the John W. Brady murder trial, which was in recess until Monday, while for Brady, snow haired accused slayer of a 28-year-old woman, the hours in jail were made less tedious by the presence of his wife.

Most of the out of town defense lawyers had gone home but those here checked over witness lists and conferred briefly together. Among them was Will Brady, who came from Ventura, California, to help his brother, years ago a justice on the civil appeals court here. Another was Lon Curtis of Belton, boyhood friend and Texas University classmate of the former judge.

A G. B. Highsmith of Baytown, father of Miss Lehlia Highsmith, stabbed to death allegedly by Brady, on the night of November 9, 1929, waited with customary strained patience.

The prospects were that every defense lawyer would answer roll call when the questioning of witnesses begins Monday. Dayton Moses of Fort Worth, ill with influenza, was reported to be recovering.

Poll Tax Paying Week Is Here Total Is Small

With a few more than 2,000 poll taxes paid last night the need for a drive during the last week of tax paying time was clearly indicated.

The situation will be reviewed Monday at a meeting of B. C. D. directors. While interest in paying the poll tax to enable the holders to vote in the coming city, county, and state elections has been keen at times, the total result is far from satisfactory, it is pointed out.

Payment of many poll taxes in the next two or three days is greatly desired in order to prevent the inevitable last minute rush. Some prospective voters may not be able to reach the tax collector next Friday, which is the "dead-line."

BUYING STOLEN GOODS CITED BY JUDGE DUNCAN

Petty thievery among boys as well as adults is being encouraged by certain Pampa shop-keepers who buy stolen articles or loan money on them. County Judge Ivy E. Duncan declared Saturday in sentencing Troy McCoy, 15, to the state reform school. Judge Duncan sternly emphasized that it is a violation of the state statutes to have possession of stolen goods.

He warned that merchants who buy or loan money on articles that are brought to them by boys and suspicious-looking individuals should fully investigate where the article was secured.

"Juvenile delinquency is increasing here and it's got to be stopped—even if we are compelled to use drastic means to do it," Judge Duncan said. "In another delinquent case before this court not a month ago, a boy testified that he would not have stolen some hub caps if he had not known he could have sold them at certain establishments in Pampa."

McCoy, who had been selling men's suits by the house-to-house method, pleaded guilty to stealing a purse in a local house last Thursday. He said he was passing the residence when he saw it lying on a table. He sold a \$9 ring in the purse to a local merchant and threw the purse away after taking valuables from it.

The youth, who wept freely when told he was to go to the reform school, admitted that he had been arrested in Graham on a charge of petty thievery. He said he stopped going to school when he was in the fourth grade. His mother, who was present at the trial, answered in the affirmative Judge Duncan's question if the boy had adenoids and bad tonsils.

The boy was placed in custody of Sheriff E. S. Graves, who stated he would be taken to Gatesville immediately. H. Otto Studer represented the state in the absence of County Attorney John Studer. His request that the youth be confined to the reform school until he becomes 21 was granted by Judge Duncan. The oil testified that his father is an oil field worker at Graham.

In sentencing the youth, Judge Duncan explained the system of the reform school. He told the boy that criminal tendencies of most of boys who are sent to the school are curbed and that they come out well-trained in some occupation which will enable them to make an honest living.

SIX PERSONS BURN

ATLANTA, Michigan, Jan. 25. (AP)—Six members of a family here were dead today as a result of fire which destroyed their home in this village late last night.

The dead are: Mrs. William Kent and her children, Lucille, 7, William, 8, Thomas, 10, Agnes, 13, and Onetta, 14.

PENAL SYSTEM HEADQUARTERS IS INADEQUATE

Entire Plant Covers 11 Acres Adjacent to Huntsville

ROADS FOUND TO BE IMPASSABLE

No Heating Plant and Sanitation Very Scant

BY R. W. BARRY Associated Press Staff Writer

HUNTSVILLE, Jan. 25. (P)—The 80-year-old penitentiary walls at Huntsville, where headquarters of the scattered state penal system are maintained, and the Wynne state farm, near here, where tubercular convicts are treated, were inspected by the Texas legislature today.

Impassable roads, however, barred a visit to the Ferguson and Eastham farms, some 50 miles away.

It was the second day out on a three-day trip to all prison properties. The walls held the most interesting. Here the legislators, accompanied by Governor Dan Moody, found 1,084 men, the maximum facilities for work employing less than half that number. The others are holding their hands for want of something to do, Warden E. F. Harrell explained.

Prisoners Are Interested It will probably be a red letter day in the lives of those behind the walls, aged men and young fellows, many of whom seem only boys, as it seemed to provide a little diversion in the long-drag days the unfortunates count off as they pay their debts to society.

Even those in the hospital wards brightened up and took on interested expressions when the visitors filed by. One youngster smiled through tears as he approached legislators whom he had served as a page in the house two years ago. He had been sentenced for burglarizing a private home in Austin.

The sanitary facilities are scant, and J. H. B. Holderby of Fort Worth, member of the prison board, estimated that it would require an expenditure of at least \$60,000 to properly equip these buildings with sewage disposal facilities.

Bunks, two high, are in the corridors and crowded into every available space. Only recently enough men were transferred to the farms to remove the necessity of putting pallets on the floors. There is no central heating plant, wood stoves being used in the various buildings.

Shoe Shop Inadequate There were 24 men working in the shoe shop, where shoes for inmates are made and repaired. With the average prisoner wearing out a pair every three months, it would require an output of 150 a day to supply prison needs. The shop has a capacity of 36 pairs daily.

The wagon shops are virtually idle, hence sufficient wagons have been made and are stored in reserve to last several years.

While the operating room in the hospital is modern except for an inadequate x-ray machine, the wards are not equipped with adjustable beds which are indispensable to the proper care of surgical cases, and there is urgent need for adequate sewage and bathing facilities, Dr. Butler said.

The entire central plant occupies only 11 acres. The Goree farm is the only self-sustaining branch of the system, the women inmates there making clothes and other articles for the more than 5,000 prisoners. There were an even 100 women there. Sixty four were negroes. The white women spend their time in the tailor shop, sewing into garments thousands of yards of cotton flannel and cotton sacking.

The Wynne farm, where tubercular patients are kept, consists of 1,976 acres and has been the scene of several escapes.

THE WEATHER VANE * * * * * OKLAHOMA AND WEST TEXAS: Mostly cloudy Sunday and Monday being unsettled with occasional rains probably by Monday. (See WHEAT, page 8.)

NOTICE TO THE PUBLIC
 Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor. It is not the intention of this newspaper to injure any individual, firm, or corporation, and corrections will be made, when warranted, as prominently as was the wrongfully published reference or article.

DESPITE THE FACT THAT INTELLIGENCE IS WHAT TEXAS HOPES TO RECEIVE IN RETURN FOR MILLIONS SPENT IN PUBLIC EDUCATION, IGNORANCE CONTINUES TO BE THE PRIMARY ASSET OF A "GOOD" JUROR.

The Brady trial at Austin is an example. Honest men, who study public affairs, who read the newspapers to learn what is happening in this state, were dismissed by reason of their alertness. Hundreds of additional venemen were summoned in the hope of finding one dozen men who, even in proud Austin, did not know any details of a revolting crime that occurred in that city.

What kind of men were sought so diligently? The kind who said: "I don't belong to no church", and "I don't hardly ever get a paper."

The writer does not challenge the good intentions and the motives of the men selected; he does believe it is ridiculous to discard a prospective juror because he reads the newspapers or talks to those who do.

It is the system of selecting jurors that is at fault. Under the current plan, lawyers vie with each other to get jurors who are easily swayed, and who are too ignorant or too lazy to have opinions of their own. It is a travesty on the principle of democracy that a man ought to have a trial by jury, "of his peers".

THE ANNUAL APPEAL OF THE TEXAS FIRE INSURANCE DEPARTMENT HAS BEEN RECEIVED.

Carelessness causes 85 per cent of all fires. Sixty-six per cent of all blazes occur in homes. The masses who read are the ones in a position to reduce the number of fires and thereby reduce losses and insurance rates.

The state department makes twelve suggestions, which are passed along on their merits:

If your electric lights go out, or if you have trouble with your lights, do not attempt to fix it yourself. Call an experienced electrician for he will save expense and trouble to you.

If you have trouble with gas stoves, or pipes, do not attempt to fix it yourself, but call a plumber or the gas company. If you smell "gas", do not look for the "leak" with a "match", for it is dangerous.

Do not leave matches where children can play with them. Keep them in safety box out of their reach.

Do not smoke in bed. Be sure and put out matches, and keep cigarettes and cigars in ash tray.

Do not clean clothes with gasoline, benzine, kerosene, or

naphtha, for they are dangerous.

