DELAY IN OUSTING OF SHERIFF MAIN ISSUE

NEW YORK, Feb. 27. (AP)—Political tongues were set awagging today by the address Samuel Seabury, counsel for the legislative committee investigating New York City affairs, delivered in Cincinnati last night, attacking Tammany hall and taking what all New York papers interpreted as a "slap" at Governor Roosevelt.

In many political circles the speech was taken to indicate that Seabury was tossing his hat into the ring and would seek the democratic presidential nomination which Roosevelt also hopes to obtain.

Both the SUN and the POST said there was little doubt left in the minds of political leaders that Seabury was now definitely a candidate for the presidential nomination.

ALBANY, N. Y., Feb. 27. (AP)—Governor Roosevelt will challenge Samuel Seabury's attack upon the executive's handling of the removal of Sheriff Thomas M. Farley and what was interpreted as criticism of Mr. Roosevelt's other contacts with Tammany hall.

Smith Talks Out
NEW YORK, Feb. 27. (AP)—Former Governor Alfred E. Smith reopened the issue of prohibition today with the same vigor of speech he used in his 1928 campaign for the presidency.

He said President Hoover became the dry leader of the country with his stand on the Wickersham report, denied the south was dry, condemned "duking and dodging" on the question and advocated a new amendment to the constitution to give each state the right to determine its method of liquor control by popular referendum.

His address was made before the forum of the national democratic club.

Talks of Stupidity
"To say that prohibition is not an issue is stupid," he declared, "and I don't believe that the men that say that believe it themselves."

WASHINGTON, Feb. 27. (AP)—Confidence that the republican national convention would adhere to previous dry pledges was voted today by Senator Borah, R., Idaho, in the face of eastern demands for a repeal plank at the Chicago meeting in June.

Senator Borah was a member of the resolutions committee at the Kansas City convention four years ago and was largely responsible for the dry plank adopted then. If he attends the Chicago convention it is expected he will have a lot to say about the prohibition resolution.

Webb's Subject Was Commission Form of City Governments

Although his subject was announced at the Pampa Lions club as being on the proposed city charter amendment, Dr. R. A. Webb stated yesterday that it should have been announced as the development of the commission form of government. Dr. Webb said there is merit in the provisions of the amendments and their purpose he did so in an explanatory way, with no intention of expressing his opinion as to how the clubmen should vote. It is not the policy of the club to have partisan discussions at its meetings.

PRAIRIE WILL MEET TUESDAY

Judge Refuses to Enjoin Session Where Merger May Be Attempted

TOPEKA, Kans., Feb. 27. (AP)—Judge Orie L. Phillips refused in United States district court tonight to enjoin the holding of the annual Prairie Pipeline company stockholders meeting in Independence, Kans., next Tuesday at which the proposed consolidation or merger of the concern with the Prairie Oil and Gas company and Sinclair consolidated oil corporation will be up for approval.

The injunction was sought by Lionel E. Straus, owner of 1,000 shares of Prairie Pipe, who alleged the proposed consolidation would be disadvantageous to stockholders in the concern.

Leap Year Bargain Values Advertised In NEWS Today

Monday, the extra or Leap Year day, is the calendar maker's idea of a bargain in time.

Hence it is fitting for merchants to observe the day by offering "Leap Year Bargains" which are really wonderful.

"BIG HAT" COMMITTEE IS TO ASSURE WESTERN ATMOSPHERE FOR FRONTIER DAYS IN CITY

Members of the Pampa Junior chamber of commerce heard committee reports and discussed coming events at a meeting Friday night in the basement of the city hall. Sheriff Lon L. Blansett gave an interesting talk on the Frontier Days celebration to be sponsored by the Jaycees. He appointed Julian Barrett chairman of the "Big Hats Committee."

Mr. Barrett's duties will be to sponsor the sale of big hats for the celebration. Arrangements will be made to purchase the hats at a reasonable price so that everyone will be able to have a big hat for the occasion.

ELECTION IS TOPIC NOW

REGULAR CITY ELECTION WILL BE APRIL 5TH

MAYOR OSBORNE NOT TO BE CANDIDATE OF ANY KIND

Regardless of whether the proposed city charter amendments are approved, Tuesday, Pampa citizens must choose a mayor and two commissioners at the polls April 5.

But with the regular municipal election little more than a month away, no names have been filed for mayor or commissioner. Most any citizen can offer four or five suggestions as to the personnel of the next commission. Pampa citizens have long been in the habit of electing business men to their highest offices.

One thing is sure—Mayor D. W. Osborne will not be candidate for re-election. He has served two terms, and feels that that is enough.

(See ELECTION, Page 6.)

Trade Day Will Be Discussed on Monday Evening

Pampa merchants and their clerks will meet in the commission room of the city hall at 8:15 o'clock to discuss a Pampa Trade Day. A committee from the Board of City Development and the Junior chamber of commerce will outline plans already worked out. Local men and farmers who visited Miami, Okla., last fall and studied the Miami Trade Day will also be present. Travis Lively will preside.

Other important matters of vital interest to Pampa business men will be discussed. Only through the support of the business men can a successful program be accomplished. Every business house in the city will be visited Monday and owners, managers, and clerks invited to attend the meeting tomorrow night.

Capone Is Loser in Appeal; Feels Bitter About It

CHICAGO, Feb. 27. (AP)—"Scarface Al" Capone's 11-year sentence for income tax evasion was sustained today by the United States circuit court of appeals.

Thus the world's most notorious gangster was brought nearer a prison sentence although it was on a bookkeeping charge of tax violation rather than for any of the higher crimes charged to his regime of violence and murder.

The decision in favor of the government left the gang leader with but two faint rays of hope; a rehearing by the appellate court and a review by the United States supreme court. None of his underlings had succeeded in these final appeals.

Capone, when the news reached him in his county jail cell, turned without a word and flung himself on a cot, his face out of view.

Japanese Planes Open An Aerial Bombardment As Peace Is Talked

SHANGHAI, Feb. 28. (Sunday) (AP)—Three Japanese bombing planes, above, bombed the Chinese airport at Hangchow with high explosives for the third time today and put the finishing touch, Japanese naval authorities said, to the destruction of Chinese airplane bases around Shanghai.

SHANGHAI, Feb. 28. (Sunday) (AP)—Mamoru Shigemitsu, Japanese minister to China, said today there was no prospect of an immediate truce or material change in the situation at Shanghai.

His statement was in response to reports from Geneva that a truce was in prospect and advices from Tokyo. The Japanese foreign office had instructed him and Esumo Matsudaira, ambassador to London, to make known Japan's desire to halt hostilities when the Chinese were willing to withdraw from their military positions.

Fifteen Japanese airplanes opened the battle on the Chapel-Kiangwan front today by bombing the Chinese positions.

Volunteer soldiers stood guard in the Astor house, famous hotel in the International Settlement, after two Japanese policemen chased a Chinese through its lobbies.

WASHINGTON, Feb. 27. (AP)—Indorsement by President Hoover of army day observance April 6 as part of the George Washington bicentennial celebration was announced today by Brigadier General John R. DeLafield, commander-in-chief of the military order of the world war.

AMENDMENTS UP FOR VOTE ON NEXT TUESDAY

RESULT DEPENDENT ON HOW BIG VOTE IS TUESDAY

Public apathy toward municipal details is expected to be momentarily pushed aside Tuesday, when citizens will go to the polls to vote for or against two proposed city charter amendments.

