

Blames Spy For Frisco Bombing

NEA Los Angeles Bureau. Because Carl Von Motke, convicted of burglary in Los Angeles, said he had proof to show a German spy, and not Mooney and Billings, was responsible for the bomb that killed 10 persons in San Francisco's Preparedness Day Parade in 1916, a new investigation of the famous case has been ordered. Von Motke claims he is a former German secret service operative and a grandnephew of General Von Motke.

DEAN ALLEN BAYLOR HEAD

Will Act as President Until Choice Is Made Permanently.

WACO, May 26. (AP)—Dean W. S. Allen of Baylor university today was named acting president of the university by the board of trustees, to occupy the post vacated two weeks ago by the death of Dr. S. P. Brooks until such time as the trustees may name a permanent president.

L Z Summer Camp to Open Soon in Lipscomb County

Tom V. Ellzey, manager of the L. Z. summer camp for boys, was here today in connection with the training to be held from June 6 to August 1. The ranch is on Wolf creek in Lipscomb county, a well watered site familiar to many local boys who have been there.

Cowboy Succumbs Suddenly at Noon

Joe Whitaker, 38, a cowboy at Hopkin's ranch, died at 11:55 this morning from heart failure. He was at the ranch house when he suddenly fell ill, ranch attendants said, and was forced to lie down on the floor. He died within a few seconds.

Whitaker is survived by his mother and several sisters living in Missouri. He came from Missouri and had been in Texas seven years, the entire period being spent as a cowboy on Hopkin's ranch. C. C. Maloune funeral home is in charge of the funeral arrangements. The body will probably be sent to Missouri for burial.

The city commission will not hold its regular meeting this afternoon. Two of the commissioners, Clyde P. Fatheree and Lynn Boyd, are out of town.

What the boys along Auto Row call a "slick job" Driven over good roads by a lover of a 1000 mile dash. You have to use a stethoscope to hear the motor. Tires—not a nick in 'em. Body is shiny enough for a flapper to powder her nose. And it's just one of the many offerings listed regularly in the classified columns of The News and Post.

OIL PROBLEMS ACU

Pilot of Autogiro Spends Night Here

TWO RACING DRIVERS DIE IN CRASH

SPEED TEST ENDS AS CAR LEAPS WALL

Joe Caccia and Clarence Grove Are First Victims of Indianapolis Track—Tire Is Cause.

MACHINE BURNS

Men Thrown Clear but Car Crushes Them—Narrow Escapes Are Noted as Others Qualify.

INDIANAPOLIS, May 26. (AP)—Joe Caccia, 31, Bryn Mawr, Pa., race driver, and Clarence Grove, 23, Haverford, Pa., his mechanic, were killed here today while practicing for the 500-mile automobile race Saturday.

Their car, running at high speed out of the second turn into the back stretch, lost a tire, careened up the track and over the retaining wall, striking a tree before hitting the ground many feet below.

Death Is Speedy The men were partially caught under the machine which burst into flames. Physicians said Grove apparently died immediately, while Caccia expired a few minutes after fire fighters and other persons reached the wreckage.

Both men were hurled out of the car as it left the track but the machine landed on their bodies. Both were severely burned.

Caccia was tuning his car for a qualification trial this afternoon when the accident, the sixth of the practice spins here this month, occurred.

Narrow Escapes Louis Meyer, South Gate, Calif., American driving champion in 1928 and 1929, hit the wall coming out of the first turn while attempting to qualify last Saturday but escaped without injury.

The car piloted by F. W. (Sparky) Sparks, Indianapolis, caught fire Sunday but driver and mechanic jumped to safety.

Milton Jones, Cleveland, and Jerry Houck, Los Angeles, each lost a wheel a few days ago. Frankie Brisko, Milwaukee, lost control of his car and hit a wall. None of the drivers was hurt.

Wildcat Well Very Promising

SAN ANGELO, May 26. (AP)—Scheiber county, which has had promising oil and gas showings in several wildcats, envisioned production again today as the result of the encountering of sweet gas estimated at one million cubic feet daily and thirty-five gravities, sweet oil that rose two hundred feet in two hours in J. D. Wesner and others' No. 1 W. R. Nicks.

The oil and gas were struck at four thousand feet in grey lime and drilling stopped at 4,005 feet, 1,588 feet below sea level. One hour's balling failed to lower the oil, which was from water.

The operators probably will run eight and one-quarter inch casing before testing the well, which is only one and three-quarter miles northeast of Eldorado, immediately east of the San Angelo-Sonora branch of the Santa Fe railroad.

The well is 2,310 feet from the north line and 2,362 feet from the east line of section 77, block 11, T. C. Ry. Co. survey. It is being drilled on acreage secured from Humble Oil and Refining company.

MARKETS AT A GLANCE

Stocks irregular, fitful short covering inspired by bear inquiry. Bonds irregular; U. S. government easy. Corn mixed; oils yield moderately. Foreign exchanges irregular; German mark weak. Cotton easy; favorable weather and local selling. Sugar lower; easier spot market. Coffee lower; European selling. Chicago: Wheat firm; dust storms Canada and bullish in Kansas estimate. Corn firm; small receipts and absence rain southwest. Cattle weak to lower. Hogs lower.

THE WEATHER

WEST TEXAS: Partly cloudy, probably showers in southeast portion tonight and Wednesday, cooler in the Panhandle Wednesday. OKLAHOMA: Cloudy, local thunder-showers tonight and Wednesday. LOS ANGELES: (AP)—Lynn Hillikr is even with that confounded automobile of his. It wouldn't start. In trying to make it go he wore out the battery. Use of the crank was of no avail. Lynn hurled the crank through the windshield and then set the car afire. He was arrested on suspicion of arson.

Cattle Tick Bill Rapped

Sterling Says Payment Would Open Way to De-Luge of Legislation.

AUSTIN, May 26. (AP)—Governor Ross S. Sterling said today that the placing of the cattle tick appropriation in the pink boll worm bill was "suicide."

The governor said the reayment of farmers for losses suffered in tick eradication work would "open the gates" to such an extent the state could not afford it.

As passed by the house, the bill proposed only an appropriation of \$300,000 to repay farmers of certain West Texas counties for losses caused by the state and federal pink boll worm quarantine in 1929 and 1930. The senate added \$200,000 for pink boll worm reimbursement and \$500,000 for tick eradication repayment.

The governor stated he did not see how he could approve the appropriation.

Governor Sterling said further he saw little hope for the \$980,000 building program for state colleges, carried in the educational appropriations bill. He can veto this program without vetoing the bill.

Relief Work of Red Cross Small in West Texas

"The Red Cross has been called upon to do less work in the Panhandle than any part of the state in which we are operating," said the statement made this morning by Miss Charlotte Murray, field representative of the American Red Cross for the state of New Mexico and the Panhandle and South Plains of Texas. Miss Murray's district also includes El Paso.

Miss Murray is in Pampa to aid in preparing an active chapter program here and to propose plans for the annual Red Cross roll call to be held from Armistice Day until Thanksgiving. She visits Pampa twice yearly.

"Most of the relief work done by the Red Cross," said Miss Murray, "in my district has been in drought stricken countries of the South Plains and in and around Hobbs, N. M."

During last winter the American Red Cross was called upon to aid local and state authorities in caring for 1,500 families at Hobbs.

The primary object of the Red Cross is the caring for ex-servicemen and their families and to render aid to people suffering from an extreme disaster. Its secondary object is the prevention of disease through the mitigation of human suffering where ever it may be found, Miss Murray explained.

Some of the relief work done by the Red Cross within Miss Murray's district has been the San Michel flood of 1929, Hobbs' relief work and the McLean tornado of a few years ago.

During the last year two millions of persons in a drought area comprised 21 states were fed and clothed by the American Red Cross.

Original Play To Be Given Tonight

Drama Written by Local Man Is Suited to Personalities of Youths.

The strange, pathetic story of Dauber, luckless youth who went to sea to paint, will be presented in the form of a play, "Beauty at the Throat," beginning at 8:15 o'clock tonight at the city auditorium. Proceeds will go into the Pampa library fund. Admission is 50 and 25 cents. The six boys who comprise the cast had their final rehearsal this morning. Five of the actors presented "Submerged," one-act play

A Good Dime Was Had by All

You may have seen John D. pass out shiny new dimes before, but it isn't often you see him dig down deep for them like this. The 91-year-old oil magnate is shown besieged by a group of young admirers as he left the Presbyterian Church at Lakewood, N. J., after services.

LOCAL RED CROSS TO WORK WITH WELFARE BOARD NOW

Joint Session This Morning Is Held to Perfect Plans for This Cooperation.

In the future the Pampa chapter of the American Red Cross will work in unison with the Welfare Board, was the announcement made this morning by the Rev. Tom W. Brabham, chairman of the executive committee of the local Red Cross.

