

GARNER HAS NEW BUDGET PLAN

Coolidge Will Be Buried Near Vermont Birthplace Tomorrow

BANKER ROUTS TWO ROBBERS

TWINKLES
Calvin Coolidge, silent and solid American citizen, will have a modest but highly respectable place in history. "I do not choose" were the words long to be remembered as both puzzling and, as later determined, very lucky for the inflationary executive. It is unfortunate that Mr. Coolidge's work was not done—he was still No. 1 private citizen and useful.

Get ready for something good—the Lions club minstrel show and musical revue, a public service enterprise and a No. 1 amateur entertainment.

We men of the Presbyterian church, who recently fed the ladies, now know how housewives feel when hubby grows about his meals—we have heard not a little about putting the spoons on the wrong side of the plates and forgetting the napkins.

We hear many inquiries about when the city is going to start the swimming pool, using federal relief committee labor. These are fine days for work and the opinion is that something substantial ought to be grown out of the expenditure of federal funds. And, by the way, the length of time these funds will be available seems rather uncertain.

The one sure road to drastic economy is paved with tax rate reductions, not accompanied by true economy. Some of the cities you read about which are now cutting and slashing are compelled to do so to keep ahead of the sheriff. Without installing real economies, they a few years ago did some "smart" refunding, selling refunding bonds below par, cutting tax rates for political expediency, and postponing the reckoning time for their successors.

When you analyze it, you will find that "penny economies" have little effect on the taxes paid by the average citizen. This is particularly true of state taxation. Small governmental economies are in the same category. But large federal deficits are reflected in 3-cent letter postage, taxes on bank checks, and the like.

But as David Lawrence says, there is really just one great federal extravagance, if it can be called that—war. If the government were, in peace time, to spend so frantically on public works as it goes in war time, "we the people" would rise in righteous wrath. We wouldn't even wait for a general election. We would adopt some sort of system like foreign governments have for overturning ministries in short order. War is not only a governmental extravagance, it upsets the whole price structure. Debts made in war time and in time of post war inflation are in terms of a dollar which shortly deflates and becomes "dishonest." Taxes and private debts become extremely difficult to pay. War debts linger for years of interest payments, and payments to veterans and veterans' dependents ultimately cost more than the war proper. Put that on the No. 1 enemy of the taxpayer: WAR.

Ben Franklin's statement that there never was a good war or a bad peace was never so true as in

THREE GUESSES

(ANSWERS ON PAGE 2)

SHOTS FORCE BANDIT PAIR OUT OF BANK

CASHIER GETS 'DROP' WHEN HE DUCKS FOR GUN

ROBBERS DRIVE AWAY

BANKER FIRES THROUGH COUNTER AT FLEEING DESPERADOES

HOUSTON, Jan. 6. (P)—H. D. Brown, cashier of the Spring State bank, at Spring, near here, today shot it out with two holdup men and prevented a robbery of the bank. No one was wounded.

Brown, victimized a year ago in a \$7,380 robbery of the bank, dropped beneath a counter when two armed men appeared in the bank today, demanding money.

They began firing through the counter at him. He obtained a pistol, arose and fired back. They fled in an automobile, driven by a third man, toward Conroe.

Brown, was at work at an adding machine and turned to face the barrels of two pistols, he said. "They started shooting."

"Get him when he comes up!" one directed the other.

"I lay down on the floor and fired one shot through the counter, thinking I might accidentally wound one of them in the leg."

"Then I fired five more shots in the air."

"I heard an automobile drive off. My pistol was empty and I grabbed double barreled shot gun in the corner and ran out the door. I saw the machine turn the corner, headed north. One of the men was sitting on the hood of the car. I ran to the corner and fired the shotgun twice at the machine when it was about 150 or 200 yards down the road, but they were too far away for the shots to take effect."

State Chairman Of Republicans Dies Last Night

SAN ANTONIO, Jan. 6. (P)—Eugene Nolte, chairman of the state republican executive committee, died last night at the San Antonio home of his daughter, Mrs. J. W. Goode.

Funeral services for Nolte, who has been a leader of the republican party in Texas for many years, will be held in Seguin, his home, at 2:30 p. m. tomorrow with burial in Riverside cemetery.

He had been in ill health, and his condition became more serious recently.

At his bedside were another daughter, Mrs. John Tancred of Dallas; his widow, Mrs. Claudia Nolte; his son, Eugene Nolte, Jr.; and his brother, Edgar Nolte, Jr.

Nolte served as a United States marshal during the administration of President Theodore Roosevelt. He had been chairman of the state executive committee for 12 years.

He was the head of the Eugene Nolte and Sons banking concern, in Seguin, the Seguin Milling and Power company, and the Merchants Ice and Cold Storage company of San Antonio.

Boxes Closed for Non-Payment Rent

Many Pampa residents found themselves without post office boxes this morning when they called for their mail. The reason—box rent unpaid.

Boxholders were notified more than a month ago that box rent was due, but many failed to take notice of the warning and as a result postoffice clerks have sealed the boxes. They will be re-opened upon payment of rent unless they are leased to other persons.

There are several boxes available and anyone desiring to use the box system may secure a box.

Mr. and Mrs. C. H. Walker and Mrs. Clifford Braly have returned from Dalhart, where they went on business.

McLEAN WILL SHARE FUND

R. F. C. Advises Relief Money Must Be Extended to McLean Area.

Work of the federal relief committee was further complicated today with receipt of information that the allotment of \$5,775 from the reconstruction finance corporation must be extended to the McLean area.

Until recently, McLean citizens had indicated their intention not to apply for relief money, and in filing application the local committee and the LeFors committee did not include statistics on needs at McLean. Lately, however, a movement to share in the relief was started at McLean.

The relief committees will meet tomorrow morning at 10 o'clock in the city hall, when a representative from McLean is expected to be present.

Because of the necessity of diffusing the relief in the next two months to a larger number of persons, Chairman C. H. Walker of the relief committee said it would be necessary to revise lists of eligible jobless men and to give work only to the most needy. Failure of the government to allow the increase in relief asked will inevitably work hardship on the unemployed in the next two months.

The new allotment has not been received, but the men here are eager to work and to receive their checks later.

Because of the necessity of diffusing the relief in the next two months to a larger number of persons, Chairman C. H. Walker of the relief committee said it would be necessary to revise lists of eligible jobless men and to give work only to the most needy. Failure of the government to allow the increase in relief asked will inevitably work hardship on the unemployed in the next two months.

The new allotment has not been received, but the men here are eager to work and to receive their checks later.

New Air Mail Schedule Now Faster—If Odd

Pampa has been brought closer to California on the west and Tulsa, and St. Louis on the northwest by new mail schedules just completed.

The new schedules were received at the Pampa postoffice this morning.

It is now possible to mail a letter on the westbound train leaving here at 6:07 a. m. and have it in Oklahoma City at 9:13 a. m.; in Tulsa at 10:11 a. m.; and in St. Louis at 1:10 p. m.

The mail sack containing air mail for the northeast is dropped from the speeding Santa Fe passenger train as it passes English field seven miles from Amarillo. A field attendant secures the sack and takes it to the plane which is waiting at the field at 7:30 o'clock to take off. The plane takes off immediately after the bag is received and leaves the ground before the train reaches the Amarillo station.

The procedure of dropping the mail from a speeding train meets a waiting plane, is believed to be one of a very few in the United States.

The new schedule to California allows an air mail letter to be sent on the westbound train leaving the Pampa depot at 4:25 p. m. and to arrive in Los Angeles at 8:43 o'clock the next morning.

An improved schedule between Pampa and Chicago has been announced with mail leaving here at 4:25 p. m. and arriving in Chicago at 6:30 o'clock the next morning.

THREE KILLED

WASHINGTON, Jan. 6. (P)—Three members of the Donaldson family—Silas, the father, a son and a daughter—were shot and killed last night by Charles Donaldson, 48, brother of Silas.

LIONS CLUB MINSTREL SET FOR MARCH 2-3; PRODUCTION STAFF WILL DISCUSS PLANS ON SUNDAY

Directors of the Pampa Lions club last evening set the evenings of March 2 and 3 for presentation of the organization's 1933 Minstrel Show and Musical revue for the underprivileged.

The 69 members of the club will launch various phases of the production next Thursday evening. The production staff will meet Sunday at 2:30 o'clock in the office of John Sturgeon, president, to discuss the plans. The show will be more spectacular than the initial event of 1932, but not quite so long. It will be presented in the city auditorium.

Directors present last night were R. G. Allen, R. A. Thompson, J. O. Gillham, W. T. Fraser, Olin E.

BODY TO LIE IN STATE AT NORTHAMPTON

YOUNG MINISTER WILL PREACH FUNERAL AT CHURCH

RITEs ARE TO BE SIMPLE

HOOVER, CABINET AND SENATORS WILL ATTEND

NORTHAMPTON, Mass., Jan. 6. (P)—The body of Calvin Coolidge rested today in his home, the Beeches, as plans for his funeral tomorrow were completed.

The body will lie in state for one hour in the Jonathan Edwards Congregational church tomorrow morning. Friends, from world famous dignitaries to laborers, will be given this opportunity to pay their final respects to the man who rose from a lawyer in a small city to the presidency.

President Hoover, member of his cabinet, congressmen and senators will file past the bier. Behind them will come men like James Lucey, the aged cobbler who was one of the former president's closest friends, and George Dragon, the barber Mr. Coolidge patronized.

Delegations from the national capital and from the New England and neighboring states will be present to hear a 30-year-old minister in his first pastorate intone the prayers for the dead.

John by her side Mrs. Coolidge remained in the home where at noon yesterday she had found her husband lying dead in his dressing room.

By dawn tomorrow the friends of Calvin Coolidge will have assembled in this small city in northwestern Massachusetts. At 8 o'clock, Mr. Coolidge's body will leave his home at "The Beeches" for the church.

Guard To Stand By
A guard of honor from the national guard will stand by the bier while it lies in state. At 10:30 o'clock the services will begin. They will be brief and simple with Rev. J. Penner, the young cleric who in past months was often pleased by the president's comment on his sermons, officiating.

Six state policemen will represent official Northampton at the services. They will bear the coffin in and out of the church and place it in the automobile hearse which will bear it to Plymouth Vt., where Mr. Coolidge will be laid to rest beside his father and son.

A motor cortege will accompany the body to Plymouth. Mrs. Coolidge will be accompanied in her car by her son, John, and his wife, the former Florence Trumbull, daughter of a former governor of Connecticut.

