PRICE 5 CENTS

HUMBLE OFFICIAL IN OIL PLEA

President-Elect Will Be Given Free Hand To Balance Budget

CHAUFFEUR KILLS WIFE, DAUGHTER AND HIMSELF

Get ready for something good. When we recommend an entertainment, we do so in all sincerity. We do recommend "Love-In-A-Mist", the Little Theater's production to be presented at LaNora theater Friday evening. Meet us there!

As we change the old calendar and insert fresh new leaves, we wonder much. We have a hunch that this country will suffer along without radical changes in its governmental structure, that things will gradually get better that the "new deal" won't mean turning over a new leaf.

Thanks to two of Santa's helpers, our Christmas was better than expected. B. S. Via's Oregon cheese was even better than we thought after hearing his praise of it, and Bob Brashears' carton of cigars from Childress also pleased the editorial department. Our thanks to both of you.

The West Foster grouch says things could be much worse. For instance, he could go back to his boyhood diet of cornbread, fat lard, corn meal mush for supper, and fried mosh left-overs for breakfast.

There may not be much truth in technocracy as now outlined, but at least it does not claim to be a means by which a dead man can take his wealth to the next world. Man's greatest earthly goal is to learn how to live. Real living is still enjoyed by few persons, rich or poor.

Ferry, the office mouse, says the children he sees are glad that Christmas is over and with it their strain of trying to make the adults think that children believe all the tales told at this season.

Yesterday this column, in reviewing the outstanding news events in the world for the year, stressed the fundamental news source for the most interesting events of the year—the economic situation. Locally, oil and wheat are the commodities whose fluctuations were most important.

The Oil Situation

Control of the East Texas field by martial law, with a continuation of similar tactics in Oklahoma, laid the basis for a price structure which was fortunate in itself, although the short production severely limited production, marketing, lease, and royalty incomes. From a statewide standpoint, the conservation of a great natural resource was vital. Small producers and refiners, however, found it almost impossible to operate at a profit under proration, and constant attacks upon martial law and the oil and gas legislation were made. Recurring sessions of the legislature bolstered statutes against court action, but martial law was discredited by the United States supreme court. Lately, with storage depleted, winter coming on, martial law removed, and infractions of proration reported, price structures were lowered to a degree which brought criticism upon major companies. Those companies, in turn, blamed court attacks upon proration and violation of state laws, and pointed to some producers who consistently sought to sell oil below the prevailing posted prices. East Texans clamored the procession of events by protesting against the bottom hole pressure combination basis of proration, with the result that the East Texas field is at this writing shut down for testing of the thousands of wells. More locally, the railroad commis-

THREE GUESSES

(Answers on Page 6)

EMPLOYEE OF FAMED FAMILY RUNS AMUCK

DISAPPOINTED BECAUSE HE DID NOT GET LEGACY

BEQUEST IS LEFT OUT

WAS IN SERVICE OF STUDEBAKERS FOR 27 YEARS

CHICAGO, Dec. 29. (P)—Deprived of an anticipated \$5,000 legacy by discovery yesterday of a new will of the late Clement Studebaker, Jr., Peter Peterson, the Studebaker chauffeur for 27 years, shot to death his wife and daughter and then killed himself today.

Peterson telephoned the police at 9:50 o'clock this morning and then called Clement Studebaker, III. He said he had just slain his wife and daughter and would end his own life in a moment. He asked them to come for the bodies.

Police rushed to the North Side flat and found all three dead, each shot through the right temple. Peterson, 60, lay beside his wife's body on a divan in the sun parlor. Their 20-year-old daughter, Pauline, a senior in Northwestern university liberal arts college, was in her bed. The police believe the father took her life first, then, the shot falling to awaken Mrs. Anna Peterson, stepped to her side and slew her.

A bequest of \$5,000 to the veteran chauffeur had been written in the earlier will of the late utilities magnate, member of the South Bend automobile manufacturing family.

Yesterday, however, a later will

(See SLAYING, Page 6.)

'DAD' PULLEN DIES SUDDENLY AT HOME HERE

Well-Known Figure Is Overtaken By Death

For the last 10 days Pampans have missed a familiar face on the streets. Thomas L. "Dad" Pullen fell and injured his hip but this morning they were saddened to learn of his sudden death at the home of his son, W. C. Pullen, on East Browning avenue. Death was caused by heart failure.

Mr. Pullen was 81 years old. He was born in Alabama but moved to Wood county with his parents when a child. He came to Pampa six years ago with his sons and since that time has been a well known figure with his long white beard and sunny smile. He was known to more than half the residents of this community as "Dad" Pullen and many times dozens of friends would gather in front of the City Shoe shop, operated by his son, to talk with "Dad" while he sat in the sun.

Funeral services will be conducted at 2 o'clock tomorrow afternoon in the chapel of the Stephenson Mortuary, with the Rev. C. E. Lancaster, pastor of the First Baptist church, in charge. Burial will follow in Fairview cemetery. Pallbearers will be R. E. Sprinkle, J. B. Barrett, Jess Reeves, John Dietz, Grover Durham, and John I. Bradley.

I HEARD--

Umpteen college students home for the holidays trying to get into the basketball game for 10 cents, "Just for old time sake" they remarked.

H. G. "Friday" Brandin being kidded about the non-arrival of the snow he predicted for Christmas day.

WIDELONG ACTIVITIES OF B. C. D. IN 1932 OUTLINED IN REPORT JUST FINISHED

"We have measured up to the job" said George W. Briggs, manager of the Board of City Development, in his annual report reviewing the activities of the Board of City Development and the Junior chamber of commerce.

"Early in the year, the Activities committee consisting of representatives from each board, was appointed. This committee, after serious consideration, drew up a program for the year and two boards then divided the work between the two organizations. Some of the work was to be carried out separately, and some was a joint effort. Very frequently, the seniors have called upon the J. C. C.'s for assistance, and a number of times, especially through the manager, the J. C. C.'s have gone to the seniors for the same purpose.

"So close has this cooperation been that the sentiment has grown up, 'Let's get the job done, regardless of who takes the lead.' This hearty spirit of cooperation be-

tween the older and younger men bids fair for the future of Pampa.

"There were a number of worthwhile projects either brought to a conclusion or furthered in their progress toward the end desired, during 1932.

"For example, a three-year project of great importance to Pampa was brought to a successful conclusion, namely, the completion of the Ft. Worth & Denver City railroad from Childress to Pampa.

"For nearly three years, committees of the B. C. D. and the office force worked long and hard on this project, which culminated in the first train's coming into Pampa July 15. A successful celebration was held, and two special trains carrying representatives from Dallas, Fort Worth, Wichita Falls, and all the towns along the line were brought into Pampa, and visitors entertained. Many were the exclamations of congratula-

(See REPORT, Page 6.)

LITTLE THEATER IS READY TO PRESENT 'LOVE-IN-A-MIST' AT L'NORA TOMORROW EVENING

Comedy Called Best To Be Produced In Pampa

The cast of "Love-In-A-Mist" will be ready, willing and waiting to present that comedy to Pampa theatergoers beginning promptly at 8:15 o'clock tomorrow evening at the LaNora theater, according to Mrs. E. M. Conley, president of the Little Theater and Mrs. T. F. Morton, director of the play.

A play that is built on the unpremeditated lies of its heroine and on the ever-listening ears of its hero should come to some bad end, but "Love-In-A-Mist" doesn't. The end is satisfactory, even though the characters in the mixed-up love affairs manage to hold the divine passion in a mist of more or less stupendous lies.

There are only three persons who are not vitally drawn into the web of fibs. They are Miss Amy Wynn, Miss Louise Barton, Kizzy, Miss Peggy Arnold and Colin, James Todd, Jr., Kizzy and Colin are near servants. Miss Ann treats the "quiet tenor of her way" with perfect assurance.

Rehearsal of the play has been underway for six weeks, and Mrs. Morton is satisfied with the work of her players. Because the cast

(See PLAY, Page 2.)

AUTHORITY TO CUT EXPENSES IS PROPOSED

PLAN TO BE OFFERED AS AMENDMENT TO BILL

LEADERS SPONSOR IDEA

GARNER AND RAINEY TO GIVE ROOSEVELT AUTHORITY

By CECIL B. DICKSON, Associated Press Staff Writer. WASHINGTON, Dec. 29. (AP)—The democratic leadership in the House has tentatively agreed upon a proposal to give President-elect Roosevelt broad authority to reorganize the government to effect economies as a major step toward balancing the federal budget.

The proposal is to be offered by Chairman Byrns of the appropriations committee probably as an amendment to the general deficiency bill late in the present session if it is not put on another supply bill by the Senate.

The president-elect will begin an intensive study of the governmental structure when he goes to Warm Springs, Georgia, next month. Various experts will be summoned there to supply the information he needs in tackling the job of reorganization.

The study was planned by Mr. Roosevelt before he returned to Albany from his recent trip to the Georgia health resort. At that time, he contemplated devoting ten days of his Warm Springs stay to the departmental study.

Speaker Garner today expressed the hope that "Congress might see" (See BUDGET, Page 2.)

Bryan Funeral To Be Held at Toyak

The body of H. G. Bryan, 78, was to be sent to Toyak by the Stephenson Mortuary this afternoon for burial there tomorrow afternoon at 3 o'clock. A niece, Mrs. William Garlick, and Mr. Garlick arrived here from Peewee yesterday afternoon and will accompany the body to Mr. Bryan's former home.

Mr. Bryan died yesterday morning at the home of Mr. and Mrs. John Bossey with whom he had made his home for the past 10 years. He has been in failing health for the past six months. He had been a resident of Pampa for three years. Mr. Bryan's two older sisters reside in Virginia and were unable to make the trip west.

PIMA Merchants Are to Convene

Merchants of the PIMA organization are being asked to meet briefly at the city hall tonight.

Sponsors say that it is a very urgent session, since plans for the future will be made. It is urged that every member of the association attend.

The time of the meeting is 8 p. m.

PAMPA URGED TO TURN INTO A 'BASKETBALL TOWN' SO CAGE TEAM WON'T GO 'IN THE RED'

Harvesters Have One Of Best Teams In History

There are four men connected with the athletic business of the high school who are worried. The men are Coach Odus Mitchell, Joe Smith, business manager of the school system, W. O. Workman, and Aaron Meek, who take in the money at the basketball games.

What worries this quartet is how to get more customers, paying customers, at the basketball games—enough customers to pay expenses. The money taken in at the Plainview games was almost enough to pay expenses of the visiting team, but last night the proceeds were even smaller than the night before, though the game was more important in that Happy is rated as a better team.

The crowds are larger when the girls play, according to Mr. Workman, but, as he points out, this may not be due to the fact that fans are more interested in girls' games than in boys' games.

It has been said that Pampa is primarily a "football town," and that before it would transfer its interest to a lesser sport as basketball, the school must have a winning team. This season, the Har-

(See BASKETBALL, Page 6.)

