

Boardman and Polando Set New Mark in Turkish Trip

SCARFACE BACKS DOWN

FLIGHT ENDS AT GOAL WITH GAS IN TANKS

Americans Exceed Frenchmen's Mark by 126.71 Miles; in Air 49 Hours and 20 Minutes on Hop.

SEEN BUT ONCE

Herndon and Pangborn Take Off to Moscow on Effort to Beat World Figure; Hinderd by Fog.

By PRISCILLA KING
ISTANBUL, Turkey, July 30. (AP)—Claiming a new world's nonstop distance record, Russell Boardman and John Polando brought their trans-Atlantic monoplane here at 1:20 p. m. (5:20 a. m. C. S. T.) today.

In the 49 hours and 20 minutes since they took off from Floyd Bennett field, New York, on Tuesday morning they had been sighted only once, and that was over Newfoundland land just before they headed across the Atlantic.

Gripping broadly and shaking their own hands above their heads, they climbed out of their sturdy plane while a great crowd, among them most of the members of the American colony, cheered.

Ambassador Joseph C. Grew gave them a hand out of the cockpit and introduced them to the governor of Istanbul. A squad of Turkish police presented arms during the brief ceremony.

"We are very happy at having accomplished our purpose of beating the world's non-stop record," Boardman told the Associated Press correspondent, "it was a fine trip.

Alps Were Hard
"The hardest part of the trip was last night, flying over the Alps," he said.

"The Atlantic passage was fine, with no bad winds or storms, but it was very foggy. We saw the water only once, near Newfoundland. After that the fog was so heavy we never caught a glimpse of the ocean."

Both men were in fine spirits and in good physical condition. They seemed to be momentarily stunned when the drone of the motors, to which they had listened for so long, stopped, but they recovered quickly.

Their steady voices gave little indication of air deafness as they talked to officials of American embassy and representatives of the Turkish government for half an hour before going by automobile to a hotel at Istanbul, 15 miles from the airport.

A sizeable crowd which had waited more than eight hours at the airport for the Cape Cod's arrival pushed into a small reception room of the Turkish air commandant, where Turkish aviators and civilian officials of the Turkish aviation league offered punch and cakes to the American airmen.

Wanted Bath Most
Asked whether he preferred punch or lemonade, Polando laughed and said, "What I really want more than anything in the world is a bath."

But he and Boardman drank the punch and despite their fatigue beamed as the governor of Istanbul and Ambassador Grew toasted them.

Polando handed over to the governor a letter from President Hoover to President Mustafa Kemal of Turkey.

The aviators were in such good spirits they even consented to sign a dozen autographs.

Talking while a Turkish soldier brought a bucket of water to wash his hands before going into the official reception, Polando said he and Boardman got plenty of sleep, but ate little during the trip.

"I took turns piloting," he said, "each taking half an hour's sleep off and on."

"The fuel just pulled us through. I don't believe there were more than ten gallons left."

"We would have made a faster record if fog had not slowed our

Rail Bids Are Asked

Poland's Tribute to Woodrow Wilson

In tribute to the memory of America's war-time President, this large statue of Woodrow Wilson—shown here in a picture taken just before its recent unveiling—has been erected in a public square in Poznan, Poland. It is the gift of Ignace Jan Paderewski, world-famed pianist and Polish statesman, and was the work of Gutrum Borglum, who is seen standing at extreme right at the base of the statue.

AUGUST 11 IS DATE TO OPEN DOCUMENTS

Railroad Will Furnish All Material and Contract Will Be Only For Construction.

Work Will Start as Soon As Rights-of-Way Are Secured—Will Cost Five Millions.

AMARILLO, July 30. (AP)—Bids for construction of 108 miles of railway line between Chilcross and Pampa, by way of Wellington and Shamrock, will be opened by engineers of the Fort Worth and Denver on Aug. 11, Gen. John A. Hulen, vice-president of the company and chairman of the board of directors, said today. Plans and specifications are in the hands of contractors, and more than 30 bids are in prospect, Hulen said. The railway company will furnish material, he said, and the contract will be let only for construction. It is unofficially estimated that the cost of construction will be \$5,000,000 or more. "Committees representing the cities to be served by the new line are making good progress in obtaining the right-of-way and we have every cause to be optimistic," Hulen said. He intimated that construction will begin when the right-of-way has been secured.

Plans for Lawn Fete Completed by Music Group

All is in readiness for a festive lawn entertainment to be presented publicly tomorrow evening at 8:30 o'clock at the home of Dr. and Mrs. W. Purviance, 802 West Francis avenue. There will be no admission charge, but refreshments will be sold with the assistance of Camp Fire Girls and Boy Scouts. The Music Week committee is sponsoring the event.

Market Is Bought by M. R. Marshall

M. R. Marshall has purchased the Standard Fish and Oyster company from F. S. Brown, who had owned and operated the business for the past year.

F. H. Marshall will be the active manager of the store. He has moved here from Groom to make his home.

A. Martin who has been employed at the store will remain with the new owners.

Mrs. J. Barrett and E. W. Burtz were discharged from Pampa hospital yesterday.

M'DONALD'S DISTRICT WILL INCLUDE ENTIRE PANHANDLE

Deputy Oil and Gas Supervisor Will Live Here But Is to Have Whole Area

J. M. McDonald is now deputy oil and gas supervisor for the entire Panhandle district. An order enlarging his territory to include Moore, Hutchinson, and Potter counties, as well as the western half of the Panhandle, was received this week from the state railroad commission.

Jack Elliot, supervisor stationed at Amarillo, has been transferred to the East Texas fields. Mr. McDonald's district formerly included the eastern half of the Panhandle, including Gray, Roberts, Wheeler, Collingsworth, and other counties from the Carson line east.

Mr. McDonald maintains an office in the chamber of commerce rooms at the city hall. It is understood he will continue to live in Pampa. Mr. McDonald will not be able to spend as much time in this vicinity as he has in the past as his new duties will necessitate making inspections in Moore and Hutchinson counties.

Medicine Kit Is Found by Police

Physicians and surgeons whose medical kits have been stolen recently are invited to inspect one at the police station in the city hall, that was recovered last night by city police. It was found near a ward school.

The kit contains various bottles of pills, a few instruments and other equipment. In the last year, kits belonging to Dr. R. A. Webb, Dr. Geo. W. Wallace, Dr. W. B. Wild, and Dr. T. R. Martin have been stolen.

Mrs. A. C. Husted is seriously ill at Pampa hospital where she was taken for treatment today.

Government Hits Hard at Rackets

Most of "Public Enemies" Are Indicted And Many Under Conviction.

Editor's Note: "Scarface" Al Capone, number one on Chicago's list of public enemies, was summoned to court today for sentence to prison, eliminating the government's war on organized crime and racketeering.

The result of the assault on Chicago's public enemies is told in the following story, the second of a series on operations against crime in this country.

(By RODERICK M. GRANT)
CHICAGO, July 30. (AP)—The man who made bootlegging an industry came to time today. The government, preparing to send Alphonse Capone to prison, had achieved another great victory in its relentless war upon the criminal gangs grown rich by flouting prohibition.

alcohol trade, millionaire controller of gambling houses, vice, labor rackets, dog tracks, narcotic peddling, slot machine syndicate. Al Capone was the first to plead guilty to the double charges of conspiracy to violate the prohibition act and evasion of income taxes.

Public Exasperated
The determined government campaign against "public enemies" had its inception in the public exasperation with organized crime, which crystallized in the formation of the "secret six" crime committee of the association of commerce.

Business leaders solicited the alliance of the government to eliminate the gangster. Already the tools were in the fire, for intelligence operatives under A. P. Madden, head of the Chicago unit working for the internal revenue bureau, had begun in 1927 an investigation of the wealth of Ralph Capone, brother of Al. An offer of \$1,000,000 settlement from the notorious gang-

ASK SINCLAIR TO TESTIFY IN SENATE QUIZ

Oil Man May Take Plane in Order to Appear Before Close of Probe, Which Will End Today.

BIG FIGHT NEAR

Economic Waste and Appointive Commission Will Be Among Main Issues to Be Argued Next.

AUSTIN, July 30. (AP)—The Texas senate, beginning the last day of its investigation of the oil industry, today voted to request Harry Sinclair, the oil man, to appear before it for questioning.

Senator Tom Pollard of Tyler, who made the motion, immediately sent a telegram to Sinclair, who was said to be in Tulsa, Okla. The senator said "certain things" had developed that made Sinclair's testimony important. He declined to say what the "things" were. Senator Pollard suggested the oil man could fly here and appear this afternoon.

Meanwhile, the house which concluded its inquiry late yesterday, was discussing the procedure it will adopt in the consideration of conservation bills before it. Some members wanted a sub-committee to act on the bills; others preferred the house act as a committee of the whole.

Fight for Hour
After sparring vigorously for more than an hour, proponents of the sub-committee plan in the house won their point, a motion that two sub-committees be appointed carrying by two votes, 53 to 51. A motion to table the plan was defeated, 51 to 50, a few minutes before.

Under the plan one of the sub-committees will consider bills dealing with changes in court procedure in cases involving the railroad commission and the other committee will consider bills affecting the agency that will administer the conservation laws and bills to broaden powers of the commission.

It was admitted one of the big fights would be on the administration agency, sentiment being fairly evenly divided for creation of a new commission. The railroad commission now administers the conservation laws.

Demand Is Issue
Another fight was expected on the question of market demand. Governor R. S. Sterling has expressed opposition to giving the commission authority to prevent economic waste, contending that proper control of production will automatically aid the industry.

The senate, having decided to call Mr. Sinclair, turned to the routine of questioning witnesses.

