SEN. JOE ROBINSON DIES
RUSSIAN FLIERS END LONGEST FLIGHT IN CALIFORNIA

SHIP TRAVELS 6,700 MILES FROM MOSCOW

PLANE UNDAMAGED AS IT LANDS IN PASTURE

SAN JACINTO, Calif., July 14 (AP)—The record-shattering transpolar Soviet plane landed in a pasture three miles west of here at 6:27 o'clock this morning, Pacific Standard Time. The fliers had been lost in the fog and were forced down by a leaky gasoline tank.

They told army officers from March field that they had flown down to San Diego but were unable to land due to the fog. They retraced their course northward searching for March field.

They had no maps. The mountain range between San Diego and March field was confusing to them. They did not know just where they were when the gasoline tank began to leak.

A welcome pasture was seen near here and the big Soviet plane's nose was pointed down and a safe landing was made.

They were unable to communicate with the ranchers who came to the pasture.

Later when the Major Victor H. Strahn flew a single seater to the pasture from March field, 25 miles to the northeast, they were formally greeted.

He took them over to March field, their first land ride since leaving Moscow 62 hours before. By signs and clippings in English they made known their wants—bath, eat and sleep.

The plane was not damaged in the landing.

They managed by signs to indicate they did not have maps on the March field location and they failed to see it from the air. Arrangements for disposition of the plane were to be made upon the arrival of the Soviet consul-general from San Francisco, Grigori Gokhman, who vainly sought to locate the fliers in the early

Grasshoppers Fatten Carlsbad Cavern Bats

CARLSBAD, N. M., July 14 (AP)—Overweight bats of Carlsbad Caverns warred happily today on the crop-raiding grasshopper hordes in southeastern New Mexico.

Colonel John Boles, superintendent of Carlsbad Caverns National Park was confident his bats would vanquish the invaders. "Give them time," he said, "and they will get rid of them all."

The activity of the cave dwellers was discovered by park rangers who noticed the bats were fatter than usual. Dissection of several showed their stomachs well filled with what appeared to be remnants of grasshoppers.

The bats fly from the mouth of the caverns at dusk each day over a radius of several hundred miles foraging for insects. Colonel Boles said it had been estimated that eleven tons of insects were consumed each evening by the bats.

Northeastern New Mexico's grasshopper scourge recurred with new intensity today. Motorists reported flights of locusts in the area. The movement—in its 36th hour—continued unbroken in the general direction of the feeding grounds of the bats.

"The grasshoppers are conducting a trench warfare against our farmers," the park superintendent declared. "But I believe the aerial attack of the bats will rout the enemy."

SHELLS FALL INTO MADRID

MADRID, July 14 (AP)—Government troops battered insurgent lines northwest of Madrid in an effort to smash through to the Coruna highway today while a new barrage of shells fell into the capital shattering weeks of comparative calm.

Projectiles at intervals of one minute began dropping into Madrid at noon.

A steady government push east of Las Rozas, Coruna highway city ten miles northwest of Madrid, threatened insurgent control of three strategic towns—Las Rozas, Majadahonda and Villafranca Del Castillo.

FDR Fighting 'Against God,' Says Wheeler

WASHINGTON, July 14 (AP)—The sudden death of Democratic Leader Robinson upset today the administration drive to enact a substitute for the Roosevelt court bill.

The Arkansas senator not only was directing the drive to push the compromise measure through the Senate but was the principal author of the substitute.

He had been given a free hand by President Roosevelt to negotiate a bill the Senate would pass.

The immediate effect of Robinson's death was to interrupt the furious debate which has been proceeding in the Senate for more than a week.

JAPS MOBILIZE FOR CRISIS IN PEIPING AREA

BATTLE HALTS AFTER CHINESE ROUT INVADERS

PEIPING, July 14 (AP)—Fighting between Japanese and Chinese troops was halted this morning after a battle near Na Yuan air-drome, eight miles south of Peiping, had lasted until almost dawn. Shortly after the engagement ended, the gates of the ancient city were opened and rail service to Tientsin was resumed.

American travelers, including 150 and navy officers and their families stationed in China were on the first train to leave the city.

The Japanese high command utilized every available motor car in Tientsin, in addition to a supply of motor trucks recently brought from Manchoukuo, to rush 2,000 reinforcements to the Peiping battle area after the Chinese army had been victorious in yesterday's encounter.

At the same time, however, Japanese sources here announced their troops had evacuated the Wanpingh-shan village area near the Marco Polo bridge where the first clash occurred.

Settlement Deserted
The Japanese sources described the withdrawal as "indicating a desire to effect a settlement." This latest development caused another lull in the tension but seemingly did not end the crisis.

The fighting early today was believed to have been an outgrowth of that of yesterday in which a heavily supported Japanese detachment was driven back to the very gates of the city before they were able to wheel and retreat toward Fengtai.

The scene of the battle was ominously quiet when visited today, although the road to Nanquan was crowded with mobs of terrified refugees.

Half a mile outside the city was a charred Japanese truck which had been towing a staff car now bullet riddled.

Two miles further south was a

Magnolia Petroleum Company and Magnolia Pipeline Company employees and their families, numbering about 850, enjoyed the annual picnic on the Saunders ranch east of LeFors on Saturday.

Following a terrapin race, softball games, tug 'o' war, horse shoe contests and marble games, a delicious barbecue dinner with all the trimmings was served under the watchful eyes of Jno. V. Andrews and Lee Ledrick. R. L. Rosey and "Comp" Compton were masters of the ceremony.

Only address of the day was by County Judge Sherman White. Other guests included Mayor W. A. Bratton of Pampa, Judge H. E. Hoover of Canadian, Mr. and Mrs. W. S. Norman and daughter of the Amarillo-El Paso district, and Earl Van Dale, head of the land department, from Amarillo. Music was furnished by the Tune Teasers.

The picnic closed with a dance at the Magnolia Company headquarters in Pampa with Claude Higgs and his Commanders furnishing the music.

GARNER SHOCKED OVER DEATH OF ROBINSON

UVALDE, July 14 (AP)—Vice President John N. Garner was greatly shocked when informed early today of the death of Senator Robinson of Arkansas in Washington.

Garner was one of the most efficient and effective legislators in the history of congress. The Vice President said "I have suffered a great personal loss since we were devoted friends, each sharing the other's confidence and good will."

Mr. Garner was advised of the senator's death upon his return from an early morning trip into the country. He made no immediate plans to return to Washington.

Mrs. Garner, an acquaintance of the senator for a number of years, also expressed her sympathy in the Democratic leader's untimely death.

Willacy Judge Asks Removal Of 2 Officers

RAYMONDVILLE, July 14 (AP)—County Judge W. E. McCharen today sent a telegram to Governor James V. Allred asking the removal from Willacy county of Texas Ranger Power Penner and State Game Warden Morgan Miller.

McCharen yesterday fined Penner and Miller \$50 each and assessed three day jail sentences against them for contempt of court in a case growing out of the investigation of the disappearance of Luther and John Blanton, San Petrita farmers. The jail sentences against the officers were remitted and they appealed.

The telegram from McCharen said: "For the public safety and peace I most respectfully appeal to Your Honor to remove from Willacy county Ranger Penner and Game Warden Miller. This represents the sentiment of a great majority of the citizens of Willacy county." He sent a similar telegram to Director of Public Safety H. H. Carmichael, who directs the Ranger force, omitting the name of Miller.

Penner, Miller, Sheriff H. T. Cragg and Jailer Maille Brownfield were found guilty of contempt by Judge McCharen Monday as an outgrowth of the arrest of Louis Lamadrid, generally believed to be a Blanton case in-vestigator. The officers were cited for contempt because Lamadrid, arrested on a charge of carrying a pistol in Brownsville, allegedly was removed from the Raymondville jail to Brownsville while a habeas corpus writ was being prepared. The officers asserted they had no knowledge of the writ at the time.

Bowers' Deny Testimony Of Their Uncle

Arguments will begin before a Gray county court jury tomorrow forenoon in Tom Bowers' lawsuit against John, Joe and Aubrey Bowers, his nephews, in which he seeks to collect \$200,000 allegedly due him from the oil and gas estate of his brother, the late Joe Bowers, Sr.

The court this afternoon began preparing the charge to the jury and the case was adjourned until 9:30 a. m. Thursday.

The plaintiff rested shortly before 10:30 a. m. today and the defense called only four witnesses, the Bowers brothers and Lon Blansett, former Gray county sheriff. The defense entered a complete denial, through testimony of the brothers, to the plaintiff's claims that he was responsible for the discovery of oil on the Bowers lease and that his brother promised to pay him \$200,000 for his services as a geologist.

Promise Claimed. Witnesses for the plaintiff marched on and off the stand all day yesterday and until mid-morning today. Counsel for Tom Bowers were attempting to show that a promise of remuneration by his deceased brother had never been kept and to show that the estate is obligated for that debt in the sum of \$200,000.

Ben F. Dumas, an oil driller, testified this morning that he heard Joe Bowers, Sr., on two different occasions say that he was going to give the plaintiff \$200,000 to build a refinery.

The present hearing marks the second trial of the case which on a former occasion went to the Supreme Court and was returned for trial after the first district court trial had resulted in a directed verdict for the three defendants.

At one point in the proceedings this forenoon, Attorney Bob Underwood, member of defense counsel, asked Witness Dumas "just what he was to get out of it if Tom Bowers wins this case."

Mr. Dumas replied that he would "get nothing."

BOYS REQUESTED TO PAY CAMP ENTRY FEE BY TOMORROW NIGHT

Attention, Boy Scouts of the Adobe Walls council. You have until tomorrow night to file your entry and pay \$1 to be eligible for a camp Ki-O-Wah emblem. The summer camp will open on July 25 on Wolf Creek 20 miles southeast of Perryton.

