

WILL FLY FRENCH PLANE TO PARIS

FREIGHT RATES CUT THIRD IN TEXAS DROUGHT AREAS PRORATION UMPIRE HERE ISSUES FIRST ORDER IN PANHANDLE

Let the reader forget—the harvesters will open their football season next Friday afternoon at 2:30 o'clock. It will be no easy game, for the opposition—Spur high school—is probably the strongest in Northwest Texas in Class B. This is the first year in Class A for the Harvesters, and they will need your interest.

A number of patrons of this column have asked for the 1930 football schedule of Central High school. Here it is:

- September 5—Spur here.
- September 13—Perryton here.
- September 20—Hollis here.
- September 26—Lubbock at Lubbock.
- October 4—Canyon here.
- October 11—Amarillo at Amarillo.
- October 18—Open.
- October 25—Plainview here.
- November 1—Vernon at Vernon.
- November 8—Electra at Electra.
- November 14—Childress here.
- November 21—Wichita Falls here.
- November 27—Thanksgiving, Quanah here.

Before you forget it, why not clip this schedule and place it for handy reference during the season?

Marriages are made in heaven, according to some authorities. At least one Pampa wedding has been made in the skies, and quite successfully, too. The strain upon the preacher, in this modern type of ceremony is said to be exceptional, but probably this is only evening the gravity of such situations, in which the officiating party usually has the advantage.

Times may be hard, but the young folk will continue to spend millions of their dad's money for higher education. The depression may be real, yet the Tom Thumb golf courses amount to more than a million dollars in installation value and they take in thousands of dollars nightly. Yes, times may be hard, but those who have money are not unwilling to spend it on anything that strikes their fancy.

There is a tendency toward impermanency, moreover, which is unfortunate. It is the trend toward crowding into un-homelike apartments in order to obtain luxuries which could not be had were a family to build a home of the old type. Yet there is no greater luxury, no fuller satisfaction than that of a home-owned place of abode. The building trades are suffering from this movement away from the true-home-building instinct.

Chicken hunting stories strain the Pampa's credulity. Otto Steider claims reaching the bag limit for the season before 9 a. m. of the first day. Maybe he did—he was hunting in the same place he has hunted for years. He killed the feathered great-grandchildren of the prairie fowls he shot years ago. But there are other hunters who have no such knowledge of feathered ancestry. A roll of all hunters who have killed 5 or more prairie chickens this season might be of interest. We will print in this column all such who telephone us. We promise not to print the names of those who met the game warden unawares.

If the farmer ever receives, actual bonafide, constructive relief, there will be a rush of business to the farm. The relief prospects have not become sufficiently bright to start any such stampede yet.

Experiments in farm terracing in an attempt to halt soil erosion are being tried near Troy, Kansas. Wisconsin's state—Institutional farms, totaling more than 5,000 acres, made a profit of \$88,934 during the 1929 crop year, an outfit showed.

SCHEDULE IS TENTATIVE IN NATURE NOW

Corcoran Says That Any Errors To Be Corrected

LIMIT PUT AT 80,000 BARRELS

Ruling Of Railroad Commission To Govern

Oil officials of the Panhandle today were in possession of the first order of the field umpire, H. C. Corcoran, who has opened an office in the local Board of City Development rooms.

The order calls attention to the Railroad commission ruling limiting production in the Panhandle district to 80,000 barrels per day. The proration schedule is tentative, and the umpire writes that "It is the request of the committee and umpire that you accept this schedule in the spirit in which it is given with a definite understanding that the umpire and his staff will, at the earliest possible moment, prepare an issue of such further and correct schedule as may be found necessary."

The counties included in the proration are Gray, Hutchinson, Moore, Potter, Carson and Wheeler.

The following rules have been announced by the commission:

RULE 1. The following definitions and procedure are prescribed:

(a) By "individual leases" and "individual producing properties" are meant those leases and properties heretofore treated by their respective owner-operators and others as individual units and those leases and properties that may hereafter be acquired by their respective owner-operators as individual units in accordance with the common usage and custom in the industry.

(b) The "daily potential production of a well" and a lease and property is the amount of oil said well or said lease and property is capable of producing during a period of twenty-four (24) hours if pumped or if operated naturally under the usual methods. The daily potential production of wells shall be determined by gauges or other physical tests carried out and conducted by the umpire with the advice and counsel of the advisory committee provided for in rule 5 hereof, conducted at such times and for such periods and in such manner as in the judgement of the umpire and advisory committee will insure a just and fair determination of such potentials. The "daily potential production of the field" shall be the aggregate daily potential production of all wells therein, and the "daily potential production of the district" shall be the aggregate of the daily potential production of all wells in the district. The term "proratable daily potential production" of a lease and property shall mean the "daily potential production" of such lease and property as above defined, in excess of a minimum production of twenty-five (25) barrels per well average. The term "proratable daily potential production" of the district shall mean the sum total of all the "proratable daily potential production" of all the leases and properties in said district. The term "proratable portion" of the allowable production of 80,000 barrels of oil per day shall mean that portion of said allowable production of 80,000 barrels per day left available for proration after allowing for the minimum production of twenty-five (25) barrels per well average or less for each lease and property in the district, as is provided for in rule three hereof.

(c) Each fifteen (15) day period of the calendar month beginning at seven (7) a. m. on the first day of the month and extending to seven (7) a. m. on the 16th day of the month, and beginning at

seven (7) a. m. on the 16th day of the month, and beginning at

(See PRORATION, Page 6)

Arkansas Bridge Badly Damaged by Explosion

GARLAND CITY, Ark., Sept. 3. (AP)—Four expertly planned and timed charges of nitroglycerine exploded under the 303-foot span of the new state highway bridge over Red river here early today, sending the span into 23 feet of water and causing damage estimated at \$150,000. The blast damaged other spans so that they must be rebuilt. The explosions were heard for a radius of about 25 miles and shattered windows throughout Garland City. No one was reported injured.

The Miller county end of the middle span causing it to crash into the river. A ferry which has been used at this point also was damaged by the blasts, thus severing highway communication between Texarkana and Eldorado and the highway to Greenville and Bielsburg, Miss.

The bridge is on state highway number 2, about 25 miles due east of Texarkana.

LITTLE ROCK, Ark., Sept. 3. (AP)—The state highway department was informed by one of its engineers today that the new \$500,000 steel and concrete bridge under construction over Red river at Garland City, Ark., in the southwest section of the state was blasted early today.

As soon after reports were received by the highway department police here were requested to send a force of detectives to Garland City to investigate.

The explosion was caused by nitro glycerine and occurred about 3:15 a. m. today.

Preliminary estimate said the damage would amount to \$200,000. No one was reported injured.

HURRICANE WHIPPING ISLAND OF SANTO DOMINGO AND IS SLOWLY MOVING TOWARD UNITED STATES

MIAMI, Fla., Sept. 3.—(AP)—R. A. Gray, government meteorologist here, reported the receipt of radio advices this afternoon that a 136-mile-an-hour wind was recorded in Santa Domingo City at 12:12 p. m. E. S. T., indicating, he said, that a tropical disturbance reported south of the island of Haiti this morning had reformed and is passing east of the city of Santa Domingo.

NEW ORLEANS, Sept. 3.—(AP)—The tropical radio station here received a report from San Juan, Porto Rico, that the Caribbean hurricane disturbance had struck the island of Santa Domingo with a northwest wind velocity of 102 miles an hour. The barometer at San Juan was reported dropping.

WASHINGTON, Sept. 3.—(AP)—The weather bureau reported today there was no danger at present to the United States from the tropical disturbances south of Santo Domingo.

Officials added it would be several days at least before the disturbance could reach the coast of this country, if it continued its present course without losing intensity. They said the bureau was watching the storm closely and would give ample warning if that was necessary.

Nye In Attack On Mrs. McCormick

CHICAGO, Sept. 3. (AP)—A counter attack upon Private Detective employed by Ruth Hanna McCormick to shadow him was started today by Senator Gerald P. Nye, chairman of the senate campaign funds investigating committee.

While operatives of the committee were charged yesterday and today with using all manner of means to reach the "biographical information" collected about Senator Nye, he turned the guns upon them and their methods.

Lloyd E. Bemis, accountant for the senate committee, testified that one of Mrs. McCormick's agents had offered to sell him information about himself and his movements and tell him how he might forestall further surveillance because of his association with Senator Nye.

Cotton Is Traded For Subscriptions

SWEETWATER, Sept. 3.—(AP)—Not many years ago the newspaper editor who accepted wood and some times meat on subscription was ridiculed. Today we have a newspaper that offers to swap subscriptions for cotton in a campaign to relieve the existing market conditions.

The Sweetwater Daily Reporter advertised it would accept cotton at 15 cents per pound in payment for subscriptions. It said the concession was made to the farmers "in the drought area might not have to give up their paper because of cotton prices."

Since Hessian fly damage is increasing in Missouri, farmers are urged to plow under wheat stubble fields early this fall.

Stores Will Be Closed On Friday Afternoon During Football Tilt

Business men who were consulted today concerning closing of their places of business Friday afternoon from 2:30 to 5 o'clock during the Harvester-Spur football game said that they would be glad to do so and to give their personal support to the local team. The contest will begin at or shortly before 3 o'clock. New bleachers will be in place by Friday so that spectators will not have to remain in their cars.

Rotary Pledges Support To High School Squad

Expressing themselves wholly back of the football team and willing to help with the financing and securing of work needed by a few players, members of the Rotary club discussed at length the team, its needs, its prospects for winning and other details after the Rotary meeting today noon.

The subject of the team was discussed at the regular meeting and the enthusiasm of the members caused a more thorough discussion in an adjourned meeting. Many business houses will close from 2:30 to 5 Friday when Pampa high plays its first game here at Harvester park with Spur.

Enrollment Dates Announced Today

The schedule of enrollment for students of Central high school was announced this morning.

Juniors and seniors will register on Thursday, Sept. 11, from 9 to 12 a. m., and from 1 to 3 p. m.

Sophomores and freshmen will enroll on Friday, Sept. 12, from 9 to 12 a. m. and from 1 to 3 p. m.

