

BEAUMONT MOB DEMANDS NEGRO CHICAGO ENDURANCE FLIERS APPROACHING NEW RECORD KANSAS FARMERS HOLD WHEAT-PRICES NOW BELOW COST

"That's gold in these here prairies."

This is your city. Are you doing the minimum service required of everyone worthy of the title of good citizenship? For that matter, are you a member of the Chamber of Commerce?

The list of Chamber of Commerce members, in classified form, appears this month in "Pampa", official organ of the B. C. D. It is a fine list, but certain classifications are not very well represented.

The B. C. D. organ presents some interesting figures on chain letters and how much they cost. If every person getting a chain letter should send nine others, and this process were repeated thirteen times, how many letters do you suppose would be written? The mathematicians say the number would be 317,733,228,541. And the cost would be \$6,354,664,570.82, at 2 cents per letter. The work and money involved would pave all the roads in the country.

Oklahoma City's experience shows that many misunderstandings exist with regard to drilling for oil within corporate limits of a city. Pampa has an ordinance prohibiting such drilling and it is commonly supposed that vacant property—and other kinds, for that matter—have no possibility of oil development. This ordinance, however, is questionably legal.

In all probability, should the ordinance be tested, it would be as useless as Oklahoma City's. The Oklahoma folks who fear that derricks will march thru their pretty city and leave but a greasy memory of its fine lawns and parks are hiring the best legal talent available in an attempt to draft an ordinance that will stand. Oklahoma City has property valued at at least two hundred millions. Oil wells drilled at customary intervals within her corporate limits would produce a net revenue of but a fractional part of that value. Frankly, Oklahoma Citizens who have civic pride do not wish derricks invading the better parts of the city.

But unless cities can show that the value of an oil well on a piece of property would not net greater income than the value of the property, they have little chance to prohibit drilling. As it now stands, property owners within a city have as good an opportunity, legally, as those without to drill an oil well.

TWINKLES
Pampa Lions are honest, but oh, so playful. In an election last week, the ballots totaled 57 and there were 44 Lions present. President Curry held a new election, and overruled a demand for an investigation.

El Paso finds Juarez a very good argument in inviting conventions, Juarez cafes, including "The Home of Special Pils", are inviting West Texas editors to meet in El Paso in 1931.

Wisconsin men are reported to be impressed with South Texas, and to disbelieve thoroughly the tales told them by realtors of their home state. And the next problem will be to get West and South Texans acquainted with each other.

We have few shrubs, but at least we don't have to campaign to have hedges cut close so the ladies will not fear runs in their hose.

The "other" candidates seem to be having a hard time finding very effective things to say against our Clint Small. The professional politicians can sling mud with abandon and be pretty sure of hitting the mark most of the time.

CLYDE REED IS URGING ACTION

Wants Form Board to Buy 25 Million Bushels

TOPEKA, Kans., June 28. (P)—Kansas wheat growers, harvesting what is estimated to be the largest acreage in the state's history, but 40,000,000 bushels short of the record production, apparently are storing as much grain as possible, in preference to selling at the current low prices.

Chairman Legge, of the Federal Farm Board, repeatedly has urged that farmers retard the movement of grain to market. Most authorities believe the price slump has resulted in growers heeding this advice.

Today it was indicated that approximately half of the Southwest

Oil Production in Gray County Has Large Increase

The optimistic effect of the Humble Oil and Refining company's decision to rescind its intention of withdrawing as a crude purchaser from Gray county was reflected this week in the county's daily production, which increased 2,346 barrels over last week. Daily production of Gray county was 75,640 barrels and of the Panhandle area, 107,989 barrels.

One large producer, Texas company's No. 9 Faulkner, section 29, block B-2, was completed at the total depth of 2,783 feet for an initial production of 2,516 barrels of oil and four million feet of gas. The same company's No. 4 Wright, section 13, block 3, was drilled to a depth of 2,844 feet, and had an initial production of 873 barrels of oil and 16 million feet of gas. The same company's No. 2 Archer, section 174, block 3, was completed for 144 barrels of oil from a total depth of 3,770 feet.

The initial production of Wilcox Oil and Gas company's No. 15 Combs-Worley which came in last week in section 35, block 3, was estimated this week at 5,950 feet.

Empire Gas and Fuel company's No. 1 Sailor, 330 feet from the south and west lines of the northwest quarter of section of section 138 block 3, cellar. Magnolia Petroleum company's No. 1 Sailor, 990 feet from the south line and 330 feet from the west line of the east half of the northeast quarter of section 138, block 3, location. Midwest Exploration company's No. 2-A Bowlers, 330 feet from the east line and 990 feet from the north line of the west half of the southwest quarter of section 63, block B-3, location. Smith and McDonald's No. 1 Chapman, 990 feet from the north and east lines of the southwest quarter of section 52, block 25, rig up.

Daily production of the various counties compared with the previous week follows:
Carson—213 wells producing 8,042 barrels, a decrease of 1,041 barrels.

Gray—598 wells, producing 75,640 barrels, a gain of 2,346 barrels.

Hutchinson—960 wells, producing 23,185 barrels, a loss of 696 barrels.

Moore—19 wells, producing 351 barrels, an increase of 31 barrels.

Potter county—1 well, no production.

Wheeler—39 wells, producing 761 barrels, an increase of 229 barrels.

Total production 107,989 barrels, an increase of 819 barrels.

MILK GRADES IN CITY ANNOUNCED BY DR. WORRELL

Grades of all milk and milk supplies distributed in Pampa have been determined by the local health department in accordance with the standard grade, specifications of the U. S. Public Health Service standard inspection code and ordinances of the city, according to Dr. T. J. Worrell, assistant health officer.

Milk consumers of Pampa are urged by the city health department to purchase milk and milk supplies on the basis of grade. Each bottle of milk sold within the city limits is marked with a grade on the cap, and the different grades offered for the sale by restaurants, soda fountains, grocery stores, and other firms are conspicuously posted in order that the consumer may be advised as to the grade of milk purchased.

As a matter of information, grade "A" Pasteurized milk is the safest pasteurized grade and Certified milk; Taylor Farm Dairy, permit No. 1, grade "A" raw milk and grade "A" Pasteurized milk.

Talley Addition Election Will Be Held on July 8

Citizens of the Talley addition are scheduled to vote for or against incorporation on July 8, according to a petition on which was signed by Judge Ivy E. Duncan Friday. Notices of the election will be advertised and posted Monday, giving location of voting place and election officials.

Petition for the election was filed during the week by J. G. Christy of the Pampa Development company, developers of the Talley addition. It was signed by 53 citizens of the addition. According to statutes pertaining to incorporation, a township must have a population of 600 before it can be incorporated into a city. The 1930 census gave that section of Greater Pampa a population of approximately 800.

Mr. Christy stated that incorporation is being sought in order to improve the streets and make other improvements. Citizens in the addition would undertake erection of a school within its limits, should the voters approve the plan. Letting of a franchise to furnish gas to residents would also be considered if it was said.

Hunter Brothers in Fine Family Effort

BREAK NEARLY CAUSES HALT

Men Have Been Up 17 Days—Very Tired

CHICAGO, June 28. (P)—The weary pilots of the monoplane, "City of Chicago," John and Kenneth Hunter, were on the home stretch of an air race against time and endurance tonight, at 4:40 p.m. (Chicago daylight time) they had rounded out their seventeenth day aloft. At 5:01 a.m., Sunday the "City of Chicago" if still aloft, will equal the 420-hour refueling record of the "St. Louis Robin," and an hour later establish a new record of human and mechanical endurance.

Dogtired by the strain of a 17-day vigil, deflated by the even roar of their motor, the Hunter brothers breathed the cool night air, propped drooping eyelids open and pluckily took their turns at the stick.

"All's well. We shall beat the record," they scrawled with trembling pencil, in a note tossed to the ground crew below.

A few hours before it had not been so well. An oil plug, weakened by high pressure, burst and sprayed the cabin with hot oil. Their clothing soaked, the brothers tossed it overboard and toiled in underwear five hours until the break was mended. Then the "Big Ben" flew overhead, made contact and dropped fuel, fresh clothing, and black coffee to fortify the sleepy pilots.

Close to harbor the ship hovered tonight, droning around a narrow orbit less some mishap find it too far from port and mother ship. Down beneath the revolving eye of sky harbor's beacon the rest of the Hunter quintet—brothers Waites and Albert and sister Irene—watched to carry up equipment, gas and oil, and refreshments for the family champions in the air.

