

YOUTH IS KIDNAPED AT AMARILLO

As Travis Lively remarked to the Pampan, the size and intent of the national reconstruction program are not the principal factors in which we are interested. Will the money be used according to a pattern framed by and for eastern interests? Many men who aspire to national leadership are sincere in their misconceptions. They cannot see west of the Mississippi river.

Complexities
Provincialism in the densely populated areas is equivalent to the "country boy" thinking of the west, and often not nearly as enlightened. Remember, the founders of this republic were not great financiers. To them, government was a manner of organizing society, not of running men's private businesses. Today, the world has whizzed toward complexities of financial organization, upsetting basic theories of government.

Not An Extravagance
The government may pour wealth into the channels of business, and perhaps it should do so cautiously at this time, but the taxpayers ultimately will pay the bill. And when that payment comes due, a cycle of depression is not unlikely. It is a false doctrine to believe that prosperity can be built on extravagance, on increasing all manner of public and private expenditures.

On Distribution
The problem, as in all depressions in all centuries, is basically one of distribution of wealth. We quote from a symposium of statements compiled by Charles G. Ross, Washington correspondent of the St. Louis POST-DISPATCH: "Not Norman Thomas, the social leader, but Daniel Willard, the president of the Baltimore & Ohio railroad, told the Wharton School of Finance and Commerce last spring that a system which permitted five or six million men to be out of work in a country bursting with wealth can be said to have failed in at least one very important detail."

"Prof. F. W. Taussig of Harvard sees 'control and power concentrated in a few hands to an ominous degree.' 'Senator Couzens says that 'people will not suffer indefinitely in the midst of plenty.' 'Because of the babel of tongues offering remedies, we mistake, too often, the symptom for the disease, and in the clamor for government action we are prone to forget there are limits beyond which the government, under the constitution, cannot go.

"The government is in the same position of a manufacturing plant which has suffered a severe loss of busi-

TEX-ROY CAMP SCENE OF OFFENSE LAST EVENING

Sheriff Lon L. Blansett was notified soon after the robbery that the trio was headed this way. He and his deputies patrolled all roads leading into Pampa and scoured the community for several hours but with no success.

All three men wore handkerchiefs over their faces. Two were rather tall and slim and the other short and stocky. Each appeared to be about 25 years old.

Barkley, special officers for the Fort Worth and Denver Railway company, were in Pampa today investigating a theft of merchandise from railway cars at Childress recently. They questioned a prisoner being held in jail on a charge of robbing a McLean man of \$80 and his automobile recently. The man was arrested at Childress by officers of that county for Harris King of McLean who brought him to Pampa.

WASHINGTON, Jan. 20. (P)—Secretary Stimson stood firmly today in his refusal to submit publicly to the senate finance committee a telegram from the American legation at Bogota dealing with Colombian loans and the barco concession.

KANSAS CITY, Jan. 20. (P)—Federal authorities said today the dynamite, nitroglycerine and weapons used in the Leavenworth prison break Dec. 11 were shipped into the penitentiary in a barrel of shoe polish by Harold Fontaine, under arrest at Windsor, Canada.

HOUSTON, Jan. 20. (P)—The prosecution in the murder trial of W. S. (Shilo) Scrivner today drew a more nearly complete picture of the assassination of Mr. and Mrs. C. A. (Keggy) Jones here Aug. 31. Scrivner, on trial at present only for the slaying of Mrs. Jones, had been identified as having rented an apartment 500 feet from the Jones apartment the day before the double murder and as having vacated it suddenly after the killings.

TULSA, Okla., Jan. 20. (P)—After planning to launch a strong protest to curtailment of flow from the 56,000 stripper oil wells of Oklahoma, leaders of the movement decided today to abandon their plans.

MAJORITY HAS SET MARK FOR STATE POLLS

LOUISIANA VOTERS TO PUT O. K. ALLEN AT HELM

HUEY IS JUBILANT TODAY "COMPLETE THE WORK" PLANK IS MAIN FACTOR

NEW ORLEANS, Jan. 20. (P)—O. K. Allen has been nominated governor of the state of Louisiana by the largest majority ever polled by a candidate for that office.

Returns from yesterday's democratic primary election from 564 precincts, more than one-third of the total, gave Allen a lead of better than 50,000 over four other candidates with indications that his majority would exceed 60,000.

On the 564 precincts, representing a total vote of 151,401, Allen received 100,740, Dudley J. Leblanc, 30,792, George Seth Guin 19,380, William C. Boone, 234, William L. Clark 258.

Likewise John B. Fournet, running for Lieutenant governor on the Allen ticket, held a commanding lead of nearly 15,000 over his combined opposing field on returns from 414 precincts out of the total of 1,441 in the state. The vote stood: Fournet 45,739, Ruvin D. Hendrick 17,729, Lee Lanier 2,443, Earl K. Long 9,551, J. O. Stewart 1,138.

The incomplete vote on all other state officers also showed the Allen ticket candidates in the lead with Miss Lucille May Grace, candidate for registrar of the state land office and the only woman in the campaign, holding a decisive majority over her opponents.