Boys may sign for one week or for the duration of the camp. Up to noon today 15 boys had paid their entry fee and a score more had filed application for the first week of the camp.

Vaughn Darnell, camp director, announced the arrival of several new tents capable of housing about 40 boys. The camp will have a capacity of about 75 each week. An experienced cook will be hired and all camp activities, including swimming, hiking, pioneering, bird study and other Scout advancement programs will be under experienced adult leadership.

A beautiful Camp Ki-O-Wah emblem will be given each boy who signs and pays the down payment by tomorrow night. The troop registering the most boys for the camp will receive an emblem.

Scouts will be required to take bedding, clothing, mess gear and personal needs. The fee for each week of camp will be \$6.

DYNAMITE FOUND. SAN ANTONIO, July 14 (AP)—Sheriff A. W. Saeger of Guadalupe county is holding 16 cases of dynamite that he doesn't know what to do with. The Seguin sheriff telephoned local police last night and asked if any local firm had reported the loss of such an amount of explosives. He said the dynamite had been found buried on a farm near Seguin. It is being held in the court house at Seguin.

HEART ATTACK TAKES NOTED STATESMAN FROM ARKANSAS-- DEMO PROGRAM IN TURMOIL

WASHINGTON, July 14, (AP)—Senator Joe T. Robinson, the Democratic leader, died early today with—President Roosevelt's words—his "face to the battle."

The 64-year-old Arkansan, his party's leader in the senate since 1922, died alone early today in his apartment home. He was found face downward on his bathroom floor, after a weary week of fighting for the administration's court reform bill.

Plans were made, subject to his widow's approval, for a funeral service in the senate chamber tomorrow with Mr. Roosevelt as chief mourner.

Both senate and house adjourned until tomorrow out of respect. Leaders, the nation over, expressed sorrow.

Robinson's death, in midst of the bitter debate on the court measure, made a question of the whole legislative situation. The legislative day which Robinson began July 6 in a parliamentary move to curtail debate over the court bill was ended.

When the senate resumes work on legislation, probably next week, all the debate delivered so far could be repeated if senators desired to filibuster.

The court bill, however, continued to be the business officially pending before the Senate.

Definite funeral arrangements were not possible immediately because Mrs. Robinson was so shocked by news of her husband's sudden death she was unable to talk by telephone with friends here.

The saddened Senate heard Robinson's fellow Arkansan, Senator Hattie W. Caraway, announce the leader's death.

At the end of her brief speech, delivered in trembling voice, Mrs. Caraway offered the usual resolution of adjournment out of respect for the deceased Senator.

Before it was voted, Senator Barkley (D. Ky.), acting majority leader, offered a eulogy. As he talked, many Senators sat with bowed heads and closed eyes. Mrs. Caraway held her hand over her eyes.

Robinson's body was discovered at 8:15 a. m. (EST) by the family's colored maid, Mary Jasper.

Coroner A. McGruder MacDonald said his death was due to heart disease.

Doctor George W. Calver, capitol physician, said Robinson apparently had left his bed about midnight at 8:15 a. m. (EST) and had gone to the bathroom where he fell face downward.

Calver said Robinson, who was 64 years old, had suffered several heart attacks in recent months.

The physician said that when Robinson made the address which touched off fiery debate on the court issue he became very pale and apparently cut his address short.

"I did not see him at the time," Calver said, "but many who were there noted he became very pale and apparently cut his speech short. Senator Copeland rushed to his side when he stopped speaking."

Tentative plans were made to send Robinson's body to Arkansas tomorrow evening.

As word of his death spread over the capitol, many of his colleagues went to the Robinson home.

The first to arrive were Senators Harrison (D-Miss) and Walsh (D-Mass.).

"I am shocked beyond expression," Harrison said as he departed. "Senator Robinson's death was a tragic coming as it did, in the midst of one of his greatest fights and just before he was to be honored to a place on the supreme bench."

Program in Turmoil
The sudden death of the Senate leader shocked the capital and threw the administration's legislative program into turmoil.

Robinson, Democratic leader since 1922, was personally in charge of the administration's two major legislative campaigns to enact President Roosevelt's bills to reorganize the courts and the executive departments. His colleagues generally had expected his appointment to the supreme court to fill the vacancy created by the retirement of Justice Van Devanter.

Although Robinson's health had not been quite as good as in former years, his sudden death was a tremendous shock to his senatorial colleagues and all of official Washington.

The Democratic leader had been working with terrific energy during recent weeks in an effort to devise a compromise court bill for which he could obtain senate approval. The substitute measure now under debate was drafted under his supervision.

He also had given close personal attention to the government reorganization program. Two or three weeks ago he personally introduced

LEGIONNAIRES TO ENTERTAIN DONLEY POST

PAMPANS TOMORROW WILL TAKE 'FEED' TO CLARENDON

Some 50 or 60 members of Kerley-Crossman post of the American Legion will go to Clarendon at 6:15 o'clock tomorrow evening in their first move to "god-father" the Donley county post.

With them they will take 40 pounds of barbecued spare ribs, onions, pickles, mustard, buns, doughnuts. The Clarendon Legionnaires will furnish coffee and members of the two posts will enjoy an evening together.

At the 18th district convention at Panhandle on June 6, the Legion adopted a "god-father" plan for the purpose of "pepping up some of the weaker posts in the district." The idea of this plan being that the "godfather" post would make visits, or otherwise try to assist the weak post assigned to them in reviving interest in the Legion, building up membership of the post and encouraging it to carry on a full Legion program in its community.

Kerley-Crossman post was appointed "god-father" of Clarendon's Aubyn E. Clark Post whose commander is R. W. Moore. At the time Pampa was named "god-father" to the Clarendon Post, other strong

## WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go  
The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.  
Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills, by name. Stubbornly refuse anything else. 20c.

## YOUR CHILDREN

By OLIVER ROBERTS BARTON  
A growing child is sensitive about his looks. The peculiar part is that he often hates the very features that others praise.  
Many tugs at her mop of golden curls and declares that they're hideous. Why? Well, perhaps she associates such glory with her second-cousin Anne, whom she doesn't like, and who happens to be topped with a similar tatch. Or it might be that Myrtle, her best friend, has straight, shiny hair, as black as shoe polish.  
But alas. It's more than likely that Brother Bill has christened her "Goldilocks" or even tweaked the soft ringlets and called her "Gun Moll".  
Never to Be Spoken  
There are times of course when causes are more obvious, such as teasing about ears that stick out, a nose that turns to the sky; or referring to lean little legs as "pipe-stems".  
Even the slightest allusion to any irregular member is unwise, because the ever-ready disparagement of the child seizes upon any excuse to fix itself.  
We should not joke about anything of the sort, however lovingly, or by sign or sigh reveal our secret disappointment.  
Ugly Ducklings Will Be Swans  
Here is the crux of the whole matter. I think. Time cures almost everything but feelings. It shapes up heads, ears and noses, fills out shanks and wipes off the skin. It eases off the fast-grower and the little fellow who delays adding to his inches. As they say, it all comes out in the wash. In the meantime, we must do all we can not to allow self-consciousness to ruin things.  
TO TEACH CHILDREN.  
AUSTIN, July 14 (AP)—More than \$1,500,000 will be spent in Texas by state and federal governments the next two years to teach rural school children vocational agriculture, home economics, and various trades and industries.

## CHURCH CLASS ENJOYS GAMES AT HUFFHINES'

The Dorcas class of the Central Baptist church met yesterday in the home of Mrs. R. T. Huffhines with a pleasant social hour. A short business meeting was led by Mrs. John Evans, president, after which a series of games were played, led by Mrs. W. A. Williams.

Mrs. T. M. Gillham surprised three members, Mmes. L. M. McAnally, C. B. Hickey, and V. R. Martin, with gifts from the class. A gift was also sent to Mrs. Faunce Mason.

## MODERN MENUS

By MRS. GAYNOR MADDOX  
A baked orange can be a cooling luscious. And stewed red plums can chill a compelling appetite.  
Orange Meringue (4 servings)  
Two oranges, raspberries and blueberries, 4 tablespoons sugar, 1-8 tablespoon salt, 4 drops orange extract, 2 egg whites.  
Cut oranges in half and cut out centers. Mix orange meat with raspberries and blueberries and sweeten to taste. Fill orange basket with this mixture. Beat egg white with sugar add salt and flavoring. Top each orange half with meringue. Bake in slow oven (325 degrees F.) for about 20 minutes. Chill before serving.  
Compote of Plums (4 to 6 servings)  
Two pounds red plums, 1 cup sugar, 1-2 cup water.  
Combine sugar and water and cook to thick syrup. Wash plums, do not peel, but prick with pin. Add to sugar syrup and simmer gently until tender. Chill and serve in glass saucers.  
If you like foreign berry combinations—and they are usually interesting—try this Danish variation on the summer galette.  
Rodrod (4 to 6 servings)  
One quart fresh currants, 1 pint fresh raspberries, 1 cup sugar, 1-4 teaspoon salt, 3 tablespoons cornstarch.  
Wash berries carefully just before using. Place in saucepan with 1-2 cup water. Simmer gently until juices are drawn from fruit. Strain through fine cloth. Combine sugar and cornstarch. Slowly stir in the strained fruit juice. Simmer until it thickens and is clear and bubbly. Chill thoroughly before serving.  
A tempting cookie or two might go well with these fruit dishes.  
Brown Crisps  
Two eggs, 1-2 cup powdered sugar, 3-4 cup sifted flour, 1-3 teaspoon salt, 1-3 teaspoon cinnamon, 1-8 teaspoon cloves, 1 tablespoon grated orange rind, 1 teaspoon grated lemon rind, 1-2 cup chopped nuts.  
Beat egg white until stiff. Add sugar gradually, continuing to beat. Add beaten egg yolks, and then flour sifted with spices and salt. Add orange rind, lemon rind and nuts. Drop by teaspoons on greased cookie sheet. Bake in moderate oven (350 degrees F.) for about 10 minutes, until crisp and light brown.