Do not put mops or greasy rags in closets, for they will cause spontaneous combustion and set fire to your house. Keep them in closed metal can on back porch.

Have your chimneys and flues inspected at least once each year, and see that flue is properly protected.

Put screen in front of the gas stove, open fire-place, or around heater, to keep children and old people from getting too close to fire and igniting their clothes.

Do not put rubbish, trash or papers in closets. Put them in metal ash can and burn.

Do not attempt to start a fire with kerosene, or any inflammable liquid.

Do not leave electric iron on. If you leave board for any purpose, be sure and cut off current.

Co-operate with your fire marshal each day of the year, for he is trying to save your life and property from destruction by fire.

TWINKLES

There is no such thing as an "honest face" says an expert. Maybe not, but there are dishonest ones. Still, we suppose it does not pay to look too angelic—little angels are often shoplifters and hot check artists.

The legislators are studying penology, but a few of them—to judge by their actions and words in the past—ought to be on the inside of the question looking out.

Housewives take notice: The difference between cottonseed or peanut oil and lard is only a couple of atoms of hydrogen to the molecule. Tell that to the hogs and maybe they can make the products identical.

We heard of a local man who is such an enthusiast about dairying that he keeps a miniature block of stock salt on his desk to "lick".

Middle Western cities have ordinances requiring ice and snow to be kept off all walks. If Pampa had such an ordinance, some people we know might keep their heads above their feet a little better.

Mrs. Coffee to Be Buried in Amarillo

Funeral services for Mrs. Woodson Coffee, Sr., long time resident of Miami and Amarillo, who died Thursday evening in San Antonio, will be held at 4 o'clock this afternoon at the Griggs Funeral home in Amarillo, with burial in an Amarillo cemetery.

Mrs. Coffee was well known among pioneer residents of the Panhandle. Death was from pneumonia. She is survived by her husband, who is reported to be seriously ill in a San Antonio hospital. Woodson Coffee, Jr., who was formerly a resident of this city, and Mrs. W. E. Coble of Amarillo are among her surviving children. Walter Coffee of Pampa is a nephew.

Dodge Eight and New Six Offered at Low Prices

Climaxing 15 years of successful production of dependable motor cars, Dodge Brothers for 1930 present as companions to the present Dodge Six and Dodge Senior, a new six at amazingly low prices and a new Eight, in line of commanding value.

Retaining all the basic ruggedness and dependability that have characterized Dodge Brothers products for 15 years, the new cars embody progressive principles of engineering and design that promise to command a high place in public interest.

Following a motif that is essentially expressive of the finest blending of grace and solidity, the body styles of the new cars, from the wider radiator profile straight through the deftly merged lines and curves at the rear, stamp them with an individual personality fully reflecting the outstanding reputation of the Dodge engineering organization.

Mono-piece bodies, incorporating the latest advances made in stamping and welding practices, are used on both new lines. Described by engineers as "the automobile body of the future," this type of construction assures complete continuity of structure. With the floor boards mounted directly on the frame, Mono-piece design not only conforms with the present tendency for lower lines, but also actually promotes safety by affording a lower center of gravity. The elimination of body joints by welding the major sections does away with annoying squeaks and rattles and adds further to the safety factor.

In addition to gains in strength and rigidity due to improved design of the new bodies, headroom, width and general interior comfort and roominess have been increased. Vision-ventilation windshields, set at an angle which avoids reflections, are features of the new cars.

Body types of the Eight-in-Line include a Four-door Sedan, Coupe with rumble seat, Convertible Coupe with rumble seat, Roadster and Phaeton.

The new Eight is a splendid example of modern automotive design. The motif is based on the perpendicular lines and recesses that give strength and beauty in modern skyscraper construction. Body mouldings and decoration throughout the car follow this laminated pattern, from the instrument panel in which are grouped the speedometer, engine temperature indicator, fuel gauge, ammeter and oil gauge, down to such details as the switch plate escutcheons, etc. Upholstery of the closed models is in mahair, broadcloth or fine box grain leathers. Leather is used entirely in the open models.

The entirely new, ingeniously designed power plant with eight cylinders in line has been pronounced by eminent engineering talent as a marvel in the quiet development and smooth application of tremendous energy. It is of the bloc cast L-head type, with 2 7-8 inch bore, 4 1-4 inch stroke and a piston displacement of 220.7 cubic inches. The power plant develops a maximum of 76 horsepower. Four-point engine suspension system is used, with rubber insulation at the rear supports to absorb vibration.

On top of the steering column are light control switch, gasoline throttle and horn button. Gear shift is standard, three speeds forward and one reverse. The gear ratio is 4.6 to 1 on all models.

Conical type headlamps of the most modern design with cowl lights following the same general design, are said to achieve a new effect in artistic blending with the symmetry of body lines.

The New Dodge Six
 A Four-door Sedan, Coupe with rumble seat, Business coupe, Convertible Coupe with rumble seat, Roadster and Phaeton constitute the body types

available in the new and lower price six-cylinder line.

Basic simplicity of design gives the new six its dignity and richness of style and appearance. Simple lines that lend impressive beauty to the car as a whole are carried out in all details. The instrument panel and all other interior hardware appeal strongly to the discerning because of their plain surfaces, set off with a delicate fringe of laurel decoration.

Velour and leather are the materials used in upholstery in the six-cylinder models. In the open cars, a taupe, cal-grain leather is used throughout.

Dodge Brothers engineers state that experimental and road tests extending over a period of many months, have attained a consistent record for pulling power, durability, speed and general efficiency. It develops a maximum of 11 brake horsepower, has a bore of 1 1-8 inches, stroke of 4 1-8 inches, and a displacement of 189.8 cubic inches. The cylinder bore is integral with the heavily webbed crankcase. Rubber engine mountings, like that of the Eight, are used.

Lubrication is forced under pressure to all crankshaft, camshaft and connecting rod bearings.

The heavy crankshaft is fully counterweighted and balanced both statically and dynamically. It is supported on four main bearings, of much more than average size.

Piston and spark plug specifications, and the design of the cooling system, fuel feed, brakes, transmission and rear axle follow closely that of the Eight-in-Line.

The fuel supply tank has a capacity of 11 gallons. Artillery-type wood wheels give maximum strength and beauty.

Former Utah Man Will Serve Local Episcopal Church

The Rev. John Leacher, formerly of Salt Lake City, Utah, has been appointed minister to the Episcopal missions of Pampa, Borger, and Shamrock, and will assume his new charge today, delivering his first sermon at 11 o'clock at the mission cottage on Central high school campus.

According to the regular schedule planned by the Rev. Leacher and the Rt. Rev. E. C. Seaman, bishop of the Northwest Texas diocese, the former will hold services in Pampa on the first and third Sundays of each month, and give one Sunday each to Borger and Shamrock.

Until his recent transfer to the Northwest Texas diocese, the Rev. Leacher was pastor of a church in Salt Lake City. He attended the annual convocation last week of the Texas diocese, and there received the assignment. Mrs. Leacher is to remain for the present in Salt Lake City, where the sons and daughters of the family are in school.

PRESBYTERIAN CHURCH
 The Presbyterian church will have all the usual services today except the service at 7:30 p. m. In the evening we will join with the public in a union service at the Methodist church where Rev. Theodore Hanson, of Denver, will deliver an address.

Our program for the day is as follows:
 At our church, corner of Frost and Browning.
 Sunday school, 10 a. m.
 Sermon, "Have Dominion," 11 a. m.
 Junior Endeavor, 3 p. m.
 Intermediate Endeavor, 4 p. m.
 You are cordially welcome to our services.

A. A. HYDE, Minister.

Wink Boy Hangs Self
 MIDLAND, Jan. 25. (P)—John Rozelle, 14, son of Mr. and Mrs. Tom Rozelle of Wink, was found hanging in a clothes closet at his home today. Neighbors said they had heard the boy whistling in the yard late this afternoon. A coroner's inquest rendered a verdict of suicide.

