

ARMY SENT TO QUELL MINE WAR

Thirty Killed When Ship Burns At Sea

FIRE DESTROYS COSTLY LINER ONE DAY OUT

SOME OF CREW BURN TO DEATH NEAR HAVRE

ONE OF FASTEST SHIPS NUMBER WERE KILLED WHILE GETTING OFF SHIP

CHERBOURG, France, Jan. 4. (AP)—Captain Schoof, master of the French liner L'Atlantique, reported tonight that thirty of the crew were killed when the vessel was destroyed by fire in the English Channel today.

Some were burned to death and others were killed getting off the ship, he said.

The Atlantique is one of the largest and fastest French ships, ranking next to the Ile de France and designed to make the Bordeaux-Buenos Aires trip in sixteen days.

She left Bordeaux yesterday morning and was expected at Harve at noon today. She was renowned in shipping circles for high standard equipment, regularity of service and good behavior at sea.

Several members of the crew were reported to have been injured. These men were said to have been taken aboard the Ruhr which headed for Cherbourg after the Atlantique had been abandoned.

The vessel apparently will be a total loss.

Bowers Brothers Helping Children Who Need Shoes

Children at the Baker and Horace Mann schools who were nearly "on their feet" yesterday for lack of shoes were proudly displaying new footwear today.

John and Joe Bowers, local ranchmen, took the children to a shoe store and had them fitted. The Bowers brothers also are helping the caterfias which feed needy children free at noon. The schools must depend upon voluntary gifts in caring for children who are underprivileged.

Baker school cafeteria also has been given \$2.75 by Mrs. V. E. Fatheree, a frequent contributor to such institutions.

BABE IN NEW YORK

NEW YORK, Jan. 4. (AP)—Mildred Babe Didrikson, all-round athletic star who recently turned professional, today arrived in New York to see about signing a few contracts. Accompanied by her sister, Mrs. Esther Elan, and her manager, George Emerson, she arrived from Chicago and established headquarters at a midtown hotel.

AMARILLO HOTEL ROBBED

AMARILLO, Jan. 4. (AP)—Two armed bandits who were smoked glasses for masks early today sauntered into the Capitol hotel, one of the city's leading hostleries in the business section, and robbed the night clerk of approximately \$80.

The executive board of Sam Houston Parent-Teacher association will meet at 2 o'clock tomorrow afternoon. All members are asked to be present.

CITY-COUNTY HOSPITAL WARD PLAN OF CARING FOR DESTITUTE ILL BEING STUDIED IN PAMPA

We liked this ladder of success:
100%—I kid.
90%—I will.
80%—I can.
70%—I think I can.
60%—I might try.
50%—I suppose I should.
40%—What is it?
20%—I don't know.
10%—I can't.
0%—I won't. (The Echo.)

We are thankful that in 1933 we did not have an inclination to hunt up a skyscraper and jump off.

The West Foster grouch says he got as pessimistic in 1932 as was possible for him, so in 1933 he must of necessity pose as a comparative optimist.

Until we see Mrs. John Hesse, we will remain puzzled by his New Year's resolution to boss his home.

New York bank letters are getting simple enough for even the man in the street to understand them. Truly, the day of super-ordinary mortals is passing.

Sheriff C. E. Pipes may have law enforcement problems equal to his size, but if they develop they will be no bigger than the struggle he is given to have to obtain funds with which to pay his deputies and leave a living wage for himself. How, under the fee system, he can amass enough fees on the records of the office to sustain a force of the size he is assembling is a mystery whose solution is not in sight.

Under the fee system, sheriffs, district clerks, county clerks, constables, justices of the peace, and county attorneys receive their compensation in whole or in part from the state on the basis of fees for services performed. The sheriff gets mileage for transporting prisoners, serving subpoenas, and the like, but the remuneration is considered in the classification of fees of office. Peace officers regret that the condition obtains in Gray county, it is a fact that the state auditors look with suspicion upon every claim and reject claims which appear illogical.

Between September, 1925, and May, 1931, the criminal jurisprudence system in this state cost \$12,436,106, exclusive of the enormous jury expense borne by counties. During that period there were 113,449 indictments, but only 24,848 convictions—a cost of \$500.48 per conviction.

Apparently, therefore, the seriousness of the crime has little bearing on chances of conviction under the fee system. The committee's figures show that of 100 persons arrested, 43 go free without trial, four are acquitted in trial, the remainder receive suspended sentences, and only 22 are sent to the penitentiary. Moreover, the multiple indictment system has made

(Continued on Page 2.)

I HEARD--

A group of lefthanded golfers rejoicing on a street corner this morning. It seems that Bus Kaufman, who is to be pro at the new Gray County Golf club, is a lefthanded artist of no mean ability. Right-handers have been coming to town for the last few years and ruining the portersiders. "No wonder we rejoice."

Walt Moss debating to himself whether to make some New Year's resolutions or not. It was an interesting one-made debate.

Idea Recommended By Counties In Texas

One of the problems of 1933 which is carried over from 1932 in caring for the destitute sick.

Numerous proposed solutions have been discussed, but one is receiving more than ordinary attention. The city-county hospital ward plan used in some counties of Texas and nearby states is highly recommended. Under this plan, the city and county commissions would ask bids on providing of such a ward based on regulations clearly outlined, and would make a binding contract for the maintenance of such a ward.

It would be necessary for welfare executives and physicians to determine what cases should be sent to the ward. The efficiency desired is the cessation of caring for severe illnesses individually, with special nurses and high cost. Moreover, use of the ward plan would, it is believed, result in quicker recoveries and better care for many persons living in miserable quarters.

It is recognized that present methods do not make possible proper care of many worthy cases. Moreover, the cost to the city and county for hospitalization, care in the homes, and for nurses and medicine has become almost prohibitive. The county spent more than \$3,800 in 1932 and there are indications that the expense will be at least that great in 1933. The city also is spending many hundreds of dollars in similar work.

The city-county ward plan would reduce these costs, if methods used elsewhere were effective here, by limiting maximum expense under a contract. A huge saving of time would be effected by eliminating the necessity of seeking city or county sanction for the care of each individual who, for lack of food, because of worry, or through natural causes became ill while jobless.

Drivers Urged To Buy Vehicle Licenses Now

The usual congestion in obtaining automobile licenses is feared by Tax Collector T. W. Barnes, whose records show only 250 licenses issued to date out of an expected total of more than 4,000.

He hopes that citizens will find it much to their advantage to get their licenses at once. There are half a dozen headlight testing stations, hence no delay in getting the necessary test receipts is likely. Only these receipts are needed in re-licensing cars licensed in the county last year. Other cars, however, require last year's license receipt for licensing in addition to the headlight receipts, together with transfers if any were made.

Poll taxes, too, are far behind last year's payment. Only \$19 poll taxes had been paid this morning. With only 20 minutes on a well lighted location, thieves stole Murray Freundlich's practically new 1933 Chevrolet de luxe sedan while he was eating supper. He parked the car in front of the store building formerly occupied by the Pampa Furniture company on the West Foster avenue about 4:15 o'clock.

He immediately notified city officers, who started telephoning officers in nearby cities. New 1933 license numbers, 442-153, had been placed on the car the previous afternoon.

F. F. McKimming later reported

ROBS FOR FOOD

Still despondent and confused, Mrs. Alice Scriber is shown waiting in jail in New York after an unsuccessful holdup in which she said she attempted to obtain money for her hungry children. She went from her Yonkers, N. Y., home to Brooklyn and held up the manager of a bakery store, obtaining \$54, but was captured a block away. Her husband is jobless.

'ARMY' RAISES ENOUGH MONEY FOR 'PROGRAM'

Officials Are Highly Pleased Over the Drive Outcome

In closing the active part of the campaign of the Salvation Army home service appeal, A. G. (Pete) Post stated this morning that "while we didn't get what we had hoped during the two-week solicitation, yet we are very highly pleased over the outcome."

In speaking for the advisory board, Mr. Post stated "we have done exceptionally well under the conditions. The first week was one of bad weather and sickness, then because of the rush of the holiday season workers could not be secured or heads of firms and individuals could not be seen. Taking all in all, the people have rallied to the Salvation Army beyond our expectation in such a short time. Only one hundred and sixty people out of the possible five hundred had been contacted and we have enough in sight, we believe, unless an emergency arises, to carry on a well-rounded program in Pampa for the Salvation Army."

One of the finest things, said Mr. Post in commenting on the campaign, "is the wonderful response we have received from those who have been able to interview, not only from a financial standpoint, but from the splendid interest shown in the work itself. During the last two weeks my observation and that of other members of the advisory board, there has been fine cooperation given our officers here. Many have asked during our home service appeal that we come back

(See DRIVERS, Page 6) (See ARMY, Page 6)

THIEVES TAKE MERCHANT'S CAR AND PARTS FROM 2 MACHINES; GASOLINE AND BICYCLE STOLEN

Thieves resumed their work in earnest here last night, when one car was stolen, parts were taken from two more, and a garage was entered. City officers are investigating the thefts and have notified officers in nearby cities to be on the lookout for the stolen automobile.

Although the door and ignition were locked and the car left less than 20 minutes on a well lighted location, thieves stole Murray Freundlich's practically new 1933 Chevrolet de luxe sedan while he was eating supper. He parked the car in front of the store building formerly occupied by the Pampa Furniture company on the West Foster avenue about 4:15 o'clock.