The low sixth grade of Junior high school will enroll Thursday morning, Sept. 11, and the low seventh in the afternoon of that day. On Friday morning following, all children who arrive by bus must register and in the afternoon the high sixth and high seventh grades will enroll.

Livestock and Feed Affected Under Ruling

The order did not attempt to define the drought areas, but specified that the rates would be applicable "in the drought-stricken areas as certified by United States secretary of agriculture."

It was the understanding here that Secretary Hyde had certified only a small part of the more than 50 counties said to be in need of relief by the state drought committee.

This specification, however, was the only one the commission felt that it could equitably fix, and the order, according to rate experts of the commission, presumes that Secretary Hyde will certify others of the counties as being in the drought area.

Rates will not include switching or other accessorials charges and will not be subject to transit privileges. Rates will apply only to shipments covered by permits issued by the originating carrier of the livestock, or the delivering carrier of the feed, as provided in the embargo notice of the American Railway Association.

The rates were made effective as of August 28, until October 31.

They were made applicable on livestock in carloads from drought-stricken areas to feeding points in Texas, not including markets or public feeding lots; and on livestock feed, hay and straw for feeding purposes only from points in Texas to drought areas.

LIVESTOCK AND FEED AFFECTED UNDER RULING

Territory As Defined By Hyde Will Get Aid

PERMITS MUST FIRST BE HAD

Arrangement To Be In Effect Until Oct. 31

AUSTIN, Sept. 3. (AP)—Reduction of one-third in freight rates on livestock and feed in the drought-stricken areas of Texas ordered today by the state railroad commission.

The order did not attempt to define the drought areas, but specified that the rates would be applicable "in the drought-stricken areas as certified by United States secretary of agriculture."

Maybe Nurses Were Not So Keen Either

HOUSTON, Sept. 3. (AP)—Homer Puddy, 25, can stand lots of punishment but he's not so keen on hospitalization.

Suffering from several knife wounds, including one over the heart and a severed artery in his wrist, Puddy walked out of two hospitals early this morning and refused to go back.

The service at one was too slow, he said, and he saw no reason for staying at the other after half a dozen wounds were sewed up.

He proceeded to police headquarters and explained that a man whom he had been riding around with all night had stabbed him. Officers began looking for the man.

PAUL CODOS TO ATTEMPT GREAT FEAT

Question Mark Will Be Thoroughly Overhauled

DALLAS PLANS FINE GREETING

Ocean Spanners To Fly To Texas Tomorrow

NEW YORK, Sept. 3. (AP)—The Question Mark, flown from Paris to New York by Codos and Bellonte, will be flown back from New York to Paris by Paul Codos, French aviator, as soon as Codos and his comrades have completed flights in the plane to Dallas, Texas, and to Washington, it was announced today.

Codos will sail from France with a mechanic in a few days to be in New York when the Question Mark returns from United States flights.

The plane will be thoroughly overhauled and Codos will attempt to retrace the flight Codos and Bellonte made from Le Bourget to Curtis field.

If the flight is successful it will mark the first round trip across the North Atlantic by the same plane.

DALLAS, Sept. 3. (AP)—Dieudonne Codos and Maurice Bellonte, trail-blazers across the Atlantic ocean, east to west, will receive a real old-time Texas open-arms reception when they "hop" down here within the week to collect \$25,000 from Colonel William Easterwood, Dallas chewing gum manufacturer.

STUDY IS MADE OF TERRACING IN COLLINGSWORTH

A group of Gray county farmers and the county agent, Ralph R. Thomas, made a tour in Collingsworth county yesterday under the guidance of the Collingsworth county agent, C. C. Stinson.

Mr. Stinson showed the group some examples of terracing in his county, explaining how the terraces were located and constructed.

The effect of proper plowing was demonstrated in a field in which the deep sand had not been plowed leaving the clay on top. This land produced twice as much cotton as the land adjoining that had not been deeply plowed, and the size of the bolls was only one-half as large on the land that had not been plowed deeply.

Mr. Thomas says that the terraces in Collingsworth county are examples of proper terracing, and that so far Gray county has had no real terracing.

Included in the party that made the tour were: Ralph R. Thomas, county agent; Burrell Gias, Alanreed; Ralph Brock, Alanreed; Geo. W. Sitter, McLean; Wayland Floyd, McLean; Mr. Christian, McLean.

Publisher's Will Gives Fortunes to His Associates

BALTIMORE, Sept. 3. (AP)—The will of Van Lear Black, Baltimore publisher and world flier who disappeared last month from his yacht was admitted to probate today after a hearing at which proof of his death was established.

The will, disposing of an estate of several million dollars, leaves to the publisher's brother Harry C. Black, his interest in the A. S. Abell company, publishers of the Baltimore Sun and the Evening Sun, and leaves sums of from \$50,000 to \$250,000 each to various relatives and others.

His widow, Mrs. Jessie Gray Black and their five children, with one exception, are provided for in a provision that gives her one-third of the residuary estate and four children the remaining two-thirds.

A \$50,000 trust fund is provided for Van Lear Black, Jr., the publisher's eldest son. Mrs. Jessie Black Blackiston his daughter is bequeathed \$250,000 and her husband, Buchanan Blackiston \$100,000.

Mrs. J. Walter Lord of Baltimore, a widow and a lifelong friend of Mr. Black who was with him on the yacht Sabalo when the publisher disappeared last month, is left \$100,000.

Bequests of \$25,000 each are made to his two pilots, G. J. Oeyendorfer and J. R. Schelle of Holland who flew with Mr. Black on his flights from London to Tokio and to Capetown and the Dutch East Indies.

Boys Held For Lubbock Officers

The Gray county sheriff's department today was awaiting arrival of Lubbock officers with warrants for two young men who are held in jail here.

The lads were arrested when found selling cartons of cigarettes for \$1 per carton. They were said to have sold fifty such cartons.

Lubbock officers said that the cigarette had been bought and charged, without authority, to a small store near Lubbock.

Twenty-seven county fairs will be held in Kentucky this year.

Perfect Landing

Master airmen to the last, Codos flashed twice around the field in the deepening dusk, then banked sharply and slid into a three-point landing.

At the moment it seemed an end to an epic adventure, but later it was announced they would take off in their plane tomorrow morning for Dallas, Texas, and the \$25,000 pot of gold that has waited for three rainbows connecting the Texas city years at the end of the great circle and the capital of France. The prize is that offered by Col. William E. Easterwood for the first Paris-

WEATHER

WEST TEXAS: Partly cloudy tonight and Thursday; probably showers in extreme west portion.

—AND A SKILL

NEW YORK, Sept. 3.—It has been so warm that pictures of Fordham's first football practice look like those of a musical comedy rehearsal. The boys are shown kicking in something that looks like a mallet.

WASHINGTON LETTER

BY RODNEY DUTCHER

NEA Service Writer

WASHINGTON.—Mr. John J. Raskob is going to be the big issue of the fall election campaigns—if the Republicans have anything to say about it.

The party in power expects to make Mr. Raskob a very effective target. As long as Mr. Raskob is the Republican chairman his party wasn't in any position to say anything about the other party's chairman.

Mr. Raskob decided after the 1928 election to step into the background and allow Mr. Jouett Shouse as chairman of the party's executive committee, to take over active direction.

The Democratic publicity chief is Charlie Michelson, former correspondent of the New York World, and the Republican publicity chief is Jim West, formerly correspondent for the Associated Press.

Each party has hired an able newspaperman to fire off its propaganda barrages and recently interest in Washington was heightened as these two agents took to shooting their wads at each other and each other's methods.

More than a year ago Michelson went to work issuing daily releases to the press attacking the Republican administration with every weapon that could be found.

The Michelson blasts received a surprising amount of newspaper space. They were always well written and pungent and frequently "hot stuff."

West's job has been to defend the administration and at the same time to give to feverish outbursts of righteous indignation at the nasty attacks from the Michelson press bureau, trying to turn them into proof of Democratic unfitness to rule.

The other day he pushed out a statement by Congressman Will R. Wood of Indiana chairman of the Republican congressional committee, charging that the Michelson campaign was an "infamous plot" by Raskob to misrepresent the president and challenge, slander and malign all his acts.

AIRPLANE WEDDING DRAWS LARGE CROWD ON TUESDAY

MISS OPAL AYCOCK, LUBBOCK, LLOYD M. HARRIS, PAMPA, ARE WED; GIVEN MANY COURTESIES

Soaring more than 4,000 feet above approximately 1,500 on-lookers, Miss Opal Aycock, of Lubbock, and Lloyd M. Harris, of Pampa, were married Tuesday afternoon at the municipal airport. The Rev. Tom W. Brabham, Methodist minister, read the vows, and Nolan Harris, brother of the groom, and Miss Helen Quattlebaum, of Leody, Okla., were the only witnesses. A parachute dropped from the plane denoted that the ceremony had been completed.

The wedding was the first of its kind ever held in Pampa, and Dutch Barigis was pilot for the occasion. As the bride and groom descended from the plane, they were showered with congratulations from friends on every hand. Mrs. Harris, although a bit nervous after the unique adventure, graciously received the good wishes of the crowd and willingly posed for photographs. She was attractive for the occasion in a frock of dark brown crepe with an iron jacket effect. The skirt was circular and a narrow belt was worn at a high waistline. Her shoes were of the same shade as the dress, while her close fitting hat, gloves and trimmings on her dress were of a lighter shade.

FEMININE FANCIES

BY HOLLYCOE SELLERS
"Marriage in Texas is a failure," declared a young man the other day, "and after viewing the situation here, I've about come to the conclusion that I'll never marry. A couple will rush into marriage with very little thought, knowing that just around the corner is a lenient divorce court."

Well sir, if I hadn't seen this man myself I'd have been positive that he simply couldn't find a girl that would have him, but the fact remains that he is handsome, agreeable and entirely eligible.