Tuesday Officers and the advisory board of the Order of the Rainbow will be installed at 7:30 o'clock in the Masonic hall. All Masons and members of the Order of the Eastern Star are invited to attend. El Progresso club will meet at 2:30 o'clock in the home of Mrs. Wm. M. Oraven. Twentieth Century club will meet in the home of Mrs. H. D. Lewis, 711 North Somerville street, at 2:45 o'clock. Junior Twentieth Century club will meet in Pampa tea room at 2:30 o'clock. Mrs. N. A. Heistand as hostess. A regular meeting of the Pythian Sisters will be held at the Odd Fellows hall at 2:30 o'clock. The Business and Professional Women's club will meet at 7 o'clock for dinner at the Pampa tea room. 'The Progress of the Texas Panhandle,' a musical revue, will be presented at Central high school auditorium, under the auspices of the A. A. U. W. and College club, benefitting Pampa Public Library. Wednesday The installation of officers of Pythian Sisters and an initiation service will be held at the Odd Fellows hall at 7:30 o'clock. Twin Six-bridge club will be entertained by Mr. and Mrs. Frank Allison at the Canary Sandwich shop, with the game opening at 7:30 o'clock. The Women's Missionary union of the First Baptist church will hold a social meeting in the parlors of the church, beginning at 2:30 o'clock. All women of the church are invited. Thursday Comus club will give a dance at the Schneider hotel, with Joe Norman's orchestra playing. Dancing will begin at 9 o'clock and end at 12 o'clock. Friday The Order of the Eastern Star will hold a special meeting for initiation

of candidates at 7:30 o'clock. Saturday The monthly luncheon meeting of the A. A. U. W. and College club will be held at the Schneider hotel at 12:30 o'clock. Active members wishing to cancel their reservations are to call Mrs. W. R. Campbell, 111, before Thursday night, and inactive members wishing to make reservations are to call Mrs. Campbell before Thursday night. Physical Culture Is Discussed in Program of Child Study Club 'Physical Culture for Young Women' was the subject of the chief paper of a program given Friday afternoon at Child Study club's meeting in the home of Mrs. Lee Harrah. Mrs. S. A. Hurst, leader for the occasion, read the paper and conducted the lesson. Mrs. T. H. Barnard spoke on 'Physical Training for Girls.' 'Sports for Women,' was the subject of Mrs. W. E. Joffee's discussion. Mrs. A. H. Doucette gave an excellent discourse on 'Health, Beauty, Power.' Members present at the meeting, in addition to those appearing on the program, were as follows: Mrs. J. M. Turner, Mrs. Roy Wiley, Mrs. H. D. Lewis, Mrs. B. E. Finley, Mrs. Ivy E. Duncan, Mrs. G. C. Malone, Mrs. H. W. Johns, Mrs. Roy Tinsley, Mrs. W. A. Crawford, Mrs. Floyd McConnell, Mrs. R. S. McConnell, Mrs. Joe M. Smith, and Mrs. W. Purviance. Twenty Eastern Star Members Attend Study Club Meeting Friday Mrs. T. H. Barnard gave instruction in a secret ritual of the Order of Eastern Star, Friday evening, at a regular meeting of the local chapter's study club. The lesson marked the completion of the first sixteen parts of the secret work of the order. Plans were made for the beginning of a new di-

vision of study, with Mrs. Maude Ripley a member of the grand examining board of Texas, to be in charge. Members present at the Friday meeting were: Mrs. Roy Sewell, Mrs. Artie M. Shepard, Mrs. Curtis, Mrs. Maude Ripley, Mrs. George Sawyer, Mrs. Wilson Hatcher, Mrs. S. A. Burns, Mrs. O. K. Gaylor, Mrs. B. W. Rose, Mrs. W. C. de Cordova, Mrs. L. P. Yoder, Mrs. Gomillion, Mrs. Van Carter, Mrs. N. B. Ellis, Mrs. A. Cookston, Mrs. Baker, Mrs. W. B. Barton, and Mrs. Murphy.

Three Table Bridge Given by Mr. and Mrs. Joe M. Quinn Last Night

Mr. and Mrs. Joe M. Quinn, 426 North Wynne street, entertained last evening with three tables of bridge. The Valentine motif was developed in pretty detail, with red predominant in decorations of accessories for the game. The appointments of the refreshment tables. Cut flowers and tall tapers lent colorful charm to the entertaining suite. The guest list was as follows: Mr. and Mrs. Roy Wight, Mr. and Mrs. T. E. Simmons, Mr. and Mrs. W. H. Curry, Miss Pebble Casey, Frank Perry, Charles Perry, and R. E. Swartz.

Mrs. Clyde Garner Is Hostess at Birthday Party for Her Husband

Mrs. Clyde Garner entertained Friday evening with two tables of bridge honoring her husband on his birthday anniversary. The games were played at two tables, with high scores of the evening going to Mrs. W. E. Coffee and Guy Manning. Mrs. Coffee received a basket of dainty perfume vials, and Mr. Manning received a nest of ash trays. Gifts were presented Mr. Garner by the friends in attendance. A pink birthday cake, topped with lighted candles, was cut after the close of the card games, and a plate luncheon was served. The following were guests: Mr. and Mrs. Ernest Sanders, Mr. and Mrs. W. E. Coffee, Mr. and Mrs. Guy Manning. Walter Snideman is spending the day in Amarillo.

Director

Photo by Fred's Studio Harold White, above, who added to the considerable number of his successes in amateur dramatics with the production of 'Progress of the Texas Panhandle,' a musical revue of which he was director general, at the founders' day banquet of the A. A. U. W. and College club Friday evening.

Rainbow Officers and Advisory Board to Be Installed Tuesday

Officers of the Rainbow Order for Girls who were elected two weeks ago to serve for the approaching quarter, and the advisory board recently chosen by the Order of the Eastern Star will be installed Tuesday evening in an impressive Rainbow service at the Masonic Hall. Alice Ingum, retiring worthy advisor, will preside.

Officers of the girls' organization who will be inducted to office are as follows: Worthy advisor, Virginia Rose; assistant worthy advisor, Frances Campbell; - charity, Frances Finley; Hope, Wilma Washmon; Faith, Yvonne Thomas; chaplain, Eva Jones; drill leader, Dorothy Doucette; pianist, Inez Barrett; inner observer, Wanda Barnard; outer observer, Marjorie Buckler; and colors, Dorothy Dodd, Dorothy Jane Adams, Ruth Reynolds, Louise Walstead, Lola Hill, Lillian Jameson, and Alice Ingum.

The following will compose the advisory board chosen by the Order of the Eastern Star: Chairman, Mrs. Roy Sewell; secretary, Mrs. W. P. Vincent; Mrs. C. P. Buckler, Mrs. Van Carter, Mrs. E. W. Rose, Mrs. Tom E. Rose, Mrs. T. H. Barnard, Mrs. Wilson Hatcher, the Rev. Tom W. Brabham, and the Rev. James Todd.

The ceremony will be held at 7:30 o'clock, followed by an initiation service for Lucille Cole. All members of the Order of the Eastern Star and Masonic orders are cordially invited to attend.

Miss Alice Russell, manager of Jarrett's Fashion shop, is visiting friends in Amarillo today.

Dallas, who accompanied her to Rochester, is still with her.

Author

Photo by Fred's Studio Mrs. W. A. Duerr, above, who collaborated with her husband in the writing of the musical revue, 'Progress of the Texas Panhandle,' which was presented Friday evening at the annual founders' day banquet of the A. A. U. W. and College club.

Mr. and Mrs. Lynn Boyd will leave Tuesday for Kansas City, where Mr. Boyd will attend a convention of the Southwestern Lumberman's association. They will be in Kansas City until Tuesday.

Miss Mary Stocking of Panhandle was in the city for a brief visit yesterday afternoon.

Appeal Perfected in Johnson Case

Transcript of the Tom C. Johnson's case was sent to the Court of Criminal Appeals at Austin yesterday, according to his chief counsel, Judge Newton P. Willis. Johnson was convicted on a statutory charge and given a 10-year term in the fall term of district court here.

A few weeks later he was deposed as deputy sheriff of Wheeler county by temporary injunction restraining him from holding the office while under a sentence. Judge Willis does not expect an immediate hearing on the appeal.

Charges of criminal assault were preferred by two Chillicothe girls against Johnson. During the trial Judge W. E. Ewing barred all children under 16 from the courtroom.

H. H. Davis, former deputy constable, was convicted on similar charge and given a 20-year sentence, which also is being appealed.

Slow Pole Wins Race

BOSTON, Jan. 25. (AP)—Stanislaw Potkiewicz, the Polish runner, made his bow to the American track public here tonight by winning the Leo Larabee invitation two-mile run, the feature event, of the Knights of Columbus Prout Memorial games from a mediocre field of 16 starters.

His time was slow, nine minute 39 2-5 seconds, for the 24 laps.

CLASS D BALL LEAGUE LIKELY TO BE FORMED

DALLAS, Jan. 25. (AP)—The Texas league's rather desperate effort to keep Class D baseball alive in the state was accorded at least an even chance of success after the fraternity met here today and talked the matter over long and volubly.

Seven smaller Texas cities—Sherman, Corsicana, Mexia, Cleburne, Longview, Palestine and Tyler—are ready to do what they can for the cause, their representatives said. They will put up \$3,000 as a sort of dowry and provide a playing site, providing the Texas league will guarantee them a season of baseball.

