

EL PROGRESO CLUB GATHERS FOR PROGRAM

A history of woman suffrage, and other steps in women's progress furnished the basis for a program given by the El Progreso club Tuesday afternoon in the home of Mrs. J. M. Dodson. Yellow chrysanthemums were used to decorate the home, and at the close of the afternoon Mrs. George Walstad and Mrs. W. J. Lawrence poured tea and coffee, which were served with other refreshments.

Mrs. McDonald, program leader, gave a talk on the life of Mary Wollstonecraft. Women were held in subjection in Mary Wollstonecraft's time, and she, through her writings, attempted to obtain more freedom for them.

Mrs. James Todd Jr. told of the subjection of English women and how they tried to come out of this bondage. The beginning of woman suffrage was in England in about 1870, she said.

Mrs. H. L. Ledrick gave a history of women's rights and how woman suffrage began in the United States. Those present were Mesdames George Briggs, C. P. Buckler, C. C. Cook, William M. Craven, J. H. Kenley, T. D. Hobart, C. T. Hunka, H. L. Ledrick, Carson Loftus, J. M. McDonald, Dave Pope, W. J. Lawrence, Charlie Thut, George Walstad, and James Todd Jr., J. M. Dodson, and John V. Andrews.

CHARTERS

Dallas, president of the Magnolia, represent the subsidiaries on the boards of the parent companies, the petition states.

The Standard Oil company of California was alleged to have set up the Pasoteo Petroleum company to operate in Texas. Its principal office is in San Francisco and Pasoteo is a foreign corporation operating under a permit. Its Texas office is in El Paso.

Foreign Corporations

The Texas company of which R. O. Holmes of New York is president, is a foreign corporation. The Continental Cities Service and Sinclair also are foreign corporations.

The Gulf, Simms Oil company, Texas Pacific Coal and Oil company and Texas Petroleum Marketers' association are domestic corporations.

Referring to the Texas Petroleum Marketers' association, the petition stated the association was organized to "promote and foster a co-operative spirit among producers, refiners, marketers and users of petroleum and its products." All refiners and its producers, the petition charged it has "actively participated in carrying out agreements in restraint of trade."

The American Petroleum Institute was charged with actively participating in agreements in restraint of trade. A section of the institute is now in session in Chicago.

Charges Price Fixing

The petition charged that in 1928 the defendant companies and others entered into a combination to create restrictions in the preparation for market and the marketing of petroleum and its products; to fix prices; lessen competition in manufacture, marketing and purchase of petroleum and its products; to fix the retail prices of petroleum and its products and to monopolize the filling station equipment field.

Alfred charged that as part of the original agreement and to hide the true motive a "code of practices for the marketing of refined petroleum products" was drafted and presented to the federal trade commission for approval by the American Petroleum Institute. In July, 1929, the federal trade commission attempted to approve the "code of ethics."

Alfred held that approval was without the authority of law and had no effect. He charged the code was "nothing more than an agreement and conspiracy in restraint of trade."

A copy of the code of ethics and a form of approval used by companies in acknowledging acceptance of the code was contained in the petition.

A writ of attachment against the stock owned by the Standard of New Jersey, Standard of New York, Standard of California and the Shell in its subsidiary companies in Texas was filed with the suit.

Red Cross Nurses Protect Child Health

Red Cross nutritionists have taught Little Miss Muffet proper food habits. At right, this little girl's best friend is the Red Cross Public Health nurse.

The grave necessity for the protection of children's and mothers' health, if good physical standards of the American race are to be maintained in the future, is illustrated in statistics made public by the American Red Cross in connection with its health services in Red Cross chapters.

Of the 45,000,000 children in this country, only about 35,000,000 are reasonably normal. The greatest menace to children's health is through mal-nutrition; 6,000,000 children are shown to be improperly nourished. The second most prolific defect is in impaired hearing—3,000,000 children suffering from this. Weak and damaged hearts and defective speech affect one million children each, and lesser numbers are affected by being mentally retarded, tubercular, crippled, blind and deaf or from behavior problems.

The statistics are from the report of the White House Conference on Child Health and Protection.

This report also shows that tuberculosis is the chief foe of women, and the second greatest death rate among women is in childbirth.

The Red Cross health agencies have attacked these problems from several angles. Through its Public Health Nursing Service—the largest employer of rural nurses in the nation—the Red Cross reaches mothers in their farm homes, and children through the schools. The Red Cross Home Hygiene and Care of the Sick Service teaches home sanitation and simple methods of home nursing and care of infants. Its Nutrition Service reaches thousands of children through schools, and mothers through adult classes, teaching proper food selection and food habits. The 789 Red Cross public health nurses made 1,338,550 visits during the past year.

This highly important work by the Red Cross is supported through funds resulting from the annual roll call for members, which occurs from Armistice Day to Thanksgiving Day. By enrolling as members in Red Cross Chapters, all citizens participate in this drive for better health for mothers and children.