Perhaps this man, like many women, actually is afraid to marry. People of this class are afraid, not of their future mates but simply of the divorce court, that "hideous something" that they allow to stand in the way of their happiness. Here's a little story for you: A boy and his girl friend are invited to go with friends to the lake for a picnic. There will be music, games, and a real feast, but the boy and girl agree that they had better stay home and play checkers. "Something might go wrong," they say, "and we might jump in the lake and drown ourselves."

"Baloney," you laugh, and so it is, but so also is the fear of the divorce court. True, there are many suicides, but there are many who are enjoying life have little fear of committing suicide. Divorce, like suicide, is entirely voluntary.

I can hear some woman saying, "I know I'll be satisfied, but I'm afraid my husband will tire of me." Baloney again! If a woman is able to win her husband she will be able to hold him. True, some women before marriage enhance their beauty through the use of make-up—more power to them—and they acquire the art of pleasing conversation, which is quite the thing they should do, and they exert every effort to develop a winning personality, which is no more than exactly the man she wants, and it is herself who will decide whether she will throw these fine arts to the winds and run the risk of losing her husband, or whether she will continue day by day to develop new charms, thereby not only holding her husband's love, but intensifying it.

Try being a Fortia, that lovely character created by Shakespeare. Fortia accomplished her purposes through intelligence, wit and what a perfect combination. Nagging is the worst feminine fault. Never try it, for it spells unhappiness for both parties involved. Any one can nag, but it takes a thoughtful woman to gain her desired ends through intelligence, wit and love. Yet through these channels a woman can make a marriage sublime and can make sure that there will be no "other woman."

The very intimacy of marriage, as well as critical society and even the divorce court itself guarantee that the cards will be in the wife's favor, and if she plays the game wisely she cannot help but win. The same thing applies to the husband, and if both parties try to make a happy, winning game of marriage they can laugh at the divorce court and say, "We could commit suicide, but we don't care to, and we could get a divorce, but why bother?" This type of marriage under lenient Texas laws should be a thousand times more successful than one under a law requiring several years and thousands of dollars to gain a divorce.

New Face Powder Now The Fashion
The skin of youth lies in every box of new wonderful MELLO-GLO Face Powder. The patent powder made—its color is passed by the U. S. Government. No pastiness, flakiness or irritation. A new French process makes it spread more smoothly and prevents large pores. No more shiny noses—it stays on longer. Use MELLO-GLO Pampa Drug Store—Ad. 1.

Last Clothes of Summer

Left: For real distinction, Molyneux sends a green and white chiffon gown with tight hipline, accented by a bolero and an unusually fainty decolletage, a camisole bodice with the narrowest of shoulder straps. Right: Daintily colorful is a pale pink and green figured chiffon gown, with flaring skirt below a sheath hipline and a bolero that crosses over in front. There is an independent scarf made of the same chiffon.

SEVERAL LOCAL FOLK ARE AMONG THREE HUNDRED PERSONS PRESENT FOR BAPTIST MEET AT PALO DURO

Several local people are attending the annual two-day meeting of the Palo Duro Baptist association now being held at White Deer. Those making the trip yesterday were the Rev. and Mrs. C. E. Lancaster, Mrs. T. B. Solomon, Mrs. Baker Henry and Mrs. Charles Barrett, while among those attending today's gathering are Mrs. Tom Rose and Mrs. R. L. Champion. About 300 persons attended yesterday's session, and at noon the crowd was served luncheon cafeteria style in the church dining room by the members at White Deer.

Women Hold Meet
The associational Women's Missionary Union held a separate meeting in the afternoon. The president, Mrs. A. H. Wilburn of Amarillo opened the gathering with a devotional and presided for the business session which followed. The associational secretary-treasurer gave an interesting report on the southside W. M. U. meeting held in New Orleans in May, and a report also was given of the room furnished by the group for the men's dormitory at Wayland college, Plainview.

A. C. Lindeman Is Injured By Plow
A. C. Lindeman narrowly escaped fatal injuries Monday morning when he became overbalanced and fell from an engine-plow, the plow passing over him. Fortunately, the plow was raised a few inches from the furrow.

Funeral Is Held
Funeral services for Mrs. Cora Melton, 69, who died Monday, were held yesterday morning at 10 o'clock in the chapel of the G. C. Malone Funeral home, the Rev. Todd officiating.

Body Sent to Hereford
The body of Neva Rae Cox, infant daughter of Mr. and Mrs. H. T. Cox, was sent to Hereford Tuesday afternoon. Arrangements were in charge of the G. C. Malone Funeral home.

Large Group Is Present At Party Held Near Groom

Approximately 125 persons attended an informal gathering held Monday evening as a courtesy to Mr. and Mrs. Guy Lawrence and family, who reside near Groom. The Lawrences are to leave tomorrow to make their home in Kansas.

The group first attended the revival service at Grand View, then going to the home of Mr. and Mrs. Jess Ritter, near Groom, where the merriment took place. Games were played by the children and young people, and refreshments of ice cream and cake were served the entire group.

LOCALS

Mr. and Mrs. I. W. Hayes and Mrs. O. H. Hayes, all of Enid, Okla., were the guests of Mr. and Mrs. C. C. Boles yesterday. They were en route to Enid from a vacation trip in California. Mrs. O. H. Hayes is the mother of Mrs. Boles' brother, I. W. Hayes is Mrs. Boles' brother. Mrs. T. A. Graves and family of Cisco were the guests of Mr. and Mrs. W. J. Foster and family on Tuesday.

W. B. Gunn, Amarillo, of the Adkinson & Gunn Tire company, transacted business here yesterday. W. E. Clarence Smith returned Sunday from a trip to Denton, Dallas and Enid, accompanied by their brother Leon.

Mr. Tom Kelly of Borger is visiting his daughter Mrs. Dudley Holoman today. Ray Wheatley of the Amarillo Bank and Trust company was a visitor in Pampa Tuesday.

W. H. Smith of Dallas, salesman for the High Point furniture factories, was in Pampa yesterday. Wayland Weathered, junior high school teacher, is in Childress this week.

Miss Ruth Johnson, state highway department employe, was in Pampa Sunday. L. M. Fischer, Amarillo lawyer, transacted business here Tuesday. J. W. Carter, representing the Wickwire Spencer Sales corporation, Tulsa, Okla., was a visitor in Pampa Tuesday.

F. A. Graves of Cisco was a visitor here Tuesday. Mervin Burke of Memphis was a business visitor in Pampa yesterday.

Mrs. H. M. Davis and son, J. T., and granddaughter Katharine Snell have returned from a week's trip to South Texas. C. L. Stine returned Monday night from a trip to Snyder. He said that there was distress among the farmers of Scurry county, that they are appealing for state aid. Corn and cotton, the principal crops are burned up. There has been only one-half inch of rain in the county the past ninety days, said Mr. Stine.

W. T. Phillips, of the Wholesale Syndicate, left today for Perryton, where he will relieve Ocie Fair, manager of the Perryton store, while the latter is in Amarillo with Mrs. Fair, who will undergo an operation in an Amarillo hospital.

Mrs. J. C. Henny of Waco is visiting Mrs. T. F. Morton. A 12 x 24 foot concrete platform for a wash rack has been laid on the alley at the rear of the Home-Ton Filling station. Awnings have been placed over the windows on the front of the station.

Markets

WHEAT BUYING WEAK

CHICAGO, Sept. 3.—(AP)—Buying induced by the failure of Liverpool wheat quotations to fully reflect yesterday's downturn in Chicago, gave wheat prices a steady to firm start here today. However, the buying was not aggressive, and the market soon weakened to slightly below the closing figures of yesterday. Corn opened firm with some buying, but later eased down with wheat to below yesterday's finish.

Opening unchanged to 1-2c up, wheat climbed a little and then sagged. Corn started from 1-5 to 1-2 cents up to 1-8 to 1-4c lower, and afterwards fell off with wheat.

Wheat prices showed little strength after the opening flurry of buying, despite an unofficial bullish estimate on the world outlook for wheat. This report, issued by a leading Chicago crop expert, said that wheat prospects in the northern hemisphere now were about 50,000,000 bushels smaller than on August 1. The European prospect was reduced 35,000,000 bushels, Canada reduced 30,000,000 bushels, but the United States showed an increase of nearly 15,000,000 bushels.

The present estimate of Northern Hemisphere wheat prospect not including Russia and China now is 3,025,900 bushels, against 3,065,000 bushels a month ago.

The unofficial estimate of the world's carry over of wheat on July 1 was given probably around 100,000,000 bushels less than a year ago. Importing countries now have 970,000,000 bushels on hand as compared with 1,151,000,000 bushels a year ago. Canadian advices showed no serious damage by frost and indicated cutting of wheat was practically finished in Manitoba and Saskatchewan, and about 65 per cent in Alberta.

KANSAS CITY LIVESTOCK

KANSAS CITY, Sept. 3.—(AP)—U. S. Dept. of Agr.—Hogs: 6,000; slow and uneven; 10-25 lower than Tuesday's average; top 10.65 on choice 190-215 lb good and choice; packing sows 7.75-9.00; stock pigs, good and choice 70-130 lbs 8.00 to 9.00.

Cattle: 7,000; calves, 1,500; native fed steers and yearlings fully steady other classes steady to easier. Narrow demand for stockers and feeders. Practical top 1058-lb fed steers 12.00; steers good and choice 10.00 to 10.50 lbs 9.50 to 12.50; heifers good and choice 550-850 lbs 9.00 to 11.50; cows good and choice 5.25 to 7.25; stocker and feeder steers, good and choice 6.50 to 8.50.

Sheep: 5,000; range lambs around 25 lower; sheep and native lambs about steady; choice Colorado lambs 8.00 to 10.00; lambs, good and choice 30 lbs down 7.50 to 8.10; ewes, medium to choice 150 lbs down 2.50 to 4.25.

CHICAGO GRAIN

CHICAGO, Sept. 3.—(AP)—Wheat: No. 2 hard 85 to 1-4; No. 1 northern spring 85 to 88; No. 2 mixed 84 1-2 to 85.

Corn: No. 2 mixed 1.00 to 1-4; No. 1 yellow 1.00 1-4 to 1.01; No. 1 white 1.04; sample grade 95.