## DORCAS CLASS TO ENTERTAIN MEMBERS SOON

The Dorcas class of the First Baptist church had a business meeting yesterday. The membership enrollment was checked and all group captains and president were present. A committee was appointed to make plans for a breakfast to be held in the home of Mrs. Eo Barrett, 632 North Nelson, at 6:30 Thursday morning, July 22. Members of the committee are: Mrs. S. C. Garner, who had charge of the menu; Mrs. P. O. Anderson and Mrs. E. L. Anderson are to plan the decoration; Mrs. W. B. Murfee is to give the program on cooperation; and Mrs. M. W. Boyles had charge of the invitations and flowers. All Associate and prospective members are invited.

## Green May Lose Membership In United Miners

WASHINGTON, July 14 (AP)—William Green, arch-enemy of John L. Lewis in the American labor movement may lose his membership next week in Lewis' United Mine Workers.  
The miners' policy committee last February directed the union's officers to expel Green, veteran president of the American Federation of Labor, because he has fought Lewis' CIO.  
The union's international board will meet here next Tuesday for the first time since the policy committee took that action. Persons close to the situation predicted today Green would be ousted with few, if any, dissenting votes.

The report was examined and approved by the commissioners' court at their regular session this week.

## Bolero Gown

A flatteringly youthful summer evening ensemble is made of Swiss chiffon organza in a soft shade of gray with floral embroidery motifs in grape-purple and glossy green. The gown has a slim bodice, modest decolletage, narrow shoulder straps and a skirt which molds the hips, then billows and floats at the hemline. The matching bolero has puff sleeves.

## WHITE DEER RESIDENT FOR SIX YEARS DIES

Mrs. M. J. Morgan, 58, a resident of White Deer for six years, died yesterday afternoon of an extended illness. Funeral services were set for 3 o'clock this afternoon in White Deer Baptist church with the Rev. McElmish, pastor, officiating. Burial was to follow under direction of G. C. Malone Funeral home.  
Surviving Mrs. Morgan are three daughters, Miss Ollie Morgan, at home, Mrs. Frances Grosson, Little Rock, Ark., and Mrs. Catherine Guinn, Rising Star; three sons, Harvie Morgan, Vergil Morgan, and Herbert Morgan, all of White Deer; two sisters, Mrs. Pardine Deberry and Mrs. Adeline Conner, both of Alpena Pass, Ark.; and a brother, Willie Miller, Paris, Ark.

## Hot Weather is Here— Beware of Biliousness!

Have you ever noticed that in very hot weather your organs of digestion and elimination seem to become torpid or lazy? Your food sours, forms gas, causes belching, heartburn, and a feeling of restlessness and irritability. Perhaps you may have sick headache, nausea and dizziness or blind spells on suddenly rising. Your tongue may be coated, your complexion bilious and your bowel action sluggish or insufficient.  
These are some of the more common symptoms or warnings of biliousness or so-called "torpid liver," so prevalent in hot climates. Don't neglect them. Take Calomel, the improved calomel compound tablets that give you the effects of calomel and salts, combined. You will be delighted with the prompt relief they afford. Trial package ten cents, family pkg. twenty-five cents. At drug stores. (Adv.)

## JANELLE EWING IS HOSTESS TO SMALL FRIENDS

Mrs. Robert Ewing entertained with a birthday party for her little daughter, Janelle, at her home on Somerville street.  
The small guests played games for an hour on the lawn, and then repaired to the house where the gifts were opened and inspected and thanked extended by the small honoree. The climax of the occasion took place in the dining room where a lovely pink birthday cake surmounted by three candies attracted much attention.  
A birthday song and the serving of the cake and ice cream closed the party. The guests were: Ann Collins, Zulu Margaret Brown, Josephine Foot, Son, Cantrell Arvela and Nancy Patterson Jan Sanders, Sonny Burrow, Bobby Berry, Patricia Beard, Bobby and Houston Fry of Miami, Patsy Ruth and Richard Miller.

## MIND your MANNERS

Test your knowledge of correct social usage by answering the following questions then checking against the authoritative answers below.  
1. For a very small house wedding is it quite all right for the bride's parents to invite in a number of neighbors and friends for only the reception afterward?  
2. Would it be correct to use records on a photograph for the wedding march at a home wedding?  
3. For a simple home wedding where the bride is not leaving town immediately afterward, should she wear a hat with her afternoon dress?  
4. For such a wedding, would it be all right for the groom to wear white flannel trousers and dark coat?  
5. Is it necessary for the bride to have an attendant?  
What would you do if—  
You are a bride having a small home wedding and wished to invite a few intimate friends?  
(a) Have engraved invitations?  
(b) Telephone your invitations?  
(c) Write personal notes?  
Answers  
1. Yes.  
2. Yes.  
3. It is customary.  
4. Yes.  
5. No, but she may have if she so desires.  
Best "What Would You Do" solution—(c) or by word of mouth—although telephoning is not incorrect.

TEX'S TOPICS

John McCarty, the Amarillo editor, carries the belief that County Judge Sherman White, of Gray county, is probably the worst automobile driver in the Panhandle of Texas.

Incidentally, Mr. McCarty is very much impressed with the proposed lake site. In fact he told the luncheon attendants yesterday that the county "sure has an honest-to-god dam site".

Likewise, we are glad to learn one of Old Tack's little secrets from Mr. McCarty. We got to talking about columns and things over some breakfast coffee yesterday, and Mr. McCarty confided publicly that two columns are bought by the newspaper to fill out Old Tack's columns on days when Old Tack lacks ambition and cannot write enough to fill the thing himself.

Father Divine's Olympic games at Kingston, N. Y., may have been just his way of being sure that the flock was at least two jumps ahead of the devil.

The first oil well in the United States was brought in at Titusville, Pa., on August 22, 1859, producing about 400 gallons daily.

The World War did not end for the United States until July 2, 1921, when President Harding declared the war "officially over".

Yesteryear In Pampa

TEN YEARS AGO TODAY More than a thousand dollars had been raised the first day in Pampa's Boy Scout drive under the direction of M. K. Brown.

FIVE YEARS AGO TODAY Five hundred Childress citizens thronged Pampa after journeying on the new Fort Worth and Denver Railroad.

The Panhandle Association of Osteopathic physicians met in Pampa. self does not learn anything in 20 years of service in the congress, it would prove that he had been wholly incapable of learning anything in his service among distinguished representatives in the house and distinguished senators in this chamber.

He demonstrated, however, that inconsistency was no factor in his case. It was another Connally who had voted for the 22-year-old bill, and Hatch apologized.

How About Some More Medals?

A 'PROSPERITY' PROBLEM

The most perplexing fact in the path of the man who wants to raise prosperity by raising incomes and prices is the way in which such increases inevitably tend to cut down on the demand for goods.

A current bulletin from the Alexander Hamilton Institute points out, as an example, the way this is about to work out in the auto industry. All signs have been pointing toward a substantial increase in the demand for autos in the immediate future; but now a 10 per cent price advance is rumored, and if it comes, it may well offset the expected increase in demand.

Wages in the auto industry have come up 14.6 per cent since 1929. The price of steel, likewise, has risen by 13.4 per cent in the same period. Yet auto prices, far from having advanced, are about 15 per cent under the 1929 level.

Some sort of increase looks almost inevitable; when it comes, how far will it go toward offsetting the "increased prosperity" which increases in wages and raw material prices were supposed to effect?

LIFE-SAVING EXPENSES

A good deal of rather loose talk has been indulged in lately about the vast expense to which the U. S. Government was put in its search for Amelia Earhart. The estimates seemed to start at \$200,000 or thereabouts and go on up, depending on the enthusiasm of the estimator.

Now it is perfectly true that it costs money to send ships like the Colorado and the Lexington off on a cruise. They have large crews and the crews are well paid. The searching planes burned a good deal of gasoline. All in all, you could make quite a bill out of it.

But the thing to remember is that practically all of this expense would have gone on even if there had been no search at all. The Colorado, the Lexington and the other warships were in commission; they would not have been laid up, their fires drawn and their crews paid off, if Miss Earhart had not been lost. A great deal of money was spent on the search, but all but a few dollars of it would have been spent anyway, in ordinary naval routine.

WASHINGTON LETTER

WASHINGTON—Senators Henry Ashurst and Tom Connally may yet save the nation. Into all the heavy duty argument over the Supreme Court bill, they inject the light-some, personal touch. They add oboe and piccolo notes to the trouble-laden bass of such senators as Burke of Nebraska and Walsh of Massachusetts. And the nation should be grateful.

They are as unlike in their methods as teeth and toe-nails. Ashurst, the erudite, sometimes dresses his ideas with phrases of such facility as to hide the fact he is one of the most learned in history and legislation in the senate. And he is forever the suave showman, the William Powell of lawmakers.

Connally, lacking the deft touch of Ashurst, makes up for it in the acrid bite of his remarks. His sardonic style has more than once carried him out of bounds so that he has felt better to revise his remarks before they appear in the imperishable columns of the Congressional Record.

But don't get an idea the two are wholly frivolous. They just do their work that way. They are members of important committees. Ashurst is chairman and Connally a member of the senate judiciary committee which handled the court bill.

Ashurst early this session spoke out for a constitutional amendment to revise the court and almost overnight switched over to become the champion of the President's bill to revise the court by law. "Consistency," he jibed, "is a weakness of little minds." During the current debate on the court bill he had an opportunity to explain how hard it may be for senators to be consistent, or to explain their votes.