Nations Assisting Salvation Army

While the Salvation Army home service appeal draws toward a close, it is recalled here how a number of nations are assisting one organization.

One example was furnished by the Rev. A. A. Hyde. He said that the Dutch East Indies recently placed on sale four stamps, the surtax on which will be given to the Salvation Army for its work in the islands.

The words "Leger des Heile" Salvation Army, appear on each stamp. Welfare work in a number of nations is partly financed by selling 5-cent stamps for 10 cents and giving the 5-cent difference to charity. The stamps are in great demand by stamp collectors and dealers.

It was said at Salvation Army headquarters today that organizations which have promised solicitors should furnish them at once in order to complete the canvass.

B. C. D. Agricultural Committee Chosen

The agricultural committee of the Board of City Development will meet at 7:30 o'clock Monday night to discuss plans for the coming year. G. C. Stark is chairman of the committee.

Mr. Stark appointed his committee this morning and selected Ralph Thomas, J. L. Lester, Roger McConnell, Dick Walker, Irvin Cole, James Jackson, Ted Scott, and Lawrence Taylor as members. Mr. Stark has many ideas to place before the committee and an active year is assured.

"The revival of the county fair will be one of the chief concerns of the committee. The board will meet Tuesday night and Mr. Stark will report his program at the meeting.

THE WEATHER

WEST TEXAS: Partly cloudy tonight, preceded by showers in extreme east portion and snow flurries in the Panhandle; Friday generally fair; slightly colder in north and west portions tonight and in southeast portion Friday.

—AND A SMILE
NEW YORK—For two nights after Christmas, theatergoers got a chuckle out of a huge electric sign that flared on Broadway's white way: "Mail your Christmas cards and packages early for delivery before Christmas," it warned. The maintenance man who turns on the lights explained he never reads the signs he turns on; they bore him. Anyway, he said, the sign would remind folks to do their mailings early next year.

FARISH URGES ENFORCEMENT OF PRORATION

THOMPSON IN PROMISE ALLOWABLES WILL BE OBSERVED

QUESTIONED BY ESTES

HEARING BRINGS HEAD OF HUMBLE TO STAND

AUSTIN, Dec. 29. (AP)—W. S. Farish, president of the Humble Oil and Refining company, made a plea to the Texas railroad commission today, in a hearing of oil operators before that group, to stringently enforce its production allowances set for the various petroleum pools of the state.

He pointed out that in the past the fixed allowances had been exceeded as much as 40,000 barrels daily in the East Texas field.

He pointed out that in the past the fixed allowances had been exceeded as much as 100,000 barrels daily, but I do not believe the excess went that high; I think about 40,000 barrels is nearer correct," Farish said.

Ernest O. Thompson, member of the commission, answered "the time has come when the people can be positively assured the allowances will be enforced by the East Texans themselves."

Thompson Promise Definite. "It will not require even a constant to see that the railroad commission's orders in East Texas are respected," Thompson stated. "The situation has developed to an extent an operator in East Texas who does not obey this commission's orders will be ostracized. He would be unable to do business there."

"You have said what the people of East Texas are going to do, Mr. Commissioner, now will the commission do everything in its power to see that its allowances are respected not only in East Texas but in all fields," Farish asked.

Thompson replied that under the law, the commission was empowered-

(See OIL, Page 6.)

HEALER-KILLER

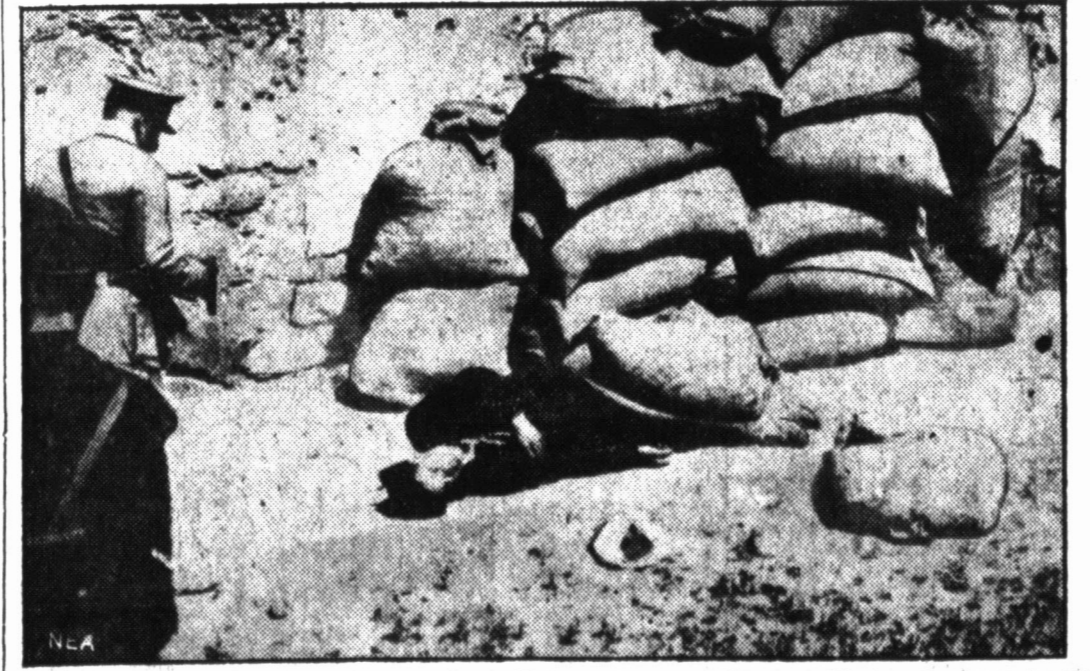

Termed himself "conceived of God," Paul Oakley, 20, above, is held in the "divine healing murder" of three-year-old Bernice Clayton at Linden, Texas. The child's father and Oakley's brother also are held. They are accused of having caused the child's death during "healing" rites in which they sought to "drive the devil" out of the child, an infantile paralysis victim.

BANK ROBBERED

ALTOONA, Iowa, Dec. 29. (P)—Two armed bandits today held up and robbed the Shaffer State bank here of between \$1,300 and 1,400.

AS OBREGON SLAYER MET DEATH BEFORE SQUAD

Jose de Leon Toral, assassin of General Alvaro Obregon, former president of Mexico, is shown in this secretly snapped picture as he met death before a firing squad in Mexico City. The officer at the left has just delivered the coup de grace, a shot in the head, after the firing squad's bullets felled Toral. The picture was by one of the few witnesses at the execution. Toral was placed before sandbags in the prison's bullet-pocked death wall.

FINAL ALL-STAR BALLOT

Contest Editor, The NEWS: After studying the list of nominees, I wish to submit this marked ballot in the election of PAMPA CIVIC ALL STARS of 1932. I have voted for FIVE ALL-STARs as directed.

The nominees in alphabetical order:

- 1. I. Baum.....()
- 2. W. A. Bratton.....()
- 3. Jim Collins.....()
- 4. Mrs. V. E. Fathere.....()
- 5. George Limerick.....()
- 6. Travis Lively.....()
- 7. A. G. (Pete) Post.....()
- 8. Alex Schneider.....()
- 9. Mrs. DeLea Vicars.....()
- 10. C. H. Walker.....()

Vote only for 5 names.

Signed.....

Address.....

(Mail or bring this ballot to Contest Editor, Pampa Daily NEWS, on or before Saturday, December 31.)

NOTICE—It is not the intention of this newspaper to cast reflection upon the character of anyone knowingly and if through error it should, the management will appreciate having attention called to same, and will gladly and fully correct any erroneous statement made.

COMMENDABLE DELAY IN CONGRESS

Congress makes haste slowly. Sometimes slowness to take action results in just criticism of the ponderous law-making body. But no such criticism need be made because congress is not rushing toward repeal of the 18th amendment.

Sanity is nowhere more needed than in congress. Decisions made there affect the whole nation. Mistakes once made can with difficulty be corrected. It is wholly inconsistent for those who accuse the country of rushing into prohibition to insist that the prohibition laws be suspended after brief debate.

Those of us old enough to remember old-time liquor, even hazily, know the evils of the open saloon. We remember the reeling men on the streets, the insults given by force against a man bereft of his judgment. We remember the greed of saloon keepers and brewers in seeking to build up their list of victims by enticing boys into their dives. We remember their political ambitions, their defiance of law abiding citizens. Rush back to such conditions? Never!

Today the young women of the country demand, and largely get, equality. The high school girl wishes the same rules as her brother and her brother's chum—no more, no less. Shall the girls and young women be subjected to the temptations of the saloon and all the saloon crowds stand for?

We have no illusions about the shortcomings of prohibition enforcement, especially in eastern states. But this admission only magnifies the enormity of the problem of dealing with the liquor question. It proves our point that this is no time for haste. Outright repeal of the 18th amendment would in no way solve the problem. Taxes on liquor would be offset by declining tax revenue from other sources, including the soft drink and milk businesses. Liquor would not put any more money in the hands of most laboring men, but would merely transfer it from one business to another.

Bootlegging is a problem. The saloon and the wealth that went with the old-time liquor traffic constituted a problem. Any so-called solution which does not avoid these problems is not a solution. The liquor question can wait until the people have been given jobs, bread, equitable shares in the national income.

