RECREATION IS CURRENT NEED

Do as we say, and not as we often do, and spend one hour each day in some sort of recreation. Or even half an hour. Outdoor exercise gives access to fresh air and sunlight. The expenditure of energy tones up the body and refreshes the mind.

Here is an editorial, entitled "West Texas Grows Up," such as we have been waiting years to read.

The day of reckoning has come. For years we've been treating West Texas like stepchildren. We've burned their cotton, and paid them for it when we felt darn good and ready. We've maintained East Texas, North Texas and South Texas schools upon the rentals from vast areas of West Texas lands on which we refused to pay any taxes.

And now somebody's let the cat out of the bag; West Texans have learned that our political chickens grow something besides necks and wings. They've grown up; they've grown big and strong; and they're asserting themselves in ways that are decidedly disconcerting to our notions of paternal privilege.

They almost gave us a governor last year; the time isn't far distant when they will give us one. They raise a confident voice in our legislature assemblies, and, whether we like it or not, we give that voice a respectful hearing.

West Texans have minds of their own. They are independent; they are not hampered with a lot of outworn customs and rust-eaten traditions. They think broadly and liberally, and they have the ability to look over around, or under a bale of cotton.

Just now—down at Austin—West Texas is more or less a pain-in-the-neck to representatives of older sections who resent the loss of their authoritative and final speech.

The facts are, however, we're a little jealous of West Texas' magnificent self-confidence and self-assurance, we're a little impatient of the impertinence of its youth; we're a little awed at its superb strength, its amazing sagacity; but, deep down in our hearts we're mighty proud of our youngest child and, for all the world, wouldn't have it anything but what it is.—George I. Seitz, editor, Editorial of the Month.

Waco Man Heads Texas Bricklayers

SAN ANTONIO, May 15. (AP)—John B. Carey of Waco was re-elected president of the Texas Conference of Bricklayers, Masons and Plasterers at the final session of the organization's convention today.

Other officers chosen were L. T. Meyers of Dallas, first vice-president, and D. J. Collins of San Antonio secretary-treasurer.

The last measure adopted by the body was a unanimous resolution to protest the attempted wage slash by building contractors. A copy of the resolution will be forwarded to President Hoover.

Two-Cent Fare Is To Be Abandoned

ST. LOUIS, May 15. (AP)—The two-cent-a-mile passenger fare will be abandoned for the present by the Frisco railroad, Vice-President J. B. Koontz announced today.

The two-cent fare, he said, has not served to increase travel, and has resulted in a "substantial monthly loss" in the road's passenger revenue. The railroad official said an effort will be made to restore the 3.6-cent-a-mile rate over the entire system, July 1.

The two-cent fare was put into effect Feb. 1 in an effort to win back passenger traffic which had been lost to bus competition. Seven other railroads, the Missouri Pacific, Missouri-Kansas, Texas, Cotton Belt, Rock Island, Santa Fe, Kansas City Southern and Illinois Central also reduced fares in territory where they competed with the Frisco line.

DALLAS PUBLISHER MADE STATE FAIR PRESIDENT

DALLAS, May 15. (AP)—Edwin J. Kist, Dallas publisher, for 26 years director of the state fair of Texas, today was elected president of the organization at the monthly meeting of the board of directors.

Hugo Schoellkopf was elected a director to fill the vacancy caused yesterday by Kist's resignation from the board to accept an appointment on the Dallas park board.

Luther Berwick To Go To Trial Soon

HOUSTON, May 15. (AP)—Luther Berwick of Port Arthur, who once received the death penalty for the murder of William Byrd and on a second trial here recently was given three years, will face trial June 8 before Judge Langston King on a murder charge growing out of the death of Belle Crow of Port Arthur.

Setting of the case was made today after a conference between District Attorney O'Brien Stevens and Defense Attorney C. W. Howth of Beaumont.

Miss Crow and Byrd were shot and killed the night of Oct. 30, 1929, at Port Arthur. The girl had been Berwick's sweetheart and the shooting occurred when Berwick found her in Byrd's company.

Lower Wages Rapped By Secretary Doak

HOUSTON, May 15. (AP)—Secretary of Labor W. N. Doak today issued a statement saying the administration "would continue its efforts to prevent a reduction of wages."

Doak, here attending the convention of the brotherhood of railroad trainmen, said: "In my judgment it is a most unwise policy to reduce wages, because it will tend to limit construction and further augment possible depression. And especially is this true in that foreign trade has fallen off and makes necessary increased buying at home."

"The administration will continue its efforts to prevent a reduction of wages. America cannot afford to reduce living standards or the wage level. Our standard of living has made us the leader among the nations of the world, and it would be a decided backward step to do anything to change this standard."