President Alvin Gardner of the Texas league presided over the gathering, which was somewhat in the nature of a clinic, the falling national pastime was the patient. Every Texas league club was represented. All are anxious to put the smaller circuit over.

Although the seven cities expressed willingness to enter the proposed league, all of the conversation was more or less unofficial. The representatives merely expressed confidence that their fans would welcome such an alliance with the Texas league and put up \$3,000 cash in return for membership in the circuit. The next step will be to raise the money. The league, it was indicated, will contain six teams.

Under the terms of the Texas league's proposal, as outlined by President Fred Ankenman of the Houston club, the Class D clubs will have no financial worries after they have paid their \$3,000. All receipts will be pooled by the parent league and all salaries paid from headquarters. The Texas league owners expect to lose money on the project, but are willing to drop a few thousand apiece each season, in order to have a training ground for promising players. The salary limit has been set at \$100 a month for players and \$300 for managers.

Joe Mathews, former Texas league star, who has been appointed president of the new league—even if it is not yet formed—will visit each of the seven cities that expressed a desire to enter. If he reports favorably, another meeting probably will be held here within a few weeks, when the circuit will be organized.

It was decided tentatively to call the new circuit the Lone Star league.

Typical Role for 'Dot' Mackail, Star of "Great Divide"

Dorothy Mackail, who gave such an admirable portrayal as the circus performer in "The Barker," will be seen again in another "hard-boiled" role in "The Great Divide," her new First National picture at the Crescent theatre.

Miss Mackail now plays an emancipated modern girl, whose "whoop-pee" ideas of life clash with those of the man she both hates and loves.

The blonde star has made a great success in her recent pictures in creating a new type of screen vamp—a girl whose bark is worse than her bite. She played such parts in "Hard to Get" and in "Two Weeks Off."

"The Great Divide" is an adaptation of William Vaughn Moody's famous stage classic. The story is laid in the beautiful mountain country of Arizona and the picture is embellished with striking scenic photography.

Ian Keith is Miss Mackail's leading man. Others in the cast are Myrna Loy, who portrays one of her colorful dancing roles as a half-breed Spanish girl, Lucien Littlefield, Ben Hendricks, James Ford, Creighton Hale, George Fawcett, Roy Stewart, and Claude Gillingwater. Reginald Barker directed.

OWLS WIN ANOTHER — BARBERS MADE HAPPY

HOUSTON, January 25.—(AP)—Rice here Saturday night staged a superb rally in the last ten minutes to beat the T. C. U. Horned Frog basketeers, 24 to 23.

Barbers in the large cry auditorium crowd wept for joy as Coach "One Point" Daugherty's charges fought their way to victory. The heavily bearded Owls had sworn not to shave until they won two conference games, and they achieved that goal tonight.

In Wisconsin's "Snooping" Case

Principal figures in the case of Dr. Scott H. Goodnight, dean of men at the University of Wisconsin, whose alleged "snooping" tactics in checking up on the personal conduct of students have thrown the university into an uproar, are pictured above. Upper left shows President Glenn Frank, with whom charges against Dr. Goodnight have been filed; upper right, Miss F. Louise Nardin, dean of women, who had entered the controversy defending the dean; lower left, Dr. Goodnight; lower right, Professor William Ellery Leonard, who filed the charges against Goodnight.

Harvesters Are Beaten at Shamrock in Last Game Before Big Tournament

HOUSTON GETS PLAYER
ST. LOUIS, Jan. 25. (AP)—Tony Kaufmann, an outfielder with the Giants last year, will be sent to the Houston club of the Texas league Clarence Lloyd, secretary of the National league club announced tonight. Several Cardinal players have been sent to Houston, a member of the Cardinal's "farm system."

Kaufmann formerly was a pitcher. Glaciers in the Upper Methow River Kananogran County, Washington, are practically gone.

Bloomers are named after Ann Bloomer, who was the first woman to wear this type of dress.

Showing little ability to adapt themselves to Shamrock's small, low-ceilinged court, the Harvesters lost to the Irish Friday night, 34 to 14.

The game was a repetition of what happened last year. But last season the Irish came to Pampa later in the season and were beaten by the locals.

Lard and James were forwards at Shamrock, Henry Ayres was center, and Sealsbury and English started at guard. Substitutes to the first string line-up were Braly and the second team.

It was probably the Harvester's last game before the big invitation tournament, which will open here next Thursday evening.

Pampa Second String Team Takes Tournament at Panhandle Saturday

A scrapping second string team taken to Panhandle yesterday won a tournament sponsored for small schools and boys who could not quite make the first squads.

Pampa seconds won over Panhandle's third team, 29 to 5, in the final game. The local team was composed of Poe, and Chastain at forward, Jim Ayres at center, and C. Milton and Schmidt at guard. Lewter and E. Milton were substitutes.

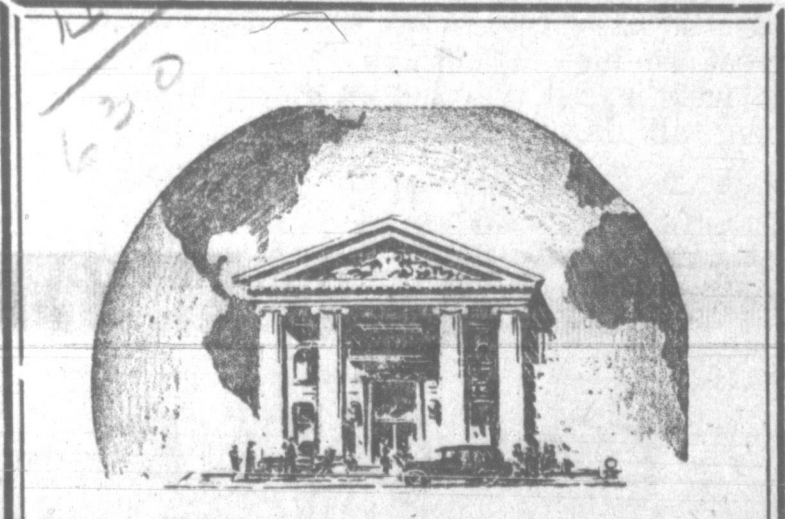

Pampa also had the second best team, according to the dope. The winners

had to defeat the Pampa Guerrillas in the semi-finals, and had a harder time doing it than in winning the Panhandle game. The Guerrillas defeated White Deer during the tournament.

White Deer, Groom, took Pampa and three Panhandle teams took part in the tournament.

The tallest elephant ever known was 11 feet 4 inches in height.

There are now about 100,000 persons in the United States Federal penitentiaries.

PAMPA NATIONAL BANK

THIS BIRD BECKWITH MUST BE PLENTY TOUGH TO FIGHT RED MATLOCK FRIDAY NIGHT

Four fights, of which any one would be good enough to headline most any card, will comprise the all-star boxing program which Jack C. Rogers, promoter, will present at the Pla-Mor auditorium Friday night. In fact, participants in the two semi-finals and in the main event have headlined several boxing cards at the Pla-Mor.

For one time, local fight fans will not see K. O. Kitchens and Neal "Pug" Grubbs trying to eradicate each other. Kitchens and Kid Platter, Luther's brother, will fight each other eight rounds in one of the semi-final events, and Grubbs and one Kid Williams of sanguinary Seminole are due to fight eight rounds in the other.

The main event will see Russell Beckwith of Leedy, Okla., known as "The Terror of the Cherokee Strip," in one corner, and Borger's own Red Matlock in the other. For the reason that both Red and Pug call Borger their home sweet home, just about half of the population of that bullet-swept city is expected to trek to Pampa Friday night. The Terror and the red head will fight ten rounds if it's not a K. O. Russell, for whose grand-father Beckwith county, Okla., was named, tips the scales at 185 pounds, while Red has gained a little weight since his last fight to weigh 190 pounds.

Two years ago this Beckwith had a fight in Oklahoma City with Bucky Harris, who is feared throughout the Five Civilized Tribes of Oklahoma, and the judges counted 17 knock-downs before they gave up. Old time fight fans here will remember that Beckwith and

Harris knocked each other down five times each in a fight at the Pla-Mor not quite two years ago.

Beckwith is ballyhooed to be "the toughest bird that ever ate marbles just for pleasure." He said that he challenges men to duels when they even hint that he goes into clinches and won't stand up and fight. As soon as he learns he's to fight a man, he begins hating him, and on no condition will he fight a man on a week's notice. He says he must have at least ten days in which to fill his soul with hatred. By the night of the fight, he is ready to pluck out the eyes of his adversary.

The Seminole Kid who means to snatch the flyweight championship of the Southwest from the Pug of Borger, weighs 126 pounds while Grubbs weighs 121. Rogers says he will give Pug the fight of his life.