Claude C. Wild of Fort Worth, executive vice-president of the Independent Petroleum Association of Texas, testified there were many wide differences of opinion by oil men as to what should be done, but that he personally believed the com-

Wheat Market Is Still at 22 Cents

A lethargic wheat market was content to let the price remain at 22 cents per bushel today. No wheat was being bought in locally and little was being sold. The price dropped from 25 cents to 22 cents between Sunday and yesterday.

CHICAGO, July 30. (AP)—Wheat: No. 2 red 50 1/2 to 51; No. 2 hard 50 1/2 to 51; No. 2 yellow 48 1/4 to 49 3/4; No. 2 mixed 48 1/4 to 49 3/4; Corn: No. 1 mixed 68; No. 1 yellow 64 1/2 to 68 1/2; No. 1 white 62 3/4 to 65; Oats (new): No. 2 white 23 3/4 to 25; old No. 2 white 24 3/4 to 27; No. 3 43; Barley: 35 to 52. Timothy seed: 3.75 to 4.25. Clover seed: 12.50 to 19.50.

Capone Withdraws His 'Guilty' Plea

HE PROTESTS AS LENIENCY IS NOT URGED

Says Government Had Agreed to Recommendation Should He Admit Offense; Looks Worried.

RULING IS ASKED

Giant Gangster Is Cautious and Will Risk Fate to Jury Unless Light Term Is Assured.

CHICAGO, July 30. (AP)—Federal Judge James H. Wilkerson today deferred until tomorrow afternoon a decision on a request by attorneys for "Scarface Al" Capone for permission to withdraw his pleas of guilty to violation of income tax and prohibition laws.

Such an agreement, Judge Wilkerson said, was "heard of" not even the court having power to enter judgment in advance. The district attorney said he had conferred with the defense attorneys shortly after the indictment and proposed that Capone be placed behind the bars immediately, feeling it wise to avoid trial. Then, said Johnson, counsel for the gangsters suggested a prison term which he regarded as entirely too brief. He said he had answered an attorney's question with the statement that all recommendations he had made to presiding judges in trials under his prosecution had been accepted by the judges.

CHICAGO, July 30. (AP)—Protesting that the attorney general of the United States had sanctioned an agreement between Alphonse Capone and the government that leniency would be recommended if the gang chief pleaded guilty to income tax evasion and prohibition conspiracy, Attorney Michael Ahern moved in federal court today to withdraw Capone's plea of guilty.

During the morning court session Judge Wilkerson said the court had no power to bargain with a defendant and that Capone must take the leniency stand if he would ask leniency.

Judge Wilkerson said he was not sure the withdrawal of the plea was proper and called upon George E. Q. Johnson, U. S. district attorney, to state before the court the facts of any pre-trial agreement between Capone and the government.

SKELLYTOWN MAY FORM ROAD DISTRICT TO GET PAVING

Favorable Reaction Reported by Briggs and Reid After Visit Yesterday.

Skellytown citizens will favorably consider creating a road district and the voting of bonds to pave the "oil field highway" in Carson county when the state highway department designates the road, they told P. P. Reid and Geo. W. Briggs yesterday when the two men visited in that vicinity.

This road in Carson county is approximately 14 miles in length and crosses a corner of the county. The aim of its sponsors, the oil field highway association, is a designated, improved road from the Oklahoma line to Dalhart and thence to Denver.

Gray county is now finishing paving the road from Pampa to the Carson county line. Stuckey Construction company started pouring concrete on the last four and one-half miles this morning. Other counties along the route have made extensive plans for improving the road. Designation of the road from the Oklahoma line to Wheeler and from Pampa to Dalhart is hoped for in the near future.

The Berger road west of Pampa is one of the most-traveled roads in the county. Skellytown residents, farmers of western Carson county, particularly those in the Polish colony, and workers in the oil field west of town come to Pampa over this road.

In Oklahoma the road is designated from Oklahoma City to Sayre. Association officials are confident that the 7-mile strip west of Sayre will be designated when the Texas highway commission takes some action.

Lindbergh said the plane probably would average about 105 miles an hour on the hop.

The Lindberghs arrived here from North Beach, N. Y., yesterday afternoon and spent the night at the summer home of United States and Senator and Mrs. Dwight W. Morrow, parents of Mrs. Lindbergh.

The baby was brought here by train and boat on Monday by his nurse.

Lindbergh was at the controls and his wife, to whom he referred all the questions this morning regarding the distance to be covered and the operation of the radio, was in the rear cockpit at the wireless equipment.

Kansas Towns to Get Lower Rates

TOPEKA, July 30. (AP)—The number of Kansas municipalities in which customers have been assured lower electric or gas rates as a result of the efforts of Gov. Harry H. Woodring and the state public service commission to secure voluntary reductions was increased to more than 300 today.

More than two score towns were added to the list late yesterday after a lengthy conference here attended by the governor, members of the commission, and Nathan L. Jones, Salina utility magnate.

The Western Light and Power corporation through Jones, its president, announced electric rate reductions applicable in 42 towns. An affiliated concern, the Western Natural Gas company, announced elimination of its service charges and a cut of \$1 in its monthly minimum in towns where it now is in excess of that amount.

Under the new Western Light and Power schedule, it was announced, the maximum rate will be 10 cents a kilowatt hour. Governor Woodring said the reductions would average from 11 to 18 per cent.

FLIES TO HOUSTON

Dr. J. C. McKean flew his Stearman biplane to Houston yesterday with Chas. Capers, chief clerk of the Humble Oil and Refining company here, and a Mr. Stone of Houston, attorney for the Humble, as passengers.

(See CRIME, Page 5)

Negro Boy Found Dead on Ranch

BIG SPRING, July 30. (AP)—Collis Wells, 2-year-old negro boy, was found dead today 15 miles from the 9-R ranch, from which he had wandered Tuesday morning.

Nathan Reynolds, owner of the 9-R ranch, said the boy had been dead but a short time. Several hundred men searched the range for 48 hours, an airplane aiding in the hunt.

The 9-R ranch is located 20 miles west of Snyder. The boy had wandered westward from it. Collis was a son of the ranch cook.

"He Wouldn't Pay Anything."

The teacher was propounding a problem in arithmetic.

"Now, Johnny, if your father owed the grocer \$45 and the butcher \$15 and \$15 rent, how much would he pay?"

Johnny: "He wouldn't pay anything. He'd move!"

This must not be construed as a recommendation, such a procedure, but if and when a move is in order, then the classified columns of the NEWS and POST will be found very helpful. Rooms, apartments, houses, farms, ranches, business location, - under some of these headings will be found "the right place."

THE WEATHER

WEST TEXAS: Generally fair tonight and Friday, except probably scattered showers in Rio Grande valley.

OKLAHOMA: Generally fair to partly cloudy tonight and Friday, continued warm.

BRIEFS ABOUT OFFICIAL PAMPA

Expansion of facilities and economy are not entirely incompatible. Water and light extensions, sewer system improvement, and street building have been carried on during this year.

Police department revenues have fallen tremendously since last year. Citizens are more law abiding. Many of those arrested on vagrancy charges in connection with burglary investigations are unable to pay their fines.

Development of the city park necessarily is slowed down, according to gardeners, by the fact that the fills and other loose dirt are not settled enough to hold growing things.

Pampa has developed rapidly and expended rapidly. It now needs a period of conservative development, in which private citizens and private property must largely participate.

Pampa has developed rapidly and expended rapidly. It now needs a period of conservative development, in which private citizens and private property must largely participate.

is something people write books about. To fool the decipherer the code makers resort to such tricks as mixing several codes, inserting meaningless symbols, avoiding repetitions and tossing beginnings and ends to messages into the middle.

WASHINGTON, July 30. (NEA)—Regardless of who may have conceived the latest plan for saving Germany and irrespective of whether the plan is anything to brag about, it is obvious that the astute Undersecretary of State William R. Castle attempted to put over some splendid publicity for the administration and that the attempt was gummed up by none other than Secretary of State Henry L. Stimson.

Castle's assiduity in obtaining the utmost credit for President Hoover has been noted before and so has Stimson's penchant for getting things gummed up. But this is the first time that the respective tendencies of these two distinguished statesmen have clashed on such a delicate matter as that of picturing Mr. Hoover as a world savior and that is why you now hear predictions here that Castle will be the next secretary and perhaps before very long.

Castle was here working with Hoover throughout the save-Germany negotiations and handling the publicity. Stimson arrived to represent us at Paris and London after France, through haggling, had accepted the debt moratorium plan. After the statesmen had hashed things over and it seemed apparent that Germany couldn't get anything more than a prolongation of 'existing credits Castle suddenly announced a new 'Hoover plan' providing for prolongation of existing credits and a committee of experts to study the Germany situation and the question of how best to turn short-term credits into long-term credits.

Without choosing sides between Castle, it must be admitted that the incident has recalled some of Stimson's previous 'bulls' to the obscurity of his better achievements. There was the time at the London naval conference when Hoover was issuing a statement condemning the consultative pact idea while Stimson in London was explaining the kind of a consultative pact this country would accept.

It was Castle who, when the story was widely current that Young, Morrow, Dawes and various New York bankers had sold the debt moratorium to Hoover after long and desperate pleading, issued a timetable to demonstrate how, day by day, for many weeks, Hoover had worked out the moratorium idea all by himself.

What We Need Now Is a "TWO-WEEK PLAN!"

FRECKLES AND HIS FRIENDS

About New York

NEW YORK—through these sweltering days and nights of July I have ransacked the avenues and paths where fewer tread; I have been holding teie-a-tetes with chorines, eavesdropping figureatively peeping through keyholes; I have met persons who might be described as outlaws and their 'in-laws' connected in positions of influence and seeming respectability.

