Jones Will Ask Lake Fund

TWO MILLION REQUESTED IN TEXAN'S BILL

WASHINGTON, Dec. 9 (AP)—Representative Hope (R-Kas) said today he understood Representative Jones (D-Tex) planned to ask Congress to appropriate \$2,000,000 at its next session for 1938 water conservation projects in the great plains states.

The Jones bill authorizing all types of water conservation projects in the dust bowl and great plains drought areas, provided Congress might appropriate any amount deemed necessary to carry on the work.

The board of directors of the Panhandle Water Conservation authority will have their first annual meeting in Canyon on December 22. It was announced in Amarillo yesterday at a committee meeting of the Authority. County Judge Sherman White and Raymond Harrah attended the meeting from Pampa.

C. H. Walker is chairman of the Gray county lake committee and a director of the PWCA. On account of an inspector calling on the Pampa postoffice Wednesday, he was unable to attend the Amarillo meeting.

Machinery is now being shipped to the Tierra Blanca lake project in Deaf Smith county, and an official from Washington is already in the Panhandle to supervise the unloading of the equipment, it was announced at the meeting.

Judge Wilson Cowen of Dalhart, chairman of the special committee appointed to consider the adoption of a Panhandle-wide industrial movement to dovetail into the work of PWCA, said the association would take advantage of its unity. He outlined a program to harmonize with the effort to secure lakes of all sizes for the Panhandle.

A modest budget providing for a systematic survey of the needs and possibilities of the region and definite outline of co-operation toward present industries and invitations to new industries would be raised by individual memberships of about \$10 per person over the Panhandle. His committee recommended. His committee was instructed to make a detailed report at the annual meeting.

Present for the session yesterday from outside Pampa and Amarillo were: W. A. Warren, Canyon; Judge B. C. McCasland, Tulla; Judge Noel McDade, Dumas; Judge Wilson Cowen, Dalhart and Frank Craddock, Fortales, N. M.

MOTHER AND DAUGHTER INJURED IN CAR CRASH

Minor injuries were suffered by Mrs. Rosie Cooper and daughter Jeanette Cooper, Mansard hotel, when the car in which they were driving with G. D. Rawlins of the same address, was in collision with a car driven by C. D. Windom at "five points" on South Cuyler street last night.

Mrs. Cooper and daughter were taken to Pampa-Jarratt hospital in an ambulance for treatment of face lacerations. Both were able to be taken to their home after receiving first aid.

City police officers investigated the crash. Both cars were badly damaged.

Fist Fight Blow Blamed for Death Of Rich Broker

NEW YORK, Dec. 9 (AP)—A blow struck during a fist fight at a cocktail party was blamed by police today for the death of Samuel A. Walsh, 55, wealthy retired Wall street broker.

The party was held Nov. 30 in Walsh's 16-room home on his estate at Fort Salonga on Long Island. Walsh, a former member of the New York stock exchange, was brought to a hospital here when pneumonia developed. He died Tuesday and was buried yesterday at Tarrytown.

I HEARD - - -

Surrender Of Nanking Asked In Ultimatum

By MORRIS J. HARRIS SHANGHAI, Dec. 9 (AP)—The Japanese command is issued an ultimatum today demanding the surrender of China's abandoned capital, Nanking, by noon Friday (11 p. m. Thursday, E. S. T.) and threatening that otherwise the city "will become the scene of the horrors of war."

The ultimatum was issued by Gen. Iwane Matsui, commander of the Japanese forces in the Shanghai-Nanking area, to the Chinese Commander, Gen. Tang Seung-Chi. A Japanese warplane dropped a further communication to Nanking.

Abandonment of resistance will spare the city its historic relics and spots of beauty," it promised. Japanese tanks were reported today to have broken through the dogged Chinese defenses in the bitterly contested battle of Nanking.

A Domei (Japanese) news agency dispatch said the tanks lumbered through the southwest gate of the Chinese capital, prompting a Japanese prediction the ancient city would fall by tomorrow.

Strongly fortified Chinese artillery on Purple mountain overlooking Nanking kept the Japanese from a frontal attack on the city's precipitous eastern wall.

A second Domei report said the Japanese entered Wuhu, Yangtze river port 60 miles upstream from the capital. Wuhu had been subjected to 24 hour attack.

The quiet which had prevailed for some time at Shanghai was broken by the boom of anti-aircraft guns fired by the Japanese flagship Idzumo when two Chinese planes were reported to have flown over the vessel.

At Peiping, reliable sources told of the arrival of Wang Kelmintsev, a Chinese financier and statesman around whom it was said a new autonomous government for north China would be formed.

Wang was reported to have demanded an end of warfare in north China and withdrawal of Japanese troops before he would head the new government.

In the Spanish civil war, the comparative quiet of past weeks was shattered on the Aragon and Madrid fronts when insurgent infantry attacks were reported to have been beaten back by government forces.

Government dispatches told of desperate hand-to-hand combat in the Aragon region. Floods hampered insurgent positions along the Ebro river in the same sector.

Higgins Elevator Destroyed by Fire

HIGGINS, Dec. 9 (AP)—Fire of undetermined origin last night destroyed the Higgins elevator here, following an explosion which jarred buildings for several blocks surrounding the structure. Damage was estimated at \$6,000.

The elevator burned to the ground at 10 o'clock. 15 minutes after the fire started at Higgins was destroyed. Owned by the Frass estate, of which Henry W. Frass of Darronzett is administrator, the elevator for the past year has been managed by J. T. Patton, local grain man.

BY THE ROVING REPORTER While you were getting caught up in your shut-out, dreading to get up, having or whatever you do around 5:30 o'clock in the morning, the old Roving Reporter was laughing his head off at the LaNora theater over the most amusing, most clever cinema he has seen since Lynn Fontaine and Alfred Lunt appeared several years ago in a movie called "The Guardsman."

This picture called "The Awful Truth," should set a new wstyle in movie manufacture. It does not like "The Thin Man," rely upon get-so-funny drinking and a certain low-brow vulgarity, for its laughs. But maybe the LaNora show is good because Irene Dunn and Cary Grant have the leading roles.

Aside from the before-breakfast movie, Mr. Claude Motley who goes in for getting his friends out of bed at ungodly hours to see previews had other attractions at the theater. There were doughnuts, coffee cakes and coffee for those who like them. As for the R. R. he does not drink nor care for coffee, and the only doughnut he has eaten since Dr. Bellamy put him on a diet

YOUNG PAMPAN FOUND DEAD

A verdict of death from gunshot wound self-inflicted was returned this afternoon by Justice of the Peace E. P. Young in the death of Foy Hunsacker, 33, at his home on Aleck street, last night.

Hunsacker was found by his wife about 9:30 o'clock, seated in a chair in the family living room with a 22 caliber rifle in the right hand. A bullet wound in the right temple caused death, attending physicians said. Hunsacker had been dead about two hours when the body was found, physicians told Justice Young who acted as coroner.

A resident of Pampa for three months, Hunsacker was employed by the Panhandle Fruit company. The family moved here from Amarillo where he was with the same company. He had resided there for 10 years.

No reason for his action had been learned by Justice Young and investigating officers today. Friends who were with him at 5 o'clock yesterday afternoon said he was in excellent spirits when he left them.

Mrs. Hunsacker had spent the afternoon and evening at the home of a relative, who drove her home about 9:30 p. m. She could give no reason for her husband's action.

Survivors are the widow, his parents, Mr. and Mrs. J. C. Hunsacker, Mangum, Okla., two sisters, Mrs. Harry Bell, Mangum, and Mrs. Floyd Henry, Ada, Okla., and a brother, J. A. Hunsacker, Amarillo.

The body will be taken to Amarillo this afternoon by Pampa Mortuary which will have charge of burial tomorrow following services in Blackburn-Shaw funeral home. Time has not been set.

MOTHER, 5 CHILDREN DIE IN FARM BLAZE

REGON, Dec. 9 (AP)—The charred bodies of Mrs. Glenn Large, 27, and her five small children, burned to death in a fire that destroyed their farm home near here, were taken from the ruins today.

The flames had spread through the two-story structure last night before the seven members of the family awoke.

Large, 31, suffered burns about the face and arms in a vain attempt to rescue his family, whose escape down a stairway was cut off by flames. Large opened a window leading to an icy porch roof and told his wife to pass the children to him. Before she could do so she slipped and fell to the ground. He was unable to climb back.

The children were Donna May, 21, years old; Jack, 3; John, 5; Darlene, 7; and Louis, 8.

JUSTICE VAN DEVANTER VISITS TEXAS CAPITAL

AUSTIN, Dec. 9 (AP)—Willis Van Devanter, former justice of the United States Supreme Court, inspected Texas' red granite state-house today in the company of Gov. James V. Allred.

"It is a very fine building," he commented. Later he visited the governor's mansion. He also met members of the Texas Supreme Court.

The former justice has been hunting in southeast Texas and said he had "good luck." He bagged one deer and two javelinas, a species of wild hog.

Last night he was a dinner guest of the Travis County Bar association. He planned to return to Houston late today.

Hey, Bill Coons— You Simply Can't Let This Happen!

MENA, Ark., Dec. 9 (AP)—The threat of a woman candidate winning the presidency of the Peck County Possum club had veteran members of that unique organization flustered as they prepared for their 20th annual banquet tonight.

Men have always headed the club, and women candidates have not offered. But this year there is a woman entry running under the pseudonym of "Aunt Fersinnon U. Pucker."

Among the former Pampans who now live on farms near Mena, Ark., are Mr. and Mrs. Jim Davis and the Coons family of which Bill Coons is a prominent member. Mrs. Frank McGuigan also owns a farm near Mena.

Most of the "men folks" are lacking Albert Gist, hillbilly poet and song writer of Mountain Fork, Ark., to succeed English Baker to the presidency. But admitted they are worried.

Some 300 or 400 guests from Arkansas, Texas, Louisiana and Oklahoma will consume between 50 and 100 opossums and 15 live ones will cavort around the banquet hall just to add atmosphere.

THIEF BRINGS BACK ROOSTER

ITALY, Tex., Dec. 9 (AP)—George Tittle, farmer and poultry-raiser, resident of this community for 40 years, believes in elemental honesty of his neighbor. He also believes even a thief may be moved to make restitution by the right kind of appeal through the regional newspaper.

Tittle overslept one morning recently and was unable to explain the lapse until he discovered an old rooster, whose morning call had roused him for several years, was missing along with a flock of hens. Scattered tail feathers suggested removal by violence.

The farmer came to town and after warning peace officers not to start an inquiry as "the culprit probably was in distress," inserted the following paid advertisement in the local weekly newspaper:

"If you steal from the rich, you will steal from the poor; but you should always leave a few." "The morning after the paper was issued, Tittle was awakened by the familiar challenge of the rooster, and hurrying to the hen house, found the entire flock had been returned. On the floor was the following note:

"We are poor and in need. Planting everything in cotton and having nothing to eat, but our conscience was aroused when we read your ad and we return your chickens and will go on relief."