TO DEDICATE AIRPORT

GAINESVILLE, May 15. (AP)—Gainesville's new airport, two miles north of the city, will be dedicated May 27 with an appropriate celebration.

Cincinnati Reds Beat Philadelphia

PHILADELPHIA, May 15. (AP)—The Cincinnati Reds pounded four Philadelphia Red Sox hits and defeated the Quakers, 10 to 5, today in the first game of a double-header. Cuccinello of Cincinnati and Arlett of the Phils hit homers.

The score: Cincinnati—000 015 031—10 15 1 Philadelphia—201 000 200—5 10 1

Kidnaping Case To Stay In Navarro

DALLAS, May 15. (AP)—Five men charged with kidnaping Robert Cerf, 28, son of Isaac N. Cerf, Corsicana bank president, last December and collecting \$15,000 ransom, will be prosecuted only in Navarro county, it was decided today after a conference between District Attorney William McCraw and County Attorney Cleo G. Miller of Corsicana.

Miller and Sheriff Rufus Pevehouse were known to have discussed the advisability of transferring the cases here for trial or possibly filing more serious charges in this county as Cerf was held captive in Dallas and the ransom was paid here. The officers intimated that should evidence in the kidnaping trials show the men used irreverent in the abduction, prosecution for a capital offense might be in order.

VATICAN FILES PROTEST

VATICAN CITY, May 15. (AP)—Federico Tedeschi, papal nuncio at Madrid, it was announced here today, had been instructed to file a formal protest with the Spanish republican government in which he will make strong representations regarding the burning of Spanish churches and convents and lack of protection for them this past week.

Although no official information was given as to the contents of his probable protest, it was said that the church assumed that in view of the great property damage the church suffered that reparation will be asked.

RULE ON MARRIAGE

HALLETTVILLE, May 15. (AP)—The question of whether married women should be employed in the public schools has been decided by the Hallettsville directors in this wise.

Cook Is Drowned As Dredge Sinks After Collision

GALVESTON, May 15. (AP)—The steamer Liberator outbound from Texas City, rammed and sank the government dredge Miller in the Texas City channel, shortly before noon today. One man, a member of the dredge crew, was reported drowned.

John Tibb, cook on the dredge, was missing and was believed drowned. The dredge Miller belonged to the government engineering department and was engaged in maintaining the Texas City channel. The Liberator steered by the see of the collision for several hours. Extent of damage to the steamer was not known.

Injunction Sought By Houston Firm

AUSTIN, May 15. (AP)—The personnel service corporation of Houston today applied in district court here for an injunction against R.

B. Gragg, state labor commissioner. The petition alleged the company's permit to operate as an employment agency had been cancelled by the state labor department without right. The company denied violating any of the employment provisions and said the cancellation was ordered without the company being given a definite statement of the complaint and a fair hearing. The petition sought to enjoin Gragg from interfering with the company's continued operation.

DEMAND CHEAPER WATER

MEMPHIS, May 15. (AP)—Declaring Memphis had the highest water rate of any city in Texas, the city commission passed an ordinance demanding lower rates of the Texas-Louisiana Power company. The ordinance set a new rate schedule and demanded that it be approved by the utility company.

Legation Liquor May Be Probed

WASHINGTON, May 15. (AP)—Representative Schafer intends to ask a committee of the next congress to determine "why law enforcement officers of the federal government are permitting foreign representatives to violate the eighteenth amendment."

Referring to incidents related to the recent raid by liquor thieves on the Salvadorean legation, Schafer wrote to Secretary Stimson today that "it appears indefensible for officials of the government to permit violations of the prohibition law" by diplomats.

Schafer, a Wisconsin anti-prohibitionist, was a republican member of the last house expenditures committee and said in a statement to-

day he would offer a motion to that committee at its first meeting "providing for a thorough investigation of the embassy and legation liquor question."

Instead of granting 24-hour police protection for "privately-owned beverages," the anti-prohibitionist asserted, "it would seem more appropriate for law enforcement officers to apprehend and prosecute the foreign and confiscate their illegal stocks."