Perhaps you saw their picture in your paper, taken when the pups were hours old. A new Bide-a-Wee home, that praiseworthy charitable institution which afford a haven for homeless dogs and cats, to snap them after they saw them there.

DOING WELL THANKS

The pups have just opened their eyes to see the world who has nursed them since the day they were given a chance for survival by a Casarean operation.

Their thoroughbred mother died and two other pups were lost, despite a skilled veterinarian's best efforts.

The owner at once appealed to the Bide-a-Wee home to save the puppies by placing them in the care of a nursing dog.

No canine nurse was available, but this tabby was on hand with two kittens. Her babies were placed in the care of another cat who likewise had only a couple of kittens of her own, and the pups were entrusted to Miss Tabby.

It was evident at first that she was amazed, but a tender maternal instinct prevailed and she nursed them. Now the pups are thriving, and both mothers are contented.

BEGGAR'S BALLYHOOD

None of the fishy things along the Rialto escapes Stanley Chipman. Cape Cod's gift to journalism. He was first to report a beggar employing the services of a ballyhoo woman.

Chip and a companion were ambling along Broadway when a strange woman, matching their speed, began, as if overcome with sympathy, to bemoan aloud the sad fate of an aged crutch wielder approaching them.

She addressed her remarks to the pair and, when the mendicant drew close, she produced a shining quarter and dropped it in his cup. Then she looked appealingly at the scribe and his friend, and so did her beneficiary. Eut the heartless pair saw through it and all looked the other way.

Rather than awake in the dark with an indigestible conscience however, Chip dragged his companion along while he shadowed the woman and beggar.

He saw through it, the same stunt on pedestrians on two successive blocks; and it worked.

Jury Docket of District Court Set

Settings on the jury docket of 114th district court for the current term were announced today by Judge Clifford Eraly as follows: First week—International Supply company vs. Geo. W. Bilbo et al; Tom Stinnett and others vs. S. D. Tarver and others; S. A. Cochran and others vs. C. C. Alexander; T. B. Skibinski and others vs. Safety First Bus company; Ike Lewis vs. J. M. Radford Grocery company; W. B. Wild vs. E. G. Alexander.

Second week—Monday, Aug. 3: H. B. Black vs. Texas Indemnity Insurance company; Texas Indemnity Insurance company vs. Leonard Bentley; Texas Indemnity Insurance company vs. H. B. Black; J. W. Worley vs. Gulf Production company; Panhandle Lumber company vs. Herman Gantz; Thursday: J. G. Gantz vs. Roy A. Thompson and George Bandle; Price Bailey vs. Lumbermen's Reciprocal Association; J. C. McKean vs. Francis Fletcher.

MOM'N POP

LIFE FOR THE NEWLYWEDS HAS BEEN ONE LONG NIGHT-MADE, EVER SINCE THEY MADE TOO LOW AN APPRAISAL ON AUNT HANNAH'S WEDDING PRESENT AND TRADED IT OFF. NOW THEY'RE IN A PANIC, FOR AUNT HANNAH IS TWO MINUTES AWAY FROM THEIR APARTMENT.

tion; J. C. McKean vs. Francis Fletcher. Third week—Non-jury, Wednesday, Aug. 12: Western Newspaper Union vs. Pampa Times Publishing company; week—Monday, Aug. 17: Mattie Crockett vs. Fidelity Union Casualty company; J. F. Meers et ux vs. Albert McCollum and others; Panhandle Lumber company vs. J. G. Gantz; H. E. Stevens vs. W. F. Nicholas; Thursday: Ben F. Dumas vs. Mutual Benefit Health & Accidents association; B. R. Holloway vs. Texas Indemnity Insurance company; Jay Blair vs. Consolidated Underwriters.

FLIES TO SAN FEA R. W. (Dutch) Eartgs piloted the Gre & Hoover plane to Santa Fe, N. M., Tuesday with Dick Graham and Lenah Anderson as passengers. Last week-end he flew to the New Mexico capital and brought Mr. Graham to Pampa. A can of maple syrup 50 years old, found in an attic in Andover, Ohio, still was of good flavor and quality. A marble column bearing the head of Hermes has been discovered by American archeologists excavating in Athens.

By Cowan

OUT OUR WAY By Williams

By Blosser

Daily WASHINGTON LETTER

WASHINGTON, July 29. (NEA)—The business of deciphering the diplomatic, naval and military codes of other nations and trying to make up new codes that cannot be deciphered seems to resemble the constant battle of wits between prohibition bureau chemists who try to put irremovable concoctions into alcohol and the bootleggers who try to get the stuff out. Such codes are changed, sometimes frequently, but the cryptographers in the world capitals pursue their relentlessly.

Getting information about codes from government departments is about the hardest assignment you can tackle, but it is generally conceded any code can be "broken down" if the cryptographer has enough time to work on it.

Major Herbert O. Yardley, former military intelligence officer who recently wrote in "The American Black Chamber" a sensational account of how our government cryptographers broke down codes of foreign governments during the war and up to 1929, says the State Department code is vulnerable and undoubtedly is being read by other governments.

The department doesn't seem to be taking this very seriously. Yardley hasn't divulged the nature of his system beyond pointing out that the only indecipherable means of communication is one in which "there are no repetitions to conceal."

Other coding machines and decoding machines to correspond with them have been used before. The navy has tried them out, but won't report with what success. One state department official, speaking privately, scoffs at the idea of a code machine system and demands to know what would happen if an urgent message were sent and our minister's machine broke down.

Nevertheless, Yardley has directed attention to confidential government codes and their widespread use. There have been some tart comments on his "ethics" in telling the story, but no one has yet denied it and one one hears in informed quarters that he was one of the best cryptographers in the business.

The diplomatic and military services have two types of codes, a common code designed to save money or time in cabling, telegraphing or radioing and a confidential code for secret messages. Code messages appear in words, numerals or jumbles of letters. Some codes involve 100,000 words.

The British army once used one based on relative positions of a swarm of bees on a magazine cover. In wartime there's a simple trench code, often changed because of the danger of capture, and a complicated code used between G. H. Q. and division headquarters which is changed before every big operation.

Changing codes has often been used to beat the decipherers and if the new code is well constructed it's usually safe, at least for a while. Yardley says the Japanese introduced 11 different codes in 1919 and 1920 and finally were using 10 codes in a single message. The Germans had a code on the front to which the key changed every day. The worst danger in code changing is that the other fellow may get hold of the same message written both in the old and the new code.

Breaking down codes, the science of cryptography

Kansan Shoots Man Claimed to Be From Pampa

COLUMBUS, Kans., July 30. (AP)—Edward Seymour of Pampa, Texas, was shot and seriously wounded six miles west of here last night by O. E. Gilmartin, who charged Seymour and a companion were attempting to rob the Gilmartin grocery and filling station.

Gilmartin, who has slept in his place of business since it was robbed a year ago, fired a double-barreled shotgun into the door of the station when he heard someone attempt to open it.

Seymour, dumped from an automobile, was found in front of the Columbus City hospital an hour after the shooting. Attendants heard his cries.

Officers said the wounded man admitted the attempted robbery explaining he had met the man and a woman companion near Galena yesterday while hitch hiking to Chicago. He said they were en route to Kansas City without funds and decided to break into the Gilmartin store for groceries and gasoline.

Local officers expressed doubt that Edward Seymour, reported wounded at Columbus, Kans., was a Pampa man. They said they did not know him, although an inquiry concerning such a man was received some time ago.

Road Contracts Will Be Awarded

AUSTIN, July 30. (AP)—The state highway commission today opened a meeting at which it expected to award contracts for highway and bridge construction estimated to cost between \$5,500,000 and \$6,000,000. Bid prices were expected to be approximately 20 per cent under estimates.

The meeting will last through Saturday and will combine the July and August sessions. The program called for improvement of 578 highway miles and construction of 38 bridges. Road construction included 142 miles of concrete paving; 39.7 miles of other hard surface paving and 347 miles of grading and drainage structures.

Bids received today included county projects as follows: Lubbock, 12.2 miles concrete paving on Highway 9.

Van Zandt, 10.3 mile concrete paving on Highway 15. Freestone, Rock Island underpass paving on Highways 7 and 22. Gray, 17 miles triple asphalt on Highway 75. Coleman, 11.4 miles of grading and drainage on Highway 7. Matagorda, 10.3 miles grading and drainage on Highway 60.

OKLAHOMA'S "ALFALFA BILL" DECLARES WAR!

Tens-hun! Here are Governor W. H. (Alfalfa Bill) Murray's Oklahoma National Guardsmen on the battle front at Durant, Okla., in the Red river bridge "war" with Texas authorities. The mustachioed commander-in-chief ordered his men to permit no traffic across the toll bridge, which they are guarding in the above picture, unless Oklahoma's parallel free span remained open at the Texas end.

Markets

CORN STILL HIGH CHICAGO, July 30. (AP)—Corn jumped three cents a bushel higher today as soon as trading began. A quick further bulge lifted the market two cents more, July soaring to 72 1/2 as a result of anxious bidding of scarcity of offerings of corn available or delivery before month-end expiration of contracts. Other months than July advanced but kept within ordinary limits. Wheat started unchanged to 1-2 cent off and then rallied.

COTTON EASIER NEW ORLEANS, July 30. (AP)—Cotton opened easier today in sympathy with much lower Liverpool cables than due. First trades showed losses of 10 to 11 points which was not a full response to the weakness of Liverpool.

Prices here rallied right after the start on fairly good trade buying and covering by shorts. October, which had traded at 8.50 at the start, rallied to 8.59, up 9 points while December, which had sold at 8.73, rallied to 8.82, also up 9 points from the low.

Near the end of the first hour the market quieted and prices showed a reaction of four points from the best.