STRIKE PARLEY CALLED HOUSTON, DEC. 3 (AP)—Federal mediators looked today to a conference between Shell Refinery officials and International Oil Workers union representatives to end the strike at the big Deer Park refinery.

The two groups met yesterday but did not reach an agreement. Newspapers were barred at today's conference.

SENTENCE ASSESSED. DALLAS, Dec. 9 (AP)—A 50-year prison sentence had been given W. H. Richman, 50, WPA laborer, by a jury that found him guilty of the slaying of Robert L. Morrison, 64, rooming house operator, at Garland last September 4.

PAMPA YOUTHS GET 99 YEARS FOR SLAYING

CLOVIS, N. M., Dec. 9 (AP)—A district court jury, after 12 hours deliberation, found two Pampa, Texas, youths guilty of second degree murder today in the shotgun slaying of Ed Hargus, Roosevelt county farmer.

The defendants, Marvin McEntire, 22, and Ray Jackson, 17, smiled as the verdict was read. Their faces sobered when Judge Harry R. Patton pronounced a sentence of 99 years imprisonment, the maximum penalty.

Hargus' shot-riddled body was found in a shallow sand grave near his farm last August 1. He had been slain three days before.

McEntire and Jackson, who had been employed by Hargus but disappeared shortly after the shooting, were arrested several months later in Fort Smith, Ark.

Testimony at the trial re-opened investigation of the slaying of William Gabriel, a recluse found hacked to death in Roosevelt county a year before Hargus was killed.

Jackson admitted he shot Hargus, but maintained McEntire forced him to do so at pistol point because the farmer "knew too much" about McEntire's alleged guilt in the Gabriel killing.

McEntire denied knowledge of the slaying.

HUMOR MARKS SESSION OF FIRST AID CLASS

City Manager C. L. Stine and Attorney Walter Rogers of Pampa were guest speakers at the final first aid meeting of the year for the Phillips Petroleum company, Pampa district gasoline division, last night at the community hall south of Pampa.

Safety was discussed by Attorney Rogers, with humor as a background. City Manager Stine gave statistics on accidents, safety hints and told of the laws governing careless driving in foreign countries.

Karl Ripple and William Abernathy then gave a demonstration of bandaging burns about the face.

A fake operation in silhouette was the "rite" of the evening. It was presented by E. S. Moore, Glenn Pool, C. R. Ringham, and C. F. Wimmer.

J. Pace, foreman of the Pampa construction division, discussed welding machine flashes.

Refreshments were served to 156 members and guests with I. C. Wells, R. Weston and J. T. House in charge. The meeting was in charge of R. E. Smith whose orchestra, the Phillips "66" Flyers gave a concert following the meeting.

PARENTS REQUESTED TO SEND TOYS BY KIDDIES

No matter how many toys children bring to the LaNora theater at 11 a. m. Saturday morning when a special toy matinee for kiddies will be held, there will not be enough to go around. There never is.

Pampans still remember with an ache in the heart how hundreds of children filled the city auditorium last year and the year before, and how the toys were exhausted before all of the children got even one. So parents are urged to allow their children to buy a new toy and bring it to the matinee. It will not only admit the bearer, but it will bring happiness to some child later. Used toys will be accepted if they can be played with.

The show will include five comedies. The toys will be turned over to the firemen for repairing and repainting and on Christmas will be given at the American Legion-Fire department's Christmas tree. The Legion provides funds for buying materials to mend and paint the toys.

Under the plan the government refunds purchasers 50 per cent of all freight charges on cattle moved from the dry areas to other Alberta districts or outside the province.

So Charlie's A Dummy!

When hapely Mae West murmured: "Come up 'n' see me sometime," dark and handsome Charlie McCarthy hurried to her famous mirrored boudoir before she had the phone out of her hands, hung his hat on the head of Mae's bed and settled down to enjoy himself, as shown above. But he became the first man in history to turn Mae down when he declined a role in her forthcoming picture, Edgar Bergen, who disguised Charlie by insisting on coming along, explained that the famous dummy already had his hands full with radio work.

14 Naval Planes Land After 3,080-Mile Hop

SAN DIEGO, Calif., Dec. 9 (AP)—Their 3,080-mile flight completed in 22 hours, one minute, 14 navy patrol planes which left San Diego yesterday morning for Coco Solo, C. Z., landed at Coco Solo at 8:40 a. m. (PST) today, the naval station here said. All planes landed safely, and navy authorities declared the flight was "without incident."

The flight bettered by five hours, 38 minutes, the one-stop flight of 12 patrol planes over the same route last June.

The planes, however, were forced to slacken speed over the Nicaraguan jungles early this morning because of rain squalls and adverse winds.

TEXAN FLAYS 'ROAD LOBBY'

WASHINGTON, Dec. 9 (AP)—Representative McFarlane (D-Tex) declared today "that has been applied by lobbyists for road material salesmen" since the president proposed a sharp reduction in federal highway aid.

He said these interests and some state highway departments had always considered the federal government "Santa Claus," and added they had the support of groups which heretofore had called loudly for a balanced budget.

"If we are going to cut down on expenditures," he said, "we might as well start there."

Senator Connally (D-Tex) said he believed reductions in federal spending should be made elsewhere than in road expenditures "because this money had meant widespread employment throughout the states and results that will be enjoyed by everyone for years to come."

Senator S. E. Spence (D-Tex) said he favored "as large an amount of federal aid as possible" for state highways.

CAFE OPERATOR SEEKS TO REMOVE OFFICERS

DALLAS, Dec. 9 (AP)—State liquor control agents have been cited by Judge John A. Rawlins, 116th district court, to appear in court Saturday to show cause why they should not be restrained from sit-down tactics in a downtown cafe.

W. W. Wallace, cafe operator, filed the injunction suit, contending that the presence of the officers was hurting his business.

Liquor control agents, alleging there have been violations of the law against sale of liquor by the drink, have been stationed in several establishments.

GERMAN HELD; BODY BURIED UNDER PORCH

VERSAILLES, France, Dec. 9 (AP)—The body of pretty 22-year old Jean De Koven, Brooklyn dancer missing since last July, was found today buried under the porch of a St. Cloud villa to which police were directed by a 29-year old German emigre.

The emigre, police said, confessed slaying her and four men because he needed the money.

The body of Miss De Koven was found under water in two feet of hard clay.

The police said the confessed slayer was Eugene Wiedmann who had come to France last March to escape German military service. He led investigators to the suburban villa outside Paris, saying that two of his men victims also were buried there.

Wiedmann listed as his men victims a broker named Raymond LeScribe, found dead ten days ago in the St. Cloud villa; a young man named Roger Lebond; a taxi driver named Couffy, and Arthur Frommer, once a friend of the killer.

Wiedmann was arrested at the St. Cloud villa yesterday after a gun fight with police. He admitted the slayings, police said, after long questioning.

Wiedmann was quoted as telling police he kidnapped Miss De Koven July 23 and took her to the villa, strangling her, there the next day.

Robbery Was Motive Police said the motive in all five confessed killings was robbery.

The strange disappearance of Miss De Koven last July 23 created a major mystery which baffled French investigators for months. She was last seen alive walking out of the studio hotel where she lived with her aunt, Mrs. Ida Sackheim.

Police, tracing the slimmest of clues, learned she had spent \$500 in travelers checks. The hunt was confined to Fair park in Dallas this morning pending the arrival of Chief Hurst and Captain Berry.

Cross was charged after he is alleged to have secured a car from Pampa Motor company by asking to show it to his wife and then trading it to Hampton and Allen for a new DeSoto, giving also a check for \$400.

MAN TO BE RETURNED ON BOGUS CHECK CHARGE

Police Chief Art Hurst and Captain M. L. Berry of the state highway patrol, stationed at Amarillo, are in Dallas today and will return Joe Cross, wanted on two charges of car theft and for swindling in connection with the passing of a bogus \$100 check, here.

State highway patrolmen arrested Cross Monday afternoon in Denton and held him in the McKinney jail until he was taken to patrol headquarters at Fair park in Dallas this morning pending the arrival of Chief Hurst and Captain Berry.

Cross was charged after he is alleged to have secured a car from Pampa Motor company by asking to show it to his wife and then trading it to Hampton and Allen for a new DeSoto, giving also a check for \$400.

NEW PROPOSALS FOR TAX REVISION HEARD

WASHINGTON, Dec. 9 (AP)—New proposals for tax revision received attention today of congressmen and other government officials in discussions of the business situation.

These developments were noted: 1. Congressional leaders expressed approval of a suggestion by Marjorie S. Bocas, chairman of the Federal Reserve Board, that the way to halt the business recession is to balance industrial and agricultural prices.

2. Senator Minton (D. Ind.) proposed enactment of a gross income tax, with virtually no exemptions, to balance the federal budget.

3. A House tax subcommittee proceeded with its efforts to lighten the undistributed profits levy, it ignored a suggestion from the Brookings Institution, a private research agency, that the tax be abolished altogether.

4. Chairman Jesse H. Jones of the Reconstruction Finance Corporation said after a White House conference that the railroads have "got to have increased revenues, or be subsidized."

5. Secretary Roper reported 1937 foreign trade would total \$6,500,000,000, almost a third better than 1936 and 118 per cent above 1932. He said he expected a favorable trade balance of \$100,000,000, three times that of last year.

7. Secretary Roper reported 1937 foreign trade would total \$6,500,000,000, almost a third better than 1936 and 118 per cent above 1932. He said he expected a favorable trade balance of \$100,000,000, three times that of last year.

McLEAN, Dec. 9.—Winners in the amateur act, beauty and Shirley Temple contests, held at the McLean high school auditorium Tuesday evening, were:

Amateur act, German band, composed of R. L. Floyd, Jack Bogan, Billy Cooke, Clint Doolen, Jack Young, and John B. Guill, first. Second, reading by Jimmy Batson. Third, Jo Ann Campbell, tap and acrobatic dance.

The beauty contest was won by Willie Laelle Gobb, representing Meador cafe. Ruth Thacker, representing Trimble's grocery was second. Third place went to Iona Hale, representing the Lone Star theater.

Shirley Temple contest winners were: Joan Wansiter, Smith Refinery, first; Jane Alice Cryer, City drug, Patsy Ann Larry, senior class, third.

Winner of Shirley Temple contest was awarded a Shirley Temple dress. Winners of the other two contests are invited to attend a state meeting, with expenses paid, in San Antonio.

Proceeds of the contests are for the McLean pep squad and McLean band.

THIS CURIOUS WORLD

ALL OF THE TWENTY-SIX MOONS OF THE SOLAR SYSTEM HAVE NAMES, WITH THE EXCEPTION OF THE FIVE SMALLEST SATELLITES OF THE PLANET JUPITER.

THE PERSIMMON IS THE LARGEST BERRY PRODUCED BY ANY AMERICAN FOREST TREE.