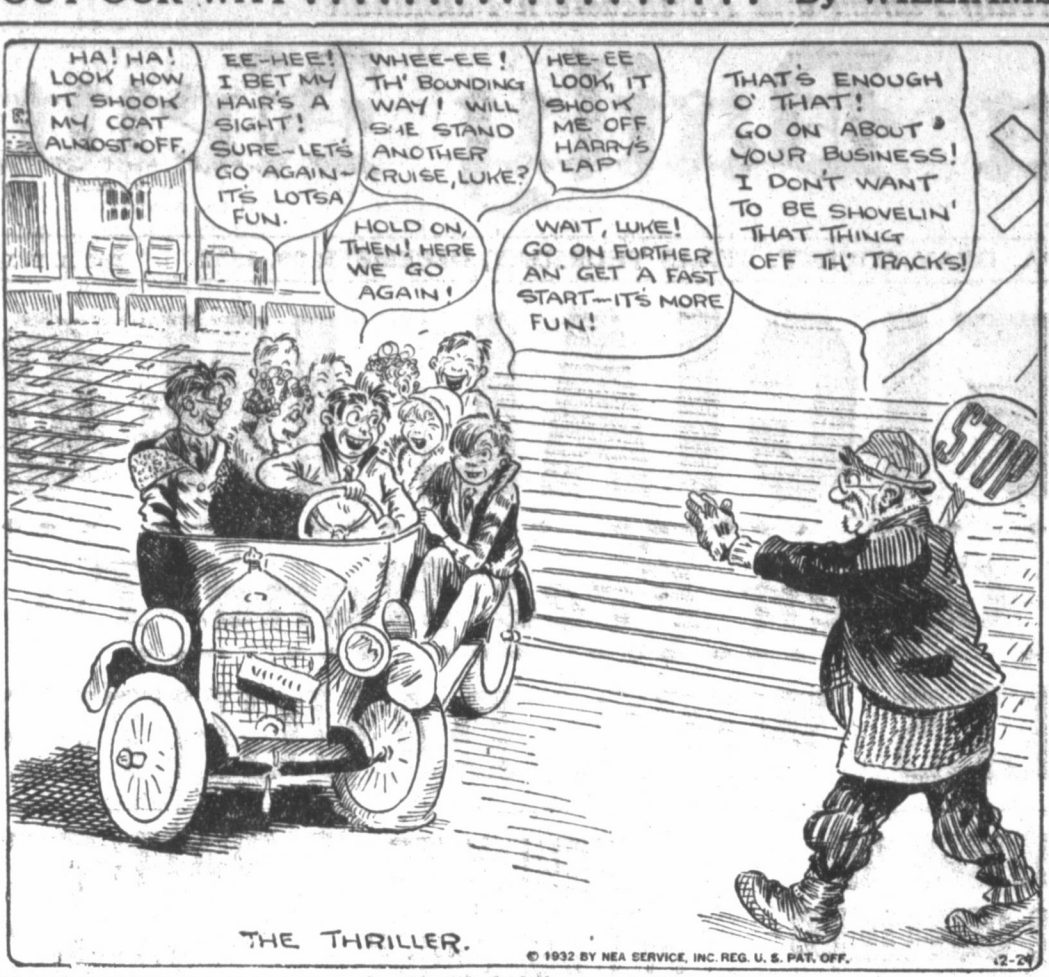

BUDGET--

(Continued from Page 1)

the proposal for executive authority as a step toward reducing government expenditures. Representative Rainey of Illinois, the democratic floor leader, also is a sponsor of the movement. In making known the details of the plan, Representative Byrns said: "I have given the subject of consolidating and abolishing federal agencies considerable thought, and I have concluded that Congress can not effect such reorganization. The president has the machinery at hand to do it, and by giving him authority to place economies into effect, he can expect to be able to rely upon it that they will be put into effect."

Both Garner and Byrns said that Congress would have power to pass upon any consolidations made by the incoming president. Rainey and Byrns said that along with the beer tax and continuation of the federal gasoline levy, it might be possible to bring the budget into balance if this authority is granted. Rainey said the Democrats "hoped that it will not be necessary to impose any irritating taxes" and that the House Ways and Means committee would survey the situation next week. "We can't trust the estimates of the present treasury department as to the income of the federal government," Rainey said. "The Republican treasury department will have to be cleaned out so we can get some reliable information." E. M. Hope of LeFors was a Pampa visitor last night.

PAMPA TONIC OF OUR CITY

(Continued from Page 1)

is suited to the roles to be interpreted and because the comedy is pleasant entertainment, the play is bound to leave a nice "taste in the mouths" of the audience. The play could be a dismal failure if it had a poor cast. It's the sort of play that must have the right kind of a cast to succeed, and Mrs. Morton is not a whit disappointed in the quality of her players.

The Wheat Picture.

The grain situation is more simple but even more difficult. Only the hope of a "new deal" for agriculture under the Roosevelt administration brightens the horizon for the wheat farmer. Fear of another dry year harasses some sections, and all fear a repetition of the over-production and under-consumption which in 1932 sent wheat, oats, and rye at Chicago to new all-time low price levels. Corn went along somewhat better, although also near previous lows. Despite big crops, the 1932 gross income of farmers is reported as less than half the 1932 return. General commodity prices, on the other hand, have declined much, but are still at about 80 per cent of the "normal" levels. Statisticians for the Associated Press estimate that, on the same percentage, wheat should be 84 cents at Chicago instead of less than 45 cents of the time. Wheat futures at Chicago fell to 41 1/2 cents a bushel for December, against 51 1/2 for the December of 1931. December oats tobogganed to 13 1/2 cents per bushel; they were 10 cents higher in 1931. December rye stood as low as 27 cents, compared to 44 1/2 for the previous year. There is room for hope in the fact that the government, the commodity dealers, the grain trade, the exchange traders, and politicians are

alike in their desire to see the farmer receive prices which will leave him a margin of profit. Grain dealers, however, suffered acutely from government competition, point to millions squandered by the Farm Board and demand that the "new deal" be based on some other plan. Wheat growers are chiefly worried over whether the "new deal" will materialize in time to affect the crop now in the ground. On the theory that conditions could scarcely get worse, there is widespread hope that 1933 will bring the long-predicted upturn in agriculture.

Scouts' Roundup Here on Feb. 14 Holds Attention

Although the annual Adobe Walls council banquet here January 10 will be a big affair for adult leaders, Boy Scouts of this territory are giving more attention to the annual roundup here February 14. Plans for this event are being worked out by J. W. Martin and his committee, composed of R. C. Wilson, Dr. C. H. Schulkey, Rev. A. A. Hyde, A. M. Teed, H. F. Maxey of Kingsmill, W. R. Barret, of Hopkins, E. G. Sanders of LeFors, Frank Foster, Bob Seeds, and Supt. R. B. Fisher.

PLAY--

(Continued from page 1)

Most of the work and contests will be indoors. A Scout roundup is essentially a fair, with exhibits of many phases of the work getting attention. The archery, crafts, health, and first aid activities will be stressed. Many boys from troops in other towns will come here for the day.

Miss Barton has been a leader in dramatic circles ever since the Little Theater was organized here. She was practically drafted to try out for "Love-In-A-Mist" because members who had known her a long time knew she was hiding her light under a bushel, and rehearsals have justified that fact. Mr. Todd will be remembered for his myriary role in "The Ghost House" produced at the city hall in October. Having members who of course he uses the conventional negro dialect.

Miss Peggy Arnold, a new member of the Little Theater, will make her first appearance in a major play for that organization. Rehearsal spectators report she will make a scrumptious, high-toned, high-brown "mammy" who will give the customers plenty at which to laugh.

Other members of the cast are Miss Diana Wynn, Mrs. Julian Barrett, Gilmore Nunn, Gregory Barnham, Miss Sidney Rose Wynn, Miss Florida Freeman, and Count Scippi Varel Howard Nellis. Admission prices are 40 cents for adults and 25 cents for children.

WANTED—Undergraduate nurse wants to work. Will consider house work, care of baby, etc. Call Miss Brown. 425 S. Russell 2p

Gandhi Postpones New Protest Fast

POONA, India, Dec. 29. (AP)—Mahatma Gandhi announced officially today that his proposed fast of protest against the ban on entry of India's "untouchables" in Guruvayur temple would be "postponed."

He had a three-hour conference yesterday with advisers on the matter in Yeroda prison, where he is held. It was believed the fast, scheduled to begin New Year's day, would be postponed indefinitely, Gandhi being satisfied that all concerned were doing their best to maintain progress toward removal of the "untouchability" ban.

Fred McCarty of Roxana was in the city yesterday afternoon.

D. A. Witt was among the visitors here yesterday from Canadian.

WANTED—Transportation to southwest Missouri or vicinity, for gas expense. Call Hay Hook ranch, 9009F3. 227-2p

Room and Board

ROOM and board. \$5.50 week. 111 North West Street. 227-4p

Judging of Word Contest Is Huge Job for Judges

Judges in the word contest of the Standard Food Markets completed their work last night after carefully going over more than 150 word lists.

Buying Barbara

Barbara did not seem either astonished or offended by his protest. There was not an atom of coquetry about her.

Chapter 13

Barbara did not seem either astonished or offended by his protest. There was not an atom of coquetry about her. She just looked enquiringly at him, the emerald taking all the color from her hair and her eyes.

CASE OPENED UP

DALLAS, Dec. 29. (AP)—William H. Atwell, federal judge, today issued a temporary injunction restraining either H. J. Jenkins of Louisville or T. L. Bradford, Jr., from bringing suit to collect a \$10,000 life insurance policy left by the late Mayor T. L. Bradford of Dallas to his grandson, Hugh Bradford, until it can be determined which of the men is the child's legal guardian.

Mrs. B. L. Callis of White Deer was a Pampa shopper this morning. Mr. Bogue 2.225. Many of the lists contained duplications and use of more letters than the contest allowed.

Builder of Denver To Pampa Retires

CHICAGO, Dec. 29 (AP)—Retirement of Edward P. Bracken as executive vice-president of the Chicago Burlington & Quincy railroad effective January 1, was announced today by Ralph Budd, president of the road.

Relief Fund Is Less Than \$500 For Week's Work

Only 25 unemployed men were given work through the Pampa Relief committee this morning. They will work through tomorrow and will be paid Saturday with the men who worked the first three days of the week.

County Officers To Take Oaths Monday

Gray county's official family for the coming two years will assemble in the county courtroom Monday to take their oaths of office. No time has been set, but 10 o'clock is the usual hour.

Chicago Will Try To Deport Insull

CHICAGO, Dec. 29 (AP)—The fight to bring Samuel Insull, Sr., back to the United States to face his accusers is to go on, but there is a big question mark as to procedure.

Another Blizzard Hits Western Area

DENVER, Dec. 29. (AP)—Charting a southern course, winter today had swept from South Dakota and the Continental Divide in Montana to the Rio Grande and the international boundary of Mexico.

Oil Supervisor Is Attending Hearing

J. M. McDonald, deputy supervisor of the oil and gas division of the Texas Railroad commission, and W. B. Hamilton, assistant deputy supervisor, are in Austin attending the state-wide hearing on conservation of waste of oil and gas and revision of pipe line runs and charges.

Irish Protest Use Of British Hangman

DUBLIN, Irish Free State, Dec. 29. (AP)—A banner bearing the words "British hangman destroys Irishman: is this justice?" was displayed today amidst a throng gathered outside Mountjoy prison when Patrick McDermott, a Roscommon farmer, was executed for the murder of his brother, John.

— THIS CURIOUS WORLD —

FRANZ GRUBER WROTE THE MUSIC FOR "SILENT NIGHT" IN A FEW HOURS TIME.

THE WORDS WERE WRITTEN BY FATHER MOHR, WHO BROUGHT THEM TO GRUBER ON CHRISTMAS EVE, AND WANTED THEM SET TO MUSIC SO THAT THE SONG COULD BE SUNG AT MIDNIGHT. GRUBER HAD THE MELODY READY ON TIME.

— 1918 —

The REINDEER HAS CONTRIBUTED TO THE SUPPORT OF MAN IN ONE COUNTRY OR ANOTHER FOR ABOUT 30,000 YEARS.

"SILENT NIGHT" is sung in every country where people celebrate the birth of Christ. In 1925, a tablet was erected in Oberdorf, Austria, where the song was written, in honor of Franz Gruber and Father Mohr, its authors.