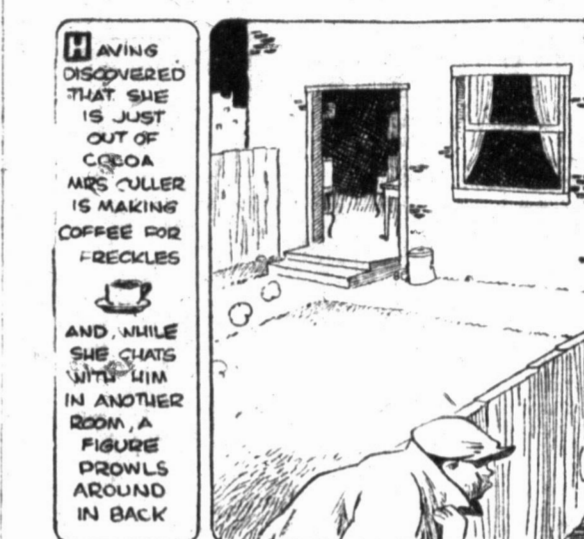

In the letter to Stimson, Schafer requested a report on statutes under which diplomatic liquor is admitted. It is his recollection, he said, that the government "has been permitting legations and embassies to violate the mandatory provisions of the eighteenth amendment."

and was enacted thereunder by reason of a statute enacted many years before the eighteenth amendment was incorporated in the constitution.

HAIR WITH THE GLINT OF YOUTH

You've washed it frequently, you've tried innumerable shampoos, you've fretted and fumed...yet your hair is still a "problem." Lustrous, brittle hair, a dry or an oily scalp is not so much the result of lack of care as it is lack of PROPER care.

Such a condition can not be overcome by haphazard methods. Individually prescribed treatments offer the only possible remedy. At the Georgette, a qualified hair and scalp expert will make her diagnosis after careful examination. Future treatments will follow the dictates of these suggestions. Hence, we will overcome scalp deficiencies by scientific, not haphazard means.

Mother of Marrs Is Dead at 86

STEPHENVILLE, May 15. (AP) — Mrs. F. M. Marrs, mother of S. M. N. Marrs, state school superintendent, died at her home here early today of heart disease aggravated by the infirmities of age. She was 86 years old.

Mrs. Marrs had been confined to her room more than a month after a fall from the porch of her home. She had been in failing health a year. Her death had been expected for a week.

She was born at Ganley Bridge, Va. (now West Virginia), in 1843. In 1861 she married Francis Marion Marrs and they came to Texas in 1892. Mr. Marrs died in 1917.

During the Civil war, Mrs. Marrs cared for her father's family, the older sons being in the army. She is survived by two daughters, Miss Mary Marrs, mathematics instructor at John Tarleton college here, and Mrs. W. B. McAdams of Dallas, and five sons: S. M. N. Marrs; A. M. Marrs of Stephenville, J. E. Marrs of Thuber, J. F. Marrs of Smajville, and W. R. Marrs of Waco.

Funeral services will be held from the First Baptist church here, in charge of her pastor, the Rev. W. H. Andrew. She had been a member of the Baptist church more than 70 years.

Saved

There's John Trout, farmer of Manor, Pa., holding the gigantic eagle he shot when it swooped low and tried to snatch up Trout's five-year-old daughter, he says. The bird, with a wing spread of seven feet, failed in its first attempt to get the child but soared low again and was killed.

INSTALLATION IS HELD HERE BY ART GROUP

Officers were elected and installed at a meeting of the Pampa Art League Thursday evening in the home of Mrs. Jack Mason. Eighteen members attended.

Mrs. O. H. Booth was named president; Mrs. J. R. Craig, first vice-president; Mrs. A. B. Goldstein, second vice-president; Mrs. John Andrews, treasurer; Mrs. Jack Mason, secretary.

The group voted to meet next year on the first and third Thursday afternoons of each month, beginning the first Thursday in September.

During the study hour, Mrs. Craig was in charge of an interesting lesson on the life and works of Michel Angelo.

R. C. Wilson, Judge S. D. Stennis and Charles Thut are attending federal court in Amarillo today.

FLOWER THEME CLEVERLY USED IN BRIDGE LUNCHEON

WATCH BRIDGE CLUB IS GIVEN PRETTY AFFAIR

Perdute, Rosemont, Greenwood, review—these flower-like names are given to the four tables used for the bridge-luncheon given for the Dutch Bridge club at the Wheeler hotel yesterday. Mrs. E. Berry was hostess for the occasion.

Each member also was given a new name. Rose-filled bowls were set as centerpieces, and flower designs were seen in tallies and score cards.

Mrs. Frank Robinson was presented a lovely painting for high score among members. Mrs. L. R. Hartell was given a pillow for second high score. Mrs. Carl Boston was given a unique bread board and knife for high score among guests.

The following were present: Mesdames Bane Robinson, John Hagard, Hampton Waddell, W. J. Lang, Frank Robinson, L. M. Williams, E. Broughton, Frank Allison, C. M. Arlock, Ben Reard, L. R. Hartell, E. Mason, Carl Boston, E. A. Shackleton, and the hostess.

