Texas Senate Votes Down Proposal Of House To Slash Salaries HOUSE OVERRIDES HOOPER VETO

PAMPA
TOPICS OF OUR CITY
By O.E.H.

TWINKLES
We smell good news for Pampa in 1933. Things are brewing which we cannot mention yet, but keep on reading—and hoping with us.

We are not speaking of the federal building, much less making predictions about the year of its ground-breaking.

For once we agree with Mr. Hoover: "Present processes of forced liquidation through foreclosure and bankrupt sale are utterly destructive of the interests of the debtor and creditor alike."

Merchants are finding it difficult to read names on some checks, but the bankers know the signatures. Some names are easy for the merchants to read—but the bankers promptly return the checks marked "no account." NO ACCOUNT persons are far too numerous in this territory.

Pratly feminine lobbyists are the latest subsidized representatives of special interests. And we'll bet wives of legislators will stay in Austin pretty closely from now on.

A lot of persons who fear the devaluation of the dollar nevertheless show no inclination to use Bill while he is so valuable to his owner and so costly to those who must work hard and long to obtain him.

HELP A CHILD
Maybe, during the holiday season and new year's reports, we have been neglecting Baker cafeteria in South Pampa. Principal J. A. Meek of the school says that donations have slowed down and money is too scarce to permit him to feed all the children who need nourishment. Here is a problem sure enough. Why not, a whole hundred of us, take Baker school a sack full of canned vegetables, meats, and other edibles to help the children? He believes that readers of this column are generous and that they will help when the need is made known. We agree with him. Do not disappoint the children. Leave the groceries at the school or at The NEWS, or telephone either place if you wish anyone to call at your house for the "eat." **HELP A CHILD**—he cannot postpone normal growth without suffering for life.

Era of Propaganda.
As the legislature opens, we are overwhelmed with letters, pamphlets, and good old-fashioned propaganda. Often it is difficult to tell, off-hand, the worth of some strongly worded letters. More often than not, the writers stress some legitimate small claim but overlook the major problem.

Adams Is Excited.
S. W. Adams, publisher of the Gladewater Journal, is spending most of his time in Austin and is quite excited about his knowledge: "I am thoroughly convinced that we are undertaking the most wholesome work of our entire life. The unseen hand that cups itself against the mouth, the ganglia of planning plenipotentiaries of predatory power, the forays into the enemy's territory, the swelling tide of lobby legislation—all merge into the struggle for the 'eat.' **HELP A CHILD**—we cannot postpone normal growth without suffering for life."

AMENDMENT IS INTRODUCED TO REFORM COURT

SENATORS DEFEAT ACT TO REDUCE THEIR OWN PAY

MCGREGOR OFFERS BILL

PLAN WOULD ABOLISH ALL DISTRICT COURTS

AUSTIN, Jan. 13 (AP)—The Texas Senate voted today, 13 to 9, not to concur in the House action fixing senators' salaries at \$8 a day and the representatives' pay at \$10 daily.

This was a defeat for the "a day" bloc, which took the position that the House would not agree to reduce all the legislators' pay and that the best chance of effecting any economy was in agreeing to the House amendment.

Sponsors of concurrence admitted that the variance in pay of members of the two Houses might be unconstitutional but they said no one would raise the constitutionality question. They contended that concurrence in the House amendment would show that the senators were sincerely desirous of cutting salaries.

Would Reform Courts.
Reformation of the Texas court system was proposed in a constitutional amendment offered in the House of the legislature by Representative T. H. McGregor of Austin.

The proposed amendment would abolish the eleven courts of civil appeals and the district courts. The amendment provided for the maintenance of a nine-judge supreme court, a five-member court of criminal appeals, county courts, justice of the peace courts, and commissioners' courts.

MRS. BARNES DIES IN CITY
Long Illness Fatal To Wife Of Tax Collector of Gray County.

Mrs. Tom W. Barnes, 52, wife of Gray county's tax collector, died at home, 1117 East Francis avenue, at 6:30 o'clock this morning after a long illness. The body will be at rest at the G. C. Malone Funeral home until 2 o'clock Sunday afternoon.

Funeral services will be at the First Baptist church at 3 o'clock Sunday afternoon with the Rev. C. E. Lancaster, pastor, in charge, assisted by the Rev. C. A. Long, pastor of the First Methodist church. Burial will follow at Fairview cemetery.

Mr. and Mrs. Barnes moved to Kingsmill from Amarillo 5 years ago. Three years ago they moved to Pampa and Mr. Barnes was elected tax collector the next year. He was re-elected without opposition in the last election.

Besides her husband, Mrs. Barnes is survived by two daughters, Mrs. S. H. Sturdevant of Longview and Mrs. T. D. Coss of Tulsa, and one son, Dr. W. T. Barnes of Tulsa. Other survivors are her father, J. W. Nolen, Naylor, Ark.; one sister, Mrs. J. S. Corry of San Pedro, Cal.; and three brothers, B. G. and E. P. Nolen of Naylor, Ark., and E. E. Nolen of Amarillo.

Active pallbearers will be Alton Reeder of Amarillo and J. E. Kirby, D. C. Houk, John Hessey, W. W. (See MRS. BARNES, Page 6)

REPORT THAT BANDITS WERE HERE PROBED

ODELL CHAMBLESS AND PAL MAY HAVE TAKEN CAR

OFFICERS ARE PUZZLED

YOUTH SEEN AT MOTOR COMPANY MAY HAVE BEEN BURROW

Rumors that Odell Chambless and Clyde Burrow, young desperadoes wanted in Central Texas in bank robbery and murder investigations, have been in Pampa and may have stolen a Ford V-8 de luxe sedan early last night puzzled local officers today.

Efforts to trace reports that the gunmen, heavily armed, had hidden here for a few days and had boasted they were going to leave town "within 24 hours in the fastest car to be found" led to a string of hearsays. Officers who have daily checked all parts of the city where such fugitives usually congregate were skeptical of reports.

Officials of the Miller-Lybrand company, however, were of the opinion that a young man who at dusk stood about the entrance of their firm may have been Burrow. The youth was questioned, but he was noncommittal to most queries, although he mentioned that he "might buy a used car Saturday." He did not leave when questioned but was not noticed for a short time after employees of the firm drove up in the demonstrator sedan, which they parked in front of the display room door.

When attention of the rather stilet man outside, he was gone and so was the sedan, newly new, and bearing dealer's license No. 4537. It was a brown car with cream colored wheels. It disappeared about 9 p. m. Officers were notified after officials of the Miller-Lybrand company, having been informed that no employee was using the car.

Chambless, brother of Arnold (Shorty) Chambless who is in jail here following conviction for his part in the robbery of the Danziger definery, is an ex-convict, having been sentenced to the penitentiary at Huntsville from Wichita Falls in 1930. He is known by quite a number of local residents.

Both Men Sought
Odell Chambless is 21 years of age, weighs 135 pounds, and is 5 feet 8 1/2 inches tall, although a light brown hair and eyes and a conspicuous red mole under the right nostril.

Clyde Burrow is about 23 years old, 5 feet 6 inches tall, and weighs 135 pounds. He has black eyes and dark wavy hair although a light brown. He has a slight limp. Tattoos mark on the left arm include a heart and dagger, and the right arm bears a shield, the letters "U. S. A." and a girl's head.

Possibility that the fugitives would come to Pampa was cited by Sheriff officers Saturday. Chambless, who also uses the name of Chandler, is charged in connection with the recent robbery of the Grapevine bank. Officers were searching for Chambless, at Dallas early Saturday when Deputy Sheriff Malcolm Davis of Fort Worth was killed in fusillades fired by two gunmen in West Dallas. The search for members of the gang said to have headquarters in West Dallas quickly became state-wide.

Mr. and Mrs. David M. Warren and small son of Panhandle were here on business yesterday.

AGRICULTURAL UNREST BREAKS OUT IN IOWA

Restless while waiting for relief legislation, Iowa farmers took it upon themselves and organized to halt tax sales and farm mortgage foreclosures. At La Mars they stormed the office of Judge C. W. Pitts (upper right) demanding a halt in foreclosures. Judge Pitts suggested a five to seven month's moratorium on farm mortgages. Gov. Clyde Herring (upper left) predicted the new Iowa assembly will pass relief measures. Below is a group of Iowa farmers.

ACT TO FREE PHILIPPINES DISAPPROVED

BEER BILL IS CHANGED TO INCLUDE WINES

FARM PLAN IS PASSED

LONG'S FILIBUSTER IS STILL UNDERWAY IN SENATE

WASHINGTON, Jan. 13 (AP)—The House today passed the Philippine independence bill over the veto of President Hoover. The Senate has yet to act, however. The vote was 274 to 94. A two-thirds majority was necessary.

Senate prospects are uncertain, but in at least some informed administration quarters there is a fear that the Senate will likewise vote against the president's position as recorded in a stinging veto message that had been read to the House but an hour or so before it voted.

Friends of the legislation challenged his contentions that the bill would do untold harm to the islands, with "grave dangers of foreign invasion and war" entering into the reckoning.

The senate, meanwhile, resumed its deadlock on the Glass banking bill with Senator Huey Long of Louisiana, with "grave dangers of foreign invasion and war" entering into the reckoning.

A modification of the house of representatives beer bill was agreed upon today by a committee of senators, to provide a 3.05 per cent brew instead of 3.2 per cent and also to allow wines. The house bill was drastically rewritten to make it airtight against constitutional objections.

Qualified support was promised for the farm bill passed last night by the house by Chairman McNary of the house agriculture committee. He called a meeting to start work on it next Monday.

To take advantage of Speaker Garner's promise of early action on the bankruptcy reform bill, the house judiciary committee put in overtime work on the measures today seeking to report them out fast.

A flat veto of the Philippine independence bill was placed by President Hoover before a house of representatives primed for an attempt to override it.

Asserting the "measure invited grave dangers of foreign invasion and war, the president contended in a lengthy message that its terms would lead to the economic downfall of the islands. The United States, he said, would be given the responsibility without authority for maintaining order "in a degenerating social and economic situation."

The vetoed measure provided for the creation of an intermediate government for the Philippine people, if approved by the Filipino people. A ten year period of economic and political weaning would follow, during which American authority

Little Theater To Sponsor An Unusual Dance

In the next few days when Pampaans see a queer-looking piece of mail in their mail boxes, they should give it a thorough inspection before hurrying it to the wastebasket.

The gadget may lead one to believe that the post office had decided to mail waste-baskets' contents of the mail boxes, but the article will be an invitation to Pampa's first "Depression Dance," said Mrs. Ruba McConnell, chairman of the committee to promote it. The dance was approved at a meeting of the Little Theater last night, and that organization will sponsor it.