ONE STAGE of human history is known as the Reindeer Age. At that time there were more reindeer in Europe than any other large animal. Some of the earliest known efforts in art are carvings on the antlers of reindeer.

PAMPA IS INVITED TO JOIN CLASS "D" BASEBALL LEAGUE

FANS TO TALK OVER PROJECT ON JANUARY 6

PROPOSITION IS TOLD AT MEETING HERE LAST NIGHT

Pampa baseball fans will meet Jan. 6 at 7:30 o'clock in the city hall to discuss the advisability of entering a team in the proposed class D baseball league being formed. Marty Fiedler of Albuquerque, N. M., and Sled Allen of Amarillo met with a number of fans in the chamber of commerce board room last night and presented the league proposition which will be finally passed on at a meeting in Lubbock Jan. 15.

The proposition, one of the most favorable ever presented to Pampa fans in the proposed league for donations or selling something to make the organization of the team a possibility. Formation of a joint stock company composed of a large number of fans and backers would supply the necessary money to start the league in this way and gate receipts should hold the rest of the season expenses.

Team To Be Formed.
Sale of stock certificates, \$1 each, and not more than 100 to any one person regardless of his wealth or desire to own the controlling interest in the club, would be undertaken. Thus the expense of the undertaking would be distributed until it would not be borne by a few.

Approximately \$3,000 would be necessary to assure entrance of a team in the proposed league. The park situation here is believed taken care of with little expense.

Each team would be the farm of some Texas, Pacific Coast or major league ball club. The home team would send a manager and 14 young players to his farm. The manager would be at liberty to sign local players if they came up to specifications. The maximum salary of a player would be \$71 a month for four and one-half months. The players would be transported in a club-owned bus. The players would receive expenses on the road.

Four Towns Join.
It is planned to open the season April 18 and continue through to September 4, playing 144 games. The schedule would give each team 77 games at home, including 10 Saturdays and Sundays with holiday games divided.

Every club would share in the receipts on the road, receiving 20 per cent of the gate after deductions which would more than cover expenses. The day stands would be allowed in each city.

Teams already suggested are Pampa, Amarillo, Lubbock, San Angelo or Roswell, Albuquerque, and El Paso. Albuquerque, El Paso, Lubbock and Amarillo have already decided to become member teams in the league.

Delegates to the Lubbock meeting will be appointed at the mass meeting here next week.

The big league sponsoring the team which would be known as their "farm" would send a manager and two to four of the players sent out but the rest would be owned by the club. The sponsor team would pay the expenses of the players on which they hold the option.

Coaches Will Be Consulted About Rules in Future

NEW YORK, Dec. 29. (AP)—Closer cooperation by the rule makers of football and the coaches, whose business is to see how the rules operate and who sometimes object to them, was the subject today at the National Collegiate Athletic association convened with the selection of a chairman of the football rules committee as its principal task.

Walter R. Oakeson of Lehigh, commissioner of the Eastern intercollegiate association, appeared as the probable successor to the late Edward K. Hall of Dartmouth as chairman with William S. Langford of New York, secretary and acting chairman, as the only other candidate.

It seems certain that either Oakeson or Langford will find the coaches ready to lend a hand in smoothing out any kinks in the rules. They decided yesterday to withdraw any previous demands for a voting representation on the national rules committee and to form instead an advisory rules committee of their own.

This new body, formed at the closing session of the coaches' convention yesterday with Lou Little of Columbia as chairman, has as its purpose the crystallization of their views and sentiments and forwarding them through their member "advisers" to the national committee.

DEAD BIRD TAKES FLIGHT
MENOMINEE, Mich.—When it comes to birds the difference between Chicago and Menominee is nil.

"You couldn't safely leave two birds out in front like that if you were in Chicago," said John Corbey, former resident of the windy city to the owner of a meat market.

"Two?" asked the meat man.

"There are three."

"No, two," said Corbey, "a goose and a chicken."

The proprietor looked and two there were. A 15-pound turkey was gone.

PAMPA BEATS HAPPY 21-20; TEAMS PLAY AGAIN TONIGHT

Jacks Score 14 Points in Last Half to Overcome Big Lead

The Harvester basketball team showed pleasing superiority in the first half while piling up a 11 to 6 lead over the strong Happy Jacks last night, but the persistent visitors scored 14 points in the second half, almost necessitating an extra period. The Harvesters emerged with a 21-20 victory by virtue of a free shot made by Wayne Kelley in the last 30 seconds of the game.

At the half the Pampa club was leading 11-6. This safe margin had increased to 17 to 10 at the third quarter. Shortly after the beginning of the final period Coach Mitchell rushed his second string into the fray, but the subs failed to create the sensation they did in the second Plainview game when they scored eight points in two or three minutes.

The score was knotted 20-20 by Happy a minute before the final whistle blew. About that time Coach Mitchell sent his first string back on the floor.

The two teams will play again tonight beginning at 7:30 at the Harvester gym, and both clubs should run up sizeable scores. The Happy cagers are rated as the best on the South Plains. They suffered their first defeat by high school team last night. Last week they won the Dimmitt tournament by doubling and tripling the score on their opponents. They are highly favored to win their sectional title. The victory was the eighth for the Harvesters.

The Happy team is by far the most powerful that has played here and the quintet's power comes chiefly from W. C. Barnard, center, who was high-point man of the game, although he rang up only three field goals. The Jacks fed him the ball in continuity and he figured in most of the plays.

Many Fouls Called.
Both teams appeared to be "off." Referee Bob Fuller was forced to call 19 fouls, 11 personals on the Pampa boys and eight on the Jacks. Happy made six of their 11 free throw count, while the Harvester record showed five out of eight. The contest was marred by inaccurate passing of the Harvesters and the failure of both teams to hit the basket. Personal fouls might yet bring great grief to the Harvesters. Such penalties have been the jinx of the team in the last three games. Fullingim was forced to leave the game soon after the half on personals. He threw 3 field goals and held the highly-touted Barnard to one basket, but his close defense was too costly.

Happy's guards concentrated on Woodward and held him to a free throw. Both clubs played excellent defensive ball, especially Kelley and Patton for Pampa. Patton's two field goals and Kelley's two points by the free throw route were vitally needed. Marbaugh scored five points and executed brilliant defensive tactics.

WARNEKE HAS NEW RECORD

Pitcher Has Percentage of .786 and Ties for the Shutout Lead.

NEW YORK, Dec. 29. (AP)—Lonnie Warneke, youngster from Arkansas who has plenty of "whip" in his right arm, has stepped out to break what was becoming a monopoly of the veteran pitchers of the national league.

Warneke, pitching his first full season in big league baseball, made himself a double champion and gathered in a few other odds and ends in the victory line during the 1932 season, the complete hurling records, released today, reveal.

He outshone the oldesters in effectiveness, allowing only 2.37 earned runs per nine-inning game, won 22 games, more than any other pitcher in the league, and, having only six defeats charged against him, gained the highest percentage, .786. He also tied for the shutout lead with four and was one of the three pitchers to hurl more than 20 complete games.

Jerome Herman (Dizzy) Dean of St. Louis grabbed another share of the honors for the younger generation of hurlers. He tied with Swetonic and Warneke for shutout honors, led them all in strikeouts with 191 whippings, pitched the greatest number of innings, 286, and faced the longest list of batsmen, numbering 1,203.

The league's "Greybeard" Jack Quinn of Brooklyn turned in the only record-breaking mound performance, finishing 31 games in his duties as a relief pitcher. "Wild Bill" Hallahan of St. Louis blushing-ly tied another record, by making three wild pitches in one inning against the Dodgers.

Pitt Injuries Mending Nicely

TUSOON, Ariz., Dec. 29. (AP)—Tapering off exercises were scheduled for the three days remaining in which the University of Pittsburgh football squad will be here before heading for Pasadena and the Rose Bowl game next Monday with the University of Southern California.

Coach Jock Sutherland said he believed he will have the squad in perfect physical condition by the time the train pulls out of Tuscon. There was much optimism in the Pitt camp, principally because the squad came through nearly a week of hard scrimmage without serious injury to any of its members.

Paul Cuba, left tackle, was the only one remaining on the injured list.

Harry Newman Has Bad Ankle

SAN FRANCISCO, Dec. 29. (AP)—An epidemic of injuries has reduced the East team from the favored spot to even terms with the West eleven for their Shrine charity football contest here next Monday.

Chief among casualties was Harry Newman, brilliant Michigan quarterback, who watched practice from the sidelines yesterday and said a weakened ankle would keep him on the bench during today's scrimmage with an eleven.

Never, former Stanford fullback, Bruised shoulder bothered Gil Berry, Illinois halfback; Roy Horstman, Purdue fullback, and Joe Hill, Colgate guard.

The Westerners, confident and unscathed by injuries, face a hard scrimmage today.

ACROBATICS SAVE LIFE

PITTSBURGH—Trapped in his room in a hotel fire, Clayton Cornell, 26, climbed out on a window sill. As flames seared the room he lowered himself from the sill, hanging by his finger tips. A man on the floor below opened his window and Cornell swung himself through it. Had he slipped he would have plunged 30 feet to the pavement.

Bill Kelley, Sartain; Happy—Morgan; referee, Fuller; timekeeper, Fox.

THE MAN WITH THE HOE

JOE'S SUB?

One of the new players Joe Cronin, manager of the Senators, will look at in spring is Cecil Travis, above, 19-year-old third baseman of the Chattanooga Lookouts. Travis, in his first year in professional baseball with the champions of the Southern league in 1932, hit for a mark of .361.

Tommy Paul To Fight LaBarba In Title Bout

CHICAGO, Dec. 29. (AP)—Tommy Paul will find out just how good he is tonight.

The chicken raiser from Buffalo, N. Y., recognized as the world's featherweight champion by the National Boxing association, will meet his acid test by trading punches with the capable Fidel LaBarba of Los Angeles in a 10-round skirmish at the Chicago stadium.

Since Paul won the N. B. A. featherweight title last May at Detroit, his mettle as a champion has been untested. But in LaBarba, he will meet a real foe. His title won't be at stake.

Trojans' Health Good, Thank You

LOS ANGELES, Dec. 29. (AP)—Southern California's football team started the tapering off process today for its second consecutive Rose tournament game at Pasadena.

Satisfied with the physical condition of his players, Coach Howard Jones decided to concentrate more on psychology and less on heavy work until Monday's contest with Pittsburg.

He intends to take no more chances of possible injury to the team which braved a 9-game schedule without a defeat this year and ran the total of consecutive victories to 49. Dr. Walter Fiebler, team physician, also voiced the opinion the players were ready for the inter-sectional test.

Coach Jones is pleased with the showing of the squad in practice sessions this week.

"They haven't been missing any of the Pittsburg plays we have sent against them and they have snapped through our own formations as well as any coach could expect," he said.

