## Nature's Paving Material Gives Cheap Surface

**TWINKLES**  
If all the storms which start here from Colorado and other states actually arrived, the federal weather bureau would be very accurate. But we cannot logically count our blizzards until they arrive. Our climate is a whole of a lot better than the average of all the weather forecasts the government issues.

Travis Lively and associates remind us again, with their bringing in of roses, that when winter comes spring cannot be far away. Pampa cannot have too many flowers. Amarillo is not yet "a city of roses," but Pampa can be if the citizens desire it.

It seems evident that the city auditorium is not being used as much as anticipated. Built by taxes, it should be available to citizens for public meetings free of charge and at bare cost of lights and heat for more private gatherings. Perhaps the rulings should be liberalized.

We desire to acknowledge, for Baker school cafeteria, the gift of two bags of groceries by Mr. and Mrs. J. C. Noel. The children and the school appreciate this gift, and this writer joins in thanking Mr. and Mrs. Noel.

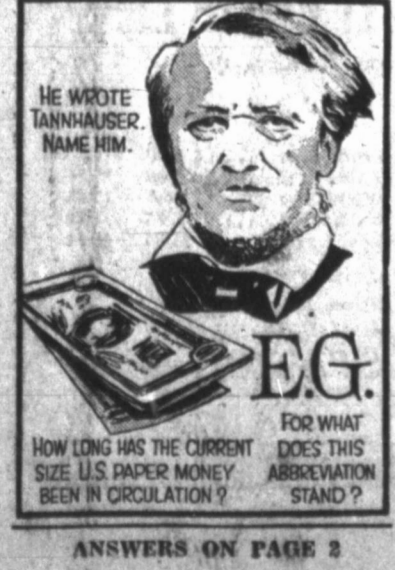

Philippine politicians who shouted to high heaven for independence of generous old Uncle Samuel are changing their tune. Being orphaned in times like we have had in the last two years is not to be sought, even in the name of independence.

Percy, the office mouse, says the municipal swimming pool will bring thousands of persons to Pampa over paved roads when the weather clears and the water warms. He says, however, that while he can swim in cold water if necessary, he much prefers it almost lukewarm.

**BLACK MAGIC.**  
Tax reduction has been carried as far in many communities as good judgment dictates. Fixed charges must be met. Taxes and public credit are interwoven. Credit implies debts, and debts must be paid. Other economies are possible, but they are in many instances minor problems. Many kinds of tax reductions are really types of black magic. Taxpayers have several pockets. It is possible to quit spending from, say, the ad valorem pocket but come right back with raids on the income tax pocket, the higher gasoline tax, and the like. Moreover, it is possible to refinance and lower fixed charges, but this, also, is black magic. If any reduce the burden per year but add to the number of years in which payments are necessary. In considering taxes, remember that you have many tax pockets.

**MONETARY FAILURE?**  
Since this is a form for discussion of economics, we will today quote Dr. J. O. Ellsworth, head of the department of agricultural economics at Texas Tech:  
"Failure of our monetary system, and not overproduction, is the principal cause of our depression. Just because overproduction at times does cause low prices, we are prone to attribute the present low prices to that cause. Statistics do not

## THREE GUESSES

FOR WHAT DOES THIS SIZE U.S. PAPER MONEY REPRESENT? ANSWERS ON PAGE 2

## Caliche, Calcium Carbonate Deposits in This Area, Put On Highway 33.

SOMETIME next week laying of caliche on highway 33 from Pampa to the Roberts county line will be completed and the last lap of the road opened to traffic.

Next spring, a thin top seal of liquid asphalt topped with crushed stone will be applied to complete the contract of the firm of Coker & Braden of Marshall. The total cost of the road will be about \$7,919 per mile for the 14.3 miles, including grading and drainage.

Caliche, placed by nature adjacent to the road, has been a cheap road-building material. When new the road will be very smooth and jointless, but re-topping every few years may be necessary if traffic is heavy. Use of caliche in this section is somewhat new, but more widespread experimenting with it is predicted because of the lower cost than concrete and the difficulty of keeping concrete smooth. Some engineers believe, however, that building of concrete roads is becoming more scientific, cheaper, and desirable.

At any rate, nature was kind to Gray county in providing a generous supply of good quality caliche. The word caliche is of Spanish origin and relates to lime. It is a flexible term, but usually is a form of calcium carbonate. Chemists will recognize the name as meaning chalk, but caliche is impure chemical and contains other minerals. Its origin is disputed. Some geologists think it resulted from decomposition of other minerals, while others trace it to prehistoric marine life.

Three pits were used in highway 33 construction, located on the farms of Max Mitchell, F. W. McAfee, and Milo Loughlin. When

Representatives of pipeline companies, purchasers and transportation companies handling crude oil in the Panhandle field will meet in the office of the oil and gas division of the Railroad commission in the Rose building at 10 o'clock tomorrow morning.

They have been called together to discuss the rules and orders issued following a statewide hearing in Austin, when such companies pledge themselves to take the nominations set by themselves and to make connections in rotation. The question of inter-change of connections so that no one company would be taking more or less than its share will be one of the important points of the discussion.

They will be asked to cooperate with the commission by fulfilling their pledges. At that time, each company carrying crude oil cited the amount of fluid they would be willing to handle and which would be market demand.

**WITNESSES ARE THREATENED AT 'TENT MURDER'**  
LIVINGSTON, Jan. 18. (AP)—Defense witnesses described two mysterious persons, a man and a woman, who allegedly threatened to "get" Lou H. Brownlee, yesterday at the trial of Durrell Kendall for the "tent murder" of Martha Busk at New Caney in December, 1931.

The battered bodies of Brownlee and the woman were found in their show tent. Kendall was acquitted last summer on a charge of murder in connection with Brownlee's death.

One witness for Kendall said a man told him "I'll get him if I have to chase him in the ocean. I have followed him 300 miles and now I'm going to get him."

**I HEARD--**  
That two of Pampa's staunch republicans attended the inaugural ceremony of Mrs. Miriam A. "Ma" Ferguson in Austin yesterday. They were A. G. "Pete" Post and C. E. "Dan" McGrew.

## Hoover And Roosevelt To Talk Again Tomorrow

### INTERNATIONAL RELATIONS TO BE DISCUSSED

**SINO-JAP WAR MIGHT BE INCLUDED IN CONFERENCE**

**JAPANESE DISCOURAGED**

**TREATY SANCTITY IS IMPRESSED BY ROOSEVELT**

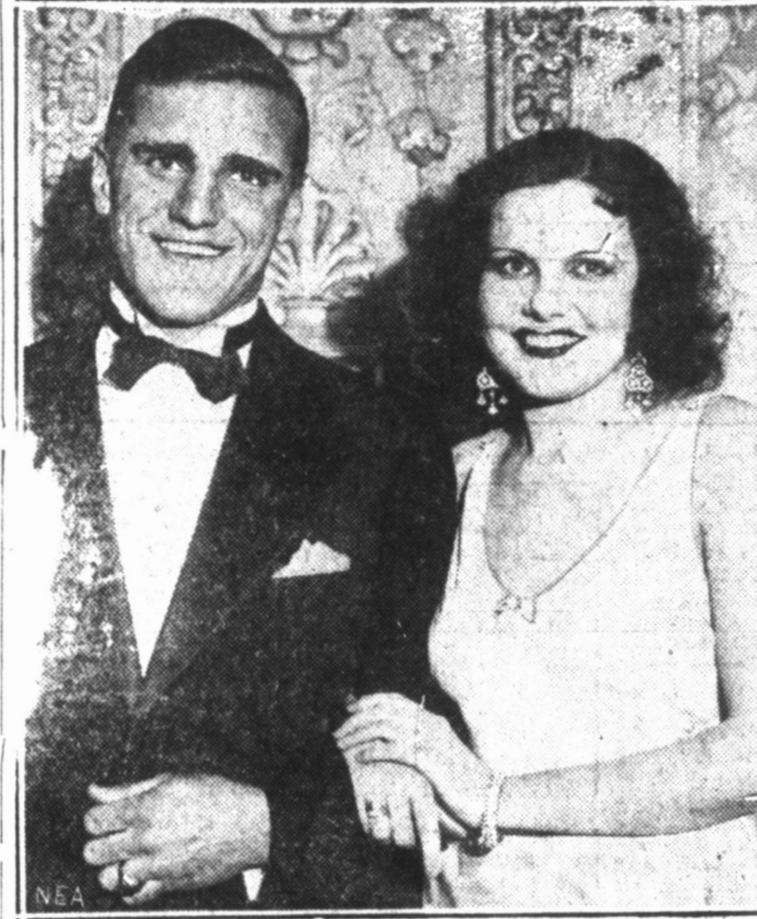

WASHINGTON, Jan. 18. (AP)—President Hoover and President-elect Roosevelt will confer at the White house Friday morning on foreign affairs and international developments now unfolding.

The president intends to confine the conference to those topics along which the situation now stands. This was asserted in the highest quarters this forenoon, soon after it developed that Mr. Hoover had invited his successor-to-be to a second meeting in the executive mansion.

Although the White House officials remained silent, it was stated that the meeting would be a continuation of the present administration's effort to gain an accord with the incoming administration on international policies.

This has been interpreted in official circles to mean not only the

### CUPID SCORES ON GRID CAPTAIN

CUPID is scoring touchdowns now that football stars are wearing stiff shirts instead of leather shoulders. Paul Reider, captain of Pittsburgh's Panthers, is the third member of the team to be thrown by Cupid. Here he is with Miss Ann Farrell of New Castle, Pa., as they announced their engagement.

### MRS. FERGUSON GRANTS TEN-DAY STAY OF EXECUTION TO HILTON BYBEE IN ORDER TO STUDY PLEA

**Robbery Victim And Jury Intercede For Youth**

AUSTIN, Jan. 18. (AP)—Mrs. Miriam A. Ferguson today granted a ten-day reprieve to Hilton Bybee, under sentence to be electrocuted on Friday for assault by violence and robbery with fire arms in Cotulla county.

Mrs. Ferguson agreed to the reprieve because of the confusion incident to her assuming office yesterday, preventing her studying deliberately pleas for commutation.

Representations were made to the woman governor that Slape and eleven members of the jury that gave Bybee the extreme penalty had petitioned for clemency. Bybee was convicted for the robbery of Ernest Slape, who was shot down during a holdup. Slape recovered from his wounds.

R. S. Sterling, who left the governor's office yesterday, declined to interfere in the case. He accepted recommendations of the board of pardons and paroles that the sentence be not commuted.

**Sterling Planning To Go Fishing Soon**

HOUSTON, Jan. 18. (AP)—Ross Shaw Sterling was a private citizen today, just another one of the six living ex-governors of the commonwealth of Texas. He was thinking of going fishing.

The retiring governor, who has succeeded yesterday by Mrs. Miriam A. Ferguson, relaxed in an easy chair at his bayshore home here last night and said he was returning to private life with a distinct feeling of relief. He left the governor's office in Austin at noon and motored here.

"It is good to get back home," he sighed, as he took his seat. "The fellow who wrote that song about 'Home, Sweet Home' certainly knew what he was talking about."

### 'SWAPPING' LABOR FOR FOOD HELPS MANY IN WEST TO EAT

EDITOR'S NOTE: Barter of "swapping" has become "big business" in some localities. Barter exchanges have been organized to direct the exchanging of work for food, pigs for doctors' bills, oats for haircuts and eggs for clothing. Scrip, issued for labor, is extensively in circulation. The development of the barter idea, mode of operation, psychological, and economic consequences are told in five stories, of which the following is the first. Each is complete in itself.

SAN FRANCISCO, Jan. 18. (AP)—A hungry private in the army of unemployed found a way to keep on eating last March, and 160,000 needy persons in Los Angeles county today are sharing the fruits of his idea.

This jobless man—his name long since forgotten—found his family and himself facing want. The hunt for a wage-paying job seemed futile. So he went direct to the source of food supply.