Gov. Huey P. Long, who threw the full force of his support behind the Allen ticket, said today: "It's all over. Our figures show that the Allen complete-the-work ticket has been nominated in the first primary by 70,000 majority or over. The whole ticket has gone in. It's a great victory—another approval by the people of what we are trying to do for the state of Louisiana in spite of this sniping opposition."

Asked when he planned to take his seat in the United States senate, Long said he "was not in a position to discuss that matter this morning."

Denver Man Is Held for Ransom

DENVER, Jan. 20. (P)—Planning a trap for the kidnapers of Benjamin P. Bower, 62, bakery manager, police arranged today to meet a demand for \$50,000 ransom. Two men who took Bower from his home here last night demanded the money be ready for them at noon today.

DENVER, Colo., Jan. 20. (P)—An apparent drive by a gang of gunmen against a Denver bakery corporation culminated in the kidnaping of Benjamin P. Bower, 62, the manager, by two men who threatened him with death unless \$50,000 ransom was paid by noon today.

Bower was abducted from a group of six persons at his home last night. The gunman said they were members of a gang which had looted the concern of more than \$1,500 in two robberies.

The kidnapers forced two women motorists, Mrs. C. H. Winburn and Mrs. Clara Pool, to drive them to the Bower home, where Mr. and Mrs. Bower were entertaining two guests.

CAN YOU CALL IT DEPRESSION?

Ten years ago cotton was stacked out on the ground, people flocked around the rare airplane like ants around a lump of sugar, farmers all rode horses to town, or came in wagons and buggies, and no one knew what a depression was. Now the cotton bales are all stacked under sheds, airplanes are as thick as buzzards, every farmer has his automobile, and everybody is panicky. Call it depression if you want to: The pictures were taken 10 years ago at Gonzales, Texas.

TWO MORE DAYS REMAIN IN WHICH TO WIN BIG PRIZE

Votes Will Be Harder to Win During Rest of Circulation Campaign.

Just two more days remain in which to win \$100 in cash in The NEWS' circulation drive, and many hundreds of thousands of bonus and extra votes.

Just two more days until votes take another great fall, and maybe in just two more days, if you work hard enough and get the proper results, you can clinch your lead for your favorite prize: The Buick, purchased from and displayed by the Tom Rose Buick company, the Chevrolet purchased from and displayed at the Culbertson-Smalling Chevrolet company, or last but not least, the trip via the Transcontinental Western Air to Los Angeles, which includes such wonderful features as visits to the Hollywood studios, and to beautiful Catalina Island as the guests of the Wilmington Transportation company.

Now is the crucial period in The NEWS' contest. Now the winners are forging ahead through hard persistent work. These next two days should be the determining factor, and who's who in The NEWS' contest. Wide awake contestants are after those promises and second payments that mean so much to their vote total. The public is taking more interest in the real contestants and backing them to the limit, so again we say NOW is the crucial period candidates. Double your efforts—double your results—put in every minute and make your efforts count.

SHIFTING OF GUILT IS HINTED IN QUESTIONING OF JURORS AT MURDER TRIAL OF MRS. JUDD

PHOENIX, Ariz., Jan. 20. (P)—Hints of shifting of an accomplice or of shifting the burden of guilt were disclosed by defense counsel today in the selection of jurors who will decide the fate of Winnie Ruth Judd.

The shadow of another person in the case appeared shortly after court convened for the second day of the pale-faced 26-year-old woman's trial for slaying of Agnes Anne Lefor, her friend, last October. She also is charged with murder of Miss Hedvig Samuelson.

Herman Lewkowitz of defense counsel demanded of a prospective juror: "If you find human life has been taken and there is no direct evidence showing any connection of this defendant with the taking of human life, and the court instructs

STRIPPED AND LEFT TO FIND WAY TO TOWN

EL PASO MAN THOUGHT MISTAKEN FOR "PIGEON"

IS CLOSELY QUESTIONED WARRINGTON DURANCE IS ASSISTED BY RANCHMAN

AMARILLO, Jan. 20. (P)—Warrington Durance, 23, who came here four days ago from El Paso, told police he was "taken for a ride" last night and escaped only because of doubt concerning his identity.

Durance said he was forced by two armed men to enter a motor car on a down town street and was taken to a house where he was identified by several men and two women.

"They kept asking me about somebody I didn't know," he said. After being guarded by armed men for three hours, Durance said he was taken into the country about 10 miles, stripped of most of his clothing and released. He was brought to town at midnight by a ranchman.

Police said they believed Durance was mistaken for a "dool pigeon" in a recent Panhandle bank robbery.

Former Texan Is Made Governor Of Porto Rico

WASHINGTON, Jan. 20. (P)—James R. Beverley of Texas was appointed today by President Hoover to be governor of Porto Rico.

Beverly, who now is attorney general on the island, will succeed Governor Roosevelt, who has been promoted to the governor generalship of the Philippines.

The present legal chief in Porto Rico has been on the island for about seven years. He speaks Spanish fluently and was strongly recommended by Roosevelt as his successor.