Houston Clings to Lead in Building

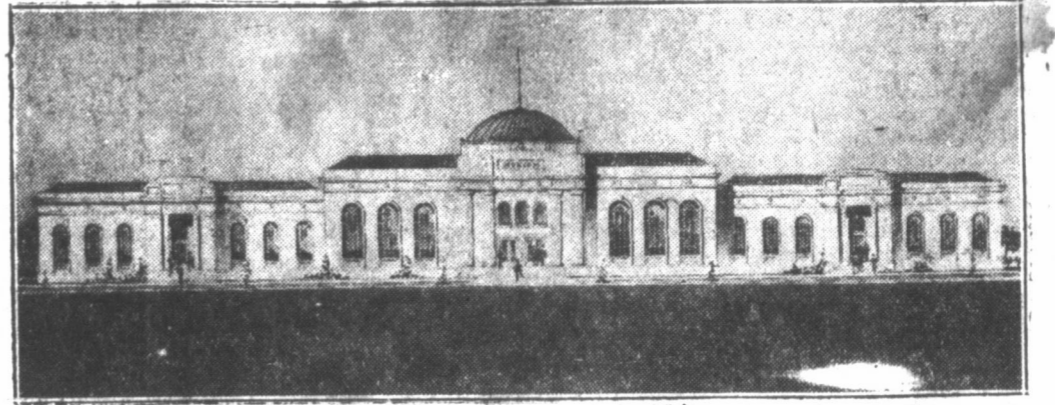

DALLAS, June 28. (P)—Houston kept its lead of the state in building permits this week with a total of \$400,044, bringing its yearly total to \$9,904,236—still the state's largest. Dallas was second with \$326,157 for the week and a yearly total of \$5,539,585.

Austin's total of \$41,876 for the week placed it \$392,069 ahead of the total for the first six months last year. Its 1930 total so far amounting to \$2,071,368.

Cities reporting were as follows:

Proposed Pioneer Memorial Building at Canyon

The above illustration is the architect's drawing of the Pioneer Memorial building which the Panhandle Plains Historical society proposes to erect next year at Canyon. Prof. L. F. Sheffy, who is devoting much time to solicitation of funds for the project, was in Pampa Friday in its behalf in consultation with T. D. Hobart, president of the society, and others.

Clue in Bomb Case

Threat Recalled By Payne But Meaning Doubtful

AMARILLO, June 28. (P)—The bomb which yesterday killed Mrs. A. D. Payne and blew to bits the automobile she was driving, was intended for her husband, relatives of Mrs. Payne declared here today.

"Our daughter could not have had an enemy. There was never anything in her life that would bring such a tragic death upon her," said Mr. and Mrs. J. C. Johnson of Austin, parents of Mrs. Payne. They came here from Lovington, N. Mex. Police said today they believed they had no clue to the mystery of the explosion but did not expect to make any arrests for several days. They recalled that Payne notified police several months ago that a threat had been made against his life. The difficulty had been settled, however, and Payne did not suspect anyone connected with that case. He was still at a loss to explain the motive for the blast. Detectives working on the case were assembling fragments of what they believed had been a TNT bomb, planted beneath the driver's seat in Payne's automobile.

A. D. Payne, J., 14, who was in the car with his mother at the time of the explosion, and whose leg and arm were almost blown from his body, was reported today as improving and had a chance to recover. He had not been told of his mother's death, attendants fearing the shock would be too much for him.

Talking to an uncle today, the boy said the car was filled with smoke, just before the explosion. Thinking the smoke had escaped from the exhaust of the car, he said his mother speeded up the machine. Then the blast came, and the boy did not recover consciousness until he was in the hospital.

The only tangible evidence found consisted of fragments of what might have been a container for an explosive, officers said. A sack wrapped about part of the wrecked automobile machinery, they decided, was a freak of the explosion and had no special significance.

AMARILLOANS INJURED

In a collision between a truck driven by Arlean Harrington and an automobile near White Deer Friday evening at 8 o'clock, Dr. and Mrs. H. A. Hill of Amarillo were seriously injured and Mrs. W. L. Siebold suffered several fractured ribs. Mr. Siebold's husband was slightly injured. The driver of the truck was unharmed. The accident occurred at a railroad crossing. When the C. C. Malone ambulance arrived, the automobile was on its side in a corner of an adjoining wheat field. The injured persons were taken to an Amarillo hospital in the ambulance.

More than \$3,240,000 worth of books and pamphlets were exported by the United States during the first three months this year.

PAMPA RESIDENTS SHOW MUCH INTEREST IN PIONEER BUILDING TO BE ERECTED SOON IN CANYON

Pampa citizens—members of the Panhandle Plains Historical society and non-members, alike—are vitally interested in the Pioneer Memorial building which the Historical society proposes to build in tribute to the early settlers of this section. L. F. Sheffy, field secretary of the society, learned upon his visit here last week in the interest of the building campaign.

Here, as elsewhere, Mr. Sheffy said, people are awakening to a realization of the epic and picturesque history of this section and to a sentiment to have it preserved to future generations in a more tangible, colorful, and living form than mere volumes and cold print can preserve it. There is a growing sentiment, too, he said to pay tribute to the heroism of the frontier men and women, living and

Moving of Houses to Pampa From Other Towns Continues Briskly

For three years residents of towns adjacent to Pampa have been abating that most of their vacant houses were being moved to this city. Mushroom oil booms in certain towns left scores of vacant houses.

Moving of them to Pampa has been one of the most expedient ways of relieving the housing situation here. Last year it was seldom that one travelled on Highway No. 33 to Amarillo that he did not meet a house being moved toward Pampa. This exodus still continues, according to E. E. Townsend, city building inspector. Except that now many houses are being from Amarillo to Pampa. Last week the business of moving houses from Amarillo and other towns to Pampa was particularly active, Mr. Townsend said. "The contractors just can't build enough houses in Pampa, it seems," Mr. Townsend said. "Very few houses here stay vacant longer than a day, and apartment houses are rented before they are completed. One reason why so many houses are moved here is because they can be trucked here more quickly and cheaply than they can be built."

In addition to a half dozen moving permits, Mr. Townsend also issued building permits aggregating \$7,525, raising the total for the year to \$647,338.

Permits were issued to the following:

To F. C. Graham to build a \$3,000 frame house in the White House addition; to the Union Oil and Gas company to build a tile stucco structure in the Eller addition at a cost of \$1,500; to E. J. Gutherich to erect a tile stucco building in the original addition at a cost of \$1,000; to Mrs. Sadie M. Sweetman to build a frame residence in the Hill Crest addition at a cost of \$3,000.

The bell which sounded the alarm in the Chicago fire has been placed in a museum. For 55 years it announced the opening and closing of the exchange in Chicago Board of Trade.

FEELING RUNS HIGH BUT NO VIOLENCE YET

Officers' Guns Await First Sign of Attack

SHERIFF TALKS TO DELEGATION

Port Arthur Men in Dangerous Mood, Report

BEAUMONT, June 28. (P)—Five men from Port Arthur, where it had been feared another mob would be formed tonight to try to lynch Rainey Williams, negro, alleged attacker, came to the county jail here tonight and calmly requested that Sheriff W. W. Covington give up the negro to them. Sheriff Covington said he "reasoned" with the men and they finally agreed he was right in insisting that the law take its course.

Whether their presence was in the nature of a "feeler" and whether they intended going back to Port Arthur to report, no one knew.

Guns Laid Out
Meanwhile, preparations went ahead for resisting any violence. Loaded rifles were laid along the concrete floor of the jail, which was declared to be practically fire proof. A sub-machine gun, ammunition to another machine gun placed at the head of the stairs leading to the death cell where the negro was confined, was laid, freshly oiled, alongside the rifles. It almost would take dynamite, deputies declared, to dislodge Williams, as it would be necessary to cut through

J. A. Pearson Is Honored for Work in Vets' Behalf

J. A. Pearson, grand chef de gare of the Texas department of the Fort and Eight, who was signally honored at the recent state convention in Amarillo of the Veterans of Foreign Wars for his outstanding work on behalf of the ex-service men, received the plaudits of members of the Kerley-Crossman post of the American Legion and its guests at the luncheon Friday when he was introduced by Frank Thomas, who also introduced him to the V. F. W. convention in Amarillo last week.

