

SALES TAX VOTED ON ALL GRAINS

Coolidge Apologizes, and Sends Check to Irate Man

Garner Moves

That John Garner is losing nothing in ultimate stature but may suffer somewhat politically at the moment by reason of his stirring demands for the balancing of the budget. To urge that taxation—of any kind—is preferable to failure to achieve that balance is to utter what no politician likes to say in an election year.

Value Received

Taxation is the price of security of self-government of advancing civilization. Taxes are an investment which no property holder can afford to be without. Without the benefits of taxation, life and property would not be safe, and justice would perish. Although we justly oppose unnecessarily high taxation, we too often fail to count the blessings which taxation makes possible. Mr. Garner is doing what any man in his position would be compelled to do—place the welfare of his country above party and above personal consideration.

To Fundamentals

We need to get back to fundamentals. The supreme court the other day called attention to what freedom of the press was intended to mean. Freedom in printing official news of any character because it is news to which the public is entitled is one fundamental privilege. It is the duty of public officials to keep the public records, and it is not their duty, nor even their privilege, to say what records shall or shall not be printed. Moreover, under the Texas laws of publication revised in 1927, the propriety of printing not only decisions but the discussion and procedure leading up to official action is thoroughly substantiated. United States Supreme Court has further ruled that freedom of the press includes the right of a newspaper to criticize on their merits the actions of presiding judges. Any effort to abridge these rights should be vigorously opposed by newspapers, and THE NEWS adds that it will insist that the laws of Texas and the United States in this regard be respected. The offenders are usually not well-informed officials, but persons suffering from exaggeration of their importance and obligations.

About Voting

The right to vote is an other fundamental privilege of an importance too little realized. If denied, it would be the basis of an immediate revolution. Unchallenged, it is ignored to an extent which constitutes a national problem. Let us exercise the sacred political privilege. Let to mark their ballots properly. In this state the voter cancels by scratching that which he does not wish to appear.

WEATHER

WEST TEXAS: Fair, warmer in the Panhandle, frost in southwest portion tonight; Friday fair, warmer in north portion.
OKLAHOMA: Fair warmer in west and north portions tonight; Friday fair, warmer.

NO NEW MOVE TO GET BABY PLANNED

SPOKESMAN OF GO-BETWEENS KEEPS SILENT

ADMIRAL BURRAGE DOES NOT DISCLOSE WHAT IS TAKING PLACE

STATEMENTS GUARDED

ALL ANSWERS STRICTLY NON-COMMITTAL IN INTERVIEW

NORFOLK, Va., March 31. (AP)—Near-admiral Guy H. Burroughs, spokesman for three negotiators here for the recovery of the Lindbergh baby from kidnapers, said today no new move has been planned by the intermediaries.

The announcement, made at a conference with newspaper men, came after Admiral Burroughs had conferred with John Curtis, Norfolk boat builder, and the very Rev. Dean H. Dobson-Peacock, his fellow-negotiator. Admiral Burroughs would not disclose what the three men had discussed at their conference.

Curtis said today that activities of the negotiators had not extended to Philadelphia where it was reported a woman had approached a prominent club-woman there for an interview regarding the Lindbergh case. He said no contact had been made in Philadelphia with the kidnapers or their representatives.

Admiral Burroughs said no arrangement has been made for a new contact and that no arrangement was in prospect. In answer to another question, he said it was not true that the go-between for the supposed kidnapers has failed to keep a recent appointment.

"We can not answer," was the reply given by the naval officer to a question as to whether the Lindbergh baby was well and what assurances the kidnapers had given that they are taking care of the baby. Admiral Burroughs gave the same reply to a question as to whether a woman is involved in the negotiations.

Admiral Burroughs said he did not know whether Colonel Charles A. Lindbergh planned to make a visit here.

He said it was "impossible to answer" when asked if there were any hopes that the negotiations would be concluded within the next four or five days.

Woman Has Theory

PHILADELPHIA, March 31. (AP)—Mrs. Walter C. Hancock, prominent club woman, who says she was misled by a woman who believed she had good clue to the kidnaped Lindbergh baby, said today the investigation being conducted by Philadelphia police might take a week or two.

Mrs. Hancock, the wife of a coal dealer, said she was not at liberty to give the name of the woman. "She is not sensational and has no desire to capitalize in any way on what she knows of the case," Mrs. Hancock said.

"She is certain from the actions of certain people she knows that the baby is in Philadelphia, or nearby, at least. The detectives are running down her clues."

(See LINDBERGH, Page 8)

I SAW--

Friday, Brandin, the courthouse weather prophet, this morning, Friday rather "suspects" we will have one more snow, and that between now and the middle of April—or maybe he said April 20.

The results of rat-killing in the alley back of the Oil Belt and Doak's. Employees of the two stores killed more than a score of rats that had burrowed under a large box.

The courthouse wits, Mrs. P. O. Sanders and District Attorney Raymond Alford, getting back at each other this morning. Oia Gregory was applauding from the sidelines.

Wayne Kelley, Harvester star, who has plans for a driving course which he expects to open here next week. Wayne will attend school here next year. He has been promised patronage of a few golfing business men, and should get the patronage of many more. Wayne needs the business to stay in school.

NEWS FLASHES AT PRESS TIME

AUSTIN, March 31. (AP)—Production allowances in Texas oil fields involved in a hearing of operators before the Texas railroad commission yesterday will be fixed at "practically" the same as the existing orders permit, R. D. Parker, chief oil and gas supervisor announced today.

AUSTIN, March 31. (AP)—The Texas railroad commission today announced a hearing of operators in the Big Lake oil field has been called for April 12 in San Angelo. A hearing of operators in the Gulf Coast field was set for April 15 at Houston.

WASHINGTON, March 31. (AP)—The house moved rapidly today toward a final vote on the billion dollar tax bill while the senate debated the democratic tariff measure.

Panhandle Oil Allowable to Be 55,000 Barrels

The Panhandle crude allowable as set by the oil and gas division of the Texas railway commission will remain at 55,000 barrels during April, W. B. Hamilton, assistant deputy supervisor of the Panhandle field announced this morning. A new schedule is being made, but it will affect only pipeline runs of various companies taking the Panhandle crude and not the total allowable.

Production by counties has changed very little since the last schedule of February 1.

A raised allowable is expected in the near future, however, as the season of increase in demand is here. A raise in the price of crude might also affect the allowable.

Producers are optimistic that the raise announced yesterday by the Philcox company will be met and maybe increased by other major pipeline companies.

Prices New Ford Cars Are Received

Prices of the new Ford V-8 cylinder car were received today from the Ford Motor company by Miller-Lybrand Motor Co., Inc., local Ford dealers.

The prices of the 14 body types, f. o. b. Detroit, on the 8-cylinder cars are as follows: Roadster \$460, Phaeton \$495, Tudor sedan \$500, coupe \$490, Sport coupe \$535, Fordor sedan \$590, DeLuxe roadster \$500, DeLuxe Phaeton \$545, DeLuxe tudor sedan \$550, Cabriolet \$610, DeLuxe Fordor sedan \$645, Victoria \$600, Convertible sedan \$650.

Any of the 14 body types is available with an improved 4-cylinder engine at \$50 less than the prices quoted for V-8 cars.

It is expected that the cars will be on display in Pampa the first part of next week.

(See STOCKHOLDERS, page 8.)

TUNNEL NEAR ABILENE BANK LEADS TO ARREST OF FORMER FOOTBALL STAR AND 3 MATES

ABILENE, March 31. (AP)—Discovery of a tunnel 45 feet long near a bank here has led to the arrest of four young men, one a former star football player at Abilene high school and a star in 1930 on the Southern California football squad.

Last Sunday officers observed a new tenant in a vacant building near the farmers' and merchants' national bank had patted the windows of the place, and they set up a guard.

Meanwhile, they learned wind-downs in a vacant concrete structure near the Citizens National bank had been given similar treatment. Yesterday they entered the concrete building and found two men, one the former football star, and the tunnel.

The tunnel led from the concrete building under another building and about eight feet north of the Citizens National bank building's north line. It was about seven feet below the street level.

The men said they had been hired by another person, whose name they gave, to dig the tunnel. They said

BABY GIRL RIDES TORNADO

Lloyd Butler, 33, farmer living near Birmingham, Ala., was fighting to keep the door closed when the tornado that devastated a wide stretch through four southern states, swooped out of the south. His wife, holding Jewel, 22-month-old baby, with their other two small daughters clinging to her skirts, was behind. Then the house collapsed. That's the last thing Butler remembers. Puzzled farmers found Jewel nearly 10 miles away. They named her the "orphan of the storm." But a relative recognized the baby and got word to the parents who were in the hospital. The two other daughters were killed. How Jewel rode the storm remains a mystery. They were unable to attend funeral services for the two girls.

PAMPA DAILY NEWS PASSING TO SINGLE UNIT OWNERSHIP

Stockholders Approve the Changes in Session Unanimously; Stock Will Be Transferred.

Letters will be mailed in a few days advising stockholders fully of the transfer of the Pampa Daily NEWS to a new ownership, as authorized by unanimous vote of all stockholders present at a meeting in Amarillo Monday.

By authority of these stockholders, J. Lindsay Nunn and David M. Warren not voting by reason of their part in the re-organization of the Nunn-Warren Publishing company, the Pampa Daily NEWS is being sold to J. Lindsay Nunn, who will have as associates the stockholding employees of Pampa and others who wish stock in the new firm.

The Pampa Daily NEWS will, effective tomorrow, be an independent newspaper incorporated as a single unit. David M. Warren is moving to Panhandle, where he will live.

(See STOCKHOLDERS, page 8.)

Denver Officials Inspect New Line

Close inspection of the Fort Worth and Denver railway line from Childress to Pampa by railway officials is being made. Nine officials arrived in Pampa late yesterday afternoon and left early this morning over the line on an inspection trip.

Three weeks ago officials of the Fort Worth and Denver, Great Northern and Northern Pacific railways went over the line.

Gen. John A. Hulen, vice-president of the Fort Worth and Denver, told Pampans yesterday that he was well pleased with the progress being made and that he felt the line would be completed on schedule, which will be about the first of July.

Grade work has practically been completed through Gray county. Some grade remains to be thrown up through Pampa and LeFors and a short distance in the east part of the county.

Officials making the trip over the line are Gen. Hulen, H. H. Dutton, A. P. Briggs, J. D. Farrington, R. C. Gowdy, L. M. Hogsett, C. B. Ragan, O. H. Schmidt and M. A. Stainer.

SUMMONS TO BE DISMISSED BY PLAINTIFF

BUT DAMAGES WILL BE ASKED OF NEW YORK FIRM

RADIO SPEECH INVOLVED

FORMER PRESIDENT HAD NO KNOWLEDGE OF CONTROVERSY

ST. LOUIS, March 31. (AP)—Former President Calvin Coolidge has written Lewis B. Tebbetts, St. Louis insurance man, explaining he meant no offense when in a radio speech last October he cautioned against insurance agents who "offer to save money for you by replacing your policy in another company."

Mr. Coolidge enclosed a check for \$2,500. Tebbetts said his reputation as the "leading advocate in the United States of the so-called term life insurance policies," was injured by Coolidge's address in which he said the following language was used:

"Beware of the so-called 'twister' and 'abstractor' or any agent who offers to save money for you by replacing your policy in another company."

The former president was served with a summons last month at the instance of Tebbetts, who also instituted similar action against the New York Life Insurance company of which Coolidge would be dismissed April 7, but that a damage suit against the insurance company would be filed then.

In his letter the former president said he was informed Tebbetts felt that the radio address "might be construed by your friends and acquaintances as reflecting upon you and the plan of insurance you are advocating."

"I had no knowledge of the controversy relating to the plan of insurance you are advocating, and therefore my statements could not have had that comprehension or intent, and any such construction would be entirely incorrect. I assure you that no personal offense was intended."

Porter, Henry, attorney for Tebbetts, said the check which came with the letter was on Everett Sanders, Coolidge's attorney and his secretary while he was president.

Henry said Sanders came to St. Louis last month and, after a conference, Tebbetts agreed to abandon his action against Coolidge providing Coolidge apologized and Tebbetts was reimbursed for his legal expenses. Henry quoted Sanders as saying he would assume personal responsibility for the expenses.

Forty and Eight Will Talk Bonus

The 40 and 8 will hold a meeting tonight at the Legion hall for the purpose of discussing the soldiers' bonus bill and other matters of vital interest to ex-service men. Paul D. Hill, chief de gare, announced this morning.

All ex-service men are urged to be present. The meeting will start promptly at 8 o'clock. Refreshments will be served following an entertainment program.

RESOLUTION INTRODUCED

WASHINGTON, March 31. (AP)—A resolution to direct the secretary of the treasury to advise the house board has taken to assist member what steps "the federal reserve system" was introduced today by Representative Patman (D., Tex.).

Sec. Wilbur Recommends Way to Preserve Natural Resources of Nation.

WASHINGTON, March 31. (AP)—Legislation to permit agreements between producers in the oil, gas and timber industries with a view to controlling production and avoiding waste was urged before a senate committee today by Secretary

Wilbur.

Insofar as "natural resource" industries are concerned, he favors the Nye bill to enable the federal trade commission to approve agreements adopted by an industry and give them legal binding effect.

HUNTS SLAYERS

Pledging the remainder of her life to a man hunt, Miss Alice Olson, 20, above, is giving utmost assistance to San Francisco, Calif., police, in their search for three men who killed her fiancé, Paul Hanson, when he fought off their attempt to attack her. Miss Olson has vowed to spend the rest of her life if necessary to track down the trio.

PAVING BONDS MAY BE SOLD

Question of Price To Be Determined When Bids Are Considered.

Gray county road bonds in the amount of \$300,000 were ordered advertised for sale on April 12 by county commissioners in session yesterday. Whether the bonds will be sold depends upon the bids, it is understood. Commissioners have declared many times that Gray county bonds should bring at least par value.

At the first sale, the court sold \$300,000 worth of bonds for par and a premium of around \$1,000. This is the second time bonds have been advertised for sale.

Disbursements from the amount derived from the first sale of bonds, and the amounts of the contracts let yesterday will more than equal the \$300,000 received, as a consequence, the court ordered transfers of \$10,000 from the road and bridge fund to the Gray county bond fund to be transferred back out of the sale of bonds.

Bonds of the second sale will furnish funds to buy right of way on the Clarendon, Miami and Wheeler roads, and to grade and drain those highways.

Pampa Playground Ball Team Winner

The girls playground ball team from Pampa high school won the county cup in LeFors yesterday afternoon when finals in the Gray county interscholastic meet were played. The Pampa team, coached by R. A. Selby, swamped Alanreed 38 to 2.

Nellee Meers started in the box with Be Ann Heiskell behind the bat. She was relieved by Willie Mae Hyllard who finished the game. Evelyn Kentling and the pitcher and catcher were the heavy hitters of the game.

The senior girls took second place being nosed out by McLean Tuesday. The junior high boys won their division Saturday but the junior team from the high school was eliminated.

Two Fires in City Do Small Damage

The fire department answered two calls the past 24 hours but damage at both fires amounted to only \$50, it was said. Yesterday afternoon a call was received from the 1000 block on Wilcox street, where waste oil was burning beside a building. Water, foamite and chemicals were used to extinguish the blaze.

This morning a run was made in response to a call from 1109 East Francis avenue where a garage was on fire. A small amount of water was used to extinguish the blaze. Little damage resulted.

LEVY PUT ON WALL STREET TRANSACTIONS

TRANSFERS OF COTTON PRODUCE AND REAL ESTATE TAXED

TAMMANY OVER-RIDDEN

EXCHANGE WHEAT TO BE TAXED 5c ON EACH \$100

WASHINGTON, March 31. (AP)—A levy of one-eighth of one percent of the value of all bond transactions expected to yield \$13,000,000, was voted into the new revenue bill today by the house. It expires July 1, 1934.

WASHINGTON, March 31. (AP)—The 1924 rates on conveyances of real estate, estimated to produce \$20,000,000, were inserted in the revenue bill today by the house. The rate is fifty cents on each \$500 or fraction thereof, with a \$100 exemption on the first \$500.

WASHINGTON, March 31. (AP)—The House today wrote into the new revenue bill taxes on stock sales and on the transfers of grain, cotton and produce in the commodities exchanges.

Over the opposition of the Tammany delegation, it followed the leadership of the ways and means committee to impose a levy on one fourth of one per cent of the sales prices of stocks.

A few minutes later, it adopted another amendment by the committee to put an assessment of five cents on each \$100 sale of cotton, grain and produce sold on these exchanges.

In the case of the stock sales, it voted to make the tax effective on orders placed by persons in this country for buying or selling on foreign exchanges.

In the case of the stock sales, it voted to make the tax effective on orders placed by persons in this country for buying or selling on foreign exchanges.

