Cheaper to Walk

Supt. Thomas Boles writes Supt. Thomas Boles writes this column that the guide fee has been reduced from \$2 to \$1.50 for each adult, if you use the trails, with 50 cents extra if you use the elevator. Supt Boles particularly urges sight-seers to use the trails going down. The views are more awe inspiring that way. Children under 16 years of age are admitted free when accompanied by responsible adults.

And a Barbecue

Among the things suggested for Frontier day in Pampa next summer are these: Barbecue, mammoth parade of early-day vehicles and oldtimers, horse racing, oldtime athletics, oldtime cowboy music and street dances, badger fight, terrapin race, Indian dances, relics and art display, oldtimers' reunion. A number of these suggestions are from C. H. Walker, who already is imagining the fun he is going to have. Mr. Walker wants the oldtimers to sing "Good-by, Old

PANHANDLE'S DEEPEST OIL TEST HOLDS ATTENTION NOW

Finding of Crude in Hole Will Cause Well to Be Rehearsals for Sent Downward.

Twenty-five barrels of high grade oil was taken from the Panhandle's deepest oil well last week when drillers opened the hole to plug back to upper pay. As a result of the new finding, the well will be drilled deeper.

The deep test is the Big Bend Oil company's No. 1 Ledrick in section 7, block C, Roberts county. It is practically in the center of the county and is six miles east and 23 niles north of Pampa. The test was started seven years ago and drilling has been done at intervals since that time. Six oil showings have been found to a total depth of 5.975 feet. Some gas was encountered.

The best showing was found at the mile depth, but backers of the project decided to go deeper and then plug back if better pay was not discovered. Drilling was stopped at 5.975 feet and the well closed in for several months.

When the drillers started to clean out the hole to plug back they found ing out is continuing and it has been decided to drill deeper.

121)-Dynamite, placed junder a corner of the wooden building housing the local office of the Panhandle Power & Light company, did considerable damage to the structure and to bookkeeping equipment last night

The blast occurred about 9:30 p. m. while the building was empty, and apparently there were no witnesses. No arrests had been made up to noon today.

A reward of \$500 for arrest and conviction of the person or persons responsible for the bombing was offered today by C. R. Stahl of Borger, general manager of the company. It was understood that Sher-iff J. W. McCormick of Carson county had offered an additional reward of \$100.

Neither officers nor company oficials could offer any explanation of the blast. There was a disposi-tion, however, to associate the hap-pening with the bitter "franchise war" being waged at Borger, in which the Panhandnie Power & Light company is a participant by eason by having large investments at Borger.

Inwestigators believed that two sticks of dynamite, with fuse at-ached, had been used. The damage to the building was not large, but adding machines and filing cases were bent by flying wreckage, and furniture was scarred.

"TUNNEY" FIRST **DOG VACCINATED**

Tunney, not Gene but one of the ugliest looking reddish bulldogs imaginable, was the first Pampa dog to be vaccinated and tagged in Pampa this year. The fine thoroughbred animal is owned by Mr. and Mrs. D. A. Finkelstein, 409 North Gray street. The uglier a building is the better his breeding, and Tunney of Panhandle. would just about take first prize

January 31 is the deadline for dog censes. Chief of Police J. I. Downs is going to delegate himself dog catcher until he finds someone who hates dogs as much as he does to handle the job. Pampa dog owners had better call on Dr. T. J. Worrell and have their animals vaccinated and get tags from the police department, Chief Downs says.

Two children were bitten by dogs Saturday, and this made the chief madder than ever. He went on the war path and killed one of the dogs. He was still hunting for the other one this morning.

'We have got to protect our children and I am going to clean the city of dogs early this year," the chief wrathfully remarked this morning. When the time for rabies gets here every dog will have a tag on it to live.

... and just think! It's a Maytag!" it's the 1

The more you know about washers, the more you will wonder how anyone could make a low priced washer of such unquestionably high quality.

Here's the answer.

In the Maytag factory, the world's largest washer factory, precision workmanship and rigid inspections are routine. Workmen are trained to think high quality. They don't use anything but highest grade materials and precision machinery.

Naturally a washer made in such a factory is going to be a fine washer. Not only when it is new, but after years of hard service. Because the quality is built in. Every hidden part is as carefully made as tools can make it.