Both Mr. Thomas and Mrs. Pearson gave interesting reports of the veterans' convention. Visitors at the luncheon included T. E. Lawlor, member of a New York City Legion post; Sherman White, McLean Legionnaire; George Briggs, secretary of the Pampa Chamber of Commerce and B. C. D. manager; and F. M. Foster.

Mr. Briggs outlined plans for the radio broadcasting club for Pampa, whose organization he said was almost completed. Broadcasts from here would be made by remote control through an Amarillo station. Mr. Briggs told his audience.

The regular meeting of the Legion post next Tuesday night was announced as one of the most important of the year. Officers urged that every member attend.

WILL SEAL BOXES

O. K. Gaylor, acting postmaster, announced yesterday that he had received orders from the postoffice department at Washington to seal up all boxes at the local postoffice on which rent had not been paid July 1. Mr. Gaylor said these instructions would be strictly enforced, and that persons who have lapsed in payment of rent should make prompt deposits.

The Husband Hunter by Ruth Dewey Groves

BEGIN HERE TODAY
Natalie Converse, jealous of her husband's friendship with Bernadine Lamont, leaves him. Alan seeks consolation with his secretary, Phillipa West, who has cleverly managed to become engaged to him.

Alan goes to Phillipa's apartment for dinner, afterward spending the night at a hotel. The next day Natalie comes to the office to plead for forgiveness, but Alan is out. He telephones and Phillipa does not tell him that Natalie is there.

Phillipa, fearful that Alan's anger will not endure, uses a letter from Bernadine in a plot to discredit Natalie. She changes the name of a stock Bernadine wants to one that is worthless.

Natalie, sick with despair, is stricken to utter hopelessness by Alan's accusations. He tells her he despises her, and leaves to go to Bernadine and offer to repay her losses. Bernadine is alarmed at his state of mind.

Natalie returns, and Alan realizes that he loves her, but his entanglement with Phillipa prevents him from seeking a reconciliation. He asks Phillipa to release him but she refuses, and makes an effective appeal to his pity.

Natalie's sister, Florence, fakes an illness to bring him back to himself, but Phillipa still stands between them. Florence departs, hoping they will get along better if left to themselves. Natalie makes a visit to Alan's office and there meets Bernadine, who is seeking business advice.

"You did me a great honor," Alan quickly assured her. "I'm sorry, too, that Natalie couldn't have shared it with me by being your friend. But that is her fault, not ours, Bernadine."

"Still... oh, Bobby! Bobby! Alan, do you think it would be any good if I went to Natalie, and told her there's nothing between us for her to be jealous of?"

Alan said that she was becoming hysterical. "I'm going to call Natalie," he said firmly, and did. During the few moments he waited for the servant girl to come, he spoke sternly to Bernadine.

"Natalie has put herself beyond forgiveness," he said. "Don't think of her, Bernadine. She's not worth it. Bobby is all that counts now with you or me."

He had forgotten Phillipa, who a moment before, had risen in his mind like a ghost. Bernadine's talk of a second marriage for him had litened his thoughts to Phillipa. He had not felt any upsurge of joy, but—he was conscious that he felt relieved over it—he hadn't thought of her with aversion either.

She was fond of Bobby. Given a chance, she would love the boy. This idea had been pleasant enough to enable him to take his mind off Phillipa and think of Bernadine.

She was weeping now, the tears raining down her cheeks unchecked. "I could just be sure that I hadn't done this to you, Alan; that I wasn't responsible for your home being broken up, I wouldn't mind so much, because even if you loved Natalie, I'd still want you to have Bobby in a home where he was welcome. I'm selfish, I know, but I can't help that. Oh, you'll never take him to any woman who'll be unkind to him, will you? Promise me that, Alan. Promise me you won't do that?"

Alan gently released her clinging hands, and turned her over to Natalie, who had come as fast as she could from the nursery upstairs, without bringing Bobby with her. He had been determined to come, for he had recognized Alan's voice when the latter stepped into the hall to summon Natalie.

"Send for Dr. Wagnall, please, sir," he begged of Alan. Dr. Wagnall came as soon as he could. And all he said was, "Now you will stay in bed, Mrs. Lamont, until I tell you you may get up."

Bernadine closed her eyes and did not answer him, but an enigmatic smile played around her lips. "You don't have to worry about that, Bernadine," Alan told her. "I wouldn't marry any woman who didn't love Bobby. And you know Natalie doesn't care for children. He's glad she'll never have a chance to hurt him," he added fiercely.

Bernadine sighed. "I was afraid it was like that," she said. "Alan, tell me, did Bobby have anything to do with your quarrels with Natalie?"

Alan answered uncomfortably. "She never knew why you went for me that first night I went to your house."

"Then, she was jealous of me?" "Yes," Alan admitted. "So I thought it best not to tell her about Bobby, unless... unless it became unavoidable."

"I'm sorry Bernadine spoke with deep regret. I'm afraid I didn't consider your wife that night, Alan; or you either, perhaps. I was thinking only of Bobby."

Bernadine managed a weak smile. "And raise chickens," she said. "It's the dream of every actor's life. But I know better, Alan."

He came over and put a hand on her shoulder. He was much quieter now. "That's settled," he said. "And if you will take my advice, you'll invest the money safely, put this home on the market, and go to live quietly in the country somewhere."

Skellytown Raids
PANHANDLE, June 28. (Special)—Six persons were arrested and five gallons of whiskey and 600 bottles of beer were seized in a raid made at various places at Skellytown by officials of the sheriff's department of Carson county Thursday.

The men were brought here and charged with possession of intoxicating liquor for the purpose of sale. They were released on bond, pending action of the grand jury.

To Attend Michigan U
Clifford Braly II and Tom Braly left today by automobile for Ann Arbor, Mich., where they will attend the summer school of the University of Michigan. They will also visit in Chicago, and in Wisconsin and Minnesota cities before touring a part of southern Canada.

Drivers of Sixes never want Less!
Driving a Six means wanting a Six for good. Driving a Six simply closes the argument. Driving a Six is so much different and better that all the miles seem to repeat, "It's Wise to Choose a Six!"

MAGNOLIA IS EASY WINNER OVER PHILLIPS

Nobody except a fan with bad eyesight could have told that the Phillips "66" team which last Sunday came near defeating the Gulf Guns...

The game lasted seven innings, and the Magnolias ran 2 in the first, 2 in the second and five in the fourth. The Phillips runs were made in the second and sixth. Five Magnolia runs were made on walks.

The Magnolia stickmen knocked two hurlers out of the Phillips box, Wright and Rains. Kirkpatrick was hit from shortstop to the mound in the sixth, and he seemed to have better luck than his predecessors.

The Magnolias introduced their new pitcher, Melton, yesterday and when Blankenship relieved him in the first of the sixth, he had been hit four times by Phillips. Kirkpatrick hit Blankenship and made a run in the sixth. Robinson and Vernell each made home-run for the Magnolias.

Ward did some spectacular fielding. Bacucus of Estelline also played his first game with Magnolia Friday. The Magnolias soon discovered the weakest spot of the Phillips, left field and Forrester, Romine and Hull ranged in that area from time to time.

Former Teachers Will Return to Canyon College

CANYON, June 28. (Special)—Several announcements concerning the faculty of the West Texas State Teachers college for the coming regular session have been made by J. A. Hill, president of the college.

J. Fremont Meade, a graduate of this institution and a former instructor here, will be a member of the English department next year. This summer he is teaching in the State Teachers College at Denton.

Mr. Meade will take the place of Miss Margaret Wiley, who is on a fifteen-month leave of absence. Mitchell Jones will return in the fall to the department of physical education for men and the department of education. He will be freshman football and basketball coach and will have charge of all intramural sports.