He was asked by Senator Burke whether he was moved by a desire to make the Supreme Court change its mind when he voted 22 years ago for a bill to permit the President to add an occasional justice.

"The senator from Nebraska asked me if I supported the bill then pending for the reason indicated. Call the roll of senators and let them open the door of the sanctuary which is within the breast (he tapped his shirt with his fist) of every human being, that monitor that tells them when they are right or wrong, and on their honor they are sometimes unable to say just what particular factors determined them to vote this way or that."

Connally handled the matter another way. He now opposes the court bill but was accused by Senator Hatch of New Mexico of having supported the 22-year-old bill, and was asked why the change of heart.

NEW YORK—Personal notes off a New Yorker's cuff: Edmund Lowe, who is in New York at the moment, likes to tell about the time he and another actor had just emerged from a long fast and were looking about for a room.

Other items include: A carved camel that passes through the eye of a needle. A rare, jade Buddha enclosed in the husk of a rice grain. Temple bells more than 200 years old no larger than drops of water.

These are but a few of the 25,000 objects which, from hobby, has become one of the world's most amazing exhibits. And they are rapidly making Carbone wealthy.

Bert Acosta, the aviator, has been lured into headlining a Spanish revue at El Toreador. The flier is back with a fund of reminiscences of his activities in Spain.

Most of the firewood used by New Yorkers who are fortunate enough to own fireplaces is furnished by a woman.

Then one day his new master discovered that the dog once belonged to the Ponds, so he got in touch with Frank Chapman who used to drive the NEWS car to Miami and Canadian and who is known better in those towns, perhaps, than any other Pampan.

AROUND HOLLYWOOD

HOLLYWOOD—Olympe Bradna—the new face they're yelling about in "Souls at Sea"—owes her first theatrical training to the disaster that befell her father's trained dog act.

Now you'll see her as Luise Rainer's maid—and good, too—in "The Emperor's Candlesticks."

Adventurous Errol Flynn may be a big gun with wild beasts, jungle savages, and tropic hazards. But I can't hand him much on his flap-jack-tossing.

SHANGHAI (P)—For a few cents, professional letter writers will turn out a missive on love, business or just folksy chat chat for the folks back on the farm.

How's Your Health?

Edited by DR. IAGO GALDSTON for the New York Academy of Medicine

Physically Fit Rabbits: II Dr. Arthur Locke's experiment to show that "physically fit" rabbits could clear their blood of limited numbers of injected pneumonia germs, and thus escape the disease was reported yesterday.

The less physically fit animals (those requiring a longer time to recover from chilling) could not clear their blood from the injected pneumonia germs, and succumbed to their effects. The fitness of the rabbits was judged by their capacity to recover quickly from the effects of chilling.

The experiment was then modified so that the pneumonia germs were injected not directly into the blood stream but into the skin of the animals. It was found that 69 per cent of the most efficient rabbits were able to "circumscribe" their infection for 26 hours, and 44 per cent of these animals survived.

Interestingly, all the rabbits proved more resistant to infection when they were transferred to quarters 20 degrees cooler than those in which they were ordinarily kept. The improvement in resistance may possibly have been due to the whipping up of metabolism, provoked by the lower temperature.

Dr. Locke's experiments remind us of those performed by Dr. Edward Livingston Trudeau, who took two groups of rabbits, both inoculated with tuberculosis germs. One group of animals he confined in dark and restricted quarters; the other he freed on a small island. Those freed resisted their infection. A simple, but convincing demonstration of the value of the fresh air treatment in tuberculosis.

TO ENHANCE BEAUTY: A TATTOOED SMILE WASHINGTON (P)—Feminine beauty varies with geography, says Malvina Hofman, the goddess who has studied the "beauties" all over the world.

In Hokkaido, an island on north Japan, the village queen must have a tattooed smile which circles her lips and stretches to her ears. In Central Africa the Duck Bill, to be beautiful, must have huge lips. In Burma the resigning belles must have long necks encased in brass rings—the more rings, the more beauty.

A rain of fish, occasionally reported in different parts of the world, is the result of small fish being sucked up from the water by waterspouts and carried a distance before falling back to earth.

ANSWERS TO QUESTIONS

By FREDERIC J. HASKIN

A reader can get the answer to any question of fact by writing The Pampa Daily News Information Bureau, Frederic J. Haskin, director, Washington, D. C. Please enclose three (3) cents for reply.

Q. Is the consumption of electricity increased to any appreciable extent during a big broadcast such as the Louis-Braddock fight? W. M. R. A. According to the Commonwealth Edison Company, while the Louis-Braddock fight was in progress the consumption of electricity in Chicago increased by 65,000 kilowatt hours, or about 9 per cent above normal, due to more radios and electric lights being turned on.

Q. Was Hawaii a natural sugar country? N. H. A sugar was an artificial crop. Commercial fertilizer and irrigation were necessary, as well as the kind of laborers who would handle sugar crops.

Q. How large is Jefferson National Forest? A. D. A. This reservation now contains some 450,000 acres in Virginia and West Virginia. It is hoped to acquire more acreage until this National Forest will be well over two million acres in extent.

Q. What is a potato? G. M. A. It is a plant combination of potato and tomato. One plant is grafted on the other. If the potato is the stock and the tomato is grafted upon, it both vegetables may be grown.

Q. Do women usually live longer than men? R. M. K. A. They do. In 1900 the average life was 48 years for men and 51 years for women. In 1930 it was 59 years for men and nearly 63 years for women. At the age of 80 there are 23,053 women to 17,221 men. These figures are for the white race. For Negroes the average life is now 47.55 years for men and 49.51 years for women.

Q. How many pounds of spices are imported into the United States? R. H. K. A. Preliminary estimate of the total number of pounds of spices imported into the United States during 1936 is 141,896,046. Black unground pepper led all other spices, the estimated total being 69,345,389 pounds.

BOOK A DAY

By BRUCE CATTON

When you get seven distinguished detective story writers dissecting seven real-life murder cases, you ought to have something in the way of a treat for the detective story fan. So you are apt to approach "The Anatomy of Murder" (Macmillan, \$2.50) with high hopes. Unfortunately, the book doesn't live up to its promise. It has the authors, all right—Helen Simpson, Margaret Cole, Dorothy L. Sayers, John Rhode, E. R. Punshon, Francis Iles and Freeman Wills Crofts—but they seem to have chosen a rather dull lot of murders to talk about, and all too few of their tales have anything exceptional to them, either as substance or treatment.

The best chapter in the book, to my notion, is the one written by Francis Iles on England's famous Rensbury case, in which a somewhat flighty young wife became entangled with her chauffeur, unintentionally goaded him to the murder of her husband (and a stupid, bungling murder it was, too) and then tried to save him by assuming the guilt herself.

Another good chapter is the one on Landru, contributed by Mr. Punshon; still another is Margaret Cole's account of Adelaide Bartlett, who seems to have fed her sick husband chloroform and to have escaped punishment for it.

SHERMAN YOUTH DIES IN HENRIETTA CRASH

HENRIETTA, July 14 (P)—Lloyd Bellow of Sherman was killed early Wednesday morning and his brother, Woodrow, also of Sherman, was critically injured when a light truck in which they were riding crashed into a bridge over Dry Fork creek two miles east of Henrietta.

The body of Woodrow was hurled from the truck in flames from gasoline which saturated his clothing when the tank of the car burst. The body was found in the bed of the creek, burned almost beyond recognition.

Woodrow lay in the burning truck, both legs broken and suffering other injuries and severe burns. He was brought to a Wichita Falls hospital.

The two brothers were bringing a load of onions from White Wright to local markets.

LIQUOR RAIDERS ARE GIVEN GUNS AUSTIN (P)—Texas state liquor inspectors, who often make dangerous raids on moonshiners, now may wear guns.

Until the legislature passed a new liquor regulatory act, the inspectors had to get along without "shooting irons" or search warrants.

### TANK WAGON PRICE OF GAS DUE FOR RISE

TULSA, Okla., July 14 (AP)—Brisk business in motor fuel brought new predictions in the oil business today that the tank wagon price of gasoline in the mid-west was due for a rise.

Most marketers here have felt the price has been out of line since the action of Standard of Indiana several weeks ago in reducing the tank wagon price a half cent on ethyl and regular and a cent on third grade.

Several refiners professed themselves "amazed" at the amount of gasoline being required by the motoring public.

It was the general impression that a tank wagon advance in the mid-west very likely would follow the upwards adjustments effected in the deep south and Atlantic coastal regions.

Crude oil producers, who have been pretty glum in recent weeks over the price of their product and the slim prospects of bettering it, were heartened considerably.

In the first place, it was pointed out, an increase in the price of refined products would strengthen the crude market, perhaps to the point of a general increase in the crude price. Besides that, the report of the bureau of mines on oil in storage, made at the interstate oil compact meeting at Santa Fe, was considerably more favorable than had been expected.

Most producers were in hearty agreement with the view of Col. E. O. Thompson, chairman of the commission and Charles F. Roesser, president of the Independent Petroleum association, that the figure of 297,496,000 barrels in storage as of March, 1937, showed operators had not been ratty in producing and that storage stocks really were too low.

The Oil and Gas Journal's computation showed field operations so far this year were far ahead of those of 1936 with 15,716 wells completed up to the week ending July 10, compared to 12,694 in the same period last year.

During the past week 642 wells were completed, six more than the week before. The list included pool extensions in all the important producing states.

### Grandparents Given Custody Of Baby Girl

Custody of Francine Lee St. Jacques, two and a half-year-old daughter of Mrs. Chlovia Conley, of Arkansas, and F. E. St. Jacques, Jr., of California, has been divided between the paternal and maternal grandparents.