The "Depression dance" will be held at the Pia-Mor auditorium Thursday night, January 26. A committee is already working to give the interior of the Pia-Mor the most unusual "dress" it ever wore.

A program in charge by Miss Louie Barton was attended by the Little Theater in the basement of the Brunson building. Miss Katherine Vincent gave several dance numbers. She was accompanied by Mrs. Frank Keehn. Mrs. J. W. German, accompanied by Mrs. Philip Wolfe, gave two vocal solos.

The Little Theater will meet from now on in the club room of the city hall where a stage suitable for the production of plays will be erected.

Negro Woman in L'Fors Is Beaten By Trio Sunday

Critically injured when beaten by three white men at LeFors Sunday, Lucille Fronett, negro woman about 45 years of age, was operated on in Worley hospital last night and was still seriously ill today.

Sheriff's officers and County Attorney Sherman White were investigating the case. Charges will depend upon the outcome of the man's injuries. Conflicting reports are being received concerning the affair, including information that the assailants were intoxicated.

The woman suffered internal injuries.

Lions Commence Work on Annual Minstrel Show

Pampa Lions enjoyed a plate lunch at the First Baptist church last evening before starting earnestly to work on the 1933 musical revue and minstrel which will be presented in a few weeks for the benefit of the underprivileged of this community.

The production committee distributed three-page copies of song-hits which will be used in the opening overture. These songs, many of them original, are rollicking in nature, with many changes of melodies and keys.

The experience last year in presenting a minstrel was obviously a great help this year, since the clubmen quickly learned the rather difficult tunes. Many committees are working on various details of the entertainment.

Mr. and Mrs. W. B. Hamilton and daughter returned yesterday from Blackwell, Texas, where they attended funeral services for Mr. Hamilton's mother.

ONE HURT IN TRAIN WRECK
Six Cars of Crack T. & P. Passenger Turn Over Into Ditch.

GLADEWATER, Jan. 13 (AP)—One woman passenger was injured and many others were badly shaken up when the "Texas" crack passenger train of the Texas & Pacific railroad westbound from Texarkana, was wrecked today two miles west of Gladewater.

Officials of the road expressed the opinion the train had struck a broken line at that point.

Six passenger cars turned over into a ten-foot ditch and two others were derailed. The engine remained on the tracks, however, and in a short time pulled a new train, made up of coaches taken to the scene from Mineola, toward Dallas, noon terminus of the schedule, with all but a few of the passengers.

Negroes Arrested In 2 'Choc' Raids

City officers arrested three negroes and confiscated about 12 gallons of "choc" beer in two raids yesterday afternoon. Both raids were on negro quarters in residential sections of the city. The arrested persons are still in jail. There were two negro women and a negro man.

Ten gallons of the brownish concoction was in a keg in one house. Two gallons in half-gallon jars and about three gallons in a tub were found in the second raid.

Oil Institute To Meet Here Tuesday

The Panhandle chapter of the American Petroleum Institute will hold its first meeting of the year in the city auditorium at 7:30 o'clock Tuesday evening.

Jack Moyar, recently elected president and superintendent of Stanolind, will make a talk at the opening of the session. Papers will be read by Floyd Hatfield and C. E. McDaniel, with Cliff at Berger, on acid treatment of oil wells. Following these talks, there will be a round-table discussion of the same subject.

The program will be in charge of Dan J. Gribbon.

Kiwanis Will Attend Amarillo Program Monday

About twenty members of the local Kiwanis club are making plans to attend the annual banquet and ladies' night program of the Amarillo club next Monday night at the Herring hotel in Amarillo.

An entertaining program was given today by pupils of the Woodrow Wilson school. Musical selections by the school band, acrobatic stunts and a reading were the features of the program. The children were in charge of Miss Annie Daniels and Mr. Savage.

A. B. Zahn was a visitor today.

Miss Ruby Adams, home demonstrator agent, went to McLean this morning.

Mrs. Mary Lilly and Earl Vernon have filed notice of intention to marry.

Perryton Man Does Not Identify Pair

S. D. Rebus of Perryton failed to identify two men being held in city jail as men who stole his car Tuesday night. Mr. Rebus and a deputy sheriff from Perryton were here yesterday afternoon for the car, which was recovered by city officers on South Russell street Wednesday morning.

Two men, who answered the description of the men who were seen to take the car, were arrested Wednesday night on disturbing the peace charges. They pleaded not guilty and are being held in lieu of \$25 bond.

Mr. Rebus said his car was not damaged.

Paul Certain of Miami was able to leave Worley hospital this afternoon.

PROMINENT PUBLISHER BECOMES COLORADO PRISON CONVICT AGAIN

CANON CITY, Colo., Jan. 13 (AP)—Glenn Smeeman today again took up the routine life of convict number 10347.

He was transferred from a Dapper Cleveland music publisher, known for nine years as Harry Stanley, into a prison inmate hardly distinguishable from any of the 1,100 other convicts in the Colorado state penitentiary.

Slightly less than 15 years ago he escaped from a prison Ford camp, made his way to Cleveland and became prosperous in business with George A. Bronson, his partner and close friend who has been revealed as his brother. Smeeman married a socially prominent Cleve-

Negroes Arrested In 2 'Choc' Raids

City officers arrested three negroes and confiscated about 12 gallons of "choc" beer in two raids yesterday afternoon. Both raids were on negro quarters in residential sections of the city. The arrested persons are still in jail. There were two negro women and a negro man.

Ten gallons of the brownish concoction was in a keg in one house. Two gallons in half-gallon jars and about three gallons in a tub were found in the second raid.

Oil Institute To Meet Here Tuesday

The Panhandle chapter of the American Petroleum Institute will hold its first meeting of the year in the city auditorium at 7:30 o'clock Tuesday evening.

Jack Moyar, recently elected president and superintendent of Stanolind, will make a talk at the opening of the session. Papers will be read by Floyd Hatfield and C. E. McDaniel, with Cliff at Berger, on acid treatment of oil wells. Following these talks, there will be a round-table discussion of the same subject.

The program will be in charge of Dan J. Gribbon.

AGRICULTURAL UNREST BREAKS OUT IN IOWA

Restless while waiting for relief legislation, Iowa farmers took it upon themselves and organized to halt tax sales and farm mortgage foreclosures. At La Mars they stormed the office of Judge C. W. Pitts (upper right) demanding a halt in foreclosures. Judge Pitts suggested a five to seven month's moratorium on farm mortgages. Gov. Clyde Herring (upper left) predicted the new Iowa assembly will pass relief measures. Below is a group of Iowa farmers.

ACT TO FREE PHILIPPINES DISAPPROVED

BEER BILL IS CHANGED TO INCLUDE WINES

FARM PLAN IS PASSED

LONG'S FILIBUSTER IS STILL UNDERWAY IN SENATE

WASHINGTON, Jan. 13 (AP)—The House today passed the Philippine independence bill over the veto of President Hoover. The Senate has yet to act, however. The vote was 274 to 94. A two-thirds majority was necessary.

Senate prospects are uncertain, but in at least some informed administration quarters there is a fear that the Senate will likewise vote against the president's position as recorded in a stinging veto message that had been read to the House but an hour or so before it voted.

Friends of the legislation challenged his contentions that the bill would do untold harm to the islands, with "grave dangers of foreign invasion and war" entering into the reckoning.

The senate, meanwhile, resumed its deadlock on the Glass banking bill with Senator Huey Long of Louisiana, with "grave dangers of foreign invasion and war" entering into the reckoning.

A modification of the house of representatives beer bill was agreed upon today by a committee of senators, to provide a 3.05 per cent brew instead of 3.2 per cent and also to allow wines. The house bill was drastically rewritten to make it airtight against constitutional objections.

Qualified support was promised for the farm bill passed last night by the house by Chairman McNary of the house agriculture committee. He called a meeting to start work on it next Monday.

To take advantage of Speaker Garner's promise of early action on the bankruptcy reform bill, the house judiciary committee put in overtime work on the measures today seeking to report them out fast.

A flat veto of the Philippine independence bill was placed by President Hoover before a house of representatives primed for an attempt to override it.

Asserting the "measure invited grave dangers of foreign invasion and war, the president contended in a lengthy message that its terms would lead to the economic downfall of the islands. The United States, he said, would be given the responsibility without authority for maintaining order "in a degenerating social and economic situation."

The vetoed measure provided for the creation of an intermediate government for the Philippine people, if approved by the Filipino people. A ten year period of economic and political weaning would follow, during which American authority

ONE HURT IN TRAIN WRECK
Six Cars of Crack T. & P. Passenger Turn Over Into Ditch.

GLADEWATER, Jan. 13 (AP)—One woman passenger was injured and many others were badly shaken up when the "Texas" crack passenger train of the Texas & Pacific railroad westbound from Texarkana, was wrecked today two miles west of Gladewater.

Officials of the road expressed the opinion the train had struck a broken line at that point.

Six passenger cars turned over into a ten-foot ditch and two others were derailed. The engine remained on the tracks, however, and in a short time pulled a new train, made up of coaches taken to the scene from Mineola, toward Dallas, noon terminus of the schedule, with all but a few of the passengers.

TOO FAST, PROFESSOR

Prof. Auguste Piccard, the mild Swiss professor who sailed way up into the stratosphere in a balloon last year, has invented a rocket plane in which he believes he will be able to cross the Atlantic in less than half an hour.

The scientist divulged this not long ago when he sailed for a lecture tour in the United States. His plane, he said, ought to travel some three miles a second; and while it is hard to see how human bodies could ever endure being whirled through space at such a clip Professor Piccard is quite confident that the plane will be thoroughly practical.

And so, once more, we come up to a question that has arisen only in the last few years: Just what are our inventors worth to us, nowadays, and how are we going to keep on living with the devices which they keep tossing into our midst?

Suppose, for instance, that some such plane as this could be made for use. What good would it do us?

The Atlantic, of course, would shrink to a millpond. New York and London would be closer together than New York and Albany are today. Singapore would be only a day's journey from Chicago. There would not be, on all the earth, a spot too remote for a bombing raid in time of war.

All of that, of course, would be very marvelous; but would it get us anywhere?

One of our greatest difficulties today is the fact that the world has shrunk too rapidly for our prejudices and our social habits to adjust themselves. We have hardly begun to learn that we are next-door neighbors to all the nations of the earth; we are still trying to operate a compact and highly integrated world by a system devised when each nation was isolated.

So far we have had pretty bad results. It will take, perhaps, another century or two for us to get into harmony with the speed of modern communications.

And this rocket plane would only intensify our troubles. We simply couldn't live up to it. We don't need it. Can't our inventors go fishing, or something, for a few decades, until we get settled?

Motor of Barrett Auto Damaged By Thieves in Flight

The motor in the Hupmobile sedan stolen from in front of the First Baptist church Wednesday night was found to be "burned up" when the owner, C. S. Barrett, drove to Arnett, Okla., for the car yesterday afternoon. It had been abandoned on the outskirts of Arnett some time Thursday morning.