Following the early break on poor cables, the market rallied rather sharply and continued to improve most of the morning. The rally was attributed to covering by satisfied shorts and to buying on the forecast for showery weather in the belt. October traded up to 8.87 and December to 8.91, or 17 to 18 points above the early lows and 6 to 8 points above yesterday's close.

Towards mid-session the market became quieter and eased off 4 to 7 points from the highs. The decline in Liverpool was attributed by private cables to the advance in the Bank of England rate to four and a half per cent. Two private crop estimates were issued during the morning, one forecasting a crop of 13,335,000 bales and the other 13,981,000 bales. They had little effect on the market.

The decline in the American Rabbit and Cavy breeders association in the Chicago headquarters. There are only six licensed rabbit judges in Texas. One of these is Russell Middleton of Amarillo. Mr. Love's license was the twelfth issued this year. There are about 80 licensed judges in the United States and Canada.

Maybe He'll Be a Fly-Weight Next

Young Stribling (boy pardon—Lieutenant William L. Stribling) is one fighter that can't be kept down. Here you see the heavyweight boxer, who recently was knocked for a technical stop by Max Schmeling, in his capacity of Reserve Corps officer at the aviation school at Maxwell Field, near Atlanta. Stribling, who holds a pilot's license, is talking to Lieut. E. Brown, U. S. Army flier, who is commandant of the school.

Pampa Man Is Given Rating as Judge of Rabbits

Recognition of S. E. Lowe, owner of the Gray County Rabbitry, as an authority on rabbits was received by Mr. Love yesterday in the form of a license to judge rabbit shows anywhere in the United States and Canada.

Such licenses are issued only by the American Rabbit and Cavy breeders association in the Chicago headquarters. There are only six licensed rabbit judges in Texas. One of these is Russell Middleton of Amarillo. Mr. Love's license was the twelfth issued this year.

Before obtaining a judge's license, an applicant must assist three licensed judges in judging three shows, and must be not only recommended by them, but by the Pampa Rabbit and Cavy breeders association, local organization that is affiliated with the American Rabbit and Cavy breeders association. Mr. Love is a prominent local breeder and his animals have taken many prizes in Texas and Oklahoma.

The local association will not exhibit any animals at the Gray county fair this fall, as it will be held during the moulting season. However, a large rabbit show will be held here during the coming winter. Mr. Love, who is secretary of the association, said.

The navy plans to plumb the great Bartlett deep in the Caribbean sea in search of important data bearing on Central American earthquakes. Under the terms of the will of a Des Moines man his dog is to be buried in the same plot as its master and to have a headstone all its own.

"Servicemen ... not Salesmen"

we want you, too, to feel this way about us

We work on the simple but friendly policy of assuming you know what you want done to your car, and that you would rather not be high-pressured to spend money for anything else. That is why we do quickly and carefully the things you tell us to do. Services we render free, however, we're not at all backward in asking you to accept.

This may seem a bit old-fashioned, but it makes us many good and true friends. We find that people often go out of their way to come back when they are ready for our other services and supplies. If you prefer friendly service to selling pressure, won't you stop in and see how we suit you?

COLONEL BALL UNDER CHARGE

HOUSTON, July 30. (AP)—Col. Thomas H. Ball, active in the democratic party of Texas and former congressman from this district, was indicted today by the state grand jury on a charge of felony theft.

The charge related to a land transaction alleged to have occurred during 1927 between a company of which Colonel Ball was president and the port commission here, of which he was, and is, legal counsel.

The specific count in the indictment is "felony theft" and it charges theft of certain checks made by the port commission in 1927.

Ball was set at \$5,000. Colonel Ball, deeply affected when informed of the indictment declared he had nothing to say at this time; that it is unthinkable that an indictment should have been returned.

The colonel is 72. He is credited with being the father of Fort Houston, as he was in congress when the first appropriation for the deepening of the Houston ship channel was obtained. The port now is worth more than \$20,000,000.

Carroll Is Given 25-Year Sentence PALESTINE, July 30. (AP)—Joel Carroll was convicted in district court here today of participation in the Frankston bank robbery and he was sentenced to 25 years in the state penitentiary.

Ganna Walska, opera star, has been decorated in Paris by the Polish minister to France with the Gold Cross of Merit.

A new enterprise, brought to the Ozarks by creation of Bagnell Lake, is the erection of a large boat factory at Osage Beach.

STEERS AND BUFFALOES WILL OPEN BIG SERIES TONIGHT

"DIZZY" DEAN AND MINOGUE WILL CLASH

Dallas Beats Beaumont in Fine Exhibition; Houston Beats Shreveport.

By BILL PARKER
Associated Press Sports Writer.

A series that rivals in interest the Houston and Beaumont first half play-off will be inaugurated tonight in Dallas between the Steers and Houston Buffaloes. Houston, four games in front of the Steers in the second half, plans to send Jerome "Dizzy" Dean after Hap Morse's crew. Dallas will fire Lefty Minogue against Houston. In preparation for their big series, these two teams triumphed last night.

Brilliant fielding, featured by five double plays, gave Dallas a 3 to 1 decision over Beaumont. It made the Steers' second consecutive triumph over Beaumont. Hansen elongated southpaw for Dallas, was in trouble several times, but when the danger hand reached out to grab him, the Dallas infield rushed to his rescue with any number of sensational plays. Hansen allowed nine hits, the same as Marrow and Malicky, Beaumont pitchers. The victory allowed Dallas to widen its margin for second place over Beaumont by three and one-half games.

Great Play
The finest play of the game occurred in the eighth inning when Beaumont trailing 2 to 1. Nick Urban, a Dallas cast-off, opened with a double to left-center. Lorbeer followed with a hard grounder through the box, but James, by a super effort, knocked the ball down behind second base. James quickly grabbed the ball and threw to Holman at third to catch Urban who had made the turn for home. A single by pinch-hitter Izzy Goldstein followed, putting Beaumont runners on first and third with one out. Holman took Taylor's grounder and gambling on the strikeout of Dallas infield, threw to James who relayed to Cotter for a double play.

Tex Carleton, winning his fourteenth game of the season, held Shreveport to four hits for Houston 4 to 3 verdict.

Held Four Innings
The Buffaloes scored a run in each of the first three innings to command an early lead that Shreveport failed to overturn. Lefty Erickson pitched seven-hit baseball for the Sports.

"Perhaps the reason Galveston traded Bill Harris to Fort Worth was so the Buccaneers could win a game. Harris was not a mystery to his former mates last night when Galveston defeated Fort Worth 6 to 5. Hammering the ball to all sections of their park, the Wichita Falls Spudders whipped San Antonio 13 to 5. Lester White was touched for 11 hits, but he was difficult to get in the pinches. Manager Robertson sent Flinn, Smith, Stein, and Moore to the mound, and from this crew the Spudders collected 19 timely hits.

Abatement Plea in Bilbo Suit Granted
Granting of a plea of abatement by Judge Clifford Bray caused continuance of International Supply company's suit against George W. Bilbo and others yesterday afternoon.

Pestomment of the trial will allow Curtis Douglas, W. L. McConnell, A. L. Michaels, and the Bilbo Oil corporation to be made parties to the suit. A number of divorce cases were scheduled for trial before Judge Bray today.

Mrs. W. H. Ponder was admitted to Pampa hospital for treatment this morning.

Dallas to Honor "Babe" Didrikson Girl Track Star

DALLAS, July 30. (AP)—Taking recognition of her ability as a track and field star, the Dallas chamber of commerce will honor Mildred "Babe" Didrikson tonight. Jordan Ownby, chairman of the Dallas chamber of commerce athletic committee, wishing to publicly acknowledge Miss Didrikson's value to the city and state, will present the famous-track and field star with a matched set of golf clubs previous to the Dallas and Houston baseball game tonight at Steer stadium. Miss Didrikson, former Beaumont high school girl, won three national championships and shattered two world's records last Saturday at Jersey City, N. J., in the annual girls' National A. A. U. track and field meet.

Her spectacular performances saw her clear the timber in the 80-meter hurdles in 12 seconds for a new world's record. In the baseball throw, she beat her previous record with a toss of 306 feet. She won the broad jump, giving her first place in the only three events she was allowed to enter. Her performance last Saturday is said to be unequalled in the annals of track and field athletics for men and women.

Miss Didrikson is an all-around athlete. Last winter she played forward on the basket ball team that won the National A. A. U. crown, and was placed on the national all-American team selected by A. A. U. officials and sports writers.

Cram Brothers Cleaning up Dixie Tennis Titles

Donald and Kendall Cram, Nashville brothers, are senior and junior tennis champions of the south. They won their titles in a recent tournament at Birmingham, Ala.

NASHVILLE, Tenn. (AP)—The house of Cram will be the home for the next year of two of the south's major tennis titles.

They are the property of brothers, sons of a foremost Methodist minister, who won them after eliminating the south's best racket wielders in the Southern Lawn Tennis association tournament at Birmingham, Ala.

Donald Cram, ranked 25th among tennis players of the United States, is the new men's singles champion of the south.

His younger brother, Kendall Cram, holds the junior singles title of the same organization.

The brothers were paired against Wilmer Hines, Columbia, S. C. ace, and Judge Beaver of Gainesville, Ga., who with Bryan Grant, of Atlanta, last year won the men's doubles. The Crams were defeated in this event by a narrow margin.

Donald was appointed tennis coach at Columbia University, New York City, where he is a student working toward his M. A. degree. He is 23 years old and a graduate of Vanderbilt university, here.

Kendall is a student in the Hume-Fogg high school of Nashville, and won the southern interscholastic championship at Gainesville, Ga., a few weeks ago. He ranked ninth among the nation's junior players.