In debate, members construed the tax as a blow at bull selling.

There still was to be acted on an amendment to put a tax of 1-100 of one per cent on bond transactions.

The commodity and stock amendments were estimated to bring in a total of \$81,000,000, bringing to \$24,900,000 the revenue thus far written into the bill.

Oil Allowable In Oklahoma Raised

OKLAHOMA CITY, March 31. (AP)—An oral order calling for an increase of 12,500 barrels a day in the allowable production of Oklahoma fields to 443,000 barrels a day was issued today by the corporation commission.

Elimination of the ten per cent restriction on production of stripper wells was ordered by the commission.

Allowable for the Oklahoma City field for the next 15 days was set at 103,000 barrels daily, compared to 115,000 barrels for the last eight days of March. The decrease was due to the fact the Sinclair company, which had been calling for 11,000 barrels daily, made no nomination.

The recommendation of Ray Collins, state umpire, for allowances for state pools was followed, but there was no action on his suggestion for a change in proration methods of the Oklahoma City pool.

Oil Agreements Proposed

Insofar as "natural resource" industries are concerned, he favors the Nye bill to enable the federal trade commission to approve agreements adopted by an industry and give them legal binding effect.

The secretary of the interior added that some provision should be included requiring that the agreements become inoperative if it produces coercion on a member of the industry or results in exorbitant prices to the public.

President Hoover in his annual message recommended that congress consider changing of the anti-trust laws along this line.

Remembering that the subject has had careful consideration at the interior department, Wilbur said, he is conscious of the fact that the method by which the government is now seeking to control natural resource production "are not only inadequate but wasteful."

Judgment Will Be Subject Tonight

"The Judgment" is the subject to be discussed by the Rev. C. E. Lancaster at the revival service this evening at the First Baptist church.

Allen is Vice-President

WACO, March 31 (AP)—Dr. W. S. Allen has been elected vice-president of Baylor university, a new office in the school, and dean of the college of arts and sciences.

Under Military Control

MEXICO CITY, March 31 (AP)—The entire republic will be under military control for 12 hours next Sunday during the primary elections for the selection of party candidates for the general elections July 3.

Wind Does Damage

NAVASOTA, March 31 (AP)—High winds caused some damage in southeast Texas yesterday. Thirty houses in the negro section here were virtually destroyed.

Schumann-Heink Ill

STEVENS POINT, Wis., March 31 (AP)—Under orders from physicians for a complete rest, Mme. Ernestine Schumann-Heink, the opera and concert singer, was in a hospital today suffering from a combined attack of bronchitis and laryngitis.

Motor Firm Robbed

HOUSTON, March 31 (AP)—Robbers looted a safe at the Dow Motor company of \$30 in cash early today, after binding and gagging a negro night watchman.

OUT OUR WAY... By WILLIAMS

COMMUNIST PARTY MEMBERS TO GET HIGHER SALARIES SOON

MOSCOW, March 31 (AP)—Members of the communist party, including the highest government officials as well as factory workers who heretofore have been limited to the most meager salaries, may soon cash in on substantial raises in pay.

The political bureau, it was learned today, is considering trebling the maximum monthly income allowed party members from 300 to 900 rubles (about \$150 to \$450).

The raises are planned in accordance with the policy outlined by Joseph Stalin nine months ago when he decided on the abolition of the system of "equal wages for all."

Factory workers heretofore have been limited to the smallest salaries in order to set an example for the rest of the proletariat.

Three factors were said to be inspiring the action. The first was the enormous loss of time and energy by party members holding important posts due to the necessity for seeking out places where they may buy the necessities of life at prices commensurate with their incomes.

The second was that many, especially those with large families, have sought extra work at writing or at lecturing in order to augment their income. The third was that many capable officials have refused to accept posts of responsibility because they received the same pay as subordinates they would receive as chiefs, without the responsibility.

Since the revolution, members of the party have been strictly limited to the smallest incomes and the plainest lives in accordance with Lenin's watchword for the pure communist states—"From each according to his ability, and to each according to his needs."

Hurley For Skelly

WASHINGTON, March 31 (AP)—Secretary Hurley announced today his support of William G. Skelly, Tulsa, Okla., oil man for reelection as Oklahoma's republican national committeeman.

Mechanic Found Dead

DALLAS, March 31 (AP)—W. W. Hurst, 44-year-old automobile mechanic, was found shot to death today in the bathroom of his home. A shotgun lay beside his body. He had been in ill health for some time.

Charged Man Found Dead

COFFEYVILLE, Kan., March 31 (AP)—Nicholas Theocletos, 59, restaurant owner recently charged with receiving stolen property, was found shot to death in his place of business at 4 a. m. today.

Man Dies in Fire

ENID, Okla., March 31 (AP)—The body of P. S. Duffy, 69, shoe store manager, was taken from the ruins of a burned building in the heart of the downtown business district early today. The body was found in a hallway 25 feet from a room he used for sleeping quarters. He apparently had dropped when overcome by smoke and fumes trying to escape the flames.

Bandit is Captured

MEXICO CITY, March 31 (AP)—J. Concepcion Rojas, who confessed he was one of the men who two weeks ago unsuccessfully attacked the Laredo, Texas, passenger train, has been captured today at Comonfort, Guanajuato, by the mayor of Comonfort and a state deputy.

Auto Industry Deals in Millions

NEW YORK, March 31 (AP)—The automobile industry this week is plunging into a venture worth millions of dollars at stake which its leaders believe may turn the whole tide of American industry.

Ranking as one of the great pillars on which prosperity rests, the motor industry's activities are closely followed by executives in other lines of commerce and finance.

Many executives are hopeful that the concentrated push the motor industry is trying to give to general business will pull the country out of its doldrums. In the past, they point out, almost every depression has had its back broken by the concentrated campaign of some one industry or group to get things started again.

Women Present Rotary Program

The "other personality" of several Rotarians was shown at the luncheon in a skit presented by Rotary Annex. Members of the club were impersonated showing the humorous things that have or might have happened.

Thut Creek's Bridge Contract Is Let Again

Contracts to build a bridge across Thut creek on the Pampa-LeFors road, and to grade and drain 5,702 miles on the same highway were let yesterday by county commissioners to bidders who were low several weeks ago.

Amounts of the low bids yesterday were the same as then. On account of insufficient advertising of the first bids, it was necessary to rescind the contracts, re-advertise the bids and award contracts a second time.

H. Lott of Amarillo was given the grading and drainage contract, and the Austin Bridge company was awarded the bridge job. Amount of the first bid on the road project was \$12,100.88. Other bidders were E. T. Frator, \$14,918.08, and C. H. McClellan, \$14,907.52.

The only two bids on the bridge work received were as follows: Austin Bridge company \$7,453.91, and McClung, \$8,138.60. Both Lott and the Austin Bridge company were low bidders several weeks ago.

Work on the two projects is due to begin immediately. The contractors call for employment of local labor.

Magnolia to Play Phillips Outfit

The first baseball game of the 1932 season will be played at 3 o'clock Sunday afternoon at Magnolia Park, East Foster avenue. The game will be between the Magnolia Mags of Pampa and the Phillips "66" nine from Borger.

Although the Pampa boys have been working out less than two weeks, they are fast rounding into shape and should give the fast Borger outfit a hard battle.

Rusty Cabill has been chosen playing manager of the Magnolia club. Rayburn Burke was named business manager. Three pitchers are available for Sunday's tilt and all of them will probably see action as the moundsmen. Boseman and Wagner are ready for receiving duties. Practices will be held every afternoon at 5 o'clock and players interested in making the team are urged to be on hand to workout.

APRIL FOOL FISH PARTY IS FROLIC FOR CLASS HERE

Pampa Delegates to Seek Next Convention of Business Women's Clubs

BAPTISTS HAVE SOCIAL AFTER BUSINESS MEET

MRS. JOE R. FOSTER IS NAMED PRESIDENT OF CLASS

An April fool fish party was the unique event given for the Fidelity Matrons class, First Baptist church, yesterday afternoon at the church.

The social hour followed a business session, presided over by Mrs. R. E. Gatlin. After the singing of the class song, "My Desire," sentence prayers were offered for the revival. Quarterly reports were given by officers, and a talk was made by Mrs. R. W. Tucker, teacher.

Several vacancies in office were filled. Mrs. Joe R. Foster being elected president; Mrs. John Ryan, devotional vice-president; Mrs. Marvin Lewis, social vice-president, Mrs. E. T. Beauchamp, assistant secretary.

Mrs. J. T. Morrow was in charge of the social hour. The room was decorated as an aquarium, including a variety of fish. Fishing games also were played.

At refreshment time, tuna fish salad, buttered crackers, wafers, and coffee were served on green lace doilies.

Those present were Mesdames Herman Whately, A. L. Dodd, S. T. Beauchamp, R. S. Gibbons, N. R. Brown, Joe Brown, J. O. Myers, A. L. Prigmore, J. R. Ryan, A. C. Shaw, Visla Ellis, Fred Williams, Carl Tillstrom, Buster Bailey, Joe R. Foster, Floyd Rogers, Albert Taylor, J. P. Grigsby, R. W. Tucker, J. T. Morrow, E. H. Mazy, Guy Barrett, R. E. Lantz, Ed Fowler, P. O. Anderson, C. L. Stephens, L. S. Young, Charles Rice, Tom Perkins, C. W. Parker, Violet Campbell, Everett Kennedy, R. L. Young, Roy Conner, R. L. Edmondson, J. R. Williams, F. Mrs. O'Malley's Class Has Party For Large Group

A lively party was given by Mrs. E. W. O'Malley's Sunday school class of the First Christian church Monday evening at the church.

Games were played and refreshments of ice cream and cake were served to the following: Norma Jean White, Willie Isbell, Sibyl Barker, Wilma Twentier, Helen Jo Daugherty, Lorene Keith, Josephine Gantz Virginia Patton, Zelma Cannon, Fay Compton, Erdene Benton, Ethel Hamilton, Walden Dickenson, Dorothy Meers, Sunny Jones, Vondell Kees, Anna Louise Clayton, Frances Talley, Patricia Graham, Catherine Rose, Patricia McKee, Bert Stevens, Charles Frost, Sam Keith, Raymond Fritchelle, Durwood Dean, Dennis Powell, Leland Bastian, Tom Kitchens, Floyd Yess, J. D. Wright, Albert Hollenbeck, Wynne Hutchins, Ivan Kennedy, Ray Eldridge, Lloyd Hamilton, Herman Kiser, Owen Wright, Clinton Meek, John Crow, Jerry Wilder, and Clarence Gaines.

Luncheon Served At Parish House

Following corporate communion at the new parish house for St. Matthew's Episcopal church yesterday, members of the Women's auxiliary enjoyed a lovely covered dish luncheon.

A committee for furnishing the kitchen for the parish house was appointed and will begin work soon. Those attending were Mesdames Louie P. Clarke, C. P. Buckler, F. M. Perry, S. F. Thornton, Henry Thut Sr., George B. Kendall, Tucker, Newton C. Smith, J. E. Cunningham, M. K. Brown, and Paul C. Jones.

The women presented their "blue boxes."

Earl Kendrick of Dumas transacted business in Pampa Wednesday.

Mrs. S. P. Hall of LeFors shopped in the city yesterday.

Good Behavior of Former Years Is Replaced by Self-Expression

CHICAGO, March 31. (AP)—There are only two classes of children these days who are mannerly—children of the very poor and children of the very rich.

That was the observation of silver-haired Mrs. Mary "Ma" Lyons, known to several generations of the traveling public, who today, at the age of 70, is retiring after 36 years with the Chicago and Northwestern railroad as nursery matron.

In her stiffly starched blue dresses and white apron, she held court in her rocking chair in the nursery, bidding goodbye to her associates and reminiscing over the changes in children of yesterday and today.

"Modern times seem to have made life too short for any of it to be spent in just being a child," she said. "There aren't many children, real children, any more. There

Twice Her Age

Little Ma-Fan Collier of Troup, Texas, is actually only a few weeks over 5 years old, but a recent special intelligence test gave her a mental age of 10 years and eight months. The test questions were based entirely on the child's knowledge of nature, every-day facts of home and outside interest. She is a daughter of R. Gressett Collier.

Junior World Club Formed Wednesday

The Junior World club was organized Wednesday under the direction of Mrs. H. T. Wohlgenuth. Elizabeth Heibert, second vice-president, Lillian Rice, secretary, Lucille Bell, reporter; Janice Purviance, pianist.

A program on negro life was given. "What a Friend We Have in Jesus" was sung, and the meeting was closed with a prayer by Elizabeth Wohl.

The club will meet every Wednesday at 4:15 o'clock in the Methodist church basement.

Over-Eating of Rich Foods Will Cause That "Spring Fever" Feeling

By SISTER MARY NEA Service Writer

At the end of winter nearly everyone experiences a loss of appetite. During the cold months, the body has craved foods that would supply heat; and consequently a diet rich in fats and carbohydrates has been maintained. Even if fruits and vegetables have been included in the family dietary, the tendency is to over-eat of the richer foods that eventually clog the system. This condition causes that tired feeling so often called "spring fever."

A study of many dietaries shows them to be lacking in iron, carefully selected though they may be. Too little iron in blood and tissues causes them to misbehave. The external indications of this internal "misbehavior" are apparent in poor color, listlessness and lack of vigor—spring fever. Physiologists tell us that iron in the blood is the carrier of oxygen to the tissues where food materials are burned to release energy.

Unless menus are carefully planned, there will not be sufficient iron to insure vigor and endurance. Although meat is one of the richest sources of iron, it is not one of the best foods for the body to assimilate and dispose of. Therefore a high meat diet is not wise.

Foods That Are Tonics
Fruits and vegetables must be relied upon to furnish the necessary iron grams and keep the body "fit." Bulky foods that will give the digestive tract its much needed exercise are essential. Nearly all fruits and vegetables are mineral rich foods and have a decidedly tonic-like effect.

Keep in mind that the amount of water used and the size of the pieces of vegetables greatly affect the loss of iron in cooking. Certain vegetables which are rich sources of iron in their raw state are poor sources after cooking. Cooked in large pieces and in a little water as possible, vegetables retain more iron than when they are cooked in a large amount of water and cut in small pieces.

Our grandmother firmly believed in the efficacy of molasses as a blood tonic and in the spring they

are babies, little tots, adults, and these strange young creatures who feel they must grow up.

"The little ones still want to hear about the three little bears, but the modern lad or six or seven just looks bored. And if you don't watch out he will correct you on the football score."

"Children of 25 to 30 years ago were strong on behavior; now they are strong on self-expression, or whatever you call it. Today's children are livelier, more active. They demand more attention; want more out of life, and they are intensely interested in taking things apart to see what makes the wheels go around."

But tomorrow's future citizens are all right in her opinion. They are on their toes early, and if they don't mind, she said, that is their parents' fault.

Large Group Expected to Go to Vernon

Bulletins Arrive in Pampa from Clubs of District

Interest of business women throughout the Panhandle is focused on the conference of the first district, Texas Federation of Business and Professional Women's clubs which will be held April 2 and 3 in Vernon. This fact is evidenced by the numerous enthusiastic bulletins which have been arriving in Pampa from clubs throughout the district, all of which are urging a full attendance.

The Pampa club has announced its intention to make every effort possible to bring the 1933 conference to Pampa. Each person among the large group of Pampans planning to make the trip is asked to telephone Mrs. Audrey Fowler, 377.

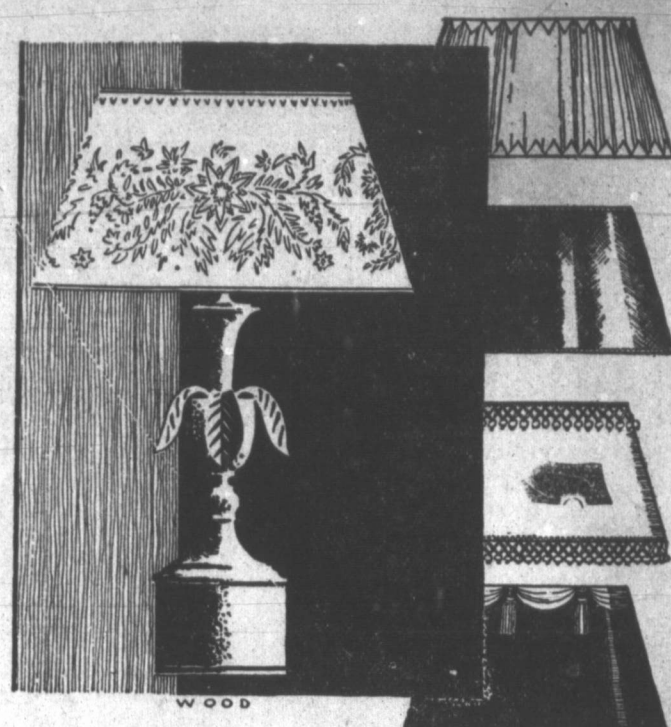

When the travelers arrive at the Bailey hotel Saturday they will register and be assigned to rooms. Later they will have an afternoon colonial coffee and at 7 o'clock there will be a dinner. After dinner, an "ice breaker" will start the program with a good-fellowship feeling.