Rockne Will Be Honored Saturday

CHICAGO, Nov. 12. (AP)—Football will pay its respect to the memory of Knute Rockne on the college and high school field next Saturday.

In accordance with the suggestion of the National Coaches' association, time will be taken out between halves of all games to honor his memory. Contributors to the Rockne field house fund also will be collected during the pause.

COTTON OPENS STEADY

NEW ORLEANS, Nov. 12. (AP)—The cotton market opened fairly steady today although opening prices were 5 to 10 points down due largely to readjustment with yesterday's decline in New York while the market here was closed. Liverpool cables were better than due.

Considerable overnight selling orders developing right after the start caused December to ease off to 6.57, January to 6.67 and March to 6.83, or 7 to 8 points below yesterday's close.

Prices rallied near the end of the first hour with firmer stocks and recovered 1 to 4 points from the lows.

Half-Clad Man Is El Paso Mystery

EL PASO, Nov. 12. (AP)—A man about 22 years old was found yesterday dazed and clad only in underwear.

His swollen neck led investigators to believe he was a victim of foul play. In the vicinity, a plot of ground had been trampled, as if a struggle had taken place.

FRIDAY—SATURDAY

A Battle For Love And Life!

BUCK JONES Branded

JAPANESE

(Continued From Page 1)

Paris Monday. Three ambassadors will represent Japan at the meeting.

Charles G. Dawes, American ambassador at London, who has been instructed by the United States government to go to Paris for the meeting, is regarded here as friendly to Japan.

Agreement Broken

TIENTSIN, Nov. 12. (AP)—More trouble and possibly serious fighting is expected tonight because an arrangement by which the Japanese agreed to permit a search of the neutral zone bordering their concession by Chinese police has broken down.

The Chinese were to search the area for rebels who participated in rioting early in the week, but when 100 police entered the neutral zone they were turned back by a Japanese patrol which charged that the Chinese had tried to extend their operations into the Japanese concession.

THOSE FARM HARDSHIPS

ASHLAND, Wis., Nov. 12. (AP)—County board members of Ashland county today pondered over a note from a farmer submitted to them by the county nurse in her annual report calling for greater health education in rural schools. It read:

"Dear Madam:

"I can't give my children a bath until the sauerkraut barrel is empty."

NEWS-POST want ads get results.

League Sends Notes

GENEVA, Nov. 12. (AP)—Chairman Aristide Briand of the League of Nations council today called on China and Japan to make every effort to prevent further military action in Manchuria and to give neutral observers sent to the territory by the council every facility for learning the truth of the situation.

This, the chairman said in a note published here today, is "extremely important," particularly in the vicinity of the Nonni bridge and Anqiang.

Finnish Committee Condemns Dry Laws

HELSINKI, Finland, Nov. 12. (AP)—A majority report condemning prohibition in Finland under the present laws will be submitted soon by the government commission appointed last winter to investigate prohibition, it was learned today on the highest authority.

The general view of the commission is that the present laws are insupportable, and the report will recommend that beer and wines of medium strength be legalized.

The report expresses the hope of its commission that if 12 per cent alcoholic content is permitted, the consumption of stronger spirits will be reduced but it makes no effort to keep stronger beverages out of the country entirely although it refuses to go further in legalizing beverages above the alcoholic content recommended.

Houston Man Is Shot by Officer

HOUSTON, Nov. 12. (AP)—Rufus "Boss" Hatcher, 22, was shot and probably fatally injured by Detective O. C. Rice early this morning.

The shooting occurred in front of a cafe and climaxed an argument between Hatcher, Detective Rice, Patrolman M. A. Palmer, D. E. Schaffer, sandwich shop manager, and one or two late customers of the cafe. Rice was held in technical custody early today.

"I insist on Lucky Strike"

Sally Eilers

"There's nothing like a microphone to show up the voice in its true colors. So I insist on Lucky Strike—the cigarette that I know will be kind to my throat. And you've certainly scored another hit with your new-style Cellophane wrapper that opens so easily."

Sally Eilers will always call this her big year. First she learned to fly a plane. Then she married and found domestic bliss. Then she made a smashing success in "Bad Girl." As a reward Fox is co-starring her in "Over the Hill."

Made of the finest tobacco—The Cream of many Crops—LUCKY STRIKE alone offers the throat protection of the exclusive "TOASTING" Process which includes the use of modern Ultra Violet Rays—the process that expels certain harsh, biting irritants naturally present in every tobacco leaf. These expelled irritants are not present in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.

"It's toasted"
Your Throat Protection—against Irritation—against cough

And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN—The Lucky Strike Dance Orchestra, every Tuesday, Thursday and Saturday evening over N.B.C. networks.

See the new notched tab on the top of the package. Hold down one half with your thumb. Tear off the other half. Simple. Quick. Zip! That's all. Unique Wrapped in dust-proof, moisture-proof, germ-proof Cellophane. Clean, protected, neat, FRESH—what could be more modern than LUCKIES! Improved Humidor package—so easy to open! Ladies—the LUCKY TAB is—your finger nail protection.