The amendments were beginning to be the topic of conversation Saturday, although the average citizen professed to lack a complete understanding of the proposals. Defeat or approval of the amendments is conceded to rest with the masses of voters who have not yet shown much interest in their voting privilege. A small outpouring of voters would almost certainly defeat the proposals, while a large one probably would result in approval.

Well-informed citizens pointed out that both the plan now used—election of a mayor and two commissioners each two years—and the one proposed had proved successful all over the country. They were inclined to place the major emphasis upon the importance of electing three good men at the regular municipal election of April 5.

Ayers to Be Judge
The election will be held in the commissioners' room at the city hall between the hours of 8 a. m. and 7 p. m. Tuesday, March 1, with John B. Ayers as manager. The proposed amendments are directly related, the first being as follows:

Shall Section 7 of Article 7 of the special charter of the City of Pampa, Texas, adopted by a vote of the people on November 8, 1927, be amended so that hereafter the said section will read as follows, to-wit: "ELECTION DAY: The regular municipal election of the City of Pampa shall be held on the first Tuesday in April each year, commencing with the year 1932. In other words, this amendment changes the elections from each two

Amarillo Boys Missing; Search Made on River

AMARILLO, Feb. 27. (AP)—Searching parties late tonight were hunting through the Canadian river brakes, north of here for three Amarillo boys, lost since they embarked on a raft. Fear that the missing lads may have been caught in quicksand was expressed by the searchers.

The missing boys are Gregory van London, 11; Billy Stover.

Clem Davis Has Begun Campaign for Commissioner

To the voters of commissioner's precinct No. 1, Gray county, Texas: In response to the request of many of my friends in this precinct, I am taking this method of announcing my candidacy for the office of county commissioner of precinct No. 1, subject to the action of the Democratic primary, July 23, 1932.

I have been a resident of the Panhandle of Texas my entire life, having been born at Mobeetie, Texas, May 20, 1890. I have lived my entire life in this county and feel that my acquaintance with the needs of the county qualifies me for this important office.

I believe in economy in the expenditure of the public funds of the county in order that the rate and rendition of taxes may be kept at the smallest possible minimum. In line with the decline of values of all classes of taxable property, this economy will have to be practiced. The law provides that the matter of taxes should be handled by the duly elected officers of the county. I am therefore, opposed to the employment of out-of-county concerns to

PUBLIC IS ASKED TO HELP FINANCE SAVING OF INFANT

Two-Month-Old Babe Must Stay in Hospital Month, Perhaps More

To save a two-month-old baby girl from death by starvation, the Welfare board yesterday directed a plea for financial assistance to citizens of the community. Seldon does the board make a request for funds and then only when special and urgent conditions arise.

The board felt that the condition of the baby justified asking the public to contribute funds. The baby was born in Oklahoma in December. Her mother is in Oklahoma suffering from an affliction which makes it absolutely impossible for her to care for the baby. The child was brought to Pampa by its grandmother and uncle, both of whom are poverty-stricken.

The county cannot advance funds to pay for the hospital bill because the child has not been in the county long enough, and for similar reasons the city cannot give financial assistance. The board is certain to run short of funds before the year

More Roses Are Here in Answer to Steady Demands

The Pampa Hardware store now has a large stock of roses bushes on hand. Travis Lively announced yesterday. The store received a shipment of 1,112 bushes. A dozen varieties are represented. The bushes cost for \$2 per dozen. It was the third shipment received this spring. Two shipments, totaling 1,000 bushes, have already been sold. Many dozen of the bushes were sold yesterday.

County Contracts Will Be Awarded

Contract to grade and drain 5.7 miles on the Pampa-LeFors road will be let March 7 by county commissioners. At the same time, the county will let a contract to build an 88,000 bridge across that creek this side of LeFors. All drainage structures on the strip will be small. A. H. Doucette, county engineer, said.

CITY IS MINSTREL-MINDED AS LIONS PREPARE TO STAGE SHOW OF MANY MELODIES, MUCH MIRTH

Pampa is getting minstrel-minded. Ticket sales for the Lions Club Musical Revue and Minstrel show of next Thursday and Friday evenings were heavy Saturday at the board in Fatherhood Drug No. 4 in the Rose building. Citizens wishing reserved seats for the performances are advised to get them today or tomorrow, since the supply is rapidly diminishing. General admission tickets also are on sale.

The cast of fifty persons had another spirited rehearsal last night under the direction of John Sturgeon, local attorney. Having mastered the parts, the clubmen and girls of the chorus are singing the lively songs and going through the action with much enjoyment. Their enthusiasm is contagious, and the whole city will be talking minstrel this week.

FATE OF MEN LEFT PUZZLE AS GAS FORMS

RESCUE CREW ORDERED OUT OF DANGER SECTION

BLAST IS DOWN 2 MILES

TWO SURVIVORS TELL OF THEIR NARROW ESCAPE

POCAHONTAS, Va., Feb. 27. (AP)—Lying over piles of jagged slabs and shattered timbers, rescuers pushed on through noxious air toward 36 miners entombed in an explosion in the Boissevain mine.

The rescuers decided late tonight to make a new effort to reach the miners, after being forced to withdraw today because of heavy gas and dust.

POCAHONTAS, Va., Feb. 27. (AP)—More than a score of miners in the gas-filled Boissevain mine of the Pocahontas fuel company was unknown tonight.

Rescue workers were driven from the workings by gas deep in the mine late this afternoon but fans were forcing fresh air into the chambers and the rescue crews hoped to reach soon the section that was wrecked by an explosion early this morning.

Between 23 and 33 men were believed to be trapped about two miles from the mouth of the mine. Reports of the rescue crews were far from encouraging, and there seemed little hope for the entombed men.

Thomas Stockdale, a West Virginia mine inspector directing the rescue work, said rescuers penetrated about a mile and a half within the workings, but the gas overtook them and they were forced to withdraw.

Some uninjured

The explosion seemed to be "local" in scope, and some of the miners escaped uninjured.

The mine is one of the largest of the Pocahontas Fuel company. It has been operating at half time. The men entombed were working on the night shift when fifty men usually are employed under the present schedule. Four hundred men are on the day shift.

Two negro miners who escaped from the section where their 36 fellow miners were entombed, told tonight of their "luck." They are

JAPS RAIN SHELLS INTO CHINESE DEFENSE LINES

Backing up the thrusts of Japanese marines in their battle to drive the Chinese 19th Route army out of the trenches around Chapel, the Nipponese artilleymen shown above are sending a barrage of shells into the battle zone. Hundreds of Japanese field pieces, marshalled among the war front around the International Settlement poured a terrific fire into the so-called "Chinese City" of Shanghai. This picture was taken during the stubborn fighting that took place during the advance from the Japanese landing point not far from the Woosung forts. Japanese gunners shown above are firing over an angle of the International Settlement into the Chapel area and the Chinese lines beyond. Picture rushed to San Francisco by Pacific ocean liner and thence by telephoto to The Pampa Daily News.