One of the outstanding entertainment features of the program will be the dance to be given at the Hill Crest Country club Saturday evening. Interspersed with the dancing and music will be specialty acts. The civic clubs of the city, the Vernon chamber of commerce and Junior council and their wives will assist in entertaining the guests.

Mrs. Bill Smith of Shamrock was a Pampa shopper yesterday.

W. V. Sedlitz of Chicago, credit superintendent of Montgomery Ward & company, is here today.

Shades of Aluminum Foil

Shades costume themselves in theatrical gauze and drawn silk.

By MARGERY TAYLOR Interior Decoration Editor, McCall's Magazine, Written for Pampa Daily News

The newest lamp shades come in such a variety of styles that fashion is certainly not a tyrant these days, at least in lamps.

You don't have to stick to parchment and paper shades, for instance. You may go back to drawn silk—and very effectively, if you use one of the eighteenth century urn-shaped bases. For a striking shimmering effect, nothing can excel a white alabaster base with a white pleated chiffon shade edged with taffeta points.

The mode seems to favor the white effects as against the tans and natural parchment shades of previous seasons. But the mode is pervasive, because it also favors

black shades lined with pink and brown lined with white.

The latest shades are modern—so modern that they take the work "shade" very seriously. They are of aluminum foil and come in silver, copper and silver blue colors. Little light comes through them, but they are decorative where little light is needed, as in halls.

Those who still like stiff lamp or paper shades will welcome the new effects achieved by the open-work designs, cut out like children's paper dolls.

For the popular Italian pottery vases, very appropriate shades may be made from several layers of the atrial gauze. Such shades should be finished, top and bottom, with narrow wool fringe, of the type used on crewel embroidery or cretonnes with Jacobean designs.

Fifty-Nine Now Are Enrolled at Training School

Fifty-nine persons are now enrolled in the training school at the Central Baptist church, and 54 of this number attended last evening.

R. E. Gatlin of the First Baptist church will give a demonstration this evening in ways to hold Bible drills. Review and examinations will be held tomorrow evening.

Mrs. Turner Will Have Students in LeFors Contests

Several pupils of Mrs. Helen Turner will represent their schools in the interscholastic league contests to be held Friday in LeFors.

Ed Whittenburg is to represent the senior high school with his declamation "What of America."

Florence Sue Dodson won first place in the girls' senior declamation contest with "The Law of Righteousness."

J. G. McConnell won first place in junior high school with his declamation "Columbus."

Ruby Scafe won first place in the girls' junior high school contest with "The House With Nobody in It."

Rita Holmes will represent Sam Houston school with the same selection.

Mrs. Turner says she has never taught where there was a finer group of declaimers than those at Pampa. She has much confidence in their future as declaimers.

Personal

Buck Behrends of Borger visited his parents, Mr. and Mrs. Louie Behrends yesterday.

Fred Abbott of Shamrock was a Pampa shopper yesterday.

L. R. Robinson of Dallas arrived here this morning for a short visit.

Ivy Spann of Wichita Falls was here on business Wednesday.

Miss Irene Vise of Borger was visiting here yesterday.

Mrs. Byrum M. Nelson, Kingsmill as a Pampa shopping visitor yesterday.

Mr. and Mrs. Frank Hopkins have moved to Quinlan, Okla. While here Mr. Hopkins was a carpenter. He will be engaged in farming at Quinlan.

Mrs. A. A. Lightfoot is visiting relatives in Longview.

Mr. and Mrs. Ralph Cain and son, Billy, left Wednesday for Kansas, where they were called because of the serious illness of Mr. Cain's father.

Doc Hemmingway, advance representative of the Shell Brothers circus, is critically ill at Pampa hospital.

Club Party Will Be Held Tuesday

The party for the Civic Culture club which was to be held tomorrow has been postponed until next Tuesday. It will be held in the country home of Mr. and Mrs. H. H. Isbell at 7:30 o'clock.

Quilts Made by Baptist Church WMS Yesterday

Gathering at 9:30 o'clock, 22 members of the Central Baptist Woman's Missionary society held an all-day meeting at the church yesterday.

The day was spent in quilting three quilts and tacking one comfort. These covers will be sold and the proceeds will be applied on a communion set for the church.

A covered dish luncheon was served at noon.

PROGRAMS ARE DELIGHT TO MANY AT OPEN HOUSE HELD AT HORACE MANN SCHOOL

COLONIAL THEME USED THROUGHOUT THE ENTERTAINMENT

The Horace Mann school building was crowded with visitors Tuesday afternoon and Tuesday evening when open house was sponsored by the Parent-Teacher association. A tree planting ceremony in observance of the Washington bicentennial was a feature in the afternoon, and in the evening fathers' night was observed.

Colors of red, white, and blue brightened the building, and United States flags were employed in the patriotic decorations.

As guests arrived they were asked to register in books featuring a George and Martha Washington design. The books were presided over by Mrs. J. D. Lawson, Mrs. B. C. Priest, Mrs. L. T. Ward, and Mrs. Board, all in colonial costumes. Ushers also were dressed as George and Martha Washington, and in each room children, also in colonial costumes, served as hostesses.

Other colonial ladies, Mrs. W. R. Ferguson and Mrs. V. E. Fatheree in the afternoon and Mrs. W. Purviance and Mrs. J. F. Curtis in the evening, poured tea. The tea room was beautifully decorated, as was the table itself which was covered with lace over red. Red candles tied with blue tulle were used to light the table, and Easter lilies made an attractive floral addition. Washington silhouettes adorned the electric lights.

The afternoon's program was as follows: Playlet "Boston Tea Party," Miss Clara Brown's room; dancing of the minut by first grade pupils of Miss Wilma Chapman; harmonica numbers directed by Miss Loma Groom; physical education stunts directed by Mrs. Paul Poteit; "Visit to Bookland," by pupils of Miss Violet Durrett; "Washington Entertains for La Fayette," by fifth grade pupils of Miss Frances McCue; Rhythm band numbers directed by Mrs. T. A. Cox.

A tree-planting program, directed by Mrs. N. F. Maddux, included the following numbers: Song by Horace Mann glee club; reading, "Trees," by Nell Reeves; talk on the origin of Arbor day, Mrs. V. E. Fatheree; dedication of tree to the memory of George Washington, Mrs. Maddux; benediction, the Rev. A. A. Hyde.

The high school orchestra, directed by R. E. "Pop" Frazier played from 7:30 to 8 o'clock in the evening, and the program included the following numbers: Accordion selections, Florence Bolat; quartet selections, "Medley of Romance," sung by Mrs. J. W. Garman, Miss Josephine Thomas, Ed Zimmerman, and Emmitt Smith, illustrated with pantomime by a group of pupils among whom were Garland and Mildred Pierce, brother and sister, who illustrated "In the Gloaming"; piano solo, Mary Lynn Schofield; "Re-

view of the 13 Colonies," fifth grade pupils taught by Mrs. M. K. Griffith drill with dumbbells, first grade pupils taught by Mrs. George Clark; glee club numbers; "Uproar Grand," a burlesque on grand opera given by Dorothy Doucette, Ed Whittenburg, and Malcolm Carr under the direction of Miss Iva June Willis; number by the high school boys' quartet composed of James Groom, Jack Benion, Dick Benton, and Joe Kahl; popular musical selections by Joe Kahl, Jackie Jones, Dorothy Doucette, and Dorothy Dodd; numbers by the high school girls' glee club; a selection by a quartet composed of Supt. R. E. Fisher, Emmitt Smith, E. D. Zimmerman, and Harry Kelley.

Miss Thomas, school principal, expressed the appreciation of the association for services rendered by the following: "Pop" Frazier and the high school band for music; Pampa Hardware for dishes; Pampa Flower shop and Helen Leech Flower shop for flowers; Malone Furniture store for lending and delivering furniture; many individuals who provided costumes and helped in any other way to make the event successful.

Will Wilks and George Woodhouse drove to Oklahoma City today on a business trip. They will return to Pampa tomorrow.

The women's council of the First Christian church will have an exclusive meeting tomorrow afternoon at 4 o'clock.

The People Do Know and No Maybe About It!

that the Corporation of the City of Pampa is not a closed Corporation, meaning thereby, that no citizen outside of a certain few can break into it, and that we advertised in the city's newspapers the intention of forming a League of Citizens, large and small, inviting participation in public meetings and voice their say, and encouraged discussion of public needs for Economy and better government, and we succeeded, having organized, abiding by strict parliamentary rules administered by elected officers.

We had objectives and have them now. The first objective was a Poll Tax drive. We succeeded 100%. The second objective was to defate the proposed amendment to the City Charter, in which we were again 100% successful, and incidentally the good ship City Government sprung a leak, and the result the skipper fell off the Christmas tree, and resigned, assuming, we surmised, that we were after a which at no time was our object, as Economy and better government is our watchword, not prejudice or domineering. As at no time the electors of Pampa have been apprised of the financial condition of the city, except in the most vague statements which at no time reflected the true conditions, and we now face a public debt of nearly \$1,000,000 we have seen fit to call a halt to the orgy of spending, by standing upon a platform, with drafted and chosen candidates to carry on our program, with only one request, to wit, To have a Treasurer for the city, which at present we have not. Consult the City Directory for this information or the Audit had in 1931 for this necessary office, and you will find him not.

So we are in debt nearly \$1,000,000 and in 1931 we were short in the sinking fund nearly \$8,000, to be correct, \$7,967.45. Do we need a Treasurer? We say emphatically very much so, we do, and we ask your support for our ticket: ERNEST REYNOLDS for Mayor, WILLIAM C. de CORDOVA for Commissioner No. 1, ROBERT WOODWARD for Commissioner No. 2.

Very sincerely yours for Economy and Better Government,

The Citizens League for Pampa and Gray County

P. S.—The Citizens League will have a rally meeting on Monday the 4th of April, the day before the Election, provided the powers that be permit us to use our city auditorium.

Celebrating 30 YEARS of VALUE GIVING with 30 DAYS of SUPER VALUES

Come along to this Gala Feast of Values! It climaxes thirty great years of value-giving. These super-values are Penney's way of thanking the thrifty shoppers of this community for their loyal patronage of the past! They express our appreciation more eloquently, more sincerely than the most graceful words we could utter. Come early, come often . . . all through April! Every day you'll find new, spectacular "Anniversary Specials" like these. Watch our windows! Watch the papers! You'll regret missing a single feature value. Show now—and save as you go! BROOKLYN TEAM SEEMS TO BE HARDEST HIT BY Jinx

INJURIES AND OPERATIONS TO SLOW UP SQUAD

BISSONETTE LIKELY TO BE INDEFINITELY OUT OF PLAY

By GAYLE TALBOT
Associated Press Sports Writer
NEW YORK, March 31 (AP)—It's a rare and happy baseball manager today who can count on having his strongest line-up available for the opening of the major league season.

Injuries, operations, illness, and even death have cut sharply into the roster of eligibles since the training camps sprouted a month ago.

Brooklyn, with two regulars out for an indefinite period, appears to have been hardest hit. Del Bissonet, regular first baseman, is in the hospital after an operation on the Achilles tendon and may not be available for months. Frank (Lefty) O'Doul, slugging outfielder, is nursing a bruised right hand.

The Boston Red Sox will line up April 11 against Washington without two players. Manager Shauno Collins had counted on Big Ed Morris, veteran pitcher, died of stab wounds and George Stumpf, a promising outfielder purchased from Quincy, Ill., is bed with intestinal influenza.

An operation for appendicitis cost the Yankees the services of pitcher Henry Johnson until well up in the campaign, doubtful even that he will be of much value to the club. Yankee adherents are viewing with alarm a "kink" that settled in Babe Ruth's neck the other day.

Two of the Philadelphia Nationals' four first line pitchers are returning from the south in doubtful condition. Jim Elliott, the club's ace southpaw, is wearing a slab of porous plaster on his back, while Clise Dudley is nursing a sore arm. Chuck Klein, the Phils' powerhouse, has a pair of ailing ankles.

John McGraw is having much difficulty getting all his New York Giants on the field at the same time. Johnny Vergez, third baseman, is on the bench with an injured knee cap and catcher Frank Hogan also has an uncertain knee. Second baseman Hughie Critz still can't get the old whip in the throwing arm.

Mickey Cochrane, the Athletics' brilliant catcher, is going about in carpet slippers after an operation on an infected foot, but will be ready by opening day if there are no complications.

Spees, Smiths Make the Best Rifle Shots

F. E. Smith and Alden E. Spees again demonstrated their marksmanship at the Pampa Rifle Club shoot in the basement of the Brunow building Monday night by taking high scores. Mrs. Smith took three places. Mr. Smith shot a 268 while Mr. Spees made a 261.

Winners of former matches will be eligible to shoot for prizes at the next match which will be announced later. The prizes for the next match will be announced later. The prizes for the next match will be announced later.

Scores made Monday night: F. E. Smith 268; Alden E. Spees 261; Mrs. F. E. Smith 354; V. Hobart 232; Gallagher 215; Pipkin 210; Kendall 197; Long 152.

Steers to Play Rochester Today

DALLAS, March 31 (AP)—Forced to brief workouts yesterday because of cold weather, the Dallas Steers and Rochester Redwings will play today. Oscar Fuhr for Dallas and Lefty Ostermueller for Rochester, were announced as starting pitchers.

McGraw Worried

SAN FRANCISCO, March 31 (AP)—Manager John McGraw is worried over the lack of drawing power shown by the New York Giants' exhibition games. Two games at San Francisco have drawn only 1,300 paying customers to a park that holds 24,000. "We've got to do something to attract fans," McGraw said. "Lack of fight is responsible."

Wrist Improving

GULFPORT, Miss., March 31 (AP)—Max Carey, manager of the Brooklyn Dodgers, doesn't think Frank O'Doul's injured wrist will keep him out of action long, but in case it does, Max will play Al Cohen or Murray Howell in O'Doul's outfield place.

Bufs Work Out

HOUSTON, March 31 (AP)—The Bufs had another regular workout scheduled today. Skipper Joe Schultz is working the team in condition for games here Saturday and Sunday with Galveston and the Houston team probably will show essentially the same line-up that will start in the Texas league race.

Miss Dutch Towels of Amarillo has been the guest of Mr. and Mrs. Fritz Waechter over Easter. Mrs. Waechter and Mrs. E. B. Moore returned to Amarillo this morning with Miss Towels.

Decisions From Appeals Court

AUSTIN, March 31 (AP)—Proceedings in the court of criminal appeals:

Affirmed: Streeter Roy from Gregg; Sam Pugh from Smith; Robert Weaver, Hunt (three cases); Charlie Albrinton, Harrison; Charlie James, Harrison; E. M. Jones, Upshur; H. T. Boyd, Smith.

Judgment reformed and affirmed: F. G. Cook, from Gregg; Frank Fox, Grayson.

Judgment reversed; appeal dismissed: Edward Eshom, from Gray. Appellant's motion for rehearing granted; reversed and remanded: Maud Long from Kleberg.

Submitted on state's motion for rehearing: W. B. Hamilton, from Potter; C. L. Latta, from Parker; Alva Hill from Tom Green; George Papageorge from Nueces.

Submitted on motion to reinstate appeal: Hays Scisson from Nueces.

Submitted on appellant's motion for rehearing: Hugh Luttrell, from Lamar; George M. Dykes, Brown; Long Langford, Grayson; Jessie Warrick, Coleman; Clem Burleson, Coleman; Edna Nichols, Coleman; H. G. Bell, Harrison; Ben Gordon, Coleman; J. W. Morris, Smith; W. H. Denning, Smith; S. S. Wilson, Smith; D. H. Jarrell from Hale; E. M. Keenan, Sherman; Jack Burgess, Wichita; S. E. Griffis, Potter; Jim Hardy, Lamar.

AMARILLO, Tex., March 31 (AP)—Proceedings in the seventh court of civil appeals:

Motions granted: Frick-Reid Supply Corp. et al. vs. J. F. Mcers, et al., to affirm on certificate (in part); certiorari; and to file record (in part).

Motions overruled: Guaranty Abstract & Title company, Inc. vs. W. J. Wooten, rehearing; Zurich General Accident & Liability Insurance company, vs. Roy A. Thomson, rehearing; W. H. Douglas vs. Citizens State Bank of Wheeler, et al., to strike record and dismiss appeal; Charley Bengue vs. L. H. Foster, et al., rehearing.