Oats: No. 1 white 40 1-2 to 41; No. 2 white 40 1-4 to 3-4; sample grade 37 1-2.

Wheat closed unsettled 3-8 to 1 1-8 net lower than yesterday's finish. Corn closed 1-4 to 7-8c down oats from 1-4c lower to 1-8c higher, and provisions ranging from unchanged to 13c advanced.

Labor Scale Affects Rates

SYRACUSE, N. Y., Sept. 3.—(AP)—Alexander Legge, chairman of the federal farm board, declared today to New York state senate that the farmers' increased tax rates are due "largely to the advance in labor rates."

Referring to the decrease in the farmers' income, Mr. Legge said, "this situation became more acute after the inflation period brought about by the world war and the general higher price levels that have maintained since that period."

"The latest available figures on earnings," he said, "show the average wage earnings today are about two and quarter times the average of pre-war times. This is inevitably reflected back to the consuming public in the prices of practically all manufactured articles."

Arson squads are being formed throughout Oklahoma in an attempt to reduce the number of incendiary fires.

Mrs. Jane Cavanaugh, who celebrated her 101st birthday at Oelwein, Iowa, recently, claims to be a direct descendant of Sir Robert Walpole of England.

Tri-State Fair Automobile Building

AMARILLO, Sept. 3.—Here is an architect's drawing of the first permanent building to be constructed on the Tri-State Fair grounds at Amarillo, the new 25,000 automobile show room which will be ready for the fall exposition, Sept. 22 to 27. The new building is of the Spanish type of architecture, finished in yellow stucco and brick. This style has been adopted for all permanent buildings to be erected in the future. Dimensions of this unit will be 150x140 feet, so constructed that it can be added to at any time. The complete building will be 300x150 feet. There will be 2,300 square feet of floor space, accommodating 100 cars.

Groesbeck Post Is Given Trophy

AUSTIN, Sept. 3.—(AP)—The Groesbeck Post of the American Legion was awarded the trophy here today for having the best and most active post in the Texas department. The post was awarded the Rufe Scott cup and the department award for the sixth district. The post amassed

a total of 967.5 points.

The McAllen post was second in total points with 945 and was awarded the cup for the 15th district.

Other awards were: district one, Texarkana; district two, Beaumont; district three, Muenster; district four, Greenville; district five, Dallas post no. 465; district seven, Galveston; district eight, Houston, post No. 460; district nine, Angleton; district 10, Luling; district 11, Rosebud; district 12, Cleburne; district 13, Wichita Falls; district 14, New Braunfels; district 16, Balmorhea; district 17, Ranger; district 18, Clarendon.

Floyd L. Sloan of Amarillo won the prize offered by Col. Wm. E. Easterwood of Dallas to the Legionnaire signing up the most members. Sloan signed 641 members. Dr. W. W. Tuzman of McAllen was second and J. F. Fieberg, of Wichita Falls, third. Sloan will be given a trip to the Boston convention.

DROUGHT CONTINUES

WASHINGTON, Sept. 3.—(AP)—Severe drought conditions continued in many sections of the country, the weather bureau reported today, with large areas that received temporary relief in recent weeks again becoming dry.

The latter includes Oklahoma, much of Texas, about three-fourths of Iowa, practically all of Missouri, Southern Indiana and Southern Illinois, Kentucky, parts of Ohio and the Middle Atlantic states.

"Rain is also now generally needed, badly in some places, in the southeastern states not heretofore seriously dry," the report said, "while the drought is becoming increasingly severe in most of Pennsylvania and rather generally in Michigan."

The report said there had been "substantial rains" in the lower Mississippi Valley as far north as Central Arkansas and also in considerable sections of the northeast, moderate to good showers in the northern Ohio Valley, Wisconsin, Minnesota, Iowa and in the sections lying north of Eastern Nebraska.

The bureau reported "actual and substantial improvement in the corn crop" after the middle of August in limited areas. The crop on light rains in some areas came too late to be materially effective.

Infantile paralysis seems to be most prevalent in July, August and

NICE UPON A TIME

When a boy, Joe Cook, stage and screen comedian, organized a circus parade of his playmates and, wearing blue tights and playing a mandolin, led it down an Evansville, Ind., street riding a horse.

September, says the Iowa state department of health.

Two brothers at Lamesa, Texas, R. Y. Lindsey and M. C. Lindsey, headed rival political organizations in the Ferguson-Sterling campaign.

GANGSTER NOT WELCOME

AIX LA CHAPELLE, Germany, Sept. 3.—(AP)—Jack "Legs" Diamond, New York gangster, will be expelled from Germany as a "troublesome foreigner," the authorities announced today.

Diamond, taken off the Vienna express at the border after he was expelled from Belgium last Monday, was held until American authorities announced they did not desire to extradite him. He came to Europe aboard the S. S. Beignland and first reports here were that the United States authorities wanted him on a murder charge.

Police said that since the New Yorker had not committed any punishable offense in Germany he would not be forced to leave the country immediately. Due consideration will be given his statement that he came to obtain medical treatment. A specialist will examine Diamond and if he decides the man needs treatment he will be permitted to remain in Germany from four to six weeks while he takes the cure.

GANDHI IS FRUGAL

POONA, India, Sept. 3.—(AP)—All of Mahatma Gandhi's letters from Yeroda prison are written on bits of paper.

In a general letter answering the query of several boys why he always wrote on such small pieces of paper, Gandhi says: "Firstly, prisoners must make use of the least possible quantity of things. Secondly, one is under a

few of 'Apari-Graha' (non-possession) is trustee and guardian of all property and hence I must make use of jail property like a miser. Thirdly, this property also belongs to us, does it not? Fourthly, we should make as little use as possible of such things in a country as poor as ours. Fifthly, under such circumstances my soul feels miserable if I make use of more money than necessary."

Gandhi's health is good. His food principally goat's milk and fruit, is brought from outside, and he has a fan in his cell propelled by a little oil engine.

Takes Fourth Wife

NEW YORK, Sept. 3.—(AP)—Alexander Winton, 70, pioneer automobile manufacturer of Cleveland, was on a honeymoon with his fourth wife today.

He was married in Marble Collegiate church to Mrs. Mary E. Avery, 47, a concert singer of Cleveland. His third marriage was dissolved by divorce two weeks ago after he had made a settlement of \$200,000 on Mrs. Marion C. Winton. His first and second wives died.

The fourth Mrs. Winton has been married twice previously. Her first husband died in 1914 and a divorce ended her marriage to F. Solon Avery in April 1922. She was for many years soloist in the Euclid Avenue Baptist church, the church attended by John D. Rockefeller, Sr., when he made his home in Cleveland.

Remember this—

All Tires bought from us will be mounted FREE!

LOW PRESSURE TIRES ARE NOT new. We had them 6 years ago. But they gave out too soon—cost too much per mile. Then the manufacturers added mileage—made your present "balloon style" tires—big, fat fellows—but stiff. Too much material. Hard riding.

Now what these Federal engineers have done is this: They have combined that wonderful air-cushioned riding comfort and long mileage in the same tire—for the first time.

In this new-type Federal you get a 12% larger cushion of air. You get a longer, stronger yet more flexible side wall. You get a new rim-wide, full-contact Tread.

And to give you lowest comfort-cost per mile you get an excess of mileage. Now that's some tire. Nothing finer in quality, beauty, comfort and long life has ever been made.

And to prove how we stand—we sell the new-type Federals on a "Money-back" Guaranty. If you are not satisfied, after 30 days' use, return them. We'll replace your old tires free of charge and refund your money.

FEDERAL

Like an athlete in the pink of condition. Speed, strength and stamina in perfect balance.

Legion Requests Quick Liquidation Of Compensation

AUSTIN, Sept. 3. (AP)—A resolution calling upon the federal government to take immediate steps to liquidate adjusted compensation certificates to relieve suffering among World War veterans and their families was adopted at the Texas Department American Legion convention today. The resolution was introduced by Congressman Wright Patman of Texas.

Patman said there were 3,537,542 of these certificates outstanding with a total valuation of \$3,465,019, 570 which could be paid to veterans at this time. He predicted that such a plan would relieve the unemployment situation by giving the masses more buying power and enable industry to go ahead on a sound basis. The present economic crisis was attributed by Patman not to overproduction, but to underconsumption caused by a 33 per cent reduction in the amount of money in circulation, the lowest it has been since 1915.

The adjusted compensation would be made on the basis of 50 per cent of the value of the certificates.

A resolution to give World War veterans and their widows the same pensions now being received by veterans of the Spanish-American war was passed unanimously. Spanish war veterans now receive \$73 per month and World War veterans \$40.

The Texas legislature was urged in a resolution to appropriate state funds to match federal money to care for World War orphans. Texas, it was pointed out, is one of the states which does not make appropriations for this purpose. Administration of the funds would be placed under the department of education.

Resolutions calling for the strict enforcement of the immigration laws and for the establishment of a child welfare bureau with state funds were adopted, as was another resolution calling for a rise in the pay of retired enlisted men from \$15 to \$30 per month.

The state legislature was asked to pass a law baking courses of instruction in flag code and ethics compulsory in the public schools.

Texas delegates of the national convention were instructed to introduce a resolution to make Armistice Day a national holiday.

Among other resolutions adopted were to give fathers of World War veterans annual recognition at post exercises; to organize an annual pilgrimage to the legion hospital at Legion, Texas, and to inaugurate a survey of the industrial, natural and agricultural resources of Texas with the view of increasing the consumption of Texas products and the industrial activity of the state. Resolutions of regret at the death of Major General Henry T. Allen and Leonard Withington, leader in Texas Legion affairs and former Fort Worth publisher, were adopted.

Canal Requirements Not Met in Area On Texas Coast

WASHINGTON, Sept. 3. (AP)—War department officials said today local interests in the territory to be traversed by the Port Arthur-Galveston Intra-Coastal canal had not yet met the requirements of cooperation demanded by the government, and that construction therefore, had not been initiated.