The announcement came following a meeting of the Welfare Board in the offices of the Board of City Development, held in conjunction with Miss Charlotte Murray, field representative of the American Red Cross, and Rev. Brabham.

Plans for the closer cooperation between the Welfare Board and the Red Cross will be worked out tonight at an executive meeting of the Red Cross in the city hall, Rev. Brabham said.

Heretofore the local Red Cross organization has not been allowed by the national authorities to work in conjunction with other organizations. Such permission comes as a special dispensation, Rev. Brabham explained.

Members of the Welfare Board present at today's meeting were: Alex Schneider, president; W. H. Curry, Bob Campbell, C. H. Walker, Max Long, J. Lazarus, George W. Briggs, secretary, and Mrs. W. H. Davis, manager.

CHICAGO GRAIN

CHICAGO, May 26. (AP)—Wheat: No. 1 red 83-1-2; No. 1 hard 83-1-2; No. 1 mixed 82-1-2-83. Corn: No. 1 mixed 55-1-4; No. 1 yellow 56-5/8-1-2; No. 1 white 56-3/4. Oats: No. 2 white 28-1-2-28. Wheat closed nervous, unchanged to 1-7-8 cents higher; corn 1-2 to 7-8 up, oats 1-4 to 3-8 advance, and provisions varying from 10 cents decline to a rise of 2 cents.

HUNDREDS OF CITIZENS SEE STRANGE SHIP

Johnny Miller Is Pleased by Welcome Here; Is Guest of Tom Doswell, Who Flies With Him Today.

TAKEOFF SIMPLE

Revolving Blades Lift Craft Nearly Straight Up After Run of Hundred Yards Into Light Breeze.

By CHARLIE GRIMES Night Editor, The NEWS-POST After spending last night here, Johnny Miller of Poughkeepsie lifted his freakish looking "Missing Link" autogiro airplane into the air at 7:11 a. m. today, hurried momentarily over the city like a giant hawk spotting its prey, then winged awkwardly toward Amarillo.

Tom Doswell, superintendent of the Operators Royalty company, rode in the tiny contraption to Amarillo.

The lanky flier arrived at the airport today about 36 minutes before the takeoff and inspected the ship. With the assistance of a few spectators, the autogiro was rolled on the field.

Doswell Climbs In Miller climbed into the cockpit and started the motor, then told Doswell to climb into the front seat. After the motor had warmed up, the pilot turned the plane's nose to the north and ran down the field about 100 yards and started the huge revolving blades.

After the "windmill" blades gained sufficient momentum, Miller turned the plane into the wind and started down the field toward the curious onlookers. The ship rolled along the ground for 100 yards and then rose gently upward, almost perpendicularly.

The "Missing Link" circled the landing field, gaining altitude rapidly, and the pilot waved farewell then headed for Amarillo. About a hundred persons were at the airport this morning to view the strange craft. It was the first autogiro to visit Pampa or this section of the country.

Creates Motor Stampede The autogiro created a sensation when it appeared over Pampa late yesterday evening, and by the time it landed there were nearly a thousand people at the airport and another thousand were racing their cars toward the landing field.

To judge from the small wing displacement, one would think the autogiro would have a hard time staying in the air, but the revolving blades furnish most of the lifting power while the regulation propeller does the pulling.

Miller explained to NEWS-POST representatives that the craft would attain a top speed of 110 miles an hour. The cruising speed is about 75 or 80 miles per hour. The autogiro is built more for private use than for commercial flying.

Brings Message While Miller was in Pampa he was the guest of Tom Doswell. He brought a message to Mr. Martini, superintendent of the Petroleum Refractionating company, from a friend in Shattuck, Okla., where Miller stopped for gasoline and repairs. On his way from Wichita, Kans. where he took off yesterday afternoon, he stopped at Waynoka and Shattuck, Okla., and Canadian. A party of local men flew a monoplane to Miami, where they met Miller and escorted him to the local airport.

The aviator is barnstorming his way to the west coast. Although Miller is only 25 years old, he has several thousand hours of flying to his credit. In stature, he resembles the noted Col. Charles A. Lindbergh. He has a broad smile. His long hair has a slight tendency to curl. Miller said he didn't expect such a cordial welcome when he landed here last night. He said he certainly agreed with the business men in Shattuck, who told him he would get an "old southern" welcome in Pampa.

Tale of Six Stout Ladies and How They Ate

CHICAGO, May 26. (AP)—Six stout ladies stood in a reducing gymnasium last night. They wanted to go home to their dinners but couldn't because between them and the outside was a glass door which the janitor had locked for the night. For some reason, unknown to the ladies, he had missed seeing them.

It was growing late and one of them suggested that if they smiled and waved their hands they might attract the attention of a passerby, who could liberate them.

Several men walked by but merely laughed, and their plan for freedom seemed doomed until Patrick Connor came along. But Pat's hearing isn't so good and he couldn't make out what they wanted until they wrote on a large card.

"We are locked in. Call the police."

Pat did. Policemen David Kenny and Daniel Moriarty responded, but concluded they had no right to break the door, so they called the fire department.

One hook and ladder company came, followed by an engine company, a chemical unit, and Battalion Chief James McHale arrived. Six husky firemen put their shoulders to the door and six stout ladies went home — to dinner.

FOUR DIE AS PLANE FALLS

Chicago Daily News Ship Is Wrecked in Attempt to Set Speed Record.

CHICAGO, May 26. (AP)—Four men comprising the crew of the Chicago Daily News plane "Blue Streak" were killed today when the specially designed sesuplane fell while attempting to set a 2,000 kilometer speed record north of Glen Ely, Ill.

The dead: Shirley J. Short, chief pilot; Richard K. Peck, co-pilot; Lewis S. Rice, radio operator; Robert Gormley, mechanic.

A farmer who ran to the ship soon after the crash reported that a man whose descriptions fitted that of Gormley was still alive, although badly hurt. The first doctor to reach the scene, however, said all four were dead.

The plane was of unusual construction, with a tandem motor design, one motor pulling and a second pushing the ship. Either motor was supposed to be capable of sustaining the plane in flight.

The seed test was conducted under the supervision of the National Aeronautical association.

Believe Woman Had Poison Plot

CHICAGO, May 26. (AP)—Four of the five men who died recently in the home of Mrs. Margaret Summers and who were insured in her favor came to their deaths through poisoning, Dr. Clarence Muehlberg, coroner's chemist, reported today at the opening of the inquest.

One of the victims was Mrs. Summers' 17-year-old nephew, another was her husband, 37, and the other two, William Reaman and Thomas Lanagan, were boarders.

For the past several days Mrs. Summers has been questioned by officials of the state's attorney's office, the coroner and the police.

The authorities said Mrs. Summers also was beneficiary in 19 policies on ten persons.

She has asserted her innocence, telling police the policies were made out to her in gratitude for her kindness to them.

Identity of Body Is Sought Today

RATON, N. M., May 26. (AP)—Officers sought today to identify the body of a man found yesterday on Raton Pass, 30 miles from the place at which a blood-stained motor car gave one clue to the disappearance of Ray Sutton, prohibition agent, nearly a year ago.

Sheriff's deputies declined to say whether they believed the body, buried in a shallow ditch, to be that of Sutton.

The agent disappeared from Raton August 28. Friends said they believed he had gone to locate a still. He was last seen on a highway by Deputy Sheriff Boots Fletcher who said he appeared to be waiting for someone. His personal effects were found unmoistened at his hotel room here.

Prohibition Director Charles Stearns instituted an unsuccessful search. Hundreds of men hunted for the northeastern part of New Mexico. Airplanes were employed.

Several months later two cowboys found Sutton's car covered with brush in a ravine near Koehler lake, southwest of Raton. The back seat bore blood stains and investigators expressed the opinion Sutton had been slain.

HUMBLE CUTS SCHEDULE AS FLOW JUMPS

Reduction of 30 Cents Per Barrel Expected to Be Cause of Steps To End Present Chaos.

SESSION IS URGED

Wirt Franklin Joins Petition For Legislation to Curb Crude Flood—Chamber Makes Study.

NEW YORK, May 26. (AP)—Sinclear Consolidated Oil company and the Texas corporation have met the reduction of Humble Oil in the East Texas field.

HOUSTON, May 26. (AP)—The Humble Oil and Refining company today announced a price reduction of 30 cents per barrel in East Texas crude. Simultaneously, the Humble announced that effective at once the East Texas field would be posted separately, and not with the Mexia, Powell and other fields as formerly.

The new postings made 35 gravity the lowest quoted, where 29 gravity previously had been the low. The new prices:

Below 35 gravity, 25 cents; 35 to 35.9 gravity, 27 cents; 36 to 36.9 gravity, 29 cents; 37 to 37.9 gravity, 31 cents; 38 to 38.9 gravity, 33 cents; 39 to 39.9 gravity, 35 cents; 40 gravity and above, 37 cents.