Reversed and remanded: M. Rhoads, et al. vs. Medono Bonner, et al., from Lubbock; R. S. Smith vs. Porcher Lumber company, from Hockley; General Contract Purchase Corp. vs. O. W. Sumner, from Lubbock.

WRESTLING

Springfield, Cass.—Henri Delane, France, won two falls out of three from Martin Plesina, Chicago; Jack Ganson, California, threw Bull Martin, renton, N. J., 26:10.

Reading, Pa.—Gus Sonnenberg, 205, Boston, threw Boris Demetoff, 208, St. Louis, 38:10; Kara Pasha, 195, Boston, and Pat Fraley, 200, Texas, drew, 30.

New York—Fred Grubmire, 200, Iowa, threw John Maxos, 200, Greece, 22:10; Abe Coleman, 200, Los Angeles, threw Carl Vogel, 218, Germany, 18:29; Jim Browning, 225, Verona, Mo., threw Fred Myers, 205, Chicago, 23:19; John (Casey) Kazanjian, 213, California, and Joe Varga, 402, Cleveland, drew, 30; Wong Bok, Cheung, 200, China, threw Pat Riley, 205, Texas, 12:50; Al Mercier, 205, Montreal, three Tommy Taxis, 205, San Antonio.

Kansas City—Everett Marshall, 220, La Junta, Colo., won two falls out of three from Joe Savoldi, 205, Three Oaks, Mich.; Wladek Zbyszko, 235, Poland, won one fall from Dutch Heffner, 220, Sherman, Tex.; 17; Charles Fischer, 165, Butternut, Wis., and Wayne Long, 195, Burlington, Kan., drew, 30; Glen Wade, Columbus, O., and Charlie Santen, 220, Kirksville, Mo., drew.

St. Louis—Earl McCready, 229, Canada, threw Rudy Dusek, 215, SAVANNAH, Ga., March 31 (AP)—The Red Sox training camp family was broken up today. Manager Collins sent John Quinn and Hughie Duffy back to Boston with Bob Barr, Johnny Crimmins, Sy Slabin, Larry Murlorf, Pat Patterson and Dick Chapman. Tonight the Sox will move to Wilmington, N. C., where Walter Sasse, catcher, and Harry Burns, pitcher, will be left with the Southern club. The Reds are here for the getaway game with the Sox today.

Omaha, 33:16; Hans Kampfer, 218, Germany, threw Kola Kwariani, 215, Russia, 36:10; Jim McMullen, 215, Chicago, threw Ernie Dusek, 220, Omaha, 21:52; George Zaharias, 229, Pueblo, Colo., and George Vassels, 215, Cleveland, drew, 30.

ATHLETICS ON ROAD

RALEIGH, N. C., March 31 (AP)—The Philadelphia Athletics were on their way here today from Orlando, Fla., to which they bade adieu last night after dropping a game to the Cincinnati Reds, 10 to 9. Even with two more home runs by Jimmy Fox, the Mackmen were beaten out when Mickey Heath douted a homer in the ninth.

RED SOX MOVING

SAVANNAH, Ga., March 31 (AP)—The Red Sox training camp family was broken up today. Manager Collins sent John Quinn and Hughie Duffy back to Boston with Bob Barr, Johnny Crimmins, Sy Slabin, Larry Murlorf, Pat Patterson and Dick Chapman. Tonight the Sox will move to Wilmington, N. C., where Walter Sasse, catcher, and Harry Burns, pitcher, will be left with the Southern club. The Reds are here for the getaway game with the Sox today.

Omaha, 33:16; Hans Kampfer, 218, Germany, threw Kola Kwariani, 215, Russia, 36:10; Jim McMullen, 215, Chicago, threw Ernie Dusek, 220, Omaha, 21:52; George Zaharias, 229, Pueblo, Colo., and George Vassels, 215, Cleveland, drew, 30.

A YOUNG YANKEE

—By PAP

COUNTY MEET TO BE CLOSE

Four Teams Will Compete At LeFors on Saturday in Athletics Events.

The athletic division of the Gray county Intercollegiate League meet at LeFors will be run-off Saturday, there being only four senior schools with entries. Pampa, LeFors, Alameda and McLean will compete. Hopkins and Grandview will probably have entries in the junior division.

The Pampa boys are working hard to win the meet, and although all are newcomers, excepting four, they are doped to come through. Coach Argus Fox is assisting Coach Odus Mitchell this week. The team will have a hard workout this afternoon with a light one tomorrow afternoon to round them into form.

The boys will go to LeFors by bus and car Saturday morning. The meet is scheduled to open at 10 o'clock. The LeFors field is one of the best in the county.

Coach Warren Moore will be in charge of the Pampa junior division. Three boys will be entered in each event.

FAST ON BASES

SAN ANTONIO, March 31 (AP)—Combining speed on the bases with 15 hits, San Antonio's Indians walloped the Randolph Field Flyers, 17 to 1, yesterday and were in fine fettle for today's practice tilt against a local amateur club. Crossley and Tyson led the parade as the Tribe stole nine bases. John Brewer, new first baseman, got three hits.

TO START AND FINISH

FORT WORTH, March 31 (AP)—Starting this afternoon, in the first game with the Columbus Red Birds, the regular Fort Worth Cats will start and finish exhibition games, Manager Dick McCabe announced. Clear, calm weather this morning was assurance against another cancellation this afternoon. Yesterday's game was called off on account of a high, cold wind.

LINE COACH CHOSEN

WACO, March 31 (AP)—Barton Koch has been chosen football line coach at Baylor university.

JOHNSON PLEASED

BILOXI, Miss., March 31 (AP)—Early season fears as to the ability of the Washington Senators to organize a fool-proof pitching staff this year have been dispelled to the extent that Manager Walter Johnson is admittedly pleased by his hurlers. Alvin Crowder, Fred Marberry, Lloyd Brown, and Monte Weaver are giving complete satisfaction and will be rotated in regular order.

JOHNSON PLEASED

BILOXI, Miss., March 31 (AP)—Early season fears as to the ability of the Washington Senators to organize a fool-proof pitching staff this year have been dispelled to the extent that Manager Walter Johnson is admittedly pleased by his hurlers. Alvin Crowder, Fred Marberry, Lloyd Brown, and Monte Weaver are giving complete satisfaction and will be rotated in regular order.

Alvin Crowder, Fred Marberry, Lloyd Brown, and Monte Weaver are giving complete satisfaction and will be rotated in regular order.

City Folks Moving To Virgin Country

ST. PAUL, March 31 (AP)—Modern pioneers are bringing back the covered wagon days—bus without the wagon.

Automobiles have replaced the old prairie schooners; automobiles threatening to collapse over every bump in the road while carrying families to cut-over northern Minnesota land from urban centers whence they have been driven by lack of employment.

Already 71 families have settled in one county and hundreds more are expected this spring, there to scratch a livelihood from virgin soil saleable at as low as \$10 an acre.

High Bradley, newspaper man writing for American Mercury, found Bill at his winter home in Miami Beach recently. Asked Hugh: "Bill, do you honestly believe that you never called one wrong?"

Klem's response was dramatic. "The man leaned forward," writes Bradley. "He wears a lavender shirt with collar to match, a blue scratch of quiet pattern, blue suspenders, white socks rolled in collegiate fashion, low tan shoes, and a blue serge suit.

"A heavy, almost pudgy, hand beats twice against his left breast in the approximate neighborhood of his heart. He speaks earnestly, slowly.

"No, never have I missed one, HERE."

"Bill, don't you think that it is possible that you COULD miss one?"

"Again the man leans forward. His eyes are small, of a faded blue. They are not eyes that flash danger signals nor eyes that warn you with their glow.

"You might call them expressionless, yet somehow they express the intensity of the man, his calm certainty.

"Once more the hand is raised against the left breast.

"I could miss one, MAYBE. But never from HERE."

The Heart Would Know

Then Mr. Klem proceeds, in forceful, challenging tones.

"I defy any man to prove to me that I have ever called a foul ball fair. I defy any man to prove that I have ever called a fair ball foul. I defy any man to prove that I have ever called a fly ball catch wrong."

And then the interviewer asks: "Bill, how do you know you never missed one?"

To which the swift reply is: "If I missed one I would know it here." Again the hand comes to the breast.

Writer Bradley's picture of Umpire Bill Klem is correct. Bill's estimate of his own worth is not prompted by conceit. He simply is sure of himself. He always is sure of himself. He takes pride in his work.

A Tough Spot

In the second game of the last world's series, an odd play came up in the ninth inning. Fox walked, and after two were out, Dykes walked. Moore swung at a low third strike which Catcher Jimmy Wilson scooped out of the dirt. With certain putout by throwing to first base Wilson, noting the runners advancing pegged swiftly to third. Jake Flowers, at third, had only to touch third to execute a force-out.

After the confusion had subsided, there was much discussion as to where Flowers had been standing when he caught the ball. Many had not noticed immediately Flowers' position when he took that peg. Some insisted he had been standing on third base. I thought he was about 10 feet away from the base from my own observation of the play.

But after the game I hunted up Bill Klem. I was curious as to what he would say. I suggested that quite a few of the boys in the press box had seemed to think that Flowers had one foot on third base when he caught the ball. Klem's reply was ready:

"You wouldn't be trying to make out that the umpire was wrong, would you?"

Which was enough.

He Never Called One Wrong

Bill Klem, umpiring for 28 years, averaging 120 decisions a day for 154 days of the year, is "the man who never called one wrong." That is his own honest opinion, mind you. This story isn't being told by John McGraw.

High Bradley, newspaper man writing for American Mercury, found Bill at his winter home in Miami Beach recently. Asked Hugh: "Bill, do you honestly believe that you never called one wrong?"

Klem's response was dramatic. "The man leaned forward," writes Bradley. "He wears a lavender shirt with collar to match, a blue scratch of quiet pattern, blue suspenders, white socks rolled in collegiate fashion, low tan shoes, and a blue serge suit.

"A heavy, almost pudgy, hand beats twice against his left breast in the approximate neighborhood of his heart. He speaks earnestly, slowly.

"No, never have I missed one, HERE."

"Bill, don't you think that it is possible that you COULD miss one?"

"Again the man leans forward. His eyes are small, of a faded blue. They are not eyes that flash danger signals nor eyes that warn you with their glow.

"You might call them expressionless, yet somehow they express the intensity of the man, his calm certainty.

"Once more the hand is raised against the left breast.

"I could miss one, MAYBE. But never from HERE."

The Heart Would Know

Then Mr. Klem proceeds, in forceful, challenging tones.

"I defy any man to prove to me that I have ever called a foul ball fair. I defy any man to prove that I have ever called a fair ball foul. I defy any man to prove that I have ever called a fly ball catch wrong."

And then the interviewer asks: "Bill, how do you know you never missed one?"

To which the swift reply is: "If I missed one I would know it here." Again the hand comes to the breast.

Writer Bradley's picture of Umpire Bill Klem is correct. Bill's estimate of his own worth is not prompted by conceit. He simply is sure of himself. He always is sure of himself. He takes pride in his work.

A Tough Spot

In the second game of the last world's series, an odd play came up in the ninth inning. Fox walked, and after two were out, Dykes walked. Some insisted he had been standing on third base. I thought he was about 10 feet away from the base from my own observation of the play.

But after the game I hunted up Bill Klem. I was curious as to what he would say. I suggested that quite a few of the boys in the press box had seemed to think that Flowers had one foot on third base when he caught the ball. Klem's reply was ready:

"You wouldn't be trying to make out that the umpire was wrong, would you?"

Which was enough.

PLAYGROUND BALL LEAGUE TO BE ORGANIZED TONIGHT; MANAGERS URGED TO ATTEND

EIGHT TEAMS EXPECTED TO PARTICIPATE IN LOOP

A Pampa playground (softball) league will be organized at a meeting of team managers and sponsors in the city hall at 7:30 o'clock tonight. The manager of every team planning to enter a team in the league is urged to be present or to have a representative at the meeting.

Officers will be elected, the size of the ball to be used will be decided, and other important business will be transacted so that the league will be able to get under way soon.

Teams entering will not have to depend on their own firms to supply players. The number of outside players will be discussed at tonight's meeting.

At least eight teams are expected to enter and ten may swing into action.

It is planned to have at least four diamonds in the city so that games will not conflict.

YANKEES PUZZLED

BIRMINGHAM, Ala., March 31 (AP)—Headed home, the New York Yankees had a pitching problem with them today. No one seemed to know just how to rank the five leading rookies. Due to his three-hit victory over the House of David team yesterday, Manager Joe McGraw was boosting Paul Andrews as one of the best. Babe Ruth favored Frank Nekola.

Students To Try Kentucky Again

FRANKFORT, Ky., March 31 (AP)—Interesting legal complications are presented by the impending visit of a group of Arkansas students to the southwestern Kentucky coal fields. They plan to enter the mine area next week despite ejection of more than eighty eastern students last week-end.

The Arkansas delegation, led by Lucien Koch, director of Commonwealth College, will have the support of the American civil liberties union in the attempt to enter Bell and Harlan counties. The union has announced its attorneys would seek a federal injunction if necessary to force entry.

The eastern students were halted by Bell county authorities who demanded they post \$1,000 each bond and they were ejected. Kentucky law provides that any one may be placed under a peace bond at the discretion of a minor court on the request of one or more reputable citizens.

Road Construction Bill Is Not Dead

WASHINGTON, March 31 (AP)—A determined effort by Democratic senators to force action on the house bill for a \$135,000,000 emergency road construction program is to be made as soon as the pending tariff bill is voted.

The road measure is a democratic project for relieving unemployment by making possible state road construction with federal funds entirely. The bill carries \$12,000,000 to match available regular federal aid allocations, the new funds to be repaid by the states gradually out of future federal aid money. Some republicans have predicted its veto, if passed.

NOTICE OF CHATTEL MORTGAGE SALE

Notice is hereby given that in pursuance of a Chattel Mortgage given by Barton Torpedo Company to J. A. Hull, dated the 29th day of January, 1928, and filed in Gray County, Texas, February 20th, 1928, upon which default has been made in the payment of the principal and interest on the notes described in said mortgage and upon which the amount due at this date is \$75,969.16, with interest from January 25th 1928; I will sell the property secured by said mortgage, or so much thereof as to satisfy the said debt with \$50.00 attorney's fee, and the cost of sale according to the terms of said mortgage at public outcry to the highest bidder on the 4th day of April, 1932, at 3 o'clock p. m., on the premises located in Gray County, at the Chanesa siding on the Santa Fe Railroad, four miles from Pampa. The said property being described as follows, to-wit:

One (1) factory for the manufacture of nitroglycerine, including all buildings, equipment, machinery, appliances, power, fittings, together with each and every article or thing belonging to or used in connection with said factory of whatsoever kind, nature or description, said factory located and being on premises leased to said mortgagor by J. A. Hull, more particularly described as being on the

Lot, piece or parcel of land lying and being situated in the County of Gray, State of Texas, and being more fully described by metes and bounds as follows: Beginning at an iron pipe set on the southeast corner of the north one-half of the southwest quarter of Section Fifty-two (52), Block 3, of the I. & G. N. R. R. Co. surveys in Gray County, Texas; thence north 3135 feet with the east line of the west half of said section 52 to an iron pipe set on the south right of way line of the Panhandle & Santa Fe Railway; thence south 46 1/2 W. 921 feet with right of way line to the beginning of a 2 1/2 curve to the line; thence southwesterly around a 2 curve to the left following said right of way line 911.6 feet to the end of said curve; thence south 2730 feet W. 1387 feet with said right of way line to the beginning of a 2 curve to the right; thence southwesterly around a 2 curve to the right 642 feet with said right of way line to an iron pipe set on the south line of the north of the southwest quarter of said Section 52; thence North 89 37 1/2 feet east 2181.4 feet to the place of beginning, and containing 89.6 acres of land, more or less. One loading rack, including any and all buildings, engines, compressors, appliances, pipes, fitting, and all other property belonging to or constituting any part of said loading rack belonging to said mortgagor, including railway siding 479 feet and 5 inches long, and located on the right of way of the Panhandle & Santa Fe Railway, near the station of Chanesa, in Gray County, Texas.

The following trucks and automobiles:

One Buick Touring automobile, having Motor No. 989468, located in Gray County, Texas.

One Buick Touring automobile, having Motor No. 1298185, located in Gray County, Texas.

One White 3 1/2 Ton Truck, having Motor No. 56045, located in Gray County, Texas.

One White 2 Ton Truck, having Motor No. 8863, located in Gray County, Texas.

Also all other personal property located in or on their premises above described belonging to and comprising a part of the plant and equipment.