### SINCLAIR AND STANDARD CUT CRUDE PRICES

**FIFTY-TWO CENT PER BARREL TOP NOW PREVAILS**

**COMPANIES FOLLOW SUIT**

**'BOOTLEGGING OF OIL' IS BLAMED FOR ACTION**

TULSA, Okla., Jan. 18. (AP)—The two largest crude oil buyers in the midcontinent, Sinclair-Prairie and Standardin crude oil purchasing companies, today slashed prices to a 52-cent per barrel top.

The Sinclair-Prairie concern, Consolidated Oil's buying subsidiary, met Standardin crude oil purchasing reduction from a 77-cent top.

Next in line today were the Barnsdall Pipeline company, and Bell Oil & Gas company with the current decrease.

However, at Dallas, officials of the Magnolia Petroleum company said immediate reductions were not under consideration.

Standardin Crude Oil Purchasing company began paying 28 to 52 cents for Kansas, Oklahoma, North, and North-Central Texas oil according to the degree of gravity, with a flat 50 cent rate for East Texas crude.

Deep Rock Oil corporation, which buys only in Oklahoma, quickly followed suit.

A statement by Standardin laid the action to "bootlegging of crude oil" at "under the market price."

Nevertheless, another large purchaser, the Continental Oil company, met the reduced scale at midday.

### Annual Poultry Show Will Open Here Tomorrow

Pampa's big poultry show will open tomorrow in the Johnson building at 308 West Foster with many enthusiastic exhibitors presenting for public inspection and judging the best birds in their flocks.

Many inquiries concerning the show were received at the Board of City Development this morning. First entries were expected to arrive this afternoon. Most of tomorrow will be needed for classifying and placing the exhibits.

Public inspection will begin in late afternoon and continue until about 5 p. m. Saturday, when the removal of birds will begin.

Judging by R. B. Galloway of the Hardeman-King company of Amarillo will begin Friday morning.

### THIS ONE, TOO

PAUL Host, captain of Notre Dame's 1932 football team, and Miss Betty Bushnell of Louisville, Ky., soon will wed. Here they are as they announced their engagement at Chicago.

### PETTY THEFTS ARE STEADILY GROWING HERE

Elevator Is Entered; Residences Are Looted

THE Martin-Lane elevator was entered last night but nothing taken, an investigation showed this morning. Entry was gained by smashing the lock on the office door.

City officers investigating the burglary tracked the two men to the Great West elevator on the same street but lost their tracks on the pavement. Tracks were found around the Great West office but no attempt was made to enter.

A. D. Johnson reported the loss of a tire and rim from his car, parked in front of the Strickland apartments last night.

Entry to E. H. Hamlet's residence, 911 East Francis avenue, was gained through a screen window. Seven dollars in bills were taken from Mrs. Hamlet's purse but nothing else was disturbed. Thieves also opened a window in one of the Kellely apartments and were removing clothing when the occupants frightened the man away.

Officers are working at top speed every night but so far have been unable to catch anyone. Chief Jno. V. Andrews urges citizens to lock their homes and cars regardless of how long they expect to be absent. Five cars have been stolen during the last week and most of them had keys in the locks.

### NEGRO CONFESSES

BOSTON, Jan. 18. (AP)—Police said Joseph Taylor today admitted he was Joseph Crawford, the negro sought for a year on a charge that he killed Mrs. Agnes Boeing Illsley, a wealthy widow, and her maid, Miss Mina Buckner at Middleburg, Va., but he denied that he committed the crime.

Mr. and Mrs. J. F. Clark are the parents of a son, born at Worley hospital yesterday afternoon.

### LIME PAY TREATMENT INCREASES OIL FLOW IN PANHANDLE WELLS

He said that first experiments were made in Kentucky in 1927 with gratifying results. The Michigan field was next to try the method and then the Midcontinent field was used for an experiment and the Brokenridge field was the local production company, Burger, before a well attended meeting of the Panhandle chapter of the American Petroleum Institute in the city hall last night.

John Meyer was welcomed as the new chairman of the Panhandle chapter. He presided. He discussed plans for an active year and then introduced the speakers of the evening.

Mr. McDaniel gave the history of acid treatment of lime formations.

### CHAMBLESS IS IN CUSTODY OF LOCAL OFFICER

**BOY FUGITIVE DENIES HE SLEW DEPUTY AT DALLAS**

**IN CALIFORNIA AT TIME**

**CLAIMS HE FIRST HEARD OF SLAYING IN NEW MEXICO**

ODELL CHAMBLESS, 21-year-old youth sought in connection with the slaying of Deputy Sheriff Malcolm Davis of Fort Worth in West Dallas recently, arrived in Pampa near noon today and shortly afterward voluntarily placed himself in the custody of Constable Frank Jordan.

He told his father, J. Chambless, Constable Jordan, and a representative of The NEWS that he was not guilty of the Dallas slaying, that he had been in California on en route to or from that state since January 4, when he took a bus for California from Houston.

His first knowledge of the Dallas slaying, done by two gunmen who stopped in front of a house where deputies were hiding January 7, was at Santa Fe, N. M., he said. There he saw his picture and a reward offered for his arrest. The picture was posted in the city hall. Young Chambless, a frank-spoken youngster, said that he decided then to come to Pampa and voluntarily give up because he did not wish to be hunted for something which happened after he left the state.

"You know how it is," said his father, "when a boy gets a bad name and can't be found they accuse him of just about everything that happens. That's why he gave himself up to Mr. Jordan."

After consulting counsel, Chambless indicated a desire to face his accusers in Dallas. Plans were made by Mr. Jordan to take him downstate to face accusations for which he has been hunted. For more than a week, it had been rumored that Chambless was with Clyde Burrow,

Constable Frank Jordan, above, to whom Odell Chambless gave up this afternoon, will take the youth downstate to face accusations made against him recently.

also hunted, and Saturday night Fort Worth officers had a report that the two were in a yellow Chevrolet, hiding in the rumble seat, somewhere on the Bankhead highway. A blond woman was claimed to be driving the car. Heavily armed Fort Worth officers made a search without avail.

Denying this connection entirely. (See YOUTH, Page 5)

### I SAW--

A new student (feminine) of Pampa high school walk up to Gerdis Schmidt, who was standing in the hall, and ask him if he were the high school principal.

Mr. Shaw of Richards Drug, anxiously waiting for the cars to pass before he crossed Cuyler at Foster. "I think that signal light never should have been discontinued—why sometimes there're cars lined up for half a block. That's caused by tourists who are waiting for the light to change. Anyway, there ought to be a sack over the signal," he said.

'RADICALISM' FROM THE R. F. C.

The Reconstruction Finance Corporation's proposal to have the government underwrite resumption of full 1927 industrial production seems to prove once more that it takes an ultra-conservative to make a really radical suggestion.

That the gentlemen who head the R. F. C. are solid conservative is hardly open to question. And that the plan they have evolved is one of the most radical ever put up to this nation is almost equally plain.

What, now, becomes of that time-honored chant about keeping the government out of business? When Uncle Sam guarantees the industry of the whole nation against loss, and stands to pocket a percentage of any profits industry may make, he is in business up to his neck, any way you look at it.

And yet, for all the criticism that can be raised against the plan, it is encouraging to see it put forward.

At the very worst it is at least a positive, definite scheme for coping with an intolerable situation; and, as such, it comes close to being a complete novelty.

Perhaps the oddest thing about the whole depression is the fact that responsible leaders in government and industry have advanced no comprehensive program for settings things right. Such proposals as have been made have been sketchy and incomplete. We have been urged to tackle the problems of the depression separately; almost every scheme suggested has suffered because its author seemed to be afraid of going too far and startling someone a little.

Here, at any rate, is something concrete and far-reaching. It may be a good plan or it may be a terrifically bad one; but it is a plan, and it covers all of the ground. Even if it never gets beyond the blue-print stage it gives us a basis for discussion.

And it ought, for that very reason, to help us stop drifting. We ought to realize by this time that we cannot afford to sit back and wait for things to right themselves. If we don't like the R. F. C. plan, we cannot escape the necessity of trying to outline a better one.

The "eternal light" erected by patriots in New York after the armistice has burned out. At that, it lasted longer than the "eternal peace" the Yanks were fighting for.

If the \$6000 reward money for the capture of "Pretty Boy" Floyd, Oklahoma bandit, ever is assembled in one spot, they'd better keep it secret. Floyd has stuck up banks for less than that.

When a fellow leans over to look into these new auto radiators he's apt to come up looking like a grilled halibut steak.

Someone should tell President Hoover that at last there are two cars in many a garage—both without license plates.

Ohio nudists are planning a summer camp. This should clear up the technical unemployment among Buckeye mosquitoes.

Husbands who took seriously their wives' requests not to get them anything for Christmas are just getting back on speaking terms again.

OUT OUR WAY ... By WILLIAMS

Small Towns To Be Subject Of Klein's Address

"Small-Town Chambers of Commerce" is the subject of a radio talk to be given January 22, from 7 to 7:15 p. m. Eastern Standard time, by Dr. Julius Klein, assistant secretary of commerce of the United States.

Dr. Klein will uphold the view that students of business matters should not concentrate unduly upon the big industrial centers and money-marts of the country, but should also scrutinize with utmost care the conditions, sentiments, and efforts in the smaller communities.

Dr. Klein will show how such forces find expression through the local newspapers, daily or weekly, and through active chambers of commerce in these smaller cities and towns. He will cite numerous instances in which such agencies have rendered remarkable service to their communities in combating unusual perplexities of the depression.

TWO CENTS WORTH BOSTON—Ruth Francis, 8, and her step-sister, Pauline Gregorio, 5, got their two cents worth. They boarded a ferry where they turned over their total capital, then hiked to a station where they got on a train for Marblehead.

East Texas Oil Field Now Under Command Hundred 'Oil Rangers'

By WILLIAM S. WHITE, Associated Press Staff Writer. TYLER, Jan. 18. (AP)—A new kind of ranger, the oil ranger operates today in the greatest petroleum field the world knows, that of East Texas, where 9,000 odd derricks stand flanked by native pines.

More than 100 men are under warrant from the Texas Railroad commission to enforce conservation and proration laws in the field. Whether all these rangers have been doing their full duty may be discussed at a special legislative committee investigation which gets underway here Thursday.

In the OIL FIELDS

Of 24 locations in Gray county, only six are in stages of drilling. Seven rigs are being erected or cellar dug. Six tests are shut down for various reasons.

Six wells were brought in last week and showings of oil were encountered in three others, which were shut down for orders. Under the activities are in the Morse, LeFors, and South Pampa pools.

Wildcatting in the county has been discouraged during the last year and as a result most of the tests are in proven territory. It is proving hard to secure pipeline connections, and as a result several tests are on top of pay but not drilled in.

WAIVES TRIAL ARCHER CITY, Jan. 17. (AP)—Horace Cozart waived examining trial today and was bound over to the grand jury under \$1,000 bond on a charge of forging a cashier's check for \$100 on an Amarillo bank that does not exist and passing it.

Denver Wright Hunts Lions In Missouri Again

SIKESTON, Mo., Jan. 17. (AP)—Denver M. Wright was back in the Mississippi river "veldt" today on his second lion-hunting expedition.

While the St. Louis manufacturer was keeping secret the place he intended to stage his hunt, it was believed an island in the Mississippi about 20 miles from here would be the scene of the "safari."

Before leaving St. Louis with two 400-pound lions he purchased for the hunt, Wright said the island selected for his new venture would be "the nearest thing to an African jungle this side of the equator."

Sheriff J. O. King of Mississippi county said Wright would be given carte blanche to bang away at his lions in the sheriff's balliwick.

The St. Louisian's attempt to stage his first hunt last October ended "famously when a deputy sheriff of Scott county, north of Mississippi county, killed two young circus lionses. Wright had released on an island before the hunter could get a shot at them. Officials of humane societies also protested against the first hunt.