Officials said, however, virtually all assurances had been given, save for the submission of deeds for right-of-way and dumping areas in Galveston County, Texas. Deeds for such rights in Jefferson county—from Port Arthur to the Chambers county line—are now before Secretary Hurley, it was said, and deeds for similar land in Chambers county have been received by the war department and are now being examined preparatory to submission to the war secretary.

Officials said assurances had been given by local interests concerning the clause requiring them to handle the construction and alteration of all necessary highway bridges.

The clause requiring adequate vessels, terminals and auxiliary equipment sufficient to handle economically at least 400,000 tons of traffic annually in the Sabine river-Galveston bay area also has been met by local interests, officials said.

Bribery Case Is Hotly Contested

SAN ANTONIO, Sept. 3. (AP)—Difficulties between the state and defense on agreement of the amount of bond for Robert Pringle charged with attempting to bribe an officer, were being thrashed today between Lamar Sellison, district attorney and E. B. Simmons, defense counsel.

Pringle, charged with attempting on Aug. 23 to secure the release from the Bexar county jail of J. B. Conder by offering Assistant Jailer M. C. Gaither \$2,500 for the prisoner's freedom, remained in jail while attorneys sought to

Enterprise—Defender Of the America's Cup

This striking aerial photo of the Enterprise in action gives a new idea of the trim grace and power embodied in the chosen defender of the America's Cup. The NEA Service-Pampa Daily News picture was taken from the Goodyear blimp Mayflower as it floated above the course off Newport, R. I., during the final trial of the cup candidates. Enterprise, showing a clean pair of heels to its rival, Yankee, demonstrated her superiority in a light breeze.

agree upon the size of his bond. Meanwhile, George P. Cocol, charged with attempting to extort \$10,000 from R. W. Morrison on Aug. 30 by threatening to kill him, remained in jail in default of \$10,000 bond set Tuesday by Justice of the Peace Boltz. Both met, were charged Tuesday.

Gasoline Prices In Kansas City Are Cut 3 Cents

KANSAS CITY, Sept. 3. (AP)—The large oil companies today slashed 3 cent from the retail price of gasoline in greater Kansas City.

The reduction, presumably a counter thrust against the independent retailers who have cut prices 2 to 4 cents per gallon recently, was first ordered by the Standard Oil company (Indiana). The others followed suit.

"Regular" gasoline sold here for 15.9 cents, including 2 cents state tax and 1 cent city tax.

J. W. Wilson, manager here for Standard Oil, ascribed the cut to "local competitive conditions. The price cut is effective only in Kansas City, Mo., and Kansas City, Kans.

Arkansas Man Kills Woman Then Commits Suicide

SILOAM SPRING, Ark., Sept. 3. (AP)—John Ridgeway, 50, shot and instantly killed Mrs. Dorah Reed, 55, seriously wounded his estranged

wife, Mrs. Anxy Ridgeway, and then committed suicide by hanging himself at the Reed home near Fox early today. Officers said Ridgeway believed Mrs. Reed was responsible for his and his wife's estrangement.

The shooting occurred about 1 a. m., on the Reed farm near Fox Squirrel, a community a short distance from here where the Ridgeway family has lived about a year. Mrs. Ridgeway is in a critical condition in a hospital here shot through the shoulder and hand.

A posse headed by City Marshal N. O. Baldwin of Siloam Springs found Ridgeway dying. He was hanging by the neck in a barn on the Reed farm.

The Ridgeways came to this section about a year ago from Eldorado, Ark.

GENERAL ALLEN BURIED WASHINGTON, Sept. 3. (AP)—Maj.-Gen. Henry T. Allen, who died Saturday while visiting in Pennsylvania, was buried today in Arlington cemetery with full military honors.

The services for the commander of the American army of occupation on the Rhine were held in St. John's Episcopal church and were attended by high ranking military officers and diplomats, including

Andree Diary To Reveal Secrets Of Old Mystery

TROMSOE, Norway, Sept. 3.—(AP)—Discovery of a hitherto unsuspected diary in the clothing of Salomon Andree, arctic explorer of the Arctic, today excited high hopes among experts that the whole epic of the first polar flight attempt to reach the North Pole might be unfolded completely to the world.

With the help of this diary, and of Andree's navigation log and the other diary found by Dr. Gunnar Horn last month in Andree's camp on White island, experts hope to reconstruct adventures of aeronautical explorers they expect to learn how the balloon met disaster and Andree and his two comrades fought their way across the ice to White island, where they perished.

The diary was found during examination of Andree's body in the Little Tromsoe hospital early this morning. It was the most sensational discovery of the night, during which positive identification was made of the bodies of Andree and Nils Strindberg and the puzzling bones brought back by Dr. Horn were found to be those of a Polar bear and not of Knut Frankel the third member of the expedition.

For thirty three years these diaries and the log have been buried under the same shroud of snow and ice that hid the bodies of the explorers from the world.

The day to day record of the Andree expedition's tramp on foot over the ice from the point where their balloon was wrecked to White island, where its members perished is contained in one of the two note books found wrapped in an undershirt behind the explorer's back today.

The other note book, which Andree lay down upon when dying and protected with his body even in death, contains only some geographical observations. These are on the first pages, and the rest of the book is blank.

Capt. Harry Wooding, 60, has completed his 35th consecutive year as mayor of Danville, Va.

More than 25,000 oil wells were drilled in the United States in 1929, with 15,900 producing oil, 2,900 gas, and 7,600 being dry holes.

NCE UPON A TIME

George Bernard Shaw, British dramatist and satirist, taught himself to play the piano, when a boy, even mastering classical 20 in positions. Neighbors remember him as a precocious, sedate and studious youth.

Gov. W. J. Holloway of Oklahoma, whose term expires in January, will resume the practice of law for at least two years, he has announced.

"BUNCH OF SUCKERS" NEW YORK, Sept. 3.—(AP)—The United States is "a bunch of suckers" because it fails to recognize Soviet Russia, Senator Burton K. Wheeler of Montana exclaimed today as he strode down the gangplank of the Leviathan, home from a visit to Europe which included a ten-day sojourn in the Soviet Republic.

"Everywhere I went abroad I found the argument that Americans should not recognize Russia, while everywhere abroad, Russia is recognized and the European countries are getting all of the business. Should we recognize Russia and enter into commercial treaties that does not mean we put the stamp of approval on their form of government."

Senator Alben W. Barkley of Kentucky, who went with Wheeler to the inter-parliamentary union in London and spent three weeks in Russia, reserved his opinion

about United States recognition. The two visited Russia unofficially, but met political leaders and said they were permitted to study social and economic conditions as they pleased.

The Hollywood Story

by ERNEST LYNN

BEGIN HERE TODAY

DAN RORIMER, former New York newspaper man, who is now writing scenarios for Continental Pictures in Hollywood, gets a letter from an old friend in New York telling him to look up a girl named ANNE WINTER, who has come from Tulsa, Okla., to "crash the picture."

Dan complies reluctantly, but Anne proves to be charming. She has had stage experience—in stock companies. Anne gathers that he is a little dissatisfied with things at Continental. For one thing he thinks they have miscast the star whom they select to play in the picture that is to be made from a story he had written before coming to Hollywood.

The following Monday rehearsals begin on his picture. That evening he learns that Anne is to work the following morning, making the second time she has found extra employment. After her first day at Grand United studios, Dan takes Anne for a ride to the beach. There she tells him she has met a likable girl, also an extra, and she is thinking of living with this girl and her present apartment mate, whom Anne has not yet met. The girl's name is MONA MORRISON; her friend's, EVA HARLEY.

NOW GO ON WITH THE STORY
CHAPTER VII

Anne let his arm stay where it was; appeared not to notice it, even. But a moment or two later, when Rorimer tried to draw her toward him, he encountered firm resistance, and Anne said, "Hadin't we better start back? What time is it?"

"Oh, I keep my promises; I'll get you back by ten," he replied. "It's no more than nine now."

"I didn't see you look at your watch."

Dan brought up his wrist, squinted in the semi-darkness. "Well, then, 9:15," he admitted, grinning. "What's 15 minutes?" And he added, "On a night like this."

Anne Winter smiled at him. "Romantic Uncle Dan!" she jeered softly.

"Yeah? Forget that, young lady; I'm not your uncle."

"You were a few minutes ago."

"But I don't feel so—so avuncular now; or platonic, either, for that matter."

Anne dropped the subject; and Rorimer, feeling her impersonal dismissal of it, fell silent. He offered her a cigarette, and this time she took one.

Leaning back in his seat, he regarded her through half-closed eyes and wondered if she had ever given a man her love. Certainly, he thought in admiring approval of her, there must have been many who had tried to win it. Perhaps there was a young man back in Tulsa; and if there was, Dan was thinking he was plenty lucky.

He began presently to whistle softly, but thinking of something else, checked himself and urged: "Sing for me, Anne."

"Sing for you?" she repeated regarding him curiously. "Why?"

"Because I like to hear you sing. Sing that thing I was trying to whistle."

"Why Was I Born?—But that's so plaintive and so forlorn."

"That's just the way I feel, somehow. Does the ocean at night affect you that way?"

"It did, she agreed. "I feel a little homesick."

"Dan said he had been away from his family too long to know homesickness again, but that he felt a longing, and a curious loneliness that was hard to explain. He started the car, backed it onto the road, and headed it up the grade, and rolling back toward Hollywood, with the ocean behind them, Anne leaned back in the seat and began to sing:

"Why was I born? Why am I living?
What do I get? What am I giving?
Why do I want a thing I daren't hope for?
What can I hope for? I wish I knew—"

Plaintive—Forlorn—the song of a lonely heart. And Anne's voice, low and sweet, and tremulously exciting, carrying right into his blood—

"Why do I try to draw you near—
Why do I cry?—you never hear me,
I'm a poor fool, but what can I do?
Why was I born to love you?"

The wind rushed past them, whipping at his hair before it fled, carrying the last echoes of her song with it. Dan felt contentment—a contentment curiously mixed with the stirrings of voiceless longing and unrest.

"Why do I want the things I daren't hope for?
That was the thing that life was lived for, he told himself—to want the things one daren't hope for. Only, you did hope for them somehow, no matter how forlornly, even if they were way off somewhere beyond the frozen stars.