The car had been overhauled the day it was stolen. Garagemen say the car had been driven at terrific speed to wreck the motor to such an extent. It is believed that three men used the car to get out of Pampa. They were heard talking while trying to make the car start where it was abandoned, Arnett officers discovered yesterday. Mr. Barrett forgot to take the keys out of the car when he went into the church to attend a meeting.

J. Wade Duncan of Mobeetie spent yesterday with relatives here.

W. K. Bigham of LeFors was a Pampa visitor last night.

A Black of Skellytown was in the city this morning.

ANSWERS to today's THREE GUESSES. Includes a small illustration of a person.

THE ruins shown are at STONEHENGE, ENGLAND. The statement was made by THOMAS A. EDISON. NINE Vice Presidents have become Presidents.

OUT OUR WAY... By WILLIAMS

TWO MILLIONS AND HALF IS REQUIRED IN FINANCES FOR GRAY COUNTY IN FOUR YEARS

Gray county's oil wealth, agricultural resources, and other taxable property and sale of bonds provided great sums in each of the last four years, the total expenditures by the county totaling \$2,527,388.94, it is shown in the annual report of Auditor R. C. Wilson.

Divided according to a percentage basis, the costs are as follows: Local road funds, 18.94 per cent; other operating expenses, 13.54 per cent; road bonds, 35.24 per cent; courthouse and jail, 13.47 per cent; interest and sinking fund, 18.77 per cent.

Local road funds required \$116,613 in the last year and \$479,736.61 for the last four years. Other operating costs were \$31,104.98 for 1932 and \$342,719.55 for the four-year period.

Expenditures for 1932 were divided as follows by funds: General fund, \$61,036.89; Jury fund, \$12,610.89; Road and bridge fund, \$23,738.89; Road and bridge fund No. 1, \$18,033.68; Road and bridge fund No. 2, \$40,633.28; Road and bridge fund No. 3, \$13,557.21; Road and bridge fund No. 4, \$20,656.94; Courthouse and jail, \$16,437.20; Bond fund No. 4, \$211.50; Courthouse and jail interest and sinking fund, \$29,329.19; General interest and sinking fund, \$4,029.59; Road and bridge interest and sinking fund, \$10,677.01; Gray county bonds, \$226,143.78; Gray county bond interest and sinking fund, \$170,721.27.

As a matter of bookkeeping, moneys borrowed or transferred from one fund to another and paid back in another year cause seeming discrepancies in some totals until records of both years are compared.

PAMPA TOPICS OF OUR CITY By O.E.H. (Continued from Page 1)

that all people are created equal; that they are endowed by their creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness.

More Oil Worries. Though Texans through special sessions have been "well oiled" with legislation designed to stabilize the industry, there are indications that several factions will be clamoring for additional statutes.

Contradictory? Many Ferguson partisans are sorely troubled by Ma's advocacy of the sales tax, which presumably would spread the tax burden upon all buyers and ease the load on property owners.

Need Sympathy. Never has a legislature faced greater problems. Seldom have there been more "friction" in any lawmaking body.

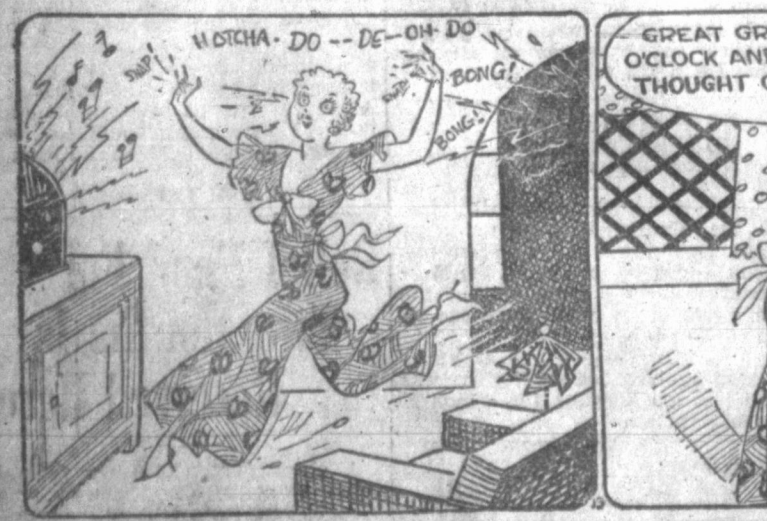

CHICAGO GRAIN. CHICAGO, Jan. 13. (AP)—Fresh downturn in wheat values took place early today. Traders' attention focused on problematic effects of agricultural allotment legislation.

NEW ORLEANS COTTON. NEW ORLEANS, Jan. 13. (AP)—Cotton had a steady opening today. Liverpool came in about as due and first trades here on near months showed gains of one to two points but July advanced five points in sympathy with a firm opening in New York cotton.

glint of character or courage, and swore at her bitterly for her clumsiness. She squealed, her delight. "Oh, I simply tingle for you! How urgent it feels to be sworn at in the first five minutes—generally that doesn't come till so much later on! Mr. Lodely, when my divorce is through, will you marry me? I shan't have a cent, of course, because Northering is going bankrupt directly afterwards, but you'll be making thousands and really I can dress on very little."

Chapter 25 CRUCIFYING CONSTANTIA. PATSY'S assertion that he traded on his crippled body entirely infuriated Mark. It was the first time in his life that his plea for special concessions had been brushed aside.

"Another thing that will prevent you from ever amounting to anything is the fact that you are uneducated. Such broad effects as you get, you get photographically—you don't develop them by means of a cultured or even an intelligent observation. In short, you can only mime, you can't create—"

"You'd better go and tell that to the 'Witcher,' they printed a whole column about my art being the only creative—"

It was the harassed dresser who, ten minutes later, managed to intervene. And even then no definite truce was called until the door was flung wide and a bunch of young men and women slithered into the dressing-room.

Mark's excitement increased. He was not impressed by the enlivened costliness of the women, nor by the over-confident leaving of the men, but he saw at last his avenues of approach to a world that must be made to take heed of him.

"Ah, madame la duchesse, I feel so—sorrow," Miss Raoul was apologizing. "But no, I asleep must go; much late hours en-nerate, no!" She pointed derisively to Mark.

The scented and jewelled flock turned inquiringly. Mark lifted his eyes to those of a dark-skinned, straight-backed woman whose hair was hidden under a sort of bathing cap that she deserve the utmost sympathy.

She made a great deal of noise over them and her companions. When she was persuaded to let them share her raptures, made a great deal more. A young woman whom Mark recognized as the Duchess of Northering flopped to the seat beside him.

"But you must be most decomposingly clever!" she announced. "These things are simply decomposingly good. You must draw me next—everybody always draws me and then they draw Constantia!" she looked with malice at a short woman in a backless dress of yellow.

Mark allowed himself to be taken. There were more of the crowd, apparently, outside in the passage. "Hullo, Mark!"

"Hullo, Lella! As one country cousin to another, where are these grand ladies and gentlemen taking us to? And who is going to pay for our drinks?"

"It's my party," vociferated the short woman in yellow whom the others called Constantia and treated with a sort of contemptuous tolerance. "I wish Miss Raoul could have come but I've got Fan Rin and her dancing partner and that sweet boy out of 'Here's Hoping' and Mr. Lodely is a find. Bring your friend along, Mr. Lodely, she looks a sweet girl."

The lovely young duchess hooked an arm round Mark. His crutch slipped perilously. He looked into her fair face that had not in it one...

MANY SUBJECTS OFFERED FOR SUNDAY CHURCH-GOERS

Mrs. Gilchrist Chosen to Head Child Study Club During Next Year

INVITATIONS ARE EXTENDED BY MINISTERS

ATTENDANCE FIGURES OF LAST SUNDAY INCREASED

Announcements of many subjects of religious interest have been made for Sunday, and church officials expect the discussions to be heard by large numbers of persons. The attendance figures last Sunday were considerably larger than the Sunday before.

Ministers have been given the following invitations:

FIRST METHODIST
Sunday school, 9:45 a. m.; Philip Wolfe, superintendent. Preaching at 11 a. m. and 7 p. m. by the pastor. Subject at 11 "The Church a Lighthouse." Epworth League at 6 p. m. Missionary society will meet Monday afternoon.
—C. A. LONG, Pastor.

ST. MATTHEW'S EPISCOPAL
Corner N. Ward & W. Browning. Second Sunday after Epiphany. Church school at 9:45, direction of R. E. Frazer, superintendent. Morning prayer and sermon at 11. Sermon topic: "What Should a Man Know About the Gospels?"
A cordial invitation is extended to all for the services.
—NEWTON C. SMITH, Rector.

CHRISTIAN SCIENCE CHURCHES
"Life" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, January 15.

Among the passages to be read from the Bible will be the following from Psalms 36: "Thy mercy, O Lord, is in the heavens; and thy faithfulness reacheth unto the clouds. For with thee is the fountain of life: in thy light shall we see light."
The Lesson-Sermon will also include citations from the Christian Science textbook by Mary Baker Eddy, "Science and Health with Key to the Scriptures," one of which will be as follows (p. 468): "Life is divine Principle, Mind, Soul, Spirit. Life is without beginning and without end. Eternity,

Seventy Attend Parent-Teacher Gathering Here

A crowd of about 70 persons gathered at Junior high school yesterday afternoon for a meeting of the Parent-Teacher association.

At the close of a song by the assembly and the Lord's prayer, County Supt. John B. Hessey addressed the group on character education, and a quartet composed of R. B. Fisher, E. D. Zimmerman, Emmitt Smith, and L. C. Walters entertained.

The organization went on record as opposing the lowering of school standards in Texas and instructed the corresponding secretary to write the representative and senator from this district accordingly.

Mrs. J. P. Curtis, chairman of room mothers, reported 34 visits and the distribution of many garments to the needy.

Fathers night and the observance of Founders day was planned for Feb. 9.

not time, expresses the thought of Life, and time is not part of eternity. One ceases in proration as the other recognized. Time is finite; eternity is forever infinite. Life is neither in nor of matter. What is termed matter is unknown to Spirit, which includes in itself all substance and is life eternal. Matter is a human concept. Life is divine mind. Life is not limited. Death and finiteness are unknown to life. If life ever had a beginning, it would also have an ending."

Sunday School, 9:30 a. m. Wednesday, 8 p. m.

FIRST CHRISTIAN CHURCH
500 East Kingsmill Avenue.
Bible School begins at 9:45. Every member present, on time, all the time, is the best rule. Bring others; that is one fine form of Christian work that all can do, and God will bless.

Communion and sermon at 11. Young people, when you remain for the church service you encourage your teachers, and all the workers. Make this a habit for life.