Plaintiff sues on two certain promissory notes executed by defendant, L. H. Reynolds, payable to the order of Otto C. Rice, each in the principal sum of \$1,250.00, each providing for vendor's lien on the property hereinafter described, numbered three and four respectively, due in their numerical order on September 12, 1929, and September 12, 1930 respectively, each providing for 7 per cent interest before maturity, and 10 per cent interest after maturity, each providing for 10 per cent attorney's fees. Plaintiff alleges that said notes are past due and unpaid, and that said notes and lien securing the same were duly transferred and assigned to plaintiff by the said Otto C. Rice; that said notes were given in part payment for Lot No. Four (4), Block Thirty-seven (37), Original Town of Pampa, Gray County, Texas, and in deed dated September 12, 1927, from Otto C. Rice and wife, Bessie Rice, to L. H. Reynolds, a vendor's lien was retained against said property to secure the payment of said notes; plaintiff has found it necessary to place said notes in the hands of attorney for collection and contracted and agreed to pay his attorney's fees provided for in said notes; that on the date of filing plaintiff's petition there was due principal, interest and attorney's fees the sum of \$3,434.92.

Plaintiff further alleges that on May 19, 1928, the defendant L. H. Reynolds and his wife Anna F. Reynolds, executed, acknowledged and delivered to the Stuckey Construction Company a contract lien against the property above described for paying the street lighting said property; to secure the payment of \$416.25, that said indebtedness and the lien securing the same have been duly assigned to plaintiff; that said sum was payable in five annual installments of \$83.25 each, on the 6th day of October, 1928, and on or before the 6th day of September of the years 1929, 1930, 1931, and 1932, the said indebtedness providing for interest at the rate of 8 per cent per annum from September 6, 1928, and further provided that in the event of failure to pay any installment when due the balance might be declared due and payable at once; that installments 1, 2, and 3 are duly paid; that the installment maturing September 6, 1931, was not paid; that plaintiff being the owner and holder of said indebtedness declared all the balance due and payable. Said contract lien provided that in the event that same was placed in the hands of attorney for collection a reasonable attorney's fee might be added. Plaintiff alleges that he has placed said lien in the hands of attorney for collection and contracted and agreed to pay said attorney's the sum of \$100.00, the same being the reasonable, usual and customary attorney's fees that there is due on said paying certificate, principal, interest, and attorney's fees on the date of filing this petition the sum of \$307.06, making a total indebtedness due from defendant, L. Plaintiff alleges that it has a valid and subsisting vendor's lien and paying lien to secure the payment in the

amounts above described against the property above described.

Plaintiff further alleges that Anna F. Reynolds is now dead, leaving surviving her the following children known to defendant, Harvey Reynolds, Nancy Reynolds and Lloyd H. Reynolds, defendants all of whom are minors and that the names of any other heirs and legal representatives of the said Anna F. Reynolds, Nancy Reynolds, Jimmie Reynolds and Lloyd H. Reynolds, defendants all of whom are minors and that the names of any other heirs and legal representatives of the said Anna F. Reynolds, are unknown to plaintiff. Herein Fail Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at its office in Pampa, Texas, on the 5th day of February, A. D. 1932.

Weather Is Blamed for Big Toll In Northwest; Highways Blocked

SEATTLE, Wash., Feb. 27. (AP)—Fourteen persons are dead, railroad and motor traffic blocked at many points, numerous towns isolated and others abandoned because of rains and record war weather for February followed close upon a record snow-fall in Washington and North Idaho. No confirmation could be obtained today, almost 24 hours later, of reports that six persons were drowned in an automobile near Cedar Falls, and it was believed to be a false rumor which spread in almost panic-stricken towns in the Cascades. Fresh snow and earth slides threatened mountain and hill communities today while the flood danger in lowlands was reported by the state highway department the worst in years. At least a score of rivers have burst over their banks. Another man was believed dying as a result of the avalanche in the Cascades which carried away four homes at Edgewick, killing seven persons. Skagit river canyon, above Newhlem, still held bodies of four Seattle city light workmen while six others rescued from the tomb were recovering from injuries.

Kidnaping May Draw Death As Plan Provides

WASHINGTON, Feb. 27. (AP)—The gangster's fear of "whiskers" as he calls "Uncle Sam," will be intensified by a death penalty for the kidnaping if Chairman Sumners of the house judiciary committee has his way. Sumners forecast today that the Cochran bill forbidding transportation of abduction victims across state lines as a federal weapon against the "kidnaping racket," had a very good chance for a favorable report from his group. He added that he would work to keep the death penalty provision in the measure. "It's war," he said. The grisly narrative told in committee sessions had included instances of tortures of little children, third degree methods of the most savage shattering sort applied to prominent business men, and taunting terrifying letter to mothers to intensify anxiety and extort large sums.

BISBEE, Ariz., Feb. 27. (AP)—Chinese, seeking refuge in the United States from Mexico, continued to arrive at the border points of Naco and Douglas today, 45 having been placed under arrest by government immigration officials. This brought the total of orientals leaving the southern republic because of a nationalistic campaign, to 173 within the last three days. Several hundred Chinese have been ordered deported to China by the federal court during the last few weeks on charges of entering this country illegally.

EVIDENCE UNCOVERED IN ROBBERY OF NOVEMBER

DALLAS, Feb. 27. (AP)—Officers today recovered a watch and a flashlight stolen last November in the robbery of a bank at Richardson. George Huffines of Richardson, nightwatchman, identified the flashlight as one taken from him in the robbery. Mrs. G. C. Bradley of Richardson said she had stored the watch in a safety deposit box in the bank. The articles were recovered at a garage. They had been sold to a man working there. Two men previously had been arrested in the case, and four others, prisoners in the Dallas county jail, had been implicated.

Akron Chief in Denial of Moffet Part in Mishap

LAKEHURST, N. J., Feb. 27. (AP)—Lieutenant Commander C. E. Rosen-dahl, captain of the navy dirigible Akron, vigorously denied tonight published reports that he had taken the ship out of the hangar last Monday under pressure from Rear Admiral William A. Moffett at Washington. "Admiral Moffett has at all times left us to decide for ourselves if weather conditions are favorable for the ship to fly," Commander Rosen-dahl said.

The weather had been bad Sunday night, he explained, and consequently he and Captain Harry Shoemaker, commandant at Lakehurst, had called off a flight planned for midnight. Admiral Moffett was apprised of this by telephone and told that conditions for the Monday flight on which members of the house naval subcommittee were to inspect the airship were not good. "A little before 8 o'clock Monday morning Admiral Moffett called me," Captain Rosen-dahl continued. "He told me the weather was clearing in Washington and asked me about conditions at Lakehurst. I said they had improved during the night, that the weather was mild and the map showed signs of further improvement."

"Admiral Moffett did not at any time urge me to take the ship out. I told him I would have a new weather map prepared before 10 o'clock and that if the forenoon map showed the improvement I hoped it would the flight would be made. "I suggested that he have the congressmen prepared to take off at 10 o'clock for Lakehurst." PUBLIC FORUM

Editor, The NEWS—Many ideas are being expressed with reference to the proposed amendments to the city charter which will be voted upon Tuesday, March 1, which show that much misunderstanding information is being circulated regarding the purpose and effect of these amendments.

In some way a few people seem to have received the idea that the present city commission will be perpetuated in office if the amendments carry. This is a mistake, because the terms of the present commission expire just as soon as their successors are elected and sworn in on April 5th, regardless of the outcome of the vote upon the amendments. In other words, there will be a mayor and two commissioners elected at the regular municipal election on the first Tuesday in April this year whether the amendments carry or are voted down.

