#### WHAT DOES YOUR NEIGHBOR THINK?

How does your property look to other people? There is a question which the innate pride of every citizen should cause him to ask himself. Is your back alley a litter or tin cans, waste paper, boxes, garbage and trash?

Check up on your own property, see just how bad it looks, and then look at your neighbor's property. If his property is as dirty and unsightly as your own you will probably feel that he needs to do some clean-up work. Don't you think he may have the same thought about yourself? The Chamber of Commerce is preparing to start a clean-up campaign here within a short time and an appeal will be made to the pride of each citizen. No effort will be made at force. The man who doesn't have sufficient pride to keep his property clean will find that no effort will be made to make him clean up. If his own pride will not cause him to take part in the general clean-up, if he will not keep his property clean, then no member of the Chamber of Commerce committee will make a strenuous effort to have him get his property cleaned up.

The campaign will be strictly an appeal to civic pride of each individual property owner. What will be the result? It will be a campaign successful just in proportion to the pride you, and you, and you, have in the appearance of your property to your neighbor and the visitor in our midst .- Panhandle Herald.

### AMERICAN LEGION ADDRESSED BY PRESIDENT HOOVER

The colorful scene in the Boston Arena as President Hoover addressed members of the American Legion at their twelfth national convention is pictured above. The Chief Executive is shown standing before a battery of microphones which carried over a nation-wide hook-up his speech predicting that peace for the United States "has never stood more assured than at this moment." In the front row on the platform behind him are, right to left, Secretary of the Navy Charles Francis Adams, Mrs. Calvin Coolidge, former President Coolidge, Mrs. Hoover, National Commander O. L. Bodenhamer of the American Legion, General John J. Pershing and General Henri Gouraud of France. Five hundred Boston uniformed police and 100 plain clothes men were ordered out to protect the President against possible Communist demonstrations.