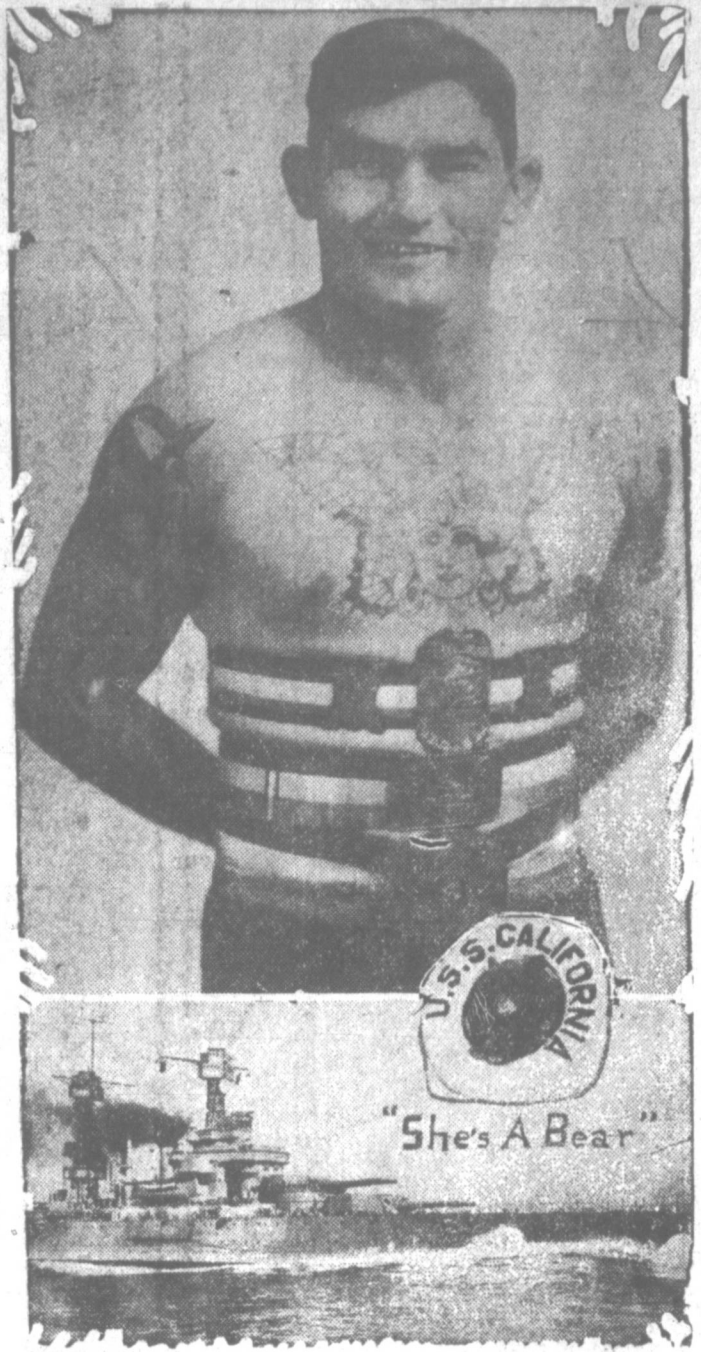

Miss Mary E. Hudspeth, head of the department of Spanish, will return to her duties this fall. She will complete the work for her M. A. degree in Peabody college for teachers this summer.

FIRES EXTINGUISHED

Two fires in the east part of town threatened to spread to dangerous proportions Saturday morning but were extinguished by the fire department before much damage was done.

California Girl Wins BROOKLINE, Mass., June 28. (AP)—Josephine N. Cruickshank of the University of California gained the girls' intercollegiate singles tennis title by defeating Marjorie L. Sachs of Radcliffe college and Cambridge, the former North and South champion, 6-1, 6-0, here today at the Longwood grass courts.

Tex Watkins Coming Back

Here he is boys, the slugging sailor, Tex Watkins, who will wrestle in the modern manner with the terrible cotton picker, Joe Kopecky, at the Pla-Mor next Thursday night.

Guns to Take Four Hurlers to Memphis for Big Game There

Headed by four pitchers with a classy reputation, the Gulf Guns will leave at 9 o'clock this morning for Memphis, where they will attempt to puncture the big bubble that the Memphis Owls have blown up in that section of the Panhandle.

WIMBLEDON, Eng., June 28. (AP)—When the big canvas cover that protects the precious turf of the famous center court was drawn into place tonight at the close of the first week's play in the Wimbledon championships, the names of American players dotted the final stages of the draw sheets.

And that isn't counting a possible victory for Big Bill Tilden over Henri Cochet, reigning singles champion, but only on Helen Willis Moody winning her fourth women's title in as many years.

The Tilden-Cochet final is in prospect for next Saturday and, although the tall American was given a stiff fight during some stages of his match today against Ed Andrews, he won, 6-4, 6-4, 6-2.

Tilden was the fifth American to reach the final eight in the men's singles play, George Lott having gained his niche by beating the South African, P. D. B. Spence, 6-3, 6-3, 10-8.

In the women's singles Mrs. Moody dominates her half of the draw where the others are Phyllis Mudford, her next opponent; Joan Ridley and Mme. Mathieu of France. The lower half comprises Betty Nuthall and Elizabeth Ryan, Helen Jacobs, and Cecille Aussem, the German star.

Only three rounds of the men's doubles have been played and there are four American pairs still in the running. The titleholders, Allison and Van Ryn, who whipped the Japanese pair, Tabio Abe, and Takeichi Harada today, 6-3, 6-4, 6-4, have as companions George Lott and Johnny Doe, Berkeley Bell, and Gregory Mangin, and Tilden, who is paired with the Dutchman, Hans Timmer.

Mrs. Moody and Elizabeth Ryan; Edith Cross, of San Francisco and Sarah Palfrey, of Boston; also have reached the third round of the women's doubles with Allison and Cross, Mangin and Miss Palfrey, and the Anglo-American pair Jack Crawford and Miss Ryan are in the third round of the mixed doubles.

RUTH'S HOME RUNS DEFEAT CLEVELAND

NEW YORK, June 28. (AP)—Babe Ruth's two home runs, which brought his total for the season to 29 and put him top games and as many days ahead of his 1927 record, were only the final flourish today to the pair of severe beatings the Yankees inflicted on the Cleveland Indians. The scores were 13 to 1 and 14 to 2.

Ruth's two homers came in the second game, one off Holloway and one off Glatto. In his record year he did not hit his 29th until July 9th. Cleveland . . . 000 100 000—1 7 3 New York . . . 700 121 20x—13 15 0

Philadelphia Athletics Finally Win PHILADELPHIA, June 28. (AP)—Scoring a run in the ninth inning after the St. Louis Browns had tied the count at 5 to 5 by scoring one in their last turn at bat, the Philadelphia Athletics won today by 6 to 5 and maintained their slight grip on first place.

Honor Joe Judge WASHINGTON, June 28. (AP)—Washington celebrated Joe Judge day by taking its eighth straight victory, defeating Detroit, 12 to 4. Joe Judge, who was honored by Washington fans with gifts on his fifteenth anniversary with the team, observed the day with a triple in his first time at bat and followed up with two singles.

White Sox Defeated BOSTON, June 28. (AP)—The Red Sox today pushed over the Chicago White Sox into the American league cellar by defeating them today 4 to 2. For Pitcher Danny MacFayden it was his sixth victory of the month and his fifth in a row. His single in the fourth inning knocked in the first of three runs made off Lefty

Magnolia Will Meet Miami Team at Local Park This Afternoon

The hard-hitting Magnolias are all set to vanquish the Miami baseball club at 3 o'clock this afternoon at Magnolia park. Varnell was chosen to fill the pitchers box, although Melton and Blankenship will be held in reserve should the Miamians prove to be heavy swatters.

In the last week, Magnolia has developed an impressive club and the line-up has undergone a change that is undoubtedly for the better. The Magnolias are now vehemently anxious for a game with either Skellytown or the Gulf Guns. They routed a careless Phillips team 15 to 2 Friday afternoon, pouncing upon two "66" pitchers and knocking them out with two and three base hits and home runs.

The Magnolias are negotiating with the Guns for a game next Sunday, July 6. While the Magnolias were bringing in Bacucus from Estelline, "Home-Run" Robinson from Rotan, Kozelski, Varnell, Melton and others, the Guns have not been idle. They have recruited the Marcum brothers and Wethered from Estelline and several other hot shots. When these two teams meet, local fans can be absolutely assured of seeing a first-class game.

The batting order this afternoon will be as follows: Mitchell 2b, Bacucus ss, Robinson 3b, Kozelski 1b, Shriver rf, Ward cf, Blankenship or Melton lf, Lynn c, Varnell p. Bozeman the crack Magnolia catcher will be in the cellar with a swollen ankle.