President W. S. Farish issued a formal statement saying the cuts were made necessary because "product values had declined seriously" and the "railroad commission's order (for prorating) had been obstructed and made ineffective."

No price changes were made except in the East Texas field.

The complete statement follows: "On April 21, 1931, we posted prices for oil from the new East Texas field equal to midcontinent posted prices and announced a purpose to make connections and buy oil in the area ratably as soon as the railroad commission's order should be placed in effect. When the order went into effect, we proceeded to carry out such policy and have increased our purchases until for some time now we have purchased at the posted price approximately 18,000 barrels of oil per day outside of our own production. In our announcement of April 21, we said:

"The maintenance of the purchasing policy here announced for East Texas and the dependence of the attached price schedule posted for all areas in the state are dependent upon better product values and upon the success of the railroad commission in the enforcement of its conservation program throughout the state."

"Both of the conditions stated have failed. Product values have declined seriously since that time. The railroad commission's order for East Texas has been obstructed and made ineffective. The order fixes the allowable production at 160,000 barrels per day. The actual production is in excess of 300,000 barrels per day; and of this amount approximately 220,000 barrels per day are moving at prices below our posted price and above depending on the gravity of the oil. More than 150,000 barrels per day are moving from this field at 35 cents per barrel and below.

"No Alternative" "In the face of this situation we have no alternative but to reduce our price. The principle on which our price revision was based is clearly stated in our price revision announcement of October 16, 1930, as follows:

"When any considerable amount of oil is being sold from any field at less than the posted price (as is now the case in certain areas) the lower price establishes the market and readjustment of the posted price in the particular field must inevitably follow.

"We can not continue to pay more for crude than others are paying."

The schedule, which posts a price of 35 cents per barrel for East Texas oil of 35 gravity, contains a revision of the price for East Texas only. We are not at this time revising our posted prices for competitive oils being purchased by us elsewhere in the state in the hope that orderly production may yet be established in East Texas in time to forestall the necessity for such revision."

ARDMORE, Okla., May 26. (AP)—An appeal to Gov. Ross Sterling of Texas to call a special session of the Texas legislature to push through an oil conservation law to control Texas oil production was made today by Wirt Franklin of Ardmore and Orville Bullington of Wichita Falls, Tex. A telegram setting forth the views of the two oil men has been sent to Gov. Sterling.

Franklin and Bullington urged passage of a law which would attach severe penalties to violations of the conservation law, stating that only through adequate curtailment measures could be independent producers hope to remain in the industry. Franklin is president of the

BASIS FOR TEACHERS' SALARIES

Should teachers' salaries be based on the worth of the instructor to the child, or upon the need of the teacher for the salary involved? El Paso's trustees, like many others in Texas, are faced with the necessity of curtailing expenses and they are placing much of the burden upon married teachers who, it is believed, can be discharged or given wage cuts without serious inconvenience.

El Paso has abolished the customary \$50 bonus to teachers remaining in the system another year, and has reduced salaries of married teachers while permitting those of single men and women to remain stationary. About fifty married teachers have been either dropped from the rolls or placed on the substitute list.

The El Paso P.-T. A. opposed this prejudice against married women on the ground that it would weaken the personnel of the system and it was, in some instances, retroactive. The P.-T. A. claimed that married teachers have more genuine enthusiasm for their work than many single women who use the work as a stepping stone to matrimony.

It would seem that school trustees should place their first emphasis upon the problem of providing the best teachers obtainable. Numerous boards have ruled that teachers who marry must wait a year before resuming their jobs. This is on the theory that their first year of married life should be devoted to the job of establishing their households and that their interest is sure to be in this task until their new life plan has become stabilized. This principle is not operative in the El Paso schools, where the following policies prevail:

- No reductions in salary or changes in merit items for the main body of teachers.
- Elimination this year of the annual \$50 "seniority" increase for year's additional experience.
- Decrease of about 40 in the number of teachers employed. (Another statement placed the figure at 50.)
- Placing on substitute list all married or unmarried teachers not dependent on salary for support, or who can be replaced.
- Fifteen per cent salary reduction for married or unmarried teachers only partially dependent on teaching salaries, or who enter teaching only for supplementary income.
- Married teachers entirely, or substantially, dependent on salary to receive same salary as unmarried teachers.

General governing policies set forth in the resolutions include:
Consideration, in deciding on re-elections, of teacher's attitude toward following the profession of teaching (this to be factor in efficiency rating.)
Teaching must be regarded as a vocation with same seriousness as attaches to other professions, and not be regarded as merely incidental employment.
Married teachers who have means of support apart from teaching income will be used only as needed, without right to schedule salary. Only three-fourths of the married teachers shall receive continuous employment next year under this policy.

Marriage, after entering the school system, shall cancel a woman teacher's contract, and her continuance as a substitute teacher shall be at the option of the board.
Substitute teachers, under revised schedule, to be paid 15 to 25 per cent under salary schedule of those under contract and fully identified with the system.
This same policy as to classification on substitute list will be followed as to unmarried teachers or applicants, where teacher's attitude toward the profession is unfavorable.

As soon, and as fairly, as possible no applicant hereafter will be considered eligible who has not had four years successful college education, or a college degree. This statement of policy is to give full notice to future applicants.
If this year's trial of 12-months' operation for overcrowded schools, with pupils attending 9 months, is successful, the plan will be extended to other schools next year.

Daily WASHINGTON LETTER

WASHINGTON, May 26, (NEA).—Instead of becoming that "model city" in law enforcement promised by President Hoover, Washington insists on remaining a typical American community with an underworld, crime waves, racket murders, corruption and other phases of municipal life which keep police reporters skinny.

Washington is now having more murders in proportion to population than Chicago.
Thus far this year we have averaged 5.4 murders a month, which is an annual rate of one murder per 7500 of population. Latest available studies of homicides in American cities cover 1929 and show Chicago had a murder per 8400 population. The murder rate per 100,000 population was 10.1 for the larger American cities and 11.8 for Chicago. The nation's capital, plugging along now at a rate of 65 murders for 1931, is setting a mark of 13.3 per 100,000.

The surprising way people get killed off here, so frequently and so publicly, and the extent to which the police turn out to be involved in crime has everybody all stirred up again after a crime wave in which 10 persons were shot within a few days, nearly all fatally. One suggestion is that the situation could be cleaned

up by putting all cops in jail at once, but it might be difficult to catch them. Perhaps a more effective method would be for all good citizens to start biting bandits and crooks, as suggested by Senor Carlos Leiva, the Salvadoran charge d'affaires, who implored police protection for legation's liquor and then was badly beaten up by thieves whom he found looting it.

Leiva lies in a hospital with a fractured skull, boasting that he bit a bandit's finger "to the bone" and that such bites "often prove poisonous." He says the Washington police are the worst in the world and that a few good poisonous biters would be more efficient in guarding the embassies and legations.

One of the latest murders, that of a police stool pigeon, has turned up a policeman who has been hijacking, just as the Beulah Limerick murder found a cop who was operating whiskey stills in his basement. Sixty-three cops have been fired from the force for misconduct in the last two years.

Only three persons in the District of Columbia have permits to carry pistols, but 3304 have been sold here in the past 16 months and twice as many are estimated to have been shipped in by mail or express. One newspaper has just printed a police map which purports to show

567 known speakeasies, 58 gambling houses and 40 disorderly houses.

Washington has a different set-up than that in most cities. President Hoover acts as mayor, although, of course, he has a lot of other territory to think of. It was Hoover who decided Washington should become a model town and set a good example to all other cities. So he appointed Major General Herbert B. Crosby, chief of cavalry, as one of the three district commissioners, apparently expecting Crosby to clean up the town.

Nobody can vote here, so the citizens have to take what they get from congress, the president and the police. Theoretically, the police force is clean and free from graft, untouched by influence because there are no municipal politics. And the city is free of aliens, who are supposed to be such a crime problem in other big cities.

The only aliens are in embassies and legations. Thanks to them, this is the one community where policemen are charged with guarding liquor supplies and where the government has to make good if liquor is stolen. The Leiva case raised the question whether the state department would have to indemnify a legation in actual liquor or its value in cash.

Talks To Parents

FAMILY COUNCIL

By Alice Judson Peate
Ever so many boys and girls who thought of father as a kind of gold mine have been discovering during the past winter that there are limits to his resources. But this melancholy year of restricted budgets presents at least one golden opportunity.

The fact that so many luxuries and advantages have had to disappear from the plan of family expenditures has given rise to a special opportunity for teaching children a very worth while lesson.

Children often seem selfish and inconsiderate in their demands for no other reason than that their parents have not taken them into their confidence in regard to the family purse. In order to do this, it is not necessary to burden them unces-

sarily with grown-up worries or to give them a feeling of economic insecurity. It is only necessary to call a family council which honestly but not unhappily takes them into the confidence of their elders in a matter which must immediately concern them.