GIANTS SEEK TO HOLD CUBS BELOW THEM

Old-Time Rivalry Flares Up As Teams Change in Standing Often.

By HUGH S. FULLERTON JR.
Associated Press Sports Writer.

The rivalry between the New York Giants and Chicago Cubs, which is just about as old as the two teams, has raised its head once more. Bit this year the teams are not battling each other for the pennant and there seems to be little chance that either will overtake the flying St. Louis Cardinals.

In the past few weeks, the Giants and Cubs have changed positions every few days, first one slipping a trifle ahead and then the other catching up. The Giants are on top today, holding second place by a margin of a half game by virtue of their 5-4 triumph over Pittsburgh yesterday and Chicago's 4-0 shut-out at the hands of the Phillies.

The Cardinals also ran into a five-hit shutout with Ed Brandt doing the hurling to give the Boston Braves a 3 to 0 victory. It did not, however, seriously damage the Cards' pennant hopes for they held an eight-game lead over the Giants. The Brooklyn Robins, slipping slowly out of the race, ran into another setback at the hands of the Cincinnati Reds. They lost a 2 to 1 decision as Elias Johnson, Cincinnati ace, outpitched Babe Phelps.

Fine pitching by Roy Mahaffey and Jimmy Fox's 20th home run combined to give the Philadelphia Athletics a 4 to 2 victory over the St. Louis Browns and to increase their margin in the American league pennant chase to 12 games. The A's now have 16 straight games at home. The only game they lost since the first contest of their home stand on July 14 was when they made a Sunday jump to Cleveland. Washington, closest rival of the world's champions, found W. P. Rea, ace of the Cleveland mound staff, a bit too much and took a 6 to 0 beating.

Babe Ruth lined his 28th homer of the season into the right field bleachers at the Yankee stadium as the feature of New York's 10 to 4 victory over the Chicago White Sox.

The Boston Red Sox and Detroit Tigers divided their closing double header. Boston won the first game 5 to 4 in ten innings and Detroit took the second, 5 to 6.

Burning Up the Water!

Rivalry between Gar Wood's "Miss America IX" and Lord Wakefield's "Miss England II" for the world's motorboat speed record has aroused attention of the racing world and has stirred tremendous interest in racing on the water. Above are two speed-boat racers taking a turn in a high, while below is Gar Wood at the wheel of his latest racing creation, which has topped 100 miles an hour. The American and English boats will compete for the world's title during the Labor Day week-end.

Ford's 68th Birthday Finds Him in Good Health; Avoids Every Worry

DETROIT, July 30. (AP)—Time, like fortune, has been kind to Henry Ford.

So said his friends today as the motor magnate observes his 68th birthday. Ford did not "celebrate" his birthday, for it was "just another day" to him. Apparently in the best of health and spirits, he spent most of the day in the gardens of his estate, "Fairlane," at Dearborn, or in the engineering laboratory of his plant "just across the road."

The friends who said that time had been kind to Henry Ford found plenty of substantiation in the automobile maker's appearance. True, his face is heavily lined but it always seems to have been so. The slender, wiry figure, straight carriage, alert footstep, and energetic movement, and the twinkle that seemingly never leaves his eyes, told of excellent health and spirits.

Ford, who was past 60 before he pulled himself out of obscurity as a mechanical engineer to become a figure of world prominence and financial success, does not worry about anything. An annual income that runs into many millions may account for that characteristic in some degree, but Ford himself probably does not know the extent of his actual wealth.

"I am not interested in money but in the things of which money is merely a symbol," he philosophized. "The only right use for money is to capitalize industry."

At the moment much of the intense interest Ford devotes to everything he undertakes is being directed toward the development of

Valdez Charged With Speeding

OKLAHOMA CITY, July 30. (AP)—H. Valdez, Mexican consul here, was charged with speeding by county officers yesterday.

The consul, who recently figured in city prohibition charges which were dismissed, and later was named co-respondent in divorce proceedings, was charged with traveling more than 60 miles an hour. The speed limit is 45.

Valdez also figured in the investigation of the slaying of a Mexican student at Ardmore recently. Officers charged this was the third time Valdez had been halted for speeding, and "three times is out," commented Newton Burns, highway patrol captain.

E. S. Graves, former sheriff of Gray county, returned to Pampa today from North Central Texas where he has been looking after interests.

State Banks Are in Good Condition

AUSTIN, July 30. (AP)—State Banking Commissioner James Shaw yesterday noted a "very healthy condition" in the 639 state banks of Texas, as of June 30, despite the fact that assets were \$12,000,000 lower than last year.

The commissioner's statement said total resources were \$290,000,000, as against \$302,000,000 for the 686 banks doing business in 1930. A decrease in deposits from \$218,000,000 to \$206,000,000 was reported.

The fact that 47 banks dropped out during the year was explained as caused by consolidations made advisable by the decline in business. Low commodity prices were blamed for the lessened deposits.

Shaw said an unusually small number of banks owed money and that most of those with such debts were in the drought areas.

He pointed to the fact that the capital, surplus and undivided profits accounts aggregated more than \$51,000,000 and said it meant the banks had borrowed "only a little more than eight per cent of their total capital accounts."

"The general liquidation seen would be helpful in the long run, Shaw said, because it "opens the way for business to continue on a sounder basis."

BATTING HAS BEEN CUT BY DEADER BALL

National League Averages in Big Decline; Far Less Difference in American.

CHICAGO, July 30. (AP)—At last, the hot war club swingers of the major leagues have concluded sadly that the manufacturers weren't just fooling when they came out with the "deader" baseball last spring.

The new sphere, with a slightly thicker cover and a more pronounced seam, has just about slowed the game in the majors back to the hitless wonder days.

An examination of batting averages for July 29 a year ago and yesterday revealed that with only two well explained exceptions that the "deader" ball has made good in a big way, notably in the National league where hits were almost as numerous as popcorn vendors last season.

The comparison shows that to date, as compared with a year ago, the team batting average for each club in the National league has been reduced on an average of 27 points while 256 fewer home runs—an average of 32 a club—have been hit. The difference is far less, yet noticeable, in the American league.

The team batting marks in the junior circuit have dropped on an average of 7-1-2 points per team, while the home run crop is 72 less than a year ago at this time.

St. Louis and Boston of the American league are the only exceptions but both of those clubs have stronger clubs on the field than a year ago offensively. A year ago, the Browns, as a team, were hitting at a .261 clip as compared with today's unofficial average of .275. Last year at this time, the Red Sox were hitting .268; today they were hitting .273. The Red Sox have the same number of home runs as a year ago while the Browns have nine more.

But for the other 14 clubs, a big depression is noted. Philadelphia of the National league is batting 44 points less than a year ago at this time. Brooklyn is behind 36 points while the Pirates are shy 34. The Cubs are the closest to last year's batting average in the league, being only 15 points behind last year's average. However, they had 61 home runs less than a year ago. The biggest downward change in team batting in the American league was experienced by Detroit. A year ago today, the Tigers were hitting .265; today they were hitting .264—off 21 points. The Athletics were off but 6 points while Washington was shy only 8. The Yankees' team batting average fell off 16 points while their home run collection was fewer by 15.

California Again in Net Triumph

SEABRIGHT, N. J., July 30. (AP)—California again is triumphant in the tennis world as the annual invitational tournaments of the Seabright Lawn Tennis and Cricket Club progress toward the final rounds with a gradual elimination of the rivals of the California-bred player.

The men's singles event is down to the last round with John Hope Doeg, who won the national singles championship for California last year before moving to Newark, N. J., meeting Ellsworth Vines Jr. of Pasadena, Calif., tomorrow. Doeg reached the final yesterday by beating another Californian, 19-year-old Jack Tidball of Los Angeles, 4-6, 8-5, 8-6, while Vines eliminated Cliff Sutter of New Orleans, 6-2, 11-9.

ATTENDS CONVENTION
R. C. Wilson, county auditor, returned last night from Fort Worth where he attended the state auditor's convention, Tuesday and Wednesday.

The Weaker Sex?

Gangway! Here comes a real woman athlete. Miss Mildred (they call her "Babe") Didrikson, of Dallas, Texas, is only 19 years old and learned to hurdle only a month ago. Yet here you see her in a starting action photo at the women's A. A. U. track and field championships at Jersey City as she came on to break the world record in the 80-meter hurdles. With the speed and grace of an antelope, she cleared the eight barriers in 15 seconds flat. Then, just to prove her unparalleled versatility, she won the broad jump and the baseball throw—the latter with a toss of 206 feet, surpassing her own American record.

OFFICERS SELECTED BY WOMEN OF BAPTIST SOCIETY Twenty Counties Will Be Represented at Teachers Institute at Canyon

MRS. STARK TO BE PRESIDENT ANOTHER YEAR

Mrs. G. C. Stark was re-elected president of the Central Baptist Woman's Missionary Society at the business meeting held Wednesday afternoon at the church.

Mrs. O. J. McAllister was named vice-president; Mrs. G. L. Moore, recording secretary; Mrs. R. M. Mitchell, treasurer.

Initial sessions were made for a social meeting to be held for the organization next Wednesday afternoon at 3 o'clock at the home of Mrs. Stark, 1015 E. Browning. Mrs. Ray R. Hunsdale, Mrs. O. J. McAllister, and Miss Mary Burks were appointed as a committee to direct the entertainment, and Mrs. L. H. Anderson, Mrs. G. L. Moore, and Mrs. M. D. L. Lunsford were asked to serve on the refreshment committee.

FEMININE FANCIES

ANOTHER SURPRISE FOR PAMPA SOCIETY. PRINCE JOHANN UND ZU LICHTEN-STEIN AND HIS TEXAS BRIDE MAY VISIT IN THIS CITY WHEN THEY COME TO AMERICA WITHIN THE NEXT FEW WEEKS FOR THEIR HONEY MOON.

