### SURGEONS IN SAN ANTONIO ARE VICTIMS

Ships Crash and Fall While About 300 Feet High—Instruction in Piloting Ends Abruptly.

### ALL AT BROOKS

Student Is Endicott Longacre, Son of Captain in Quartermaster Corps—Many Witness Tragedy.

SAN ANTONIO, July 16. (AP)—Three officers and one flying cadet were instantly killed, four miles south of Brooks field this morning when the two planes in which they were flying collided in the air.

All four were on duty at Brooks field. They were Major Charles V. Hart, flight surgeon and pilot; Captain Carlos J. Chamberlain of New York City; Second Lieutenant K. Austin Rogers, flying instructor; and Cadet Endicott Longacre.

The two planes, piloted by Major Hart and Lieutenant Rogers, were flying at an altitude of 300 or 400 feet when they crashed in midair and plunged to the ground. The accident was seen from the air by other pilots in the vicinity, who landed nearby and summoned an ambulance from Brooks field.

Major Hart was one of the few flight surgeons in the air corps that holds a pilot's rating and was one of the pioneers in flight surgeon work.

Captain Chamberlain, who was flying with Major Hart training to become a flight surgeon, was taking the flight surgeon course at the school of aviation medicine at Brooks field. His home is in New York City and he was a member of the New York National Guard.

Lieutenant Rogers was a flying instructor at the primary flying school and was giving a lesson to Cadet Longacre at the time of the crash. Cadet Longacre was taking the basic course. He was the son of Captain Longacre of the quartermaster corps and was on duty at Duncan field here.

### Man Recovers Memory for Brief Time in Marshall

MARSHALL, July 16. (AP)—For the first time in four years Thomas Scott Goolsby, who lost memory after a crash, was able today to recognize his parents and wife and mumble a greeting.

MARSHALL, July 16. (AP)—Thomas Scott Goolsby, salesman, injured in an automobile accident near here Tuesday, remained in a critical condition today.

His parents, Dr. and Mrs. R. C. Goolsby, and his wife arrived this morning from their home in Forsyth, Ga.

Goolsby refused to talk about a report that the shock suffered in the accident had restored his memory after a lapse of four years. He had been unable to recall events prior to injuries received in an attack by a robber in Dallas.

### Waynoka Man Is Killed in Accident

ALVA, Okla., July 16. (AP)—Paul W. Schiebel of Waynoka was killed last night when the automobile in which he was driving turned over a mile and a half north of Hope, Okla.

A passing motorist picked up Schiebel but he died before reaching a hospital. He formerly was a fireman for the Santa Fe railroad.

## Slain Victim Not Pampan

### Marietta, Okla. Murder Victim Proved Not to Have Been "Spec" Tallant

Almost positive proof that the body of a young man found in a ditch near Marietta, Okla., July 3, was not that of Henry Tallant of Pampa, was obtained today by Sheriff Lon L. Blansett in a telephone conversation with the sheriff of Love county.

According to the Oklahoma officer, the slain man had dark, wavy hair, whereas "Spec" Tallant had sandy-red hair and light skin. The Pampan's face was freckled, also. The victim of the mysterious shooting was about five feet nine and one-half inches tall. Tallant was six feet tall.

The slain man's body was badly decomposed when found July 5 in a ditch flanking an unused road, and the coroner ordered it interred immediately.

A. L. Tallant of McKinney, Texas, father of "Spec," told officers at McKinney yesterday that from the description given him the slain man was not his son. However, he reported that both Tallant and his wife had been missing for a month. They were last reported en route to Wichita, Kans.

Further proof that Tallant was not the victim of the shooting was given Sheriff Blansett today by William Alexander of Pampa, who showed a postal card he received from Tallant, July 14. It was mailed at Perryton, July 13.

The Love county sheriff said that a car, possibly a maroon-colored Ford, bearing a Texas license, was seen entering the road July 3. It had three passengers, witnesses told the officer. Tallant was driving a Chevrolet.

## Many Parts of State Drenched

By The Associated Press. Farmers in practically every section of Texas were rejoicing today as general rains, which thoroughly drenched the state Tuesday and Wednesday, continued to relieve a drought that has threatened crops for the past several weeks.

Over an inch of rain was reported at Austin, Brenham, Denton, Vernon, Gainesville, and Temple in the 24-hour period ending at 8 a. m. today.

Hard rains fell at Abilene, Dallas, Houston, Ballinger, Corsicana, Dilley, Otero, Eastland, Henrietta, Huntville, Lampasas, Long Lake, Mexico, San Angelo, Snyder, Taylor, and Weatherford.

Light showers aided crops at many other points in widespread sections of the state.

Weather bureau observers indicated that additional precipitation could be expected at many points tonight and Friday.

## Abilene Milk War Carries Prices to Lowest Marks in City's History

ABILENE, July 16. (AP)—Milk prices at Abilene creameries were lowest today in the city's history, following a drastic cut initiated Wednesday by one of three companies operating here. The cut was met by another company within a few hours, and this morning a third creamery posted an even lower schedule.

The new all-time low schedule carried milk to seven cents wholesale and nine cents retail per quart, delivered in bottles; and bulk milk to 25 cents per gallon. Former prices, prior to the cut, were 11 cents wholesale and 13 cents retail, per quart; and bulk milk 40 cents wholesale and 50 cents retail, per gallon.

One company then posted an all-time low on ice cream, at 75 cents per gallon on plain and 90 cents on fruit cream. Former prices were \$1 and \$1.15, respectively.

Thus far the creameries have not reduced the price of 65 cents per pound butterfat paid to milk producers on the farms. The "milk war" was said to be confined to Abilene.

## Farmers Arranging to Hold Their Wheat—Row Crops Show Increase

Believing that the price of wheat cannot drop much lower than it is now, practically all the farmers who are financially able have made up their minds to hold their wheat, interviews with many growers yesterday and today revealed.

This morning local dealers were paying 25 cents per bushel. Reports on the streets yesterday afternoon that the local market dropped to 22 cents were unfounded. Throughout yesterday, dealers paid 24 cents.

Many growers are not able to hold their grain, due to the demands of expenses and debts. However, it is believed that farmers in the Pampa territory are in a much better financial position to hold the grain than farmers in other sections of the state.

Howling is under way in almost every field that has been harvested indicating that the acreage next year will not be greatly decreased. That farmers are not relying upon wheat alone to make them a living this year is suggested by the fact that the Pampa territory has the largest row-crop acreage this summer in its history. Row crops are in excellent condition due to recent rains.