Beverly is familiar not only with the leaders of the five political parties in the island but also with its financial and sanitation problems and with the program instituted there by Roosevelt.

AMARILLO, Jan. 20. (P)—James Rumsey Beverley, appointed today by President Hoover as governor of Porto Rico, succeeding Theodore Roosevelt Jr., is a native of Amarillo. He was born here June 15, 1894 the son of Mr. and Mrs. William Beverley.

ness but has been unable to cut its overhead expenses. "Since it is not possible by any conceivable present measure for the government to make a saving even remotely commensurate with the size of the deficit, it is clear that more money must be found than is now being taken in."

The Industrial Relations commission has estimated that the rich (2 per cent) own 60 per cent of the accumulated wealth of the nation, the middle class (33 per cent) owns 35 per cent of the wealth, and the poor (65 per cent, own 5 per cent of the wealth. Two per cent of the population pays the bulk of the income tax.

"Our predicament is primarily due to the inequitable distribution of the earnings of industry as between capital and labor. I have not seen a single denial of that statement—even by the bankers who are urging wage reductions."

"Senator Couzens again: 'We've gone crazy on the subject of exports. Our manufacturers have the best market in the world right at their doors, providing they pay their workers sufficient wages to buy what the workers produce.'"

"The cause of our troubles can only be found in the distribution of the national wealth, in a system, or lack of system, which permits—to cite but one glaring result—36 persons in the United States to receive an annual income averaging nearly \$10,000,000 each, or, in the aggregate, a greater income, after all deductions allowed by law, than the sum of the wages paid to the 428,000 persons employed in the manufacture of cotton goods."

"To the millions of manual workers displaced by the machine, it has not given leisure with the means to enjoy it but the twin evil of leisure, which is idleness. The perversion of the machine from its proper use has brought about our present condition of unemployment."

"What is the remedy? How are we to prevent the fulfillment of Marx's prophecy, in the Communist manifesto of 1848, that capitalism in the end would provide its own grave diggers? In the opinion of many thoughtful observers there is only one possible answer: Human greed must curb itself or be curbed. There must be shorter work hours, so that all who need work may find it, and this change must be effected not at the expense of wages but of profits."

Why, then, try to live to a "ripe old age?" To judge by the number of persons announcing for congressman-at-large, one would think the Texas politicians were also planning an "On to Washington" march.

As we deduct it, business went to the bow-wows while tired business men were watching the flappers, then the flappers went into eclipse while those same men turned their attention to elusive business.

To the extent that the country thinks Hooverism is the ultimate in low-ebb economics, we democrats will be spared of the necessity of promising anything except a change.

This depression will pass, prosperity will return, and another depression probably will follow the next war.

PANHANDLE WOMEN FIND CHEERFUL FICTION POPULAR

WRITERS DECLARE THAT THIS SECTION HAS UNDEVELOPED POSSIBILITIES FOR STORIES

MRS. PHEBE WARNER IS ENDORSED FOR CONGRESSMAN

Something that is cheerful, that snacks of a boom, or that will make people laugh will find the most favor with editors. It was agreed by speakers at a gathering of the Panhandle Pen Women yesterday at the Herring hotel in Amarillo. About 40 persons, including Mrs. Clyde G. Atteberry and Mrs. Olin E. Hinkle of Pampa attended.

"After the wide-spread depression, people need to laugh," it was said. Members agreed that there was a wealth of undeveloped material for writing of every type in the Panhandle. Information which can be given by the old timers of this section, whose stories of earlier days can be obtained only while they are living, was considered invaluable.

Goal Is High
In order to retain their active membership, each of the Pen Women must write 30,000 revised words or 30 revised poems in a year, it was stated. More than 15 members reached this goal during the last year, and much of their material was sold to magazines and newspapers throughout the United States.

The organization elected the following new officers for the year 1932: President, Mrs. Ray Carr, Amarillo; first vice-president and program chairman, Miss Sophia Meyer of Amarillo; second vice-president and contest editor, Mrs. J. W. Shanklin of Canyon; third vice-president and entertainment committee, Mrs. Will Gilvin of Amarillo; treasurer, Mrs. Mildred Cheney of Amarillo; secretary, Mrs. Chester Adams of Amarillo; historian, Miss Ruby Cook of McLean; parliamentary, Mrs. Patterson of Amarillo; board of directors, Mrs. W. K. Chandler and Mrs. Herbert M. Timmons of Amarillo.

At the meeting yesterday, Miss Margie Montgomery of Amarillo brought to a close her successful term as president.

Endorse Mrs. Warner
The women endorsed Mrs. Phoebe K. Warner of Claude, one of their group, as candidate of the democratic party for congressman-at-large.

Mrs. Marguerite Gibson, a blind writer of Amarillo, was selected as a life member of the organization. Other women are to read to her, from time to time, some of the latest poetry and fiction. Mrs. Eubanks well known writer of Hereford also was chosen as a new member of the group.

Luncheon was served in the hotel coffee shop.