The bride, formerly Miss Aleene McFarland of Weatherford, is a niece of the late A. B. McAfee, and if she comes to Pampa she will visit in the home of Mrs. McAfee, 529 North Semerville. She is a cousin of Mrs. W. S. Tolbert of Pampa, Mrs. G. C. Farnell of Canadian, Frank McAfee of Pampa, and Alfred McAfee of McAlester.

After seeing Miss McFarland receive her education in the "little red schoolhouse" of Weatherford and becoming, a few short years later a princess, residents in her home town must believe all things are possible.

Love at First Sight! The courtship of Miss McFarland and the prince was highly romantic—love at first sight. The couple became engaged almost immediately after meeting in Paris about three years ago.

What a Contrast! The bride's childhood home is described as a "venerable West Texas hamlet where melon wagons idle about an old world-looking court house." Her future home is a tiny country, lying in a bend of the Rhine between Switzerland and Germany. Johann, the future ruler of Liechtenstein, will have dominion over some 11,000 subjects. The capital, Vaduz, is a quaint, old-world village of 1,400 persons. The prince (said to be a real Prince Charming) is 33 years old.

Dan Cupid knows no limits. He sometimes unites a boy and girl who are next-door neighbors and have played together since childhood. But his dart's sometimes go across seas into distant lands to find a pair willing to accept each other "for better or for worse," and to love each other until death.

Business Group Is Entertained Here on Tuesday Night

Among the most interesting of the summer meetings for the Business and Professional Women's club was that held Tuesday evening in the home of the vice-president, Mrs. Frank Foster.

A report of the business session's and round table discussion at the biennial national convention at Richmond, was given by the delegate, Miss Aurelia Miller. She told of the demonstration put on by the Postal Telegraph. During the international relations banquet held at the Mosque, fourteen messages were sent to different parts of the world by Marion McClench, national president, and Lena Madeson Phillips, international president.

A huge diagram of the world was on the platform, as well as a potal telegram ticker, and a light system on the diagram showed the course the message had taken in reaching its destination.

Fourteen messages were sent including one to Mrs. Herbert Hoover, one to Miss Daisy Leake at Temple, one to Mary Pickford at Hollywood, one to a ship in the Pacific, one in the Atlantic, one to Argentina, etc. All but two of these messages were answered, the first answer coming back thirteen minutes after the first message was sent.

The light system also traced the course of the returning messages. Miss Miller had her personal scrap book kept during the convention. It was full of interesting clippings and souvenirs.

After the meeting, Miss Clara Lee Shewmaker, club president, entertained with a few tables of bridge. Mrs. Frank Allison was awarded high score and Mrs. Andrew Fowler was given the prize for low.

Refreshments in green and gold were served. The napkins used were brought from the Edgar Allen Poe Memorial in Richmond by Miss Shewmaker. The score pads were also souvenirs of the convention.

Mrs. Castleberry Is Party Honoree

Mrs. W. M. Castleberry was honored on her 59th birthday in her home Monday afternoon at 5 o'clock with a party given by her granddaughter, Odessa Winkler.

An ice course was served to Mesdames D. W. Osborne, T. H. Lane, W. W. Harral, Fannie Bombardier, W. M. McConnell, Floyd Senior, W. T. Nicholson, W. Purviance, Misses Alma Peterson of Artesia, N. M., Odessa Winkler, Messrs. Floyd Senior, Jr., Wayne Winkler, and Carroll Montgomery.

Each guest brought the honoree a lovely gift.

ENTERTAINMENT WILL BE GIVEN FOR DELEGATES

CANYON, July 30. (Special)—The largest attendance in its history is expected when the Panhandle Teachers Institute holds its annual session in Canyon on September 3, 4, and 5. Teachers from 20 Panhandle counties will attend.

A very unusual program is being arranged, according to Professor F. E. Savage, head of the West Texas Training School of the Teachers college. Nationally known speakers will appear on the program. Included will be Josh Lee of the public speaking department, University of Oklahoma, who will address the institute at its general assembly.

Dr. A. L. Crabb of Peabody college, Nashville, Tenn., will address the intermediate department of the institute.

Miss Jean Alford, supervisor of primary work of the Dallas city schools will also appear on the program. Others will be J. L. Henderson of the University of Texas and Cora M. Martin of Austin.

The Canyon chamber of commerce will furnish entertainment for the visiting teachers.

Members of the executive committee of the institute other than Prof. Savage are: Supt. Dillehay, Hereford; Supt. Law Sone, Panhandle; Supt. R. B. Fisher, Pampa; Supt. J. B. Hesse, Pampa; Miss Ora Monahan, Hutchinson county superintendent; Judge W. A. Graham, Tulsa; Supt. I. B. Carruth, Canyon; Supt. Ferman Sawyer, Canadian; Supt. Price Scott, Floydada.

GIRLS' CLUB IS COMPLIMENTED

"Merry Fu" was the name chosen for a club of girls when the group met yesterday in the home of Mrs. Joe M. Smith, with Anna Mae Fleisher as hostess.

Pink and blue were chosen as official colors and sweet pea, the club flower.

The girls will meet at 3:30 o'clock in the home of Mrs. Smith and go from there to the home of Marie Farrington for a meeting on Wednesday of next week.

Those attending this week's meeting were Marie Tinsley, Doris Hall, Joan Shore, Valerie Austin, Nina Fisher, Dorothy Harris, Jeanette Ricketts, Margaret Stockstill, Burton Tolbert, Phyllis Smith, Anna Mae Fleisher, Josephine Lane, and Marie Farrington.

Bruening Will Release Plan of Action on Money

BERLIN, July 30. (P)—By the end of this week Chancellor Bruening is expected to make public the comprehensive plan of action which the cabinet has been working out in almost uninterrupted sessions for the nation's offensive against its economic difficulties.

By that time, it is expected, the financial experts of several nations will have completed their task of surveying Germany's needs and lining up creditors to leave credits undisturbed in Germany.

The Swiss, the French and the Dutch are still holding out for guarantees which German industry is not ready to agree to immediately, but a settlement on this point is expected tomorrow or perhaps tonight.

Then the way will be open for re-summation of normal commercial bank payments on Monday. Month-end payroll demands meanwhile will be met with the aid of regulations now prevailing on bank payments under which withdrawals of any amount are permitted if they are for certified payroll or similar purposes.

Robinsons Leave on Vacation Trip

Mr. and Mrs. T. A. Robinson and son, Bill, left yesterday by automobile for a three-week vacation trip in Iowa.

In Brooklyn they will be guests Saturday for the marriage of their niece, after which they will visit relatives in other parts of the state.

HELEN JACOBS WINS SEABRIGHT

SEABRIGHT, N. J., July 30. (P)—Helen Jacobs of Berkeley, Calif., today advanced to the final round of the Seabright invitation women's singles, Mrs. L. A. Harper of Oakland, Calif., ranking number 1.

Mrs. Jacobs, defaulting to her California rival in the second set of their semi-final match, Miss Jacobs had won the first set, 6-6, and was leading four games to love in the second.

Three Generations of Beauties

Patricide is just an old family custom with these Tulsa, Okla., beauties. Mrs. Thomas Gilcrease, center, who was selected "Miss America" in 1924, came naturally by her beauty as you can see by the picture of her mother, Mrs. M. A. Dickerson, left. And the former "Miss America's" charming young daughter, Des Cyae Gilcrease, right, bids fair to surpass them both. The picture was taken as Mrs. Gilcrease left for Paris to meet her millionaire oilman husband.

LUTHERAN MISSION TO HOLD FIRST SERVICE HERE SUNDAY

Next Sunday evening at 8 o'clock the newly organized mission of the Lutheran church, under the direction of the Rev. H. Frerking of Amarillo, will hold its first service in the Gray court room here.

The Lutherans sponsoring the opening of this mission are of the Missouri Synod and of that branch of the Lutheran church which may be identified by the Lutheran Hour of the Columbia Broadcasting system. Services in Pampa have been temporarily arranged for the first and third Sundays of each month.

"We are pleased to announce that there is an appreciable number of Lutheran people in the city of Pampa who are interested in this mission," the Rev. Frerking stated. "We are also confident that there are others of the Lutheran faith with whom we have not as yet come in contact, as well as there are those who are inclined toward Lutheranism, who will welcome the opportunity of attending our services and assisting us in our mission endeavors. We therefore extend a hearty invitation to everyone, but especially do we invite the unchurched and the Lutherans of the community. Come and get acquainted with us and learn what the Lutheran church stands for."

HOOPS PEOPLE Wire Murray to "Stay in There"

HOBBNS, N. M., July 30. (P)—"Stay in there and pitch," the Hobbs oil people have telegraphed Gov. "Alfalfa Bill" Murray of Oklahoma, regarding Murray's oil program.

Crop Production Centers Shifting

WASHINGTON, July 30. (P)—The shifting of crops throughout the country have produced so many problems that the agricultural service department of the United States chamber of commerce believes a pressing need for a solution has arisen.

The department said in a report today the use of mechanized equipment had enabled farmers to grow crops in areas formerly considered unprofitable. Production of wheat, cotton and corn, it said, had shifted westward from old centers in the eastern states.

The speed with which regional shifts in crops like cotton and wheat have been taking place, and the rapidity of the development of machine methods in agricultural production in certain regions, the report explained, "are creating serious problems of readjustment to new conditions."

CONFIDENCE VOTED

MADRID, July 30. (P)—The provisional government of Pres. Alosia Zamora was given a vote of confidence by the national assembly tonight. The vote was by acclamation.