According to the written decision of Judge W. B. Ewing in whose district court a habeas corpus hearing was conducted last week-end, the child is to remain with her maternal grandparents, Mr. and Mrs. George Gilkerson, of Lipscomb when the mother is in Texas and not for a period longer than six months at a time.

When the mother returns to her home in Arkansas the court order stipulates that the child must be returned to the custody of her paternal grandparents, Mr. and Mrs. F. E. St. Jacques, Sr., at Higgins, where the mother also is permitted to visit her daughter.

Mr. and Mrs. St. Jacques have had custody of the child since the parents were divorced last April. When the child becomes of school age the mother then cannot retain custody of the child for more than three months out of the year.

### GRAND JURY RAPS OIL ENFORCEMENT IN FIELD

TYLER, July 14 (AP)—A long Smith county grand jury investigation into alleged East Texas oil field law violations had ended today in sharp criticism of "the utter lack of cooperation" between the Texas Railroad commission and the state comptroller of public accounts.

The grand jury charged the state had wasted millions of dollars futilely trying to enforce its regulations on the oil industry because employees of the comptroller's office failed to report known violations to proper authorities.

The report said this failure to cooperate led to thefts of oil, tax evasion, false affidavits, counterfeiting and forging of manifests on oil shipments. The jurors alleged comptroller office workers knew for 18 months of violations but did not report them.

Salaried Solitude HONOLULU (AP)—Manuel Pedro, who draws a salary for being a hermit, took his first look at civilization in 21 years and decided he didn't like it. So he went back to the island of Kahoolawe, 80 miles away, where he is manager of a cattle and sheep ranch.

### LEFORS PLAY PROGRAM WILL BEGIN MONDAY

LEFORS, July 14 — J. H. Duncan, principal of the LeFors Junior high school who has been teaching education in Trinity university the first six weeks of the summer, will return to LeFors this week-end and will direct the play-ground program beginning Monday, July 19.

The program will officially begin Monday night with a free picture show that is to be shown on the high school grounds. The show will be "Wagon Trails" starring Tom Mix. The public is invited to attend.

All Boy Scouts, and any other boys that wish to do so, are requested to meet Monday morning, July 19, at the ball park for the purpose of marking off the ball diamonds, setting up volley ball courts, etc. At 4 o'clock, all boys from the age of 8 to 19 that wish to play soft ball are to meet at the ball park and organize into teams and arrange schedules. There will be three soft ball leagues, divided according to ages of the boys, with a sub-Junior, a junior and a senior league.

### FIVE TEXANS KILLED IN HIGHWAY ACCIDENTS

(By The Associated Press.) Five Texans died violent accidental deaths yesterday.

Three were injured fatally in highway mishaps. Jesse Lee Warren, 30, of Mount Pleasant, died of a slashed jugular vein after his car swerved from highway one and plunged into a creek bed.

Fifteen-months-old Charlie Lynn Irish of Center was killed by a car as Saddle Mae Marshall 10, carried her across a street. The older girl was injured critically.

G. R. Brooks, 54, of San Saba, who fell under his own truck as it was being towed, died yesterday in a Goldthwaite hospital.

W. J. Skinner, 48, perished of burns and a skull injury inflicted when a sawmill boiler at Texarkana exploded. Two other men were injured.

George W. Gunn, 30-year-old iron worker of San Antonio, fell 35 feet to his death while he worked on a construction job.

The United States led all other countries of the world in volume of increase in silver production in 1936 by producing 15,500,000 ounces more than the year previous.

What we are going to use for display space when our fall merchandise comes in. We have lots of spring and summer merchandise that has to be sold. Save on your clothing needs by helping us solve this puzzle. Buy now for next spring.

**Can You Work Puzzles?**

To the first nineteen customers turning in a correct solution to the cut out puzzle shown on this ad, we will sell a \$1 50c value footstool for only 50c

**PUZZLE VALUE DRESSES**

To sell these string lace dresses has sure been a puzzle to us. We have all sizes, most all colors, they are cool and very neat, a regular \$1 dress.

**Puzzle Price 50c**

**PUZZLE VALUE GLOVES**

It is a puzzle to us why our buyer bought so many of these fabric gloves. The colors are grey, beige, maize, green and tan. They are \$1 gloves.

**Puzzle Price 49c**

**PUZZLE VALUE JEWELRY**

The puzzle is solved, we shouldn't have ever bought these costume rings, clips, beads and pins, but we did and to sell for \$1.

**Puzzle Price 29c**

**PUZZLE VALUE SLIPS**

It is a puzzle to us how these \$1.95 and \$1 value crepe and satin slips got so soiled, but they did. If you can find your size the saving is yours.

**Puzzle Price 69c**

**PUZZLE VALUE MEN'S SUITS**

This puzzle is easily solved. We just bought too many suits. They are pure worsted tropical weight, cool, comfortable, both double and single breast styles. Only about 16 suits to clear. \$19.75 value.

**Puzzle Price \$12.75**

**PUZZLE VALUE DRESSES**

You will be puzzled at these values. We really mean to sell these pretty new spring and summer dresses. Every one a real money saving value. Values to \$12.75.

**Puzzle Price \$5.00**

**PUZZLE VALUE MENS SUITS**

It will really be a puzzle if you men don't buy these "sanforized shrunk" summer wash suits at this price. An entire suit for the price of a pair of pants.

**Puzzle Price \$3.50**

**PUZZLE VALUE SUMMER SUITS**

It is a puzzle to us why men have continued to wear heavy spring suits, when for \$12.00 you could have bought a nice cool tropical weight in grey, tan and navy mixtures, but you didn't. So if you please, get them out of our way.

**Puzzle Price \$6.75**

**PUZZLE VALUE BEMBERG SHEERS**

This material is sure a puzzle to us. It washes easily and nicely, easy to sew, beautiful patterns, ideal for hot summer days, and it has been very low priced at 96c yard. But you didn't buy, maybe you will now.

**Puzzle Price 50c YARD**

**PUZZLE VALUE SHIRTS**

The puzzle here is that the working man quit wearing this color, Khaki shirt last season, we still have about 48 left, they are used to sell for \$1.49. They are Sanforized shrunk.

**Puzzle Price 85c**

**PUZZLE VALUE LACE CLOTH**

There is no puzzle here, we just bought too much. It is getting late now and we need the room, some and get it, most all colors, regular 98c value.

**Puzzle Price 50c YARD**

**PUZZLE VALUE PAJAMAS**

The puzzle to us is why don't men like cool, sheer weight pajamas, evidently they don't, because we still have ours. They were \$1.99.

**Puzzle Price \$1.25**

**PUZZLE VALUE SILK DRESSES**

The printed and plain colored silk dresses are a real puzzle to us. We have tried to sell them at every price from \$10 down. We wonder if you will buy them at the

**Puzzle Price \$2**

**PUZZLE VALUE CURTAINS**

The puzzle to these 5 piece Priscilla curtains is, we bought the wrong color combinations. The materials are very pretty. We have been trying to sell them for \$1.

**Puzzle Price 50c Pair**

### HUMAN FLYING FISH

There are more dives in this picture than in a month of Jack Torrance fights. It's mass production at the Olympic swimming pool, Los Angeles. In the group floating through the air are Johnny Riley, Ruth Jung, Gene Gaskin, Bill Lowen, Mickey Riley, Norman Sper, and David Jump, all of whom competed in the national aquatic show there.

## Manush Leads Dodgers In Nosing Out Bees 2-1

By BILL BONI, Associated Press Sports Writer.  
The calmest man in Flatbush when Henry Emmett Manush was left off the National league's all-star team was Henry Emmett Manush.  
Brooklyn thought Henry Emmett (Heinie to you), a National league "rookie" after 14 seasons in the junior circuit, richly deserved a place on the honor squad. At 35—he'll be 36 next Tuesday—Heinie might not be quite so fast as in 1926, when he won the American league batting championship, but at least he was powdering the ball.  
Heinie just went on about his business, such as the ninth-inning home run yesterday that gave the Dodgers a 2-1 decision over the Bees.  
Yesterday's was only Heinie's fourth home run, yet with 38 runs batted in, he leads his nearest teammate, Cookie Lavagetto, by six. He tied at 35 with Joe Moore, the Giants' thin man who, after his five for six yesterday against the Phillies, is top slugger among the second place Terrymen.  
Moore was the big gun in a 20-hit Giant attack that required ten innings to nose out the Phils, 11-10. The last of Joe's five singles drove home the winning run.  
In the only game in the American league, the Indians backed up Dennis Galehouse's 7-hit pitching with some snappy fielding to edge out the White Sox, 2-1.  
The Cards and Pirates, only other National league entries scheduled, were rained out.

## TULSA BEATS BEAUMONT 4-1

(By The Associated Press.)  
Tulsa snapped Beaumont's eight-game winning streak while San Antonio made the loop-leading Oklahoma City Indians to feature last night's play in the Texas league.  
The five-hit hurling of Lefty Milsap of the Oilers, coupled with a home run by Morris Sand to break a 1 to 1 deadlock in the eighth, blasted the Exporters out of the win column with a 4 to 1 defeat.  
The high-flying Indians suffered a 9 to 1 wallop by the Missions who capitalized on the wildness of Ash Hillin, a former team mate, to rush over four scores. The victory evened a two-game series.  
A ninth-inning run through Jim Stroner's second-base error and Chuck Hostetler's single gave Galveston a 5 to 4 victory over the Fort Worth Cats. Eddie Cole pitched four-hit ball for the winners.  
Houston's Buffs swept a short series by administering a 5 to 3 beating to the tail-end Dallas nine when Manager Ira Smith rushed to Johnny Stevenson's rescue to halt a Steer rally.