Featuring the afternoon meeting was a discussion by Harry Montgomery of Amarillo of how to find, write and sell a feature story.

Miss Letta Edgar of Enid, Okla., who has been connected with a large newspaper in New York, told of her interviews with newspaper and magazine editors in New York and elsewhere. She stressed the fact

GOTHAM FLOATS LOAN

NEW YORK, Jan. 20. (AP)—A \$12,500,000 loan enabled the city to meet \$27,800,000 in short term obligations today and has staved off for the moment a crisis in its vexed financial problem.

The loan was advanced by one of the group of banks with which city officials have been negotiating for a much larger sum. It runs only until Feb. 1 and carries six per cent interest, the highest rate ever paid by the city and the maximum at which it can borrow under the law. The name of the bank was withheld.

that there was much opportunity for westerners who would write on western life.

It was learned during the closing open discussion, that reasonable success had been achieved by freelance writers among the Pen Women during the last year, and that many kinds of work, especially short stories and feature stories, had been sold.

George Terrell Out for Congress

ALTO, Jan. 20. (AP)—George B. Terrell, former Texas legislator and also former Texas commissioner of agriculture, announced today his candidacy for congressional office on the democratic ticket. He based his platform on claims of familiarity with agricultural problems which would qualify him in devising their solution.

"Planks" in his platform he enumerated included:

"I favor knocking down the tariff wall on a uniform scale so foreign countries can trade with us in order to enable them to pay their debts to the United States. Whatever tariff rates are levied should give as equal protection to agriculture, horticulture, livestock and crude petroleum, as is given to manufactured products.

"I favor abolishing some of the numerous commissions, boards and bureaus and reducing governmental expenses.

"I favor a law to prohibit the issuance of bonds to meet current expenses and thus force public officials to reduce expenses to meet normal income.

"I am opposed to any further extension of the powers of the federal government over the rights of the states.

"I am opposed to the cancellation of our just claims against foreign governments, unless war claims between other governments are cancelled.

"I am opposed to gambling by the exchanges in agricultural products.

"I am opposed to the issuance by federal judges of arbitrary injunctions.

"I am opposed to fessing over something to drink when people are starving. Prohibition is not a party question and should not be injected into the campaign to overshadow the great economic questions, upon which we can elect a democratic president and a democratic congress."

CUPID'S VICTIM

Nan Blackstone, above, singing comedienne of New York, is to marry soon. The lucky man is Martin Goldring, southern business man. Nan is now on her way to Europe for a six-weeks engagement in London. The marriage will take place after she returns.

Leroy Henderson, radio singer, entertained guests at the surprise birthday party given in the home of Helen Riggins in honor of Myrtle Towle and Homer Estlack.

Refreshments were served at the close of the party to Mr. and Mrs. Riggins and daughters, Helen and Babe, and son, Charles B. Higgins, Mrs. W. E. Towle and daughter, Myrtle Towle, Mr. and Mrs. Anderson and daughter, Victoria, Mrs. Henderson and sons, Leroy and George, Homer Estlack, Lucille Kentling, Hazel and Lillian Baker, Louise Walker, Bertie Atchison, Jack Dunn, Buster Walker, Christian Simmons, Willard Johnson, Red Weatherly, Pride Whitlock, and Dutch Trostle.

Road Hogging Is To Be Prevented

Laws pertaining to highway travel and motor vehicles were designed to prevent accidents and to save life and property, according to Geo. Stanley, county traffic officer, who does not believe in making petty arrests to collect a fine.

Officer Stanley, a mid-manner, quiet-spoken man, is concerned chiefly with violations of laws that cause most accidents. For instance he is "death" on one-eyed cars, cars minus one headlight. He has a grudge against road-hogging cars, trucks. He hates noise and is on the look-out for cars without mufflers on the exhausts. Yesterday, he arrested drivers of six cars without mufflers.

He arrested several truck drivers who could produce no proof that they had chauffeur's licenses. Mr. Stanley does not look for speeders. In fact, he seldom arrests a speeder, but he is after reckless drivers. A man may drive safely and carefully while traveling 60 miles an hour, while another driver may travel recklessly 40 miles an hour, Mr. Stanley points out.

The chief difference between a city traffic officer and a state or county traffic officer, is that the city "speed cop" must make enough arrests to justify the holding of his job. State officers are cautioned that their business is to prevent accidents and to act with reason at all times.

Job Survey Gets Work For Jobless

Several unemployed men have been given work this week as a result of the labor survey being made by members of the junior chamber of commerce. A. D. Monteth, in charge of employment for the Welfare Board, says that the work is coming at a critical time.

Citizens who have not been approached by members of the junior body are asked to get in touch with Mr. Monteth or the chamber of commerce offices in the city hall. Even a few hours work will help a man over the rough spots, members of the junior body believe.

Approximately 100 hours of work has been secured through the work of the Jaycees. More is needed, they declare.

"Surely a few hours work can be given getting the lawn in condition planting roses and bulbs, cleaning up the garden, cleaning windows, or other work," Frank Hill, chairman of the committee in charge, says.