The proposal in these amendments is very simple in that they provide for a city election annually for the election of one member of the commission. The present method is to have an election each two years for the election of the entire commission for a term of two years. There are two amendments. The first provides that the regular municipal election will be held on the first Tuesday of every other year as the charter now reads. This amendment is incidental to, and made necessary by the proposal in the second amendment. Because of the fact that under the present charter all the places on the commission must be filled at the same time at the election on April 5th, in order to get the plan started correctly, of having only one place come up for election each year hereafter, the second amendment provides that at this election in April a mayor will be elected for a term of one year, one commissioner for a term of two years, and one commissioner for a term of three years. The term of the mayor elected in April, 1932 will expire in April, 1933. An election for mayor will be held in 1933 for a term of three years. Thus, if the amendments carry, the term of one member of the commission will expire annually hereafter, and one will be elected annually for a term of three years.

The purpose of these amendments is to assure the public that at all times men who are thoroughly familiar with all the workings of the city government will be in office. During the past few years the City of Pampa has grown from a town of few assets and liabilities to a municipality with a business involving more than a million dollars. In the event an entirely new governing body be elected to take over the city government (which is possible under the present charter, and possible in April, 1932, whatever the result of the charter election, because it is not possible to put the amendments into effect to prevent an entirely new commission taking office this year if the voters so desire), the public could easily be placed to a very large expense because of this change. This expense would not be brought about necessarily by mismanagement, ignorance, or graft but by due to the fact that the newly elected officers would find them-

selves lacking in the experience needed to efficiently carry on the affairs of the city in an economical manner. No business, and especially one as large and important as our city government, can be operated as well by inexperienced direction as by someone who has the benefit of past experience in its management. Under the amendment proposal the three members of the commission elected in April, 1932, will not all go out of office at the same time with the resulting probability of three successors unfamiliar with the affairs of city government, but will go out of office one at a time always leaving two members who have had at least a year's experience in handling the taxpayer's money.

That such a plan is wise has been recognized in the past by government's much larger and more important than our local city government. For example, the U. S. senate is so constituted that each two years only one-third of its members must be newly elected thus assuring a majority of experienced men holding over at all times. Also, the members of the Texas railroad commission who control all transportation by rail, truck, or bus, and who supervise all oil and gas development in the state, are elected for a term of six years with the terms so arranged that one member is elected each two years, thus assuring the State of Texas that experienced men will always be handling such important affairs. Furthermore, the Legislature has seen fit to adopt the wisdom of such a policy by providing that the terms of school trustees will be so arranged that one year two men are elected and the next year three are elected. This guarantees that in our own school district we have at all times men on the board who are experienced in school affairs.

Perhaps the outstanding criticism of the amendments is from some who contend that under the proposed plan a newly elected officer would be powerless to express himself because a majority is still in power. This same condition exists as far as each of the above examples is concerned, and so far neither Uncle Sam nor the State of Texas has seen fit to alter this provision. Moreover, if citizens of Pampa are careful to elect three good men to office in April they need not fear the fact that the newly elected officer in 1933 cannot express himself. It is also obvious that the voter is not losing any privilege which he now has, because by having an election each year the majority on the city commission can be changed every two years just as under the present charter.

Summing it all up, the whole matter is simply a proposal to make the taxpayer's money safe in the hands of future city commissions. The proponents of these amendments are thinking solely of the future of Pampa. The majority of Pampa voters have always done likewise in the past, and should not allow any atmosphere or spirit of present conditions or bitterness of politics deter them from that purpose at the city polls this year.

I say this as a citizen interested in the welfare of the city, since I will not be a candidate for reelection.

An Extra Day

"Leap Year coming once in four, Adds to February one day more."

Yes, we gain one day this month. We all have 366 days, instead of the usual 365, in which to do a year's work. Our company, of course, will be on the job furnishing service day and night—every day.

This month's bill for our service—light, heat, refrigeration, hot water, laundry, cooking, radio—should be less than that for other and longer winter months, even with the extra day. And, as days grow longer with the coming of Spring and Summer, the light portion of the bill will decrease.

More and more applications of electric service in the home, office and factory are being made available, however, and as these are added to your service the amount of energy used increases.

Remember, it is what you receive in the way of service that determines its cost—and value—to you.

GUS MORELAND REPEATS AS HOUSTON'S GOLF CHAMPION

CHICAGOAN IS LOSER IN HOT FINAL ROUND

MEDAL HONORS TO BE DECIDED TODAY IN PLAYOFF

HOUSTON COUNTRY CLUB, Houston, Feb. 27. (AP)—A bronzed 29-year-old boy, Gus Moreland, today won the championship of the Houston Country club's 18th annual golf tournament, defeating the veteran John Dawson of Chicago, 3 and 1.

Moreland, who is the defending champion, will play off a medal tie with Willie Maguire Jr., of Houston tomorrow. They tied for honors each with 144 during the qualifying play.

Dawson was 3 down through the ninth hole this morning and two down through the 18th, having conceded the last two holes in the first round. He came back strongly this afternoon to turn all square at the 27th hole, but never was up.

Moreland's morning round was at par 71, while Dawson had an approximate 74.

On the afternoon round both were one over par. Dawson's putting was somewhat erratic, but he saved himself many times by brilliant recoveries. Frequently in the trap, he did not seriously trouble him more than twice during the day.

VENZKE SETS NEW RECORD

Leads Crowley by 35 Yards At New York in K. of C. Contests There

NEW YORK, Feb. 27. (AP)—Gene Venzke, Pottstown, Pa., tonight set a new world's indoor record for 1,500 meters in the Knight of Columbus games at Madison Square Garden. Venzke's time of 3 minutes 53 2-5 seconds for the classic Olympic distance shattered both Lloyd Hahn's American indoor record of 3:55 4-5 and Ray Conger's record of 3:55 outdoors.

Venzke took it easy until more than half the distance had been covered. He moved into second place five laps from home and did not take the lead until two laps from the finish, when he swept past Frank Crowley of Manhattan college and won going away.

Crowley finished second, 35 yards behind Venzke.

Deitzel Smashes Scoring Record

Deitzel scored 20 points in the game, bringing his total for the season to 171, three more than the old record set by himself last year at 168. He still has one more game to play.

AUSTIN, Feb. 27. (AP)—Baylor advanced nearer a playoff with Texas Christian university for the Southwestern conference basketball championship by beating Texas tonight 35-30. The Bears and Frogs, tied for the lead, had only one game apiece left on their schedules and these were with Southern Methodist university, deep in the cellar.

The Longhorns contested the Bears every minute of the way and led a considerable portion of the game. The Steers held the upper hand at the half, 18-13, after overcoming a 10-4 lead amassed by Baylor early in the fray.

Paul Runyan, White Plains, N. Y., Johnny Farrell, St. Augustine, Fla., and Wiffy Cox, Brooklyn, N. Y., tied for second place with 148. Runyan had the best round of the day, a 33-35-68 this afternoon, which was within two strokes of equalling the course record held by Burke.

Babe Ruth, New York Yankees home run king, carded a 79-78-157 to lead the amateurs.

DIZZY DEAN WILL HAVE NO SUCCESSOR IN TEXAS LOOP

Colorful Youngster to Leave Place Hard to Fill; Bonura Is Aspirant

BY BILL PARKER Associated Press Sports Writer The most colorful player of the 1932 Texas League pennant marathon will be—who? "Dizzy" Dean was the king of the gate attractions last year. In campaigns past the monikers of big boy kraak, "Bugs" Morris, fighting Don Flynn, Joe Pate, Ziggy Sears, Jack Calvo and others were turnstile magnets.