VERNON MAYOR HERE

H. D. Hoekersmith, mayor of Vernon, was here today on business. He also is president of the Texas Municipal Utilities League.

Mr. and Mrs. M. K. Brown and Mrs. Clifford Braly took Mr. and Mrs. W. C. Strong of Dalhart to Amarillo yesterday afternoon. Mr. and Mrs. Strong spent the past few days with Mr. and Mrs. Brown.

CARD OF THANKS

We wish to express our thanks and appreciation for the kindnesses extended our uncle, H. G. Bryan, during his illness and death. Especially do we desire to remember Mr. and Mrs. John Bossey, Mr. and Mrs. William Garlick, Pecos.

WARNER WANTS TO GIVE ONE POINT FOR EACH FIRST DOWN

Also Urges Change in New Dead-Ball Rule in His Letter to Dobbie.

NEW YORK, Dec. 29. (AP)—Glen Scobey (Pop) Warner was not able to complete his migration to the east in time to augment the football coaches' association discussion of the new rules but from Palo Alto the voice of the old master could be heard today in advocacy of one of his pet proposals—a change in the gridiron scoring system to give one point for each first down, in addition to the present method of scoring. He also urges a change in the new "dead-ball" rule.

Warner's views were contained in a letter to Gilmour Dobbie of Cornell, who presented the coaches' report on rules at the convention just closed and urged more simplification and more safeguards in the rules, rather than any other changes in the code which he found satisfactory for 1932.

"The public likes a free scoring game," wrote Warner, who soon will transfer his work-bench from Stanford to Temple. "Baseball men recognized this when they began to use a livelier ball. The change (I suggest for football) would make the games less common and would make the best team more likely to win. It would provide many more thrills—look at the cheers that go up now when the stakes are moved forward.

"The whole idea of the game would be to advance the ball and by scoring a point for each first down it would make it advisable to take more chances on third and fourth downs, instead of always punting. I have advocated this change before and some have said, 'Oh yes, Warner wants to score first downs because he gains all his ground in the middle of the field' but I have no selfish motive in advocating this change. I firmly believe it would help the game and we all know the game needs help right now.

"It would be advisable to except first downs resulting from a penalty of more than five yards and not count a first down made inside the opponents' five-yard line, if a touchdown was scored on the next series of downs. This would prevent purposely downing the ball, say six inches from the goal line, on a long run.

"I also believe, as I did before the rule was made, that there was no need for the present dead-ball rule."

FRANK'S STORE
311 S. Cuyler

Sammy Squires, local boy, will have one of the toughest matches of his career Saturday night in Tulsa, Okla., when he gives Jack Dillon of Oklahoma City nearly 30 pounds in a 10-round bout. Squires will tip the scales at 165 pounds.

Next Tuesday night Squires is scheduled to go 10 rounds with Elmer Nelson, at Viet, Okla. Squires will give Nelson 20 pounds when he meets him. The Pampa boy has been scouring the country for matches with good boys in his class but has been unable to find anyone.

Dillon will be remembered as the boy who toured with Jack Dempsey for three months in his attempted come-back. Squires met Young Frankie Bartell at Jamaica, N. Y., and then challenged the winner of the Dillon-Nelson bout which Dillon won with a kayo in the fifth round. Both boys accepted the challenge, hence the two scheduled matches.

Santa Fe to Plant Trees at Station

The Santa Fe will soon place shade trees on its station grounds here, according to a letter received by the Board of City Development.

The local B. C. D. has been urging such action for several years. The information received is that an appropriation has been made for the purpose. The initial work will be limited, but will be increased from year to year.

Mr. and Mrs. Ed Jones returned yesterday from Ballinger where they attended funeral services for Mr. Jones' sister.

MUCH ILLNESS IS REPORTED IN NOELETTE

HOLIDAY TRIPS MADE; FAMILIES, FRIENDS HAVE REUNIONS

NOELETTE, Dec. 29.—Considerable illness has been caused by influenza in this community. About 20 persons, ill of this disease, are confined to their beds.

Illness during the holidays, however, was not sufficient to prevent a joyful Christmas in most families. Numerous trips have been made, and residents have entertained many out-of-town relatives and friends.

Mr. and Mrs. Don Dewey and daughter, Norma, left Wednesday for a visit with relatives in Garber, Okla.

Miss Athine Brewer of Amarillo is spending the holidays with her parents, Mr. and Mrs. A. H. Brewer.

Mr. and Mrs. W. E. Estes and children have returned from Dallas, where they were called because of the serious illness of Mr. Estes' mother, Mrs. Jack Estes.

Mr. and Mrs. G. G. Grove and children, G. G., Wayne, and Oma Lee, of Sunray spent the week-end in the home of Mrs. Grove's mother, Mrs. Nora Uprig.

Mr. and Mrs. James Clark of Pawnee, Okla., spent the week-end in the home of Mr. and Mrs. G. F. Morris.

Mr. and Mrs. W. J. Williams and children, Ruby and Eugene, left Saturday to spend Christmas with relatives in Drumright, Okla.

Mr. and Mrs. W. J. Bartz and children of LeFors were Sunday guests of Mr. and Mrs. Albert Bartz.

Miss Virginia Lowe of Borger is visiting Mr. and Mrs. Leonard Cannon.

Mrs. Carson Watt and children left Saturday for a week's visit with relatives in McLean.

Mr. and Mrs. Merle Martin spent Sunday in the home of their parents, Mr. and Mrs. Frank Martin.

Mrs. Leonard Cannon, who has influenza, is confined to her bed.

Little Miss Sara Florence Parker, daughter of Mr. and Mrs. T. B. Parker, is improving following a tonsil operation.

Hill Watkins has returned to his home in Drumright, Okla., after a visit with his children, Mrs. E. I. High and Mrs. Joe Randle.

Mr. and Mrs. Gus Sargent and children have returned after a week's visit in LeFors.

Mrs. Fischer Is Hostess to Club

Bridge was enjoyed by the Silver Spade club yesterday afternoon in the home of Mrs. Fred C. Fisher. Those playing were Mesdames Robert Montgomery, W. M. Murphy, Porter Beck, Dewey Voyles, A. L. Featherstone, George Alden, R. A. Hankhouse, Roy Sullivan, L. D. Dyer, and the following guests: Mesdames Bert Moore, Bert Wilhelm, Albert Baker, and Jack Smith.

NEEDS HIGH WINDOWS

Kitchen windows should extend as near the ceiling as possible. Then, when the top sash is lowered, the upper part of the kitchen can be aired and there is less accumulation of odors near the ceiling. Windows set high from the floor permit the placing of equipment under them.

MRS. LIGON'S BEAUTY HOME

CHRISTMAS SPECIALS Lasts Until Jan. 1, 1933

CLASSIQUE BEAUTY SHOP

RESIDENTS OF SKELLYTOWN MAKE YULE VISITS

SHOPPING, PLEASURE TRIPS HOLD MUCH INTEREST

SKELLYTOWN, Dec. 29.—Mr. and Mrs. A. N. Goodwin of Panhandle visited in the home of W. B. Earl, Mrs. Goodwin's father, on Christmas day.

Mr. and Mrs. Bill Searl and Mr. and Mrs. Hugh Elsworth enjoyed Christmas dinner in the home of Mr. and Mrs. Roy Lilly.

S. Ferrell motored to Amarillo to spend Christmas.

Mr. and Mrs. John Dalton had as their guests Christmas, Mr. and Mrs. Charles Wayne and Mr. and Mrs. S. Dickley and son, George.

Mr. and Mrs. Johnnie Hankins went to Canyon for Christmas.

Mrs. Carl Williams' parents spent Christmas in Skellytown.

Mrs. Byron Moore was a Pampa shopper last Friday.

Mr. and Mrs. Fred Kline motored to Pampa Friday afternoon to shop.

Mrs. O. D. Halley's mother was a visitor in Skellytown during the holidays.

Mr. and Mrs. F. D. Harvey had as their Christmas dinner guests Mr. and Mrs. C. O. Harvey and son, Mrs. Sylvia McCracken, Mr. and Mrs. J. C. Jarvis, Mike McCracken, and Miss Marion Shawyer.

Mr. and Mrs. Clyde Aker and Mrs. Ed Patchett were recent Pampa shoppers.

Mrs. O. L. Smith and Miss V. J. Polak made a trip to Amarillo last week.

Mr. and Mrs. Walter Sartain shopped in Pampa last week.

Mr. and Mrs. C. O. Harvey made a shopping trip to Pampa Saturday.

Mrs. Hugh Elsworth was a Pampa shopper Saturday.

O. D. Halley made a business trip to Amarillo Tuesday afternoon.

Tips on CONTRACT

LET THE ENEMY ERR

By TOM O'NEIL. One distinguishing mark of the expert is ability to discern how a difficult contract can be fulfilled.

When a hand has been bid to the hill, perhaps overtired, he will study the dummy's long time as soon as it goes down and think of the possible lay of cards in the adversary's hands which would enable success with perfect defense.

If no such combination occurs to him he will try to give the adversary opportunity to err to his advantage.

If only one possible pattern of favorable card holdings suggests itself, the expert will conduct his defense on the assumption that the favorable condition exists.

Here was a difficult game contract fulfilled by the American Bridge league's national championship by Waldemar von Zedwitz, who knows all systems of bidding and is friendly with the proponents of each:

The bidding was: East one heart; south double; west pass; north two spades; east pass; south three spades; east pass; south four.

West led the ten of hearts, which held the trick, von Zedwitz taking pains not to cover. A second heart was trumped by declarer.

It occurred to von Zedwitz that there might be many ways the contract could be set, but if the adverse trumps were divided three and two and east held the ace of clubs, as the opening bid would seem to indicate, and west held the queen of diamonds, the hand might be made.

South led the ace and king of spades, then a low spade, which east had to take with the queen, west discarding a diamond, an error.

This scheme enabled the adversary to make only one heart, one trump and the ace of clubs, von Zedwitz leading the diamond knave after leading the king.