Children are wonderfully responsible if they are reasonably handled. An explanation of why real economy will be necessary for a while will almost surely bring from them a most gratifying response. Big boys they will suggest a reduction in their pocket money, sister will volunteer to help with the housework in order to save some of the money that would go for outside help, while even little brother in the third grade will volunteer that he can get along without the bicycle that was promised to him.

This may sound too good to be true, but it is not, provided that such a family council is called in a genuinely frank and friendly spirit. If father and mother forego some of their own luxuries, the children will be quite ready to make proportional sacrifices.

Some FEMININE Fancies

By HOLLYCEE SELLERS HINKLE

To all girls who plan to enter college next year, to all who wish to be popular, to all who would like to be college queen, this column is dedicated today.

I have in mind a girl who is old-fashioned enough to care for younger brothers and sisters while her mother makes frequent necessary trips who is so old-fashioned that her she never swears, drinks, or smokes, very first boy friend is still her sweetheart—yet that girl last year was elected college queen, and is, I believe, the most beautiful girl on the campus. Beauty, a pleasing personality, and virtue brought her the title of queen.

Morals are funny things. We see one girl who, because she seems old-fashioned, is unpopular. Yet another girl just as old-fashioned is elected college queen. Perhaps this is the distinction: One is old-fashioned and prudish, the other "old-fashioned" and not prudish. This is the principle which causes one girl to be prudish merely make for a strong character on the part of the other girl. She has clean habits, but does not make that a topic of conversation and does not criticize those whose personal habits do not measure up to her own.

Says Dorothy Dix:

"The moral standards of the modern girl are no different from what they have been for countless ages. The virtues do not change. They are as immutable as the everlasting mountain peaks. Purity and virtue, honor and loyalty, gentleness and sweetness and helpfulness. They were the code by which your mother and her mother and her mother lived, and they are the code by which you must stand or fall today."

"Of course modern conditions have scraped a lot of the old conventions, but the fundamental principles of conduct still remain the same that they have been for ages. Girls are no longer kept in leading strings and hanging to a chaperone's skirts as they were in grandmother's time. Nor are they supposed to blush themselves to death over the mention of sex and refer to the leg of a piano as a limb, as was the proper thing for a young girl to do in the Victoria era."

"Nevertheless, when it comes down to ordering her own life, the girl of today finds it best to cling pretty close to the old feminine standards. If she goes on whoopee parties and comes home any old hour of the night, the neighbors are still watching from behind their blinds and keeping tab on her, and they tear her reputation to pieces, just as they have always done that of wild girls. If she gets drunk, she is just as disgusting and as sure of ostracism by decent people as if it were 1871 instead of 1931. And in spite of all that is said and written about women's right to their love life, the unmarried mother is still an outcast, and the modern man, when it comes to marrying, passes by the girls who have been his playfellows and selects for a wife some girl whom he at least believes to be virtuous."

PAMPA GIRL IS TO BROADCAST

Miss Audrey Noel, daughter of Mr. and Mrs. J. G. Noel of this city, will broadcast over station KFKA, Greeley, Colo., Wednesday evening from 10 to 10:30 o'clock. This talented young singer will be accompanied at the piano by her sister, Mrs. Irvin Cole of Pampa, who is her guest.

Miss Noel, a graduate of the Pampa high school, is attending Colorado State Teachers college, Greeley, Colo.

Dr. J. H. Webb of Wichita, Kans., accompanied by his mother and his daughter, is in Pampa on business. While here the group is visiting in the home of Mr. and Mrs. J. G. Noel.

DRUG STORE ROBBED
 ROTAN, May 26. (P)—Robbers entered the Williams Drug store here last night by climbing into it from offices overhead and obtained jewelry valued at \$500.

J. B. HESSEY IS GROUP'S CHOICE FOR PRESIDENT

John B. Hessey, county superintendent of schools, was named president, and A. L. Patrick, Sam Houston school principal, was selected director at large of the Pampa Little Theater when the organization met Monday evening at the city hall for the last session of this year.

Other selections follow: Mrs. George Wallace, vice-president; W. O. Workman, secretary; Mrs. Raymond Harrah, treasurer; Morris Johnson, casting director; Miss Ariess O'Keefe, playreading director; Mrs. E. C. Conley, stage director; Miss Catherine Vincent, membership committee chairman; Dr. A. B. Goldston, house committee chairman; Harry Kelley, publicity committee chairman.

Under the direction of Mrs. Helen Turner, a group of Little Theater members presented the one-act play "Ashes of Roses". Included in the cast was an actress, played by Miss Edna Clemens; Horace Wapole, played by Edmund Whittenburg; the demure country girl, played by Miss Bernice Chisholm; the maid, played by Mrs. Turner.

Of unusual interest was the performance of 6-year-old Juanita Bowers of Skiatook, Okla., who is visiting in the home of Mr. and Mrs. R. L. Senter. The little girl answered a series of difficult questions in geography and history, presented in rapid succession by Mrs. H. H. Hicks.

Miss Catherine Vincent accompanied by Miss Ruth Wakemay gave two tap dances.

There were 15 persons present.

EASTERN STARS ATTEND EVENT MONDAY NIGHT

Honoring their outgoing worthy matron Mrs. Roy Sewell, local Eastern Star members and their husbands gathered at the Schneider hotel for a banquet last evening about 40 persons were present.

The tables were prettily decorated in flowers and a May pole by Mrs. Bonnie Rose and Mrs. Harry Grove. Mrs. J. H. Lutz and Mrs. O. L. Beaty were in charge of the program.

Mrs. W. C. DeCordova, incoming worthy matron, introduced Mrs. Roy Sewell, out going worthy matron, J. H. Lutz, outgoing worthy patron, Mrs. W. C. Mitchell, incoming associate matron, and M. F. Downs, incoming associate patron. Mrs. Mitchell introduced Mrs. DeCordova and W. S. Gommillion, incoming worthy patron.

A beautiful past matron's pin was presented by Mrs. Mitchell, spokesman for the O. E. S., to Mrs. Sewell.

Toasts to Mrs. Sewell and to the entire O. E. S. were proposed by Mrs. Artie Shepard and Mrs. Wilson Hatcher.

Miss Catherine Vincent, accompanied at the piano by Mrs. Frank Keehn, favored the group with a solo dance, and Mrs. A. H. Doucette followed with a vocal solo. Jack Allison and Claudia Atteberry entertained with a duet dance.

Mrs. Hatcher dismissed the gathering with prayer.

Slumber Party Is Held After Group Attends La Nora

Gwendolyn Cox of Lubbock, who has been residing with her sister, Mrs. W. S. Moore, while attending school in Pampa was given a farewell party last night by Willie Isbell. She will leave soon for her home.

After attending LaNora theatre the girls returned to the H. H. Isbell home to spend the night.

Those present were Elber Hamilton, Fay Compton, Gwendolyn Cox, Christine Dickinson, Helen Joe Dougherty, Waldemar Dickinson, Ann Clayton, and the hostess.

BAPTIST WOMEN HOLD MEETINGS IN HOMES HERE

Business, study, and brief social periods made the afternoon hours pleasant one yesterday when circles of the First Baptist Woman's Missionary society gathered in homes of various members.

Circle 1 met Monday for a covered dish luncheon and an examination on the study book, "The Land of the Southern Cross," in the home of Mrs. C. L. McKinney. Those present were Mesdames Troy Marness, T. W. Jamison, John Brown, Charles Stephens, L. H. Greene, and the hostess.

Mrs. Clyde H. Garner was hostess to Circles 2 and 3. Mrs. J. A. Meek led the opening devotional, based on the 23rd Psalm, Mrs. J. J. Simmons led in prayer, and Mrs. E. F. Braké conducted a lesson from "Spiritual Conquest of the Southwest."

Refreshments were served to Mesdames R. L. Champion, Will Benton, J. J. Simmons, J. A. Meek, Ernest Fletcher, Mary Binford, M. J. Cash, E. F. Brake, Harvey Haynes, Bob Malone, P. A. Potter of Borger, and the hostess.

Mrs. W. E. Murphy was hostess and devotional leader for Circle 4, the opening prayer being led by Mrs. F. E. Hoffman.

Mrs. Murphy, who is going into business and will be unable to attend future meetings, resigned her office as chairman, and Mrs. J. E. Hamilton was elected to fill the vacancy. Mrs. E. L. Anderson will take the place of Mrs. Hamilton, who was secretary-treasurer.

Quitting was the afternoon's diversion.

Members present were Mesdames J. C. Barnard, T. B. Solomon, T. L. Anderson, W. B. Henry, J. E. Hamilton, J. F. McClard, Lennie Hawkins, and E. O. Baker. Mrs. F. E. Hoffman, general W. M. S. president, and her guests, Mrs. J. P. Hoffman and Mrs. H. J. Hoffman of Douglas, Okla., were guests for the occasion.