Mrs. E. L. Luke of LeFors was a Pampa shopper this morning. Mrs. Charles E. Cortis of Miami shopped in the city yesterday.

## Fine Pottery From All Parts of United States Is Exhibited In Pampa

### COLLEGE PRESIDENT SPEAKS TO LARGE GROUP REGARDING EDUCATIONAL ISSUES OF DAY

MUSIC CLUB AND MALE QUARTET SING; SUPT. R. B. FISHER AND OLIN E. HINKLE SPEAK BRIEFLY; MRS. TOWNSEND PRESIDES

"THE price per capita for support of the West Texas Teachers college at Canyon this year is but 3.8 cents, or little more than postage for a letter," declared J. A. Hill, president of the institution, in an address at the First Christian church last night, sponsored by the city council of Parent-Teacher associations. Attendance was large despite inclement weather.

In contrast to this expenditure, he said that Texans are spending \$12.81 per capita for snuff, tobacco, and cigars. Other luxuries and relative non-essentials are similarly high. "Is education worth only one-twelfth as much as tobacco?" he asked after pointing out that Texas this year has only 92.34 cents set aside for all higher education. Characterizing education as the most important function of government, the speaker said that while it is necessarily expensive, it may be said that "civilization, too, comes high." But who would say, he asked, that the price of civilization is too great?

Answers suggestions of a legislative committee that the West Texas Teachers college be abandoned or made a junior (two-year) branch of the University of Texas, Dr. Hill said that the committee's report was written by a Ph. D. from Elmira, N. Y., who, after spending 4 hours in Canyon, wrote that the college "serves a narrow, specially selected strip of land in the Panhandle." This strip, said the speaker, is almost exactly the same in acreage as the entire state of New York.

Other facts given about the school included the following: It is in its 23rd year. Nearly 16,000 students have attended it since 1910.

From Canyon it is easier to reach the capitals of Texas, Oklahoma, Kansas, Colorado, and New Mexico.

The 26 counties immediately around Canyon have 10 per cent of the area of Texas, 5.8 per cent of the property values, pay 5.8 per cent of the taxes, have 4.1 per cent of the population, and spend 3.9 per cent of all money used for tax-supported higher education.

Of the 140 Teachers colleges in the nation, the one at Canyon ranks 21st in number of degrees conferred.

This year's enrollment gives promise of passing the peak regular season.

### PLAIDS AND CHECKS POPULAR

(From Bergdorf Goodman, N.Y.)

PLAIDS, stripes and checks abound in southern cruise fashions, pointing to a spring of gaiety in clothes if not in business. Among the smartest of the new things comes a trim little suit for the jaunty yachting girl or for daytime southern wear or a day in Bermuda. A double-breasted, gold-buttoned, short-sleeved green linen jacket tops a brilliant green plaid skirt, in two shades. There is a scarf of the same crepe as the skirt and the hat is the green of the jacket.

For evening, linen is high fashion. Red and white line checked linen makes a youthful little number for dancing. A demure cape covers the top of the frock, but don't be deceived. There's nothing too demure about the smart bathing suits harness back of the dress décolletage. White gloves, white bag and a single enormous red bracelet fix the girl all up for the time of her life.

### UNLUCKY GUESTS WASH DISHES AT PARTY GIVEN BY BUILDERS CLASS FOR CLARA HILL GROUP

Culminating an attendance and membership contest, the Builders class of the First Methodist church entertained the Clara Hill class with a party in the church parlors last evening.

As guests registered, they were presented pinto beans, were told to answer "yes" or "no" to every question asked, and to use their left hands in shaking hands. The penalty for failure in one of these commands was one bean, and at the close of the evening those who had the smallest number of beans were assigned the task of washing dishes.

Jim Collins, recreation chairman of the Builders class, directed the group in exciting games, after which the men served dainty sandwiches, doughnuts, and coffee. While unlucky guests were washing, the remaining number enjoyed a sing-song.

The following persons attended: Messrs. and Mesdames W. V. McArthur, L. C. Gomillion, R. C. King, Jim Collins, J. O. Gillham, Joe Gordon, F. L. Stallings, Roy Pearce, Carl Sturgeon, Clifford Jones, Roy Kretzmeier, Ferris Oden, and C. E. Ruddy; Mesdames Philip Wolfe, W. A. Webb, W. J. Johnson, Bert Moore, and Buell Robinson; Miss Novella Hassell and Raymond Shannon.

### NEWS OF NOLETTE RESIDENTS

Mrs. W. L. Ellis and her mother, Mrs. T. B. Cannon of Berger, are visiting relatives in Greenville.

Mrs. Joe Randle, who underwent a tonsil operation Monday, is doing nicely.

Bill Griffin, who has been employed here several weeks, has returned to his home in Sayre, Okla.

Mr. and Mrs. R. E. Showers and son, Roy, spent Sunday in Spearman as guests of Mr. and Mrs. G. C. Noel.

George Demoss left Friday for a business trip to Littlefield.

Mr. and Mrs. Glen Tennant were recent visitors of Mr. and Mrs. A. A. Herd of Skellytown.

Mrs. W. J. Williams and son, Eugene, left Saturday for their future home in Drumwright, Okla. She was accompanied by Miss Mabel Waggoner, who has been visiting here several weeks.

Earl Noel of Spearman was a visitor in Nolette Saturday.

Miss Athine Brewer, who is attending school in Amarillo, spent the week-end with her parents, Mr. and Mrs. A. H. Brewer.

Mrs. Glenn Chambers and daughter, Mary James, and Mrs. Oakes Morris are visiting friends in Berger Saturday.

W. H. Burnett has returned after a week's visit with his mother in Oklahoma.

Wanda Lee, small daughter of Mr. and Mrs. Earl Broom, has been quite ill for several days.

BOARD IN SESSION  
The Pampa Welfare Board met briefly yesterday to hear recommendations of the federal relief committee. The Board, with the assistance of the committee, is in charge of placing jobless men on relief projects.

### TO BE SHOWN THRU FRIDAY BY ART CLUB

HOSTESSES WILL BE AT STORE IN AFTERNOON OF EACH DAY

Fine pottery from all parts of the United States was placed on exhibition today by the Arno Art club at Pampa Furniture store. The exhibit will remain at the store during Thursday and Friday, with hostesses being present each afternoon.

Westerners will be interested in the pieces by Van Briggie, who in 1899, came to visit Colorado Springs and was impelled to stay, receiving inspiration from the snow-crested range and the rocky canyon, the color of the sky, and the graceful silhouette of the Rockies.

Mrs. Benly Nicholson of New Orleans is represented. She contributed a special exhibition to the collection of pottery shown by the General Federation of Women's clubs in Paris.

Some of the most brilliant pottery is from Flemington, N. J. Mr. Pulper, a New Jersey artist, discovered, through an intensive study of chemistry, the secret of rare Chinese glazes.

Close To Nature.  
An artist potter prefers to live close to nature, and in the shadow of Mount Pisgah, North Carolina, one may find the maker of Omahar Khayyam pottery, C. L. Bachelder, samples of whose work are on display.

Arthur E. Baggs has on display some beautiful pots. Marblehead blue is the favorite among his pieces, but green, lavender, gold, and brown and glazes are also used, each piece being lined with a contrasting color.

The pottery of Hugh C. Robertson of Dedham, Mass., is well represented in the exhibit. Robertson experimented with oriental methods and produced dragon's blood effect of the Chinese and the lava-like crackle ware of the Koreans.

Theme From Japan.  
In Detroit Mary Chase Perry perfected the Pewabic pottery. For many years she experimented with the Japanese scheme of allowing the heavy glaze of a contrasting color to trickle down the side of the pottery. The forms are simple and graceful, the ware is hard and white, the designs are mostly of leaves, and the colors range through greens, yellows, browns, or lavender, various shades of amber.

Several pieces of pottery made by Mrs. Bellamy Storer in Cincinnati are on display. They are known as the Rockwood pottery. Save for the primitive potter's wheel, no machinery is used in making this pottery.

In the artist's colony of Woodstock, N. Y., is a pottery conducted by two young artists, Elizabeth Hardenburg and Edith Penman. The pots are made by hand, and the "chints pottery" tell a pleasant story of hollyhock and "lowered pattern. The artists carefully guard the secret of their lovely glazes.

Newcomb pottery from Louisiana also is on display. In these pieces soft pastel tones are used, and as one artist expressed it, "The under painting appears through the semi-transparent mat glaze as through a morning mist."

"Mixed by Nature."  
From the Ozarks also come lovely specimens of pottery, the clay being "mixed by Mother Nature on her own palette.

From a basement workshop in Cambridge City, Ind., come still more pieces of pottery. They are made by the Overbeck sisters.

Interesting pottery has been sent from a hill top just outside Boston. In Illinois one may meet W. D. Gares, who loves the beautiful and is the inventor of "Teo valley terra cotta." "Teo" is taken from the name of the town, and the pieces produced depend upon their severe classic outlines and the soft metallic "Teo" green for their beauty.

Mr. and Mrs. Arthur Stapleton and Mrs. G. C. Malone visited in Amarillo yesterday.

### Group Honors Mr. and Mrs. Fred Fendrick on Silver Anniversary; Buffet Luncheon Is Served Group

The silver wedding anniversary of Mr. and Mrs. Fred Fendrick, 420 E. Foster, was the occasion of a surprise gathering last evening. The Fendricks have been Pampans for eight years.

Games were played early in the evening, and later a lovely buffet luncheon was served. A wedding cake adorned with bride and groom centered the candle-light table, and other luncheon items included sandwiches, ice cream, dark cake, hot chocolate, and coffee. Pink and white were the colors featured.

Those attending were Mr. and Mrs. E. M. Frasher, Mr. and Mrs. O. N. Frasher, Mr. and Mrs. G. G. Frasher, Virgil Frasher, Luella Frasher, G. G. Frasher, Jr., Glenn Fendrick, Lowell Fendrick, Cleo Fendrick, Onita Frasher, Betty Jo Frasher, Mrs. Lewis Robinson, and Mr. and Mrs. Claude Robinson and babies, Claude Eugene and Cecil James. Mrs. Fendrick's parents, Mr. and Mrs. A. Frasher, were unable to attend.

### Tuesday Afternoon Club Complimented By Mrs. McConnell

Attractive hand-made tallies and score pads designed as snow men were used at the party given by Mrs. Floyd McConnell for the Tuesday Afternoon Bridge club yesterday. Blue and white were featured in all details of the party.

At the close of the afternoon a delicious plate lunch including hot rolls, tuna fish salad, pickles, cookies, and tea was served.

Mrs. Frank McAfee scored high among the special guests at the party, and Mrs. Felix Stalls was high among members. Others attending were Mrs. Ralph Dunbar and Mrs. J. Powell Wehrung, guests, and the following members: Mesdames F. M. Culbertson, Homer Elliott, P. C. Ledrick, Roger McConnell, Skeet Roberts, Sherman White, and C. L. Craig.

CLASS WILL MEET  
Madonna class, Central Baptist church, will have a business meeting Friday evening at 7:30 o'clock in the home of Mrs. Pauline Thurman, 705 E. Kingsmill.

MOTHERS TO MEET  
Mothers of Miss Lillian Mullinax's room at Sam Houston school will meet tomorrow afternoon at 2:30 o'clock at the school. A full attendance has been urged.

### COMING EVENTS

THURSDAY.

The American Legion auxiliary will hold a business and social meeting at the Legion Hut at 8 o'clock. A program and refreshments are planned, with hostesses being Mrs. R. H. Kitchings, Mrs. John Bradley, Mrs. Frank Wallace, and Mrs. Roy Sewell.

Child Study club will sponsor a bridge tea at 3 o'clock in the city hall club room. Proceeds will be used to help furnish the club room.

Chatter-Box club will meet at 2 o'clock in the home of Mrs. Floyd Boyd.