Everybody knows K. O. Kitchens and most everybody has seen Kid Platter in his big brother's corner when the latter scrapped Cyclone Bonds successfully. The Kid aspires to be a fighter and those who have seen him handle his mitts say he knows what it's all about. Anyway, he's planning to whip K. O. before he meets Pug Grubbs. Kitchens and Platter each weighs 126 pounds. And by the way, Luther Platter would fight Matlock Friday night if he were not ill of influenza.

The chief preliminary event Friday night is fit to be a semi-final attraction. In it, Sammy Squires, weight 145 pounds will be in his corner and Bill Lewis, weight 150. Pampa will be in that corner—all set to go for four

rounds. Jack Rogers has been ribbing up some juvenile preliminaries that will make the audience yell for more. The little pug will perform different than usual, he said.

NOTICE

The annual meeting of the stockholders of the Pampa Hospital, Inc., will be held Tuesday, Jan. 28 at Pampa hospital. New officers will be elected and other business will be attended to and all stockholders are asked to be present. 16-19-21-23-28

George Lott Wins Montreal Meet

MONTREAL, Jan. 25. (AP)—George Lott, of Chicago, today won the Canadian indoor tennis singles championship, defeating Fritz Mefcur of Bethlehem, Pa. in the final round, 6-1, 6-3, 1-6, 12-10, 6-4.

Lott had to stage a brilliant rally to win from Mefcur. The Pennsylvaniaian took the first and third sets to lead by two sets to one, but Lott broke his rival's morale.

HAVE YOU SEEN THESE TWO GREAT NEW CARS?

THE NEW OAKLAND AND 8

GENERAL MOTORS' Lowest-priced Eight—\$1045 AND UP

Three years of actual designing and testing preceded the announcement of the New Oakland Eight. In addition it incorporates General Motors' sixteen years' experience in building fine eight-cylinder automobiles. This mature background accounts for its sound basic design.

Superior Performance

The New Oakland has an 85-horsepower engine. This is the highest power ever employed in a car of Oakland's size and weight, racing cars excepted. Oakland develops one horsepower to 37 pounds of car weight. That's why few cars are as fast. That's why few, if any, can pass it on the hills. That's why it accelerates so rapidly. In fact, that is the reason for its superior performance.

Eight-Cylinder Performance

With its high speed and fast acceleration, the new Oakland combines the smoothness resulting from the overlapping power impulses inherent in eight-cylinder design. This smoothness is intensified by such features as its complete down-draft fuel distribution, its patented laminated spring and rubber engine mountings and a new type of cylinder head which assures uniform combustion. Only a close inspection and a demonstration will enable you to understand fully the many advantages provided by the New Oakland Eight.

The New Oakland Eight, \$1045 and up, f. o. b. Pontiac, Michigan, plus delivery charges. Lovejoy Hydraulic Shock Absorbers included in list price. Bumpers, rear fender guards and spring covers extra. General Motors Time Payment Plan available at minimum rate.

NEW SERIES PONTIAC BIG 6

A FAMOUS NAME — A Finer Car — \$745 AND UP

Once again Pontiac has improved upon a car already noted for its excellent qualities. To the hundreds of thousands who own Pontiacs, and to everyone interested in low-priced automobiles, this announcement is important. For it introduces the New Series Pontiac Big Six—a new and finer car with a famous name.

New Beauty, Smoothness, Safety

Smart new bodies by Fisher make the New Series Big Six a more beautiful Pontiac. Pontiac's smoothness is increased by a new type of rubber supports for its 60-horsepower engine.

Improved non-squeak four-wheel brakes and a new sloping non-glare windshield add to the car's safety.

Time-Tried Performance

When these and other improvements were being made, all of Pontiac's basic big car excellence was retained. Come in. Let us show you the many advantages of this finer car with a famous name—the New Series Pontiac Big Six.

The New Series Pontiac Big Six, \$745 and up, f. o. b. Pontiac, Michigan, plus delivery charges. Shock absorbers standard equipment. Bumpers and spring covers at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

THOROUGH BRED CHICKS ON SHARES

I want to place a limited number of my prize winning, egg laying strain of Baby Chicks out on a share basis with responsible ranch women of Gray county. Contract for them now for delivery during February, March, April and May. Will furnish either eggs or Day Old Chicks on a fair basis. See me for particulars at once as the number available is limited. Nothing but strictly Free Range conditions considered. No town lot deal considered.

WHITE LEGHORNS

80-head year old hens topped from a flock of 600, selected by competent poultry judge. Headed by five of the best Cocker birds I ever saw. Strictly American standard show type birds combined with some of America's best laying strains. You can breed some wonderful birds from this flock. No baby chicks for sale. The quality chick brings \$1.00 each at day old.

S. C. R. I. REDS

20 head pullets for which I paid E. W. Mahood, Webster Grove, Mo., \$2.50 each at day old. Headed by two wonderful Mahogany Red cock birds from Mahood. I paid \$25 each for them. This flock is from that pen that Mahood won the egg laying contest in Missouri in 1928 over all breeds and second in Illinois in 1929.

If interested, see my flocks at once and place contracts for future delivery. Will furnish either day old chicks or eggs for setting at home. Nothing for sale. Supply limited. We will divide what you raise on 50-50 basis at twelve weeks old.

J. G. CHRISTY, at Talley Addition Office, 197 W. Foster, Phone 231

Rash Romance

Begin Here Today
JUDITH CAMERON, typist in a New York publishing house, who is snubbed by fellow workers, attracts the interest of ARTHUR KNIGHT, her employer. Knight is a reserved widower, lonely since his daughter, TONY, 18, and son, JUNIOR, 16, spend most of their time away from home.

He said, eloquently, that six weeks with her would pass like a dream

Her eyes narrowed until the long lashes almost met. Her glance was far, far away on distant shores. "I've never been on a ship," she told him. "Nothing like it." "We could run down and see Tony in Italy," Knight added as an afterthought. "Would you—mind—if we didn't go to Europe?" "Why of course not, dear. It's for you to choose." So they settled upon Bermuda. He told her that Bermuda skies were bluer even than those of the Mediterranean. He described the coral beach, the little pink and white cottages perched on rocky islands. He told her they would sail in silver-winged boats in the moonlight and play in the surf in the sun. And they would visit the harbor where pirates' treasure lies buried and Judith could pin habiseus blossoms in her hair.

Her eyes narrowed until the long lashes almost met. Her glance was far, far away on distant shores. "I've never been on a ship," she told him. "Nothing like it." "We could run down and see Tony in Italy," Knight added as an afterthought. "Would you—mind—if we didn't go to Europe?" "Why of course not, dear. It's for you to choose." So they settled upon Bermuda. He told her that Bermuda skies were bluer even than those of the Mediterranean. He described the coral beach, the little pink and white cottages perched on rocky islands. He told her they would sail in silver-winged boats in the moonlight and play in the surf in the sun. And they would visit the harbor where pirates' treasure lies buried and Judith could pin habiseus blossoms in her hair.

She could—and it," he agreed emphatically. Saturday morning on the tenth of December Judith Cameron and Arthur Knight were married in the chapel of St. Thomas'. It was the quietest, most religious of services. There were no attendants, no guests. Knight kissed his wife's lips devotedly, then gave her his arm. "At last, dear!" he whispered. Judith barely echoed his words: "At last!" They were served breakfast in a hotel patronized by royalty—both of Europe and Hollywood, but all Judith could do was nibble at her grapefruit. Arthur Knight sat feasting his eyes upon his bride. Was it maidenly timidity which caused Judith to hold back a bit as she clung to her husband's arm? Their luggage was on the boat. They took a cab and rode across town to the docks. It was like a swift dream. Presently Arthur and Judith were walking up a gangplank, finding themselves on a beautiful white liner. They stopped by the rail, laughing, and waving as everyone else did. "Strains of 'The Star Spangled Banner' burst upon the air. Cheers rose. Hats and handkerchiefs began to wave. "We're moving," Knight told the girl beside him. "Can you notice the motion?" Judith nodded. She tried to cover her confusion and laugh gaily. Her head dipped and she looked up again, straight into the eyes of a slim youth with a mustache, a slouched cap pulled down on his forehead. He was standing on the docks staring at her defiantly. Judith reached for her handkerchief. It was a bad omen—weeping on her wedding day.

She could—and it," he agreed emphatically. Saturday morning on the tenth of December Judith Cameron and Arthur Knight were married in the chapel of St. Thomas'. It was the quietest, most religious of services. There were no attendants, no guests. Knight kissed his wife's lips devotedly, then gave her his arm. "At last, dear!" he whispered. ARMY FOLKS

Twice now we have heard Miss Audrey Noel sing—the first time at the Armistice day celebration at the auditorium last night and the second time Friday night at the A. A. U. W. and College club's program of Parhandle progress. Because her voice is so agreeable in singing, we nominate her for the Pampa's most likely song star next year. A full, rich soprano voice, perhaps it will be soft and not quite so clear as it will be some day, but so easy to hear; a golden warmth, glow in the high notes.