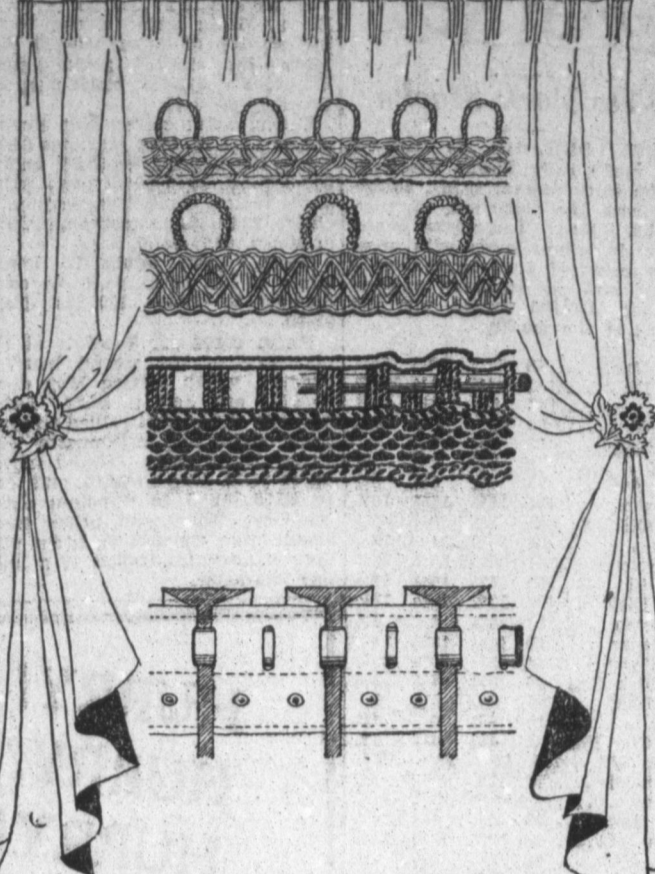

In contrast is a hand which caused another bridge master, Edwin A. Moree, to give a free lesson in planning to his partner, who was the declarer and was set.

South was in four spade contract, east having bid hearts.

West led a heart, and after taking the first trick south led to the king and ace of spades, hoping that the queen would drop. Then he led the king of diamonds. The adversary made one diamond, one spade and two clubs, setting the contract.

South Moore: "You should have led that king of diamonds on the second trick. Then unless spades were led by the enemy after the ace of diamonds was played nothing could have stopped you getting into the dummy for discards."

BACK COME CORDS, TASSELS

See what tasseled cord does for this bedroom

By MARGERY TAYLOR, Copyright, 1932, by the McCall Company for The News.

Those prime decorative delights of our grandmothers, cords and tassels, again are amusing the popular fancy.

There is even a possibility that rope portieres may soon return. Wherever you go you will be seeing heavy silk and cotton cable cord or rope, with plenty of tassels.

Their uses now are somewhat different from those of old. Nowadays, for example, heavy cord is tacked around the ceiling line, and serves to frame windows and doors.

Cords are used gracefully to mark off an inside handrail on stairs, and two lacquered cords, pulled tightly across between rail and stair ends may replace banisters.

Pestooned cords and tassels make an ornamental but not stuffy valance for ruffled organza or gauze curtains, a pair of dressing table florence. Unframed mirrors may have the tops decorated with loops and tasseled ends.

Or let us imagine a bedroom with walls painted soft deep blue, couch cords, looped around the tops of the curtains, a pair of fluffy tassels at each corner.

On the wall above the bed, a graceful festoon of two silk cords with tasseled ends will gaily outline a canopy that isn't there.

SAUNDERS' ARE HOSTS TUESDAY FOR STUDENTS

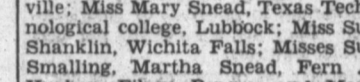

HOLIDAY GUESTS ARE COMPLIMENTED AT EVENT

Mr. and Mrs. J. M. Saunders entertained Tuesday evening honoring their son, Maurice, of Kemper Military school, Booneville, Mo., and their niece, Miss Phyllis Christian of San Diego, Calif., who are here for the holidays.

Dancing was the diversion, music being furnished by Jimmie King and the Panhandle Serenaders. Delightful punch was served.

The following guests attended: Miss Phyllis Christian, San Diego; Miss Beth Blythe, West Texas State Teacher's college, Canyon; Miss Frances Isbell, Rice Institute, Houston; Miss Macie Lester, Sam Houston Teachers college, Huntsville; Miss Mary Snead, Texas Technological college, Lubbock; Miss Sue Shanklin, Wichita Falls; Misses Sue Smaling, Martha Speed, Fern A. Hughey, Eileen Pengra, and Maxine Lyon; Franklin Montgomery, Rice Institute; Bill Hyde, Texas A. & M., Bryan; Don Zimmerman, University of Oklahoma, Norman; Edward Mueho, Laramie, Wyo.; Elizabeth Saunders, Oregon State college, Halfway, Oregon; Burnham Briggs, Russell Kennedy, Bob Mullen, Mack Harmon, Morris Enloe, and Ira Phelps, Pampa; Mr. and Mrs. E. E. Finley and Mr. and Mrs. E. O. Snead.

HOW'S your HEALTH

Edna by the New York Dr. Logo Goldstein Academy of Medicine

CHRONIC PNEUMONIA

During the months from October to May a person suffering a sudden severe chill, lasting from 15 to 30 minutes, followed within a few hours by an agonizing pain in the side and a short, dry, painful cough with rapid and difficult breathing, should be alert to the possibility of pneumonia.

These symptoms may precede some other less serious condition, but when they appear the sufferer should go to bed at once and call for medical aid.

Like heart disease, pneumonia, the earlier treatment is instituted the better the chance for recovery. Pneumonia is a serious debilitating disease, the importance of which cannot be overestimated.

Like heart disease, pneumonia is a conglomerate condition. By this we mean that, while one organ or set of organs is affected, the causes of the disease are multiple.

Pneumonia may be caused by a variety of agencies. The most important pneumonias are caused by the pneumococcus germs. Of these germs there are a number of varieties, and the severity of pneumonia, to an appreciable extent, depends upon what type of pneumonia germs is responsible.

Pneumonia germs are classified into types one, two, three and four. Types one and two are clearly defined. The other two groups include a number of secondary types.

Pneumonia is an infectious disease. One contracts it, but it appears that the germ is not, under ordinary circumstances, competent in itself to cause an acute development of the disease.

There are other contributing causes of a general and important nature. These may all be grouped under the heading of debilitating factors. Anything which lowers the vitality of the body is a factor predisposing to pneumonia.

Such factors may include excessive fatigue, undue exposure to cold, bad nutrition, injury, suffering from other diseases, notably colds, and the like. Alcoholism is considered one of the most potent predisposing conditions.

President to Try Deep-Sea Fishing

With President Hoover in Florida in the past few days, President Hoover is expected to try the leisurely southern cruise of his fishing fleet today in an attempt to reach the deep sea game fishing grounds off Palm Beach by tonight instead of tomorrow and get in an extra day of angling.

Acting under orders to hoist anchors even before daybreak, the presidential flotilla turned toward an outlet of the Florida inland passage into the open Atlantic in the vicinity of Fort Pierce.

Lawrence Richey, one of Mr. Hoover's secretaries, explained that the unexpected speed was a result of the chief executive's decision that the deep sea haunts of the game fish might as well be reached as soon as possible. The luck of the fleet hasn't been so good so far.

The party pushed forward for three hours after dark last night under the president's plan to hurry on south and anchored near Sebastian inlet instead of Melbourne as first planned. Fishing has been given up until Palm Beach is reached.

AMETHYST, NEW SHADE, WINS PARISIANS' FAVOR

PARIS (AP)—A new shade called amethyst appears in some of the smartest Parisian wardrobes. At a gala performance of the opera, recently one chic Parisian wore a frock of amethyst silk jersey designed along sheath lines having a rounded neckline finished with crinkled ribbon of the same shade. With it she wore a long wrap of crinkled velvet in the same shade.

MOLDED DRESSES ARE FEATURED

An afternoon dress of drawn velvet features a high cowl neckline and three-quarter length puff sleeves. The hat, cape and muff use a new material simulating ermine.

The new formal and semi-formal dresses are fairly molded to the figure. Fabric, too, has much to do with the new silhouette.

Velvets are in the foreground either used alone or in combination with another fabric. There are various kinds of velvets and they add greatly to the interest in this type of dress.

In the gown illustrated, drawn velvet is used effectively. White flowers accent the high cowl neck-

line, although the chief interest centers in its sleeves and severely smart lines. This model is designed for the slender figure.

The hat, cape and muff set is made of a new fabric that closely resembles ermine. It is extremely soft and drapes nicely. Black velvet weaves in and out of the crown of the hat and terminates in a soft bow. It is a new and different note in accessories and will smartly complement the velvet costume.

MRS. DICKINSON INSTALLED AS PRESIDENT OF DORCAS CLASS

Installation of officers took place at a meeting of the Dorcas Sunday School class, First Baptist church, yesterday afternoon in the home of Mrs. H. M. Lister.

Following a brief business session, Mrs. C. E. Lancaster presided in the absence of Mrs. J. A. Meek, teacher, for the beautiful installation service, a candle being lighted for each officer. Mrs. Meek is ill.

The new officers: President, Mrs. V. L. Dickinson; first vice-president, Mrs. J. E. Roberts; second vice-president, Mrs. Bonnie Rose; third vice-president, Mrs. H. L. Groves; fourth vice-president, Mrs. B. O. Barrett; secretary-treasurer, Mrs. Dee Campbell; reporter, Mrs. H. M. Lister; group captain, Mesdames P. O. Anderson, S. O. Garner, John Oakes, W. Sticker.

Other members attending were Mesdames L. P. Ward, Roy Wright, Ova White, and A. G. Post. Two visitors, Mrs. C. E. Lancaster and Mrs. T. B. Rogers, also attended.

Representative From Texas Is Farmer's Friend

WASHINGTON, Dec. 29. (AP)—From the city, not the farm, comes one of its short session's most energetic congressional advocates of relief for agriculture.

He is Hatton W. Sumners, a democrat of Dallas, Texas, and a lawyer whom twice the house has chosen to represent it in legal proceedings.

The way he looks at the farm problem is this: "You will have to give back to the farmers arbitrarily what you have been taking from them arbitrarily."

Sumners, who is chairman of the judiciary committee, last session organized an open forum on farm relief largely made up of house members who live in cities and this session it is meeting regularly to study ways of bettering the farmers' lot.

"When the historians write the story of this crisis," he told the house, "I am afraid he will write that we gave to this crisis the lowest order of applied intelligence that ever a people gave under similar circumstances and I am not talking about democrats and republicans, either."

"Industry during this crisis has been captained largely by men who have not seen one inch beyond the end of their noses. How in the name of common sense anybody in any business in any city could imagine or can imagine that he can open up his factory and put his idle people to work unless these thirty-odd million farmers can buy, I cannot understand."

"One of two things must happen. Either labor and commodities, professional services, rents and everything else in the city have got to come down to the level if 8-cent oats and 15-cent corn and 5-cent cotton or we have to lift these prices up until trade contact is established with city prices."

MRS. STIMSON CHOOSES PINK AND SILVER GOWN WASHINGTON (AP)—Pastel shades for evening have been chosen by Mrs. Henry Lewis Stimson, wife of the secretary of state. To a recent evening affair she wore a gown of pale pink satin brocaded with silver. The gown is a closely fitted model with which Mrs. Stimson wears a pink feather boa, one of the newest notes in formal wear.

Leftover fowl should be covered with a cloth and stored in a cool place. This will aid in preventing the fowl from becoming hard.

Never sift bran to be used in foods as the roughage is the desired part.