KILLS BRIDE, SELF

"The West Texas Chamber of Commerce gives you more for your money than any organization I know of."
SO SAYS HOUSTON HARTE

The opinions of these men are decidedly worth your reading.

PRICE CAMPBELL

President, West Texas Utilities Company, Abilene, Texas

"The money I subscribe to the West Texas Chamber of Commerce is the best investment this company makes for the development of West Texas—the land of opportunity."

C. M. CALDWELL

Abilene, Texas

"I believe the affairs of the West Texas Chamber of Commerce are in safe, conservative and intelligent hands."

AMON G. CARTER

Publisher, Fort Worth Star-Telegram, Fort Worth, Texas

"The West Texas Chamber of Commerce is the best organization of its kind in the country, and all West Texans should be proud of it and support it in every way possible at all times."

WILBUR C. HAWK

Publisher, Amarillo News-Globe, Amarillo, Texas

"The tax program of the West Texas Chamber of Commerce alone is worth all the money the organization costs to maintain."

O. B. MARTIN

Director, Texas Agricultural Extension Service, College Station

"The West Texas Chamber of Commerce initiated the movement for drouth relief in Texas, and also rendered great service in securing aid from Washington, as well as similar helpfulness in getting it to the people. I doubt very much whether the funds for the drouth work would have been applied to Texas to any considerable extent but for the activity of the organization."

J. S. BRIDWELL

Oil Producer, Wichita Falls, Texas

"The West Texas Chamber of Commerce has done a great deal towards the development of West Texas, and has brought about a better understanding among the citizenship of the different communities in West Texas to help West Texas get recognition that otherwise it would not have received. The organization is entitled to the support and confidence of the citizenship of this vast empire in West Texas."

C. N. BASSETT

President State National Bank, El Paso

"It is just dawning upon me that we have in the West Texas Chamber of Commerce the best possible agency through which to solve our state and regional problems."

R. L. MALONE

Merchant, Roswell, N. M.

"Eastern New Mexico has received much help from the West Texas Chamber of Commerce in the promotion of tourist travel to our scenic attractions. Each community in New Mexico has received adequate dividends on its memberships. This cooperation has been of value also to the people of West Texas in bringing to their very door these great recreational opportunities."

W. H. BOWMAN

Macmillan Publishing Company, Dallas, Texas

"From a publicity standpoint, the work done by the West Texas Chamber of Commerce in correcting the geographies was worth many times any one year's budget."

H. S. HILBURN

Publisher, Plainview Evening Herald, Plainview, Texas

"The savings to cotton shippers because of reduced freight rates brought about through the efforts of the West Texas Chamber of Commerce amount to many, many times the money the affected territory pays into the organization's treasury in several years. Other reductions followed, but shippers must realize the immense savings early in the season, the direct result of West Texas Chamber of Commerce activities."

--and so say scores of other West Texas business leaders who are affiliated with this organization. And so you will say!

ANNUAL MEMBERSHIP DRIVE

Your help is needed to make 1932 the Banner year for West Texas

Tomorrow, January 18th, the West Texas Chamber of Commerce will launch its 1932 Membership Campaign, simultaneously in the 130 towns affiliated with it.

The sum of \$60,000 is needed and asked for, to carry on the Work Program.

This organization is 13 years old. It is one of the oldest and is the largest organization of its kind in the country. From the 130 affiliated towns it draws a democratic directorate of 113 members, an executive board of 14 members, 18 committees with definite work programs, and four headquarters and branch offices. Its magazine, WEST TEXAS TODAY, is an old, well-established, powerful medium for the promotion of the territory served.

The West Texas Chamber of Commerce is NOT an opportunist type of organization. Its work is done according to a plan, the policies of which are determined by its annual conventions, which are the largest of their kind in the United States. Its directorate is completely representative and democratic. There are no paid membership solicitors . . . EVERY DOLLAR RAISED GOES TO CARRY ON THE WORK PROGRAM.

The West Texas Chamber of Commerce has no debts, but is on a "Pay as you go" basis.

Every West Texas town should be affiliated with the West Texas Chamber of Commerce. An affiliation gives your town the benefit of the force of all other West Texas towns behind your regional problems. The cost of affiliation is small, the procedure simple. All that is required is that your town meet its prorata part of our budget; and that from our membership in your town, you yourself elect your director.

**CONSOLIDATED BALANCE SHEET
West Texas Chamber of Commerce**

The assets of this organization are in its WORK PROGRAM; its liabilities, the cost of putting over the program.