Judging by the following news item that appeared in the Miami Chief, Jan. 19, it appears that the well-known and popular judge of the first district court went to Oklahoma to get a hair cut, instead of going to the hospital as was reported here right after Christmas.

Judge and Mrs. W. H. Ewing returned Sunday from Oklahoma City, Okla., where Judge Ewing underwent a tonsil operation in that city. On New Year's day they visited at the home of Mrs. Ewing's sister, Mrs. J. Frank Cook.

An attendant at the A. A. U. W. and College club, having failed to recognize a few of the faces of the guests that frequented the "Time of Calico" scene, but that it was easy to tell which local celebrities and personages the artist had in mind when the caricatures were created. Specifications and plans for the bronze board hereafter were drawn by Miss Anna Florence Carr. Clifford Whitmore was architect, and Miss Mary Ghee did the painting.

Children of the town thought the elevator in the Ross building was a time playing during the first few weeks after operation of it was begun. Mrs. J. P. Howell, conductor of Pampa's first and only office building elevator, remembered yesterday with amusement, "Why the first day it was used, as soon as school turned out the children just flooded down here. They went that up for a week—Some of them confided to me that they found it much more interesting than a slide. 'Can't you make it go faster?' one of them said to me. It was kinda bothersome at first, but I knew the children would get tired of it and they have. As for me, I like this job; it is easy and interesting, even if I am an information bureau. You should hear the questions the people ask me. Some of the men take off their hats when they see me, and the elevator and some do not—as for me, I wish they wouldn't. What's the reason in taking off your hat in an elevator when you don't take it off in a store or in the post office, I'd beyond me. But you can tell me the man who takes off their hats, have been in the big city elevators where they got the habit. Since I did this job, I took in boarders and kept a rooming house. The time passes quicker on this job than anything I ever did as I reckon I like it."

W. H. Wemple, a native of Louisiana who came around from Mansfield and Shreveport to Pampa three years ago is so admiring of the versatile announcer of radio station KVVH, Shreveport, W. K. Henderson, who recently promised the Federal radio commission he would "quit" when Mr. Wemple has got it into his head that Mr. Henderson didn't do right by strikers several years ago.

Judge C. E. Cary of the Justice of Peace court says that most of the women and girls who are brought before him on charges of vagrancy were driven by low wages to immoral professions. The man or corporation that pays a woman or girl ten or twelve dollars for eight or nine hours of daily labor is worse than the rich man who ignores the poverty-stricken people of Pampa. Judge Cary declared that silk stockings, furs and room-rent and

Modernizing Is Aid in Developing Big Paint Market

"The President's conference with the industrial leaders has stressed the national importance of a sustained volume of home repairs and alterations. Winter is ordinarily a dull season in the business trades when skilled services are readily obtained. Home owners would find this an opportune time to go ahead with improvements which add to comfort, appearance and value."

E. P. Lamont, Secretary of Commerce. The above statement recently issued by the Secretary of Commerce should be of inestimable value to those engaged in the paint industry, both the manufacturer and the dealer as well as the contractor, according to Hector H. Ellwell, editor of the Home Modernizer, published by the Home Modernizing Bureau of the National Building Industries, Inc., who declares that it is a call to modernize, and that those engaged in the paint business should answer the call and go after the market of food and not the Hollywood life are more often the cause of emaciation and thinness among girls of small salaries.

Judge Cary is of the opinion that higher education does not result in sympathy for the poor and needy, and that Big Business is utterly without sympathy. He remembered the recent episode of Harvard university vs. its scrubwomen, which was not printed in all the newspapers. It's a fact, he stated, that rather than comply with the requirements of the Massachusetts minimum-wage law by increasing the wages of cleaning women employed at the Widener Library from 35c to 37c an hour, President A. Lawrence Lowell of Harvard permitted 23 of them to be discharged without notice on the Saturday before Christmas.

Among the women dismissed was Mrs. Emma Traflet, who lives in a dank tenement in dire poverty with her family of five dependent upon her as its sole support. The women were replaced with men. The investment in Harvard is conservatively listed by the treasurer's recent annual report at \$81,000,000. Judge Cary said. A resolution has been introduced into the Massachusetts State legislature calling upon that body to "deplore the action of Harvard university, or any of its officers, in refusing to accept the statutes... said action was... contrary to what an overwhelming majority of the citizens of the Commonwealth had expected would be the action of the university or its officers under such circumstances."

Twins Born Friday
Mr. and Mrs. Mike Carlton, 420 North Starkweather street, are the parents of twins, a daughter and a son who were born Friday afternoon at McKean and Connor hospital. The youngsters are grandchildren of Mr. and Mrs. L. E. Press of Spearman, former residents of Pampa. Mr. Carlton is manager of the Oil and Business Men's club.

modernizing business to be had with all speed and aggressiveness. There are in the United States about 12,000,000 homes which need modernizing in one way or another, Mr. Ellwell continues, and it is estimated that the average modernizing job costs about \$2,000. That furnishes an estimated modernizing market of \$24,000,000,000, equal to a 20 year new building program.

During the twelve months just closed \$300,000,000 worth of modernizing was done in the United States. It is the aim of the Home Modernizing Bureau to help raise this figure to \$2,000,000,000 for 1930, and it has been estimated that the participation of the paint and varnish interests in this enormous potential market would be about \$100,000,000. Scarcely any sort of a modernizing job can be accomplished without the use of some paint, varnish, lacquer, or other product of the industry. It has been one of the functions of the Home Modernizing Bureau to point this out to the consumer. The Bureau publishes a weekly news service which reaches many newspapers throughout the United States, with articles teaching the general public the necessity for and use of paint and varnish. Color is in vogue and there is much to be said in the way of suggestions on how to apply it, the best combinations, and why it is necessary.

This has been a valuable aid to the paint and varnish industry, but even greater force will be put back of this sort of endeavor by the Bureau in 1930, as the fact that the Bureau has pledged its full support to President Hoover's business stabilizing plans means that the Bureau's efforts must be redoubled.

A suggestion was recently made by a man in another branch of the building industry on how to obtain prospects for modernizing work. The idea is just as workable for paint and is now made easier in view of Secretary Lamont's statement. The plan is to make a house-to-house survey or canvass in the surrounding territory with a questionnaire. This will get full information for the dealer and manufacturer on just what the needs of those people are for re-coloring, painting and general cleaning up. Those working the survey could use Secretary Lamont's statement as an introduction and a reason why the prospect should answer their questions—American Paint Dealer.

How would you like to live in a city like this? A city without churches would be like a railroad without engines—nothing to make things go. A city without churches would receive a great deal of advertising of the wrong kind. It would be so selfish that there would not be a single hospital of any-where organization in the interest of humanity. Half of the population would be afraid of the other half. The motto of such a city would be an eye for an eye, or do the other fellow before he does you. It would be a place where might makes right. Is it too much to say that those who have no time for church are doing all they can to bring about such conditions? That is what neglect amounts to. Which class do you belong to? You can start getting into the right class tomorrow by enrolling in some church of our city. We invite you to worship with us. Programs have been arranged that you will enjoy and at the same time be built up on the most holy faith. Sunday school, 9:45 o'clock. Preaching, 11 o'clock. Theme: "The Man That Lost His Grip."

How would you like to live in a city like this? A city without churches would be like a railroad without engines—nothing to make things go. A city without churches would receive a great deal of advertising of the wrong kind. It would be so selfish that there would not be a single hospital of any-where organization in the interest of humanity. Half of the population would be afraid of the other half. The motto of such a city would be an eye for an eye, or do the other fellow before he does you. It would be a place where might makes right. Is it too much to say that those who have no time for church are doing all they can to bring about such conditions? That is what neglect amounts to. Which class do you belong to? You can start getting into the right class tomorrow by enrolling in some church of our city. We invite you to worship with us. Programs have been arranged that you will enjoy and at the same time be built up on the most holy faith. Sunday school, 9:45 o'clock. Preaching, 11 o'clock. Theme: "The Man That Lost His Grip."

CHURCH OF CHRIST
If you can be pleased by hearing the gospel only, you will be pleased when you come to the Church of Christ, for the gospel is all we have to offer. Services Sunday: Bible school, 9:45 o'clock. Preaching, 11 o'clock. Communion, 11:45 o'clock. Young People's Bible study, 6 o'clock. Preaching, 7 o'clock. Communion, 7:45 o'clock. JESSE F. WISEMAN, Minister.