Stork Brings Triplets—16 Pounds

Twenty-four hours after Mrs. Jeff Wingo, wife of a Kansas City ice-man, gave birth to the triplets with whom she is shown above, she posed for this picture. Two of the new arrivals are boys, weighing five and a half and six pounds. The third is a girl, weight five pounds. There are four other Wingo children. The father says: "Why worry about living in a two-room house when we have blessings like these?"

PROGRAM GIVEN GUESTS DURING OPEN MEETING

More than 200 patrons of Horace Mann school gathered at the school Thursday afternoon to view work done by the pupils during the last year.

Visitors were met at the door by a receiving committee and were asked to register in a guest book.

Pupils from each room then acted as hostesses, showing the visitors the work done by each class.

Punch was served and a varied program given in the school auditorium.

Members of Horace Mann faculty and Parent-Teacher association of 11 morning expressed their appreciation to Malone Furniture store, Pampa, Furniture store, Emily Flower shop, Pampa Florist, and a number of individuals for their contributions to the success of the event.

TWO HUNDRED WILL ATTEND SCHOOL EVENT

Members of the school board and their wives, the president of the high school P. T. A. and high school faculty members will be among special guests at the annual Junior-Senior banquet this evening at the Schneider hotel. Plans are being made to entertain 200 persons.

Various committees and the Junior sponsors, Mrs. Lucille Massa, Miss Josephine Cariker, and Miss Zenobia McFarlin, are planning the event.

The program will proceed as follows:

Welcome address, Frances Finley, president of the Junior class; toast, "Pop" Fraser; toast to seniors, Frances Finley; response, Jim Ayres, president of the senior class; dance, Christine Manning and Joyce Turner; vocal solo, Supt. R. B. Fisher; short talks by J. M. Dodson, Principal L. L. Sone, and Supt. R. B. Fisher.

The class meets at the church at 8:45 a. m. Mrs. Ewing Leach is teacher and Miss Ruth Henry is class president. The group is composed of unmarried young women above 20 years of age.

Nation's Planes Are Massed for Giant Maneuver

DAYTON, O., May 15 (AP)—The army's flying forces rallied today from all points for the greatest peace time gathering in the nation's history.

Scores of planes, many delayed by bad weather on transcontinental trips, arrived hourly. The number totaled 300 by noon.

Incoming ships began arriving at 9:30 a. m. Among the early arrivals was the 701st pursuit group from Kelley field, San Antonio, Tex., composed of 54 fighting ships and 10 transports.

FAIRFIELD, DAYTON, O., May 15 (AP)—Hundreds of army airplanes hopped off from fields within a radius of 300 miles of this army air corps center early today for concentration for the annual army maneuvers.

The more than 670 ships reached scattered stations throughout the middle west last night and took off today at designated times in order that there would be no confusion in their arriving at Wright field and Fairfield.

Upwards of sixty planes arrived here yesterday. Bad weather east of the Appalachian mountains held up some ships, but Brig. Gen. Benjamin Foulis, in charge of the maneuvers, said he would be satisfied if all arrived by noon Saturday.

Despite the fact that 672 planes have been on the move from the four corners of the country for the past several days, reports of accidents have been few. Four ships were down in various parts of the country yesterday. One nosed over at South Euclid, near Cleveland, and broke a propeller.

A transport plane was down near Waco, Tex., with a broken oil line; another came down with a connecting rod burned out at Argyle, Tex., and a fourth landed at Short Field, Ill. No one was hurt in forced landings, although all the planes carried passengers.

O. C. Perkins and J. G. Christy returned yesterday from a visit to the east Texas oil fields.

Local Delegates To Convention Return

The Rev. F. W. O'Malley, minister of the First Christian church, and Mrs. C. L. Thomas, Mr. and Mrs. Roy McMillen, Mr. and Mrs. L. Lester, and Mrs. Hugh Isbell have returned to Pampa after attending the 46th annual Texas Christian convention in Wichita Falls.

The Rev. O'Malley reported about 500 delegates in attendance. One important decision was that the state should be divided into 50 or 60 pastor units which would take the place of larger districts. This move is intended both to increase the efficiency of the work done and to reduce overhead expenses.

Briand Starts Work in Geneva

GENEVA, May 15 (AP)—Aristide Briand, French foreign minister, came to Geneva today for what may be his last great efforts in behalf of a Pan-Europe, with it was understood, a plan by which France is to help the nations of Europe past the economic slump.

The foreign minister, whose policies many regard as discredited at home in his defeat for the French presidency, was expected to present each national delegation of the commission studying European federation here a copy of plans for a new project to obtain their cooperation for common economic betterment.