"Sing some more, Anne. Sing to me again."
"Do you like to be sung to?"
He said simply, staring straight ahead. "I love to hear you sing."
And Anne turned on him a curious smile at the strange emphasis

in his voice, but he was still looking away and missed it.

She began: "I'm a dreamer—aren't we all?—and sang it through to the end. And not once did Rorimer turn his eyes from the roadway ahead of them. He was thinking that he had heard a voice like hers before, over the radio. A contralto who sang ballads and "blues" with a smooth ease and lowness that made you shut your eyes and imagine things. Only, Anne's singing was not so trained; not so professional. It had, he thought, striving for the right word, an uncaptured quality in it that left him a little shaken.

At the end of her song he turned to look at her. She sat still beside him, her head back against the cushioned seat, eyes half-closed. "If she gets a break," he told himself, "she'll go a long way." Provided, of course, the camera and the microphone did not do strange things to her; that had been known to happen.

They were on her street now, and when he stopped the car in front of her apartment he asked if he might pick her up again in the morning and take her to the Grand United lot.

"It's no trouble, Anne, and you can sleep longer if you don't have to wait for a bus."

"All right, Dan; you're certainly kind."

He walked down the hallway with her, and when they stopped at her door he showed her the time. "See, Anne? Only four minutes of ten. Am I a man of my word or not?"

"You're just marvelous," she said, laughing, and gave him her hand. And Dan suddenly drew her to him and kissed her.

Just as suddenly he knew he had done the wrong thing. Anne was not angry; he would have felt better if she had shown her anger. But she was plainly hurt, and he said contritely, "I'm sorry, Anne."

"I hope you won't do that again," Anne said. "The dark eyes were level and calm enough, but bright spots flamed in her cheeks."

Dan said again, "I'm sorry, Anne. I'll remember."

He added that he hoped he hadn't made her change her mind about riding with him in the morning.

"You can at least trust me in the day time," he said with a lame little laugh.

Anne's faint smile heartened him. "You said you'd remember," she said

"I hope you won't do that again," Anne said.

"And you're a man of your word—Good night."

"Good night, Anne. You're a good sport."

"—A darned good sport, he thought climbing into his car."

"Why was I born? Why am I living?"

He drove to Henry's, and there he found Johnny Riddle, sitting alone over coffee and a sandwich. Johnny said, "Hello, stranger. Who was the lady I saw you with the other night? That was no lady; that was my— Who was she, Dan? And what did you do with the little O'Neil girl—little Mildred?"

Dan said, studying his menu: "Mildred's a blond."

"Not a real one; Milly bleached her hair because it photographs better."

"Are there any real blonds?" Dan asked, his eyes still on the card.

"What a cynical young man you turned out to be! Why, of course!

See the lady over there, for instance? Over there to your left—in the corner. There's a blond—and how! That's Sylvia Patterson."

Dan swung around in his chair and stared brazenly.

"So that's Sylvia," he said. Is that hair real?"

"Absolutely. Of course, she probably sees to it that it doesn't get any darker."

"It's almost pure white," said Dan.

"She's a beauty, my boy—one of my very best clients. I'd take you over and introduce you, only she has company."

"That man with her," Dan said with sudden interest; "is that Garry Sloan?"

"That's Garry."

Rorimer found occasion from time to time to look at Sloan. He was big and bronzed and powerful looking, and he had a vast mop of wiry yellow-brown hair—hair, Dan thought, that suggested an intense vitality.

Johnny Riddle was one of Hollywood's better gleaners of gossip. Paul Collier, when he had brought the two together, had informed Dan that "Hollywood hides no secrets from little Johnny." Riddle was medium sized and compact looking, and he had laughing gray eyes, and hair that kept falling down over his forehead into one eye.

When the waitress departed with Rorimer's order Johnny Riddle leaned across the table to say that he had heard Sloan's wife was divorcing him.

"Can't say that I blame her," Dan remarked, "if some of the tales about Sloan are true. What's he going to do—marry Sylvia Patterson?"

Johnny Riddle shrugged.

"Is Sloan in love with her?" Dan asked.

Riddle said, "Sloan's in love with himself, and that's why he expects every woman he meets to be crazy about him—But he's one swell director!"

"Is Sylvia crazy about him?" Dan pursued; and Riddle said he didn't think so. "Sylvia's ambitious—and she can be diplomatic."

(To Be Continued)

U. S. Yachtmen Still In Lead

OYSTER BAY, N. Y., Sept. 3. (AP)—America's six-meter yachtmen seem to hold a decided edge over their rivals from across the sea.

Two races have been sailed so far in the series for the British-American cup and the United States has won both of them and run up a formidable advantage in points, 48 1-2 to 24. The cup will go to the team first winning four races.

Bout Is Postponed

NEW YORK, Sept. 3. (AP)—Postponement for one week of the ten-round bout between Ruby Goldstein, New York, and Jack Zivic, Philadelphia, scheduled for tonight at Coney Island, has been announced by the promoters. Goldstein suffered an injured hand in training.

Prize Winning Texas Elf Cottage

Above are shown the prize winning lawn and flowers chosen in a contest conducted among Texas Elf-Carbon company employes by Oscar Dial. This lawn was developed by B. R. Holloway, whose prize was a costly wrist watch. The Texas Elf camp is southwest of Pampa.

Golf Veteran Is Still Adept

TORONTO, Ont., Sept. 3. (AP)—The weight of his 72 years falls lightly upon the shoulders of George S. Lyon, Canada's "grand old man" of golf.

The Lambton veteran, eighty-times Canadian amateur champion during the period from 1898 to 1914, won the Canadian seniors' golf association championship with a 36-hole total of 152 yesterday.

Poison Found In Payne's Coat

AMARILLO, Sept. 3.—(AP)—Although a Potter county grand jury concluded yesterday its investigation into the manner of the explosive blast with which A. D. Payne, attorney, charged with murder for the bombing which killed his wife, ended his life in the jail here Saturday, district attorney Thomerson said no report would be made, as nothing was disclosed

Cook County's Well Is Gusher

GAINESVILLE, Sept. 3.—(AP)—Swabbing an estimated 30 barrels of oil hourly, with considerable mud in the hole, the Lloyd Oil Corporation's No. 2 Jacobs, 18 miles south-east of Gainesville, in Cooke county was brought in yesterday. It was showing good gas pressure and made several flows by heads through a 6 1-2 inch pipe 60ft and was encountered at 1,525 feet and penetrated to 1,545 feet.

Operators declared the well had indications of being one of the best shallow producers brought in among Cooke county explorations and was in entirely new territory, being 12 miles southeast of the Wheelock pool.

It is 400 feet northeast of the No. 1 Jacobs, the discovery well of the field, completed by the same company several months ago as a small producer.

MAIL PILOT INJURED

MERCER, Pa., Sept. 3.—(AP)—A Cleveland to New York mail plane was badly damaged in making a forced landing at the air field here early today. The pilot, Charles Haas, suffered cuts and bruises about the body.

George Arrington manager of the local Amarillo furniture company, has been transferred to the Amarillo store.

Don Welch, Amarillo lawyer, was transacting business in Pampa yesterday.

TODAY in SPORTS

PAMPA BOWLERS ARE TO MEET AMARILLO ALL-STARS

NEXT ROUND OF CLUBS TO BE DECISIVE

BY HUGH S. FULLERTON, Pr.
Associated Press Sports Writer

The teams of the major leagues have, roughly speaking, one complete round of their circuits left on the schedule and that round probably will decide the pennant struggle.

In the present state, it appears that the decision will be reached during the final inter-sectional series which starts next week. The Chicago Cubs, who lead by the rather slim margin of four games, have won 43 of their 78 victories so far at the expense of Brooklyn, Boston and Philadelphia and the coming series brings them eleven more games against these "easy" victims in addition to three against the second place New York Giants. The Cubs play five games against the Pittsburgh Pirates, starting today and four against their "Jinx" team, the Cincinnati Reds.

When they pulled out an 8 to 3 triumph at Redland field yesterday, the Cubs defeated the Reds in their home town for the first time since April 21 and for the third time this year. But to make up for this supremacy at home, the Reds took almost as bad a beating in Chicago, losing five of seven games played there, and the remaining four games are to be played in Chicago.

It took some great pitching by Charley Root to break the Cincinnati jinx yesterday, holding the Reds to three hits, one a homer by Cuccinello, and keeping them away from first base for five innings.

The New York Giants at Philadelphia displayed the supremacy that has given them 14 victories over the Phillies in 20 games by slamming out an 18 to 5 victory.

The Brooklyn Robins found enough bad luck in Ed Brandt, Boston's southpaw. He shut them out, giving only four scattered singles, while the Braves made the most of six blows, five of them of the scratch variety, combined with a few Brooklyn lapses, to win by 8 to 0. The defeat cost them a half game in their relation to the third place St. Louis Cardinals, who were idle, and a full game where the victorious leaders were concerned.

The one game on the American league schedule was of little importance except that it gave the Cleveland Indians their fourth straight victory over St. Louis, 4-3.

LOST PUTTER AFFECTS GAME OF GOODMAN

OMAHA, Neb., Sept. 3. (P)—"Sizzling Susie," a worn, notched putter which generally reposes in the bag of Johnny Goodman, Omaha golf star, has strayed from home.

"Sizzling Susie" doesn't find the way back to Johnny. Omaha is going to be represented in the National amateur golf tourney by a wobbly and unconfident golfer.

It was "Susie" that had much to do with Goodman's defeat of Bobby Jones last year in the national meet and if Johnny has to play without it this year—

"Fifty per cent of my confidence will be lacking without that putter," says Johnny.

American Wins Balloon Race

CLEVELAND, Sept. 3. (P)—A new record in 19 years of international balloon racing—five successive victories in the famed Gordon Bennett cup race—today appeared safely within the grasp of the United States.

Repeating his triumph of a year ago, Ward T. Van Orman of Akron, America's veteran balloonist brought his Goodyear VIII down on the outskirts of Boston last night after traveling approximately 550 miles from Cleveland, the starting point.