Christian Endeavor, junior, intermediate, and senior, at 6:30. These meetings are most valuable, preparing you to meet life's perplexing problems. All young people welcome.

The service at 7:30 with good old time Bible preaching, and good gospel songs (the kind you love to sing), will bless all who come—young or old; invite friends and neighbors.

Midweek meeting Wednesday 7:30. Bible reading Romans fifth and sixth chapters; questions invited. Everybody sings and enjoys it; a real prayer meeting, not vain show but real worship. Crowds are coming; you come.
—F. W. O'MALLEY, Minister.

CHURCH OF CHRIST
Francis and Warren.

Remember the admonition given by the Apostle Paul: "Not forsaking the assembling of ourselves together as the manner of some is; but exhorting one another and so much the more as we see the day approaching."
(See INVITATION, Page 6)

Gladys McMurry Is Honored at Party

Little Gladys McMurry was guest of honor at a surprise party Thursday afternoon at 4:30 o'clock at her home four miles east of the city, the occasion being her fifth birthday. Each guest presented her a gift upon arrival.

At the close of an hour of fun, a beautiful pink and white birthday cake topped with five pink candles was cut and served with ice cream to the following: Jo Ellen Simmons, Betty Clark, Anne Graham, Lois King, Louene Cox, Lois Cottrell, Loyd Cottrell, Otis Beaty, Jr., Larry Simmons, Clarence Simmons, and the honoree. Mrs. Bob Cottrell, Mrs. Forest King, and Miss Gladys McMurry acted as hostesses.

Mrs. Booth Has Party for Club Group Thursday

As a courtesy to the Queen of Clubs, Mrs. O. H. Booth entertained at a contract bridge yesterday afternoon in her home. She emphasized the card theme in both the game appointments and refreshments.

Mrs. Mack Graham scored high among the guests and Mrs. E. M. Conley among club members. Mrs. John Glover made the fortunate cut.

Attractively planned refreshments, including minicame pie, meat rolls, card sandwiches, cheese balls, and coffee were served at the close of the games.

The following attended: Messdames John T. Glover, E. M. Conley, A. B. Goldston, Charles C. Cook, H. C. Wilson, A. M. Martini, H. D. Keys, L. N. McCullough, I. B. Hughes, Mack Graham, E. Hooks, Arthur S. Swanson, C. L. Craig, and the hostess.

CUT LIBRARY TIME
BOSTON (INS)—As one means of saving money for the city, the mayor has proposed closing ranch libraries every other week.

NEAR RECORD COLD
NEW YORK (INS)—A temperature of 13 degrees above zero was recorded here on December 18. Many thought it was a record, but on December 16, 1876, the temperature was five degrees above.

CANADIAN RADIUM
OTTAWA, Canada (INS)—Several grams of radium have been extracted from the deposits at Great Bear Lake, Northwest Territories, and will be available early in 1933.

Patrons of High School Urged to Attend Lecture

Giving preference to the lecture to be made by President J. A. Hill of West Texas State Teachers college, Canyon, the high school Parent-Teacher association will not hold a regular meeting next week.

All patrons of the high school are urged by Mrs. Harry Marbaugh, Parent-Teacher president, and by Supt. L. L. Stone to hear the lecture by Dr. Hill Tuesday evening. The subject, educational issues of the day, has been given much study by the speaker. The lecture is sponsored by the city council of Parent-Teacher associations.

There will be a special table at which high school patrons will be asked to register. They will be given the same attendance credit as if they had attended a Parent-Teacher meeting this month.

Loyal Women's Class Attends Program Here

Twenty-one members and one visitor of the Loyal Women's class gathered at the First Christian church Wednesday afternoon when Mrs. W. E. Riggins, Mrs. George Dezer, and Mrs. Don Hurst were hostesses.

Mrs. C. S. Bastion, president, was in charge of the meeting. The group joined in singing "I Love to Tell the Story." Mrs. C. L. Shearer and Mrs. H. H. Isbell led a devotional. A second prayer was offered by Mrs. F. W. O'Rourke, and Bible questions were asked by Mrs. Roy McMillen. Then a playlet, "Bethel," was presented by Messdames William Kinzer, Fred Curry, Ray Anderson, and J. W. Martin, after which a vocal solo, "Just as We Used to Be," was given by Mrs. C. S. Bastion, accompanied by Mrs. E. B. Smith.

As a special courtesy to Mrs. Shearer, who is to move to Borger Saturday, and Mrs. Smith and Mrs. Corinne Bell, who will move to Wheeler soon a handkerchief show was given.

Refreshments of pie with whipped cream and coffee were served at the close of the afternoon.

Mr. and Mrs. Tommie Robinson, 642 N. Banks, are the parents of a 6½ pound baby girl, Shirley Tom, born at 7:30 o'clock Wednesday morning.

Miss Pearl Wilson, 'Most Popular Girl' of High School in 1930, Is Bride of R. H. Jones; Wed in Sayre

Announcement has been made of the marriage of Miss Pearl Wilson and Ralph H. Jones, the ceremony having been held Sunday morning at 9:30 o'clock in the First Methodist church of Sayre, Okla. Attending the couple were Mrs. Wesley Lewis, sister of the bride, and Mr. Lewis, father of the groom.

Mr. Jones, son of Mr. and Mrs. R. R. Jones, is employed at F. W. Woolworth company. He was graduated at the Skiatook, Okla., high school in 1926. Miss Wilson, the most popular girl in Pampa high school in 1930, the year of her graduation, is the daughter of the late Mr. and Mrs. Jud Wilson. She was employed at Kraft's Mint at the time of her marriage.

The couple will reside temporarily at the home of the bride's sister, Mrs. Gilbert Barringer, 310 N. Ballard.

Quilting Done By Rebekah Members

Quilting was done in the home of Mrs. Emory Noblitt Tuesday afternoon by members of the Rebekah club. Those present were Messdames W. J. Brown, O. G. Smith, R. S. Walker, Nat Lunsford, Dewey Voyles, Oran Young, Veneel Castka, Homer Johnson, Emory Noblitt, C. F. Clausen, and two guests, Mrs. L. G. Blanton and Mrs. R. E. Litter of Hansford.

Silver Spade Club Is Entertained at Jno. Haggard Home

Meeting in the home of Mrs. John Haggard Wednesday afternoon, members of the Silver Spade Bridge club enjoyed a series of games. Mrs. L. L. Dyer scored high and Mrs. George Alden, low.

At the close of the afternoon refreshments of fruit salad with whipped cream, cookies, potato chips, olives, and coffee were served by the hostess, assisted by her daughter, Mildred.

Attending the party were Messdames W. Wilkes, Fred C. Fischer, R. A. Hankhouse, Dewey Voyles, W. M. Murphy, George Alden, Roy Sullivan, L. L. Dyer, Porter Beck, Robert Montgomery, and the hostess.

Phone 666 for classified ads.

ELECTIONS HELD BY CLUB ON THURSDAY

PLANS MADE TO HAVE BRIDGE TEA ON THURSDAY

Election of officers for the coming year featured the business session of a meeting held by the Child Study club yesterday afternoon in the home of Mrs. Floyd McConnell.

The following choices were made: President, Mrs. Robert Gilchrist; first vice-president, Mrs. Rufe B. Thompson; secretary, Mrs. Sherman White; library chairman, Mrs. T. C. Shaw; parliamentarian, Mrs. A. H. Doucette.

It was voted to sign resolutions to retain the present standards of the state teachers colleges.

Plans were made for a bridge tea to be held next Thursday afternoon at 3 o'clock in the club rooms.

Mrs. Louie P. Clarke, program leader, opened the discussions with an interesting talk on short story writers of America and the types of the stories. She pointed to Washington Irving as the pioneer short story writer, to Bert Hart as the first American short story writer, to British critics would recognize, to Fannie Hurst as the queen of short story writers today, to Cobb as the foremost short story writer among men.

Mrs. Gilchrist discussed the development of the short story. She pointed out that the short story started in the year 400 as a means of expressing traditions and historical facts. Many years in the literary world the short story was considered an inferior form of literary art, she said. The 18 distinct types of short stories were discussed.

Mrs. John B. Hessey told of the effects of short stories upon children. She expressed opposition to the tendency to discontinue fairy stories, declaring that little children, naturally imaginative, needed the imaginative characters as well as the real. She stated that the short story was a valuable instrument in molding characters.

Mrs. Clarke gave in a charming manner a summary of her favorite short story, Edna Ferber's "The Gay Old Dog."

Delicious refreshments were served to Messdames Louie P. Clarke, Robert Gilchrist, A. H. Doucette, H. W. Jones, Ralph Linon, Frank McAfee, Floyd McConnell, Roger McConnell, A. W. Mann, T. C. Shaw, S. D. Stennis, H. R. Thompson, Roy Tinsley, Sherman White, and John B. Hessey, Ralph Thomas.

'42' Played In Montgomery Home

Mr. and Mrs. Monte Montgomery entertained a group of their friends at four tables of forty-two on Thursday evening.

At the close of the enjoyable evening, refreshments were served to Mr. and Mrs. Fred O. Fenn, Mr. and Mrs. E. A. Hampton, Mr. and Mrs. Loyd Bennett, Mr. and Mrs. Jim Wheeler, Mr. and Mrs. Duke Balthrope, Mr. and Mrs. L. E. Nash, Mr. and Mrs. J. A. King, and the host and hostess.

Father of Otis Hyler Succumbs

Word was received Thursday of the death of Mrs. Ellen Hyler in Hob Springs, N. M. The death occurred Sunday.

Mrs. Hyler is survived by a son, Otis Hyler of Pampa, and three daughters, Mrs. Tom Sartin of Hot Springs, Mrs. Black of Hammond, Ind., and Mrs. Doser of Marshall, Illinois.

Mrs. Nellie Ford is ill of "flu."
Mrs. L. A. Featherstone is ill.

Much Interest Is Shown in Athletic Organization Here

"Join the health parade."
The suggestion is made by local enthusiasts of the Women's Recreational and Athletic club, which is being formed by Mrs. O. E. Palmer and Mrs. Claude Lard. The club will be housed at the Rainbow Garden on West Foster street, and those interested in basketball, volleyball, tennis, or gym classes are asked to get in touch with Mrs. Palmer, Mrs. Lard of the women's department of The NEWS. Membership fee will be \$2 per month until the membership is enlarged. The organizers and those cooperating with them believe the organization will fill a long felt need of recreation for the women of Pampa and surrounding territory.

Mrs. La Verne Smart is ill of pneumonia.

PORKERS TO ENTER FRAY

Razorbacks To Make Debut Against Longhorns This Evening.

By BILL PARKER

Associated Press Sports Writer

A two-game series and two single battles will feature this week's second competition in the Southwest conference basketball championship series...