Dispatches from Paris, said the plan was in three parts, the first dealing with European agricultural problems, the second with industrial problems, and the third with the continent's financial problems.

The feature of the first part, the Paris dispatches said, is European preference for central and eastern nation's wheat, with a central sales office for wheat from those countries and abandonment of the most favored nations' clauses.

Death Report Is Temporary Error

CHICAGO, May 15 (AP)—An affidavit was made yesterday by Isaac Irvin, a negro ex-soldier, that a report of his death was "temporary untrue."

"I suppose," he said, "that it will come—true sometime, but in the meanwhile I would like some pork chops."

He made this remark in applying to a newspaper for aid in getting some of his bonus money he said he couldn't imagine "how such a story got started unless they mean they expect me to be dead before I get that money."

New Poultry And Fish Firm Opens

Pampa's newest business is the Bee-Free Poultry & Fish company, with W. J. Emmel and George Muller as proprietors, located at 314 North Cuyler, across the street from the high school gymnasium.

Mr. Muller is well known in Pampa, having been connected with the Hely-Selly market. Mr. Emmel recently came to Pampa from Pittsburgh, Pa. They plan to have one of the best markets in this section, carrying a full line of country produce and fish in season.

NICHOLS RECORD APPROVED

NEW YORK, May 15 (AP)—Ruth Nichols, who is planning a solo flight to Paris, received official recognition today from the National Aeronautic association as holder of the world's speed record for women.

Flying at Detroit April 13 in the monoplane in which she will attempt to fly across the Atlantic, she attained a speed of 210 miles an hour. The previous record, 131 miles an hour, was held by Amelia Earhart.

COLLEGE IS PROPOSED

AUSTIN, May 15 (AP)—A resolution to appoint a committee to investigate the cost of establishing a state dental college at Galveston or Houston was referred today to the house committee on education. It was introduced by Representative Davall of Fort Worth who claimed a nonpartisan stand on the question.

LARRY COX IS HERO IN FORT WORTH GAME

Manager Robertson Charges Out to Whip Spudder Hurler But is Held Off.

By the Associated Press Thursday's hero in the Texas league was Larry Cox, right fielder for the Fort Worth Cats.

Cox's circuit wallop in the fifth inning with the bases loaded gave the Cats a 7 to 3 decision over Galveston.

A first fight and a ball game served as bargain day for Wichita Falls fans.

It was the same old story for the Dallas Steers who dropped their third straight to Beaumont, 6 to 3.

SENATORS IN GREAT STRIDE IN THE WEST

Athletics Win Sixth Straight By Beating Chicago, 5-2 on Walberg's Hurling.

By BUGH S. FULLERTON JR. Associated Press Sports Writer. The Washington Senators had to go west to hit their stride in the American league pennant campaign.

In the west, Washington has won four games out of five—only a fair performance compared to the clean sweeps scored so far by the Philadelphia Athletics and New York Yankees.

The Athletics won their sixth straight game yesterday, downing Chicago 5-2 on a fine pitching performance by Babe Walberg.

Look Out Betty! Mrs. Harper's Ready

Mrs. Anna McCune Harper, American women's No. 1 tennis player, is going to England in attempt to wipe out in the Wimbledon championships her defeat last year by Miss Betty Nuthall, English star, for the American title.

BY RUSSELL J. NEWLAND Associated Press Sports Writer OAKLAND, Calif. (AP)—America's first ranking woman tennis player, Mrs. Anna McCune Harper, is going to compete at Wimbledon this year, but the lure of the British championship is no greater than her desire to match strokes again with that young English star, Miss Betty Nuthall.

Miss Nuthall won the American title last year by defeating Mrs. Harper at Forest Hills, N. Y. The two rivals will meet this summer at Wimbledon and Mrs. Harper hopes to do much better.

"Miss Nuthall beat me last year. I've learned a lot since then. Practiced eight months, three and four times a week. Mr. George Hudson, my instructor at the Berkeley tennis club, has had me devote much of my time to developing speed of service and my ground strokes."

"You know, I never relied much on speed before. Had a variety of strokes and put plenty of spin on the ball. It is different now. I hit the ball more flatly. Mr. Hudson says I have developed a lot more power in my drives. My footwork is better now, so all in all, I think I will be ready for the English and our own national championships."

"Betty Nuthall is a wonderful player and a mighty nice girl. This is my first competitive tennis in England. Of course I hope to win the title, then again I am just as anxious to meet Miss Nuthall again. 'Have I formulated a new plan of strategy? Maybe! Oh, no, I can't tell about it. That would give my opponents a chance to prepare. It won't be giving away any secrets, though, to tell you I remembered a few weaknesses shown by Miss Nuthall, even in beating me. My instructor also discovered I wasn't taking full advantage of my left handed playing."