A. A. U. W. will observe Founders day by giving an old-fashioned supper at the Schneider hotel at 8:30 o'clock.

Wesley Friendship class will have a chili supper at 7 o'clock at the Methodist church.

Jolly 8 club will be entertained by Mr. and Mrs. Finis Jordan.

Baker school teachers and room mothers will meet at 3:30 o'clock to make final arrangements for a carnival.

Women of the Church of Christ will meet at 3 o'clock for Bible study.

Wesley Friendship class of the Methodist church will have a chili supper at the church.

Mothers of Miss Lillian Mullinax's room, Sam Houston school, will meet in the schoolroom at 2:30 o'clock.

Scotfield Bible class, Central Baptist church, will have a regular meeting in the H. M. Cone home, 414 W. Browning, at 3 o'clock.

### CIVIC CULTURE CLUB SELECTS NEW OFFICERS

MRS. RALPH THOMAS NAMED PRESIDENT FOR NEXT YEAR

The Civic Culture club, meeting in the home of Mrs. B. C. Fahy yesterday afternoon, elected the following officers for the year 1933-34: President, Mrs. Ralph Thomas; vice-president, Mrs. E. A. Shackleton; secretary, Mrs. E. C. Fahy; corresponding secretary, Mrs. Paul Jensen; treasurer, Mrs. Joe Berry; parliamentarian, Mrs. Irvin Cole; reporter, Mrs. Katie Vincent. Mrs. H. H. Isbell was chosen as this year's representative to the Council of Clubs, and Mrs. C. E. Hutchins was chosen to complete Mrs. Isbell's unexpired term as vice-president. One new member, Mrs. Ethel West, was voted into the club. Members voted unanimously to go on record as opposing the recommendations of the legislative committee on organization and economy regarding the abolition of or

### Acceptance Of Independence Expected Soon

WASHINGTON, Jan. 18. (AP)—The question of independence today was one for the 13,000,000 people of the Philippine Islands to decide and they probably will accept the conditions laid down by congress.

Despite some expressed opposition, there were indications that the ten-year transitional period would be taken by Filipino leaders as the best possible terms now obtainable and that the insular legislature would accept the independence bill enacted yesterday by congress.

MANILA, P. I., Jan. 18. (AP)—Leading members of the insular senate and house of representatives said today they would await the return to Manila of the Philippine independence mission now in Washington, D. C., before taking action on the Hawes-Cutting independence bill.

There was evidence, however, many former opponents of the measure had reconsidered and would support the bill. What action the Philippine civic union will take, however, was still in doubt. Vicente Sotto, editor of the extremist newspaper La Union, and secretary of the civic union, had threatened to institute a boycott against American products in the event the bill was passed.

Publishers of the chain of newspapers composed of La Vanguardia, Tribune and Taliba announced editorially in favor of accepting the bill. Students and faculty of the University of the Philippines arranged a mass meeting in celebration of the granting of independence.

President Rafael Palma and Dean Maximo, both advocates of the Hawes-Cutting bill, prepared speeches.

The legislature was in session and excitement ran high, but there was little prospect of immediate action.

### Volpi Has Sore Throat But 'Met' Sub Sings Well

NEW YORK, Jan. 18. (AP)—Mostly when the Metropolitan Opera company does "Marnet," Galcom Lauri-Volpi sings "Des Grieux" but not last night. Just before the curtain was to rise his voice failed him.

The performance was being given at the Brooklyn Academy of Music, and Lauri-Volpi already was in costume. Suddenly his vocal chords tightened so he could not speak.

While Lauri-Volpi was hurrying home to consult his physician, officials of the opera company were telephoning Armando Tokatyian, another tenor. Within three minutes of the time he reached the academy of music he was in costume and the curtain rose.

Lauri-Volpi's ailment was diagnosed as "clergyman's sore throat," a swelling over the vocal chords which is easily curable.

## Buying Barbara

by Julia Cleft-Addams • Author of "YOU CAN'T HARRY"

**SYNOPSIS:** Farrell Armitage accuses Mrs. Lodely's missivings as to why he does so much for her son Mark with a further promise to have a famous doctor try to cure his crippled body. Mark makes his hostess ridiculous in some sketches drawn in a night club, then tells them to her. She checks he offers Farrell, but Farrell reads the insinuation by handlings allowance for "incidentals." Farrell's deeper plan is to win Mark's fiancée, Barbara Quentin, for himself.

### Chapter 29 FARRELL'S LETTER

AS the Toxeter bus set Barbara down in the Yarn Market, she saw that lights were springing up in the town, although it was only a little after four o'clock.

She was very tired. Her assistant at the shop had been stupid, customers had been trying and none of her wholesale orders had arrived for a house she was decorating. She made a dispirited way towards the rooms she had occupied until a few days ago.

There, rising up behind the town, was Upper Mallard hill, where Farrell Armitage had spent one of his early years. Somewhere in its folds was the terraced slope where the Lodelys had had their house and where she, too, as a very little girl, had lived and played in the sun. Not for the first time she found

Barbara was very tired.

occasion to wonder by what strange financial jugglery her father and Mark's should have died ruined and broken, while Cane, their partner, had prospered.

She reached her old lodgings and found, as she had suspected, that some letters had not been forwarded.

"I wuzz only sayin' yesterday I should 'ave to send them to you," apologized her landlady.

"When did they come?" demanded Barbara, tearing open the first, which was addressed in Judy's sprawling hand. Mrs. Ridd meditated profoundly and Barbara read Judy's letter.

"It was funny you saying the other day that you felt there was a change coming to Kings Barn," wrote Mrs. Lodely. "You were right. I heard from my sister this morning and she is coming back to live there after all."

"I don't know I'm sure what we shall do for a home, all plans now being upset, but I thought perhaps you wouldn't mind getting the place cleaned up and packing our things, the trunks are in the attic."

"I thought perhaps you could let me have a room in the Toxeter house to keep the trunks until we are more settled, so far all I can say is that Mark says he will be here for a year at least, so I suppose I may as well stay, too."

"Farrell Armitage has been doing everything for Mark's comfort, almost too much, I must say in a way. I can't say why he troubles. Perhaps you can make him out better than he. He even talks of getting fresh medical advice for Mark. When Kings Barn is ready for handing over, better leave keys with Mrs. Ridd. Much love from Judy."

"'Tuz Monday that come," yonchassed Mrs. Ridd suddenly. "Monday, so 'tuzuz."

"You should have sent it on," sighed Barbara, pushing it into her pocket. "You did promise to forward letters, didn't you?"

In the course of the next few minutes it became evident that the time to sort, pack and remove Mrs. Lodely's possessions to Toxeter would be that very evening. Resignedly Barbara faced it. She gave Mrs.

## COURT RECORD

AUSTIN, Jan. 18. (AP)—Proceedings in the court of criminal appeals:

Affirmed: E. Phipps from Bell; Good Woolridge from Brown; Lude Rose, Grayson; W. K. Waster, Lubbock; Buck Campbell alias Albert Campbell, McLenahan; Fimm Ingram, Gray; A. O. Young, Anderson; Haskell Maxwell, Denton; Albert Lee from Palo Pinto; Kasper Mauser from Bandera.

Judgment reversed and prosecution ordered dismissed: Carr Patterson, from Terry.

Reversed and remanded: Les Haney from Palo Pinto; W. M. Ainsworth, from Mitchell; Edolph Bacon and Fannin; Cal Pearson, Bosque; Howard Board, alias Home Boy Board, from Tarrant; Adam Briscoe, from Caldwell; Ed Taylor from Harris (2 cases).

Judgment reversed; relator ordered discharged on bail in sum of \$7,500, ex parte J. H. Nunn from El Paso.

Appeal abated at request of appellant: A. W. Ammons from Taylor.

Appellant's motion for rehearing overruled: J. C. Laney from Bexar. Submitted on brief and oral argument: A. E. Pool from Taylor.

Submitted on brief for both parties: Doyle Hollingsworth from Ochiltree.

Submitted on affidavit to withdraw appeal: R. L. Custer from Hamilton.

Suit of J. T. Bowers against John T. Bowers for damages was set this morning for Friday after a motion of the plaintiff for continuance was overruled. The plaintiff is in charge of his own case, while John T. Bowers is represented by S. D. Stennis and W. M. Lewright.

Judge Ritchie next called the case of M. M. Cushing against the Texas Indemnity Insurance company to set aside an award.

Judge W. R. Ewing will hold a hearing Saturday at 10 a. m. on an injunction granted L. J. Seitz against the State in connection with a highway right-of-way award.

Recent filings include W. L. Nichols vs. Metropolitan Life Insurance company, Keystone Pipe & Supply company against Robert R. Osborne, Continental Supply company against J. W. Pierce, and Stuckey Construction company against Myrtle Palmer.

Bud Tinnin, recently named in a misdemeanor complaint charging carrying of metal knuckledrives, made \$500 bond for appearance in county court next month.

## Estes Advocates Another General Well Shutdown

By WILLIAM S. WHITE, Associated Press Staff Writer.

TYLER, Jan. 18. (AP)—The ominous news of another price cut echoed through the vast East Texas oil field today on the eve of resumption of the state railroad commission's investigation into violations of its proration orders in the area.

There had not been time for reaction to come in from operators of approximately 9,500 wells to the action of the Standard Oil Pur-chasing company in cutting East Texas crude to a flat 50 cents per barrel, expected on all sides to be followed by other companies as in the past.

Meanwhile, the commission's enforcement division looked with frank regret on this latest price development.

"There had not been time as yet to hear from the field as to how effect the price cut is having out on the leases," said Homer Pierson, head of the division. "It may be said, however, the cut's effect certainly will not be to stimulate production. Undoubtedly it will make proration more difficult to enforce."

Carl Bates, Tyler editor, asserted in a public statement that Standard's action was fruition of a plan to "beat down" the price of oil and said the railroad commission and Gov. Miriam A. Ferguson "either should shut down every oil well in the state of Texas—to the end that a Texas birthright may not be taken for a song—or call off proration altogether."

"It is obvious," he said, "that the principle of proration can not survive unless the price of oil goes up and allowable production goes down and it doing exactly the opposite. Proration is being kind by those who profess to be its friend."

"The time has come for drastic action—shut every oil well in Texas down before the Standard Oil company beats the price down another penny or free East Texas to capture her rightful share of the oil market which has been forcibly denied us."

AMARILLO, Jan. 18. (AP)—Buildings in the business area here were shaken by an explosion last night, caused by an explosive planted in a chicken house across an alley from the rear of the Paramount theater. The showhouse is owned by the Paschall-Texas company, recently involved in labor troubles.

GREEN WARNS HOUSE. WASHINGTON, Jan. 18. (AP)—William Green, president of the American Federation of Labor, told the house labor committee today the United States was faced with a choice between a shorter work day and week "or maintaining a large and perpetual army of unemployed."

Including Maoris, the aborigines of the country, New Zealand's population recently was estimated at 1,511,360.

An electric exerciser to develop musicians' finger muscles has been invented by a resident of Portland, Ore.

Corley Tennant of Pampa is spending the week in the home of his uncle, Glen Tennant.

## CAUGHT

John J. Halloran, wealthy Phoenix lumberman, aided her in disposing of two "trunk" slaying victims.

Phoenix, Ariz., Jan. 18. (AP)—Closely guarded throughout the night for any attempt she might make to take her own life, Winnie Ruth Judd waited to be called back to court today for continued examination of her sensational story that John J. Halloran, wealthy Phoenix lumberman, aided her in disposing of two "trunk" slaying victims.

The 29-year-old physician's wife, under sentence to hang Feb. 17, left the stand yesterday only after hinting, in an hysterical outburst, of a plan for suicide.

Mrs. Judd was testifying in the preliminary hearing of Halloran on a complaint charging him with being an accessory in the case after the slaying of Mrs. Agnes Anna Lerol and Miss Hedvig Samuelson, were killed, and of advising Mrs. Judd in a flight to Los Angeles, where the bodies were found in trunks. Mrs. Judd was convicted of the Lerol slaying.