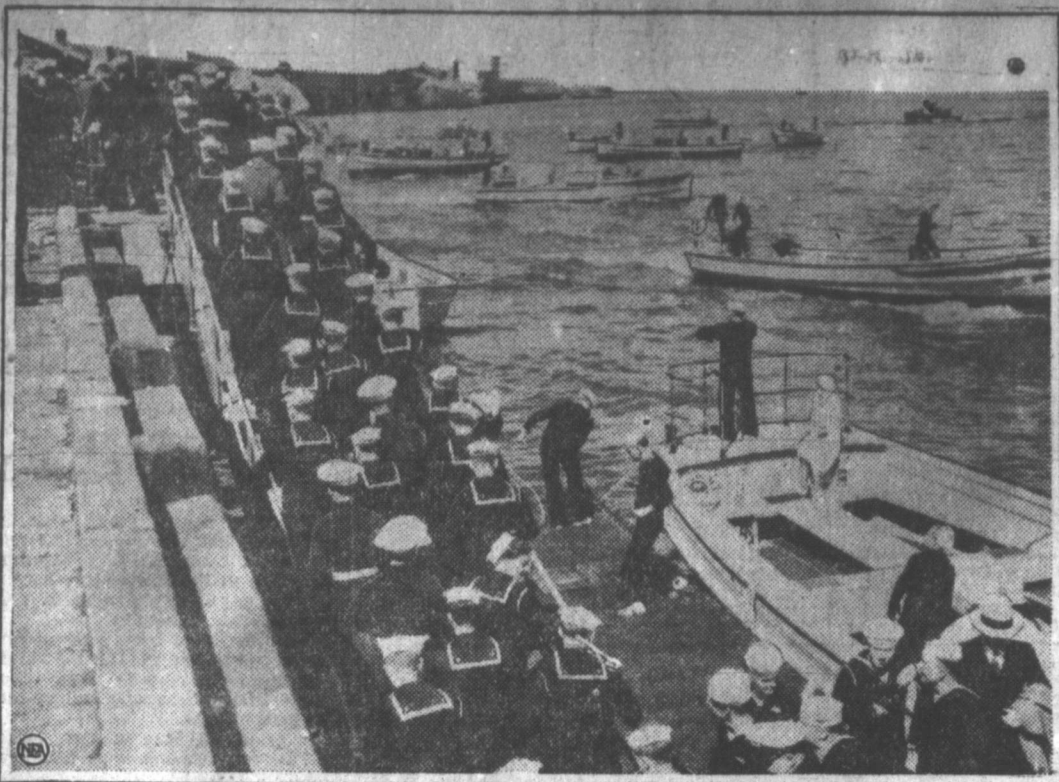

Dated and posted in the said County of Gray, State of Texas, this 23rd day of March, A. D. 1932.

J. A. HULL, Mortgagor.

U. S. FLEET HOME FROM WAR GAMES

"War" maneuvers in the Pacific at an end, the United States battle fleet, including giants of both the Atlantic and Pacific divisions, anchored off Los Angeles harbor at San Pedro, Calif., for a rest. Picture shows part of the 42,000 sailors streaming ashore for the first holiday since leaving the Hawaiian islands. The fleet encountered a terrific gale off the Pacific coast and maybe those sailors weren't glad to hit dry land. See them go!

Clever Plot and Lilting Tunes Will Feature Comedy

"Smiling Faces," the Fred Stone musical comedy coming to Amarillo for two performances on April 16, has eight elaborate scenes in two acts, and through these scenes runs a clever plot trimmed with a score or more of tunes and dancing numbers.

Among the song hits from "Smiling Faces" that have become popular are "Sweet Little Stranger," "Falling Out of Love," "Do Something Different" and "There Will Be a Girl."

The famous Alpertina Rasc Dancers come in for a big share of the program, sharing the spotlight with Fred Stone, who has the role of an eccentric motion picture director, and his daughter, Paula Stone.

"Smiling Faces" will be the most elaborate musical comedy ever brought to Amarillo, differing from a revue of the "Crazy Quilt" and "Wonder Bar" type in that it has a definite comedy and romantic plot with plenty of musical and novelty numbers to make it interesting.

With the showing still more than two weeks away, great interest is being shown in the event, judgment from the advance sale of tickets. The seat sale is in progress at The News-Globe office where tickets may be purchased outright or ordered by mail, addressing applications to Wilbur C. Hawk, care of The News-Globe.

The price range for the afternoon performance is 50 cents to \$2.50, and for the night show, \$1 to \$3.

Allowables For East Texas Studied

AUSTIN, March 31 (AP)—The Texas railroad commission today was studying testimony, adduced at hearing of operators in Texas oil fields, on which it will base production allowables.

It decided to defer hearing operators in the Gulf Coast area until date to be agreed on as soon as those interested in the estimated oil fields in that region complete need data.

A hearing for the Van field has been set for April 5. Information of all other fields except Panhandle and east Texas was presented yesterday. The Panhandle area is operating under "continuing" conservation rules, the allowable being 50,000 barrels daily to obtain until the commission calls a hearing with a view to considering a change. Allowables for the other fields except east Texas has been fixed to prevail until April 1.

FIRE AT GAINESVILLE

GAINESVILLE, March 31 (AP)—Fire last night damaged a two-story brick building occupied by a dry cleaning plant and a cotton company. The loss was estimated to be in excess of \$4,000. Origin of the blaze had not been determined. The building was owned by John Cunningham, a druggist.

L. G. Wade, Yoakum, Texas, postal employee, who has successfully predicted five earthquakes, now announces that tremors may be felt at any time along the Texas and Louisiana Gulf coast. With only a high school education, Wade has evolved a method all his own to determine areas where earthquakes may occur. In the spring of 1931 he wrote a pamphlet, which was copyrighted, stating that tremors who visit Southwest Texas in the fall of 1931. On August 19, rumblings in that area resulted in a severe shock at Valentine. Wade also predicted a quake in Western Oklahoma just 19 days before a slight tremor occurred there. Wade is shown, with his drawing of how the Valentine quake occurred.

Sister MARY'S KITCHEN

By SISTER MARY
NEA Service Writer

Not so many years ago vitamins were divided into three groups, but scientists have gradually discovered more about these food constituents until today there are six known and tested vitamins—A, B, C, D, E, and G.

Quite recently definite evidence regarding vitamin B, demonstrated that this vitamin was a mixture of several vitamin factors rather than a single substance and vitamin G, has been added to the vitamin alphabet.

The ideal balanced diet supplies all these food elements and every home-maker is vitally interested in the means of furnishing them. A chart showing the relative distribution of vitamins reveals that fruit and vegetables are excellent sources of the first three vitamins—A, B, and C.

Under the general classification of fruits, which includes citrus as well as other varieties, this chart gives the amount of vitamin A as "variable," B as "good" and C "rich."

Green vegetables are designated as "good" in vitamins A and B and "rich" in vitamin C.

Yellow root vegetables are "good" in all three vitamins and "rich" in vitamin A. For some unexplained reason yellow color in foods is often an indication of their high vitamin A content. Consequently yellow sweetcorn contains more vitamin A than white, carrots more than parsnips, and sweet potatoes more than white.

Where Vitamin B Lies: While root vegetables are good sources of vitamin B but the whole cereals and legumes are the cheapest and richest sources of this vitamin. Of course the most potent source of the B vitamin is found in yeast. Egg yolk is recognized as an excellent source of vitamin B, too.

Fresh fruits and green vegetables must be relied on for vitamin C. Although canning and cooking reduces the potency somewhat, such foods are still excellent sources of the vitamin.

Plant sources as a class are practically devoid of vitamin D. Cod liver oil is the richest animal source and of course the direct rays of sunlight are interchangeable.

TRY THIS MENU
BREAKFAST: Tomato juice, cereal, cream, creamed bacon on toast, milk, coffee.
LUNCHEON: Eggs in baked potatoes, creamed celery, shredded pineapple, milk, tea.
DINNER: Roast shoulder of lamb, browned potatoes, mint sauce, peas in cream sauce, tomato and cucumber salad, orange sherbet, milk, coffee.

what, such foods are still excellent sources of the vitamin.

Plant sources as a class are practically devoid of vitamin D. Cod liver oil is the richest animal source and of course the direct rays of sunlight are interchangeable.

Richard's Drug company will tell you that one bottle of Moore's Emerald Oil will end Athlete's Foot or money back.

General Electric Refrigerators Are Much Advertised

Prices of all General Electric refrigerators have been reduced from 5 per cent to 23 per cent. It was announced today by Thompson Hardware company, dealer here.

"These reductions in price," Mr. Thompson said, "accompany the general downward trend of prices in all parts of the nation and in no measure affect the quality of the General Electric product. These refrigerators still carry their unqualified guarantee."

"The tremendous purchasing power of the General Electric company and the present low cost of raw materials has made it possible for the General Electric refrigeration department to pass on this saving to the purchasers of G. E. refrigerators, a policy which has been pursued by the department since its inception and which will continue to follow."

The new lower prices combined with intensive advertising and sales campaign which has begun and will end May 31, are expected to show volume of sales equal to or surpassing those of the same period last year. Mr. Thompson said. Daily newspapers will be the backbone of the advertising program during the sales drive and this program alone entails the expenditure of more than \$2,000,000.

able with vitamin D as anti-rachitic agents. Salmon and egg yolk are excellent sources. Clams and oysters along with butter and milk.

Vitamin E is found in good amounts in lettuce, watercress, and wheat germ. The vegetable oils whole cereals, meat and molasses are all good sources of vitamin E.

Yeast, liver, kidney and lean meat are the most potent sources of vitamin G. Milk and eggs, salmon and haddock, greens and salad plants, potatoes, tomatoes, bananas and whole wheat contribute vitamin G in varying amounts.

To go further into the study and learn the vitamin content of all foods makes it possible for the homemaker to plan and buy with the utmost intelligence and economy. Fruits and vegetables are practically the only sources of vitamin C and must be used daily if health is maintained. These foods also reinforce the supply of vitamins A and B and hold an important place in the diet.

Itching Toes

This may be due to Athlete's Foot, especially if there are blisters and a watery discharge.

Rub your feet night and morning with Emerald Oil. This gives instant relief from the intolerable itching and clears up every trace of the infection in ten days to two weeks.

Richard's Drug company will tell you that one bottle of Moore's Emerald Oil will end Athlete's Foot or money back.

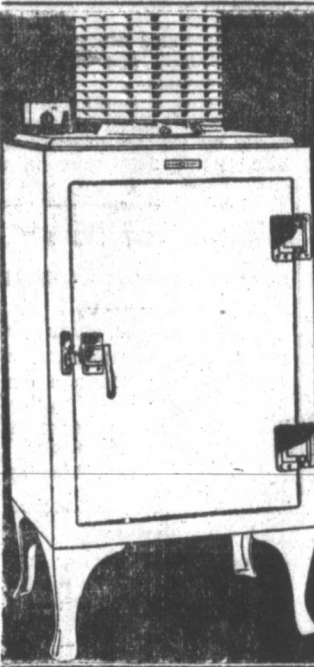

Richard's Drug company will tell you that one bottle of Moore's Emerald Oil will end Athlete's Foot or money back.

Richard's Drug company will tell you that one bottle of Moore's Emerald Oil will end Athlete's Foot or money back.

Richard's Drug company will tell you that one bottle of Moore's Emerald Oil will end Athlete's Foot or money back.

DO YOU KNOW

There were more General Electric Refrigerators sold in Pampa and the oil fields the past two years than all other makes combined.

WE ARE PROUD

of this representative list of General Electric users.

ASK THEM WHY

they selected General Electric in preference to all others.

THEY WILL TELL YOU

General Electric offers a lifetime of care-free service. Requires no service or attention, Not Even Oiling!

Convenient cold control.

Sliding shelves—exclusive feature.

3 zones of freezing.

Deep Pans for freezing ice cream, desserts and ice cubes.

Uses smaller motor—consumes less current.

COSTS LESS TO OPERATE—

Dust-proof motor.

No fan belts to wear out.

No gears to become noisy. G.-E. is silent as a whisper.

No radio interference.

No fire hazard due to oily, dirty motor.

CHICAGO, March 31 (AP)—Wheat

No. 2 red 53 1-4; No. 3 mixed 52 1/2.

Corn—No. 2 mixed 34 3-4; No. 3 mixed 33-34 1-4 (P) No. 3 yellow, 33-34; No. 3 white, 33 1-4 to 34 1/2.

Oats—No. 2 white 23 3-4 to 24 3-4; No. 3 white, 23 to 23 3-4.

Wheat closed nervous, 3-8 to 1 cent under yesterday's finish, corn 3-8 to 5-8 down, oats 3-8 to 1-2 off and provisions unchanged to 5 cents decline.

COTTON IS EASIER

NEW ORLEANS, March 31 (AP)—The cotton market opened easier today with only moderate trading. Liverpool came in much lower than due and first trades here showed losses of 5 to 6 points.

The market soon rallied, however, owing to a firm opening of the stock market, May recovering to 6.70, July to 6.49 and October to 6.70, or 4 to 5 points above the opening, but still one point below yesterday's close. Later in the first hour prices eased off 2 to 3 points from the highs owing to a reaction in stocks and nervousness over the outlook of the tax bill in congress.

Near the end of the first hour the undertone was easier.

GRAINS ARE LOWER

CHICAGO, March 31 (AP)—Grain prices averaged lower early today, influenced by profit taking sales on the part of yesterday's buyers of wheat. Traders were keeping close watch of developments regarding securities. Opening at 1/2% decline to 1/2 advance, wheat later sagged all around. Corn started at a shade to 1/2 off and subsequently receded further.

MARKETS AT A GLANCE

NEW YORK: Stocks weak; Santa Fe at lowest in 29 years. Bonds heavy; rails liquidated. Curb heavy; utilities sold. Foreign: exchanges firm; sterling higher. Cotton lower; southern selling, easier stock market. Sugar higher; trade buying. Coffee higher; better spot demand.

CHICAGO: Wheat easy; expectation bearish private crop estimate, weakness Minneapolis. Corn easy; increased carlot movement Chicago, fine weather south-west. Cattle irregular. Hogs higher.

Dr. Webb Named Parade Chairman Of Frontier Days

Dr. R. A. Webb was appointed chairman of the parade committee of the Pampa Frontier Days celebration May 26, 27, and 28, at a meeting of committee members and representatives from the junior chamber of commerce and Board of City Development, sponsors, last night. Dr. Webb will replace W. H. Lang who has had to resign from that committee.

Discussion of plans for the big event showed that much interest is already manifest in the celebration. Sheriff Lon L. Blanscet, general chairman, presided.

Several committee chairmen named their assistants. Plans for an extensive advertising campaign were discussed. Securing of names of old timers was given into, and the public will be asked to send in names of men and women who once resided in the Panhandle.

Those attending were Sheriff Blanscet, Aubra Bowers, J. S. Wynne, Dr. R. A. Webb, George W. Briggs, C. H. Walker, Ivy Duncan, Alex Schneider and Harry E. Hoare.

Charges Buffaloes Were Run to Death

PONCA CITY, Okla., March 31 (AP)—Five of the famous 101 ranch buffaloes have perished because they wanted to be free.

They were killed, according to ranch receiver Fred Clarke, in a spectacular battle royal such as has not been seen since the shaggy beasts roamed wild in the old west.

He said the fight occurred in a ranch stockyard where the buffaloes were placed following a herd stampede and recapture for shipment to the McClure and Teeters ranch, near Eldorado, Kan., their purchasers.

Colonel Zack Miller, former owner of the buffaloes, who is under bond on a charge of assault with a dangerous weapon for firing a shotgun into the floor behind a receiver's attorney last week in protest to an auction of ranch property, declared the buffaloes were run to death by "green hands" seeking to corral them.

"They didn't know how to handle them," he said. Buffaloes, the veteran plainsman and wild west show owner added, "can't stand being in a corral."

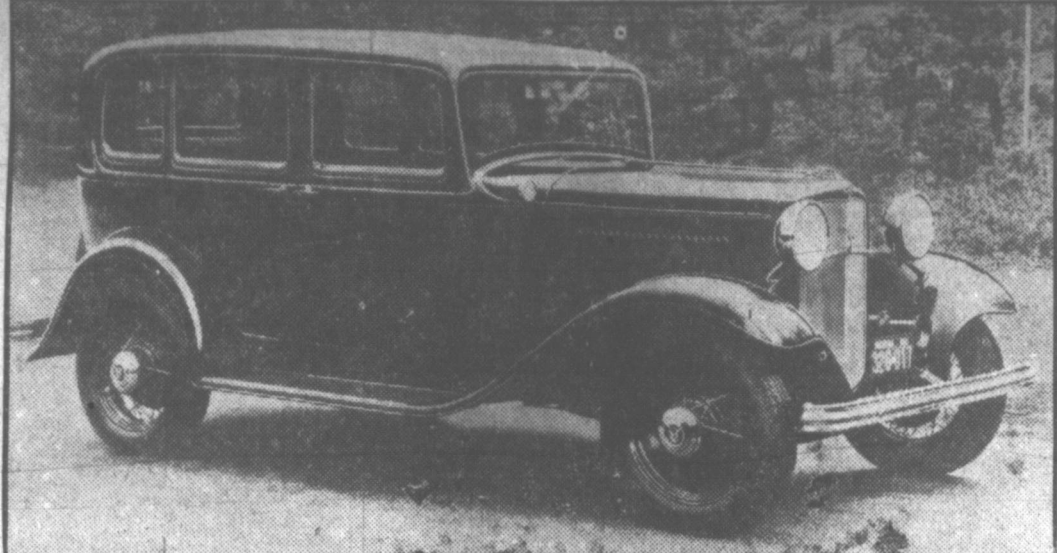

"It breaks their hearts," said Col. Miller.