The University of Texas, Southern Methodist and Texas A. and M. are facing the championship race with undeviating determination...

When Referee Ziggy Sears sounds his starting whistle tonight in Gregory gymnasium, the Razorbacks will start a defense to halt the goal shooting of Big Bill Kubricht...

Coach John Reid's Aggies, fresh from an impressive 35 to 18 decision last Saturday over Rice, are on a northern trip that will see them playing Southern Methodist and Texas Christians...

Although both were defeated last week, Baylor and Rice are not yet out of the race...

"NOT CONSTIPATED FOR SEVEN WEEKS"

Writes Mrs. Johnson After Using Kellogg's ALL-BRAN

Sufferers from constipation will be interested in this unsolicited letter:

"Your ALL-BRAN surely relieves constipation. I am so glad over the good it has done me that I feel I must write and tell you of it."

"For lunch I take a banana, a large one. Six tablespoons of ALL-BRAN in a sauce dish, and dip banana at each bite until all is consumed..."

Constipation often causes headaches, loss of appetite and energy, sleeplessness. This condition is usually due to lack of "bulk" to exercise the intestines...

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the wastes.

Try ALL-BRAN in place of patent medicines—often harmful. Two tablespoons daily will overcome most types of constipation...

Use as a cereal, or in cooking. Recipes on the red-and-green packages. Sold by all grocers. Made by Kellogg in Battle-Creek.

PAMPA GAGERS ROUT ALLISON IN 43-7 TILT

HARVESTERETTES LOSE 32-21 DECISION TO VISITORS

Disturbed by flattering reports of Allison's prowess on the hardwood, the Pampa Harvesters unleashed a vicious attack on the visitors at the local gymnasium last night and emerged from the fray with a 43 to 7 victory.

The Harvesters did not fare so well, but they did better than expected. The Allison girls piled up a big lead early in the game and held it. The final score was Pampa 21, Allison 32.

Marbaugh was the Harvester "big shot" last night. His shooting eye was good—better than it has been in any game this year.

As a result of new plays that clicked sufficiently, Wayne Kelley dribbled the ball beneath the basket when the defense was sucked out by the forwards and shot five field goals.

Although both were defeated last week, Baylor and Rice are not yet out of the race. The Owls are determined to atone for their weak showing against Texas A. and M.

Mr. and Mrs. Sam Penberg visited in Amarillo Wednesday.

Man Released on Bond After Raid

C. E. House of Denworth was released on \$500 bond late yesterday after appearing in Justice W. S. Baxter's court.

A felony complaint of possessing whisky for purpose of sale was filed after Sheriff C. E. Pipes and deputies made a trip to Denworth yesterday morning and returned with nearly a gallon of whisky.

Weldon Wilson, city officer, underwent a minor operation yesterday.

COACH CHARGES JAPS USED 'DOPE' TO TAKE OLYMPICS

Michigan Swim Mentor Says Nipponese Took Oxygen Before Races.

ANN ARBOR, Mich., Jan. 13. (AP)—Mait Mann, coach of the University of Michigan's national collegiate championship swimming team, today announced a "war against doping" of amateur swimmers, such as he said, "was done by the Japanese in the 1928 Olympic games."

Mann said it is established that "oxygen or some stimulant" was administered to Japanese swimmers within ten minutes of the time they entered the water for finals of the races at Los Angeles last summer.

University of Michigan medical men said administering oxygen just before a race would not produce greater speed, except possibly by the effect on the minds of the athletes.

Dr. Frank Lyman, physician of the athletic department, said any were considerably better than in trials for places on Japan's team.

Robert Kiphuth of Yale, coach of the United States Olympic swimming team, and Coach Mann are acting as a sub-committee of the National Collegiate Athletic Association Swimming committee to report on alleged "doping" at the committee's next meeting March 24 and 25 at New Haven, Conn.

Mann said western conference swimming coaches already have ruled against administering oxygen to swimmers, "to forestall the danger of the practice spreading in this country."

A similar rule will be sought in the N. C. A. A., he said. "I'll do this thing!"

There was a clash in the looks exchanged between them. They became lovers, and later she bore his son, which Sam believed to be his own child.

At once Sam forged ahead to prosperity, proud of his fatherhood, and Darrell, who has come to love Nina, rushed away, afraid to be near her.

Nina stood in the doorway fascinated with horror. Mrs. Evans' face was grim. She turned and looked at Nina. The girl simply nodded.

Mrs. Evans reached out and closed the door. As Nina, with a little shudder, turned from the door and walked blindly across to the windows...

Just in time for Gordon's party, Nina said. "He'll be glad to see you."

"Yes, I can picture his joy," Darrell remarked bitterly. Nina crossed over to him.

"If Gordon doesn't love you, it's because you've never made the slightest attempt to be lovable to him."

Then impatiently, she added: "I hate you when you talk that way."

Darrell shrugged his shoulders. "It seems to run in the family," he said, "but I don't blame Gordon for hating me."

"My life work is to rust," he said meaningfully. "Nicely and unobtrusively! My work was finished twelve years ago. As I believe you know, I ended it with an experiment which resulted so successfully that any further meddling with human lives would have been superfluous!"

"How can you be so bitter, Ned—on Gordon's birthday?"—Gordon appeared in the doorway from the dining room, though neither of them saw him. He glared resentfully at Darrell.

"Ignoring Ned, Gordon spoke to Nina. "Aren't you coming back in—Mother?"

Nina turned to him. "Don't you see your Uncle Ned?" she asked.

Gordon nodded coldly. Darrell's attitude was strained. He looked at Gordon bitterly and said to Nina: "Ever day he gets more like Sam, doesn't he?"

"I don't think Gordon resembles Sam at all," Nina said resentfully. "He reminds me a great deal of his namesake."

Darrell was touched on a sore spot. With a nasty laugh, he said: "Gordon Shaw? Not the slightest bit in the world! And you ought to thank Heaven he doesn't. It's the last thing I'd want wished on a boy of mine—to be like that rat-rat hero!"

"I'd much rather have him—" he pointed to Gordon, "grow up to be an exact duplicate of the esteemed Samuel! The good Samuel is an A-one success. He has a charming wife and a darling boy, and a Park Avenue apartment and a membership in an expensive golf club. And, above all, he rests so complacently on the proud assurance that he is self-made!"

How will the "experiment" ended by Nina and Ned turn out. Read tomorrow's final and exciting installment.

Bowling Scores

The Voss cleaners jumped into second place in the City Bowling league race last night with three wins from the Kiwanis No. 2 team. The Jaycees clung to their two game lead with one win out of three from Phillips, Bewley, rolling for the cleaners, topped 636 pins.

Table with 2 columns: Team Name and Score. Includes Voss Cleaners, Jaycees, Phillips, Lytle, Norman, Dean, Dilley, and totals.

Standing including games rolled last night: Jaycees 19 14, Voss 18 15, Kiwanis No. 2 17 16, Phillips 17 16, Texas 15 15, Kiwanis No. 1 10 20.

H. J. Bass of Wichita Falls is renewing acquaintances here today.

Tommy Paul To Fight Freddie Miller Tonight

CHICAGO, Jan. 13. (AP)—Tommy Paul of Buffalo, N. Y., will pitch his world featherweight championship into the Chicago stadium battle pit tonight against a southpaw, Freddie Miller of Cincinnati—and the old "Friday the thirteenth" superstition.

Notwithstanding the notion that Friday the thirteenth is supposed to be unlucky and that left-handers only complicate situations, Paul probably will be a slight choice to retain his title, possession of which is limited to states holding membership in the National Boxing association in the 10-round bout.

In his last engagement, Paul boosted his own championship stock by punching out a clean cut decision over Fidel in Barba, who a short time before, had been edged out by Kid Chocolate, holder of the world championship as far as New York is concerned.

physical breath "would last only for a breath or two if at all."

Coach Mann said giving oxygen "or any dope" should be prevented, "because it is unethical, regardless of harmful effects."

Pampa Boys and Girls Play at Miami Tonight

High school basketball teams will not appear on the local floor for league games until January 28 when they will play return games with teams from Miami.

Both the Harvesters and Harvesterettes will go to Miami tonight for scheduled games.

The strength of the Miami teams are unknown locally. Neither of the Pampa teams have played teams that Miami has encountered this season.

However, both teams have been winning consistently and coaches are looking for hard games tonight.

The Harvesters will go to Canadian tomorrow night for their return engagement with the Wildcats. Coach Mitchell doesn't expect to play their return game with Canadian January 27 while the Harvesters are in Amarillo.

The date is tentative.

For Classifieds, phone 666.

WAGO GOLFER STILL LEADING IN OPEN MEET

NEW YORK YOUTH IS RIGHT BEHIND IN SECOND

AGUA CALIENTE, Mexico, Jan. 13. (AP)—The youngsters who take their chances for birdie in disdain of par, continued to lead the field in the Agua Caliente 72-hole, \$7,500 open golf tournament today.

It was Ray Mangrum, 22-year-old sharpshooter of Waco, Tex., who refused to crack under the strain of the contest and the stubborn course, to stand alone in first place.

He had a par 72 yesterday on top of a dazzling 69 Wednesday for a total of 141.

Paul Ryonson, White Plains, N. Y., 21 years old and a bit more experienced in tournament play than Mangrum, moved along in second position as the field of 108 remaining players put the half-way mark behind.

He had to break the course record with a 32 on the out nine, however, to move up in the standings, for he finished with 37 for a 69 and 143 strokes total.

Archie Hambrick, young Zaines is tentative. (See WAGO, page 6)

International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: Jesus at Work.

Scripture Lesson: Mark 1:21-35.

21. And they go into Capernaum and straightway on the Sabbath day he entered into the synagogue and taught.

22. And they were astonished at his teaching: for he taught them as having authority, and not as the scribes.

23. And straightway there was in their synagogue a man with an unclean spirit; and he cried out,

24. Saying, What have we to do with thee, Jesus thou Nazarene? art thou come to destroy us? I know thee who thou art, the Holy One of God.

25. And Jesus rebuked him, saying, Hold thy peace, and come out of him.

26. And the unclean spirit, tearing him and crying with a loud voice, came out of him.

27. And they were all amazed, inasmuch that they questioned among themselves, saying, What is this? a new teaching? with authority he commandeth even the unclean spirits, and they obey him.

28. And the report of him went out straightway everywhere into all the region of Galilee round about.

29. And straightway, when they were come out of the synagogue, they came into the house of Simon and Andrew, with James and John.

30. Now Simon's wife's mother lay sick of a fever; and straightway they tell him of her.

31. And he came and took her by the hand, and raised her up; and she ministered unto them.

32. And at even, when the sun did set, they brought unto him all that were sick and them that were possessed with demons.