MARS has two moons, Deimos and Phobos. The four named satellites of Jupiter are Europa, Io, Ganymede and Callisto. Saturn's nine children are known as Mimas, Enceladus, Tethys, Dione, Rhea, Titan, Hyperion, Japetus, and Phoebe, and Uranus comes next with its quartet made up of Ariel, Umbriel, Titania and Oberon. Neptune has only one moon, Triton.

LAW PUTS IRELAND BACK ON THE MAP. DUBLIN, Ireland (AP)—Irish map makers for the second time in 16 years are junking their existing stocks and remaking the map of Ireland.

Before December 29, all maps of the island must be labeled "Ireland" instead of "Irish Free State," to comply with the official change recently ordered.

The previous change was in 1921 when "Ireland" ceased to exist and became the "Irish Free State," under virtually independent rule, and "Northern Ireland," under British control.

British officials, it is reported, are contemplating designating Northern Ireland as Ulster to avoid confusion.

Girls Pick Joe Routt as Best Grid Performer

DENTON, Dec. 9 (AP)—Twenty-five hundred feminine football fans can't be wrong—they say.

Today that number of Texas State College for Women students had voted Joseph Eugene Routt, Texas A. and M.'s vicious all-American guard, as "the most outstanding senior player in the Southwest conference."

Last year the girls wasted little time in naming Sammy Baugh of Texas Christian to the same spot.

Routt and his coach, Homer Norton, will be here in a few days to receive the trophy that goes along with the girls' approval.

HARRY KIPKE FORTUNE TELLER. ANN ARBOR, Mich. (AP)—Harry Kipke, Michigan football coach, is something of a prognosticator.

Before the season opened he announced his team would win four games and named them.

He guessed right. The Wolverines topped Iowa, Illinois, Chicago and Pennsylvania in succession, as he had predicted.

Decorating Ideas Interest Several

In the absence of Mrs. J. B. Massa, Mrs. R. B. Fisher presided at the Pampa Garden club open meeting which was held Tuesday evening in the city club rooms.

Many new and unique ideas and suggestions in interior and exterior Christmas decorating were given by Mmes. Charles Thut, Lynn Boyd, W. C. Landrum, and Roy Walrabenstein in their discussions at the meeting.

Mrs. Thut, in presenting "Christmas Nomenclature," explained the various Christmas plants and their names.

"The poinsettia is a typical plant of the spurge family. It was named after Dr. Poinsett, of Charleston, South Carolina, who introduced it to American horticulture about 1835. It is the gorgeous red foliage of the poinsettia that makes it so popular at Christmas time. The real flower is the yellow center of the brilliant scarlet foliage cluster," Mrs. Thut pointed out.

"In assigning my subject, 'Exterior Christmas Decorations,' the Pampa Garden club is making its first effort to assist other civic groups in encouraging more people of Pampa to decorate the exterior of their homes," Mrs. Boyd stated. "According to contest rules, simple and inexpensive decorations may be as perfect and elaborate as expensive ones. Whether we win or lose in the contest, all passers-by will be happier for the greeting extended from our home. To some a single candle quietly burning in a window at Christmas eve expresses perfectly the gracious spirit of this great holiday and makes it evident that those within are extending a friendly greeting to every passer-by."

"Some like gay colored lights to express their holiday mood and others like the newer multiphase indirect lighting effect. Whatever your choice, make your plan applying to the five principles: First, the center of interest; second, balance; third, ribbon; fourth, proportion; and fifth, harmony," Mrs. Boyd declared.

Mrs. Walrabenstein gave many helpful hints in her talk on "Interior Decorations."

"When you start planning your Christmas decorations, try to use one of two things. Turn to the holiday as a child, use what you have, invent as you go without much regard as to the effect; get help from the whole family, from the baby on up, and make a gay time of decorating, or plan it every inch of the way for a desired effect."

"No one can doubt that the latter planned effect will be more artistic, but if you can't do it that way, do not expect artistic results. For instance, I have some old decorations that have been used every year for 30 years; I never dare plan anything that would leave them out. So it is with many of us, we simply would not consider beautiful decorations because the decorations are a matter of sentiment. They are a family affair. So let us consider first a planned Christmas decoration with a desired effect in mind."

"If grandmother is coming, it would be nice to concentrate on decorations in the type she had when she was a little girl. Pop corn balls, cotton snow flakes, gingerbread men, candles, gifts tied on the tree would be appropriate," Mrs. Walrabenstein asserted.

"The Care of Christmas Plants" was the subject of the paper given by Mrs. Landrum.

"Poinsettia plants received at Christmas time may be kept in good condition by maintaining constant temperature. Never place them in a room where there is a breeze. As the plants appear shabby, water can be withheld so that the pots become dry. After which they can be placed in the basement until May or June and grow up another year. A poinsettia just loves the kitchen so carry it to the kitchen with you, she added in conclusion.

The Pampa Garden club wishes to thank HARRAH'S shop, F. W. Woodworth, Blossom Shop, Clayton's Florist, Texas Furniture company, junior high and senior school, American Legion, and the Southwestern Public Service company for their contributions and assistance.

Legionnaires to Sponsor Old-Time Dance Saturday

Invitations are being mailed for another old-time dance to be sponsored by the American Legion Saturday evening in the red school building.

Club managers for the entertainment will be A. A. Tieme and Dave Turcotte. The same callers, hosts and hostesses for all previous dances will be used at this affair. Jeff Guthrie's orchestra is to furnish the music for the dancing.

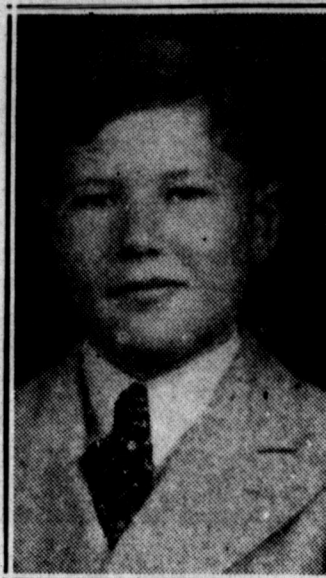

Money received at this occasion will benefit the high school band uniform fund.

WANT TO GET A MOSQUE? HERE'S YOUR CHANCE.

ISTANBUL, Turkey (AP)—Three hundred mosques are on sale here. The Turkish government is offering them in an effort to clear out unneeded mosques from among the more than 800 in this ancient capital of the Ottoman empire.

Only 242 of the 800 are being used as places of Moslem worship. The others, including the famous Saint Sophia mosque, have been converted into museums or have been reduced to ruins.

Entertainer

Martin May, son of Mr. and Mrs. K. T. May, is one of the students who will appear in the holiday recital to be given by the pupils in the classes of Mrs. Lily Hartsfield and Roy Tinsley this evening at 7:30 o'clock in the city club rooms.

Bride-Elect Feted At Shower Given By Mrs. N. B. Cude

A bridal shower complimenting Miss Melba Ivy was given in the home of Mrs. N. B. Cude.

Silver wedding bells decorated the entertainment rooms and a bride's cake topped with a miniature bride and groom centered the P. O. Anderson, J. C. Vollmert, Joe Kniver, N. B. Ellis, Wilson Hatcher, Elzie Whately, C. W. Window; Rogers of Amarillo, Emma Lu Powell, and Miss Grace Kite.

PUPILS SWAP PRODUCE FOR HOT LUNCHEON.

WILMINGTON, O. (AP)—Students at Reesville high school near here may be seen going to class with a bag of potatoes or apples in addition to textbooks.

Mrs. Fred Taylor, manager of the school cafeteria, has developed a scheme whereby hot noon meals are exchanged for farm produce.

Formal Tea Given As Honor to Out-Of-Town Visitor

Honoring her mother, Mrs. T. B. Burroughs, Mrs. R. E. Dowell entertained with a formal tea at her home Tuesday afternoon.

A Christmas motif was carried out in the bouquets of flowers decorating the reception rooms and in the refreshment course served to the guests.

Mrs. F. F. Morton entertained the group with two readings, "Mothers of Today" and "Mother of Mine." Several piano and violin selections were played by Miss Helen Pools and Gene Pinkbeler. These numbers were followed with readings, "The Greatest Battle" and "Christmas in 1937," by Mrs. Tom Duval. The program was closed with several accordion solos by Ernestine Holmes.

The guests included Mmes. C. H. Schulkey, R. Earl O'Keefe, Morton, Duval, Donald Powell, B. W. Rose, J. P. Wehrung, R. N. Wright, J. A. Meek, W. A. Breining, Frank McAfee, the honoree, and the hostess. Misses Alberteen Schulkey, Vera Dowell, and Pools assisted in the serving.

Carson P-TA Council Has Meeting in White Deer Auditorium

WHITE DEER, Dec. 9.—Carson County Parent-Teacher association council met in the grade school auditorium at White Deer Monday evening.

The program was in charge of the Carson County Child Welfare board, with Frank Murray of Panhandle presiding. Mrs. R. W. Callham of Conway spoke on the organization of the Child Welfare board and stated that Carson county was the first in the Panhandle to organize a welfare board.

"The aim of our organization is to know the needs of the underprivileged children in the county," stated Mrs. E. H. Grimes in her talk on the aims and purposes of the Child Welfare board. She stressed the fact that if worthwhile things were given children, they would not want the undesirable things.

Mr. Murray concluded the program with a talk on "Child Welfare Legislation." Wendell Cain, Elton Beene and Eleanor Ansley appeared on the program.

Refreshments were served by the home economics department under the direction of Elizabeth Deal.

Carroll And Key Nuptials Spoken

Announcement has been made of the marriage of Mrs. Evalyn Carroll and L. M. Key Jr. which was solemnized Tuesday evening in the home of the bride's parents, Mr. and Mrs. Guy Miller.

Elder M. C. Cuthbertson of the Francis Avenue Church of Christ officiated at the ring ceremony which was read before an improvised altar of palms and fern. Arrangements of pink roses and sweet peas decorated the room.

The bride wore a royal blue wool suit with flame accessories. Her corsage was of yellow orchids and Brier Cliff roses.

Miss Dalton Burleson, who attended Mrs. Key as maid of honor, was dressed in rose wool. Another attendant, Miss Martha Lee King of Amarillo, wore a gown of wine taffeta. Both had corsages of tulle and roses.

Guests at the wedding were Messrs. and Mmes. T. W. Barnes, A. W. Reigien, Guy Miller, L. M. Key Sr., Larry Henson; Mrs. Martin Himlin; Misses Burleson, King, June Sanford, Vendell Regier; Messrs. Byars, Purdy, and Cuthbertson.

Delphian Chapter To Be Organized

A chapter of the national Delphian society will be organized here Friday afternoon at 2 o'clock in the parlor of the First Baptist church.

The organization will be in charge of Mrs. Emma Lou Powell, the national supervisor. This sponsored group will link Pampa with other Panhandle towns who have chapters. Amarillo has three active chapters and Lubbock has two.

Charter members will be enrolled, the meeting date, officers, the course

COMPENSATION ASKED IN SUIT OF W. H. IVEY

with the exception of \$645.75 credited on November 1, 1936. Plaintiff claims that money is due the defendant from her firms which should be recovered and applied on the unsatisfied judgment of October 23, 1936.