Mother of Mrs. Donovan Succumbs

Mr. and Mrs. W. M. Donovan left this morning to attend funeral services for Mrs. Donovan's mother, Mrs. L. B. Kinchloe, in Elkhart, Kan. The services were set for 3:30 o'clock this afternoon.

Mrs. Kinchloe died Monday evening in Elkhart.

FORD'S NEWEIGHT SHOWN FIRST TIME

After months of conflicting rumors, Henry Ford came out with his latest creation, a "two-in-one" car, the chassis of which will accommodate either a "V-8" type or a four-cylinder engine. Built to sell in the low price field, the new car incorporates synchro-mesh gear shift, down draft carburetor, new springs, automatic spark control and entirely new body lines and construction. Above is one of the new four-door sedans.

Jury Panel For Week Dismissed

The jury venire for 31st district court was dismissed for the week by Judge W. R. Ewing this morning. Several pleas of guilty are scheduled to be presented to the court today and tomorrow.

Three suspended sentences and one acquittal were returned in verdicts yesterday and Wednesday. Lee Trimble, charged with possession of intoxicating liquor for the purpose of sale was given a one-year suspended sentence. Lee Trimble was given a 5-year suspended sentence on a similar charge. Arthur Miller, charged with transportation of intoxicating liquor for the purpose of sale, was given a one-year suspended sentence. Clarence Davis, negro, was acquitted on a similar charge.

Yesterday, the grand jury was investigating letting of gravel contracts by the commissioners court. The twelve men were in session again today.

STOCKHOLDERS-

(Continued from page 1.)

while directing as principal owner the affairs of the Panhandle HERALD, Borger HERALD, and Spearman REPORTER. In the allocation of stock, value for value shares in either the Pampa Daily NEWS or the Warren group of papers will be given in exchange for Nunn-Warren stock. These stockholders who retain their Nunn-Warren Publishing company stock—a small number—will be fully protected by notes receivable, physical properties, and two weekly newspapers.

In making these changes, the stockholders had in mind the reduction of over-head expenses and making possible of a more direct management of the properties. There will be no change in the personnel of the Pampa Daily NEWS staff, and this newspaper "family" will continue to devote its full attention to the interests of Pampa and community.

Those stockholders which authorized the changes herewith described included the following:

J. C. Rothwell, Borger; J. L. Hampton, Amarillo; Harry Hoare, Pampa; J. N. Greaves, Borger; T. W. Holson, Borger; C. A. Warren, Amarillo; L. O. Johnson, Pampa; C. B. Lawler, Amarillo; R. S. Brasher, Pampa; T. L. Wright, Borger; Philip R. Pond, Pampa; H. W. Morrow, Amarillo; E. E. Ramsey, Hereford; Eugene Johnson, Pampa; C. W. Parker, Pampa; R. E. Kessie, Hereford; R. A. Trimble, Pampa; Mrs. Willette Cole Williams, Pampa; Mrs. Olin E. Hinkle, Pampa; B. F.

LINDBERGH--

(Continued from Page 1)

Not Imposters

NORFOLK, Va., March 31 (AP)—Maintaining their secrecy concerning negotiations for the return of the kidnaped Lindbergh baby, the three intermediaries here are firm in their belief they have been in touch with the child's abductors, not with imposters.

Speaking for himself and his two associates, Rear Admiral Guy H. Burrage said last night "I wouldn't have gone into the case, and I wouldn't be in it now unless I was satisfied that we were dealing with the abductors of the Lindbergh baby."

Labor Group to Consider Baseball

The Gray county home labor organization has started the ball rolling to get a baseball club together. They are in the market for players who are asked to get in touch with D. M. Walker, manager.

Uniforms have been ordered and the organization is raising funds to get the team under way. The team will soon be ready for pre-season games.

It is hoped that enough teams will be organized to start a city or county league.

TRAIN IS DERAILED

HOLDREGE, Neb., March 31 (AP)—Several cars of the Burlington road's passenger train, the Aristocrat, left the rails a half mile west of Axtell, at 6 a. m. today, injuring at least 13 persons, several seriously. Trainmen said a broken rail was responsible for the accident.

Yellowstone National Park

FALLS AND CANYON OF YELLOWSTONE PARK

OLD FAITHFUL

CASTLE GEYSER

First Seen By White Man in 1807 — Made a National Park in 1871 — For Sheer Enchantment None of Our National Parks Can Equal the Yellowstone.

By KATHERINE LOUISE SMITH

If the average American were asked "Which is the most popular of our National Parks?" the reply would without doubt be "The Yellowstone." It is beyond question the largest and most famous of Uncle Sam's reserves and has been known longer than any of his other sections of the American wilderness. Of all our National Parks it is the wildest and most universal in appeal. Its geyser field is larger than similar tracts in New Zealand and Iceland. In fact it contains more geysers than all the rest of the world put together and these are only a part of its attractions.

It seems strange that so wonderful a region lay for years unknown. But though the West had its explorers by some chance this locality was not seen or if seen unheralded. John Colter, of the Lewis and Clark expedition who was in the region in 1807 is supposed to be the first white man to see any part of what is now our Wonderland. James Bridger and Joseph Meek, fur trappers, were there in about 1820. Warren A. Ferris saw the geysers in 1834 and wrote the first published account of them. Captain De Lacy explored a part of the country in 1832. Polson, Cook and Peterson were there in 1853; the Washburn-Doane party in 1870 and Doctor Hayden in 1871, the year Congress created the section a National Park.

A Wonderland

The Park proper is about sixty-two miles long from north to south, and fifty-four miles wide.

It is situated principally in Wyoming but laps over a little into Montana and Idaho. The whole is about 7000 feet above sea level. It can be compared to nothing else in the world because it is so weird. It has been well called Wonderland with its four thousand large and small hot springs, its hundred geysers, its mud volcanoes, exquisitely colored pools, waterfalls and rushing rivers, limpid lakes, forests and deep canyons which present riotous coloring.

Many Entrances

The official entrance with the arch that Roosevelt dedicated is on the north and while this will never wane in popularity today many persons think it desirable to enter by this Gardner way and to leave by another side for in this way part of the route is not covered twice. The incomparable Gardner—Cody way starts at Gardner, where the Gallatin range can be seen and goes through the Park to the Cody, Wyoming entrance. This can be reversed, of course, but in either case there is a thrilling ninety mile motor trip on the famous Cody road through the spectacular Shoshone Canyon and Buffalo Bill country. The Bozeman Gateway is a new entrance over the scenic highway which follows the West Gallatin River and there is the West Yellowstone Gateway in Montana and the Lander Gateway, Wyoming. Which ever way the sightseer enters there are about one hundred and fifty miles of automobile riding through the Park and every mile is full of enjoyment for each wonder spot seems but a prelude to something more inspiring.

The Hot Springs

Let us enter this Wonderland by the northern entrance. If you are wise you will wear warm clothing, stout shoes and carry a field glass. Passing under the entrance arch we bowl along a fine road near overhanging crags, and are soon seeing our first wonders at Mammoth Hot Springs. Here we can walk around and look at the steaming, tinted terraces which are carved and embossed by hot water springs laden with carbonate of lime.

Algae that live in the cascades that pour down the terraced slopes paint the fretted basins in delicate tones of scarlet, orange and pink. Pulpit, Jupiter, Cleopatra, Orange Spring are some of the names of these terraces which glow with matchless coloring. Liberty Cap, a short way off, is the hardened cone of an extinct spring and it rises forty feet.

The beautiful terraces seem a dream but greater wonders are ahead. From Mammoth Hot Springs you will auto through Silver Gate, a fine piece of road building, will see the Hoodoos, drink the waters of Iron Spring, see the little beavers working in the streams, get glimpses of Twin Lakes, bowl over a road of volcanic glass on Obsidian Cliff. It seems enough for one day but as you go on you slowly come to many steam vents, an uncanny landscape of hot pools, active geysers, hissing caverns that collectively are called Norris Basin. The Norris Basin astounds you and if it is your first glimpse of a geyser you will be awed and fascinated. The Basin, however, is but an introduction to more splendid geysers that you encounter further on.

The Wonderful Geysers

All the geysers draw their energy from invisible underground sources. Some spout with clock-like regularity, others at intervals more or less irregular. All fascinate the beholder. The principal group of geysers is in the West Central part of the Park and smaller groups exist to the south. On the road to Old Faithful, the most beloved, you will pass strange paint pots or pools of mud which look so much like paint that at one time one of the hotels bore decorations made with the mud. You will pass a lake that looks as if tongues of fire came from its depths, Turquoise Spring of charming blue coloring. Riverside geyser that spouts from a river's bank and forms a rainbow over the stream, and you finally will arrive at what some think the grandest sight in the Park, Old Faithful and the Giant geysers. Old Faithful delights by sending its graceful, white spray-shaped column skyward every sixty to eighty minutes. It astounds with its regularity, beauty and volume. Here in this Upper Geyser Basin are the Giant, Giantess, Grand, Great Fountain and other geysers, some gushing days apart, some playing every few minutes and all with peculiarities. Some have no cones, others have high cones. Excelsior, the greatest geyser on earth has ceased its activity, but has left a high cone, filled with boiling water.

The Grand Canyon

Many persons some of them globe trotters think these geysers are worth going across the continent to see but other wonders await. "What," you exclaim, "can anything be more beautiful than Old Faithful?" That alone satisfies me!" But wait! There are those who think that the Great Falls and Grand Canyon are the chief attractions. The Old Faithful is true hurra in the air a million and a half tons of water a day, but at any rate you will feel the falls and canyon are a close rival in interest and beauty.

Then another ride. Another day of delight drinking in fresh air, being on the alert to see animals in the distance, perhaps an opportunity to feed a bear—though officials do not encourage this—and you come to Great Falls and the Grand Canyon. If you have seen the Grand Canyon of the Colorado you will know that this canyon is about the size of some of the side canyons that come into that Canyon but the Yellowstone Canyon is large enough and its colorings will impress you as more gorgeous than any you have seen. Moreover to add to the charm of the Canyon, which in places is 3000 feet across and 1,200 feet in depth, there are Falls 398 feet high. What a picture these white Falls and the many hued Canyon present!

Side Attractions

These are the principal points of interest, but they are by no means all. The advent of autos has reduced the time formerly required to move from one attraction to another and so trails lead to remote parts, to the petrified forest and the Jackson Lake country. If you have time you must go up Mt. Washburn, for from the top a mighty panorama of the Rockies is seen. This is really an extinct volcano and the fine road to the summit leads through gardens of wild flowers, for besides being an animal sanctuary, the Yellowstone is the joy of the botanist. Specimens of delicate flowers are found near fields of snow and the colors and variety change with the season. Fully eighty per cent of this Park is covered with forest growth. Vast, unspoiled in the fastnesses of the Rockies it has what other Parks offer and in addition the amazing geysers and matchless Canyon. The world has nothing like it.

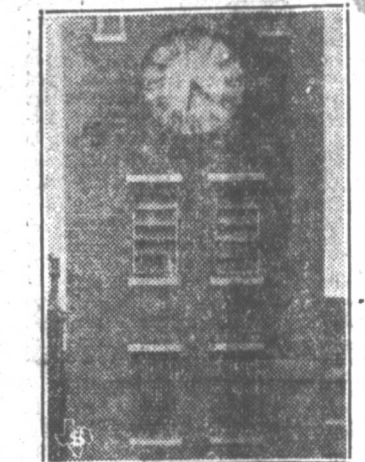

Suit Is Filed For \$200,000 by Eagle Pass Man

Action Against Water Co. For Services Alleged In Organizing Group.

EAGLE PASS, March 3.—W. A. Fitch of San Antonio, father of Judge W. O. Fitch of Eagle Pass and well known land promoter, recently filed suit against the Maverick County Water Improvement District No. 1 for remuneration due him for his alleged activity in promoting the \$7,000,000 gravity irrigation project, the first 32-mile section of which was completed in January. The sums claimed by him aggregate \$200,000.

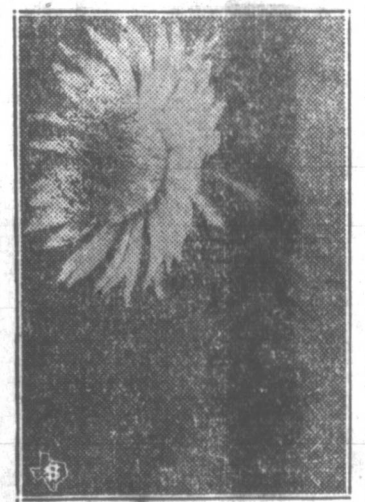

The lawsuit will come up for trial at the next term of district court in Eagle Pass on March 14. Attorney J. Roy Murray of Eagle Pass, who is a member of the board to present the defense case in the trial; attorneys for the prosecution are three prominent San Antonio lawyers: Dave Watson, formerly district attorney in Bexar county, J. Franklin Spears, and Nelson Lytle. The plaintiff claims that \$50,000 is due him for his activity in promoting the irrigation enterprise before the incorporation of the water district and \$150,000 is due him for his services to the board in furthering the project after the board's incorporation. The board was incorporated in 1928. Construction on the giant 60-foot-wide canal that will irrigate 70,000 acres with Rio Grande water by gravity flow was begun in May, 1930. The first 13,000-acre section in the Quemado valley was opened for settlement in February.

Liberty or Death?

In this clock tower of the Mc Lennan county jail, Bill Beck, 20-year-old Texas university student who killed O. L. Jones for \$2 awaits death in the electric chair unless the appeal now filed by his counsel is successful. Beck claimed he was hit on the head by a baseball bat previously, and was insane as a result.

Phantom Flower

Down along the Lower Rio Grande, where it never gets cold, and the moon seems to roll on the breakers of the Gulf like a ball of fire, this eerie blossom of the ghostly night blooming cactus, or acantocereus pentagonus, if you're of scientific mind, can occasionally be found. It is extremely rare, and blooms only after sundown, closing before sunrise never to open again. This early bloom, as big as a saucer, was caught by a patient San Benito photographer by moonlight.

Sterling Clings to Martial Law As Appeal Made

AUSTIN, March 3.—Governor R. S. Sterling held his martial law reins over the East Texas oil field today awaiting a supreme court decision on an appeal from a three-judge federal court holding that he exceeded his authority in curtailing production through military orders. Justice Louis D. Brandeis of the court of last resort yesterday in Washington rejected a plea of former Governor Dan Moody and E. F. Smith, attorneys for the governor, that the decree restraining the chief executive from acting with reference to certain wells owned in the area by plaintiffs in the successful attack be vacated pending final determination of the constitutional question at issue.

Five of Six Intended Victims of Valley Murder Plot

These pictures would never have been taken last week if the alleged murder plot uncovered by Texas Rangers Frank Hamer and Albert Mace in the Rio Grande Valley had gone through. These five men, with one other, were to have been killed by a Mexican with a high-powered rifle. He was to have been paid \$500 by political enemies of these men, Rangers say. The intended victims above are, left to right: Harry Ridgeway, manager of the Donna irrigation district; Huey Todd, irrigation employee; L. W. Todd, candidate for mayor of Donna; Weiss Hooks, prominent Donna contractor; Walter Weaver, attorney for the irrigation district. The other man not pictured is Bill McReynolds, auditor and tax assessor for the district.

One Littlefield Girl Is Native

LITTLEFIELD, March 3.—Among the 4,598 persons who paid their poll taxes for 1932 and are permitted to vote in all elections in Lamb county this year, including the special county seat election on March 19, there is but one voter, a young woman, who is a native of Lamb county. She is Miss Fern Doover, daughter of Constable Fred Hoover, a former cowboy and ranch foreman, and Mrs. Hoover, active in affairs here. Authority for this claim is Everett Whicker, who checked all of the poll tax receipts issued by the county clerk. Records show Miss Hoover, 22, has lived in this county "twenty-two years." Born on a ranch, she was for many years the only baby in the county south of the sand hills and her mother was the only woman. Only cowboys lived in the county then.

Wheeler Court Term Near End

Fourteen criminal cases were disposed of in the current term of 31st district court at Wheeler, District Attorney Raymond Alfred said Saturday. Court will close at Wheeler this week. Eleven of the 14 defendants were found guilty.