He immediately notified city officers, who started telephoning officers in nearby cities. New 1933 license numbers, 442-153, had been placed on the car the previous afternoon.

Johnson Assails Cancellation

DEMANDS LAW TO OBSTRUCT CERTAIN LOANS

CALIFORNIA'S SENATOR WOULD PUNISH DEFAULTERS

BOND HISTORY IS CITED

DECLARES AMERICANS WERE 'BEGGARED' TO BUY BONDS

WASHINGTON, Jan. 4. (AP)—Notice was served upon the senate today by Senator Johnson that he would demand legislation to bar American resources from "nations that do not honor their obligations."

He refrained from detailing provisions he had in mind.

California's independent republican, in the first speech that has broken the senate silence on war debts this session, assailed those who favored cancellation or revision and said the American people had begged themselves to buy bonds so this country could make loans.

"There was no question then of cancellation or revision," he said. "No voice was heard demurring." An intent senate listened while he recited the history of the war loans.

Standing beside his front row seat and with quite a gallery present, including his wife and friends, the Californian said the story of the war debts was 15 years old, but so "much misunderstanding and misrepresentation was involved the retelling was necessary."

"We were told when these loans were made," he said, "that unless this financial assistance were forthcoming the war could not be carried on."

"Some of our people begged themselves to buy the bonds and do their patriotic duty. We were told that the proceeds from these bonds, which was loaned to Europe, would be paid back—every penny, including interest. We were told there never would be a loss because the foreign governments, grateful for our assistance, would pay every penny. I recall those promises."

Baby Beef Show Here Early In March Planned

A baby beef show to precede the Amarillo show next March is being planned by the agricultural committee of the Board of City Development.

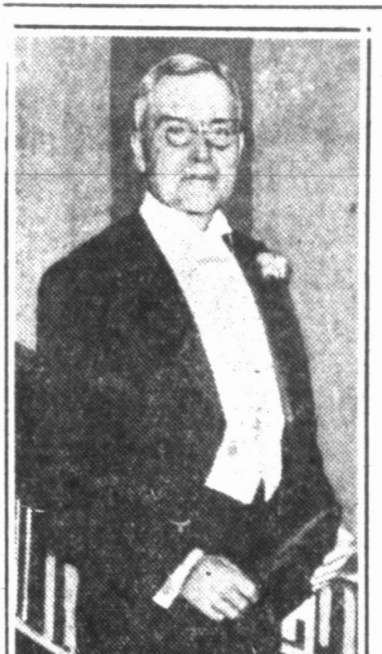

It is known that 21 baby beefs are being fed in this county and others in adjoining counties. The animals could be assembled here for a show with nominal prizes and then taken to the bigger show in Amarillo. The boys would be highly pleased with such an event, it is believed.

Other activities of the committee will include work with the poultry show in January, stock judging contests, poultry judging contests, achievement days, boys' trips to Dallas fair, and the like. Members of the committee are G. C. Stark, chairman; Ralph Thomas, J. L. Lester, Roger McConnell, Dick Walker, Irvin Cole, James Jackson, Tex Scott, and Lawrence Taylor.

New members of the Board of City Development are especially active with their committees. Work of the B. C. D. and Junior chamber will be coordinated in the next few days.

Mrs. Earl Thomason was dismissed Sunday from Worley hospital, where she underwent a throat operation.

JOHN D. JR. AT MUSIC HALL

John D. Rockefeller Jr. (left) was the financial genius responsible for creation of the new Rockefeller Center in New York and he is seen here attending opening of the new Music Hall in the quarter while others in attendance were (upper right) Amelia Earhart, whose solo flight to Ireland inspired one of the murals in the foyer, and (lower right) Gene Tunney.

NEW FIGHTING BREAKS OUT IN CHAOTIC AREA

OFFICIALS UNABLE TO PREVENT ATTACKS OF MINERS

TWO MORE SHOT TODAY MAN AND WOMAN SLAIN IN OPEN BATTLE LAST NIGHT

TAYLORVILLE, Ill., Jan. 4. (AP)—Five companies of the Illinois national guard were ordered into Christian county as the state attempted for a second time to bring peace in the troubled coal fields of Central Illinois, where a man and a woman were killed and several slain last night and where two more were shot and wounded today.

Officials of the county, helpless to preserve order in the face of killings and repeated attacks on working members of the United Mine Workers of America, asked the troops to resume occupation of the county which they left ten days ago.

Lieut. Col. Robert W. Davis of Carbondale, commanding the 130th infantry who was in charge during the three and one-half month stay last fall, was ordered by Adjutant General Carlos E. Black to take charge once more.

One of the morning's developments was the arrest by the sheriff of Alex Jevalltas, night police officer of Bulpitt, adjacent to Kincaid. He was charged with shooting at a patrol car manned by deputy sheriffs.

Fighting broke out anew among hostile union miners as members of the United Mine Workers started for the shaft of Peabody mine No. 7 at Kincaid.

Even both sides of the mine shots burst out. Two men were seriously wounded, the others reached cover amid a shower of machine gun bullets and buckshot.

CARBONDALE, Ill., Jan. 4. (AP)—Lieut. Col. Robert W. Davis of Carbondale, commanding the 130th infantry of the Illinois national guard, started for Taylorville this morning to take charge of five companies of guardsmen ordered into the mine strike area.

The guardsmen were scheduled to reach Taylorville this afternoon, Colonel Davis said.

I SAW--

Bob Fuller, and he had completely recovered from a recent attack of the "flu", and will be able to referee the Sandie-Harvester game Friday night here. The frenzied fans have shown no inclination to boo at Bob, which is a record, and that is no fault, on the Pampa fans because they seldom boo unless the refereeing is obviously lax or dumb—a compliment to Bob.

Miss Ola Nellis being questioned about her recent trip to East Texas by Mrs. Gladys Robinson.

"I'm a Fugitive From a Chain Gang," and am I going to stay out of Georgia, or am I going to stay out of Georgia? I might happen to expectorate on the sidewalk; some "cracker cop" might get me, and clap me on the chain gang.

GRAY COUNTY ADVANCES CLAIM THAT 375-POUND 'TINY' PIPES IS BIGGEST SHERIFF IN SOUTHWEST

Gold Badge Is Given Officer By His Friends

What with learning the duties of his office, greeting friends who called "to see how he looked," and arranging to move into the suite of rooms upstairs in the courthouse, Sheriff C. E. (Tiny) Pipes has been extraordinarily busy, but not too busy to polish the gold-fiber badge which is pinned securely on his broad chest.

The gold badge bearing his name and carrying a Texas long star, was presented by friends in the courthouse and about town, along with silver stars for the deputies. County Judge C. E. Cary made the presentation. Only one thing dims the splendor of the sheriff's badge—the word gray in Gray county is spelled "G-r-a-y" and that will have to be remedied.

If there is a bigger sheriff in the southwest, no one here knows about it. Sheriff Pipe takes office weighing 375 (three hundred seventy-five) pounds. He is 6 feet 2 inches tall. He wears a specially made shoe with No. 8 last but the average foot of that size would be lost in the kind of footwear.

(See COUNTY, Page 6)

LATE NEWS

AUSTIN, Jan. 4. (AP)—The state school fund is entitled to one-half the bonus and rentals from land that was forfeited and repurchased under the repurchasing acts of 1925 and 1926, the attorney general's department held in a conference opinion released today.

WASHINGTON, Jan. 4. (AP)—The house rules committee today approved a resolution giving a privileged legislative status to the emergency farm relief bill designed to set minimum prices on major agricultural commodities. The bill reported yesterday by a 14 to 8 vote of the agriculture committee, will be brought up for consideration tomorrow. The rule will provide eight hours of general debate before reading the bill for amendments.

PHOENIX, Ariz., Jan. 4. (AP)—Judge Howard C. Speakman today denied a motion to quash and set aside an indictment accusing John J. Halloran, Phoenix lumberman, as an "accessory to the crime of murder."

CHINESE LEADER REFUSES TO DEAL WITH JAPANESE; 3 DEMANDS PRESENTED CHANG

Jap General Wants Apology—Control of Depot and Neutralization of Area.

By HAROLD TEMPERLEY, Associated Press Staff Writer. PEIPING, China, Jan. 4. (AP)—Marschal Chang Hsiao-Liang, military ruler of North China, served notice on Japanese authorities today that he did not care to deal with them concerning the Shanhai-kwan incident. He bluntly requested that any further communications be addressed to the national government at Nanking.

Chinese forces were believed preparing for another battle south of Shanhai-kwan, whence they retreated yesterday with a reported death toll of 500 troops. That city, dominating northern land and sea gateways of China, was reported in ruins. Japanese finally won complete control after bitter street fighting in which many citizens

were killed or wounded. In a letter to General Kotaro Nakamura, Japanese commander in North China, Marshal Chang refused to accept responsibility for the first clash between Japanese and Chinese troops at Shanhai-kwan on January 1. He laid blame for the incident at the door of the Japanese.

Next immediate movements by the Japanese troops were expected to determine whether they would start their long predicted drive to annex Jehol to Manchukuo, the Japanese-sponsored Manchurian state, or whether they would push further into China proper along the railway leading to this ancient capital.