So don't let the low price of this New Maytag confuse you as to its quality. If you are one of the millions of women who have put off buying a washer till you could afford a Maytag, now is the time.

Higher Taxes Up to Congress Now

WASHINGTON, Jan. 25. (A)-New and higher taxation, designed to attain in combination with stringent economy a balanced budget once becomes the issue of paranount importance in congress this week.

Removal of the reconstruction corporation from the foreground of the legislative scene caused attention to swing to this question which will affect directly or indirectly every pocketbook and should have a pearing on the speed with which economic recovery is obtained.

A taxation plan, substantially amended from the program offered by the treasury, is promised in the house within a week or so. Even before hearings are ended by the ways and means committee leaders the controlling democratic side are indicating an intention to tap sources of revenue left alone by the administration as alternative to some of the taxes recommended For instance, electric power production has been suggested as a likely field for levies.

WIND SLOWS BAYLOR LEADS CAGE RACE AT

RICE AND ARKANSAS IN TIE FOR SECOND PLACE

DALLAS, Jan. 25. (A)-After siege of 12 championship combats since Jan. 8, the Southwest conference basketball campaign hits a temporary lull this week. The only game scheduled will be tonight at Houston between Baylor and Rice.

As the conference stopped to catch a second breath, it found Baythe game fields with his dogs and lor leading the race with two wins gun, wonders if they will love him and no defeats and Rice and Arkansas tied, for second with three victories and one defeat each Adolph Dietzel, Texas Christian center, is pace setter for individual scorers with 19 field goals and 10 charity shots for 48 points. university is the leading offensive team with 127 points in five games.

Important Tilt
Tonight's game would monopolize interest this week even if other conference members were scheduled. Having defeated Texas Christian, 1931 champion, 32 to 24, and stopped Texas A. and M., 29 to 23, there is now no doubt but that critics must accept Baylor as a powerful contender for this year's championship.

Rice has resembled a championship in all but a 47 to 22 defeat last week by Texas Christian. However, Rice had the stuff to come back to whip Southern Methodist 24 to 19 and Texas 25 to 22.

Although last week's schedule was heavy, there were no upsets. Arkansas' 46 to 20 and 29 to 20 victories over Southern Methodist were expected. The Mustangs have lost four conference starts. Last year they finished as runners-up to Texas Christian. Saturday night at College Station

Baylor got a stout fight from the Texas A. and M. Aggies but managed to finish in front because of an early lead that allowed the Bears to finish the half, 14 to 8.

Texas uncovered a phenomenal omeback in the second half against Rice but did not have enough to keep going and finished on the poor side of a 25 to 22 score.

About Diets

How to balance diets on reduced incomes is a problem in many homes. The New York TIMES recently printed a government suggestion the mercury was low at 32 degrees. It had climbed two degrees at noon, between the statement of the mercury was low at 32 degrees. It had climbed two degrees at noon, between the mercury was low at 32 degrees. Brown had as their evening, Mrs. F. T. M. Owever. of value. Here it is, in part:

"If there are children in the family, each dollar that goes for food should be spent Stewart, taxicab driver, was killed today when a freight train struck like this: 25 cents for milk and cheese, 25 to 20 cents for vegetables and fruit, 15 to 20 his vehicle at a railroad crossing here. Minimums

If men and women are to feel well and be able to work, if children are to be healthy and able to go to school, they must have enough food and they must have the right kinds of food. It is lack of certain essential kinds of food as well as insufficient quantity of food that produces pellagra, scurvy, rickets, and other forms of malnutrition. Experts say that a family of five, including three children under 14 years of age, should have at least this much food each week:

Bread, flour, other grain products, 30 pounds; 28 quarts of milk, 20 pounds of potatoes, 1 pound of dried beans or peas, 6 pounds fresh or canned tomatoes, 10 pounds leafy vegetables, 3 pounds butter or other fats, 3 pounds sugar or molasses or syrup, 7 pounds lean meat, 1 dozen eggs.

Many Underfed

When we consider that the above food list represents the bodily needs plus a small margin of safety, it may be readily seen how many families, in this period of unemployment, are dangerously below the standard. Welfare work cannot overlook the individual needs of the persons involved, and when there is illness the problem is even more acute.