After grueling afternoon on the witness stand at the state's star witness, Mrs. Judd screamed: "I'm telling you what I intend to write, and to take with me to God when I commit suicide!"

Mrs. Judd testified she killed both women in self-defense in the Phoenix bungalow in October, 1931, and that she had followed Halloran's advice only to conceal the killings. She said Halloran placed the bodies of the two women in trunks, "bullied" her into taking them to Los Angeles, and instructed her to tell her husband, Dr. William C. Judd. Halloran had been a friend of all three women.

The lumberman listened to her testimony with a smile, and once laughed.

## Halloran Laughs When Mrs. Judd Implicates Him

PHOENIX, Ariz., Jan. 18. (AP)—Closely guarded throughout the night for any attempt she might make to take her own life, Winnie Ruth Judd waited to be called back to court today for continued examination of her sensational story that John J. Halloran, wealthy Phoenix lumberman, aided her in disposing of two "trunk" slaying victims.

The 29-year-old physician's wife, under sentence to hang Feb. 17, left the stand yesterday only after hinting, in an hysterical outburst, of a plan for suicide.

Mrs. Judd was testifying in the preliminary hearing of Halloran on a complaint charging him with being an accessory in the case after the slaying of Mrs. Agnes Anna Lerol and Miss Hedvig Samuelson, were killed, and of advising Mrs. Judd in a flight to Los Angeles, where the bodies were found in trunks. Mrs. Judd was convicted of the Lerol slaying.

After grueling afternoon on the witness stand at the state's star witness, Mrs. Judd screamed: "I'm telling you what I intend to write, and to take with me to God when I commit suicide!"

Mrs. Judd testified she killed both women in self-defense in the Phoenix bungalow in October, 1931, and that she had followed Halloran's advice only to conceal the killings. She said Halloran placed the bodies of the two women in trunks, "bullied" her into taking them to Los Angeles, and instructed her to tell her husband, Dr. William C. Judd. Halloran had been a friend of all three women.

The lumberman listened to her testimony with a smile, and once laughed.

## Kidnaping Charge Filed at Abilene

ABILENE, Jan. 18. (AP)—Charges of kidnaping were filed today at Abilene against Ben Chaney, ex-convict and confessed burglar of more than 30 homes in Abilene and vicinity, in connection with a sensational attempt to steal the 11-year-old daughter of Homer Shanks, fruit grower, at Clyde Sunday night.

Because of the girl's frustrated attempt of a burglar to carry her away. Burglary charges also were filed.

Chaney, known to authorities at Shreveport, La., where he is wanted, as Roy H. Howard, of his 36 listed aliases, is under strict guard in the city jail here while officers of five counties continue investigation of a long series of house breakings, most of which Chaney has admitted.

GRANTED DIVORCE. PARIS, Jan. 18. (AP)—Maurice Chevalier and his wife Yvonne Valle were granted a divorce today on reciprocal grounds. The court, in a very short judgment, accepted the arguments of both sides.

## The PEOPLES COLUMN

Editor, The NEWS:

It is just barely possible that the Fort Worth & Denver railroad company built the Pampa-Childress branch line for selfish reasons. When the officials of the Denver road passed the hat in Pampa and secured thousands in cash from the business men they were not wholly actuated by altruistic motives.

But when the business men of Pampa protest the discontinuance of passenger service on the road they are utterly selfish, they are actuated by ignoble motives because they seek the service they have paid for.

If a person wants to take a liking on his own back that is no concern of mine. But I do not believe this is the attitude of the citizens of Pampa, and judging from the number of signers of the petition I believe that the people at least want to know all the facts in the case.

As I see it and as many other people see it, the operation of a single motor coach on a round trip each day could not involve heavy financial loss to the Denver road. The writer of a recent communication to The NEWS speaks of the discontinuance of "trains." One motor coach is not one train.

If the officials of the Denver road are to be credited with as much brains as railroad builders are commonly supposed to possess, they have known the approximate amount of revenue to be derived from the operation of the road. The Denver road was already several years old and automobiles had been with us for several decades. They knew these things but when they passed the hat in Pampa and in every town and hamlet along the route of the new road they sold the people on the service of the new road.

The question now is whether we bought blue sky certificates of a railroad. Of course the railroad builders are human. They are all too human.

The attitude of some civic leaders in regard to the Denver case is curious. I cannot understand their tender sympathies toward Wall Street. I am for Pampa and I believe that the majority of the people are for Pampa.

If, after all the facts in the case are presented to the railroad commission and the commission decides that the doodle bug might send the Fort Worth & Denver to the reconstruction finance corporation for more of the people's money, it might be less costly to the people to have the "trains" discontinued. But until the railroad has proved its case I am working for the interests of Pampa.

One of the main arguments used by the railroad promoters when they were asking the people for cash and concessions for the new line was that it would relieve the unemployment situation here in Pampa. Just how much relief was afforded the unemployed by paying 30 cents an hour to those who were open to discussion. We might secure data from the Welfare Board on this point. Business men who contributed to the Welfare Board's drive might amuse themselves by trying to figure out what per cent of the unemployed went to eat and clothe the men who built the Pampa-Childress railroad.

The truth of course is that the road has exploited not only labor but land owners, property owners and the city. Our goose has been picked, there are no feathers left, and the railroad officials are not interested in a goose that has no feathers.

I am not interested in individuals who like this sort of a deal; and I cannot help but feel bitter toward some leaders should not have surrendered before the fight started. More than 90 per cent of the business men of Pampa signed the petition and I believe that they are entitled to know all the facts. They are not ready to give up the ghost simply because the railroad company says it cannot afford to run a motor coach, "trains," if you please. They are entitled to a hearing.

J. F. BAILEY.

## HERE'S ANOTHER

VALDOSTA, Ga. — Maybe the weather man made the error. Anyway, a stalk of corn is growing and blossoming unattended in a vacant lot here without waiting for summer sunshine. Azaleas, polisetias and morning glories likewise have mixed their seasons and are in bloom.

## ORDINANCE NO. 148

AN ORDINANCE PROVIDING FOR A PERMIT TO MAKE AN OPENING OR EXCAVATION IN ANY STREET, ALLEY, OR OTHER PUBLIC PROPERTY IN THE CITY OF PAMPA; PROVIDING FOR A BOND AND ITS CONDITIONS; PRESCRIBING THE DUTIES OF THE PERSON, FIRM OR CORPORATION TO WHOM A PERMIT IS ISSUED; PRESCRIBING A PENALTY AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY OF PAMPA, TEXAS:

SECTION I: As used in this ordinance the term "person" shall mean and include individuals, partnerships, associations of persons, or corporations, however formed.

No person shall make any opening or excavation in any street, alley, public roadway, or on any other public property in the City of Pampa, for any purpose without having first secured from the City Manager of said city, or some other officer or employee of said city designated by him, a permit so to do. Application of such permit shall be made in writing by the person desiring to make such opening or excavation, or by his authorized agent. The application shall state the precise location where said opening or excavation is to be made, the name of the person or persons employed to do the work, and the length of time such opening or excavation shall remain in such street, alley or other public place. No permit shall be deemed to authorize anything not stated in the application, and not authorized by the City Manager. For the is-

suance and filing of such applications for permits, a fee of fifty cents shall be charged, and such fees shall be deposited to the general fund of said city.

SECTION II: No such permits shall issue until the person making application therefor shall have executed and delivered to said City Manager or other officer or employee designated by him, a good and sufficient bond in the sum of \$5,000.00, approved as herein set out, payable to the City of Pampa, Texas, regularly issued by a surety company duly licensed to execute such bonds in the State of Texas, which bond shall be conditioned as follows:

"That the City of Pampa shall be fully indemnified and held harmless from any and all costs, expenses, or damages, real or asserted, on account of any injury done to any person or property in connection with or occasioned by the making of such opening or excavation, or that may arise out of, or be occasioned by the performance of the work of making such opening or excavation. Said bond shall be further conditioned that the principal thereof shall comply with all the provisions of this ordinance.

It shall be stated in writing in said bond that it is issued in compliance with the provisions and conditions of this ordinance. Said bond must be approved by the City Commission of said city before any permit is issued thereon.

SECTION III: It shall be the duty of every person, firm or corporation to replace in any good and workmanlike manner any portion of any street, alley, public roadway, or other public property within said city which may be opened for any purpose, and all such openings or excavations shall be filled and restored to the street, alley, or other public place shall be placed in as good condition upon the completion of the work, in connection with such opening or excavation as existed before such excavation was made. In case any failure of such restoration is not restored as herein provided, to the satisfaction of the City Manager, it shall be the duty of any person making such opening or excavation to promptly restore the same upon notice from said City Manager; and in case of failure so to do, the City Manager may, in default to so restore the same after such notice, and after the expiration of a reasonable time, three days time being deemed a reasonable time for the beginning of any such work, the City Manager shall report such fact to the City Commission of said city, and said City Commission may thereupon order the City Manager to restore the said street, alley, or other public place at the cost of such person making any such opening or excavation.

The statement of the cost, as furnished by the City Manager, shall be conclusive evidence against any such person making such opening or excavation, and the City of Pampa shall have recourse on the bond of such person for same.

It shall further be the duty of any person making such openings or excavations to maintain on the banks of the opening or excavation which is dug such barriers and lights as shall be reasonably necessary to avoid accidents during the progress of the work. The granting of a permit shall not be construed to give any person the right to close or obstruct any street, alley, or other public roadway unless permitted to do so is given by the City Manager, and unless it is specifically stated in the permit granted. Unless it is otherwise stated in said permit the material thrown from the opening or excavation shall be placed so as not to obstruct, and so as to cause the least inconvenience to the public.

SECTION IV: The City Commission of said city may cancel the permit granted to any person under this ordinance for failure to comply with any of the provisions of this ordinance and for any other cause which, in the discretion of said City Commission, may seem justifiable; and said City Commission may, for such cause as it deems sufficient, direct that no further permits be issued to such person. The decision of the City Commission with reference to the cancelling of permits and the refusal to issue further permits shall be final.

The City Commission may require further or additional bond from any person when in its discretion it is deemed necessary for the protection of said city, and no further permits shall be issued to the person from whom such further or additional bond is requested until such bond is executed and filed, conditioned and approved as herein required.

It shall be the duty of every person who shall secure a permit under the terms of this ordinance to keep said permit at the place or location where the opening or excavation covered thereby is being made, and said permit shall be exhibited to the Chief of Police or any other officer of said city upon demand.

The provisions of this ordinance shall not apply to such openings or excavations made by the City of Pampa through its authorized employees.

SECTION V: Any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding \$200.

SECTION VI: EMERGENCY: It appearing that the City of Pampa is now without a proper ordinance governing the provisions herein contained and it further appearing that the public welfare is being jeopardized by the lack of such an ordinance, an emergency is declared and the rules prescribing three separate readings of an ordinance are hereby suspended, and this ordinance shall be in full force and effect on and after its passage and publication as prescribed by law.

PASSED AND APPROVED this 16th day of January, 1933. (Seal) W. A. BRATTON, Mayor.

ATTEST: J. H. BLYTHE, City Secretary. Jan. 18-25.

### CAGERS READY FOR LUBBOCK FRIDAY NIGHT

#### WESTERNER QUINSET IS BEST IN SEVERAL YEARS

Cochran Odus Mitchell put his Harvesters through a stiff workout yesterday afternoon in preparation for what he expects to be the hardest game of the year Friday night in Lubbock.

The Harvesters have swept everything before them, with the exception of the Athens Hornets and the Shallowater team.

Folding plays and work on defense was followed by a tough scrimmage. The coach failed to comment on the workout but it looked fairly satisfactory to the sideline birds.

A few weaknesses cropped up but they should be polished down by Friday.

New plays that have been used in the last two or three games are being prepared for the Harvesters.