OAKMONT, Pa., June 28. (AP)—George T. Dunlap, Jr., was only a Princeton student this morning, but this afternoon he was a super-gofer, coming from behind in one of the most sensational rallies in any first grade competition to win the intercollegiate golf championship of America. He defeated Lawrence Moller, Notre Dame, five up and four to play.

ROBINS IN TIE WITH CUBS IN GAMES WON

CHICAGO, June 28. (AP)—The Cubs gained a tie in games with the Brooklyn Robins for the National league lead today although they remained a few points behind in the percentages. They accomplished the feat by defeating Brooklyn, 4 to 2, in a close mound duel between Pat Malone and Ray Phelps for Chicago's second straight victory. Malone allowed seven hits and scattered them through six innings while Phelps allowed the Cubs to bunch a few of their nine blows in the fifth and seventh frames for three of their runs.

Miller Asserts He Is "Out to Win"

COMMERCE, June 28. (P)—Lieut. Gov. Barry Miller, in a speech prepared for delivery here tonight in his campaign for governor, declared he was "not only in this fight to the finish but I'm in it to win."

"I am not running this race on the issues of the next national election," Miller said. "Recognizing that Texas is confronted by grave and serious internal questions upon the solution of which depends the progress and prosperity of her people, and the solution of which will call for all that is best in any man, I shall devote my energies and whatever abilities I have to these problems."

The candidate reiterated his opposition to the proposed \$350,000,000 road bond issue and to the proposed relocation of the state prisons. He pledged himself to law enforcement and to a plan for redistribution of taxes.

CHURCH OF CHRIST

Francis and Warren St. It is a very popular doctrine that teaches that one may have one's choice of churches, or one's choice to a plan of salvation. This has been taught so much that often people take for granted that it is true, and never study for themselves.

Perhaps you have noticed in studies of this nature that no reference is made to the Scripture, and if it is a misapplication of the Bible.

The Bible teaches that God is no respecter of person. If it is true, God will not save one man one way and another in still a different way. Let us study and think for ourselves and not be content with the doctrine of men, but rather prefer the pure and unadulterated gospel.

Services: Bible study, 9:45 a. m. Preaching, 11 a. m. Subject: "Others."

Communion, 11:45 a. m. Young peoples class, 7:45 p. m. Preaching, 8:30 p. m. Subject: "Does It Make Any Difference to the Lord What Church People Belong To?"

Business Men's Association May Extend Scope

From an original membership of 37 in 1927 to a membership of 120 in 1930, is one of the achievements of the Pampa Business Men's association. Pampa now has one of the best retail credit reporting bureaus in the state.

The Malone Furniture company was the first to sign with the organization, in April, 1927, and this firm with many others of the original 37, are still members in good standing.

C. S. Pierson was the first secretary of the association. He resigned in September of 1927, and was replaced by Carson Loftus, who has occupied the office, since that time.

Not only does the membership in the association include the principal retail firms of Pampa, but also many active members in Skellytown, LeFors, White Deer. There are members of the organization as far away as Dallas, Wichita Falls, and Houston. Present plans of the association would extend the activities to incorporate McLean, Alanreed, Groom, and Miami.

Several members of the medical profession in Pampa, realizing that through the Pampa Business Men's association they could secure an essential protection, have recently aligned themselves with the association.

This type of organization is said to be one of the most difficult to organize, and when organized, one of the most difficult to be managed properly. The Pampa association is a member of both the State and National retail credit association.

"Pop" Frazier, Band Director, Is Much Pleased by Pupils' Progress

R. E. "Pop" Frazier is very proud of his growing school band, and expects to be even more so when it appears at the early football games next fall to cheer the Harvesters and give the fans an extra thrill. The director confidently expects to have a hundred students in the high school and junior bands shortly after the opening of school.

The band classes organized a few weeks ago by Mr. Frazier have now a membership of 44 students, which the director considers an exceptionally large enrollment for vacation work. Others are invited to join at any time.

Group practice, according to instruction, is held three times each week. By the middle of next month, ensemble work will be under way, with the entire band meeting twice each week and the groups continuing to practice three times.

The more experienced players will be grouped in the Central high, while the beginners and less experienced will be organized in a junior band, where they will receive training to enable them to advance to the senior group. Both bands will play frequently in public, according to Mr. Frazier.

Instrumentation of the band, as it now stands, is as follows: Clarinets—Mary Dwyer, Turney Mullinax, Chester Hunkapillar, Mabry Simmons, Miles Marbaugh, Max Marbaugh, Myrle Eisten, Howard Zimmerman, Thomas Clayton, Howard Vanderburg, Tillie Bagwell. Soprano saxophones—Smith Wise, George Ingram.

C melody saxophones—Jack Waldstad, Martha Jones, Oletha Jones, Maxine Robinson.

Alto saxophones—Ralph West, Mickey Bagwell, Muriel Love, Everett Vanderburg.

Trumpets and cornets—Holly Blymiller, Roger Townsend, Roy Webb, Paul Potter, Tom Swatman, Robert Surratt, Jack Powell, Wayne Larsh, Fred Vanderburg, Robert Daugherty, Tom Rose, Jr.

Altoes—Hester Lester, Charles Fager, Howard Richardson.

Trombones—Howard Lane, Elsie Vanderburg.

Baritone—Henry Smith, Cy Allen.

Basses—Carysle Blymiller, George Davis.

Drums—Philip Powell, Glen Twiford.

Xylophone—Sara Frazier.

Theatre Fans Await Opening Made Thursday

Filled with delicious fun and hilarious nonsense, "The Cuckoos", Radio Pictures' wild riot of waggery, opens today at the Rex theatre. The show brings the talking screen something entirely new in entertainment.

"The Cuckoos" is not a revue. It's not a musical comedy, although comedy and music hold full sway through the production. The show is a distinct departure from the conventional, offering a well-knit story which serves as a background for the antics of the maddest pair of comics ever to grace the screen—Bert Wheeler and Robert Woolsey, who won picture fame in "Rio Rita."

Romance has not been neglected, and a tender love strain is carried by June Clyde and Hugh Trevor. Wheeler and Woolsey are capably aided in their lunacy by Dorothy Lee and Jobyna Howland. Ivan Lohbedoff and Mitchell Lewis are the "bad men" and Marguerita Padula lends her glorious voice to a number of song hits.

Filed partly in Technicolor, offering ten luring hit songs, numbering more than a thousand in its cast and containing the liveliest set of chorus presentations ever

brought to the screen, "The Cuckoos" is said to have everything that makes for perfect screen entertainment. Judging by its record-breaking reception in other cities, "The Cuckoos" is expected to attract capacity audiences during its showing here.

Mrs. Ray Workman and daughter, Frances, of Amarillo visited Mr. Workman and his parents, Mr. and Mrs. F. C. Workman, of this city last Friday. Accompanying them were Mrs. Ray Workman's mother, Mrs. Dobb; her sister, Mrs. Coffee, and the latter's children, all of Dallas.

A column of news and views for Pampa people and our farmer friends.

A garage has been built on an ocean line but it won't look home-like to the average man without a lawn mower, a hose, and last years trousers.

Speaking of lawnmowers, a man must have a real good one these days to have retained any ambition to keep the grass mowed and trimmed. We have that kind.

MODISTIC
The summer's vogue in female dress is such, our experts find that girls won't drive a car without driving the fellow blind!

June bride business has been good. There are just lots of things in our stock that make wonderful wedding presents. Silverware, Tiffin glassware and novelties are among the most popular.

Dr. Webb . . . says: "Doctors should attend the poor promptly. They never call a doctor unless there is something the matter with them."

AS A FEATURE OF THE FOURTH OF JULY CELEBRATION WHY NOT HAVE SOMEONE THROW OUT THE DRAGONET?

And again the Glorious Fourth is just around the corner. This year, as usual we won't be able to celebrate for harvest is not yet over, and we will be sticking around all day to serve the needs of the farmer who breaks down and needs repairs.

Never hit a man when he is down. He might get up and talk about you behind your back.

You just ought to hear our customers talk about No. 11 McCormick-Deering Combines. They are making a good record for clean threshing and covering the territory.

EXASPERATING

Pittsburg, Kansas Raided by Agents

PITTSBURGH, Kans., June 28.—(AP)—Entering Crawford county early today in a surprise raid, thirty federal agents, assisted by county officers tonight had sixty persons in custody on liquor charges. More than 100 were expected to be arrested before the raiders complete their work, the most drastic cleanup this district has ever experienced.