These colorful characters of Texas League baseball have traveled on. There isn't a holdover from last year to succeed Dean. It means this year's eccentric must come from the new crop of players.

It is apparent that one of the prominent candidates for Dean's crown will be Husky Henry "Hank" Bonura recently purchased by Dallas from New Orleans to play first base.

"Hank" got a swell Art Shires start when he broadcast that he was a bona-fide holdout before Bob Tarleton of the Dallas team thought of mailing out contracts. "Hank" said he didn't care what salary Dallas offered him it would not be enough, therefore he was a holdout.

Bonura told friends he didn't care to play in the Texas League because he understood Texas League third sackers were not properly insured against injuries. He is famed for his man-killing line drives down the third base line.

Perhaps the next best bet is William R. Steinecke who will play outfield or catch for Fort Worth. Steinecke is no rookie. He started professional baseball in 1907. He is not a Dean or Bonura type but more of a big boy kraak player who hits plenty and is always ready to put on an exhibition in first alley if he necessarily arrives.

Steinecke swatted 360 last year to lead the New York-Pennsylvania in batting and two-base hits. He punched out 41 doubles.

Not as colorful perhaps, but one of this year's interesting characters will be Henry Severid, new manager and catcher at Wichita Falls.

Severid's baseball career started in 1909 with Burlington in the Central association and since that time he has enjoyed the sweets of fame and the bitterness of failure.

While at St. Louis he caught more games per year than any other major league backstop. His 14 years in the big league has left enough background to make him worthy of being listed as a gate attraction.

MORSE IS HURT FORT WORTH, Feb. 27. (AP)—Hap Morse, manager of the Dallas baseball club, was thought to have broken a leg here tonight when he slipped to the floor, while officiating in the Texas Christian university-Southern Methodist university basketball game.

Doctors who examined the Steer manager immediately said they were almost certain the limb was broken.

Shreveport Is Cleared Up As to Ownership

DALLAS, Feb. 27. (AP)—Shreveport's Texas league baseball status was cleared here tonight at a closed meeting with ratification of new ownership.

Final details of transferring the Shreveport franchise from its current owner, O. L. Biedenhorn, to that of a stock company composed of 25 Shreveport business men will be made at Shreveport Monday. The new owners will then elect officers and start preparing for the Texas league race.

At today's meeting, Shreveport was represented by Captain E. A. Hardy and J. Walter Morris. Hardy is a Shreveport business man, Morris is a former Texas league president and was formerly connected with Dallas and Fort Worth as owner and manager.

Morris said that the new stock company had raised the necessary \$40,000 to buy the Shreveport franchise but that definite announcement of how the club would be paid for would not be threshed out until Monday.

Morris probably will be secretary-treasurer of the club.

George Sisler, former major league star and leading batsman of the American league several years ago, is being sought to manage the team.

Crowley Not to Accept Offer of Iowa University

EAST LANSING, Mich., Feb. 27. (AP)—James H. Crowley, who lifted Michigan State college football from mediocrity to national prominence, today turned down a Big Ten coaching offer in favor of remaining here.

The Spartan football coach, one of the "four horsemen" of Notre Dame fame, rejected a tempting offer to head the gridiron coaching force of the University of Iowa. His decision to remain at State came without the inducement of an immediate increase in salary.

Crowley decided to stick by the terms of his present three-year contract.

BRECKENRIDGE WINS BRECKENRIDGE, Feb. 27. (AP)—Breckenridge high school qualified for the state basketball tournament tonight by defeating Big Spring, 38 to 17, in the third game of a series to determine the champion of districts 8 and 9. Led by Spain and Wohlford, who scored 17 and 15 points, respectively, the Buckaroos made a stirring rally after Big Spring had led by 10 to 7 at the half.

The former Horned Frog, who defeated some of the country's leading runners in 1929 and 1930, said today that he was through with racing and would not be a candidate for the U. S. Olympic team.

Leland is employed as a regular announcer over radio station WBAP.

WHEAT ADVANCE HALTED

CHICAGO, Feb. 27. (AP)—curtailment of export demand for North American wheat did much to bring about late setbacks in grain values today, and frustrate a promising advance.

Only about 200,000 bushels of wheat were taken for shipment overseas from Canada and the United States. A tendency to await March unofficial crop summaries due next week was shown, and comments were pessimistic as to any large reduction of domestic spring wheat acreage this season.

Wheat closed irregular at 1/4 cent decline to an equal gain compared with yesterday's finish, corn 1/4 to 1/2 down, oats 1/4 to 1/2 off, and provisions unchanged to a rise of 12 cents.

Liberal receipts of corn here and in the West acted as a weight on prices of feed grains. Shipping call for corn was unimproved.

Provisions slanted upward owing to indications of smaller marketing of hogs next week.

COTTON RECOVERS

NEW ORLEANS, Feb. 27. (AP)—After opening quiet and declining during the greater part of the session the cotton market became more active and rallied in the late trading recovering a good part of the early loss. The decline was due to hedge selling and week-end liquidation and carried prices down 3/4 points. The later recovery, due to shorts covering rallied prices 4-5 points. The market closed steady showing net declines for the day of 3/4 points.

Port receipts 19,550, for season 8,381,300; last season 8,079,861. Exports 42,459, for season, 5,749,464; last season 4,816,111. Port stock 4,765,311, last year 4,152,115. Sturgeon will both play and sing, will be in a duet with Miss Dorothy Doucette, and will exchange banter with members of the chorus. Miss Jackie Jones, talented young pianist, also appears in this act. Other girls of the chorus are Miss Eura Rose, Miss Louise Walstad, Miss Melba Graham, Miss Marjorie Buckler, Miss Pauline Barnard, Miss Esther Stark, Miss Lorena Nicholson, and Miss Florida Freeman.

The good voices of the soloists, previously mentioned, and the antics of the end men will complete a two-hour program of melody and mirth. It is expected to be the best performance of the kind ever presented here. Lions clubs of neighboring towns already are asking the privilege of sponsoring it elsewhere.

The Lions are staging the show for one purpose—to raise funds to help crippled children of Pampa walk and attain normalcy.

AMENDMENTS--

years to once each year.—Ed.)

The other amendment proposed: Shall Section 2 of Article 7 of said charter be amended so that hereafter the said section will read as follows, to-wit: "TERM OF OFFICE: The mayor and each commissioner, except for the terms hereinafter provided for, shall serve for a term of three (3) years and until his successor is elected and qualified, unless sooner removed from office as herein provided. At the regular municipal election of the City of Pampa, to be held the first Tuesday in April in the year 1932, the mayor shall be elected and shall serve for a term of one (1) year, Commissioner No. 1 shall be elected and shall serve for a term of two (2) years, and Commissioner No. 2 shall be elected and shall serve for a term of three (3) years, and until their successors are elected and qualified, unless sooner removed under the provisions of this charter."

Poll Tax Essential

Only regularly qualified voters who paid poll taxes may vote, the election being controlled by the laws of the State of Texas, in addition to the city charter.

Were the amendment to pass, city elections would be as follows in the future:

This year—On the first Tuesday in the coming April a mayor would be elected for one year, one commissioner for two years, and one commissioner for three years.