## Harrison Best Capitol Golfer

By DILLON GRAHAM  
WASHINGTON, July 14 (AP)—A congressional golf tournament would produce a few under-90 scores, many "I'da broke" stories and a mammoth divot replacing task for links builders.  
The legislators talk as good a game as their duffer constituents back home, but only a fistful of them can step to the first tee with any assurance their drives will land on the fairway.  
About one-fifth of the senators and representatives come under the general category of golfers.  
Senator Pat Harrison of Mississippi and Rep. Richard Kleberg of Texas are recognized generally as the best of the lot.  
The palm for persistency, however, goes to Rep. Will Rogers of Oklahoma. Barring hail or high water, Rogers bounces out of bed around 5 a. m. every day for a battle against par that so far has been unsuccessful, although he's had old man par on the run several times.  
Rogers is the only congressional swinger who has made an ace—at least, this year. He banked in a mid-tron shot on the 100-yard second hole at the Soldier's Home course.  
Harrison shoots in the high 70's. He is among those who play almost every Sunday in the exclusive breakfast foursomes at the Burning Tree course, where diplomats, Supreme Court justices, and congressmen compare cures for hooks and slices.

## Columbus Red Birds Back On Top In League

CHICAGO, July 14 (AP)—The Columbus Red Birds were back on top today in the American Association struggle.  
Bill McGee came up with another fine pitching job last night to help the Birds whip Louisville, 4 to 1.  
A 4 to 0 triumph by Milwaukee over Minneapolis, left Columbus in undisputed possession of first place.  
The Millers, who went into battle tied with Columbus for the lead, slipped down to third, Toledo moving into the second spot by trouncing Indianapolis, 9 to 0.  
St. Paul climbed out of the cellar, moving past Louisville, into seventh place by taking both games of a night double-header from Kansas City.

## PAN-AMERICAN TRACK EVENTS START TODAY

DALLAS, July 14 (AP)—A star-studded field of world, Olympic and national record-holders will perform at the four-day Pan-American games starting here Thursday as part of the Pan-American Exposition.  
Track and field events Friday and Saturday will witness 10 Americans with national or world marks pit their abilities against Athletics from 21 Central and South American nations. The entire program will be staged at night in the Cotton Bowl on the Exposition grounds as a free-attraction.  
Argentina's famed soccer team will start an international tournament with the Trenton, N. J. Highlanders, American champions, in the initial event Thursday with Canada's Winnipeg Irish club as a third contender.  
Earle Menzies, U. S. C. sensation and a native Texan, has warned officials to provide pole vault standards of sufficient height when he attempts a 15-foot ceiling. He holds the world record at 14 feet, 11 inches, with Bill Serton, a team mate. Competition will include George Varoff, American record-holder, and Cornelius Warnerman, another sky-reacher from Fresno state college.  
Also spotlighted will be a 1,500-meter classic renewing the rivalry between Glenn Cunningham, famed miller, and Archie San Romani, his fellow-Kansas of Emporia (Kas.) State Teachers. Cunningham conquered Romani when the latter fell in a recent duel.  
Elroy Robinson, Fresno's crack half miler, will tangle with John Woodruff, lean Pitt negro, whom he robbed of the 800-meter world's record at Randall's Island, N. Y., in another stellar event.  
The entry list also included such brilliants as Jack Weierhauser, Olympic club American 200-meter title-holder; Davis Albritton, Ohio State, and Cornelius Johnson, U. S. C., co-holders of the world's high jump record; Alton Terry, Hardin-Simmons University's American javelin king, and Ken Carpenter, American and Olympic discus champion.

## PHILLIPS WINS REVENGE TILT FROM OILERS

It had to happen. Last night Phillips 66 of Borger broke their losing streak to the Pampa Oilers by an 8 to 5 score. Luke Coburn had the Oilers looking at one of the best assortments of curve balls seen here this year as he mowed down the strikeout route.  
With only 10 men in uniform, the Oilers had to send Catcher Eddie Sain to right field and Grad, a catcher, who arrived in the city yesterday en route to the east, behind the plate. Daley was the only pitcher available and he had to go the route.  
Al Summers and Eddie Sain took a liking to Coburn's curve balls with Summers getting a pair of doubles and a triple on four times at bat and every one of his bingles hit the Hart, Schaffner and Marx sign under the score board in deep right center field. Sain singled in the first and his one over the fence in the third with a teammate on base.  
The Phillips powerhouse turned out to be Shortstop A. Thomas who took one of Daley's best curve balls on the nose and propelled it over the fence in the third inning. His double in the ninth ended up the scoring. It was Luke Coburn's screaming double that broke up the game in the fourth.  
On Friday night the Oilers will meet the Huber Blackfaxes of Borger in a Gift Night attraction when more than \$1,000 in merchandise will be given away free. The Oilers will be back at nearly full strength for the big game.

## 12 PANHANDLE TEAMS ENTER TOURNEY HERE

Twelve crack Panhandle softball teams have already filed entry in the Panhandle Softball tournament to be played at Pampa beginning July 29. District Commissioner Jack Kretzinger expects between 25 and 30 teams to participate.  
Deadline for entering the tournament will be Saturday night. Entries in the mail by midnight will be honored. To become eligible to participate in the district tournament, a team must be a member of the state softball association. Membership in the state body is \$2 for a team in a league and \$10 for a team not connected with a league of four teams or more. The money must be in the hands of Mr. Kretzinger by the deadline, Saturday, night, or entry in the district tournament will be denied.  
The team winning the district event will be eligible to compete in the state playoff at Kilgore, expenses paid. Entry fee to the local tournament will be only two new Goldsmith Official NS balls.  
The Panhandle district comprises

## AMATEUR GOLF TOURNEY WILL BE SIDESHOW FOR PRO GAME

NEW YORK, July 14 (AP)—Entries for the national amateur golf tournament close today, and unless there are a half dozen Bobby Jones and Lawson Little's hidden in the field, amateur golf in the United States likely will continue as a side show for the professional game.  
Time was when the "love of the game" golfers could spot the pros two or three championships and still emerge with the best and brightest. Back in the early 1900's Walter J. Travis, Jerome Travers and Chick Evans played some pretty fair golf. Next came Bobby Jones. Some of the fellows who were contemporaries of Jones are still playing—but not regularly. Jesse Sweetser plays in the minor tournaments and yearly for the Sweetser victory cup. Johnny von Elm turned pro and Lawson Little followed him.  
On the basis of last year's returns, Johnny Fischer who beat Jack McLean to take the 1936 championship, is the leading amateur. With him at the top are Johnny Goodman, Reynolds Smith, Scotty Campbell, Walter Emery, Ed White, and Harry Givan, 1936 Walker cuppers.  
The list of players coming up does not include any name that threatens the fading greats.  
College golf is the principal source of supply, but it's pretty much a matter of tossing coins to pick the best among Fred Haas and Paul Leslie of Louisiana State, Chuck Kocis, ex-Michigan star; Bill Barclay, another Wolverine of talent; Bobby Jacobson, the adept Dartmouth freshman; Vincent D'Antonio, Tulane; and Rufus King, of Southern Methodist.  
Texas leads the City league with Skelly second and the Jaycees third. Clabby Dusters and Colteco "B" are in the doubtful list for fourth place. Both teams will be represented at tonight's meeting.  
In games yesterday, Cities Service defeated Colteco 4 to 2 and King came from behind to take a 7 to 6 game from Phillips.  
Chinese legend has it that the fan originated at the Feast of Lanterns in 1150 B. C. when the heat was so oppressive that a mandarin's daughter took off her mask and began agitating the stifling air with it.  
Works team in the Kansas State tournament. Bondurant will assist Sain in the catching department and act as utility and a pinch hitter.  
One or two other gaps in the Oiler lineup will be filled for the trip to the Little World Series where Pampa teams have been in the money the last two years.

## Slingin' Sam Will Hurl Pigskin At Game Friday

The Panhandle's biggest baseball attraction of 1937 will be staged at Road Runner Park, Pampa, at 8 o'clock Friday night when Merchants gift night will precede a baseball game between the Pampa Oilers and the Huber Blackfaxes. Pampa merchants will give away free nearly 100 prizes valued at more than \$1,000. Full proceeds will help defray expenses of the Oilers to the Denver Post tournament July 29 to Aug. 10.  
Eight o'clock has been set for the opening gun to be fired and fans are urged to be in the stands at that hour. Besides the Gift Night, there will be a passing and punting exhibition by Slingin' Sam Baugh, TCU All American football star who is a member of the Oiler baseball team. Baugh will show fans how he completed his sensational passes and also how he could kick the pigskin out of bounds at a given point.  
Contests to be Staged  
Besides the exhibition there will be a base running contest between the fittest of the Oilers and the Blackfaxes. Throwing artists of the two teams will line up in deep center and chuck the horsehide at the plate in an accuracy test.  
Prizes to be given away are now on display at the former location of Corner Drug at the corner of Cuyler and Foster. A ticket booth is also located in the building where ducats for the game can be purchased at \$1.10 each. Standing room tickets will be available at the west gate at the park but holders will not be eligible for prizes. Children accompanying parents will be admitted to the grandstand for 40 cents. The knot hole gang will not be accommodated on the special night. The youngsters have been abusing their privileges by "raising Cain" instead of watching the games and unless they change their ways, they will not be admitted free in the future.  
Tickets Going Fast  
Advance sale of tickets, and they only went on sale yesterday by committees at the downtown booth, has been brisk. Team sponsors anticipate a record crowd.  
Harvey Hutton, speedball hurler who held the Seminole Redbirds, also an entry in the Denver Post tournament, to three hits on Saturday Night will be Manager Fred Brickell's selection to oppose the Blackfaxes unless he changes his mind and decides to send Herman Drefs to the hill. Drefs, a lefthander, is en route from Portland where he has been pitching for the Portland Beavers in the Pacific Coast league.  
Bondurant Sign Up  
At third base for the game will be Sam Hale of Borger, last year manager of the Pampa club. Hale has signed to make the trip to Denver and also to play pre-tournament games with the Oilers.  
The Oiler management yesterday announced the signing of Leo Bondurant to accompany the team to Denver. Bondurant is a veteran catcher, now with the Wichita Water