NO. 1-- Continued From Page One

A lump sum payment of compensation is asked in the suit of W. H. Ivey vs. Southern Underwriters, filed in 31st district court today. Mr. Ivey asks that an Industrial Accident board award of November 29 be set aside to make this possible.

Plaintiff states that his average daily wage as an employee of the Llano Construction company was \$4.50; average yearly wage, \$1,350; average weekly wage, \$25.96. His compensation rate, as decided by the board, was \$15.57 a week.

His petition states that his age is 49, that he is married, and has two children, a son and a daughter, both minors.

He asks that judgment be given that his compensation be redeemed by defendant in a lump sum, on the basis of \$15.57 a week for 401 weeks, based on this request he cites his desire to complete payments on his home and make it more habitable, and to provide an education for his son.

The original claim for compensation was based on an accident of June 30, 1937, when the alleged plaintiff was in the employ of the construction company and was riding on one of their trucks when it was in collision with a truck or car of the Texas Company.

The accident occurred on a bridge over the North Fork of Red river, three miles east of LeFors, the petition says.

As a result of a crushed and broken left leg, knee cap fracture, and an infection that affected his entire body, plaintiff is a nervous wreck and permanently and totally disabled, it is claimed.

S. D. Stennis and John V. Osborne are attorneys for the plaintiff.

Garnishment Asked. In a case styled International Supply company vs. Wilma Petroleum corporation, garnishes in the suit against A. F. Johnston, defendant, plaintiff seeks to recover a judgment made against Johnston on Oct. 23, 1936, of \$1,395.48 with interest at 6 per cent from January 1, 1935.

The judgment is still in force, it is alleged, and remains unsatisfied.

FALSE TEETH Tighter And Longer

"I've tried several kinds of powders to hold my false teeth. When I tried FASTEETH I found the one powder that does not thin out or wash away, but stays put all day." It gives a most pleasant feeling, a real sense of security and holds and holds. Breath is always pleasant. If anyone with loose-fitting false teeth wants all day comfort and a real stay there, fasten upon FASTEETH at any good drug store. FASTEETH is alkaline (non-acid).

ture as "The Awful Truth." The last number in the picture showed Mr. Stowkowski whose name has been linked recently with Greta Garbo's, directing "The Second Hungarian Rhapsody" and everybody thought of Mrs. May Foreman Carr whose "war-horse" is that number. Deanna also sang Mozart's "Alleluia," and as a taxi-driver in the picture said when she got to high C she pushed it up to the ceiling and "hanged it on the chandelier."

But back to Mrs. Jewell—she looked as fresh as a daisy, and not as if she got up at 5:30. Mr. Motley did not get any of the school teachers out for the breakfast preview. However, Mrs. Bob Curry and Mrs. J. C. Carroll who can sleep all day any time (while their husbands work at the high school and at the cafe, respectively), were there. Guy McTaggart was the last fellow to arrive.

Friendly, democratic Mrs. Mitchell of Mitchell's was there as gracious as ever. She was wearing a red rose and so were the other women. They were given by Mr. Motley.

The picture is okay for adults of 15 years of age or older to see. Not that children have no business seeing it, they just couldn't appreciate it. There's nothing in it to undermine anybody's morals. The R. R. took along Jack Crout and that youngster's reaction was satisfactory.

The R. R. was introduced by mutual friends to a young lady for the fifth time in the last six months. He remembered her name after their second meeting. It is Sooli Rasi.

Dog Real Clever. The plot of "The Awful Truth" concerns Jerry and Lucy who met in a pet shop. Both wanted a wire-haired terrier named Mr. Smith. They compromised by falling in love with each other and marrying. Mr. Smith was a bone of contention in the divorce trial which resulted in a divorce for Lucy after she was unable to explain a journey with her voice teacher. An oil man from Oklahoma who sang "Home on the Range" off-key was the rebound for Lucy. Jerry spoils that romance, and then Lucy spoils Jerry's. By the way, Mr. Smith can play hide-and-seek. He hides his eyes with his paws, and cheats by peeping, just like white folks.

Such cracks as "Hun! Every time I open the door somebody comes in!" sound funny when said dryly by Aunt Pat who also calmly remarks, "he forgot to touch second base" when Jerry chases the music teacher through the house and out the door after a knock-down-and-drag-out fight in the mud's boudoir.

Toads are worth \$20 each, annually, as cutworm destroyers, it is estimated.

Mainly About People

Fred Beaver, charged with wife desertion, was released from jail this morning, and bound over to the grand jury of the 31st district court. The next session of the court here opens January 3. Beaver was arrested 11 days ago.

George B. Cree, son of Mr. and Mrs. George B. Cree, 1100 Mary Ellen Street, and James G. McConnell, son of Mr. and Mrs. R. S. McConnell, of Pampa, are expected home for the Christmas vacation about December 20. These young men are among the 123 boys from Texas enrolled at New Mexico Military Institute, Roswell, this year.

E. D. Slough, Amarillo lawyer, was in Pampa today.

W. R. Combs of LeFors was in Pampa this morning.

County commissioners will have their regular meeting Monday.

Sheriff Earl Talley attended the H. A. Talley cattle sale in Amarillo Wednesday.

Judge W. R. Ewing and W. R. Frazee, court reporter, are back from Wheeler, where a session of district court is being held. The two Pampans will return to Wheeler Monday when the trial of Stubby Bearrow, charged with murder in connection with the death of Wilburn Nixon, Nov. 21, is scheduled to begin.

M. A. Hagberg of Dallas, representative of R. A. Underwood and Co., investment firm, was in Pampa Wednesday.

Mrs. F. E. Leech is recovering at her home from an illness that has kept her in bed since Thanksgiving. Yesterday, she was able to be up for the first time.

BRATTON AND CRAVEN SIGN NAMES 334 TIMES

Mayor W. A. Bratton and City Secretary W. M. Craven had lots of practice in penmanship yesterday, when they signed their names for a total of 330 times to the 94 bonds and 16 warrants that are to be issued by the city as a refunding issue, saving Pampa \$55,000 in interest costs. The deal is being handled by R. A. Underwood and Co. of Dallas. A representative of that firm was in Pampa yesterday.

Mr. Bratton signed his name 110 times as mayor, and Mr. Craven signed twice on each instrument, as city secretary, and as tax collector. Each of the bonds and warrants was of \$1,000 denomination.

The signed instruments were mailed last night to Attorney General William McCraw. He is to investigate them, then submit them to the comptroller. If approved, the old bonds are to be cancelled, and authority granted to issue the refunding issue.

JACKETS TO ARIZONA. PHOENIX, Ariz., Dec. 9 (AP)—The Phoenix chamber of commerce announced today it had booked the Mesa, Ariz., high school Jackrabbits to meet the Port Arthur, Texas, high school eleven in an inter-collegiate football game December 29 in the stadium of Arizona State Teachers college at Tempe. Mesa is one of Arizona's most powerful prep elevens.

HEREFORD SALE PLANNED. SNYDER, Dec. 9 (AP)—An auction sale of 111 registered Herefords from the Winston brothers herd was planned here today after bidders had arrived from several states and Mexico. There were 87 cows and 24 bulls in the lot. Earl Gardner was auctioneer, assisted by Frank Farley, R. O. Peterson, R. C. Kinser and Frazer Biggs. Charley Winston of Dallas, brother of Harrie and Wade Winston, breeders, was clerk of the sale.

WEST TEXAS ALUMNI WILL BE ORGANIZED

CANYON, Dec. 9.—Organization of West Texas State alumni in all the Panhandle counties will be a major objective of the Ex-Students association during the administration of the new president, Carl Cliff of Amarillo, Potter county superintendent.

One of the goals of the ex-students will be a new library building for West Texas State, which has not been given a major structure in nearly a decade.

Ernest Cabe, of the Pampa high school faculty, is second vice president of the Ex-Students association, which was active in the recent movement to liberalize the curriculum of the college.

Other officers are Dan Sanders, Canyon, first vice president; Mrs. Lee Johnson, Canyon, executive secretary; John McCarty, Amarillo, Gilmore; Wheeler, Miss Nevill Wrenn, Hereford; and Rual Ford of River Road school, directors.

SPANISH WORKERS TOLD TO CUT DOWN MEETINGS. BARCELONA, Spain (AP)—Catalonia wants fewer workers' meetings and more work in its important iron industry.

In a circular to correct abuses in collective factories, Serra Moret, president of the Catalan government economy council, advised workers to observe the following rules:

Factory committee, councils and workers' controls must meet after working hours except in obvious emergencies.

General workers' assemblies should be held in the factory one hour before the finish of the day and loss of work made up if necessary.

In no case should workers be authorized to leave their jobs to attend union meetings not connected with their factory.

Time not used for work should be deducted from salaries.

Market Briefs

NEW YORK STOCKS. NEW YORK, Dec. 9 (AP)—Buying support weakened in the stock market today and many leaders slipped fractions to 2 points.

While a handful of specialties, principally those of 10-share trading units, managed to contest the trend for slumbering advances, major steels, motors and coppers gave ground easily at the last.

There were mild rallying intervals, but these lacked power, and the list generally skidded to around the lows of the day in the final hour.

Dealings were slow from the start, transfers being around 1,000,000 shares.

CHICAGO WHEAT

CHICAGO, Dec. 9 (AP)—Corn became the star performer in the Chicago grain market today, prices rushing up 2 1/2 cents a bushel at one stage.

Export demand for corn was aggressive, and taking for overseas totaled upward of 1,000,000 bushels. A sold wave likely to increase feeding of corn to livestock also had a stimulating market effect.

Prices taking on price advances pulled wheat down at the last.

At the close, corn futures were 1 1/2 cents above yesterday's firm, Dec. 96 1/2, May 98 1/2, wheat 3 1/2, Dec. 96 1/2, May 98 1/2, oats unchanged.

WOODEN LEG WORTH \$88,000 TO WOMAN

NEW YORK, Dec. 9 (AP)—This is the story of a wooden leg that was worth \$88,000.

The principal characters were a one-legged Polish vice consul, Rose Lalkin, Broadway dress shop proprietor, and Noah Goldberg, American ex-patriate in Vienna.

The story, told by Attorney Arthur L. Davis in surrogates court yesterday, goes back to 1928.

Rose and her husband, Frank, wealthy furrier and real estate operator, aired their matrimonial difficulties in court. Frank threatened to go back to Russia where "husbands have some rights." He was placed under bond to assure payment of \$200 monthly alimony.

A year later Goldberg died in Vienna. Mrs. Lalkin learned of it and, convinced the man was her estranged husband, set out to prove it and claim his estate.

Meanwhile sale of Goldberg's few possessions was ordered. They appeared in the form of a few hundred dollars and a wooden leg.

It was just an ordinary wooden leg but the consular official was determined to buy it if it fitted him. He tried it on. Accidentally he touched a hidden spring. Out came \$88,000 in a thousand dollar bill.