At Plymouth the cortege will be met by the residents of Four Corners where Calvin Coolidge was born and spent his boyhood and where, in the home of his father and by the light of two flickering oil lamps, took his oath of office as president. Hundreds of Vermonters, both official and unofficial representatives of their state and townships, will be present to attend the service.

FRANK RECEIVES CAPITAL GOOD-BYE

A fond farewell is given to Franklin D. Roosevelt by Ruth Goldberg, a member of the executive staff at the state capitol, as he ends his term as governor of New York state to rest two months before becoming president of the United States.

GAS HEARING IS ANNOUNCED

McDonald Calls Meeting in Pampa To Be Held on January 16.

J. M. McDonald, deputy supervisor of the Panhandle division of the oil and gas division of the Texas Railroad commission, will preside at a hearing of owners and operators of natural gasoline extraction plants and to parties interested at the Pampa office in the Rose building at 9 a. m. January 16.

Consideration will be given applicants under the terms set out in the commission's order dated Dec. 30 entitled "Special order establishing field rules for the conservation of gas."

Information concerning each plant as a unit will be required, showing the volume of gas processed and the disposition of the residue, together with information concerning each individual well connected thereto and those to which connections are desired, and showing the volume of gas, amount of oil and water, rock pressure, and working pressure.

At the same time a hearing on applications for gas-lift operation will be considered.

Lancaster Talks To Kiwanis Club

"Don't bring the flag back to the regiment, but bring the regiment up to the flag," was the message left by the Rev. C. E. Lancaster in an address before the Kiwanis club today. He pointed out the difference between a "citizen" and an "aggressive citizen."

S. J. Hays of Dallas, Arthur Swanson and Frank Foster were among the visitors.

A directors meeting will be held at the Schneider hotel Monday night.

Clay Injured as Truck Overturns

H. N. Clay, driver for the Dille Bakesies, is in Worley hospital suffering from an injured chest, cuts and bruises suffered when the truck he was driving overturned south of the city just after dark last night. The truck was almost demolished.

Mr. Clay was coming back to the city and had just crossed the Fort Worth and Denver track near the Gulf camp when the front wheels struck soft dirt. The car slid over the bank before the driver could bring it to a stop. The truck dropped about 15 feet. Mr. Clay was pinned in the cab.

Mrs. A. L. Reamsnyder of Roxana was a Pampa shopper yesterday.

Mrs. J. M. Thomas of LeFors shopped in the city this morning.

COOLIDGE PORTRAYED AS HUMAN SORT OF PERSON WHO ENJOYED PLAYING SHREWD LITTLE JOKES

Tricks on Cameramen Gave Him Many a Chuckle

DETROIT, Jan. 6. (P)—A very human sort of person, courteous and kindly, with a penchant for little jokes.

That is the memory of Calvin Coolidge that will always be retained by Tom Howard, now head of the Detroit Free Press photographic staff, who was president of the White House Photographers' association during the Coolidge administration.

Howard cites one example of Mr. Coolidge's thoughtfulness.

"Aboard the presidential train, Mr. and Mrs. Coolidge always ate in the same dining car used by the press representatives," he said. "Invariably Mr. and Mrs. Coolidge were first to arrive. One day we heard the president remark to Mr. Coolidge at mealtime: 'Let's hurry so we shan't make the boys stand up after they've seated themselves.'"

Howard also recalled a thwarted attempt by the White House Photographers to take a picture of Coolidge fruitfully.

"When everything was in readiness for him to pose with some group on the White House lawn," he said, "Mr. Coolidge would leave his study and, on his way to the lawn, place his cigar near the door. The picture-taking was over. Some of the boys planned to take his picture as he picked up that cigar."

"But that day, he passed the cigar as if he didn't know it was there. Then, as the camera men were folding up their equipment, he returned, picked up the cigar, and disappeared, chuckling."

HELED PLAN SHOW

George Briggs has returned from Plainview, where he as a director of the dairy show three helped to plan the event of next April 10-13. A premium list totaling \$2,800 has been provided.

PROBE SUSPENDED

SEMINOLE, Okla., Jan. 6. (P)—Temporarily suspending his investigation of the fatal shooting here Saturday of George Noland, state's prison fugitive, Tom Huser, Seminole county attorney issued a statement today saying that evidence in hand indicated Noland was killed by two prison guards, "acting in line of duty." At the time of the encounter, the guards were returning Matt and George Kimes, notorious desperadoes and enemies of Noland, to state's prison.

P. T. Britten of Groom was a Pampa visitor Thursday morning.

Little Damage in Fire This Morning

Little damage resulted when fire broke out in a wash house at a camp in the Wilcox addition this morning. The fire department answered the alarm and by using water from the booster tank on the big truck, soon had the blaze under control. It is not known how the blaze started.

The department has answered six calls on an average of one a day this year, which amounted to one-fourteenth of the number of calls made last year. The damage at the six fires was negligible.

STERLING CANNOT CALL ELECTION TO REPLACE GARNER

AUSTIN, Jan. 6. (P)—James V. Allred, Texas attorney general, has held that under the existing law Governor R. S. Sterling cannot call a special election to fill the vacancy in congress left by elevation of John N. Garner to the vice presidency, until after March 4.

Allred announced, however, that in a conference with Governor Sterling it was decided that the legislature, which convenes next Tuesday, would be requested to amend the law to prevent the holding of an election in Garner's district prior to the time when the vacancy shall actually occur.

Garner has notified Governor Sterling that he will not qualify as congressman from the fifteenth district in the 72d congress.

Allred said the proposed amendment would provide that where one who has been elected to congress shall notify the governor in writing that he desires to resign or will not qualify for the office, "same shall constitute a prospective vacancy in the office and the governor will be authorized to call a special election for the purpose of filling such prospective vacancy in order that the place may be filled by the regular time."

Teachers of the Hopkins schools are observing visiting week. An attempt is being made to visit the home of every child in the schools.

PAMPA DESERVES SPEED

NEWS WHILE IT'S NEWS means the same in Pampa as in larger cities.

The NEWS believes that its readers deserve just as prompt service in extraordinary events as do citizens of bigger communities. The Coolidge death yesterday was an example. The NEWS issued an extra which was in instant demand and followed shortly with the regular edition with still fuller details.

The horse and buggy age has passed the advent of marvelous automobiles and wonder air vehicles. Similarly, the oldtime newspaper services are out-dated. Pampans, no less than Amarilloans and Dallasites, deserve NEWS WHILE IT'S NEWS.

The legislature will soon assemble, Congress is to meet, Pampans will be thinking in state and international terms. The Pampa Daily NEWS and its full high speed leased wire of the Associated Press will measure up to that type of reader interest, in addition to giving complete and timely local and territorial coverage.

THE PAMPA DAILY NEWS

NOTICE—It is not the intention of this newspaper to cast reflection upon the character of anyone knowingly and if through error it should, the management will appreciate having attention called to same, and will gladly and fully correct any erroneous statement made.

I AM THE FARMER

I am the Provider for all mankind. Upon me every human being constantly depends.

A world itself is built upon my toil, my products, my honesty.

Because of my industry, America, my country, leads the world. Her prosperity is maintained by me; her great commerce is the work of my hands; her "balance of trade" springs from the furrows of my farm.

My reaper brings food for today; my plows hold promise for tomorrow.

In war I am absolute; in peace I am indispensable—my country's surest defense and contrast reliance.

I am the very soul of America, the hope of a race, the balance wheel of civilization.

When I prosper, men are happy; when I fail, all the world suffers.

I live with nature, walk in the green fields under the golden sunlight, out in the great alone where brain and brawn and toil supply mankind's primary need. And I try to do my humble part to carry out the great plan of God.

Even the birds are my companions; they greet me with a symphony at the new day's dawn and chum with me 'till the evening prayer is said.

If it were not for me the treasures of the earth would remain securely locked; the granaries would be useless frames; man himself would be doomed speedily to extinction or decay.

Through me is produced the energy that maintains the spark of life.

I rise with the early dawn and retire when the "chores" of the world are done.

I am your true friend. I am the Farmer.—Wright County Journal-Press, Buffalo, Minn.

A compact stopped by a policeman's stray bullet and saved the life of a New York girl. But nothing's been found that will save a man from what comes out of a girl's compact.

That gossip about Alfred E. Smith's availability as governor-general of the Philippines stirs a vision of dark-skinned patriots in brown derbies, marching under Tammany banners to the strains of "The Sidewalks of New York."

The average American family says a Chicago professor, consists of 3.4 persons. We suppose that's "pa" there behind the decimal point.

And one out of every six American families will be smashed by divorce, statistics indicate. The other five will just talk about it.

That relieved expression on father's face is the look of a man who doesn't expect to carve another turkey until next Christmas.

Now that they've found cosmetic jars dating from 3700 B. C. in northern Iraq we expect to hear at any moment that they've turned up a rowing machine.

A bird in the hand is worth two in the bush, but now and then you'll find a big league baseball mogul who'll trade even.

Young Man Will Preach Funeral Of Ex-President

NORTHAMPTON, Mass., Jan. 6 (AP)—The man who will preach the sermon for the funeral of Calvin Coolidge is 31 years old and looks much younger.

He is Albert J. Penner, formerly of Mount Lake, near Mankato, Minn. His parents, Mr. and Mrs. A. D. Penner still live there.

Since last September, when he returned from two years of study in Europe, he has been pastor of the Edwards Congregational church, founded a hundred years ago by Jonathan Edwards.

He knew the Coolidges slightly. Mrs. Coolidge and her son, John, were members of the church. Calvin Coolidge was not, though he attended regularly.

The former president was always the first man out, when Sunday services were over, Penner said. On rare occasions he lingered to say "how-de-do." On rare occasions he complimented the preacher on the sermon.

The Rev. Mr. Penner spent a good part of yesterday afternoon with Mrs. Coolidge making plans for the funeral. They decided that the services should be simple, the sermon very brief. The preacher will go along to Plymouth, Vt., to officiate at the burial.

Penner attended the University of Minnesota and later went to Bethel college at Newton, Kas. He studied his religious training at Hartford Theological seminary, then went to Europe to study.

Babson has pointed out the part advertising will play in the return of better times. The W. K. Kellogg company has shown its confidence in advertising by increasing its normal expenditure by more than a million dollars at a time when competitors are retrenching. Newspapers will be used more than ever. It is significant that the Kellogg factories are running at full capacity with employment at its peak. People are reading Kellogg ads, using more Kellogg products, keeping Kellogg payrolls large. We need more Kelloggs to stimulate consumption through advertising.