33. And all the city was gathered at the door.

34. And he healed many that were sick with divers diseases, and cast out many demons; and he suffered not the demons to speak, because they knew him.

35. And in the morning, a great while before day, he rose up and went out, and departed into a desert place, and there prayed.

Golden Text: My Father worketh even until now, and I work.—John 5:17.

Introduction

Our Lord's life is associated with four towns more than others: Bethlehem, where he was born, Nazareth where he spent his youth, Jerusalem where he died, and this town of Capernaum which was the headquarters of his ministry, where he worked so many miracles and gave so many blessed teachings. The name means "the village of Nahum or of consolation." It was situated on the northwestern shore of the Sea of Galilee. Jesus probably lived with Peter and Andrew, who were natives of Bethsaida on the northern shore of the lake, but had removed to Capernaum. Because of the unbelief of the people of Capernaum in spite of his many miracles worked there, the Redeemer prophesied its destruction, which was accomplished so thoroughly that no one now knows just where it was situated.

Jesus on Sabbath Day

"On the Sabbath day," v. 21. The Jewish Sabbath was (and still is) our Saturday, and Jesus as a loyal Jew, was ever careful to observe it by attendance on the synagogue services, though he refused to be bound by the many absurd regula-

tions which the Pharisaic rabbis had added to the simple rules given through Moses. "He entered into the synagogue and taught." The synagogue was the local center of worship and at the same time the local school where children were taught to read, memorizing much of the Old Testament. Every town could form a synagogue. Our Lord, as a distinguished religious leader, was called upon to teach in the synagogue services wherever he was, quite as a matter of course. Paul, in all his travels began his missionary teaching in the local synagogues.

Jesus a Great Teacher

"And they were astonished at his teaching," v. 22. It was so novel, so vigorous, so appealing. "For he taught them as having authority, and not as the scribes." The scribes were the professional teachers and interpreters of the law among the Jews—and it must be remembered that the sacred law was the civil also. They were the Jewish lawyers.

Prophecy had ceased for more than four centuries, so that the scribes relied entirely on "tradition," the quoting of precedents, the opinions of the great rabbis, the innumerable petty additions to the Mosaic law that had grown up. In contrast to this, there was in the teaching of Christ, "no appeal to human authority, other than that of the conscience; no subtle logical distinctions, legal niceties, nor clever sayings. Clear, limpid, and crystalline flowed his words from out the spring of divine life that was in heaven."—Rev. Alfred Edersheim, D. D.

Demon-Possessed Man

"And straightway there was in their synagogue a man with an unclean spirit." The New Testament refers to demon-possession as a supernatural seizure. Our Lord, but also as part of his warfare against the power of Satan and his demons. "And he cried out." Not the man, so much as the demon animating him. "What have we to do with thee, Jesus thou Nazarene?" Thus cried the demoniacs also (Matt. 8:29), except that they entitled Jesus, "Thou Son of God." Nazareth was so obscure a village and in so low repute that to be called "a Nazarene" was a term of opprobrium. "I know thee," thou art, the Holy one of God, and Jesus rebuked him. The demon had testified to Christ's deity, but our Saviour would not accept the testimony of demons. The pure is by the impure, the just by the evil. Following this example, Paul at Philippi would have nothing of the testimony to the character and purpose of the missionaries given by the demoniac slave girl (Acts 16:16-18).

Peter's Mother-in-Law

It is strange that Simon Peter, whom the Romanists look upon as their founding saint, should have been married, while they require their clergy to be celibates. It may have been a malarial fever, as that disease is common in the marshy plain surrounding Capernaum.

Luke, the careful physician, tells us that this was a "great" fever (Luke 4:38). The miracle of healing which Christ had just worked gave Peter confidence that Jesus could cure his mother-in-law.

Luke tells us that Jesus rebuked the fever, as if it were an evil spirit.

Matthew tells us that he touched her hand, and that the fever left her at that healing touch. "And the fever left her, and she ministered unto them." Fever always leaves its victims very weak for a long period, but there is no long convalescence when the real Physician is at work. Simon's mother-in-law was evidently the head worker in that household, and with loving and grateful zeal she at once proceeded to her customary task of preparing the Sabbath evening meal, providing for her son's guests what was necessary for their entertainment.

Miracles of Jesus

"And at even, when the sun did set." "With the setting of the sun it was once more lawful to move beyond the two thousand paces of a Sabbath day's journey, and to carry whatever burdens one pleased"—Cunningham Gekke. "They brought into him all that were sick, and them that were possessed with demons." We can easily imagine the pathetic scene, all the blind, the deaf, the dumb, the crippled, the insane, those afflicted with the most horrible sores and the most racking agonies, some stumbling along as best they could by themselves, some led by friends, some carried on extemporized litters or carried in the arms of strong men—all the misery of the city and its surrounding region laid at the feet of the Healer. "And he healed many that were sick with divers diseases, and cast out many demons." Matt. 8:17 says that he healed all; Luke is even more emphatic, "every one of them" (Luke 4:40). It was a glorious day for Capernaum.

Jesus, a Man or Prayer

"And in the morning, a great while before day, he rose up and departed into a desert place." Not a verdurous place, but an uninhabited spot. "And there prayed," v. 35. We might well have imagined that the weary Saviour would have needed a long repose. But to him the dearest and best repose was solitude and silence, where he might be alone and undisturbed

with his heavenly Father.—F. W. Farrar.

Healing of the Leper

In the course of this tour occurred the healing of the leper, with which Mark closes his first crowded chapter. This miracle was notable because of the horrible nature of the disease, filling the body with purifying sores so that at last, even fingers and toes dropped off, and the face became unrecognizable. Only today, two thousand years after Christ, has science discovered anything approaching a cure of leprosy. And yet Christ healed the leper instantly and with a touch.

The faith of the leper rendered the miracle notable, for he came to Jesus begging for help, kneeling to him in deepest humility, and saying, "If thou wilt, thou canst make me clean." Thus this poor wretch gave to all the world a lesson in the way to go to Christ and obtain healing of the worst of all leprosy, sin.

INVITATION--

We will welcome you to any of the services of the First Presbyterian church on the Lord's day. Sunday school, 10 a. m. sermon, "Whereto Work Figures in Christianity," at 11 a. m.; sermon, "The Explorer of Truth," 7:30.

—A. A. HYDE, Minister.

ACT—

(Continued from Page 5)

would be curtailed. Complete independence would be established in the eleventh year.

Pointing to a "chaotic" situation in the Orient, and to the "immense

neighbor populations" near the islands, the chief executive suggested that there be no immediate curtailment of American power and that the plebiscite on freedom "be taken 15 or 20 years hence."

"This legislation," the president said, "puts both our people and the Philippine people not on the road to liberty and safety which we desire, but on the path leading to new and enlarged dangers to liberty and freedom itself."

The new alcoholic content in the beer bill represents 3.8 per cent by volume as compared with the house figure and 4 per cent by volume.

The committee attempted to remove constitutional objections by avoiding a definition of what constitutes an intoxicating beverage, but limiting the penalties of the Volstead act to those beverages above 3.07 per cent alcoholic content.

Senator Walsh, Montana Democrat, explained the subcommittee adopted this percentage because it had been arrived at after a scientific study by a commission appointed by the British Parliament as non-intoxicating.

ville, O., pro who left the accountant's desk for the golf course, also refused to fold up as the race gained momentum. He shot a 74, a bit less certain than his 70 of the first round, for third place at 144.

The nearest veterans to this trio of youngsters were Leo Diegel, home pro and former national P. G. A. champion; Craig Wood, Deal, N. J., leading money winner of the

Tops them all FOR WINTER DRIVING

"HIGHEST TEST" at the price of ordinary gasoline

When it comes to honest high test—with all its advantages of fast starting, quick pick-up, and smooth running in cold weather—no motor fuel can catch up with Phillips 66 . . . the greater gasoline!

Phillips 66 gravity figures (65.6° to 72.4° this week) top them all!

Yet Phillips 66 costs not a penny extra!

Why?

Because the Phillips Petroleum Company is the world's largest producer of natural high gravity gasoline.

It can afford to announce its gravity figures openly and publicly, week after week, day after day.

It can afford to sell "highest test" gasoline at the price of ordinary, slow-starting, low gravity gas.

It can afford to give you a gasoline of CONTROLLED VOLATILITY, scientifically matched to the weather at the time you buy it—a gasoline that starts your motor instantly on the coldest day, warms it up in record time, and sends your car streaking down the road like a shot!

Does all this sound too good to be true? All right. Translate it into action! Phill-up with Phillips 66 and see for yourself.

Remember, you DO NOT have to pay the usual 3¢ extra to try this "highest test" gasoline. You pay what you pay for ordinary gas. Not a penny more. And before you have driven a mile—almost before your foot is off the starter—you will feel the difference!

Get rid of the nuisance of slow starting in cold weather. Stop the wear and tear on your battery, your temper, and your pocketbook. Drive up to the nearest Orange-and-Black 66 shield and join the 7,500,000 motorists who use this greater gasoline that costs not a penny of greater price!

New '—cracy' Would Put Jobless Men on Mortgaged Producing Farms

MISSION, Jan. 13. (AP)—"Agrocracy" may find a place with "technocracy" as a new word in the American vocabulary. It would be descriptive of the plan developed by John H. Shary, grower of Mission, for removing the unemployed city man to the farm, and which may be presented to congress for consideration.

Shary would take men likely to become public charges and place them on farms. He would place the families of such unemployed men on mortgaged producing properties. The government would be asked to issue bonds to assist unemployed men in financing purchase of land on long terms. This money received by the owners of the mortgaged properties would enable them to forestall possible foreclosure.

Shary believes that the adoption of his plan would increase the number of persons employed, increase the consumption of agricultural commodities and give financial relief to the overburdened farmer.

Under the Shary plan a bureau or board would be appointed to:

- (1) Make a survey of the unemployed with a view to determining the eligibility of those deserving rehabilitation, who should be American citizens.
- (2) List lands available, these being farms on which mortgage indebtedness has brought distress to the owners; thus relieving owners of obligations they were unable to meet. Purchase of these lands would be made after a careful appraisal established an equitable price.
- (3) Determine the amount necessary to properly finance a family in order to start it as a producer in its new environment.

Shary, who is president of the Texas Citrus Fruit Growers exchange, operative growers' organization, admitted that there might be imperfections in his theory of "agrocracy" but believed the general idea to be workable.

If There Is Oil, City Wants Share

BEAUMONT, Jan. 13. (AP)—If there is to be an oil boom on city property, the city wants to realize more out of the boom than \$3 per acre.

This was the substance of a refusal by city officials to lease a portion of its land in the north part of the city at the offered price of \$3 an acre. The lease would have provided the lessee with permission to drill for oil on the property.

Leasing of land for oil operation in that section of town has reached such activity that the city has decided to hold out for a better price.