1932—On the first Tuesday in April, the citizens would elect a mayor for three years, and the other two commissioners would have been in office a year at that time.

1934—Commissioner No. 1 would reach the end of his term on the first Tuesday in April, and his successor would be elected for three years. The mayor and Commissioner No. 2 would not be affected by this election.

1935—On the first Tuesday in April, the term of Commissioner No. 2 would expire, and his successor would be elected for a term of three years.

The rotation would continue with the election of one commissioner each year.

The purpose of the plan, wherever it has been used, has been to keep

sacrifice for any citizen to make in behalf of the municipal government. In handing THE NEWS a statement which appears in the Public Forum column of this issue, Mayor Osborne added:

"In connection with my letter, I want to make it understood that I am not and will not be a candidate for mayor or commissioner when my present term expires in April.

"My interest in the proposed amendments is solely as a citizen of Pampa and not as a member of the city commission. These charter amendments are not a project of the present commission. The members, individually, are in favor of the amendments as being for the best interests of Pampa, but the commission, in submitting the amendments to the voters, did so because they felt and understood that the people of Pampa were asking for them, and not because the commissioners themselves had any personal interest in seeing them adopted."

handle the assessments, renditions, and in general acting as a substitute for the board of equalization of the county. A great deal of money can be saved to the taxpayers in this respect, and I promise, if elected to use my influence in effecting this economy, either by dispensing with such services entirely or by substantial reduction in compensation paid therefor.

I have been on every section of land in the county and am personally acquainted with its location and value, and I think I have a fair idea of what tax renditions and the needs of the public roads should be. If elected I desire that every section of the county should receive its equal share of the road and bridge funds.

It is my purpose, between now and the time of election, to see personally every voter in the precinct and outline to them the policies of my administration—should I have the honor of serving them in this position of public trust. To each and every one of them I solicit your vote and influence.

CLEM V. DAVIS.

"Emma" Brings Out Dressler in Talented Role

American family life, its comedies and tragedies told in intimate style, furnishes the basis for one of the most dramatic stories of the screen in "Emma", which brings Marie Dressler to the LaNora theater for 3 days in her newest role.

The story deals with an engrossing phase of the "stepmother problem" with Miss Dressler playing the role of a devoted family servant who mothers the children of a rich inventor as though they were her own. Her subsequent transition from housekeeper to stepmother gives rise to a number of dramatic problems which reach a climax in a sensational courtroom sequence.

Miss Dressler, whose peerless talents in the straight dramatic field were first apparent when she played the drunken hag in "Anna Christie," which was succeeded by her remarkable performance as the disreputable waterfront woman in "Min and Bill," is reported to have an even more forceful and stirring role in "Emma." Information is her scene in the courtroom episode is the finest piece of acting in her entire screen career.

The picture is not devoid of comedy moments and there are hilarious incidents in the family life in which moviegoers may enjoy the familiar Dressler humor. A scene in which the inventor proposes to Emma in a crowded railroad station, an episode in which the star attempts to manipulate a pair of rowboat oars and an incident at an airport in which Miss Dressler gets mixed up with a machine which tests for dizziness, are said to keep audiences in a constant uproar.

Stolen Cigarets Quickly Found

Exactly three hours after \$250 worth of cigarettes were stolen Friday morning from a box car in the slottas' thievery here, a man was under arrest in the Potter county jail at Amarillo, charged in connection with the offense.

The arrest followed an extensive investigation made by C. H. West of Amarillo, special officer. All of the cigarettes which were stolen have been accounted for, Mr. West, who was here Friday afternoon, said. The man will be transferred to the Gray county jail, it was said.

The cigarettes were billed to the Hamlet wholesale confectionery here, and were recovered before Mr. Hamlet knew they had been stolen. A. J. Davis, special officer for the Santa Fe here, assisted Mr. West in the investigation.

Cody Is Shown in Loveless Role

Lew Cody sheds his great lover role for one many times more virile in "X marks the Spot," now playing at the Rex theater, and emerges a greater actor than he has ever been given credit for.

Without a woman in love with him, nor he in love with any woman, Cody demonstrates that he is worthy of the long years he has been among the stars by a performance of a role entirely foreign to anything he has had on the screen.

In "X Marks the Spot," Tiffany Productions' newspaper drama, Cody is cast as the hard-boiled, energetic managing editor of a metropolitan tabloid, ruthless in getting the story for his paper. His characterization is equal to Menjou's in a similar role in a recent newspaper photodrama.

The romance of the picture centers around Wallace Ford, who, as Ted Lloyd in the picture, is a young newspaper man in the employ of Cody.

ADAMS RETURNING

DALLAS, Feb. 27. (AP)—Jed. C. Adams, democratic national committee man, departed today for Washington. He will confer with Representative Sam Rayburn of Bonham and other members of the Texas congressional delegation concerning the movement to give the democratic presidential nomination to Speaker John N. WILL HONOR SHORT

NANKING, Feb. 28. (AP)—Robert Short, American aviator who was shot down in an air battle with Japanese fliers at Sochow last Monday, has been ordered buried with the highest honors of the Chinese government.

In a prologue to the main story, Lloyd borrows \$5,000 from a notorious gambler-gangster to save his sister from becoming a hopeless cripple. Eight years later he is a brilliant columnist on a New York tabloid. Through a chain of circumstances he is implicated in, and suspected of, a murder. Throughout the picture runs the story of Ted's love for his little sister and for his sweetheart.

Yesterday, the baby was taken to the hospital. Its under-nourished condition was such that it, like most people who have been starving, could not retain the first baby food given it. Yesterday morning it was able to hold its food and was being fed four ounces every three hours. The baby held the bottle as in a vice and almost gulped down the contents.

Doctors said the infant should remain in the hospital at least a month. This will require around \$100. Those who wish to contribute to the fund are asked to leave donations at the Welfare Board in the basement of the city hall or at The NEWS office.

MINERS' --

Henry Watkins and Edward Kirtly, both of Bluefield, Va., worked together in a mine room. Smoke billowed into their working place, they said, and Watkins collapsed.

Felt "Jar"

His companion picked him up and started from the mine, wondering meanwhile where the smoke came from. As they neared the mine surface Kirtly said, a "jar" caused him to stagger under his burden. He went on out of the mine and turned his companion over to physicians. The "jar," he believed, was the explosion that entombed the other miners.

The cause of the explosion was undetermined. Company officials said the mine was non-gaseous and expressed a belief it might have been caused by accidental ignition.

FUTURE OF ARCHITECTURE IN AMERICA STUDIED BY GROUP

MRS. A. H. DOUCETTE IS HOSTESS TO STUDY CLUB
"Cannot we Americans in the future build for our souls as fine a housing as we are now building for our big business?" asked Mrs. H. W. Johns at a meeting of the Child Study club Friday afternoon in the home of Mrs. A. H. Doucette. "That seems to be the architectural challenge to America," she said.
Mrs. Sherman White was program leader for the afternoon, and the following discussions were included: "Architecture in England and America," Mrs. Doucette; "The Trend of Architectural Thought in America," and "The Challenge to American Architecture," Mrs. Johns; "The New Architecture," Mrs. B. E. Finley; "New Building for the New Age" and "Will This Modernism Last?" Mrs. Sherman White.
"If the modernism is an architectural fashion," said Mrs. White, "it will last about 30 years, but if it introduces an architectural era it will be with us in various forms for 500 years. Architectural eras coincide with and express great cultural eras."
An interesting talk on how to tell a good picture was made by Mrs. Horace McBee, and Mrs. Roger McConnell spoke on the language of painting. Mrs. Johns discussed a portrait of Washington which she showed to the group.
A salad course was served to Mesdames Sherman White, Roger McConnell, J. H. Patterson, Frank McAfee, H. W. Johns, Floyd McConnell, B. E. Finley, Horace McBee, and A. H. Doucette.