Farm poultry records kept in Tennessee indicated that 76 per cent of the income from poultry was from egg sales.

Highway Body Criticized By Auditor Lynn

AUSTIN, Jan. 6 (AP)—Moore Lynn, state auditor, today issued two volumes of a report criticizing the purchase of equipment and parts. He expressed the feeling that the purchasing in the highway department should yet be made the subject of legislative investigation and consideration.

The report listed 82 specific questions asked by the auditor of the state equipment engineer concerning practices followed in cited instances and listed the engineer's answers.

Failure of the department to take bids on competitive equipment and parts was criticized. Allegedly irregular practices in taking bids and making requisitions also was discussed.

In a prior report the state auditor had recommended that purchases in the highway department be made through a central purchasing division, with final purchasing authority resting with the board of control.

It was found in the investigation that too much use was made of emergency purchases in the case of materials for maintenance of roads and parts for repair of equipment, Lynn stated. The state board of control was found to have failed to exercise the duties imposed on it relating to responsibility for purchases.

Complaints were made to the auditors by several of the dealers in the larger cities, the report stated, that they were not being asked to bid on a fair portion of the purchases. The department explained that many times bids were not sent to more bidders because the department was not aware of the names of the firms that could handle the items.

South Carolina's motor vehicle division received more than \$10,000 for 1933 automobile license plates prior to December 1.

The winner of the 14th annual state high school music contest in the violin event at Greensboro, N. C., next April will receive a hand-made violin as a trophy.

The PEOPLES COLUMN

Editor, THE NEWS:
The Commerce Lifes club in its last regular meeting took notice of the splendid editorial "Shall We Deflate Teaching," and by a vigorous vote extended their sincere thanks and appreciation to you for the same.
May you keep the good work going.
Very truly yours,
J. G. Smith, Sec'y Lions Club, Commerce, Texas.

Buying Barbara

by Julia Cleff-Addams Author of "YOU CAN'T MARRY"

SYNOPSIS: Barbara Quentin's fiancé, the gifted and cruel Mark Lodely, does not know that Barbara has bargained with Farrell Armitage that Farrell shall have a year in which to make her love him. Mark has already arranged to go to Argentina and Barbara vows to try to cure Mark's lunacy, on the day he and Barbara were to be married. Farrell has agreed to be married. Farrell has agreed to be married. Farrell has agreed to be married.

Chapter 19 MARK'S PLAN

MARK, who usually at this hour permitted himself a dressing-gown, was in dress-clothes, the perfection of elegance, delicately pleated shirt and pearl cut-links. Only his crutch was the crutch of common every-day and even that managed to enhance his good looks and give appeal to his halting progress.

"What, in heaven's name, has got you?"

"I thought I'd have a dress-parade," said Mark. "A chap like Armitage gets himself up like this every night, you know. Has to, or his friends might forget what a perfect little gentleman he is. Only, his clothes fit him most excellently well and this whole thing's wrong. I was a fool not to see it at once."

He made his way to Barbara's chair and sank into it. Barbara came swiftly across the room and caught the crutch as he let it away towards her. (He still had not met her eyes.)

"Armitage, of course, will expect the sort of get-up they wear in 'La Bohème'—velvet coat and soft shirt open at the throat and dove-grey trousers, strapped under the instep. God, shan't I look a fool! But, after all, he'll be paying for it."

Mrs. Lodely, not knowing whether to take this seriously or not, found refuge in irrelevant surmise.

"Well, I don't know—I always did think you looked nice in fancy-dress. Do you remember that time Lela Cane took you to an Albert Hall carnival or something up in London and you were an old man with a barrel-organ and she was a kypsy-dancer in green chiffon, chained to your wrist? You ought to have had a prize, I thought, going all that way. And I remember afterwards I asked her if she enjoyed herself and she said no, she hadn't particularly."

"Strange!" mused Mark, faintly smiling. "I remember that I enjoyed myself, quite."

Barbara, still holding the crutch, still looking at him, began absurdly to tremble. She knew that when her trembling passed into her hand the crutch would begin to rattle on the floor and Mark would turn his faint, dreadful smile upon her.

She saw his smile as through an general mist; sensed, for a moment, how light the jewel had lain upon flesh that was smooth and bare.

The crutch was tap-tapping; an irritating, intrusive rhythm.

"Oh, thank you," said Mark politely. He took the crutch from her shaking hands, slowly and painfully lifted it across his knees and propped it up next to him, against the man's temple. "Thank you, I thought it'd have troubled you to hold it."

Mrs. Lodely had returned to the "If we do go up to stay with Mr. Armitage I'll pose both of us'll need a bit of smartenin'."

"Wait till we're at Brandish Place and I'll get clothes from Armitage."

"My dear boy, he's not going to keep us in clothes and pocket-money just because he's asked us to come and spend a few days with him! And besides you can't take money from a stranger—it's thunderin' bad form."

"Oh, but I'm expected to behave badly, my Judy. Really he'll be charmed if I don't. Besides, I shall just have got married to Barbara. Large-hearted he-son like Armitage never refuse a little pecuniary assistance to a weaker brother on his wedding-day."

There was a pause. Then Mrs. Lodely leapt gladly into the breach: "There, now, I told Babs you could get married on Thursday just as arranged, if you did it before we start for Town! I'm sure if you do it first thing on Thursday Babs'll be quite satisfied, won't you Babs?"

"Has Barbara been dissatisfied because I haven't married her yet?"

"Now you know well enough I never meant anything like that!"

"So that is all settled," he yawned. "And we shall have a honeymoon after all, Barbara, but under the millionaire's roof."

"No!"

"When do we marry, then, if at all?"

"Not for at least a year." He only smiled.

HARVESTERS TO PLAY AMARILLO CAGERS HERE TONIGHT

SANDIE TEAM IS UNBEATEN THIS SEASON

GAME IS ONE OF MOST IMPORTANT OF YEAR TO PAMPANS

One of the most important basketball games of the 1932-33 season schedule will be played at the high school gymnasium at 7:30 o'clock tonight when the Sandie team comes to Pampa for their only appearance this year. Admission will be 10 cents and 25 cents or by season ticket available for all scheduled home games at 50 cents for students and \$1 for adults.

The special tickets may be purchased at the door from students handling the games. The tickets will be good for the 13 games already scheduled, which includes all games in the Panhandle Basketball league schedule and the games with Amarillo and Lubbock.

Coach Mitchell has been working his boys hard in preparation for tonight's encounter. He has been drilling them on free shots after learning that Amarillo committed nearly 50 personals in two games with Panhandle last week. New Coach Mitchell has been working his boys hard in preparation for tonight's encounter. He has been drilling them on free shots after learning that Amarillo committed nearly 50 personals in two games with Panhandle last week.

Although the Sandies have played only three games this season, they have won all by large margins. The Sandies swamped the Methodist church quintet 26 Wednesday night. Coach Davis Hill, has three lettermen back this season, along with a former substitute and Beale, a damper forward recruited from Central junior high. It has a quintet that is expected to go far this season.

The Harvesters have their eye on a district championship this year. They have won seven out of nine starts against some of the strongest teams available. Coach Mitchell plans to throw his full strength against the Sandies tonight.

Dry Humor of Coolidge Often Misunderstood

WASHINGTON, Jan. 6 (AP)—An almost endless stream of Coolidge lore poured out upon the capital with the news of the former president's death. All who knew him unburdened themselves of little known tales of the man who had a heart possessed by the man who won fame by his silence and unobtrusive exterior.

Some told their anecdotes with a whimsical smile as they recalled the pranks of the man who was turned into a well-timed joke by the former president.

Edward T. Clark, his secretary for eight years, pronounced the Coolidge silence a myth.

"He could talk, always, with the utmost freedom to those in whom he had confidence."

Mrs. Harry S. New, wife of Coolidge's postmaster general attested to the depth of his emotions.

"I don't think people knew how really warm hearted he was and what understanding he had," she said. "I remember the funeral services for his boy in Northampton. The president and Mrs. Coolidge sat and listened with faces that did not show their grief. But just at the end, I saw him reach toward her hand. He took it in his and held it for a moment."

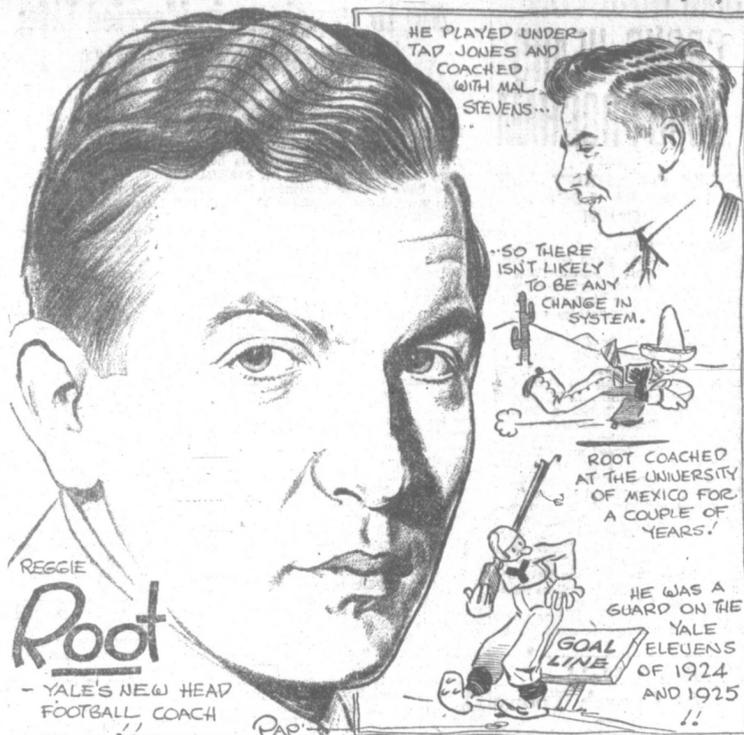

Many newspapermen recalled his answer when some years back he was asked what he thought of the current attacks on the private life of George Washington. He turned from his desk, walked to a window which looked upon the tall white shaft to the south of the White House. He smiled as he turned and said:

"Well, I see the monument's still there."

BULLDOGS' BOSS

FANS REJECT LEAGUE IDEAS

Time Not Ripe for Professional Baseball, Fans Decide.

Pampa will not have professional baseball if it is left up to the sport fans. The three or four faithful who gathered in the city hall last night decided that the time was not ripe to spring professional baseball and went home or to the picture show.