BRIDGE PLAYED AFTER DINNER BY CLUB HERE

A covered dish dinner was served on a lighted lawn when Dr. and Mrs. W. G. Mitchell entertained for the "July 12 Bridge club Wednesday evening at their home."

After dinner, games of bridge were played. Mr. and Mrs. J. H. Lutz were winners of high score and Mr. and Mrs. J. G. Christy, second high. Guests were Messrs. and Mrs. E. H. Hurdlett, A. B. Zahn, J. E. Lutz, J. L. Nargie, Glen Davis, J. G. Christy, Carl Brashers, Victor Holts of Oklahoma City, Miss Betty Jane Duffy of Kansas City, and Miss Ruth Ann Mitchell.

Mrs. Cholvín Will Know Fate Tonight

DALLAS, July 30. (P)—Mrs. Ziona Mary Cholvín, frail widow of John C. Spero, for whose alleged slaying she has been on trial in district court here since Monday, will probably know her fate tonight.

Both the state and defense closed their respective cases before noon today. Judge Poplin said he would charge the jury this afternoon.

Mrs. Cholvín's attorneys based their hope for an acquittal on an insanity plea, supported by the testimony of defense witnesses. Mrs. W. H. Belt, the defendant's mother, testified that Mrs. Cholvín's mind seemed to have been affected prior to the alleged slaying.

A signed statement, allegedly made by the defendant, was read to the jury. The statement told of Mrs. Cholvín and Charles C. Chandler, a stock salesman jointly indicted for the Spero slaying, planning a picnic at Gravel Slough June 26. It read in part:

"Chandler came to Trinity Heights and I met him there in my car. I took my shotgun with me. We drove to Gravel Slough and he got out. I went back to Dallas to the service station where Spero was employed. He agreed to meet me down town. Later I picked him up and drove him to Gravel Slough. "As I spread the picnic lunch out, Chandler came up. There was an argument. I do not remember whether Chandler had the gun pointed at Spero. Spero caught the gun and Chandler fired twice, burned the papers."

Cool Cooking to Be Demonstrated

A demonstration of "cool cooking" will be given at the Southwestern Public Service company tomorrow afternoon from 3:30 to 5 o'clock.

WOULD SAVE BUFFALOES

FORT WORTH, July 30. (P)—Opposition expressed in various sections of the state to the slaughtering in a special hunt of the famous Goodnight herd of buffalo aimed support from two Fort Worthians interviewed on the subject Thursday morning.

H. D. Vinnege, chairman of the park board's zoo committee, suggested the establishment of a government preserve in the Davis mountains section and the placing of the Goodnight herd there to roam unmolested.

A Song A Day

GLORIA LAVEY
Early morning musical series in the new daily series presents Gloria Lavey as contralto. It is known as "Song for Today" and goes out on WJZ-NBC.

PICNIC GIVEN INTERMEDIATES

Mrs. T. F. Morton and Mrs. W. D. Benton entertained two intermediate Sunday school classes, First Baptist church, with a jolly picnic at Green's pasture Tuesday evening.

Following a series of active games sandwiches, cold drinks and ice cream cones were served.

Those attending were Florence Potts, Leona Lewis, Katherine Rose, Rowena Wasson, Gladys Barred, Estelle Lee Lyons, Nadine Brock, Ender Benton, Bob Kincheole, Leon Robinson, J. D. Kitchins, Milton McKinney, Leo Fletcher and Jack Benton.

MAN ON WAY TO FEDERATION IS VISITING HERE

John Black of Raton, N. M., is visiting his sister, Mrs. E. V. Davis, and family, and his nephew, J. R. Coburn, and Mrs. Coburn of Pampa. He is en route to Denver, where he will represent New Mexico at the world federation of educational associations convention. He also attended a national convention of the same organization in Los Angeles recently.

Mr. Black is a former instructor in the Elk City public schools and is employed in the public school system of Raton. He spent the week-end visiting his brother in Elk City.

IN GERMANY

Eleanor Frey is having a pleasant visit in Gotingen, Germany, according to postcards received by Pampa friends. Miss Frey, an accomplished violinist, is one of 8,000 students attending the university in Gotingen.

PRESBYTERIANS MAKE BANDAGES ON WEDNESDAY

Bandages and pillow slips were made by members of the Woman's Auxiliary, First Presbyterian church, when they met Wednesday afternoon in the home of Mrs. F. C. Ledrick. The articles will be sent immediately to the Presbyterian Health Center, Mt. Pleasant, Ark.

Mrs. Ledrick served an ice course to Mesdames John Andrews, V. E. Fatheree, Walter Wanner, T. W. Cheatem, Tom Clayton, Charles Mullen, Charles Todd, O. E. Speed, H. P. Larsh, Ted Scott, J. M. White, Roy Vaughn, Dave Pope, and A. A. Hyde.

SIXTY PRESENT AT GAY PICNIC

Sixty boys and girls and about ten teachers of the Junior High School, First Baptist church, sang and played at Green's pasture Tuesday evening.

BITS OF NEWS

Mrs. Louis Tarpley and son, Mrs. Egbert E. Chapman, Mrs. Joe Landry, and Mrs. C. F. Naylor motored to Amarillo yesterday and spent the day shopping and visiting.

Mr. and Mrs. J. E. Ward and the granddaughter, Mary Lee Morris, left this morning to visit a daughter, Mrs. P. D. Eller of Oklahoma City.

Bonnie Rose and Bob Morris have gone to Dimmitt to spend the day.

Mr. and Mrs. Victor Holts of Oklahoma City are visiting Mr. and Mrs. A. B. Zahn.

Miss Betty Jane Duffy of Kansas City is visiting in Pampa as the guest of Mr. and Mrs. J. H. Lutz.

Mr. and Mrs. Charles Richardson have returned from Albuquerque, N. M., where they spent a week visiting Mrs. Frank Meyers, sister of Mrs. Richardson.

H. L. Ledrick Jr. and Siler Faulkner Jr. arrived in Pampa Tuesday from the Ledrick ranch, where they have been working, and left Wednesday for a trip to the Carlsbad caverns.

Ford to Close Down for Month

DETROIT, July 30. (P)—Officials of the Ford Motor company announced today that the company will suspend manufacturing operations Aug. 1 and will not re-open during the month.

The announcement said that operations would be continued on the assembly line in Detroit and 11 of the 36 assembly branches through the country.

"A large bank of parts has been built up at all plants and outside parts producers have been notified not to make shipments after July 29 and during August," the announcement said.

JOBLESS—KILLS SELF

FORT WORTH, July 30. (P)—Failure to find employment was believed by Mrs. Morris Shafer to have forced her husband to kill himself at their home yesterday afternoon. The 48-year-old carpenter died en route to a hospital after his wife had found him, almost unconscious, on the bed in a rear room. Justice Faulkner returned a verdict of "death from poisoning, self-inflicted." He said a glass near his body contained traces of poison.

The Chinese gunboat Wuechen saved the American cargo steamer CHIU from Yangtze river pirates.

MOON of DELIGHT by Margaret Bell Houston

SYNOPSIS: The veal Juanita Basara wears as cigar girl in Divitt's gambling house suggests a mystery which Divitt and Molly, his wife, have not penetrated.

Chapter 14 A KISS IN THE DARK Carlota stretched out a foot to show Divitt a run in her stocking.

"I have no clothes, Spike." "But you won't need clothes—certainly not for this—if you can't remember my name." Divitt informed her.

Juanita dressed that night with hands that trembled slightly. Kirk had stayed past his time. Juanita felt that he expected to meet some one else, some member of her family, perhaps—desiring some more definite bond than the necklace.

Juanita tucked Mrs. Belaise's ring in a drawer. Tomorrow she would put it on a cord about her neck. It was beautiful, but it was its touch she loved, like the touch of a friend.

"You do not play yourself?" "Now she would learn why he stood so passively beside the roulette wheel. He shook his head. "Not roulette," he answered.

ORDINANCE NO. AN ORDINANCE PROHIBITING THE KEEPING, OR BEING CONFINED IN THE KEEPING, OF ANY HORSES, MULES, JACKASSES, COWS, OR HOGS IN THE CITY OF PAMPA, TEXAS, UPON OR WITHIN ANY PREMISES WHICH ARE WITHIN A DISTANCE OF THREE HUNDRED FEET FROM ANY PRIVATE RESIDENCE, HOTEL, APARTMENT OR OTHER BUILDING WHERE ANY PERSONS RESIDE; EXCEPTING THEREFROM THE KEEPING OF ONLY ONE HORSE OR COW; PROVIDING FOR THE SANITATION OF THE PREMISES WHERE HORSES, MULES, JACKASSES, COWS OR HOGS ARE KEPT WITHIN THE CITY LIMITS OF SAID CITY; PROVIDING A PENALTY AND DECLARING AN EMERGENCY.

SECTION 1: It shall hereafter be unlawful for any person, association of persons or corporation to keep, or be concerned in the keeping of any horses, mules, jackasses, cows or hogs within the corporate limits of the City of Pampa, Texas, upon any premises, or within any corral, barn, shed or other building which is located within a distance of three hundred (300) feet from any private residence, hotel, apartment, or other building where any person or persons reside.

SECTION 2: The provisions of SECTION 1 of this ordinance shall not be applicable to the keeping of only one horse or only one cow.

SECTION 3: It shall hereafter be the duty of every person, association or persons or corporation, keeping or being concerned in the keeping of any horses, mules, jackasses, cows or hogs, whether one or more, within the corporate limits of the City of Pampa, to observe the following regulations with reference to the sanitation of the premises, corrals, barns, sheds or other buildings upon and wherein such horses, mules, jackasses, cows or hogs are kept.