The Harvesters have been up against easy competition for the past two weeks and it has done them no good.

However, they realize that the game with the Harvesters is going to be the hardest test of the season thus far.

Pampa defeated the Harvesters twice last year with long shots by Wayne Kelley in the last minute of play.

Saturday the Harvesters will come from Lubbock and go to LeFors that night for a scheduled game in the Panhandle Basketball league.

The second string will be used if possible but LeFors is reported to have a strong team this year.

### Bowling Scores

Low scores marked most of the games rolled in the Commercial league race at the Pampa Bowling alley last night. The Thirty Footers took two out of three from the Schneider hotel while the Cullum Motor won the same number from the Country club. Darby of the Thirty Footers rolled high series with 586 pins.

Thirty Footers		
Baxter	173	222
Darby	215	234
Powell	187	180
Peek	213	177
Fischer	108	191
Totals	936	1004
Schneider Hotel		
Moore	117	148
Maynard	152	170
Morton	169	182
Schneider	178	124
Bewley	173	189

### GIRLS GO TO ALLISON NEXT

#### Harvesterettes Play Wheeler County Team Friday Night in Return Game.

The Harvesterettes go to Allison Friday night for a return game with the fast Allison quintet.

Coach Harry Kelley has developed an attack that has been getting the ball to the forwards.

Walstad and Murphy acted as forwards in the changed combination with Fletcher and Williams at center positions flanked by Robinson and Moyer at guard positions.

The Harvesterettes will play their next home game Jan. 28 when LeFors comes here for a scheduled game.

### Golfers Discuss Gene Sarazen's Eight-Inch Cups

LOS ANGELES, Jan. 18. (AP)—Gene Sarazen's one man campaign for bigger and better golf holes probably will not result in the wholesale installation of 8-inch cups immediately but it has started discussion among ranking players.

Leo Diegel speaking: "Great. The players who get close to the pin would get their pin down. I have thought a circle around the cup and others farther out with points to be scored in proportion to the position of the ball in relation to the pin would be a good thing."

Craig Wood, winner of three winter tournaments, is satisfied with the game as it is.

Olin Dutra, P. G. A. champion, suggested eight inches would be better. "About five would be better," said Dutra.

Charlie Guest also voted for a compromise. "For a while," he said, "I would like to see it tried," he said.

### Brown Derby Steps In To Help Author Of Campaign Song

NEW YORK, Jan. 18. (AP)—New York and all, which looked pretty harsh just a couple of days ago, was "the same kind of old city under a new coat of paint" today as James W. Blake contemplated what had been done for him.

Blake wrote "The Sidewalks of New York" which in 1928 resounded over the land before the banner of Alfred E. Smith.

A year ago he lost his job, his money ran out and Saturday he was found to be destitute with an aged sister and a blind brother on his hands.

Former Governor Smith reached for a telephone when he read about it. William H. Matthews, director of the family welfare department of the association for improving the condition of the poor, assured the former governor that everything possible would be done.

The needs of the family were provided for the next two weeks, and Blake learned that he and his sister were eligible for old age pensions of \$75 a month each. He hadn't known that.

### Senator Glass Scorns Long's Job Approval

WASHINGTON, Jan. 18. (AP)—Senator Glass said he could not be induced to become secretary of the treasury if he had to obtain the permission of Senator Long (D., La.).

During a discussion in the senate yesterday, Glass mentioned that he once had been head of the treasury department.

"The newspapers have been told by one of the senators," Glass said, referring to Long, "that I am not to be permitted to hold that place again, that I would have to get his permission."

"If I had to do that, all the king's horses and all the king's men could never induce me to accept the distinction."

An ornamental handle has been invented to be snapped in place on a plate to convert it into a sandwich tray.

### NAME YOUR SPORT AND SOME ROOSEVELT CAN 'GO'

President-elect Franklin D. Roosevelt, surrounded by his sturdy sons, all of whom have been brought up in an athletic atmosphere. Mr. Roosevelt, himself, is an expert at handling sailing craft and at one time or another has participated in almost every branch of sport. He is an exceptionally strong swimmer. Even Mrs. Roosevelt and the only daughter, Mrs. Anna Roosevelt

### FAMOUS BASKETBALL COACH OPPOSES NEW CAGE RULES; SAYS THEY CLOG TEAM PLAY

#### Fears Game Will Revert To Loosely-Played, But Fast Type of Game.

Written for The Associated Press. MARYVILLE, Mo., (AP)—The new basketball rules will undoubtedly speed up play. The question is, what effect will the changes have on the game itself?

In almost every sport the trend in recent years has been to emphasize team play. Basketball was no exception, and highly integrated team work was beginning to be evident after years in which the slap dash style had gradually begun to become ineffective against a more carefully co-ordinated system.

There is a possibility that the game will revert to the loosely-played haphazard but fast type of game which predominated a few years ago. One stellar player with four others to feed him the ball is a possible development of the revised rules. It is too early yet to say with assurance.

Specifically, the rule requiring the offensive team to bring the ball over the middle line within 10 seconds after obtaining possession seems to be as it does to Dr. James Naismith, inventor of basketball, to go about speeding up play wrong end foremost. The very nature of the game, as of virtually every other game, puts the task of forcing play on the defensive team.

Result of Three Games. As most basketball followers are well aware, three particular games last year involving prominent teams crystallized the rule committee's determination to revise the laws of the game.

In these three cases the losing team remained back under its own goal, refusing to force play, and the offensive team merely held the ball. As a general rule, I think it can be truthfully said that a team which refuses to force play is weak on defense. The men do not feel capable of going out after the ball successfully. Under the 10-second rule they hope the ball will be brought to them.

As for the 3-second limit on the disposition of the ball by the man on "the post" it will speed up play. But the avowed purpose of the rule committee was to aid the offense and so lead to greater scoring. The question is whether the 3-second rule will not lead to lower rather than higher scores.

### Cochran Takes First Match In Billiards Play

CHICAGO, Jan. 18. (AP)—Walter Cochran of Hollywood, Calif., today was off to an impressive start in his first attempt to win the world three cushion billiards title.

Cochran won his first match last night, defeating Allen Hall of Chicago, 50 to 49, in 52 innings.

The former champions, Otto Reitzel of Philadelphia and Arthur Thurmbald of Chicago lost opening matches.

Tiff Denton of Kansas City rallied to defeat Reitzel, 50 to 39 in 46 innings, and J. N. Bozeman, Jr., of Vallejo, Calif., youngest contestant in the tournament, defeated Thurmbald, 50 to 37, in 71 innings.

Clarence Jackson, Canadian veteran, who defeated Augie Kieckhefer, defending champion, had Thurmbald for his second opponent today.

They were to be followed by Johnny Layton, Sedalia, Mo., and Frank Scoville of Buffalo, N. Y. Kieckhefer will start a comeback tonight against Denton.

### Sneezing Slowly Leaving Orphan

CHIPPEWA FALLS, Minn., Jan. 18. (AP)—Nature was outwitting medical science today in the case of Daisy Jost, 15-year-old orphan, who was slowly recovering from a sneezing malady.

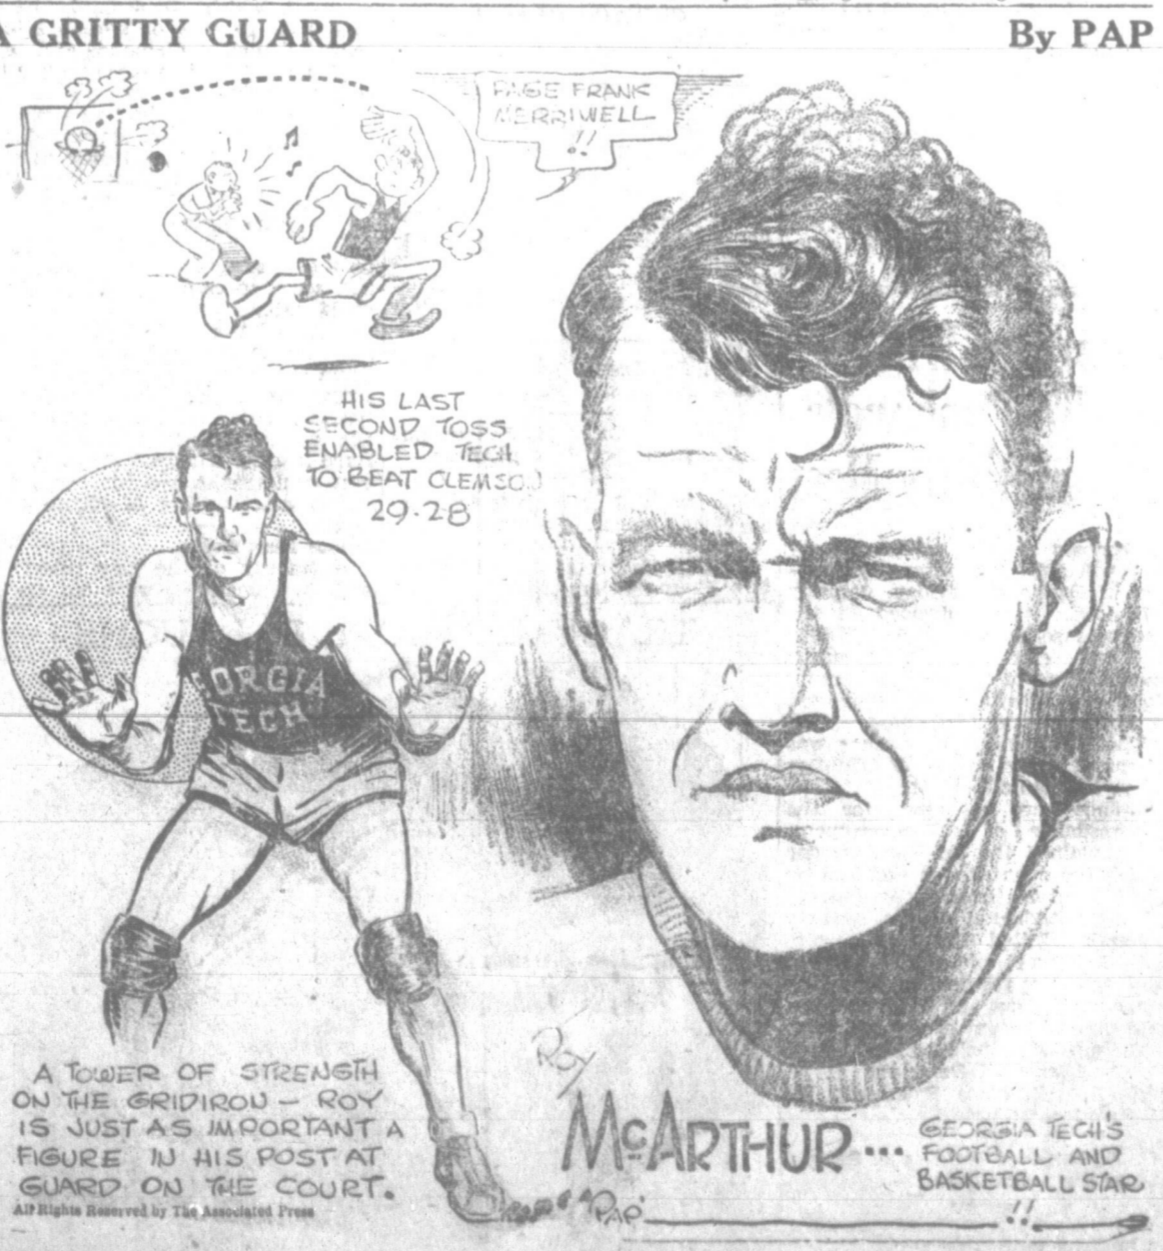

Physicians who vainly sought a cure for the affliction admitted the recuperative power of a strong body was performing the task for them.

When Daisy entered the hospital last Tuesday she was sneezing one to four times a minute. During waking moments last night the sneezes occurred at intervals of 15 to 20 minutes.

ferred to give the old rules a couple of years more in order to see what kind of game would have developed. Now that the new rules have been adopted I take the same stand. Let's not change them until they have been given a thorough trial.