Fans have intimated that they would support professional baseball if a stadium were built, but would have nothing to do with raising money to own a team of youngsters and stand the grief of looking after finances and worrying over the situation. Pampa has no suitable place to play baseball at present.

If Pampa had a stadium, the attitude might be different. The idea of Pampa entering a team in the proposed league was presented to a few fans by Marty Fiedler of Albuquerque, N. M. Each team would be a farm for some bigger league team. That team would send a manager and 14 young players but would hold an option on four, to be selected at the close of the season.

Amarillo and Lubbock are still interested in the proposition. A general meeting of representatives from cities interested in the league will be held at 2 p. m. January 15, in Lubbock.

Johnny Vaught, selected as an All-America guard on the Associated Press consensus, is a star guard for the Texas Christian basketball team.

Athens Quintet Has State Title Ambitions Again

Evidently the Athens High school Hornets, former national scholastic champions under the coaching of Jimmy Kitts, plan to carry on under the guidance of their new coach, "Bobo" Nelson. In company with Nelson and their great backer, Arch Underwood, the Hornets recently embarked on a holiday basketball jaunt. They have defeated Ralls, Ropesville, Lubbock, Plainview, Mineral Wells and Breckenridge, and when last heard of were still winning. They will conclude their trip with games at El Paso.

Arch Underwood, the man back of Athens athletics, is one of basketball's greatest friends. Arch would not trade one basketball game for an even dozen football battles. He believes the Hornets are going to be the team others will have to defeat for this year's Texas interscholastic league crown. Arch knows his basketball, and he may be right.

Funeral For Baby Is Set For Today

Funeral services for the infant son of Mr. and Mrs. J. A. Thurmond of LeFors will be conducted in the chapel of the Stephenson Mortuary at 5 o'clock this afternoon. The Rev. W. O. Cooley, pastor of the Central Baptist church, will be in charge. He will be assisted by the Rev. L. A. Roll of LeFors, grandfather of the baby.

The child died in a local hospital yesterday afternoon. Mr. and Mrs. Thurmond have been residents of LeFors for several years.

LEAGUE MEET IS SATURDAY

Owners of Ten Ball Clubs Will Map 1933 Plans at Dallas.

Whether the Texas league will operate with ten or eight clubs next season will be definitely determined at Dallas on Saturday, January 7, when league president, J. Alvin Gardner, meets with club owners. It perhaps is the most important Texas league meeting in several years. Gardner admits he does not know whether the league will retain ten or eight clubs. At present the league comprises ten franchise holders. It is known that Gardner believes the league could operate better with eight clubs, but whether two franchise holders will be willing to drop out is something that will be "mashed" at the meeting.

Gardner fairly radiates optimism when he talks of the 1933 Texas league race. He believes the league is in for one of its best pennant races, and one of its most successful financial seasons. Returning from visits to Oklahoma City and Tulsa, recently admitted to the Texas league, Gardner said the base ball interest was keen, and that the Indians and Oilers were sure to enjoy excellent turnstile support.

Shreveport, Fort Worth, San Antonio and Longview are the uncertain cities which hold Texas franchises. Shreveport and San Antonio are without parks due to last year's fires. Fort Worth is in a financial hole. Ditto for Longview. However, baseball officials of these four cities will have to make up their minds, for when the meetings are called to order on January 7, club owners will be expected to answer "yes" or "no" when the 1933 Texas league votes on ten or eight clubs.

Fighting Breaks Out Again Along Border of China

SHANGHAI, Jan. 6 (AP)—Two days of quiet on the Shanhaikwan battlefield was broken today with a renewal of hostilities between Chinese and Japanese forces.

Rifle fire broke out on the battle line extending from one mile west of Shanhaikwan to near the limits of the city of Chinwangtao, several miles southwest of Shanhaikwan. The opposing armies faced each other from opposite banks of the Tashih river.

Driven from the walled city of Shanhaikwan, China's northern railway exit, the Chinese were reported bringing up reinforcements from Tientsin on the railroad which passed through Chinwangtao. Japanese warships were gathering in the Chinwangtao harbor and additional Japanese troops and ammunition were reported brought into Shanhaikwan.

Further operations on the scale of the terrific three-day bombardment and street battle for possession of Shanhaikwan early this week were believed indicated by the troop concentrations.

Chinese officials at Nanking professed to believe the Japanese government's announced policy to "localize" the Shanhaikwan incident was a "smokescreen" and they feared the Japanese would push along the railroad leading to Tientsin and Peiping or else begin their long predicted drive northward into Jehol in a campaign to add that province to Manchukuo, the Japanese-sponsored Manchurian state. The Chinese nationalist government officials stated no negotiations were under way at the present time seeking a settlement of the conflict.

CLOSE LEAGUE RACE IN 1933 IS PREDICTED

EXCHANGE OF PLAYERS WILL ENHANCE COMPETITION

By WILLIAM HARRIDGE, President of the American League. CHICAGO, Jan. 6 (AP)—A much better balanced race is my forecast for 1933 in the American league. A year ago, I predicted the Athletics would have more competition than during the previous three seasons. They did. In fact, the Yankees won the pennant by as great a margin as the Athletics had been in the habit of winning and a one-sided race was the result.

Because of that one-team contest, American seasons and fans made many player changes which will, to the best of my belief, result in the Yankees being provided with much stiffer competition than in 1932. If we had had a four or five club race last season, the American league probably would have played to more people than in 1931.

Now, with numerous changes made in the rosters of the seven clubs that finished behind New York, I cannot see anything but a better battle for the pennant and that means increased attendance. Chicago Sox stronger.

There is no doubt of the Chicago White Sox, for many years the outstanding pennant contender of our league, being restored to first division strength with the addition of outfielders Simmons and Haase, and third baseman Dykes of Philadelphia, pitcher Durham and infielder Rhyne of Boston. Chicago, also, is banking on pitcher Vic Frazier being restored to health and able to pitch winning baseball.

While Philadelphia parted with three players, Connie Mack is confident that he has in Cramer, Coleman, Finney and Higgins, four young players capable of replacing the men he sold to Chicago and keeping his team high up in the race.

Washington made three deals tended to make the Nationals stronger contenders than they were last season. In Manush, Goslin and Schulte, they will have one of the hardest hitting outfielders in the history of our league. President Glavin Griffiths and manager Joe Cronin have also made changes in the Washington pitching staff, adding two veteran southpaws in Whitehill and Stewart in exchange for Lloyd Brown, Fred Marberry and Dick Coffman. With Crowder, Weaver, Whitehill, Stewart, Al Thomas and McAfee, Washington will be equipped with six starting pitchers.

Detroit Helped.
The exchange of Whitehill for Marberry and Fischer is expected to aid Detroit as well as Washington. Both Marberry and Whitehill apparently need a change in scenery. Stanley Harris is confident that Marberry will deliver for him in Detroit as he did in Washington. Detroit also had some sensational youngsters to be developed this year in pitcher Rowe, catcher Rieber and outfielder Fox of Beaumont and shortstop Owen of Newark.

Boston will profit by the deal with Chicago. The Red Sox added four right hand hitters, who like that short but high left field fence in Boston to drive against. Right now, it looks certain as if outfielder Seeds and infielder Mulvey, included in that deal, would be installed as regulars at Boston, with a chance of Hodapp, former Cleveland star, staging a comeback.

Senators Hopeful.
To get Goslin, Schulte and Stewart of St. Louis, Washington had to part with three stars, outfielders Carl Reynolds and Sam West and pitcher Lloyd Brown. In fact, the Browns believe they got the better of the deal.

Cleveland has another first baseman in Harley Boss, who had a spectacular season in the southern league last year; while from Toledo, it obtained Hale who may crowd Willie Kamm off third base, a and at least two promising young splendid young catcher in Pytlak pitchers in Bean and Winegarner.

New York made no trades but teams, three pitchers, Van Atta of old purchase from Class AA league St. Port, Deshon of Sacramento and Brennan of Newark.

Your league president also caught the fever and added two new umpires to the official staff in William Summers and Louis Kolls of the international league.

Canyon College Begins New Term

CANYON, Jan. 5.—The winter term of the West Texas State Teachers college opened this week with 90 new students enrolled during the first day and a half. Enrollment will continue through Monday, January 9.

Dr. J. A. Hill, president, stated today that he is delighted with the way the second quarter is starting and that, considering the conditions that prevail, he is surprised at the number of new students.

There were only 49 withdrawals at the close of the fall term according to Business Manager Travis Shaw.

Harrison Stafford, outstanding Southwest conference halfback at the University of Texas, is in line for a West Point appointment.

SOUTHWEST CONFERENCE CAGE RACE OPENS SATURDAY NIGHT

Six Teams Will Go Into Action; Four Rated About Equal.

By BILL PARKER, The 1933 Southwest conference basketball campaign will be launched Saturday night with six of the seven conference quintets in action. Baylor University against the University of Texas at Austin; the Rice Owls against Texas A. and M. at College Station, and Texas Christian invading Dallas to battle Southern Methodist is the opening schedule. The University of Arkansas will remain idle.

Last year's race closed with an upset when a Southern Methodist quintet routed from the conference cellar and smothered Texas Christian, 32 to 30, to knock the Christians out of a conference championship tie with Baylor University. A week previous to this startling upset, the Christians whipped Southern Methodist, 52 to 19.

Perhaps this year's marathon will start with an upset. Surely there will be one if the defending champion Baylor Bears prove strong enough to defeat the University of Texas and Texas Christian as favorites Saturday night with a toss-up going to the Rice and Texas A. and M. battle.

The powerful Baylor championship unit of 1932 that won ten and lost two games to annex the conference crown has been riddled by graduations and class room ineligibles while the fourth place University of Texas team of 1932 has bolstered with proven sophomore talent that promises much for the Longhorns.

Coach Jimmy Kitts, who took his Athens high school Hornets to Chicago and won a couple of national scholastic titles, makes his bow as a Southwest conference coach Saturday night. Kitts will take his Rice Owls to College Station to meet the Aggies in what promises to be a torrid battle. There is a long line of 48 basketball battles between the Aggies and Owls in which the Aggies have won 31 and the Owls 17.

Mustangs Hopeful.
For the first time, Coach Jimmy St. Clair of Southern Methodist can put a quintet on the floor capable of giving any team in the conference a worthy battle. Southern Methodist prepared for Texas Christian this week by splitting a two-game series with the University of Oklahoma, 31 to 29 and 39 to 21, and by beating the East Texas Teachers of Commerce, 41 to 14.