A year later time Rose Lalkin proved Goldberg and Frank Lalkin were the same, and claimed the fortune for herself and two daughters.

Davis told the story in his report to the court which appointed him special guardian for one of the children.

THE IRONY OF IT.

PHILADELPHIA, Dec. 9 (AP)—Two gunmen started to leave a tire shop with \$750 they had taken from Howard Albert, manager but whirled with drawn guns at the sound of hammering in the basement.

"That's only a workman," Albert said. "He's fixing our burglar alarm." The burglars fled, grinning.

Skyarks have been introduced into America on several occasions, without success.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief. Many sufferers relieve nagging backaches quickly when they discover that the real cause of their trouble may be their kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pain, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

NINE DIE IN 'FIRE TRAP' IN KNOXVILLE

KNOXVILLE, Tenn., Dec. 9 (AP)—Firemen dug the bodies of nine victims—seven of them children—from the ruins of a flame-raised tenement house early today.

A long search of the ruins failed to reveal any other victims in the old, two-story structure described by Fire Chief C. M. Johnson as a "fire trap."

The dead: Mrs. McKinley Conatser, 35, and three of her children, Virginia, 6, Valeria, 4, and Luther, 12.

Mrs. Cora Tate, 56, her son, Eugene, 17, and her three grandsons, R. L. Melton, 12, Junior Melton, 6, and James Earl Melton, 9.

Fire sweeps the building shortly after midnight and trapped the victims as they slept. Twenty-two other occupants, most of them children, ran or jumped to safety.

Gordon Tate, 22, son of Mrs. Tate, said from a hospital bed that he escaped by jumping from a second story window. He received only minor bruises.

"The others were to have followed me," he sobbed. "I jumped and thought they were coming but they didn't. They must have been trapped before they could get to the window."

The blaze apparently started on the second floor, possibly from a defective flue, firemen said.

McKinley Conatser, 34, husband and father of four victims, seized his five-month-old son, R. C. Conatser, and jumped from a second story window.

"I screamed for my wife to follow me," Conatser, a newspaper vendor, said. "But she couldn't get to the window with the other children, I suppose."

"I kept waiting for them to jump. It was terrible."

Mr. and Mrs. Willie Wright and their children, Lucille, 3, and Franklin, 1, were injured and were taken to a hospital, but they were not believed badly hurt.

ONE KILLED, 16 HURT AS CAR STRIKES CROWD

DETROIT, Dec. 9 (AP)—An automobile ploughed through a crowd of nearly 100 persons waiting for a street car last night, killing one and injuring at least 16.

William Marklein, 30, an automobile factory Ford salesman, the auto driver, was arrested and Chief of Police Carl A. Brooks of suburban Dearborn, where the accident occurred, said he would seek a warrant for him today charging negligent homicide.

A physician and two policemen said Marklein had been drinking. The crowd in the street car waiting zone was made up mainly of churchgoers who had just come from a nearby tabernacle.

Mrs. Theresa Schuyler, 45, was killed. Three other women were in serious condition with skull or internal injuries. At least 13 others, all women or children, were hospitalized.

TEXAS BANDIT ESCAPES FROM NEBRASKA PRISON

LINCOLN, Neb., Dec. 9 (AP)—Sam Rivette, Texas desperado serving a life term for murder in connection with a running gun battle down Lincoln's main street three years ago, drilled a hole through the steel roof of a cell block and escaped from the Nebraska penitentiary today.

Prison authorities said four men were involved in the escape plot but Rivette was the only one at large.

Rivette, who prison officials said had served two previous terms for murder, was one of a trio of men who raced up Lincoln's principal thoroughfare by Automobile April 20, 1934, firing at a pursuing policeman who sought to question them.

Authorities said a bullet from the gun of Aubrey Ray killed 13 year old Lucien Marshall. Ray later was killed when the trio halted in an attempt to make a stand. Rivette and Walter Dean were captured and sentenced to serve life terms.

COLD WEATHER CAUSES 21 DEATHS OVER U. S.

(By The Associated Press)
Winter settled with deeper cold through the South, East and West today, with snow and sub-freezing temperatures in many cities from Amarillo, Texas, to the Atlantic, and a renewal of the biting winds which have harassed upper New York state.

New York City's weather was cold and the forecast was for even more frigid weather. The temperature tonight was expected to drop to 15.

A 52-mile-an-hour wind blew across Buffalo and parts of Western New York, piling up fresh snowdrifts.

Deaths, attributed directly or indirectly to the weather, stood at 21 for the past few days—five in the South, eight in New York state and eight in Pennsylvania.

Upstate New York roads were blocked as winds whipped snow back into places which had been cleared. Niagara Falls closed its schools because of the cold and in Buffalo falling heat and light in a federal housing project brought misery to tenants of 658 apartments.

Farts of Western Pennsylvania lay under 18 inches of snow. There were four-foot drifts in spots, while the thermometer dived to zero in many rural sections.

Snow fell at Amarillo, and other parts of Texas, Mississippi, Alabama and Georgia last night. Forecasts in Florida, however, indicated temperature readings would be above the mark of danger for crops.

The 10 principal cotton producing states in 1936 planted 10,599,900 fewer acres to cotton than the annual average during the five years 1928-32.

GARNER AND MATES TO EAT VENISON TONIGHT

WASHINGTON, Dec. 9 (AP)—Vice President Garner, whether he likes it or not, is going to sit down tonight to somebody else's cooking of the deer he shot last week in Pennsylvania.

The bushy-browed V. P.—an unregimented hot-grease-and-flour veteran when it comes to venison—let it be known recently that he considers hunters who don't cook their own meat as sissies.

It looked today, however, as if he won't cook this deer unless the Raleigh hotel lets him in the scullery without a union cook's card.

The chef, however, is going to do his best to follow Garner's venison recipe, which, in his own words: "Take a back strap, cut it and beat it well. Then flour it and put it in every hot grease. Don't fry too hard. Pour off some of the grease and then make brown gravy."

The next step, Garner added, is simple: "You smile, and eat!"

Party lines have been shot asunder in getting out the guest list of Senators who will feast on the deer.

President Roosevelt wasn't invited—he has a sore jaw.

GASSER RUNNING WILD NEAR CORPUS CHRISTI

CORPUS CHRISTI, Dec. 9 (AP)—Greta Oil Corporation's No. 8 Isen-see oil test in the Saxet field eight miles west of here, was running wild today after blowing out during the night.

With a roar plainly audible in Corpus Christi and surrounding territory, the well is making considerable gas and some mud and water. There is constant danger of it catching fire and it was making heads of dry gas every few minutes.

Expensive drilling equipment was being pulled out of the danger zone. The well is in an area considered extremely dangerous because shallow sands have been charged with gas by an old blowout several years ago. Two other wells in that vicinity blew out earlier this year.

Crews of the M. M. Kinley Co. of Houston, will make attempts later in the day to cap the gasser.

THE LAND OF BEER.
BERLIN (AP)—Germany's beer tax netted the government \$115,200,000 in the fiscal year 1936-37, reports The Angrif, organ of Dr. Joseph Goebbels, propaganda minister. Germans consumed an average of 18 gallons per person.

OLD MAN GIVES EYE SO YOUTH MAY SEE

NEW ORLEANS, Dec. 9 (AP)—The gratitude of an old man brought a present today to young Frank Chabina—an eye to supplant his own ruined by lime dusts last week.

"Isn't that the sweetest thing that ever happened to anybody?" asked the Albany, La., youth who will be 20 years old tomorrow, following the operation in Charity hospital.

John Amos, the 67-year-old donor, seemed happy about it, too.

They had met in the hospital ward and acquaintance ripened into friendship. There they learned each other's story.

Chabina's left eye was sightless. Amos' eye, infected since removal of a cataract, was useless to him, but the cornea was unimpaired.

Out of two impaired eyes the doctors thought they could restore the sight in Chabina's eye. They broached the subject to the old man, suffering from heart disease. He approved.

"Frank's been good to me," he told the doctors. "I haven't so very long to go. It won't make any difference whether I have one eye or two."

So they wheeled to two men into the operating room yesterday where doctors skillfully removed the perfectly good cornea of Amos' eye and put it in Chabina's left eye.

They were hopeful but said they would not know for at least eight days whether the operation would enable Chabina to see.

MONKEYS TO BE USED IN FIGHTING DISEASE

CHICAGO, Dec. 9 (AP)—Fifteen Rhesus monkeys were brought here from the East by plane today to be used by bacteriologists seeking the cause of the rampant intestinal disease that has claimed the lives of 11 babies at St. Elizabeth's hospital since Nov. 23.

Dr. Herman Bundesen, president of the health board, said the monkeys were essential for experimental purposes.

Eight infants still suffering from the disease at St. Elizabeth's were reported to be recovering.

700 HEAD OF CATTLE SOLD

HIGGINS, Dec. 9—Cattle receipts at the Higgins Sale pavilion were heavy Tuesday when the sales started at 1:30 p. m. and a number of truck loads arrived during the afternoon. More than 700 head of cattle went through the auction ring at prices that pleased the majority of consigners.

tuck. Carl Laubhan, Lipscomb sold 12 head nice feeding shoats weighing about 80 pounds each. These pigs brought from \$6.30 to \$6.50 a head. Marvin Cross, Arnett, had in a trailer load of sows that brought \$6.75 per hundred. Other consigners in this division were Claude Phillips and Ben Snyder of Lipscomb.

a truck load of mixed livestock Thomas Jones, sold twenty head of mixed steer and heifer yearlings on the plain order to Alex Laubhan, Higgins, at \$5.05 a hundred. V. K. Scarth and Roy New, local traders, sold 72 head of whiteface steer calves at \$22.50 each. These calves were shipped in from around Lubbock. T. M. Mauldin, Higgins, sold 203 head of light weight white-face steer calves through the ring at \$21.60 a head. C. G. Hughes, local trader, sold 33 head of steer calves at \$23.00 each and 9 head of heifer calves from the same lot

of cattle at \$20. a head. Alex Bey, Shattuck, purchased approximately 30 head of heifer calves. R. T. Kelley, Lipscomb, bought 305 head of good whiteface steer calves. This brings Kelley's cattle purchases through the sale ring here to more than 800 head in the last three weeks. Euel Barton, Hemphill county, sold 14 head of young whiteface cows through the auction, at \$36. a head to J. N. Peterson. Joe Emmil, southeast of Canadian, consigned a truck load of mixed cattle, most of which were bought by R. E. Thompson. Homer Owens Lipscomb, sold sixteen steer and heifer yearlings to L. B. Cross, Canadian. These were extra good cattle carrying a lot of weight. Weaver Clark sold eight head of steer calves at \$15.50 per head. These were light cattle of the plain type.