Within the past biennium the accomplishments of the West Texas Chamber of Commerce, measured in dollars and cents, would, according to the most reasonable figuring, amount to \$23,824,782. They would include, to take a few at random, the following whose cash returns can be exactly stated:

- The Chamber fathered, and was the agency contacted by the U. S. Department of Agriculture, in production and food loans, enabling the farming of 1,500,000 acres of Texas land not otherwise possible. Amount loaned by government to 15,000 farmers in 67 West Texas counties was: \$2,403,360
- Secured \$7.50 exemption per bale from government mortgage—150,000 bales of West Texas cotton at \$7.50 per bale, amounts to: \$1,125,000
- Secured consent of government to collateralize production loans on basis of 8-cent cotton. Saving on 75,000 bales at 3 cents over the market was: \$1,125,000
- First to solicit Red Cross aid, resulting in securing assistance for drouth defined area of West Texas. Cash allotment made, \$45,000; food and clothing, \$59,422, making a total of: \$104,422

In the way of estimated, deferred and intangible assets, completing the total of \$23,824,782, the Chamber secured equalization of cotton rates, overcoming differential in South Plains area; secured cotton rate reductions for same territory; forced corrections in geographies used in 38 states which now, for first time, are giving West Texas a "break"; pioneered and championed conservation of natural resources, validation of land titles, needed constitutional amendments; passage of relinquishment act; split tax bill; reduced public expenditures with a view of tax reduction, etc., etc.

Liabilities for 1932 are \$60,000. This is the budget, the sum required in the Work Program, to be carried on by the following committees, already organized and functioning: Officers, Agricultural, Livestock, Mineral Survey, Industrial, National Affairs, Oil and Gas, Land, Educational, Tax, Traffic, Publicity and World's Fair Exhibit, Parks, Railway, Highway, Legislative Bureau and Committee, Speakers Bureau, Industrial Opportunities Bureau, and Beautification Committee.

A small investment in the West Texas Chamber of Commerce will pay greatest dividends.

EXECUTIVE BOARD: Amon G. Carter, Chas. E. Coombes, Chester Harrison, Clifford B. Jones, F. W. Kennerly, R. L. Malone, John Perkins, Clarence Schirbauer, O. P. Thrane, Walter Yaggy.

The opportunity of enrolling in this unselfish, efficient and vital organization is yours this week. It will be brought to you, not by paid solicitors, but by a committee of your own fellow townsmen, donating the time in behalf of a worthy cause.

BUT BOXING CHIEF HAS PLAN TO VACATE TITLE

NEW YORK, Jan. 20. (AP)—One night this coming June, if all goes well, the fight faithful will rally round the center lights at Yankee stadium and watch Max Schmeling and Jack Sharkey resume their fistie dispute where they left off two years before.

All that remains to assure another meeting between the young German, heavyweight champion, and the fighter who fouled him into the title in June 1930 is the actual signing of contracts.

Joe Jacobs, manager of the champion, was said to have reached an agreement with Madison Square Garden to hold the bout in one of the major league ball parks here. The distance will be 15 rounds.

The last serious obstacle to the match was removed yesterday when Schmeling "made up" with the New York State Athletic commission. He formally promised to fight Sharkey before July 1 and to post a \$25,000 forfeit when the papers are signed.

The commission, which outlawed the German when he failed to keep his word to give Sharkey a return match a year ago, lifted his suspension to the extent of granting him permission to negotiate with Sharkey and his manager, Johnny Buckley, who are expected from Boston Monday.

Just as Schmeling was making his peace with the New York commission by promising to sign for a championship match against Jack Sharkey in New York before July 1, General John V. Cline, president of the National Boxing association, dispatched ballots to members of the N. B. A., asking them to vote on the question of vacating the heavyweight title, because Schmeling's failure to defend or sign to defend it within the prescribed six-month time limit.

Schmeling's troubles with the New York group began when he failed to keep a promise to give Jack Sharkey, whom he defeated on a foul in June 1930, thus gaining recognition as champion, a return match. The New York commission withdrew its recognition a year ago when Schmeling did nothing about meeting Sharkey again.

All that time, however, the National Boxing association recognized Schmeling as champion, and sanctioned his title bout with "Young" Stribling at Cleveland last July 3. Under the N. B. A.'s rules, he was due to fight or sign up by Jan. 3. At that time a match for the championship with Mickey Walker, former welterweight and middleweight titleholder, was brewing, and the N. B. A. awaited developments.

The Walker-Schmeling battle collapsed after two weeks of discussion over contracts.

Should the N. B. A. vote to withdraw recognition from Schmeling as champion, he would hold no title at all, his New York standing being that of a leading contender.

STEVE HAMAS HAS PROSPECT OF BIG CAREER

FORMER PENN STATER WINS BOUTS BY KNOCKOUTS

By EDWARD J. NEIL Associated Press Sports Writer

NEW YORK, Jan. 20. (AP)—A big, finely-muscled youngster with a wide, intelligent face, sat on the edge of a rubbering table, a robe about his naked shoulders, eight-ounce gloves on his hands.

"Remember kid," insisted the stooped old timer bobbing in front of him, "his legs are gone. Rush him to the ropes. Throw a wild right at his chin with everything behind it. Do you understand?"

"Yes sir, Mr. Harvey," said Steve Hamas, the finest young American heavyweight of the day.

A few minutes later in the Madison Square ring, Hamas rushed the veteran Tommy Loughran to the ropes and let the right hand go. That was the beginning of the end. Soop after that he helped Tommy to his corner. As he walked back with one of his seconds he shook his head.