## Sweetwater Boy Breaks Neck In Dive Into Creek

SWEETWATER, July 16. (AP)—Diving into a creek from a high railroad trestle, Cass Shields, 18-year-old Sweetwater high school boy, struck his head on a rock and broke his neck, but still lived.

The injured caused paralysis of his body.

Physicians at the Sweetwater hospital, where he is being treated, had little hope he would recover. Three friends rescued him from the creek.

## Edwards Holds Fate of Pampa's Baseball Entry

Pampa's chance to win the annual baseball tournament at Amarillo depends largely upon the performance of "Sug" Edwards, star hurler of the All-Stars (Magnolias), in the game with Texola-Willow this afternoon. The border outfit is rated as the leading contender for first money.

Local fans are hoping that Pampa baseball luck will be with the All-Stars. The Pampa team was not a bit discouraged or angry last night when they read opinions of Amarillo dopsters who gave the All-Stars a chance to win. They remember reading similar predictions about Pampa teams last year and the year before when local clubs won the tournaments.

However, the All-Star pitching staff is not up to the usual par. The veteran who pitched Pampa teams to victory during the last two years, Lefty Graham, will face the All-Stars this afternoon. Honest dopsters don't dispute the fact that the All-Stars are the best hitters in the tournament. The club's teamwork is so good it seldom produces an error. If Edwards takes the mound, All-Stars believe he will work the trick. The other All-Star pitchers are not so hard to hit.

## County Exhibit Is Being Prepared

Products for a Gray county exhibit at the Tri-State fair in Amarillo this fall are being assembled by the chamber of commerce, county agent Ralph R. Thomas, and Miss Myrtle Miller, home demonstration agent.

This week, Mr. Thomas collected a bundle of extra good wheat for the Gray county booth, and it is now being prepared by the chamber of commerce for exhibition.

It is planned to exhibit representative products in the booth. Chamber of commerce agent and Miss Miller will assist in collecting the exhibits.

## Legion to Sponsor Sadler's Company

Harley Sadler's show will give nightly performances here during the week, beginning Aug. 3, under the auspices of the American Legion. Dan W. Thurman, adjutant of the Kerley-Crossman post, announced today.

The big tent will be located on East Foster, south and east of the Methodist church. The Sadler company has presented popular dramas once or twice yearly for a number of years.

"Farming for profit in 1931," is the slogan adopted by Alabama Polytechnic Institute for the state's farm program.

## Oil Probe Passes

### HOUSE VOTES FIRST MOVE OF SESSION

Plan Would Give Attorney General Two Investigators for Year; Satterwhite Is Among Opponents.

### HELD TOO SLOW

Sterling Makes Known Strong Disapproval of Price Fixing Limiting Production to Demands.

AUSTIN, July 16. (AP)—The house of representatives of the Texas legislature today adopted a resolution by Rep. J. B. Ford of McGregor directing the attorney general to start an immediate investigation of all branches of the oil industry to determine if the anti-trust laws and laws against restraint of trade and monopoly were being violated.

Vote on the resolution was 76 to 43 and came after extended debate on whether it was legal to appropriate the contingent expense funds of the legislature by simple resolution to be used by a state department in carrying on an investigation.

The attorney general was authorized to employ two special assistants at a salary of \$350 per month for 12 months to carry on the investigation.

A move to forestall action on the resolution by having it referred to the committee of appropriations so that an appropriation bill definitely fixing the amount could be passed out was defeated 60 to 55. The motion was made by Representative Satterwhite of Odessa, author of the resolution, defeated yesterday which would have authorized the house oil committee and the senate state affairs committee to conduct the investigation.

All expenses of the investigation will be paid out of the contingent expense fund of the legislature.

Opponents of the resolution claimed the information would be useless in the present emergency and would not be available for the legislature in acting on bills aimed at strengthening the conservation laws.

Representative Jack Keller of Dallas said he believed the investigation would produce no results but that he was of the opinion the price of gasoline and crude oil was set by the major oil companies by common consent.

Would Break Trust. "The oil industry is in a bad fix," Representative Harry Graves of Georgetown, said in supporting the resolution. "We ought first to help the oil industry and then do our best to break up any trusts or monopolies."

Graves engaged Rep. E. H. Lasseter of Henderson, anti-administrationist, in a verbal tilt as the result of Lasseter's statement the resolution would "put the state in the same condition as the oil industry, bankrupt."

Ford's resolution was predicated on the opinion of many members of the legislature that the anti-trust laws were being violated by the major oil companies by establishment of monopolies and trusts and illegal agreements in restraint of trade.

"What we want is this information now," Representative Dewey Young of Wellington stated. "It won't do any good in 12 months."

Keller expressed the belief that the resolution was sponsored by members who voted against the Satterwhite resolution.

## Along Shriners' Line of March

Cleveland, transformed into a carnival city, turned out to see the colorful pageantry of more than 10,000 Shriners from all over North America as they made merry at their 57th annual convention. Ohio potentates, riding majestically on elephants, as shown in the upper photo, led one of the parades. At the right is lovely Lucille Smith, 17, of Cleveland, crowned "Queen of the Shriners." An humorous feature of the parade was provided by members of the Syrian temple, Cincinnati.

## GERMANY QUIETER AS BANKS OPEN TO PERMIT PAY-OFFS

Diplomats of Many Nations to Meet Daily in Effort to Reach Stability.

By The Associated Press. Developments in the situation arising from Germany's financial crisis are succeeding one another with a rapidity unusual in international diplomacy.

Representatives of the principal world war allies, including Secretary of State Stimson met at Paris and invited Chancellor Brüning to come there as soon as he can.

Prime Minister MacDonald of England cancelled a visit to Berlin which he was to have made tomorrow and will remain in London for a meeting there on Monday of representatives of the principal world powers.

This meeting may supersede that of the Young plan experts who were to have gathered to dovetail that plan with the Hoover moratorium.

No Disorders. At Berlin the banks which were closed two days ago by government decree reopened to meet the mid-morning payroll. There were no disorders. The cabinet remained in session considering Chancellor Brüning's trip to Paris and London.

WASHINGTON, July 16. (AP)—President Hoover today instructed Secretary Stimson to proceed to London and represent the United States at the meeting of heads of governments Monday.

The decision was communicated today to Secretary Stimson by (See GERMANY, Page 6)

## Firemen's Ball Is to Be Tonight in Schneider Hotel

Fire Chief Clyde Gold announced this morning that the annual firemen's ball will be held at the Schneider hotel tonight instead of at the Majestic ball-room. It was announced several weeks ago that the dance would be held at the Majestic and this announcement was printed on the tickets. The change was made a week ago.