Demands Apology. SHANGHAI, China, Jan. 4. (AP)—Japanese press advices from Tientsin today stated that General Nakamura, commanding the Japanese garrison there, had presented three demands upon Chang Hsiao-Liang,

the Chinese commander-in-chief, for settlement of the situation at Shanhai-kwan. He required the dispatches said: First, that Chang Hsiao-Liang and the Chinese commander Shanhai-kwan apologize to the Japanese. Second, that the Japanese be granted control of the Shanhai-kwan railway station, and third, neutralization of the Shanhai-kwan area.

Chinese acceptance of these alleged demands would give the Japanese the railroad inside the great wall, with the Peiping-Mukden railway possibly ending at Chinwangtao.

Avoid Conflict. TOKYO, Jan. 4. (AP)—The government instructed Japanese military and diplomatic authorities in Manchuria and North China today to avoid aggravation of the Shanhai-kwan situation resulting from occupation of that Chinese city by Japanese troops.

ON CONTENTMENT

The man who is perfectly satisfied to stay quietly at home and let other people see the sights and have the adventures is always a bit of a puzzle to most of us. Monotony and boredom are plagues that we avert only by great exertion; it is hard to understand the man who doesn't even know what those words mean.

So there is a good deal of interest in the story of that 83-year-old Ohio farmer who set out the other day to make his first trip to the city.

This man has spent all of his life on a farm less than 30 miles from one of the largest cities in the middle west. But—up to a day or so ago—he had never gone into the city. He had never, for instance, seen a skyscraper, or a moving picture show, or a traffic jam, or any of the other delights of modern urban civilization. Instead he had lived peacefully on his farm, quite content to remain out of the main current of life.

When we read about a chap like this our first impulse is to feel sorry for him, in a superior sort of way. We tell ourselves that he must have missed a lot; staying put so placidly for so many years.

But maybe the old gentleman hasn't missed as much as we suppose.

While other men have wrestled desperately with the noise and confusion and hustle of city life, he has had his quiet fields, his slow round of duties under the open sky, his tasks that are performed to the gentle rhythm of the seasons themselves.

In place of jangling street cars, rumbling trucks and speeding autos he has had peaceful country lanes with springy earth underfoot; in place of a crowded suburban subdivision or a jammed city apartment house he has had a home separated by many acres from every other dwelling; he has been able to look at dawns and sunsets without finding their beauties dimmed by a smoke cloud; if he has missed the movies, he has had the unending pageant of spring and summer and fall and winter, the never-faltering birth of new life in the warm ground.

Perhaps, after all, this old chap who stayed away from the city for fourscore years knew what he was doing.

Electrical appliance manufacturers may claim the credit for "getting mother out of the kitchen," but it was the social room that got the ashes out the basement.

High school youths who get behind in their studies deserve sympathetic counseling by their parents. Maybe it's the embarrassment of having to ride to school in nothing better than a four-cylinder car.

While Congress is sharpened up on fractional percentages "by weight" and "by volume," it might be a good time to increase the glue content of a postage stamp.

Woodward Lists Ten Potential Leaders of '33

NEW YORK, Jan. 4. (AP)—William Gibbs McAdoo, former secretary of the treasury, heads a list of ten persons who, W. E. Woodward, the author, believes are marked as potential leaders of 1933.

The activities of the ten in 1932, Woodward said today, leads him to the conclusion they will "galvanize our existence into some semblance of movement" this year.

Here is his list:

1. McAdoo. "He will be the outstanding leader of the senate, and I believe he ranks that leadership because of his constructive ability and his wide experience in the mechanism of government."
2. Howard Scott, Technocracy leader. "Because he takes his theories out of the soapbox and offers them over the counters of big business and thus they become credible mental merchandise."
3. Joseph V. McKee, acting mayor of New York, in 1932, because "he is a political force we must reckon with in 1933."
4. Ruth Bryan Owen, who Woodward believes will be a member of the Roosevelt cabinet, because "she is an able woman, with much legislative experience."
5. George Davis, novelist, because of the "promise" of his first novel.
6. Mrs. Franklin D. Roosevelt, because "she is outspoken, her viewpoint is liberal, and she will be an undoubted factor when the time comes to appraise 1933."
7. Owen D. Young, "who will be one of the most conspicuous figures in the cabinet."
8. U. S. Rep. James W. Collier, "who as chairman of the all-important ways and means committee of the house must exercise considerable influence."
9. Dr. Nicholas Murray Butler, president of Columbia university, because "nothing in the world can prevent President Butler from being an outstanding figure until death."
10. George Gershwin, the composer, because "as this nation draws nearer to the precipice of disaster, we shall need more and more jazz to help us along."

WOODEN MONEY IS NO GOOD IN TENINO AGAIN

By CLEVELAND WILLIAMS
Associated Press Staff Writer
TENINO, Wash., Jan. 4. (AP)—They won't take wooden money in Tenino any more.

With the first business day of the New Year Tenino goes off the wood standard and back to the gold standard—and the last day for redemption of this town's world-famous wooden money has passed. It only cost the chamber of commerce \$30 to redeem the \$6,500 wooden currency it issued to bring the community out of financial chaos after failure of its only bank, because souvenir hunters and curio dealers throughout the world are keeping the balance.

With the profits of its venture the chamber took announced it was completing a deal to buy the building and fixtures of the defunct citizens bank and the town will be ready to do business there when and if the legislature passes a branch banking law. C. S. Argo, president of the chamber, recalled the day earlier in the year, when the bank closing froze tight the assets of the community, paralyzing trade.

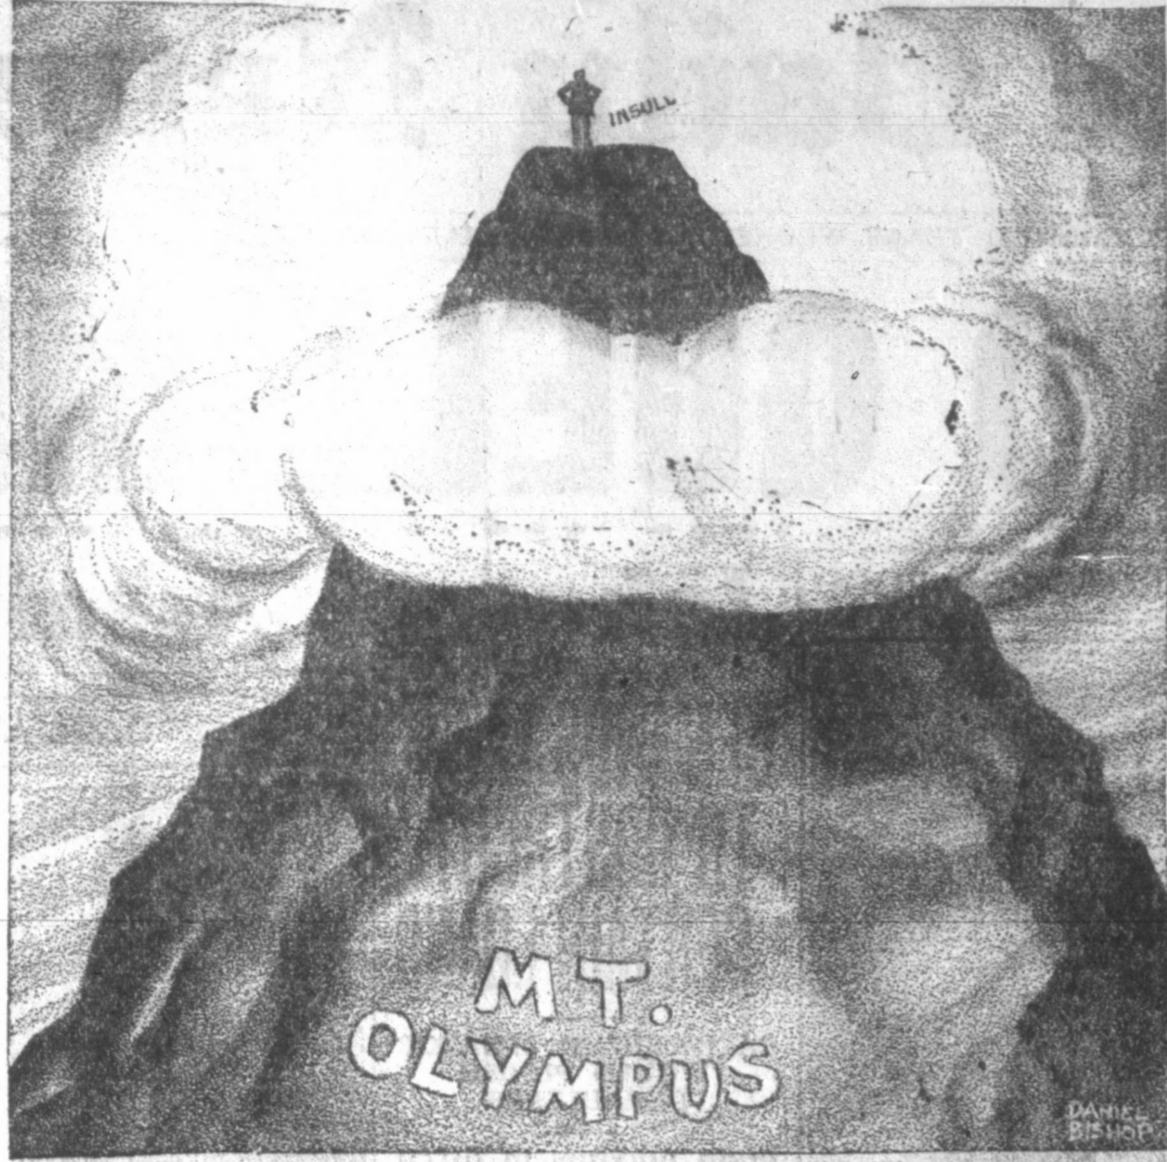

The chamber issued the money, printed on sitka spruce, in denominations of 25 cents and 5 cents and one dollar, in return for certificates of depositors up to 25 per cent of their accounts.