"You know, a left handed player has a certain advantage over a right hander at the start. There are only a few of the one kind and a lot of the other. 'Because there are so many right handers, their defense is worked up almost entirely for use against right handed competition. This is where my added stroking power should help out."

Mrs. Harper, whose home is in Oakland, is highly confident of success on her Old World invasion. She is 5 feet 4 1/2 inches tall and her playing weight is 116 pounds. She is considerably lighter than such rivals as Miss Nuthall, and her countrywomen, Miss Helen Jacobs and Mrs. Helen Wills Moody,

The treasurer's report was made by E. G. Keese of Stamford, showing a cash balance of \$15,480. On motion of Mr. Carter, the convention voted thanks to Manager D. A. Barden, and President Charles Combes for their successful management. The motion recalled the \$28,000 debt of two years ago.

Resolutions from the industrial conference, pledging support to the program of Progressive Texans, Inc., were approved and the convention voted favorably on a motion of the convention work-committee urging legislation that would minimize the danger of hog cholera,

but this matter of weight advantage was dismissed with the comment: "Those who weigh less, have less to pack around."

Korea-Trained Tennis Player New Coach of Columbia Squad

NASHVILLE, Tenn. (AP)—Donald Cram, who learned his racket in far-off Korea, has been appointed tennis coach at Columbia, the largest university in America.

Cram, still a boy of 23, began playing the game at 13, while his father, Dr. W. G. Cram, of Nashville, was a missionary of the Methodist Episcopal church, south, in Korea.

Donald, or "Don" as he is better known, ranks 25th among this country's tennis players. He achieved this honor—as well as numerous others—without the benefit of coaching and in spite of only a moderate build physically.

Off the court he's a friendly, soft-spoken young fellow, rather modest. On the court, though, he is not so easy going. As tokens of his aggressiveness and alertness he holds awards: having been southern intercollegiate champion in 1927, state champion three times in succession, city champ several times and foremost in his club on many occasions.

Not all of Don's time, however, is devoted to tennis. He found time while taking his A. B. degree at Vanderbilt university here to captain the basketball team one year and do well enough scholastically to be elected to Phi Beta Kappa, honorary scholarship fraternity.

It was natural enough that he should captain the Vanderbilt tennis team. He did so every year he was there except his freshman year.

Most of Don's spare time, his father said, is spent on the court. "Tennis," Dr. Cram said, "if you're to get anywhere with it, takes lots of time. When he's not playing he's usually around home. He reads a great deal."

Cram's taste in literature runs to "solid stuff," his father said. He reads everything he can get on tennis. That, the doctor declared, and playing with good tennis players was about the only ways he had of picking up pointers.

Donald is working toward his M. A. degree at Columbia, majoring in commerce and statistics.

tending to strengthen hogs as collateral for farm loans. An additional resolution from the breeder-feeder conference recommended that the West Texas Chamber of Commerce sponsor a feeding day, where proper methods might be studied within the feed lot.

Dr. Butler declared that agriculture had never kept up with development of natural and governmental handicaps, and encouraged the aiding of farm conditions through economic methods rather than reduced production plans advocated by the government.

W. T. Latham underwent a minor operation at Pampa hospital this morning.

Madrid Police Chief Is Ousted

MADRID, May 15. (AP)—Carlos Borrero, chief of police of Madrid, was removed from office today by government order, charged with laxity in putting down disorders which culminated this week in the burning of ten churches and church buildings here. Ricardo Herranz was named in his stead.

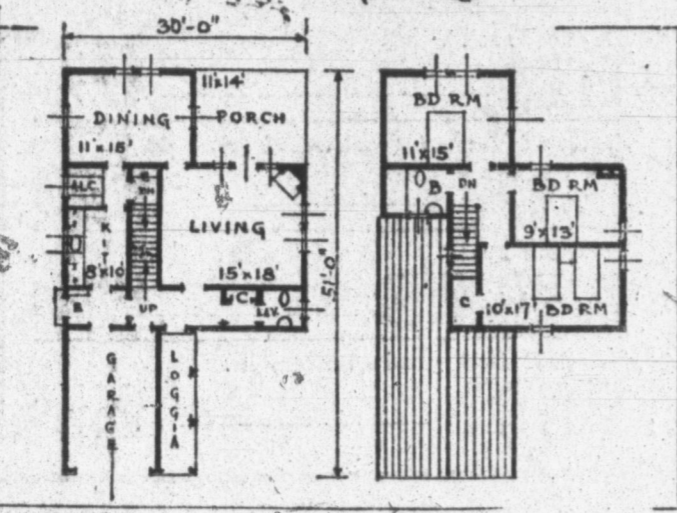

The minister of interior, Miguel Maura, placed in charge of suppression of the disorders, said, after a protracted cabinet meeting last night, the government was "highly pleased" with resumption of order throughout Spain and the cabinet did not consider it necessary to meet again to consider the situation until Monday.