The dance will begin at 9 o'clock. Funds derived will be used to send members of the fire department to the Panhandle Firemen's association at Electra. Stafford's Rhythm Kings, an eight-piece negro orchestra from Wichita Falls which has been drawing crowds nightly at the Old Mill on West Foster, will furnish the music. Mr. Gold said the orchestra includes the best negro musicians in North Texas. Sixty-five blankets will be given away at the dance.

A group of young ladies will act as hostesses.

## Night Watchman Will Be Selected

A committee of three men, including C. S. Boston, Elbert F. Thomas and Carson Loftus, was appointed this morning by business men to arrange for the hiring of a new night watchman. The men will make their report in the next two or three days.

Chief of Police J. I. Downs recommended the appointment of R. H. Mumford for the position. He would replace Clarence Barksdale, who has left the city. Mr. Mumford would work under Mr. Downs's supervision.

ADDINGTON IS HURT. DALLAS, July 16. (AP)—Glenn O. Addington, former director of radio station KRLD at Dallas, was seriously injured last night when he slipped and fell from a cliff while on a picnic near his home at Ponca City, Okla. Severe back injuries caused partial paralysis. For the past six months he has been connected with a Ponca City advertising agency.

## BUDAPEST IS ATTAINED BY DARING PAIR

"Justice to Hungary" Brought Down Late Today; Nation Cheers Initial Glory in Aviation.

## ARE OFTEN SEEN

Great Circle Course of Ship Is Estimated to Be 3,239 Miles; No Record Broken for Distance.

BUDAPEST, Hungary, July 16. (AP)—Captain Alexander Magyar and Captain George Endres brought the trans-Atlantic monoplane "Justice to Hungary" down to a forced landing 20 miles outside of Budapest tonight.

They came down as the last drop of gasoline was exhausted. Neither was hurt although the plane was damaged. The fliers crawled out at the end of their spectacular 3,200-mile flight grinning broadly.

BUDAPEST, Hungary, July 16. (AP)—Captain George Endres and Captain Alexander Magyar started their trans-Atlantic flight from Detroit, Mich., to Budapest they dedicated the adventure to Hungary's still active antipathy to the treaty of peace signed 10 years ago at Trianon, after the world war.

By that treaty Hungary's population was reduced to 7,500,000. Flume was ceded to the principal allies and erected into a free city which later was annexed by Italy.

The three Magyar towns of Szatmar, Oradea-Mare and Arad, and the surrounding Magyar zone were given to Rumania.

Hungary was allowed an army of 35,000.

The nation still smarted under what it considers to be the unfair division of Hungarian territory effected by the treaty.

BUDAPEST, Hungary, July 16. (AP) The Hungarian fliers, Capt. Alexander Magyar and Capt. George Endres, bringing "Justice to Hungary" across the trans-Atlantic Atlantic, were awaited hopefully today by thousands of their countrymen.

Special trains were transporting hundreds to Matyasod airfield, where the airmen were expected this afternoon. Aviation experts were inclined to believe, however, that the flight would not be non-stop on account of the distance overland from the Atlantic.

Hopes ran high on the basis of reassuring weather reports from the meteorological station telling of good conditions all over the North Atlantic. But reports of poor visibility and low-hanging clouds over Ireland gave rise to fears that the airmen might lose their way. Radio amateurs were tuned in on a 600 meter wave-length to pick up their signals.

By noon 100,000 enthusiastic Hungarians had gathered at the airport and every hour loaded trains rolled in.

## Ocean Trippers to Be Given Welcome

NEW YORK, July 16. (AP)—New York City, aided by a detachment of citizens from Liberty, N. Y., today made preparations for another welcome to air conquerors of the Atlantic.

Holger Horlitz, pilot, and Otto Hillig, passenger-photographer, of the plane Liberty, which crossed its way to Germany and Copenhagen, arrive on the Mauretania tonight.

They will be met by New York officials, a group of Liberty rosters and by representatives of several Danish and German societies. Tomorrow they receive a welcome from Mayor Walker, after a ride up Broadway from the Battery. Several receptions will follow, and on Tuesday they fly to Liberty to receive a home-town welcome.

## THE WEATHER

WEST TEXAS: Partly cloudy tonight and Friday; probably showers in extreme east and extreme north portions.

OKLAHOMA: Partly cloudy tonight; Friday settled, probably showers east portion.

BRIGHTON, Eng. (AP)—James Saltwell has been joshed quite a bit. He walked under a cliff along the beach and an eight-pound rock fell 100 feet, hit him on the head and bounced off. Doctors said something about a thick skull and sent him home.

### DISCOURAGING LEGITIMATE BUSINESS

Agitation for state betterment often is carried to ludicrous contradictions. Throughout the state there is a clamor for more industries. Every community, from hamlet to metropolis, is thinking of progress in terms of dinner pails. Chambers of commerce are condemned if they do not bring smokestacks.

At the same time, there is a continual outcry against "big business," which most factories represent. There is a demand for higher taxes against corporations. The legislature is implored to investigate this and regulate that. The word is out over the nation that Texas is unfriendly to factories, and that reputation hurts chances to obtain new payrolls.

Ray Leeman of the East Texas Chamber is making a tour seeking to enlighten people of his district against taking an antagonistic attitude toward big concerns merely by reason of their size. Marketing of many manufactured articles in distant cities requires an extensive organization. There is no crime in bigness.

Texas has big business which needs regulating. It needs more big business which needs little watching. Texas must not give the impression of being antagonistic to factories. The industrial development of this state would provide a much needed market for raw products.

Wheat is so cheap that the farmer can eat it three times a day, using it in half a dozen different menus, but that same lowness of price ruins his appetite for food of any kind.

With wonderful bargains being offered by Pampa merchants, it is sheer waste not to read and shop by the advertisements in The NEWS and The POST.

## Strange Drowning Is Under Probe

HOUSTON, July 16. (AP)—City and county officers and a justice of the peace were conducting an investigation today into the mysterious drowning of C. G. Jeffrey, 48, a night watchman for the Fort City Compression company, whose erect body was found in the company's reservoir.

A cursory examination of the body failed to disclose any marks of violence. He was fully clothed and a small amount of grass, similar to that which is on the edge of the reservoir, was found in his hands. This led officers to believe the watchman might have lost his footing and fell.

## Le Brix and Doret Will Try Again

MOSCOW, July 16. (AP)—Joseph Le Brix and Marcel Doret, French aviators, left Nijni Udinsk, Siberia, by train for Moscow today on their way back to Paris to have another try at a non-stop flight to Tokyo. They were accompanied by their mechanic, Rene Mesnin.