EPISCOPAL MISSION
The Rev. John Lecher will assume leadership of the local Episcopal congregation today in his first sermon in Pampa, which he will deliver at 11 o'clock in the music cottage on Central high school campus. All members of the church are urged to be present, and others are cordially invited. Sunday school will be held, as usual, at 9:45 o'clock, with classes for all ages. R. C. Sowder is superintendent.

FIRST CHRISTIAN CHURCH
Services for Sunday will be as follows: Sunday school, 9:45 o'clock. Sermon by the pastor and communion service, 11 o'clock. Four Christian Endeavor societies, 6:30 o'clock. Our congregation will join in the union service to be held at the First Methodist church, and no evening services will be held at the First Christian church.

FIRST BAPTIST CHURCH
Sunday school, 9:45 a. m. Morning preaching service, 10:45 a. m. Amarada Mission Sunday school, 2:30 p. m. Amarada Mission sermon by Rev. G. P. May, 3:30 p. m. Orchestra practice, 4:00 p. m. Training service, all union, 6:15 p. m. Evening preaching service, 7:30 p. m. Baptismal service, 8:30 p. m. praise part of the service will begin speaking at 11 o'clock. The song and

praise part of the service will begin at 10:45 o'clock. The sermon will be on the subject, "The New Jerusalem." An old-fashioned consecration service will feature the closing minutes of the morning meeting. This evening the pastor's sermon will be evangelistic. The subject will be announced from the pulpit this morning.

Every member and friend of the church is urged to attend the services today. Visitors will find here a cordial welcome.
D. H. TRUHITE, Pastor
JOHN LEE HARRIS, Asst. Pastor

A. A. U. W. and College Club Banquet and Musical Revue Is Given With Marked Success

Members of the Pampa branch of American Association of University Women and the college club, with their husbands and friends and the honored guests of the club, met Friday evening at the organization's annual founders' day banquet at Central auditorium, where they were audience to the most spectacular amateur theatrical presented in Pampa—a cleverly written and beautifully staged musical revue, "Progress of the Texas Panhandle."

The company was seated for the banquet at a large U shaped table, which was decorated with vases of handmade blue bonnets and streamers of blue and leaf green crepe paper. Place cards were miniature maps of Texas on which the locations of San Antonio, oldest city of the state, and Pampa, the newest, were designated by tiny stars. The Canary Sandwich shop catered for the affair.

With the revue the principal feature of the entertainment, the banquet table program was brief. Mrs. Tom E. Rose, program chairman of the club, and Mrs. C. T. Hunkapillar, president, welcomed the guests and introduced the club's guests. The Rotary Ann Trio, of which Mrs. Tom W. Brabham, Mrs. Frank Elliott, and Mrs. Lynn Boyd are members, sang a song of welcome, and the assembly rose for the club song. The Rev. Tom Brabham asked the benediction.

The revue, a highly colorful spectacle of seven scenes, was the second eminently successful banquet program to be furnished the club by Mr. and Mrs. Duerr. Together they planned the international relations program of last February, and together they wrote the historical show of song and dance. Mrs. Duerr was the author, and Mr. Duerr writer of the lyrics.

Harold White was director general. The talents which made him outstandingly successful in Little Theatre productions of Amarillo and Wichita Falls, a role of both actor and director, were apparent in the finish of the staging of the revue.

In the titles of the seven scenes may be read the theme which was developed in choruses, silos, and dances. They were as follows: "The Time of Barren Prairie," "The Time of Cattle," "The Time of Wheat Farming," "Cotton Picking Time," "Next We Have Oil," "Now Comes Carlin Black," and the finale, "The Texas Bluebonnets." Beautiful stage sets and cycloramas, designed especially for the show; unusual lightings; and attractive costumes added immensely to the striking effect. B. C. Allen was stage manager, with Oscar Dial, Bayburn Burks, and Arthur Swanson as assistants. Mr. Duerr acted as electrician, assisted by Dr. H. H. Hicks.

Mr. White was assisted by an able staff of coaches for the song and dance acts. Miss Marie Batal, teacher of dancing, presented a number of her pupils and with three young girls, performed a ballet. She also coached a girls chorus. Miss Arless O'Keefe, trained the wheat harvesters chorus. Miss Nettie Sims also coached a school girls' group for a dance. Mrs. Lynn Bold and Miss Iva June Willis directed choral work. Clifford Whitmore was pianist.

The large cast included many outside the club membership who assisted in making the entertainment one of unusual interest. Entrees were important of themselves. Miss Mary Camuse gave a clog in the first intermission, and a Bowery tap dance before the finale. J. A. King sang two songs, the latter a Swiss yodeling melody, and Clemont Smith sang.

The performance will be repeated at the auditorium Tuesday evening, benefiting the Public Library, which is badly in need of funds. The same cast will appear under the auspices of the A. A. U. W. The show is scheduled for 8:15 o'clock, and is open to the public, with a charge of 50 cents for adults and 25 cents for school children.

Grass accustomed to taking long walks with out telling his destination disappeared from his home at Edcouch, near here, Jan. 17, during a severe cold spell.

Funeral services will be held tomorrow.

Mrs. Wilson's Niece Is Deb

Miss Clara Bolling, a niece of Mrs. Woodrow Wilson, has just made her debut in Washington society. She is shown here in her latest picture. Prior to her marriage to the war-time president, Mrs. Wilson was Mrs. Edith Bolling Galt, a widow.

TEXAS U. FIVE BEATS BAYLOR BY 42-25 SCORE

AUSTIN, Jan. 25. (AP)—The University of Texas stepped into the undisputed lead of the Southwest conference basketball race by trouncing Baylor here tonight 42 to 25. The team which forced the Longhorns to play two over time periods at Waco before they emerged victorious was never in the lead tonight.

Baylor did not score until 13 minutes of the game had elapsed. The Bruins rallied late in the first half to bring the score to 16-11, but Texas came back at the start of the second period to run its score to 32 and put the game on ice before Baylor tallied.

Fomby was high individual scorer with five field goals and four free throws.

Wheat Goes Up to Close Erratic

CHICAGO, Jan. 25. (AP)—Buying support for wheat prices developed in rather surprising fashion at times today, and the market averaged higher, although irregular at the finish. Some of the buying was based on news of a 25 below zero cold wave heading toward domestic winter wheat territory, and threatening possible crop damage. On the other hand, unofficial estimates were current that Argentina has harvested 50,000,000 bushels more wheat this season than the Argentine government figures indicate.

Closing quotations on wheat were uneven, 1-4 cent decline to an equal advance as compared with 24 hours before. Corn closed 1-4 cent off to 3-8 cents up, oats unchanged to 1-4 cent higher, and provisions unchanged to 17c down.

Helping at times to lift wheat prices today in Chicago were figures at hand showing that primary receipts of domestic wheat are continuing to be decidedly under the arrivals at this time not only as compared with a week or a year ago but for several years back.

Corn and oats price changes were largely a result of the influence of wheat action.

Provisions tended downward, responsive to setbacks in the value of hogs.

Hog Prices Firm in Market Circuit

KANSAS CITY, Jan. 15. (AP)—U. S. D. A.—Livestock trade around the eleven-market circuit this week was featured by a firm to higher price on hogs, notwithstanding the fact that supplies were comparatively heavy. Clos-

ing values are unevenly steady to 20c higher as compared with a week ago. Total offerings were around 760,341, an increase of 167,000 over last week and 89,000 heavier than a year ago. The sheep supply approximated 282,200 against 272,674 last week and 261,986 a year ago. Fat lambs suffered losses of 25 to 75c while at several points material declines were taken by matured classes of sheep. Cattle trade was marked by an uneven decline on most all grades of fed steers and long yearlings except a few long fed kinds which were regarded as specialties. Medium weight and heavy steers were marketed freely and several markets reported losses of 50 to 75c on such offerings. There was a fair demand for well conditioned steers of light weight. Aggregate receipts estimated at 185,900 were 27,000 less than last week and 20,000 more than a year ago.

MODERN

The keynote of present day furniture and the methods of buying is its "modernism". Not modernistic but modern to meet the needs of a modern age.

WRIGHT'S LOWER COST AND SALES SYSTEM was created to give to the buyer more value for his money; to allow him to use furniture bought on time payments, without paying an exorbitant carrying charge. Buyers all over the Panhandle have taken advantage of this plan and have saved money in both the original cost and the carrying cost.

Modern furniture has always been stocked by Wright Stores and buyers are quick to appreciate the high quality of the furniture found on our floors.

WHEAT—

(Continued from page 1.)
for so long that the carry-over figure remains about the same year after year, regardless of whether or not the crop is a bumper.

Mr. Barlow, who is general manager of the Great West Mill and Elevator at Amarillo, estimated that 20 per cent of last year's Panhandle wheat crop of 40,000,000 bushels is being held. The amount is estimated at around 8,000,000 bushels.