The country laughed, but liked it. Tenino traded with the wooden money, and a serious financial situation was relieved. Tourists took it as souvenirs. Chicago banks accepted some of it as legal tender and Senator C. C. Dill of Washington exhibited it in the senate.

No. 10, George Gershwin, the composer, because "as this nation draws nearer to the precipice of disaster, we shall need more and more jazz to help us along."

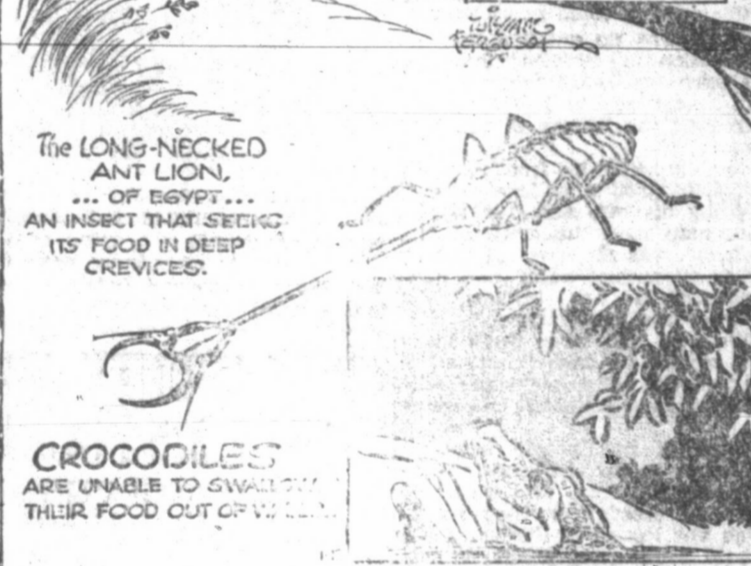

Woodward, now a resident of New York, is a native of Ridge Spring, S. C., a graduate of the South Carolina Military academy, and at one time lived in Atlanta, Ga.

THE NEW GREEK GOD

— THIS CURIOUS WORLD —

THE MOON IS FEMININE IN THE ENGLISH, FRENCH, LATIN, ITALIAN, AND GREEK LANGUAGES BUT IN THE TEUTONIC LANGUAGES IT IS MASCULINE!

THE LONG-NECKED ANT LION... OF EGYPT... AN INSECT THAT SEIZES ITS FOOD IN DEEP CREVICES.

CROCODILES ARE UNABLE TO SWALLOW THEIR FOOD OUT OF WATER.

THE LONG-NECKED ANT LION is found among the tombs and pyramids of Egypt, near deep wells of sand. The elongated part of the insect is really not the neck at all, but the fore-body, and it is scarcely thicker than the neck. The long-like pincers enable it to snare prey from deep crevices too narrow for the insect itself to enter.

THE CROCODILE has no olfactory glands and must therefore wash its food down with water.

Ballads Coming Back, Believes 'Adeline' Author

NEW YORK, Jan. 4. (AP)—Richard Gerard Husch expressed the hope today that "Sweet Adeline" during the New Year might have a sister as lusty as Adeline herself.

"Sweet Adeline," began Mr. Husch, and his interrogator chimed in with the inevitable descending harmony, "Sweet A-De-Line."

Husch, who wrote the song under the name Gerard with Harry Armstrong doing the music, "didn't do as well by us as she might have. We had her around for a long time, and the best offer we got was ten dollars. A quartet looking for a song came over to give the song a listen. Their agent said it was terrible, but the barbershop harmonizers took it anyway."

"But 'Adeline' didn't go over any too well, and we sold her down the river, or down tin pan alley, for about five thousand dollars. From that time on 'Adeline' went like a house afire."

Husch believes 1933 will reward ballad writers.

"I have forty ballads in the making," he said enthusiastically, "and I think ballads are coming back."

PAMPA TOPIC OF OUR CITY

(Continued from Page 1)

statistics bewildering. Aside from these facts, the system of requiring sheriffs to await indictments before going for prisoners in other counties on pain of receiving no travel expenses, is a hardship on officers who wish to do their duty. Stringent state laws, enacted because of dishonesty of some officers, has certainly tended to make difficult the work of honest officers.

Just as James Stephen Hogg as governor pointed out the evils of the fee system, so must observers today condemn it. We seldom meet a fee-paid official who does not wish a straight salary basis was provided. Some officials are starving, while others are known to receive, in the heavily populated counties, more than the governor, the attorney general, and the state treasurer put together, despite limitations placed by the legislature.

WHY NOT JOIN?

Pampa has not been a member of the West Texas chamber of commerce for more than 2 years. For a time the program of the regional organization was such that it did not matter. Most of the work tended to center around Abilene and other cities whose interests are not identical to our own. More recently it has developed under the management of D. A. Bandeen, that W. T. C. C. has righted itself financially and adopted a program embracing the Panhandle. Lately Pampa has been profiting from the regional body's work, particularly the handling of federal relief funds. Frankly, we believe that Pampa should be a member of the West Texas chamber of commerce. We hope the new B. C. D. will take steps to bring this about. We have no regrets for having dropped out when this city did; we believe now is the time to affiliate with the West Texas chamber and help to continue the work along current lines.

OVERHAULING NEEDED

There has been a growing belief here that tax assessments need a general overhauling. The huge amount of building has loaded the books with entries concerning buildings of every type. There have been variations in the trend of front-foot values on various streets. Some structures are old, yet beside them are new buildings of varying cost of construction. Altogether, according to a number of persons who have been on boards of equalization, the problem has reached a magnitude which makes thorough study necessary. The average board does not have the time to consider the result of a thorough-going

Throne Claimant Appeals To Reds

PARIS, Jan. 4. (AP)—The Grand Duke Cyril, claimant to the throne of the Czars, has issued an appeal to the Soviet army and navy to stand ready to deliver Russia from the communists which, he said, could be accomplished only with their aid.

The national conscience gaining strength in Russia is a sign of early deliverance," his appeal said. "National sentiment has deeply penetrated the army and navy which still bear the name of Reds. They form the sole Russian force able to save Russia from communist invasions, disintegration and oppression."

Building Permits Fair During 1932

Building permits in Pampa reached a total of \$41,335 in 1932, it was disclosed today.

Although this figure is very small compared to other years, it is better than the average city of this size in the Southwest. Much of the money spent was for labor in repairing, remodeling, moving in houses from nearby towns, and the like. The largest permit, of \$15,000, was for the Fort Worth & Denver station.

The outlook for 1933 is much better, providing credit for home building is loosened.

Considerable carpentry work was done in the oil fields during 1932.

Coach Clarence ("Doc") Spears, who came back to the Big Ten this year and led Wisconsin to one of its best football seasons, broke an old Badger tradition when he let the co-ed attend the annual football banquet.

Grosse Pointe high school at Detroit has two basketball players who can pick up fully inflated basketballs in either hand.

S. A. Phillips of White Deer was able to leave Worley hospital yesterday.

Mrs. B. T. Hargis is improving after an illness of "flu" and pneumonia.

TECHNOCRATS CLAIM MACHINES REPLACE MORE MEN THAN THEY PUT IN NEW JOBS

Efficiency Said to Cause Inevitable Reduction in Hours of Employment.

By J. E. BRACKETT
(Copyright, 1932, By The Associated Press)

NEW YORK (AP)—Man-hours is another phrase, long a friend of the engineer, that Technocracy has placed in America's mind, with new emphasis.

It is in the reduction of the number of hours per man needed to produce a unit of product that Technocracy envisages much of today's troubles, and perhaps even greater ones in the future—troubles, in the form of growing unemployment.

At Columbia university, where the group of engineers who call themselves Technocrats are at work under direction of Howard Scott, are several dozen charts, showing principally two lines—one of production, the other of man-hours.

The production line on this chart goes upward, the man-hour line downward. For instance, Technocracy says it took 1,300 man hours, or one man 162½ eight-hour days, to fabricate an automobile in 1904, whereas today it requires only 90 hours or 11½ eight-hour days.

Employment Decrease Cited

In 1920, Scott says, it actually required 210,000 workmen to fabricate all the automobiles produced. If the methods of 1904 had been used to produce the same number of automobiles, the industry would have needed 2,940,000 men instead of the 210,000. These figures are given to show the astonishing advance in mechanization, and Scott says similar statistics are true of most industries.

W. W. Hay, engineer and consultant with the Mayflower Consolidated company, says such a calculation includes only a small part of the men who actually were required to produce the whole automobile, since it omits parts and accessories makers and others who had a share in making the finished machine.