Civil aviation authorities here are arranging to speed them on their way with whatever parts of their plane they were able to salvage. They crashed in Central Siberia several days ago after they had covered about two-thirds of their journey.

## Chocolate Defeats Benny Bass For Lightweight Title

PHILADELPHIA, July 16. (AP)—"Keed" Chocolate, the polished ebony warrior from Cuba, stood today on a modest pedestal, a champion everywhere but in New York state, king of the junior lightweights.

The slender grinning Havana newsboy scored a technical knockout over Benny Bass, of Philadelphia, before 15,000 of the home folks last night to rise to the championship heights that had been forecast for him every since he arrived in New York from Cuba three years ago. It isn't much of a championship, a synthetic title at best, but it eased in part much of the disappointment that had been the patient leather "Keed's" in shooting for the greater crowns of listiana in his short but brilliant career.

## Bombs Disguised as Fountain Pens

GENOVA, Italy, July 16. (AP)—Numerous persons have been arrested and examined by the police in an effort to find the one who sent through the mail to Fascist leaders forty small bombs disguised as fountain pens.

Two of the "pens" exploded, wounding the recipients, minor Fascist officials, on the hands and face. The bombs, police learned, were sent through the local mail, most of them addressed to local Fascist headquarters in the Cordoni palace.

Police also are questioning the arrested persons regarding a bomb explosion on the dock here in which none was injured. Similar explosions have occurred in Turin, Bologna, Rome, and Genoa.

## New Mexico Is Seeking to Prevent Fall's Sentence

WASHINGTON, July 16. (AP)—A joint telegram from the two New Mexico senators and both houses of the legislature of that state, asking executive clemency for Albert B. Fall, was received today at the White House and sent immediately to the department of justice.

The former secretary of the interior is awaiting commitment to the New Mexico penitentiary to serve a sentence of a year and a day for accepting a bribe in connection with a naval oil reserve lease. The president will take no action on the clemency petition until after the department of justice has studied it and made recommendations.

## Firm But Good

WASHINGTON, July 16. (AP)—A firm but good humored control is being maintained by the interstate commerce commission despite torrid weather at the hearing on the railroad's plea for a fifteen per cent increase in freight rates.

At the hearing, which began yesterday, 500 railroad representatives crowded into a small room to hear the opening argument of Edward C. Duffield, president of the Prudential Life Insurance company, that investments of thousands of insurance policy holders and savings bank depositors were endangered by declining railroad revenues.

With the heat outside intense, it became hotter in the small room as the carrier officials and lawyers leaned against each other in uncomfortable postures. But on the

## No Politics Seen In American Help For Germany

WASHINGTON, July 16. (AP)—The American government has adopted a policy that precludes political considerations in connection with the German economy situation.

Although the federal reserve system probably will extend credits to Germany along with other important banking interests, Acting Secretary Castle of the state department, today made clear the United States would not become involved in any political situation relating to that country.

The financial assistance that might be rendered by the federal reserve system, he added, would be along the lines of that of the bank

### Airplane Engine for Navy Will Be Secretly Developed

WASHINGTON, July 16. (AP)—The navy has launched a program calculated to make it second to none in speed in the air.

A secret contract calling for development of an airplane engine of greater power, speed, and efficiency than ever produced in this country has been assigned to a civilian designer described as one of the best in the business.

The job of turning out an engine to compare favorably with those of the English and Italians who have been winning seaplane speed honors in recent years, is expected to occupy the designer a year or more. His identity has been carefully guarded.

To continue the program, the navy expects to ask the next congress for a considerable larger sum than the \$220,000 appropriated for high speed plane development at the last session.

Nearly \$3,000,000 and two to three years of development will be required, said David S. Ingalls, assistant secretary for air.

By 1933 the navy hopes to be able to re-enter the International Schneider cup seaplane races in which it has not competed since 1927. This year's race will be held in September in England with the British and Italians renewing their rivalry.

Although Secretary Ingalls believes America now is on an equality with other nations in the speed of its fighting planes, he keenly appreciates the importance of maintaining this position.

"A racing plane itself is of no use commercially," he said, "or from military or private points of view except for racing, but it may be truly stated that the racing plane of today is the ordinary plane of tomorrow."

### Federal Building Hit by Lightning

WASHINGTON, July 16. (AP)—Lightning scarred trees and buildings, a burned awning on the capitol and a shattered hickory in the White House grounds remained today as handwork of an electrical thunderstorm that broke late yesterday over Washington.

Capital building police reported lightning had fired the awnings outside the office of Chairman McFadden of the house banking committee near the middle of the west side of the structure. Witnesses, however, insisted the Goddess of Freedom on the dome was struck, but no damage was reported.

William Tyler Page, house clerk who was telephoning at the time, was shocked slightly.

A hickory tree 150 yards from the White House, in the northeast corner of the grounds, was destroyed.

Lightning struck one wing of the census bureau, starting an attic fire that was extinguished quickly.

### City Loses Suit to Escape Payment

SAN ANTONIO, July 16. (AP)—The Fourth Court of Civil Appeals held yesterday that a city commissioner, acting as an agent for a corporation, may be party to a sale to a city provided there is no evidence of fraud in the transaction.

The court affirmed a district court judgment of \$3,806.70 given J. Ellis against the city of Edinburg.

Ellis was holder of city warrants given in payment for gasoline and oil purchased by the city. It was shown that City Commissioner M. R. Dyer was an agent of the oil company from which the city purchased the merchandise. Fraud was alleged and the city refused to pay the warrants.

### Election Contest Is Being Held Now

SAN MARCOS, July 16. (AP)—hearing of the contest brought by former mayor J. R. Wilhelm against C. R. Ramsey, declared winner in the last mayoralty election, continued in district court here today.

During yesterday's session about 35 witnesses were called. Most of them were Mexicans who testified they were born in Mexico, had not taken out naturalization papers, but had voted in the city election.

STATE OF TEXAS, COUNTY OF GRAY.