UNIQUE VISIT WILL BE MADE BY MRS. OWEN

WASHINGTON, May 26. (P)—Representative Ruth Bryan Owen has set aside the next two months for realization of the long-cherished longing to go Gypsying through a land where she doesn't know the language.

She will sail June 18 for Copenhagen, equipped in the most modern auto-trailer manner for doing Denmark in the manner of her choice.

"All my life I have wanted to go from town to town as a traveling musician does," she said. "A musician doesn't need any particular tongue to go/happily on his way—he speaks everybody's language."

An ocean liner acquaintance with Prince Eric last year aroused her interest in Denmark, one of the few European countries she has never visited.

She said she couldn't catch on making friends with the Danish people in troubadour fashion, though she may take her concertina along, but she counts on her entourage to attract those whom she passes. Last summer when she went to Yellowstone, curious crowds gathered wherever she parked her huge trailer to look at its kitchenette, its berths, its electric lights, its phone for directing the driver.

Mrs. Owen chose Fannie Hurst, the novelist, as her companion in England and Ireland last summer, and on many previous occasions.

"Fannie Hurst is the best audience I ever had. Her sense of humor exactly matches mine," she said.

Her son, Reginald Bryan Owen, is taking his pal, Ben De Loache, a young singer who will remain abroad to study.

SEVERAL ALSO ENTERTAINING THEIR FRIENDS

Arile Hickman and children, and Miss Agnes Cain returned Sunday from a visit with relatives in Oklahoma.

Mrs. F. P. Snider of Pampa is visiting in the Frank Thornhill home.

Mr. and Mrs. Paul Hughes and baby visited several days this week in the home of Mr. and Mrs. Wyman Ellis.

Frank Thornhill left Saturday for a week's visit with his parents in Lawton, Okla.

Billy Lowe of Borger is visiting in the home of his sister, Mrs. Leonard Cannon.

Mrs. R. E. Showers and Mrs. Defindorf visited in Shamrock Monday.

Ladies Auxiliary To Have Meeting

Porter and Raymond Sadler of Quannah are spending the week with their uncle, Carson Watt.

Ralph Cain of Bartlesville, Okla., has been transferred to Noelette. Mrs. Cain and the baby will move later.

Charles Milligan and E. E. McKown are in East Texas on business.

Howard and Rose Mary Birdson have returned after a week's visit with their grandparents in Borger.

Mr. and Mrs. L. A. Snodgrass and children left Monday for a two-week visit with relatives in Fort Worth.

Mrs. Jonnie Watkins gave a dinner party in honor of her husband on his birthday. Guests were Mr. and Mrs. E. I. High and children, Mr. and Mrs. Fred Genett, Mr. and Mrs. Joe Randle and daughter, Monty Jo, Miss Lucille Selbring, Volney Curteman, and Herbert Selbring.

R. E. Showers has returned after a business trip to East Texas.

Mr. and Mrs. W. J. Bartz and children spent the week-end in the home of Albert Bartz.

Mr. and Mrs. D. F. Turnell returned Sunday after a two-week visit in Oklahoma. They were accompanied home by their grandson, George Stockwell of Wynona, who will spend the summer with them.

Mrs. R. E. Showers entertained a few friends with a dinner party in her home here. Guests were Mr. and Mrs. Earl Broom and daughter, Wanda, Mr. and Mrs. J. E. Stansell, Mr. and Mrs. Harley Smith, Mr. and Mrs. G. G. Noel, Mr. and Mrs. A. S. McCrea and children, Mrs. McLaughlin, Mrs. W. C. Archer, Mrs. Defindorf, W. L. Knight, and J. L. Harney.

Mr. and Mrs. Frank Martin spent the week-end visiting relatives in Borger.

Mr. and Mrs. Glenn Chambers and baby visited in Borger Sunday.

Mr. and Mrs. L. H. Doughty, Mrs.

ETIQUETTE STUDIED When Blue Bonnet Club Has Meeting

An interesting demonstration of table service and etiquette was given by Mrs. T. E. Latta and Mrs. Walter Ollinger at a recent meeting of the Blue Bonnet club in the home of Mrs. Ollinger.

Opening the meeting, a vocal selection was given by Mrs. Will Kahler, Mrs. Paul Davis, and Miss Marcella Britten, with Mrs. Ollinger at the piano. Mrs. Ollinger played an instrumental selection.

After a brief business session, the president gave two readings, one being on discontent and the other on the diseases carried by flies and methods of exterminating flies. The etiquette demonstration followed.

The club made further plans for the dress contest in June, and the president distributed banana recipe books and leaflets and samples of Kleenex.

The hostess served cinnamon buns cake and coffee to the following members: Mesdames S. C. Drake, P. F. Britten, Gus Davis, Paul Day, R. J. Bohr, Willis Emery, Will

GO TO CLARENDON

Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

Place your finger on your Adam's Apple. You are actually touching your larynx—this is your voice box—it contains your vocal chords. When you consider your Adam's Apple you are considering your throat—your vocal chords.

What is the effect of modern Ultra Violet Rays upon tobacco? Dr. E. E. Free, one of America's well-known scientists, who was retained by us to study Lucky Strike's manufacturing process, addressing the Illuminating Engineering Society, said:

"The essential effect of the Ultra Violet is the production of better tobacco and of cigarettes regarded by virtually all smokers who have tested them as milder and with a lesser tendency to cause throat irritation."

Here in America LUCKY STRIKE is the only cigarette that employs Ultra Violet Rays in connection with its exclusive "TOASTING" Process—the only cigarette that brings you the benefits of the exclusive "TOASTING" Process which expels certain harsh irritants present in all raw tobaccos.

MANY CLUBS WAIT IN AN FOR ATHLETICS TO "CRACK"

MACK'S BOYS BREAK ONLY OLD RECORDS

Two More Triumphs Would Tie Mark Set Up in 1906 By Chisox.

By GAYLE TALBOT JR. Associated Press Sports Writer. There was another parcel of bad news today for the large but select group awaiting the official "cracking" of the Philadelphia Athletics.

By defeating the New York Yankees in both ends of yesterday's double header at Shibe park, 4 to 2 and 16 to 4, the champions ran their string to 17 straight, and staked themselves to a five-game lead over the field. Idle because of rain at Boston, the Washington Senators eased into second place.

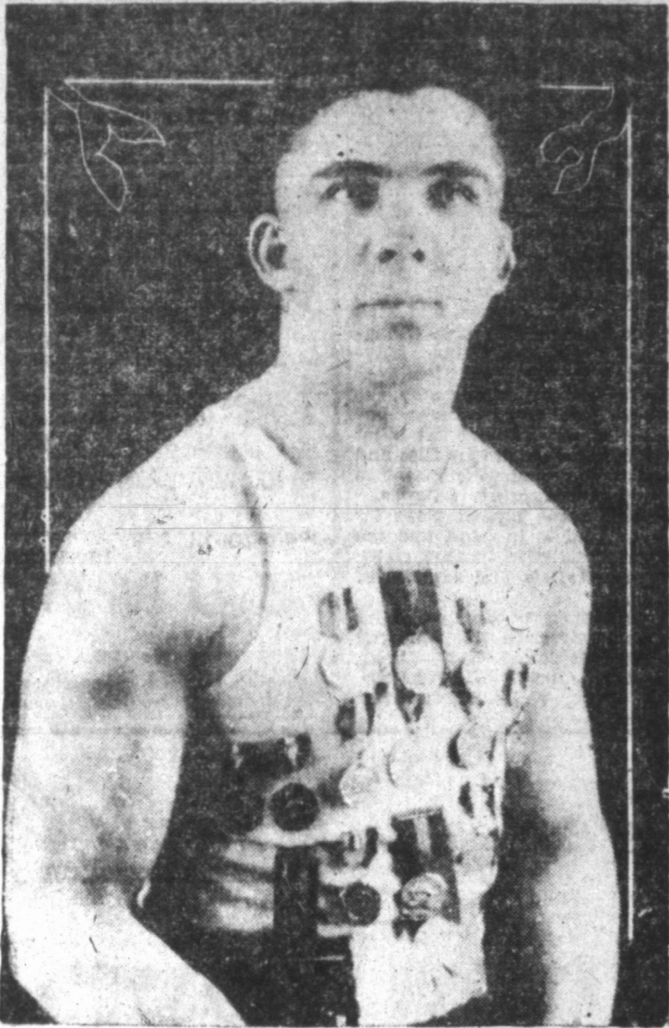

If they win from the Yankees the next two afternoons, the Athletics will tie the American league mark for consecutive triumphs, set by the Chicago White Sox in 1906.

The most significant feature of yesterday's double win was the pitching of Leroy Mahaffey in the nightcap. The young right hander, one of Mack's "second string" moundsmen, held the Yankees to one hit for the first seven innings and fanned five. He had nothing to worry about after his mates fitted him out with a nine-run lead in the first inning. Leroy Grove scored his fifth consecutive victory in the first game.