There is no doubt but that this year's conference race promises to be the finest yet held, at least.

CAGE GAMES IN MID-WEEK NOT TO BE PLAYED

Several changes are being made in the high school basketball schedule which was released Wednesday afternoon. It was decided that no games would be played in mid-week, but that all games should be scheduled on Friday and Saturday nights.

Some of the games will probably have to be played as double-headers or on week-end afternoons in order to complete the schedule in time. All games in this sub-section of the Panhandle Basketball league must be completed by Feb. 4. Two sub-section champions must play for a section title by Feb. 14. The four section champions will meet in a district play-off at Canyon Feb. 17 and 18. These games will replace the former district meet at which time all county winners played.

The new schedule has practically been completed and will be released within the next few days.

NO LEGAL HANGINGS
PLAINVIEW, Jan. 6 (AP)—"There has never been a legal hanging in Hale county," Miss Della M. Ansley, clerk of the 64th district court in Hale county, has advised an Ohio attorney. The attorney wrote her office to learn details and to find what the official records about "the hanging of Albert Barker for killing an officer, about 1899 or 1900."

More than 75 athletes turned out for fall track and field practice at the University of California at Los Angeles.

Five of the seven members rank good enough to retain championship aspirations from start to finish.

Bill Kelley started the scoring in the last half with six points. J. R. Green added three points and Martin and Sullivan accounted for the rest with a field goal each.

McCarty led the McLean attack with a brilliant effort which netted him eight points. He was on the receiving end of nice passes and did some good floor work. Stratton big center, was also a tower of strength, especially on the defense. McAdams defensive work was also outstanding.

The girls' game developed into a rough and tumble affair in which the Harvesters came out second best both in scores and bruises. However, Captain Louise Walstead, Minnie Neal, and DeAnn Heiskell.

(See PAMPA, Page 6)

PAMPA TEAMS SPLIT GAMES WITH McLEAN

BOYS WIN EASILY 30 TO 17; GIRLS ARE SWAMPED

Several changes are being made in the high school basketball schedule which was released Wednesday afternoon. It was decided that no games would be played in mid-week, but that all games should be scheduled on Friday and Saturday nights.

COMMITTEE URGES ABOLITION OF RAILROAD COMMISSION, RANGERS AND SEVEN TEACHERS COLLEGES

Reduction 131 Units To 19 Departments Recommended

AUSTIN, Jan. 6. (AP)—Revolutionary changes in the administrative set-up of the Texas state government, designed to centralize authority and responsibility for the economical operation of state functions, has been recommended to the legislature by a joint legislative committee on organization and economy.

The recommendations will be submitted at the regular session of the legislature starting next Tuesday. The committee had worked virtually two years making a survey of the government. Its recommendations provided for the reduction of the 131 governmental units into 19 composite departments, heads of which would be appointed by, and made directly responsible to, the governor in most instances.

Abolition of the department of agriculture was recommended. Its inspection and administrative functions would be taken over by the extension service and agricultural experiment stations of Texas Agricultural and Mechanical college.

Abolition of the existing railroad commission, which has charge of administering oil and gas conservation statutes, was recommended. Its place would be taken by an appointed commissioner, with a three member appointive public service commission. The commission members now are elective.

The only state offices that would be elective under the ultimate objective of the committee would be those of governor, lieutenant governor and attorney general.

The department heads would serve in a non-partisan cabinet, acting in an advisory capacity to the governor and to facilitate inter-departmental relations. Provisions for the following proposed officers were made:

Governor, department of state, department of taxation and revenue, department of finance and administrative service, department of buildings and grounds, department of education, department of public health, department of public safety, department of agriculture, department of banking, department of insurance, department of livestock sanitary inspection, department of forests, fish and game, department of water supply and reclamation, general land office, department of highways, and a department of public utility.

Would Abandon Colleges

The committee proposed to consolidate the institutions of higher learning into two main systems, the University of Texas and Texas A. & M. The schools of the present would be abolished and the schools would be administered by presidents appointed by the board of education.

The School of Mines and Metallurgy at El Paso would be abandoned and turned over to the city of El Paso; Dallas and Tarrant counties would be presented with the North Texas Junior Agricultural college and the Southwest Texas State Teachers college would be abandoned and the property sold. The remainder of the teachers college, with the exception of the North Texas State Teachers college and the College of Arts and Industries, Sam Houston State Teachers college and Texas Technological college would be made junior branches of the University of Texas or abandoned to local districts. North Texas college and the College of Arts and Industries would be consolidated.

In the section on the railroad commission the committee stated that "popular election is almost the poorest means possible for securing officials of adequate qualifications for technical duties."

Would Abolish Rangers

A department of public welfare would take over from the board of control the administration of the state's penal and charitable institutions, the child welfare bureau, the state service department for veterans and other social service enterprises. It also would assume the duties of the board of pardons and paroles and administration of confederate pensions.

Merger of the Texas rangers with the state highway patrol into a department of public safety was proposed.

The existing bureau of labor statistics, the industrial accident board, the industrial commission, the state mining board and state mining inspector would be consolidated into the proposed department of labor.

The live stock sanitary commission would be abolished and its functions placed in charge of a commissioner.

Consolidation of the board of water engineers and the reclamation department was recommended.

Unification of the judicial power into one great court, with a merger of the civil and criminal divisions, was advocated. The "too numerous" courts of civil appeals, district and county courts would be reduced. Justice, corporation and county courts would be shorn of judicial functions.

Extension of the term of the attorney general from two to four years was recommended.

A consistent compensation plan, to be worked out on the basis of a study to be applied uniformly, was advocated. The present method of selecting state employees was scored as "deplorable" and the existence of such a system as "preposterous."

Japanese Emperor

HOW DE DO WAS ABOUT ALL COOLIDGE SAID TO NEIGHBORS WITH EXCEPTION OF HIS BARBER

NORTHAMPTON, Mass., Jan. 6. (AP)—An old town in Northampton. It may feel deeply the passing of its most illustrious citizen, but there is little external excitement.

Francis and Warren Bible study, 9:45; preaching, 11 o'clock, on "The Condemnation of Sin"; communion, 11:45; young people's meeting, 6:15; preaching, 7 o'clock, on "The Way of Cain." Every one is urged to attend the service.

HOLY SOULS CHURCH There will be only one mass at the Holy Souls church today. It will be read by the Rev. E. J. Clippard at 8 o'clock. The Rev. Joseph Wonderly of Pampa is ill.

ST. MATTHEW'S EPISCOPAL Corner N. Ward and W. Browning First Sunday after Epiphany. Sunday school at 9:15. Frasier, superintendent; morning prayer, 11 o'clock. All are invited to attend these services.

FIRST BAPTIST The Rev. H. R. Whaley, Baptist pastor of Haskell, will preach both morning and evening. Services will be held as follows: Sunday school, 9:45; morning worship, 11 o'clock; training service, 6:15; evening worship, 7:30.

A Sunday school training course will begin Friday and continue through Friday. —C. E. Lancaster, pastor.

MOORE FUNERAL TO BE THIS AFTERNOON

Funeral services for Miss Zona Moore, 23, who died in a local hospital Wednesday afternoon following a brief illness, were to be conducted in the First Methodist church at 2:30 o'clock this afternoon with the Rev. C. A. Long, pastor, in charge. Arrangements were in charge of the Stephenson Mortuary. Burial was to follow at Fairview cemetery.

Miss Moore was a graduate of Borger high school, class of 1929, and a two-year student at Canyon college. Besides her parents she is survived one sister, Gladys and a brother, Glen.

Mr. Moore is connected with the Sinclair-Prairie company and moved here from Borger more than two years ago.

PURVIANCE IS 'SON AMERICAN REVOLUTION'

Dr. Walter Purviance is the recipient of a beautifully designed certificate of membership in "The Society of the Sons of the American Revolution," T. S. A. R. division. The membership was by guest from John Purviance, great-grandfather of Dr. Purviance.

T. D. Hobar, Pampa citizen, as president of the Texas society, was one of the signers of the certificate, which is about two feet square. The date on it was Nov. 14, 1932.

Dr. Purviance's grandfather and father were members by descent. Dr. Purviance was an officer in the "war war."

SALE IS ISSUED AUSTIN, Jan. 6. (AP)—The third court of civil appeals today heard arguments in a suit filed by James V. Allred, attorney general, seeking an order of the court to restrain any district court from interfering with execution of a sale order on an oil refinery operated at Glade-water by V. O. E. Wright, and others.

Moulding of Characters To Fit in Modern Life Should Be Chief Aim of Scoutmaster, Enthusiast Says

By unanimous vote, scoutmasters of Pampa this week voted to ask publication of an address given them by C. J. Moore, N. Nunn on the experiences of a Scout with scoutmasters of various kinds and abilities.

Mr. Nunn's speech follows, in part: I am talking to you tonight, not as a speaker, or as an experienced scoutmaster, but rather as one who has been closely associated with every phase of scouting as a Boy Scout. I am attempting to give in a few words, straight from the shoulder, my idea of the duties and the rewards of scoutmastering according to Scouting, rather than the outside looking in. These duties I speak of are not to the troop essentially, or to the broad term "Scouting," but rather the personal obligations of a man to growing boys, and last but not least, to his personal character and the better spirit of Scouting.

There are many books and pamphlets written for men who are engaged in the life of the community, and especially in the life of a community's future citizens, where you may find your inspirational messages, practices outlined, statistics, and your duties defined. It is not in this sense of the word that I am touching upon the scoutmaster's relations tonight. I am speaking rather as one who has seen the scoutmaster perform, as one who has looked to a scoutmaster for proper direction, but more especially as one who has seen the scoutmaster looking in. These duties I speak of are not to the troop essentially, or to the broad term "Scouting," but rather the personal obligations of a man to growing boys, and last but not least, to his personal character and the better spirit of Scouting.

Former Official Of Odd Fellows Kills Himself

STAMFORD, Jan. 6. (AP)—Ray Rector, 48, prominent civic worker of Stamford and past grand master of Texas Odd Fellows, was found by his own hand. His body was found at 3 o'clock this morning in the garage of his home with a gunshot wound, the heart pierced, fired from a 20-gauge shotgun. A note left to his wife said: "Good-bye, all not afraid to go. See you in the morning. (Signed) Ray."

Justice C. L. Meeker, who held an inquest, expressed the opinion the shot was fired early Thursday night. Discovery of the body followed a search started about midnight, at request of Mrs. Rector, when her husband had not returned from a meeting of the Stamford school board which, it developed, he had not attended.