Southern Commissioners of Agriculture, expressed similar determination. The plan would give farmers a party price for the portion of their crop used domestically, allowing the remainder to be exported at world prices. "The farm bills as they are now written would be ruinous to the southern farmers," McDonald said. "They would destroy our world market and thereby seriously affect commerce in the south, as well as the farmer." McDonald said he had received telegrams signed by 100 Houston firms, and from the Galveston Cotton Exchange and Board of Trade, urging the adoption of a domestic allotment plan. Similar telegrams were received by Senators Sheppard and Connally of Texas. Both said, however, they favored the administration's bill.

MCDONALD ARGUES FOR HOUSTON COTTON PLAN

WASHINGTON, Dec. 9 (AP)—J. E. McDonald, Texas commissioner of agriculture, said today rejection of a domestic allotment cotton plan by the House Tuesday would make him redouble his efforts to have the Senate adopt it. C. C. Hanson, secretary of the

M'INTIRE ACCUSED IN OLD SLAYING BY YOUTH

CLOVIS, N. M., Dec. 9 (AP)—Starting testimony to the commission of a second and hitherto unexplained slaying was given in court here yesterday by Ray Jackson, 17-year-old Pampa, Texas, youth, on trial jointly with Marvin McIntire, 23, for the slaying of Ed Hargus, Roosevelt county rancher, last July. Young Jackson testified under examination by District Attorney J. C. Compton that McIntire told him he killed one William Gabriel, a recluse living in the Dora community of Roosevelt county, who was found hacked to death near his squalid farm home in July, 1936. Jackson charged that the killing of Hargus was motivated by McIntire's desire to "close Hargus' mouth" because the rancher appeared to know of the killing. The youth previously admitted on the witness stand the firing of two shotgun charges at Hargus, but declared he did so only in fear of his own life because McIntire stood by with a pistol ordering him to shoot. Attorneys for young Jackson immediately rested their case with this

FREE SERUM TO FIGHT PNEUMONIA OFFERED

HARRISBURG, Pa., Dec. 9 (AP)—Pennsylvania today ordered erection of 2,000 highway billboards advertising free serum to shield its citizens from the ravages of pneumonia. Dr. Edith MacBride-Dexter, secretary of health, said her department would place the signs along all highways. Her announcement came as the first cold spell tumbled thermometers and renewed dangers of the disease which in 1936 caused 9,094 deaths in the Keystone state. The free serum, made possible through a \$60,000 federal grant, will be available beginning Dec. 15 to all who apply through private physicians. McIntire was represented by separate counsel. Hargus' body was found buried behind a corral on his ranch home August 1, a day or two after Jackson and McIntire—farm hands—had disappeared. The youths were later apprehended in Fort Smith, Ark., at the home of relatives.

TODAY'S SERMONETTE

The Christian proves his faith by his works, and both God and man judge what he says by what he does, what road he travels, how he meets temptations, for the Christian finds himself in constant warfare with the ways of evil. 'BACHELOR' HUSBANDS AND KNOWING WIVES.

That famous bridge expert who explained the crack-up of his marriage the other day by confessing sadly, "I am a married man with bachelor instincts," may have thought that he was owning up to a unique and deplorable trait. Unfortunately, however, he was not.

For the run-of-the-mill husband everywhere shares in that little falling-and there isn't a wife alive who doesn't know it. This, no doubt, explains the widespread feminine distrust of predatory blonds, and the wily habit of demanding a triple-edged alibi for any and all evening absences from the fireside.

It explains more than that. It explains the uncanny presence with which the little woman detects, in the brain of her spouse, those errant little fancies which ever and anon take shape there. She detects them, often enough, before the spouse himself is entirely aware of them, before they have recognition, for instance, than a mental recognition of the fact that little Mary Jones looks uncommonly nice as she stands on the corner waiting for a cab, with the wind whipping her skirts.

Having detected them, she immediately files an accusation—leaving her better half with that peculiar feeling of baffled indignation which an accused man feels when he knows that he is innocent but knows also that the innocence is not exactly of his own contriving. He usually mutters dumbly about woman's intuition, not understanding that she has simply acted on the ancient truth—that man's roving eye operates independently of his will.

And there is where another score must be put down to the little woman's credit; for she knows (without being told) that while hubby does have an incurably footloose nature, it isn't really his fault and in nine cases out of ten he never actually does anything about it. Which, of course, is what makes the whole business endurable and keeps modern society on an even keel. For these bachelor instincts, inborn though they are, are after all pretty superficial. Life holds few more truly comic sights than that of the ordinary house-broke husband who, nourishing the idea that he would like to be a gay blade and a tempestuous lover, suddenly runs into a lady who is perfectly willing to take him at his word.

The haste with which he scampers back to home and fireside, listening devoutly to the prompts of his better nature, is something to ponder over.

All of these truths the man himself knows only when he has spent much time in meditation; but the woman knows them from the beginning, without even bothering to formulate her knowledge. She knows, that is, that the whole history of marriage is really nothing more than the story of woman's long effort to drive a little civilization into the male of the species. By and large, she has done a pretty fair job at it.

So when she hears someone confess solemnly that he is "a married man with bachelor instincts" she can only say: "Well, so what?"

STRIKE WASTE.

Whenever a strike takes place and is followed by a statement which both sides hail as eminently satisfactory, one is forced to wonder why the rival leaders could not have got together in the first place and saved the loss and bitterness of the strike.

The Greyhound Bus case is an illustration. Some 1,200 bus drivers in 16 states were affected. When the walkout began, both sides breathed forth defiance and announced that they would fight it out on an all-or-nothing basis. But a federal labor conciliator got the leaders together, and a compromise was finally reached. Each side had to retreat a little, and each side managed to do so gracefully; the strike ended, and both strikers and employers hailed the terms under which it ended.

What a tragedy, that this compromise could not have been reached a few days earlier so that the strike itself might have been avoided!

Yesteryear In Pampa

TEN YEARS AGO TODAY Construction of a west wing 40 by 60 feet in size and four stories high to provide additional rooms and banquet facilities for the New Schneider hotel was announced by Alex Schneider Jr.

Postal money orders for November showed a large increase over the previous months, authorities at the local office reported.

FIVE YEARS AGO TODAY Progressively colder was the weather, with a record of 7 degrees above zero on the previous day and a steadily falling snow forming a blanket of white over the entire territory.

The Buena Vista peak avalanche in Elysian Park, Los Angeles, on the night of Nov. 26, is of great interest to L. W. Burrow, geologist, and father of Pampa's Joe Burrow—who lived in Los Angeles, and is familiar with the area. He advances his own ideas about the cause of the mountain slide which sent millions of tons of dirt and rock sliding into the city's Riverside Drive.

Mr. Burrow yesterday afternoon brought some interesting photographs of the avalanche to the News office, sent to him by relatives in Los Angeles. A geologist in the oil industry in Texas for many years and father of several Texas oil fields, Mr. Burrow has his own theories about California's moving mountain. Fear of an earthquake now grips the people of Los Angeles, Mr. Burrows said. An earth shock would cause a serious upheaval of the now shaky Buena Vista peak.

Cold waters from the Pacific finding their way into heated faults beneath the mountain caused the underground eruption and the subsequent mountain-slide, in the opinion of Mr. Burrow, who likewise predicts that the mountain will give Los Angeles still more trouble in the years to come. A fissure an eighth of an inch wide was discovered by a gardener in Elysian Park a month before the actual mountain slide. It was reported to authorities at the time.

Among things that burn Police Chief Art Hurst are newspapermen. He doesn't like 'em and he's not backward about telling other people about it. "Take me for instance. He always sticks up for me. It came straight to me that a fellow told the chief that I wasn't fit to eat with the hogs. Did the chief stand there and let the fellow get away with it? He did not. He pitched right in for me and said that I WAS fit to eat with the hogs. That makes Chief Hurst and me practically chums. I like the chief awfully bad, too.

Now, if the chief will just write me a scorching letter, we can have a lot of fun out of it. We can make everybody believe that we are mad at each other, and it will give me a chance to fill up this space for a few days. As you no doubt have guessed by now, I will do most anything to make copy for this column. I have to take that attitude because my good friend and best critic, Fred Cary, won't read the things that he knows are clipped from a magazine or something. He can peg a "piracy" quicker than anybody I know.

Editor's Note: The medical and political worlds have been deeply stirred by proposals from nationally known physicians to put the government into the "state medicine" in various forms. The American Medical Association bitterly opposes any such move. Meanwhile, the United States government continues to experiment on the side with "state medicine" in various forms. A new experiment has started almost under the nose of the capital and the government, in sharing in it. Already a controversy is rumbling. Preston Grover tells you about it in two monthly articles. This is the first.

WASHINGTON—A second venture into mass production medical practice in which the federal government has a share has finished its first month in Washington.

The new venture was launched by employees of the federal Home Owners Loan Corporation. It is called the group health association and offers to HOLC employees a definite amount of hospitalization and medical care in return for a regular monthly fee. The benefits are limited at present to the 2,000 employees of the organization in Washington. So far, about 1,000 have signed up.

Here is the setup: If the employe wants medical and hospital care for himself alone he pays \$2.20 a month. An employe wanting care for himself and members of his family pays \$3.30.

In return they get necessary hospitalization up to 21 days a year and medical attention from five physicians including all varieties of surgery and medicine except treatment for certain prolonged diseases, such as cancer and advanced tuberculosis, where extensive confinement in an institution is required. Dental service is not included.

The federal part in the program came when the HOLC advanced \$20,000 to finance establishment of a clinic and pledged \$20,000 more for next year.

A sample of the liberal operation of the HOLC employes' plan is the treatment now extended to the wife of an employe. She was well along the way toward motherhood when the plan was started, but she received the benefits. It will require two or three years of payments by her husband under the group plan to equal the usual medical bill involved. And yet he is not bound, except perhaps by common decency, to continue the payment a single month after his wife's case is disposed of.

A middle-aged employe with chronic diabetes is receiving regular treatment, as is an employe's son who was found to have incipient tuberculosis. Complete X-ray pictures of his lungs were included without extra charge. All members are urged to go at once to the clinic for a comprehensive physical examination since disease prevention is emphasized as a major purpose of the association.

But with 1,000 salaried potential patients taken from them, with a degree of federal assistance, it is perhaps not especially remarkable that the physicians in the district were disturbed.

The clash between the association and private physicians will be taken up tomorrow.

LIKE A LOST WORLD MONSTER this dragon appeared in Manhattan streets and caused mundane New Yorkers to look twice. It was part of a parade of inflated floats, sponsored by a department store to launch the holiday season and remind Christmas shoppers of numbered days to purchase gifts. Thousands of children lined the streets as huge figures, some well-known comic characters, designed by Tony Sarg, passed in review.

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Unlike most stage comics who are weighed down with the Pagliacci complex and a desire to play Hamlet, Al Trahan prefers to spend his off-stage moments shooting left-handed golf and winning new trophies at the clay pigeon traps to go with his ever-increasing collection. He has between 60 and 70 valuable sterling awards as a result of his ability to hold a steady hand and shoot straight.

This unscrupulous manipulator of shooting irons, ranging from gaudy modern bores to an ancient and rusty musket, probably a relic from Green Mountain, has a wall filled with trophies. He also has an unpublished reservoir of hilarious reminiscences, the latest of which was an occurrence at the National Press club dinner in Washington.