Judge W. R. Ewing will open court in Pampa March 27 for a twelve-week term. Defendants, charges, and verdicts in the Wheeler court were as follows: A. H. Berton, liquor, one year; T. R. Stout, burglary, two years; Frank Copeland, liquor, not guilty; Joe Eastman, statutory offense, 20 years; Casey Rivers, theft, two years; F. Parson, disposing of mortgaged property, not guilty. Mrs. Elias B. Chapman, statutory offense, 10 years; Fred Beck, driving car while intoxicated, \$1 fine and costs, and prohibited from driving car for one year; J. R. Pennington, driving car while intoxicated, \$1 fine and costs and prohibited from driving car for 30 days; M. L. Green, disposing of mortgaged property, instructed verdict not guilty; Pearl Crockett, theft, two years; Bill Brothers, guilty, five years, suspended; Emmett McIntyre, guilty, five years suspended; Leo Short, driving car while intoxicated, \$1 and costs and prohibited from driving car for six months.

Feminine Jaws Are Stronger

SAN ANTONIO, March 3.—Feminine jaws are stronger than are masculine ones, in the opinion of Mrs. J. D. Brady, head of the Brackbridge school cafeteria. Boys always buy soft, easily masticated foods, while girls go in for such difficult foods as peanut brittle. Boys eat more mashed potatoes and milk, while girls favor ice cream and candy.

Wheat for Needy Before Congress

WASHINGTON, March 3.—The measure to provide 40,000,000 bushels of farm board wheat for the needy came before the house today while the senate neared action on the agriculture department appropriation bill. Meanwhile, before a senate committee, Frank J. Loesch, president of the Chicago crime commission recommended confirmation of Judge James H. Wilkerson as a circuit judge. Loesch said he liked the way Wilkerson, now a district judge at Chicago, had handled the Capone case. The house ways and means committee continued stalemate over the proposed rate for a manufacturers sales tax. It is trying to decide how to raise more than a billion dollars additional for next year to run the government. Secretary Hyde of the agriculture department told a house committee he saw no objection to transferring the bureau of public works if the agriculture viewpoint was retained.

Gray County Calf Grand Champion

"John N. Garner," Jim Farley's first prize senior steer calf, is the grand champion of the second Amarillo Fat Stock Show.

Young Farley is from Groom. He is 12 years old. He has been showing calves in Amarillo five years. Last year he won the senior and reserve championships. This year he attained the highest laurels. The reserve championship went to J. C. Cordill, of Plainview, with his first prize junior calf. Judging the baby beeves feature the second day of the fat stock show and the convention of the Panhandle Livestock Association.

Wednesday 108 pigs shown by 4-H club boys and girls of the Panhandle were sold at public auction in the sales arena at the Fair Grounds. The sale began at 10 o'clock.

Hereford Sale This Afternoon The Panhandle Hereford Breeders Association held its annual auction at the Fair Grounds, with fifty-seven selected bulls have been entered by leading breeders of the Panhandle.

The finals in the hog-calling contest for the championship of the Panhandle were staged at the municipal auditorium Wednesday in connection with the second showing of the Royal Purple Revue. The prize-winning baby beeves will be sold at public auction in the sales arena Thursday morning. Club boys and girls exhibiting at the show were guests of honor at two banquets last night.

The Panhandle Hereford Breeders association also held its annual meeting and banquet last night. As usual, the judging of the baby beeves attracted the largest crowds of the show. Owing to the unusually large number of entries and the size of the show, the calves were moved into the big gimplement shed for the judging.

There was spirited competition in every class. Swisher county won the county carlot class for the fourth consecutive time. Hale county was second, Sherman county third, Hartley county fourth, and Ellis county Oklahoma, fifth. In the group of five shown by one boy, Dery Coyates, of Kress, upheld the honor of Swisher county, when he won first place. Swisher county boys have won this honor four years in succession. Fred Weyl, Jr., of Plainview was second; Wayne George, Happy, third; Elwood Barry Clinton, Oklahoma, fourth and J. C. Brown Jr., Channing, fifth. But the featured events were the senior and junior classes and the contest for the grand championship, which resulted in "John N. Garner."

Agricultural Conditions Are Continuing Favorable Through Greater Parts of The State

DALLAS, March 3.—Agricultural conditions continue generally favorable and present prospects are encouraging, although unseasonably warm weather and frequent rains had an adverse effect upon business and industry in the Eleventh Federal District in the month ending February 15, the monthly business review of the Federal Reserve Bank showed today. "The heavy and persistent rains over much of the district since the first of the year have retarded considerably the preparation of soil for spring planting," the report said, "and this work is considerably behind schedule in most areas. Practically all sections of the district have a deep subsoil season and plowing and planting operations can go forward rapidly with the advent of dry weather. An unfavorable factor, however, has been the lack of freezing temperatures to pulverize the soil and kill insects.

"Small grains have continued to make good progress under the stimulus of ample moisture and favorable temperatures. These grains have furnished an abundance of pastureage for livestock. The planting of corn and cotton has begun in the extreme southern part of Texas and should make rapid headway in the next two weeks." (Continued on page 2)

Found! Extinct

PLAINVIEW, March 3.—Unhappily reached a new depth in Plainview when a transient patient called a doctor and upon the conclusion of the professional visit told him that he had only 60 cents with which to pay him. He handed the physician two pieces of United States currency, making up a ten-cent piece of fractional currency of the series of 1874, bearing the signature of John Allison, registrar. The other was a piece of fractional currency having a face value of fifty cents. Both pieces were in fair state of preservation and measured approximately one and one-quarter by three and one-half inches.

Pecan School At Stephenville

STEPHENVILLE, March 3.—A four-day pecan school has been scheduled in conjunction with the meeting of the Brazos Valley Pecan Growers' Association at John Tarleton Agricultural College, April 25 to 28. The association convention has been set for April 25. Budding and grafting and other problems of pecan culture will be presented by theory, demonstration and practice. J. P. Rosebough, extension horticulturist with Texas Agricultural and Mechanical College, will be director of the school. Instructors will include O. S. Gray, professor of horticulture at North Texas Agricultural College; Rose B. Wolfe, Stephenville pecan nurseryman; A. J. Spangler, professor of horticulture at Baylor, and H. M. Brundrett, professor of horticulture at Tarleton.

Brothers Sought After Escaping as Deputies Arrive

Officers of the plains Tuesday sought Otto and W. H. Bybee, who resisted arrest by two deputies here Monday. The men escaped through a window after flashing pistols as the officers approached a house in southeastern Pampa. Otto was wanted in connection with theft of an automobile, and his brother who escaped from the county jail last September, was being held as a suspected deserter at that time. The brothers were driving a car with a license plate number when they hurriedly left Pampa.

SON TO DYSONS

A son was born Monday to Mr. and Mrs. Dyson at Wesley hospital. Mother and son are doing nicely.

ceding month and \$770,689.00 in January, 1931. At Abilene, Beaumont, Shreveport and Texarkana total debts to individual accounts were larger than in December. For the third consecutive month, all cities registered declines from a year ago. All reporting centers, with the exception of Fort Worth, participated in a general recession in savings deposits during January. On the last day of the month, there was a total of \$126,640,258 on deposit in savings departments of 76 banks in the Eleventh District, compared to \$131,088,524 at the close of December. Total deposits for January 31, 1931, there were 275,830 savings deposits on record at 70 of these banks at the end of the month, as against 277,526 on December 31 and 297,256 a year ago.

January exports of raw cotton showed a noticeable large seasonal increase in January. Exports have taken approximately 40 per cent heavy foreign shipments in December, but they were substantially above the low volume shipped in January, 1931, and compared favorably with the same month of earlier years. Receipts of cotton at Houston during January were fractionally smaller than a month earlier, while at Galveston an unseasonably increase was recorded. Receipts at both ports reflected considerable increases over January a year ago.

Aggregate foreign exports of cotton from the United States also evidenced a perceptible seasonal decline in January, but again they were materially above those in the same month of the previous season. They were larger than in any corresponding month since 1927. Total exports for the month amounted to 919,338 bales, as against 1,181,011 bales in December and 532,821 bales in January, 1931. Japan and China have taken approximately 40 per cent of this season's exports and Germany, 19 per cent. As compared to the previous season, takings by Germany, France and the United Kingdom were substantially smaller.

For the third consecutive month, cattle production output in the Eleventh District showed a substantial decrease during January. The month's production totaled 28,336,550 barrels, compared to 30,722,400 barrels in December and 23,349,000 barrels in January a year ago. Drilling operations showed a gain over December, as evidenced by the larger number of completions. There were 400 producing wells completed in January, as against 444 in the preceding month and 203 in the same month last year. The initial yield of new wells, of which 99 per cent was reported from East Texas, increased from 3,049,498 barrels in December to 3,566,767 barrels in January. All major producing areas in Texas registered curtailments in daily average output.

Valley Chicks Learn to Fly Early

Some baby chicks never learn to fly, even after they're hens and roosters, but chicks hatched in the Rio Grande Valley are air minded. Many thousands are shipped by air express to Mexico. Mexico is anxious to get them, because that country must import thousands of crates of eggs from the United States every year. The plane shipment lands them in good condition within a few hours at Monterrey or Mexico City. The photo shows several baby chick "Pullmans" leaving Brownsville, Texas, at 8 o'clock in the morning. They will be in Mexico City by 1 P. M.

Garner's Friends Believe He Has Chance For Presidency

AUSTIN, March 3.—Many of John N. Garner's friends believe he has a fine chance to be the next President of the United States. They feel certain that if he does not go to the top of the Democratic presidential ballot he will at least hold second place. "And what a vice-president he would make!" they exclaim. Truth is, many believe the Texan would lay even Charles G. Dawes in the shade when it came to keep the senators in their places. But Garner folk from all sections of the state who gathered at San Antonio on Washington's birthday anniversary to boost and boom the Ovalde statesman enthusiastically declared the rally that the country sought to tie to a man who would return them to "good old American ways" and named Garner as the only man who could do so. He predicted that if Democrats nominated Garner he would receive two million more votes than any other Democrat had ever been able to get. Adams took a mild rap at the erstwhile Democrats who quit the party in 1928 to oppose the election of former Governor Alfred E. Smith of New York. Commenting that he did not "see their faces" in the Garner meeting, he added he did not care if he never saw "their faces" in a Democratic gathering again. He said something about "enemies of the party within the party" and shouted he'd rather fight ten without than one within.

The San Antonio rally brought all the politicians to the Alamo shrine city and hundreds of Garner friends from the Rio Grande country, where he has been congressman so long many of the old timers could not recall days when the district was not "looked after" in Washington by Garner. Harry Hornsby, editor of the O'valde paper, made a speech at the big meeting and scores commented that the country editor "made the best address of all the speakers. Each side wanted representation in the Garner festivities and for a time there was threatened revolution but merely of local significance. Both sides were for Garner, but there was a strain of jealousy of one for the other. One group did not want it said the other faction did more for John than the other. John Henry Kirby of Houston turned out to be the biggest optimist in attendance. He smiled after he lost his pocketbook containing \$1,100.

Louisiana Plans New Type of Road

NEW ORLEANS—Creation in Louisiana, within 10 or 15 years, of a network of shaded and landscaped highways, surpassing in beauty the age-old roads of continental Europe, is the plan of the state highway commission. This year \$2,500,000 native young trees will be planted this year along the state's highways under a program of the department of conservation and the highway commission in cooperation with the American Legion, Boy Scouts, 4-H clubs and other bodies. V. H. Sonderger, state forester, deaimated that the 2,500,000 trees will be planted before the present season ends. WAMPLER

July. There is bitter political enmity. Each side wanted representation in the Garner festivities and for a time there was threatened revolution but merely of local significance. Both sides were for Garner, but there was a strain of jealousy of one for the other. One group did not want it said the other faction did more for John than the other. John Henry Kirby of Houston turned out to be the biggest optimist in attendance. He smiled after he lost his pocketbook containing \$1,100.

Northwest Sets Up Defenses For Summer "Hopper" Invasion

MINNEAPOLIS—Farmers of the northwest prairies already have started to erect defenses for an expected return engagement of a devastating grasshopper army next summer. Agriculturalists predict that millions of the strong-winged insects—even more than the hordes which made the 1931 visitation one of the most disastrous in history—are now in the egg stage and will make their appearance as spring turns into summer. "The number of eggs laid in the soil last summer and fall in certain districts is alarming," says Dr. A. C. Ruggles, Minnesota entomologist. "In some areas as many as 180 egg pods have been found per square foot. This means that from 100 to 9,000 young grasshoppers will be hatching out of the ground per square foot in May and June. Roadside ditch banks, edges of fields and pastures are the most thickly infested areas." Out of last year's devastation came intensified study by county agents, agricultural colleges and workaday farmers as to the habits and possible means of control of the hoppers. As a result the northwest will not be caught unprepared again this year. Tons and tons of poison bran mash, made attractive by including molasses in the mixture, will be offered to the hungry insects in lieu of less tasteful but more valuable grain. This fare, prescribed by entomologists and agricultural scientists, can be spread over the grasshoppers' path at a cost of about 30 cents an acre, and it probably will constitute man's chief implement of battle. On one hop only is reliance placed that the war may be successfully waged without great expense—that the weather may be wet in the spring, for long continued rains during the hatching season, in May and June, may greatly reduce the numbers of the invaders. Winter temperatures, no matter how severe, apparently have no effect on the egg pods, Dr. Ruggles said. Thus if nature is going to come to the farmers' rescue effectively it will have to be in the form of wet weather during May and June.

Cave Gives Up Bones Ice Age Inhabitant

Bones Uncovered Recently; Archaeological Party To Explore Areas.

ABILENE, March 3.—Recent announcements from Washington that Dr. Edgar B. Howard of the University of Pennsylvania had discovered evidences of ice-age man in a West Texas cave brought the information from officers of the Texas Archaeological and Paleontological society that all the data gathered by the Howard party will be published in the annual bulletin of the society this fall. Dr. Cyrus N. Ray of this city is president of the Texas society. Dr. Howard and four other University of Pennsylvania scientists spent a week in the Abilene territory in 1929, paying particular attention to a site on Clear Fork river, where Dr. Ray had discovered some curious human bones believed to be of extreme antiquity. The Howard party at that time also found what he said were human bones far below the surface of the earth. The party found musk ox bones around primitive hearths, indicating human beings had cooked and eaten these Arctic animals. At shallow depths they found camel and horse bones, apparently showing that these animals from the temperate zone had occupied the country after the departure of the ice which had brought the musk ox. Superimposed on these strata was a stratum of Indian basket weaver culture. The problem now, Dr. Ray said, is to connect the musk ox with co-existent humans which would prove a theory long held by a few visioners in southwestern archaeology—that mankind inhabited West Texas in the ice age. The stone spear point he was definitely connected with the musk ox bones. Dr. Ray said that Dr. Howard and his party are expected to return to this area soon.

Reporter Suffers Bad Scars On Kiangwan Tour

BY MORRIS J. HARRIS
SHANGHAI, March 3.—The once prosperous village of Kiangwan emerged from the grinding mill of war today with nothing left in it but a mass of brick, ashes and bodies. Following closely on the Japanese advance, I entered the village this morning and picked my way through the wreckage. The havoc was indescribable. Streets are now nothing but lanes of desolation through which Japanese stretcher bearers carry the lifeless cargoes. Not a single building in the village remains standing and the extreme southern end of the village is practically leveled. Many bodies were still visible today around the shell pits. The Japanese have established a base camp in the shell-iron buildings which extend on the eastern extremity of the town. I rode into the outskirts of the city in an automobile but soon found there was considerable danger of running over unexploded shells and hand grenades so I walked the rest of the way. As I followed a path through the town, I passed a group of Japanese soldiers who were escorting a captured Chinese soldier to the rear. As the prisoner was led by the Japanese camp fires, the soldiers lined to road to look on a relentless stare. I got the scare of my life when passing along a wall in the heart of the village. Although no human being was in sight, the stillness was suddenly broken by a terrific burst of gunfire close at hand. I dropped to the ground and hid behind a wall. A large battery of Japanese artillery was stationed there. I got another thrill when a group of Japanese soldiers, armed with bayonets, suddenly grabbed me from behind and started leading me to the rear. They were taking me into the quarters of a Japanese officer in one of the ruined buildings. He scrutinized by credentials very closely and then informed me that I was too far toward the front and that I must go back.

Armillos No More After War

BRADY, March 3.—With the armillos menace to birds nesting the ground greatly reduced, local sportsmen are assured that the ground hunting grounds in this section will be preserved. For the past 18 months local sportsmen, hunters, and sportsmen have been engaged in a long and hard-fought campaign against the hard-shelled destroyer of quail and other bird eggs. Although the armillos is still a long way from extermination, it has been greatly reduced in numbers, especially in ranches and farms where the owners are intent upon the protection of game. While armillos have wrought great deal of havoc with the quail crop in the past years, many quail still remain on the ranges of the county. The Brady chamber of commerce in co-operation with the local game warden and the game commission is carrying on a program of adequately stocking pastures with seed quail.