## PLAYOFF WILL BE DECIDED AT MEET TONIGHT

Plans for the softball playoff to decide a city champion will be made at a meeting in the city hall at 8 o'clock tonight. President E. W. Voss will preside.  
The top four teams in each league will play off for league championships with the two winners playing in a city championship series. The method of play and opponents for first round will be decided at tonight's meeting.  
Five teams in each league still have a chance to make the four places. King and Phillips have playoff honors clinched while Colteco, Cities Service and Colteco have to battle for the other two positions in the Industrial league. King leads the league with 14 wins against three losses. Phillips has won 12 and lost five. Cities Service and Colteco have a standing of 10 wins against seven losses and Stanolind has won 9 and lost eight.  
The playoff could be delayed by ties after final games which will see Cities Service at Stanolind and King at Colteco.  
Texas leads the City league with Skelly second and the Jaycees third. Clabby Dusters and Colteco "B" are in the doubtful list for fourth place. Both teams will be represented at tonight's meeting.  
In games yesterday, Cities Service defeated Colteco 4 to 2 and King came from behind to take a 7 to 6 game from Phillips.  
Chinese legend has it that the fan originated at the Feast of Lanterns in 1150 B. C. when the heat was so oppressive that a mandarin's daughter took off her mask and began agitating the stifling air with it.  
Works team in the Kansas State tournament. Bondurant will assist Sain in the catching department and act as utility and a pinch hitter.  
One or two other gaps in the Oiler lineup will be filled for the trip to the Little World Series where Pampa teams have been in the money the last two years.

## Sports Roundup

NEW YORK, July 14 (AP)—Don't let anyone kid you into betting there will be a Max Schmeling-Joe Louis heavyweight title match this year. Possibility is remote—even if Max changes his mind and comes down to earth in his financial demands. Here's why: Before Louis and Tommy Farr were signed for the Yankee stadium, Aug. 26, Jacobs had booked Louis into London against either Len Harvey or Jack Doyle. Jacobs sent his personal attorney, Sol Strauss, to England to square things with Arthur Evelyn. Wimbledon stadium promoter.  
Evelyn was a good sport. He stepped gracefully aside, saying he wouldn't think of standing in the way of another British boxer (Farr) getting a shot at the title. In return for this sportsmanship, Jacobs guaranteed Louis would go to London in September to fight either Harvey or Doyle under the Evelyn banner. So Herr Schmeling must wait until next year, all because he was too arrogant to bother to reply to cables and letters. How does it feel back there behind the eight ball, mister?  
Collapse of Hal Schumacher's arm recalls that Doc Scanlon, old big league pitcher, now a Brooklyn physician, predicted Schumacher's career would be short because of his unorthodox delivery. Jimmy Braddock told a Brooklyn sports carnival he'd be ready for another fight in September. And hopes it will be against Max Baer again.  
Rumor has it next year's National league contracts will contain a clause making it mandatory for players selected to appear in the all-star game. Suspicion is, some of the boys have been giving the game the old bucaroo. Leo Kelly, who fights "Tiger Joe" Fox here tomorrow night is a deacon in the St. James Baptist church in Los Angeles.  
CHAUGH LEADS VOTING  
CHICAGO, July 14 (AP)—Stars of last year's Northwestern and Minnesota teams led today in first returns from the voting to "elect" a college squad to meet the Green Bay Packers in the fourth annual all star football game at Soldiers Field, Sept. 1. Sammy Baugh, Texas Christian, led the voting for quarterback.

## CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, July 14. (AP)—The Capitol grounds soon will sport a new greenhouse. At its recent regular session, the legislature appropriated \$5,700 to replace the present greenhouse, which is many years old.

The purpose of such a plant is not quite clear. The Governor's mansion has its own greenhouse and there seldom are occasions of the state demanding flowers. Most of the flowers—and very beautiful ones are grown—are given to anyone asking and usually find a resting place in offices of state departments.

The Capitol grounds, despite the blistering hot weather, are in the best condition observed in years. Trees, grass and flowers are very beautiful.

It is the result of careful attention from W. P. Lambert, superintendent of buildings and grounds, who has sprays going at nearly all hours. Last year there was some criticism that the grounds and the Capitol itself were not at their best, although Texas was celebrating its centennial. There could be no such criticism this season.

Lambert's ambition is to have an underground sprinkling system for all the grounds. One of the terraces very near the Capitol has been installed, but for the rest of the area old-fashioned hose and sprays are used. An appropriation for such a system long has been urged.

Reaction to Gov. Allred's "feeler" as to what the public thinks about his running for a third term has been very favorable, his secretary, George Clark, says.

Clark naturally would make such a statement, as any good secretary would, but he claims to have the letters to back it up. It was another Clark Edward, secretary of State, who said recently the Governor was being urged to seek another term and probably would be "responsive" to the people's wishes, when it was determined what they were. Edward Clark is one of the governor's closest friends.

Secretary George Clark said only two letters of a very large number, advised the governor not to run again. Those two, he said, were anonymous and of the "gangster" type, containing a veiled threat.

**Free Mail in South Seas**

The Union Postal Clerk, official organ of the National Federation of Postoffice Clerks, in a column called "Trapp Opens His Trap," because it's written by one J. B. Trapp of Los Angeles, is responsible for the following items:

The one and only place where one can mail a letter free to any part of the world is at Postoffice Bay, Charles Island, in the South Seas. The postoffice is a barrel anchored in shallow water, handy for sailors on long voyages.

Zachary Taylor once refused a postage-due letter. It was notification of his nomination for the presidency and he didn't get the news for days.

The first opening of a postoffice in Korea in 1885 was a flop because the Koreans, thinking it was a plot of the "foreign devils" burned the postoffice and killed the postmaster on the very first day.

The telegraph was a part of the postal service from April, 1844, to March, 1845, and, during that period its inventor, Samuel Morse, was on the federal payroll as superintendent of that branch of the service. Then Congress refused to provide for its continuance on the

## Roosevelt Calls Clark By Wrong First Name; Hog Callers On Spree

BY RODNEY DUTCHER  
Pampa Daily News Washington Correspondent

WASHINGTON, July 14.—That party the Democrats had at Jefferson Island is well in the past, but some of the best stories of what happened on the island are just beginning to leak out.

One of them evidences the fact that although President Roosevelt will call a man by his first name as quickly as one thus addresses a barber or waitress—often applying the pronomen to a lady or gent on first meeting—it takes a Jim Farley to remember the correct name every time.

A group of anti-court bill senators stuck close to each other on the island, and a half dozen of them approached the President in a group to pay their so-called respects. Senators Bailey of North Carolina and Byrd of Virginia had greeted by and had not been greeted by their first names, which would be a story by itself. Then stepped Senator Clark of Missouri. And the President either had become flustered by this time or else suffered one of those brainstorms or memory lapses which at one time or another afflict us all. The only other possibility is that he was trying to be funny, which is unlikely.

"Hello, Frank!" exclaimed Frank Roosevelt.

And was Bennett Clark sore!

**Research in Hog Calling**

Your correspondent also has indulged in research as to the hog-calling contest which was a feature of the picnic, heretofore inadequately reported.

Not with any thought of inflicting any bum humor about hog calling and pork barrels, but rather with the thought that hog-calling might soon enter into the court plan debate. Senators, as you might say, have been calling each other everything else, and diligent scrutiny reveals that Senate rules do not say hog-calling is barred when filibusters run short of words. But no senators entered the Jefferson Island hog-calling contest, presumably because they were saving breath.

It seems that Roosevelt himself organized and umpired the hog-calling contest, entering Harry Hopkins and Secretary Henry Wallace as White House rivals against Congressman Jim O'Connor of Montana, Bob Mouton of Louisiana, and Otha Wearin of Iowa—all three great bragarts as to their hog-calling proficiency. Mouton offered to call hogs for five hours if the President would raise the Louisiana sugar quota, but got no taker.

Roosevelt himself decided the result was a two-way draw between Mouton and Wearin. Mouton uses the "Bayou Bow" technique, with a warm, alluring bellow of "Er, Ia

ANCIENT PHILOSOPHERS TAUGHT THAT PLANTS WERE NOURISHED FROM THE SOIL ALONE! BUT HELMONT, A PHYSICIAN OF BRUSSELS, DOUBTED THE THEORY. DURING THE 16TH CENTURY, HE WEIGHED A WILLOW TREE AND PLANTED IT IN A POT CONTAINING 200 LBS. OF SOIL. FIVE YEARS LATER, THE WILLOW HAD GAINED 164 POUNDS, AND THE SOIL HAD LOST ONLY TWO OUNCES.

THE AVERAGE AREA OF THE FORTY-EIGHT STATES IN THE UNION IS 63,057 SQ. MILES! GEORGIA, (59,265 SQ. MI.) MOST NEARLY APPROACHES THE AVERAGE.

**JAN BAPTISTA VAN HELMONT**, after making the experiment regarding plant nourishment, settled on the erroneous conclusion that the tree had taken on its extra weight from the water that he had given it, and not until 200 years later was the discovery made that nourishment was taken in from the air, through the leaves.

## Sweltering Congressman Yearns for Shady Nooks

When the summer's heat boils down on Washington, the nation's lawmakers grow impatient for cooler climes and shady nooks, and Representative John J. O'Connor of New York, pictured sweltering in humid discomfort despite the fan and open cellar, was among the first to rebel. "It's hotter here than on the equator," said Democrat O'Connor. He proposed that under the "present intolerable weather conditions" the House adjourn quickly, regardless of the Senate tangle over the Supreme Court reorganization plan. Fellow House members cheered.