Hay says the implications of such a figure are that the automobile furnished employment to but 210,000 men whereas the total figure was in the millions when it is considered that huge numbers were required to man the service stations, rubber tire factories and so on.

Hay adds that a composite figure for a whole industry cannot be fairly given due to the variation from plant to plant in efficiency.

Productivity Varies

The figures of L. P. Alford and J. E. Hannum, who have done much research into man-hours, show wide divergences of productivity in four industries. For instance, for blast furnaces the range of rates of production was found to be from 14 tons per thousand man-hours for a group of nine plants to 1,313 tons per thousand man-hours for a group of seven plants.

In the petroleum industry a wide range was found, a group of nine refineries producing 633 barrels of crude petroleum per thousand man-hours, as compared to 141,829 barrels for a group of 3 refineries.

RANCHER DIES

ARCHER CITY, Jan. 3. (AP)—W. R. Page, 78, prominent Archer county ranchman, died early today. He was a native of Georgia but lived in Johnson county, Texas, 40 years and in Archer county 23 years.

Police Almost Lose Battle at Rose Bowl Tilt

PASADENA, Calif., Jan. 4. (AP)—The Rose Bowl was the setting for two battles yesterday—a football game within-between Southern California and Pittsburgh and a near riot without-between policemen and a crowd of 500 men and women who allegedly attempted to force their way inside.

As a result of the disturbance, 27 persons today faced charges of attempted forcible entry and a half hundred policemen nursed bruises. Officer Roy Ewing was the most seriously hurt, being knocked unconscious when hit by a stone. Those arrested were said by police to be ring leaders of the group, which was not dispersed until tear gas was used.

Machines have reduced the number of hours men must work to produce a unit of goods, and, according to Technocracy, have reduced them more than production has gained. While the country was growing and before the machine reached its present efficiency, more and more hours were needed to produce enough goods, but with efficiency, hours went down—and, says Technocracy, so did employment because fewer hours of work mean fewer men.

Technocracy says 87 men could have produced all the bricks the United States used in 1929 if the industry had operated with the best methods. Hay says such statements imply the possibility of actually attaining such a mark, despite the fact this obviously would require a revolution in the brick industry. The New Jersey Brick Manufacturers association has taken exceptions to Technocracy's figures on bricks.

Many observers agree with Technocracy as to the increased efficiency of labor as aided by the machine, but Hay says, they likewise object to the selection of a few examples of technological gains as representative of all industry.

Police almost lose battle at Rose Bowl tilt.

Cigarette Prices Cut to 1930 Level

NEW YORK, Jan. 4. (AP)—Cigarette prices were back today where they were two years ago as a result of cuts announced by most of the leading manufacturers. From a price of \$9.85 per thousand, the R. J. Reynolds, American Tobacco, and Liggett & Myers companies have lowered their quotation to \$6. The new price is subject to the usual discounts allowed jobbers.

Under this reduction, the retail price of the standard brands, it is expected, will be reduced to a basis of two packages for a quarter as against a price of 15 cents per package under the previous manufacturers' price.

Ray McNeill returned to Oklahoma university at Norman yesterday after visiting friends here.

Persons who saw the 44th annual flower pageant, there was not one serious injury. Throngs crowded the streets to watch the parade of floats led by Mary Pickford, screen star, as grand marshal.

RED DEER COURSE ACQUIRED BY CLUB WITH 44 MEMBERS

Membership in Gray County Golf Club Limited to 100 Members.

The Gray County Golf club was organized last night to take over the Red Deer course. J. R. "Walter" Hagen was elected president of the new club.

Officers of the club with C. L. Stine, W. F. Cretney, E. E. Bechtelmeier, and Joe Vincent will compose the board of directors.

The club membership will be limited to 100 members. There were 44 signatures received at the meeting last night.

Pampa's newest golf club has extensive plans for the summer months, to include club tournaments, invitation tournaments and mixed tournaments.

NEW LINE-UPS ARE HELPFUL

National President Predicts More Interest in Baseball This Year.

By JOHN A. HEYDLE. NEW YORK, Jan. 4. (AP)—There has been no off-season in a quarter of a century where there have been so many changes in the line-ups of National league clubs as this winter.

A notable feature of league progress in recent years has been the strengthening of our habitual second division teams.

Chicago, the winner last season, has added the batting power of Babe Herman. Pittsburgh will have Lindstrom and also the increased value of her sensational young infielders of last season.

Brooklyn will be helped by Bengie and Philadelphia by Finn. Boston will have Worthington back next season, and has added two infielders of promise from the Coast league.

New York has made many changes in the disappointing team of 1932, and with Jackson back in the game, Davis in the outfield and the Starr-Mancuso battery the Giants ought to be more formidable.

The Cincinnati Reds have made determined effort to improve the club. They have added many new players, notably Bottomley of St. Louis and may be expected to make a fight to improve their position.

Major league, as well as minor league, baseball has made, and will continue to make, the adjustments necessary to meet conditions, and so we welcome 1933 with new hope and renewed courage.

Mr. Board Finally Figured It All Out

CHICAGO, Jan. 4. (AP)—After spending about \$1,500 and wearing out a dictionary in correspondence with coaches, William F. Board, author of the Azzi Rate system, figures Southern California is the national football champion for 1932.

The system strikes an average between 0 and 200 for each team's season performance. Here's how they finished in Board's ratings: Southern California 166; Michigan, 158; Purdue 151; Pittsburgh 150; Texas Christian 143.4; Tennessee 142.4; Notre Dame 138.8; Colgate 134.1; Auburn 134.1; Centenary 133.7.

SNOW FLIES

SEATTLE, Jan. 4. (AP)—Hundreds of highway workers drove their bucking snowplows into high-piled drifts on roads of eastern Washington, northern Idaho, and British Columbia today as a blizzard pelting them with fresh flakes.

PROFIT REPORTED

CHICAGO, Jan. 4. (AP)—Wilson & Co., incorporated, one of the world's largest packing companies, reported today a net profit of \$51,336 for the year ended October 29. This compares with a net loss of \$2,017,156 the year previous.

MEETING CALLED

CORSICANA, Jan. 4. (AP)—The Texas Gentlemen's committee and the governing board have been called to meet January 17 in Austin, according to officers.

Comisky Goes Back To Old White Sox

CHICAGO, Jan. 4. (AP)—No more superstitious ideas for Lou Comisky and no more striped Sox for his White Sox.

In mid-season last year, the owner of the White Sox decided after some urging by friends that his team might get a change of fortune if the stockings of the players were set off with plain red stripes instead of being plain white.

All the 1933 White Sox contracts were in the mail, some carrying bad news and others glad tidings.

Bowling Scores

The Phillips bowling team in the City league used its handicap to take three straight games from the Kiwanis No. 1 boys Monday night at the Pampa Bowling alleys.

Teams captains will meet at 7:30 o'clock Thursday night in the Pampa Bowling alleys to plan a change in the method of setting handicaps.

The Thirty Footers took two out of three games from the Cullum Motor while the Schneider hotel was winning the same number from the Country club in Commercial league fixtures at the Pampa Bowling Alleys last night.

Babe's Salary Is Beginning to Worry Curious

NEW YORK, Jan. 4. (AP)—The New York Yankees may shave a few nickels off Babe Ruth's \$75,000 salary for next season but rumors that \$25,000 might be whacked off seem to come under the head of speculation.

"That wouldn't be a cut," the Babe said when told the reports he would be offered \$50,000 for 1933. "That would be an amputation."

Ruth said he had, as yet, had no conversations whatever with Col. Jacob Ruppert over salary terms but added that he expected to have no trouble coming to terms again.

"I won't feel so good about taking a cut at all," he said, "but I'll listen to reason. I had a pretty good year, so did the Yankees, and the Colonel has always been fair enough."

Ruppert said he had not seen Ruth since the last game of the world series and had given no thought at all to the annual question of what salary to pay the big fellow.

The consensus among baseball men was that Ruth would not sign for less than \$60,000 or \$65,000 unless Ruppert should offer him a contract for more than one year.

EVERYTHING IN PLACE

DETROIT (AP)—In his first day at his new job, Sheriff Thomas C. Wilcox decided to look over the cells of the county jail. A few minutes later he came out bearing one hacksaw blade, two pairs of scissors, a pair of pliers, and three large screwdrivers.

Buying Barbara

by Julia Clift-Addams • Author of "YOU CAN'T MARRY"

When he brought her out her lunch, he was sure she sensed an unusual constraint in him. It was with a touch of nervousness that she informed him—

"The vicar says that Barbara and Mark are going to be married at nine o'clock on Thursday morning instead of twelve. What shall you do about it?"

"I shan't do anything about it. Barbara isn't marrying anyone on Thursday, at any time. I thought I'd told you so."

"You're fed up with me about something, Farrell Armitage. Rathner lend me the money to go by train."

He was silent. He took her empty glass and went back with it, paid the bill, returned to the wheel and drove away, still without answering her. She made no further comment upon him or herself and as the miles swung steadily under them, he believed that she slept.

They turned into Brandish Place at half past ten exactly. With whatever dreams Lella had beguiled the hours of the long drive, she kept them out of her bright, sure glance as she looked up at the big house in which both Armitage and his father had been born.