This was more than 100 miles farther than the nearest of the five other competitors and barring misfortune when the race is officially checked, made him an easy winner.

The Belgica, piloted by Capt. Ernest DeMuyter of Belgium, the most experienced of all the entrants and himself a victor four times appeared to have covered the second longest distance, 435 miles, but stood the possibility of being disqualified because a farmer loosened the drag rope when it was caught in a tree at Esperance, N. Y.

J. H. Harris, Amarillo, GMAO field representative, was a business visitor here Tuesday.

Bushing up Sports

THE DRINKS WERE ON ALTIZER!!

With Altizer on first, a Chicago batter lined the ball directly into the hands of George Stovall, Cleveland first baseman. . . . Stovall stepped on the bag, doubling Altizer. . . . Altizer, thinking the ball had gone for a hit, dashed for second. . . . Stovall, jokingly threw wildly to second, the ball rolling into center, which caused Dave to dash for third. . . . Joe Birmingham, retrieving the ball, deliberately threw wild to Bill Bradley at third. . . . On to the plate dashed Altizer. . . . Bradley's throw beat him to the plate by yards, but the catcher played his part in the prank by just missing Altizer as he slid across the plate. . . . When the umpire dramatically shouted "out!" . . . it took seven minutes to restore order and to cool off Dave sufficiently to continue the game.

LAST SCRIMMAGE PRECEDING OPENING GAME SHOWS POWER IN 1930 HARVESTER SQUAD

A better team than last year.

This is the general opinion following yesterday's scrimmage of the Pampa Harvesters. How much better? Time will tell. Friday afternoon at 2:30 o'clock the Spur high school eleven will impose a severe test. A week later the Perryton squad will try to avenge last season's defeat in a mud puddle at Perryton.

The back field of last year largely remains. There are Captain Saulsbury, Albert Lard, Ray Chastain and Durwood Martindale for the heavy work. Joe Kahl and Bill Barnett, youngsters last year, are going to make the regulars step this season. They are tough, low tacklers, and bigger than last season. James, Tate, Ledrick, Brown, and Robinson are in the reserve material.

The pivot position is a fight between Poole and Poe, Green and Clark. Poe is a much improved man this year. Out of this quartet the center of 1930 doubtless can be chosen.

Scrimmage reveals better ends in the making than those of last year. Moore, if he keeps his stride and learns the game, will be hard to out at one wing position. Dick Benton is another good end, though he may also be used in the backfield if needed there. Sartin, not so big but "plenty tough," wants a chance and will get it. Kennedy, Lewter, Willard, and Leo Saulsbury are other aspirants.

The guard positions are well cared for, with Schmidt, Pafford, Powell, Weedman, Camp, and Reno fighting for the jobs.

At tackle there are available Ayres, Burch, Freeman, Strickland, Ragsdale and others.

This list, from which the starting line-up will be taken, does not include the new men who are less familiar with the Mitchell system, but who have an equal chance to beat out the old men by the time the Class A season opens at Lubbock.

THOMPSON SNATCHING CASH WHILE WELTER TITLE LASTS

CLEVELAND, Sept. 3. (P)—Young Jack Thompson is going to cash in on his world's welterweight championship while the cashing in is good.

As a starter the Oakland, Calif., negro will pocket \$37,500 for stepping 15 rounds with Tommy Freeman, Cleveland veteran, at the Cleveland American league baseball park September 4.

The bout will be at the welterweight limit of 147 pounds. The referee's decision will determine whether Thompson has successfully defended the crown.

Thompson and Freeman boxed before with the Cleveland welterweight getting the decision in a contest at Detroit last winter. That was before Thompson dethroned Jackie Fields before a Detroit crowd.

The last championship match in Cleveland was a decade ago when Johnny Kilbane, the featherweight title holder, knocked out the British challenger, Danny Frush, in a ball park engagement which drew \$110,000.

A few weeks ago he went to the west coast and collected \$20,000 besides a lacing for stepping through 16 rounds with Young Corbett, the Fresno southpaw. He also picked up a few additional thousands by engaging home town talent in the west.

PRINCIPALS IN FIRST MAT PROGRAM SILENT-JAPANESE ONE OF BEST MEN IN WEST

While the main wrestling bout of the season's first program Thursday night will introduce Prof. Tisura Higami, powerful Japanese grappler and Otis Clingman, the semi-final engagement will be no tame affair.

Rob Roy, often seen on Pampa, Amarillo, and Borger mats, will tackle Billy Hallas, another well known member of the cauliflower profession. While Hallas' through longer experience should conquer the youngster, there is no certainty that he will do so. Roy is a rough and ready boy and an understudy of Farley and Clingman. He is full of tricks and often turns seeming catastrophes into victory by knocking his weary opponent out. Thus it may be tomorrow night.

There will be other preliminaries, which will pen at 8:30 p. m. Unusual silence has fallen over the Clingman-Higami affair. The scholarly Japanese is by nature reticent. He says it with cool, methodical punishing holds. Clingman, no windbag himself, has no threats to answer and has no inclination to make a lot of idle chatter about the Oriental.

The main bout therefore, promises to be one of those tense affairs which start fast and silently and continue with terrible force, much to the delight of fans who like wrestling at its best.

POLO TEAMS PRACTICE FOR BIG MATCHES

NEW YORK, Sept. 3. (P)—Final workouts for the American and British polo teams before the start of the Westchester cup matches will be held today at Port Washington and Westbury. The international series opens Saturday.

Tommy Hitchcock's varsity four was matched with the Reds, or Junior varsity, at Port Washington while the British squad battle a picked American team at Westbury. The American varsity today has Eric Fedley of California at No. 1; Earle A. S. Hopping, No. 2; Hitchcock, No. 3, and Winston Guest, back, while the British depend upon Gerald Balding at No. 1; Lewis L. Lacey, No. 2; Capt. C. T. I. Roark, No. 3, and Lieut. Humphrey Guinness, back.

Lineups for the cup matches will not be announced until the eve of the series but it is expected they will be unchanged from today's formation. Fedley, Hitchcock and Guest have held posts on the American varsity from the start of the trial matches and Hopping's sensational play has given him the inside track for the disputed No. 2 position.

The invaders seem committed to the radical shift that sent Guinness into the lineup at the expense of Capt. Richard George and J. B. (Barney) Balding, tried out and apparently found wanting at No. 1. Under the British shift, Lacey moved up from back to No. 2 and Gerald Balding from No. 2 to No. 1. Capt. Roark, ace of the challengers, retained his No. 3 position.

PANTHERS TO WIN ANOTHER BIG PENNANT

BY GAYLE TALBOT, JR.
Associated Press Sports Writer

After four lean years, the Fort Worth Cats had another Texas league flag within their grasp today. Even if they dropped their last five games, the Kittens could do no worse than finish in a tie for the second half.

A 1 to 0 victory over Shreveport yesterday while Wichita Falls was folding up before Dallas, 9 to 4, just about won for the Strydermen, whose spectacular drive down the stretch has given them eleven wins in thirteen games. They could close the gate by defeating the Louisiana club again today.

"Red" Roberts, who has worn the Cat bench shiny for the last fortnight while Stoner, Whitworth and McCabe divided the pitching chores was called in to put on the finishing touches. Taking up where Stoner left off the previous night, he limited the Sports to six scattered bingles and ran their string of scoreless innings against Panther pitching to 16. Not only that, but he drove in the winning run off Tiny Owens with a double in the eighth after Myers, his battery mate, had tripled.

Tony Kaufman bested Bill Harris in a mound duel as Houston nudged out Waco, 3 to 2.

Jumping all over Muleshoe Vaughn in the fourth and fifth innings, San Antonio made it three straight over Beaumont, 10 to 2. Hargrove held Beaumont to six hits and drove in three of his team's runs.

Mr. and Mrs. M. P. Moore returned Tuesday from a trip to Oklahoma.

Ernest Forducey has returned from a trip to Shamrock.

MOBILE BEARS COME TO LIFE

ATLANTA, Sept. 3. (P)—The lowly Mobile Bears, who have lost 102 games this season, played one of the best games in the Southern association yesterday, to triumph over Birmingham, 2 to 1, in 14 innings.

It was a pitchers' battle throughout with Bardley and Blue going the route and being backed by almost faultless support.

While the Baron were losing the New Orleans Pelicans were also going down at the hands of Atlanta, which put both teams farther behind the leading Memphis Chicks, who managed to come out on top with Chattanooga 8 to 6.

Oidham led the Crackers to victory 8 to 1 over the Pels, keeping their ten hits well scattered. At Memphis, Brazil and Hutcherson poled homers in the fifth innings to give the Chicks the winning margin.

Little Rock won a night game from Nashville 10 to 8.

THREE TILTS WILL DECIDE BEST TEAM

Local bowling, a new sport in business and professional circles, today had reached inter-city proportions, with a match arranged with an Amarillo team Thursday evening.

Captain Sam Fenberg will take an all-star five to Amarillo, leaving here at 8:30 p. m. tomorrow.

The Pampa team has been practicing consistently, and in 36 games has averaged 187—not a bad score as bowling goes in this section. The Amarillo stars are known to be formidable and to have been playing longer than the locals. The match at Amarillo will be followed one week later by a return contest here. If the teams are then tied, a play-off match will be played at a place to be decided. The locals wish a gallery of Pampa fans to encourage them in the match tomorrow. The play will be at 206 Polk street.

The local bowling alley will be provided with bleachers so that fans may see the games here a week from tomorrow.

Fight Results

By The Associated Press

Chicago—Ray Trumble, Rockford, Ill., knocked out Max Kramer, Germany, (5). Bert Quinn, Honolulu, stopped Chester Bush, New Orleans, (1).

Los Angeles—Sammy Jackson, Santa Monica, stopped Bucky Lawless, Syracuse, N. Y., (10).

Boston—Babe Hunt, Oklahoma heavyweight, outpointed Ernie Schauf, Boston, (10).

Salt Lake City—Charlie Peraci, Salt Lake, technical knockout over Erwin Bige, Omaha, (9).