A George Washington theme was prettily emphasized in decorations, tables, and table covers at the party given by Mrs. Sam J. Ray Thursday afternoon for the Linger Longer Bridge club.
At the close of the games of bridge Mrs. A. C. Rabb was favored for high score, and a dainty salad course was served with coffee and cake.

DINNER PARTY COURTESY IN KELLEY HOME

WEDDING ANNIVERSARY AND BIRTHDAY CELEBRATED

The dinner party given by Dr. and Mrs. J. H. Kelley for members of the girls and boys' basketball teams of Pampa high school Friday evening marked an occasion of more than ordinary significance.
Besides being a token of appreciation for the brilliant basketball season just closed, the dinner was given on the fourth wedding anniversary of Harry Kelley, coach of the girls' team, and Mrs. Kelley, and the third birthday of their little daughter, Martha Janet, who is mascot for the team.
Captains Elected
The students paused in their fun long enough to elect Louise Walstad as captain of the girls' team and Robert Woodward, captain of the boys' team for next year.
Fourteen tables with green and gold appointments were arranged in the dining room table, which was centered with a basket ball. On either side of the ball was a gold cake. One cake was topped with four green candles in observance of the wedding anniversary of the coach and his wife and on the other cake were three candles in observance of the little mascot's birthday. "P. H. S." decorated one cake. Lighting the table were tall gold tapers tied with green tulle, and throughout the entertaining rooms gold bulbs were used for the lights.
Class Assistants
A basketball design was featured in dainty green and gold tallies used in the games which followed the dinner. These tallies were made by the mechanical drawing class of the high school. Corresponding score pads were furnished, and even the pencils helped to emphasize the chosen color scheme.
Guests were Coach Ouch Mitchell, Coach A. M. Fox, Coach Pio Perry, Coach and Mrs. Harry Kelley, Mrs. Lard, Mona Robinson, Burr Rose, Roy, Helen Murphy, Burr Rose, Gerald Schmitt, Jim Poole, Parks Brumley, Foot Fullington, H. L. Sister MARY'S KITCHEN

By SISTER MARY, NEA Service Writer. Scientists have discovered during the past few years that fish is one of the most important foods for children. Aside from its food value in protein, carbohydrates and fat, fish is particularly rich in vitamins necessary to the growing child.

When you go to market to buy fish, there are certain qualities to look for in determining freshness and good condition. Of course, your nose is really the best guide to fresh fish, but there are other and more dependable ways of telling in case you do not have an acute sense of smell.

The flesh should be firm and elastic when pressed with the finger and should adhere firmly to the bones. When the fish is opened, look carefully at the flesh around the large vein which runs toward the tail. If the flesh is clear, well and good, but if discolored by blood, the fish is not in good condition.

Fish can be divided into two general groups, fat and lean. The so-called lean fish have fat secreted in the liver. After cooking, lean fish are quite dry and flaky. To this group belong cod, haddock, flounder, trout, smelts, pickarel, black bass and many others.

To the fat group belong white-fish, turbot, salmon, herring, butterfish, mackerel, shad, halibut and numerous others.

Tomorrow's Menu: BREAKFAST: Sliced oranges, cereal, cream, potatoes hashed in milk, broiled cottage ham, whole wheat muffins, milk coffee. LUNCHEON: Stew of mixed vegetables, toasted muffins, rhubarb sauce, chocolate, rice pudding, milk, tea. DINNER: Stuffed and baked white fish, spinach, stuffed kumquat salad, strawberry meringues, milk coffee.

The way fish should be cooked depends upon whether it is oily, that is "fat," or lean. The fat fish are best baked or broiled and require no larding nor extra fat. But the lean fish can be cooked in any preferred fashion, extra fat being added.

Lean fish are particularly delicious steamed. Less flavor and nutrients are lost by this method than by boiling. After the fish is thoroughly cleaned it should be wrapped in a piece of cheesecloth, placed in the steamer and steamed until tender.

When only fish is baked it should be placed on a rack high enough to lift the fish from the fat which cooks out. Otherwise the fish will almost stew in its own fat and become strong flavored and difficult to digest.

Many small fish, often called "pan-fish," are good when pan broiled or fried in deep fat. Fillets of fish are nice this way too. Deep fat frying is preferable to pan frying, since less fat is absorbed in the former method and the crisp coating on the surface of the fish protects the inside from intense heat.

Keep in mind that fish should be cooked at a low temperature and never over-cooked. This is especially true if fish is broiled. Plunge the prepared fish, tied in a square of cheesecloth, into a large kettle of boiling water. Then reduce the heat

In choosing a dessert to serve with fish, keep away from gelatines. Fish itself is rich in gelatinous substances and gelatine dishes, although easily digested and refreshing, are not a good choice. Fish is not regarded as a "heartly" food and a dessert quite rich in calories should be planned. In buying fish, estimate that one

pound of solid fish free from skin and bones will generously serve three persons.

If you want your family really to like fish, be sure to select a good quality, remove bones before serving and use great care in cooking.

Production Has Dropped Again

Oil production in the Panhandle field took another slump last week to drop to 47,558 barrels daily. The decrease was 1,805 barrels. Gray and Moore counties led the decline with Gray county's production dropping 1,360 barrels daily. Moore county slumped 640 barrels. Carson and Hutchinson counties showed increases.

No new producers and no localities were reported during the week. Several wells are drilling on top of the pay and should be brought in this week. The Jewell Oil company's No. 1 Meers in section 106, block 3, is underreaming making about 7,000,000 feet of gas with a showing of oil. Brown et al's No. 1 Duncan in section 93, block 3, due north of Pampa struck oil showing at 3,250 feet and is getting ready to drill ahead.

Proration Here Is to Be Unchanged

No new proration schedule for March will be issued by the railway commission, according to word received at the local office from J. M. McDonald, deputy supervisor of the Panhandle field, who has been in Austin for the last week. The allowable will remain at 55,000 barrels daily. That amount has not been reached in several months.

"There is little difference in the potential since the allowable was posted Feb. 1, and the demand is little changed," W. B. Hamilton said yesterday upon receiving word from Mr. McDonald. "We look for a change to take place in March and the allowable will probably be changed in April."

Production in the Panhandle field only 47,558 barrels daily last week, a loss of 1,805 barrels from the previous week.

PAMPA KIWANISANS HAVE TWO PROJECTS OF VALUE TO WHICH WE DESIRE TO CALL ATTENTION. The first is the public "safety" meeting at the city auditorium next Thursday night.

The other Kiwanis project is the mammoth Easter egg hunt scheduled for March 23. This should attract every child "for miles around", and the parents, too.

Ralph Thomas, chairman of the Lions club Yard Improvement contest, says that the annual event will be started much earlier this year. In fact, yards entered will be judged twice.

Are you going to vote Tuesday? It is your duty as a citizen. The issue is not a life-and-death matter by any means, but it is one in which you as a citizen should be interested.