Always Liked Him "Anybody but him," Steve said. "I always liked him."

Hamas became the newest heavyweight sensation that night, the first big man from the college ranks to win a main bout in the garden. He won 12 letters at Penn State, was intercollegiate heavyweight champion in 1927 and 1929 and played all sports. He became a professional fighter by accident. He wants to be a doctor some day and he will be. He is 25 years old.

He is Austrian in descent, a student, avid reader, unexcitable, indefatigable gymnasium worker, a great "finisher" in a ring and speaks five languages, Slav, Russian, Polish, English and profane. He loves big steaks and vegetables and things his only sister is the best cook in the world. He likes to start arguments, and then retire.

Great Fullback Football is the greatest game he ever ran into. He was a great fullback at Penn State. He was playing professional football when a mutual friend brought him as a fight prospect to Charlie Harvey, known as "old handle-bars" because of his mustachios, one of the best beloved of all the ring veterans.

A year ago his brother Mike, became ill and Steve started with him in a battered old car for the Pacific coast. He took letters of introduction from Charlie Harvey to several fight promoters in case funds failed. They did.

So Steve got nine fights and scored nine knockouts. He sent most of the money home. He ran out of fights. The panic was on. Charlie had about it and sent him \$100. Steve had just enough money left to buy the stamps to send it back.

Brother Mike got over his illness and found a job at \$4 a day as an assistant carpenter.

"But we're worse off than ever," Steve wrote Charlie, "because now that Mike is better, he eats more than \$4 worth a day."

FOOTBALL AND GOLF GAINING IN POPULARITY

BASEBALL'S LEAD CUT DEEPLY BY TWO SPORTS

By ALAN GOULD Associated Press Sports Editor

NEW YORK, Jan. 20. (AP)—One of the most striking features of the Associated Press poll of newspaper expert opinion is proof of the astonishing growth of football and golf in national popularity, testifying strongly to the advance of the amateur side of our competitive forces.

Meanwhile, baseball has had a fight to hold its own and remain the "national pastime" by a narrow margin and other professional sports such as boxing and horse racing have experienced sharp declines in public interest.

Baseball's lead over all other sports has so far been cut down that the Associated Press poll shows a compilation of 181 points to football's 163. Golf is a good third with 114 but boxing is a poor fourth with only 29.

Five years ago boxing undoubtedly would have been included in the first three by 99 out of every 100 observers.

Professional wrestling, several experts find, has helped oust boxing from its former favor, the comparison in Mississippi showing "about four wrestling fans to each boxing fanatic in 1922."

The fight game, however, still has many backers in its strongholds on the two seaboard, San Francisco giving it a stronger vote than New York.

While many observers now feel that golf tops all sports in the amount of player activity, it is conceded that football and baseball command greater all-around interest.

"Baseball still has more participants than football and it isn't so terribly far behind golf, taking into account all of the professional, semi-pro, school and kid teams, and I don't believe there is any sport to compare with it in drawing power if all had to compete on a daily basis," asserts a Texan.

To which a Philadelphian adds his belief that baseball has more participants. Still, as an Iowa supporter of golf notices: "The farm hand, the clerk and the business executive, not to mention the school kids, play the game and some of them fairly well" and, adds a Nebraskan, "every whistling point on

HARVESTERS WIN ANOTHER GAME BY ONE-POINT MARGIN

Panhandle Panthers Defeated by 27-26 Score—Long Lead Is Diminished.

The Pampa Harvesters apparently like to win games by close scores. Last night the boys from Pampa defeated the Panhandle Panthers in their home jungle, 27 to 26, after taking a long lead in the first half.

After the opening of the second half, the referee started handing out penalties to the Harvesters and before the third quarter was over he had succeeded in having Midget Woodward, forward, and Wayne Kelly, guard, removed from the game and had put three personals on Enloe, the other Harvester forward.

Coach Odus Mitchell started Woodward and Enloe on the forward line with Marbaugh at center. Wayne Kelly and Captain Dinty Moore took the guard position. When Kelly had to leave the game, Fullingim took his place. When Woodward was banished, Moore went to a forward position and Patton went in at guard.

The Harvesters second string, under Coach Argus Fox, beat the Panther second team, 34 to 10. Chastain did some nice shooting to score 10 points while Poe, who played center, added eight. Bill Kelley made a like number for the green and gold. Claude Sullins added the rest of the points. Stone was the pick of the Panther squad.

Morris Enloe led the attack on the Panther first team. The sensational shooter made 14 points to be high scorer on the floor. Wayne Kelly was the railroad has a golf course now."

Ranking Players In Tennis Tourney

MONTREAL, Jan. 20. (AP)—Safely past yesterday's opening round tennis stars of the United States and Canada braced themselves for stiffer competition as play was resumed today in the Canadian indoor tournament.

Four ranking players from the United States, led by the defending champion, George Lott Jr. of Chicago, won their initial matches about as they pleased, although Lott was forced to a deuced second set in eliminating G. H. Jordan of Montreal, 6-1, 9-7.