Never was more drama packed into a few hours, thought Stuart Blake, as he sat in the Colter cabin, looking out at the Indian mounds in the distance. He had not immediately intended he lingered nearly a whole day. But he had furnished the key to many long unanswered questions, the solution to most of Superstition's mysteries. Gratitude to Carollee's guide with the boy interpreter for the hidden mine. The squaw knew the location of the sacred gold.

"You can't go up there with only an Indian boy and a woman!" Stuart growled. "It may be a trick. They might do anything to you, Carollee!"

"I don't think so. I am not afraid. You go home, Stuart, and Sheriff Watson will bring Dad and Silas close behind me. The Indians may have nothing, really, but it won't hurt to see. **GOVERNMENT DOCTOR SOLVES TULIP MYSTERY**

WASHINGTON (AP)—"Tulipomania"—a mystery that has puzzled tulip growers for centuries—has been solved by a government scientist.

Tulip blooms often change to fantastic colors and markings, which is called "breaking." Growers have long tried to induce the changes, which are carried on by the bulbs.

Dr. Frank P. McWhorter, after five years of experiments in the department of agriculture, says he has been able to accomplish "breaking" by a mixture of two virus infections injected into a healthy plant.

# BARUCH URGES 'UNECONOMIC AREAS' PLAN

Editor's Note: Bernard M. Baruch, in his recent commencement address at Union College, said the government should not "try to regulate everything," but would continue its regulatory activities to what he called the "uneconomic areas" of our national life. He was asked, in an interview, to explain what regulations he would apply, and when they should be applied.

By R. H. HIPPELSEUSER  
NEW YORK, July 14 (AP)—There are two kinds of "uneconomic areas." In common usage, the expression would apply to distressed areas: to a "dust bowl," or to communities in which mines have been worked, abandoned by industries, the populace left stranded without means of livelihood.

In talking of "uneconomic areas" a phrase of his own, used to describe the "peaks and valleys," Bernard M. Baruch has a second meaning.

"It would be a long time," Baruch said, "when prices get so low that in order to survive, the producer has to cut his price and then his competitors do likewise. Wages are cut and it goes on and on, with widespread destruction to producers and wage earners. This is the old, old system of the survival of the fittest."

"This is economic war and, like nations at war, nobody ever wins—everybody loses. There is a degradation of all concerned because of lessening wages and a loss of capital values.

"It is true that lower prices carry out the law of supply and demand with the effect that when prices get lower, two things are set in motion—first, with lower prices, production lessens; and second, consumption increases. In that way, balance is eventually achieved. Such an excessively low period, when nobody gets anything and labor is sweated, I call an 'uneconomic area.'

Before such a period is finally reached, with its uneconomic losses and sufferings, Baruch believes the government should step in with a minimum wage act, a maximum hour, and with provisions for producers to get together temporarily on such restrictions of production as are necessary.

Baruch said there would be no arbitrary effort to hold up prices.

"Wheat Price Suggestion  
"Let us suppose the price of wheat is \$1.15 and it started downward. I would not put the government operations into action until the price of wheat went to a point where the farmers began to be distressed by wheat selling at below the cost of production—say at 70 cents or whatever the cost figures show. Then the government should step in and commence to buy wheat or lend money on the crop. There is no need for wheat at the cost of production or lower. It will go back to a dollar and more later anyway, so why let it go down to a point where people will be ruined and society gets no benefits.

"If the downward spiral is cushioned by purchases and loans, not at fixed prices but on the day when the social and financial suffering will be lessened and often avoided. The natural laws would be softened, but would still be in effect. This is what is supposed to take place naturally, but when it occurs in a limited time, disaster comes.

Ideas on Cotton  
"Let us see what would happen in cotton. Let us say the price of cotton is 12 cents a pound. Suppose it starts down, because of a big crop or for some other reason. Some agency would buy or lend money on a part of the crop, but not on the whole crop, at say 9 or 10 cents. If the price still went downward, the agency could buy or lend more at 8 1/2 cents and so on down. I prefer lending. If the government did this, we would not have any sudden break impoverishing the south, demoralizing the mills and sweating labor.

"The consumers would know they would have to act because the government would act if they did not. They would know there would be no wide open break downward from 10 or 9 cents and would have to buy without holding out for such a break.

# Film Honeymooners 'Right at Home' in Hawaii

These two famed Hollywood honeymoon couples, seeking the traditional solitude on an island under a tropical sky, found just what they might have expected when they landed at Honolulu—a mob of well-wishers and a battery of cameras. However, the pictures are proof that the newlyweds could take smilingly Buddy Rogers and Mary Pickford are pictured at left, lei-becked, upon arrival. At right are Gene Raymond and his bride, Jeanette MacDonald, as their Hawaiian fans made them feel practically at home.

# CLOTHED NUDITY ADDS NOTHING TO HEAT WAVE

NEW YORK, July 14 (AP)—"Clothed Nudity," successor to burlesque, added nothing to Gotham's heat wave today.

On the contrary, the lobbies of the reopened palaces of the late strip tease were among the cooler spots of the city. Departing audiences spilled frigidly all over the place. They had been left cold.

Inside the theaters, talented young women variety performers smiled and kicked to the old burlesque band music against a backdrop of larger, more statuesque girls, nude from the waist up.

Licenses Commissioner Paul Moss, who ended burlesque here on May 1 by refusing to renew licenses, issued three-month permits to three ex-burlesque theaters yesterday, virtually putting the theater operators "on their honor" to keep their shows clean. There was no code.

Theater managers stressed the propriety of the performances. The show girls didn't move, they pointed out.

Observers noticed the audiences were pretty unmoved too. About the highest point of emotion reached in one theater was mild boozing at an act called "strip tease in reverse." In this a girl steps out clothed only in scanty tights and a man dresses her with brassiere, underthings, and evening gown.

# OIL STORAGE REPORT AWAITED BY OIL MEN

SANTA FE, N. M., July 14 (AP)—An explanation of a report on United States crude oil storage was awaited today by an oil conference here from Bureau of Mines officials.

The report presented to the six-state oil compact commission here yesterday already has drawn comment from two experts that the supplies of oil on hand were too low.

Col. E. O. Thompson, chairman of the commission, and Charles F. Roesser, president of the Independent Petroleum Association of America, were agreed that interpretation of the survey which showed 297,496,000 barrels of refinable crude in tanks at the end of March, 1937.

To Thompson's assertion that the survey showed "We have not been overproducing," Roesser added the observation that the supply indicated would last only 59 days as compared to 90 days as commonly accepted.

# Wichita Falls C-C Claims Backing Of West Texas Cities

WICHITA FALLS, July 14 (AP)—Dudley Foy, manager of the Wichita Falls chamber of commerce, criticized the West Texas chamber's action in endorsing the Trinity river canalization project yesterday.

He said that 15 West Texas counties were backing Wichita Falls in opposing the project, which would provide a waterway for barges from the gulf to Fort Worth and Dallas.

"Wichita Falls has led the fight for the last seven years," he said, "and we were not even given the opportunity to prepare and present our argument."

# BETTY CO-ED STAYS SINGLE

STATE COLLEGE, Pa. (AP)—Charlotte E. Ray, dean of women, informed President Ralph D. Hetzel of Pennsylvania state college that of 157 girls graduated from the school in June 1936:

One hundred and four have jobs; thirteen have some earning while pursuing graduate study; twenty-nine are unemployed; eleven are married.

She reported that of the graduates who majored in home economics, more than 80 per cent obtained jobs, while only 10.5 per cent married.

# XIT PAGEANT NEARLY READY FOR REHEARAL

DALHART, July 14.—With only minor revisions to be made, over which the general committee for the second annual XIT Reunion in Dalhart August 9 and 10 are working, the spectacular pageant of XIT history is ready and rehearsals will begin next week.

The director will arrive Saturday, said General Chairman Eck Brown today.

Modelled along the lines of the great Texas and Frontier Pageants at Fort Worth and Dallas, the XIT pageant will detail the epic highlights of the famous three-million-acre ranch, the only one in the world that ever built a state capitol.

Amid fanfare of music and a glorious burst of color, the Queen of the XIT will open the pageant by bidding the world welcome to the land where the latchingstring hangs on the outside.

The countless ages of the grasslands will pass in swift and colorful review, with their conquistadors, explorers, ciboleros and comancheros, the latter being the name given the Spaniards who years ago traded with Indians at Buffalo Springs, later the No. 1 headquarters of the XIT, and at other waterholes over what the conquistadores called the Llano Excatado.

Then in brilliant pantomime, with a narrator; or in action with the voices of the cast of more than 200

carrying over a loudspeaker arrangement, will come the days of Old Tascosa, established in the 1870s by the Spaniards who flowed down from the hills of New Mexico, descendants of those hardy bands that spread commerce and the gospel behind Coronado, Cortez and the others.

Rolling back the curtains of Time, the pageant will show the birth and development of conditions that led to the creation of the XIT ranch, then trace its history under the noted "Barbecue" Campbell, its first general manager, under Col. Al G. Boyce, its second; down to the days of the nestor, the range wars and finally into the great West Texas kingdom of the present.

It will end, as it began, in a blaze of color, the character-dances of many people symbolizing the mighty spirits that fused and swept the West on to an empire.

THIS BOY WILL ENJOY THE NEXT EIGHT MONTHS  
SAN FRANCISCO (AP)—The next eight months are going to be months of suspense for Guadalupe Martinez, restaurant bus boy.

Some time ago he found \$1,150 in currency on the street and reported it to police. No one has appeared to claim the money. The law provides that Martinez cannot legally take possession until February 25, 1938. In the meantime he is keeping his job and trying not to think about the matter.