Meeting in an unauthorized assembly last night led to arrest of 14 communists by police who said they found a large quantity of arms and ammunition and many documents which indicated widespread activity by the organization.

Wheat Surplus Plan Is Proposed

WASHINGTON, May 15. (AP)—A suggestion that the wheat surplus be controlled by a plan involving a nation-wide acreage reduction agreement was vetoed today by Chair-

man Stone of the federal farm board.

Stone, in a letter to State Senator F. J. Wilmer of Rosalia, Wash., said the problem's solution and higher prices lay in individual effort toward smaller crops. He held as impractical control measures which are contingent upon participation under contract of 75 per cent of the growers.

Wilmer, an official of the North Pacific Grain Growers' Cooperative association, had advanced a proposal entailing financial aid and moral support of the board. It encompassed a nation-wide campaign to obtain control of the next three crop surpluses and to limit acreage in 1932 and 1933 by a sign-up of at least 75 per cent of the farmers in a surplus control association with a three-year membership contract.

Republican Repeats Charges On Walker

NEW YORK, May 15. (AP)—Alan Fox, chairman of the city affairs committee of the National Republican club, whose attack on Mayor Walker's private life was censored by the club members, today issued a pamphlet repeating the charges. The committee's report was submitted April 21 at a meeting of the club. It met severe criticism in debate and references to the mayor's life were expunged. Fox has sent to the club officials a pamphlet containing the original committee report. "In the final pages of this report are three sentences deleted by vote of the club," Fox told newspapers the pamphlet was printed at his expense and that distribution was optional with club officials. "I thought people would be interested in knowing what the club had voted to eliminate," he said.

"He has joked, junketed to race tracks, sat up all night at wild parties, entertained Hollywood and ignored the city's problems. Every man of course, has a right to live his private life as he sees fit, so far as consistent with his obligations to others, and we have no concern with Mayor Walker's private escapades except insofar as they interfere with his public duties. The mayor of New York has no right to allow the vagaries of his private life to interfere with reasonable attention to the responsibilities of his great office."

INDIANAPOLIS, May 14. (AP)—The national executive committee of the American Legion late today directed Ralph T. O'Neil, National commander, to petition President Hoover to call a non-political conference to solve the causes of economic depression.

About New York

NEW YORK—Penguins, to most people, are those funny birds standing on the ice, but in the background of polar pictures like little men in cotton coats.

But to Dr. Robert Cushman Murphy they have been a fascinating life study.

Dr. Murphy is curator of oceanic birds at the Museum of Natural History, itself one of the most fascinating collections of curiosities in Manhattan.

Brooklyn-born in 1887, he has spent most of his life on the wild shores of Long Island, his family having settled here seven generations ago. Yet he has spent much time on the high seas, in visiting remote islands in the sub-antarctic. He is one of the world's unsung adventurers.

WHALES FRIENDS
His penguin interest developed from his scientific work with bird life.

As a boy he spent his summers sailing with his father's fishing boats. Coasting schooners took him voyaging along the Bay of Fundy and up through the north Atlantic waters. He was still a schoolboy in 1907 when he wrote the first of 200 papers on birds. It was about Mother Carey's chickens, or petrels.

He then started travel on Norwegian whaling ships to the antarctic. His longest stay there was four months on the island of South Georgia.

Murphy had specialized in zoology at Brown and Columbia universities. His doctor's degree is an honor given him by the University of San Marcos in Peru, the oldest university in the Americas.

His longest trip was a year, 79 days of which were passed on the old-fashioned decks of a square-rigger, out of the sight of land, while he studied the oceanographic life around South America and South Africa.

FAMILY GOES, TOO
Tall, well-built, Dr. Murphy suggests an athlete.

His book-plate bears the design of a sea-elephant, another creature the life history of which is in Murphy's notebooks.

Not only does he travel on brigs, sailing vessels and any other available form of water craft, but his wife and three children have accompanied him on every scientific jaunt save the first. When his youngest child was six he made a 14-day horseback journey into Chile through the lakes and over the Andes mountains.

Dr. Murphy is especially proud of the emperor penguin which stands stuffed, at the entrance of the museum. The bird was frozen in the antarctic and brought to New York in cold storage. Thus it was kept in correct posture and proportions for the mounting by a taxidermist.