Berkeley Bell of Austin, tenth ranking American player, defeated Gerald Wayland, Montreal, 6-1, 6-0; Fritz Mercer of Bethlehem, Pa., beat C. P. Flood, Montreal, 6-2, 6-1, and Gilbert Hall of South Orange, N. J., defeated J. M. McDougall, Montreal, 6-1, 6-3.

found his bearing for long shots and was second high point man with seven points. Marbaugh made four and Moore two to close the scoring. Woodward failed to find the basket, but did great floor work.

Vaughan at the van of the Panther attack, scored 10 points. Weaver at guard, was strong both offensively and defensively. His long shots were dangerous throughout the game.

The half ended with the Harvesters leading 22 to 10, but the lead faded when the Harvesters stars were forced from the game.

LOOKING? For YOUTH!

ABRAHAM LINCOLN'S mother died at the age of 37—an old woman, worn out from the hardships of the frontier. She was not an isolated case. There were thousands of others like her.

Hard, physical labor robbed her of health and beauty—made her old before her time.

Strange as it may seem, even in this Electrical Age, there are countless homes where, except for lighting, the work is being done just as it was in the frontier days. The women of the house are still wasting their health and time doing tasks that electricity can do for them at a very small cost.

Electricity will do your washing and ironing with a minimum of effort on your part, it can help with the cooking and cleaning. There is hardly a household task that it cannot make easier, or do for you.

Amarillo Pioneer Is Killed By Fall

AMARILLO, Jan. 20. (AP)—J. D. "Dad" Thompson, 78, pioneer Amarillo man, died early today a few minutes after falling down a flight of stairs at a local hotel.

Thompson came to Amarillo more than 30 years ago, and settled on a ranch. He had been one of the city's leading business men almost a quarter of a century.

Wants Checks To Be Made In Ink

Newell T. Garnett of the Richards Drug store has a theory about checks—not a theory; just a joke. He avers that he "did not get it out of Ballyhoop, Hoey, or Slapstick, either."

Mr. Garnett suggests that henceforth all merchants require that the checks they accept be written out in ink, and then the owners won't wear the pencil marks off carrying them around. Mr. Garnett said that lead pencils tend to wear off in the course of much handling.

One man recently protested to Mr. Garnett that nowadays one should not even think of calling a check "hot" until it had been taken to the bank at least four times.

McLear Man Loses Auto In Blaze

On account of a mystery, Coleman Huff of McLear was pondering deeply this morning.

Last night, Mr. Huff was at Canadian in a cafe eating supper. He noticed people hurrying down the street. He went to the door and saw a crowd gathered around something. He soon learned that they were watching his automobile burn. It was parked a few minutes before Mr. Huff went into the cafe. It was not on fire then.

The flames destroyed the machine in no time. Mr. Huff has no idea how it caught on fire. His brother, Marvin Huff of Pampa, brought him from Canadian to Pampa last night.

Corn started 1/4 to 3/8 off and later kept near the initial range.

The concrete on the floor of the bridge was originally six inches thick but it had worn down three inches. Traffic over the bridge has been exceptionally heavy since streets in the Cook addition were paved, causing much traffic over Highway 33 to go through that addition.

Poll Tax Paying Much Stressed by Citizens' League

Why every citizen should pay his poll tax this year was the subject of a half-dozen addresses made last night by extemporaneous speakers at the regular meeting of the Citizens' League at the Labor temple in the basement of the Brunow building.

A poll of more than 100 men who attended the meeting revealed that of that number only seven had not paid their poll taxes for this year. These seven men stated they were unemployed and could not spare money to buy the tax. They asked the League to help them obtain employment. Their request was sympathetically received and assistance in securing the necessary employment was promised.

Several speakers last night discussed various ways to secure economy in government, and suggested methods of applying them locally.

The purpose of the League is to promote good government, it was emphasized at the meeting last night.

J. W. Murphy presided at the session. Mr. Murphy announced the next meeting would be held Tuesday night at 8 o'clock. "Business men, especially, should investigate the policies of this organization, and all citizens should be interested in better government," Mr. Murphy stated.

Photographer Is Poultry Raiser in His Spare Time

The hobby of many people is amateur photography, but the hobby of Fred Moss of Fred's Studio has nothing to do with taking pictures. Mr. Moss' hobby is exceedingly virtuous and far removed from the arts.

It deals with the raising of well-bred buff orpington chickens. Last week, Mr. Moss' hobby brought him rewards. He took six of the beautiful buff-colored birds to the White Deer poultry show and walked off with two coveted ribbons.

He exhibited a two-year-old cock that won the grand championship of the show. A pen of five orpingtons won second prize in the young pen class.

SERIES TO CONTINUE

OAKLAND, Calif., Jan. 20. (AP)—Because of expense and unsatisfactory railroad schedules, directors of the Pacific Coast Baseball league have decided to continue the seven-game series instead of the proposed split week of four and three games.

Directors estimated at the annual meeting here yesterday the split week would add \$2,000 or more to expenses for each club.