The raids netted nine stills, several hundred gallons of liquor and 7,000 gallons of mash.
Armed with eighty warrants, agents, headed by Donald H. McIvor of Wichita, United States marshal for Kansas, and his deputies, ob Wells of Fort Scott and Frank Boone of Wichita, entered the county about 3:30 p.m. from three sides about 3:30 o'clock this morning.

THINKS PROTECTION FOR DE PRIEST UNNECESSARY

MONTGOMERY, Ala., June 28. (AP)—Governor Bob Graves today advised the Ministers' Interdenominational Alliance of Washington he did not believe it necessary to comply with the organization's request to furnish protection for Oscar De Priest, negro congressman from Illinois, who is scheduled to address a meeting of negroes in Birmingham July 17.

WHEAT—

(Continued from Page 1)
Kansas harvest was completed. Farther to the north, at Salina, it was said that one-third of the cutting was finished, and that 90 per cent of the wheat will be down with in a week.

G. A. Ward, head of the Kansas Farmer's Union, voted dissatisfaction at Salina at failure of the Farm board to stabilize wheat prices.

The cost of production price level in Kansas the state over is at least 90c a bushel, meaning that the grower must take a sharp loss if he sells at the current market," said Mr. Ward. "The price is ridiculously low yet about 50 per cent of Kansas wheat will be forced upon the market because the growers lack the finances, the storage room, to hold the grain."

Governor Clyde M. Reed, joined Mr. Legge today in the suggestion that Kansas Growers move their grain to market slowly, but in a telegram to Mr. Legge renewed his proposal that the board purchase 25,000,000 or more bushels of the year's crop as a stabilization measure.

Governor Reed said he did not believe world conditions warranted the current low level of prices.

Receipts due to the holding tactics of the growers, have not been unusually large at most markets. Today Kansas City received 257 cars; Wichita 200; Hutchinson 510, and Salina 75.

Heavy hail damage to parts of Southwestern Kansas added considerably yesterday to woes of growers there. Damage was reported near Dodge City in Ford county, and in Lane, Hodgeman, Finney, Gray and Grant counties.

C. C. Isley, grainman, at Dodge City today estimated storage facilities had been increased 10 million bushels over last year in the territory that markets wheat here. This includes the southwest quarter of Kansas, Texas, and Cimarron counties, Oklahoma, and Dallam county, Texas.

Elevator capacity here has been doubled by a terminal elevator, other elevators have been built over the territory and many farmers have erected granaries.

PIONEERS—

dead, with a monument befitting their work and sacrifices.

Hope to Raise \$50,000
It is the wish of the Panhandle Plains Historical society to have under construction by or before the time of its tenth anniversary, in 1931, a building to be known as

Pioneer Memorial, in which the portraits of pioneer men and women of the section will be hung and preserved. A fund of \$50,000 is the goal of the society for the memorial fund, and the generous response of citizens of all the counties into which the campaign has been carried indicates that sum will be forthcoming.

Working in conjunction with T. D. Hobart, president of the regional society, and the eight other members of the building committee, Mr. Sheffey is visiting as many of the pioneers and their families as he can reach throughout the Panhandle, and scores of other citizens who wish to see the history of the Panhandle preserved in a colorful form.

"The interest everywhere is wonderful," Mr. Sheffey said. "Almost without exception, the individuals with whom Mr. Hobart and the field secretary discussed the projected building enthusiastically supported the plan, many of those outside the society's membership quite as heartily as those belonging to the historical society."

Donations Received
Some handsome donations toward the building fund were received in Pampa by Mr. Sheffey. Among these was a \$500 contribution received from a resident who is not a member of the historical society. Promises of gifts and tentative offers, all of which Mr. Sheffey considers as definite contributions, were received her also.

The memorial hall, which is to be the first unit of a projected museum on the campus of West Texas State Teachers college, Canyon, where the historical society had its birth, will be devoted solely to a portrait gallery in which the pictures of frontier men and women will be preserved. Obviously, even a \$50,000 gallery would have its limits. However, any contributor to the building fund will have the privilege of placing his own or another bona fide pioneer's portrait there.

Plans Are Drawn
The memorial gallery will be the center of the museum, according to the building plans drawn by Carder and Rittenberry, architects of Amarillo. Other wings will contain the rare and valuable ranch records, Indian collections, papers, paintings, and archeological specimens already owned by the Panhandle Plains Historical society, incorporated.

The firm of Carder and Rittenberry will supervise construction of the building without cost when the funds are available, according to an offer made some time ago. Judge H. E. Hoover of Canadian is chairman of the building committee. Other members of the committee, all active in carrying on the campaign, are the following: T. D. Hobart of Pampa, Horace M. Russell of Amarillo, J. A. Hill of Canyon, Mrs.

W. T. Coble of Amarillo, Mrs. Olive K. Dixon of Miami and Amarillo, Col. R. P. Smyth of Plainview, W. H. Patrick of Clarendon, and Gene Howe of Amarillo.

NEGRO—

(Continued from Page 1)

four steel doors to obtain entrance into his cell.
Automobiles were passing by the jail with increasing frequency and now and then someone driving would shout out to the officers groused about the sidewalk and in the building. Lights played on the front part of the jail. The police were attempting to keep the automobiles moving on, allowing no one to park except on business.

Almost constant communication was kept with Port Arthur authorities, who were ready to report any movement of men in this direction. Firemen were ready to stand by with their hose if necessary. The jail is only a few blocks from the police station.

Refinery Men Warned
Reports from Port Arthur saying "they are coming" were being received rapidly but the sheriff placed little or no credence in them. Refinery officials from Port Arthur were here, the sheriff said, passing out word that any employee participating in violence would be discharged.

At 11:45 p. m., the sheriff was informed that four automobile loads of men determined to "get the negro" were en route from Port Arthur. He was prepared for immediate resistance.

Meanwhile the crowd was growing a bit larger and the sheriff walked out of the jail with his rifle.

At 11:15 p. m. police began ordering a group of men congregated in front of the jail entrance to move back. The idlers gave way for a few feet but they suddenly halted when a stout young man began calling out; "Stand where you're at; we're free, white and 21 and pay our poll taxes."

A policeman argued with the stout one for a moment and the group was ordered not to move any further.

The stout young man took his group across the street with him and the sheriff went out to ask them to disperse.
"The law's got to take its course,"

said the sheriff.
"I don't know so much about that," answered the other.
"Boys, were citizens of the United States and how is the chief going to move us?"

Covington replied by taking him by the arm.
"Don't let him take me, boys," he said.
Two or three men grasped the complaining man's arm, but quickly let go. His name was said to be Abbott. Covington put him in jail, saying "he's" drinking."

Round Rock Negro Killed By Posse

AUSTIN, June 28. (AP)—Less than an hour after he had shot and seriously wounded Mr. and Mrs. R. L. Eggar of Round Rock, near here, Jack Robertson, a negro, was shot and killed by a posse today. Mr. and Mrs. Eggar were in a hospital at Georgetown in a serious condition, but their wounds were not expected to prove fatal.
The shooting was said to have followed an argument over the payment of wages to Robertson by Eggar.

The negro was shot by two members of a posse estimated at 150 who took up the search immediately after the Eggars were wounded. He had attempted to flee from Round Rock but was intercepted along the road to Austin and killed instantly. Eggar and his wife were shot shortly before noon in their residence in the presence of their 14-year-old daughter, Willie Mae. Immediately following the shooting the girl ran to a neighbor's residence and spread the alarm.

Reports that the girl had been carried away by the negro alarmed the entire village and in a short

time a large posse had been formed to search for the assailant.
Eggar was shot in the head and breast with bird shot from a shotgun. Attending physicians stated he probably would lose the sight of his right eye. Mrs. Eggar was shot in the right breast and side. Part of Eggar's face was torn away by the force of the shot.

The negro fled immediately after the shooting in an automobile with his wife, and neighbors, who had heard the shooting, rushed to the assistance of Mr. and Mrs. Eggar. Robertson was intercepted by two members of the posse after he had proceeded about five miles from Round Rock. According to officers, the negro opened fire on the posse first and was killed after the woman had been ordered from the automobile.