The Armitage butler, also a family piece and nearly as massive as the

As Lella turned to lift a dressing-case from the low stone wall, the old

"You're touching eighty," said Lella coolly.

"You're touching eighty," said Lella coolly.

man and the young looked intently at each other.

"Everything's all right, sir, honestly."

"I'm very glad to know it, my dear."

Lella hoisted herself and her luggage aboard and waved a hand eastward.

"Speed thither," she entreated.

"By now father may have managed to spell out the note I left pinned to the dining room clock."

Lella's remark was lost in the growing hum of the engine. The vicar touched Armitage's shoulder and then, as Armitage bared his head leaned forward and lightly kissed his forehead.

"I jarred Farrell when Lella laughed."

"He's still looking after us. I really rather adore him."

"I didn't know you ever went to see him."

"I used not to but he was decent, once; and ever since I've sort of hung about."

Armitage welcomed the necessity for keeping his unobtrusive attention on the road. At the back of his brain shimmered a picture; a portrait of an emerald set in platinum, of frightened eyes, of halfbare, half-veiled allure. He remembered that he had the emerald in his pocket. If she knew!

"You're touching eighty," came in Lella's cool tones. "And Toxeter is round the next bend."

Yes, the portrait must be forgotten. After all, one often stumbled on something in another man's life and one shoved it out of the zone of contemplation and attended punctiliously to one's own business instead.

He was unable to guess what time had elapsed when Lella's voice penetrated his exaltation.

"Where and when are we feeding? Here's 'The County Hotel.'"

"We aren't feeding at all," explained Armitage with candor. "When I'm in a hurry I don't stop for meals. I want to be in town by ten; I wired a map to see me at Brandish Place at half-past."

"Then you'd better get me a double gin and buy me a ham sandwich."

following world records: one kilometer at 251.240 miles an hour; five kilometers at 247.941 miles an hour; ten kilometers at 238.869 miles an hour, and five miles at 242.571 miles an hour. All the speeds were made last February 24 and 26.

Sir Campbell's car has been almost completely rebuilt and will be powered by a new 12-cylinder motor of approximately 1,500 horsepower, compared with last year's 1,500 horsepower.

TRAGEDY OF 51 CENTS

MILWAUKEE, Wis. (AP)—David Stark, 28, made a date with his sweetheart. They planned to go down to the court house to spend \$2 for a marriage license, and then to a store where Stark had seen a likely looking suit for \$40. They arranged to meet at 2 p. m. At 1 p. m. Stark's body was found hanging in the attic of his parents' home. In his pockets were 51 cents.

LEAGUE MEET ADVANCED TO THURSDAY EVE

CLASS D PROPOSAL TO BE PRESENTED TO LOCAL FANS

The meeting of Pampa baseball fans to decide whether Pampa will enter a team in the proposed class D league being organized in this section has been advanced to Thursday night so that sport fans may attend the Harvester-Sandie basketball at the local gymnasium Friday night.

George Limerick will call the meeting to order promptly at 7:30 o'clock and will explain the proposition as presented by Marty Fiedler to a small group of fans last week.

The plan as presented by Fiedler would be to have each team a farm for some Pacific coast or Texas league team farm with that team sending a manager and 14 players. The sponsor team would pay the expenses of four players and have an option on the four, to be selected at the end of the season.

Pampa, Amarillo and Lubbock have been advanced to the next level will be a general meeting in Lubbock January 15 to make final plans.

If the Texas towns follow the proposal made by Fiedler they will organize as did El Paso—a joint stock company composed of a large number of fans and backers. Stock certificates would be sold for \$1 each with a limit of 100 to any one person.

According to present plans, the league season will be opened April 18 and continue thru to Sept. 4, with 144 games on the schedule.

Every club in the loop, when on the road, would receive 20 per cent of the home team's gate.

Fiedler estimated the season could be completed on about \$10,000. The players salaries would be about \$4,500; manager's salary, \$1,350; league dues, \$750; road expenses, \$1,800; baseballs, \$750; but, \$500; uniforms, \$300; oil, gas, repairs, \$500; groundkeeper, \$300.

It would be necessary to raise about \$3,000 by stock sales before the season opened.

PACKET CAPTAIN DIES

MEMPHIS, Tenn., Jan. 4. (AP)—Captain George Peters Lee, a member of family famous for the magnificent packet boats it operated for three generations, died at his home here today. His death removed the last of the Lee family from the river business, his brothers, Reese Lee and Robert E. Lee, having turned to other enterprises in recent years. Another brother, Bayliss, died a few years ago.

Athletic Club For Women Is To Be Formed

Women of Pampa and territory are to be given an opportunity for real play. Feeling that women's athletic opportunities in Pampa are small, Mrs. Claude Lard and Mrs. O. E. Palmer are going forward with plans to organize a women's recreation and athletic club. Basketball, tennis, volley ball, and gym classes will be included, and later reading rooms and other features will be added. Dues have been set at \$2 a month, and as membership increases, dues will be lessened. Women interested in becoming members of the club are asked to communicate with the women's department of The NEWS.

Local Girl and Skellytown Man Marry in Sayre

Miss Lorene Francis of Pampa and A. Taylor of Skellytown were to be married in Sayre, Okla., yesterday afternoon and are expected to return today. The bride, formerly of Amarillo, has been a Pampian for two years and during that time has been employed at F. W. Woolworth company. An attractive pre-nuptial hospitality for the bride was a miscellaneous shower given by her mother, Mrs. H. W. Francis, and Mrs. J. H. Kirby. Gifts were presented by little Milton and Mildred Francis, twin brother and sister of the honoree, the children being daintily costumed in crepe paper. Refreshments were served at the close of the evening. The guests list follows: Misses Louella Wade, Marian Shawver, Inez Snuggs, Vivian Duff, Claudia Conklin, Lenice Chaffin, Novelle Hassel, Bertie Atchison, Oia Belle Duff, La Rue Little, Lavada Francis; Mesdames Beulah Little, Spoonow, A. L. Ford, Frank Johnson, J. M. Kirby, and C. C. Cockerill.

Dorcas Members Plan for Party

Plans for a party to be held Jan. 17 in the home of Mrs. Tom Carver were made at a meeting of the Dorcas Sunday school class, Central Baptist church, Tuesday afternoon. Mrs. Carver was elected crown captain to succeed Mrs. R. A. Mack, who has moved from Pampa. After the meeting, visits to the sick were made. Those attending were Mesdames W. O. Cooley, K. Hardcastle, W. W. Hughes, Lewis Turpley, Tom Carver, T. V. Carver, and L. C. Lockhart.

Here's Way to Vary School Lunch Menus

WASHINGTON (AP)—For mothers who are puzzling over the basket lunch for the school child, the department of agriculture suggests the following combinations: Lettuce and celery sandwiches, cup custard and jelly sandwiches. Hard-boiled eggs, baking powder biscuits, celery or radishes, and maple sugar sandwiches. Bottle of milk, thin corn bread and butter, dates, apple. Fatism or nut bread with cheese, orange, maple sugar, baked bean and lettuce sandwiches, apple sauce, and sweet chocolate.

AIRING OUT ROOM KILLS BOOK LICE

Book lice, the grayish-white insects that are found in books, trunks or wood-piles, can be eradicated by simply airing everything in the room on a sunny day. Where such treatment isn't possible they will be killed by heating the room to 120 degrees Fahrenheit for a few hours, says the U. S. Department of agriculture.

MEN PREPARE FEAST AND DO ALL SERVING

WOMEN ARE HONOREES AT PRESBYTERIAN FUNCTION

A fat pig, roasted to a beautiful golden brown, lay with splendor in what appeared to be a bed of alfalfa. A shining red apple was in his upraised jaw. What looked suspiciously like radishes were twinkling eyes.

The pig was securely fenced, too, with an authentic rail fence built of long sticks of candy in assorted colors.

Women of the First Presbyterian church who filed into the dining hall last night marveled at the splendor of said pig, and remained to wonder at the skill of the men of the church, who cooked and served the delicious meal, roast pig and all the essential trimmings.

It did not matter that the spoons had been placed at the wrong side of the plates, although the ladies talked and giggled a bit about this slip. Portly men like George Briggs who doffed coats and doined aprons appeared out of the kitchen with large platters of steaming food, and the feast was begun.

Sixth Birthday Is Occasion of Party

Frances Dean Crocker, little daughter of Mr. and Mrs. H. E. Crocker, entertained a few of her friends Tuesday afternoon on her sixth birthday. Various games were played. A white cake topped with six candles was the center of interest and bags of candy containing toy balloons were given as favors. Many gifts were received by the honoree.

Dana Bible on Trip to Texas

SAN FRANCISCO, Jan. 4. (AP)—Dana X. Bible, Nebraska coach, will ask for two years leave as co-manager of the West team in the annual East-West Shrine game here, sponsors of the meet said today.

BLACK CREPE GOWN HAS SQUARE DECOLLETAGE

PARIS (AP)—The Duchesse de Nemours wears an evening gown of black pebbly crepe designed with a square decolletage fastened with gold and silver rings. It is finished with a bolero effect in the back. With it the duchesse wears black crepe sandals.

POP CORN SUITABLE FOR BREAKFAST CEREAL

Though pop corn is eaten most often between meals, it makes an excellent breakfast cereal served with milk or cream, the United States food authorities report. It has similar food value as the same weight of corn prepared in other ways.