Notice is hereby given that by virtue of an Order of Sale issued out of the Honorable 114th District Court of Gray County, Texas, by the clerk of said court on the 12th day of July, A. D. 1931, in the case of W. J. Foster, et al, plaintiff, versus George R. Clark et al, defendants, No. 2738 on the docket of said court, a judgment rendered in said court on April 28th, 1931, in favor of the said W. J. Foster et al, and against the above named defendants, for the sum of \$422.00, on the following described real estate, situated in Gray County, Texas, to-wit:

All of lot No. Nine (9) in Block No. Two (2) of the Alexander addition to the city of Pampa, in Gray County, Texas, according to the recorder map or plat of said addition in the deed records of Gray County, Texas, reference to which is hereby made for all purposes and levied upon as the property of George R. Clark and that on the first Tuesday in August, A. D. 1931, the same being the 4th day of said month, at the court house door of Gray County, Texas, in the town of Pampa, Texas, between the hours of 10 o'clock A. M. and 4 o'clock P. M., I will offer for sale and sell at public auction for cash to the highest bidder all the right, title and interest of the said George R. Clark and to the above described real estate.

Witness my hand this 13th day of July, A. D. 1931.

LON L. BLANSCET, Sheriff Gray County, Texas.

## MOON OF DELIGHT

by Margaret Bell Houston

SYNOPSIS: It is no surprise to Umberto to find jewels in the chests which the dwarf, Gabreau, had helped him to take from the boat Dolores in New Orleans harbor. For what, if not that, had they risked detection by customs men? What terrifies him is the discovery that the jewel in the larger chest adorns the still form of a lovely girl. Scarcely a day is about to close the chest and give it to the unsuspecting Gabreau, his underpaid confederate. But the girl revives and meets Umberto's Italian jabbering with a stormy gaze. He summons Gabreau and his mother, Conchita, from their room near his in the gambling establishment run by Jason Divitt and his wife, Molly. Their Spanish and French prove futile.

CHAPTER 2  
OUTSIDE THE LAW  
"I speak English," said the girl, as the others in the room started in surprise.

There was in her voice only a trace of an accent, no more than a

slight mis-coloring of the vowels, a soft neglect of the s's. "Also I speak Spanish, but not—" Again the slight lift of the shoulder. She scarcely knew how to characterize Conchita's jargon. "I speak Castilian," she explained.

"Do you understand us all along," remarked Divitt, aware that he had said nothing to compromise himself. He touched the chest with his foot. "What were you doing in this?"

"Hiding," she said simply, and added, "Who are you?" "Chief of the customs office," replied Divitt coolly. At which her cloak of temerity fell. Her eyes moved over the group as if seeking a friend, rested an instant on Gabreau.

"You have nothing to fear," Divitt assured her, "if you will give direct answers to my questions. What is your name and why did you leave the Argentine as a stowaway?" Her eyes fell. They had read in Gabreau's a warning.

"My name is Juanita Basara," she replied. "I had a ticket but it was lost with my purse and all my money." "You have people in New Orleans?" asked Divitt.

"No, I did not know where the boat was—" She stopped. Divitt supplied: "You did not know for what port the Dolores was bound?" "Yes. For Vera Cruz. I have friends in Vera Cruz."

"But you failed to get off there," he changed my mind. I had made friends with one of the sailors, Benito Garcia. He said if I would come to New Orleans he would take me to his sister. He brought me food and water on the boat—after I lost my purse. He went ashore when the Dolores docked.

Gabreau spoke. "Benito Garcia was drunk in Tony's place this evening."

"That was why he did not return," the girl exclaimed. "And I had paid him with my emerald ring." Her dark glance returned to Divitt. "I was waiting for him when this man—" indicating Umberto—"entered where the chests were stored. I thought he was a

this place, who has entered without a pass and the proper introduction. "We are all outside the law here, along with yourself. Therefore we are your friends. We will not ask further about you. You will protect us, and we will protect you. Do you understand?"

The girl's eyes moved among them, cautious, yet less startled. Resting on Gabreau, they lingered. She dropped her face in her hands.

"Conchita," said Divitt, "take Senorita Basara to the room above the fountain. Give her some food." Conchita jangled the great iron keys hanging from her waist. The girl rose.

"Just a moment, Senorita," Divitt's voice again. "May I see the bracelet you have on?"

With an almost listless movement she held out her arm. He waited for her to remove the bracelet. She understood, slipped it over her hand. The inside surface was engraved, as he had known it would be. One word, "Juanita." In that, at least, she had not deceived him.

"Here, Senorita," said Divitt. She had turned away, following Conchita. "I have never seen finer emeralds. But I can admire them on your wrist. We do not rob each other here."

"There are bolts on your door, however," he added. "If you care to use them. Big Spanish bolts." (Copyright, Dodd, Mead & Co.)

Escape? There was none for Molly until she married Divitt. So, tomorrow, the pleading Juanita learns.

### Farm Relief Is Termed Too Late

ENID, Okla., July 16. (AP)—A meeting called here last night to discuss plans for a 30-day "moratorium" on debts owed by wheat growers of Northwestern Oklahoma failed to bring any encouragement to the farmers in the form of definite action.

Speakers agreed that the wheat growers' plight was serious, but pointed out that the situation in Northwestern Oklahoma was no worse than in other sections.

The meeting was called to urge bankers and machinery dealers to postpone for at least 30 days debts owed by wheat farmers of Okla-

homa's grain belt. The consensus was that it is now to near the end of the harvesting season to map out any plan that would greatly benefit the wheat growers.

M. E. Winters, head of the agronomy department of Oklahoma A. and M. college, told the farmers that they were "trying to remedy in 30 days a situation that has been piling up for 30 years."

Dan Hogan, of the City National bank of Oklahoma City, asserted it was "nothing short of a crime for the Federal Farm Board to put its wheat on the market." He predicted the farm board was "about thru" and that it "wouldn't function much longer."

# VETERAN MARMANVILLE IS CAUGHT IN HIDDEN BALL PLAY

## BRAVES ARE BEATEN OUT IN 10 SCORE

### Robins Square Count With Cardinals As O'Doul Gets Four Hits.

By GAYLE TALBOT JR., Associated Press Sports Writer. You would think, offhand, that such a seasoned campaigner as the 38-year-old Walter "Rabbit" Marmannville of the Boston Braves had long since learned not to fall for anything as venerable as the hidden ball trick.

But it was none other than the sprightly Rabbit who was trapped by this oldest of baseball legends—mainly yesterday as the Cincinnati Reds won a brilliant 1 to 0 pitching duel from the Braves. But for Marmannville's lapse, there might have been a different result.

Coming up in the ninth after John Ogden had held the Braves to four hits and no runs for eight innings, the Rabbit singled, went to second on a wild pitch and was in position to score the tying run. Then he forgot himself, wandered off the bag and was tagged out with ease and dispatch by Joe Stripp, Cincinnati third baseman.