Friends said Rector had been depressed over distressing cases brought to him as charity relief director of Stamford. He also was an originator and director of the Texas Cowboy Reunion; member of many clubs, boards, and fraternal bodies; and tax assessor for the Stamford independent school district.

Survivors are the widow, his mother, in California, five daughters and one son. Funeral plans were incomplete.

Coolidge's Wife Brave in Face of Greatest Sorrow

NORTHAMPTON, Mass., Jan. 6. (AP)—Grace Goodhue Coolidge was facing today the heart-rending loss of her husband with the same magnificent courage and poise with which she has faced the many hardships of her life.

It was she who was the first to see her husband on the floor of his dressing room. She ran downstairs, stopped at the landing, and called to Harry Ross, the former president's secretary and friend: "My husband is dead." Her voice was described by Ross as "calm, although she was greatly affected."

She had been his constant companion and help-mate from the days when the young Vermont farmer boy, with a job in a local law office took her from her school teaching to be his bride in 1905. She was 26 at the time.

The young newweds set up housekeeping in the famed two-family house which was the Coolidge home all through the days of his governorship until he became vice president, and to which they returned from the White House.

"We New England women cling to the old days," she once said, "and being the president's wife isn't going to make me think less about the domestic things I've always loved."

The tragic business of making the necessary funeral arrangements was carried out calmly.

Markets New York Stocks

NEW YORK, Jan. 6. (AP)—The New York Stock exchange will be closed tomorrow as a tribute of respect to Calvin Coolidge.

NEW YORK, Jan. 6. (AP)—The advance in the stock market was resumed in today's trading, with somewhat less vigor than on Wednesday. But prices worked higher through the day, rails taking the lead, and there were numerous gains of 1 to 2 points, although final prices were off from the best.

Table of stock market prices including Am Can, Am T&T, Anaconda, At T&SF, Barnsdall, Ben Avl, Chrysler, Col G&E, Con Oil, Con Oil Del, Drug, El P&L, Gen El, Gen G&E, Gen Mot, Goodrich, Goodyear, Int Harv, Int Nick Can, Int T&T, Ketch, Mid Con, M Ward, Nat P&L, N Y Cen, Packard, Penney J C, Phill Fed, Pure Oil, Radio, Sears, Shell, Socony Vac, S O Cal, S O Kan, S O NJ, Tex Cor, U S Steel, Cities-Svc, Elec B&S, Gull Pa, Midwest Ut, S O Ind, S O Ky.

CHICAGO GRAIN CHICAGO, Jan. 6. (AP)—An upward trend in grain values showed itself early today. Numerous traders put a bullish construction upon agricultural legislative developments at Washington.

Opening unchanged to 1/4 higher, wheat afterward rose all around. Corn also started unchanged to 1/4 up and subsequently advanced further.

Wheat closed strong 1 1/2-1 3/4 above yesterday's final 50c-3/4, up, oats 1/2 advanced, and provisions showing 5 to 7 cents gain.

KANSAS CITY LIVESTOCK KANSAS CITY, Jan. 6. (AP)—(U. S. D. A.)—Hogs 4,000; 770 direct; fairly active, top 3.00 on choice 160-200 lbs; 140-160 lbs 2.40-3.00; packing sows 2.75-5.50 lbs 1.75-2.25; stock pigs 70-130 lbs 2.50-3.50.

Cattle 300; calves 150; generally steady; steers 3.85-6.75; 500 lbs up 2.75-3.50, heifers 3.00-5.00; milk fed, 2.50-6.00; stocker and feeder steers, (all weight) 3.75-5.75.

Sheep 2,500; lambs strong to 15 higher; top fed lambs 5.75; lambs 90 lbs down 5.40-7.5; ewes 90-150 lbs 1.25-2.00.

NEW ORLEANS COTTON NEW ORLEANS, Jan. 6. (AP)—Cotton opened fairly active today as Liverpool cables came in three to four penny points better than due and sterling was lower. First trades here showed gains of one to three points. The market eased right on rather liberal hedge-selling, March dropping to \$6.12, May to \$6.23, and July to \$6.34, or four points down from the opening all month. Later in the first hour the market rallied in sympathy with a higher opening in stocks and due to good trade-buying. March advanced to \$6.16, May to \$6.27, and July to \$6.40, a recovery of four to six points from the initial lows to levels two or three points above yesterday's close.

The market showed a fair volume of trading all morning due to trade buying and price fixing by the mills. March rallied to 6.19, May to 6.33 and July to 6.43, or 7 to 10 points up from the initial lows to 7 points above yesterday's close.

At noon the market was steady and at the highs.

GOING TO AMARILLO A delegation of Rotarians will go to Amarillo tonight for an inter-city meeting. Early this afternoon it was said that Tom Rose, M. K. Brown, C. P. Buckler, M. D. Oden, Lynn Boyd, L. N. McCullough, C. T. Hunkapillar, and possibly others planned to make the trip.

Pampan Boxes to Draw in Oklahoma

Sammy Squires, Pampa boxer, returned home yesterday after fighting a six-round draw with Elmer Nelson of Oklahoma City at Vic, Okla., Wednesday night. The crowd gave the bout to the Pampa boy but the referee decided to call it a draw.

The Oklahoma boxer outweighed Squires 20 pounds, but the Pampan's speed and ability to get under blows from the elongated Nelson's punches saved him considerable punishment. Neither of the boys took the count but Squires closed one of Nelson's eyes.

Squires' next bout will probably be in Enid, Oklahoma.

Membership of Lions Club Now At Sixty-Nine

Taking cognizance of the fact that growth of the Lion club to 69 members had taken place in recent months, President John Sturgeon yesterday spoke at length on the work of the local club and the meaning of Lion International. He read from the by-laws and code of ethics of the organization and gave reminiscences of the Los Angeles convention which he attended. Attention was called to the early beginning of rehearsals for the annual Lions club minstrel show to be presented in late February or early March. The production committee will meet at 2:30 o'clock Sunday afternoon in Mr. Sturgeon's office to perfect plans. Local clubmen have been invited to attend a zone meeting in McLean January 17. Visitors today were T. M. Cain of Dallas and C. E. Hutchins.

Drunk Man May Drive Car Right

AUSTIN, Jan. 6. (AP)—Although the driver of an automobile was under the influence of intoxicating liquor, but "operated the car correctly and as a man should" who was sober, and accidentally caused the death of another he is not guilty of murder, the court of criminal appeals held today. The fact that a driver is under the influence of liquor "should not in reason or common sense make him guilty of murder, if he operates the car correctly and as a man should who was not under the influence of intoxicating liquor . . . and in such case a death result," the opinion, by Judge O. S. Lattimore, stated.

The opinion was given in the case of Langston Burton, indicted in Rusk county on a charge of murder with malice aforethought and sentenced to two years on conviction. The opinion denied the state's motion for rehearing on a former decision reversing and remanding the case. Burton allegedly was the operator of an automobile that struck and fatally injured Jerry Allen, seven years old. The defense had claimed the accident resulted from a blow out of one of the tires.

Japan's Object In North China Not Quite Clear

WASHINGTON, Jan. 6. (AP)—Foreign military experts have such limited information of Japanese military strength and organization in south Manchuria that they hesitate to offer an opinion on whether Japan is now in position—should that be its objective in the Shan-haikwan incident—to carry out a general occupation movement in Jehol and extend it to Peiping and Tientsin in North China.

The Japanese are generally believed to have about 100,000 troops in all Manchuria, including the forces which they keep there regularly to guard the south Manchurian railway from Port Arthur to Changchun. But the Nippon troops now are scattered all over the Chinese railways as well as along the Chinese eastern line, jointly owned by the Russians and Chinese.

General Chang Hsiao-Liang, who is in charge of the Chinese forces in North China, is supposed to have at least a quarter of a million troops—troops that are poorly equipped and lack heavy guns and air support. Reports that he was concentrating large numbers of his men in Jehol are believed by observers to be responsible for Japanese activities about Shan-haikwan. Chang's forces are accustomed to fighting over rough country similar to Jehol and are experts at Guerilla warfare. Consequently they are regarded by the Japanese as a constant menace to the Mukden and Tientsin railway which runs within a few miles of the Jehol border in its course through the narrow coastal strip of Manchuria between Shan-haikwan and Tientsin.

Many Inspections Made by Townsend

Reports of F. E. Townsend, city building inspector, show hundreds of inspections were made during 1932 in addition to issuing building permits totaling \$41,235.

He inspected the moving of 43 houses so that no damage was done to public or private property. He made a re-inspection of the electric switch boxes and old wiring here. In making sewer inspections, he found 112 connections not previously reported to the water department and found 152 houses located near to but not connected with the sewer system.

Regular inspections were made of wiring at school houses, theaters and other such buildings frequented by the public. Inspections were made several times concerning remodeling of 68 buildings.

Mr. Townsend also made 86 electric inspections of new work, 61 plumbing and sewer connection inspections, and 44 of gas connections. He served verbal notice concerning cutting of weeds and removing of sanitation hazards. There were 202 notices of unsanitary conditions given in connection with the city health department.

TAXES REFUNDED WASHINGTON, Jan. 6. (AP)—An abatement of \$5,869,951 and a refund of \$45,343 to the estate of Ogden Mills, father of Secretary Mills for over-assessment of estate tax was announced today by the internal revenue bureau.

BASEBALL? IT'S A BORE

White horsehides with pretty seams hold no interest for the recent offspring of the Mel Ott family. Daddy Ott, New York Giants' outfielder, and Mamma Ott, are trying to interest Margaret Caroline Ott in a baseball, but the child indifferently closes her eyes and takes a little snooze. The family group was photographed at the Ott New Orleans home.

ENJOY WINTER SPORTS

Mr. and Mrs. W. H. Curry and Mr. and Mrs. W. M. Lewright have returned from Therna, N. M., where they spent a week at Mr. Lewright's ranch nearby. While in the mountains they enjoyed winter sports, including skating, sledding, and skiing. Ice on Eagle Nest lake was 18 inches thick and was being cut and removed with tractors for summer consumption. After several hard falls while skating, Mr. Curry became very fond of skiing.

SMITH GRIEVED

NEW YORK, Jan. 6. (AP)—Former Governor Alfred E. Smith declared himself deeply shocked and deeply grieved today when informed of the death of former President Coolidge. "I had a strong admiration for him," said Smith. "Since he left Washington I have been pleasantly associated with him. I am deeply shocked and deeply grieved to hear of his death."