Was Ferrell had to rush to Willis Hudlin's aid in the ninth inning before the Cleveland Indians could record a 7 to 6 victory over the Chicago White Sox. Eddie Morgan hit his first home run of the year with one out in the sixth.

Rain halted the only other game scheduled in the American. The Chicago Cubs pounded three pitchers for 11 hits to defeat Pittsburgh, 9 to 6, in the National league's lone encounter. Les Sweetland went the route for the winners and had only two bad innings.

Clingman's Opponent This Week

Habla Vd Espanol? No! Well, anyway, this is Ceno Francisco Aguayo of Old Mexico, who has enough championship medals to protect his many chest in case he has to join one of his native land's numerous revolvers. He and Otis Clingman, Pampa's "gentleman wrestler" will twist ears at the Majestic Thursday night.

Sport Slants

BY ALAN GOULD

With one accord we pulled out fresh cigars and leaned up against the wall. The rest of the boys were talking horse-racing, since it was Louisville and the night before the Derby.

Barney Oldfield, however, preferred to smoke a cigar and talk auto-racing. Barney never rode a horse. He still drives automobiles at a fairly rapid clip, although he has retired from speedway competition.

"You hear a lot of talk about these high speeds in an automobile and what a terrific strain it must be and all that sort of thing," remarked Barney, shutting his cigar. "There's no real sensation to it."

"I set a world's record more than 21 years ago down at Daytona—131 miles an hour in my old Blitzen Benz. Remember that one? Well, all I had to do was sit tight, keep my aim and let 'er fly. Segrave and Campbell have gone more than 100 miles an hour faster, but I doubt if their sensations were any different than mine. It's like being up in an airplane when you go that fast. You don't realize it."

"If anything is going to bust up, it won't make any difference whether you are going 100 or 200 miles an hour, except that they may pick up the pieces over a wider range of ground."

British Motors Better
How was it, we asked, that the British have such a monopoly on the speed records—on the ground, in the air and on the water?
"They have better motors," responded Barney. "The British government controls the designs for the motors used by Campbell's racer and guards them carefully. Americans were not permitted to examine Campbell's motors at any time before or after he did 245 miles an hour last winter."

"In my opinion, the American machines sent down to Daytona for the speed trials have not been properly built. I think the deaths of Lockhart and Bible proved that. Schmeiling or Campbell drove, probably would have done as well as the Britons."
"I take nothing away from the courage and skill of Campbell, but I believe he would agree with me the machine is about 90 per cent of this record-breaking business."

Remember Lincoln Beachey?
Oldfield talked of the pre-war days when he toured the country, giving exhibitions at county fairs with Lincoln Beachey, one of the first American stunt fliers and a great one. Oldfield would race his Benz around the track with Beachey roaring overhead, sometimes so close that Barney could reach up and touch the landing wheels of the airplane.
"Beachey's machine had one of those old Gnome revolving motors," said Barney. "He usually had to stay up all night tinkering with it in the baggage car of our train to have it in shape for the next day."
After many close calls Beachey was killed when his plane dived into San Francisco bay.

Automobile Strikes Train at Crossing
(Drive Carefully!)
GALVESTON, May 25. (P)—Four Houston motorists, injured when their automobile struck a freight train at Texas City junction yesterday, were under treatment here today. Miss Sue Phillips was the most seriously injured, having a leg broken. C. M. Johnson and Mr. and Mrs. Frank Morgan were cut and bruised.

LACK OF ATTENDANCE AT WICHITA FALLS IS LIKELY TO MOVE SPUDDER CAMP

Club Cannot Continue With Its Present Poor Support; May Play Nights.

By BILL PARKER Associated Press Sports Writer. DALLAS, May 26. (P)—No baseball franchise can survive without attendance support, and Wichita Falls' remaining baseball status this season may depend on eight games this week and next week against Fort Worth and Dallas.

Double headers are scheduled against Dallas Wednesday and Friday. A possible double header will be played against Fort Worth Sunday, making Monday an idle day. It is the consensus if these games fail to draw Wichita Falls fans, the attendance at Spudder park this season will be a dismal failure and that the status of the club finishing the season in Wichita Falls will be the next important problem for President Alvin Gardner to solve.

May Play at Night
Dallas and Fort Worth are reputed to be the best drawing cards to play Wichita Falls and these two clubs, playing there this week and next week, might determine the Spudders' baseball future. It might be that the Spudders will finally get night baseball in their park in an attempt to increase attendance, but so far no known plans have been made for the floodlights. In their recent home stay, the Spudders, barring a Sunday attendance of six hundred, reached the attendance peak last Friday when there were 269 paid admission to see them play Beaumont.

Before the current campaign started, there was a rumor that the Wichita Falls franchise would be transferred to Waco, but this was flatly denied by President Gardner as well as the Spudder ownership. However, lack of attendance has forced a real problem on the Spudder owners.

Scribe Pessimistic
Al Parker, writing in the Wichita Falls Daily Times, touched on the attendance situation with: "Where it will end, unless the situation does improve, none can know. The only thing certain is that the club cannot continue to operate on the kind of support it has received thus far this year. That something will happen attendance is not improved soon by at least 100 per cent can be seen by just one glance at attendance figures."
Reports from other Texas league cities are to the effect that their attendance figures are satisfactory. Dallas and Fort Worth, with their recently installed lighting systems for night baseball, have played to exceptionally large crowds. Although they are in the cellar, the Shreveport Sports are getting deserving support according to Manager Jake Atz. Manager Claude Robertson, recently in Dallas with his San Antonio Indians, said attendance in the Alamo City could be better, but if it held up as started, he would have no protest.

Kills Mother and Then Injures Self
NEW YORK, May 26. (P)—Howard W. Bridgents, 29, a clerk, sought by police for the killing of his cousin, Dr. Joseph T. Loughlin, Brooklyn surgeon, in a pistol duel, walked into headquarters early today with his attorney and surrendered.

Physician's Slayer Gives Self Up
NEW YORK, May 26. (P)—Howard W. Bridgents, 29, a clerk, sought by police for the killing of his cousin, Dr. Joseph T. Loughlin, Brooklyn surgeon, in a pistol duel, walked into headquarters early today with his attorney and surrendered.

Waners Again "Poison" to Pittsburgh Foes
PITTSBURGH, (P)—When the Pittsburgh Pirates won the National league flag in 1927, one of their chief driving forces, probably the most important, was the work of the Warner brothers, Paul and Lloyd. Their brilliant fielding and terrific hitting were the talk of the league and "poison" to rival clubs. All over the circuit they became known as "Big Poison" and "Little Poison." Last year Lloyd, "Little Poison," a frail looking little fellow, went to pieces.

He was lost to the club until a big part of the pennant race had been run. Pirate followers point out that the team, even in the face of numerous injuries, took on speed and power after the youngster returned to the line up.
This year, Lloyd apparently has recovered his health. He looks stronger than at any time since that afternoon several years, when he took the field at Paso Robles, "just to work out," and without a Pirate uniform won himself a job. Lloyd started recovering, looking better every day and Manager Jewell Ens feels sure that the famous "brother act" of 1927 will be put on, bigger and better, this summer.

Sixteen Places To Be Filled in Race Schedule
INDIANAPOLIS, May 26. (P)—With but two days left in which to qualify for the 500-mile automobile race here Saturday, drivers today speeded up activity in the garages to tune their cars for the ten-mile speed test.
Sixteen positions remained to be filled in the starting field of forty cars. Five drivers qualified yesterday. They were: Jimmy Gleason, Philadelphia, 111,400 miles per hour; Francis Quinn, Los Angeles, 111,321; Frank Farmer, Philadelphia, 108,303; Phil (Red) Shafer, Des Moines, Ia., 105,103; and John Bolting, Indianapolis, 102,600.

INJURIES ARE FATAL
NACOGDOCHES, May 26. (P)—Miss Ann Wortham, 15, daughter of Mr. and Mrs. W. B. Wortham of Nacogoches, died in a hospital here early today of injuries received Sunday in an automobile accident near Appleby. She was a granddaughter of the late Col. Louis J. Wortham of Fort Worth, pioneer Texas publisher.

Plans 35 Flying Visits in Afternoon

Social callers who think they have accomplished something when they make three or four calls in an afternoon will look like pikers compared to Juanita Burns, right, noted girl flyer, if she succeeds in making 35 contemplated visits in one afternoon. Miss Burns hopes to make aviation history when she "drops in"—and cut—of that many Southern California airports. She is shown above in the cockpit of her tiny monoplane which she will use.

CARDS' BOSS DENIES WANTING HACK WILSON

ST. LOUIS, May 26. (P)—Rumors of a possible deal between the Cardinals and Cubs, involving Chick Hafey and Hack Wilson, erstwhile sluggers now doing bench duty because of failure to hit often and timely enough to satisfy their managers, had the official denial today of Sam Breadon, president of the Cardinals.
Told that such rumors were afloat, Breadon said, "We don't want Hack Wilson." He added, "We're satisfied with our ball club and we don't need anybody."