Libby To Claim All of Fortune Reynolds Left

PHILADELPHIA, Jan. 13. (AP)—A tiny bit of humanity, potential heir to millions, kicked his feet in the warmth of a modified incubator today, utterly oblivious to the stir his rather unexpected arrival created.

He is the three-and-one-half pound son of Mrs. Libby Holman Reynolds, former Broadway torch singer and widow of Smith Reynolds, heir to tobacco millions who was shot to death under mysterious circumstances last July on the Reynolds estate in Winston-Salem, N. C.

The infant was born Tuesday night in the Pennsylvania hospital. Dr. Norris W. Vaux, who attended Mrs. Reynolds, revealed the birth was premature and said the baby is being kept in what is professionally termed a "hot bed." The child was reported as "doing nicely."

Mrs. Reynolds also was reported doing well.

While interested parties speculated upon the disposition of Smith Reynolds' state, estimated at between \$15,000,000 and \$20,000,000, Mrs. Reynolds' attorney in New York announced she was prepared to claim, on behalf of herself and child, not only the interest from the money, now in trust, but the trust fund itself.

Man Killed By Tahoka Officers

TAHOKA, Jan. 13. (AP)—Peace officers shot and fatally wounded Walker Lackley, 21, and arrested his companion, Charles Clifton, 19, here this morning after Lackley allegedly resisted arrest.

Sheriff B. L. Parker of Logan county and Marshal Milt Finch each shot Lackley once as he drew a revolver, they said. He died about thirty minutes later. Both Lackley and Clifton lived at Portales, N. M. The shooting occurred after actions of the youths aroused by suspicions in attempting to sell 100 hens to a produce house.

Use Autogyros To Aid Fighting Fires

PORTLAND, Jan. 13. (INS)—The autogyro airplane has found a place in fire patrol of Pacific Northwest forests.

Tests conducted during the past fire season showed the autogyro well suited for forest patrol purposes because of its ability to hover over the trees; to get in and out of canyon, and land and take off on small fields.

Planes contracted for forest service will make flights from Seattle or Wenatchee in Washington.

Since 1919 the forest service has used airplanes for forest fire scout duty.

George Murray May Still Go To White Sox

By BILL PARKER
Associated Press Sports Writer

There still is a chance that George Murray, ace right-hander of the Dallas Steers, who last season won 24 and lost 15 games, will pitch for the Chicago White Sox this year.

Vice-President Bob Tarleton of the Steers, has received a letter from Murray containing the information that he is willing to be sold to the White Sox, although he made a special request last year that Tarleton refrain from selling him to the Sox.

George changed his mind when he learned that his 1933 Dallas contract would have a top salary of \$350.00. Murray's salary last season was \$600.00. Tarleton is making no secret of what he will pay this year, and told George so in a letter. Tarleton said:

"I told George in my letter that \$350 would be top for our club this season. The White Sox have offered to make Murray with a salary attachment of \$600.00 a month. I wrote Murray the conditions, and told him he should be willing to go to the Sox. His reply was, 'Tarleton, I have reconsidered and since you are up, will ask you to proceed with the White Sox deal, although it seems a shame to go to the majors at the same salary I got in the Texas league.'

Tarleton believes Murray will be a winner for the White Sox if the deal goes through. Tarleton is already searching for a pitcher to replace Murray.

Old War Enemies Buried Together

NACOGDOCHES, Jan. 13. (INS)—The bodies of two men, who once fought on opposing sides in the Civil War, rest side by side here.

The men were Frank Robbins, a Union soldier, and W. E. Winston, a Confederate soldier.

Both men were wounded and left for dead on the Gettysburg battlefield. They later were found to be alive and were taken to the same hospital where a firm friendship that was to last a lifetime started.

After their recovery, Winston came to Texas and Robbins went to Ohio. Winston built up a good foundry business here and lost trace of his friend.

Several years later, a man walked into his office and asked for a job. The man was Robbins.

Robbins was given work, and the two men became fast friends. Several years later, Winston bought a lot in the Oak Grove cemetery, just big enough for two graves.

Neither man ever married and they requested they be buried together.

A double stone now marks the two graves where the men, once enemies but later friends, now rest.

Sentner Selects Best 1932 Films

NEW YORK, Jan. 13. (INS)—The ten best moving pictures of 1932, as selected by David F. Sentner, International News Service Dramatic Editor, follow:

1. "Maedchen in Uniform."
2. "Bill of Divorcement."
3. "Grand Hotel."
4. "Farewell to Arms."
5. "Smiling Through."
6. "Blonde of the Follies."
7. "I Am A Fugitive From A Chain Gang."
8. "Strange Interlude."
9. "Life Begins."
10. "Broken Lullaby."

DEMOCRAT DIES

DALLAS, Jan. 12. (AP)—Pat O'Keefe, 84, prominent citizen of Dallas and well-known at conventions of the national democratic party, died today of a heart attack.

OPPOSE FARM BILL

AUSTIN, Jan. 12. (AP)—The senate of the Texas legislature today passed a resolution memorializing congress not to pass the domestic allotment farm relief bill and requested the tariff commission not to raise the import duties on cotton ties.

STALIN'S 'FRONT' BELIEVES HE HAS CURE FOR FOOD SHORTAGE

By STANLEY B. RICHARDSON, Associated Press Correspondent, MOSCOW, Jan. 13. (AP)—Abolition of the depressing grain "collections" system, in effect for the past five years, was officially predicted today as a means of remedying the serious food shortage in Russia.

President Vyacheslav M. Molotov, the "front" of the Soviet government, said in a speech made public last night that the present cumulative "collections" system probably would be replaced by a definite grain "tax" in kind, levied in advance of sowing.

Under the present system of levy upon the deliveries on the basis of possibilities, production fell off greatly because peasants knew the more raised, the more the government would take.

"The supply of manufactured goods and of food must be improved," Molotov, who is charged with execution of government decisions, in announcing capital investment in industry this year will amount to 18,000,000,000 rubles (nominally about \$9,000,000,000).

This was a little more than "actually invested" in 1932, although under the first five-year plan for that year, an expenditure of 21,000,000,000 rubles was planned.

In virtual agreement with recommendations made public three days ago in a speech by Joseph Stalin, chief of the communist party, Molotov said there would be an increase of 16.5 per cent in this year's production over 1932's. Stalin set the figure roughly at 16 per cent in his speech.

While declaring the first five-year plan "was accomplished," in little more than four years, Molotov disclosed that key industrial production for 1932 increased only 8.5 per cent of 1931 whereas only a 34.7 per cent increase was listed to permit fulfillment of the plan.

Husband Slain By Wife After Many Quarrels

NEW YORK, Jan. 13. (AP)—Domestic quarrels that lasted for years culminated here in the slaying of Evert McCabe, well-to-do business man, in his luxurious apartment in Woodstock Tower. Detectives said his wife, Garnett, middle-aged and the mother of three children, admitted shooting him.

Two men told police they heard loud quarreling in the McCabe's bedroom. McCabe started toward the bathroom. His wife followed him, flung open the bathroom door, and shot him in the head.

Sobbing and screaming, she ran and crying on the guest room door.

"I've just shot my husband," she told police. She bought the revolver in Daytona Beach, Fla., when she went there to visit a son during the Christmas holidays.

Game Birds Are Victims of Hawks In Terry County

BROWNFIELD, Jan. 13. (AP)—Hawks and prairie runners are killing hundreds of game birds in this section of the state, T. E. Sammons, of Midland, deputy state game warden for this area, says.

Sammons estimated a hawk would average three quail per day throughout the year while a prairie runner would eat nearly as many eggs or young birds. Hunters kill them during the open season and save a large number of birds.

The warden estimated he had killed an average of 100 hawks a month since he began in this district last February. He also killed a large number of prairie runners.

Smoke Offends Piccard in His First Interview

NEW YORK, Jan. 13. (AP)—Auguste Piccard, Belgian stratosphere flyer, arrived in America and the first thing he did was to refuse to talk to newspapermen until they quit smoking.

The next, as soon as the smoke was cleared from the room on the steamer Champlain, was to deny a report that to protect his children back home in Belgium he had extracted the teeth of a vicious dog which belonged to a neighbor. The denial was brought forth by a rising storm of protest wired to Piccard's lecture agents in New York from American dog lovers.

Piccard explained that he had merely bent or pulled thorns off some rose bushes in his garden to protect his children from being scratched.

There were exclamations of wonder aboard ship when Piccard's identical twin brother, Jean, scientist and chemist of Wilmington, Del., came aboard. They were so nearly alike in appearance that on-lookers seemed unable to tell which was which.

Court Battle To Decide Ownership Of Custer Sword

CHAMBERLAIN, S. D., Jan. 13. (AP)—There was a time when Circuit Judge R. C. Bakewell thought he'd like to collect curios. Now he has in his possession General Armstrong Custer's saber and he wants to get rid of it.

It all happened when two claimants, one a lawyer and the other a collector of antiques, shovled the question of ownership into Brule county court records and on to Judge Bakewell.

The sword for years was tucked away in a bank vault in Plankinton, S. D. Then having been recently identified as belonging to the hero of the Custer massacre, trouble started. Fred A. Tinn, a Mitchell attorney and C. H. Zeitner, proprietor of a curio shop in Kimball, developed a controversy as to the ownership.

The saber was brought here under the guardianship of the court to await trial.

The sword, while it was in the possession of Zeitner, was supposed to have been obtained from women passing through Kimball one day. Then someone noting the German inscription on the blade wrote the makers and learned the sword had been made for General Custer years before his campaign against the Indians in Dakota territory.

Tinn, however, asserts the sword is the same one which had been found by him and another playmate when they were boys tramping the prairies together south of Kimball. Coming upon a chain protruding from the ground, he relates that they procured a shovel and dug up the sword fastened to the chain.

The sword is apparently a dress sword and is not a regulation cavalry saber. Both the blade and the scabbard which have been a little tarnished by years on the prairie, disclosed the best European workmanship. The hilt itself is covered with beaded snake-skin, a type of snake found in the mountains of Europe, which furnishes a rough durable skin, a firm, excellent grip for the hand.

It is believed that the General lost the sword passing through this part of the state on his way to the Black Hills in the early '70's.

Bright Answers Given Thompson

AUSTIN, Jan. 13. (AP)—In spite of the tedious technical aspect of the long and numerous hearings before the Texas Railroad commission to consider problems of operators in oil fields, a note of levity crept in now and then to give all hands a hearty laugh.

One of the most mirth-provoking incidents came in the midst of the latest hearing of operators in all Texas fields, when Ernest O. Thompson, member of the commission, asked L. L. Foley, petroleum engineer of the Mid-Kansas company, testifying about conditions in the Yates field.