WE ARE STILL PROSPEROUS As Americans who have emerged from a panic, a stock market crash, a depression, let us ask ourselves, have we lost anything real? Many of us have less to live on but more to live for.

Depressions may affect the price of securities, of real estate, of commodities, but nothing can lower the value of loyalty, or affect the valiant spirit of co-operation.

Market panics may reduce our dollars and cents capital, they can never reduce but only add to our faith in the power of prayer, our trust in divine guidance, our confidence in God and His government of His universe.

Being rich does not mean being great, either among nations or individuals, greatness comes through achievement. Spiritual power is the greatness of an individual or a nation, how right, how upright, how true, how generous, how noble, never how rich.

Panics may wipe out profits, business depressions may wipe out dividends; they cannot touch a man's greatest possessions his courage, honesty, valor, honor.

So then, because we have discovered, each for himself, that our spiritual resources, our inevitable future progress are not dependent upon stock quotations or market trends, let us rejoice that we are still prosperous, with a lasting prosperity that can never be taken from us, nor through us, from America.

ABOUT NEW YORK

By WILLIAM GAINES

New York—Remember Emily Ann Wellman? She was a stage star for years. Well, she's now known as "the apple pie maker of Stamford."

She prefers to be known simply as Mrs. Richard Gordon, wife of the player who is Sherlock Holmes in those radio sketches.

The other afternoon she attended a bridge party here, where most of the guests were people of the theater. The game at her table was interrupted while she produced a photograph of her husband and showed it about.

Not once did she refer to her own successes on the stage—which, you may think, is rather unusual for an ex-actress. She seems wholly content to rest upon her new laurels as a culinary artist.

Acts of the sort that have been opening vaudeville bills for years while cold audiences were finding their seats, and suffering walk-outs when they were last on the program, currently are a rage in the movie colony.

Broadwayites smirkingly say it's because there is only one time in the theater when a Hollywood "screen mugger" doesn't feel called upon to act superior—when he's watching an acrobat, he doesn't argue with himself, "I can jump further than he can."

Washington Daybook By HERBERT PLUMMER WASHINGTON—The spectacle of seeing the "Lion of Idaho" lift his "oratorical" paw for a strike at the "Scholar in Politics" thrills senate galleries nowadays, but onlookers of the past probably would have yawned.

Senator Borah's verbal clash with Senator Fess of Ohio the other day on the question of whether the government should appropriate money directly for unemployment relief was exciting enough. But it pales beside some of the stormy scenes enacted on the floor of the senate.

In what is sometimes described as "the good old days" senators practiced less self-restraint than they seem to do now. Then they often sought satisfaction with their fists for what they construed insults.

There is, for example, what is referred to "on the hill" now as the Tillman-McLaurin incident. Both were senators from South Carolina.

One day during debate the charge was made that President McKinley could get votes on the democratic side of the senate when needed.

"Pitchfork Ben" Tillman in some way brought his colleague's name into the discussion. McLaurin, absent from the chamber at the time, heard of it. Rushing into the senate, he threw the lie in Tillman's face.

"Pitchfork Ben" was at him instantly. Teller of Colorado was between the two, and until this day no one knows how Tillman ever got past him to McLaurin.

Money of Mississippi and Wellington of Maryland provided the senate a tense moment once in their careers. Money had the reputation of being hot-tempered.

One day Money and Wellington were debating conditions in Cuba. Words flew so fast that soon both were at fever heat. Money climaxed the situation by shouting: "Come out into the hall!"

But the facetious observation of another senator, that it would be necessary for the senate to pass a declaration of war before the encounter, turned the prospective fight into a laugh.

One of the most significant bits of recent news may, eventually, prove to have been the little story that told how a middle western steel company has started building a complete steel house.

The house is to be an ordinary eight-room suburban affair. Floors, walls and roof are to be sheets of rolled steel, welded together, with synthetic floor boards underfoot and synthetic fiber boards on the walls.

All in all, the house will be something entirely new under the sun. Furthermore, it will cost no more than an ordinary house.

The potentialities of the thing are unlimited. Should such houses be built in quantity, the steel industry would be booming for many years to come.

BOY CRAZY

SYNOPSIS: Money and beauty mean little to Hope Ross, recently made Mrs. Dale, since her father opposes her runaway marriage; she has not heard from Dickey Dale, her husband, since Mr. Ross turned him away from the house. Her father has seen Dickey privately, and injured him severely in a fight.

Chapter 20 A DREADFUL MISTAKE HOPE—in her room—talking to her father whenever he came. Listening to him, face averted, silent, unprotesting.

Waiting and waiting and waiting—until tired little lines crept around the blue eyes, and a wistful droop around her mouth. Waited, with Sassy in her lap, as she wrote letter after letter—whole sheaves of them—to Dickey.

These letters she gave to Goody, who had put in an embarrassed appearance the second morning, bringing Hope news of Mama Ross's dangerous heart attack and her lingering illness. The more questions Goody asked and Hope left unanswered, the more resentful and awkward the older girl became.

For once Goody found herself the favorite of the household. For once she was sought by her father for support and assistance. And Goody gloried in her new importance. She herself was thoroughly convinced of the madness of Hope's escapade and felt no guilt in corroborating her father's lie about Dickey's non-appearance.

In Mama Ross's sick room, Goody had stood by the bed (conscious of her father's broad back as he stood staring unseeing out of the window, and keeping his averted face from the two women who were plotting) and gravely, sincerely given an oath to her invalid mother that she would never mention the episode to Hope or anyone else.

Goody meant well when she gave this dramatic promise, and Goody was one whose religion it was to keep a promise at any cost. She never dreamed her father had hated them both for drawing the knot tighter around Hope's disillusionment. How could she guess? She couldn't see the half sneer on his face, or the look of disgust and resentment in his tired, hurt eyes.

And each letter that Hope entrusted to her sister with tearful pleadings that she post it right away, Goody brought dutifully to her father. Never dreaming that he half despised her for carrying out his orders and keeping his secret so nobly, so elaborately, so sanctimoniously.

Greater even than that were Goody's glories those days. Not only was she her mother's unfailing staff of comfort, but Goody was the general supply-house of information for all of Hope's gang as they phoned the house.

It was Goody who effected the final triumph in the breaking of Hope's spirit. Papa Ross, feeling that he had done his share, refused actively to indulge in the gorgeous drama which Mama Ross was enacting with her superb "heart attack."

When, after eight days of waiting to hear an answer to her many letters, Hope had to face herself and admit that Dickey couldn't have cared for her or surely he'd make some effort to come to her, wire her, phone her, or speak to her, the child caved in completely.

Great was the sorrow, the weeping and the moanings that went on in Hope's room. Pillow cases wet with tears, bedspread stained with hacking sobs, dresses, blouses, pajamas ruined from continual sobbing. Hope faced the downfall of pride, of trust, of faith in love—of complete disillusionment. Faced the fact that she had been an idiot, an "infatuated fool, a cheap and easy mark! Realized that all they said was true! Dickey had been drinking; she had only known him a few months—she had let him walk off and have his own way—without a murmur!

When finally Hope permitted Goody to lead her to Mama Ross's darkened and incensed bedroom, she went with some dim understanding of the game Mama was playing. Lying there, weak and frail, begging her child to "come back to her." Instinctively she knew it was a part, well acted. And yet, Mama did look ill; and the marks of suffering and torture were plain to be seen in her faded gray eyes.