EXPORTERS IN CLOSE CALL BUT WIN 2-0

First Division Clubs Luckless in Other Contests Played on Monday.

By The Associated Press.
The Beaumont Exporters were the only first division team to win in the Texas league pennant race Monday and at that the Exporters had a close call, but managed to beat Galveston, 2 to 0.

Luke Hamlin, Beaumont's young right-hander, issued three hits to register his shutout. The Exporters bunched hits on Reinhardt in the fifth inning for a pair of runs.

At San Antonio, Houston lost a ball game and pennant ground, to the Indians, 5 to 1. Morris Hubbell, southpaw and brother of Carl Hubbell of the New York Giants, made his bow as a Texas leaguer and limited Houston to a couple of hits. It was San Antonio's fourth consecutive victory.

Playing listless baseball, Dallas returned home Monday night and lost to Shreveport, 9 to 1. Miller, pitched airtight baseball for the Sports, stopping the Steers with four hits. George Murray started for the Steers but lasted only six innings. Murray was hit freely and backed by erratic support.

The pace setting Fort Worth Cats found Lester White's pitching too much for them in a night battle at Fort Worth. Wichita Falls winning, 3 to 1. Leon Chagnon started for Fort Worth and lasted through the seventh when he was replaced for a pinch hitter. Roy Hansen finished for Fort Worth.

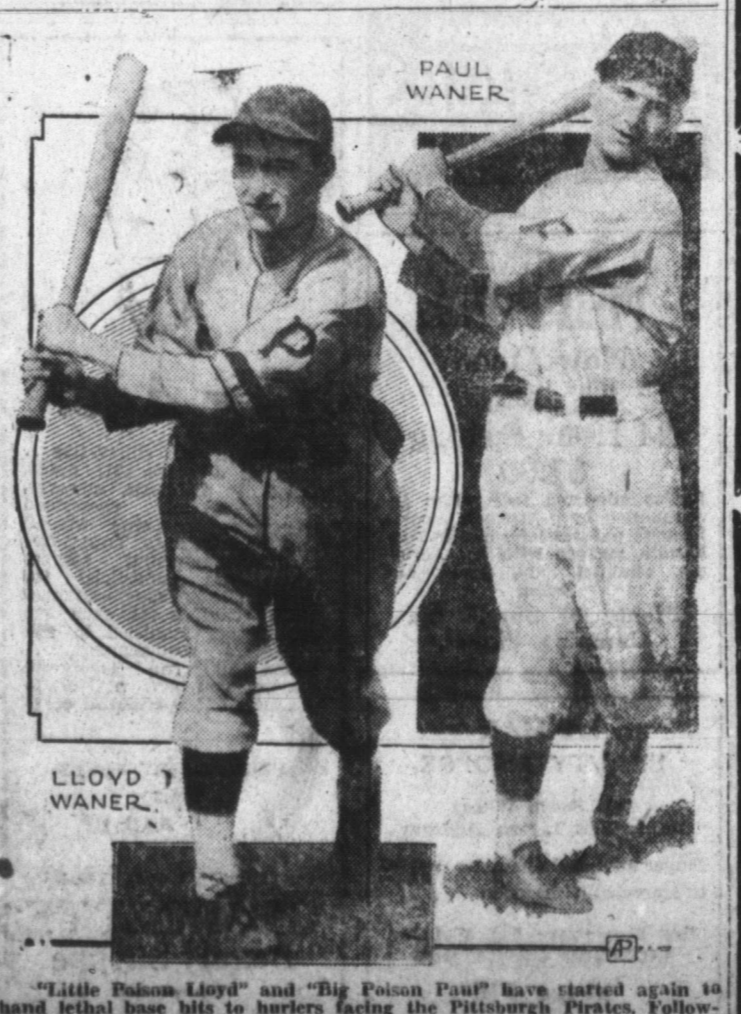

Mrs. Isbell recovering from a serious attack of influenza.

The MELODY GIRL by RUTH DEWEY GROVES

Beryl Borden, secretly in love with Tommy Wilson, discovers that he is planning to elope with her half-sister, Irene Everett.

Beryl and her "gang" kidnap Tommy and take him into the country where she urges him to continue in college and not break the heart of his suitor, Mrs. Hoffman, who is financing him.

Next day Tommy goes fishing with his uncle and finds Beryl and her gang on the beach. One of the boys, Angle, slips away from the crowd and is carried out by the tide.

Tommy and Beryl rescue him and she is arrested while speeding for a doctor. Tommy scolds Beryl and she resents it.

Tommy stood, dripping from his swim out, and listened with a vacant, dreamy expression that exasperated his uncle almost beyond words.

Tommy wished he could make Irene feel as sure as he felt. But he supposed it was natural for the girl to be more reluctant to take the final step.

Tommy wished he could make Irene feel as sure as he felt. But he supposed it was natural for the girl to be more reluctant to take the final step.

Tommy wished he could make Irene feel as sure as he felt. But he supposed it was natural for the girl to be more reluctant to take the final step.

AIMEE GETS OVATION ON RETURN TO LOS ANGELES

A cheering crowd of Angelus Temple members pressed as closely as this to shout their welcome to their pastor, Aimee Temple McPherson, when she returned to Los Angeles after a tour of the world.

and dry in time of need. "Please, Tommy," she said boldly, "just go up and tell Angle you'll find his father for him."

Tommy started up the stairs, which were in the living room, and Beryl was about to follow when she caught an expression on Irene's face that halted her.

"I'll get his mother out," she said softly, "and you will find his father, won't you?"

The way her son greeted Tommy reassured his mother. She got up from the side of the bed, but seemed reluctant to go.

Tommy nodded, and Beryl led her to her own room. There she realized that some of the charges Irene had brought against her in Mrs. Reed's hearing had taken permanent lodging in the latter's mind.

Irene glanced at him over her shoulder. "Oh, now that you've come," she said, with a sneering accent on the pronoun, "everything will be lovely."

Irene glanced at him over her shoulder. "Oh, now that you've come," she said, with a sneering accent on the pronoun, "everything will be lovely."

apple balls and perfectly baked. Tomorrow's Menu: BREAKFAST—Baked rhubarb and bananas, whole wheat cereal, cream, shad roe and scrambled eggs, corn and currant muffins, milk, coffee.

LUNCHEON—Poached egg on spinach and rice, new cabbage salad, filled cookies, milk, tea.

DINNER—Club steaks with mushrooms, duchess potatoes, yellow turnip balls in easy Hollandaise sauce, stuffed pepper salad, pineapple sandwich, milk coffee.

apples, pineapple cones and chilled orange juice all are suitable and refreshing first courses.

Broiled lamb chops, sweetbreads and bacon en brochette, a creamed fish or meat dish served on toast or in popovers, broiled chicken or choice and carefully broiled ham with eggs might be substituted for the fish.

Individual omelets are novel and most attractive. Two or three fine stalks of asparagus are laid across the top of each omelet after folding and two or three tablespoons creamed asparagus are spread over each omelet before folding.

Three or four fine large strawberries are used as a garnish for each serving of waffles and a sweetened strawberry sauce is passed.

Olives, radishes and celery can be used as relishes for any breakfast and salted nuts are permissible for the late meal.

MENU for the FAMILY

By SISTER MARY NEA Service Writer

There's a delightful intimacy about the class breakfast that makes it the best beloved of all commencement functions.

The hour for serving a breakfast may be as early as 9:30 o'clock in the morning. A very formal breakfast is served as late as 12:30.

While a breakfast resembles a luncheon to a great extent, there are certain well-defined differences. The breakfast coffee, always served in large cups, may be brought up with the main course, while luncheon coffee is always served at the end of the meal.

The following menu is correct for an early breakfast, that is, until 11 o'clock. It will be found quite satisfactory as for a class breakfast.

Grapefruit Stuffed with Cherries Broiled Fish with Lemon Wedges Whole Wheat Muffins Marmalade Asparagus Omelet Creamed Potatoes Waffles with Strawberries Coffee

Large sweet California cherries are pitted and used with the grapefruit which is removed from the shell, sweetened and chilled and served in the shell. If a "sweet" is not wanted or some other fruit is used in place of strawberries, there is no more attractive first course for a spring breakfast than fine home-grown strawberries served unhalved around a mound of powdered sugar. Melon cantaloupe or honeydew—served in halves is always liked. Red raspberries with sliced bananas served with sugar and cream are delicious. Jellied

Waffles with Strawberries Coffee Large sweet California cherries are pitted and used with the grapefruit which is removed from the shell, sweetened and chilled and served in the shell.

CONOCO The Conoco Travel Bureau and Passport provide a service without expense to motor travelers by which vacation tours may be planned into America's most popular regions. It is virtually a new travel service—far ahead of anything heretofore available to motor travelers.