Eggar was a widely known farmer and dairyman of Williamson county and had resided in the district a number of years. The negro had been in his employ about 16 months. Attendants at the Eggar couple at the Georgetown hospital reported tonight they were resting comfortably.

Front Yards Like Show Windows, But Back Ones Really Are Gardens —Clyde Fatheree Home Is Example

They are one group of householders in America which holds that the front yard should have the same function as a show window, and that every inch should be crowded with all kinds of flowers, shrubbery and plants. Another group subscribes to an opposite theory, which is an urban English idea of horticulture. Their front yards are symmetrically landscaped but are lacking in borders of flowers. In most yards there is not a single flower bed or a flower. There is usually nothing striking about the front grounds except well-tended and attractive shrubbery, but the back yard is different. "Back yard" is not the right word. "Garden" is preferable.

This garden at the rear of the house is usually not visible from the street or front entrance, and it is a delightful surprise. It usually reflects the extremely personal taste of the owner, who feels he cannot flaunt that taste to the public from the front yard. He regards the front yard as a conventional duty and as everybody's business. It is therefore purposely made unostentatious. The back yard is regarded as a luxury and as nobody's business except the owner's. He feels that everyone has the right to criticize him for his front yard but that no one has the right to intrude in his own back yard.

This does not mean that the front yard lacks beauty, because this kind of a yard is, when properly landscaped and cared for, the essence of classic beauty. The front yard of Mr. and Mrs. Clyde Fatheree at No. 919 Christine street in the Cook-Adams addition is this kind of a yard, and Mrs. Fatheree is an ardent convert to the latter theory. The grounds around the Fatheree home conform rigidly to this idea. Mrs. Fatheree's front yard shrubbery, lawn, trees, and the arrangement of the whole have a touch of classic and the luxuriant which is hard to achieve. We acclaim her shrubbery to be the loveliest and most pleasing in town, but of course, that is because it happens to be the kind of shrubbery we would plant. A noteworthy thing about the shrubbery around the front of the Fatheree residence is that it blooms. Both Forsythia and dogwood bloom in the spring, yellow and pink respectively, and the leaves are luxuriant. Elder also blooms. Between the sidewalk and the street on all sides of the house are Chinese elms. Mrs. Fatheree agrees with most every woman in town who takes pride in plants and trees that Chinese elms do better here than any other kind of tree. The lawn at the front and in the garden at the rear is clover and grass.

As stated before, Mrs. Fatheree's back yard is a delightful surprise. Next to the south wall of the garden are six large dahlias, one already blooming. There is a sufficiently long row of sweet peas. Golden glow is clumped here and there. Next to the house are four or five rows of sinias. Nasturtiums provide their own color. Asters will be blooming in the garden toward the last of summer. There is a large mass of daisies just beginning to bloom. Next to the west wall is a row of gladiolus. A rose garden is in one corner. Cosmos lend optimism to the garden. A black walnut tree is a perfect detail in the picture. Hollyhocks, cannas, sweet williams, verbenas, larkspur, annual phlox, violets, chrysanthemums are other flowers. Shrubby includes a lilac bush, myra, mock orange. It will be noted that many of the flowers are perennials and annuals. A Lombardy poplar is distinctly in place in the garden. In brief, the garden is a lovely place to spend an evening. It is beautiful

SQUARE PLAN HOUSE STILL PICTURESQUE

One of the features of this unusual design is that it is picturesque even though built on a square plan.

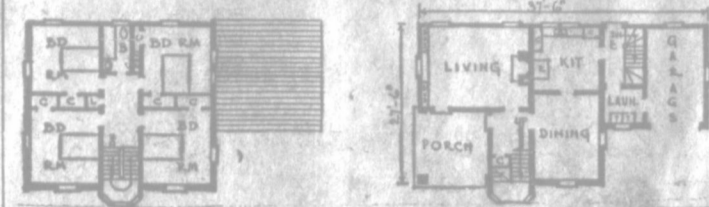

It is English in character and treatment of the half timber material, but the square plan is retained. The half timber, brick whitewashed for the first story, stucco on metal laths, and wood or slate shingles would go far toward accomplishing the desired effects with materials. The chimney is painted white and adorned with orange pots.

Among the features is a bay window on the stairs giving a central motive to the front elevation, which should be to the east.

No space is wasted on the upper floor where there is a bedroom on each corner. In fact, still another room might be built over the garage without damage to the beauty of the house.

On the lower floor the laundry and kitchen are located so as to obtain the maximum of comfort for the living room. In this living room a fireplace and space for two book nooks are special attractions. Windows are numerous throughout the house, every room having at least two. The results in ventilation are obvious.

The house is 27½x37½ feet, and

If built on a lot 50x75 would permit considerable space for lawn and shrubbery cultivation.

Considering labor and material costs, estimates as to the price of this house range from \$10,000 to \$12,000, the exact figure depending on the community where the home is built.

Virgil Scott is the guest of John Carpenter in McLean today.

J. R. Wilson, Frick-Reid employe, left yesterday on a two-week vacation trip to Arizona.

Imas Naomi McKittrick, stenographer in the office of Cook, Smith and Teed, attorneys, left yesterday for a two-week vacation trip to Gorman.

WILL NEW TOWN HURT PAMPA?

The question being asked by many Pampa citizens is whether incorporation of a new town on the west edge of the city will injure the community more than it will help any group.

In the first place, Pampa boosters are not enthusiastic about having a new town, by a new name, just across the city limits. The new civic corporation would automatically and potentially reduce Pampa's size, just as the fact that the addition was not brought into this city's limits cost Pampa more than one thousand inhabitants in the last census and prevented this city from taking first place in the nation for population increases.

Incorporation of a new town, with a post office and a separate identity so close to the city of Pampa, has many undesirable features. The confusion, the unusual instance of twin cities without a dividing state or county line, could not be detrimental.

On the other hand, it is not doubted that the incorporation would be of considerable financial profit to the developers of the addition. The advantages to the residents of the addition over a period of time would however, be very doubtful under the proposed plan.

The property is not of sufficient valuation to permit bonding for paving, sewer extensions, and the like. And should valuations increase to permit a bond issue, the taxes would likely be as great or greater than those of the city of Pampa.

People of the addition already are receiving several advantages based on property values within the city limits. Water is being sold to the addition developers at an industrial rate from the municipal plant. Fire and police protection is offered as far as the status of the addition will permit.

There are of course certain advantages in living beyond a city's limits. But with those advantages are many disadvantages through lack of modern facilities. While the proposed Talley incorporation might have some temporary virtues, we believe that ultimately the people of the addition would regret their decision.

It is a matter of grave community import, and should be studied carefully before adoption. The addition would be an asset to Pampa, but a new town would be, in many ways a liability.

ELECTORAL

Pampa Daily News: Editor Smith of the Hutchinson County News at Stinnett has abandoned his "My Harp" column to run for County Judge. We understand that he wasn't drafted, so he must simply have grown tired of harping on this and that.

Every editor is assured of his eventual harp. Once the pearly gates are opened and the benevolent old saint who watches them instructs the check girl to hand out the lyres, numbered one, two and three according to the specifications of the tall, medium and shorts who pass from the sanctum to the sanctorium, the chorus of bliss can arise from the twanging of many harp chords. The trouble with Editor Smith is that he has been too hurried about using his harp and now he is in dire danger of losing his chance at an eternal one.

Markets

LIVESTOCK STRONGER

KANSAS CITY, June 28. (U. S. Dept. Agri.)—Cattle supplies throughout the week at all of the larger markets reflected a stronger feeling in the trade and better grades of fed steers and yearlings closed at unevenly steady to 50 higher rates. Lower grades of fed offerings along with grade fat kinds were still hard to sell and late values were steady to weak with some market reporting losses on straight grass steers.

Chicago, June 28. (U. S. Dept. Agri.)—Quick right about face action of wheat prices today gave an exhibition of what a weather market can do.

Starting with an advance in quotations, the market suddenly underwent a downward slide, of the bushel from the top figures reached, mainly because of rain relief in Canadian prairie provinces.

Closing quotations on wheat were heavy at the day's bottom level, 3-1/2c a bushel under yesterday's finish. Corn closed 3/4-1c off, oats 1/2-3/4c down, and provisions varying from 2c decline to a rise of 47c. Corn and oats sagged as a result of wheat weakness. December oats

reached the lowest prices of the season.