Gifts Packed for Orphans by Baptists

W. M. S. ALSO ATTENDS BUSINESS MEETING AND PROGRAM

The packing of a box for Buckner Orphans home, Dallas, was begun by the Central Baptist W. M. S. at a meeting yesterday afternoon at the church.

During a business session, presided over by Mrs. G. C. Stark, two vacancies in office were filled, Mrs. Cleo Coffey being chosen secretary, and Mrs. G. W. Moore, chairman of missions.

Mrs. Moore directed a missionary program from Royal Service.

Three visitors from the Calvary Baptist church and the following members attended: Mesdames G. C. Stark, W. O. Cooley, S. L. Anderson, T. M. Gillham, Cleo Coffey, G. W. Moore, L. W. Hardesty, G. D. Holmes, D. L. Lunford, H. C. Chandler, G. L. Lunsford.

Scouts Will Be Given Dinner at Christian Church

Interest in Boy Scout work, now at a high pitch in Pampa, will be climaxed for the Christian church group, No. 4, at a dinner at 7:30 o'clock Friday evening.

The meal will be served by the Mothers' auxiliary and the following besides the boys, their parents will attend, and the troop committeemen and their wives will be present. The committeemen are R. C. Wilson, chairman; Chris Martin, Lon L. Barrow, J. B. Townsend, and George Crowe.

Also to be honored will be Scoutmaster Paul D. Hill and his assistant, Hubert Goodwin. It will be the annual birthday dinner of the troop, which is 4 years old.

The general court of honor delighted many mothers who saw their boys advance in rank. Among those who endorsed Scouting in short talks were Mrs. Lee Ledrick, Mrs. Kilgore, and Mrs. Garner. Mrs. Kilgore has twin boys who are active in Scout work. Advancement in rank were made as follows:

To Second class—Joe Isbell, Junior Barrett, Welby Parker.

To first class—John Mackey, Chris Martin Jr., Junior Garner.

Merit badge winners—John Arthur King, Mickey Ledrick, Chris Martin, John Mackey, Elmer Vanderburg, Richard Kilgore, Junior Garner, Robert Kilgore, Ivan Noblett.

Many of the boys received several badges. The badge work included first aid to animals, agriculture, pathfinding, public health, animal industry, handcraft, leather work, leather craft, pioneering, personal health, book binding, woodwork, and wood carving.

Representative Is Opposed To Hurting College

Concerning the Pampa E. C. D's campaign to prevent wrecking of the West Texas state institutions of higher learning, Rep. H. K. Stanfield of Amarillo has written a lengthy letter expressing his approval.

Rep. Stanfield has attacked the qualifications of the New York professor who was hired by the Texas legislative committee to recommend drastic changes in the Texas system. The professor, whose main qualifications appear in a book on school building sanitation, is said not to be fitted to do the work in Texas. The legislator said he would oppose in every way possible the victimizing of West Texas schools, which serve an area almost as big as the rest of Texas.

Shamrock Not To Oppose or Approve Denver Proposal

Shamrock's chamber of commerce has declined to grant its favor for the Fort Worth & Denver Northern proposal to abolish the motor coach service from Childress to Pampa.

At the same time, it was learned by C. H. Walker and George Briggs yesterday at Shamrock that the chamber decided not to oppose the proposal. Attitude of other points along the route is not known.

MATERIAL CUT ON BIAS

New designs for infants' rompers, being developed by U. S. government child experts, cut the material on the bias in order to produce more "give" so that the garment causes the least restraint possible. For the same reason sleeves are being cut wider.

CHRISTIAN SCIENCE CHURCHES TO STUDY "GOD" NEXT SUNDAY

"God" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, January 1.

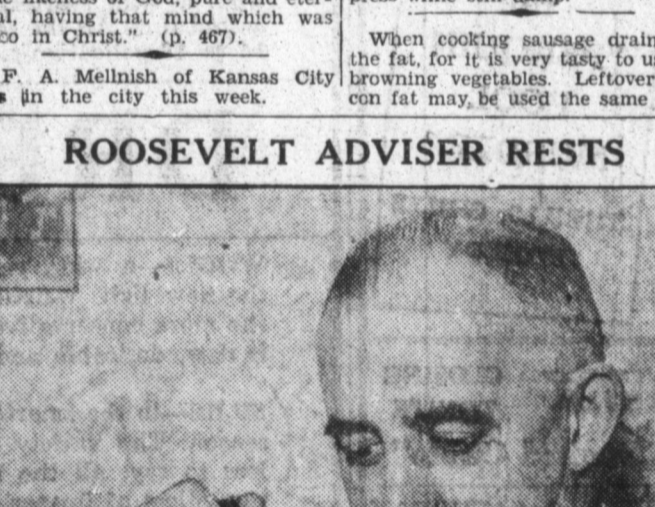

The golden text is from Psalms 65: "Praise waiteth for thee, O God, in Sion; and unto thee shall the vow be performed. O thou that hearest prayer, unto thee shall all flesh come."

Excerpts from the Bible will include this from Job 23: "O that I knew where I might find him! that I might come even to his seat! ... But he is in one mind, and who can turn him? and what his soul desireth, even that he doeth."

The lesson-sermon will also include the following from the citations to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "It should be thoroughly understood that all men have one mind, one God and father, one life, truth, and love. Mankind will become perfect in proportion as this fact becomes apparent, war will cease and the true brotherhood of man will be established. Having no other gods, turning to no other but the one perfect mind to guide him, man is the likeness of God, pure and eternal, having that mind which was also in Christ." (p. 467).

F. A. Mellish of Kansas City is in the city this week.

ROOSEVELT ADVISER RESTS

Raymond Moley, above, Columbia University professor of economics and politics, who is confidential adviser to President-elect Roosevelt on such matters, rested during the Christmas holidays with his brother and sisters at his old home in Berea, near Cleveland, O. He's shown in this new portrait study, taking it easy with pipe and book. Prof. Moley is expected to have an important role in the Roosevelt administration.

Raymond Moley, above, Columbia University professor of economics and politics, who is confidential adviser to President-elect Roosevelt on such matters, rested during the Christmas holidays with his brother and sisters at his old home in Berea, near Cleveland, O. He's shown in this new portrait study, taking it easy with pipe and book. Prof. Moley is expected to have an important role in the Roosevelt administration.

REPORT--

(Continued from Page 1)

tions from these visitors upon the appearance and progress of Pampa. Incidentally, the J. C. C. helped materially in that celebration.

"The Fort Worth and Denver will be of increasing importance to Pampa as the years go by. And especially will this be true when this road is built to the north.

"As we look over our records, we find that much work has been done for the furtherance of highway connections for Pampa. While Pampa will soon have several fine paved roads leading in several directions, we still have two projects that we have worked on all the last year, as well as previous years: the Oil Field highway No. 41 and a north connection across the Canadian river.

"During the year, we have faithfully worked for the bringing of a substantial road to Pampa. At one time during the year, we expected to announce the accomplishment, but the continued unsatisfactory financial conditions of the country have postponed this.

"The year 1932 has seen the Board of City Development become more and more a service organization. Because of conditions, this organization has been called upon to spend a great deal of its time through committees and the office in cooperation with other organizations. The list is too long to mention all, but much assistance has been rendered to such organizations as the Red Cross, Boy Scouts, the Welfare Association, the Pampa Federal Relief Committee, the last two mentioned taking up many weeks of the time of committees, as well as the office workers. Cooperation of this kind has been rendered to the J. C. C. S. Salvation Army, those in charge of Music week, entertainment of the bankers convention, entertainment of many other leaders, such as the railroad commissioners, agricultural leaders, etc. The B. C. D., also assisted the B. & P. W. in getting the district convention for 1933, and will undoubtedly assist in the entertainment of this convention. Cooperation was extended to Postmaster D. E. Cecil in working out better mail service.

"A list of the matters in which the B. C. D. assisted would not be full without mentioning the work of the agricultural leaders of Pampa. Such projects as vocational judging contest, Achievement Day, clothing contest, 4-H encampment, A. & M. Short Course, Dallas fair delegates, meat cutting demonstrations, furnishing pure seed for club boys, and many other projects were carried out thru the assistance of the B. C. D.

"The report would not be complete without mentioning the good work that has been done through good will efforts. During the year more than two dozen trips of various kinds were made by representatives of the B. C. D. and J. C. C., which have resulted in much good being accomplished in making more friends for Pampa. Incidentally, this work has only been started. The year 1933 should see a still greater effort along this line. We must tie this territory to Pampa.

"A consistent plan of publicity has been carried on during the year which, with the previous year's work and a continuance of the same in the future, will rebound to Pampa's benefit.

"Within the last few days, the B. C. D. has started a carefully considered campaign over West Texas to prevent the ruining of West Texas higher schools of learning.

"Among the outstanding accomplishments of the Junior Chamber of Commerce were the Frontier Days' celebration last spring, and the second annual Santa Day in December. Both these plans were carried out successfully and served their purposes admirably. The J. C. C., also rendered service to the public in many instances, throughout the year.

"NOW, WHAT OF 1933? "We believe that still greater efforts should be made to finish all road projects. Pampa must have paved outlets in every direction.

"We believe that the good will work, and the gaining of friends for Pampa must be pushed. To grow, Pampa must bring about close connections with this entire territory.

"We believe that we should work harder to develop the agricultural territory around us.

"We must continue to serve the various organizations, and committees that are working so hard to handle the present situation.

"Pampa should join the West Texas chamber of commerce, and cooperate with this great organization in its efforts to build up West Texas.

"A careful study should be made, in cooperation with the West Texas Chamber of Commerce, of public expenditures. This should be done in a way not to tear down, but conserve.

"There are many other projects that will come before us, and an activities committee from both organizations should be appointed, early in the year, that study of Pampa's needs may be made, and plans outlined for the accomplishment of all good that can be done for Pampa, the Panhandle, and West Texas.

"Just a word of appreciation for C. H. Walker, retiring president of the B. C. D., and all the directors. Many do not realize just how much these men sacrifice in the service of Pampa. These men have given freely of their time all through the year, and have been appointed in many committees, also have given much time for Pampa's good.

That TECHNOCRACY Question

No. 2—Machines and Power

Editor's Note: This is the second of six daily articles about Technocracy whose predictions of possible economic collapse started a farflung controversy. The articles give a new insight into Technocracy and present other statistics pertaining to the displacement of men by machines, energy consumption, debts and other points involved.

By J. R. BRACKETT, Copyright, 1932 by The Associated Press.

NEW YORK (AP)—Energy is Technocracy's fundamental word. It is on the basis of the rapid increase in the use of energy that Howard Scott, Technocracy's director, has stated that drastic changes must be made in this economic system to save it from possible collapse.

Technocracy is the name of a group of engineers working at Columbia university in an "Energy Survey of North America," the purpose of which is simply, according to public statements, to make a technical analysis which, if successful, the Technocrats believe would indicate necessary corrections in the economic system.