Old Comrades Visit General Grant's Birthplace

Veterans of the G. A. R. are shown here disembarking from an Ohio river steamer at Point Pleasant, where they visited the birthplace of their old comrade, Gen. U. S. Grant. The trip was made a part of the 64th national encampment of the veterans at Cincinnati. At the left is U. S. Grant, III, addressing the veterans.

FLIERS

Dallas flight, with a stop permitted at New York City. A crowd estimated at as high as 10,000 persons, many of whom had waited for hours at the field, was grouped along the guarding fences as the clouds which had erupted half and rain but two hours before cleared away and the half disc of the moon showed its faint outline in the sky.

As the Question Mark came out of the east and darted to earth, they surged against the guard ropes and the fences, testing the strength and the temper of hundreds of police. "Viva Coste," many shouted in the best Long Island French, "Hoorsay for Coste!" they yelled.

Sensing the danger in the whirling propeller of his ship and fearing that any moment the wall of blue might break and let through a flood of humans, Coste stooped his engine while still a hundred yards out in the field and he and Bellonte climbed wearily from the plane.

PRORATION

seven (7) a.m. on the sixteenth day of the month and extending to seven (7) a.m. on the first day of the succeeding month shall be taken as the prorated period; and at the end of each such prorated period the umpire with the advice of the advisory committee shall prepare data and schedules upon which to base proration hereinafter provided for the next ensuing prorated period.

Neither America's flying colonel nor Coste would talk in terms of comparison of their flights, although one almost exactly traced that of the other. Lindbergh flew alone, Coste with a companion. Lindbergh flew the road to Paris in 33 and one half hours, Coste and Bellonte took four hours more. But, as the flying colonel pointed out, the east to west crossing is the more difficult, because of the prevailing adverse winds.

Each achieved the goal he set for himself—in that they are almost alone in the field of trans-Atlantic aviation—striking squarely at the spot, almost on the time planned. There was heartache as well as joy for Coste last night, for his wishful idol and war time companion had down his life in attempting the feat he carried through so successfully.

Three years ago last spring Capt. Charles Nungesser and Francois, Coill set out from LeBourget for New York. They passed over Ireland and headed out over the north Atlantic into eternity. Nungesser was Coste's idol. He flew three quarters of the way around the world in a plane named for the two French ace—first man to dare the north Atlantic gales in a non-stop flight from Paris. Little wonder that his face was grave as he set his wheels to earth and realized, as one awakening from a dream, that he was safe, his journey ended. He had won through where Nungesser had failed.

From the presidents of the United States and France congratulatory messages came for the two fliers.

FLIERS (Continued from page 1)

They were burned from the sun and wind and lines of fatigue were etched in the red skin. They tumbled clumsily from the rungs of the ladder with their feet. Their legs numb by the day and a half in the cramped cockpits of the little plane, they stumbled toward the hangar but willing hands helped them along and they rode the last few feet astride the backs of stewart mechanics, happy to carry so famed a burden.

Their fatigue was forgotten when they reached the hangar and found there to greet them a tall, rather stooped young man, white teeth flashing in a face burned almost as red as their own—the man whose path they retraced.

"It was a great flight, captain," he said. Colonel Charles A. Lindbergh, and although Coste probably did not hear or understand the words he could not mistake the meaning and his face lighted with a happy smile as he grasped the hand of America's most famous flier.

At a Park Avenue hotel while clad in orange striped pajamas, Coste greeted reporters a few moments later, first cautioning them to be quiet so as not to awaken his companion, already blissfully sleeping in the adjoining twin bed.

Their trip? Oh, it was just a flight. Yes, the weather was bad in spots, but they had tailwinds part of the way. Was he glad to be here? "Ah, out, out."

Happy To See Lindbergh. "Lindbergh was there at the field," he said, smiling broadly, "and nothing gave me greater pleasure than to see him and talk to him."

to produce one hundred percent. "C's" lease has a daily potential production of fifteen hundred (1500) barrels from five wells. "C's" lease would be entitled to produce One Hundred and Twenty-Five barrels daily and in addition thereto that proportion of the "proratable" portion of the allowable production of eighty thousand (80,000) barrels from the district that 1,375 barrels bears to the total proratable daily potential production of the district as hereth defined.

RULE 4. Except where the drilling of a well is required as an offset, to a producing well, or to one, operations for the drilling of which had begun prior to the effective date of this order and except where, in the judgement of the umpire and the advisory committee, its drilling is required as a protection to the property or lease on which it is located, no well, operations for the drilling of which is begun after the effective date of this order, shall be permitted to produce in excess of fifty (50) barrels per day during the remainder of the effective period of this order. A well designated by the umpire and the advisory committee as being required for protection to a lease or property on account of a well similarly located on a competitive lease or property shall not be permitted to produce in excess of the quantity of oil being produced from the well on the competitive lease or property so similarly located and against which it is drilled for protection; provided that such allowable production from such well shall not exceed the amount said well would be entitled to produce if regularly prorated under this order.

RULE 5. The Commission will appoint a field representative or umpire, who shall have charge of the administration and enforcement of these rules in said district. The owners of proratable producing leases and properties in said district are authorized to select an Advisory Committee composed of eleven (11) representatives, for the purpose of working in cooperation with the railroad commission and its umpire in carrying out the details of administering these rules. Such committee may elect a smaller number of representatives thereon as an executive committee to act for it in such co-operation with the railroad commission and its umpire. Appeals shall lie from any act of the umpire to the commission.

This cause will be kept open on the docket for such other and further orders as conditions may make. PAT M. NEFF, Chairman. C. V. TERRILL, Commissioner. LON A. SMITH, Commissioner. The national amateur bicycle races will be held at Kenosha, Wis., September 6-7.

McGraw Signs Again NEW YORK, Sept. 3. (AP)—John J. McGraw, manager of the New York Giants for more than a quarter of a century, announced today that he had signed a contract to lead the Giants for another five years. Announcement was made at this time, he said, to dispel rumors that he was to move to the American league or to some other national league club.

Connally Will Be Speaker At Legion Meeting

AUSTIN, Sept. 2.—(P)—Delegates to the 12th annual convention of the Texas department of the American Legion settled down today for their final sessions in which they were to hear an address by United States Senator Tom Connally, elect their state officers for 1931, and choose a convention city for next year.

The race for commander of the Texas department was especially hot, with Hal Brennan of Laredo and Dr. W. J. Adair of Fort Worth seeking the office. The fight for selection as the 1931 convention city was growing warmer.

The three main contenders were El Paso, Corpus Christi and Mineral Wells. The convention also was to elect a National executive committee and delegates and alternates to the 12th National convention and pass on approximately 100 resolutions and several proposed amendments to the constitution.

Yesterday the delegates heard three stirring addresses, one by Josh Lee, head of the department of public speaking of the University of Oklahoma; another by United States Senator Morris Sheppard and another by O. L. Bodenhamer, National commander of the American Legion.

Sheppard urged a revision of the industrial and financial structure of the nation as a cure to the unemployment and distressed agricultural conditions. He stated that under the present system, American initiative and enterprise was being throttled and stated that industry should be decentralized to provide for greater participation by workmen.

He condemned a financial structure that vested only two per cent of the population with 40 per cent of the nation's wealth.

Bodenhamer directed his address mainly to the objectives of the national organization in its campaign for hospitalization and rehabilitation of the disabled veterans of the world war. He reviewed the measure the Legion had succeeded in getting through congress and outlined measures which it hoped to get through at the next session.

The national commander also dwelt on the universal draft plan, claiming that once it was placed in operation the moneyed interests of the land would not be so willing to throw the flower of American manhood into armed conflict if their wealth was liable to confiscation for the safety of the nation.

Dallas Suffers \$250,000 Blaze

DALLAS, Sept. 2.—(P)—Firemen today tapped out the last embers of a fire which originated last night in the yards of the Lingo Lumber company and swept across an entire block, causing damage estimated at \$250,000.

Two firemen and a traffic officer were injured. A general alarm sent practically all fire fighting apparatus of the city to the scene. Insufficient water and low pressure in some mains seriously handicapped.

Buildings in the path of the fire all practically ruined, included the Lingo company's yards and a group of stores, the Western States grocery company, Beckley cafe, and F store, Oak Cliff pharmacy No. 4, Beckley bakery, A and P grocery, Healy-sally grocery and the Cash and Carry cleaners.

Fair Exhibits Will Be Larger Hawke Predicts

AMARILLO, Sept. 2.—(P)—With new exhibitors announcing daily that they will display their products, every indication is that the 1930 Tri-State Fair exposition at Amarillo, September 22 to 27, inclusive, will far outstrip any similar exposition in the history of the Panhandle. That is the enthusiastic prediction of Wilbur C. Hawk, president of the Fair association.

"Anyone obsessed with the idea that this great country of ours is suffering any so-called 'depression' will soon have his mind changed when he witnesses the fine types of agriculture produced in this area this year," says Mr. Hawk. "As usual, we are putting great stress upon the agricultural feature of the Fair. More farmers than ever before will show their products, both individually and with their respective county exhibits."

This year for the first time, the automobile show will be held in the newly completed \$25,000 automobile building. Already all space has been sold in this building and dealers are going to distributing centers as far away as Kansas City to get the very latest models of their respective cars.

More than \$18,000 has been set aside for premiums for the 1930 Fair, one of the greatest premium lists ever offered at any Texas exposition. Of this amount \$5,000 will go to the Hereford cattle division alone. Noted breeders of the Panhandle who have never before shown their fine blooded stock are expected to be right in their competing for this prize money.

Of course there will be Beckmann & Gerety's "World Best Shows" with 20 shows and 14 rides, which will be the main attraction on the midway. There will be a rodeo every afternoon. At night Ernie Young's musical extravaganza "Spanish Nights" will hold the center of attraction.

COMMISSIONERS CHOSEN
Jury commissioners for the next two terms of county court have been named, and they will select the jurors who will serve in those terms.

The jury commissioners chosen are H. Davis, H. W. Johns, and L. R. Taylor.