Provisions were irregular, lard easing slightly, but meats tightening up, although trade was meager. Closing indemnities: Wheat: July 87 1/2, 92 1/2; Sept. 92, 96 1/2; Dec. 97 1/2-1.01 1/2-1.02. Corn: July 72 1/2, 75 1/2; Sept. 72 1/2-1/4, 74 1/2; Dec. 66 1/2, 68 1/2.

Mr. and Mrs. Homer Powell of Hereford were visitors in Pampa Friday.

INSIDE

and OUT

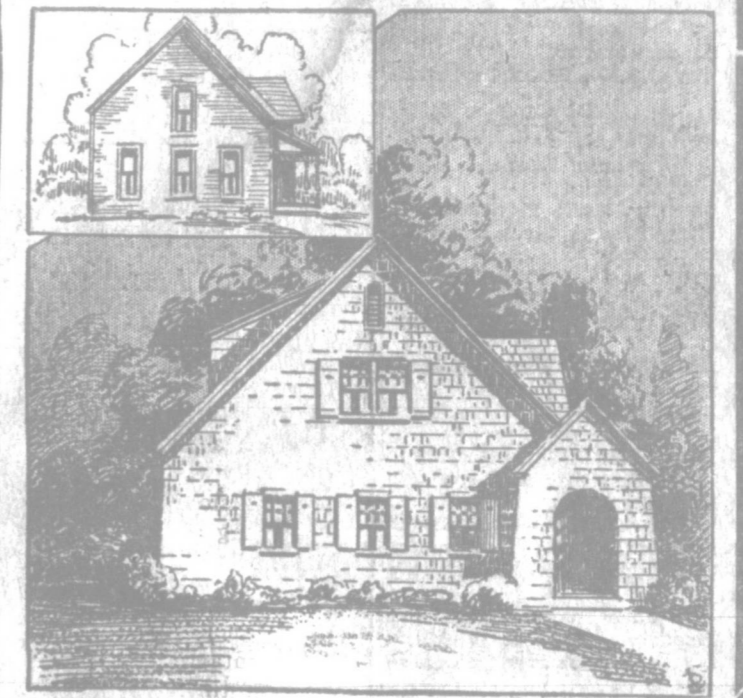

PAMPA is a city that has passed the stage of speculation as to whether it will remain a leading business center of the Panhandle. There is no longer any doubt as to Pampa's future. Evidence of a steady substantial growth are sufficient to establish confidence in the minds of everyone.

ANYONE will tell you that Pampa is a substantial city, not a town of the muchroom type that wilts over night. Many industrial concerns are now located here and others are preparing to locate here, which will materially increase payrolls and add to the permanency of the city.

MONEY is needed to carry on. Millions of dollars have been withdrawn from the money market due to recent fluctuations in values in the north and east and thus Pampa has been deprived of the privilege of using loan companies money. None of this is due to lack of confidence in Pampa, but because eastern money is tight.

PAMPA capitalists, who have become millionaires through investments in Pampa and Gray county real estate, should come forward and help the city to grow by making their money available for improving and building homes. People who would locate in Pampa are forced to locate elsewhere due to insufficient living quarters.

AS many as five hundred people here have almost enough money to build the kind of home they want, yet cannot build because of lack of sufficient money. There is no better security than first mortgages on well improved Pampa property. We appeal to those who have made their money on Gray county investments to use a part of their money to finance choice risks. File your name with our president, Mr. Carl Taylor, care of Fox Rig and Lumber Co. Your name will not be revealed to anyone seeking a loan, and you will be given the names of those whom we consider worthy of your backing. Our reason for appealing to Pampa capitalists is because we know that the capitalists of Pampa are public spirited and want to see Pampa made more attractive. At the same time from their past experience they know that Pampa and Gray county investments are sound.

The house shown in the above illustration was modernized by putting on shingles over the old siding, putting in a dormer window, new modern windows and shutters and a neat front porch. Modern built-in features such as ironing board, cabinets, china closets, linen closets. This house was modernized for \$700.

The house shown below was modernized by making a modern Spanish type house out of the old frame house by putting stucco over the siding and tile on the roof, and installing Spanish type windows and a number of built-in features inside. This house was modernized for \$1050.

TIME and weather are not to be denied. The old homestead, once an object of pardonable pride, has now become a bit unsightly, obsolete in its fixtures, buffeted by the elements and the decades. Yet you are loathe to abandon that friendly old house, that has meant so much in the affairs of you and your family.

ASOLUTION: Have it modernized. Without great expenditure you can transform the old homestead into a splendid, modern home, renewing that family pride in your residence, restoring your home to its former glory. Your home was once the pride of your family and the object of envy of the entire country-side. Consult any Pampa lumberman; he will be glad to help you solve the problem of modernizing.

The above illustration shows an old home modernized by putting on shingles over the old siding, putting in new windows and shutters, a flower box under the window and a new front porch. The floor and roof plans are not changed, but are made ne wby this transformation. This house was modernized for \$550.

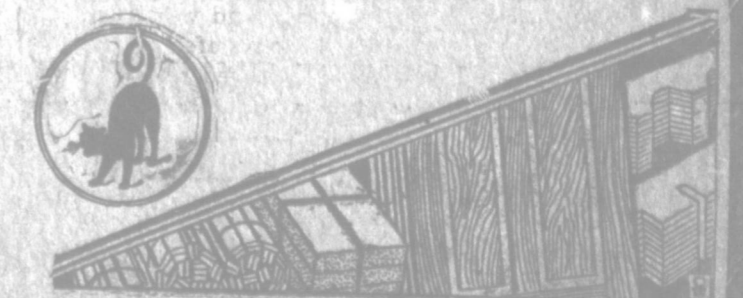

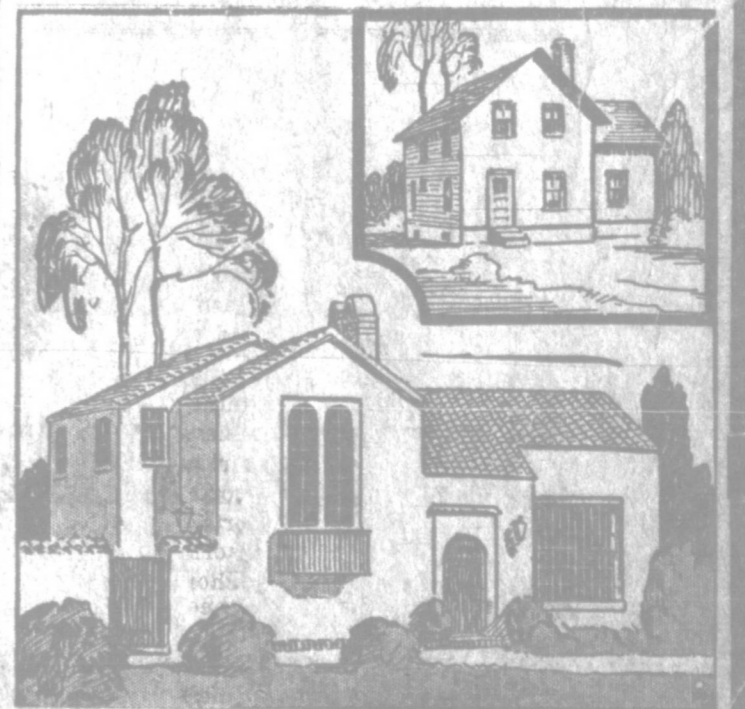

MODERNIZE

Pampa is largely a city of new houses, yet there are hundreds of homes which could profitably be altered advantageously. Some of these are the older structures, while others are newer buildings which could profitably be modernized in some particulars.

The magic of sidewalks, exterior changes such as brick veneering and the like, and interior decoration awaits those who take advantage of latest services of Pampa citizens and lumber dealers. Many persons do not realize the surprising improvements that can be accomplished with a few hundred dollars.

It is not necessary to build a new house to have an attractive residence. Many of the fine old houses of the country, some of them 75 years old, are being modernized. Whether of two rooms or the mammoth Colonial type, they can be made attractive. The carpenter, the mason, the painter, and the interior decorator are making new homes out of old. Prettier cities are the result.

Value and comfort are not expensive, but are within reach of all. Do not be satisfied with scarred floors, twisted doors, crumbling foundations, and unsightly roofs. Consult your lumber dealer about modernization. The possibilities will surprise and delight you.