The trick poutout supplied a fine climax to a duel between the veteran Ogden and Lefty Brandt. The Reds made only four hits off the Boston ace, but scored the winning run in the seventh when Heathcote tripped and crossed the plate on Nick Cullop's fly to Worthington.

The Brooklyn Robins came back to square accounts with the St. Louis Cardinals, 10 to 3, when Watson Clark chalked up his seventh straight victory. Lefty O'Doul three card pitchers for two doubles and five singles and drove in four runs.

Kiki Cuyler's timely single in the ninth, scoring Jakey May who had doubled, gave the Chicago Cubs their second straight over the New York Giants, 5 to 4, and put the Hornsbymen within half a game of second place in the National league.

### Third Straight Win

Larry French allowed only six hits as the Pittsburgh Pirates scored their third straight win over the Phillies, 4 to 2.

Hank McDonald, star rookie from the West coast, and Waite Hoyt, the veteran righthander recently yepicked up by Connie Mack for the proverbial song, turned in a pair of masterpieces as the Athletics tripped the Detroit Tigers twice, 5 to 3 and 11 to 0.

Sammy Byrd's pinch single in the eighth, scoring two runners, climaxed a four-run rally that brought the New York Yankees from behind to beat the Cleveland Indians, 5 to 4.

The Boston Red Sox divided a double-header with the St. Louis Browns, winning the first, 5 to 4, in eleven innings and losing the second, 5 to 2. Rain stopped the White Sox and Senators at Washington.

## BEAUMONT IN GAIN WHILE BUFFS REST

### Houston Idle on Account of Rain; Goldstein Takes His Tenth Victory.

By BILL PARKER, Associated Press Sports Writer. Because of rain Wednesday in Houston, the Buffaloes had to remain idle and watch the Beaumont Exporters gain on them—and for the same reason, the Dallas Steers, who were carded to play the Buffaloes, had to stand by and watch the Fort Worth Cats go into a tie with the Steers for fourth place. The Exporters, holders of second place and gaining each day on the pace setting Buffaloes, trimmed Shreveport, 6 to 1, for their 11th victory in the second half. Izzy Goldstein held Shreveport to six hits, registering his 10th victory of the season. Moore pitched a five-hit game for Shreveport, but his armates could not hit timely like the Exporters. Some phenomenal fielding by Schube and Taylor aided Goldstein when the Sports threatened.

The Fort Worth Cats swept into a tie with Dallas for fourth place when Lil Stoker turned back the San Antonio Indians 7 to 2 for his 6th victory in seven starts. Three runs in the initial frame enabled Stoner to coast in, although he was touched for 12 hits, while the Cats only secured nine off Chief Moore. Five of Fort Worth's 12 hits went for extra bases. San Antonio had 11 runners stranded for want of timely hitting. The game was called in the eighth inning to allow Fort Worth to catch a train.

Unreeling a double-header at Galveston, the Buccaneers uncovered a volley of hits to beat the Spudgers in the first game 8 to 1, but the Spudgers whipped back to take the midnight affair 5 to 0. Some superb pitching by Bill Harris stopped Wichita Falls in the first game. Harris limited his opponents to five hits and blanked them for eight consecutive innings. It made Harris' 6th victory of the season. Bailey, Bell and Fred Lech scored two runs for the Buccaneers.

The second game saw Ash Hillis smother the Buccaneers for a 5 to 0 victory, giving him his 11th triumph of the season. Thormahlen and Seydler tried to stop the Spudgers, but had no luck. Thormahlen was wild and had to be relieved by Institute. R. W. Taylor, representative of the Sims Oil company, was selected permanent chairman. Vice-chairmen from three areas were named to work with the permanent chairman.

## Tenth Seconds in Dispute Again as Human Hands Fail

### NEW YORK, July 16. (AP)—Inaccuracies of the hand that holds the stop-watch, strikingly demonstrated by laboratory research in the international Y. M. C. A. college at Springfield, Mass., have revived the controversy over tenth-second timing and raised new questions that concern her record sprinting performances of such track stars as Eddie Tolian and Frank Wykoff.

"Records made with stop-watch timing are not reliable," concludes the report of a two-year study, outlined for the Associated Press by Fred Thomas K. Cureton Jr., a great injustice may be done in approving a record listed as one-tenth second better than another. "Wykoff, whose 100-yard record of 9.4 seconds will undoubtedly be accepted, may not have actually bettered the mark of 9.5 seconds. And so with various other world and intercollegiate records. "An electrical timing device, that is foolproof in every respect, is surely needed, not only for track but for swimming and perhaps auto and horse racing. Another practical application of electrical timing is that it can be used excellently for judging places."

## Relay Swim Has New Record; Film City Group Wins

HONOLULU, July 16. (AP)—A new mark for the 880-yard relay swim, announced as a new world, Olympic and American record, was established in the National A. A. U. championships here last night by the Hollywood Athletic club. The film city aggregation covered the stretch in 9 minutes 21 4-5 seconds as against the previous world and American record of 9:27 established by a New York A. C. team and the Olympic mark of 9:36 1-5 for the 880 meter event, made by the United States team at Amsterdam in 1928. Earlier in the evening Clarence L. (Buster) Crabbe of the Los Angeles A. C. broke his own American record for the 300 meter medley, finishing in 4:05 4-5 as against his previous mark of 4:05 4-5.

## SEATTLE GIRL FACES SEVERE TEST IN SWIM

### Helene Madison Shows Heels to All Rivals At 100 Meters Last Night.

NEW YORK, July 16. (AP)—Having shown her thrashing feet to a field of star performers in the 100 meters and mile events, Helene Madison, Seattle's 18-year-old aquatic marvel, will defend another of her numerous water speed titles, the 440-yard event, tonight in the national A. A. U. swimming and diving championships at Bronx Beach. The Seattle marvel, who has acquired 14 of the 16 recognized world records for women, is expected to receive some stiff competition in the 440 from Josephine McKim of the Los Angeles Athletic club, who placed second in the event last year.

Other title events on the program are the 220-yard backstroke, in which Eleanor Holm, diminutive Brooklyn star, is to defend her championship, and the high diving competition, in which Georgia Coleman, national diving queen, is to face such rivals as Katherine Rawls and Frances Meaney. There is every indication the 220-yard backstroke will produce a new world record, as Miss Holm repeatedly has shattered the recognized mark in training. In successfully defending her championship in the mile last night, Miss Madison broke the four-year-old world mark for 1,500 meters by more than 27 seconds. Her time for the mile, 24:25, was more than 11 seconds behind her own world standard for the distance, however.