### A GRITTY GUARD

By PAP

A TOWER OF STRENGTH ON THE GRIDIRON - ROY IS JUST AS IMPORTANT A FIGURE IN HIS POST AT GUARD ON THE COURT. McARTHUR... GEORGIA TECH'S FOOTBALL AND BASKETBALL STAR.

### 'FIFTY GRAND' TURNED DOWN

#### Yanks Offered Babe Ruth A \$25,000 Salary Cut In First Contract.

NEW YORK, Jan. 18. (AP)—It was an offer of \$50,000 for 1933 that Babe Ruth rejected so quickly.

The Babe himself revealed the exact terms the New York Yankees had offered and put himself finally on record that he would not accept any \$25,000 cut in the \$75,000 salary he received last year.

"I don't believe Colonel Ruppert ever saw the contract that was mailed to me," Ruth said. "The colonel has always treated me pretty fair even if we have had our little arguments about salary in the past. While I expected to receive some cut, I can't believe he would go so far as a third off. I'll never sign for that."

These matters rest with neither side showing any signs of a new move for the present. It was the consensus that Ruth eventually would be signed to a contract calling for a salary of not less than \$60,000.

### Kansas State To Play Texas Tech Next Thanksgiving

MANHATTAN, Kans., Jan. 18. (AP)—M. F. Ahearn, Kansas State college athletic director, today announced scheduling of a football game with Texas Tech to be played next Thanksgiving day at Lubbock.

The game increases the Wildcat schedule next season to nine, the largest Kansas State ever has played. It will be the first meeting of the Wildcats and Texas Tech.

### Suicide Follows Charge of Murder

LONDON, Jan. 18. (AP)—Samuel James Furnace, who was in custody on a charge of murdering his friend, Walter Spatchett, died early today in St. Pancras hospital from the effects of self-administered poison.

Thus ended another phase of one of the most amazing dramas to grip England in many years and the climax of one of the most dramatic murder hunts in the history of Scotland Yard.

A thermostatic device has been installed on Mount Felsie to warn of coming volcanic eruptions.

A fruit juice extractor of the familiar grooved and pointed type has been combined with a mallet for crushing ice.

### RACING FACES BEST YEAR IN SOUTH FLORIDA

#### PROSPECTS ARE GOOD, SAYS PRESIDENT WIDNER

(Editors note: Joseph E. Widener of Philadelphia and Palm Beach vice-chairman of the Jockey club of New York, governing body of thoroughbred racing in America and chairman of the board of the Miami Jockey club, in the following article written exclusively for the Associated Press presents his views on the prospects for thoroughbred racing in the south this winter.)

By JOSEPH E. WIDENER

MIAMI, Fla., Jan. 18. (AP)—Thoroughbred racing is entering its greatest year in south Florida. The quality of the stables represented, the program of racing scheduled by the Miami Jockey club and the widespread interest in the winter meeting here lead me to this belief. Stables which never before have sent their horses to southern tracks are in training here for the winter meeting starting January 19 at Hialeah Park.

Some of these represented this year are: C. Julius Vanderbilt, Whitney of New York; the Greenlee stable of New York; the Belair stud of William Woodward; the Wheatley stable of Mrs. H. C. Phipps of Washington and her brother, Secretary of Treasury Ogden Mills; Willis Sharpe Kilmer; Remick Hall Vaz; Col. E. R. Bradley of Lexington, Ky.; the Brook Meade stable of Mrs. Dodge Sloane of New York; the Anall stable of Allen Egan of New York; the Lixian stable of Charles T. Fisher of Detroit; Marshall Field of Chicago and New York; the R. M. Earman estate of Chicago and Hal Pire Headley of Lexington, Ky.

The program of stakes and purses offer more than \$300,000 to horsemen.

The rising tide of interest in thoroughbred racing has been demonstrated by the number of inquiries received from all parts of the country. Railway lines, travel bureaus, and motor clubs have sought detailed information of the race meeting.

More freight was shipped from Vancouver in the year ending with March than from any other Canadian port.

WITH THE GREATEST OF PLEASURE WE Announce OUR YEARLY SALE OF ROSE Bushes

2 year budded field grown bushes, guaranteed to be in first class condition \$1.00

Now On Display at Our Hardware Store

22 Varieties Hardy Healthy Plants

Now while they are dormant, is the proper time to put out these rose bushes. Remember they are two year old plants, No. 1 grade, field grown and will bloom this year. Hundreds of plants we sold last spring produced wonderful roses throughout the year.

**Days Gone By To Be Recalled At Supper Tonight**

Early days of the Panhandle will be recalled by decorations, costumes, and program at the supper to be given by the Pampa branch of the American Association of University Women tomorrow evening at 8:30 o'clock at the Schneider hotel.

Darrell Jackson, Ararillo attorney, will speak on the early 90s, and Gene Howe, well known as "Old Tack," will be present. Mrs. Jackson and Mrs. Howe also will attend.

Mrs. H. H. Hicks will be toast-mistress, and she, Mrs. J. B. Massa, and Mrs. Tom E. Rose have arranged other features which will be a surprise to the guests.

The supper is to be in commemoration of Founders day, the local branch having been organized six years ago.

**Siamese Twins To Appear at LaNora**

George Limerick, manager of the LaNora theater, received word yesterday afternoon that the Godina Siamese twins had been signed to appear on the stage at the theater February 1 and 2. The two Hawaiian boys roller skate, tap dance, play musical instruments, and sing.

They will be accompanied by their brides of a few weeks. They are talented and do not seem to mind being joined together for life. Mr. Limerick saw the youths two years ago and said he was surprised that they had signed up to come to a city the size of Pampa. They usually play the big cities, he said.

**CLUB--**

(Continued from Page 1)

decrease in efficiency of teachers colleges and to write to the law-makers regarding the matter.

A program on national parks and monuments, led by Mrs. A. L. Patrick, included the following discussions: Four parks in California, Mrs. Vincent; Mt. Ranier, Crater Lake, and Zion, Mrs. Hutchins; Grand Canyon, Mesa Verda, and Rocky Mountain park, Mrs. Isbell; Yellowstone and Hot Springs, Mrs. Shackleton; Mt. McKinley, Hawaiian, and Glacier, Mrs. Paul Jensen; the Wind cave, Sully Hill, La Fayette, and the Platt, Mrs. A. L. Patrick; Carlsbad caverns, the petrified forest, and Grand canyon, Mrs. Ralph Thomas.

Refreshments were served to two new members, Mrs. Luther Pierson and Mrs. J. W. Martin, and the following old members: Mesdames C. E. Hutchins, Ralph Thomas, A. L. Patrick, H. H. Isbell, Paul Jensen, Katie Vincent, and the hostess.

**YOUTH--**

(Continued from page 1)

Chambliss said: "I don't even know Burrow."

Denies Car Theft.

Chambliss was linked with the recent robbery of a bank at Grapevine, Texas, and it was while searching for men who made that raid that the fatal encounter occurred in West Dallas. Assuming that Chambliss was one of those sought, Fort Worth officers telephoned local officers to watch for him and for Burrow. This led to the belief of some persons that the two might have taken the nearby Ford stolen Thursday night from the Miller-Lybrand company. This possibility, too, was dismissed by the youth with the statement that he did not come to Pampa until today, and then by car, hitch-hiking.

Odel is a brother of Arnold (Shorty) Chambliss whose frank admission of participation in the Danziger refinery robbery last fall was a feature of the trials in which three men were sentenced. Like Arnold, he has a flashing, slightly restrained smile which wipes from his face all trace of worry over grave charges which he is preparing to answer.

He made no statement concerning the Grapevine robbery.

Young Chambliss said his story would be proved by California officers who arrested, photographed, and finger-printed him while holding him for investigation in Los Angeles. He was shortly released.

**SWAPPING--**

(Continued from page 1)

for Los Angeles county. Today the county has 83 organized cooperative units, listing the names of 40,000 heads of families.

In similar fashion other barter exchanges have sprung up throughout the west, as in other sections of the county. Utah has an independent organization in which 10,000 persons participate, with branches in Idaho, Arizona, and California. A similar organization has become a factor in northern California, with a branch or two in the pacific northwest and several units in southern California. Other organizations using the barter principle in some degree dot the coast and mountain states.

The barter exchange system of Los Angeles county, with its 83 units, is the largest in the west. Its units conduct a constant search for work which their members can do in exchange for clothing or foodstuffs.

Packing houses, farms, bakeries, and the fishing waterfront are the principal sources of employment.

Mrs. Guy Harrell of LeFors shopped here this morning.

Mr. and Mrs. Harry Camp of Oklahoma City are spending a few days with friends here.

**THEORIZER RETURNS TO U. S.**

PROF. Albert Einstein is shown here with Mrs. Einstein as he arrived in Los Angeles harbor for a visit to the United States. He will confer with California scientists, especially Dr. Robert A. Millikan, on new theories evolved since his last visit. Einstein laughed off efforts of a patriotic women's society to bar him as a Communist.

(Continued from Page 1)

confirm such an idea in the present condition. It is true that goods in some cases are accumulating, but such surpluses are the result of the depression and not the cause of it. Price is the ratio of the supply and demand of goods to the supply and demand for gold.

We need an annual increase of 5.6 per cent in our gold supply to care for increasing needs. In 1932, we needed 32,000,000 ounces of new gold; we mined only 24,000,000 ounces. This means that the supply did not equal the demand, thus gold advanced in price and the price of goods went down. Debts and taxes were contracted largely at a price level of 1926-29. At that time all debts amounted to 56 per cent of our national wealth. In 1932 debts were 85 per cent, compared to 34 per cent in 1912.

We have 83 billion grains of fine gold back of our U. S. dollars, at 23.22 grains to the dollar we have four billion dollars. Revalued, say 15 grains to the dollar, we would have six billion dollars, or enough to restore the price level of 1925-29. All business needs is a stable dollar or stable value in the medium of exchange.

**PENSION DEFICIT.**

Texas should regard it that the confederate pension fund is approaching a deplorable state. Its funds are derived from an ad valorem tax of 7 cents on the \$100 valuation. Administration of the fund is paid from the general revenue fund of the state. The amendment of 1928 so liberalized the eligibility list that the estimated deficit in 1935 will be \$6,896,386, according to State Auditor Moore Lynn. The homestead amendment will deprive the pension fund of \$600,000 yearly. A constitutional amendment would be required to increase the revenue force. This is another example of how one statute can undo another.

Mrs. W. T. Peacock of Kingsmill visited in Pampa last night.

Miss Lillian Carpenter of McLean visited friends here yesterday.

Mr. and Mrs. J. S. Yeager of Tulsa are spending this week visiting friends in the city.

**LANE'S DAUGHTER REPEALIST**

Nancy Lane, daughter of Franklin K. Lane, Woodrow Wilson's Secretary of the Interior, will sit in the coming session of the New Mexico legislature as a foe of prohibition. Though she has spent most of her life on the stage and in rearing a small son, Miss Lane, twice a divorcee, plunged into politics on moving to New Mexico and carried a normally republican county. She's out to repeal the state dry amendment.

**Discoverer Of 'Planet X' To Be Given Medal**

LONDON, Jan. 18. (AP)—The royal astronomical society's gold medal will be awarded this year to Dr. Vesto M. Slipher, director of the Lowell Observatory, Flagstaff, Ariz. It was announced today.

He will receive the award for his spectroscopic researches on planets, stars and nebulae.

Dr. Slipher will be invited to deliver the George Darwin lecture of 1933.

Discovery at Flagstaff of a newly found body in the solar system designated as "planet x" brought world-wide attention to Dr. Slipher in March, 1930.

G. W. Tombaugh, of Dr. Slipher's staff, was credited with making the actual observation of "planet x," which was given the name "Pluto," March 13, 1930.