CHICAGO, March 31. (AP)—Wheat No. 2 red 53 1-4; No. 3 mixed 52 1/2.

Corn—No. 2 mixed 34 3-4; No. 3 mixed 33-34 1-4; No. 3 yellow, 33-34; No. 3 white, 33 1-4 to 3 1/2.

Oats—No. 2 white 23 3-4 to 24 3-4; No. 3 white, 23 to 23 3-4.

Wheat closed nervous, 3-8 to 1-2 cent under yesterday's finish, corn 3-8 to 5-8 under, oats 3-8 to 1-2 off and provisions unchanged to 5 cents decline.

COTTON IS EASIER

NEW ORLEANS, March 31. (AP)—The cotton market opened easier today with only moderate trading. Liverpool came in much lower than due and first trades here showed losses of 5 to 6 points.

The market soon rallied, however, owing to a firm opening of the stock market. May recovering to 6.32, July to 6.49 and October to 6.70, or 4 to 5 points above the opening, but still one point below yesterday's close. Later in the first hour prices eased off 2 to 3 points from the highs owing to a reaction in stocks and nervousness over the outlook of the tax bill in congress.

Near the end of the first hour the undertone was easier.

GRAINS ARE LOWER

CHICAGO, March 31. (AP)—Grain prices averaged lower early today, influenced by profit taking sales on the part of yesterday's buyers of wheat. Traders were keeping close watch of developments regarding securities. Opening at 1/2% decline to 1/2% advance, wheat later sagged all around. Corn started at a shade to 1/2 off and subsequently receded further.

MARKETS AT A GLANCE

NEW YORK: Stocks weak; Santa Fe at lowest in 29 years.

Bonds heavy; utilities liquid.

Curb heavy; rails sold.

Foreign exchanges firm; sterling higher.

Cotton lower; southern selling, easier stock market.

Sugar higher; trade buying.

Coffee higher; better spot demand.

CHICAGO: Wheat easy; expectation bearish private crop estimate, weakness Minneapolis.

Corn easy; increased carlot movement Chicago, fine weather, some west.

Cattle irregular.

Hogs higher.

Dr. Webb Named Parade Chairman Of Frontier Days

Dr. R. A. Webb was appointed chairman of the parade committee of the Pampa Frontier Days celebration May 26, 27, and 28, at a meeting of committee members and representatives from the junior chamber of commerce and Board of City Development, sponsors, last night. Dr. Webb will replace W. H. Lang who has had to resign from that committee.

Discussion of plans for the big event showed that much interest is already manifest in the celebration. Sheriff Lon L. Blanscet, general chairman, presided.

Several committee chairmen named their assistants. Plans for an extensive advertising campaign were discussed. Securing of names of old timers was gone into, and the public will be asked to send in names of men and women who once resided in the Panhandle.

Those attending were Sheriff Blanscet, Aubra Bowers, J. S. Wynne, Dr. R. A. Webb, George W. Briggs, C. H. Walker, Ivy Duncan, Alex Schneider and Harry E. Hoare.

Charges Buffaloes Were Run to Death

PONCA CITY, Okla., March 31. (AP)—Five of the famous 101 ranch buffaloes have perished because they wanted to be free.

They were killed, according to ranch receiver Fred Clarke, in a spectacular battle royal such as has not been seen since the shaggy beasts roamed wild in the old west.

He said the fight occurred in a ranch stockyard where the buffaloes were placed following a herd stampede and capture for shipment to the McClure and Teeters ranch, near Eldorado, Kan., their purchasers.

Colonel Zack Miller, former owner of the buffaloes, who is under bond on a charge of assault with a dangerous weapon for firing a shotgun into the floor behind a receiver's attorney last week in protest to an auction of ranch property, declared the buffaloes were run to death by "green hands" seeking to corral them.

"They didn't know how to handle them," he said. Buffaloes, the veteran plainsman and wild west show owner added, "can't stand being in a corral."

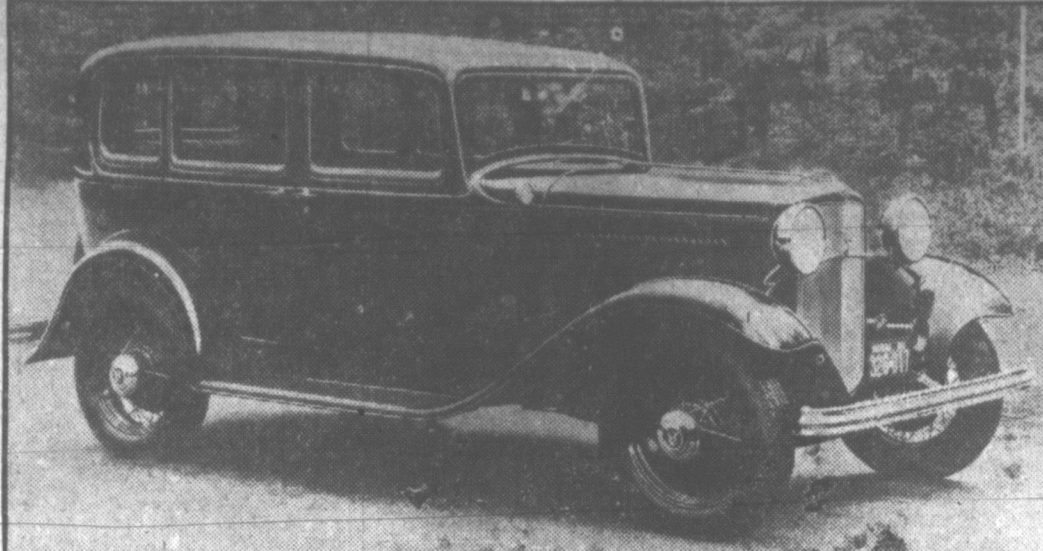

"It breaks their hearts," said Col. Miller.

Mother of Mrs. Donovan Succumbs

Mr. and Mrs. W. M. Donovan left this morning to attend funeral services for Mrs. Donovan's mother, Mrs. L. B. Kinchloe, in Elkhardt, Kan. The services were set for 3:30 o'clock this afternoon.

Mrs. Kinchloe died Monday evening in Elkhardt.

FORD'S NEW EIGHT SHOWN FIRST TIME

After months of conflicting rumors, Henry Ford came out with his latest creation, a "two-in-one" car, the chassis of which will accommodate either a "V-8" type or a four-cylinder engine. Built to sell in the low price field, the new car incorporates synchro-mesh gear shift, down draft carburetor, new springs, automatic spark control and entirely new body lines and construction. Above is one of the new four-door sedans.

Jury Panel For Week Dismissed

The jury venire for 31st district court was dismissed for the week by Judge W. R. Ewing this morning. Several pleas of guilty are scheduled to be presented to the court today and tomorrow.

Three suspended sentences and one acquittal were returned in verdicts yesterday and Wednesday. Lee Trimble, charged with possession of intoxicating liquor for the purpose of sale was given a one-year suspended sentence. Lee Trimble was given a 5-year suspended sentence on a similar charge. Arthur Miller, charged with transportation of intoxicating liquor for the purpose of sale, was given a one-year suspended sentence. Clarence Davis, negro, was acquitted on a similar charge.

Yesterday, the grand jury was investigating letting of gravel contracts by the commissioners court. The twelve men were in session again today.

Mother of Mrs. Donovan Succumbs

Mr. and Mrs. W. M. Donovan left this morning to attend funeral services for Mrs. Donovan's mother, Mrs. L. B. Kinchloe, in Elkhardt, Kan. The services were set for 3:30 o'clock this afternoon.

Mrs. Kinchloe died Monday evening in Elkhardt.

STOCKHOLDERS-

(Continued from page 1)

while directing as principal owner the affairs of the Panhandle HERALD, Borger HERALD, and Spearman REPORTER. In the allocation of stock value for value shares in either the Pampa Daily NEWS or the Warren group of papers will be given in exchange for Nunn-Warren stock. These stockholders who retain their Nunn-Warren Publishing company stock—a small number—will be fully protected by notes receivable, physical properties, and two weekly newspapers.

In making these changes, the stockholders had in mind the reduction of over-head expenses, and making possible of a more direct management of the properties. There will be no change in the personnel of the Pampa Daily NEWS staff, and this newspaper "family" will continue to devote its full attention to the interests of Pampa and community.

Those stockholders which authorized the changes herewith described included the following:

J. C. Rothwell, Borger; J. L. Hampton, Amarillo; Harry Hoare, Pampa; J. N. Greaves, Borger; T. W. Holson, Borger; C. A. Warren, Amarillo; L. O. Johnson, Pampa; C. B. Lawler, Amarillo; R. S. Brashers, Pampa; T. L. Wright, Borger; Philip R. Pond, Pampa; H. W. Morrow, Amarillo; E. E. Ramsey, Hereford; Eugene Johnson, Pampa; C. W. Parker, Pampa; R. E. Kessie, Hereford; R. A. Trimble, Pampa; Mrs. Willette Cole Williams, Pampa; Mrs. Olin E. Hinkle, Pampa; B. F.

LINDBERGH--

(Continued from Page 1)

Not Imposters

NORFOLK, Va., March 31. (AP)—Maintaining their secrecy concerning negotiations for the return of the kidnaped Lindbergh baby, the three intermediaries here are firm in their belief they have been in touch with the child's abductors, not with imposters.

Speaking for himself and his two associates, Rear Admiral Guy H. Burgess said last night "I wouldn't have gone into the case, and I wouldn't be in it now unless I was satisfied that we were dealing with the abductors of the Lindbergh baby."

Labor Group to Consider Baseball

The Gray county home labor organization has started the ball rolling to get a baseball club together. They are in the market for players who are asked to get in touch with D. N. Walker, manager.

Uniforms have been ordered and the organization is raising funds to get the team under way. The team will soon be ready for pre-season games.

It is hoped that enough teams will be organized to start a city or county league.

TRAIN IS DERAILED

HOLDREGE, Neb., March 31. (AP)—Several cars of the Burlington road's passenger train, the Aristocrat, left the rails a half mile west of Axtell, at 6 a. m. today, injuring at least 13 persons, several seriously. Trainmen said a broken rail was responsible for the accident.

Headache/AR

An AR-NATURE'S REMEDY Tablet—will promptly start the needed bowel action, clear waste and poison from your system, and bring welcome relief at once. The mild, all-vegetable laxative. Try it—5c.

The All-Vegetable Laxative

NEW Turne for the tummy! Quick relief for sour stomach, acid indigestion and heartburn. Turns are antacid. Only 10c.

Yellowstone National Park

FALLS AND CANYON OF YELLOWSTONE PARK

OLD FAITHFUL

CASTLE GEYSER

First Seen By White Man in 1807 — Made a National Park in 1871 — For Sheer Enchantment None of Our National Parks Can Equal the Yellowstone.

By KATHERINE LOUISE SMITH

If the average American were asked "Which is the most popular of our National Parks?" the reply would without doubt be "the Yellowstone."

It is beyond question the largest and most famous of Uncle Sam's reserves and has been known longer than any of his other sections of the American wilderness. Of all our National Parks it is the wildest and most universal in appeal. Its geyser field is larger than similar tracts in New Zealand and Iceland. In fact it contains more geysers than all the rest of the world put together and these are only a part of its attractions.

It seems strange that so wonderful a region lay for years unknown. But though the West had its explorers by some chance this locality was not seen or if seen unheard of. John Colter, of the Lewis and Clark expedition who was in the region in 1807 is supposed to be the first white man to see any part of what is now our Wonderland. James Bridger and Joseph Meek, fur trappers, were there in about 1820. Warren A. Ferris saw the geysers in 1844 and wrote the first published account of them. Captain De Lacy explored a part of the country in 1862. Folsom, Cook and Peterson were there in 1869; the Washburn-Doane party in 1870 and Doctor Hayden in 1871, the year Congress created the section a National Park.

A Wonderland

The Park proper is about sixty-two miles long from north to south, and fifty-four miles wide.

It is situated principally in Wyoming but laps over a little into Montana and Idaho. The whole is about 7000 feet above sea level. It can be compared to nothing else in the world because it is so weird. It has been well called Wonderland with its four thousand large and small hot springs, its hundred geysers, its mud volcanoes, exquisitely colored pools, waterfalls and rushing rivers, limpid lakes, forests and deep canyons which present riotous coloring.

Many Entrances

The official entrance with the arch that Roosevelt dedicated is on the north and while this will never wane in popularity today many persons think it desirable to enter by this Gardiner way and to leave by another side for in this way part of the route is not covered twice. The incomparable Gardner-Cody way starts at Gardiner, where the Gallatin range can be seen and goes through the Park to the Cody, Wyoming entrance. This can be reversed, of course, but in either case there is a thrilling ninety mile motor trip on the famous Cody road through the spectacular Shoshone Canyon and Buffalo Bill country. The Bozeman Gateway is a new entrance over the scenic highway which follows the West Gallatin River and there is the West Yellowstone Gateway in Montana and the Lander Gateway, Wyoming. Which ever way the sightseer enters there are about one hundred and fifty miles of automobile riding through the Park and every mile is full of enjoyment for each

wonder spot seems but a prelude to something more inspiring.

The Hot Springs

Let us enter this Wonderland by the northern entrance. If you are wise you will wear warm clothing, stout shoes and carry a field glass. Passing under the entrance arch we bowl along a fine road near overhanging crags, and are soon seeing our first wonders at Mammoth Hot Springs. Here we can walk around and look at the steaming, tinted terraces which are carved and embossed by hot water springs laden with carbonate of lime.

Algae that live in the cascades that pour down the terraced slopes paint the fretted basins in delicate tones of scarlet, orange and pink. Pulpit, Jupiter, Cleopatra, Orange Spring are some of the names of these terraces which glow with matchless coloring. Liberty Cap, a short way off, is the hardened cone of an extinct spring and it rises forty feet.

The beautiful terraces seem a dream but greater wonders are ahead. From Mammoth Hot Springs you will auto through Silver Gate, a fine piece of road building, will see the Hoodoes, drink the waters of Iron Spring,

see the little beavers working in the streams, get glimpses of Twin Lakes, bowl over a road of volcanic glass on Obsidian Cliff. It seems enough for one day but as you go on you slowly come to many steam vents, an uncanny landscape of hot pools, active geysers, hissing caverns that collectively are called Norris Basin. The Norris Basin astounds you and if it is your first glimpse of a geyser you will be awed and fascinated. The Basin, however, is but an introduction to more splendid geysers that you encounter further on.

The Wonderful Geysers

All the geysers draw their energy from invisible underground sources. Some spout with clock-like regularity, others at intervals more or less irregular. All fascinate the beholder. The principal group of geysers is in the West Central part of the Park and smaller groups exist to the south. On the road to Old Faithful, the most beloved, geyser, you will pass strange paint pots or pools of mud which look so much like paint that at one time one of the hotels bore decorations made with the mud. You will pass a lake that looks as if tongues of fire came from its depths. Turquoise Spring of charming blue coloring. Riverside geyser

that spouts from a river's bank and forms a rainbow over the stream, and you finally will arrive at what some think the grandest sight in the Park, Old Faithful and the Giant Geysers. Old Faithful delights by sending its graceful, white spray-shaped column skyward every sixty to eighty minutes. It astounds with its regularity, beauty and volume. Here in this Upper Geyser Basin are the Giant, Giantess, Grand, Great Fountain and other geysers, some gushing days apart, some playing every few minutes and all with peculiarities. Some have no cones, others have high cones. Excelsior, the greatest geyser on earth has ceased its activity, but has left a high cone, filled with boiling water.

The Grand Canyon

Many persons some of them globe trotters think these geysers are worth going across the continent to see but other wonders await. "What, you exclaim, can anything be more beautiful than Old Faithful? That alone satisfies

Falls and the many hued Canyon present!

Side Attractions

These are the principal points of interest, but they are by no means all. The advent of autos has reduced the time formerly required to move from one attraction to another and so trails lead to re-moter parts, to the petrified forest and the Jackson Lake country. If you have time you must go up Mt. Washburn, for from the top a mighty panorama of the Rockies is seen. This is really an extinct volcano and the fine road to the summit leads through gardens of wild flowers, for besides being an animal sanctuary, the Yellowstone is the joy of the botanist. Specimens of delicate flowers are found near fields of snow and the colors and variety change with the season. Fully eighty per cent of this Park is covered with forest growth. Vast, unspoiled in the fastnesses of the Rockies it has what other Parks offer and in addition the amazing geysers and matchless Canyon. The world has nothing like it.