### TENNIS FINALS TOMORROW

PARIS, July 16. (AP)—Bunny Austin of England will play Sidney Wood of America tomorrow afternoon in the first singles match in the inter-zone finals for the Davis cup. Frank Shields will meet the Britisher Perry in the following match. Lot and Van Ryn of the United States will play Hughes and Perry in the doubles matches on Saturday. Wood plays Perry in singles Sunday followed by a match between Austin and Shields.

## Twenty Grand Is in Fine Condition

### By CHARLES DUNKLEY, CHICAGO, July 16. (AP)—Seventy-six grand for Twenty Grand—if he can do it.

That is the sum the gallant son of St. Germaine-Bonus, called the greatest three-year-old since Man O'War, will earn provided he gallops to victory, as almost everybody expects he will do, in the \$70,000 Arlington classic at Arlington Park Saturday afternoon.

The race, as it shapes up today, will have seven certain starters with a gross value of \$87,400, making it the richest three-year-old stake in the world. Twenty Grand, if triumphant, will drag down \$75,900 to add to his 1931 winnings of \$134,194. The big three-year-old already is America's leading money earner of the season.

Twenty Grand rules an overwhelming favorite to win as a result of his impressive workout yesterday, when, in the blistering heat of mid-afternoon, he galloped a mile and a quarter on a slow track, finishing pulled up, in 2:11. It was not fast work, but the superb condition of Twenty Grand was evident. There was not a trace of lameness in his legs and his body that developed in his victory in the Dwyer stakes when he wrenched a big muscle in his left hip.

The average income from hens in 128 Tennessee demonstration flocks for March was 31 cents per hen.

## FUR SALES ARE INCREASED TWO THOUSAND PER CENT; COST IS LOW

NEW YORK, July 16. (AP)—The coldest lady and Judy O'Grady can be sisters under the fur coats next winter.

Prices are much lower. One of New York's largest furriers, with connections throughout the entire country, said today that fur coats and scarfs are now at the lowest figure that can be expected for 15 years.

In keeping with the lower costs, this firm reported a 2,000 per cent increase in fur sales in the period from last autumn up to now, as compared with a year ago.

Squirrel has come down out of the high price branches to within reach of many more fur buyers. The price has dropped from \$4.50 and \$6 a skin to \$1. A squirrel coat, this furrier said, may be bought for \$135.

The collegiate raccoon has dropped in price more than 50 per cent. Because of the increasing demands for wraps of this fur, its style scope now includes a more formal coat possessing fitted lines and large flattering collars of other furs.

Mink may be had at prices 20 to 45 per cent lower than in other seasons. The demand for this fur this year, wholesale dealers said, is almost as great as the supply.

Sable is still the paragon. Though a little lower in price than in other years it still is one of the most expensive furs.

## TRUTH SEEKERS HAVE SWIM IN POOL AT MIAMI

# No wonder Women are switching to Camels

Smoke a FRESH cigarette

The steady increase in the number of women who are switching to Camels is a tribute to the mildness of this cigarette.

A woman's throat is more delicate than a man's—more easily irritated by the unkindly hot smoke of parched, dry-as-dust tobaccos.

Camels are milder, first, because they are a throat-friendly blend of fine Turkish and mellow Domestic tobaccos that require no parching.

Camels are milder, second, because all peppery dust is removed by a special vacuum-cleaning process before Camels are air-sealed in the Humidor Pack of germ-safe moisture-proof Cellophane.

Camels are milder, third, because this wrapping of moisture-proof Cellophane prevents the cigarettes from drying out. The natural moisture of the tobaccos is held intact.

When you inhale the cool fragrant smoke of a Camel you enjoy all the flavor, all the aroma of blended fine tobaccos kept in prime smoking condition—without the sting and bite-and-burn of stale, dried-out cigarettes.

Just try Camels, join the throng and switch to them for one day, then quit them—if you can.

Don't remove the moisture-proof Cellophane from your package of Camels after you open it. The Humidor Pack is protection against perfume and powder odors, dust and germs. It delivers fresh Camels and keeps them right until the last one has been smoked.

Hottest Day Also Longest of Season

The longest day of the year, June 22, has also been the hottest, according to thermometer records kept at the Santa Fe station. The mercury crept up to the 102-degree mark on June 22 and has been sliding down since. However, the fall was not as rapid as it was during the first part of this month. All in all, the weather this summer has been something to brag about, considering how hot it is this month in California, Florida, Chicago, and Galveston, where the heat sends the mercury over 100 almost every day. Pampans have good reasons to be especially proud of July weather. No one could say and mean it that an average high temperature of 88 is hot weather.

July 13 has been the hottest day in this month, the mercury climbing to 98. The weather was coolest on July 5 when it dropped to 60. The average high temperature this month was 88, and the average low, 76. Today at 11 o'clock the thermometer registered 86 degrees. Yesterday was 94 degrees hot at 5 p. m. The week, beginning June 15 was the hottest seven-day period. On June 19, the mercury advanced to 100. On June 21 it duplicated that record, and on the next day, June 22, it climbed to 102. The average high for June was 96, and the average low, 68. June was an exceptionally dry month, the precipitation being 11.32 inches. July rainfall has totaled three inches with just half of the month gone.

Thermometer readings are taken at the station at 5 a. m., 11 a. m., 5 p. m., and at any time when there is an unusual change in the weather. The Santa Fe thermometer hangs in the shade on the north side of the station with north and east exposures.

Picnic at LeFors Is In-Honor Event

Markets

COTTON MORE STEADY NEW ORLEANS, July 16. (AP)—Cotton had rather a steady opening today in sympathy with better Liverpool cables than due. First trades showing gains of 5 to 7 points. The market continued to improve after the start on a cable from Liverpool reporting a rumor that Germany had accepted the French terms for credit. October advanced to 9.26 and December to 9.48, or 7 to 8 points above yesterday's close. Near the end of the first hour the market eased off slightly on good rains in the belt, losing 2 to 4 points of the earlier advance. At the end of the first hour the market was steady, at the lows.

GRAINS OPEN STRONG CHICAGO, July 16. (AP)—Brisht upturns in grain prices early today accompanied European reports of international financial developments. Absence of any grain exports from Russia and persistent talk of likelihood of reduced wheat production in that country owing to unfavorable weather were also a stimulus to higher prices. Opening 3-8 to 1-8 cents up, wheat soon advanced further. Corn started at 1-2 to 1-7-8 gain and later rose still higher.

trans-Atlantic telephone between the White House and the American embassy in Paris. Acting Secretary Castle of the state department talked with the secretary. It was explained officially that American participation in the conference would be on the same basis as the other premiers. It was added, however, that the position of the United States will be different from that of the other powers since the United States will not inject itself into any political considerations of Europe.