**TREATY--**

(Continued from Page 1)

war debt, armament and world economic problems, but probably also talk of the Sino-Japanese conflict.

Roosevelt Tells Japan GENEVA, Jan. 18. (AP)—President-elect Roosevelt's statement supporting the sanctity of treaties was regarded today as of the greatest importance by league authorities. It was at the moment when the league committee of nineteen is facing a grave decision in the Sino-Japanese controversy, it had a dramatic effect.

Great relief was manifest, especially among representatives of small nations and others who make observance of the league covenant the basis of their foreign policy.

Japan Determined TOKYO, Jan. 18. (AP)—The Japanese government served notice today that President-elect Roosevelt's views will not alter this country's fixed policies in Manchuria.

Mr. Roosevelt's statement upholding the sanctity of international treaties and the final over-riding of President Hoover's veto of the Philippines independence bill both stirred up considerable comment here. Neither, however, caused surprise, officials declared.

Washington Worried WASHINGTON, Jan. 18. (AP)—Concern is manifest in official quarters over the possibility that fighting between Japan and China in Manchuria and Jehol may extend southward and involve large foreign interests.

Such a development would present many new problems to this government which has just reestablished its policy of not recognizing territorial gains achieved by aggression, a policy which President-elect Roosevelt indicated he would follow.

Spread of Sino-Japanese fighting between Japan and China would involve Great Britain coal and railway interests and threaten Tientsin, the only important port in North China.

**CALICHE--**

(Continued from Page 1)

The work is completed, it is likely that not less than 30,000 ordinary wagons will be used for hauling caliche from these pits. In good weather, the caliche is shoveled or removed in blocks to be crushed before loading. It is more or less impervious to moisture when sealed under asphalt, but in its natural state is sticky even when dry, as motorists have noted. In some parts of the state it is colored, often a reddish tinge, by vegetable decomposition.

The caliche is placed in two layers, with rolling reducing the thickness by about one-third. A total thickness of 15 inches is rolled to about 10 inches for the base. Although such a road is fairly easy to damage through mistreatment, patching is done readily and without great expense. Unless kept in repair, however, it becomes rough. The state adopted this type of paving for highway 33 from Pampa to the Red river county line as an economy measure. Many residents will watch the caliche-asphalt to compare it with the concrete laid on other parts of the highway.

**Rotarians Will Go To Panhandle Inter-City Meet**

Members of the Pampa Rotary club will attend an inter-city meeting in Panhandle Friday, January 27, noon, it was decided at the regular meeting today. A. N. Dilley will have charge of the arrangements. One of the most successful inter-city meetings last year was a similar one at Panhandle.

The Philippine independence was discussed by the Rev. F. W. O'Malley when he pointed out the fact that Filipinos were not ready for the responsibility of self-government. He explained the conditions under which the country was acquired by the United States and the dangers of the withdrawal of the security given by United States ownership.

S. G. Surratt told of the methods and processes required in the manufacture of shoes and the beginning and present extent of the industry. Visitors today included Neal Gaut, R. G. Allen and Rotarians C. H. McClellan, Wichita Falls, and W. E. Reardon, Monroe La.

H. B. Rude of Elid is a Pampa visitor for a few days.

W. J. Morrison of Tulsa was here on business early this week.

C. O. Shields of Borger spent last night in Pampa.

**NEW ORLEANS COTTON**

NEW ORLEANS, Jan. 18. (AP)—Cotton reacted in fairly active trading at the opening today. Cables from London and New York and political news was regarded as unfavorable. First trades here were 8 to 9 points down on active months and the market eased a little further; an liquidation by recent buyers, March dropping to \$6.09, May to \$6.22, and July to \$6.34, or 9 to 10 points under yesterday's close.

The market became very quiet after the first hour and continued so all morning with narrow price fluctuations. Prices improved slightly, however, March trading up to 6.13, May to 6.26 and July to 6.38, or 4 to 5 points up from the early loss, but still 5 to 6 points under yesterday's close.

Near noon, prices were somewhat easier in sympathy with easiness in stocks, dropping one to four points from the highs.

**KANSAS CITY LIVESTOCK**

KANSAS CITY, Jan. 18. (AP)—(U. S. D. A.)—Hogs 6,500; 560 direct; uneven, early top 3.10 on choice; 190-200 lbs; 140-350 lbs 2.60-3.10; packing sows, 275-550 lbs 1.85-2.40; stock pigs 70-136 lbs 2.50-2.75.

Cattle 5,000; calves 400; short loads 802 lb mixed yearlings 6.90; steers, 550-1500 lbs 4.00-6.75; heifers, 550-900 lbs 4.25-6.25; cows, 2.50-3.00; common mad medium 2.00-5.00; wealers (milk-fed), 2.50-6.00; stocker and feeder steers 4.00-5.75.

Sheep 5,000; early top fed lambs 5.75; lambs (x) 90 lbs down 5.35-85; (x) 99-98 lbs 5.25-75; ewes, 90-150 lbs 1.50-2.25.

**CHICAGO GRAINS**

CHICAGO, Jan. 18. (AP)—Wheat showed an early downward trend today, influenced by light moisture in dry sections of domestic winter crop territory southwest. Liverpool reports of expected large shipments from Argentina were also a bearish factor.

Wheat closed unsettled, ¼-½¢ under yesterday's finish, corn unchanged to ¼¢ lower, oats a shade to ¼¢ off, and provisions varying from 2 cents decline to a rise of 7 cents.

Mrs. Joe Looper of Grandview was a Pampa shopper yesterday.

Mrs. R. S. Carter of LeFors was a Pampa visitor this morning.

William Hall of Nolette transacted business here yesterday.

Mrs. E. G. Cross of Whittenberg is a Pampa visitor today.

**IN BATTLE FOR REPEAL**

SENATOR GEORGE W. NORRIS, head of the Senate Judiciary Committee, is excited to be in the thick of the fight for adoption of the prohibition repeal proposal which his committee has reported to the senate. An independent republican, Norris campaigned for Roosevelt, and is expected to exercise strong influence on the new administration. The new camera portrait of the Nebraska senator was made as he announced the committee's stand for repeal.

**Tips on CONTRAC**

NINE-HIGH STRAIGHT FLUSH By TOM O'NEIL

An overall of the opponents' suit after a penalty double by partner figured in a deal of freak distribution which Walter H. McKear of the Marine and Field club of Brooklyn recalls with pleasure. He made four hearts doubled on a live card suit headed by the nine spot after some hectic bidding.

Here was the hand:

NORTH	WEST	EAST	SOUTH
AK10982	J64	AK753	AQJ
QJ104	9752	AQ753	AKJ
NONE	K754	AKJ	AQJ
K1086	AK754	AKJ	AQJ
NONE	AK754	AKJ	AQJ
AK753	AK754	AKJ	AQJ
AK753	AK754	AKJ	AQJ
AK753	AK754	AKJ	AQJ
AK753	AK754	AKJ	AQJ

East offered a spade and south two diamonds. West made a nice hopeful pass, fearing to double the diamonds lest there be a jump somewhere. North passed and east, with a wealth of high card tricks, rebid his spades. A better thing to have done would have been to double. Then west could have made a strength pass and McKear might have been in trouble.

South and west passed the two-spade bid and north doubled. East passed. South disliked the idea of east playing two spades doubled, and so he bid three spades, showing no losses in spades and trying to force north to name his best suit. West passed, and north bid three no trump, which east doubled.

South with his void and doubleton could not stand for the no trump contract, which could easily have been set. In view of north's inferential denial of diamonds and his no trump offer, it seemed to south that north must have heart support. And so McKear, who had a reputation as a good poker player before he took up contract, fell back on his nine-high straight flush. He bid four hearts. The bid went around to east, who joyfully doubled. Since he had two sure trump tricks, two outside aces and then some, it did not seem to him that the double could fail.

West led the spade knave, north and east covered and south trumped. Then south led a low heart, which forced the king. East could see nothing better to go than to lead the queen of spades in order to force south's trumps. Anyhow, all east could make was his two high hearts and the ace of clubs.

Those New Rules. A tragedy of the new rules: A and B, vulnerable, were out on a

**Homesick Marlene, Hearsick Maureen Leaving Hollywood**

HOLLYWOOD, Calif., Jan. 18. (AP)—Two of Hollywood's foreign-born actresses, Marlene Dietrich and Maureen O'Sullivan, today announced intentions of saying farewell to the film colony.

Miss Dietrich, who has had considerable trouble with her studio over selection of stories as well as a director for her productions, said she would leave next spring for her native Germany to join her husband, Rudolph Sieber, German film director.

With Miss O'Sullivan it's a case of "home sickness," she said. Friends say the young Irish actress has lost all interest in Hollywood since she broke off a supposed engagement with James Dunn, actor.

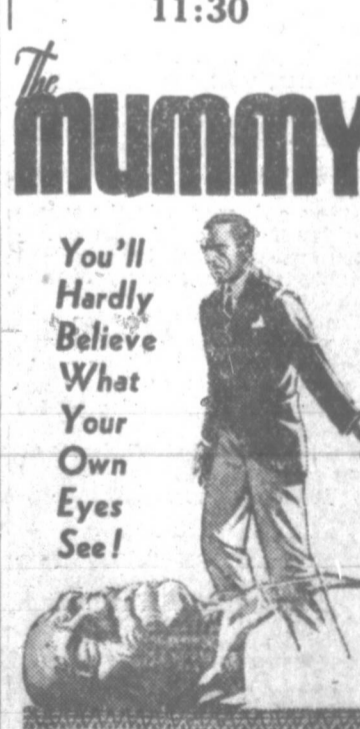

**Texan Is Honor Student at Navy**

ANNAPOLIS, Md., Jan. 18. (AP)—Only one prominent athlete ranked among the leading five students in honors for the upper three classes at the United States naval academy for the year of 1931-32.

Raymond Webb Thompson, Jr., of Baltimore, captain of the school's swimming team and a member of the United States Olympic team last summer, was listed fourth in the first class by the annual catalogue distributed today.

Midshipmen from the middle limb. When A was doubled at two no trump; B went to three spades. C doubled that. Then B went to three no trump, which C also doubled. B thought and thought so long that C got the idea that the auction was over. She led a diamond. B gleefully said that he had not passed or bid after the double, demanding a new deal and got it, thereby escaping a penalty of 2,000 or more.

**Big Salary Cut Made By Cooke County Court**

GAINESVILLE, Jan. 18. (AP)—A saving of \$3,000 annually was effected by the Cooke county commissioners' court in setting ex-officio fees and salaries of deputies in county officials' offices for the next year.

Ex-officio salaries were reduced as follows: County Judge from \$1,500 to \$1,200; county treasurer, from \$2,000 to \$1,200; district clerk, from \$720 to \$300. Three deputies in the county tax collector's and assessor's offices were reduced from \$1,500 to \$1,200 annually. Salaries in the county clerk's office were not changed, and action on salaries in the sheriff's department was deferred until next month. Windstorm and hail insurance policies on the court house and other property, totaling \$160,000, were cancelled, saving \$640 in premiums.

**Burning Gusher Endangers Wild Conroe Gas Well**

CONROE, Tex., Jan. 18. (AP)—Fire fighters exerted redoubled efforts today to quench flames bleaching from the widening crater of the burning standard of Kansas No. 1 Madeley oil well near Conroe.

The danger was increased because of the gradually narrowing strip of earth—approximately 400 feet—separating the burning well from the crater of the wild No. 2 well, which blew in yesterday as a gasser.

Five workmen escaped death when the second well blew in cratering immediately and swallowing the derrick. Gas fumes from the second well had not ignited but apprehension was felt lest the wind change and blow the flames toward the wild casser.

west states led in the number of honors, with Karl Frederick Neupert of Portland, Ore., highest in the first class; Frank Allen Nusom of Rockport, Texas, in the second class, and Lewis Lindemuth Shock, Jr. of York Pa., in the third class.