Fergusons Are For Sales Tax, Says Englehard

DALLAS, Jan. 6. (AP)—Fritz Englehard of Eagle Lake, member of the legislature, today presented a tax reform program for Texas, represented as bearing the approval of the oncoming Ferguson administration, to members of the Texas Farm Bureau Federation in session here.

Salient points of the revenue producing section of the program were a levy of two per cent sales tax, introduction of a graduated income tax and assessment of taxes on natural resources and "hidden property." The state budget would be balanced and an estimated deficit of \$10,000,000 would be wiped out the first year the tax program was applied, Englehard claimed. Emphasis was placed on the fact that that goal would be attained without diversion of the highway fund. Englehard predicted that a two per cent sales tax would produce between \$30,000,000 and \$40,000,000 and said the ad valorem tax, which he would have eliminated, would produce this year only about \$18,000,000.

HALF AND HALF

CAMDEN, N. J. (AP)—Husbands batted 500 in Camden police court when four wives were allowed to pass sentence on their respective spouses. "Either give them 30 days in jail or take them home with you," the women were told. Mrs. Elwood Potts and Mrs. Henry Schmitz decided on jail for their mates but Mrs. George Grange and Mrs. Clarence Sims took theirs home.

The products of Tennessee dairy cows sold for more in 1931 than the total value of the cows.

Foes of Evil Omens Suffer Misfortunes

By The Associated Press. CHICAGO—Two officers of the Anti-Superstition society, organized to prove that evil omens don't mean anything, are suffering misfortune. Sidney Strotz, president, broke his automobile while Herman T. Powers, secretary, is in bed with the "flu."

Luck, I smashed my automobile because I was a bad driver and Mr. Powers probably didn't wear his rubbers." Members of the group will go right on walking under ladders, lighting three cigarettes on a match, and breaking looking glasses, until January 13 when their experiment ends. Harry Frankel, known as "Singin' Sam," is a graduate of a woodshed troupe.

CATCHING UP CHICAGO (AP)—Slowly but surely the employees of Cook county are getting their money and they figure off to a flying start in the new year. They received word that today was payday for the work they did in the first two weeks of July.

CHOOSE CURTAINS CAREFULLY WASHINGTON—Textures to be used together at the same window must be chosen carefully, says the Bureau of Home Economics. With cretonne drapes glass curtains or scrim, marquisette or linen gauze are pleasing, but silks call for fine net, lace or silk gauze.

A marker designating the original location of Fort Hartford, erected in Kentucky some time prior to 1785, has been unveiled.

Fee Problem to Be Considered By Legislature

AUSTIN, Jan. 6. (AP)—On three different occasions Texans have refused to amend the state constitution to eliminate the system of paying certain officers in fees of office, the senate fee investigating committee has ascertained.

The committee will ask the incoming legislature to submit another amendment to abolish the system. It is probable the next amendment will be adopted, because the senate committee has been able to uncover some practices that are considered as condemning the fee system.

The 33rd legislature submitted an amendment to abolish the fee system in 1913. It lost by a vote of 129,367 to 108,254. The 31st legislature tried it in 1919, and again the electorate said "no" by a count of 149,324 to 164,603. Close that time. The 40th legislature proposed the amendment once more, but again it lost, 22,272 to 165,205.

Defeat of the successive efforts to pass the amendment was attributed by the senate committee "in part to political power of the fee officers in the various counties." This year the associations of the various fee officers have gone on record, following disclosures by this committee, as favoring abolishing the system," the committee stated.

Maverick Becomes Tramp To Find Out About Boy Nomads

By The Associated Press. Maudy Maverick, tax collector of Bexar county, appointed by Governor R. S. Sterling to make a hand survey of conditions in Texas growing out of unemployment, went at his job in earnest. He has "tramped" all the railroad yards of the larger cities, and not less than 50,000 persons, a majority of them "boys" are rummaging around looking for employment, and all in dire want. Some of the men have families with them.

Maverick visited the relief camps maintained by municipalities and from what he observed he recommends a uniform plan to succor the needy, he said. He was accompanied on his jaunt by Pat Jefferson, who has been elected to the state house of representatives from Bexar county, and Harry P. Treas, also a state antic. They attired themselves in "tramp" clothes and associated with the unemployed in their colonies to get the "personal touch."

New Verse Added To Hinky-Dinky

NEW YORK (AP)—The woes of Private Leo F. Whelan have added a new verse to an old army song. Whelan was convicted of stealing a banjo, a camera, an overcoat and \$10 from the quarters of Brig. Gen. Lucius R. Holbrook, and was given a year. Now the 18th infantry songsters are singing: "The doughboy swiped the general's dough. Parley-vo. His camera, coat and best banjo, Parley-vo. He said to generals 'I've no fear,' Till the court passed out a kick and a year, Hinky-dinky parley-vo."

Jobless Go Native, Become 'White Gods'

ADELAIDE, Australia.—Unemployed white men, who have "gone native" and are roving about in the bush, may have a profound influence on these stone-age Nomads. L. A. Wells, explorer, who has returned from a trek through the wildest parts of Australia, says he was surprised to find that many tribes include one or two white men. They were baked and almost black from exposure to the sun and were living in accordance with native customs.

They were able to improve on the age-old methods of hunting and trapping and had knowledge of the conservation of food and cultivation of vegetables. By making the tribal food supply more plentiful and certain these whites, it is believed, may save many of the tribes from decay and extinction.

OKLAHOMA REDUCES OKLAHOMA CITY, Jan. 6. (AP)—Following recommendations of Gov. Murray's economy committee, the state board of agriculture has ordered drastic reductions in Oklahoma A. & M. college salaries and flat per cent decreases at the four secondary agricultural schools, effective February 1.

The board estimated the annual saving at A. & M. would be about \$270,000 and \$200,000 at the other schools, Murray, Conner, Cameron, and Panhandle A. & M.

Further cuts in operating expenses at Oklahoma A. & M. will be considered by the board today in an effort to bring the total reduction to the \$400,000 recommended by the economy group.

SPEECH PRINTED LONDON, Jan. 6. (AP)—Newspapers gave considerable space to Senator Hiram Johnson's arraignment of France and other nations which defaulted their debt payments to the United States today but did not comment. Neither was here comment forthcoming from government officials.

FOUR BURN TO DEATH SAN FRANCISCO, Jan. 6. (AP)—Four persons were burned to death or suffocated in a fire which swept through the Macbeth apartments in downtown San Francisco today. Four others were taken to an emergency hospital, and five others given hospital treatment.

International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: Jesus Begins His Work. Scripture Lesson: Mark 1:12-20.

12. And straightway the Spirit driveth him forth into the wilderness. 13. And he was in the wilderness forty days tempted of Satan; and he was with the wild beasts; and the angels ministered unto him. 14. Now after John was delivered up, Jesus came into Galilee, preaching the gospel of God.

15. And saying, The time is fulfilled, and the kingdom of God is at hand: repent ye, and believe in the gospel. 16. And passing along by the sea of Galilee, he saw Simon and Andrew the brother of Simon casting a net in the sea; for they were fishermen. 17. And Jesus said unto them, Come ye after me, and I will make you to become fishers of men.

18. And straightway they left the nets, and followed him. 19. And going on a little further, he saw James the son of Zebedee, and John his brother, who also were in the boat mending the nets. 20. And straightway he called them: and they left their father Zebedee in the boat with the hired servants, and went after him.

Introduction. In the present lesson Mark tells us of the temptation of Jesus which immediately followed his baptism in the Jordan; of the return to Galilee at the close of his Judean ministry; and the inauguration of his work in Capernaum with the call of four fishermen to be his permanent associates.

The Temptation. The time is fulfilled, and the kingdom of God is at hand: repent ye, and believe in the gospel.—Mark 1:15. The time and place: The temptation, January-February, A. D. 27, in the wilderness of Judea. The imprisonment of John the Baptist, March, A. D. 28, at Machaerus to the east of the Dead Sea. The calling of the four fishermen, April-May, A. D., on the shore of the Sea of Galilee.

The Forty Days' Fast. "And he was in the wilderness forty days." A forty days' fast used to be considered by the skeptics to be impossible, but in recent years facts of that length and even of much greater length have been kept the experimenters in the interest of science and by "hunger strikers" in prison.

The First Temptation. Through all the forty days our Lord was constantly tempted, but in giving an account of his experiences he summed them up in three typical temptations. One was physical: he was seized by fierce hunger, and Satan tempted him to prove himself the Son of God by turning into bread the flat, loaf-like stones around him. He could do it easily enough; he worked a similar miracle once for five thousand persons, and again for four thousand. But Christ never used his divine power for himself, only for others; so he answered Satan's suggestion by quoting Deut. 8:3, "Man shall not live by bread alone." He would conquer his lower desires by the heavenly satisfactions.

The Second Temptation. The second temptation (according to Matthew) was to go to Jerusalem and cast himself down from the roof of the temple, trusting to the angels for his protection. Scripture for his evil ends, "He shall give his angels charge concerning thee: and on their hands they shall bear thee up lest haply thou dash thy foot against a stone." Thus he would prove to himself that he was the Son of God. But Christ's sufficient answer to the suggestion was another Bible quotation, Deut. 6:16, "Thou shalt not tempt the Lord thy God." God is not to be put to the proof in that way. To follow Satan's suggestion would embark Jesus on the career of a mere magician and mountebank.

The Third Temptation. The devil took our Lord (doubtless in imagination or vision) to a great mountain-top from which he could see all the kingdoms of the world in all their glory; and made him the bold offer, "I will give you all these if you will only fall down and worship me." Christ was well aware, as he told Pilate at his trial, that his kingdom was not of this world. No power and glory that Satan could possibly give him would answer his holy purposes; so he replied with another quotation (Deut. 6:13), "Thou shalt worship the Lord thy God, and him only shalt thou serve."

Jesus' Judean Ministry. Mark's rapid narrative omits John the Baptist's testimony to Jesus as the Messiah; the accession to Christ's ranks of five of John's disciples—Andrew, John, Peter, Philip, and Nathanael; the turning of water into wine at Cana of Galilee; Christ's first driving of the traders from the temple and his memorable nightly conversation with Senator Nicodemus; and the work which Christ did with John

later in his Gospel 6:17-29). Return to Galilee. Jesus made Capernaum the principal base of his great Galilean ministry. It was on the shore of the Sea of Galilee, a beautiful body of water about thirteen miles long and seven and a half miles wide. The River Jordan on its descent from Mount Hermon to the Dead Sea flows through it under sea level 882 feet. It is fresh and clear and abounds in fish. In Old Testament times it was called the Sea of Chinnereth. In the New Testament it is called Sea of Tiberias (after a Roman Emperor); Lake of Gennesaret (after a plain beside it) and Sea of Galilee (after the province).