Al went down to attend the dinner and to add a little merriment to the festivities, and with President Roosevelt the star guest, all omens pointed to a satisfying evening. But Al did not reckon on the G-men. Most of his foolery is centered around this ancient fowling piece which he uses in his stage comic-antics. When it was time for him to go on, an announcer bawled: "Al Trahan, the mad falconer." Everybody waited expectantly, but there was no Al.

Where was Al? He was writing in the toils of a strong-arm guard which had apprehended him back in the corridor leading to the stage. It seems that nobody with a gun is allowed to walk in on the President.

"But—b-b-b-b!" expostulated the man who once made King George guffaw with laughter. But there were no buts about it. They shooed Al onto the stage, but they kept his gun. "But, I've got to scare somebody with that gun," he pleaded vainly. "Yell 'Boo' at 'em," growled a G-man.

Back in Manhattan, in that rinky rinky expansion of rooms which is his hang-out in 72nd street, Prof. Trahan was chucking over the incident and showing his mounted trophies of the chase—a cock pheasant here, a boar's head there, some stag antlers yonder. Suddenly an object loomed on the wall which caused everybody's eyes to pop out. It looked like a miniature deer's head—until Trahan suddenly exploded in laughter.

A closer examination disclosed it to be the head of a jackrabbit to which a taxidermist had cleverly fashioned a pair of antelope antlers. That's Trahan, a great comedian and a great hunter. He plays the piano for money and the clarinet for fun. But when he is asked to entertain at parties he seldom touches a musical instrument. He prefers to tear telephone directories to bits. And in New York, they are three inches thick.

People You Know

By ARCHER FULLINGIM

The father and son had their first disillusioning understanding the other night, and both view the unhappy incident as heartbreaking and climactic but probably necessary. The boy is about two years old, and no children two years old can be very much spoiled. But it is not the neighbors' fault he is not spoiled; the boy is exceedingly handsome and appealing, and the neighbors (who have no children of their own) make over him night and day. Everybody makes over him, but of course, being two years old, it does not affect him one way or the other. Well, the other night the boy got his first spanking from his father. It was 10 o'clock, and the boy wouldn't go to sleep, so his father decided it was time to spank him. But the child just couldn't be spanked. He was a different than he had ever been. And through his tears and sniffs, he said, "Nice daddy!" And it has been two days now, and the father hasn't gotten over the incident yet.

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—About four years ago movie talent scouts raided the New York musical "Roberta" and came back with two finds—a member of the orchestra named Fred MacMurray and an actor-hooper named George Murphy.

Both these boys now have a movie head-start on the show's leading man, Bob Hope, who belatedly makes a film debut in the new "Big Broadcast." As he has been signed for additional films, it appears he won't be long in catching up with the others.

Born in London, but reared in Cleveland, Ohio, Bob made his vaudeville and radio reputation telling Scotch jokes. And he was a cunny fellow, too, when the movies invited him out from "Roberta" at \$750 a week.

Rewarded For Waiting He was doing well enough on the stage and air to be able to smile at the figure. If he came out at that price, he reasoned, he might sit around a long time with nothing to do in pictures. The more an actor is paid, the more careful the studio is to do right—and immediately—by him. He waited—proving that you don't have to be in Hollywood to know all about how it works.

Much-Married Miss Shirley Temple's future pictures will be half-and-half: half in "costume," half modern. They've stayed awake night worrying about it, but a fan mag poll of juvenile readers was equally divided on the question, and Shirley's fan mail the same. "Gaily, Irene and Mary" will have the usual this-is-purely-fiction note at the beginning, but Louise Hovick's character is a much-married gal named in the script as Miss Joyce. Even in Hollywood one gets started occasionally. There was this sign on a set, for instance: "Carpenters please note. Lumber in this set finishes natural. Do not pencil mark it and do not walk on the walls."

Book A Day

By BRUCE CATTON

It is a strange, dazzling and altogether readable book that Mr. P. Shiel has written in "The Young Men Are Coming" (Vanguard, \$2.50). Here is a novel which, among other things, discusses the immortality of the soul, the marriages of the stars, Fascism in Great Britain, the limitations of modern science, the perfectibility of man, and the things that are apt to happen when an aged married couple is unexpectedly rejuvenated. Mr. Shiel seems to have gone tipsy on some wine from Arcurus—at the moment his imagination bounds off to the farthest galaxies, leads him to confer a plot such as H. G. Wells at his wildest could only blink at, and gives him a surging, sparkling literary style that is uncommonly effective.

It is impossible to synopsize his book in less than half a column, but here is a hint as to its general tenor. Magical beings from some ultra-remote star visit the earth one night, carry off an aged scientist, feed him a liquid that restores him to the age of 25, and then bring him back to earth again. There is no holding the old gentleman after that; he goes wenching and rollicking about, starts a streamlined dictator movement, summons a cosmic storm from heaven to confound a kiver-to-kiver evangelist—and winds up by uniting madly in love with his own wife, who has managed to get a swig of his rejuvenating elixir herself. Yet "The Young Men Are Coming" is far more than a mere fantasy. It takes in man, the earth, the solar system, the entire universe. It offers fascinating new conceptions of time, of space, of inert matter, of life itself. Its horizons are boundless, and its sweep is overwhelming. You may not like it quite as well as I did—though I hope you will—but, even if you dislike it intensely, you will find it a prodigiously stimulating book.

Although there were reports of skylarks on Long Island as late as 1907, the species is now extinct in America, so far as is known.

Jackson May Be New Deal's Hope In New York State Elections

By RODNEY DUTCHER, Pampa Daily News Washington Correspondent

WASHINGTON, Dec. 9.—Roosevelt once said of Assistant Attorney General Robert H. Jackson:

"He is the only man I have who can do everything." Jackson, who caught the biggest fish on the recent presidential vacation trip, is the administration's fair-haired boy. The President's personal fondness for him explains why he was invited on the trip for conversations which could just as well have been had in the White House.

The conversations between the two men, however, were potentially of great political importance. One subject was anti-monopoly legislation, on which Jackson, as head of the Justice Department's anti-trust section, and perhaps the most brilliant all-around lawyer in the government service, is the administration expert.

New York Key to 1940.

The other topic had to do with Roosevelt's concern over the 1938 elections in New York state. The President wants Jackson to be the Democratic candidate for governor next year—in case Postmaster General Jim Farley decides not to seek that post. It has been widely believed that Farley wants to be governor and Roosevelt will back him 100 per cent if he does. But Jim hasn't said a word to the President or anyone else, and F. D. R. appears to have exhibited a delicate reticence about asking him.

Meanwhile, New York state is virtually the key to 1940. Any presidential campaign who brilliantly makes a film debut in the "Big Broadcast." As he has been signed for additional films, it appears he won't be long in catching up with the others.

Newspaper vendors shrug their shoulders and refuse to sell if you offer anything but the exact 15 centimos for a paper.

Movie theaters, becoming great sticklers for small change, insist upon exactly 1.50 pesetas if you want to see a 1.50 show. Silver coins practically have vanished since the civil war began, leaving copper "big dogs" and "little dogs" virtually the only small change.

Even aluminum tokens issued some time ago by the Barcelona unions have disappeared. There has been no official explanation for the change shortage. Some theories were that increased wages increased spending; that people were hoarding coins and that metal was going into war industries.

FOUR OR FIVE BASKETBALL TEAMS TO REPRESENT PAMPA HIGH SCHOOL

PREJEAN WILL COACH QUINTET IN NEW PLAN

Four and possibly five basketball teams will represent Pampa high schools this winter it was decided at a meeting of coaches and principals yesterday evening. The number will depend on practice times available.

There will be two Harvester quintets, the first string in charge of Ocus Mitchell with J. C. Prejean handling the "B" squad. The Guerrillas will be the spotters in the junior conference and will be in charge of Bob Curry. The junior high Reapers will play in the same league with the Guerrillas and will be under command of W. C. Huckeba. If a practice time can be arranged, Bill Leggett will work with a group of Peewees.

Dividing of the Harvester squad will take place early next week with Coach Mitchell taking the first 10 boys and Coach Prejean the rest of the squad. The battle for starting honors has been hot since practice began last week.

A practice schedule will be arranged immediately so that each squad will have a set time for practice workouts.

RED SOX GET TED WILLIAMS

CHICAGO, Dec. 9 (AP)—If anyone insisted on awarding a "money spending" blue ribbon for activity during the 1937 major league baseball meetings, it would have been pinned on the gilt-edged Boston Red Sox.

What they accomplished looked big in contrast with the inactivity of a majority of other clubs.

They obtained young Ted Williams, an outfield star, from San Diego for two players and cash. The New York Yankees offered \$35,000 for Williams, so it can be assumed that Tom Yawkey "laid it on the line" for the West Coast youth. The Red Sox let Oscar Melillo go to the Browns as a coach and participated in one of the three strictly all-major deals, sending Outfielder Buster Mills, Infielder Ralph (Red) Kress and Pitcher Buck Newsom to the St. Louis Browns for Outfielder Joe Vismik.

Not a single big deal was made by either league at the major sessions.

The majors failed to see eye to eye as to the type of ball to be used and in yesterday's final and joint meeting, refused to reopen discussions. The American league will continue to use the same ball as it has for many years, the fast or "rabbit" spheroid. The Nationals, after using the fast ball four seasons, will go back to the slower and heavier ball favored by pitchers.

The National circuit re-elected Ford Frick president for three years.

Slingin' Sammy Sets New Passing Record

"Slingin' Sammy" Baugh, passing star of the Washington Redskins, flips an aerial for a 12-yard gain during the 49-14 rout of the Giants at New York in a professional football game. Baugh, being tackled by Ray Hanken (47) a moment after getting the ball away, completed 11 passes for a total gain of 135 yards and ran his total of completions for the regular season to 81, a new league record.

Bears Plot To Throttle Baugh In Title Battle

By CHARLES DUNKLEY

CHICAGO, Dec. 9 (AP)—"Bottling up" maneuvers to stop the Washington Redskins' sensational forward passer, Slingin' Sammy Baugh, will be the Chicago Bears' major task when they battle the Easterners for the National Professional football championship at Wrigley Field Sunday.

George Halas, coaching genius and owner of the Bears, is basing his strategy on a belief that if Baugh's passes are checked Washington's offense also will be checked.

The Bears' mentor believes the best defense against forward passing lies not so much in alert covering by defending backs as in rushing the passer. No forward passer, Halas says, is quite so effective when he sees two or three big chargers bearing down on him.

So Coach Halas makes no secret of his plans to bottle up Baugh, who has set a new passing record by completing 81 out of 171 attempts for a total yardage of 1127. He wants his forwards to force Baugh to hurry his tosses, disturb his aim and take some of the fight out of him by hard tackling.