The countries that regularly import wheat from the U. S. are behind on importing the usual amount of grain that is required to satisfy their needs, Mr. McMurry said. "These countries usually import a certain amount but seven months have passed since harvest and they haven't bought half of what they should. If they do arrange to import the usual amount before next harvest, the price may hold its present level but present indications are that it will go down," he declared.

Power farming is used almost exclusively in this territory, and especially in the sowing and harvesting of wheat. This was concluded by Mr. McMurry who says he believes there were 300 and 400 combines with twice as many tractors in use here last season. E. N. Black, assistant manager of a farm-implement company branch in Amarillo, states that there are now between 5,000 and 6,000 combines in this area and nearly 20,000 tractors. The peak in the sale of combines here was three years ago when about 85 were sold.

SCHOOLS—

(Continued from page 1.)
county, was granted here today by Judge R. B. Minor.

The ruling held that the rural aid bill was unconstitutional and that it violated the state and federal constitutions. It further was ruled that it denied constitutional right to a taxpayer.

Notice of appeal was given.

AUSTIN, Jan. 25. (AP)—Several thousand students will be forced from high schools and several hundred rural schools must shut down as a result of the injunction granted in San Antonio today, L. W. Rogers, first assistant state superintendent of schools, said here tonight. The state was enjoined from spending the \$5,000,000 appropriation for rural aid made by the 41st legislature for the current biennium.

Rogers said that all those schools which had used their district funds and the regular state allotment of \$17.50 per pupil and which were depending on appropriations from the enjoined fund would have to shut down. "The whole rural aid division of the department is paralyzed by the decision," he said, "since all salaries in it come from this fund."

He estimated the number of schools affected at 3,600.

The legislature made the special appropriation to supplement the regular school funds in order that all schools of the state might be guaranteed a term of six and one half months. The department planned to use \$2,500,000 of the fund this year, and approximately \$500,000 of it had been spent.

"It complicates matters for those districts which have been sending pupils to other high schools, depending on that fund for the tuition fees," said Rogers. "The payment by the state has not been made, it having been the plan to pay at the end of the term."

ONCE UPON A TIME—

Irene Castle McLaughlin, famous dancer, developed a severe case of typhoid fever, necessitating bobbing her hair. Her unusual haircut is said to have started the now universal bobbed hair craze.

SALVATION—

(Continued from page 1.)
night that it had distributed 3,643 garments, 259 pairs of shoes, and 36 quilts and blankets.

An average of 50 transient men are furnished soup daily. The demand made upon the headquarters, 212 East Foster, have been constant during recent cold weather and unemployment. Contributions of clothing have been generous, while cash donations have been made by more than one hundred persons to the various funds. More than \$1,500 has been raised.

Ensign King said there were families in Pampa who desired to employ cooks, house-keepers and nurse-maids. He said that he had many women listed who desire such employment and he urges all the needy to get in touch with him as the Army does not propose to feed and clothe able-bodied persons who can take jobs.

NEW WELLS—

(Continued from page 1.)
ders, section 4, block 1, drilled to a total depth of 2,560 feet was shot with 180 quarts from 2,449 feet to 2,560 feet and is now swabbing 95 barrels.

Alexander and Shell Petroleum corporation's No. 1 Hurray-McKinney, section 163, block 3, is pumping 85 barrels daily. Pay was struck from 3,150 feet to 3,170 feet.

Drastic proration measures is expected to be drafted at the meeting of the operators here Tuesday, in view of the apparent failure of the proration agreement here during the past month. The month will end next Friday with production hovering around the daily production mark of the last week in December. The purpose of the proration plan was to lower the daily production below 40,000. It is now clear that bad weather, as much as proration, was responsible for the 5,000-barrel-a-week drop in the production from Jan. 5 to Jan. 19. The best weather of the month has been seen here this week, and simultaneously production increased. The operators will meet Tuesday at the Schneider hotel to discuss proration and measures to enforce it, and to discuss action on Humble's cut.

Wells and their production compared with the previous week follow:

Carson—195 wells, producing 8,962 barrels, a loss of 231 barrels.
Gray—511 wells, producing 54,361 barrels, an increase of 1,416 barrels.
Hutchinson—577 wells producing 23,565 barrels, a loss of 1,146.
Moore—179 wells, producing 597 barrels, a gain of 29 barrels.
Wheeler—38 wells, producing 547 barrels, a loss of 86 barrels.
Total, 88,032 barrels, a gain of two barrels.

INDICTED MAN FOUND
COLEMAN, Jan. 25. (AP)—Charlie Rice, brother of Willie and Joe Rice who are in McCulloch county jail charged with robbing the Lohm State bank Jan. 6, was arrested today at San Bernardino, Calif., officers here were advised. He was indicted by the grand jury here at the same time his brothers were.

Five is the sacred number of the Moors.

LIBRARY—

(Continued from page 1.)
from all tickets sold by members for "Marianne", which will be shown at the Rex Feb. 5 and 6. The offer of the A. A. U. W. and College club to sponsor a repetition of the musical revue, "Progress of the Texas Panhandle" next Tuesday evening, contributing 75 per cent of the profits to the library, likewise was welcomed.

It was the consensus of opinion, however, that the main support of the library would of necessity come from private subscriptions. Mrs. Finley and other officers of the new administration were confident that the public would respond generously when a general call was made. An executive board session is planned for this week, following which it is planned to open a drive.

"Dripping Dry Dallas"
DALLAS, Jan. 25. (AP)—Time worn traditions concerning the placing of a bottle of champagne in cornerstones of buildings were brushed aside here today when the treasure box in the corner stone of Dallas' new federal building and post office was sealed. Instead of the pre-Volstead bottle, a copy of the national prohibition act, contributed by Federal dry agents in Dallas, was placed in the box.

LUBBOCK CITY MANAGER,
FORMER BANKER, RESIGNS
LUBBOCK, Jan. 25.—(AP)—Gus W. McCleary, city manager, tonight announced his resignation.

Mayor Harley Woods and the city commission accepted the resignation but inserted a 90-day clause during which time McCleary's successor will be chosen.

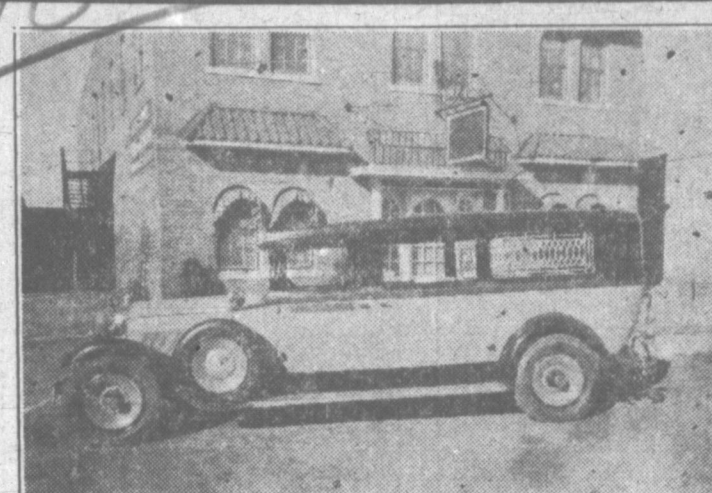

McCleary, former Honeygrove banker, has been in the employ of Lubbock for nearly three years, the last 26 months as city manager.

PURPORTED HOLMES SLAYER
WOUNDED IN ESCAPE TRY

WEWOKA, Okla., Jan. 25. (AP)—Frances and Marie Logan, sisters, were held here tonight in connection with the smuggling of a pistol into the Seminole county jail here where an attempted break last night resulted in the wounding of two prisoners.

One of the wounded men was Gerald Woodworth, who in a purported confession claimed to have killed John A. Holmes, district attorney at Borger, Texas. The other was Bill Bryant, neither was badly wounded.

BANK ROBBED AT NIGHT
MATEWAN, N. J., Jan. 25. (AP)—The Matewan bank was held up tonight by five men armed with pistols who escaped with approximately \$20,000. A sixth member of the gang was waiting outside in an automobile.

This Malone Ambulance used exclusively as an invalid coach.

CHEVROLET
50 horsepower six cylinder engine
Not until you drive the new Chevrolet Six can you appreciate what a wonderful improvement has been made in its famous six-cylinder valve-in-head engine. With its capacity increased to 50 horsepower, it has great reserve energy for sweeping up the steepest hills—for swift acceleration—and for sustained high speeds. Its power flows evenly and smoothly. And it is extremely flexible in traffic. In fact—it does everything you could possibly want a motor to do. Yet it is remarkably economical in its use of gasoline and oil. Come in today for a demonstration.