CRYSTALS AND PEARLS WITH BLACK OUTFIT

WASHINGTON (AP)—Mrs. Wilbur J. Carr, wife of the assistant secretary of state, was seen at a recent holiday party in a gown of black velvet, topped with a bodice of white georgette beaded in crystals and pearls. She wore diamond jewelry with the costume.

SCENE IN "THE SON-DAUGHTER"

Ramon Navarro and Helen Hayes in "The Son-Daughter," will be seen on the screen at La Nora theater today and Thursday.

TRIANGLE "ON THE SQUARE"

Love triangle? No reason for hard feelings! That's the view of the three smiling people above. Wendell Lieser, insect, met and was greatly attracted to Blanche Blaha, left. Far from objecting, Mrs. Lieser, right, invited Blanche into their Omaha home to stay until Wendell could make up his mind. When police, set on the trail by the mother of the missing Blanche found them, all were happy in the strange domestic arrangement.

GOOD REPORTS ARE GIVEN AT CHRISTIAN CHURCH GATHERING TO BE SPEAKER

Annual election took place and reports of the last year's work were given at a congregational meeting held last evening at the First Christian church.

C. L. Thomas, chairman of the general board, presided and gave reports of the year's work. He commented on the harmony with which members had worked.

Ivy E. Duncan stated that the church was in good financial condition, and other complimentary talks were made by Mrs. De Lea Vicars and Roy McMillen. The Rev. F. W. O'Malley made his annual pastor's report.

Other good reports were made concerning the women's work, the Christian Endeavor groups, and the Bible club.

Mrs. Lynch Gives Party for Group

Mrs. D. C. Lynch entertained a group of her friends with a party yesterday afternoon. Bridge was the diversion, with awards going to Mrs. Bill Hulseby for high score and Mrs. Florence Shields for low. The cup prizes were won by Mrs. Bert Isbell, Mrs. R. H. Kitchens, and Mrs. Frank Roche.

American Ideals in Teaching Stressed

Efforts to assure the teaching of American ideals and principles in public educational institutions will be pressed by the American Legion auxiliary during the coming year, according to the president of the Pampa unit of the auxiliary. The auxiliary's national convention in Portland vigorously condemned the activities of radical groups in the public schools, and urged continued efforts on the part of auxiliary units to keep American education patriotic in character, rather than of radical influence.

New Oil Order Being Enforced In East Texas

AUSTIN, Jan. 4. (AP)—Designed anew to bring some degree of order in the chaotic East Texas field, the world's greatest oil pool, the week-old order of the Texas Railroad commission basing proration on a per well and bottom hole pressure plan, met with varying views after enforcers and oil men dissected the mandate.

Reports from the East Texas area, where regulatory measures of the commission have been attacked from many sides, were to the effect that the latest order was being adhered to, that most of the operators seemed satisfied and that there had been no excessive production anywhere in the field.

On the other hand, Claud C. Wild, executive vice president and general manager of the Independent Petroleum Association of Texas, issued a statement strongly criticizing the new order as "futile and costly attempts to do the impossible."

"The Texas oil industry this week has launched upon another of the endless series of futile and costly attempts to do the impossible," Wild's statement declared, "under the new 'market demand' proration law."

"The newest proration order, just issued, like its predecessors will collapse of its own weight within a short time. The lowering of the price of oil immediately upon passage of the 'market demand' proration law and the tightening up of restrictions upon production in this new order are merely added incentives to the illegal taking of oil and the new order provides an ideal atmosphere in which the rapid development of oil marketeering will thrive and expand. The lower the allowable, the better the opportunity for violators."

AMUSU GROUP ENTERTAINED IN THUT HOME

BUFFET LUNCHEON IS SERVED FOR CLUB TUESDAY

Complimentary to members of the Amusu club, Mrs. Charles Thut entertained with a 1 o'clock luncheon, served buffet style yesterday. Games of bridge followed, with Mrs. J. M. Dodson scoring high. Those attending were Mesdames William M. Craven, J. M. Dodson, Dick Walker, J. H. Kelley, L. N. McCullough, Siler-Paulkner, George Walstad, C. P. Buckler, Lynn Boyd, C. T. Hunkapillar, Charles C. Cook, Tom E. Ross, W. A. Bratton, Alex Schneider, J. M. McDonald, and E. C. Will.

Mrs. Fahy Leads Program of Club

Led by Mrs. B. C. Fahy, a program on Eastern United States held interest for the Civic Culture club in the home of Mrs. Katie Vincent yesterday. In answer to roll call, each member named one of the 13 original states.

Talks were given as follows: "Historic Boston and Bunker Hill," Mrs. Katie Vincent; "New York and Vicinity," Mrs. Irvin Cole; "The Immigrant and Ellis Island," Mrs. Ralph Thomas; "Points of Interest on the Hudson," Mrs. A. L. Patrick; "The Quaker City," Mrs. H. H. Isbell.

Mrs. Vincent presided during a business session, when Mrs. H. H. Isbell was elected delegates to the Pampa Federation of Women's clubs.

Refreshments were served to one visitor, Miss Virginia Thomas of Plainview, one new member, Mrs. Paul Jensen, and the following old members: Mesdames A. L. Patrick, E. A. Shackleton, Ralph Thomas, Irvin Cole, H. H. Isbell, and Joe Berry.

Mrs. Davison to Be Program Leader

Mrs. W. H. Davison will lead a program on the relation of the child to character education at a meeting of the Horace Mann Parent-Teacher association tomorrow afternoon. Members of the school children are given a special invitation to attend.

Miss Louise Smith will play a piano solo, after which Mrs. J. M. Williams will speak on books beneficial to the child's development.

Miss Josephine Thomas will speak on character development in the educational system. A reading, "Being Brave at Night," will be given by James Williams. Thrift week is to be observed.

The Social CALENDAR

THURSDAY
American Legion auxiliary will hold a regular meeting at the Legion hut at 8 o'clock. All members and visiting members are invited and urged to be present.

Miss Margaret Buckler will entertain Club Mayfair at 2:30 o'clock.

Baker Parent-Teacher association will have a regular meeting at 3 o'clock. Mrs. A. A. Day will be program leader.

Woodrow Wilson Parent-Teacher association will meet at 3 o'clock.

A Horace Mann Parent-Teacher association meeting will be held at 3 o'clock.

San Houston Parent-Teacher association will meet at 3 o'clock.

The Bethany class, First Baptist church, will entertain at a party Thursday evening at 7:30 o'clock. Members and honorary members, and their husbands are invited to attend.

Chatter-Box club will be entertained Thursday afternoon at 2 o'clock by Mrs. J. H. Smith.

The executive board of Baker Parent-Teacher association will meet at 2:30 o'clock Thursday afternoon.

Mrs. A. B. Goldson will be hostess at 3 o'clock to the Arno Art club.

EVA TANGUAY NOW CARES

Eva Tanguay, tousled-haired firebrand of the stage 25 years ago, who had the country echoing her song, "I Don't Care," is fighting her way back to health after a nervous collapse. Somewhat lame and able to see only with difficulty, she is shown right above, at Hot Springs, Ark., with her nurse on her first venture outdoors in weeks.

BLACK AND WHITE PARTY GIVEN CLUB BY MRS. SKEET ROBERTS

Black and white were smartly featured throughout a party given Tuesday afternoon by Mrs. Skeet Roberts in the home of her mother, Mrs. Jim White. Members of the Tuesday Afternoon Bridge club and other guests attended.

The four tables were covered with black and white chintz under white tarleton, and the cards, tallies, and score pads were in black and white.

Home-made candy was served throughout the afternoon, and at refreshment time each table was centered with tall white lapers in black crystal holders. Black dishes were used for serving chicken salad sandwiches, ripe olives, plum pudding, and coffee.

Awards were presented to Mrs. Seth Beauchamp for high score among members and Mrs. Carroll Jackson for high among guests.

Special guests were Miss Addine Simmons, Mrs. Carroll Jackson, and Mrs. R. W. Walker of White Deer, and Mesdames Ralph Dunbar, J. S. Wynne, De Lea Vicars, Charles Thomas, Ted White, and Mont Montgomery. Members present were Mesdames Floyd McConnell, Roger McConnell, Seth Beauchamp, F. M. Culbertson, Jim White, Sherman White, P. C. Ledrick, and C. L. Craig.

Biggest Liar in U. S. Tells Yarn About Mouser With Wooden Peg Leg

BURLINGTON, Wis., Jan. 4. (AP)—The biggest liar in the United States is Phil McCarty, Denver, it was decided tonight by judges of the Burlington Liars' club.

McCarty, who is a heating contractor here, is any truth in his latest yarn, submitted the tallest tale to officials of the club which on the last day of each year settles the national fibbing championship.

The championship was conferred on McCarty as club officials sat about the old stove in the police station to pass expert judgment on 25 lies, chosen earlier in the day as the most promising of the 4,200 specimens of fibbing which had been submitted.

Here is the story McCarty submitted: "I used to be an engineer in a flour mill and you know how the mice like grain. I got me a cat, but as a mouser he was a failure. One day he got one of his front paws in some gears. The leg was severed but his cat did pretty well with the peg leg I made."