The manure which accumulates upon such premises and within such corrals, barns, sheds, or other buildings must be removed therefrom at least twice each day, and the said manure must be hauled to without the corporate limits of said City at least once each day.

SECTION 4: Any person, firm or corporation who shall violate or fail to observe any provision of this Ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of any sum not exceeding two hundred (\$200.00) Dollars for each day said violation shall continue.

SECTION 5: EMERGENCY. It appearing that the City of Pampa

is now without a proper ordinance governing the provisions herein contained, and it further appearing that the public health and welfare are being jeopardized by the lack of such an ordinance, the rules prescribing three separate readings of this ordinance are hereby suspended, and this ordinance shall become in full force and effect on and after its passage and publication as prescribed by law.

PASSED AND APPROVED this 28th day of July, 1931. D. W. OSBORNE, Mayor of the City of Pampa, Texas.

ATTEST: J. H. ELYTHE, City Secretary.

TO SEND REPRESENTATIVES AUSTIN, July 30. (AP)—Reports today indicated representatives of the governors of cotton producing states, rather than the chief executives themselves, would attack the problem of ratcheting the cotton overproduction ailment at a conference here Tuesday.

Ross S. Sterling, governor of Texas, the largest cotton producing state in the nation, yesterday wired invitations to fifteen other governors. Several of them stated today they would be unable to attend, but some said they would send representatives.

Baseball Club Is Sued for Damages

DALLAS, July 30. (AP)—John Randall filed suit in district court against the Dallas Baseball club asking \$12,875 in damages for injuries allegedly received at a game in Steer stadium May 15.

NO MORE HORSE-LAUGHS

REMEMBER what our school books taught us about the lives of inventors who lived many years ago? How often we used to read, "He went on with his experiments in spite of the laughter of his friends, and the ridicule of his neighbors."

How different is the modern state of mind! This age is remarkable for its keen awareness of progress... the eager willingness of most of us to accept new things, and better ways. The skeptical person is the exception—expectancy is the rule.

New things and better ways are announced regularly in this paper... in the advertisements. Every day you may be expecting something that will make your life easier, pleasanter, more healthful.

Hoover Institutes New Study of Unemployment; Many Agencies Busy

WASHINGTON, July 30. (AP)—The prolonged unemployment situation today drew the close attention of the government, labor and relief organizations as prospects for jobs for the army of idle workmen in the coming winter appeared more remote.

President Hoover has instituted a new study of the problem. It is designed to bring together the various activities of the numerous agencies dealing with the problem.

Chairman Payne of the Red Cross conferred with the chief executive at the White House yesterday on the situation. Later, he said he believed his visit was the beginning of a movement among relief organizations to co-ordinate their efforts.

While this conference was going on, a statement by President Green of the American Federation of Labor predicting a worse unemployment situation next winter than last was issued. A survey of 104 cities by the National Association of Community Chests showed, he said, that relief needs probably would be twice as great.

In this connection Payne conceded information on unemployment was not bright, but, he added, the states, counties and municipalities would have the responsibility of caring for the jobless.

Asserting there was no possible reason for the federal government to be called upon at present, the Red Cross official warned against the dole system as practiced in England and Germany.

All the federal government agencies, the states, counties and municipalities were working toward the same objective, Payne said. He added the new Hoover movement would more closely unite their activities. At the same time, he explained, the Red Cross, under its charter, could not participate in unemployment relief work, but had placed information on the subject before the president.

In his statement, Green predicted that 7,000,000 workmen would be without work next winter if the usual seasonal unemployment comes after the fall pickup. He estimated that 5,200,000 workers were idle in July, this figure being based on federation statistics.

Shorter work hours were advanced by Green as the "only permanent solution to the unemployment problem." Modern machines, he said, made it possible for a workman to do as much in 34 hours now that was accomplished in 52 hours in 1919.

Secretary of Labor Doak also said that a shorter work week was needed to prevent unemployment. He recalled that before he became a cabinet officer, he advocated fewer working hours and said nothing had happened to change his attitude.

David B. Robertson, chairman of a group representing organized railroad labor, expressed the view that a shorter working week, without decrease in pay, constituted a major means of diminishing unemployment. Several hundred thousand railroad men, he said, were out of work and would have to be fed this winter. The unions, he added, had borne the burden until their reserves had been exhausted.

Lloyd George Has Restful Sleep

LONDON, July 30. (AP)—An official statement made public today said that David Lloyd George "passed a restful night and his strength is well maintained. His condition so far continues to be satisfactory."

The liberal party chief and wartime prime minister was operated on yesterday for a kidney ailment.

Since the days when the nation watched anxiously for news from the bedside of King George, no sickroom has been the focus of so much interest and sympathy as Lloyd George's.

Every newspaper today featured detailed stories setting forth the circumstances of the operation, and the former prime minister's house in Addison Road, West London, was bombarded with inquiries and messages of sympathy.

GRAND SALINE, July 30. (AP)—The body of a man identified as Lonnie Clark, 30, of Dallas, was found near the Texas and Pacific railroad tracks five miles west of Grand Saline today. He had apparently been killed in a fall from a train. The body was identified by a poll tax receipt.

Flying Hero Now Has Humble Job

NEA San Francisco Bureau. Once cited for bravery by three nations and credited with shooting down 25 enemy planes in the world war, Wilbur C. (Whispering Bill) McKennie, above, today earns a humble living by cleaning revolvers for San Francisco police. The one-time member of the British Royal Flying Corps became stranded and police put him to work.

SEES GERMAN RECOVERY LONDON, July 30. (AP)—Prime Minister MacDonald was back home today from Berlin, confident that Germany will ultimately overcome her financial troubles. "Other nations," he said, "must help by means of international banks and the Bank for International Settlements."

YOUTH STILL UNCONSCIOUS GRAND SALINE, July 30. (AP)—Lawrence Gray, of Blue Ridge, Texas, who was found in his jail cell here yesterday with a bullet wound in his forehead, had not regained consciousness today. A small caliber pistol was found in his cell. He gave his name as "T. L. Loyal" when arrested on a forgery charge.

STATE OF TEXAS, COUNTY OF GRAY. Notice is hereby given that by virtue of an Order of Sale issued out of the Honorable 114th, District Court of Gray County, Texas, by the clerk of said court on the 13th day of July, A. D., 1931, in the case of W. J. Foster, et al, plaintiff, versus George R. Clark, et al defendants, No. 2738 on the docket of said court on a judgment rendered in said court on April 28th, 1931, in favor of the said W. J. Foster et al, and against the above named defendants, for the sum of \$452.09, on the following described real estate, situated in Gray County, Texas, to-wit: All of lot No. Nine (9) in Block No. Two (2) of the Alexander addition to the city of Pampa, in Gray County, Texas, according to the recorder map or plat of said addition in the Deed records of Gray County, Texas, reference to which is hereby made for all purposes and levied upon as the property of George R. Clark and that on the first Tuesday in August, A. D., 1931, the same being the 4th day of said month, at the court house door of Gray County, Texas, in the town of Pampa, Texas, between the hours of 10 o'clock A. M. and 4 o'clock P. M., I will offer for sale and sell at public auction for cash to the highest bidder all the right, title and interest of the said George R. Clark in and to the above described real estate. Witness my hand this 13th day of July, A. D., 1931. LON L. BLANSCET, Sheriff Gray County, Texas. By WALTER D. HARDIN, Deputy. 16-23-30

Temporary Relief From Heat Enjoyed in Many Sections

By The Associated Press. The entire country, save for two sweltering sections, enjoyed at least temporary relief from soaring temperatures today.

One of those areas, comprised of Indiana, western Ohio and north Kentucky, continued to swelter under the intense heat. The other, a larger one, was made up of Nebraska, Kansas, Missouri, Oklahoma, Arkansas, and Texas. Not only were inhabitants suffering in these sections, but the corn crops were being scorched, and an alarming danger of drought was reported.

While the east and northeast enjoyed a temporary break in the high temperatures, there were predictions that the high humidity would remain and that the equally torturing heat would return for another stand.

In Washington, D. C., a number of the census bureau employees were treated for heat sickness. Deaths attributable to the heat in Pennsylvania, Kentucky, Maryland, New York, and surrounding states were set at 20.

Mrs. R. M. Johnson and infant with wheat at about 25 cents a bushel. Many of them with their granaries bursting are "storing" thousands of bushels on the ground, as shown below, to wait for better prices.

'GOLDEN GRAIN' NO LONGER GLITTERS

Bounteous harvests like this bring little joy to the Kansas and Oklahoma wheat farmer these days. Many of them with their granaries bursting are "storing" thousands of bushels on the ground, as shown below, to wait for better prices.

Bank of England Hikes Discount Rate

LONDON, July 30. (AP)—The bank rate was raised today from three and one-half to four and one-half per cent.

The Bank of England decided on the increase in order to prevent withdrawal of foreign balances in the shape of gold and to strengthen exchanges on London.

The rate had been raised last week from 2 1-2 to 3 1-2 per cent. This had a steady effect on foreign exchanges and caused the cancellation of some gold engagements. During the last few days, however, French exchange on London has been hovering around the gold point while Anglo-French negotiations were proceeding with regard to some form of credit, and the authorities apparently thought it better to remove uncertainty by raising the rate to make the utilization of funds here more profitable as well as to try effectually to check gold withdrawals, which since last Thursday totalled \$75,000,000.

DRILLING PERMITS ISSUED KILGORE, July 30. (AP)—Twelve drilling permits for test wells in the East Texas field were granted today. Eight of the wells were to be drilled in Gregg county, and four in Rusk. A total of 47 permits have been granted this week.

John Pittman, 14-year-old son of Mr. and Mrs. J. E. Pittman, was admitted to Pampa hospital this morning for an appendicitis operation.