Three Nations Meet PARIS, July 16. (AP)—One of the most important international meetings since the treaty days of 1919, today brought representatives of France, Great Britain, and the United States together for discussion of the financial crisis in Germany. After four hours it adjourned with the announcement that the German chancellor had been invited to come to Paris for another meeting, tomorrow or the next day, before going on to London where representatives of all the great powers will meet on Monday evening.

Legislature (Continued from Page 1) Terrible resolution yesterday, in an effort to justify their actions. Issues Challenge In response to Graves' statement about the oil industry being in bad shape, Young challenged him to show any industry that was not in the same condition. Asking Graves how the legislature could help the oil industry without hurting other industries by raising the price of oil and refined products.

BERLIN, July 16. (AP)—The opening of the banks after a two-day holiday and the curbing of the purchase of foreign currencies today led the German government to hope it had averted a dangerous financial crisis. Communists Active At the same time alarm was felt over the spread of riots by communists and jobless through a large

part of the Reich. At least one person was killed, a number were injured and many were arrested as police laid a heavy hand on attempts to create internal dissension. Finance Minister Dietrich and a government broadcaster announced the latest measures to instill confidence in the economic structure of the fatherland in a nation-wide broadcast last night, appealing to the people to show "a sporting spirit and get along somehow for a few days more."

All over the land radio listeners sat up late and heard a program that could scarcely be listed as entertainment. They heard that the banks would be open but not for withdrawals of savings, that the currency had been expanded by something less than a billion marks, that the sale and purchase of foreign currencies temporarily would be a Reichsbank monopoly, that mines and imprisonment awaited the bootlegger of foreign money, and that confiscation faced the bargain hunter who tried illegally to trade his marks for other units.

LEGISLATURE (Continued from Page 1)

Terrible resolution yesterday, in an effort to justify their actions. Issues Challenge In response to Graves' statement about the oil industry being in bad shape, Young challenged him to show any industry that was not in the same condition. Asking Graves how the legislature could help the oil industry without hurting other industries by raising the price of oil and refined products. "The other industries are standing the gaff," Graves replied, "we are attempting to regulate the price of oil so that it will receive a fair return." Governor Sterling has expressed opposition to any bill aimed at fixing the price of oil. Representative Bob Long has in-

duced bills to appropriate \$30,000 to the attorney general for use in "trust busting" investigations and prosecutions. Long informed the house the attorney general had already made preliminary investigations and was preparing to file suits. Another bill prepared by Long would simplify the procedure in anti-trust suits.

Gov. Ross S. Sterling said yesterday he would oppose the enactment of a law giving the oil regulatory commission power to prevent production above market demand. This was one of the main features of a bill recommended by the Texas Oil Emergency committee and was included in a proposed measure introduced yesterday by Representative D. D. Richardson of Grand Saline. The governor said it appeared to many that such a grant of power would constitute price fixing.

The chief executive placed his approval on a bill introduced yesterday by Senator Walter P. Woodul of Houston. That bill would allow a person to obtain an injunction restraining his neighbor from draining his oil. Such a law would help bring about proration, Governor Sterling said.

American style, has arranged to take the fliers by automobile along the principal streets of Budapest to the city hall. This is an honor which never has been granted before. Throughout Hungary those who had lost hope a flight of this kind ever would be made are filled with unbounded enthusiasm, for the "Justice for Hungary" has become a symbol of the trials and disasters through which the nation has passed.

Sacrificed Record NEW YORK, July 16. (AP)—Though Budapest is farther from New York than most destinations of Atlantic airmen, Alexander Magyar and George Endres had no chance of establishing any distance record on their flight. They sacrificed any such hopes in favor of the advantages of a halt at Harbor Grace for refueling and checking their engine.

The great circle course from Harbor Grace to Budapest, the navy hydrographic office reports, is 3,239 miles. Lindbergh, flying from New York to Paris without a halt in Newfoundland, covered a distance of 3,610 miles. Admiral Richard E. Byrd flew 3,477 miles on his Atlantic flight. And Clarence D. Chamberlin flew 3,995 miles, a long distance record at that time. Had Magyar and Endres flown non-stop from New York to Buda-

pest they would have covered 4,305 miles and so beaten the distances of Lindbergh, Chamberlin and Byrd. But even so they would not have established a straight line flight record, as Deudonne Coste and Maurice Bellonte flew 4,901 miles from France to China. It was this record that Joseph Le Bris and Marcel Doret were trying to beat on their recent flight from France for Tokyo which ended in a forced landing in Siberia.

Azor Class Is to Have Picnic Soon

Officers of the Azor Sunday school class, First Baptist church, meeting in business session at the church Wednesday evening, decided to have a picnic one day next week. The time and place will be decided at a class meeting Sunday morning. Those at the meeting were Messdames George Nix, Clara Kitchings, Harry Grove, C. E. Lancaster, C. H. Schulkey, and Bonnie Rose.

Consider your Adam's Apple!! Don't Rasp Your Throat With Harsh Irritants "Reach for a LUCKY instead" Place your finger on your Adam's Apple. You are actually touching your larynx—this is your voice box—it contains your vocal chords. When you consider your Adam's Apple, you are considering your throat—your vocal chords. Don't rasp your throat with harsh irritants. Reach for a LUCKY instead. Here is what one of America's great scientists, whom we retained to study LUCKY STRIKE's manufacturing process, says about the mellowing effect of Ultra Violet Rays which are included in our exclusive "TOASTING" Process: "The effects of this ultra violet treatment on the tobacco have been tested and are found to involve an increase in what is called the 'mildness' of the tobacco." One of America's greatest writers and editors says this: "When I visited Reidsville and went through the LUCKY STRIKE plant, I found one explanation for the growth of LUCKY STRIKE. Your use of the Ultra Violet Ray in the 'Toasting' of tobacco is a splendid example of achievement. It is the new order of the day." Remember, LUCKY STRIKE is the only cigarette in America which offers you the throat protection of the exclusive "TOASTING" Process—that secret heating process which expels certain harsh irritants present in all raw tobacco, and which includes the extra mellowing benefits of modern Ultra Violet Rays. And so we say "Consider your Adam's Apple". Be careful in your choice of cigarettes. LUCKIES are always kind to your throat. "It's toasted" Including the use of Ultra Violet Rays Sunshine Mellows—Heat Purifies Your Throat Protection—against irritation—against cough