Here, one believes energy is so important: 1. For all the years of man's history up to about 1800, he used the energy resources of the earth at about the rate of 2,000 Calories per capita (a measure of energy) per day. He used little coal, no electricity, and scarcely any of the devices which need energy. Then suddenly the machines came, and today man uses about 150,000 Calories per capita per day—a gain of 75 times.

2. Next, the meantime, man did not change materially his methods of directing society. What changes there was probably occurred at a rate similar to the rate at which it has changed in all history. In other words energy flowing into the social mechanism at a rate entirely new in history, and society was not prepared to cope with that change.

3. The result has been a disorderly and fluctuating use of energy, resulting in fluctuation in production of goods, depressions and unemployment. The nation has attempted to progress, figuratively speaking, in an oxcart equipped with a 1,000 horsepower airplane engine. This, Technocracy believes, will become increasing difficult.

Other economists have stressed the importance of power, but some of them object to the greater stress which Technocracy has given it. They further consider that a comparable effort along this line. We must tie this territory to Pampa.

"A consistent plan of publicity has been carried on during the year which, with the previous year's work and a continuance of the same in the future, will rebound to Pampa's benefit.

"Within the last few days, the B. C. D. has started a carefully considered campaign over West Texas to prevent the ruining of West Texas higher schools of learning.

"Among the outstanding accomplishments of the Junior Chamber of Commerce were the Frontier Days' celebration last spring, and the second annual Santa Day in December. Both these plans were carried out successfully and served their purposes admirably. The J. C. C., also rendered service to the public in many instances, throughout the year.

"NOW, WHAT OF 1933? "We believe that still greater efforts should be made to finish all road projects. Pampa must have paved outlets in every direction.

"We believe that the good will work, and the gaining of friends for Pampa must be pushed. To grow, Pampa must bring about close connections with this entire territory.

"We believe that we should work harder to develop the agricultural territory around us.

"We must continue to serve the various organizations, and committees that are working so hard to handle the present situation.

"Pampa should join the West Texas chamber of commerce, and cooperate with this great organization in its efforts to build up West Texas.

"A careful study should be made, in cooperation with the West Texas Chamber of Commerce, of public expenditures. This should be done in a way not to tear down, but conserve.

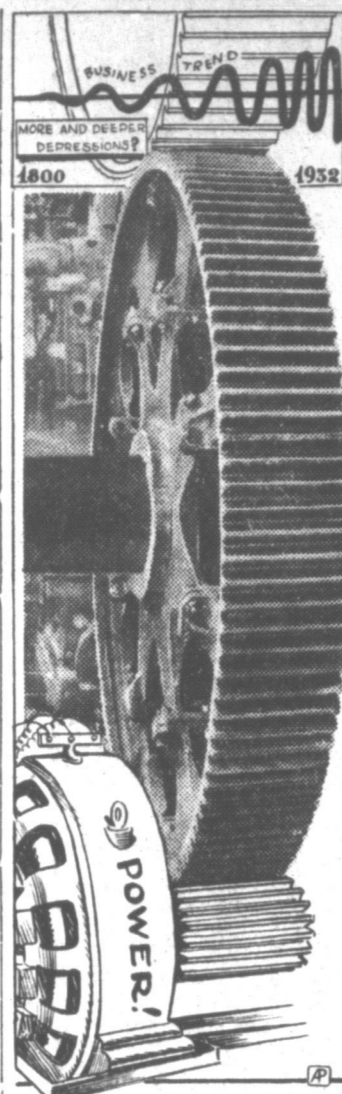

"There are many other projects that will come before us, and an activities committee from both organizations should be appointed, early in the year, that study of Pampa's needs may be made, and plans outlined for the accomplishment of all good that can be done for Pampa, the Panhandle, and West Texas.

"Just a word of appreciation for C. H. Walker, retiring president of the B. C. D., and all the directors. Many do not realize just how much these men sacrifice in the service of Pampa. These men have given freely of their time all through the year, and have been appointed in many committees, also have given much time for Pampa's good.

"Appreciation should be expressed to the J. C. C. 's for their excellent work during 1932, and frankly, many a project could not have been carried to success if it had not been for the very fine work done by these young men.

"Incidentally, this work has been done on a very greatly reduced budget, and the B. C. D. closes the year with all bills paid, and a small surplus in the bank.

"NOW, LET'S DO THE JOB A-HEAD IN 1933."

An increasing use of energy or power to drive machinery is causing business fluctuation, says Technocracy. The chart at top illustrates the point, showing a theoretical business curve going up and down and deeper and higher and oftener as energy consumption gains.

not particularly revealing, pointing out that relatively speaking the nation made probably as astounding gains in the last century as in this one to date.

F. G. Tryon of the Institute of Paris between 1800 and now is Economics in Washington has written that "the industrial production of a nation may be gauged by its use of power."

He calculated an index of energy consumption between 1899 and 1929 and found that, using 1899 as 100, consumption in U. S. increased to 310—about three times.

Going back to 1849 and using actual measurements, he calculated that production in 1849, not including water power for which there were no figures was 173 trillion B. T. U., a measure of energy; that by 1899, including water power, it was 7,246 trillion B. T. U., and in 1923, it was 21,434 trillion B. T. U.

Technocracy's statistics are that total energy production in 1840 was 75 trillion B. T. U., and that it was 27,000 trillion B. T. U. in 1929—a gain of 353 times.

Technocracy said most of this increase has occurred since 1900, when, according to Technocracy, production was 2,640 trillion B.T.U. This latter figure compares to Tryon's 7,246 trillion B.T.U. for 1899. The two groups of statistics may not be exactly comparable due to differences in methods of computation. They are similar for the last decade, however.

Neither set of figures makes comparable calculations relating the growth of energy to growth in population. Since population increased, the per capita gain of energy was not as great as the total gain.

Tryon calculated that energy consumed increased at about the rate of 5 to 7 percent per year after 1899, as compared to an increase in the physical volume of production of 4 per cent per year. Comparing 1899 to 1916, Tryon found that population gained a total of 36 percent; physical volume of agricultural, manufacturing, and mining production, and railroad transportation increased a total of 80 percent, and energy production 150 percent.

As to what machines used this energy, Carroll Roop Daugherty, in a U. S. Geological Survey Bulletin, has calculated that using 1899 as 100, capacity to use power increased from 16 to 1999 if automobiles are included. If autos are not included, the change was from 16 to 399.

This indicates that much more than half of the consumption of energy was accounted for by the automobiles in using oil and gas, and that by excluding autos from the general computations of B. T. U. the gains would not seem so important as an influence on production.

Markets

New York Stocks

NEW YORK, Dec. 29 (AP)—A new year's rally finally developed in the stock market today, coincident with the abatement of year-end tax selling. The market closed at the day's best levels, with numerous gains of 1 to more than 3 points, and the turnover, approximating 1,800,000 shares, was the largest of the month.

Table of stock market data including Am Can, Am T&T, Ana, At&SFP, Avi Corp, Bball, Ben Avi, Chrysler, Con Oil Del, Drug, Du Pont, Gen El, Gen Mot, Goodrich, Goodyear, Int Harv, Int Nick Can, Int T&T, Kelvi, Mid Con Pet, Mmt Wd, Packard, Penney, Phil Pet, Shell Un, Simms, Skelly, Socony Vac, So Cal, So Kan, So NJ, Tex Cor, Unit Air, US Steel, New York Curb, Elec B&S, Ford Ltd, Gulf Pa, Humble, Midwest Ut, So Ind, So Ky.

CHICAGO GRAIN CHICAGO, Dec. 29 (AP)—Influenced by disappointing cables, grain values here tended downward early today. Liverpool reported big offerings of wheat from Argentina. Opening unchanged to 5/16 lower. Chicago wheat futures underwent an all around sag afterward. Corn started unchanged to 1/8 off and subsequently held near the initial limits.

At 7:30 o'clock, Mr. Workman said. Prices of admission are 25 cents for adults and 10 cents for children.

KANSAS CITY LIVESTOCK

KANSAS CITY, Dec. 29. (P)—U. S. D. A.—Hogs 3,000; strong to 10 higher; top \$3.00 on 170-210 lbs.; 140-250 lbs., \$2.65-3; packing sows, 275-300 lbs., \$1.00-1.05; stock pigs, 70-130 lbs., \$2.50-75. Cattle, 2,000; calves, 300; steady; choice 1,112 lb. long yearlings \$6.25; steers, 800-1500 lbs., \$4.60-6.25; heifers 550-850 lbs., \$4.50-6.25; cows, \$2.25-3.50; vealers (milk-fed), medium to choice, \$2.50-3.50; stocker and feeder steers, \$3.75-4.75. Sheep, 3,500; lambs 25 lower; choice 1,112 lb. long yearlings \$6.25; medium to choice, 150 lbs. down, \$1-2.

SLAYING--

(Continued from Page 1) was admitted to probate here. It omitted any legacy for the Petersons, wiped out many other small bequests and made Clement, junior's widow the chief beneficiary of the \$2,000,000 estate.

ed to place companies that violated the commission's rules into receiverships.

"We intend to enforce that provision of the law without exception," Thompson promised.

Tyranny Hinted. Carl Estes of Tyler, president of the East Texas producers and retail owners' association, asked Farish if his company was one of "a group of majors" that participated in "an ultimatum" delivered to his organization demanding that unless it agreed to an acreage plan of operating production "they would not take any oil from East Texas."

Farish said he had not heard of any such "ultimatum."

Jacob F. Wolters of Houston said he believed the commission should force Estes to be "specific" and name the person or persons who delivered the ultimatum. Wolters said he wanted to enter "a denial" for his client, The Texas company.

The Humble president said his company's pipe line was metered. Answering questions he said he understood some of the pipe lines moving oil from East Texas were not metered as ordered some months ago by the Railroad commission.

Commissioner Thompson suggested that the attorney general be instructed to move at once to bring suit for penalties against pipe lines that had not complied with the metering order.

C. V. Terrell, chairman of the

BASKETBALL--

(Continued from page 1.)

vesters have what appears to be a winning team. One among the fans say it is the best basketball team Pampa has had in many a year. But even at that, the crowds are missing. The Harvesters have beaten every team they have met, although they dropped one game to Plainview, and they have played some good teams, but they have not yet played to a "full house."

Since the Harvesters played their first game of the season a month ago, they have won victories by these impressive scores: Pampa 53, Clarendon 13; Pampa 51, Panhandle 15 (two games); Pampa 64, Canyon 32 (two games); Pampa 46, Shamrock 16; Pampa 75, Plainview 51 (two games); Pampa 21, Happy 20.

The point of these statistics is that the Harvesters will play the Happy Jacks again tonight at the high school gymnasium beginning

commission, said he had assumed that all pipe lines had complied with the order that meters be installed.