"Would you be surprised if I told you it required twenty-two hundred pounds of gas to lift a single barrel of oil to the surface in the Panhandle field?"

"I would not be surprised at anything you told me," replied Foley. "Everyone guessed none more loudly than Thompson."

L. R. Fowler is transacting business in Shamrock today.

Gainesville Stage Named for Teacher

GAINESVILLE, Jan. 12. (AP)—Planting of shrubs and trees which will outline the stage of an outdoor auditorium which is a part of Mary Josephine park on the campus of Newsum Dougherty memorial high school, has been started.

The stage will be one of the largest outdoor amphitheatres in this section of the state. Mary Josephine park is named for Miss Mary Josephine Cox, head of the English department of the school, who has taught three generations of Gainesville students. Funds for beautification of the plot have been provided through contributions made by her former students, now living in every section of the United States.

E. H. McKinney of Lubbock visited in the city yesterday.

T. H. Gothard of Fort Worth is in the city for a few days.

LaNora Theater Feature Today And Saturday Is Sorority Dream Girls

Keeping 16 women happy is no job at all, according to Welle Day, producer of "The Sorority Dream Girls" the first musical revue of the season that comes to the LaNora theater beginning Friday for a two-day engagement. There has been but one change in the personnel of the production since the company was first organized. Therefore, Mr. Day believes he is proficient in selecting members of the fair sex who can work together, live together, and play together without friction.

"Sorority Dream Girls" is a musical revue which has been playing complete evening performances in larger cities. While in Pampa it will be presented on the LaNora stage in a shortened form with a motion picture. The Sorority Dream Girls are on a coast to coast tour and following Pampa will move to Oklahoma City and Tulsa.

Mr. Day held an audition at the LaNora theater this morning at 11 o'clock for local persons desiring a stage career. Coaching in stage technique was given those attending, and the best talent found will be given the opportunity of appearing in one of the Saturday performances at the LaNora. In the event suitable talent is found, professional contracts will be offered in this or future day stage productions.

NEGROES HELD
NEW YORK, Jan. 13. (AP)—District Attorney Charles B. McLaughlin today sought first degree murder indictments against two negroes held on a charge of slaying Nathan Reigold, white, jamming his body in a trunk and shipping it to Richmond, Virginia.

He Was Just Drunk Enough To Do What The Rest Felt Like

TEMPLE, Jan. 13. (AP)—Passengers on a southbound train had visions of big stick-up here at 2 o'clock one morning recently.

A volley of pistol shots brought passengers scrambling from berths clutched at valubles.

Trainmen and police rushed to the "smoker" and there found a passenger celebrating the festive season just a trifle early. With a cigar in his mouth, his hat in one hand and an empty revolver in the other, he was telling the world that the train had stayed in one place too long.

His stay in Temple was prolonged, however. He was "demonstrated" and placed in the city jail until the Christmas spirits had died.

The Rev. Jacob Goldweig of Safed, Palestine, was a Pampa visitor Wednesday afternoon and night.

Tech Enrolment Jumps to 2,248

LUBBOCK, Jan. 13. (AP)—Registration of 298 new students for the winter term of Texas Technological college increased the school's 1932-33 enrolment to 2,248 students, it was announced today.

The increased enrolment makes Tech the second largest state school in number of students enrolled.

Approximately 50 different towns in two states were represented in the registration of new students just closed.

BLIND STUDENTS FAST-KANSAS CITY, Kans., Jan. 13. (AP)—Seventy-five sightless students at the Kansas state school for the blind cleared the three-story building in six minutes when a fire broke out early today. The damage was confined to one room.

Panhandle Will Have 1,182 Miles Paved Road by 1934 If Department Is Permitted to Carry Out Plans

AMARILLO, Jan. 13. (AP)—The Panhandle looked toward connected paved highways in 1932.

The result was the greatest regional paving program in the state's history, involving 828 miles of highways and an expenditure of more than \$4,000,000.

There will be an extension of unfinished projects into the new year, which, coupled with new construction proposed by state-highway department engineers, will total 400 miles in 1933. By the end of the year, if the highway department is permitted to carry out its program, the 1,182 miles of state and federal highways in the upper 20 Panhandle counties will be completed, the total expenditure amounting to approximately \$12,000,000.

Upwards of 5,000 men, a majority of whom were residents of the counties where construction was done, were given employment in 1932, and a proportionate number will find similar employment in 1933.

Paving actually completed during the past year totaled 241.2 miles, built at a cost of \$3,394,052. Of this amount, 150 miles were of high-grade concrete construction, and the remainder of caliche base with bituminous topping.

By the time the program is completed, the average mile of paving

in the Panhandle will have cost about \$10,000. Landowners in the territory were paid more than \$30,000 in 1932 for native rock, or caliche.

The year brought the region its longest connected strip of paving, from Higgins, on the Oklahoma line in Lipscomb county, to Canyon, south of Amarillo, a distance of 160 miles. The streamer is laid on state highway No. 33 and U. S. highway 60. Only topping remains to be laid on 16.5 miles between Pampa and the Roberts county line. By spring the paving will be extended another 15 miles from Canyon to the Deaf Smith county line.

Only two gaps on state highway No. 75 and U. S. highway 66—a 16-mile strip near Jericho and the entire distance through Oldham county—remained to be paved in 1933 to complete this route across the Panhandle.

Extensive paving was done on state highway No. 9, which traverses the division north and south from Swisher county through Randall, Potter, Moore, and Sherman counties. Likewise, state highway No. 117, which describes a huge arc from Panhandle north and north east through Borger, Stinnett, Spearman, Perryton, and northern Lipscomb county, witnessed much activity, and soon will furnish another paved route from Amarillo to the Oklahoma line.

'Patriot' Offers To Cook First Meal For 'Ma'

AUSTIN, Jan. 13. (AP)—E. M. Feltzer of Elgin read in a newspaper that the governor's mansion cooks would leave the home maintained for chief executives on the night before the inauguration of Mrs. Miriam A. Ferguson and there would be no one to cook the noon day meal for the new occupants.

Feltzer has written a letter to Governor-elect Ferguson offering to cook that meal.

Mrs. R. S. Sterling, wife of the outgoing governor, said that the custom of occupants of the mansion leaving a noon day meal for the newcomers on inauguration day would have to be dispensed with this time because the cooks were leaving the night before.

"From a purely patriotic standpoint, I would like to offer my services as a cook," wrote Feltzer. "While I am not a professional cook, I will guarantee a meal for Ma. If ham and eggs are good, I know my onions."

"Just to explain, I fry the ham brown first, using the same pan and grease to sputter the eggs in. Just one skilful flop and there you are—ham and."

"Now, when it comes to hot cakes, oh boy! I'll tell you a secret. My golden queen doughnut recipe works fine. All I do is just add a little more water and there you are."

"Yes, sir, my wife has bragged so much on my hot cake mastery that some how or other, I am just forced to offer my services once, and Ma and the family won't ever let me leave. You see, I use for syrup, old fashioned black sorghum."

Blizzard Brings Another Snow to Northern States

By The Associated Press

Two widely separated states—Minnesota and California—today surveyed the results of death dealing weather in the form of a blizzard, sub-zero temperatures and gales.

While the North Country was digging itself out of snow-blocked highways and recording at least three deaths which came with mercury readings as low as 17, degrees below zero, Southern California was counting the damage and loss of life it sustained from an 80-mile gale.

In way of contrast New York lolled in its warmest Jan. 11 in history yesterday with the thermometer at 57 degrees above zero. Chicago and the Middle West had winter temperatures but no snow.

In California, reports said the wind, viciously blowing through orange groves and acres of oil well derricks, had claimed at least two lives and caused property damage approaching a million dollars.

The rescue of eight naval men adrift in motor boats averted a larger death toll. Of two drownings, one was Lieut. Comm. Carl Hupp, swept overboard from the U. S. cruiser Raleigh.

North Dakota also felt the brunt of the blizzard which resulted in two sisters freezing to death while on their way home from school near Kennedy, Minn. At Crookston, Minn., a man dropped dead after shoveling snow.

The weather man held out a promise of light snow for the Minnesota-Dakota area today with rising temperatures Friday.

BEATING 13 SPADES

DUNKIRK, N. Y. (AP)—George Ward had thirteen spades, but bold opponents outbid him and made seven no trump. Ward's partner had nothing better than the eight of hearts to lead. Their opponents realized from the bidding that Ward had an unusual hand, and gambled on holding the lead.

GRASS AIDS FOWL

MONCTON, N. B. (INS)—Eel grass which disappeared from most of the game bird breeding areas of Nova Scotia during the past two years, is showing signs of returning. Recent unusually low tides disclosed new crops of the grass, essential for the maintenance of wild geese and duck.

GOVERNMENT RESIGNS
BUCHAREST, Rumania, Jan. 13. (AP)—Premier Manu's government resigned this afternoon as it had been expected to do for several days. King Carol accepted the resignation and began conferences with party leaders to form a new cabinet.

Mrs. H. S. Hunt of Denworth was a Pampa shopper Wednesday afternoon.

Mrs. E. H. Davis of Skellytown was a Pampa visitor Wednesday.

JUMPS TO DEATH
NEW ORLEANS, Jan. 13. (AP)—Monroe Scheurer, former cotton broker, leaped to his death from the eighth floor of the Pantchar-train apartments early today.

Mrs. C. E. Stalder of Skellytown was a Pampa shopper yesterday.

John Ierson of Houston transacted business here Wednesday.

Miss Adell Stone's condition was reported favorable at Pampa hospital this morning.

DOGS GOES TO JAIL
BOSTON (INS)—Because his master had imbued a bit too freely was no reason why a tiny puppy of questionable origin should desert him. The man was taken to the East Datham Street station and the dog tagged along. The police placed him near the warm furnace, but a short time later the pup was back in the cell. When the man was released without court action, the pup was in the pocket of his coat.

For Classifieds, phone 666.

WOMAN KILLS BOBCAT
EAST GREENWICH, R. I. (INS)—When Mrs. Barnabe A. Harpin looked down the sights of her rifle and pulled the trigger, twenty-eight pounds of splitting, clawing, furry in the form of a 31 inch bobcat kicked his last and expired. She was hunting in the woods here with her husband when they came upon the bobcat.

Mrs. O. E. Keplinger of Kingsmill was admitted to Worley hospital this morning.

ROAD FOR ECONOMY
BOSTON (INS)—If the War Department gives its permission the narrow rock-filled channel shutting off Deer Island with its house of correction from the mainland would be filled in and a road made. This, Mayor James J. Curley pointed out, would save the city \$75,000 a year by the discontinuance of the steamer used to transport house of correction inmates.

Mrs. F. P. McSkimming is confined to her home by illness.

W. L. Black of Fort Worth was a Pampa visitor yesterday.

O. R. Burton of Wichita Falls is visiting friends here today.