Wherever you plan to go, the Conoco Travel Bureau will shape your plans so that you will follow the best routes, see the most interesting places along the way and get the most out of your trip.

The Conoco Passport is your official introduction wherever Conoco Service is available, and allows you to call upon any Conoco employee or dealer at any stage of your journey where he can be of assistance. It is the Conoco man's authority to extend to you such courtesies as: Caring for mail and parcels, assistance in obtaining automotive repairs and accessories; directions to fishing, hunting and other resorts, and giving hotel, camp and road information. When he sees your Passport he knows you are "his folks" and will do all he can for your comfort.

40 thousand Motorists traveled more than 77 million miles in 1930 with the aid of the Conoco Travel Bureau

The fact that more than 40,000 motorists availed themselves of the Conoco Travel Bureau service during 1930 is evidence of its helpfulness. Travel and road information was sent to motorists in every state in the Union. Trips which the Bureau helped plan embraced every part of the country and extended into Canada and Mexico.

When it is remembered that this is an absolutely free service entailing no obligations whatever, it is not surprising that the Bureau has received thousands of letters praising the service.

No matter when you plan to go... Get your Passport now. Use the coupon below so that ample time may be had to supply you with literature about interesting places to visit, individually marked road maps and other helpful information. No matter when or where you plan to go, by getting the aid of the Bureau—now—you will be rewarded by carefully worked out plans that will contribute to a most satisfactory trip.

MAIL THE COUPON NOW! CONOCO TRAVEL BUREAU, 70016 Continental Oil Building, Denver, Colorado. Please send me free and without obligation Road Maps, Literature. I would like [] an Official Conoco Passport. I already have [] an Official Conoco Passport. I am considering a motor trip to _____

Son Sends Death Message to Father to Obtain Money

CHICAGO, May 26. (AP)—The big mistake Leslie Hollan made, police said, was that he forgot to change his address after he had wired his father in San Antonio, Tex., that he was dead.

"Your son, Leslie Hollan," the telegram read, "died May 23. Send \$175 to cover the cost of burial."

The message bore the signature of "D. E. Delavan." The father wired police asking them to confirm the "death" message, which had given Leslie Hollan's home address. Police went to the address and found Hollan. He confessed, they said.

The father's name was given as J. T. Hollan.

EAST TEXAS

(Continued from page 1)

Independent Petroleum Producers' association.

The telegram charged that vast overproduction of the East Texas area was threatening the entire industry in this country and in addition was tending to deplete production of the world's largest oil region.

Gain in Production
TULSA, Okla., May 26. (AP)—A large gain in East Texas led the way for an increase of 7,938 barrels in the country's daily average crude oil production last week, the Oil and Gas Journal reports, estimating the total daily average output at 2,439,230 barrels.

East Texas production soared to 303,762 barrels, an increase of 47,312 barrels over the preceding week's figure.

Declines in Oklahoma and other areas offset the East Texas gain. Oklahoma production dropped 31,475 to 541,850 barrels. The entire mid-continent area, which includes East Texas, produced 1,422,063 barrels, an increase of 8,417. Shifts in the area, outside of East Texas and Oklahoma, were small. Kansas production fell 1,210 to 106,270 barrels. Eastern production was down 1,000 to 110,500 barrels.

The Rocky Mountain area registered a decrease of 1,311 with an output of 98,205 barrels.

Situation Studied
DALLAS, May 26. (AP)—The oil situation in East Texas, where production is running far ahead of the allowable output and the price structure is said to be threatened, is to receive the attention of a committee of the East Texas Chamber of Commerce. Directors of the organization met yesterday to decide to appoint a committee of nine, composed of pro and anti-prorationists, to make a study immediately of oil proration.

J. K. Hughes of Mexia was named as chairman of the committee and Dr. N. D. Bule of Marlin, resident of the chamber, were to select the other members.

To Observe Proration
LONGVIEW, May 26. (AP)—Henry Reynolds, superintendent for the Cranfill-Reynolds Oil company, announced today he had instructions to pinch all the company's production in observance of proration.

Last week the firm announced it would come within the proration, but it delayed observance on account of pipe line trouble delaying delivery of oil already contracted for.

Many "Outlaw" Wells
LONGVIEW, May 26. (AP)—A. B. Capor and Ray Richmond, proration umpires of the Lathrop and Kilgore areas, respectively, announced today that effective at once 17 wells, formerly running at "outlaw" production, had come into proration observance.

They said the production represented holdings of five companies. Cranfill and Reynolds announced that their Lathrop well was being pinched today at noon. Richmond stated the same firm had four Kilgore producers which will be affected.

In addition, Richmond said, 12 wells in the Henderson field would be on a proration basis today at noon.

WHEN CHICAGO WAS "DESTROYED" BY AIR

If this had been actual war instead of the mimic kind, Chicago might be in ruins today. Here you see part of the 659 planes engaged in the army's great air maneuvers as they staged an "attack" on the nation's second largest city, just before heading for New York. The Michigan avenue skyline and Grant park are shown.

noon. These represent production of the Imperial Oil company, George Anderson, Shaw Oil company and the McIntyre Drilling company, according to Richmond.

Richmond said there had been 33 companies running outlaw production in the East Texas field, four having been in the Lathrop pool adjacent to Longview and the others in the Joiner and Kilgore pools.

Richmond said there remained 28 companies disregarding proration regulations.

FORT WORTH, May 26. (AP)—Charles F. Roeser of Fort Worth, independent oil operator and chairman of the East Texas Proration Advisory committee, said today the reduction of 30 cents per barrel in the price of East Texas crude posted this morning by Humble Oil and Refining company was the "inevitable result of chaotic conditions in the field."

Roeser expressed himself as approving heartily the policy of making the price cut local, "which places the hurt where the damage is being done." He sees it as an effort of the purchasing companies to deal fairly with the fields which are contributing their part to stabilization of the market. He recalls that such a local cut was placed on certain Los Angeles basin fields, which were overproducing last year, while other California crude prices were unchanged, with the result that the offending fields got in line. Conditions which made for the East Texas price cut, however, are within the reach of producers in the field to correct, Roeser says, and expressed belief that if they would correct them the lower price would not prevail long. Roeser's committee is due to meet in Tyler.

TYLER, May 26. (AP)—Carl Estes of Tyler, secretary of the East Texas Lease, Royalty and Producers association and a leader in the fight to prevent early imposition of proration in the East Texas oil field, issued a statement today charging that some of the major oil companies had raised a slush fund "running into mountain high sums to be used in laying down a colossal barrage of propaganda in behalf of monopolistic legislation."

He termed his statement a "call to arms of every real independent oil operator in Texas."

Mexican Jiu-jitsu Expert Will Be Tough Opponent for Local Matman

The regular Thursday night wrestling card at the Majestic auditorium promises one of the best of the season.

Promoter Frank Hunt declares that he is bringing in the toughest man he can find for the ambitious Clingman, who is craving to go light heavyweight, and this week's opposition will be the famous Francisco Aguayo, champion of Mexico and jiu-jitsu artist. He is a long-limbed, gangling type grappler, the type that seems to be Otis' Waterloo. (Examples: Krojczyk and Rose.) Coupled with endurance, Aguayo has an untamable knowledge of the jiu-jitsu tricks and he doesn't fail to make use of this knowledge.

One of the tricks used by the wrestler is to place his fingers about the ears on some nerve, and the opponent hasn't a chance. However, Otis doesn't seem to be scared. He declares he is tired sea-sawing back and forth on this weight question. He wants to get settled down in one division or the other and start after the championship.

Red Michaels, up and coming Pampan, has been pining away for another crack at Tommy Thomas, and he gets it on next Thursday night at 8:30 sharp.

Advance ticket sale is being held this week at the Casino club.

Mooseheart Group Is Quilting Today
Women of the Mooseheart legion are holding an all-day meeting today at Locust Grove club to work on the name quilt which is to be sold sometime soon.

A hot luncheon was served at noon.

INTEREST RATE CUT
WASHINGTON, May 26. (AP)—The treasury announced today it had reduced interest required on government deposits from 1 to 1-2 of one per cent per annum on daily balances effective June 1.

It was explained that the action was taken to aid the general economic condition and because banks had found it necessary to reduce the interest rates paid on deposits by them.

The order affects all general and special deposits of government money and applies to about \$100,000,000 held as deposits by banks throughout the country.

GRAINS STRONG
CHICAGO, May 26. (AP)—Grains advanced early today after an irregular start. Reports of dust storms in Canada and of wheat crop deterioration in Kansas were largely responsible.

Opening 3-8 cents off to 5-8 up, wheat afterward rose all around. Corn started 1-2c lower to 1-4c higher, touching a new bottom price record for the season but subsequently scored general gains.

SOCIETY EVENTS OF TOMORROW

WEDNESDAY
Central Baptist W. M. S. will meet at 2:30 o'clock at the church.

Methodist W. M. S. will meet at the church at 3 o'clock for a May day social.