"And after that he was death on mice. He caught them at the rate of four an hour, and finally I watched his method. He crouched behind a post and as the mice scurried past he swung out that peg leg, invariably getting them back of the ear. Pretty soon I noticed that the dead mice he was bringing me had their hair brushed the wrong way. And the explanation was this:

"There was a knot hole in the post behind which the cat sat, and squinting through it, the cat became cross-eyed. Ever see a cross-eyed cat in the dark? Well, those mice were scared to death. "But that cat lost me my job. On cold nights, when it wanted to get into the engine room, it would tap on the door. I thought he was tapping out my lodge signal for admission. Now my boss was a member of the lodge, and one night when he heard the cat tap the signal he fired me because I had given away lodge secrets."

Hol Wagner is ill today. Mrs. Nevious of Skellytown was dismissed Sunday from Worley hospital following a throat operation.

LUNCHEON HELD FOR GROUP AT CANARY SHOP

LONDON BRIDGE CLUB FAVORED BY MRS. ROY WIGHT

Sweet peas centered the table and others were given with the prize packages at a lovely 1 o'clock luncheon held at the Canary Sandwich shop yesterday for the London Bridge club. Mrs. Roy Wight was hostess for the occasion.

Contract bridge was played by the club for the first time, with awards being presented as follows: High club, Mrs. J. M. Lybrand; high game, Mrs. R. S. Lawrence; low, Mrs. John Studer.

Members and special guests attending were Mesdames H. C. Charles, John Studer, John Sturgeon, J. M. Lybrand, F. O. Sanders, Clarence Barrett, Julian Barrett, Arthur S. Swanson, R. S. Lawrence, A. M. Martin, W. J. Smith, H. E. Schwartz, George Limerick, Jack Dunn, Max Mahaffey, Paul Jones, Frank Perry, and Miss Virginia Faulkner and Miss Margaret Buckler and the hostess.

Mrs. Clarence Barrett will entertain the club Jan. 17.

Mrs. J. H. Smith Honors Her Son

Mrs. J. H. Smith entertained a group of young people at a party Monday evening in honor of her son, George Dick.

A very enjoyable evening was spent in playing various games and contests. Refreshments were served to the following: Misses Stella Cooper, Syble Ward, Mary Katherine Ward, Joy Enloe, Opal Enloe, Hampton Cooper, Elmer Enloe, Clarence Mercer, Ike Harsh, Melvin Harsh, Sanford Knapp, Aubrey Dick, and George Dick.

With Flu Around All Colds Now More Dangerous

Colds Lower Body Resistance and Often Pave the Way For Flu and Its Serious Complications.

EXTRA PRECAUTION URGED

With flu increasing in many sections of the country, health authorities urge everyone to take extra precautions against colds just now.

The safest course to follow is that outlined in Vicks' Plan for Better Control of Colds. Briefly, it is this: To prevent many colds at once to bring relief: By stimulation through the skin, like a poultice or plaster; and by inhalation of its medicated vapors direct to irritated air-passages. During the day—for added comfort and relief—use the convenient Vicks' Nose Drops every few hours as needed.

Plan Tested and Proved
In clinical tests among thousands, last winter, Vicks' Colds-Control Plan reduced the number and duration of colds by half—cut the costs and dangers of colds more than half. How you can follow the Plan in your home is fully explained in each Vicks' package. Adv.

Registered Mail Taken in Robbery

CHICAGO, Jan. 4. (AP)—The Chicago Herald and Examiner said today it had heard reports that bonds and currency amounting to \$175,000, had been taken in the theft of registered mail pouches from the Chicago, Milwaukee, St. Paul and Pacific railroad depot at Minneapolis. The robbery occurred last night.

The newspaper said that four pouches in all were taken in the robbery and that the reports it had were that while an estimate of the complete loss could not be made, it was known that \$175,000 was missing. The mail, it added, was to have come to Chicago from Minneapolis on the "Olympian" crack Pacific coast train of the Milwaukee line.

Pierce Thomason, son of Dr. and Mrs. Earl Thomason, has returned to school in Clisco.

One-Third of Texas Tech Students Have Many Jobs, Including Picking Cotton and Posing for Painters

LUBBOCK, Jan. 4. (AP)—The butcher, the baker and the candlestick maker can be found among the student body at Texas Technological college. But these classifications are only three among the many trades which one-third of the 1,951 students in this institution find helpful in working their way toward a college education. For instance, under the "B" division of the col-

chemistry student and his wife manufacture cosmetics, one boy is employed at the city poor farm, and another, with an Apollo physique, poses for night classes in drawing. Running down the alphabet, there are 99 doing dairying and dishwashing, 40 working on farms, at filling stations and as firemen, two hold game concessions, one is a historian, 16 work in hotels, and 39 do housework. There are 19 janitors, 27 laboratory and student assistants, nine laundry workers, one mail carrier, one music teacher, four mechanics, one national guard officer, four newspaper workers, and six orchestra members. The list further includes radio salesmen, seed analysts, shine parlor operators, soda dispensers, solicitors, stenographers, tax collectors,

teachers, telegraphers, theater ushers, projectionists, travel bureau operators, waiters, watchmen, window decorators, and window washers. Several students trade farm produce for room and board. The records show that 464 young men students make an average salary of \$30.04 a month, and that 184 girls average \$24.84 a month.

a foundation by spiritual uplift, religious work with a social aim, social work with a religious aim. We take a community liability and make out of it an asset. We are ever ready, we never sleep to soundly, but that the ring of the telephone or a knock on the door would awaken us to a suffering people. "We believe in serving God through serving man—that is our system with three big outstanding things to remember, practical and direct method, strict economy, and spiritual uplift dominating it all." In concluding, Mr. Post stated that the local board and officers in charge would still see as many people as possible for funds to carry on the work, but he asked those who can to give liberally and not wait to be called on, and make checks payable to Salvation Army, J. O. Gillham, treasurer, and hand them either to Mr. Gillham or mail to Post Office Box 134, or telephone 573 and the contribution will be called for. Mr. Post added, "I firmly believe the Salvation Army in any city is an asset to that city. Some of our best citizens are serving on the advisory board of our Salvation Army here in Pampa, who believe the same thing."

Five Sentenced to Death For Murder

KOLESNIKOVO, U. S. S. R., Jan. 4. (AP)—Five men were sentenced to death today for the murder of a thirteen-year-old boy who had exposed them to the authorities as "class enemies." The case was an almost exact parallel of the recent murder of two young brothers of the nearby village of Gerasimovka under similar circumstances. Thirteen-year-old Nikolai Makotin was waylaid and shot to death by Kulkas, independent farmers, whom he had accused of stealing produce and property from the collective farms.

DRIVERS--

(Continued from Page 1) approached in 1933. Collection of delinquent taxes in December was termed "wonderful" by Mr. Barnes. The total received exceeded \$60,000. Payment of current taxes is slowing down, with the deadline for all sorts of payments falling on January 31. No extension of time limits is likely. Of the car license fees, Gray county keeps the first \$50,000, and divides the rest half and half with the state. The county money is placed in the road and bridge fund.

Present Type of 'Flu' May Develop Into Pneumonia

Physicians report more illness in the city than at any time during the last year. Most of the illness is a type of influenza that can develop into pneumonia, especially if the patient resumes work too soon. Most of the illness is among adults, it is reported. Many children are out of school, but the number is not as great as before the Christmas holidays. Supt. R. B. Fisher said this morning. There are several critical cases of pneumonia. Physicians issued warnings to patients not to fight the influenza, but to give up and stay in bed until completely recovered. They warn against chances of relapse.

COUNTY--

(Continued from Page 1) gear that the sheriff has constructed. He was 52 years old in August. The sheriff's force now consists of H. C. (Bud) Cottrell, chief deputy, and Deputies E. G. Stark, R. B. Stout, and N. J. Mitchell. Their assignments have not yet been perfected. E. F. Young has been made bailiff for 114th district court, which confines its scope to civil suits.

BRIGGS TO PLAINVIEW
George Briggs, B. C. D. manager, will go to Plainview tomorrow to participate in a board of directors meeting of the annual dairy show there. He is a member of the board.

Another trip by Gray county farmers to the dairy show will be sponsored by the local B. C. D. this year.

OIL YIELD OFF
TULSA, Okla., Jan. 4. (AP)—Oklahoma set the pace for a decrease of 47,570 barrels in the country daily average crude oil production last week, the Oil and Gas Journal reports in estimating the output at 1,712,765 barrels as compared to an average of 1,760,335 barrels for the preceding week.

ARMY--

(Continued from Page 1) later in the year if we need to do so.

"We have received during the appeal some very fine contributions voluntarily, without solicitation which the advisory board and local officers very much appreciate. On behalf of the local officers in charge of the Army work here in Pampa, the advisory board, and campaign director, Mrs. Phil T. Rainey of the divisional office, I wish to thank each of the workers who has given time during this busy season, and those of you who gave of your means to support this worthy cause. In accepting the chairmanship, as stated before, both to the newspaper and to the board, as well as to my personal friends and associates, I believe the Salvation Army does a work not duplicated by any other religious or charitable organization. We reach a people not reached by others, we administer to them both spiritually and physically. We visit the despairing and would be suicides—the man who is down (we believe is never out). "We carry hope to a folk who have no hope, faith to those who have lost faith in themselves, and in their community. We build that which has fallen, we make solid