REGIONAL CHAMPIONS TO BE CROWNED IN WEEK'S GAMES

DALLAS, Dec. 9 (AP)—Featured of the major teams Maryland plays, Maryland lost only to Pennsylvania and Penn state. Football is played in only a comparatively few Maryland high schools, so hardly a half dozen of Dobson's athletes had played before reaching the university.

Maryland defeated St. John's of Annapolis, Western Maryland, Virginia, Syracuse, Florida, Virginia Military Institute, Georgetown and Washington and Lee.

Wink, which claims the highest total of points with 464 to 53 for the opposition, plays Roscoe at Odessa, Itasca, which has 452 points to 19, tackles the Hearne team. Wellington, another high-scorer with 419 to 19, plays Panhandle at Wellington.

Wink's record is remarkable in that it includes victories over the class A Big Spring team and Hobbs, N. M., and no class B aggregation has been able to hold the score down to a reasonable figure.

The play-off schedule: Region 1—Panhandle at Wellington, Friday; region 2—Roscoe vs. Wink at Odessa, Saturday; region 3—Burk Burnett vs. Putnam at Wichita Falls, Friday; region 4—Diamond Hill (Fort Worth) at Van, Friday; region 5—Mineola at Rockwall, Friday; region 6—Overton at Groveton, Friday night; region 7—Brady at San Saba, Friday; region 8—Itasca vs. Hearne at Waco, Friday; region 9—Smithville vs. Bay City at Eagle Lake, Friday night; region 10—Pasadena vs. Hill-Dalacita at Goose Creek, Friday; region 11—Eldorado at Hondo, Friday; region 12—Aransas Pass vs. Freer at Corpus Christi, Friday night.

GUST JOHNSON WILL GRAPPLE WITH MACKIE

Gust Johnson, one of the most popular wrestlers since the days of Sailor Otis Clingman and Red Michael will return Monday night for a main event match with Cyclone Mackie. Johnson has been knocking the big boys in the north and east around for two months and has hiked his contender rating to third in the championship contender race.

Promoter Cliff Chambers has scheduled another all star card which will be open at 8 o'clock with two of the wildest and wooliest tin ears in the game facing each other. They are Otto Ludwig, big and ugly German, and Benny Wilson, the Fort Worth cowboy.

For a semi-final, Promoter Chambers has secured a newcomer, Jack Mandell of St. Louis, to tangle with Jack Hagen, the Louisiana butcher boy. Mandell is the leg artist. He can get almost unbelievably high on his opponent's legs and the punishment is worse than roughing it.

Twenty-five years ago Shawn started his dancing career. He was 21 and a good dancer.

Five years ago he hit upon the idea of giving the public something different, male ballet dancers.

Warnings came from everywhere. If would be murder, they told him, to skip eight young men through a routine usually accompanied by the rustle of skirts.

But Shawn fooled them. He dug into colleges and came up with a wrestling champion, prize pole vaulter, football players, crack swimmers—muscular, handsome youngsters.

"Sir, that first year of pioneering was a trifle difficult," Shawn reminisced today. "There were times when it looked as if the boys were in for a bit of a fruit barrage."

"Well do I remember the first time the troupe went into Texas. Two weeks in advance 50 cowboys had gone about collecting eggs and vegetables. The night of the show the house manager was in agony. Our 50 friends were out front and well-equipped."

"The curtain went up and the boys went out. Signs of restlessness in the first few rows caused the boys to brace for the worst. Nothing happened."

"Of course, the boys felt as if they had been on the stage a couple of weeks when that show ended, but our friends actually became interested and took their vegetables home with them."

"About 20 per cent of our audiences were male on the first tour," said Shaw. "Now is it about 60 per cent."

War Admiral Named Outstanding Horse

BALTIMORE, Dec. 9 (AP)—War Admiral, unbeaten three-year old

owned by Samuel Riddle of Philadelphia, today was awarded the turf's highest honor when he was judged the outstanding race horse of the year by 256 sports writers.

The Admiral and Mrs. C. S. Howard's four-year old Sea Biscuit staged a nose finish in the poll

conducted by the turf and sport digest. War Admiral, a son of Man O' War, polled 621 votes. Sea Biscuit, himself a grandson of Man O' War, received 603. The pair had the race all to themselves as William Zeigler Jr.'s Esposa, which finished third, tallied only 140 votes.

LOST KINGDOM

By OREN ARNOLD, Copyright 1937, NEA Service, Inc.

Yesterday Bob learns that the strange little brown people are the remnants of a lost kingdom—a people who once lived in Defiance Castle. These people think Bob and Melissa messengers of the sun.

CHAPTER XIX

The white visitors stayed in a strange home that night. The chieftain with his family and servants vacated his house, best in the kingdom, and with considerable pomp offered it to Bob and Lissa. The hospitality was genuine.

"But where are the doors?" Lissa whispered.

There was no opening in sight on the ground level—no windows, doors or holes. Two ladders led to a second story ledge, however. It was a rather imposing house, two stories high and perhaps doubly the size of the other. It was strongly made of stones and plastered with mud.

"In the ceiling," Bob answered. "The Pueblo Indians still build that way occasionally."

"You mean—?"

"Yes, you have to climb up a ladder to the first-story roof, then down again inside, through an opening in the ceiling. And those other ladders lead to the second floor. That makes it automatically a fortress, see?"

"Enemies couldn't get inside so easily, you mean?"

"That's right, Lissa. The ladders are pulled up after the residents are all in at night. No doors, no ladders—not bad!"

"Seems mighty inconvenient," the girl suggested.

"Sure, and doubtless unnecessary now. But very important in the old days. The simple folk evidently cling to old customs, regardless."

They found the first floor rooms used only for storage of grains, skins, tools and other valuables. Beds of grass and woven mats were on the second story floors, inside small rooms.

"You can stay up there," Bob said. "I'll curl up somewhere down here in the store rooms. I'll pull in the ladders for you."

They didn't get to retire immediately though. They had hardly finished exploring when they were hailed from outside. They hastened to the ledge and peered down.

There stood the chieftain and two other men, evidently an official body, and before them were four brown maidens, young girls all. The chief was pointing and signing. Bob hastened down.

This new powwow, lighted by torches, lasted fully half an hour. In the end, the three dark men led their maidens away, and Bob came back to the house leader.

"What is it?" Lissa demanded, anxiously.

"It's awful!" he whispered, in a strained voice. "Things have taken on a much serious turn. Those girls—they are sacrificial maidens, Lissa!"

"Sacrificial?" She looked intently at him.

"Yes! The old chief says they have chosen the most beautiful girls in the kingdom for the white gods to see. You and I have to pick the one we want sacrificed to the sun!"

"But—But—how? Sacrificed how, Bob? You mean—?"

He nodded. "It means death for her, even though it's honor for us!"

The thought appalled them, and for a moment the two were silent. Finally Bob spoke again.

"He wanted us to choose tonight, but I stalled for time. Told him the sun was down now, and it could not be done at night. But tomorrow—goodness!"

"Couldn't we refuse?"

"We don't dare. Our own lives might be jeopardized. It's a delicate situation. It's normal, too, but I never thought I'd experience it. Human sacrifices were common among most savage people. The early tribes of Mexico nearly all did it, the Mayan, Aztec and such. They had special stones for it. Removed the heart, and had feasting the while. This custom links up with the Asiatic countries, too."

MARY MELISSA barely listened to the rest of his explanation, with its scientific background. She was too horrified. She heard him, though when he told her the chief himself had promised to officiate the ceremonies tomorrow.

"You mean he will—he's the one to—?"

Bob read her thoughts. There was great anxiety in her tone as he answered.

"Yes, he will honor us in the highest form possible, by personally slaying the maiden we select. We will occupy seats of honor at the ceremony beforehand and afterward."

Mary Melissa couldn't quite grasp it. Challenged with emotional strain, she shivered a little and almost groaned. This was fantastic, unreal, impossible.

She wanted to flee, to have Bob grab her hand and run with her out of this mysterious region forever. Again she shut her eyes and squeezed them tight, as if trying to blot out the whole ugly dream. But her mind was normal, she knew.

It was real, it was true. Her brain was absolutely clear, alert.

She had studied the brown girls closely while Bob conferred with the chief. They were not pretty in the Caucasian sense, but they were handsome and strong. They must have been 16 or so, with muscles developed by toil in the fields. Their hair was done in peculiar tight whorls. Their garments, of rough woven fiber, had been crudely but effectively dyed in colors and designs which Lissa sensed had a religious significance. Bob had told her snatches of such things, she recalled.

"Lissa peered now over the roof ruff, but the maidens and their escorts had disappeared in the darkness, somewhere in one of the other houses. The village was singularly quiet. There was no calling, singing, visiting or other manifestation of communal routine. She had swift mental pictures of New York at night, by contrast.

Bob reached to pat her hand, encouragingly. "Don't let it get you," he half whispered. "We still have time. And as yet we are in no danger at all."

She realized the truth of that. These strange lost people might indeed decide to sacrifice the visitors! For a moment she almost wished they had. The apprehension of death couldn't be much worse than this nerve-racking tension. She thought again of New York, and the impossible chain of adventures which had followed when she had answered a harmless newspaper want-ad. She smiled to herself then, even through her despair.

"Do you think they know one of them is to be sacrificed?" she demanded of Bob, in awed whispers.

"Yes. The chieftain said so. They consider it an honor to be chosen, and each one hopes we'll pick her. Their idea, you see, is that the sacrificed girl becomes a lesser goddess herself."

Lissa shuddered anew. "How often does this happen?" This human—murder?"

"I don't know. Probably once in a year. But it isn't exactly murder. It's all in the point of view. Now you take—"

"NO, NO, NO!" Mary Melissa wasn't going to "take" anything. She wasn't even going to listen to any more scientific talk about it. She was exhausted, emotionally and physically. She could not possibly have restrained the sobs that shook her then.

Bob said no more. He just held her tightly as she cried against him, looking out the white to see if her outcry had caused any sort of alarm. He was badly shaken, himself. He gave thought to one or two wild plans of flight. Maybe in the dead of night—but no, his reasoning corrected him.

He realized they couldn't get out in secret. News of their presence had of course excited the whole village, and their slightest move would become known instantly. Besides, this place was a gigantic trap by physiography; he would simply have to maneuver a way back up the cave.

Only their utter fatigue drove them to sleep, eventually, huddled together there on the second story ledge.

TEXANS PLACED ON AP LITTLE ALL-AMERICA

By ALAN GOULD NEW YORK, Dec. 9 (AP)—This year's "Little All America" football selections, compiled today by The Associated Press, gives special emphasis to the strong brand of small-college competition in the South and its neighboring cornbelt.

There's no sectional monopoly in this respect. The combined South and Southwest contributes five of the "big little fellows" on the 1937 aggregation. Seldom has there been a better crop of small-college backs.

Graduation Takes Toll Others besides Lewis who will play their last game Friday are: J. R. Sterling, end; Weldon Dowlen, tackle; James Mecaskey, center; Deahl Howe, guard; Nolan Sparks, right halfback; Audrey Crawford, left halfback.