Preaching in Galilee. "Preaching the gospel of God and saying, The time is fulfilled." The prophets had set no definite and clearly understood time for the coming of the Messiah, and the last of them (except John the Baptist) was four and a half centuries in the past. Now, said Christ, this long period of waiting and of vague expectation is at an end. God's day had dawned. Christ came in the fulness of time. The wickedness of the world made his coming, so to speak, imperative, while the condition of the Roman Empire furnished the best possible field of universal peace for the spread of the gospel. Christ could not have

come, either earlier, or later, at a better time. First Disciples Called. Passing along the lakeside, perhaps in the suburbs of Capernaum Jesus called to the ministry two pairs of brothers, Peter and Andrew, James and John. They were already disciples of Jesus for they had accepted him after John pointed him out as the Lamb of God. They were with him at Jacob's Well and at the wedding feast in Cana. They may have been with him during most of his Judean ministry. Yet they retained their business connections and wrought at their profession for the support of their families. Now, however, they get their call to abandon secular pursuits and give themselves wholly to the ministry. Without a moment's hesitation or delay they obeyed the call, at once giving up their business to follow him wholly and for the whole time.

Heeding Christ's Summons. "And straightway." The fourth use of Mark's adverb "straightway" in the chapter, and there are seven more to come! "He called them," giving them the same summons to follow him and become fishers of men that he had already given to their friends, Andrew and Peter. "And they left their father Zebedee in the boat with the hired servants, and went after him." Zebedee gave his sons freely to the Lord, evidently approving their exalted purpose. Salome, his wife, seems to have

UP THE LADDER. ST. PAUL (AP)—Otto Goetsch, who was at the state capital as a janitor during the 1923 legislative session, is coming back next month as a representative. Now a farmer near Dexter, Minn., he has been carpenter, general store proprietor and postmaster since leaving the state-house.

KREISLER IS LOST. NEW YORK (AP)—Fritz Kreisler, violinist, doesn't feel happy. Arriving here to keep engagements, while his wife remains abroad resting from an illness, he said: "This is the first time in 35 years we have been separated like this and I feel really lost. It supports my belief love is above all else, even the career of an artist, or a musician."

The highest tide since 1911 was recorded at Charleston, S. C., this fall. been the sister of the Virgin Mary, so that Jesus was the cousin of James and John. John appears to have been intimate with the family of the high priest and to have had a house in Jerusalem, to which he took the mother of Jesus, when she was left to him as a precious legacy by the Crucified. He became in later years the bishop of the church in Ephesus and at one time was exiled for his faith on the Isle of Patmos.

Nurse Avenges Editor's Death In New Killing

SOFIA, Bulgaria, Jan. 6. (AP)—The recent fight between rival Macedonian factions in front of the king's palace had a sensational aftermath last night when a hospital nurse attending Christo Trojanoff, who was wounded and captured after having fatally wounded the Editor Estimoff, drew a pistol and fired three shots into her patient, killing him.

This brings the number of deaths in connection with the attack on Estimoff to four, the others being a policeman, an employee of the war office, and the editor himself. No one suspected the nurse, Katharina Konstantinoff, when she appeared shortly after midnight for a visit to the ward. Learning over as though to rearrange the pillow, she suddenly drew a pistol from under her apron and calmly fired three bullets into Trojanoff's breast.

Seized by the police, she confessed that a Macedonian had given her the weapon with a command to kill the man who killed Estimoff. As a patriotic Macedonian, she said, she obeyed without question.

Methylene Blue Used Successfully To Revive Carbon Monoxide Victims

SAN FRANCISCO, Jan. 6. (AP)—A prostrate form, dragged from a closed garage in which an automobile motor has been running, is surrounded by physicians and an inhalator crew. The subject has ceased to breathe. Expert fingers detect no pulse. But the rescuers work on.

In a day or two the patient is convalescing. What has happened? To the man in the street, a near miracle. To scientists it was a drama of chemistry—a battle of atoms in a new process for resuscitating victims in carbon monoxide and cyanide poisoning by the use of methylene blue.

This battle of invisible elements was described today by Dr. Mathilda M. Brooks, University of California research associate who first suggested the methylene blue treatment, and Dr. J. P. Gray, acting director of public health of San Francisco, who has observed its operation.

Osmosis Takes Place. Just what happens in the first act of the drama is reported by Dr. Gray and reduced as far as possible to everyday terms, is this: Immediately before the trouble starts the normal process of respiration is operating. Air, containing approximately 20 per cent oxygen is passing into the thin-walled cells of the lungs. On the opposite side of these walls the blood spreads itself over a wide area. By a process called osmosis, the oxygen atoms from the air permeate these thin walls, to be picked up on the other side by the hemoglobin in the blood.

Hemoglobin, a compound of carbon, hydrogen, oxygen, nitrogen, iron, and sulphur, combines loosely with oxygen, giving it up to the cell tissues without much of a struggle as the blood courses through the body.

Then the automobile exhaust fumes, consisting mainly of carbon monoxide, displaces the air in the lungs. The blood, coursing along the walls of the lung cells for oxygen, finds carbon monoxide instead. The hemoglobin has a greater chemical affinity for carbon monoxide than for oxygen, picking it up readily and forming a chemical compound containing oxygen but holding onto it so tightly that the cell tissues get little or none. Death approaches.

Blue Is Here. Now methylene blue, heretofore used mainly as a dye with which to stain germs and make them visible under the microscope, enters as the conquering hero. "Methylene blue," said Dr. Brooks, "takes the place in the blood, temporarily, of the oxygen-carrying cells until they are able to resume proper function. The dye carries the oxygen to the tissues."

She pointed out that when the hemoglobin becomes fully supplied with carbon monoxide the resulting element could not be broken up and respiration restored merely by the application of oxygen to the victim. Something has to be done to change the composition of the poison-carrying hemoglobin back to its usual form.

Dr. Gray likened the action of the dye to catalysis, a chemical process by which a substance is added to a combination of chemicals to break up the combination, the catalyzer emerging from the operation apparently without itself having undergone a change.

"We do not know how long the methylene stays in the blood," said Dr. Brooks, "but indications are it is eliminated quickly."

Giant Theaters In Radio Center 'Change Places'

NEW YORK, Jan. 6. (AP)—The two giant theaters of Rockefeller center, which opened Christmas week, are going to "change places."

M. H. Aylesworth, president of Radio-Kelch-Orpheum Corp., announced today that beginning next Wednesday the Radio City music hall, which began with stage spectacles and no movies, would swing over to a mixed program of feature pictures and stage products.

The RKO-Roxy theater, which began with the sort of mixed bill which is now to go on the music hall stage, will on the same day switch to a program of stage productions only.

Aylesworth said the reason for the change was that the mixed fare at the RKO-Roxy, which seats 3,700, had proved so popular that there was insufficient accommodation for patrons there and so it was decided to move that type of program to the music hall, which seats 5,200.

The Aylesworth statement denied rumors that the RKO-Roxy was to be closed and that the corporation did not have access to sufficient feature pictures to meet its needs. It also said that Samuel R. Roxy, who would resume active direction of both theaters as soon as he recovers from a minor operation performed soon after the theaters were opened.

Imposter's Pose As Bebe Daniels' Spouse Blows Up

LOS ANGELES, Jan. 5. (AP)—A world war veteran's persistent pursuit of Bebe Daniels, film actress, carried on under the delusion that she went to school with him, married him and became the inspiration for his lyrics, today had ended in his commitment to a state hospital.

The veteran, Albert F. Holland, conducted most of his defense on an insanity complaint signed by Ben Lyon, husband of the actress. Miss Daniels testified she had seen Holland five times, on occasions when he was in custody, the first being in 1931 when he was placed in the psychopathic ward for his attentions to her. She added he had never threatened her but said, "I am afraid for my husband and baby."

Holland was found insane on two previous occasions, once when he forced his way into Miss Daniels' room in a San Francisco hotel. He had been allowed to leave institutions to which he had been sent.

Holland claimed he married Miss Daniels in Mexico in 1925. "She was to be the bride in a motion picture wedding," he testified, "and there was no bridegroom available, so I was chosen. Afterwards, I learned the ceremony was valid."

HOW'S your HEALTH

Edited by Dr. Iago Goldstein Academy of Medicine

Pain In The Back

"My back hurts. What do you suppose is the cause of it?" is a question that may give the physician cause for much study.

A simple classification of the possible causes of painful backs includes 80 distinct conditions, grouped under five major headings. Pain in the back may be caused by either acute or chronic inflammatory conditions and, by injuries, such as contusions, sprains, dislocations, fractures and tumors.

General constitutional conditions, such as rickets, curvature of the spine, pregnancy, may produce painful backs, and not the least important are what we call the referred causes, such as, for example, malposition of the uterus, disturbances in the joints and pleurisy.

Before the physician can give the proper answer to the question, "My back hurts. What do you suppose is the cause of it?" he is obliged to make a careful and complete examination, which includes history, physical examination, laboratory examinations, and possibly x-rays.

Of course, not every case needs this elaborate procedure. The treatment of painful back of necessity depends upon its cause. An acute inflammatory condition such as boils or carbuncles, may require simple surgical treatment.

Other conditions may call for medical treatment, physical therapy, such as baking or heat treatment, orthopedic treatment, massage, and the like.

In recent years the surgical treatment of infective and destructive processes involving the bony structure of the back has made marked progress.

Most of these operations are performed in order to help nature, by holding the diseased, the injured, strained or deformed parts quiet. Such operations are called fixation operations.

Another type of operation which is at times resorted to consists in cutting away portions of the spinal column. This type of operation is usually performed in order to relieve pressure upon the spinal cord.

HIS ERROR
CHICAGO (AP)—As the police tell it, Thomas Bolger, had the right idea but the wrong technique.

He is accused of being in the tailoring establishment of Samuel Green when Mr. and Mrs. Green were asleep. It seems he stubbed his toe, awakening Mrs. Green, who said: "Tommy! Tommy! Get back in your box!"

"Meeoow—Meeoow," said Bolger, who is a fast thinker.

When police came in response to Mrs. Green's telephone call Bolger learned he should have said "bow-wow." Mrs. Green's Tommy isn't a cat. It's a wired haired terrier.

Tobacco speculators are known to the trade in Kentucky as "pin hookers."