The doctor also is an authority on that bird of fate in Coleridge's "Ancient Mariner"—the albatross. By way of ornamentation in his

office there is a little dish of pies. They came from the of a penguin.
A. L. Curry of Waco is his sister, Mrs. D. L. Lunaford on a business trip here. Mr. arrived in Pampa Wednesday.

ENU the FAMILY

By SISTER MARY
NEA Service Writer.

These dishes are extremely
and appetizing during the
days of summer.

In addition to the attractiveness
and fine concoctions, we find
it is an important and whole-
protein food; that it is not
easily digested itself, but as-
sists the digestion of other foods,
tends to increase assimila-
tion making it possible for the body
to get the maximum amount of
nutrient in foods.

Chemists tell us that "gela-
tine of animal origin, being pre-
pared from the sinews, connective
tissues and fresh bones of the steer
carefully regulated processes of
washing and extracting with
water, filtering and drying."

There are several brands of gela-
tine on the market, generally pre-
pared in granulated form. The av-
erage amount needed to jelly one
cup of standard measuring cupful
liquid is one tablespoonful. This
is the amount of liquid used
often and dissolve the gelatine
flavoring. However, during
weather, or when nuts or
are added, or if the jelly must
be made quickly, an extra half ta-
blespoon of the granulated gelatine
is added for each pint of liquid.

Directions Are Available
No matter what brand of gela-
tine is used, follow the directions
on the package. Every manufac-
turer is anxious to do all in his pow-
er to make his product one of the best
success and the instructions
accompanying each package are de-
signed for this end. Often after
first using a few experiments
it is possible to suit individual
tastes.

When fruit or any other solid ma-
terial is added to a jelly, it should
be added until the liquid has
become thick. This prevents the
solid material from floating to the top and be-
ing in one layer through the
jelly. The thickening jelly holds
solid material in suspension and
keeps it to be distributed evenly
throughout the whole.

For soups and jellied meats re-
quire a stiffer jelly than that usu-
ally liked for desserts. For these
use two tablespoonfuls of gelatine
to be used for each quart of
liquid.

The various gelatine sponges and
cakes have certain distinguishing
features. A gelatine sponge such as
the Pudding merely adds the
stiffly beaten whites of eggs to a
custard-like mixture made with
gelatine, egg yolks and milk is the
basis for Spanish Cream. This is
made in a double boiler and allowed
to cool. Then the stiffly beaten
whites of eggs are folded into the
mixture and the whole is turned into
a mold to chill and become firm.

Strawberry Bavarian Cream
One quart berries, 1-2 table-
spoons gelatine, 1-2 cup cold water,
1 egg, 1 cup sugar, 1 cup whipping
cream, few grains salt.
Wash and hull berries. Crush
and rub through a coarse sieve, re-
serving a few whole ones to garnish
the mold. Soften gelatine in cold
water for five minutes. Beat egg
yolks with sugar and add strawberry
pulp and juice. Dissolve gelatine
over hot water and add to first mix-
ture. Cook over hot water until mix-
ture begins to thicken. Remove at
once from heat and cool. Add
whites of eggs beaten until stiff and
cream whipped until firm with salt.
Turn into a mold garnished with
whole mixtures and put on ice to
chill and become firm.

David Belasco Mourned Today

NEW YORK, May 15. (AP) — The
theatrical world was in mourning
today for David Belasco, grand old
man of the stage, creator of stars,
wizard as director and producer.

In his 77th year, he died of
heart disease yesterday after virtu-
ally a life-time devoted to the
stage. "I shall retire when I am
carried feet first out of the theater,"
he said on his 75th birthday. He
never did retire and there was a
dramatic touch to his death. "I
am fighting for my life," he said
as his daughter Reina, Mrs. Morris
Gest, went to his bedside in the
Hotel Gladstone, a moment before
the end.

True to the Belasco tradition, his
latest play "Tonight or Never" went
on as usual last night.
Mr. Belasco was stricken but a
few hours before his death. He ap-
parently had recovered from a
series of pneumonia which had kept
him absent several months last win-
ter. Earlier this week he had re-
served eight tickets for the fights
tonight in Madison Square Garden.
He will be buried Sunday in
Linden Hills, (N. J.) cemetery by

the side of his wife, Cecilia Love-
rich, whom he married in San
Francisco.

MAN DOESN'T REPORT
Sheriff Lon L. Blansett received
word from the state prison system
this morning that E. H. Brady, who
was given a one-year sentence to
the penitentiary on a liquor charge
had not reported at the Huntsville
prison. He was sentenced at the
beginning of the current term of
court, and was subsequently grant-
ed a furlough.
